1 INTRODUCTION

2 MR. MCCULLOCH: Thank you. I'm Bob
3 McCulloch, the Prosecutor, for the record. I want
4 to talk to you a little bit about this. As you are
5 well aware of what we are here about and that is the
6 shooting death of Michael Brown.

7 I want to tell you how this is going to
8 proceed. Obviously, it is going to be different
9 from a lot of the other cases that you've heard,
10 that you've heard during your term.

11 First things first. Let me introduce, I
12 say a lot of this you already know. These two
13 ladies, for the record, Kathi Alizadeh, Shelia
14 Whirley, they will be the primary, if not the
15 exclusive attorneys working in the grand jury on
16 this case.

17 Obviously, I hope, obviously, there be a
18 lot of other people working on things outside of us
19 getting it ready for the presentation that will be
20 made by Kathi and/or Sheila.

21 Kathi was the prosecutor I have on call
22 for the month of August for all homicide calls. So
23 she received the call about this shooting within
24 minutes of the time the County Police were notified
25 by the Ferguson Police. So she has been working

1 with the police and lots of other things on this
2 since the very beginning.

3 My procedure is always that I have a
4 prosecutor on call solely for homicide cases and
5 they stay with that case from start to finish,
6 whatever that ultimately may be.

7 Sheila, as you know, has been assigned to
8 the grand jury for this term and so she will
9 continue with this grand jury on this case for as
10 long as it does take.

11 There are a few things I do want to go
12 over, first and foremost, to tell you that this is
13 the first, last and probably the only time I think
14 that you will see me in relation to this case.
15 Certainly in the grand jury. Everything that we do,
16 everything that you do, will be recorded with the
17 court reporter, who is under the same oath,
18 essentially, as all the witnesses.

19 As I said, Kathi and Sheila will be the
20 primary attorneys, the attorneys responsible for
21 presenting everything to the grand jury.

22 Really, I'm going to go over just a few
23 things to make sure that we have kind of the ground
24 rules, but the procedure covered.

25 As you know, your term ends on the 10th of

1 September. You also have dockets, there is no
2 docket next week, but on the 3rd and 10th, we have
3 dockets. Those dockets will be adjusted, but they
4 won't be canceled. But they will be adjusted to
5 accommodate whatever time that we need for
6 presentations on this case.

7 This case is still in the middle of an
8 investigation, there is a lot going on and certainly
9 you are well aware of what's going on in the
10 evenings and during the day and even out in front of
11 the courthouse here on occasions.

12 So there is a lot that is still going on
13 with the officers gathering the evidence, evidence
14 is being tested, being evaluated. I say evaluated,
15 it is being looked at, firearms evidence, the
16 firearms people are looking at that, DNA evidence,
17 the DNA are examining that.

18 In addition, the federal government, U.S.
19 Department of Justice, is doing a parallel, but an
20 independent investigation of the same thing.

21 So a lot of, actually everything pretty
22 much that the County Police or any other state or
23 local department is doing is being replicated by the
24 U.S. Attorney, by the FBI, or by the Justice
25 Department, they are all part of the Justice

1 Department.

2 As that is going back and forth and there
3 is some witnesses they will be talking to that the
4 County Police may not necessarily be talking to.
5 Some that the County had talked to that they haven't
6 or won't talk to. And so, but all of that will be
7 traded. We're giving them all the statements we
8 have, they are passing statements and any other
9 information that they have on this matter back to
10 us.

11 So it is still independent of one another,
12 but sharing the information because what is
13 significant to this case is also significant to
14 theirs. They are looking at different
15 possibilities.

16 The federal government and the state
17 government are not the same. We have these criminal
18 charges, they look at potential civil rights
19 violations, but for the same conduct that we are
20 looking at for any potential criminal violations.

21 So that may add a little bit, a little bit
22 of a delay. I really don't want to say a delay, but
23 kind of giving things to you out of order here
24 somewhat. Like a trial, lots of information is
25 going to come to you and it is going to come out of

1 chronological order. We will kind of go through
2 that just as a schedule. The schedule is just that.

3 There will be time if we have a particular
4 area, just for example, the DNA evidence. If that
5 is available or when that is available and all of it
6 is available, not just part of it, we will have the
7 time that is in the next two weeks to present that
8 to you all at once. If it is a number of witness
9 statements, we will present all of those to you. We
10 will have it all organized and bring it in.

11 By the time everything is finished, you
12 will have heard everything, you will have every
13 statement, there will be as many witnesses to come
14 in and testify.

15 If they made statements, you will not only
16 get the statements they made, whether they are to
17 police, FBI, or television or on the internet or
18 anything else. If we've got those statements, you
19 will have those statements. You will also have the
20 witness who will come in and testify as to that.

21 Some certainly might be they are just
22 statements that are floating around on the internet
23 and nobody knows who is making that statement, but
24 everybody is doing that and the FBI is doing what
25 they can to locate any of those or the source of

1 them.

2 So the schedule though after
3 September 10th, your term is extended, and the only
4 matter that you will hear anything on will be this
5 Michael Brown case, the Michael Brown shooting. All
6 you get is that so you won't have the docket. There
7 will be another grand jury that starts the week
8 after that who will be doing what you have been
9 doing for the past four months.

10 By the way, greatly appreciate your
11 service on that. I don't want to lose that in the
12 message here. You have done a great job, a great
13 service for the people of this county.

14 But the schedule will then, it is as
15 flexible as flexible can be. It is the only matter
16 that you have and so there is no requirement that
17 you meet on Wednesdays. So whenever all 12 people
18 are available, because all the evidence will be
19 presented to all 12, so we get all 12 of you
20 together, we will work with everybody's schedule.

21 Obviously, we want to be as expeditious as
22 possible, but not rush through it. If that means we
23 are meeting four hours in the morning and whatever
24 works is what we are going to do. Saturdays,
25 evenings, however it works for everybody's schedule,

1 and as long as you get it. If all 12 of you have an
2 entire day, we will have an entire day.

3 If you have four hours sometime, we will
4 work all of that out, but we will work, obviously,
5 around your schedules and you know how that's been.
6 It is a little easier, I suppose, when you could
7 tell family and employers and the like every
8 Wednesday you had to be gone. So this will be a
9 little different, so we will have to coordinate all
10 of that.

11 Also, not necessarily a requirement, we do
12 want to meet here, but there is no requirement of
13 that. If it turns out to be a Wednesday, then we'll
14 figure out something on that.

15 Everything will be recorded. Starting
16 with the oath by the court reporter and everything
17 that I'm saying now and everything that anybody
18 says, whether it is a witness, whether it is one of
19 the attorneys, or one of the jurors, will be
20 recorded as we are going along.

21 The value in the court reporter is that
22 we're getting at least a rough transcript as we are
23 going along. So that will, we won't have to wait
24 six months for all of these tapes to be typed up if
25 we did it in some other fashion.

1 The other is that the questions, you know,
2 unlike a trial jury, you know, you can and have been
3 discussing what you've heard on perhaps between
4 witnesses or during breaks and the like. Remind you
5 that's part of your deliberation and so none of that
6 happens while there is anybody else in the room and
7 that includes, of course, the attorney and the court
8 reporter.

9 At the end of every witness, the reporter
10 will make an announcement that essentially he is
11 going to finalize the disc. For every witness who
12 testifies and every session of their testimony,
13 there will be a separate disc made so that when he
14 finalizes that, what it does is it finalizes the
15 disc.

16 After that, it can't be altered, nothing
17 can be added, nothing can be deleted. And so if
18 that witness comes back at some other time, there
19 will be a separate disc for that and we will do the
20 same. We will do that with every person who comes
21 in and testifies.

22 You will have presented to you every bit
23 of evidence from the photos, from the scene of the
24 shooting, diagrams of that, the physical evidence
25 that was seized at the time, at the location, the

1 DNA evidence, anything and everything that pertains
2 to this case will be presented to the grand jury.
3 It will all be available to you for your review as
4 it is coming in.

5 Sheila, primarily, will be at least
6 getting things started in terms of asking the
7 witness questions, much as you've seen her for the
8 whole summer doing that.

9 Jurors, and you're experienced enough now
10 that you can ask whatever questions you want to ask.
11 Any item, anything you want to ask any witness,
12 absolutely ask that information.

13 If something occurs to you sometime after
14 that witness is gone, we will get the witness back
15 at some point and ask those questions again. If
16 somebody else says something, you need to clarify
17 it, we will get witnesses back to do whatever it is
18 that you need done.

19 The one thing we can't do in terms of
20 questions, let me back up a little bit on that while
21 we are talking about the records on that.

22 Just remember that it is going to take a
23 few minutes to finalize this disc once that witness
24 is finished testifying. So if you have discussion,
25 you want to talk or ask each other questions,

1 anything at all about that, make sure you wait long
2 enough that that is finalized and they understand
3 is out of here and the attorneys out of here.
4 They will stick around long enough to remind you of
5 that, wait until everybody is gone before you talk
6 about it because that's, that's not something that
7 anybody but the jurors hear.

8 If you have a question about procedure,
9 the attorneys will answer that. Who is coming in
10 next, you know, we are taking a break now or can we
11 take a break now, anything along the procedure the
12 attorneys will certainly answer that.

13 If you have a question about what a
14 witness said or what is going on or did this witness
15 say this, they're not going to answer those
16 questions. If anything, we will get the witness
17 back to answer any more questions that you asked,
18 but we are not going to answer those questions.

19 Just a couple other things. I assume the
20 judge talked to you this morning, of course, about
21 your oath, of course, both very similar to what
22 just took, whatever the witness will take,
23 that these are confidential proceedings, that
24 nothing leaves this room unless and until ordered by
25 the court or some other legal method. I will talk

1 about those in just a second.

2 The other is the confidentiality and the
3 oath and the anonymity. You are anonymous. You are
4 protected by law from all, your names are not
5 public, your addresses, no information about you is
6 public.

7 There may be some, the demographics of it,
8 I think that is information that can be passed out
9 in terms of, you know, race, gender.

10 MS. ALIZADEH: Age.

11 MR. MCCULLOCH: I won't say the age. The
12 general location that we have. Say, I don't know,
13 three grand jurors who live in municipalities and 12
14 who live in unincorporated or nine live in
15 unincorporated. We have X number who are outside of
16 the 270 loop, X number inside. So many above 70,
17 below 70, all of that demographic information, but
18 nothing that would, anybody would ever be able to
19 identify any individual from just that no matter how
20 they try to put it together.

21 And that is, I just want to share, that's
22 protected by law that's been litigated and those
23 names, the information does not get released.

24 So the other is with the parking. We are
25 trying to arrange the parking very similar to what

1 we had today so that you are inside. Once we're
2 past September 10th, you are meeting on a different
3 schedule, on your schedule, that makes things a lot
4 easier because, you know, everybody knows that the
5 grand jury meets on Wednesday.

6 So if you are meeting some other day, you
7 know, there may be media around, but the good thing
8 about construction going on next door is we can kind
9 of work around the visibility of it, particularly
10 with the parking that we had. We will have all of
11 that arranged.

12 And the media, you know, the media kind of
13 comes and goes around here. I did a number of
14 interviews with local people today for a couple
15 reasons, one is to get it all out of the way. So
16 we're finished with, for the most part, with any
17 kind of interviews with that.

18 I can't control whether anybody shows up
19 outside and just hangs outside the doors and all of
20 that. If there is a protest scheduled or the media
21 is going to be here. We will work with that again.
22 We will know who is there and what's there and all
23 of that. If need be, get you in and get you out of
24 the building without worrying about any of that.

25 The only other thing I'd say when you are

1 coming in, don't wear the grand jury badge and that
2 will, won't tip anybody off that you are on the
3 grand jury, we will have all of that stuff.

4 Am I missing anything?

5 MS. WHIRLEY: Note taking.

6 MR. MCCULLOCH: Oh, you are right. Note
7 taking. You take, as you know, all the notes that
8 you want. Write down anything and everything. If a
9 thought occurs to you, you want to talk to the
10 witness, take all the notes that you want. The
11 notes, of course, can't leave here. They are your
12 notes and your notes alone.

13 Fellow grand jurors won't see your notes
14 and you won't see their notes. At the end of the
15 day or end of the session, the notes will be
16 collected and they will be secured. Any evidence
17 that is presented to you, physical evidence, of
18 course, also will be collected and it will be
19 secured. We have highly secure evidence lockers
20 within the complex here. All of that will be that.

21 At the end of that, you can use your notes
22 for any deliberation when everything is finished.
23 At the end, just so you know, there are going to be
24 massive amounts of information and physical items
25 that are coming here in the next month. You're not

1 going to remember everything. The witness today
2 testifies, you're not going to remember that a month
3 from now, but all of that and the transcripts will
4 all be available and you'll have as long as you
5 need, as long as you want to go through everything
6 again before you start your deliberations. While
7 you are doing deliberations, all of that is
8 available.

9 Unlike a trial jury where you have to send
10 a note out to the judge and the judge would decide
11 if you get something or you don't get something,
12 that rule doesn't apply here. Everything will be
13 here in the room with you and you will have access
14 to all of it. You, of course, have access to your
15 notes throughout all of that.

16 At the end of all of that, you won't have
17 access to those notes, is that it?

18 MS. ALIZADEH: I want to say that what Bob
19 said, everything is going to be recorded in this
20 room while we're presenting this case. That, of
21 course, doesn't include your deliberations, those
22 will not be recorded. And when we have juries who
23 are hearing evidence in trial, typically the jury,
24 not typically, always the jury is told prior to
25 trial to keep an open mind throughout the entire

1 process, don't form any opinions until you've heard
2 all of the evidence.

3 There's no requirement that you all can't
4 talk about things amongst yourselves. So if there
5 is something that you all talk about and decide, we
6 would like to hear from this person or you have a
7 question about us bringing another witness in, you
8 all can discuss that amongst yourselves so long as
9 you are not deliberating and starting to form
10 opinions until you have heard everything, okay.

11 So there will be times for you all when
12 there is no recording going on, where you all can
13 discuss your schedule, you know, when we might meet
14 again, and if there's any questions that you have
15 that you want us to try to provide the answer for.

16 Again, as Bob said, Sheila and I can't
17 answer other than just procedural things or
18 questions of law. But if there is some question
19 that you have, if we can find somebody who can
20 answer that question for you, we will do so, we'll
21 try to bring somebody in to answer those questions,
22 okay?

23 MR. MCCULLOCH: I'm glad she said it. You
24 do need, and I know you will keep an open mind on
25 everything. You haven't heard a single thing yet

1 other than what has been in the media, believe me
2 that's not evidence. Don't form any opinion on
3 anything that you've heard, good, bad or ugly in the
4 media.

5 Everything that's been collected, every
6 statement that has ever been made, it will all be
7 here for you. You need to keep that open mind to
8 give everybody, including the entire community, a
9 full and as open as it can be, but certainly as
10 thorough and as expedient of all the evidence that
11 you can.

12 I know people keep talking about the
13 transparency, at the end of all of this, depending
14 on your determination, as other cases, if there are
15 charges that you find should be lodged and are
16 lodged, then all of that information will come out
17 pursuant to the course of the case. There are rules
18 that apply then as to how things are handled and all
19 of that. It doesn't come out right away because you
20 can't prejudice a potential jury panel. So all of
21 that evidence, just like here, is presented to a
22 trial jury in the courtroom and not put out in the
23 media. So everybody can see it and then make their
24 mind up before they ever come into a courtroom.

25 If your determination is that there are no

1 charges to be filed, then everything will be
2 released immediately or as close to immediately as
3 we can get, and that's everything. Your
4 deliberations aren't, as I said, your deliberations
5 are not recorded and never will be recorded, notes
6 won't be released, but every bit of evidence that
7 you have, the testimony of the witnesses who come
8 in, the statements of the witnesses, the physical
9 evidence, the photographs, everything that you have
10 seen and heard will be released to the public. That
11 is as transparent as we can get short of putting a
12 pool TV camera in here and that's not going to
13 happen.

14 It is, obviously, an awesome burden, but
15 it is going to be an awful lot of work and we will
16 make it as orderly and organized as we can to you.

17 As I said, if there is anything at all
18 that we can do to do that, working with your
19 schedules, work longer, we have no set hours. So
20 whatever it takes, we will get that to you. We
21 don't want to rush through anything, but we also
22 don't want to drag it out.

23 I'm anticipating, in all honesty, without
24 basing it on a whole lot, that we hope to have this
25 completed by the middle of October. It doesn't mean

1 every day that you will be here from September 10th
2 until then, but the more days we can have some
3 session, the more expedient this will get out there
4 and that's important to everybody, of course.

5 The most important thing that you get all
6 the information and all of the evidence and make
7 your determination on that.

8 Any questions now, procedure that I can
9 answer?

10 Alternate jurors, do we
11 have them?

12 MR. MCCULLOCH: We are in the hope that
13 all 12 of you are perfect, healthy specimens, who
14 have no plans to leave town or go on vacation for
15 two months. All 12 will hear everything and the
16 only way we have alternates is to have them in here
17 at the time and we do that at a trial, but here it
18 is just, it doesn't work in the grand jury. So we
19 have all 12 when we can get all 12 of you together.

20 If we can only get 11 together, we are
21 going to have to find a different time. I hope
22 everybody can be as flexible as possible, and again,
23 we will be as flexible as possible. We have no set
24 hours. Every day is Monday, weekends, whatever
25 works for you is when we are going to be here.

1 Morning, noon or night, or any day.

2 Thank you. As I said, this is probably
3 the last time you will see me. I can't imagine what
4 it would be unless there is something that came up
5 that you wanted to see me, so thanks.

6 MS. ALIZADEH: As Bob said, Sheila and I
7 are both going to be presenting this case to you and
8 there may be times where I know Sheila has a case
9 set for trial next week and it might just be, of
10 course, we don't have next week. There might be
11 days where you are only go to see me, only go to see
12 Sheila, we are trying to split up the work as much
13 as we can just to make it easier for the both of us,
14 but there is no, don't read into anything about why
15 is Sheila only having this witness or Kathi is
16 presenting this witness because we are just trying
17 to split it up.

18 And so on days when Sheila might be
19 presenting somebody, if I can be, I will also be
20 here in the room, but I won't be commenting, I won't
21 be asking any questions, it will be Sheila
22 presenting, and the same thing on a day where I
23 might be presenting a witness, Sheila may be here,
24 but it is just for our benefit. We both want to see
25 as much and as hear as much as we can, but there

1 might be times when we are not available.

2 MR. MCCULLOCH: Good thing about being the
3 boss is I have a lot of flexibility in adjusting
4 their schedules, so that will happen, but we will
5 keep that to a minimum because we want to, in
6 addition to all 12 of you hearing here, and the two
7 of them here as much as possible. You will hear
8 everything, they will hopefully hear everything.

9 MS. WHIRLEY: I am Sheila Whirley.
10 Present in the room is Kathi Alizadeh and the
11 witness, is with the Medical
12 Examiner's Office. He is the investigator, he is
13 going to take the oath in a minute and also present
14 are Jurors 1 through 12.

15 would you approach to take the
16 oath?

17 THE WITNESS: Yes, ma'am.

18 MS. WHIRLEY: And, of course, the court
19 reporter, is here.

20

21

22

23

24

25

1
2 of lawful age, having been first duly sworn to
3 testify the truth, the whole truth, and
4 nothing but the truth in the case aforesaid,
5 deposes and says in reply to oral
6 interrogatories, propounded as follows, to-wit:

7 EXAMINATION

8 MS. WHIRLEY: This proceeding involves the
9 shooting of Michael Brown.
10 BY MS. WHIRLEY:

11 Q All right. you've stated
12 your name. What is your occupation?

13 A Medical legal investigator.

14 Q And where are you employed?

15 A The St. Louis County Medical Examiner's
16 Office.

17 Q How long?

18 A Approximately 25 years.

19 Q Now, what does a medical investigator do?

20 A We investigate the deaths that occur in
21 St. Louis County.

22 Q You investigate deaths that occur in St.
23 Louis County?

24 A Correct.

25 Q Do you require any special training for

1 your job? Let me rephrase that, have you had any
2 training?

3 **A** Yes, I have on-the-job training and
4 courses that we take.

5 **Q** What kind of courses do you take?

6 **A** There is a medical legal death
7 investigating courses, approximately last all week
8 and --

9 **Q** So about 40 hours?

10 **A** 40 hours.

11 **Q** What kind of things are you taught?

12 **A** Just how to investigate, what to look for,
13 what changes in the body after death.

14 **Q** You have been doing this for 25 years?

15 **A** Yes, ma'am.

16 **Q** Okay. What kind of schedule do you work
17 now?

18 **A** I work 32 hours a week.

19 **Q** And do you work throughout the week or
20 weekends?

21 **A** Just weekends.

22 **Q** Only weekends?

23 **A** Yes, ma'am.

24 **Q** So how many hours, you said 32, so 16 on
25 Saturday?

1 **A** 16 on Saturday and 16 on Sunday.

2 **Q** And you were called this particular
3 Saturday?

4 **A** Correct.

5 **Q** What was the date of the occurrence?

6 **A** I'm not sure.

7 **Q** I'm going to give you what's marked for
8 purposes of identification State's Exhibit Number 1.
9 And you can refer to this through this proceeding if
10 you need to tell me what the date was?

11 **A** It was the 9th.

12 **Q** Okay. The 9th of?

13 **A** August.

14 **Q** Okay. And I want to talk a little bit
15 more about your background before we get into the
16 crux of this.

17 **A** Yes, ma'am.

18 **Q** What is the purpose of a medical
19 investigator at a Medical Examiner's Office, why
20 have you?

21 **A** We are the eyes and ears of our
22 pathologist. The person who is conducting the
23 autopsy. They don't go to the scenes, we go to the
24 scenes for them.

25 **Q** Okay.

1 **A** And bring back information for them so
2 they can properly do the autopsy.

3 **Q** I see. When you go to the scene, do you
4 have any special tools that you take with you?

5 **A** We have cameras and things to establish
6 the time of death, and other equipment that we
7 collect evidence.

8 **Q** Okay. So tell us what a medical examiner
9 does once, well, first of all, how do you get the
10 call?

11 **A** Usually a police officer or hospital or
12 paramedic will call us and let us know there is a
13 deceased person.

14 **Q** Do you have a certain timeframe that you
15 must follow? I know the person is always deceased
16 by the time you are called, correct?

17 **A** Correct.

18 **Q** Are there some time parameters when you
19 need to arrive to the scene?

20 **A** No, ma'am.

21 **Q** Okay. So you go by yourself?

22 **A** Yes, ma'am.

23 **Q** Okay. Do you call anyone to come?

24 **A** We do have a delivery service that we
25 call.

1 **Q** What is a delivery service?

2 **A** Delivery service is the person who picks
3 up the body.

4 **Q** Do you call the delivery service when you
5 get the call?

6 **A** Correct.

7 **Q** Once you get there?

8 **A** No, once I get the call, I call them to
9 let them know what is going on, where it is at.

10 **Q** They meet you there?

11 **A** Right.

12 **Q** So at the scene once you arrive, what do
13 you do? Like take us through an investigation.

14 **A** I try to meet the reporting officer, speak
15 to him, find out what happened. They go and look at
16 the body and see if everything is consistent with
17 what he told me or whatever witnesses told him, and
18 then I come back and I would talk to the family or
19 one of the witnesses if they were there.

20 **Q** So when you talk to people, it is not
21 necessarily the people who directly saw the
22 incident?

23 **A** Correct.

24 **Q** You are getting kind of hearsay
25 information?

1 **A** Yes, ma'am.

2 **Q** And you don't necessarily see what is
3 occurring yourself any of these times?

4 **A** Correct.

5 **Q** By the time you get there, it has
6 happened?

7 **A** After the fact, correct.

8 **Q** Why do you talk to the officers?

9 **A** Because the first responding officer makes
10 contact with the person who called the police to
11 find out what's going on.

12 **Q** Why do you need to know what's going on.
13 I mean, there is a deceased body, why do you need to
14 know more?

15 **A** To see if the story is consistent with his
16 death, as opposed to suicide or a homicide, just
17 trying to establish a timeline.

18 **Q** But you are not the one who makes the call
19 as to what the cause of death is?

20 **A** Correct.

21 **Q** Or the manner of death?

22 **A** Correct.

23 **Q** Or whether or not it is a homicide or a
24 suicide, you don't make that call?

25 **A** Correct.

1 **Q** You just gather it for the pathologist?

2 **A** Yes, ma'am.

3 **Q** All right. Do you write a report?

4 **A** Yes, ma'am.

5 **Q** Okay. How long generally does your
6 investigation take?

7 **A** It can take anywhere from several minutes
8 to an hour or two.

9 **Q** Okay. And what's included in your report?

10 **A** My initial contact with the reporting
11 officer, the reporting person, the location, what I
12 saw when I got there, the condition of the body, and
13 a paragraph or two on witness statements.

14 **Q** Who is your supervisor, who do you report
15 to?

16 **A** Chief Investigator

17 **Q** Who would approve your report, is that the
18 same person?

19 **A** He would.

20 **Q** All right. Do you generally take
21 photographs?

22 **A** Yes.

23 **Q** Okay. And let's talk specifically about
24 the case involving the shooting of Michael Brown.

25 Did you take photographs?

1 **A** No, ma'am.

2 **Q** Why not?

3 **A** My battery in my camera died.

4 **Q** Were photographs being taken?

5 **A** Yes, ma'am.

6 **Q** By whom?

7 **A** St. Louis County Police Department.

8 **Q** Like their identification unit?

9 **A** Their identification unit, correct.

10 **Q** You saw them taking photographs?

11 **A** Yes, ma'am.

12 **Q** Do you have access to those photographs?

13 **A** If we need them, we can get them.

14 **Q** Is that something you would want,
15 photographs?

16 **A** Sometimes the pathologist asks for them.

17 **Q** Okay. Do you know if they were asked for
18 in this case?

19 **A** I don't know.

20 **Q** Okay. I thought I heard you say, or if
21 you didn't, let me ask the question, did you take
22 measurements of anything?

23 **A** Yes, we can if we need to, yes.

24 **Q** Did you in this case?

25 **A** No, ma'am.

1 **Q** Because you didn't need to?

2 **A** Correct.

3 **Q** Why not?

4 **A** I got there, it was self-explanatory what
5 happened. Somebody shot somebody. There was no
6 question as to any distances or anything of that
7 nature at the time I was there.

8 **Q** Okay. And if it turns out there was some
9 concern about the distances, that's not something
10 that you would be qualified to tell us about?

11 **A** If I took the measurements I could tell
12 you about them.

13 **Q** What kind of distances when you say
14 distance?

15 **A** Like for the Brown case?

16 **Q** Uh-huh.

17 **A** Maybe like if he was close enough to leave
18 stippling on his clothing, things of that nature.

19 **Q** So you didn't take any measurements
20 though?

21 **A** Correct, I didn't see no stippling, no
22 indication how close he actually was going to be.

23 **Q** Did you look for stippling?

24 **A** Yes, ma'am.

25 **Q** Where did you look for it at?

1 **A** Around the wounds.

2 **Q** Wounds?

3 **A** Yes.

4 **Q** When you say stippling, what is stippling?

5 **A** It is gunpowder, burning of the gun
6 powder.

7 **Q** You say you looked for it around his
8 wounds?

9 **A** Correct.

10 **Q** And what did you see?

11 **A** I didn't see any.

12 **Q** Okay. So this occurred on, tell us the
13 date again?

14 **A** Uh --

15 **Q** I'm sorry?

16 **A** The 9th.

17 **Q** The 9th of?

18 **A** August.

19 **Q** Of August?

20 **A** August 9th.

21 **Q** What time were you told this occurred?

22 **A** Our office got the initial call at 1:30.

23 **Q** Did you get information that it occurred
24 earlier than 1:30?

25 **A** Yes, ma'am.

1 **Q** What time is that?

2 **A** Around noon time.

3 **Q** Okay. So it occurred around noon time.

4 You get the call around 1:30?

5 **A** Correct.

6 **Q** And the call comes from St. Louis County?

7 **A** Yes, ma'am.

8 **Q** Do you know who called?

9 **A** Sergeant.

10 **Q** Or whom?

11 **A**

12 **Q** Did you talk to that person?

13 **A** No, I didn't.

14 **Q** So someone gave you the assignment?

15 **A** Correct. No wait, I'm sorry, I did talk
16 to him.

17 **Q** You did?

18 **A** Yeah, the initial call came into our on
19 duty investigator, he gave me the information and I
20 called the sergeant.

21 **Q** What did you call him for?

22 **A** To set up a time when they need me, when
23 to actually be out there.

24 **Q** Okay.

25 **A** Go ahead.

1 **Q** Why did you need to set up a time?

2 **A** Because other officers are responding to
3 the scene, St. Louis County detectives, their ID
4 unit, that may take anywhere from 30 minutes to
5 several hours before I could actually get in and
6 actually see the body.

7 **Q** So you don't want to be there when they
8 are doing their thing?

9 **A** Correct.

10 **Q** Okay. And so you were called at 1:30.
11 And what time did you arrive?

12 **A** Approximately 1430, 2:30.

13 **Q** That's 2:30. In about an hour. Is there
14 any reason why it took you an hour to arrive?

15 **A** No, ma'am, just waited. I called them
16 about 2:15, they said they were showing up, the ID
17 people were there showing up. So I went ahead and
18 responded to the scene.

19 **Q** You were giving them time to do what they
20 needed to do?

21 **A** Correct.

22 **Q** So describe the scene to us when you
23 arrived. I mean, like were there a lot of people
24 out?

25 **A** It was an apartment complex where crime

1 scene tape up, and a crowd has gathered, quite a few
2 people there. He was deceased, was laying in the
3 middle of the street. There was already some orange
4 barriers around him to keep the crowd from seeing
5 him.

6 Q Was the crowd saying anything?

7 A They were just, I don't know how to
8 explain it. I guess voicing their concerns at what
9 is going on, why is this taking so long, things of
10 that nature.

11 Q Why is it taking so long?

12 A Correct.

13 Q And you could discern what they were
14 saying?

15 A I hear them, but I don't listen.

16 Q But you did know they were asking why it's
17 taking so long?

18 A Yes.

19 Q Do you know what that meant?

20 A I assume the body was laying out there too
21 long, they didn't like the body being out there.

22 Q When you arrived, tell us what it looked
23 like, the body, was it covered, uncovered?

24 A He was covered with several white sheets
25 laying in the prone position.

1 **Q** Prone means?

2 **A** Face down. There is a double yellow line,
3 I guess it is east and west traffic, he was right in
4 the middle of the roadway.

5 **Q** Okay. What did you do?

6 **A** When I was able to go to the body?

7 **Q** Yes.

8 **A** I went over there with the police
9 officers, the ID officers, we removed the sheets,
10 took photographs of his back, lifted up the shirt,
11 took more photographs. Then we rolled him over, I
12 placed white clean sheets down on the ground and
13 rolled him over onto those. Took more photographs,
14 documented the injuries, looked through his pockets,
15 looked through his pants for any weapons or anything
16 of that nature.

17 And then got some clean paper bags,
18 placed them on his hands and then we put him back on
19 the sheet and into a white bag and sealed it up.

20 **Q** How long were you on the scene?

21 **A** Probably a couple hours.

22 **Q** And when you left, the body left, the
23 deceased left; is that right?

24 **A** Correct.

25 **Q** You --

1 **A** I was actually with the body for about 15,
2 20 minutes by the time I was waiting to get to the
3 body.

4 **Q** You were there, you think, a total of a
5 couple hours?

6 **A** Correct.

7 **Q** Did you talk to any of the bystanders or
8 people that were not police officers?

9 **A** Just his grandmother.

10 **Q** Tell us about that.

11 **A** I was walking back to my vehicle to make
12 some phone calls and a lady came up and she asked me
13 if I was a medical examiner, I told her I was. She
14 asked me why the body was still on the street, why
15 is it taking so long.

16 I explained to her, you know, it
17 takes a thorough investigation and crowd control,
18 just getting everybody into the scene was taking
19 time to do that and once everybody is here, we can
20 get our information that we need and the evidence
21 collected and then we can be out of here. Once
22 everything starts, it doesn't take long.

23 **Q** Okay.

24 **A** She seemed to be fine with that, and she
25 said she is going to walk around the crowd and try

1 to get people to move back.

2 Q She did?

3 A Yes, ma'am.

4 Q She was very pleasant --

5 A Yes, ma'am.

6 Q -- with you? Did you notice his mother
7 there?

8 A The officer pointed his mother out in the
9 crowd.

10 Q Did you have any conversation with her?

11 A No, ma'am.

12 Q Did she do anything or say anything that
13 you overheard?

14 A Not really, just crying hysterically and
15 oh, my God, and stuff like that.

16 Q Was there anything about his tattoo?

17 A There was an officer stated that she said
18 he had a tattoo on his arm, Big Mike, that is one of
19 the things we need to do is get him identified.

20 I actually didn't know if she
21 actually walked over there and actually seen him, or
22 she just knows that's him and explained the tattoo.
23 When we rolled him over, we saw the tattoo and knew
24 it was him.

25 Q You overheard, or an officer told you that

1 that's what she said?

2 **A** Correct.

3 **Q** That he had a tattoo Big Mike?

4 **A** Correct.

5 **Q** Then you verified the tattoo?

6 **A** Correct. We can use tattoos for
7 identification in our office.

8 **Q** Now, when you said you rolled over the
9 body and you checked the body for injuries and
10 photos were taken, you didn't take those photos, you
11 know photos were taken?

12 **A** Yes, ma'am.

13 **Q** Can you describe the injuries as you saw
14 them?

15 **A** I saw one in the top of the head, several
16 on his right eye, a bunch of blood, dried up blood.
17 I guess road material, there was one here, there was
18 an injury here, an injury on his side right here,
19 two in the arm and one in here and a wound on his
20 hand.

21 **Q** Did you see any wounds to his back?

22 **A** No, ma'am.

23 **Q** When you say he was laying prone, which is
24 face down, where was his hands and that kind of
25 thing?

1 **A** He was prone and his left hand was under
2 him and his right arm was slightly out to his side.

3 **Q** Could you stand up for me?

4 **A** If I stood up and I was laying down it
5 would be like this. (indicating)

6 **Q** So his right hand was where?

7 **A** On the ground, slightly away from his
8 back.

9 **Q** Okay. And his left hand was where?

10 **A** More like by his waistband, in front of
11 him.

12 **Q** On his side as he is laying, not outside
13 his body?

14 **A** No, like he fell on it, right.

15 **Q** Okay. Did he have any weapons?

16 **A** No, ma'am.

17 **Q** You checked him for weapons; is that
18 right?

19 **A** Correct.

20 **Q** Did you happen to speak to the officer who
21 was charged, who is not charged, but who is alleged
22 who did the shooting?

23 **A** No, ma'am.

24 **Q** Okay. He wasn't at the scene when you got
25 there?

1 **A** Correct.

2 **Q** Okay. Any other bystanders come up to you
3 or say anything?

4 **A** No, ma'am.

5 **Q** Okay. Were you frightened or afraid?

6 **A** No, ma'am.

7 **Q** Okay. Now, you said you talked to the
8 police, they gave you information about what
9 happened?

10 **A** Correct.

11 **Q** And this isn't any firsthand account that
12 you have, you did ask them what happened?

13 **A** Correct.

14 **Q** Who did you talk to?

15 **A** Detective , was one of the
16 detectives.

17 **Q** And what did he say?

18 **A** That there was a, that Officer Wilson was
19 driving down the roadway, he encountered the two
20 individuals in the street, asked them to exit the
21 street and an altercation started from there. And
22 the decedent ran away from the vehicle, the officer
23 gave chase. They met up again in the middle of the
24 roadway and shots were fired.

25 **Q** Okay. And did Detective

1 represent to you that he actually saw this occur?

2 **A** No, ma'am, he wasn't there.

3 **Q** I'm sorry?

4 **A** No, he did not see it.

5 **Q** He is telling you what he heard?

6 **A** Correct, information he received from
7 whoever he ended up hearing it.

8 **Q** Do you know who that was?

9 **A** No, ma'am.

10 **Q** Were there any paramedics at the scene
11 when you arrived?

12 **A** No, ma'am, they were already gone.

13 **Q** And when discussing the body again,
14 Michael Brown, was it like firm or hard, or tell us
15 about rigor mortis, what is rigor mortis?

16 **A** Rigor mortis is hardening of the muscles
17 after death.

18 **Q** Okay. When does that set in?

19 **A** It starts immediately, but you actually,
20 full rigor mortis about 12 hours after death.

21 **Q** Okay.

22 **A** Then it goes away and it comes back. Many
23 different variables, different size of people, where
24 they're at, location of the body, what they were
25 doing prior.

1 **Q** Weather?

2 **A** Medications, weather, drugs, everything.

3 **Q** Did you notice any rigor mortis on Michael
4 Brown?

5 **A** It was starting to set in, correct.

6 **Q** Where?

7 **A** I felt it in his arms, his hands.

8 **Q** Okay. Do you know whether or not he had
9 been moved or anything when you arrived?

10 **A** It didn't look like he was moved from the
11 position that he was --

12 **Q** You don't ask that question?

13 **A** We do ask that question. Sometimes we can
14 tell if the body has been moved.

15 **Q** How?

16 **A** By livor mortis.

17 **Q** What is that?

18 **A** Settling of the blood.

19 **Q** How can you tell by the livor mortis?
20 Explain.

21 **A** Actually, with light skin people you can
22 see it, in dark skin people it is hard to see.

23 **Q** Okay.

24 **A** That's why I didn't put that in the report
25 as to livor mortis.

1 **Q** What do you see? I don't understand.

2 **A** It is when your blood starts, all the
3 blood just settles at the lowest part and gravity
4 takes over and all the blood comes down here and
5 this would be like discolored.

6 **Q** Okay.

7 **A** Anywhere from like a light pink to a dark
8 blue, and that sets in about 12 hours. If you move
9 somebody, it will change position.

10 **Q** Oh. And it was based on your training and
11 experience and your discussion with the officers he
12 had not been moved?

13 **A** Correct.

14 **Q** All right. When you got there, did the
15 police delay you or tell you, you know, they weren't
16 ready for you to do your part or did you get right
17 in?

18 **A** No, I didn't get right in, they still had
19 some photographs to take and evidence to collect and
20 document.

21 **Q** So once you got there, I know you said it
22 took you about 15 minutes to do what you needed to
23 do, but once you got there, how long did you wait
24 before you were able to do what you needed to do
25 would you say?

1 **A** I would guess about an hour.

2 **Q** Okay. Is that unusual?

3 **A** No, ma'am, not for homicides, no.

4 **Q** Okay. Now, did you take any notes
5 regarding what was occurring?

6 **A** Yes, ma'am.

7 **Q** Okay. Is that your regular system that
8 you take notes as you are out on the scene?

9 **A** Yes, ma'am.

10 **Q** And you use those notes to write your
11 report?

12 **A** Correct.

13 **Q** How soon do you write your report?

14 **A** As soon as I get back to the office.

15 **Q** Is that what you did in this case?

16 **A** Yes, ma'am.

17 **Q** Okay. What do you do with those notes?

18 **A** I usually destroy them after the report is
19 completed.

20 **Q** You shred them?

21 **A** Yes.

22 **Q** Did you do that in this case?

23 **A** Yes, ma'am.

24 **Q** Why do you shred them?

25 **A** Everything in my report is going to be

1 from my notes.

2 **Q** Okay. Is there stuff that you did not put
3 in your notes that you want to tell us about or that
4 you did not put in the report?

5 **A** Other than?

6 **Q** Anything?

7 **A** In looking at the report, I would like to
8 clarify, the east and west position of the body may
9 not be accurate, may not be correct. I was just
10 going by the street that I came in on, that I came
11 down. It should have been an east and west street.
12 So that should have been west and his feet should
13 have been east.

14 Sometimes in a subdivision the
15 streets, they curve, so his head may be a little bit
16 off. Like southwest, and his feet may be northeast
17 or something in a different report, but I should say
18 that the head was pointing towards Florissant and
19 his feet was, what's the name of the other street,
20 the other main intersection that I came in on to get
21 to Canfield.

22 **Q** Okay.

23 **A** I can't think of the street right now.

24 **Q** Okay. Is there anything else looking at
25 your report that you need to modify or add?

1 **A** Not that I can think of.

2 **Q** When you are writing your report, if there
3 is something that you discover later, do you write a
4 supplemental?

5 **A** Yes, ma'am.

6 **Q** Can you recall an instance where you did
7 write a supplemental? You don't have to tell us the
8 name of the case or anything.

9 **A** Cases like, maybe on this kind of case
10 like this, maybe the doctor asked us what was he
11 doing before this happened. I would have to go
12 back, contact an officer, maybe his family and find
13 out why he was with so and so doing something or you
14 know, whatever he was doing prior to his death. I
15 may have to go back and get that information.

16 They may call me, the doctor may ask
17 me, can you call the family to see if they have any
18 kind of medical history, and things of that nature.

19 **Q** Okay. And getting back again because one
20 other thing I want to ask you about the injuries,
21 did you count the gunshot wounds?

22 **A** Yes, ma'am, what I thought was gunshot
23 wounds.

24 **Q** Clarify what you mean?

25 **A** Just because there is a hole in a person

1 doesn't actually mean it came from a bullet.

2 Q Okay.

3 A It could be a stabbing, could have fallen
4 on a rock, could be a laceration.

5 Q But you counted a certain amount of wounds
6 that may or may not have been gunshot wounds?

7 A Correct.

8 Q How many did you count?

9 A I think nine altogether, nine.

10 Q Where were they located, you can tell us?
11 Refer to your report.

12 A One on top of the head, one to the right
13 forehead, one around the eye, and then one in the
14 neck, close to the neck/chest area, one on the right
15 side and the rest in the arm and one in the hand.

16 Q Okay. You said total like nine?

17 A Correct, nine injuries.

18 Q Did he have any other abrasions to his
19 body?

20 A He had abrasions on the back of his hand,
21 left hand and abrasion on the right side of his
22 face.

23 Q What is an abrasion?

24 A Several scratches.

25 Q And when you were done, you said you

1 wrapped him up in a clean sheet?

2 **A** Yes, ma'am.

3 **Q** And then you told delivery person, what
4 did you tell them to do?

5 **A** We work as a team. And I roll them over
6 and I put them in a sheet, we tie them up and lift
7 him up, put him in bag, seal up the bag. Actually,
8 just zip it. We have a lock that we put on there
9 and the lock stays on there until the next day.

10 **Q** Okay.

11 **A** And then the delivery service, the two
12 people will pick up the body, put it on a cot and
13 transport it back to the facility.

14 **Q** To the Medical Examiner's Office?

15 **A** Correct.

16 **Q** Did you go back to the office too?

17 **A** Yes, ma'am.

18 **Q** When they were packaging Michael Brown and
19 putting him in the delivery, the car, I guess it is
20 like a hearse or something?

21 **A** It is an Escalade.

22 **Q** An Escalade. Did anybody say anything as
23 you are leaving or did the mom come up to you?

24 **A** No, we were inside the crime scene tape,
25 nobody was actually able to come up to the vehicle.

1 **Q** Okay. All right. Questions?

2 MS. ALIZADEH: Can I ask a couple?

3

4 **Q** (By Ms. Alizadeh) Shortly after, at some
5 point, and I assume quickly you learned that this
6 was a police officer shooting, correct?

7 **A** Correct.

8 **Q** Do you handle those any differently than
9 you do other scene shootings?

10 **A** No, ma'am.

11 **Q** The entire time you were there, there was
12 police officers present, correct?

13 **A** Correct.

14 **Q** From St. Louis County?

15 **A** Yes, ma'am.

16 **Q** Were there any Ferguson officers present?

17 **A** There was multiple different jurisdictions
18 there.

19 **Q** Okay. At any time did anyone, whether it
20 is a police officer or anyone else, did you feel
21 that they were preventing you from doing your job
22 the way you thought it should be done?

23 **A** No, ma'am.

24 **Q** Did anybody suggest that you do something
25 that you would not have normally done?

1 **A** No, ma'am.

2 **Q** Did, and you said that this was obviously
3 a shooting, you would not have handled this any
4 differently if it was a nonpolice related shooting?

5 **A** Correct.

6 **Q** And then also you said that you checked
7 the body of Michael Brown and you checked in his
8 pockets and you were looking for weapons, a weapon?

9 **A** Correct.

10 **Q** Did you have reason to believe that there
11 was a weapon or is that a standard thing?

12 **A** Standard procedures.

13 **Q** Okay. Did you find anything in his
14 pockets?

15 **A** We found two lighters, two \$5 bills and a
16 small little bag of marijuana, or what appeared to
17 be marijuana. It was a green substance, grass,
18 looks like marijuana to me.

19 **Q** Okay.

20 **A** That was it.

21 **Q** And when you say we found, who is the we?

22 **A** Actually, it was me taking the stuff out
23 of the pockets, detectives were standing there
24 taking notes, the ID people were standing there,
25 they should have taken photographs of it. After we

1 were done, I put it back in the pocket.

2 **Q** You were the one who actually reached into
3 the pockets?

4 **A** Yes, ma'am.

5 **Q** To your knowledge, were you the first
6 person to go into those pockets or do you know if
7 there was anybody else?

8 **A** I couldn't answer that one.

9 **Q** You don't ask or make any attempt to ask
10 if someone --

11 **A** We do, we do ask if anybody went in there
12 and got his cell phone out. Sometimes they take the
13 wallet out to get his ID out or take the cell phone
14 to get information off the phone, and that wasn't
15 done.

16 **Q** To your knowledge?

17 **A** To my knowledge it wasn't done.

18 MS. ALIZADEH: Okay, that's it.

19 When you got there, you
20 said you were taking photographs and I understand
21 you weren't actually taking them, were you directing
22 the police on what photographs to take?

23 **A** No, ma'am.

24 You were relying on them
25 to take the actual photographs?

1 **A** Correct.

2 You said injuries, how
3 many were down the right side?

4 **A** Just one injury on the right side, right
5 below his nipple, one right here, clavicle area.

6 You said the forehead,
7 the eye, the neck, the side, the hand, the arm and
8 the hand?

9 **A** Correct. And one in the top of the head
10 too.

11 And the position of the
12 body, I didn't quite hear because I'm opposite from
13 you. When looking at you, you said one arm was out,
14 was that the right arm?

15 **A** Right arm was out.

16 Right arm was out and the
17 left arm was against his waistband?

18 **A** Correct, yes, ma'am.

19 And you modified the
20 direction of the body. Can you say again was it
21 east or the west or the west to east?

22 **A** I'm going to assume his head was west and
23 his feet was east.

24 His head was west and his
25 feet were east and that's the modification?

1 **A** That's what I have in my report, I just
2 want to make sure I clarify that his head actually
3 faced West Florissant and his feet was Glen Oak,
4 Glen Oak was the other street.

5 So his face was at West
6 Florissant?

7 **A** Correct.

8 And his feet were at Glen
9 Oak?

10 **A** Correct.

11 Was he face down?

12 **A** Yes, ma'am.

13 MS. WHIRLEY: When you say modify, this is
14 Sheila Whirley, you are talking about your report,
15 not that you did anything to that body to change the
16 position of the body?

17 **A** No, ma'am.

18 MS. WHIRLEY: Your modification is to make
19 a correction in your report?

20 **A** Yes. Like an officer comes up with a
21 compass, it is northwest by southeast or it is east
22 and west, you know, or south and north, I just want
23 to clarify myself. I was trying to figure out where
24 I was at by the street location.

25 MS. WHIRLEY: Okay, I see.

7 I'm trying to get a
8 clarification. You said that the police officers
9 had already examined the body, photoing the body,
0 taking pictures of everything on the body.

16 **A** They don't actually examine, they just
17 take photographs. They don't touch the body until I
18 get there and I can't touch the body until the
19 detectives get there. We kind of do it in tandem.
20 We don't want to disturb the scene. They come in
21 and they photograph everything like it is. I come
22 in, if I move anything, then they photograph it
23 again.

Gore Perry Reporting and Video

25 Q So approximately 1:30 p.m. to 2:30 p.m.,

1 you called, but you said you arrived at the scene at
2 about 2:30 approximately your time. Now, I
3 understand you stated that after you got to the
4 scene then you had to wait another hour, is that my
5 understanding?

6 **A** Yes, ma'am, approximately about another
7 hour.

8 So actually your
9 investigation didn't start until about 3:30 p.m.
10 that day?

11 **A** Correct.

12 MS. WHIRLEY: So what was happening in
13 that hour?

14 **A** What happens, the crime scene unit they
15 show up, they have to get their cameras ready to
16 make their placards, grab all of their little place
17 cards and find evidence on the scene, mark the
18 evidence, lay it there, take photographs of it.

19 A lot of time you have to clear out a
20 way, a path for me to get to the body. I'll be
21 walking through there kicking shell casings and
22 different evidence around.

23 MS. WHIRLEY: So all of that was
24 occurring?

25 **A** That was going on then, correct. Like I

1 said, they just got there, they are talking amongst
2 themselves on what they are going to do. There is
3 several officers. Some transcribe, some give out
4 measurements, some photograph, you have a
5 transcriber with the photographer.

6 MS. WHIRLEY: This was St. Louis County on
7 the scene?

8 A Correct, yes, ma'am.

9 MS. WHIRLEY: It is your understanding
10 that Ferguson was on the scene first?

11 A Correct.

12 MS. WHIRLEY: And then the scene was
13 turned over to St. Louis County?

14 A Yes, ma'am.

15 MS. WHIRLEY: Yes, sir.

16 : . Were paramedics
17 called initially do you know to, you know, the first
18 instance, did they do anything to the body?

19 A I don't know if they were called or not.
20 I know they arrived on scene shortly after it
21 happened. I looked at the body, they didn't have no
22 leads, any kind of what they usually do is put a
23 lead on their body for EKGs to see if there is any
24 kind of heartbeats. None of that was placed on
25 there. Everything from there on is going to be

1 assumption. I don't want to assume what they did.

2 Who would determine before
3 you got there this person was deceased?

4 **A** The paramedics or police officer, I don't
5 know.

6 MS. WHIRLEY: When you got there, the body
7 was deceased?

8 **A** Correct.

9 MS. WHIRLEY: Michael Brown was deceased?

10 **A** Yes, ma'am.

11 To just continue that, to
12 put the EKG on to determine that, do they typically
13 have to move the body?

14 **A** No. I guess from the wounds that they
15 observed was actually a fatal wound.

16 MS. WHIRLEY:

17 : . So in 25 years
18 of work, how common when you have responded at the
19 scene for a shooting involved an officer and another
20 civilian, is that something that happens often?

21 **A** I have been on several of them.

22 So several of them in 25
23 years?

24 **A** Several police shootings.

25 So in this case, did it

1 seem peculiar or out of the ordinary that the
2 shooting officer was not present?

3 **A** No, not at all.

4 Not at all?

5 **A** No.

6 Do you know what the
7 protocol is for that?

8 **A** They probably took him to the hospital or
9 back to the police station interviews. Majority of
10 the time, they're not there.

11 MS. WHIRLEY:

12 MS. ALIZADEH: Could I make a suggestion?
13 I know you all aren't used to this, but when you do
14 ask a question because we don't know how well this
15 is all picking up until we listen to this later or
16 have an opportunity to check it, so if you would
17 make, you don't have to get right up on it, but make
18 an effort to kind of speak into the microphone so
19 that we can be sure that your questions are
20 recorded, that would be great. If I see you not
21 doing that because you are not used to it, I might
22 say, could you get close to the mike, okay.

23 MS. WHIRLEY: Let me just say, this is
24 your mike, we are kind of sharing it, just to let
25 you know.

4 And you didn't find any?

6 If you would have found
7 some, what does that determine?

8 **A** That tells me that the weapon was fired at
9 a certain distance from the body.

10 So usually you can tell
11 the closeness, I guess?

12 **A** Correct. If the altercation was maybe
13 12 inches or less when the gun fired.

14 MS. ALIZADEH: Just for the sake of
15 clarification, you're not a ballistics expert?

16 **A** Correct, I'm not a ballistics expert.

17 MS. ALIZADEH: There if you would like, we
18 anticipate you may hear evidence as this goes along
19 about that, but he's not an expert in ballistics.

20 **A** Depends on weapon, age of the weapon.

21 MS. ALIZADEH: He can talk about his
22 experiences and what he knows from his personal and
23 professional training, but he's not really a
24 ballistics expert.

25 He asked a question that

1 led to another question.

2 **A** Sure.

3 You said there were no
4 leads on the body by paramedics?

5 **A** Correct.

6 Are you able to see that
7 after they leave?

8 **A** Yes, ma'am, they are small stickers.

9 So they don't take those
10 off?

11 **A** No.

12 They would be on there?

13 **A** Correct.

14 You were able to see?

15 **A** I didn't see any on there.

16 They didn't even --

17 **A** Correct.

18 MS. ALIZADEH: One other suggestion, try
19 to refrain from using each other names just for
20 again, for your sakes and for the anonymity part of
21 it.

22 We can have the court reporter redact that
23 out. But of course, you know, it is on disc. This
24 is all new to us, so we are learning as we go.

25 MS. WHIRLEY: Anything else?

1 MS. ALIZADEH: Don't be afraid to ask a
2 question because I've been kind of making
3 suggestions. I don't want to intimidate anybody
4 into, I don't want to ask a question because I think
5 Kathi might yell at me. But if there is any, any
6 other questions for this witness.

7 You don't see
8 any gun power or anything on his clothes, that
9 doesn't mean when the gun went off, he couldn't
10 find, he couldn't find that?

11 A Correct.

12 He could find that on
13 other clothes?

14 A Correct. He may find some and he may not
15 find some.

16 : Will we get a
17 copy of your report? I'd like to see the report.

18 MS. WHIRLEY: Yes. It is Exhibit Number
19 1. We will have that with your notes whenever you
20 are ready to look at it, you can.
21 Anything else?

22 : . Are there any
23 other things besides the wounds that you are looking
24 at or documenting as you are looking at this
25 particular body before you transport it or is it

1 just the wounds itself you are looking at?

2 **A** I look at the whole body overall.

3

4 Okay.

5 **A** Position of the clothing, wounds, if it's
6 a female, fingernails, everything from the top of
7 the head down to the bottom of his feet we look at.

8 Typically do you, when you
9 file a report outside of this prior to this
10 particular case, would you typically file
11 photographs with your report?

12 **A** Yes, sir.

13 And then with regard to
14 this specific case, are you anticipating getting
15 those photos and filing with your report?

16 **A** My own photos that I would take on the
17 scene I would print out and be with my report.

18 Okay.

19 **A** But the police photos, the police have
20 those, but we can request those if we need them.

21 Okay. Are you
22 anticipating --

23 **A** Or pathologist, I don't know the
24 pathologist --

25 MS. WHIRLEY: You will see those photos.

1 I'm just wondering is he
2 anticipating to get those photos to file with your
3 report?

4 **A** They don't get filed with our report.

5 Okay, all right.

6 : . Now, you said
7 that you didn't take photos yourself, you said that
8 you didn't take photos yourselves?

9 **A** Correct.

10 Upon arriving at the scene
11 as the batteries had died in your camera?

12 **A** Yes, ma'am.

13 All right. So I mean, is
14 there some protocol with your department that you
15 have to have your camera charged up all times?

16 **A** No, ma'am.

17 Just to alleviate this
18 type of thing happening?

19 **A** No, ma'am.

20 So right now we only have
21 the photos that St. Louis County or whatever --

22 **A** Correct.

23 -- did? Okay.

24 **A** Correct. My photographs would have been
25 him laying on the ground with the sheets over him,

1 removing the sheets and his back, you know, the
2 whole body.

3 Uh-huh.

4 **A** And maybe that's it.

5 Okay.

6 **A** Anywhere from two to four pictures, no
7 more than that. Just trying to give the pathologist
8 a picture of what's going on when this person died.

9 Okay.

10 : Did you notice
11 any other wounds on the body hands wise?

12 **A** Just the abrasion on the back of the left
13 hand and abrasion on his face and nothing really
14 obvious.

15 MS. ALIZADEH: And just to
16 clarify, you said your job is to document the body?

17 **A** Correct.

18 MS. ALIZADEH: As you find it and you also
19 make a determination if you believe the body has
20 been moved, was there any reason for you to believe
21 that the body was moved in this case?

22 **A** No, ma'am.

23 MS. ALIZADEH: Now is it your job to look
24 at anything around the body, whether it be blood
25 splatters or shell casings?

3 **A** Yes.

6 **A** No, ma'am.

10 **A** Nothing in the reports, no.

11 MS. ALIZADEH: Okay.

14 **A** There were numerous shell casings on the
15 scene.

18 **A** Correct.

19 MS. WHIRLEY: Why not?

20 **A** At the time where they were at and they
21 were still being processed, I guess let the police
22 take care of that part. They are trying to figure
23 out what shots were fired and what order, I didn't
24 see no reason to see where they were at.

25 . Wouldn't the

1 shells kind of determine how the body was shot, what
2 angle, how far, the distance?

3 **A** They could at times.

4 MS. WHIRLEY: That's not what you are
5 qualified to figure out?

6 **A** Correct. I don't know if they were moved,
7 kicked around, people trampled through there, things
8 of that nature. And the semiautomatic weapon, are
9 the shell casings going to go out to the right side
10 and eject.

11 MS. ALIZADEH: And so your
12 purpose in being there and your function is to
13 assist the medical examiner in doing their job?

14 **A** Yes, ma'am.

15 MS. ALIZADEH: You're not there as a
16 police agent or an agent of any police department?

17 **A** Correct. As a matter of fact, my mission
18 is just for the body.

19 MS. ALIZADEH: Just for the medical
20 examiner?

21 **A** Correct.

22 : . Whose
23 responsibility is it to write the whole report
24 overview of that at the scene, is that the police
25 department? Obviously, it is not this individual.

1 **A** Police department.

2 MS. ALIZADEH: I anticipate you will be
3 hearing testimony from the investigators who do
4 document the crime scene in any kind of crime scene
5 and especially such as this, there is going to be
6 probably a number of officers who were doing
7 different things at the crime scene to process the
8 scene.

9 **A** This crime scene, can I say something?
10 The crime scene was huge, he's here, some of his
11 shoes are farther away from him. You have a vehicle
12 and his hat, it may stretch out 100 yards. I'm just
13 there for the body. Just trying to let our
14 pathologist know he's here, there are other things
15 there, this is what's going on with the body.

16 MS. WHIRLEY: It is your job to take the
17 body when you leave?

18 **A** Correct. And the police will come in and
19 photograph everything else, document it where it is
20 at and take their notes.

21 MS. WHIRLEY:

22 : . You mentioned
23 before that when you arrived at the scene and you
24 saw the body for the first time, he was in the
25 middle of the road, is that my understanding?

1 **A** Yes, ma'am.

2 This road that he's on, is
3 this like one lane each direction?

4 **A** Two lanes.

5 Two lanes each side.

6 Okay. So you have the center yellow dividing line?

7 **A** Yes, ma'am.

8 Where was he in
9 conjunction to that dividing line, was he right on
10 it?

11 **A** Yeah, right on the line.

12 Was it bisecting him or
13 dissecting?

14 **A** It was dissecting.

15 MS. WHIRLEY: The cars were able to drive
16 around him?

17 **A** I'm sorry?

18 MS. WHIRLEY: Were cars able to drive
19 around him?

20 **A** I would think so. By the time I got
21 there, crime scene tape was already up.

22 MS. WHIRLEY: Preventing anyone from
23 driving?

24 **A** Correct.

25 I hate to

1 keep going back to the injuries. I want to make
2 sure I got this right, top of head, forehead, eye,
3 neck, arm, side and hand, that's not nine.

4 **A** One on top of the head, two in the eyes,
5 three in the head.

6 Three in the head?

7 **A** Yes, three in the head. I'm calling the
8 face the head.

9 Okay. So top of the
10 head, forehead and eye are three.

11 **A** Two in the chest.

12 Two in the chest.

13 **A** Which I'm calling from the neckline down
14 to the waistline and his arm had one in the upper
15 bicep.

16 Okay.

17 **A** One closer to the middle of the arm --

18 There were two in the
19 arm?

20 **A** Actually three, and then one in the
21 forearm.

22 Three in the arm and one
23 in the hand.

24 **A** Correct.

25 So a total of four in

1 this extremity?

2 **A** Correct.

3 . You don't say
4 there were nine, it could be come in here and come
5 out here?

6 **A** Correct, it is nine wounds.

7 It is nine wounds.

8 **A** Correct.

9 No nine shots?

10 **A** No, nine wounds.

11 MS. WHIRLEY: And just to be clear, you
12 don't know whether those are entrance, exit,
13 abrasions, you can't say?

14 **A** At the time I couldn't say, correct.

15 MS. WHIRLEY: Can you say now?

16 **A** The medical report is done.

17 MS. WHIRLEY: I mean, that's not your
18 report though?

19 **A** Correct. The doctor report is completed
20 and he determined exits and entrances.

21 MS. WHIRLEY: A medical examiner could
22 say?

23 **A** Correct.

24 MS. WHIRLEY: You can't say?

25 **A** I could say.

1 MS. WHIRLEY: From firsthand experience
2 can you tell us?

3 A I can tell an entrance and exit.

4 MS. WHIRLEY: Can you tell us what the
5 wounds were.

6 A But on these I couldn't, that's why I
7 didn't.

8 MS. WHIRLEY: Okay.

9 : . The abrasions
10 that you noticed, were they consistent with where he
11 would have made contact when he hit the ground with
12 his forehead and left hand or could that have been
13 caused by some earlier altercation or something.

14 A To me it looked like it came from the
15 ground, that is more of an assumption.

16 MS. WHIRLEY: Why does it look like it
17 came from the ground?

18 A Because it looked more like a road rash
19 abrasion as opposed to an altercation abrasion, like
20 somebody scratching him.

21 MS. WHIRLEY: What's an altercation
22 abrasion.

23 A Like somebody punches you in the eye, you
24 may get a slight, like somebody's knuckles sliding
25 across your face.

1 MS. WHIRLEY: Okay.

2 **A** As opposed to your face sliding across the
3 concrete. We rolled him over, there is a little bit
4 of gravel embedded in the wound.

5 MS. WHIRLEY: Okay.

6 MS. ALIZADEH: you testified
7 that the body was prone, what about his face because
8 I mean, was his head turned to one side or the
9 other?

10 **A** It was turned facing the left side.

11 MS. ALIZADEH: Okay. So it would have
12 been the right side of his face was against the
13 pavement when you saw it?

14 **A** Yes, ma'am.

15 MS. WHIRLEY: And that's where the
16 abrasion was?

17 **A** Correct.

18 MS. WHIRLEY: Or the injuries?

19 **A** Yes, ma'am.

20 MS. WHIRLEY: Okay.

21 The hand on the top of the
22 head is away resting?

23 **A** Yes, sir.

24 MS. WHIRLEY: Anything else? If need be
25 if you think of something else, we can always and it

1 is directed for we can always
2 bring him back once you have looked at his report,
3 okay?

4 MS. ALIZADEH: Or at any time if there is
5 other questions down the road, all you have to do is
6 ask for us to locate a witness.

7 MS. WHIRLEY: Did you have something?
8 : Just to be
9 clear, the fact that you didn't take pictures, you
10 feel like the county covered whatever pictures you
11 would have supplied yourself?

12 **A** Correct.

13 There is not a hole here
14 because you didn't have the pictures?

15 **A** All pictures are taken by the police. I
16 would have taken them too. A lot of times we direct
17 them, you know, to take a picture of the back, lift
18 up the shirt, take another picture, roll him over,
19 let's take a picture of the front, lift up the
20 shirt, can you take another picture for me, things
21 of that matter.

22 MS. WHIRLEY: But in this case you did not
23 do that or did you?

24 **A** We did.

25 MS. WHIRLEY: Oh, you did.

1 **A** Correct.

2 MS. WHIRLEY: Ask them to take certain
3 pictures?

4 **A** Yes, ma'am.

5 MS. WHIRLEY: Oh, okay. All right,
6 anything else?

7 **A** They would have done those pictures
8 anyway, it is protocol.

9 MS. WHIRLEY: Okay, well, thank you very
10 much. That's it for today.

1 GRAND JURY HEARING

2 MS. ALIZADEH: Good morning. Today's date
3 is September 3rd, 2014 and it is about, I can't see
4 my watch, a little before 9:00, 9:55. (sic) This is
5 Kathy Alizadeh with the Prosecutor's Office and also
6 present in the room are the 12 jurors and Sheila
7 Whirley with the Prosecutor's Office and the court
8 reporter who is taking down everything that's being
9 said at this point.

10 Just some preliminary things. First of
11 all, did everybody get in okay, was there any
12 confusion, you all got in okay?

13 Well, did give you menus for today?
14 (All jurors indicate yes.)

15 MS. ALIZADEH: What I would like to at
16 least begin explaining, and we talked to you about
17 when you want to meet in the future. And we are
18 going to accommodate you whatever time or date you
19 would like to meet. Whatever you decide, if you
20 want to meet, to continue to meet on Wednesdays
21 because that's what you're used to, we will make
22 this room available for you on Wednesdays, okay.
23 We'll do something else with the new grand jury,
24 they'll meet elsewhere.

25 So I would suggest that possibly over the

1 lunch break today maybe talk amongst yourselves.
2 During your lunch break it is not going to be
3 recorded, you all can talk about amongst yourselves
4 about future days.

5 And then maybe at the end of the day today
6 or after the lunch, we are going to need a list of
7 some dates. Those dates are not going to be made
8 public, we're never going to discuss on the record
9 in advance what dates, you know, you're going to be
10 meeting, but we'll need to know so we can start
11 scheduling people.

12 Keep in mind that unlike typical grand
13 jury days, we cannot present evidence on this matter
14 unless all 12 of you are present.

15 I know you all have the phone number for
16 the grand jury. If you all make arrangements to
17 meet on a particular day and then, you know,
18 somebody gets up in the morning and they're sick,
19 they've got the flu, you're going to need to call as
20 soon as possible so we can try to call people and
21 head them off if they haven't already left their
22 homes if one of you can't make it, then we're not
23 going to be able to hear anything that day, okay?

24 : . So the
25 alternates, alternates will not be called in on

1 this, is that my understanding?

2 MS. ALIZADEH: That's correct, they're not
3 going to have heard everything that you would have
4 heard.

5 Okay.

6 MS. ALIZADEH: Typically the grand jury
7 will hear a whole case in a matter of 15 minutes
8 maybe, but that's not the case here, so there won't
9 be any alternates that are going to be seated.

10 All right.

11 MS. ALIZADEH: So the way I would like to
12 progress is that each day when we meet, we're going
13 to try to be on time and start on time. I think
14 that's respectful of everybody else. We know you
15 are dedicating a lot of your time to do this, so
16 we'll try to be more punctual on future dates.

17 I also want to tell you as you notice we
18 have some additional equipment in this room, there
19 is probably more people in this room than ever
20 before. I'm probably going to bring in some
21 additional fans because it will heat up and get warm
22 in this room.

23 If anybody at any point feels like they're
24 feeling, you know, a little overheated, please let
25 me know because we'll take a break. With this door

1 open when I walk out here it is way cooler out here
2 than it is in here. If ever you feel like you're,
3 you know, not being able to be attentive because of
4 the heat, stop us, okay.

5 And what I would also like to do is every,
6 the beginning of every time you meet is to give you
7 an overview of what to expect for that day. This is
8 not in the form of like an opening statement where
9 I'm going to talk about what the evidence is going
10 to be, I'm just going to give you the names of the
11 witnesses that we expect to call and who they are
12 and what we anticipate the content of the topic
13 they're testifying about.

14 As you have seen in the past, the witness
15 will take the stand, be sworn, take the stand and
16 then I will begin or Sheila will begin by asking the
17 witness questions.

18 And I'm not trying to say, I don't want to
19 discourage anybody from asking any question that
20 they want to ask, but what I would like to see if
21 possible, because your questions might be answered
22 later on in the testimony. Some of these witnesses
23 are going to have lengthy testimony and at some
24 point, you know, you might ask a question that I'll
25 say he's going to talk about that in a minute.

1 If you don't understand something that's
2 being said at the time, raise your hand, identify
3 yourself by your juror number and say excuse me, I'm
4 not understanding what you're saying right now. But
5 if you have a question that he hasn't, the witness
6 hasn't seemed to answer yet, if you want to jot that
7 down in your notes then, you know, at the end, of
8 course, you know, I will open it up to questions and
9 Sheila may have additional questions or vice versa
10 because we are taking turns on putting on different
11 witnesses because one person can't do all of this.

12 Are there any questions so far?

13 There will be times when I'm going to hand
14 out things to you like maps or reports of other
15 people just so you can have them for your reference
16 while you're hearing the testimony. I would
17 encourage you to still pay attention to the
18 testimony.

19 It can be distracting if you are reading
20 something that's in front of you while a witness is
21 testifying, you are going to be missing something
22 that's being said on the stand. Anything that we
23 give you will be available to you at any time during
24 the time you're sitting. Certainly for your
25 deliberations if you wish to have items back that

1 you've seen before, we'll get those to you.

2 When you do get maps or reports or
3 anything of that nature, what I would like you to do
4 is to just write your juror number on the corner of
5 it, but I don't want you to put any other writing on
6 it.

7 If you have notes you want to take, put
8 them in your notebook because as we've explained to
9 you your notebooks are going to be private, they're
10 locked up, nobody is looking at them and they will
11 be destroyed at the end of the process here. I
12 don't want you making notes on anything that is, you
13 know, not your notebooks, okay. Can we agree with
14 that?

15 After our last session Sheila and I sat
16 down and listened to some parts of the testimony,
17 the mikes pick up very well. Remember last time I
18 said I wasn't sure how that was going to go? So I
19 was kind of encouraging people to lean forward. I
20 think we're not going to have any problem as long as
21 people keep their voices up, we should be able to
22 hear everybody that wants to speak.

23 And if at all, you know, you cannot hear a
24 witness as usual, you know, you need to raise your
25 hand, I can't hear you or I didn't hear what you

1 said.

2 Any questions about that so far?

3 Sheila, one other thing I forgot. So the
4 next time we meet, we will need for you to be on
5 time because Judge who is the grand
6 jury judge, is going to be here before we start that
7 day and she's going to read to you another charge.
8 When I say charge, it is like she's charging you
9 with an oath, I guess.

10 That is having to do with the fact that
11 you're session is being extended. So I told her,
12 you know, what time I thought we wanted to get
13 started. You know she's going to be here a little
14 before that. So if we can make sure that everybody
15 is here on time so, you know, she doesn't have to
16 wait around for us.

17 MS. WHIRLEY: What time we talking, 8:00
18 or 8:30.

19 MS. ALIZADEH: I think we were talking
20 about 8:30.

21 MS. WHIRLEY: So 8:30.

22 MS. ALIZADEH: You all can be here by
23 8:30?

24 MS. WHIRLEY: You actually prefer 8:30?

25

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

MS. WHIRLEY: Okay. Because 8:00 worked well. I think they prefer 8:00 to bring them in the way they did today, they prefer 8:00.

MS. ALIZADEH: So what time do you all think you can be here and seated for Judge

(All indicate 8:00.)

MS. ALIZADEH: I will tell her to be here at 8:00 for the next time you meet.

You have a question?

I know she spoke a lot about secrecy and we all take that very seriously.

MS. ALIZADEH: I don't know the answer to that question. I do know what that is, so I will have to check with our people and see what they say about that.

Okay.

MS. ALIZADEH: I can't imagine there would be a problem with that.

MS. WHIRLEY: I didn't hear over here, I'm

1 sorry.

2 MS. ALIZADEH: You want to go ahead and
3 restate it?

4

5

6 MS. WHIRLEY:

7

8 MS. WHIRLEY:

9 Because of what we are
10 going to be doing.

11 MS. WHIRLEY: Okay, I didn't hear you.

12 MS. ALIZADEH: As we mentioned before,
13 people in your lives know you are on a grand jury
14 and have been. Of course, we're not going to
15 disclose to any media outlet or the public in
16 general your identities, but your families and your
17 employers know that you are on the grand jury.

18 But more importantly, what you are charged
19 with is that you cannot discuss anything that you
20 hear in here. So, you know, if you have
21 conversations with your family or your employers
22 about, you know, your meeting times and your meeting
23 dates, how long this is going to take, that's up to
24 you and I understand that that's something that you
25 all need to work out with the people in your lives.

1 We would like to get this done as quickly
2 as possible, but then again, we are not going to
3 rush anything.

4 If there is a need to meet until after the
5 first of the year, that's what we are going to do.
6 I don't anticipate that, but there is no way after
7 this whole process is over that anybody is going to
8 say we rushed anything, okay. I want you to have as
9 much time as you need, hear as much evidence as you
10 think you need to hear. If we don't call somebody
11 that you want to hear from, we'll get them here,
12 okay.

13 So for the next meeting we'll start at
14 8:00, the Judge will give you a charge. Today we're
15 going to have testimony on the investigation into
16 the shooting of Michael Brown in the morning
17 session, hopefully we can get done by lunch time.
18 In the afternoon today you are going to hear a
19 regular docket of cases that we need to move through
20 the grand jury.

21 After that, we anticipate that all of
22 your, everything you will hear every time you sit
23 will just be evidence on the investigation into the
24 shooting of Michael Brown.

25 I know this is different than other cases

1 because normally when we've charged somebody with an
2 offense, you have the charge in front of you, you
3 can read what the charge is, you can read what maybe
4 the elements are and you don't have that in this
5 case.

6 I understand that that kind of leaves you
7 not sure how you are supposed to look at this
8 evidence.

9 So after this morning session, Sheila and
10 I will sit down and we will come up with statutes
11 for you on the various degrees of homicide and there
12 will be some other relevant statutes on the use of
13 lethal or deadly force when, and possibly
14 self-defense statutes, so you will have by the time
15 you are here next time. We'll have that for you so
16 you can kind of at least understand the law as you
17 are hearing this evidence.

18 We're putting on witnesses in a certain
19 order because we're trying to make this easier for
20 you to digest and understand the evidence as it
21 comes in because unlike a trial, I'm not making an
22 opening statement. I can't outline for you what all
23 the evidence is. In a trial, you know, a jury gets
24 to hear that, that's not going to happen here
25 because I'm not making an opening statement.

1 So we're trying to put the evidence on in
2 a more logical order so you can kind of understand
3 as the witnesses progress, oh yeah, I remember
4 hearing about that the other day. Um, but as it
5 happens, sometimes we have scheduling issues with
6 witnesses, and sometimes things might be out of
7 order.

8 There might be an occasion where you hear
9 testimony from a witness and then you say to me or
10 Sheila, well, you know, what about that, was that
11 found at the scene? Well, you're just, I can't
12 answer those kind of questions for you, you're just
13 going to have to hope you are going to hear evidence
14 about that and at the conclusion of all of this, if
15 you have additional questions and you give us those
16 questions, we will see if we can get those answered
17 through witness testimony, okay.

18 I think the best thing for every day is
19 for us to tell you how your day is going to go. So
20 today you are going to hear from two witnesses. The
21 first witness is St. Louis County Detective,
22 Detective He is a crime
23 scene investigator. He will testify about what he
24 did in relation to his investigation into the
25 incident that occurred involving the shooting of

1 Michael Brown, okay.

2 We're going to see pictures, and some of
3 them are going to be graphic and disturbing and I
4 have to just get that out there in the beginning.

5 The next witness we're going to hear from
6 is going to be I will have him
7 spell that for you. I don't want to misspell it.

8 He is the medical examiner who conducted
9 the autopsy on the body of Michael Brown and he's
10 going to describe his job and what his findings
11 were, okay.

12 So with that, are we ready to get started?
13 : . Now, on
14 the times for next week, we want to be in the garage
15 at 8:00 so we can be here at 8:30, or we want to be
16 at the room at 8:00?

17 MS. WHIRLEY: I think you want to be in
18 the garage at 8:00, that way you can come through
19 the way you did. That seemed to work very well
20 according to So be at the garage at 8:00,
21 unless you hear differently. I will call you if
22 something changes, but 8:00 in the garage. That
23 will probably put us at 8:30, ready for Judge

24

25 MS. ALIZADEH: And that's kind of what I

1 told her earlier this week, 8:30, I thought.

2 From a frequency
3 or time allotment standpoint for future weeks, what
4 is your anticipation from a need, eight hours per
5 week, two days per week if we can do it, how do we
6 balance with what you have available to present to
7 us.

8 MS. ALIZADEH: That's going to depend a
9 lot on your schedule. Sheila and I have talked
10 about this. It would be great if we could go five
11 days a week for as long as it takes to get this
12 done. As I said to Sheila yesterday, we're not
13 going to be able to do that.

14 In a typical case we have a year to
15 prepare to put on evidence and we don't have that
16 here. And so, and as you may, you know, find out as
17 the testimony comes in, we may have additional
18 witnesses that we don't even know about today that
19 we will have to, you know, present evidence on.

20 So that's going to be up to you. If you
21 guys decide well, we'd like to meet for, you know,
22 an afternoon on a certain day of the week and all
23 day on Saturday, you know, or we'd like to meet two
24 evenings during the week, whatever you all think is
25 best. Understanding that the more often we meet,

1 the quicker this will go, but I don't think it is
2 realistic for either side, our side as well as your
3 side to think that we're going to have, be able to
4 put this case on Monday through Friday until we get
5 done. I just don't think we could do it.

6 All right, you can talk about that during
7 lunch what everybody kind of feels comfortable with
8 as far as a schedule, okay.

9 : . As far as
10 my job, I know my session is to end next Wednesday,
11 so will we get a letter stating the fact that it has
12 been extended?

13 MS. ALIZADEH: We can provide that for
14 you.

15 MS. WHIRLEY: will take care of
16 that.

17 Thank you.

18

19

20

21

22

23

24

25

1 of lawful age, having been first duly sworn to
2 testify the truth, the whole truth, and
3 nothing but the truth in the case aforesaid,
4 deposes and says in reply to oral
5 interrogatories, propounded as follows, to-wit:

EXAMINATION

7 BY MS. ALIZADEH:

8 Q Can you state your name and spell it,
9 please?

10 A Good morning everybody. My name is
11

12 Q And where are you employed?

13 A I am a crime scene detective with St.
14 Louis County Police.

15 Q Are you a police officer?

16 A Yes, ma'am.

17 Q And can you briefly describe for the
18 jurors what training you went through to become a
19 police officer?

20 A After receiving a bachelor's degree, you
21 attend the police academy. You start as a police
22 officer like everyone does on the street in a patrol
23 car. After different various assignments and
24 training and interviews, I was accepted into the
25 crime scene unit about five years ago. Once in the

1 crime scene unit, here again, subjected to another
2 10 to 12 weeks of field training and ongoing classes
3 and training after that.

4 Q What does a crime scene investigator, what
5 is your job, what do you do?

6 A Primarily our number one job is evidence
7 at various crime scenes that we are requested to,
8 photographing evidence, collecting evidence,
9 diagramming scenes, videotaping various scenes.

10 Q And so you say that you have been a crime
11 scene investigator now for approximately five years?

12 A Yes, ma'am. I was assigned to this unit
13 in January of 2009.

14 Q And during the time you have been a crime
15 scene investigator, have you also received any
16 additional training either through course work or
17 attending conferences or seminars that are
18 particularly directed toward crime scene
19 investigations?

20 A Yes, ma'am. Everything from interviewing
21 interrogation techniques, to scene photography,
22 setting up death cases, forensic anthropology
23 courses, several things.

24 Q So as a general rule, before we get into
25 the particulars of this investigation, it is fair to

1 say that you have to be called to a crime scene by
2 other police departments or agencies; is that
3 correct?

4 **A** Yes, ma'am.

5 **Q** So you're not driving around in a van
6 looking for crime scenes?

7 **A** Not at all.

8 **Q** So you have a van that you use?

9 **A** I do.

10 **Q** And it has all kinds of things in there
11 that you use during your investigation; is that
12 right?

13 **A** Equipment, tools, supplies, those sorts of
14 things.

15 **Q** And so when you are called, are you
16 on-call, like you could be called in at any time?

17 **A** There are 17 of us in the unit and we
18 work, we cover 24 hour shifts. So at any given time
19 there is a minimum of two of us St. Louis County
20 crime scene detectives on duty, 24 hours a day.

21 **Q** When you receive a call to go to a crime
22 scene, you get your stuff, go, and you drive your
23 van to the crime scene; is that right?

24 **A** Yes, ma'am.

25 **Q** Now, typically when you arrive at a crime

1 scene, what's the first thing you do?

2 **A** First thing I would do is contact either
3 the person in charge of the scene or an officer that
4 knows what's going on. They would typically give me
5 a rundown what they know at that time and walk me
6 through the scene to show me, again, what they know,
7 what occurred and where it occurred.

8 **Q** And so it's, you are not the first officer
9 arriving at a crime scene, other officers are always
10 there before you; is that right?

11 **A** Correct, yes, ma'am.

12 **Q** And so you talk with them about what they
13 know, what they might have already found, correct?

14 **A** Yes.

15 **Q** Okay. Um, and so after you get that
16 information, is that necessary for you to then
17 decide what you are going to document, what you are
18 going to search for and so forth?

19 **A** Yes, it helps greatly knowing what they
20 know and then I can take my time and start digging
21 further into finding evidence and stuff like that.
22 But knowing what they know prior to my arrival helps
23 me establish a starting point for my investigation.

24 **Q** And I would imagine every crime scene is
25 going to be unique, correct?

1 **A** Every one.

2 **Q** And whether it is a shooting or a burglary
3 or sexual assault, those are all different crime
4 scenes, correct?

5 **A** Yes, ma'am.

6 **Q** So after you have spoken with the officers
7 there and gotten some information, what's the next
8 thing you typically do?

9 **A** I would walk through the scene with them,
10 they typically would point out evidence that they've
11 already found or stuff that may have obvious to
12 them, stuff that other witnesses or victims may have
13 shown them already. From that point, for homicide
14 scenes and other death investigation scenes, the
15 first thing that we would do is videotape a
16 walk-through from my own perspective. Not with
17 anyone narrating it or with anyone particularly in
18 front of the camera, it would typically be just my
19 point of view walking through the scene from what I
20 know from that initial contact with the officer.

21 **Q** And in these cases given that other
22 officers are already there before you, is it usual
23 that whatever they have determined the scene to be
24 has been taped off with police tape, that yellow
25 tape that keeps people out of the scene?

1 **A** Yes, ma'am, generally that's the case.
2 Oftentimes through the course of an investigation we
3 may find something, obviously, that's outside the
4 crime scene tape initially, but typically the crime
5 scene tape is already up, a scene has been
6 established for us and then we start our
7 investigation.

8 **Q** And I would imagine that, you know, what
9 you were hoping for is to have a crime scene that is
10 undisturbed, uncontaminated by anyone from the
11 outside who is not involved in the incident itself,
12 would that be fair to say?

13 **A** In an ideal world, yes, that would be
14 perfect.

15 **Q** Does it occur that there is contamination
16 of a scene either because of police officers being
17 there, other pedestrians being there, emergency
18 personnel, first responders being there?

19 **A** Yes, absolutely, that's one of the tenets
20 of crime scene work. That's a theory that anyone or
21 any person that comes in contact with a crime scene
22 you can either take something away, but you will
23 always leave something there, be it footprint,
24 steps, anything.

25 **Q** And so after you have done your video

1 walk-through then, what's the next thing that you
2 do?

3 **A** The next thing we do is after we capture
4 video, we take overall scene photographs. And
5 again, it is photographs from my perspective of what
6 is in place when I show up.

7 If there is a police car that's shown
8 up or crime scene tape, everything is left in place
9 from when I get there and I take my overall
10 photographs from what is in place when I get there.
11 There is no way I can photograph stuff that happened
12 before I get there or try to guess what it looked
13 like before, so the photographs that I take from the
14 crime scene are actually what I see when I show up.

15 **Q** So it would be against protocol to try to
16 rearrange things so that they were the way somebody
17 thought they were before you arrived?

18 **A** Yes, ma'am, correct.

19 **Q** So nobody touches anything once you get
20 there and you then go through it, photograph
21 everything as you see it; is that right?

22 **A** Yes.

23 **Q** And then after you have completed
24 photographing a scene, what do you do next?

25 **A** Once we do the overall photos, we would

1 typically walk through and place down our number of
2 placards to mark the known piece of evidence that we
3 have recognized or determined at that point.

4 After that, we'll start photographing
5 those pieces of evidence individually and then once
6 those things are documented, we'll then start moving
7 things, looking for more pieces of evidence. We
8 always want to be able to show stuff that was in
9 place, how you would normally just walk in and see,
10 there is always going to be hidden pieces of
11 evidence that we need to move, either a car, you
12 know, a couch, move cushions on stuff and start
13 looking for additional pieces of evidence.

14 And then we just restart the same
15 process. Photographing it where we found it,
16 putting a placard in place where we found it and
17 then collecting it.

18 **Q** And then when you collect evidence after
19 you photograph that evidence, you referenced a
20 placard, is that, explain for the jurors what a
21 placard is?

22 **A** A placard, I'm sure you have all seen
23 them, they come in various shapes and colors. There
24 is typically a hard plastic, for lack of a better
25 term, with a number on it. And the only purpose

1 that it truly serves is for primarily me to
2 recognize a photograph, what number of evidence that
3 I'm picking up.

4 Any given scene shell casing or a
5 blood drop somewhere. If you find a picture of this
6 shell casing 100 pictures later of a separate shell
7 casing, it would be nearly impossible for you to
8 determine which was number one and which was number
9 200.

10 So a numbered placard is just a
11 reference for my report writing and my evidence
12 collection of what I've just took a picture of and I
13 can reference that in my evidence.

14 Q So after you have placed your placard and
15 photograph the evidence items with their placards,
16 you begin collecting pieces of evidence, correct?

17 A Yes, ma'am.

18 Q And you always have with you in your van
19 envelopes, plastic bags, swabs, all kind of things
20 that you might need in order to properly package
21 pieces of evidence?

22 A Yes, ma'am.

23 Q And you do that personally yourself?

24 A I do. Typically in larger scenes there is
25 always two of us there. One is keeping notes, one

1 is getting the piece of equipment for someone else.
2 We are working together doing that, but yes, we all
3 do pick up our own evidence and place it in
4 individual bags and envelopes.

5 Q So if it is a particularly large scene, it
6 is more than one crime scene detective present at
7 the scene. Is there one of you that takes over that
8 that is your scene?

9 A Correct, yes, ma'am.

10 Q And so the other detectives that are there
11 are assisting you?

12 A Correct.

13 Q So when you package evidence, do you mark
14 the packages or envelopes or bags with your own
15 handwriting and your notes denoting what it is
16 inside and where?

17 A As far as the labeling on front of the
18 various different envelopes that we have. One
19 person may write that. The one thing if it is your
20 case, in particular the Ferguson case was mine, some
21 envelopes I filled out the front information, but on
22 every envelope we seal it with a piece of evidence
23 tape so it is closed and that is my initials and DSN
24 on the back of every evidence seal.

25 Q Each individual piece of evidence would be

1 packaged separately, is that protocol?

2 **A** Yes.

3 **Q** So after you have filled out the evidence
4 envelope and sealed it with tape and placed your
5 initials and DSN on the envelope, do you prepare an
6 evidence sheet?

7 **A** Yes.

8 **Q** A receipt?

9 **A** Every piece of evidence has a paper trail,
10 it has a receipt that denotes not only what the
11 evidence item is, where it was found, but it also
12 goes to a different part of our crime lab and/or
13 property control. Our crime lab has three or four
14 different wings to it, be it firearms lab, the
15 chemistry lab, the DNA lab, any piece of evidence
16 that goes to any part of those labs has to have its
17 own individual receipt.

18 **Q** So this receipt that is with this packaged
19 evidence stays with that item; is that right?

20 **A** Yes, not only is the evidence receipt, but
21 also serves as the chain of custody but everyone
22 that picks that item up has to sign off on it as the
23 chain of custody.

24 **Q** And it is not unusual for items that you
25 may have collected to go through a number of

1 different hands to get to its final destination,
2 whether it be the lab, whether it be the fingerprint
3 section, whether it be the medical examiner's office
4 and so forth, several people may have handled this
5 package, is that fair to say?

6 **A** Yes, ma'am.

7 **Q** And those people have to sign off on that
8 package?

9 **A** Yes.

10 **Q** And then when they give it to somebody
11 else, they have to sign that they gave it, and the
12 person they gave it to then signs?

13 **A** Yes.

14 **Q** And until the evidence reaches a
15 destination where it is going to be examined or
16 tested, does anyone open that package while they're
17 handling it?

18 **A** No.

19 **Q** Would you agree that it is the general
20 policy of whether it is the St. Louis County Crime
21 Lab or any other place, that if they were eventually
22 to receive one of your evidence envelopes and the
23 envelope tape has been torn or tampered with or in
24 any way changed from when you initially sealed that
25 envelope, do they notify you?

1 **A** Typically. For instance, if I, when I
2 package a piece of evidence, I would put it into our
3 vault, especially if it is overnight. Typically
4 these things happen at night or when the crime lab
5 is closed. Whoever takes that piece of evidence out
6 of the vault or in the lab, they are going to open
7 it.

8 So they will cut my evidence tape.
9 When they're done with it and seal it back up, they
10 put a piece tape over top of it.

11 **Q** Let me stop you, you are talking about a
12 vault that's at the lab?

13 **A** Yes, ma'am.

14 **Q** So that's after the evidence has arrived
15 at the lab?

16 **A** Correct.

17 **Q** But the people that may handle it before
18 it gets to the lab aren't to open that evidence,
19 correct?

20 **A** No, typically I would be the only person
21 that would handle that before it gets to the lab.

22 **Q** Okay. So once it is at the lab and you
23 said sometimes if it is overnight, they have an
24 overnight vault?

25 **A** Yes, ma'am.

1 **Q** You can drop evidence in?

2 **A** Correct.

3 **Q** And so you know no one else from the
4 outside except the lab people are going to be able
5 to get to that?

6 **A** Actually, myself, not myself, but crime
7 scene detectives and our property control director
8 are the only people that have access to it.

9 **Q** So once the lab people come in, they have
10 one of you guys have to open the vault for them to
11 get the evidence out?

12 **A** Yes, ma'am.

13 **Q** And then, of course, if they have to
14 examine it for whatever testing or examination they
15 are going to do, that's when the first time this
16 evidence envelope is opened?

17 **A** Yes. If at any time there is a problem
18 with the receipt, be it if you missed a signature on
19 a receipt or if you have 30 envelopes of evidence
20 and one of them does not have the seal on it, you'll
21 get a call, a page, an email, they won't touch
22 anything until you respond back down there to fix it
23 before they will accept it as evidence.

24 **Q** So the lab is charged with the duty of
25 checking the chain of custody making sure that is

1 all copesetic?

2 **A** Yes.

3 **Q** Making sure the envelope is sealed and has
4 not been tampered with?

5 **A** Yes, ma'am.

6 **Q** And then after you have delivered your
7 evidence items to wherever they're going to go, the
8 lab, property control, and property control for the
9 sake of explaining to the jurors, what is property
10 control?

11 **A** Property control, obviously, the name
12 explains a lot, they control the property. But they
13 primarily take pieces of evidence that are not going
14 to be tested by the forensic lab and fingerprints
15 for that matter.

16 If it is a recovered stolen bicycle
17 from the back of someone's yard, that's not going to
18 go to our lab for DNA testing, that's going to sit
19 in property.

20 **Q** It is what we would think of as an
21 evidence room?

22 **A** Exactly, yes.

23 **Q** So after you have delivered the items of
24 evidence to wherever you are going to send them to
25 and let me ask you this, at some point there is

1 another officer who is in charge of the
2 investigation, would that be fair to say?

3 **A** Yes.

4 **Q** And do you also take instruction from that
5 officer on various parts of what you're doing?

6 **A** I'm assuming you are referring to like a
7 detective that's doing the lead part of the
8 investigation.

9 **Q** Right.

10 **A** They are oftentimes given more
11 information, especially throughout the course of an
12 investigation than what we would typically have at
13 the scene. They are initially outside interviewing
14 witnesses and other people, be it even a suspect
15 and/or victim.

16 At times what they will do because
17 I'm given basic information when I show up to the
18 scene, I'm typically not privy to the ongoing active
19 investigation.

20 So other detectives, be it homicide
21 detectives or anybody else would come into the scene
22 and go hey, we just found out this. Can you look
23 for this.

24 And then I may have a piece of
25 evidence that I already collected that I deemed

1 important to the case, or I assumed it might have
2 something to do with it, and I would think to send
3 it to the DNA lab.

4 Well, they may find out something and
5 say can you go ahead and send that to firearms first
6 before it goes to DNA, can you send this to
7 fingerprints before going to DNA or vice versa.

8 So they come in and ask certain
9 things or ask that things be sent or certain things
10 be collected that I may not have known about
11 initially.

12 Q So, for example, while you are on the
13 scene, a detective may come up and say, hey, the guy
14 just told us he threw the knife in the sewer, now he
15 is going to cause you to go look in the sewer to see
16 if you can find the knife?

17 A Yes, ma'am.

18 Q After you delivered all your items of
19 evidence, then do you make a report?

20 A I do.

21 Q And your report is documenting what,
22 everything you have done at the crime scene; is that
23 correct?

24 A My reports are not narrative filled, like
25 typically police report it is basically an inventory

1 list. It is three sections or sometimes four,
2 depending on what I do at different scenes. The
3 first section is an inventory of the photographs
4 that I took and what they show.

5 The second section if I took latent
6 fingerprints or developed prints, I would list where
7 I found each print, the third section is just a list
8 of the evidence I collected and where it was
9 collected, what the evidence item is and where it
10 was collected and the fourth list, the fourth
11 section would be if I took video or did diagrams of
12 the scene, which is me listing those things as
13 pieces of evidence.

14 Q Okay. And so lets get to the
15 investigation that occurred at the scene of the
16 shooting of Michael Brown. And so you were on duty
17 on August 9th of 2014; is that right?

18 A Yes, ma'am.

19 Q And about what time did you receive a call
20 that you were needed to respond to the scene?

21 A Shortly after 1:00 p.m.

22 Q And where were you when you got that call?

23 A I was actually northbound on I-270 around
24 Highway 40.

25 Q So how long did you go directly to the

1 scene?

2 **A** Um, I switched my radio over to the muni
3 north radio, which dispatches for the Ferguson area,
4 not for Ferguson, but for the munis in that area.
5 And I heard several reports of gunshots being fired
6 near the crime scene, so I stopped and put my vest
7 on.

8 **Q** Okay. What was the call involved in the
9 shooting, what information were you given when you
10 first got the call?

11 **A** I was told that it was an officer involved
12 shooting with a Ferguson officer and Ferguson had
13 requested St. Louis County Crime Scene to respond.

14 **Q** So this incident happened within the city
15 limits of the municipality of Ferguson, correct?

16 **A** Yes, ma'am.

17 **Q** And typically that would not be a
18 jurisdiction that you would investigate in, they
19 would have their own police department, correct?

20 **A** They do. They handle burglaries and stuff
21 like that. We typically do not go in there for
22 property crimes.

23 **Q** But in this case being an officer involved
24 shooting, was it unusual for a municipality to reach
25 out to the County and ask for their assistance or

1 ask them to take over the investigation?

2 **A** No, ma'am. We handle those type of calls
3 for any municipality that ask. We also handle those
4 calls for any department that uses the Major Case
5 Squad.

6 **Q** So when you said that you, on your way,
7 heard on the municipal radio channels that there
8 were shots fired, are you talking about shots that
9 were being fired after the officer involved shooting
10 occurred?

11 **A** Correct.

12 **Q** So that caused you to decide to stop and
13 put on your Kevlar vest?

14 **A** Yes, ma'am. I stopped almost immediately,
15 once I got it put on, I drove directly to the scene.

16 **Q** And so what was the location of the scene?

17 **A** I was given the address Canfield.

18 **Q** So how is it that from where you were
19 driving you eventually travel onto West Florissant;
20 is that correct?

21 **A** Yes, that's the round I took.

22 **Q** And then from West Florissant you turn
23 onto what street to get?

24 **A** You can turn directly onto Canfield and
25 West Florissant.

1 **Q** So from West Florissant when you turn into
2 Canfield, that's a residential area, isn't it?

3 **A** Yes.

4 **Q** And after you travel some distance, not
5 terribly far, you reach an apartment complex,
6 correct?

7 **A** Yes, ma'am.

8 **Q** What's the name of that apartment complex?

9 **A** I honestly can't tell you. I would just
10 assume it was the name Canfield apartment complex.

11 **Q** So when you arrived, turned onto Canfield,
12 did you notice a crowd?

13 **A** Immediately. The distance from West
14 Florissant to the scene, if I can recollect, is
15 probably less than half a mile. And it is a
16 residential street, all the houses have driveways, I
17 have been on that street before. There is typically
18 not a bunch of cars parked on the side streets and
19 stuff like that, but as soon as I turned onto
20 Canfield, I encountered traffic basically at a
21 standstill.

22 There was some officers that were
23 directing traffic near the first cross street
24 because people were pulling in, being told they
25 can't drive through, trying to turn around and it

1 was a little bit of a mess when I showed up.

2 Q Were there also a number of first
3 responders there?

4 A Several.

5 Q Police cars?

6 A Yes, ma'am.

7 Q Ambulances or were they already gone?

8 A I can't testify to that. I don't remember
9 if they were there or not. I know there were
10 several police cars and hundreds of pedestrians.

11 Q Hundreds of pedestrians outside of the
12 police?

13 A Yes, ma'am.

14 Q This is in the middle of day, correct?

15 A Yes, ma'am.

16 Q Daylight hours?

17 A Yes, ma'am.

18 Q Was it raining?

19 A Sunny, nice weather.

20 Q So after you made your way through that
21 initial crowd, did you arrive at an area that was
22 taped off and you determined to be the scene of the
23 crime?

24 A Yes, ma'am.

25 Q And so, what is it that you first did when

1 you arrived?

2 **A** I first sought out whoever it was in
3 charge. I saw some other officers and sergeants
4 from my own department and I obviously made my way
5 over to a group of people that were talking. They
6 were expecting me and I just asked, simply asked can
7 you tell me what's going on.

8 **Q** What information, when you say a group of
9 people, you talking about police officers?

10 **A** Yes, ma'am.

11 **Q** You didn't talk to any witnesses?

12 **A** No, ma'am.

13 **Q** Or anybody in the crowd?

14 **A** No.

15 **Q** And so what did the officers tell you?

16 **A** They told me that they had an officer
17 involved shooting. They were pretty brief with me
18 initially stating that the officers car is down
19 there and at the other end of the street is the
20 victim.

21 **Q** When you, now, the initial call that came
22 out for this, do you recall was this, how is this
23 determined initially?

24 **A** I was told officer involved shooting, that
25 would be the typical term they would use when

1 talking to me on the phone.

2 Q Now, several of the items that you have
3 packaged and also marked, you write or have
4 indicated assault on LEO?

5 A Correct.

6 Q What does that mean?

7 A At my point in the investigation it is
8 obviously right when everything starts and charges,
9 determinations, names assigned to things aren't
10 necessarily set in stone. So during my initial
11 investigation, we are investigating an assault on a
12 law enforcement officer.

13 Q Were you told when you initially arrived
14 at the scene that there was some type of altercation
15 involving an officer and the deceased?

16 A Yes, ma'am.

17 Q And was that described as an assault?

18 A Correct.

19 Q So when you began this investigation, you
20 were characterizing this as an assault of a law
21 enforcement officer, correct?

22 A Yes.

23 Q Is that in any way meant to be your
24 opinion of what happened or who was a victim in this
25 case?

1 **A** No, ma'am. Any time I'm involved in an
2 officer involved shooting, be it a fatal one or
3 nonfatal, it is always during my initial
4 investigation listed as an assault on law
5 enforcement.

6 **Q** And so on various evidence items that you
7 package on these sheets, you list a victim name?

8 **A** Correct.

9 **Q** And when you began this investigation, who
10 was your victim name on these packages?

11 **A** Officer Wilson.

12 **Q** That would be the Ferguson officer?

13 **A** Yes, ma'am.

14 **Q** Again, is that in any way supposed to be
15 some kind of comment on whether you think who was
16 the victim of this incident?

17 **A** No, ma'am. That's how, when we list
18 assault on law enforcement, he was the victim of the
19 assault that we were initially investigating.

20 **Q** Okay. So did you immediately learn the
21 identity of the deceased?

22 **A** We had a preliminary ID. There was no
23 form of positive investigation when I started my
24 investigation.

25 **Q** Okay. And so after having talked to the

1 officers about what happened, what's the first thing
2 you did in this case?

3 **A** One of the sergeants with Ferguson give me
4 a brief walk-through to start my investigation so I
5 can have a logical starting point from where I would
6 start my video, photographs and looking for
7 evidence.

8 **Q** So eventually you did a diagram of the
9 crime scene is that correct?

10 **A** Yes, ma'am that's the last thing we do
11 before we leave.

12 **Q** So given that it is the last thing, but
13 I'm going to use it initially as one of my first
14 things to help the jurors understand what is going
15 on, but as I turn off of, as you enter the apartment
16 complex and at the point where the crime scene is,
17 Canfield is basically a straight street, correct?

18 **A** Yes, ma'am. Where this entire scene
19 occurred is a straight stretch of road.

20 **Q** And is it a paved road?

21 **A** Yes.

22 **Q** Is it marked with any paint or lane
23 parkers?

24 **A** It has a center lane marker, yes.

25 **Q** And is that a double yellow line?

1 **A** Yes, ma'am.

2 **Q** And is this a street where there's a
3 single lane of traffic that proceeds in opposite
4 directions?

5 **A** Correct.

6 **Q** And Canfield is a street that goes east
7 and west?

8 **A** Yes, at that point.

9 **Q** Okay. It is a curvy street?

10 **A** Yes.

11 **Q** But at the point where your crime scene
12 was, it is straight and it pretty much is an east to
13 west street?

14 **A** Yes, ma'am.

15 **Q** And when you started your walk-through
16 with the Ferguson officer, did he direct your
17 attention to Officer Wilson's vehicle?

18 **A** Yes.

19 **Q** And where, in relation to the deceased
20 body, was the vehicle, was it --

21 **A** The west end of the crime scene.

22 **Q** Okay. And then further east down Canfield
23 then was the deceased?

24 **A** Correct.

25 **Q** And so when you began your walk-through,

1 did you start on, what end of this crime scene did
2 you start at?

3 **A** Everyone that I spoke with, the Ferguson
4 officers and my own department, we were on the east
5 end of the crime scene near the victim or the
6 deceased as it were.

7 **Q** Yeah, because I don't want to get confused
8 using the term victim because some of your things
9 are --

10 **A** Yes, ma'am, they are.

11 **Q** Marked victim is Officer Wilson. So let's
12 talk about deceased or Michael Brown in that term.

13 **A** Okay.

14 **Q** And then any officer, the Ferguson officer
15 by his name, okay?

16 **A** Okay.

17 **Q** If everybody doesn't know as of yet, the
18 officer that was identified to you as being involved
19 in this shooting was Darren Wilson; is that correct?

20 **A** Correct.

21 **Q**

22

23

24

25 **A** Okay.

1 **Q** So the vehicle was on the west end of the
2 crime scene, Michael Brown's body was on the east
3 end of the crime scene?

4 **A** Yes.

5 **Q** So when you began your initial
6 walk-through, you started where the body was?

7 **A** Yes, ma'am.

8 **Q** Are you videotaping at this point?

9 **A** No, ma'am.

10 **Q** When you are doing the walk-through then,
11 did you notice that there were already items of
12 apparent evidence or things of interest that had
13 already been marked?

14 **A** Yes, ma'am. There are a lot of times
15 classes that are offered at their own police
16 academy, basically road officers responding to
17 homicide scenes.

18 It is not only training, a lot of
19 times kind of fall backs on common sense. If there
20 is something, be it a shell casing or piece of
21 clothing that you know is part of evidence or
22 evidentiary value, most anyone will typically mark
23 that, be it with a piece of crime scene tape or
24 traffic cones, they will set stuff near items just
25 so one, it is marked and they know where it is at.

1 Two, so someone doesn't accidentally step on it or
2 kick it or move it.

3 Q So did you notice that there were a number
4 of traffic cones that were already in this scene?

5 A Yes, as part of the walk-through they
6 would say that cone over there is marking what we
7 think is a projectile or that traffic cone is
8 marking a shell casing and they would just point
9 things out to me as we were walking through.

10 Q All right. And so after you did this
11 walk-through, did you walk the length of the crime
12 scene going then west and then returning east to
13 where the deceased was?

14 A Yes, ma'am.

15 Q And also, just for the record, the street
16 of Canfield at this point, are there sidewalks on
17 either side of the street?

18 A Yes.

19 Q And there are apartment buildings, this is
20 a complex that has a number of apartment buildings,
21 correct?

22 A Yes, ma'am.

23 Q And the apartment buildings have parking
24 lots?

25 A Yeah.

1 **Q** And there is entrances to the parking
2 lots, there are streets that are coming off of
3 Canfield, correct?

4 **A** Yes, ma'am.

5 **Q** So after you did your walk-through, what's
6 the next thing you did?

7 **A** Um, typically at that point we would go
8 back, my van was parked on the west end of the crime
9 scene just west of where Darren Wilson's vehicle was
10 at. We would go back there, I would prepare my
11 video camera, you know, get a new memory card put
12 in, write some notes down and at that point
13 typically start my video walk-through of the scene.

14 **Q** Is that what you did in this case?

15 **A** No, ma'am.

16 **Q** Why not?

17 **A** As far as the exact times, I couldn't tell
18 you, but during this time when we were heading back
19 to my car, another round of gunshots were fired and
20 extremely close proximity to the crime scene. There
21 was obviously a large crowd reacting to that as well
22 as a police reaction to it.

23 And the decision was made almost
24 immediately to kind of hold, make sure that our
25 crime scene is secured. I have to be able to

1 concentrate what I'm looking at and trying to
2 collect, versus trying to watch the crowd behind me
3 that's growing ever bigger and more angry by the
4 minute.

5 Q And so there was a break in your
6 investigation until you were comfortable that the
7 crime scene was secured; is that right?

8 A Yes, ma'am.

9 Q Is anyone else processing the crime scene
10 or do anything else or touching in the crime scene
11 while you take that break?

12 A No, ma'am. All the manpower there was
13 utilized to try to secure the crime, just secure the
14 perimeter of the crime scene. We had officers
15 10 feet apart, 5 feet apart every inch of the crime
16 scene tape trying to keep people out of it.

17 Q These were county officers, were there
18 Ferguson officers?

19 A County officers, Ferguson officers, I
20 guarantee you there were other neighboring
21 municipality officers that were there.

22 Q Approximately if you had to guess, how
23 many police officers were on the scene?

24 A 50, 50.

25 Q Is that unusual in your experience?

1 **A** Very unusual.

2 **Q** Had you ever had a scene like this before?

3 **A** Never.

4 **Q** And so after this break until you were
5 comfortable about the crime scene was secure, did
6 you begin your video walk-through?

7 **A** I did.

8 **Q** And so are you the one who operates the
9 camera?

10 **A** Yes, ma'am.

11 **Q** And do you shoot the video continuously
12 during your walk-through or do you stop it at
13 certain points?

14 **A** Once I start the actual scene video, I do
15 continue one continuous video.

16 **Q** Did you do that in this case?

17 **A** Yes, ma'am.

18 **Q** Now, you mentioned that typically as you
19 are going, is there audio on the video?

20 **A** There is.

21 **Q** You are not narrating anything?

22 **A** No, ma'am.

23 **Q** And so you can hear things in the
24 background, but you're not speaking on the video?

25 **A** Correct.

1 **Q** Any other officers that are narrating
2 what's going on?

3 **A** No, ma'am.

4 **Q** And so after you did this video
5 walk-through, again, where did you start the video
6 walk-through?

7 **A** I believe if you want to look at the
8 picture of the crime scene as a rectangle, I started
9 at the southwest corner, moved east to northeast to
10 northwest in a counter clockwise motion.

11 **Q** Okay. I'm going to hand you what we have
12 marked, and I want to make something clear on the
13 record, I believe the last time we met there was one
14 item that was marked as an evidentiary item, it was
15 a report for that witness. Just because to make it
16 clear, that was, I think, marked State's Exhibit 1,
17 which is typically what we do in cases. But because
18 this is a grand jury exhibit, we're going to use
19 different, call it something different.

20 So we will at some point re-mark that
21 report, which was State's Exhibit 1 and that will be
22 Grand Jury Exhibit 1. Okay, it is State's Exhibit,
23 it has the typical red sticker that has State's
24 Exhibit, but it will say GJ 1. We are going to mark
25 all of ours GJ and then a sequential number.

1 So I'm going to hand you what I have
2 marked as GJ 2.

3 (Grand Jury Exhibit 2 marked for
4 identification.)

5 **Q** (By Ms. Alizadeh) That's a two page
6 document. Do you recognize that?

7 **A** Yes, ma'am.

8 **Q** Is that your diagram of the crime scene?

9 **A** It is.

10 **Q** And that's the top page, correct?

11 **A** Yes.

12 **Q** And then the second page, what is that?

13 **A** Page two is a legend and it has
14 measurement details and starting points and
15 measurements.

16 **Q** Okay. And does this represent the crime
17 scene that you diagrammed on that day?

18 **A** Yes.

19 **Q** As I'm not offering a piece of evidence
20 like I would in trial, I'm just going to put it up
21 here for your benefit. And I'm going to have to
22 move this for a second. I'm also at this time going
23 to pass out copies of this diagram and the legend
24 that's attached to it. And as I said, if you would
25 just put your on it somewhere in the

1 corner and try to avoid making any marks on it or
2 notes.

3 These numbers, these things are kind
4 of tiny, it might help if you can look at your own
5 version, your own copy.

6 Can you see okay from where you are
7 sitting?

8 **A** I cannot see the left-hand side of it.

9 **Q** Okay. If you would bring your chair,
10 maybe sit next to here. I don't want you to block
11 the view, I'm going to get out of the way too once I
12 get this situated.

13 As best I can show that, can
14 everybody see it? I'm going to move out of the way.

15 So I put GJ 2 up on a projector so it
16 is displayed on the wall. I have a laser pointer
17 and so do you, Detective

18 **A** Yes.

19 **Q** Can you describe, this is the street you
20 are talking about Canfield, correct?

21 **A** Yes, ma'am.

22 **Q** And we see a directional arrow at the
23 corner at the top right?

24 **A** Yes, indicating north.

25 **Q** Okay. And so if you were to drive in this

1 direction, you are going west?

2 **A** Correct.

3 **Q** Toward West Florissant?

4 **A** Yes, ma'am.

5 **Q** As you drive in this direction, you are
6 driving east, deeper into the apartment complex?

7 **A** Yes.

8 **Q** And it eventually comes out and goes?

9 **A** A subdivision, I think it goes into
10 another apartment complex and then into a
11 subdivision.

12 **Q** Okay. And so when you arrived, you have
13 listed or diagrammed here what is a vehicle?

14 **A** Yes, that is Darren Wilson's police car.

15 **Q** And then you also diagrammed what appears
16 to be a body?

17 **A** Yes, that is Michael Brown's body.

18 **Q** And then these boxes that are here that
19 have numbers, it says Canfield?

20 **A** Those are the two apartment buildings that
21 we used as reference points for areas that we
22 collected items of evidence. I can note out the
23 addresses on here, I have it listed and ,
24 from west to east. They are actually descending, so
25 both of these buildings, while they are one

1 building, it contains two addresses.

2 So the first address, this side off
3 the left hand or west end would be , the east
4 end would be . So it is descending from west to
5 east.

6 Q Okay. So now what is this object here
7 that you've drawn?

8 A This is an entrance to a parking lot and
9 this is actually kind of a grassy hill.

10 Q So a vehicle could pull into this area
11 here and enter a parking lot?

12 A Yes, ma'am.

13 Q And then what about this right here?

14 A Same thing, this is a, this is an entrance
15 to a parking lot for this building, this is an
16 entrance to the parking lot for this building, and
17 this right here is another entrance to a parking lot
18 for a building.

19 Q So where you've got an arrow points to
20 Copper Creek Court, that is a driveway that enters a
21 parking area?

22 A Yes, ma'am.

23 Q That residents would park?

24 A Correct.

25 Q And so when you are beginning to process

1 your crime scene, you start, do you start by taking
2 measurements?

3 **A** No, measurements are the last thing that
4 we do.

5 **Q** Okay. And so in this particular case
6 after you completed the video walk-through, what do
7 you do next?

8 **A** Um, after we do the video walk-through, I
9 would take overall scene photos of exactly how the
10 scene is when you arrived before placing down
11 placards or anything that I would do to assist in my
12 investigation.

13 **Q** And so you take those photographs
14 yourself?

15 **A** I do.

16 **Q** And is that, do you use a department
17 issued digital camera to do that?

18 **A** Yes, ma'am.

19 **Q** Does that camera have a memory card?

20 **A** It does.

21 **Q** And after you take these photos, what do
22 you do with the memory card?

23 **A** The memory card is placed into a photo
24 envelope and then taken to our departments photo
25 lab.

1 **Q** Now, when you're processing the crime
2 scene and you are taking photographs, do you ever
3 delete a photograph like if you take it and you look
4 at it and you see that's blurry or doesn't show what
5 you wanted it to show?

6 **A** No, ma'am. When the flash goes off, that
7 picture is what it is.

8 **Q** And so if you hit that shutter button 300
9 times, you have 300 pictures that you send to the
10 photo lab?

11 **A** Yes, ma'am.

12 **Q** Whether it comes out blurry or
13 unrecognizable, it is going to be printed, correct?

14 **A** Right.

15 **Q** So after the photo lab, and then let me
16 ask you this, do you edit those photos in any way,
17 do you on your camera, do you use color contrast or
18 do anything to edit the image that you are taking?

19 **A** No, ma'am, I do not.

20 **Q** And after that card then goes to the lab,
21 does the lab print up your photos?

22 **A** Yes.

23 **Q** Do they call you up and say hey, Matt,
24 photos are ready?

25 **A** For homicide scenes, part of our protocol

1 is we stamp each individual photo as an official
2 photograph, but yes, they download our photographs
3 from our memory card to their servers and then for
4 homicide scenes and other various scenes where stuff
5 is requested they print out 8 X 10s that we come
6 down and stamp.

7 (Deposition Exhibit Number 3
8 marked for identification.)

9 Q (By Ms. Alizadeh) Okay. So I'm going to
10 hand you what I've marked as GJ 3, which is a yellow
11 envelope. Do you recognize your handwriting on
12 that?

13 A Yes, ma'am.

14 Q And when you received that, did that
15 envelope contain photographs?

16 A I filled out this envelope and I put the
17 photographs in here.

18 Q And the photographs that you put in there,
19 were they the photographs that you took on the scene
20 at Canfield that day?

21 A Yes, ma'am.

22 Q And you looked at each photograph
23 individually?

24 A I did.

25 Q And stamped them with your stamp?

1 **A** Correct.

2 **Q** And initialed them and number each one
3 individually, correct?

4 **A** Yes.

5 **Q** On the outside of that envelope, does it
6 say how many photographs you took?

7 **A** 161.

8 **Q** Did you go through those photographs and
9 assure yourself that there are 161 photographs in
10 there?

11 **A** Yes, ma'am.

12 **Q** I'm going to remove these photographs.
13 And these photographs are not individually marked
14 with stickers. So I'm just going to hand you the
15 stack first and you had indicated that you put your
16 stamp on the back?

17 **A** Yes, ma'am.

18 **Q** And typically write the number and your
19 initials, you didn't on that one?

20 **A** I didn't put the initial on that one.

21 **Q** Okay. Let's look at the first one and
22 this is depicting what?

23 **A** This would typically be your first and
24 last picture and anything that's seen, it is crime
25 scene information board.

1 **Q** And so I'm going to put this up there.

2 This has the date, the complaint number, which is
3 what, what's the complaint?

4 **A** Complaint number is basically your report
5 number. I particularly put the county complaint
6 number, which is denoted by our municipal code,
7 which is 99, so our report number would be
8 99-14-43984. The smaller number you see lower right
9 is Ferguson's complaint number, their mini code is
10 33-14-12391.

11 **Q** The 99 is for county number?

12 **A** That denotes county number.

13 **Q** 33 is Ferguson?

14 **A** Yes.

15 **Q** And 14 is 2014?

16 **A** Correct.

17 **Q** Whatever sequential number is the next one
18 up in the hopper is the number you get?

19 **A** Yes, ma'am.

20 **Q** So you've indicated the incident assault
21 on LEO?

22 **A** Correct.

23 **Q** And then detective DSN, that stands for?

24 **A** Departmental serial number, which is slang
25 for badge number.

1 **Q** Each officer has their own DSN?

2 **A** Yes, ma'am.

3 **Q** You are ?

4 **A** Correct.

5 **Q** Now, just so the jurors can see, I'm going
6 to turn this over and you said that you stamp each
7 photograph with your stamp and it says initial
8 photograph St. Louis County Police Department
9 Detective and your DSN, correct?

10 **A** Yes, ma'am.

11 **Q** And then it says badge number?

12 **A** Image number.

13 **Q** Image, okay, and then your initials?

14 **A** Correct.

15 **Q** So there you have written the number one?

16 **A** Yes.

17 **Q** And neglected to put your initialed on
18 there?

19 **A** I did.

20 **Q** But you recall taking this photo of the
21 placard, correct?

22 **A** Yes, ma'am.

23 **Q** Now, I want to draw your attention also
24 because this will become information later, there's
25 some printing on the back of this photo that looks

1 like it is computer generated?

2 **A** Yes.

3 **Q** I'm going to turn it around because it is
4 upside down. Does this printing print out on each
5 photograph as it comes out of the printer at the
6 lab?

7 **A** It does.

8 **Q** So it says on there SLCPD, that's St.
9 Louis County Police Department, correct?

10 **A** Yes, ma'am.

11 **Q** And then it says DCS, and then there's a
12 four digit number?

13 **A** Correct.

14 **Q** And on this photograph it says 0001?

15 **A** Yes, ma'am.

16 **Q** And the one is circled, did you circle
17 that?

18 **A** I did.

19 **Q** And then it says dot JPG?

20 **A** Yes.

21 **Q** And then it says 0001 again; is that
22 right?

23 **A** Yes.

24 **Q** So the printing that appears on the back
25 of each photo, does it sequentially number these as

1 0001 and then the next one in order would be 0002
2 and so forth?

3 **A** As far as the DSC number, that's the
4 number of the photograph on the file card. So this
5 picture is number one, the next picture would be
6 number two.

7 **Q** Okay.

8 **A** The second number that you see 0001, those
9 are not always going to be in sequential order for
10 this stack. Different things number, this one
11 printed up three separate copies. So while this
12 picture will always be number one, the next picture
13 may have number four or number eight, whatever
14 number that photo was print off.

15 If they printed up four photos of
16 that one, it would also be DSC1, the second set of
17 numbers could be 001 through 4, depending on which
18 number it was in the stack.

19 **Q** Okay. So the number that you circled,
20 which is the first number, that's what we are
21 talking about, this is your first photo?

22 **A** Yes, ma'am. There are several ways to
23 stamp the back of these. Some officers just use the
24 official photograph stamp and would just circle that
25 number as the image number.

1 **Q** So when you went through each of these
2 photographs, did you check to make sure you had each
3 of the 161 photos in sequential order?

4 **A** Yes, ma'am.

5 **Q** And then after determining that, you put
6 your initials typically and you write the number on
7 the photograph?

8 **A** Yes, ma'am.

9 **Q** Not every detective does that?

10 **A** No.

11 **Q** So we're just going to go through these.
12 That was Image Number 1, which was your placard that
13 you do at the beginning of every?

14 **A** And the first and last photographs.

15 **Q** Okay. So I'm going to put up here, I'm
16 not going to do this on everyone, but just to show
17 you guys there's the number two, correct?

18 **A** Yes.

19 **Q** And then again on this photo it has got
20 0002 on there?

21 **A** Yes.

22 **Q** This is the second picture you took,
23 correct?

24 **A** Yes, ma'am.

25 **Q** And after having looked at all of these

1 photos, do you feel that these photos accurately
2 depicted the scene as you saw it that day?

3 **A** For the most part, yes, ma'am.

4 **Q** Okay. I want to make sure I get the whole
5 photo. There we go.

6 And so in Image Number 2, can you
7 describe what is depicted there? And you can use
8 your pointer if you want.

9 **A** Okay.

10 **Q** I'm going to get out of the way.

11 **A** This would be the first photo that we took
12 after the initial walk-through and the walk-through
13 with the video. Some of the things that this video
14 shows overall number one, here is where my crime
15 scene van is parked. The traffic cones that you see
16 are things that were set in place prior to my
17 arrival.

18 Different pieces of evidence,
19 Ferguson officers or anyone else officer wise that
20 were there that knew part of the story of the scene
21 would denote that, you know, just kind of make sure
22 hey, this is where this is at or make sure no one
23 steps on it or moves it.

24 **Q** Let me stop you here, Detective.

25 **A** Yes, ma'am.

1 **Q** I know some of you on the end may not be
2 able to see the entire image because of the way that
3 screen is recessed into the wall. So first of all,
4 these photos will all be available to you to handle
5 and look at at any time you want to see them, but if
6 you feel that you can't see, you want to move your
7 chair around here and again, if you are asking
8 questions, just state your juror number, it doesn't
9 matter if you are in order, just as long as you
10 state your juror number.

11 **A** So this perspective where I'm standing is
12 also where I started the video walk-through. It is
13 the southwest corner of the scene.

14 You can see this is Officer Wilson's
15 car, down here you can see another Ferguson vehicle
16 and another Ferguson vehicle down at the eastern
17 end. Those are cars that were there when I showed
18 up to start my investigation. So again, when I show
19 up, I try not to move anything because I photograph
20 how I come into a scene.

21 Those vehicles were not there at the
22 time of the incident, they were placed there by
23 Ferguson officers to help secure a crime scene and
24 to block views of Michael Brown's body.

25 **Q** So Michael Brown's body is in between

1 those two Ferguson police cars and those are SUVs,
2 correct?

3 **A** Yes, ma'am. And you can see the corner of
4 an orange body screen between the two cars, that is
5 something that I set up after my arrival to assist
6 in blocking views.

7 **Q** Why do you do that?

8 **A** A number of reasons one, privacy. Two,
9 seeing a dead body in the middle of the street is
10 often disturbing to a lot of people. It is out of
11 respect for the victim, out of respect for the
12 family, out of respect for everyone to just kind of
13 take away a visual sign of stress more than
14 anything.

15 **Q** You learned at some point that family
16 members of Michael Brown had arrived at the scene,
17 correct?

18 **A** Yes, ma'am.

19 **Q** Were they allowed to enter the crime
20 scene?

21 **A** Initially, no. I think towards the end,
22 not towards the end, but when the medical examiner
23 had arrived and were getting ready to move the body,
24 I believe Michael Brown's father, I think, but a
25 family member was allowed to step inside while we,

1 the crime scene, while we removed his body as part
2 of the investigation.

3 Q So keeping anyone out, including family
4 members, that's all because you want this crime
5 scene to be as pristine and undisturbed as possible,
6 correct?

7 A That's our goal, yes.

8 Q And so at this point, about how long into
9 you being on the scene are we now?

10 A If I arrived 1:15 or so, probably find the
11 time stamp on this photo, it is no less than an hour
12 after I arrived just because in between this photo
13 being taken and my arrival was when the gunshots
14 were fired a second time close to the crime scene
15 and everything was put on hold.

16 Q Now, this shooting occurred at
17 approximately what time?

18 A I think I was told 12:14, 12:15.

19 Q A little after noon?

20 A Yes, ma'am.

21 Q And were you present when the body was
22 removed?

23 A Yes.

24 Q And would it be fair to say that it was
25 almost four hours later before the body was removed?

1 **A** Yes.

2 **Q** Is that unusual that a deceased person
3 would be left at the scene for that long of period
4 of time?

5 **A** No, ma'am, that is fairly common, almost
6 routine.

7 **Q** And in this case, you mentioned that there
8 were a number of times where everybody had to kind
9 of stop what they were doing because the scene was
10 becoming dangerous?

11 **A** Yes, ma'am. Not only do you have to take
12 into the fact what we were dealing with at the scene
13 security and personal safety, but St. Louis County,
14 who was requested to the scene to investigate, we
15 were not notified until almost an hour afterwards.
16 If you look at the time of four hours as a whole, we
17 only got there a little after 1:00 to start our
18 investigation.

19 **Q** Okay. So now in the photograph, I would
20 imagine it is fairly clear to everyone, this is the
21 driver's side of this vehicle, correct?

22 **A** Yes, ma'am.

23 **Q** And it is facing west, towards West
24 Florissant, correct?

25 **A** Correct.

1 **Q** If everyone can look at your diagram, you
2 diagram that as the vehicle, the rear left tire is
3 over the double yellow lines; is that right?

4 **A** Yes, ma'am.

5 **Q** Now, this tape that's wrapped around this
6 vehicle, did you put that tape on there?

7 **A** No, ma'am.

8 **Q** All right. Would you have typically done
9 that?

10 **A** No.

11 **Q** So that was done before your arrival?

12 **A** Yes.

13 **Q** Okay. And so you left it there and that's
14 how you photographed it?

15 **A** Correct.

16 **Q** That's how it was when you got there?

17 **A** Yes.

18 **Q** And then these cones you talked about,
19 these were placed before you got there?

20 **A** Yes, ma'am.

21 **Q** And during your walk-through with the
22 Ferguson officer as you said, would you say why
23 these cones were placed in various locations?

24 **A** Yes, ma'am.

25 **Q** If you all have a question about a

1 particular photograph, rather than having to say can
2 we see that one again that had the blank, blank,
3 blank, ask it now, probably make this go smoother.
4 Yes?

5 : , this may be
6 answered later, I don't know. I just want to know
7 why is the door closed, do we have any idea why the
8 door of the SUV was closed or was it reentered?

9 MS. ALIZADEH: That will probably be
10 addressed by other people. This detective wasn't
11 present beforehand and as he had said, his statement
12 is this is how it was when he got there. So there
13 will be other witnesses who are going to be called
14 to testify being first on the scene, what they saw,
15 whether they photographed anything, but that's the
16 way he observed it.

17 Any other questions about Image Number 2?

18 Q (By Ms. Alizadeh) Image Number 3, again,
19 it has got your three on there. Describe what that
20 image shows?

21 A This is kind of, I moved slightly east
22 from the first viewpoint, and typically what I would
23 do when I'm photographing an overall scene
24 photograph, I would stand in one spot and just pan
25 my camera taking this angle, I twist, this angle,

1 twist, twist. So if you can picture laying four
2 pictures out side by side, you would get, in
3 essence, a panoramic view of the scene.

4 And I would do this at this point, in
5 the middle of the side of street, at the other end,
6 go to the other side and just do the same thing. It
7 is called bracketing photos.

8 Q Okay. And so this is just a slightly
9 different angle from the previous image. You see
10 your that's your van there?

11 A Yes, ma'am.

12 Q On the left side of the image, correct?

13 A Correct.

14 MS. ALIZADEH: Okay. Anyone have any
15 questions about this?

16 Q (By Ms. Alizadeh) Image Number 4.

17 A Again, this would be, the left side of
18 this picture would be the tail end of Darren
19 Wilson's car, again, looking farther east.

20 Q Okay. Now, I think if you can see, this
21 is crime tape; is that right?

22 A Yes, ma'am.

23 Q Police tape, and does it appear that there
24 is police tape back there as well?

25 A Yes, initially when we arrived, this first

1 piece of crime scene tape was the barrier to the
2 crime scene. After several people had torn down the
3 crime scene tape, run onto the scene, the gunshots
4 being fired, the crowd would run from this building
5 in particular from this side of the crime scene,
6 around this building, through the parking lot to
7 this side of the crime scene, depending on what was
8 happening.

9 We had an opening where the crowd had
10 run to the eastern end of the crime scene. So
11 several people moved or put up a new set of crime
12 scene tape farther back into the parking lot to try
13 to keep people farther away from the crime scene.

14 Q Okay. So that was done not because you
15 determined that somehow this area was now a part of
16 the crime scene, it was done to keep the crowd from
17 encroaching upon the crime scene?

18 A Yes, ma'am.

19 Q So there's no particular processing of
20 this scene, you didn't suddenly say I'm going to go
21 and photograph and walk around this area?

22 A No, ma'am. The only thing I think that we
23 did in that area was film a witness' perspective
24 with our video cameras and that is even farther back
25 from where that crime scene tape is set.

1 MS. ALIZADEH: Anyone have any questions
2 about this image?

3 Q (By Ms. Alizadeh) And this is image number
4 five. Can you describe for them what you're seeing,
5 what this image depicts?

6 A From this angle, I think you are going to
7 start to see that I am in the middle of what I would
8 deem the crime scene looking east on the south side,
9 I'm sorry, looking west from the south side of the
10 road, and I will start kind of a pan from my left to
11 my right.

12 Again, you can see Darren Wilson's
13 police car, the cone that had been set up, my crime
14 scene van and then I had mentioned before my crime
15 scene van was just inside the initial crime scene
16 tape. You can see a crowd of people gathering there
17 on top of this hill and, of course, you can see the
18 amount of vehicle traffic that is now blocking
19 Canfield.

20 Q Okay. So the first series of photos you
21 were closer to this area to where this police
22 officer is, and you walk down here and take another
23 series of bracketing photographs?

24 A Yes, ma'am.

25 MS. ALIZADEH: Any questions about that?

1 **Q** (By Ms. Alizadeh) Number 6.

2 **A** Similar image as before, I had just tilted
3 a little bit so now you can see Darren Wilson's car
4 is on the left side of the photo and I'm panning to
5 my right, or to the east.

6 **Q** Image Number 7?

7 **A** The center of the crime scene. I am
8 basically in the middle looking from south to the
9 north across Canfield.

10 MS. ALIZADEH: Any questions?

11 **Q** (By Ms. Alizadeh) Image Number 8. Can you
12 describe what you see in there?

13 **A** Same scene or same location, I've now
14 turned further to the east. This is, I believe this
15 is Caddiefield, at the intersection of Canfield and
16 Caddiefield. A Ferguson police car, an SUV was not
17 described to me, was not there at the scene, it was
18 put in place to block the body.

19 Where the white sheet is laying
20 between this police car and the orange body screens
21 is Michael Brown's body.

22 I'm not sure what department vehicle
23 that is, again, it is a police SUV used to block
24 this street and to assist with security at the crime
25 scene.

1 **Q** So the two vehicles you see in this
2 picture as far as you know had nothing to do with
3 the incident?

4 **A** Yes, ma'am.

5 **Q** Image Number 9.

6 **A** Now, I'm now standing, if you get the
7 perspective, the Ferguson SUV that was in the middle
8 of the street is directly to my right now. I'm
9 looking back west on Canfield. This is Officer
10 Wilson's SUV.

11 MS. ALIZADEH: Any questions?

12 **Q** (By Ms. Alizadeh) Number 10?

13 **A** Same view, I've stepped into the street a
14 little farther this time. You can see this is the
15 back of the vehicle that was blocking Michael
16 Brown's body.

17 **Q** 11?

18 **A** Standing in the same place looking east.
19 I turned my camera to the north, that's the tail end
20 of the same vehicle that you saw in the previous
21 picture.

22 **Q** So this is looking north as you are
23 standing on Canfield?

24 **A** Correct.

25 **Q** And so Michael Brown's body would be

1 outside of the frame on the right?

2 **A** Yes, ma'am.

3 **Q** Image Number 12.

4 **A** I've now turned, same viewpoint looking to
5 the east. You can see the Ferguson police vehicle
6 blocking this end of the crime scene, several cones
7 that were placed out prior to my arrival marking
8 evidence that they had located. Under the sheet is
9 where Michael Brown's body is located. The sheet
10 was also placed there prior to my arrival.

11 The orange body screens are things
12 that I added to the scene when I arrived to assist
13 in our investigation.

14 **Q** From your perspective, the other Ferguson
15 vehicle that was blocking the scene was in this
16 direction; is that correct?

17 **A** Yes, ma'am, it would be over my left
18 shoulder.

19 **Q** That hasn't been removed from the scene?

20 **A** No, ma'am, it is still there.

21 **Q** Number 13.

22 **A** Same standard view, I've moved from the
23 street level back across the sidewalk to show a
24 wider perspective. Again you see, you get a better
25 look at the different cones were set up marking the

1 evidence around it.

2 **Q** And just to clarify, this here is that
3 Copper Creek Court on your diagram?

4 **A** Yes, ma'am.

5 **Q** So vehicles can drive up here and park
6 back here, right?

7 **A** Yes.

8 **Q** Number 14?

9 **A** Standing further east looking back west
10 you can see now that there is crime scene tape
11 between this, my viewpoint and Michael Brown, give
12 you a wider, overall perspective of the crime scene.

13 **Q** You are still looking west on Canfield
14 towards West Florissant?

15 **A** Yes, ma'am.

16 **Q** So this vehicle, again, is not involved in
17 the crime scene, it is blocking?

18 **A** Correct. The vehicle that you see in the
19 far end of this photograph that's angled is Officer
20 Darren Wilson's car.

21 **Q** Now, in the image, what is this thing
22 right here on the ground?

23 **A** This is a sand weight that is used to
24 weigh down these body screens. They are made out of
25 extreme light PVC and cloth, so any type of breeze

1 would move them. You can see that there are several
2 weights holding down the feet of the body screens
3 that are up. This is one that was just left there
4 while we were there.

5 Q That is yours?

6 A It is.

7 Q But not part of the crime scene?

8 A Correct.

9 Q Number 15?

10 A Same viewpoint. I think I just turned a
11 little bit to the north side again because in the
12 last picture, you could see Officer Darren Wilson's
13 car to the far end, I'm just panning to my right.

14 Q 16?

15 A I've now moved to the north side of the
16 street and I'm looking south. This is the car that
17 was used to block the view of the body, the body
18 screens that I assembled and set up. Again, the
19 body screen weight that was left at the scene,
20 Michael Brown's body is behind these screens, this
21 is Caddiefield that you can probably see in your
22 diagram, I think.

23 Q And now we see the crime scene tape along
24 here and running across here. These people back
25 here are just a part of the crowd that's gathered?

1 **A** Yes, ma'am.

2 **Q** Approximately how many people, if you had
3 to guess, bystanders that were just there?

4 **A** In that photograph?

5 **Q** Just overall?

6 **A** Altogether, 3 to 400.

7 **Q** I'm going to show you Image Number 17.

8 **A** Same viewpoint, on the north side of the
9 street looking south. Again, the body screens and
10 then this vehicle here is Darren Wilson's police
11 car.

12 **Q** Now, at any time during the time you were
13 processing the scene, did you feel that anybody,
14 whether it was a police officer or a citizen in any
15 way suggested that you not perform your duties the
16 way you thought they should be performed?

17 **A** No.

18 **Q** Were you ever told don't photograph this
19 or in any way did you feel that someone was trying
20 to influence you to do something other than what you
21 felt you would typically do?

22 **A** No, ma'am, not at all.

23 **Q** Looking at Number 18.

24 **A** Same viewpoint, I've now turned almost
25 completely east. This is the vehicle blocking

1 Michael Brown's body. His body would be just to the
2 left out of frame and this is Darren Wilson's police
3 car.

4 : . I have a
5 question, are you by yourself as you are walking
6 around doing these photographs or anybody with you?

7 **A** During the video process of it, since it
8 is a continuous video, at this particular scene I
9 typically would have one person, another crime scene
10 detective that is assisting me walk with me,
11 basically with a hand on my shoulder making sure I
12 don't trip over something in a hallway or a street,
13 because I'm looking directly at that view finder so
14 I can get the perspective I want to.

15 This particular case there was, I was
16 running the video and I had three other crime scene,
17 two other detectives and my detective sergeant. One
18 was guiding me so I didn't trip or step on anything,
19 the other two to get the perspective for the video.
20 I had to get very close to the crowd. So the two
21 people that were assisting him were making sure the
22 crowd wasn't going to grab, push, throw, do
23 something to us.

24 Okay.

25 **A** Short answer no, I don't do videos by

1 myself, photographs I do, I do by myself.

2 **Q** (By Ms. Alizadeh) You make the
3 determination in what's being photographed, nobody
4 says take a picture of this, don't take a picture of
5 this?

6 **A** Correct.

7 **Q** They might point out?

8 **A** They can point out something that they
9 would like to have a photograph of as part of their
10 investigation. But never have I been told don't
11 photograph this.

12 **Q** Okay. Number 19?

13 **A** This is from the same view point as the
14 previous picture. We use 18 to 35 millimeter
15 lenses. I just zoomed in to the 35 millimeter to
16 show perspective of Darren Wilson's police car.

17 **Q** Number 20?

18 **A** Yes. From the last perspective I have was
19 standing here looking almost directly east. I've
20 now moved to the center of the north side of
21 Canfield looking back east. Again, Caddiefield is,
22 that's the street sign for Copper Creek Court and
23 then Michael Brown's body.

24 **Q** So Darren Wilson's vehicle is down this
25 street to the right?

1 **A** Yes, ma'am.

2 **Q** And that's 21, I believe, let me look.

3 **A** Yes.

4 **Q** Yes, 21?

5 **A** Same perspective. I've now twisted to my
6 right. Caddiefield Court would be to your left.
7 You can no longer see the street sign just looking
8 to my right.

9 **Q** Number 22. You want to hand them to me?

10 **A** I can, I can probably put them up on this.

11 **Q** You want to do that?

12 **A** I can.

13 **Q** This is number?

14 **A** 22.

15 **Q** 22. That will make it easier.

16 **A** Same perspective. The vehicle that was in
17 view in the previous photograph is partially cut
18 off. I'm panning farther to my right showing my
19 bracketed part of the scene. Any questions?

20 Photo Number 23. Same as before,
21 turning farther to my right. Now you can see
22 Darren's police car within the scene and the cones
23 marking different pieces of evidence.

24 Number 24. Almost the exact same
25 photo as before. I think I may have zoomed in to

1 show the area which we were looking at.

2 Number 25. I didn't initial it. As
3 the perspective goes from the diagram, I'm now
4 standing on the northwest corner of the crime scene
5 looking east, Caddiefield is on your right, Copper
6 Creek Court is here on your left, and then the two
7 vehicles that were blocking Michael Brown's body.

8 Number 26. Same perspective just,
9 turning to my right bracketing the photo.

10 Number 27. Turning farther to my
11 right, you can no longer see the two vehicles that
12 were blocking the body and this is the center of
13 Canfield.

14 Number 28. I'm on the north side of
15 the road facing almost directly south in the middle
16 of the crime scene. You can see on the right-hand
17 side of this photograph, the back end of Darren
18 Wilson's police car that has the crime scene tape
19 applied directly to it. The crime scene tape that
20 you see on the ground again from one of the earlier
21 photos, that was one of the crime scene tape
22 officially put after the crowd moved. They were
23 able to take that down and move that crime scene
24 perimeter back.

25 Number 29. Panning to my right

1 further, the previous picture you could see the tail
2 end of the car. Here again is the police car in its
3 entirety and the tape had been torn down.

4 Number 30. I've now moved farther to
5 the west. Still on the north side of the street,
6 this is the front end of Darren Wilson's police car.

7 Q Now, let me stop you here. As a part of
8 the scene like this type of scene, if you had noted
9 or scene, for example, tire marks, whether they are
10 skid marks or marks in the grass indicating
11 possibly, you know, the travel of the vehicle, the
12 speed it was traveling and so forth, and you're not
13 an accident reconstruction person, correct?

14 A No, ma'am.

15 Q If you had seen tire tracks, like skid
16 marks around this vehicle, would you have documented
17 those?

18 A Yes, that would have been something that I
19 would have recognized as probably important to the
20 scene. No tire tracks of any sort, any skid marks
21 or I didn't notice any and none were brought to my
22 attention and I didn't document anything.

23 Q And in preparation for your testimony
24 today, did you and I look in these photographs and
25 did you look to see if you could see in those

1 photographs?

2 **A** We did, yes.

3 **Q** Did you see any type of tire marks or skid
4 marks?

5 **A** No, it was images that we looked at that
6 had closer views of the tires on his police car that
7 were actually focused on pieces of evidence, and we
8 could not see any type of skid or tread mark
9 anywhere.

10 **Q** And those pictures are included in your
11 batch of pictures?

12 **A** Yes, ma'am.

13 MS. WHIRLEY: Was it brought to your
14 attention, this is Sheila Whirley, was it brought to
15 your attention that you should look for skid marks.

16 **A** At the scene?

17 MS. WHIRLEY: Yes.

18 **A** No, ma'am.

19 MS. WHIRLEY: Okay.

20 **A** Number 31. Same perspective where I had
21 moved, I could see in front of Darren Wilson's
22 police car. Now looking back farther to the east,
23 kind of bracketing photos from my right to my left
24 this time.

25 Number 32. Same perspective. Turned

1 from the northwest corner looking almost directly
2 east.

3 Number 33. Same perspective again,
4 18 to 35 millimeter lenses. I just zoomed in that
5 perspective to give you an idea what we were looking
6 at farther down the street.

7 **Q** (By Ms. Alizadeh) So you didn't actually
8 walk closer to that scene?

9 **A** No, ma'am. Just zoomed in from the
10 previous perspective.

11 Number 34, the first group of
12 pictures were what we refer to as my overall photos
13 of everything. Now is when I would typically start
14 taking my individual photos of items of evidence.

15 **Q** Okay. So can you describe what number is
16 this, 34?

17 **A** This is number 34, yes.

18 **Q** What is this picture and why you took it?

19 **A** Okay. As a procedural thing, if I'm going
20 to do my evidence in order, you can see now you will
21 see the yellow evidence tents are placed down
22 throughout the scene. In particular number one. In
23 a perfect world, you would take a photograph of
24 evidence number one, you move to number two, number
25 three just to keep everything in order and that's

1 the order that we find things. There is not
2 necessarily a rule or law that says the item that
3 you see first has to be number one and everything
4 has to go in order.

5 It could very well, for instance, in
6 this scene, if I marked number one and number three,
7 or that's number two there, I could mark 1 through
8 30 and then when we're getting ready to go find a
9 shell casing on the other side of number one and
10 have that be evidence item number 31. So it is not
11 necessarily in the physical space things are
12 numbered, they are numbered how we find them.

13 Q So during the first series of photographs
14 that we've seen and that was kind of your
15 walk-through of the scene?

16 A Yes, ma'am.

17 Q Did you take a break and then place
18 placards in areas or were those placards visible in
19 your earlier photographs?

20 A No, they are not visible in the overall
21 photographs. The overall photographs I take right
22 after the video is done to show an overall view in
23 pictures, not just video, of what the scene looks
24 like when I arrived.

25 Q So after you've got done with the overall

1 walk-through photographs.

2 **A** Yes, ma'am.

3 **Q** Is that when you then go through the scene
4 and put placards down?

5 **A** At that point I would walk through and
6 placard items that I know our evidence. Things that
7 are pointed out to me that were noted by the traffic
8 cones first responding officers put down that they
9 saw, and I would put my placards there on those
10 pieces of items.

11 During that time you may notice
12 another shell casing or something else and, of
13 course, we would placard that. Once those things
14 are placard, we start taking our overall photos and
15 close-up of each placard.

16 **Q** These items that have a placard, and I
17 think maybe you can see that that is number one
18 there, does that correspond with your diagram where
19 you have a number one with a circle on it?

20 **A** Yes, ma'am.

21 **Q** At this point after having documented
22 these placards and you said you took measurements at
23 a later time, those items that are numbered are
24 depicted on the diagram?

25 **A** Correct, on the diagram. All the little

1 bubbles you see, and that's not the best copy of it,
2 but all the small circles that you see have a number
3 inside of them denoting that item of evidence and
4 its location at the scene.

5 Q And then the legend that's attached to
6 that diagram would tell you what number one is?

7 A Correct.

8 Q Okay. And so number one here by the tire,
9 of the front left tire of Darren Wilson's vehicle,
10 what is that?

11 A I don't have my list. I'm not sure, is it
12 a bracelet?

13 Q Here, is this yours?

14 A It is a black and yellow bracelet.

15 Q And then this thing right here, number
16 two, what is that?

17 A A red baseball cap.

18 Q Number three?

19 A A spent .40 caliber shell casing.

20 MS. ALIZADEH: Any questions so far?

21 : . Number
22 five is another black bracelet?

23 A Yes, ma'am.

24 Thank you.

25 A Okay.

1 :

2 **A** Yes, sir.

3 When you, I guess, put the
4 placards down.

5 **A** Correct.

6 Was there anything that
7 you found on your own or was everything already
8 marked?

9 **A** No, there were several items that I found
10 on my own afterwards.

11 .

12 **A** Yes.

13 You said that three and
14 four were .40 caliber spent casings, on the list it
15 says Federal, what is meant by Federal?

16 **A** Federal is a brand name. Federal is the
17 name of the brand that is actually stamped on the
18 tail end of the bullet.

19 Okay.

20 MS. ALIZADEH: Any others? Okay.

21 **A** Image 35.

22 MS. ALIZADEH: Any time you want to take a
23 break or stand up, feel free to do so.

24 **A** The previous image was kind of an overall
25 view of the several placards that you could see. So

1 in the previous image you saw what I would term
2 overall view. This would be an intermediate view
3 kind of referencing where in space placard number
4 one is, you can still see the driver's front wheel
5 of that.

6 Image 36. This would be the close-up
7 view of item number one. This is a hard plastic
8 placard that's number one, that has a scale printed
9 on it to show size. And that's the black and yellow
10 white bracelet.

11 Q (By Ms. Alizadeh) Now at this time, do you
12 know if that bracelet has anything to do with your
13 scene or the incident?

14 A No.

15 Q You are photographing things, you're not
16 sure what involvement they may, they may have direct
17 relation to the incident, they may have no relation
18 to the incident?

19 A Correct.

20 Image 37.

21 Q Can you twist it?

22 A Yes. This would be the overall view that
23 I would show starting to zoom in on item number two,
24 again, giving reference in space how it is located
25 to Darren Wilson's vehicle.

1 MS. ALIZADEH: I will tell all of you that
2 when it comes time to you actually looking at the
3 photos, they are not as blurry as what you are
4 seeing up here.

5 A Thank you for clarifying that. I do take
6 better photographs than that.

7 Image 38. This would be the
8 intermediate view of evidence item number two.

9 Image 39. I think we spoke about
10 this yesterday, the evidence item placard number two
11 has an asphalt mark, tar mark in the middle of the
12 placard. Has nothing to do, this is showing
13 evidence item number two, just happened to be there
14 in the photograph.

15 Q (By Ms. Alizadeh) This thing here to the
16 right?

17 A That is the traffic cone that was in place
18 prior to my arrival marking the location of that
19 piece of evidence.

20 Q So you don't remove the traffic cones when
21 you are doing this?

22 A No, ma'am.

23 . Had that
24 traffic cone not been there, would have placed that
25 placard to the right side of the cap then?

1 **A** Probably.

2 Okay

3 **A** I try not to move anything when I'm
4 placing my placards.

5 Okay.

6 **A** Image Number 40. We were going towards, I
7 think that's item number three, again, my overall
8 view showing space where it is located on the
9 driver's side.

10 Image 41, intermediate view of item
11 number three.

12 Image 42, would be my close-up view
13 of item number three, which again is the spent .40
14 caliber Federal shell casing.

15 **Q** (By Ms. Alizadeh) Now, let me ask you a
16 question. I want to clear up something, some people
17 might perceive, are you in any way saying that that
18 was the third shot fired by giving that number
19 three?

20 **A** No, ma'am.

21 **Q** Are you able to determine when you are
22 collecting these shell casings in what order these
23 shell casings were fired out of a weapon?

24 **A** No, ma'am.

25 **Q** So each little shell casing doesn't come

1 with a number on it that you put in your magazine in
2 a numeric way?

3 **A** No, they do not.

4 **Q** It would help you if they did, correct?

5 **A** Tremendously so. These things, the
6 numbers, the placards in any of my photos and most
7 anyone they have nothing to do with the order in
8 which things were done during a crime. They are
9 specifically the order in which we found that piece
10 of evidence, and the number that's assigned to it is
11 just to help us determine which piece of evidence it
12 is. Has no other chronological significance.

13 **Q** So in your report you refer to that this
14 is evidence item number three in the envelope it is
15 packaged in, it is denoted as evidence item number
16 three?

17 **A** Yes, ma'am.

18 **Q** With a description?

19 **A** Correct.

20 **Q** So it keeps that number?

21 **A** Yes.

22 **Q** This shell casing that you photographed is
23 still number three, your evidence item number three?

24 **A** It is my evidence item number three.

25 **Q** Okay.

1 : I don't know
2 too much about guns and stuff like that, so from
3 that shell casing, where is the front of the bullet,
4 where is the back of the bullet, can you tell me
5 what direction it is facing?

6 MS. ALIZADEH: Let me clarify something
7 here. We will have ballistics people, let me ask
8 you detective, are you trained in firearms?

9 **A** Yes, I am a firearms instructor for our
10 police department.

11 Q (By Ms. Alizadeh) So you feel that it is
12 within your expertise to talk about, this is called
13 a cartridge; is that right?

14 **A** Casing.

15 Q A casing. You are able to answer her
16 question, you feel comfortable doing that?

17 **A** Yes, ma'am, I can do that.

18 Q Okay.

19 **A** As far as the direction the bullet is
20 facing, I can't tell you, but as far as what you
21 would determine the front would be where the actual
22 bullet itself would come from, would be this hollow
23 end of the shell casing.

24 : . You
25 talked a second about how that happens, how a

1 handgun goes through that process, how casings are
2 ejected, it doesn't happen every time they fire a
3 bullet. How far do you think they might travel,
4 anything about that for people that are not familiar
5 with that? You might want to address that.

6 MS. ALIZADEH: You know what, I would like
7 to talk about in answer to your question is his
8 familiarity with cartridges and shell casings and
9 projectiles and firing pins because he can testify
10 about that, but as far as like how they're ejected
11 from a particular gun, how far they travel, I
12 believe we had this conversation before today, you
13 feel that is outside of your area of expertise?

14 **A** Far outside.

15 MS. ALIZADEH: If you want to ask him
16 questions about how, what the components what we
17 normally think of is a bullet what are the
18 components, what happens to it when it is fired, I
19 think he can answer that.

20 Just to rephrase, one of
21 these casings is ejected every time this weapon is
22 fired, this particular weapon is fired, correct?

23 **A** If it functions properly, correct.

24 All right.

25 MS. ALIZADEH: Any other questions?

1 . Are we also to
2 expect all of these listings for a casing are from
3 Officer Wilson's gun at the time.

4 MS. ALIZADEH: We will have testimony that
5 will talked about their comparison. As you recall
6 he talked about taking items of evidence to the lab
7 and our laboratory has a ballistics section. So at
8 some point you will hear about the testing that they
9 did and they will refer to this as evidence item
10 three, but to make it even more confusing for you,
11 the lab will give it it's own number. It will be
12 like Q7 or something.

13 But there will always be paperwork to show
14 that this shell casing right there was picked up by
15 this officer and put in an envelope and it is
16 forever his evidence item number three. It might
17 have another lab number that the lab uses and then
18 someone who is going to testify about what they did
19 with this and what conclusions they draw from their
20 examination.

21 Okay, thank you.

22 **A** Image 43. This would be my overall view
23 of evidence item number four, which is down here in
24 the lower part of the photo.

25 **Q** (By Ms. Alizadeh) This is Darren Wilson's

1 vehicle?

2 **A** Correct, you can still see the placards
3 for one, two and three.

4 **Q** Okay.

5 **A** Image 44. In the previous image I was
6 standing on the southern side of the road looking
7 north, and you can see item number four.

8 What they typically will do again in
9 a perfect world is you always try to angle your
10 placards all facing the same direction. So if you
11 are standing in the middle of the road, you can see
12 the number of each one because they are basically a
13 triangle. And turned to the side you can't see what
14 number it is on.

15 So in this photo all I did was turn
16 or moved to my left a little bit so you can see the
17 front of the evidence placard.

18 **Q** Can I ask you, and you can see it also in
19 Image Number 43, and you can kind of see it in this
20 image, but there is a thing that's down here that's
21 yellow?

22 **A** I believe that is actually a knotted up
23 piece of crime scene tape.

24 **Q** So that's not a placard?

25 **A** No, ma'am, it is not a placard. I believe

1 initially that was laying down somewhere around here
2 near this item number four, which is another shell
3 casing. When and/or something moved or threw it
4 down on the sidewalk.

5 Q So that yellow thing right there has no,
6 as far as you know, no evidentiary value?

7 A Correct.

8 Q You didn't seize it or package it?

9 A No, ma'am.

10 Q Okay.

11 A Image 45. Close-up view of item number
12 four, another spent shell casing.

13 Image 46. I've now moved over to the
14 northern side of the street and this is my overall
15 view of evidence item number five.

16 Again, in a perfect world, the
17 attempt is made to photograph items of evidence in
18 the order that I find them.

19 Image 47. Intermediate view of
20 placard number five.

21 Image 48. Clarify this as again
22 another intermediate view. You can still see part
23 of Darren Wilson's police car, be it that may be a
24 running board somewhere at the bottom of his
25 vehicle, again, placard number five.

1 Image 49. Close-up view of the
2 vehicle, the bottom of the vehicle can no longer be
3 seen. My evidence placard and then a black beaded
4 bracelet.

5 Image Number 50. This, looking at
6 the next photo, this is an overall view of evidence
7 item number eight, I think the last one we had was
8 number five. Again, the ideal world you can
9 photograph everything in sequential order. I
10 believe items number six and seven were farther down
11 the street. So at the time that this photo was
12 taken, I didn't want to move down the street and
13 then move back. Eight and nine were right in front
14 of the car.

15 I stayed in this area to continue
16 with the photograph, this overall view. What we are
17 looking at here is a red stain on the driver's door.

18 Image 51. You can see this is what
19 we would use as a placard. There is some adhesive
20 removable stickers that are numbered one through
21 zero or one through nine and zero that we can make
22 combination of numbers. Obviously, this is
23 something that we would typically stick on a vehicle
24 or a window or something that we can't stick a
25 placard onto, just to number in our photographs as

1 evidence item number eight. It is denoting a red
2 stain below that.

3 52, Image 52. This would be the
4 close-up view and again, it is not in focus with the
5 projector, but you can see that the placard number
6 eight is there, it has a small scale and items of
7 this nature. We would typically insert my own
8 visual scale in the photo to show size and shape of
9 whichever item I'm photographing at that time.

10 Q Now, Detective all of these systems
11 so far that you've testified about are all things
12 that you at some point picked up and put them in an
13 envelope and packaged them, correct?

14 A Yes, ma'am.

15 Q So this is a red stain that is on the side
16 of a vehicle, correct?

17 A Yes.

18 Q Did you seize that?

19 A I did.

20 Q And how do you seize something like that?

21 A This particular piece of evidence, we call
22 it a red stain, it was actually kind of, I don't
23 want to use the term fleshy, but it wasn't like a
24 liquid. I was actually able to seize that with a
25 pair of tweezers.

1 **Q** So that red thing just kind of peeled off
2 the car?

3 **A** It came off completely, yes.

4 **Q** And you packaged that substance or
5 whatever it was?

6 **A** Yes, ma'am.

7 **Q** Was, in your experience with working with,
8 for example, you know, blood stains or blood
9 spatters, did it appear as if it was a blood droplet
10 or spatter?

11 **A** No.

12 **Q** So it was something else?

13 **A** Something else.

14 **Q** All right.

15 **A** Image 53. Overall view, what this is
16 looking at this is obviously, not obviously, still
17 the driver's side of the vehicle, rear passenger
18 door, the rear tire here. You can see the placard I
19 put on there. Again, was an adhesive sticker for
20 number nine. It is covered up partially by the
21 police crime scene tape that was applied by Ferguson
22 prior to our arrival.

23 **Q** So to find that item number nine, you
24 actually lifted up the crime scene tape to look at
25 the vehicle, but then once you placed a placard on

1 the car, you put the crime scene tape back where it
2 was?

3 **A** Yes, ma'am.

4 **Q** So you did move something on the crime
5 scene, but only to search for evidence?

6 **A** Yes, ma'am.

7 Image 54. You can see this
8 photograph, crime scene tape is no longer there and
9 basically what's happening is I am holding the crime
10 scene tape up with my left hand and taking the
11 picture with my right hand.

12 **Q** And what is Exhibit 9 or what is your item
13 number?

14 **A** Number 9 is a red stain on the exterior of
15 the driver's side rear door.

16 **Q** Okay. On the driver's side rear door?

17 **A** Yes, ma'am.

18 **Q** It is a four door vehicle?

19 **A** Correct. A lot of times people use left,
20 right sided vehicle, that often still confuses me.
21 I use driver and passenger side.

22 This would be a close-up view of the
23 red stain on the driver's side rear door. Again,
24 adhesive sticker, and the evidence below it.

25 Image 56, this would be the previous

1 photo was shot more at an angle or somewhat of an
2 angle. This you can see the crime scene tape, I can
3 no longer hold it up with my left hand and hold my
4 scale and tape. So I pushed it down below the item
5 of evidence so I can again put my scale into the
6 photograph so you can show the size and shape of the
7 red stain.

8 Q Now, did you seize that item number nine?

9 A Yes, this particular piece of evidence
10 appeared to be some type of dried liquid. I was
11 able to collect it with a DNA swab.

12 Q So do you have swabs that you carry in
13 your van?

14 A Yes, ma'am, sterile swabs from the
15 manufacturer, sterilized water that we use to wet
16 it. It is oversized professional Q-Tips. We wet
17 the end of it, that piece of evidence we were able
18 just to collect it with a Q-Tip and put it into a
19 package and submit it.

20 Q The entire time you are at the crime
21 scene, are you wearing latex gloves?

22 A Yes, 90, 95 percent of the time if I'm at
23 my van doing paperwork, it is not always easy to
24 write paperwork, but any time I leave my van,
25 majority of the time between collecting different

1 items of evidence, you change gloves between those
2 items.

3 Q So the tools that you use to collect this
4 are in a kit that the police department purchases
5 from a company, correct?

6 A Our crime lab.

7 Q Your crime lab?

8 A Yes.

9 Q They are sterile?

10 A Yes.

11 Q They are specifically for the purpose of
12 collecting items that might be analyzed for DNA at a
13 future time?

14 A Yes, ma'am.

15 Q So no one else's DNA would have been on
16 that Q-Tip prior to you opening that package and
17 then rubbing, you said wet the Q-Tip with sterile
18 water?

19 A Yes, ma'am.

20 Q And then you basically rub it on that
21 stain?

22 A Correct.

23 Q In essence, is it somewhat, it then
24 changes that stain, correct?

25 A It does. Generally the stains that are

1 that small, the stain is gone when we collect it.

2 **Q** Okay.

3 **A** Obviously outside of microscopic traces
4 that would still be left on there, to the naked eye
5 I took that stain off of there.

6 **Q** And then regarding evidence item number
7 eight, the substance that you removed with tweezers?

8 **A** Yes, ma'am.

9 **Q** The tweezers that you use, are those
10 also --

11 **A** Again, supplied by our crime lab,
12 sterilized individually packaged, they came out of
13 the same DNA kit.

14 **Q** You open up those?

15 **A** One time use.

16 **Q** You throw them away when you're done?

17 **A** Yes, ma'am.

18 MS. WHIRLEY: Sheila Whirley. What do you
19 do with those items like number eight and number
20 nine that you seize once you seize them, what do you
21 do with them?

22 **A** Number eight, since I was able to take it
23 off with as a whole with tweezers, it was put on a
24 piece of what we refer to as wax paper, kind of wax
25 paper. This is in our sterilized kit. It is folded

1 so it doesn't get lost. And that folded piece of
2 wax paper is then placed inside of a coin envelope
3 and that envelope is sealed.

4 Item number nine, since we use
5 Q-Tips, we have these basically long Q-Tip boxes and
6 again, they are provided by our crime lab. They
7 come from a sterile environment, they are inside our
8 DNA kit. You don't handle them without gloves.
9 Each individual swab, be it a touch DNA swab or
10 swabbing of a red stain or buccal swab to collect
11 someone's DNA goes into its own individual swab box.

12 MS. WHIRLEY: And then what do you do with
13 it?

14 **A** Once they are in the swab box, they go in
15 an evidence envelope.

16 MS. WHIRLEY: For the purpose of?

17 **A** Sealing that as my piece of evidence and
18 taking it to the crime lab and keeping it as sterile
19 as I can.

20 MS. WHIRLEY: Thank you. That was all.

21 MS. ALIZADEH: Okay.

22 **A** 57. This is a series of photos that I'm
23 attempting to show the driver's side mirror being
24 pushed outside of its natural position. This is
25 something that was brought up as part of the

1 investigation just because we were told that there
2 was a struggle in and/or around the police car.
3 This was an item of evidence like hey, that mirror
4 may have been pushed during the struggle. You make
5 sure to note that in your photos.

6 Q (By Ms. Alizadeh) So this would be an
7 example that somebody had pointed out this may have
8 some relevance to the actual incident and so go
9 ahead and photograph that and document it?

10 A Yes, ma'am.

11 Q So the mirror on that police car, is it a
12 mirror that can move? You don't break it by moving
13 it?

14 A No, it is not broken, it is like many new
15 cars nowadays, it swivels and moves front to back.

16 Q If you are sitting in the driver's seat,
17 the mirror is pushed forward to the front of the
18 vehicle?

19 A Correct.

20 Q If you are sitting in the driver's seat,
21 you can't use that side mirror at that point to
22 check?

23 A No, you would not be able to see that.

24 Q All right.

25 A Image 58. Intermediate view, same

1 driver's side mirror pushed to the front.

2 Q And this thing right here, what's that?

3 A That would be the spotlight that's
4 accessible from the driver's side you operate with
5 your left hand.

6 Is that mirror intact or
7 is it broken?

8 A It is intact. The next photo is a little
9 bit closer up so you can it.

10 : . Is the driver's
11 side window open or closed, I've haven't been able
12 to tell in the photos?

13 A It is not there right now, it is down.

14 It is open.

15 MS. ALIZADEH: Did you determine that the
16 window was broken?

17 A It had been broken out.

18 Q (By Ms. Alizadeh) The driver's side window
19 is broken and there is no glass in the door frame of
20 the driver's side window; is that correct?

21 A Correct.

22 Q And then --

23 A Actually, the glass, the broken glass is
24 still within the door frame itself, but as far as
25 intact window that would be able to roll up and roll

1 down or be halfway up is not there.

2 To clarify there is no
3 glass fragments outside the car or inside the car,
4 it was all contained within the vehicle.

5 **A** No, we talked about this. There is
6 definitely glass inside the car. You can see broken
7 glass in the seat and the floorboard. To my
8 knowledge, I do not remember glass outside of the
9 car.

10 Image 59, it is much clearer than the
11 actual photograph, it is a closer up view of that
12 mirror. You can also see item number eight is still
13 on the car as of this time.

14 Image Number 60. Several things you
15 can see in this video again, it is still --

16 **Q** (By Ms. Alizadeh) Photograph?

17 **A** I did say video. Image, you can see in
18 this image, you can still see the crime scene tape
19 is there. Evidence item number eight with the
20 placard or sticker is still next to it. Nine, I
21 believe, is now underneath this crime scene tape.
22 What we are focusing on in this photograph is a
23 defect to the exterior side of this door.

24 Image 61, intermediate view of the
25 same defect. This would be the handle to the

1 driver's side front door. It is just below.

2 Image 62, a view straight on to the
3 defect with my scale in the photo to show size and
4 shape.

5 Q (By Ms. Alizadeh) Let's back up here for a
6 second. I think you need a break, he's the one
7 whose fingers are flying a million miles an hour.
8 Let me just finish up talking about this and we can
9 take a little break for sure and everybody else can
10 get up and take a break.

11 So this defect that's on the outside
12 of the driver's door or Officer Darren Wilson's
13 vehicle.

14 A Yes, ma'am.

15 Q And so this door is metal, correct?

16 A Yes.

17 Q Can you describe what that defect appears
18 or looks like to you, not what you concluded it is,
19 but describe it?

20 A For lack of a better term, this is convex,
21 it is coming out of the vehicle. It is not a dent
22 in the vehicle. And it is also, it is hard to tell
23 again what you are seeing up there.

24 It is not a stain that's on the
25 vehicle, you can tell that paint has come off of the

1 vehicle. Something from the outside or from the
2 inside coming out made that defect to the exterior.

3 Q And is there a hole, is there a hole in
4 what you are looking at there?

5 A From the outside of the vehicle?

6 Q From the outside of the car?

7 A No.

8 MS. ALIZADEH: Okay. Any questions about
9 this. Okay.

10 MS. WHIRLEY: Is there a hole from the
11 inside looking out?

12 A There is.

13 : Why is it
14 not notated on here?

15 A It is not a piece of evidence.

16 It isn't.

17 A The vehicle was taken as a piece of
18 evidence and processed at the crime lab by another
19 detective, but at the scene that's just a visual
20 note that I was taking. It wasn't a piece of
21 evidence that I could collect.

22 Okay. It is notated in
23 your paperwork?

24 A Yes, ma'am.

25 Okay.

1 MS. ALIZADEH: Okay. We'll take a break
2 here. Let me check on the timing of your lunch.

3 (Recess)

4 MS. ALIZADEH: This is Kathy Alizadeh. It
5 is 11:30, we just took about a ten minute break.
6 Detective is still testifying. Sheila
7 Whirley, she's left the room but everyone else that
8 was present when we began is still present in the
9 room.

10 I want to tell you that your food is
11 scheduled to be here at noon. is just going
12 to knock on the door when the food is here. At that
13 point, I will try to kind of finish up, if he's not
14 done, we're going to get to a part where I can make
15 a logical pause and you will be given your lunch.

16 It might seem like oh, let's go ahead and
17 eat while we are hearing testimony. One, you need a
18 break, I think it is good that you take a little
19 time for lunch, whether it is 30 minutes or an hour,
20 that's up to you.

21 Also, some of these photographs are not
22 going to be things you want to see when you are
23 eating lunch, of course. Ready to get started?

24 Officer , what is your next
25 photograph?

1 **A** Next photograph is Image Number 63. This
2 is again, what I took an overall photo and what we
3 are going to zoom in on is hand impression that is
4 on the rear of Darren Wilson's police car. This is
5 from east looking west on Canfield. This is my
6 crime scene van at the edge of the crime scene.

7 **Q** (By Ms. Alizadeh) Okay.

8 **A** Image 64, rear of the vehicle, the rear
9 glass of the vehicle. This would be kind of the
10 left side or driver's side of the vehicle on the
11 rear lift gate.

12 Again, it is hard to see from this,
13 not only this photograph but kind of this angle it
14 looks like a couple handprint impressions kind of on
15 the glass.

16 65. What I did in this image is I
17 moved just to my left a little bit to combat the
18 reflection of the sunlight, daylight that was there
19 to get a better image of what I was seeing in person
20 to describe what this is. It is not a bloody
21 handprint, it is not a muddy handprint, it would be
22 if the window was clean and somebody slapped a wet
23 hand on there and went down a dusty road, all it is
24 is a dust impression of a hand.

25 After I photographed this, almost

1 immediately a Ferguson officer, I don't know who,
2 came up to me because they noticed me photographing
3 this and were trying to figure out does this apply
4 to the scene? Does it not apply to the scene? I
5 had noticed it and considered I better document it.
6 After I photographed it, somebody came up to me from
7 the department and goes hey, just so you know,
8 Darren was told during roll car to get his car
9 washed because the sergeant saw the handprints on
10 the back window.

11 It was obviously deemed at that point
12 not of evidentiary value to us, but I had already
13 photographed it, so the picture shows what I took.

14 Q So had you thought that might have some
15 relevance, you would have maybe tried to lift a
16 print off of there?

17 A I would have done a number of things.

18 Q I don't want you to belabor it, you didn't
19 act any further on this handprint because it was
20 told to you it was there earlier in the morning?

21 A Correct. We did nothing other than the
22 three photos that you just saw.

23 Q Okay.

24 A Image 66, this is just an overall view of
25 the vehicle itself. I think if I remember the time

1 limit correctly, we were told that the tow truck was
2 close trying to gets its way down Canfield so we can
3 tow the vehicle away.

4 Image 67. Same thing. Just overall
5 image of the vehicle before we were getting ready to
6 tow it.

7 Image 68. Right before this image
8 was taken, my chain of events kind of got scattered.
9 I would have typically have continued photographing
10 the vehicle and then once it was towed I would have
11 taken a picture of where the vehicle was at right
12 after it had been removed.

13 Someone, I'm not sure who, be it
14 family member or someone in the crowd, had tore down
15 some crime scene tape and a few people ran into near
16 the crime scene. The decision was made then that we
17 needed to stop our order of events, how we typically
18 process a scene and we needed to get the body
19 photographed and get the body moved immediately.

20 Typically what you would see in the
21 beginning of the photographs were I had the overall,
22 the intermediate and close-up view of each
23 individual piece of evidence, that got thrown out
24 the window.

25 We not quickly ran down, but we had a

1 large crowd that had gathered now at the end of the
2 crime scene near Michael Brown. The apartment
3 buildings that you can see on either side, one in
4 the front, there is one obviously behind me where
5 I'm taking this picture. Those were filled with
6 residents on the three stories of the stairwells.
7 There were people on roofs, people had started to
8 line the crime scene from the side not being
9 blocked.

10 What we decided on doing is the
11 medical examiner, I think the fire department that
12 was there had sheets and some tarps that we were
13 going to use because the crowd at this point were
14 starting to chant, kill the police, numerous other
15 derogatory things towards everything about us. And
16 we fully expected another, I don't want to use the
17 term riot, but an outburst once we did uncover the
18 body and begin to move it.

19 We made the decision to use the
20 sheets and tarps the best we could to block the view
21 of everybody that was trying their best to get in
22 the crime scene and see what was going on.

23 Several officers that were there, I
24 would say probably 10 to 15 officers grabbed the
25 body screens, sheets, and tarps, and not just held

1 them on the ground, but held them up above their
2 heads because the apartment buildings were very
3 close to where we were at.

4 It is hard to really get a
5 perspective from this view how close those buildings
6 were to the scene. We had people on the third floor
7 apartments that could see straight down, and people
8 on roofs that could see straight down.

9 So we had people in close proximity
10 of the perimeter of that body holding screens to try
11 to block us while we're working and still trying to
12 protect the crime scene as well.

13 **Q** So this blocking maneuver I'll call it
14 that you did, was this done so that you were hiding
15 some of the things that you were doing or was this
16 done so you could avoid inciting the crowd with what
17 they see when you remove the sheet?

18 **A** It was strictly done to avoid any type of
19 emotional response that we were expecting to happen
20 when the body was uncovered.

21 **Q** You also refer to the medical examiner
22 being there?

23 **A** It was medical examiner field
24 investigator, not one of the pathologists.

25 **Q** Do you know which one it was?

1 **A**

2 **Q** So after this photograph, and you said
3 that you, it disrupted your normal course of order?

4 **A** Yes, ma'am.

5 **Q** So you can go ahead and talk about the
6 next image.

7 **A** 69. The first, the previous photo would
8 be the overall view, this would be just the
9 intermediate view of me stepping closer to the body.
10 Again, just kind of drawing your attention to what
11 we are getting ready to photograph.

12 Image 70. This image, obviously,
13 Michael Brown has been uncovered, the sheets have
14 been moved from here to this end of the body, you
15 can see now people's feet, which I would typically
16 just out of habit try to keep people out of my
17 photographs, but again, I'm standing in between
18 policemen now, kind of my back against, with the
19 scene secured and kind of collapsed down on top of
20 us to shield the public's eye.

21 Image 71.

22 **Q** Can you turn it?

23 **A** Yes, I'm sorry. Just like I would
24 normally do at the beginning of the scene taking
25 overall views from all the way around what I'm

1 trying to show you. I do the same thing with a
2 victim or Michael Brown.

3 So before I was standing over here on
4 the right side of the picture looking this way, now
5 I'm looking at his feet, I'm standing on the eastern
6 end looking to the west.

7 Image 72. Same thing, the previous
8 image I was standing probably on the double yellow
9 line, now I've moved slightly to the south and again
10 you can see the feet of the policemen that are
11 standing around holding the screens.

12 Image 73. I'm on the south side of
13 the street looking north and again just kind of an
14 overall intermediate view. This picture in
15 particular you can see that I cut off part of his
16 foot in the photograph.

17 **Q** You mean out of the frame of the
18 photograph?

19 **A** Out of frame, I did not cut part of his
20 foot off. In the photograph his foot is out of the
21 frame.

22 **Q** You see the white sheet is still above his
23 head?

24 **A** Yes. Image 74. Corrected the previous
25 photo by including his entire foot in the frame.

1 Image 75. An overall view, again, I
2 put in the center of the overall view kind of where
3 I'm going with the next information so this would be
4 in our processing of the scene. We do as many face
5 shots and identification shots as the body is found.

6 **Q** Now, when you are processing a death
7 scene, is it common place when you first see the
8 body and document it that there might be evidence of
9 medical intervention, people that might have been to
10 a scene and tried to provide medical aid to a
11 victim?

12 **A** Yes, ma'am, anything from people being
13 intubated with a breathing device, to clothes being
14 removed for CPR purposes, to just the simple EKG
15 type of devices attached to the feet to check to see
16 if there is a heartbeat.

17 **Q** In your experience in those circumstances
18 that when there is some type of medical
19 intervention, when the medical personnel are done,
20 they leave those devices at the scene?

21 **A** They do, yes.

22 **Q** Did you see any evidence of medical
23 intervention?

24 **A** No.

25 **Q** And his clothes didn't appear to have been

1 cut off or in any way moved or removed that you
2 could see where there would be leads placed on his
3 body?

4 **A** No, ma'am.

5 **Q** Okay.

6 **A** Image 76. Intermediate view Michael
7 Brown's shoulders and face.

8 Image 77. This would be the close-up
9 view.

10 Image 78. Again, an overall view and
11 in the center of the screen I see his right hand and
12 injury defect to it.

13 Image 79, what I would determine an
14 intermediate view of his right hand and the defect.

15 Image 80. Moving farther up the
16 right arm, that would be a defect injury to his
17 right forearm.

18 Image 81. This would be kind of
19 moving back again, as far as my perspective because
20 I'm starting to show the tattoo and injury to the
21 inside part of his right arm.

22 Image 82, image of the defect to the
23 inside of his right arm, all of these series of
24 photos I'm showing you. It is the body as it is
25 uncovered to me. He has not been moved, manipulated

1 with me or by any of the medical examiner
2 investigators.

3 Image 83. Photo of right arm again
4 showing visible tattoos that we can use for a
5 positive identification. If we have family members
6 that are there that can say oh, yeah, he has a
7 tattoo of this on his arm or this on his leg, stuff
8 they told us to look for that we can use for
9 identification purposes.

10 Image Number 84. Overall view and
11 what we're looking at here is tattoo on his left
12 arm.

13 Image Number 85. Tattoo on the
14 inside of his left arm.

15 Image Number 86. This would be a
16 view of Michael Brown's back. This is a standard
17 photograph that we take as part of every death
18 investigation, be it an overdose or child death or
19 anything else, we always show lack of injury as
20 well. So this is the medical examiner investigator
21 lifted up the back of his shirt just to show no
22 injuries were present there.

23 Image 87. This image is showing an
24 overall view specifically as to the location of
25 Michael Brown's left hand. These are again a set of

1 images that were requested by the detectives after
2 they had spoken with Darren Wilson and we kind of
3 had a brief, we had his first initial statement they
4 requested these photos as part of his statement. He
5 had said that Michael Brown had come back towards
6 his direction with a hand stuck into his waist band,
7 as if --

8 Q Don't speculate about what as if, this was
9 information that you got, not directly, from an
10 officer?

11 A I did not speak to Officer Wilson, I still
12 have not to this day.

13 Q This was a third hand?

14 A A detective that had spoken with him that
15 was now back at the scene giving us things to look
16 for.

17 Q This is the reason for the photograph, you
18 are not drawing any conclusions or assumptions from
19 that information, correct?

20 A Yes.

21 Q Now, in this photograph you can see yellow
22 lines that are around his extremities?

23 A Yes.

24 Q What's that for?

25 A As part of any scene, we talked about the

1 diagram that you guys have the placards are always
2 left in place even after we collect the evidence.
3 The last thing we do is diagram the scene part of
4 the diagramming of any death scene is where the body
5 position was.

6 Everyone has seen the old fashion
7 silhouette still laying on the ground, those are
8 paper and they move, particularly outdoor scenes.
9 We take chalk and we outline the location of the
10 feet, hands and head where we have those permanent
11 chalk marks, not permanent, but chalk marks on the
12 ground while we were there to measure his location
13 from after he is removed.

14 **Q** Those are marks that you make?

15 **A** Yes.

16 MS. WHIRLEY: And this is Sheila Whirley,
17 was Darren Wilson on the scene when you arrived?

18 **A** He was not.

19 MS. WHIRLEY: Okay, okay. You said you
20 investigated several police shootings?

21 **A** Yes, ma'am.

22 MS. WHIRLEY: Is that unusual for the
23 officer who is involved in the shooting to not be on
24 the scene?

25 **A** No, ma'am.

1 MS. WHIRLEY: That is pretty customary?

2 A It is a lot of protocol from many
3 departments is the officer that is involved
4 typically leaves almost immediately once they are
5 able to.

6 MS. WHIRLEY: Okay.

7 A Image Number 88. Intermediate view of the
8 location of his left hand and arm, or the position.

9 Q (By Ms. Alizadeh) This yellow right here,
10 that's not your chalk mark, is it?

11 A No, ma'am, that's the inside, that's the
12 yellow dividing line for the road. There should be
13 a chalk mark that we can kind of see here denoting
14 where his hand is.

15 Q Okay.

16 A Image 89. Outside of his shirt being
17 lifted up in the back by the medical examiner
18 investigator, this is the first time Michael Brown
19 had been moved. He was rolled onto his right
20 shoulder, again, showing the positioning of his left
21 arm.

22 Q And you were there when the medical
23 examiner rolled him onto his shoulder?

24 A Yes, ma'am.

25 Q Are you familiar with what rigor mortis

1 is?

2 **A** Correct.

3 **Q** Did you, do you believe that rigor mortis
4 had set in on the body of Michael Brown at this
5 point?

6 **A** Yes, ma'am.

7 **Q** And when the medical examiner --
8 MS. WHIRLEY: Medical investigator.

9 **Q** (By Ms. Alizadeh) Medical examiner
10 investigator turned him over, did his limbs stay in
11 the positions that they were when he was on his
12 front?

13 **A** They did, and you can see that not only
14 from the position of his arm, his leg is still up
15 and his head is not moved down.

16 **Q** So this is hand?

17 **A** I believe, is the blue glove.

18 **Q** Okay.

19 **A** The white glove is an employee of the St.
20 Louis Delivery Service, which is the company the
21 medical examiner's office uses to transport Michael
22 Brown.

23 **Q** So is this officer trying to place his arm
24 in a particular position by, in this photograph or
25 is that the way his arm was when he was rolled over?

1 **A** His arm stayed in that position from the
2 time he was rolled over until the time we rolled him
3 over onto his back.

4 **Q** Okay.

5 **A** Image 90. Previous to overall, this would
6 be an intermediate, again, showing the position of
7 his left hand.

8 **Q** And you did not witness anyone manipulate
9 that in any way did you?

10 **A** No, ma'am, other than just rolling him
11 onto his right shoulder.

12 MS. WHIRLEY: His hand, it seems like it
13 is balled up, this is Sheila Whirley, there was
14 nothing in his hand though?

15 **A** Not that I saw at the scene, no.

16 MS. WHIRLEY: Okay. And you would have
17 noted if there was something in his hand?

18 **A** Typically, yes. The body itself belongs
19 to the medical examiner. What we investigate on the
20 body at the scene is very minimal compared to what
21 they do at autopsies. If there was a knife sticking
22 out of his hand, something that is protruding, I
23 would have been able to see that and document that
24 if there was something clenched inside of his hand,
25 that is not something that we would pry his hand

1 open to see at the scene, that would be something
2 that is done after the body arrives at the morgue.

3 MS. WHIRLEY: I understand if there was a
4 weapon in his hand, you would have seen it.

5 A Yes, ma'am.

6 MS. WHIRLEY: And there was not?

7 A No.

8 Image 91. Michael Brown is now
9 rolled completely over onto his back. Again, you'll
10 see the overall photos of me walking kind of a 360
11 degree area around the body. The sheet that he's
12 laying on is not one of the sheets he was covered up
13 with, this is a new sheet, and lack of a better
14 term, body bag brought in by the medical examiner.

15 Q (By Ms. Alizadeh) This thing right here,
16 this blue thing right here?

17 A You will see that in, a couple of the
18 images, that is a handle for the bag to pick him up,
19 it is to assist in carrying people.

20 Q Okay.

21 Would the
22 old sheet that we was on, would this have been
23 collected as evidence as well?

24 A I was asked that yesterday. I did not
25 collect it, I can't say with certainty, but I am

1 assuming those type of things typically go into the
2 body bag and go to the morgue.

3 Image 92. Overall view of the
4 previous one was from like his feet looking towards
5 his head, this side view. Again, better image of
6 that blue material you see was a handle for the body
7 bag.

8 Image 93.

9 Q (By Ms. Alizadeh) Can you turn it?

10 A I'm sorry.

11 Q No, the other way, you're not on, turn it
12 around, there you go?

13 A Okay. Again 360 degree view from his head
14 looking towards his feet. Again, you can kind of
15 get perspective now the policemen that we had
16 blocking the scene.

17 Q You see those weighted sand bags along
18 here for the body screen?

19 A Yes, just like we saw in the previous
20 images at the beginning of my photos where that
21 weight was kind of left in the middle of the street.

22 Q Do you know what this is right here?

23 A I think that's another sheet that had been
24 used to cover him or part of it. There was more
25 than one sheet that had been used to cover him up.

1 **Q** All right.

2 **A** 94.

3 **Q** Can you turn it, the other way, there we
4 go.

5 MS. ALIZADEH: That means your food is
6 here. So maybe we'll try to finish with the images
7 of the body at the scene, six?

8 **A** Five more.

9 MS. ALIZADEH: And break for lunch, is
10 that all right with everybody?

11 **A** Again, just overall view of the body, kind
12 of the exact same position. This may be one of
13 those things where my camera clicked twice. I know
14 at this point there is some items sitting on his
15 stomach, this is where the investigator from the
16 medical examiner's office had removed some items
17 from his pocket to show what he had in his pockets
18 there.

19 **Q** (By Ms. Alizadeh) Now, is it typical at a
20 scene that do you ever go inside the pockets of the
21 deceased person?

22 **A** No, again, in the State of Missouri the
23 deceased body belongs to the medical examiner's
24 office in St. Louis County or to the coroner in
25 different counties, however they are titled. Body

1 belongs to them, that includes stuff that's in their
2 pockets, their clothing, everything.

3 We, myself personally, never touch a
4 body physically unless I'm at the autopsy and I'm
5 fingerprinting the deceased or anything like that.
6 But as far as searching of the body, that is
7 strictly done by the medical examiner investigator.

8 Q Were you present when the investigator
9 searched the body of Michael Brown?

10 A Yes.

11 Q Did you see him remove items from his
12 pockets?

13 A I did.

14 Q Did you see him place the items on, I
15 guess, I would say the belly of Michael Brown?

16 A Yes.

17 Q Is that something that's typically done
18 that the items were placed on the deceased body?

19 A Given space and time, they are either
20 placed on the body or if it is a large amount of
21 things they would be placed directly next to him
22 where I would photograph him and those items are
23 just returned back into the pockets of the deceased.

24 Q Okay.

25 A Image 95. Again, identification purpose

1 photos, he's now been rolled over the other side of
2 the face is what I photographed before because this
3 was the size that was down against the pavement. So
4 now I'm taking my overall intermediate views of the
5 side of the scene.

6 Image 96. Intermediate view of
7 Michael Brown's face.

8 Image 97. Just like on his arms in
9 the previous photos where I did the overall
10 intermediate close-up views of any visible defects
11 or injuries. This is close-up view of a visible
12 defect and injury to his face.

13 **Q** Now, can you tell me what portion, I mean,
14 the bridge of his nose?

15 **A** The bridge of his nose, this would be his
16 left eye.

17 **Q** Okay. And you're standing above his head?

18 **A** Directly above him pointing my camera
19 straight down.

20 Image 98. Intermediate view of items
21 removed from his pocket by

22 And Image 99 would just be a close-up
23 view of those items.

24 **Q** Now, did you seize those items?

25 **A** No, ma'am, I did not.

1 **Q** And that's because you said these items
2 belong to the medical examiner's office because they
3 were on the body?

4 **A** Correct.

5 **Q** Did you handle them in any way?

6 **A** No, ma'am. Image one --

7 **Q** Let me stop here. The items that were
8 photographed on Michael Brown, did you observe
9 put those items back in the pockets?

10 **A** Correct, yes.

11 **Q** Where he got them out?

12 **A** I did.

13 **Q** I think we are done.

14 **A** He's been moved now.

15 MS. ALIZADEH: So we'll stop right now for
16 you guys to have lunch, okay. I would just, I'm
17 going to take the photographs that we haven't
18 discussed with me, these I'm going to leave here.
19 Do what you will, but these have already been, you
20 know, looked at by you. I would suggest that you
21 just have a lunch and not go over any of this stuff,
22 but if you desire to do so, they are here, okay?
23 And let you take that.

24 And it is 12:33 approximately, and we will
25 break for lunch. Why don't you guys let

1 know.

2 MS. WHIRLEY: It is 12:05 p.m.

3 MS. ALIZADEH: Okay, sorry about that.

4 (Recess)

5 Q (By Ms. Alizadeh) So Officer or
6 Detective this is a continuation of your
7 testimony from this morning.

8 A Yes, ma'am.

9 Q So you are still under oath, you
10 understand?

11 A Yes, ma'am.

12 Q And so we're going to resume again with
13 the remainder of the photographs that you took
14 during your investigation of the crime scene.

15 So you can resume with the next
16 photograph?

17 A Image Number 100. This is a standard
18 photo that we take during any death investigation
19 photograph of where the body was after it had been
20 removed by medical examiner personnel.

21 What you can start to see in this
22 photograph are again the chalk markings we put in
23 place while the body was still there for our
24 measurement points. Also you can see an evidence
25 placard here again, once we collect evidence, the

1 placard is left in place for us to measure and
2 diagram from later.

3 **Q** Now at this point, have you collected all
4 of the evidence?

5 **A** At that point we had collected everything
6 that we had found. I had mentioned before in an
7 ideal world you see the overall, intermediate and
8 close-up view of each individual piece of evidence.
9 The shell casings, projectiles and some other items
10 of evidence that were around the body in the chaos
11 of the gunshots being fired near us, people tearing
12 down our crime scene tape and coming in, those shots
13 were missed, the photographs, the images, I'm sorry,
14 were not taken prior to us picking up those items of
15 evidence. We got them out of there to protect those
16 pieces of evidence and just didn't get photographs
17 of them.

18 **Q** But you did document them in your diagram,
19 correct?

20 **A** Yes. The last photo, the previous one
21 that was up there you can see the evidence placard
22 is still there. You will see it in some of the
23 following photos too, you will see the yellow
24 evidence placard still in place.

25 Item of evidence won't be sitting in

1 front of it, but the placard is still where the item
2 was located for measurement purposes.

3 Q Now, something that we talked about this
4 morning, and you and I had a brief conversation out
5 there about something that you recalled, I asked you
6 earlier when you were photographing the body of
7 Michael Brown up close and going to start moving the
8 body, uncovering it and moving it, you had officers
9 that were shielding you with sheets and tarps?

10 A Yes, ma'am.

11 Q And the body screens that you call them?

12 A Yes.

13 Q I had asked you if that was done to
14 conceal what you were doing from public view and so
15 that people wouldn't see what you were doing?

16 A Right.

17 Q And you had described that's not the
18 purpose for why you were being shielded, was there
19 any civilians who were allowed inside that shielded
20 area once you uncovered the body of Michael Brown?

21 A Yes, after we had put the shields up, the
22 tarps and the sheets to block the outside people
23 looking in from above our vantage point, Michael
24 Brown's father, Michael Brown, Senior was allowed
25 inside the crime scene and actually inside the group

1 of tarps to witness and observe what we were doing.

2 That served multiple purposes,
3 primarily to provide positive identification. Would
4 be no different from any other homicide scene where
5 we would have a family member provide us with
6 identification once we do go in and uncover the body
7 and everything else, just like the photographs that
8 I showed you of the tattoos on his arms, those were
9 things that the family told us to look for when
10 identifying him, but it served no other purpose than
11 letting him observe what we were doing and give us
12 positive identification of his son.

13 Q He wasn't allowed to touch anything in
14 that inner circle as you called it?

15 A No, ma'am, he stayed basically on the
16 inner perimeter that we had created.

17 Q Did he positively identify the body in the
18 street as his son?

19 A Not to me personally, but to the detective
20 he was with, yes.

21 Q Did he remain in that perimeter for the
22 duration of the time that Michael Brown's body was
23 on the street?

24 A Yes.

25 Q And after he was removed by the delivery

1 personnel, did he then leave the scene?

2 **A** He did, left the inner perimeter.

3 **Q** Right, okay, you can continue with the
4 next photograph.

5 **A** Image Number 101. Same thing as before
6 showing the 360 degree views of what we're looking
7 at. Again, chalk marks on the ground that are
8 labeled right foot, left foot, see the chalk marking
9 there for the right hand and here for the left hand.

10 Image 102. Same thing as before,
11 north side of the street looking south again, feet
12 and hand chalk markings. A couple things you can
13 see in this photograph are number one, a pile of
14 blue tarps on this side. Those are some of the
15 tarps that we used to shield the view of the public
16 that was around us. Wrapped up in there are some
17 white sheets that were used as well to shield the
18 views, not the ones that I know of that were used to
19 cover the body.

20 Also things that you see in this
21 video here are, image right here is a box that we
22 use to hold our placards and a large 250 foot yellow
23 measuring tape. Just things we were getting ready
24 to do the diagram of the scene.

25 Also you can see in this photo these

1 placards over here next to the different cones,
2 those are placards that again don't have any
3 intermediate or close-up views of the evidence item
4 that they were marking the other side, the placards
5 were left in place for diagram purposes.

6 Image 103. Same angle as before,
7 just an intermediate view of the chalk marks and
8 where Michael Brown's body and everything. It is
9 hard to tell, that is an initial for RH, the right
10 hand.

11 . Officer
12 all of the casings were retrieved?

13 **A** Yes, I'll show you the rest of them when
14 we get towards the end.

15 Number 104. Close-up view. Again,
16 in the actual photograph it shows that is an R and
17 that is an H, just denoting our chalk mark of which
18 body part is shown.

19 Image 105. Again, chalk marks for
20 the bottom and the feet, LF left foot, RF for right
21 foot.

22 Image 106. Closer image of the same
23 left foot and right foot chalk marks.

24 **Q** (By Ms. Alizadeh) Let me ask you because
25 and again, it is not as clear up on the screen, but

1 we talked about yesterday that, for example, what is
2 that thing right there?

3 **A** Oh, you will see this in a couple other
4 ones, that is a cigarette butt. On the street in a
5 couple images that you will see and a couple more
6 slides, you will see other cigarette butts within
7 the scene. Those were deemed as not evidentiary,
8 they were cigarette butts and trash that litter this
9 entire street.

10 Some scenes, obviously, those are
11 important DNA evidence, this scene there is no part
12 of the case up and even to this point where at the
13 scene we knew or thought that a cigarette butt had
14 anything to do with the incident.

15 **Q** So you didn't collect any cigarette butts?

16 **A** No, ma'am.

17 **Q** They were just there?

18 **A** They were left at the scene.

19 . Were
20 there any droppings between the officer's car and
21 the body?

22 **A** What type of dropping?

23 Blood droppings?

24 **A** No.

25 **Q** (By Ms. Alizadeh) There wasn't?

1 **A** No. I walked from my crime scene van to
2 where the body was that day no less than 50 times.
3 Along with the other three detectives, my detective
4 sergeant and countless other crimes against person
5 homicide detectives, and no one saw any, no one
6 noticed any, we looked, nothing was ever found
7 between the officer's car and where Michael Brown
8 was.

9 : . What's
10 the distance between the police car, the officer's
11 car and the body, do you know?

12 **A** 153 feet 9 inches. It is noted on your
13 diagram. If you look on your diagram.

14 MS. ALIZADEH: Page two of your diagram.

15 **A** Page one.

16 MS. ALIZADEH: All right.

17 **A** It is noted in the drawing you will see
18 the bottom line on Canfield and you will see the
19 number 152 feet 9 inches noted in there, that is the
20 distance between the driver's front wheel of Darren
21 Wilson's police car and Michael Brown's head
22 location. That's the distance between the two. And
23 that measurement was taken specifically from a
24 baseline measurement of where Michael Brown's head
25 was located when we marked it and where we marked,

1 chalk marked the officer's tire of his car, that's
2 how we came up with that.

3 The position that you
4 find Mr. Brown face down?

5 **A** Yes.

6 Was looking to the police
7 car?

8 **A** Correct.

9 Thank you.

10 **A** Sure. Image 107. 107, again another
11 overall view. Overall picture of the chalk mark
12 where the left hand was at. Again, another evidence
13 placard here with no evidence next to it, just
14 marking the location of where it was collected.

15 Image Number 108. Close-up view that
16 is an L, that is an H with an indicator line and
17 this is the position of his left hand again,
18 cigarette butt that was left at the scene, just
19 happen to be in this image.

20 Image 109. Just so I can figure out
21 where I'm at. At this point in the investigation
22 another crime scene detective had seized Darren
23 Wilson's firearm. Up to this point we had no idea
24 of knowing how many rounds he had fired. We were
25 given the number and the number we had recovered at

1 the scene did not match the number that were missing
2 from his gun.

3 Q (By Ms. Alizadeh) So let me stop you
4 there.

5 A Yes.

6 Q His weapon was seized and we will hear
7 testimony by other officers, you were told that his
8 weapon was seized and that it was checked to see how
9 many, you're familiar with his weapon?

10 A Yes, ma'am.

11 Q And it is?

12 A A Sig Sauer.

13 Q It is a semiautomatic?

14 A Yes.

15 Q It is the type of weapons that ejects
16 casings when fired?

17 A Correct.

18 Q It is the type of weapon that has a
19 magazine that holds ammunition that goes into the
20 handle of the gun?

21 A Yes, ma'am.

22 Q And were you told how many, do you know
23 how many rounds that gun will carry?

24 A They vary by model. I was told that their
25 duty weapons that he used in this incident carries

1 13 rounds total.

2 Q And that would be how many in a magazine?

3 A Twelve in a magazine and one in the
4 chamber.

5 Q In order to have a bullet in the chamber,
6 an officer has to have loaded the magazine, rack the
7 bullet into the chamber, remove the magazine and put
8 in one more bullet in his gun?

9 A Yes, ma'am, that's correct.

10 Q That's fully loaded and one is ready in
11 the chamber?

12 A That is it.

13 Q Is that how you instructed your charges
14 when you are doing instructions at the range?

15 A Yes, exactly.

16 Q So that doesn't mean that somebody is out
17 to shoot somebody, that is just how you were to have
18 your gun fully loaded and ready to go?

19 A Yes, ma'am, that's how you go to work.

20 Q And so you were told how many live rounds
21 were left in officer, in his gun?

22 A One live round.

23 Q And so that would leave 12 rounds possibly
24 fired?

25 A Yes.

1 **Q** And were you told that Officer Wilson had
2 indicated that before this incident occurred, he had
3 loaded his weapon and it was fully loaded?

4 **A** Yes.

5 **Q** At this point in the investigation, how
6 many shell casings had you recovered?

7 **A** At this point we recovered ten shell
8 casings.

9 **Q** Okay.

10 **A** We were looking for two.

11 **Q** And had you also been told now, initially
12 would you have planned to process the inside of that
13 car while you were at the scene?

14 **A** No.

15 **Q** Your intention was to have the car towed?

16 **A** Yes.

17 **Q** And it would be in a garage?

18 **A** Yes.

19 **Q** Away from the elements?

20 **A** And our crime lab in a secure facility to
21 process the inside.

22 **Q** Were you told at some point that possibly
23 his gun was fired while he was inside the vehicle?

24 **A** Yes, ma'am.

25 **Q** And so now getting back to where you said

1 you were interrupted what you had been doing, what
2 event had transpired?

3 **A** At this point after the body had moved, we
4 had learned the information of how many rounds he
5 had fired, which were 12. We had found ten shell
6 casings and we were continuing to look at the
7 eastern end of the crime scene where the body was
8 at. We were looking around the western end where
9 the vehicle was at, unknown how many shots were
10 fired at which location.

11 The vehicle was getting ready to be
12 towed and to save us time spent here closing down
13 this entire apartment complex, we were trying to
14 determine if possibly the shell casings were inside
15 of his police car because we hadn't been in to
16 search it yet because we had made the determination
17 to tow it and process it at our lab, but that could
18 take a couple of hours from start to finish. In the
19 meantime we could be searching for two casings that
20 just left our crime scene.

21 So I talked with the detective that
22 was going to process his car and we, not quickly,
23 but we briefly opened the door where I photographed
24 the hole that corresponds with the dent on the
25 outside of the door and then we went through just

1 looking under chairs, looking in the cracks of
2 seats, Darren Wilson's duty bag was in his passenger
3 seat, we looked through it and I have photographs of
4 all of that just showing what we took out of that
5 car.

6 And not processing it for DNA,
7 fingerprints and stuff like that. We were just
8 simply searching for potentially two spent shell
9 casings that we can't account for anywhere else at
10 the scene.

11 Q So the next series of photographs show
12 that part of your investigation?

13 A Yes, ma'am.

14 Q Okay. You can go ahead and continue.

15 A Photo 110. Overall view of the driver's
16 side of the vehicle.

17 Number 111. Intermediate view
18 driver's side front door.

19 Q From your earlier testimony we know that
20 the window is not up on the driver's side door?

21 A At this point, we can obviously look into
22 the vehicle.

23 Q Sure.

24 A But the window was not there, it wasn't
25 halfway up or it wasn't up at all, it just was not

1 there.

2 **Q** Okay.

3 **A** Number 112. Video of the driver's side
4 door open. This is just kind of showing our
5 process, the outside door closed, now it is open.

6 Image 113. Same angle, just a
7 different orientation of the camera.

8 Interior door panel.

9 **Q** What number is this?

10 **A** I'm sorry. Image 114, interior door
11 panel. Overall view and again, you can see the
12 placard is still on the ground there where evidence
13 item two was at.

14 What we're looking on this overall
15 view of the interior of the driver's door.

16 Image 115. Close-up intermediate
17 view of circular defect to the inside panel of the
18 driver door.

19 **Q** So this portion right here is like the arm
20 rest?

21 **A** Yes.

22 **Q** And then this is the actual side of the
23 interior of the car?

24 **A** Yes, ma'am.

25 **Q** Is that a hole?

1 **A** Yes.

2 **Q** Okay. It wasn't your job to process this
3 interior of the car?

4 **A** I was simply documenting what we found on
5 the inside.

6 Image 116. Just overall interior
7 view again, now you can start to see this is pieces
8 of broken glass, it is safety glass, most cars you
9 see when it breaks, it doesn't break in big shards,
10 small pieces of glass.

11 Image 117. A view of the upper part
12 of the driver's seat. You can tell in this scene or
13 in this picture that this is what is referred to as
14 a cage car, metal cage is in the back seat where it
15 prohibits these seats from being laid back basically
16 or scooted back farther than this.

17 **Q** Is this barrier a cage or plexiglass?

18 **A** Plexiglass, the top half is glass, you can
19 see here it is metal from here down to the floor.

20 **Q** So when you enter the vehicle, is this a
21 sliding little window?

22 **A** I don't know.

23 **Q** Okay. Was it closed?

24 **A** It looks to be closed.

25 **Q** You don't recall if it was open or closed

1 and you didn't process it for that reason?

2 **A** No.

3 **Q** Did you look in the back seat?

4 **A** I did not.

5 **Q** For shell casings?

6 **A** We did open the doors and look, we didn't
7 see anything.

8 **Q** Okay. For the purposes of speeding this
9 through, did you find any shell casings inside the
10 car?

11 **A** No, ma'am.

12 **Q** So these next series of photos, we will
13 have somebody who processed the inside of the car
14 who is going to talk about what he found inside the
15 car, but this is just you documenting what you saw
16 in the car?

17 **A** Yes, ma'am.

18 **Q** You didn't seize anything else from this
19 car?

20 **A** No, ma'am.

21 **Q** So we can do these a little quicker.

22 **A** 118. Again, overall view from the
23 driver's side.

24 Image 119 is an overall view from the
25 passenger side of the vehicle. Again, evidence

1 marker where the bracelet was at is still in place
2 and this is showing Darren Wilson's duty bag or gear
3 bag and his rain coat.

4 Image 120. Darren Wilson's gear bag
5 in the passenger seat. We are showing it because
6 the rain coat and the gear bag were removed prior to
7 the towing of the vehicle and given back to Ferguson
8 Police Department.

9 MS. WHIRLEY: Sheila Whirley speaking, you
10 mention duty bag and gear bag, are these the same
11 thing?

12 **A** Synonymous terms, it is a bag that every
13 policeman carries with him that has paperwork,
14 forms, your lunch, your rain coat.

15 MS. WHIRLEY: Is this something that you
16 looked inside?

17 **A** We expanded it just, and looked to the
18 bottom of the bag to see if a shell casing had
19 fallen inside.

20 MS. WHIRLEY: You didn't do a thorough
21 search of it or anything?

22 **A** No.

23 MS. WHIRLEY: Okay.

24 **A** Number 121. Photo looking down into his
25 gear bag.

1 **Q** (By Ms. Alizadeh) Now, can you describe
2 what this thing is here?

3 **A** It appears to me to be a wood baton.

4 **Q** That's something that some police officers
5 carry?

6 **A** Yes. Image 122. The gear bag has been
7 taken out of the seat and when it focuses in now,
8 I'm just showing the rain coat or traffic coat lying
9 in the floorboard. Most of these coats are
10 reversible.

11 Image 123. The inside would be the
12 bright yellow or traffic yellow color, you can turn
13 that outside when you are directing traffic in the
14 rain and inside, obviously, the exterior and that
15 was removed, that was the last photo of his car.

16 Now, we're moving back to the eastern
17 part of the crime scene. Image 124. Okay. I'll
18 ask you to look at the diagram on page one so you
19 can get a reference to where this is. On the far
20 right-hand side you see two evidence bubbles labeled
21 19 and 20. If you look at the top part of this
22 photo, I don't know if it is blocked by the camera,
23 you can see a large red stain here in the middle of
24 the road, that was the location of Michael Brown's
25 head. Farther up the road here would be Darren

1 Wilson's car. So we are standing at the eastern end
2 looking west. What these other items are, are two
3 blood spatter patterns that are located farther east
4 of Michael Brown's body on the ground.

5 Image 125.

6 Q Now, let me not correct you, but clarify,
7 you said blood?

8 A I did.

9 Q You didn't test it?

10 A I did not test it.

11 Q So it is called red stains?

12 A Yes.

13 Q Somebody else will testify about what it
14 was?

15 A It is a red stain similar to a spatter
16 pattern that I would recognize as needing to be
17 documented and possibly important to the case.

18 Q You've seen crime scenes before where
19 there are blood trails or blood spatter, and you
20 know that sometimes those spatters can give you some
21 information about what was going on when that blood
22 was dropped onto that surface?

23 A Yes, ma'am, I've seen it in several crime
24 scenes. I've taken several classes on recognizing,
25 interpreting and the correct way to document these

1 things. I am not a certified expert and I would
2 never claim to be in pattern analyst.

3 Q So you recognize that these actual, what
4 you call blood spatters, we think they are blood
5 spatters at this point?

6 A Right.

7 Q That they needed to be documented?

8 A Yes, ma'am.

9 Q Okay.

10 A So this would be an intermediate view of
11 19. I know the other picture isn't readily
12 available to give you an orientation, the point of
13 this placard is pointed west down Canfield, if that
14 makes sense.

15 So the stain was nearer
16 his head?

17 A No.

18 So just the opposite?

19 A Just the opposite.

20 Can I ask one question.
21 You talked earlier about a break in the
22 investigation due to additional gun fire; is that
23 right?

24 A Yes, ma'am.

25 Is that by citizens or

1 police?

2 **A** It was not by the police.

3 Not by the police.

4 **A** We don't know who it was.

5 That wasn't in the crime
6 scene at all?

7 **A** No, it was from where I was standing,
8 which in your diagram would be the building, the
9 building on the south side of the road of it
10 sounded like it came from directly behind that
11 building.

12 So there is no way that
13 this could have been part of this?

14 **A** No.

15 Okay.

16 **A** We had already identified, located this
17 spatter prior to the second round of gunshots.

18 Image 126. Intermediate view of the
19 spatter pattern and clarifying this end of this
20 pattern would be closest to Michael Brown, this
21 would be the farthest part.

22 **Q** (By Ms. Alizadeh) But Michael Brown's body
23 is in between the blood spatter and Darren Wilson's
24 vehicle?

25 **A** Yes, ma'am.

1 **Q** So blood spatter is farther east from the
2 body?

3 **A** Yes. These two spatter patterns are the
4 farthest east evidence that we located.

5 **Q** All right.

6 **A** Image 127. Same thing, directly overhead
7 view with additional scale laid in for analysis
8 purposes.

9 Image 128. At this point I think
10 this would be an intermediate view of the same
11 spatter pattern. Again, with more than one scale to
12 assist experts in size and shape.

13 Image 129. Similar photos before,
14 different orientation of the camera.

15 **Q** And so the placard and that scale?

16 **A** Has not moved since the previous photo.
17 Basically the photo before, if you can picture I'm
18 standing facing directly west, now I've oriented
19 myself where I'm facing south and the placards are
20 still in the same direction.

21 Image Number 130. At this point I
22 have switched camera lenses to what we will refer to
23 as a prime lens. The lens I typically use for
24 overall photos is 18 to 35, kind of a wide angle
25 lens. I switched to a 60 millimeter lens, which is

1 a fixed focal. It is something where you can get
2 close-up images of something with great detail. It
3 doesn't zoom in or zoom out, it only focuses at
4 fixed length. It can focus in really close to small
5 objects to find greater detail.

6 Q And although you can't see the placard
7 clearly, that's number 19?

8 A Yes, ma'am, still number 19.

9 Q All right.

10 A Image 131. Again, the overhead projector
11 isn't showing a lot of detail, but this is just a
12 close-up image of number 19 still, and I'm focusing
13 on the scale to show, an analyst would describe as a
14 tail of the red spatter pattern.

15 Q And that's also 19?

16 A Still 19, yes, ma'am.

17 Image Number 132. Now we've moved
18 back to image, I would have to go back to the
19 overall one first, number 20 is an overall position.

20 Q You want to look at your diagram?

21 A I need to see the overall of the two
22 placards together. Number 20, in the overall. Can
23 I put this back up?

24 Q Sure, but say the photo number.

25 A I'm going to put Image Number 124 back up

1 just to show you the orientation of the placard.
2 Again, the corner arm of the placard is facing back
3 towards Michael Brown's body and Darren Wilson's
4 police car.

5 Now, going to Image 132, so this
6 pointer arm of the placard is facing west. I'm
7 standing on the north side of the road looking south
8 to take this photograph.

9 Image 133. Intermediate view again.
10 The placard is facing west again looking at this red
11 stain pattern.

12 Image 134. Again, evidence item
13 number 20, red stain pattern still standing on the
14 north side of it looking south.

15 Image 135. Same perspective, I've
16 now added a second scale to reference size and
17 shape.

18 Image 136. Again, here I switched
19 back again to my macro lens or my prime lens to show
20 up close and with greater detail the tailing pattern
21 of the spatter.

22 **Q** And that's item number 20?

23 **A** Still item number 20, yes. Image 137.
24 Still on evidence item number 20. Again, another
25 photo, same reference as before.

1 Image 138. Still evidence item 20,
2 yet closer view of a tail.

3 Image 139. Scale in the previous
4 photo, this scale was referenced this direction. I
5 moved the placard out of the way and referenced this
6 scale to the bottom of it to give you a reference
7 point. This is on the, this is the eastern end,
8 this up would be the north, I'm sorry, to the west
9 back towards Michael Brown's body.

10 **Q** Okay. Now, regarding these two red
11 stains, 19 and 20, did you seize them and package
12 them?

13 **A** Yes, I seized a sample of them.

14 **Q** Was it in a similar, same method that you
15 described seizing the red stain on the side of the
16 vehicle?

17 **A** Yes, ma'am. Sterile Q-Tip with sterile
18 water and then put into its own individual packaging
19 box.

20 **Q** And those are still labeled items number
21 19 and 20?

22 **A** Yes, ma'am, sample of item 19 and 20.

23 **Q** So in this case, you didn't consume the
24 whole stain?

25 **A** No, ma'am, it would be enough to fill a

1 Q-Tip.

2 Q And you know you don't need more than a
3 small amount for testing purposes?

4 A Yes, ma'am.

5 Image Number 140. Basically this is
6 a photograph showing how I have reorientated the
7 scale that you saw in the previous picture. This
8 way, I'm sorry, again you can see the placard for
9 19, which is this other splatter pattern, and 18 is
10 a placard for a piece of evidence that had already
11 been collected, but the placard is still in place.

12 Q Item Number 18 would have been listed on
13 your diagram as to what that was?

14 A Yes, ma'am, I believe item 18 was another
15 spent Federal shell casing.

16 Image 141. Same thing as before, it
17 is another image showing how I moved the orientation
18 of that scale reference item 20.

19 Image 142. Just like with the
20 previous scale of photos, I go from my intermediate,
21 my overall, to my intermediate, again, this would be
22 the intermediate showing the new reference point or
23 orientation of the scale.

24 Item 143. This is a photograph,
25 again, I had switched to my macro lens and took the

1 photograph with the scale below, the photograph
2 here. It did not show up in the frame.

3 **Q** And this is item 20 still?

4 **A** Yes, still item number 20.

5 Image 144. The same shot as before
6 with the scale in the frame.

7 Image 145. This image shows several
8 things. This is the overall image of evidence items
9 21 and 22, which we found and you will see in the
10 next few photographs, the final two shell casings to
11 get to 12 shell casings. The first thing you will
12 see in this image number one is the Ferguson car is
13 still here, we have pushed the crime scene back at
14 this point in time. Here again is the pile of tarps
15 and sheets that we used to shield the view of the
16 public. You can also see these are evidence
17 placards for 11 and 12. Those are other shell
18 casings that we found previously and had already
19 collected.

20 This is the end of our, towards the
21 end of my investigation here for physical evidence
22 and it shows that we never stop in the order that we
23 find them. Obviously, 11 and 12 wouldn't
24 necessarily be next to 21 and 22, with 15 being over
25 here. It is just the order we found it at. The

1 very end of the crime scene we finally focused the
2 time finding those last two shell casings we found
3 them over here in the grass.

4 Q So just because it is not clear on the
5 overhead, what is that one?

6 A That is the placard for evidence item 11.

7 Q And that is?

8 A Twelve.

9 Q Is this a placard?

10 A Yes.

11 Q What is it?

12 A That is 22.

13 Q What's this one?

14 A That's 21 is the farther one away. We
15 found 21 first and then continued looking and we
16 found 22 closer this way.

17 Q Okay.

18 A Or closer to the west.

19 Image 146. Almost identical to the
20 previous photo, just kind of an intermediate view.

21 147. Intermediate view of the
22 placard for 22.

23 148. Same thing, intermediate view
24 of the placard.

25 Image 149. You can see this is a

1 close-up view still of the placard number 22 and if
2 you can see, which is hard to do, this round object
3 here, that is the very opening of the spent shell
4 casing.

5 **Q** It is easier to see on the photo?

6 **A** It is a lot easier to see in the
7 photograph, and it can also show when they are
8 sitting straight up like that, impossible to see
9 with the naked eye.

10 **Q** How is it that they found this?

11 **A** Three of us were on our hands and knees
12 with gloves on just patting our way through the
13 grassy area to feel a rock or a hard object, you dig
14 down and we were able to locate the shell casing.

15 Image 150. Overall view again. The
16 placard for evidence item 21, there is the pile of
17 blue tarps, we are moving farther to the east on
18 Canfield here. The Ferguson vehicle still on the
19 scene.

20 Image 151. Intermediate view of the
21 placard.

22 **Q** Can you see the casing in that image?

23 **A** Not yet.

24 Image 152. Closer up. You can start
25 to see silver edge here buried in the grass.

1 Image Number 153. There's our
2 close-up view and there you can still kind of make
3 out the edge of a spent shell casing.

4 **Q** And that's item 21?

5 **A** Yes, ma'am.

6 **Q** Now, so the total things, you seized all
7 12 shell casings, correct?

8 **A** Correct.

9 **Q** Now, what is a projectile?

10 **A** Projectile would be the term of the bullet
11 that is fired from a shell casing, the piece of a
12 cartridge that comes out of the firearm that would
13 be the projectile.

14 **Q** Did you seize any projectiles or partial
15 projectiles?

16 **A** Something I would refer to as a parent
17 projectile.

18 **Q** Was that one of the items that you had to
19 collect primarily, you had a chance to do a close-up
20 and intermediate photograph?

21 **A** Yes.

22 **Q** What number was that on your diagram?

23 **A** It is item number 17, and in your diagram
24 it is the north side of Michael Brown's right foot
25 on the ground next to him where you see the number

1 seven, the small bubble that says 17, what I
2 collected as an apparent projectile.

3 Q Someone you also conveyed that as well as
4 the samples of the stains, 19 and 20 and number
5 eight and number nine, those all went to a lab for
6 somebody else to analyze, correct?

7 A Yes.

8 Q Any other projectiles recovered at the
9 scene?

10 A No.

11 Q And again, other than crawling on your
12 hands and knees, you ever like get metal detectors
13 out there and try to recover projectiles?

14 A Every crime scene van is equipped with a
15 metal detector. They're primarily used for finding
16 shell casings and heavily grass areas or other
17 pieces of metal evidence. We have used them before
18 to look for projectiles, we understand that when a
19 bullet is fired, a projectile doesn't stop
20 necessarily for a lot of things, including the
21 earth.

22 Where we would see what looks like a
23 bullet may have skipped into grass and you would
24 swear it has to be there. It could have skipped and
25 gone up and farther away, or if it is fired into the

1 ground, it is going to be so deep, it would take a
2 lot of manpower and/or just work to get it out and
3 not guarantee that you will actually be able to
4 recover it.

5 Q I guess for the sake of understanding
6 this, when shell casings are ejected, you know they
7 travel in a predictable direction and somewhat in a
8 perimeter that doesn't go beyond a certain area,
9 like you are not going to look in the next block for
10 a shell casing?

11 A No, not for a shell casing.

12 Q Right. They tend to be somewhere closer
13 to the crime scene or to the point where they were
14 ejected from the gun, correct?

15 A Yes.

16 Q But projectiles, would it be safe to say,
17 that could be two blocks away?

18 A And then some, yes.

19 Q Okay. You may continue. In this regard,
20 did you search the rest of the area, including
21 buildings and trees and objects to determine if you
22 could find a projectile that might have become
23 embedded in something?

24 A This next set of photos, yes, we searched
25 one spot.

1 **Q** All right.

2 **A** Image 154. This is the front building of
3 Canfield, which if you want to look at your
4 diagram, it would be the building on the southeast
5 part of the crime scene.

6 I would be close to where the
7 orientation of this, if you look at this window
8 here, this window right here is where we were
9 eventually heading to in this photo sequence. To
10 reference where we're at, straight out here into the
11 middle of the street is where Michael Brown's body
12 had been to orient you where this photo was taken.

13 Photos 155. Close-up view of the
14 address plate.

15 156. Is a closer up view.

16 Image 157. Again, this part of the
17 building right here is where I just took the image
18 of the plate and now we are looking down here at
19 this window in particular.

20 : Did you say that
21 apartment is due north of where Michael Brown's body
22 was found?

23 **A** South side of the street.

24 South side.

25 **A** The building that is on your diagram.

1 MS. ALIZADEH: .

2 A , but it is the southeast corner.

3 That is not to scale.

4 A It is not to scale.

5 Okay.

6 A We put that in two spots. That's what
7 accident reconstructionists do when we draw these,
8 we are not accident reconstructionists.

9 Okay.

10 A Image 158. Intermediate view of that
11 apartment window, and what we are looking at here is
12 a defect into the siding.

13 Image 159. Same window, same defect.

14 Image 160. Just a close-up view of
15 this defect. At this point in the investigation, we
16 recovered all the shell casings, the spent shell
17 casings and the number, the 12 that we needed to
18 account for.

19 This was a defect that was brought to
20 our attention by a witness that from what I can
21 testify to wasn't there when the shooting occurred,
22 but lived in this building and brought this to our
23 attention. I think there is a bullet hole in our
24 siding.

25 So we go up to look at it after this

1 photo was taken. I took out about a 6 foot section
2 of her siding and the insulation that's on it.
3 Behind it is three quarter inch of plywood and then
4 in between the plywood there's about a 4 inch gap
5 and goes into solid concrete cinder block wall.

6 I could see inside of it that
7 whatever that was that caused that hole was not
8 sitting behind there and this was above the window
9 and it was open behind there.

10 To continue to look for apparent
11 projectile that might be in there I would have to
12 remove that siding all the way around to that
13 window, the plywood all the way around and cause
14 significant damage to that apartment building.

15 Again, without guaranteeing any hope
16 of actually finding something because I've done this
17 more than once into just a drywall piece where you
18 see this and you take it all out and realize that it
19 just caused that hole and skipped off somewhere.

20 I've also seen where things have gone through
21 something like that three or four layers of wood,
22 hit something concrete, you get it, it just looks
23 like a penny and it just smashed.

24 And the firearms ballistic expert
25 will testify that sometimes bullets get mangled to

1 the point you can't confer anything from this then.
2 So we made the decision at that point, after I had
3 removed the siding to not do any more damage to this
4 lady's outside of her apartment.

5 Q (By Ms. Alizadeh) And, in fact, you don't
6 know that that was even made by a bullet?

7 A No, no.

8 Q Could be a woodpecker?

9 A Anything. You can tell it is not exactly
10 a round defect, which is something you typical see
11 with a firearm. Not to say that a firearm couldn't
12 do that, but it could have been anything. There was
13 no guarantee or eye witness that said I was standing
14 here when this happened and this is brand new
15 damage.

16 This, in fact, we walked around that
17 immediate apartment complex and found a few other
18 damages and defects to siding that had cobwebs on
19 this and could tell they had been weathered or old
20 from the time we were there.

21 Q You did search the surrounding areas and
22 you were not able to find any other apparent bullet
23 holes and no other projectiles?

24 A No, ma'am.

25 Q And then your last?

1 **A** Final photos is Image 161. I explained at
2 the beginning this would be the first and last
3 photos that we take in our memory cards for our
4 photo technicians when they look at our files to
5 know what the beginning and ending of the scene is.

6 **Q** All right. I have two other areas to
7 cover very quickly. Going back to Grand Jury
8 Exhibit 2, this is your diagram. So you've already
9 testified that one of the last things, let me ask
10 you this, after you've done the photographs and
11 seized all the evidence that you described, what's
12 the next thing you do?

13 **A** Now we start diagramming.

14 **Q** Okay.

15 **A** Photograph our evidence, selected our
16 evidence, accounted for every piece of evidence that
17 we know of at the time. The body has been moved,
18 cars have been towed, we go back now to diagram the
19 scene.

20 **Q** All right. Now, on Grand Jury Exhibit
21 Number 2, is this the diagram you made of this
22 scene?

23 **A** Yes, ma'am.

24 **Q** And so we referenced this before, you have
25 here not to scale?

1 **A** Correct.

2 **Q** What does that mean, not to scale?

3 **A** The items in this photo that are not to
4 scale would be obviously number one, the size and
5 shape of these apartment buildings, we have them
6 just as plain rectangles. The size and shape of the
7 width of the road as compared to the size of the
8 vehicle.

9 If you look as far as scale drawings
10 go, this vehicle is the same size as Michael Brown
11 here. Those things are hard to do with the software
12 we're given and the tools that we use as crime scene
13 detectives to draw into scale on a CAD type drawing.

14 Also the size of this entry point on
15 Caddiefield, the driveway is not the same size as
16 this one. They may be in real life, but whether we
17 measure to scale or measure for our plotting
18 purposes of evidence, we don't measure those types
19 of measurement.

20 You can see down here in the lower
21 baseline starting at 0.0 feet.

22 How we do the diagrams is I took a
23 long screwdriver and at the corner where Copper
24 Creek Court comes into Canfield, I drove a
25 screwdriver down into the dirt and hooked my 250

1 foot measuring tape and 0.0 there. Then from the
2 edge of the road from Canfield, run from 0.0, we run
3 that tape measure out as far past our last piece of
4 evidence that we need to. If you look on page two
5 of the diagram, it has the measurements and lists of
6 evidence that was collected.

7 How this is measured and the reason
8 why we do this diagram is one, to kind of show a
9 visual picture of the scene, but two, if we ever
10 needed to go back and put evidence back in place, we
11 can easily go back and do that with very little
12 effort.

13 As basic as it is, if you look, I'll
14 use evidence item number 19 I believe is the
15 farthest one away, you will start at 0.0 and the
16 your first measurement you will see is listed as.

17 **Q** You all have your diagrams and probably
18 easier to look at the overhead.

19 **A** So I will use evidence item number 18 as
20 my example, or 19, it is even number. If you look
21 on the diagram, evidence item number 19 is the
22 bubble here that is farthest to the east.

23 The first column of measurements
24 shows baseline west from Copper Creek, so if you
25 look at the baseline measurement here and walked

1 west 31 feet and stopped, in the second column of
2 measurements shows 11 feet 9 inches south of the
3 baseline. So if you measured 31 feet west, 11 feet
4 9 inches south, that spot right there is where
5 evidence item 19 is at.

6 You do that for every piece of
7 evidence, even down here the ones, the shell casings
8 we found in the grassy area, evidence item 22, you
9 are 47 feet 4 inches west of the baseline and then
10 31 feet 3 inches south and you'd find the exact spot
11 where that evidence item was placed.

12 The measurements, we did those
13 intersecting measurements for items number 1 through
14 22.

15 **Q** Let me stop you. Do those include items
16 like eight and nine, which I think were on the
17 vehicle?

18 **A** Yes. If you will notice eight and nine do
19 not have measurements on them because those were
20 found on the police vehicle on the driver's side
21 door. So in the second section of marked, it is
22 labeled Ferguson Marked Police Vehicle Number 108,
23 you will find the measurements for the location of
24 each of the four tires from the west baseline and
25 south of baseline measurements. And from there we

1 could --

2 **Q** You could put the car back?

3 **A** We could put the car back where it was at
4 and show you by photographs where those red stains
5 were located. The same for Michael Brown's
6 location, the same exact technique for west from 0.0
7 baseline, and south left foot and right foot, left
8 hand, right hand and head, and then on the bottom it
9 has a sentence that states again, the baseline runs
10 east to west on north side of Canfield Road, which
11 0 feet 0 inches stops and Copper Creek Court.
12 That's how we do diagramming situations.

13 So to label this not to scale is
14 because these things, if you blew it up to life
15 size, this might not be 153 feet or 152 feet
16 9 inches. To show you the reason why we put that on
17 there is to give you the scale of this size of
18 thing.

19 **Q** So just to clarify though, that distance
20 that is between that you already testified about and
21 it is blurry here, but the distance from this point
22 to this point?

23 **A** That measurement is from the driver's side
24 front tire of Darren Wilson's police car to the head
25 of Michael Brown.

1 **Q** All right. And you said if you blew it
2 up, it might not be 100, whatever that number is?

3 **A** As far as to scale and size.

4 **Q** But that actually is the distance actually
5 between those two items?

6 **A** Correct.

7 **Q** Okay.

8 So the diagram isn't to
9 scale, but the measurements are exact?

10 **A** The measurements are to scale, but the
11 diagram is not drawn to measurement scale.

12 MS. ALIZADEH: Does anybody have any
13 questions about the photographs or the diagram?
14 Okay.

15 **Q** (By Ms. Alizadeh) Last thing I have for
16 this witness and this will probably be less than
17 five minutes, unless Sheila can think of other
18 questions. Detective, you took a crime scene video,
19 you have already testified about that's one of the
20 first things you did after your initial
21 walk-through, then you do a video?

22 **A** Yes.

23 **Q** And I have marked this Grand Jury 4.

24 (Deposition Exhibit Number 4
25 marked for identification.)

1 **Q** (By Ms. Alizadeh) I'm going to play this
2 video right now.

3 You've testified there is audio, but
4 you're not talking on it; is that right?

5 **A** Yes.

6 (Video is being played.) (End of the
7 video recording.)

8 **Q** (By Ms. Alizadeh) Now Detective in
9 that video, and you're the one taking the video?

10 **A** Yes, ma'am.

11 **Q** We see you walking basically right around
12 the body shields, body screens?

13 **A** Yes, ma'am.

14 **Q** That you have put up?

15 **A** Correct.

16 **Q** At that point in your investigation, had
17 you found the two red stains that were, I think, 19
18 and 20?

19 **A** I don't think so, no.

20 **Q** Those stains went past that location?

21 **A** Yes.

22 **Q** All right.

23 MS. ALIZADEH: I think that's it. Sheila,
24 do you have any questions.

25 MS. WHIRLEY: Yeah, just something for

1 clarification. You may or may not have covered it.

2 **Q** (By Ms. Whirley) Your job is not to
3 investigate the crime, is it?

4 **A** No, just to collect, document, photograph
5 the evidence.

6 **Q** You don't talk to any lay witnesses and
7 try to determine what happened or anything like
8 that?

9 **A** No, ma'am, information from witnesses is
10 usually given to the crimes against persons
11 detective that you will hear from later. Items of
12 evidence that may come to light from their
13 interviews is given to me from other detectives. I
14 do not interview witnesses myself at any time.

15 MS. WHIRLEY: Thank you. You all have
16 anything?

17 I have a
18 question about projectile. I know earlier you
19 mentioned inside of the patrol car there was no
20 casings?

21 **A** Correct.

22 : Was there a projectile in
23 there.

24 **A** There was one recovered later, not by me,
25 it was another detective, I'm sure you'll hear from

1 him that he processed the vehicle at our crime lab.

2 : The one that was found, I
3 think it was number 17, labeled 17.

4 **A** Yes, sir.

5 : Is that one that entered
6 the body and came out?

7 **A** I can't testify to that. One of the
8 ballistics firearms people that you might hear from,
9 they can answer those questions, I cannot.

10 Yes, ma'am.

11 : . In the
12 video I'm seeing, and your photographs, I'm seeing
13 that there was shattered glass within the vehicle?

14 **A** Yes.

15 I'm only seeing two pieces
16 sitting in the driver's seat of Officer Darren
17 Wilson's vehicle.

18 **A** Yes, ma'am.

19 Was there any on the floor
20 that you recall, I didn't really see any in the
21 pictures as well?

22 **A** I haven't looked at the other detectives'
23 photos extensively. I know when I went to the crime
24 lab to finish packaging my evidence, the vehicle was
25 down there and there was a significant amount of

1 glass inside the door panel itself once they removed
2 that cover.

3 Inside the door panel
4 itself?

5 **A** Yes.

6 Can you tell me what kind
7 of vehicle is this, do you recall?

8 **A** It was a Chevy Tahoe.

9 Chevy Tahoe.

10 **A** Chevy SUV. I'm not sure if it was a
11 Suburban or a Tahoe.

12 All right, thanks.

13 MS. ALIZADEH: Just real quickly. There
14 was another part of your investigation you did
15 another video from a perspective and that was
16 because you were told somebody saw something from a
17 particular window; is that correct?

18 **A** Yes, ma'am, I did one and I know another
19 detective that was at the scene did other ones. The
20 one I did as far as where, I can't remember the
21 address, it is on the evidence receipt, they had us
22 go to different eyewitness perspectives just to
23 stand there and video similar to this. There is not
24 narration in it, it simply is a video, me standing,
25 or whoever the camera operator was at the time,

1 standing where the witness states they were standing
2 and observed whatever it was they observed.

3 Again, there is not a narrative
4 stating they saw this, they were seeing this and my
5 particular video I know that I stood at the section
6 where the witness stated she saw what was going on.
7 I attempted to use our video camera to zoom in
8 across the parking lot where she was saying she
9 could see everything happening.

10 My camera would only focus on the
11 screen part of the door. It was through a sliding
12 patio door, it would only focus on the screen no
13 matter how much I would zoom in, it wouldn't show
14 the scene from her perspective. I zoomed back, you
15 had to step to the left and then zoomed in again to
16 show the distance where she was seeing things and
17 kind of give you a reference point because at the
18 time when I did my witness perspective video, it was
19 after we had picked everything up.

20 It was the last thing, a witness had
21 come forward at the very end and said hey, I think I
22 saw this from here. The detective interviewed and
23 asked to go down and shoot a witness perspective
24 from her standpoint.

25 MS. ALIZADEH: You will see that video

1 later, but I would rather show that to you in
2 conjunction with that witness testimony so it will
3 be easier for you to kind of tie those together, but
4 from his perspective, you know his job, your job was
5 then just to stand, whatever witness says where they
6 were and film where she says what she saw she saw?

7 **A** Yes, ma'am.

8 **Q** (By Ms. Alizadeh) And the purpose of that
9 is just to see could she see that, are there things
10 in the way, was it such as that, correct?

11 **A** Correct.

12 **Q** Now, you said that from filming it, the
13 camera would not focus beyond the screen?

14 **A** The human eye could see through the screen
15 and focus on a point farther than that.

16 **Q** Okay.

17 **A** The camera I was using at the time has
18 focal limitations and would focus just on the
19 screen.

20 **Q** Let me ask you this, from your eyewitness
21 perspective, could you see, not what she saw, could
22 you see the place where she said she saw something?

23 **A** From that specific perspective, she could
24 only see where Michael Brown came to rest.

25 **Q** Okay. And so from whatever perspective

1 she was, she could not see farther west to where the
2 officer's vehicle was?

3 **A** No.

4 **Q** Okay. But you are standing in her
5 position, you could see where Michael Brown's body
6 had been?

7 **A** Yes.

8 **Q** How much farther west could you see beyond
9 Michael Brown's body?

10 **A** You could see from the angle she was at,
11 which was to give you an orientation because I can
12 see it in my head. She was on the northeast part of
13 the apartment complex.

14 **Q** Let's use your diagram.

15 **A** Here it is. Her apartment building, if
16 this is the entrance to Copper Creek Court, her
17 apartment building is farther back this way, which
18 would be the upper right-hand corner of the diagram.

19 Again, this is not to scale, this
20 building in particular comes from close to this
21 driveway. Her perspective, and if I can come up
22 here and use my finger to show, her perspective
23 would have been on this line and the corner of the
24 building would block the red stain where Michael
25 Brown's body had been. You could just barely see

1 the stain in the road, the red stain in the road
2 where his body had been.

3 Q The large stain that was at his head?

4 A Yes, that was still present. It was at an
5 angle just like this, where this building would have
6 come out at that angle and cut that part of the
7 scene off where she couldn't see anything else.

8 Q Okay. Do you remember her name?

9 A I just wrote down her
10 address.

11 Q When that witness testifies, we will play
12 that video for what it's worth given the focal
13 limitations of the camera?

14 Could she see to
15 the east the full rest of the crime scene?

16 A Yes, it was a third floor apartment.

17 MS. ALIZADEH: Anybody else? And as
18 always, if there are questions later on of this
19 officer and you would like to have him brought back,
20 he will come back.

21 All right. That concludes the testimony
22 of Detective . And that will conclude
23 the evidence for today, September 3rd, of the grand
24 jury investigation into the shooting of Michael
25 Brown.

1 (Court reporter reads the end of the
2 recording information and that is the end of the
3 September 3rd, 2014 grand jury hearing for today.)

4 I, a Licensed Certified Court
5 Reporter by the Supreme Court in and for the State
6 of Missouri, duly commissioned, qualified and
7 authorized to administer oaths and to certify to
8 depositions, do hereby certify that pursuant to
9 Notice in the civil cause now pending and
10 undetermined in the County of St. Louis, State of
11 Missouri.

12 The said witness, being of sound mind and being
13 by the grand jury first carefully examined and duly
14 cautioned and sworn to testify to the truth, the
15 whole truth, and nothing but the truth in the case
16 aforesaid, thereupon testified as is shown in the
17 foregoing transcript, said testimony being by me
18 reported in shorthand and caused to be transcribed
19 into typewriting, and that the foregoing page
20 correctly sets forth the testimony of the
21 aforementioned witness, together with the questions
22 propounded by counsel and grand jurors thereto, and
23 is in all respects a full, true, correct and
24 complete transcript of the questions propounded to
25 and the answers given by said witness.

1 I further certify that the foregoing pages contain a
2 true and accurate reproduction of the proceedings.

3 I further certify that I am not of counsel or
4 attorney for either of the parties to said suit, not
5 related to nor interested in any of the parties or
6 their attorneys.

1 GRAND JURY HEARING

2 MS. ALIZADEH: Good afternoon. For the
3 record, I'm Kathi Alizadeh with the Prosecutor's
4 Office. Also present is Sheila Whirley with the
5 Prosecutor's Office, and all 12 jurors are present
6 today and as well as the court reporter who is
7 taking down everything that's being said as well as
8 audio recording the proceedings that are going on
9 this afternoon.

10 As you can tell, we've kind of rearranged.
11 We're trying to figure out how to best work the room
12 with the equipment that we have.

13 As you can see this screen kind of moves.
14 Do you see the wind, the air blowing on it? It is
15 blowing on the screen, but not on you,
16 unfortunately. So we're going to try this out.

17 If this is too annoying, we'll next time
18 try something else out, but this is a bigger screen
19 and we thought maybe it would be easier for
20 everybody to see it. If everybody gets car sick
21 because pictures are kind of wiggling on there, we
22 will figure something out.

23 Also, and we have some additional fans,
24 I'm going to try to bring another fan in tomorrow to
25 make it a little more comfortable. I'm doing the

1 best I can as far as the heating and cooling.

2 So my understanding that you all are going
3 to be able to be seated today from 1:00 to 5:00; is
4 that correct? And so for today we've scheduled two
5 witnesses. The first witness is here and it will be
6 another crime scene detective.

7 His name is Detective

8 And then the second witness that's
9 going to testify is the medical examiner who
10 conducted the autopsy, his name is Dr. and
11 because of his schedule, I'm going to tell ,
12 Dr. probably isn't going to be here until
13 two, he's going to get here as soon as he can.

14 If we're not done with Detective ,
15 we are just going to interrupt his testimony because
16 he can very easily come back on another day. It is
17 hard for me to get the doctor here. He is going to
18 be going out of town, so we might have to interrupt
19 Detective and bring him back to finish up
20 with whatever questions or additional we have with
21 him, okay?

22 So with that being said.

23

24

25

1 DETECTIVE
2 of lawful age, having been first duly sworn to
3 testify the truth, the whole truth, and
4 nothing but the truth in the case aforesaid,
5 deposes and says in reply to oral
6 interrogatories, propounded as follows, to-wit:

7 EXAMINATION

8 BY MS. ALIZADEH:

9 Q Can you start out by stating your name and
10 spelling it so the court reporter can put it in the
11 record?

12 A

13 Q And how are you employed?

14 A I'm a police officer.

15 Q How long have you been a police officer?

16 A 33 years.

17 Q Okay. Now, Detective you are kind
18 of a soft spoken person a little bit. I want to
19 make sure that everybody back here can hear him and
20 if you cannot hear him, please raise your hand and
21 let us know if you can't hear him.

22 I don't think the microphone
23 amplifies, it is recording actually. So you
24 probably just have to keep your voice up a little
25 bit.

1 What do you do, what department do
2 you work for?

3 **A** For the past 22 years I've been with St.
4 Louis County Police Department.

5 **Q** And currently, what is your job assignment
6 with the St. Louis County Police Department?

7 **A** For the past 14 years I'm a crime scene
8 detective.

9 **Q** Now, we've already heard from a Detective
10 about what crime scene detectives do. Would
11 that be similar to what you do with your job
12 responsibilities?

13 **A** Yes.

14 **Q** Are you a training officer for crime scene
15 detectives?

16 **A** Yes, both in division patrol and also the
17 crime scene unit. For the past 27 years, I've been
18 a field training instructor.

19 I also teach the basic and advance
20 crime scene schools at our police academy and I also
21 lecture at four area schools and universities.

22 **Q** And is there a board certification for
23 crime scene investigators?

24 **A** Yes, I hold currently the highest
25 certification level that's possible through the

1 International Association of Identification. I'm a
2 Board Certified Senior Crime Scene Analyst.

3 Q Were you working then as a crime scene
4 investigator for St. Louis County on August 9th of
5 this year?

6 A I was.

7 Q And did you receive a call sometime in the
8 early afternoon of that day to respond regarding a
9 police involved shooting?

10 A I did.

11 Q About what time did you get that call?

12 A Uh, about 1:00 p.m. I was notified at home
13 by my supervisor to respond to our office, which is
14 in north county, to retrieve a crime scene van and
15 then contact one of our crimes against person
16 detectives at Christian Northwest Hospital.

17 Q So did you go from your home to the office
18 to pick up a crime scene van?

19 A I did.

20 Q Now, we've also heard Detective talk
21 about his crime scene van, were you in your
22 separation van?

23 A Yes, ma'am.

24 Q And is your van outfitted or equipped with
25 basically the same things that Detective van

1 would have been equipped with?

2 **A** Exactly the same thing, yes.

3 **Q** And so about what time did you arrive at
4 your office in north county?

5 **A** Probably about 2:00 p.m.

6 **Q** And then after retrieving the crime scene
7 van, did you go directly to Christian Northwest?

8 **A** I did, I arrived about 2:20 p.m.

9 **Q** And did you make contact with a detective,
10 now you say crimes against person, are you all
11 familiar with the bureau in St. Louis County? The
12 detective bureau is divided up into separate
13 distinct units, crimes against persons is a unit
14 that deals with, obviously, crimes against persons,
15 but it would be homicides, assaults, rapes and so
16 forth.

17 So Detective when you got to
18 the hospital, who did you contact?

19 **A** One of our detectives by the name of

20

21 **Q**

22 **A** I'm sorry, Mr. Wilson was
23 there, the assist chief of Ferguson Police
24 Department and an attorney for the paternal order of
25 police for Mr. Wilson.

1 **Q** Now, you and I met yesterday and talked
2 about your testimony and we went over things because
3 I don't have a report from you, is that fair to say?

4 **A** Yes, ma'am.

5 **Q** And so when we talked about this, did I
6 talk to you about the fact

7
8 the police officer who
9 is involved in the shooting, correct?

10 **A** Yes, ma'am.

11 **Q** If at all possible,

12

13

14 would that be okay?

15 **A** Of course.

16 **Q** So when you arrived at Christian
17 Northwest, Detective was there?

18 **A** Yes.

19 **Q** Darren Wilson was there with an attorney?

20 **A** Yes, ma'am.

21 **Q** And who else was there?

22 **A** The assistant chief of Ferguson Police
23 Department,

24 **Q** Did you have a conversation with Detective
25 about what had happened?

1 **A** He gave me an overview, yes.

2 **Q** What did you understand your role was in
3 responding to Christian Northwest Hospital?

4 **A** Based on the information that I received,
5 I was to document visible injuries or complaint
6 sites of injury on Darren Wilson. We were to
7 document his clothing. I was going to seize his
8 clothing and also the weapon that he carried that
9 day.

10 At some point in time I was also
11 tasked with the processing of the Ferguson police
12 vehicle, which was a fully marked Tahoe.

13 **Q** So, Detective you said you were
14 also then tasked with processing the vehicle, the
15 fully marked Ferguson police car, which was a
16 ?

17 **A** Tahoe.

18 **Q** Tahoe, okay. And so about what time did
19 you arrive at the hospital?

20 **A** 2:20 p.m.

21 **Q** And where was Darren Wilson?

22 **A** He was in the ER room.

23 **Q** And did you have a conversation, did you
24 introduce yourself to him?

25 **A** Of course.

1 **Q** Were you dressed similarly to how you are
2 today?

3 **A** No, ma'am. I was in my normal daily
4 uniform, which consist of a polo shirt and what we
5 refer to as BTU pants, they are cargo. The rest of
6 my accouterments, department issue badge, obviously
7 my side arm, handcuffs, magazine holder, and then on
8 the polo shirt itself it is marked St. Louis County
9 Police Department with our badge, Crimes Against
10 Unit and on the back is pretty much glow in the dark
11 letters that says St. Louis County Police
12 Department.

13 **Q** Have you met Darren Wilson before this
14 date?

15 **A** No, ma'am.

16 **Q** And so when you saw him in the emergency
17 room, how was he dressed?

18 **A** He had his department issued Navy blue
19 uniform pants on, his boots, but he was wearing a
20 T-shirt. He was not carrying a sidearm or his duty
21 leather and he did not have his uniform shirt on.

22 **Q** Did you tell him what you were there for?

23 **A** Yes, ma'am.

24 **Q** And did you ask him any questions that
25 would assist you in knowing what to photograph?

1 **A** I asked him what areas hurt other than
2 what I was seeing. He went through several sites
3 that he complained of injuries. I retrieved the ER
4 charge nurse to make sure that I wasn't missing
5 anything as far as the ER staff doing their initial
6 assessment of Darren Wilson.

7 **Q** So you spoke with the charge nurse, do you
8 recall his name?

9 **A** No, I do not.

10 **Q** Did he indicate to you that there were
11 additional injuries that you did not assess or not
12 see?

13 **A** No, we walked through with Darren Wilson
14 his injury complaint sites, consisting of mainly his
15 facial area, the back of his neck and he said his
16 head hurt.

17 **Q** Did you photograph the areas that he
18 indicated hurt?

19 **A** I did.

20 **Q** Now, we also heard Detective
21 yesterday, not yesterday, I keep saying yesterday,
22 previously, about when he photographs crime scenes,
23 are you all instructed similarly that you would
24 have, I guess, a procedure that you follow in how
25 you do photographs?

1 **A** Correct. There's a standard format that
2 we teach in the crime scene school and we also teach
3 during our field training program.

4 There's a normal sequencing event. In
5 this case you take overall pictures, you take what's
6 called midrange pictures to tie in that location to
7 something else that's recognizable, you will take a
8 specific image and in these kind of circumstances
9 you'll also put a measuring device or a scale in
10 your information to give you an idea of how large
11 this area is or how small this area is.

12 **Q** Did you do that when you were
13 photographing the injuries on Darren Wilson?

14 **A** I did.

15 **Q** And then after you completed all of your
16 investigation in this case, did you remove the
17 memory card from your camera?

18 **A** I did.

19 **Q** And did you have those, I can't remember,
20 do you burn it onto a disk or do you take the memory
21 card to the lab?

22 **A** No, the memory card is placed in, in the
23 old days referred to as a film envelope, and then
24 that was hand carried by myself to our photo lab.
25 The photo lab will download the original images from

1 the media card onto a disc and then after that's
2 completed, on homicide cases, officer involved
3 shootings and other cases of note, they will print
4 the photo lab, meaning they, will print 8 X 10
5 photographs. This was done in this case.

6 I will respond back to the photo lab,
7 those images are reviewed by me and then they are
8 stamped with official photographs and for the
9 prosecuting attorney's set. I will circle the image
10 number on the back of the 8 X 10s and put my
11 initials and DSN on the back of them.

12 Q All right. Did you do that in this case?

13 A I did.

14 Q When you examined the photographs after
15 the lab had printed them out, did the lab print each
16 and every image that you had snapped during your
17 investigation?

18 A They did.

19 Q So there is no images that you deleted
20 from the camera or images that might have been
21 developed that you discarded?

22 A Absolutely not.

23 Q Do you in any way crop these photographs?

24 A Absolutely not.

25 Q Do you in any way edit them or use a

1 filter when you are photographing or change or
2 enhance color?

3 **A** No, ma'am.

4 **Q** Do you recall how many photographs you
5 took in this case?

6 **A** I believe around 50.

7 (Deposition Exhibit Number 10
8 marked for identification.)

9 **Q** (By Ms. Alizadeh) I'm going to hand you
10 what I have marked as Grand Jury Exhibit 10. Did
11 you and I get this envelope yesterday, did you
12 recognize this from my office yesterday?

13 **A** We did. When I stamp these photographs, I
14 fill out the front of this with a header information
15 as far as date, complaint number, what type of
16 incident it is, and in this scenario since I went to
17 three different locations, those three different
18 locations are also marked on front of the envelope.

19 In addition to that, I put my
20 information on there as far as crime scene unit,
21 Detective my DSN.

22 We also stamp in front, which matches
23 what's on the back of the photographs so it is
24 marked official photograph. And as far as the
25 dissemination, in this case this was marked PA,

1 standing for the prosecuting attorney's office.

2 **Q** All right. And I want you to remove the
3 photographs that are inside Grand Jury Exhibit 10.
4 And just briefly leaf through them. Do those appear
5 to be the photographs that you took during your
6 investigation of this case?

7 **A** They are.

8 **Q** And do they, each photograph bear your
9 markings where you stamp them as an official
10 photograph and you circle the image number and place
11 your initials there?

12 **A** Yes, ma'am. It is reflected here.

13 **Q** Okay. Can you tell me what the last
14 photograph that is in that stack is numbered?

15 **A** Number 50.

16 **Q** Okay. So you have 50 photographs in your
17 hand there?

18 **A** Yes, ma'am.

19 **Q** And so for the sake of ease, if you want
20 to sit in that chair right there, and I will have
21 you one by one we're going to go through each
22 photograph and you are going to describe what is
23 depicted in that photograph. So this is Image
24 Number 1, correct?

25 **A** It is.

1 **Q** We already have testimony from Detective
2 about the placard that is photographed, is
3 that your habit to do that as well?

4 **A** Every time, yes, ma'am.

5 **Q** And that contains the date that the
6 photograph, what date, is that the date of the
7 incident always or the date that the photographs are
8 being taken?

9 **A** Usually both. If I respond to a scene to
10 photograph that, if it is the original scene, at
11 this point it was, then the original date here.

12 Now, if I had been involved in this
13 with further investigation, if I have another aspect
14 of this investigation, I will put in parentheses
15 next to the complaint number the date of the
16 original incident. Let's say we had to go back and
17 do something today, okay.

18 The date of the original incident
19 would be here next to the county complaint number,
20 but the date of the image that I took, these would
21 be in the first part.

22 **Q** So in this case, your investigation?

23 **A** Occurred on 8/9/14 yes, ma'am.

24 **Q** That was the date of the shooting?

25 **A** Correct.

1 **Q** And then we've already had some testimony,
2 the top number is the county complaint number?

3 **A** It is.

4 **Q** And below that is the Associated Ferguson
5 Police Department generated complaint?

6 **A** Yes, ma'am.

7 **Q** And then the incident as it was called in
8 originally, correct?

9 **A** Correct.

10 **Q** And then is that your department serial
11 number?

12 **A** Yes.

13 **Q** And your initials?

14 **A** And DSN.

15 **Q** All right. And can you go to Image Number
16 2. I will take these from you as we go.

17 Can you then go ahead and describe
18 for the jurors what appears in that image?

19 **A** This is an overall view of Darren Wilson
20 at the time of my investigation. As I described to
21 you folks earlier, this is how he was dressed.

22 **Q** Hang on a second, I don't want to put
23 anybody to sleep, but I'm going to try and see if it
24 goes totally dark.

25 For the record, I was just adjusting

1 the light to make it easier to see that image on the
2 screen. And is that how he appeared in the
3 emergency room dressed in a T-shirt and the pants
4 he's wearing, those are his department issued pants?

5 **A** Yes, ma'am.

6 **Q** All right. And Image Number 3?

7 **A** Image Number 3 is an overall view of the
8 back of him from the rear.

9 **Q** I think push it up?

10 **A** I'm trying to lose that glare.

11 MS. WHIRLEY: Can you zoom it in some?

12 **Q** (By Ms. Alizadeh) I don't know how to make
13 that different. Again, if you want the photos
14 passed around because it is easier to see the actual
15 photograph, but for the purposes of this testimony.

16

17 : . I want
18 to see the first picture.

19 MS. ALIZADEH: You want to see Image
20 Number?

21 I personally, if you can
22 give me the picture.

23 MS. ALIZADEH: And when this is done, if
24 you want, we'll just pass them through you, okay,
25 because there aren't a whole lot of these

1 photographs.

2 Image Number 3 again, this is the back of
3 Officer Wilson, correct?

4 **A** It is.

5 **Q** (By Ms. Alizadeh) And are you aware of the
6 T-shirt that he is wearing, is that the T-shirt he
7 had on that day?

8 **A** It is.

9 **Q** And when you, I know you didn't examine
10 him like a doctor, did you see anything on him that
11 indicated that he had been bleeding?

12 **A** No, ma'am.

13 **Q** No open wounds?

14 **A** None that I observed, no.

15 **Q** Did you ask him if he had been bleeding or
16 if he was cut?

17 **A** I did.

18 **Q** And what was his response?

19 **A** He said no.

20 **Q** Okay. Now Image Number 4. No, wait, that
21 was Image Number 4, isn't it?

22 **A** Correct.

23 **Q** And just for the record, we have to make a
24 record, Image Number 4 is?

25 **A** Overall view of the facial area of Darren

1 Wilson.

2 Q Image Number 5?

3 A Overall view of the left side of his face.

4 Q Image Number 6?

5 A Overall view of the right side of his
6 face.

7 Q Image Number 7?

8 A It is a part of a series of two, the first
9 part of this is a close-up view of the left side
10 facial area without a measuring device.

11 The next image is one with the
12 measuring device.

13 Q And the next image is Number 8?

14 A Yes.

15 Q All right.

16 . What is it you
17 are measuring there?

18 A That was one of the injury complaint sites
19 by Darren Wilson. He complained that his face was
20 hurting. So when I asked him specifically, he
21 pointed to these sides of his face. We'll get to it
22 shortly, but also the back of his neck.

23 Okay, thank you.

24 Q (By Ms. Alizadeh) That is Image Number 9?

25 A It is. Again, part of a series of two,

1 this is a close-up of the right side of his face
2 without a measuring device and then one with a
3 measuring device.

4 **Q** And with the measuring device is Image
5 Number 10?

6 **A** Correct.

7 Image Number 11 overall view of the
8 back of his neck.

9 Again, part of one, two series of
10 images, close-up view of the back of his neck
11 without a scale.

12 **Q** And that's Image Number 12?

13 **A** It is. And 13 reflects one with the
14 scale.

15 Next Image 14 is the left rear side
16 of his neck without a scale and 15 with the scale.

17 MS. WHIRLEY: Sheila Whirley. What are
18 you measuring on there?

19 **A** Again, Miss Whirley, just a complaint site
20 that he complained of.

21 MS. WHIRLEY: So that line of demarcation
22 does not have anything to do with the complaint
23 site?

24 **A** No, ma'am, that's a natural crease in his
25 neck area.

1 **Q** (By Ms. Alizadeh) Next Image Number?

2 **A** 16.

3 **Q** Okay.

4 **A** Is the right rear side of his neck without
5 a scale, and then 17 is with a scale.

6 18 is the left side of his neck
7 without a scale, and then 19 is with a scale.

8 **Q** All right. So those 18 total photographs
9 were how Darren Wilson appeared when you
10 photographed him on August 9th shortly after 2:20,
11 or about what time did you actually photograph him?

12 **A** At 2:20 that's when I initiated my, I
13 turned my back to you folks, I'm sorry, that's when
14 I initiated my investigation and documentation as I
15 stated earlier of the injury sites that Darren
16 Wilson complained of.

17 **Q** Did you photograph any other parts of his
18 body?

19 **A** No, ma'am.

20 **Q** Did he complain of any other injuries?

21 **A** No, ma'am.

22 **Q** Did you examine his hands?

23 **A** I looked at them, I did not examine them.

24 **Q** Okay. Did he complain that his hands were
25 injured or hurting in any way?

1 **A** No, ma'am.

2 **Q** When you looked at his hands, did you see
3 the backs of his hands?

4 **A** I did.

5 **Q** And did you notice anything that appeared
6 to you that might indicate an injury to the backs of
7 his hands?

8 **A** No, ma'am.

9 **Q** Now, at the hospital, did you seize
10 anything from Darren Wilson?

11 **A** I did not.

12 **Q** And you had indicated previously that you
13 were also charged with the duties of seizing his
14 clothing?

15 **A** Correct.

16 **Q** And his gun?

17 **A** Correct.

18 **Q** And now you said that he had his
19 department issue pants on in the hospital; is that
20 correct?

21 **A** Yes.

22 **Q** Did you talk to him about those pants?

23 **A** I did.

24 **Q** And did he show you anything on the pants?

25 **A** He said there was blood on his left thigh.

1 **Q** And did you look at the pants?

2 **A** I did.

3 **Q** Did you see something that was some type
4 of stain on the left thigh of his department
5 trousers?

6 **A** I did. There was a reddish stain on the
7 upper thigh area.

8 **Q** And did you photograph those pants in the
9 hospital?

10 **A** No, ma'am, we did that at Ferguson Police
11 Department.

12 **Q** Did you seize his pants at the hospital?

13 **A** No, ma'am.

14 **Q** Why is it that you just have him take his
15 pants off right then and give it to you?

16 **A** He had nothing else to wear. I didn't
17 want him traveling in just a hospital gown back to
18 Florissant Police Department.

19 **Q** So was there a decision made for you, as
20 well as Darren Wilson and others to go back to the
21 Ferguson Police Department?

22 **A** Yes.

23 **Q** And was there a discussion about somebody
24 bringing clothing for him?

25 **A** Yes. I did discuss with Lieutenant

1 Colonel from Ferguson Police Department to
2 see if we could make arrangements from
3
4 whoever, to make arrangements if they
5 could bring clothes to Ferguson Police Department so
6 that Darren Wilson had something to wear home that
7 day.

8 Q All right. Now, did you travel directly
9 from the hospital to the police department?

10 A I did.

11 Q Now, let me ask you this, getting back at
12 little bit at the hospital, did you ask Darren
13 Wilson any questions about what happened that day?

14 A No, ma'am.

15 Q You didn't ask him about, tell me what
16 happened or anything of that nature?

17 A No, ma'am.

18 Q Did you hear him talking to anybody else
19 about what happened that day?

20 A No, ma'am, not while I was photographing.

21 Q All right. So did you go by yourself in
22 your crime scene van to Ferguson?

23 A I did.

24 Q To your knowledge, did Darren Wilson
25 travel there with another officer?

1 **A** Lieutenant Colonel I believe,
2 yes.

3 **Q** Did you all arrive at the Ferguson Police
4 Department at around the same time?

5 **A** Yes.

6 **Q** When you got there, what's the first thing
7 you did?

8 **A** After meeting with Detective Darren
9 Wilson, Lieutenant Colonel we entered
10 Ferguson Police Department and went to their
11 detective bureau.

12 I was told that's where Officer
13 Wilson or Darren Wilson's department issued firearm
14 was, his uniform shirt and that's where we were
15 making arrangements to have clothes brought to him
16 so I could document the uniform that he was wearing
17 and also seize those uniform pants from him.

18 **Q** And so when you went into the detective
19 bureau, did you locate the weapon?

20 **A** Yes, I inquired of its whereabouts and I
21 was told that someone had placed Darren Wilson's
22 department issued side arm in an evidence envelope,
23 which wasn't sealed. It was on a desk there in the
24 detective bureau with other detectives from that
25 department present.

1 **Q** And did you locate that envelope with the
2 firearm inside of it?

3 **A** I did.

4 **Q** And you said it wasn't sealed, did you
5 remove the contents of the envelope?

6 **A** I did.

7 **Q** What was inside the envelope?

8 **A** His department issued Sig Saur firearm,
9 the magazine and one live round, and that's how the
10 firearm was placed in that envelope. I did not
11 download that weapon when I inquired about it. I
12 was told that Darren Wilson had downloaded the
13 weapon and then probably at the direction of the
14 supervisor, it was placed in that envelope and
15 merely for conveyance purposes, I assumed from the
16 scene back to Ferguson Police Department until I
17 arrived.

18 **Q** But that was not your firsthand knowledge,
19 correct?

20 **A** No, ma'am.

21 **Q** So the gun, the empty magazine and one
22 live round was in that envelope?

23 **A** Correct.

24 **Q** And you were told that the gun was
25 downloaded by Darren Wilson?

1 **A** Yes.

2 **Q** And you all know what that means,
3 downloading, other than like on the internet, can
4 you explain what that means for the jurors?

5 **A** Sure. When you download a semiautomatic
6 weapon for our terminology, that means that the
7 magazine is removed, all rounds that are in the
8 magazine and whatever is chambered is removed and
9 the slide is locked back. That's a safe way to
10 store a weapon.

11 **Q** So was that in the condition it was when
12 you got it out of the envelope?

13 **A** Yes, ma'am.

14 **Q** Okay. And now you are not a ballistics
15 person; is that correct?

16 **A** I am not a certified ballistics expert,
17 no, ma'am.

18 **Q** Are you familiar with this weapon?

19 **A** Very.

20 **Q** And is it, in fact, the same weapon that
21 you carry?

22 **A** Yes, ma'am.

23 **Q** And so did you, when you removed the
24 weapon from the envelope, did you photograph it in
25 the state it was in?

1 **A** Yes, ma'am.

2 **Q** Okay. Let's go through those. Your first
3 is Number 20, I believe?

4 **A** It is. Once I removed the weapon, it was
5 laid on top of the Ferguson Police Department's
6 evidence envelope in exactly the condition that I
7 removed it from.

8 **Q** You and I talked about this yesterday,
9 what's this thing right here?

10 **A** That is just part of the seal on the back
11 of their evidence envelope. I did not apply that
12 and nor was it sealed.

13 **Q** Okay. And this portion of the weapon,
14 that's the slide of the weapon?

15 **A** It is.

16 **Q** And it is locked in the pulled back
17 position?

18 **A** Correct.

19 **Q** Can you --

20 MS. ALIZADEH: We have a question?

21 When you handle
22 this evidence, are your hands gloved?

23 **A** Always.

24 : Even when you are
25 photographing?

1 **A** Always, yes, ma'am.

2 Okay.

3 **A** As a general rule, I always wear two sets
4 of gloves. If the first set becomes contaminated or
5 in this case, if I was to swab this for any other
6 potential forensic evidence. That first set is
7 removed before I move onto the next step and then
8 another set of gloves is put on so I don't run the
9 risk of cross-contamination.

10 **Q** (By Ms. Alizadeh) So you are double gloved
11 when you are handling this firearm?

12 **A** Always.

13 **Q** All right, yes?

14 . So the envelope,
15 it was your understanding that was the first time it
16 had been used was when that gun was put in?

17 **A** I was just told it was placed in the
18 envelope.

19 By that picture, it looked
20 like the envelope has been used before?

21 **A** It's possible, I don't know.

22 **Q** (By Ms. Alizadeh) And, Detective, did you
23 seize the envelope?

24 **A** No, ma'am.

25 : Just

1 clarification. What is the protocol for when you
2 seize a weapon and it is placed in the evidence bag
3 to be inspected, what's the protocol as far as
4 putting it in there and everything else after that?

5 **A** I can speak for the County Police
6 Department, I can't speak for another agency, okay.
7 We do not package firearms in this manner.

8 If I go to a scene and there's a
9 firearm laying there, okay. There's a standard
10 protocol that we always follow, and I think you may
11 have seen some of those from Detective

12 We'll take an overall view, we'll
13 take what is called a midrange view to tie in that
14 firearm, if we are talking about bag this, where it
15 is on this section of the table. The overall view
16 would be the entire room, okay. Midrange view would
17 say, well, it is near these two jurors and these two
18 microphones.

19 Then we would take a close-up view of
20 it, but it is still in place. We have not
21 manipulated it, we have not touched it and then what
22 you folks will see here shortly we follow the same
23 protocols as far as images.

24 Once it is photographed in place,
25 then wearing gloves, we will pick it up, usually lay

1 it on another surface, whether it is an evidence
2 envelope or evidence box, which would be the County
3 Police Department. We don't put fires arms in a
4 package.

5 And then we would lay that firearm,
6 we would photograph both sides, we would take an
7 image of the serial number, we would remove the
8 magazine, photograph all of these things as they
9 are, and then we would unload the magazines and
10 whatever rounds in the magazine. We would display
11 them next to the magazine to document, well, these
12 are the rounds that we found in there.

13 We would then lock the slide back and
14 whatever is in the chamber or not in the chamber
15 then we would document that.

16 We would package those items
17 separately, but they all go into one gun box.

18 If we were to seize this and render
19 it safe, then it would be inspected by another
20 detective or one of my supervisors to confirm
21 Detective looked at this gun and he cleared
22 it, and I'm checking to make sure that it is cleared
23 so everyone is safe.

24 We would then put what's called a
25 lead seal, which has a number on it through the

1 trigger guard, which would be this section right
2 here. And per our firearms unit, we would put in
3 essence, it is a orange zip tie that runs from, if I
4 can change images, Miss Alizadeh?

5 MS. ALIZADEH: Sure, just identify the
6 image you are going to put up there.

7 **A** The next image is Number 21. This is the
8 other side of the weapon. Again, our normal
9 sequence. And right here would be the ejection
10 port, that orange zip tie would initiate going
11 through here, it comes out of the bottom of the
12 magazine, goes in and then we would secure that.

13 Then it is sent to the firearms unit
14 to verify when that gun gets there, that it couldn't
15 have accidentally slide, go forward, it could have
16 been knocked around or something. And we want to
17 confirm when it goes to our crime lab personnel that
18 that gun is safe, has been inspected and has been
19 confirmed.

20 So come back to your original, I
21 can't speak for other departments, I can only share
22 with you what is our protocol policy and procedure.

23 : One more question. Did
24 you take a picture of the envelope while the weapon
25 is in the envelope?

1 **A** No, ma'am.

2 I have the question about
3 the clothing. Is it common practice to have
4 somebody travel from one spot to another before you
5 take the clothing, I mean, I'm wondering is there a
6 reason why somebody couldn't bring that to the
7 hospital where he was instead of having him travel
8 somewhere else before he got there for his clothing.

9 **A** Again, ma'am, I can't address that, that
10 was Ferguson's decision. If I was to work, and I've
11 worked hundreds, if that was a County Police
12 Department employee, we would have made arrangements
13 to get clothes to him or her.

14 **Q** (By Ms. Alizadeh) Does anybody, the first
15 image of the weapon was Photograph Number 20, does
16 anybody need that back up? We are moving back now
17 for 21, which has been on the screen. Describe what
18 you are seeing?

19 **A** That is the other side or the right side
20 of the weapon, the slide locked back. Visible in it
21 serial number, as I explained earlier.

22 And Image 22 is a close-up view of
23 that serial number. You folks may not be able to
24 see that. We can certainly pass that around. I
25 don't know how to make that clearer.

1 **Q** Can you, just with the pointer, point out
2 where the serial number is?

3 **A** Right in the center of the image is the
4 serial number of that firearm.

5 **Q** Now, also not clearly visible on the
6 screen, but again, we will pass these around, there
7 is, there is something right there?

8 **A** There's a red stain right here. And also
9 in this area on the slide.

10 **Q** All right. Were there any other red
11 stains that you found anywhere else on the gun?

12 **A** Yes, they're on the slide also.

13 **Q** Okay. And now before we get to, I know
14 you depleted your photographs, but while we have
15 this up, let's go forward to you swabbing the gun.

16 **A** Okay.

17 **Q** We also heard Detective talk about
18 these kits that you are equipped with in your crime
19 scene van?

20 **A** Yes.

21 **Q** They are prepackaged and sterile swabs,
22 correct?

23 **A** Correct.

24 **Q** Did you swab that gun?

25 **A** I did.

1 Q What area, if we could maybe just use 20
2 and 21 again, instead of that close-up, just point
3 with the pointer the areas of that weapon that you
4 swabbed?

5 **A** The entire slide area, all three sides of
6 it and this area on both sides.

7 Q And so that would include the reddish
8 stains or the reddish substances that you could see
9 on that weapon?

10 **A** Yes.

```
11      Q      Now, let you resume with the next image.
```

12 **A** The next image is 23. Again, we're
13 documenting the condition of the contents from that
14 firearm that was in the envelope placed by Ferguson
15 Police Department personnel.

16 Q And that magazine is empty?

17 **A** It is.

18 Q All right.

19

20 **A** Yes, ma'am.

21 Do you check for
22 fingerprints in the gun?

23 **A** No, it is the officer's gun.

24 You don't check for
25 fingerprints?

1 **A** No, the magazine in light of these
2 circumstances.

3 : No, the magazine, in the
4 gun, when he holds the gun?

5 MS. ALIZADEH: Let me address that because
6 that's a good question.

7 : I'm sorry.

8 **A** That's great.

9 **Q** (By Ms. Alizadeh) I kind of skipped over
10 that, let's talk about that right now.

11 **A** Sure.

12 **Q** So when you were, were you told that there
13 was a physical struggle over this weapon?

14 **A** I was.

15 **Q** And were you told that Michael Brown may
16 have had his hands on the weapon?

17 **A** Yes.

18 **Q** So was there some discussion between you
19 and other officers about swabbing versus
20 fingerprinting?

21 **A** There was.

22 **Q** Okay. Have you all had a fingerprint
23 expert testify before you before?

24 (All jurors indicate no.)

25 **Q** (By Ms. Alizadeh) On a surface like this

1 firearm, how would you go about examining that, do
2 you want those firearm pictures again?

3 **A** Just let me have one of them please,
4 ma'am.

5 **Q** How would you go about looking on that
6 weapon for fingerprints?

7 **A** Okay. Based on the information that I was
8 told regarding the incident, I was informed that
9 Darren Wilson while holding his firearm, his
10 department issue pistol, while he's holding it,
11 there was a struggle between Mr. Brown and
12 Mr. Wilson while the officer was seated in his
13 police vehicle and Mr. Brown was outside.

14 So if you take that and say okay,
15 well, the officer is holding his gun, he never
16 relinquished it, the gun was never taken away,
17 however, we are wrestling over this gun.

18 Common sense would tell you that if
19 I'm holding the handle of the gun here, then what
20 opportunity or what else is the other person
21 struggling over. Probably this area of the gun.

22 The magazine was never released from
23 the gun during the incident, it was never dropped or
24 picked up, the officer never lost control of his
25 gun.

1 If you have a violent event like
2 that, you have to make a decision whether you are
3 concerned about hopefully getting a DNA profile or
4 the possibility of retrieving latent fingerprint
5 evidence.

6 **Q** Let me stop you really quick here. We are
7 going to finish him up describing this because our
8 doctor is here, but I'm going to let him finish this
9 area about the fingerprint versus swabbing.

10 Now, I want to clarify that the
11 things that you are talking about concerning a
12 struggle over the gun, that is not from your
13 firsthand knowledge, correct?

14 **A** Absolutely not.

15 **Q** That's information that came to you from
16 other sources?

17 **A** Yes.

18 **Q** And not Darren Wilson?

19 **A** Correct.

20 **Q** And then you are making some assumptions
21 about where you might fingerprint based upon just
22 common sense and your experience?

23 **A** Yes.

24 **Q** Okay. So this is not to say that this is
25 how it happened, but this is based upon your

1 experience and what you have been told at this point
2 where you might expect to find fingerprints?

3 **A** Correct.

4 **Q** Okay. You can then go ahead and talk
5 about, you have to make kind of a decision between
6 whether to swab for DNA or to look for fingerprints?

7 **A** Correct.

8 **Q** So why did you make a decision to swab for
9 DNA?

10 **A** Based on training and experience, and also
11 based on the information that I was given, you're
12 not going to have fine ridge detail during a violent
13 encounter. It would be different if this gun was
14 like this and someone just came up, other than the
15 officer, and touched it.

16 When we process that, yes, you can
17 get fine ridge detail. So the decision was made
18 between myself and the crimes against person
19 detective, homicide detective, that it would be
20 better to swab the weapon.

21 Now, if you are going to swab it,
22 then you need to swab all the relevant areas that
23 could be touched by someone other than Darren
24 Wilson.

25 **Q** Because, of course, you know Darren Wilson

1 has touched that gun?

2 **A** Exactly, he was holding it.

3 **Q** It would tell you nothing if his DNA is on
4 it?

5 **A** Absolutely not.

6 **Q** We know he touched the gun?

7 **A** Right, it is his gun.

8 **Q** All right.

9 **A** Once that decision is made and you swab,
10 then you're going to have to swab those areas that
11 were described earlier. If there was fingerprint
12 evidence, you are going to be swabbing through them,
13 so that's why you need to make a decision whether
14 you want to process this for fingerprints or do you
15 want to process this for DNA.

16 **Q** And in processing this weapon for
17 fingerprints, could you after that swab it for DNA?

18 **A** No.

19 **Q** So you had to pick one or the other?

20 **A** Right.

21 **Q** And based upon your information and
22 consulting with the detective, crime scene
23 detective, not crime scene, crimes against person
24 homicide detective, was a decision made to swab for
25 DNA?

2 Q And that's what you did?

3 **A** Yes.

4 Q Did you package those swabs in the regular
5 manner?

6 **A** I did.

7 MS. ALIZADEH: Do you have any questions
8 about his processing this gun or about the gun
9 itself or anything like that?

10 : Did you
11 describe what type of gun is it again?

12 **A** It is a Sig Sauer P229. It is a .40
13 caliber weapon.

14 MS. ALIZADEH: Just so you know and, of
15 course, he is familiar with this weapon, but we will
16 be calling, you know, someone from the crime lab
17 that is an expert on ballistics and can answer all
18 kind of questions about this weapon and how it fires
19 and so forth.

20 Once you swab
21 the critical areas for DNA, is all of the DNA at
22 that point removed from the object basically, it is
23 rendered clean?

24 **A** You might have a trace only because these
25 are cotton swabs and when we swab something, we do

1 two at one time. One for the prosecuting attorney's
2 office, that's going to end up going to the lab and
3 potentially a defense attorney so we keep one on
4 file.

5 When you are holding these two cotton
6 swabs, if you folks can picture Q-Tips, okay. You
7 are holding two of them together, unless you're
8 going back and forth and completely swabbing every
9 little spot on this thing, you're not going to
10 remove all of the DNA, all right.

11 You're trying to get the most profile
12 or profiles that you can by swabbing those areas
13 back and forth. Kind of like painting a first coat,
14 you're not going to paint, you're not going to cover
15 everything with your first coat. The same thing
16 applies when we're swabbing for DNA. So potentially
17 could be DNA left on there, but we try to get the
18 largest sample as we can.

19 : .

20 **A** Yes, ma'am.

21 : I just need to know this.
22 When the weapon was seized, before you got to the
23 weapon.

24 **A** Okay.

25 It was in the envelope?

1 **A** Uh-huh.

2 The protocol that the
3 envelope is supposed to be sealed, you know, like
4 you collect evidence and you get the bag, all the
5 evidence is in the bag and you seal the bag until
6 the right person comes and inspects the bag?

7 **A** Again, I can speak for the County Police
8 Department, yes. What I was told, the information
9 that I was given is that it was just placed there
10 for, in essence, conveyance or storage until I got
11 there.

12 And then, obviously, when I arrived
13 and I processed or I seized or I package something,
14 then I follow what the County Police Department
15 crime scene unit and our crimes lab protocol as far
16 as how we package things.

17 Was it locked away or
18 sitting out?

19 **A** It was in the detective bureau on a desk.

20 **Q** (By Ms. Alizadeh) Just for clarification,
21 do you know does Ferguson Police Department have
22 their own crime scene detective?

23 **A** They do.

24 **Q** Were any of them that you know of involved
25 with processing anything involved with this

1 shooting?

2 **A** No, ma'am.

3 **Q** In fact, Ferguson had asked county to come
4 in and take over this investigation within maybe an
5 hour of the shooting, would that be your
6 understanding?

7 **A** Yes, ma'am.

8 **Q** And so to your knowledge, did any Ferguson
9 crime scene detectives have anything to do with
10 seizing evidence, processing any scenes?

11 **A** No, ma'am, that's why they requested my
12 unit to respond.

13 **Q** And so I'm only guessing or speculating,
14 had a Ferguson crime scene detective actually seized
15 this weapon, he might have handled it in a different
16 manner than what was done in this case, would that
17 be a guess or fair to say?

18 **A** That would be accurate because Ferguson
19 Police Department has sent some of their officers to
20 the crime scene school that I teach at our academy.
21 I'm confident in stating that they would probably
22 have followed protocols if they were actually
23 seizing pieces of evidence.

24 MS. ALIZADEH: Okay. Any other
25 clarifications?

1 Yes. . You
2 may have said it, who actually put the gun into the
3 envelope?

4 **A** I have no idea.

5 Okay. Would there be an
6 issue when you do the swab of somebody else's DNA on
7 the gun.

8 **A** What I was told is that Darren Wilson had
9 unloaded his own weapon, so if he handed it to
10 someone else, I was never informed of that.

11 MS. ALIZADEH: Now, I will tell you we
12 will have DNA people testify and they will tell you
13 what DNA was found on that gun and if they can
14 identify whose DNA it was.

15 So as far as that goes and let me ask you,
16 Detective did you take a swab from Darren
17 Wilson at the hospital.

18 **A** Yes, ma'am.

19 **Q** (By Ms. Alizadeh) So there was a sample of
20 Darren Wilson's DNA taken by you at the hospital?

21 **A** Yes.

22 **Q** And that is done by rubbing something on
23 the inside of his cheek?

24 **A** Yes, it is called a buccal swab.

25 **Q** And you are fully gloved?

1 **A** Uh-huh.

2 **Q** Do you have a protocol on how to take that
3 swab and package it so that there is no
4 contamination?

5 **A** We do.

6 **Q** You do not want your DNA on that swab in
7 any way?

8 **A** No.

9 MS. ALIZADEH: So at any rate, there will
10 be some testimony sometime down the road about what
11 was discovered on the swabs that Detective
12 used when he processed that gun and then, you know,
13 any conclusions to be drawn from that.

14 Anybody else about the gun?

15 We're going to have to break with him and
16 Detective I'm sorry, you will get an invite
17 back on another day.

18 **A** I love to come chat again.

19 MS. ALIZADEH: We'll go ahead and have him
20 finalize the disc and while the disc is finalizing,
21 because we all know that takes a couple minutes, how
22 about if we take a break. And in shifts, I'll start
23 these photographs over here so if you all want to
24 like, if you need a restroom break and then come
25 back as these are getting passed around, and you

1 might be able, you will be able to see. We're not
2 going to do the ones we haven't talked about yet,
3 just the ones we identified.

4 (Recess)

5
6 DR.

7 of lawful age, having been first duly sworn to
8 testify the truth, the whole truth, and
9 nothing but the truth in the case aforesaid,
10 deposes and says in reply to oral
11 interrogatories, propounded as follows, to-wit:

12 EXAMINATION

13 BY MS. ALIZADEH:

14 Q For the record, this is Kathi Alizadeh
15 present in the grand jury room with Sheila Whirley
16 we are both with the St. Louis County Prosecutor's
17 Office. All 12 jurors are present and, as well as
18 the court reporter who is taking down the testimony
19 and also audio recording the proceedings today.

20 For our next witness, would you state
21 your name, please?

22 A Name Dr.

23 Q Could you spell for the court reporter
24 your first and last name?

25 A

1 **Q** And what is your profession?

2 **A** I'm a forensic pathologist.

3 **Q** And can you describe for the jurors your
4 education and how you obtained the degrees to become
5 a pathologist?

6 **A** For starters, I obtained my bachelor of
7 science degree at Xavier University at Louisiana,
8 that was a four year education. I then attended
9 medical school four years at Louisiana State
10 University. College medical school down in New
11 Orleans, which was a four year training. And then I
12 did a four year anatomical and clinical pathology
13 residency at St. Louis University here in St. Louis.

14 I did one additional of pediatric
15 pathology, which was a one year fellowship and
16 fellowship specifically in forensic pathology at St.
17 Louis City Medical Examiner's Office.

18 **Q** Can you explain for the jurors what is,
19 what is a pathologist, what does he do?

20 **A** The basic definition of a pathologist is
21 someone who is a medical doctor who is in the
22 profession of studying disease.

23 **Q** Can you describe for the jurors what is a
24 forensic pathologist?

25 **A** A forensic pathologist is a specialized

1 doctor in the field of pathology who is dealing with
2 determining the cause and manner of death.

3 Q And you are a forensic pathologist?

4 A Yes, I am.

5 Q Are you board certified?

6 A Yes, I am board certified in anatomical
7 pathology as well as forensic pathology.

8 Q Are you employed as a forensic
9 pathologist?

10 A Yes, I am.

11 Q Where are you employed?

12 A I'm currently employed as an assistant
13 medical examiner at the St. Louis County Medical
14 Examiner's Office.

15 Q Is that the office, is the chief medical
16 examiner for St. Louis Dr. ?

17 A Yes, she is.

18 Q You work under her supervision?

19 A Yes, I do.

20 Q How long have you worked for the County
21 Medical Examiner's Office?

22 A A little over two years.

23 Q Prior to that, did you work for any other
24 medical examiner's office?

25 A No.

1 **Q** And so when you began working for the
2 County Medical Examiner's Office, was there any
3 training that you underwent or any on-the-job
4 training that you had to go through when you first
5 began?

6 **A** Um, I mean, the main thing that's
7 important is that you've done a certified or
8 approved forensic fellow, which I did do at St.
9 Louis University through their system at the St.
10 Louis City Medical Examiner's Office. So that's the
11 main thing that you do need, plus your medical
12 degree and eventually being board certified to be
13 able to practice what I practice at.

14 **Q** And so in probably, what I would say in
15 layman's terms, one of your chief duties and
16 responsibilities is to perform autopsies, correct?

17 **A** Correct.

18 **Q** And just we all think we know what an
19 autopsy is, but can you explain for the jurors in
20 general when you have a deceased person how you
21 begin an autopsy?

22 **A** The autopsy itself, it is kind of layman's
23 terms just for the general examination that occurs
24 that I have for a case and it entails a lot of
25 features depending on the circumstances, some things

1 are not done or done, but in a complete sense of an
2 autopsy, you do an external examination, which is
3 looking at the external features of the body with
4 the clothes on and then removed.

5 Once they are removed, you want to
6 look at any type of identifying characteristic, any
7 kind of scar, any type of wounds, any type of
8 tattoos, anything that you can physically see on the
9 body that may be an abnormality or be something
10 different, that's the external portion of the
11 examination.

12 That is then ultimately followed with
13 an internal examination where you are actually
14 assessing all of the organs, weighing the organs
15 looking at the organs to see if you see any type of
16 pathological or disease type changes, any type of
17 injuries on the inside of the body.

18 In terms of different ancillary
19 studies that would be things that are in addition to
20 external, as well as the internal examination we do
21 toxicology, that's taking fluids from the body just
22 in a general sense, blood, urine, fluid from the
23 (listen) eyes where that fluid is tested to see if
24 there is any type of drugs, any type of toxins
25 within the body.

1 The body is x-rayed some time to look
2 for any type of fracture, in homicide to see if
3 there is any type of projectiles within the body or
4 any type of knives or things of that nature.

5 **Q** And by projectile, you mean like a bullet?

6 **A** Correct, like a bullet. Other things that
7 are done, sometimes I do cultures, that is just
8 looking for any type of bacteria or viral packaging
9 that may be in the body, that may be the cause of
10 death. Medical records, if they are present, I will
11 review those as well and sometimes I have to use
12 histology, which is looking at actual tissue that
13 has been processed to be able to look under a
14 microscope, where I look under the microscope and
15 then I can make a diagnosis of different type of
16 disease changes.

17 So those are kind of the basic things
18 that go into an autopsy and as I said, sometimes all
19 of those things are used, and sometimes bits and
20 pieces are used, but more the most part complete
21 external examination, internal examination and the
22 toxicology, that's pretty much routine on all cases.

23 **Q** And now you are not the toxicologist; is
24 that correct?

25 **A** That is correct.

1 **Q** You just collect the samples that are then
2 tested by a toxicologist?

3 **A** That is correct.

4 **Q** Now, prior to your beginning and autopsy,
5 do you receive information from anyone about the
6 deceased that may assist you in knowing what you are
7 looking at and what to look for?

8 **A** Yes, I did.

9 **Q** And in this case did you have a
10 conversation with

11 **A** Yes, I did.

12 **Q** Is he one of the investigators from the
13 Medical Examiner's Office?

14 **A** Yes, he is.

15 **Q** Now, in this particular case, did you
16 examine the body of Michael Brown?

17 **A** Yes, I did.

18 **Q** What day did you examine him?

19 **A** August 10th.

20 **Q** So this would be the day after the
21 shooting, correct?

22 **A** Correct.

23 **Q** Now, in every autopsy that you perform,
24 are there police officers there during the autopsy?

25 **A** Not every autopsy I perform.

1 **Q** In a situation where there might be
2 criminal activity involved in this person's death,
3 is there always a police officer who is present for
4 the autopsy?

5 **A** Yes, there is.

6 **Q** And are you familiar with some of the St.
7 Louis County crime detectives, crime scene
8 investigators?

9 **A** Yes, I'm familiar with them.

10 **Q** And are those generally, well not
11 generally, do they on occasion attend the autopsies?

12 **A** Yes, they do.

13 **Q** And are you present when a police officer
14 is photographing the autopsy?

15 **A** Yes, I am.

16 **Q** Do you at times direct the officer, you
17 know, get a picture of this because this shows this?

18 **A** Yes, I do.

19 **Q** And then if you are removing anything
20 foreign from the body, do you then, does the officer
21 document that object?

22 **A** Yes, he does.

23 **Q** Does typically the officer would then
24 seize those objects if there was anything seized
25 from the body that might be evidentiary in nature?

1 **A** Yes, they do.

2 **Q** So you're not, your job is not collection
3 of evidence?

4 **A** No.

5 **Q** But there is someone present during the
6 entire autopsy whose job is there to collect
7 evidence?

8 **A** That is correct.

9 **Q** Okay. Now, in this particular case, this
10 autopsy performed on Michael Brown, what information
11 did you have from that was something
12 that you considered prior to beginning the autopsy?

13 **A** Um, when I was contacted by
14 he called me on my personal cell phone to let me
15 know what particular cases came in on his shift and
16 he informed me of the cases that came on his shift,
17 and one of the cases was Mr. Michael Brown.

18 The circumstances that I got from him
19 were very brief and minimal. At that particular
20 time he informed me that there was a police
21 shooting. He mentioned to me that there appears to
22 have been a struggle and that was kind of the extent
23 of the information that I had at that particular
24 time.

25 So from that point, I know that the

1 body is going to have to come in for examination due
2 to the nature of the particular type of event.

3 There is certain cases that are under
4 my jurisdiction as a medical examiner and that
5 particular case of Mr. Michael Brown fit that
6 jurisdiction, so I knew that that case was going to
7 come in for examination.

8 Q Are you aware that Missouri has a statute
9 that says that the actual body and its possessions
10 of a deceased person are the property of the Medical
11 Examiner's Office?

12 A Yes, I am.

13 Q And so in this particular case, well, let
14 me back up.

15 You're aware that
16 ultimately prepared a report, correct?

17 A Yes.

18 Q But he didn't have his report prepared
19 when you first began your examination; is that
20 correct?

21 A Correct.

22 Q Okay. And did you see any other police
23 reports or any other reports about this incident
24 before you began your examination?

25 A No, I did not.

1 **Q** Did you get any other information from
2 anywhere else, whether it be a police officer or
3 witnesses or anybody else?

4 **A** Before I started my examination, Detective
5 was present at my autopsy
6 examination and I did ask him about the
7 circumstances that he knew at that particular time.

8 **Q** What did he tell you about what he knew at
9 that time?

10 **A** Trying to remember exactly, it is a while
11 back, but it was just basically similar situation of
12 there were two gentlemen in the street, police
13 officer responded to that particular area, from that
14 point in time a struggle ensued and then after that
15 things were difficult to determine at that point in
16 time, but ultimately it ended in the result of
17 Mr. Michael Brown obtaining fatal wounds.

18 **Q** Okay. And so jumping forward now, at the
19 conclusion of an autopsy, do you prepare a report?

20 **A** Yes, I do.

21 **Q** And is that report reviewed by anyone else
22 in your office?

23 **A** Um, there's a secretary who transcribes
24 the information that I speak into a digital
25 recorder, but it is my words and she transcribes my

1 words, I get it back, I correct it.

2 Q Okay. And so did you, you prepared the
3 report after your autopsy of Michael Brown?

4 A Yes.

5 Q And did you approve the final report as
6 correct, in other words, those were the words that
7 you had dictated?

8 A Yes, yes, I did.

9 (Deposition Exhibit Number 6
10 marked for identification.)

11 Q (By Ms. Alizadeh) I'm going to hand you
12 what I marked as Grand Jury Exhibit Number 6. And
13 is that a copy of your report of the post-mortem
14 examination, post-mortem examination just another
15 term for like an autopsy?

16 A Correct.

17 Q Is that your report of the autopsy of
18 Michael Brown?

19 A Yes, it is.

20 Q All right. And I'm going to pass around
21 to all of you a copy of the report. Again, as I
22 have mentioned before, if you are reading a document
23 when a witness is testifying, just keep in mind that
24 you might be missing something that's being said.
25 These reports are yours to keep in your folders that

1 we've provided for you to review at any time. And
2 if at a later date after reviewing the report you
3 have additional questions, we will try to get those
4 questions answered for you.

5 I'm also handing you a document, I
6 didn't mark this, Dr. did I show you that
7 prior to your testimony today?

8 **A** Yes, you did.

9 **Q** This is a list of terms of anatomic
10 orientation. In your report, you use terms that I
11 would say a layperson isn't going to be familiar
12 with, would that be fair to say?

13 **A** That's fair.

14 **Q** And when you are autopsying a body, is it
15 one of your jobs and responsibilities to describe
16 the location of a wound?

17 **A** Yes, it is.

18 **Q** And if it is some kind of piercing wound,
19 whether it be from a knife or projectile, you
20 describe the path of that wound or the trajectory so
21 to speak of that wound?

22 **A** That is correct.

23 **Q** You use terms that might not be common
24 everyday terms that laypeople would understand?

25 **A** That is correct.

1 **Q** Do you agree that these terms that I
2 showed you on this list are accurate?

3 **A** Yes, I do.

4 **Q** And do you think it would assist the grand
5 jurors if they have a copy of this if they later
6 want to use the report?

7 **A** Yes, I did.

8 MS. ALIZADEH: So I will pass those around
9 as well. Again, if you will write your grand juror
10 number on the upper corner of these documents,
11 please do not write on them. If you have notes to
12 take, go ahead and take those notes in your
13 notebook, but these are going to be, do we already
14 have somebody that wrote on it? Did you write on
15 it? If need be, I can get you a clean one. I want
16 to make sure that the notes that you take are in
17 your notebook.

18 So, Dr. are you assisted during
19 the autopsy?

20 **A** Yes, I am.

21 **Q** (By Ms. Alizadeh) And is it someone who is
22 employed by the Medical Examiner's Office who assist
23 you?

24 **A** Yes, that is true.

25 **Q** And do you recall, you said Detective

1 was present for the autopsy?

2 **A** (Nods head.)

3 **Q** He is a detective with the County Police
4 Department?

5 **A** That is correct.

6 **Q** And was there another detective there who
7 was photographing and seizing evidence?

8 **A** There were two other detectives there, but
9 I don't know their names specifically.

10 **Q** All right. And so when you, after your
11 autopsy is completed, is it a standard, I'm sorry,
12 and in the case when the police are also involved in
13 the autopsies as far as documenting things, does the
14 Medical Examiner's Office receive a complete copy of
15 the photographs that the police took at the autopsy?

16 **A** Yes, we do.

17 **Q** Okay. Now, I'm going to show you what
18 I've marked as Grand Jury Exhibit Number 7.

19 (Deposition Exhibit Number 7
20 marked for identification.)

21 **Q** (By Ms. Alizadeh) I am going to ask you to
22 just remove what's in there. And this is a stack of
23 photographs and just real quickly just leaf through
24 them?

25 **A** Okay.

1 **Q** And tell me do you recognize these as the
2 photographs that were taken during the autopsy of
3 Michael Brown?

4 **A** Yes, I do.

5 **Q** Now, we've already done this a couple of
6 times and I think the easiest way to do this is if
7 you would sit in that chair there and take those and
8 have them on your lap.

9 And when we talk about these, now we
10 have already had some testimony from some crime
11 scene detectives about these photographs, and
12 including the fact that each photograph has a number
13 on the back of it. And so when I refer to the
14 photographs, since I haven't marked these
15 individually, we will just say this is Image Number
16 1, okay?

17 **A** Okay.

18 **Q** And so forth.

19 **A** Okay.

20 **Q** So let me turn down the lights again.
21 Makes it easier for people to see.

22 So, Dr. I know you're not
23 necessarily the author of this and not familiar with
24 what is depicted in Image Number 1, but the jurors
25 have heard testimony about this. This is the

1 placard that was prepared by the officer who took
2 these photographs and that would be his DSN down at
3 the bottom And my knowledge is that that is
4 Detective And if necessary he can
5 testify about taking these photographs if you need
6 to hear from him about what he's done.

7 But, of course, it is going to have
8 to be the doctor who testifies about what we are
9 seeing in these photographs for the most part. So
10 Image Number 1 is the placard.

11 Can you put Image Number 2 up there,
12 please? I think it goes towards you on the thing,
13 there you go. Can you describe what you are seeing
14 in that image?

15 **A** On the table is Mr. Michael Brown, the
16 decedent in question, and this is the way that the
17 body was presented to me after removal of the body
18 bag, which is the white bag that you see draped over
19 the table. And there's the placard identifying the
20 particular case and that's myself off into the
21 background in the back.

22 **Q** So that placard, and here is a laser
23 pointer right next to you right there, can you just
24 point to where the placard is you are talking about?

25 **A** This is the placard, identifying placard

1 for this particular case.

2 Q And that's prepared, that's not the one
3 that the county detectives prepared, that's
4 something that the medical examiner does, correct?

5 A Correct.

6 Q Okay.

7 A Actually, sorry, this one is St. Louis
8 County, sorry.

9 MS. ALIZADEH: Okay.

10 . So when the body
11 leaves the scene, is it taken directly to your
12 offices or where is the examining on the 10th, what
13 happens between when it is collected and this day?

14 A The body is picked up from a delivery
15 service, delivery service is responsible for picking
16 the body up from the scene. At that point when the
17 body is picked up from the scene, it is brought
18 directly to the St. Louis County Medical Examiner
19 and it is placed in the morgue, in a cooler, until
20 eventually I'm going to come for the examination.

21 Let me back up a step. When the body
22 comes in and it is checked in by the morgue staff or
23 it is given a number, and just to make sure that it
24 is logged in appropriately and put into the morgue,
25 but the body goes into the cooler to wait until the

1 next day. We will take initial round of pictures
2 and then we will get to the point where we are right
3 now.

4 : Thank you.

5 **A** You are welcome.

6 **Q** (By Ms. Alizadeh) So when the body was
7 removed from the cooler, was it still locked in the
8 bag?

9 **A** Correct.

10 **Q** We heard talk about the fact that
11 there is a lock placed on the bag at the scene by
12 him?

13 **A** That is correct.

14 **Q** After the body is received at the Medical
15 Examiner's Office, does anyone before your autopsy
16 begins unlock that bag?

17 **A** No.

18 **Q** If that lock had been disturbed or broken
19 or opened when you began your autopsy, would you
20 have noted that?

21 **A** Yes.

22 **Q** And so when you open the body bag, this is
23 the body of Michael Brown as it appeared when you
24 open the body bag?

25 **A** That is correct.

1 **Q** We see in the image that we have heard
2 testimony from that there is paper
3 bags that are placed on the hands of the deceased?

4 **A** That is correct.

5 **Q** And that was done by at the scene?

6 **A** That is correct.

7 **Q** And would it be protocol for to
8 have used latex gloves while he is handling any of
9 the body while he is at the scene?

10 **A** That is correct.

11 **Q** So after that has happened and the officer
12 has photographed what we see in Image Number 2, what
13 happens next?

14 **A** Um, at this point, in theory and in terms
15 of normal protocol or in terms of how I approach the
16 case, at this point I will eventually myself start
17 looking at the body, start the initial external
18 examination that I spoke with you all at the
19 beginning where I am looking at the clothing that
20 the particular decedent has on. And just stating
21 how the body appears to me, at least initially, in
22 terms of clothing and that would be the next step.

23 **Q** Okay. And so let's move through the
24 photographs as we go and Image Number 3?

25 **A** Yes, this is Image Number 3.

1 **Q** So just describe, if you briefly want to
2 describe what we are seeing here?

3 **A** This is just the decedent, Mr. Michael
4 Brown, from the other side of his body, looking from
5 the other angle before the angle is just flip
6 flopped. So it is just the other side, you are
7 looking at the right side of his body as opposed to
8 the first image which was the left side of his body.

9 **Q** Okay. Image Number 4?

10 **A** Image Number 4 is just kind of an overall
11 view of Mr. Michael Brown's face as he is as soon as
12 the bag is removed to expose his face and rest of
13 his upper body.

14 **Q** And this up here, that's the placard that
15 you were talking about?

16 **A** That's the identifying placard that was
17 prepared by St. Louis County Police Department, this
18 is Mr. Michael Brown's face.

19 **Q** Okay. And Image Number 5?

20 **A** Image Number 5. So this is, we actually
21 have a ladder in the actual morgue suite where you
22 are able to get a higher vantage point to be able to
23 get a larger view of the body.

24 So the officer in this particular
25 case has got on top of the ladder, he is doing an

1 overall of Mr. Michael Brown where you can see at
2 least down to the mid thigh, from the head down to
3 the mid thigh and seeing the arms and the torso, and
4 here is the identifying placard again.

5 Q Let me stop you here. As you say the body
6 was, you know, the bag was opened and you examined
7 it, are the clothes disturbed for the purposes of
8 these photograph?

9 A No, the clothes were not disturbed. This
10 is how they are maintained within the bag as soon as
11 it is opened.

12 Q So nobody lifted up the shirt, nobody
13 pulled the pants down, that's how it was when you
14 first saw it?

15 A Correct.

16 Q Okay. At this point, are you the one who
17 puts the body onto the table?

18 A Um, so from here, he was placed on this
19 table initially within the morgue cooler, it is on
20 wheels. So when it comes out, he is staying on here
21 the entire time. So the entire autopsy is going to
22 start coming from the cooler, to this part where you
23 are seeing the pictures, to me actually doing my
24 incisions and remove organs, so he stays on this
25 table the entire time.

1 **Q** And Image Number 6, I believe?

2 **A** Image Number 6. So this is still a view
3 from the ladder where the officer is taking
4 pictures, here is that identifying placard and here
5 is a shot from the head would be here, the feet are
6 down here and you can see the hands and you can see
7 the rest of the lower extremities of Mr. Michael
8 Brown and what he was wearing.

9 **Q** Now, there is a white object that's
10 affixed to his right ankle, do you know what that
11 is?

12 **A** These are added to the body just as
13 identifiers to make sure we know whose who when they
14 are coming in for examination.

15 **Q** So that was placed on there by someone
16 from the Medical Examiner's Office?

17 **A** Correct.

18 **Q** Not prior to him being --

19 **A** Correct.

20 **Q** -- deceased?

21 **A** Correct.

22 **Q** And then the next one, Number 7?

23 **A** Image Number 7, this is Mr. Michael Brown.
24 Again, we can see the face and you can see the shirt
25 that he was wearing, just a closer image of the face

1 and upper body.

2 **Q** Okay. Number 8?

3 **A** This is number 8. So we are looking at
4 the right side of Mr. Michael Brown's face and you
5 can see the shirt that he's wearing and you can see
6 the right side of his face.

7 **Q** Number 9?

8 **A** This is Image Number 9. And this is
9 predominantly, you know, this is the right side of
10 the face here, the left side would be here off of
11 the view of the picture. So you can see some of the
12 injuries here to the right side of the face.

13 **Q** Now, before I get too far ahead of
14 ourselves here, do you have other images in this
15 stack that better document the injury that you
16 documented?

17 **A** Yes, I do.

18 **Q** So you haven't, in other words, you
19 haven't cleaned him up?

20 **A** No, that is correct.

21 **Q** And at some point do you clean him up?

22 **A** Yes, I do.

23 **Q** And is it easier to visualize the injuries
24 after that?

25 **A** That is true.

1 **Q** Okay. So we'll go through these and then
2 we will talk about the injuries when we have the
3 other photographs. And that is Number 9 is next, I
4 think?

5 **A** Yes, it is. This is Number 10.

6 **Q** Yes, that's right. This one is Number 9,
7 you've got Number 10 up there on the screen?

8 **A** Yes. This is similar image to what I just
9 showed. We are still looking at the right side of
10 the face and what has been introduced here by the
11 officer who is taking the photos. He has introduced
12 a ruler, the ruler is important for scale in order
13 to if you want to go back in time to say how big or
14 how small things are, that's the purpose of the
15 ruler that has been introduced into this picture.

16 **Q** Okay. And the next would be Number 11?

17 **A** So this image is flip flopped a little
18 bit, mouth and the nose would be up here, the top of
19 the head is here, we are still looking at the right
20 side of the face and then you still have this ruler
21 that has been introduced into the picture.

22 **Q** Okay. Number 12?

23 **A** This is Image Number 12. Now, we're
24 seeing a little bit more of the left side of the
25 face, but still predominantly focused on the right

1 side of the face and once again the ruler is here
2 for scale.

3 Q Number 13?

4 A This is Image Number 13. And here we're
5 looking at the right side of the face, getting a
6 little bit lower near the draw line, jaw line
7 depicting an injury here on the right side of the
8 face.

9 Q Number 14?

10 A This is Image Number 14. Similar to the
11 last image that I just showed you. The only
12 difference is the ruler has been inserted into the
13 photograph for scale. So we are looking at the
14 right side of the face, again, focusing on this
15 wound.

16 Q Number 15?

17 A Image Number 15. Flipped upside down, but
18 the mouth would be here, the top of the head is down
19 here, once again focusing on the right side of the
20 face depicting injuries.

21 Image Number 16. So we're looking at
22 the right side of the body, there was a similar
23 image of this before, but the feet are down here,
24 the head is up here, this is the right side of the
25 body.

1 **Q** Now, in this image, the shirt of Michael
2 Brown, the shirt is actually above his --

3 **A** Nipple line.

4 **Q** -- nipples? That was actually manipulated
5 prior to the photograph?

6 **A** The shirt has been manipulated prior to
7 this point to better get an assessment of the body
8 looking for other injuries.

9 **Q** Okay.

10 **A** This is Image Number 17. So what we're
11 looking at here is once again, we are still looking
12 at the right side of the body, the feet would be
13 here, the head is up here, you have the right arm
14 being extended kind of perpendicular in a 90 degree
15 angle from the table. The hand is up here, the
16 shoulder would be down there. And we have these
17 wounds here near the forearm, this is the forearm.

18 **Q** Okay. Image Number 18, I believe?

19 **A** This is Image Number 18. This is the
20 right forearm and we are looking at a wound here,
21 that is what is being depicted at this point.

22 **Q** Number 19?

23 **A** This is Number 19. We are looking at, do
24 you want me to just go through the picture or you
25 want me to reference them to my report at this

1 point, what is the best way?

2 Q This is prior to being cleaned up or not?

3 A It is kind of in between. It is a little
4 bit cleaned off in order to get a better shot.

5 Q Okay.

6 A But we're still, the shirt is still on.

7 Q Let's go through these and then we will
8 start with the injuries as you've documented them.

9 A Okay. I can just go back and pull them
10 out.

11 Q We can pull them out?

12 A Okay.

13 Q And, Doctor, is it your habit when you
14 begin to describe injuries, do you like start from
15 the head and work your way down, or do you just pick
16 a certain way to describe them?

17 A Um, my usual approach is, I kind of go in
18 terms of more significant injuries to the least
19 significant. So I typically will start with the
20 things that look to me to be, you know, more
21 immediately impactful to the life of an individual.

22 So when I get to the situation where
23 I have wounds of the arms and things of that nature,
24 those would be further down in my report. That's my
25 typical approach when I do cases.

1 **Q** Okay. So we've scene the photographs of
2 the head and the side of the body, and now we are
3 looking at injuries to the right arm?

4 **A** To the arm, yes. So this is the right
5 forearm and there is an injury right here where they
6 introduce the ruler scale in this particular photo.

7 This is Image Number 20. We're still
8 looking at the right forearm and this is on that
9 previous photo, that's the wound that you were
10 seeing and this is a new wound here on the right
11 forearm.

12 MS. WHIRLEY: This is Sheila Whirley.
13 When you say the forearm, where are you speaking of?

14 **A** The forearm, particularly is the region of
15 your arm between your wrist and your elbow.

16 MS. WHIRLEY: Okay. And those are two
17 separate wounds did you say?

18 **A** Yes, they are two separate wounds. There
19 is one here and there is one here.

20 MS. WHIRLEY: Okay.

21 **Q** (By Ms. Alizadeh) At some point we will
22 describe them and what you conclude from those
23 wounds?

24 **A** Yes, I will.

25 **Q** We are just going through the photographs

1 in order just so we can get them all in, all right?

2 And the next Number is 21, I think, 21, yeah?

3 **A** Yeah, 21, and similar photos to what you
4 just saw, but there's rulers here. You still have
5 that wound here on the forearm and then here is
6 another one on the right forearm.

7 Is this 22?

8 **Q** Yeah.

9 **A** This is Image 22. So we're backing up a
10 little bit and it is kind of hard, I can see it on
11 my picture, we will get a little bit closer. So the
12 head of Mr. Michael Brown is here, this is still his
13 right arm, and this is like his torso here. What
14 I'm going to be focusing on there is a wound right
15 here on the middle part of his upper right arm.
16 There is a wound right here.

17 **Q** Number 23?

18 **A** This is Number 23. And this is a closer
19 picture of the wound that I couldn't really show too
20 well on the overhead projector, but this is the
21 wound in question right here. So it is on the upper
22 portion of his right arm, but it is on the inside
23 portion of the arm, medial.

24 MS. WHIRLEY: That's the medial.

25 **A** Yeah.

1 MS. WHIRLEY: We talking about the armpit
2 area.

3 A Close to that.

4 This is Image Number 24. This is
5 just the same picture again, but you see the ruler
6 inserted for scale and this is the wound.

7 This is Image Number 25, so the head
8 of Mr. Michael Brown is here, the hand, the right
9 hand is out here, this is the shoulder area and we
10 are looking at the medial or kind of the inner
11 aspect of the right arm, but what I'm focusing on
12 right here there's another wound right here in the
13 bicep region on the right arm. And then there is
14 also a tattoo here on the forearm that reads Big
15 Mike.

16 Q (By Ms. Alizadeh) This is 26 now?

17 A This is Image 26. And this is just a
18 closer picture of that wound that I was showing
19 before on this part of the bicep and on the right
20 arm.

21 Image 27. Same image, again, of the
22 wound of right bicep. You have a ruler introduced
23 for scale.

24 This is Image 28. Backing up a
25 little bit, but it is still the right arm,

1 Mr. Michael Brown's head is here and there is a
2 wound right here on the upper part of the right arm.

3 So here, and specifically this region
4 would be, we call it the ventral surface or anterior
5 surface or the front surface of the arm, but there
6 is a wound here that I'm depicting right here.

7 Q Which arm is this?

8 A This is the right arm.

9 Q So there is a tattoo we saw in an earlier
10 photograph on the right forearm?

11 A Yes.

12 Q That read downward, correct?

13 A Correct.

14 Q And in this image there is another tattoo,
15 that's not the same tattoo, correct?

16 A This is a different tattoo on the upper
17 portion of the right arm. When I say the upper
18 portion of the right arm, I'm talking from the elbow
19 to the shoulder. So where your bicep would be and
20 this is a different portion of the right arm, but
21 there's a different identifying tattoo here.

22 Q 30?

23 A Image Number 30. Showing that same wound
24 on the front portion of that upper right arm, but
25 the only difference is the ruler has been introduced

1 into the photo for scale.

2 Q 31.

3 A Image 31. So now we are looking, the
4 shirt has been raised, we are still looking at the
5 right sides of the body. So over here on the right
6 lateral side of his chest, lateral is to the
7 outside, you have a wound right here and that's the
8 main thing that I'm focusing on at this point.

9 So this would be 32. This is just a
10 closer up view of that wound that I just showed you
11 previously here on this lateral part of the right
12 chest. And this is the nipple on right side.

13 Q 33, it should be?

14 A Image Number 33. The only thing different
15 in this photo is, the ruler has been introduced per
16 scale. Still looking at the same wound I just
17 showed you.

18 This will be Image Number 34. So
19 here is Mr. Michael Brown's head, the shirt has been
20 raised up further in this particular situation.
21 That previous wound that I was just showing you was
22 down here, there is a new wound here on the, kind of
23 the upper part of right chest, and that's what I'm
24 focused on right now, a different wound?

25 Q 35.

1 **A** This is a close-up view of that wound that
2 I showed you on the upper part of that right chest.

3 **Q** 36.

4 **A** Image 36. The only difference is a ruler
5 has been introduced per scale and there is also a
6 wound out here, this is like an abrasion here on the
7 right side of the chest. So there is two things of
8 interest here and here.

9 Image 37. We have switched over to
10 Mr. Michael Brown's left arm and what, so his head
11 is here, this is the left side of his body, this is
12 the left arm and left hand that is still bagged with
13 a brown paper bag. And there's an injury here on
14 left forearm as well as there is a tattoo right next
15 door.

16 So this close-up image of the left
17 forearm showing that injury that I just mentioned as
18 well as the identifying tatoo.

19 **Q** Just for the record, that was Image 38.

20 **A** Image 39. Only thing different is the
21 introduction of the ruler, still showing that injury
22 on left forearm as well as the identifying tattoo.

23 : . Now,
24 you are classifying this as an injury rather than an
25 wound, any significance to that?

1 **A** I'll do a little better with kind of
2 keeping things consistent once I get to one place,
3 but injury and a wound, they are similar. But
4 eventually when I get to the point I will be able to
5 break it down for you, like this is an abrasion,
6 this is a gunshot wound, and I will separate all of
7 those out for you guys so you won't be confused.
8 I'm just trying to get through them, I'm sorry.

9 Thank you.

10 **Q** (By Ms. Alizadeh) At this point you are
11 documenting any injuries, no matter how they
12 occurred?

13 **A** Or defects. They are all kind of the same
14 thing. There are things that is happening to the
15 body that he wasn't born with, so.

16 **Q** If he had an appendectomy scar --

17 **A** I would mention that.

18 **Q** With a heal injury, you would still
19 document that?

20 **A** I would mention that, yes.

21 **Q** So I think we just did that one, didn't
22 we? I probably handed it back to you. I thought
23 you would want it.

24 **A** Number 40. So this is still the left arm,
25 the bag has now been removed from the hand and

1 that's the main difference with this photo.

2 This is Image 41, this is still left
3 arm, the head is here, this is showing the dorsal,
4 or the back side of the hand after the bag has been
5 removed.

6 This is 42. Now, I'm flipping back
7 over to the other side of the body and this is going
8 to be his right hand and the bag has been removed
9 and here you can see an injury.

10 Q I think 43?

11 A Yes, 43. Image 43. This is the back side
12 of the right hand and this is the, you know, the
13 right forearm, right hand, this is after the bag has
14 been removed from the hand.

15 Image 44. This is just a closer view
16 of the injury to the right hand and this is the
17 ventral surface of the hand or the palmar surface of
18 the hand. And that's the particular part that we
19 are looking at.

20 This is a close-up of the ventral or
21 palmar surface of the hand. This is the right hand,
22 this is the thumb and this is the particular area of
23 interest, there is an injury.

24 Image 46. Only thing different here
25 is the introduction of a ruler. We are still

1 looking at the right hand looking at that surface
2 where this injury is.

3 This is 47. So in terms of getting a
4 different take on the hand and the injury, the hand
5 has been cleaned off at this point. So I have
6 removed some of that blood and material that was
7 stuck to the hand. So this is a cleaner image of
8 the hand after the bag has been removed and after it
9 has been kind of cleaned off and we are still
10 looking at the palmar surface or ventral surface or
11 front surface of the right hand.

12 : Before
13 you washed the hand, you collect under his nails or
14 whatever it is he has gunpowder or skin?

15 **A** A good question. The question raised was,
16 before I am starting to wash or clean the hand, do I
17 do any type of forensics or other biological
18 evidence from the hands, and I do.

19 Once the bags are removed, they are
20 documented with pictures and in this particular
21 case, I did do scraping underneath the nails to get
22 material which is then submitted for analysis. And
23 I also took fingernail clippings from both hands,
24 which is submitted for evidence.

25 And the actual clipper that I

1 actually used to remove the finger nails, that is
2 also submitted as evidence. So all of those things
3 are done before the hand has been altered or washed.
4 And then at that point once I have taken the
5 fingernail clippings and the scrapings, then I go
6 ahead and wash the hands and then continue my
7 process.

8 Q (By Ms. Alizadeh) So the clippers that you
9 used to clip the nails, those are one use clippers,
10 they are sterile, correct?

11 A Correct.

12 Q And then regarding, let's talk about that
13 injury to the right palm. We have seen in the
14 photograph that you have washed it off so you can
15 get a better look at the injury, correct?

16 A Correct.

17 Q Now, at some point you took, you cut a
18 piece of that wound out; is that right?

19 A That is correct.

20 Q But you haven't done that at this point?

21 A No, I have not.

22 Q What do you wash the wound with?

23 A Usually just water, warm water and a towel
24 or a rag, or sometimes they have like kind of like a
25 bristle type brush to be able to scrub off that

1 blood that is kind of stuck to the hand. It is
2 pretty resilient, sticks pretty good. So just using
3 water, warm water and scrubbing, that's how we
4 remove it.

5 Q No chemicals?

6 A No.

7 Q Nothing like that?

8 A No.

9 Q Okay.

10 : . Water from
11 the sink or?

12 A Water from the sink.

13 Q (By Ms. Alizadeh) Okay. So now back to
14 the image that you last showed?

15 A We are at 48 now. So this is still the
16 right hand, the hand has been cleaned, it is just a
17 closer view of that injury to the palmar surface of
18 the right hand.

19 This is Image 49. So only thing
20 different, a ruler has been introduced for scale.

21 So this is Image 50 and now we are
22 back on the left side of the body. And this is the
23 left hand and that's that wound or injury I was
24 showing you guys earlier. I'm trying to focus on
25 the thumb here, there is a little abrasion there.

1 **Q** Now, let me ask you, let me put this back
2 up here. We see the position of the arm and the
3 wrist and the hand is bent.

4 **A** Uh-huh.

5 **Q** Is that being held in that position or is
6 that the way the body is fixed?

7 **A** Most likely some of it is me putting a
8 little bit of tension onto the hand to be able to
9 better see the particular injury that I'm looking
10 for, but at the same time there is also particular
11 ways that the body, it is called rigor mortis, the
12 body will be kind of fixed in a certain position.
13 So there is mixtures of kind of these two events
14 happening at the same time.

15 The natural fixation or rigor mortis
16 of the body, plus me putting tension on it to get a
17 better look at the injury that I'm trying to show in
18 this photograph.

19 **Q** Okay. So the next photo is?

20 **A** This is Image 51. So this is a close-up
21 of that left hand and it is just this little injury
22 right here. Technically it is an abrasion, this is
23 what I'm focusing on right here.

24 **Q** 51?

25 **A** This should be 52.

1 **Q** 52, I'm sorry.

2 **A** Image 52. Still showing that little
3 injury/abrasion there on the hand. And the only
4 difference is the introduction of the ruler for
5 scale.

6 This is 53. So we are still looking
7 at the left hand and I've, I'm starting to pull this
8 fifth finger or the pinky finger on the left hand,
9 I'm trying to expose a little area of discoloration
10 on that hand.

11 Showing you 54. So this is that
12 fifth finger, that pinky finger on the left hand and
13 this is this little area of discoloration, that's
14 all I'm focusing on in this photo.

15 **Q** Just so we know, did you determine was
16 that an injury, that little area of discoloration?

17 **A** No, I don't feel that it is.

18 **Q** Okay.

19 **A** This is 55.

20 **Q** It is getting tired.

21 **A** There it is. That's just that little area
22 of discoloration on the left hand right here by the
23 pinky finger. For anatomical purposes, this is the
24 dorsal surface of the finger, the posterior or back
25 side of the finger.

1 Image 56. So we're looking at
2 Mr. Michael Brown's head is here, we are looking at
3 the dorsal or the back side of the left hand and
4 there's an injury right here.

5 **Q** And for the record, or just so we go
6 through this, would you consider this an abrasion?

7 **A** Yes, I do.

8 **Q** Okay.

9 **A** As previously mentioned, this is just a
10 closer, I'm sorry, Image 57. This is a close-up
11 view of that previous abrasion here on the dorsal
12 aspect of the posterior of the back side of the left
13 wrist and there's an abrasion there.

14 Same image again of that abrasion on
15 the left wrist, back side posterior, just only thing
16 different is the introduction of a ruler.

17 **Q** And that's 58?

18 **A** Sorry.

19 **Q** That's okay. I'm trying to catch it when
20 I can.

21 **A** 59.

22 **Q** Okay. Now, let me stop you here. So at
23 this point you have documented all the injuries that
24 you can see and?

25 **A** There is still one that I can see right

1 now.

2 Q Okay.

3 A There is another one that I have to
4 expose.

5 Q Okay. But at this point now, you remove
6 the clothing?

7 A Yes.

8 Q All right. And is the clothing seized and
9 packaged by a police officer?

10 A Yes, the clothing is seized and packaged
11 as evidence to the officer.

12 Q Now, let me ask you this. At some point
13 is his clothing searched while he is in the morgue.

14 A Yes, it is.

15 Q And who does that?

16 A Usually the morgue attendant will search
17 the clothing.

18 Q Were you present when that was done?

19 A I do not remember.

20 Q Okay. And so if there was anything that
21 was inside the clothing or attached to the clothing,
22 that would have been removed by the morgue
23 attendant?

24 A That is correct.

25 Q And so who actually removed the clothing

1 from the body?

2 **A**

3 **Q** And is the clothing removed by cutting it
4 off?

5 **A** Um, it depends, but in this situation it
6 was just removed normally as you and I would take
7 off our clothing. The only time the clothing is cut
8 is if it is too difficult to remove it, but in this
9 situation the clothing was not too difficult to
10 remove, so it was not cut.

11 **Q** Okay. And after the clothing is removed
12 and that's seized and packaged by someone else, any
13 items that were inside the clothing is taken care of
14 by someone else, do you then clean up the body?

15 **A** Yes, yes, I do.

16 **Q** And so this next image, which I can't
17 remember what number that is?

18 **A** We are on 59.

19 **Q** Okay. This is now the body after the
20 clothing is removed and the body has been cleaned of
21 excess blood and so forth, correct?

22 **A** It is the best possible attempt to do so.

23 **Q** Okay. Now, let me ask you this. I don't
24 know if I'm jumping back or forward here, but
25 initially in your examination, I don't know if you

1 do this with clothing on or without the clothing on,
2 but do you weigh the body?

3 **A** Yes, I do.

4 **Q** How much did he weigh? Do you have your
5 report there if you want to refer it?

6 **A** Specifically 289 pounds.

7 **Q** Is that without clothing or with clothing?

8 **A** That's with clothing.

9 **Q** And then do you also measure the height of
10 this person?

11 **A** Yes, we do.

12 **Q** And how tall was Michael Johnson?

13 **A** 77 inches.

14 **Q** And I'm not good at math, but is that
15 6 feet 5 inches?

16 **A** Yes.

17 **Q** I had to use a calculator before when I
18 did that, I'm a lawyer.

19 **A** Yes, it is.

20 **Q** 6'5". Were you told how old Michael Brown
21 was or his date of birth?

22 **A** I was told how old he was.

23 **Q** And how old was he?

24 **A** 18.

25 **Q** Okay. And in examination of his body, do

1 you make any type of conclusion about does he appear
2 to be his stated age?

3 **A** Yes.

4 **Q** And developmentally?

5 **A** Yes, I do. That's the general approach.
6 I do make that reference one, there are some facial
7 injuries, but there is still enough to be able to
8 make that assessment.

9 **Q** Okay. Now, as we go forward with these
10 photos, the wounds that you already documented will
11 be photographed again and now we will go and
12 describe them.

13 **A** Okay.

14 **Q** And you document them in your report,
15 correct?

16 **A** Yes.

17 **Q** And so when you get a photograph, let's
18 say the name of the image, and then in your report
19 you have these injuries as number one, number two
20 and so forth. So let's refer to them like that. So
21 if you want to go along in the report, ladies and
22 gentlemen, if it makes it easier.

23 **A** I'm trying to see when I get, we're still
24 kind of going back through and looking at tattoos
25 and cleaning off stuff.

1 **Q** Okay.

2 **A** When I get there I'll do that.

3 **Q** All right.

4 **A** This is 59.

5 **Q** 59, and this is the first picture that
6 we've seen where his clothing is removed, correct?

7 **A** Correct. So here we have the head, there
8 is the feet, Mr. Michael Brown's clothing has been
9 removed. Once again we have that identifying
10 placard and this is his body without the clothing.

11 This is Image 60. We have the
12 identifying placard, this is Mr. Michael Brown, this
13 is looking at the right side of his body with his
14 clothing removed, feet are here, head is here, that
15 right arm is extended coming out at you.

16 This should be Image 61. This is
17 Mr. Michael Brown, clothing removed and then once
18 again the officer who is taking the photos, he has
19 ascended upon the stair step ladder to get an
20 overall view of Mr. Michael Brown without his
21 clothing.

22 Image 62. This is showing the lower
23 half of Mr. Michael Brown's body without the
24 clothing and here is the legs and the lower portion
25 of the abdomen.

1 This is Image 63. Looking at the
2 right side of the body and in here getting a better
3 visualization of one of those identifying tattoos on
4 the, kind of the upper portion of the right arm.

5 **Q** Now, just for clarification sake, what is
6 this thing right here?

7 **A** That's just a paper towel that is
8 sometimes used to remove blood or to get rid of
9 anything that's obscuring anything that I'm trying
10 to see.

11 This is Image 64. And this is just a
12 close-up of that tattoo, you know, with the blood
13 that was obscuring it removed from the upper right
14 arm.

15 This is Image 65. This is a better
16 image of the forearm with that identifying tattoo,
17 still see a wound here near the bicep and this is
18 the right arm and then that wound of the right hand.

19 This is 66. This is just a better
20 image of that identifying tattoo on the right
21 forearm, Big Mike.

22 This is 67. This is the left arm
23 now, the head is here, the feet would be out here,
24 this is the left arm and we are looking at the
25 forearm with the identifying tattoo and that injury

1 that you guys saw earlier.

2 This is 68. So this is the left
3 forearm with the identifying tattoo and then there
4 is this linear abrasion out here on the left
5 forearm. And this is the front part or ventral part
6 or anterior part of the forearm.

7 This would be 69. And with all cases
8 we have it is important to look at the back side of
9 the body as well as the front, and that involves the
10 external examination. So here Mr. Michael Brown's
11 body is being rolled by the autopsy technician

12 so we can document that there are no
13 injuries to the back side of the torso.

14 **Q** You did not find any injuries to the back
15 side of his torso?

16 **A** No, I did not.

17 **Q** How about the back side of his buttocks or
18 his legs?

19 **A** No, I did not.

20 **Q** Now, just for descriptive purposes, you
21 talk about front side and the back side or anterior,
22 posterior, ventral, dorsal, those are all
23 interchangeable terms?

24 **A** Yes.

25 **Q** When you are talking about your arms,

1 because your hands can move from one way or another
2 anatomically, would it be correct that in an
3 anatomical diagram the person would be standing
4 upright and their palms would be forward?

5 **A** That is correct.

6 **Q** So if you are describing an injury on the
7 palm, that would be a front injury to the front of
8 the hand, anterior, ventral?

9 **A** It is still ventral. The front would be
10 anterior, it could be ventral, all of those are
11 interchangeable terms or palmar, they are all the
12 same, all the same thing. Just depicts the front
13 portion of that body part in the standard anatomical
14 position. And when I document the injury, it is
15 always from this position. This is my reference
16 point. (indicating)

17 **Q** So when you're talking about, for example,
18 an injury to the forearm, your forearms move when
19 you turn your palms outward, correct?

20 **A** Correct.

21 **Q** So when you are talking about front or
22 anterior, you have to imagine that this is a person
23 whose palms is facing out. We might think this is
24 the inside of our arm, he doesn't describe it that
25 way. So for clarification, imagine that your arms

1 are in this position like he describes where the
2 wounds are on the arms, not so for the legs because
3 the legs just stay the way they are.

4 **A** The way they are, yeah.

5 **Q** Sorry.

6 **A** No, that's fine, excellent point.

7 I think I can start trying to
8 describe some of these.

9 **Q** So we're going to start with some wounds
10 now?

11 **A** This is Image 70. And the wound I will be
12 talking about first will be Number 9.

13 The next photo is going to be closer,
14 but just to kind of let you know, so this is Number
15 9 that we're looking at. Specifically I term this
16 is medial ventral right forearm.

17 So what that means is, I will stand
18 up so you guys can see. So the normal anatomical
19 position is like this. So when I'm saying medial,
20 medial is in reference to, you know, draw an
21 imaginary line down the middle of that particular
22 extremity, medial is to the inside, lateral is going
23 to be to the outside of that imaginary line.

24 Ventral, as we have already discussed
25 before, is talking about the front part of that

1 particular extremity or whatever we are looking at.
2 It is also synonymous with anterior, front or
3 whatnot.

4 When I say medial ventral, or right
5 forearm, so talking about something that is off the
6 midline inside, which makes it medial. Ventral
7 meaning it is on the front and depicting a
8 particular area which is the right forearm. So
9 that's the terminology. So, and we're talking about
10 this wound right here.

11 So this next image, which will be 71,
12 showing a close-up of wound Number 9.

13 So a lot of this is just jargon for
14 me to be able to say where it actually is on the
15 body in terms of reference points. So with all of
16 my gunshot injuries, I like to have two reference
17 points.

18 One of them is a fixed point, so in
19 this particular situation, I find something is going
20 to be the right elbow and I'm going to say how far
21 above or down it is to be able to specify, you know,
22 the upper dimension or the lower dimension, which is
23 kind of just your natural body axis.

24 So in this particular situation this
25 wound is 15 centimeters below this right elbow, and

1 then you want to be able to say where in the midline
2 that is and that lets me know medial or lateral.

3 So in this particular situation, this
4 particular wound is 5 centimeters to the left of the
5 anterior midline of the right forearm.

6 So when I say left, it is from my
7 left, not from you looking at me.

8 **Q** From the body's left?

9 **A** From the body's left. So this is the
10 right side of my body, since I'm going to the left,
11 I'm going over here, that's how it gets to where it
12 is supposed to be.

13 So from that point, what I want to do
14 after that is, I measure all of the wounds in terms
15 of dimensions to see how big it is. In this
16 particular situation it is about 2 centimeters wide
17 as it is long. So it is 20 millimeters by 20
18 millimeters or 2 centimeters by 2 centimeters,
19 whatever you want to use. It is the same changeable
20 amount.

21 Once you do that, you want to look at
22 the edges of the wound, meaning why that is
23 important, with exit wounds as well as entrance
24 wounds, there is particular identifying
25 characteristics that you can see on a case by case

1 basis. They are not always there, but there is
2 certain things that kind of give me inside track to
3 kind of figuring out what it is.

4 So in this particular situation when
5 I'm looking at the edge of this wound, it is more
6 irregular, it is kind of like, you know, someone
7 kind of took a bite out of it, it is not a nice
8 smooth circle or oval, it is more irregular. These
9 edges are kind of tattered and look different.

10 So I specify how that looks to me.
11 So in this particular situation I say that there's
12 irregular edges, the wound is irregular and it is
13 also clean, meaning that I don't see any type of
14 injury to the actual edge of the wound.

15 Exit wounds, classically, this is
16 kind of how they look. So once all of that is done,
17 I'm able to say at this point that this is an exit
18 wound.

19 So once I'm familiar with this as an
20 exit wound, eventually I'm going to want to try to
21 find out where the entrance wound is.

22 So we know where we are on the arm,
23 on the right arm, we are on the inside portion of
24 the arm and we are off medially of that midline. So
25 this is the exit wound of that right forearm.

1 **Q** Let me ask you, Dr. this
2 discoloration right here at about 10:00 on that
3 picture, what does that mean?

4 **A** That's just blood, dried blood.

5 **Q** Okay.

6 **A** When the blood coagulates, it darkens,
7 that is what a clotted piece of blood looks like
8 after it sits there too long, that is what that is.

9 **Q** In your report when you describe these
10 various wounds or injuries, you talk about there
11 being no stippling and no soot present?

12 **A** That is correct.

13 **Q** And you didn't find any stippling or soot
14 on this wound, but why don't you explain to them
15 what that is and what that means to you?

16 **A** All right. So the concepts of stippling
17 and soot. Stippling, so let's just take a step
18 back.

19 You have a bullet and it's fired out
20 of a gun, a bullet is made up of like a primer, it
21 is kind of the igniting substance that's within the
22 actual bullet. And when that hammer of that gun
23 strikes that primer, kind of combusts and kind of
24 explodes, for lack of a better word, and then lights
25 the gunpowder that's within the actual bullet. That

1 ends up being propelled and that's what allows the
2 bullet to come out of the barrel of the gun.

3 The concept with stippling is that
4 when that primer ignites that gunpowder, in theory
5 it all combust or burn, thus ultimately turning into
6 soot, but when it doesn't turn into soot, you still
7 have unburned particles that are real small, but due
8 to the fact that they are being projected or shot
9 out of that barrel of the gun, they are able to
10 injure the skin. And those injuries of the skin is
11 called stippling. So you will see little small
12 individual dots around a wound.

13 What is important about the stippling
14 is it helps you with the range of where that weapon
15 is fired from.

16 So just roughly it depends on gun to
17 gun, bullet to bullet, but roughly if you see
18 stippling, you can say that that gun was fired a
19 foot and a half to 3 feet to that particular part of
20 the body. So that's what stippling is good for.

21 Now soot is, what I just kind of
22 briefly mentioned, is when that primer kind of
23 combusts, then lights that gunpowder, that gunpowder
24 thus combusts and then it turns into soot, that's
25 going to come out of the gun as well. When that

1 comes out of the barrel of the gun that can be
2 deposited on the skin.

3 The concept of soot is when you see
4 soot on the body, you are looking at something
5 that's closer than a foot and a half. You start to
6 look and say that particular bullet was probably
7 fired within 6 to 9 inches, or 6 to 12 inches of the
8 actual body. So that's the importance of mentioning
9 do I see soot, do I see stippling, so I describe
10 what they are, and I describe what the importance of
11 them is.

12 So at the end of the day, it is
13 really helpful with range of where that particular
14 projectile was fired from the gun.

15 Q And in this case, you do describe in each
16 wound whether there was present stippling or soot,
17 but this being an exit wound Number 9, you wouldn't
18 expect to see any soot or stippling knowing it is an
19 exit wound, correct?

20 A Correct, wouldn't expect to see that, so
21 that's another thing to let you know that okay, this
22 is most likely an exit wound. We don't see those
23 features, you don't always have to see them. That
24 is something that kind of puts you in that category
25 we are not dealing with a close wound.

8 Q (By Ms. Alizadeh) You will describe in a
9 minute the corresponding entrance wound, but
10 sometimes it is probably just a layman's term, we
11 call that a through and through where a projectile
12 passes entirely through the body. Is that something
13 you've seen in gunshot wounds?

15 Q Okay. And knife wounds would look
16 different to you, correct?

18 Q All right. So now have you described
19 everything?

Gore Perry Reporting and Video

1 This is 72. This is just showing
2 that same wound of the medial ventral right forearm,
3 like the ruler has just introduced into this picture
4 just for scale.

5 I apologize, these things are hopping
6 all over the place when we take pictures, we just
7 kind of take and keep going. We will get it
8 altogether.

9 **Q** For the sake of going through this and
10 we've already discussed it, we are going to show
11 every photograph and they are numbered.

12 **A** Okay.

13 **Q** So these numbers don't necessarily depict
14 the numbers that you are photographing, or
15 describing, so obviously we started with Wound
16 Number 9. So I apologize, it might get kind of like
17 a puzzle.

18 **A** If you have something you want to talk
19 about, just write it down and we can pull it back
20 out and talk about that, I have no problem.

21 All right. Number 73. So we're
22 looking just to give you reference before I find the
23 right number on our sheet, this is his right arm we
24 are looking at this wound here, there is a right arm
25 pit. And that one is actually, this should be

1 Number 7.

2 Q Seven or Six?

3 MS. WHIRLEY: Is that an exit wound?

4 A This is Number 7.

5 MS. ALIZADEH: Okay.

6 MS. WHIRLEY: And that's an exit wound?

7 A Yes, I'm about to describe it. So we're
8 looking at Number 7. So the particular location is
9 the upper dorsal right arm.

10 So what we are talking about is,
11 remember I was telling you about the forearm is
12 going to be from the wrist to the elbow, the upper
13 arm is going to be from the elbow to the shoulder.
14 So upper arm, that's where we are at. And then when
15 I say dorsal, and dorsal means the back part.

16 So we are looking, you know,
17 anatomically speaking, if you turn around like this,
18 if you look back here, this is kind of where this
19 wound is. It is here. So that's the dorsal part of
20 the upper part of the right arm. And then that's
21 where we are at right now in terms of position.

22 Now, once you look at it, what is
23 important is now I go through that same type of
24 algorithm that I had before. You want to look at
25 the contour of it, so this one is a little more

1 stretched out, more linear as opposed to that other
2 wound, which is a little more irregular. Not really
3 a big deal, but you still want to take the same type
4 of approach in describing what you see.

5 So this particular one, that's kind
6 of the shape and it's length is 18 millimeters by 10
7 milliliters. In terms of location, I do that again,
8 two fixed points. When I say how far it is from the
9 shoulder and say where it is from the midline, I've
10 done that.

11 Then you want to assess the edges,
12 meaning assessing the edges is determining how they
13 appear to you because that is going to be important
14 to determine whether it is entrance or exit.

15 In this particular situation, they
16 are a little bit irregular, but there is no type of
17 additional margin around it, it is still a clean
18 wound.

19 So when I say clean, there is no
20 contusion, there is no abrasion around it, it is
21 just coming, coming right back out the skin, making
22 really no abnormalities to it.

23 So with me seeing that, this once
24 again let's me know that this is another exit wound,
25 but on a different part of the body. I know that I

1 have an entrance wound someplace else. So this
2 would be Number 7 where it is located. Do I have
3 any questions about that?

4 : . So what explains
5 the elongated hole rather than a round hole?

6 **A** A lot of times it is the actual tissue of
7 where it is. So if you have an area where there is
8 more fat on the arm, this particular area you can
9 get a more elongated wound.

10 You have different types of soft
11 tissue make up there. So depending on where you get
12 hit, you are going to see different types of
13 orientation of the wound or contours of the wound.
14 So that is kind of a more fatty area of the body, so
15 it is going to stretch out a little bit more as
16 opposed to a place that's tighter, where the skin is
17 tighter, you are likely going to see a different
18 type of wound and more irregular.

19 If you feel your forearm yourself and
20 you kind of tense it up, your forearm is lot tighter
21 as oppose to the back side of your arm.

22 This is Image 74. And this is the
23 same exit wound and we're looking, only difference
24 is we just introduced the ruler for scale.

25 This is Image 75. So we're looking

1 at Wound Number 11 on the autopsy report. We are
2 looking at the ventral surface of the right thumb,
3 or near the ventral surface of the right thumb. So
4 anatomical position like this. So we are looking at
5 the front part, anterior part of the ventral part of
6 the hand. We are looking at the right hand is where
7 we are at right now.

8 This is 76. There is a lot going on
9 here and I will just try to do it step by step.
10 Wound number, so this is 76, Wound Number 11. So we
11 are looking at the ventral surface of the right
12 thumb.

13 So in terms of describing this one,
14 this wound has looked a little bit different than
15 the two that I just kind of showed you guys earlier.
16 This one is more elongated, meaning it is more
17 stretched out as opposed to being like a circle.

18 When you look at it, what is
19 important to realize is appreciating the elongating
20 nature and then two, there's these little tags that
21 you see, kind of like little sharks teeth. These
22 tags are ultimately going to be important for
23 determining the direction that you can say the
24 bullet is coming out of the gun and how it struck
25 his hand, but I will get to that part after I kind

1 of describe it.

2 The fact that I'm looking at this
3 kind of elongated wound, I'm seeing this kind of
4 shark teeth, call them skin tags. I know that this
5 is like a graze wound or a tangential wound.
6 Tangential just means that it is going parallel to
7 the surface of whatever it is striking.

8 So in this particular situation, got
9 that, and then you want to measure it, which we've
10 done. And the measurement is just five centimeters
11 by two centimeters, and it is orientating kind of a
12 12 o'clock to 6 o'clock fashion. It is 12 o'clock
13 to 6 o'clock based off the anatomical position. So
14 we are kind of going from down, or down to up or
15 however you want to do it, it is no big deal.

16 All right. What is important about
17 these skin tags is how it lets you know what
18 particular way the bullet is coming from. The skin
19 tags point towards where the gun, the barrel of the
20 gun is.

21 I'll come up here and show you. If
22 the gun, the barrel of the gun is pointed this way,
23 this is the way that the bullet is going to be
24 traveling. These skin tags point back towards the
25 barrel of the gun. You can't refute it. It is what

1 it is. These tags are pointing back this way. They
2 are pointing towards this.

3 So I know for a fact that the bullet
4 is coming this way. It is going like that.
5 (indicating)

6 Now, in terms of the anatomical
7 position of the body, in order to keep both
8 reference points the same, I'm still like this. So
9 the reason that my trajectory is up is because it is
10 just going up based on what the body is going
11 towards the head because I'm like this.

12 In real life did it go up? Can't
13 really say that, but just having the anatomical
14 position of how I have to stay static so that I can
15 have a reference point every time that I can discuss
16 these, you have got to keep yourself like this and
17 my direction of upward is purely based off of being
18 like this. I want you to make sure that you
19 understand that.

20 So what I know at this point is I
21 have a tangential wound, I know which way it is
22 going, I know which way it is coming from.

23 Now other things that are important
24 at this point with this wound, I can see it better
25 on here. It is better to see the discoloration that

1 you have. You can kind of see, it is kind of dark
2 here, kind of black, but here is it is a lot darker.
3 Can I show?

4 If you look at the hand, and I will
5 kind of walk around. If you see that material in
6 there, you can't really appreciate it too well on
7 the screen, but that's something where we are
8 talking about soot and talking about stippling, this
9 is where this is coming into play. This isn't
10 stippling, the stippling, I told you, is unburned
11 particles that cause the little dots on the skin.
12 This is soot, which is the burned gunpowder that's
13 coming out of the barrel of the gun and it is being
14 deposited on the skin discoloring it and leaving it
15 there. So there is soot there on the hand.

16 MS. WHIRLEY: So what does soot look like?
17 So that means that it was
18 a close range to the gun? This entered his body or
19 grazed his body at a closer range to the gun than it
20 would be if it was stippling or nothing at all?

21 **A** Correct.

22 MS. WHIRLEY: What does soot look like?

23 **A** Soot looks like, like you get charcoal and
24 kind of the stuff that you have left over that is
25 just black matter. That's what, it is just

1 particle. So it is an organic particle left over.
2 It is going to leave a smearing or something on the
3 hand.

4 Q (By Ms. Alizadeh) Kathi Alizadeh. Dr.
5 you did examine a piece of that tissue
6 from that wound under the microscope; is that
7 correct?

8 A Yes, I did.

9 Q I mean, we can go ahead and talk about
10 that now since we are talking about this wound.

11 A Can I make sure they all see good, so then
12 I will talk about that.

13 : . So front
14 of the body facing this way, it can also that it
15 entered, can it be entered this way too?

16 A Well, just how you did it, it has to be
17 like that. If you are sitting there, I have to be
18 above like that for it to come. That's the only way
19 it can come, it can't come any other way, or if you
20 are like this or you are like that or you are like
21 this. There's lots of different ways regardless, it
22 has to be coming at you that way, you can't get it
23 coming this way.

24 Okay.

25 A It has to come from this way, this way,

1 something like that.

2 : . What

3 again is the maximum distance you would expect to
4 see soot?

5 **A** Soot, it depends, it is a gun by gun
6 basis. It is a primer, gunpowder thing, but about 6
7 to 9 inches roughly where the discharge of that
8 material would be left on the body.

9 : Is there a middle
10 distance, like if his hand was on the end of the
11 barrel, would you still see the soot, so it is up to
12 that 6 to 9 inches?

13 **A** You would still get some discharge of
14 material if his hand was there, but the problem with
15 that is, so when you say hand, you mean like?

16 He was reaching out
17 struggling for the gun?

18 **A** You are like that, the wound is going to
19 look different. Now we are dealing with a contact
20 wound. If you are talking about actually physically
21 holding something, that's something extra and
22 different.

23 And for myself, let me take a step
24 back about the soot and stippling. Stippling, when
25 I see it, that lets me know that I'm dealing with an

1 intermedia type of wound, meaning that it is like
2 maybe like a foot and a half to 3 feet away. Then I
3 have indeterminate wounds where I don't see
4 stippling, don't see soot, I do know it's an
5 entrance wound, so there is nothing extra on the
6 wound to let me know about closeness. So in that
7 situation, those are called indeterminate. They are
8 probably 3 feet or further away, that's all I can
9 say.

10 Soot, like we just discussed, we're
11 talking about 6 to 9 inches. Contact wound, if it
12 is a contact wound, so we are talking about we are
13 up close and personal to whatever it is.

14 So with that you are going to see
15 different type of characteristics on the scene, you
16 are going to see more searing or burning of that
17 skin because there is hot particles and gas escaping
18 from that weapon that are going to cause alterations
19 of that skin surface.

20 And when you actually examine the
21 wound, you may see that soot type material deposited
22 deep into the tissue or be black and deeper on the
23 inside than the outside, or you may see a muzzle
24 imprint. A muzzle imprint is where the end of the
25 gun actually is so close to the skin surface or body

1 surface where it leaves the end part of that barrel
2 imprint on the hand. So those are some of the
3 things you look for a contact wound.

4 So closest thing you've got of a
5 contact wound, next is a close range wound with the
6 stippling, I'm sorry, soot. And then intermediate
7 is where we are dealing with stippling, and then the
8 last thing is indeterminate, too far away, you can't
9 determine. That's kind of my range of wounds and
10 what the actual terms of contact, close,
11 intermediate and indeterminate mean.

12 . This is
13 telling us that it was a closer range and that the
14 hand was open, not around --

15 **A** All I can say it is a close range wound.
16 For him to get that, he is within 6 to 9 inches of
17 however scenario you want to create in your head,
18 that's all that that means.

19 **Q** (By Ms. Alizadeh) And you also know the
20 angle that the bullet traveled across the skin?

21 **A** Yes, we know that too.

22 **Q** And the direction?

23 **A** We do know the direction.

24 **Q** Okay.

25 **A** So the next thing is, is there another way

1 for me to determine that it is soot.

2 So as I said before, when I'm doing
3 an autopsy, part of a complete autopsy examination
4 is sometimes you have histology. Histology is the
5 preparation of tissues that you take from the body,
6 you process through some dehydration steps, alcohol
7 step, you eventually put it into a block of paraffin
8 wax. Where you then take microtone, which is just a
9 blade and cut off a very thin silver of that tissue,
10 put it on a glass slide and then using different
11 type of dyes, pink dye, a blue dye, you are able to
12 stain it. And then I get a slide back and then I
13 put that under my microscope and then I can see the
14 histology. That's just the study of tissues under a
15 microscope.

16 In this situation I took some small
17 pieces of skin from those areas of discoloration and
18 I did histology on them. I got those back, and I
19 looked under there, under the microscope. And when
20 I can see in my actual skin sample is, I see foreign
21 particles of matter, and what that means is, there
22 is some of them are pigmented, some of them have
23 different colors, but there is material there that
24 he wasn't born with that had to be introduced into
25 his skin as foreign material. I know that much.

1 So I'll let you hop in if you want
2 to.

3 **Q** No, I think you covered that well. I'm
4 not a doctor, but I play one on TV.

5 **A** So at that point that's all I can truly
6 say that this is what I have, it is foreign
7 particulate matter that had to be introduced into
8 his skin.

9 Now the next step is well, okay,
10 where did it come from.

11 I can at this point say from what
12 I've seen from textbooks that I have looked in
13 histology and from what I have seen in the past, the
14 material that I'm seeing is consistent with products
15 that are discharged from the barrel of a firearm.

16 So that's why I can look at that
17 picture on my eye, it looked concerning for some
18 type of extracorporeal, meaning something that is
19 coming from outside of the body. Some extra matter
20 that I wanted to figure out what it was.

21 It is not something that he woke up
22 in the morning with or something like that, but
23 taking those samples with my pictures as well as
24 looking at the histology, was consistent with
25 products that are discharged from the barrel of a

1 firearm.

2 And lots of products come out of a
3 firearm. You have primer material, you have metal
4 fragments, gunpowder, soot, you get all kind of
5 things. There is mixture of things that are in
6 there, that are foreign. That's why I say it is
7 consistent with products discharged from the barrel
8 of a firearm, does that make sense?

9 So did everybody get, I didn't get to
10 specifically say the areas I'm concerned about, you
11 can see the dark.

12 : I have one question,

13 So that wound, the hand wound, so
14 basically the projectile, there was no exit wound?

15 **A** Exactly, it is just running along the skin
16 surface. It is a graze wound.

17 : It is a graze wound?

18 **A** Just running along the skin.

19 MS. ALIZADEH: , are you Juror

20

21 I'm sorry,

22 MS. ALIZADEH: He wanted to be promoted.

23 **A** We are on 77. The only thing different,
24 we are just introducing the ruler for scale.

25 This is going to be Wound Number 10

1 that I'm going to talk about next. And specifically
2 the region on the body is, it is the right bicep,
3 which is here, the bicep is just the muscle that is
4 in between your elbow and attached to your muscle
5 here, the deltoid, which is your shoulder muscle,
6 that's the area that we are talking about. We are
7 talking about this wound right there.

8 In particular this one too is similar
9 to the other one that I just described, this is also
10 a graze wound or a tangential wound, meaning that it
11 is just running along the surface of the skin.

12 Now, what is different about this one
13 is, this is going to be Image 79. So I'll just
14 describe it first and then we will get to the
15 differences between the two.

16 So this one is located 6 centimeters
17 above the level of the right elbow, so it is a flat
18 fixed point, so it is up above the elbow and then it
19 is just to the left of the anterior midline. So it
20 is more kind of medial than anything. It is going
21 close to here as you saw in the picture.

22 So the wound is measuring 3
23 centimeters by 1 centimeters. In terms of how it is
24 positioned, it is kind of going, you know, I guess
25 you say this is 9 o'clock. So the face of the clock

1 is here, this would be 12, this would be 6, so it is
2 going 9 to 3. So it is going in kind of a
3 horizontal fashion.

4 Now, this one, what's different is,
5 the other one had nice skin tags, we could determine
6 the directionality of the wound because it went deep
7 enough and it also hit a part of the body where the
8 skin on your hand is pretty tight. So it is more
9 resilient to being disrupted. So it is going to
10 pick up more changes of damage.

11 With this particular situation, you
12 don't see any of those skin tags and what you do see
13 is a drying or an area of discoloration here on the
14 outside of this particular wound.

15 And when I palpated it, meaning
16 touched it with my fingers, this wound was very hard
17 and was very firm.

18 So in this situation, this is not
19 soot, this is not any gunpowder, this is just the
20 drying of the edge of the wound where some blood
21 starts to leak out around the edges and interactions
22 with air and interaction with clotting, it turns
23 dark.

24 So this is just discoloration from
25 dry blood, this is not soot or anything like that.

1 So in terms of determining distance on this one, I
2 can't. In terms of trying to determine
3 directionality, I cannot. This is something that
4 came from greater than 3 feet away. I don't have
5 any characteristic things of stippling or soot or
6 searing or muzzle imprint to determine how close it
7 is. So this thing is farther than 3 feet. I don't
8 know exactly even which way it is coming, but I do
9 on, you know, you do mention the directionality of
10 it, the three, I can't even say. There is nothing
11 to let me know which way it is coming from. So
12 that's that wound and that is how it is different
13 from the hand wound, but it is still a gunshot wound
14 nonetheless, but a different type.

15 Questions about that one?

16 Number 80. This same image, still
17 the right bicep, still that tangential graze wound.

18 This one, just a second, let me get
19 my bearings.

20 **Q** (By Ms. Alizadeh) Can I stop you for a
21 second? I'm not peeking, but I don't know if you
22 need to take a break to return the call?

23 **A** Yeah.

24 MS. ALIZADEH: We'll take a quick five
25 minute break. We are going off the record.

1 (Recess)

2 **A** This is 81.

3 MS. ALIZADEH: Okay, hang on, are you
4 ready? We just took a brief break and the witness
5 is still testifying, you are still under oath, Dr.
6 all 12 grand jurors are present as well as
7 Miss Whirley, myself and the court reporter. Please
8 continue.

9 **A** So this is Image 81. On your paper, on
10 the report where I have Wound Number 6, the I
11 specific area of this injury is the upper ventral
12 right arm. So what I'm talking about here is
13 roughly, you know, kind of here in the area of the
14 bicep.

15 You have a gunshot wound here, so it
16 is the upper part, meaning in between the elbow and
17 the shoulder. The right arm, and then dealing with
18 the ventral portion, which is the front part of the
19 arm. So that's where this wound is.

20 And as I said before, I go through
21 the same process of documenting the size and the
22 actual location on the body were two fixed points.
23 So this one is 20 centimeters below the level of the
24 right and 1 centimeter to the right of the anterior
25 midline of the upper arm. This particular wound

1 measured about 10 millimeters by 10 millimeters, or
2 1 centimeter by 1 centimeter.

3 Now, what is different about this one
4 and what I was showing you guys before is, I showed
5 you one wound that was more irregular, some tissue
6 was kind of coming out, there was a little piece of
7 clotty blood, it was more elongated, it had clean
8 exits. This one is more oval in shape.

9 And what I can see here on the
10 picture, which is demonstrated a lot better than
11 here, but the difference between this one, first
12 thing is oval in shape. You can make right here a
13 little bit of pink tissue right here. You can make
14 an argument is that an abrasion. A definition of an
15 abrasion is just the superficial layers of your skin
16 are rubbed off and it exposes the pink of the white
17 meat of your hand and that's what an abrasion is.

18 So when these bullets come in, they
19 don't always go straight in, they can come in at
20 different angles. So when it comes in and it starts
21 to rub that tissue off, that's what an abrasion ring
22 or an abrade is on a gunshot.

23 If you see that, that's kind of
24 indicative of an entrance wound. So in this
25 particular situation you can make an argument is it

1 there or not. I said it wasn't really definitive,
2 but you can see a little bit there. But around it,
3 it is kind of like a little bit of a reddish hue and
4 that's kind of like a contusion ring.

5 So there is an injury to the skin
6 from the outside going in. And so this part, when
7 you see that, these kind of features together this
8 lets me know this is an entrance wound.

9 And then the flip side of the exit
10 wound, the exit wound just pretty much it will stay
11 the same color, brown color of the skin, you can see
12 a little bit of purple around it, you can see a
13 little bit of pink, but it is pretty much just the
14 wound. That's the difference between the two and
15 those are the little small differences that you are
16 trying to look for to be able to appreciate when you
17 are trying to separate out an entrance wound from an
18 exit wound. So that being said, this is an entrance
19 wound.

20 Now at this point, what I do now is
21 that, take a step back.

22 With cases I can also do x-rays with
23 gunshot wound cases where people are dying from
24 wounds or gunshot wounds. You want to be able to
25 x-ray the body to be able to one, determine where

1 there are projectiles, to also see any type of
2 injures that may have fragmented the bullet, or to
3 be able to help with the path of the bullet. Main
4 thing is to see you still have evidence in the body.

5 So the whole body in this case has to
6 be x-rayed from head to toe. So this particular
7 part of the arm that we're looking at has been
8 x-rayed. So when you look here at what I'm talking
9 about. Eventually I say, x-ray showed bullet
10 fragments associated with that wound, that's what
11 that means.

12 So in terms of also looking at range
13 in this case, I said that there is no stippling
14 identified, there is no soot identified. So that
15 lets you know that we're dealing with another one of
16 these wounds that is at least 3 feet away or
17 greater. I don't know, I can't tell. I just can't
18 assess it because I don't have those distortional
19 changes of soot, gunpowder or stippling. They are
20 just not there, that's that part.

21 Now, once that's done, you want to be
22 able to say, okay, I've got the entrance wound now,
23 I should have an exit. So this story now completes
24 that exit wound that was up here by the, kind of the
25 fat up in the armpit, that this entrance wound is

1 related to that exit wound. So once I know these
2 two are related, now I have determined the path and
3 the path is based off of what I told you all before
4 is off of the anatomical position of the body.

5 Now I know I have the in, got the
6 out, then I can say what is trajectory of the body.

7 So in this particular situation this
8 bullet is going slightly upward, instead of
9 backward, and it is going up, meaning that where it
10 comes out at is a little higher than where it comes
11 in at. That's the upward, upward talking from the
12 feet to the head like this. So it is coming out a
13 little bit higher than where it came in at, that's
14 upward.

15 Backward means this is the front part
16 of the body, this is back part of the body. So if
17 it is coming in here, going out there, you know it
18 is going front to back, so it is backwards.

19 In terms of the actual left to right,
20 it is coming back a little bit this way on the body.
21 So it is coming to my left and coming that way. So
22 that's the trajectory of this bullet. A little up,
23 a little to the left and it is going backwards
24 that's the trajectory. It is based off of like this
25 not, you know, jumping around, it is just like this.

14 So it went through there and came
15 back out the skin, so it did not hit the bone. Hit
16 everything else in between there except the bone.
17 So that is what I mean by going skin, soft tissue,
18 exit wound skin.

22 Questions?

Gore Perry Reporting and Video

1 about the elevation of the weapon used? The injury
2 and exit describe the upper going through the back,
3 I assume it does not necessarily give you any idea
4 where the elevation of that weapon was?

5 **A** Exactly. You have to think about it an
6 arm, this arm can be in so many different type of
7 ways. It is very difficult to be able to say
8 exactly what elevation you are dealing with, that's
9 why the arm is very difficult.

10 The fact that you've got you have an
11 elbow joint, you have a shoulder joint and then the
12 wrist, you have a lot of mobility within that arm
13 and it can be in a lot of different scenarios. It
14 is very tough and even impossible for me to say.

15 **Q** (By Ms. Alizadeh) And, Dr. not
16 necessarily with this wound, but have you found in
17 your experiences that often with projectiles that
18 enter and pass through the body, it is not always
19 necessarily a straight path, depending on if they
20 hit bone or if they pass through other types of
21 tissue, you can't necessarily say if it went
22 straight through, that that was the angle that the
23 bullet entered from and so forth?

24 **A** And that's correct. You have to be
25 cognizant of that fact that there are things that it

1 is hitting and going through that can alter the
2 flight or trajectory of that bullet.

3 This is 82. Same wound, only
4 difference is there is a ruler for scale.

5 This will be 83. We are looking at
6 Number 8. Should be the dorsal right forearm. When
7 I'm saying dorsal, anatomical position. This is the
8 front of the forearm, and the forearm is between the
9 wrist and the elbow. This is the front, dorsal is
10 the back. So we are dealing with a wound here on
11 the back side of the right forearm, and that's right
12 here.

13 And I've already talked about its
14 associated exit wound which is here on the ventral
15 part of the forearm, which is medial. Here is the
16 entrance and here is the exit, I'm going to talk
17 about the entrance now.

18 So we are at Image 84. This is just
19 a close-up view of this gunshot wound here on the
20 dorsal part of the right forearm.

21 So doing same thing again, always
22 want to measure from a fixed point as well as
23 imaginary line, it separates left to right, which is
24 the medial from the lateral.

25 So in this particular situation, it

1 is 16 centimeters below level of right elbow and 2.0
2 centimeters of the posterior midline of right
3 forearm.

4 The hole itself was 11 centimeters by
5 10 centimeters. So it is very similar in size to
6 that last exit wound that I showed you that was part
7 of the ventral arm.

8 Looking at these edges, which is
9 important to do every time. These look, the shape
10 is kind of oval, but what you can start to see now,
11 if you look at this little edge, there is a little
12 bit of a rim of kind of red tissue right here to the
13 outside, a little bit brown. This is kind of a good
14 classical abrasion margin. So the abrasion margin
15 is the thing I talked about before, kind of almost
16 definitive, it lets you know this is an entrance
17 wound, in the right situations.

18 There is some other situations where
19 you can see this, but it is not an entrance. I'm
20 not going to confuse you with all of that right now.

21 But this has the classical features
22 of kind of being round to oval, having a nice
23 abrasion collar right there on the outside, that's
24 kind of critical and that's key.

25 So when I see that, without getting a

1 probe, I also probe the wound with just kind of a
2 little flexible rod to make sure my entrances and
3 exits they are communicating together as they pass
4 through the skin.

5 Sometimes the rod won't pass through
6 and I may have to open up the arm or whatever to see
7 the actual wound track just to verify. Most times
8 they will communicate and I probe these wounds to
9 make sure that they are connected so they are not
10 just a hole here and here. I'm just assuming they
11 are together. I make sure I probe them, I make sure
12 they are in communication whichever. This is the
13 entrance wound here on the right dorsal forearm.

14 So once that's being said, this
15 particular body part, and in this situation when it
16 is being x-rayed, there is little small metallic
17 fragments that are showing up on an x-ray. And most
18 likely these metallic fragments are fragmented
19 bullet and the reason that it's fragmented is, is
20 when this passes through the arm, it hits a bone in
21 the forearm.

22 You have two bones in your forearm,
23 you have the radius and you have an ulnar. Your
24 ulnar, if you feel your arm, you kind of feel the
25 bone that is on the medial part of your arm, that's

1 your ulnar. The other part of the forearm out here,
2 that's your radius. So it kind of makes sense that
3 this exit wound that came out of that medial part of
4 the ventral forearm, that it hit that bone.

5 So when it came from out here, kind
6 of where it is. When it passes through, went
7 through those soft tissues, it hits that ulnar bone,
8 shattered it and then that bullet came out.

9 So going back to your question, why
10 do exit wounds look different and look odd? So if
11 you have a projectile that has now lost its normal
12 shape and it is fragmented when it comes out of that
13 skin, it is going to have a different shape as
14 opposed to something that stayed intact.

15 So that could be an additional reason
16 for why you may see something elongated, some more
17 irregular, you have to take into account the fact of
18 what that bullet's actually doing when it strikes
19 objects within an actual body. And a bone is a hard
20 substance and it can be deflected some, so the
21 actual trajectory is going to be, is going to be
22 slightly upward, forward and left.

23 So once again, it is going, this one
24 in this situation is because the entrance wound is
25 on the back side of the body, which the trajectory

1 is now forward because I'm like this, but it is
2 coming from the back and going to the front, so that
3 is why it is forward. That makes sense it is just
4 purely based off of this position, not like this or
5 anything like that, just like this. So it is coming
6 back to front, and so that's the forward part.

7 And in terms of the actual things
8 that it hit, I have actually kind of said it a
9 little bit, it is going through the skin, soft
10 tissue, hitting that right ulnar and hitting the
11 soft tissue again and coming out of the skin, an
12 exit wound. So now we have another communication of
13 a wound path.

14 So we have entrance and exit right
15 here on the back and the dorsal part to the ventral
16 part, and we just talked about the one that's coming
17 in here on the ventral part of the upper arm and
18 coming out of the dorsal part of the arm, so got
19 that both taken care of.

20 Image 85. Same wounds, just
21 introducing the ruler for scale.

22 Q Just so we are clear too, right here, is
23 that an injury or just dried blood?

24 A That's just dried blood.

25 Q Okay.

1 **A** A new wound here, 86. We are at Number
2 4, the right front chest. We are specifically
3 talking about this wound right here.

4 Just to describe the image, you have
5 Mr. Michael Brown's feet here, his head here,
6 instead of laying on his back you can see another
7 wound here and this is one of interest. You can see
8 the entrance to the right side of his face.

9 This should be 87. So this is a
10 gunshot entrance wound to the upper right chest.
11 And as usual, I always do two fixed points to
12 determine where he's at on the body. So in this
13 particular situation it is 16 centimeters below the
14 level of the hole of your ear going down this way,
15 and then it is to the right of the imaginary midline
16 of the chest, so kind of right there.

17 In terms of the actual dimensions of
18 the actual wounds, it is 15 centimeters, 15
19 millimeters by 10 millimeters. It is oval in shape,
20 meaning it is pretty round.

21 Now the edges, I always assess those
22 to determine entrance or exit. When you look at
23 this one, you can see a little bit on the edge,
24 there is a little bit of a defect there, right there
25 on the side, so that's the abrasion once again.

1 Just letting you know that this is an entrance
2 wound. This one, I just want to show, just show
3 them real quick, this is kind of hard.

4 MS. ALIZADEH: Sure.

5 **A** See that area right there on the edge?
6 That's the abrasion that I'm talking about.

7 **Q** (By Ms. Alizadeh) You know when you are
8 talking to them, keep your voice up because he has
9 to take down what is being said, okay?

10 **A** I'm sorry. So this little area on the
11 side of the skin, that's the abrasion, right, that
12 I'm talking about, the abrasion collar.

13 So we have an abrasion collar.

14 MS. ALIZADEH: Is this the same picture?

15 **A** It is this the same one.

16 MS. ALIZADEH: I think you flipped it. Is
17 this the orientation that we did before? Yeah,
18 yeah, yeah, yeah.

19 **A** Yeah, okay.

20 **Q** (By Ms. Alizadeh) It confuses me.

21 **A** Sorry. So his head is here, feet would be
22 here, this is his neck right there.

23 Okay. So we've dealt with the fact
24 that we are looking at the abrasion collar or the
25 abrasion ring, so that is letting me know that this

1 is most likely an entrance wound. At that point you
2 want to be able to look for any additional injuries
3 that need help with range.

4 So there is no soot, meaning kind of
5 that discoloration that you see around wounds and
6 there is to no stippling, that would be those little
7 small dots that you see around a wound, you don't
8 have that.

9 So once again, I'm looking at a wound
10 where there is an indeterminate distance, is the
11 body greater than 3 feet away. So that is all I can
12 say.

13 Once I know that, I move to the next
14 part saying what's the, you know, looking at my
15 x-rays to see if there is any fragmented bullets,
16 any projectiles I need to get for evidence, that's
17 the next point.

18 So in this particular situation, when
19 I did the x-rays, there actually was a bullet
20 associated with this wound that I knew that I had to
21 get on the inside of the body that I end up doing
22 when I do my internal examination.

23 So like when I told you all at the
24 beginning when I said external and then internal, so
25 when I take all the organs out and looking at all

1 the damages that happens to the organs, at that
2 point I start looking for that bullet.

3 So before anything even happens when
4 I look at the x-rays before the case starts, I know
5 I have a bullet there okay.

6 Q If we can, go ahead and describe, I know,
7 you know, they all know that you opened up the body
8 and assess the injury to the various organs. Can
9 you go ahead and talk about that in relation to this
10 wound generally and then there will be later
11 photographs and discussions about that?

12 A All right. So when this one passed
13 through, went through the skin and hit the collar
14 bone right there and then went through, hit the
15 upper portion of the right lung and then it went in
16 between, so your rib cage, you have to think of it
17 like a bare front part. Your ribs wrap all the way
18 back to your spine. So when it passed through, your
19 body is three dimensional looking from the side, it
20 comes in here, passed through that skin, soft
21 tissue, hitting that collar bone right there,
22 hitting the upper portion of the lung and then
23 burying itself in between the intercostal space of
24 the third rib.

25 So intercostal means, so you have 12

1 ribs total. Think of that as a ladder. So you have
2 rib one, you've got rib two. In between rib one and
3 rib two that's called the intercostal space. That
4 is just the spot in between two ribs. So in between
5 ribs three and four, that's where I got the bullet
6 from this particular wound.

7 So when this bullet went through the
8 lung, it damaged the lung and created a defect. I
9 think the defect is 2 centimeters in dimension. And
10 then at the same time there was blood present within
11 the thoracic cavity. The thoracic cavity are the
12 chambers, you have two on both sides of your chest
13 cavity. You've got a left side, you've got a right
14 side.

15 So within that right side,
16 400 millimeters worth of blood, which is a decent
17 amount filled up within that side of his body. So
18 those are all the main kind of injuries associated
19 with the path of this bullet going through, hitting
20 that bone, hitting that lung and then burying itself
21 in the back part of the thoracic cap area.

22 MS. WHIRLEY: Sheila Whirley. With that
23 wound, would he have been able to survive that
24 wound?

25 **A** Eventually, it would have, it would need

1 surgical attention. If it is not addressed, it
2 could have been a lethal wound.

3 MS. WHIRLEY: But it was not the fatal
4 wound in this case?

5 A No, it is not. Not the immediately.

6 Q (By Ms. Alizadeh) Could someone who have
7 sustained this type of injury, would they be
8 immediately disabled?

9 A No, they would not.

10 Q So they could continue to stand?

11 A Correct.

12 Q They could be mobile for a while?

13 A Correct.

14 Q Okay.

15 : . The trajectory
16 entered here is that it hit the collar bone, did the
17 collar bone deflect it downward, you think, the path
18 of the bullet?

19 A It is possible, but it is hard to tell
20 exactly what role that is going to play with the
21 bullet. It is a wild card. You know, if it wasn't
22 there, it went straight through the body, came out
23 the back we all know, but the main thing you can say
24 about it is, it is going to slow it down. It did
25 fragment the bullet, it kind of broke it up a little

1 bit and it is going to slow it down, but that is
2 about all you can really say. It is kind of an
3 intermediate thing in between where it stops.

4 : You can't say it is a
5 downward shot, it could have been a straight edge
6 shot?

7 **A** It could be straight or down.

8 Okay.

9 **A** You have to think about your head too,
10 your head is on a pivot, so pivot, you know, like
11 that. And say something is passing through it is
12 possible it could do that or it could be a straight
13 on shot.

14 That's the variability that you have
15 with wounds when you are dealing with something
16 close to a joint or something, close where something
17 can pivot around because you can get an exit from
18 something from someplace else and reenter another
19 place in the body. And that's what makes it
20 difficult when you weren't actually there.

21 **Q** (By Ms. Alizadeh) So I'm not saying this
22 is true in this case, but you are saying you can
23 have a bullet that would pass through someone's arm,
24 so you have an entrance wound and exit wound of the
25 upper arm, for example. And then the bullet can

1 then reenter the chest cavity?

2 **A** That is correct.

3 **Q** And do you have any way to know whether
4 that was the case in any of these wounds?

5 **A** No, I do not.

6 It was mentioned
7 earlier, do you have any indication that the grazing
8 from the hand could have been one of the chest
9 entered wounds?

10 **A** It is possible if your hand is in the
11 right way for that to happen, it is possible. But
12 all I can say about that wound is that, I have an
13 idea of range and I have an idea of directionality,
14 but that's really all that I can -- I definitely
15 know from my examination, but after it left there,
16 there is a lot of possibilities.

17 This is 88. And the only difference
18 with this one is the introduction of the ruler.

19 A new wound here. This is going to
20 be Number 5, lateral right chest. So as always,
21 this is a gunshot entrance wound, it is located
22 20 centimeters below the level of the right auditory
23 meatus and then it is to the right of this imaginary
24 midline of the chest. That is how you know where it
25 is located.

1 In terms of the size, it is
2 12 millimeters by 12 millimeters, and this one kind
3 of has a little kind of a teardrop or somewhat of a
4 oval type shape to it.

5 There is a very small abrasion ring
6 around it and that is just that defect that you see
7 associated with wounds and when bullets pass through
8 the skin, it rubs off that little area as it is
9 entering. So that is kind of letting me know that
10 this is an entrance wound.

11 As I always do, want to try to help
12 yourself with range if you can. So I look for soot
13 and I look for stippling. There isn't any on this
14 wound, so now I'm dealing with another wound that is
15 most likely greater than 3 feet away. I don't know
16 how close, it is an indeterminate distance.

17 So x-rays are done, so there is a
18 bullet associated with this wound as well. And it
19 is further down in the body and I recovered it from
20 the lateral part, which is kind of out here, of the
21 right back. So it is kind of coming up here, but I
22 end up getting the bullet out around down here, just
23 so you know.

24 So that kind of lets you know there
25 is a downward trajectory with this particular wound

1 that is based off of this position. So it is coming
2 in here and getting here, you already know it is
3 going down.

4 MS. ALIZADEH: has a
5 question, Doctor.

6 : I notice on both of these
7 that there is other like bruising and other stuff?

8 **A** What are you referring to?

9 The other picture, just
10 the last wound that we saw.

11 MS. ALIZADEH: You want to point with
12 this?

13 **A** This picture.

14 Both of them around the
15 wound. All of this stuff around here, is that
16 normal, is that bruising?

17 **A** Are you talking, like this?

18 Yeah

19 **A** That is just kind of smeared blood.

20 I know it was worse on the
21 last one.

22 **A** That is not bruising. So bruising, the
23 technical means contusion. So bruising, contusion
24 these are kind of synonymous words.

25 The difference between that, and this

1 is just kind of being an artifactual thing, this is
2 something on the outside of the skin, it is on the
3 surface. A contusion or a bruise, that's blood
4 underneath the skin surface. So it is like, you
5 know, someone punches you, kind of turns blue, green
6 whatever over time, you have blood underneath your
7 skin that is going through the process of changing
8 colors.

9 So in this situation, this stuff
10 that's here, this is just some artifact and just
11 kind of cleaning off the wound and it is blood that
12 kind of transfers from here out to the skin so that
13 is not a contusion.

14 Okay. Now, so we got the trajectory,
15 you know, in turn, what did this pass through. It
16 went through the skin, it went through the soft
17 tissue, and as it is going down, you have got to
18 once to think about your rib cage, kind of like a
19 barrel.

20 When it goes down through that skin,
21 you have ribs kind of jetting out there, it kept
22 going down and that rib, that eighth rib, you have
23 12, it is kind of sticking out and the bullet hit
24 that. It fractured that rib and it kind of bounced
25 off a little bit and just stayed in the soft tissue.

1 The problem with that injury is, when
2 that rib fractured, it fractured to the inside and
3 the lung, the bottom portion of the right lung he
4 had got punctured because of the breaking of the
5 bone.

6 So there is an additional injury to
7 the lung further down. You have got one at the top
8 too, one in the upper chest, now you have one
9 further down. So there is a puncture wound from a
10 bone breaking from a bullet hitting it, and you have
11 got one that's just a gunshot wound that is actually
12 hitting the lung.

13 So there is going to be a little bit
14 of blood coming out of that wound as well. So these
15 two gunshot wounds technically of the chest, that
16 400 millimeters of blood is going to be associated
17 with both of those wounds. And so it is important
18 to know that those can be ruled the same, they are
19 both causing injuries to the body that if not
20 corrected, it could end someone's life, but in this
21 situation there is another wound to the head that
22 I'm going to talk about. I just want to make sure
23 that you understand the separation of the two.

24 Q (By Ms. Alizadeh) So, Dr. this
25 wound then, without medical care could be fatal, but

1 not immediately so?

2 **A** Exactly.

3 **Q** And again, with this type of wound, a
4 person sustaining that would they be able to stand
5 and be mobile for a while?

6 **A** Yes.

7 **Q** Okay.

8 : . There is nothing
9 else sequencing of these events, correct?

10 **A** For this wound here, no.

11 : Fatally, you know what the
12 final one was, you don't really know --

13 **A** Right.

14 **Q** (By Ms. Alizadeh) So far, just to be
15 clear, and we don't, you can't say so far the
16 sequence of these wounds?

17 **A** Not right now, no.

18 **Q** Which one happened first, but none of
19 these wounds would immediately incapacitate someone?

20 **A** Correct.

21 **Q** Okay.

22 **A** So this is the same wound that we are
23 looking at. The only thing different is the
24 introduction of the ruler. I'm sorry, I didn't say
25 a number. This is 90, I'm sorry.

1 91. So the head of Mr. Michael
2 Brown, we are looking at the right side of the face.
3 And the wound that I'm going to be getting to next
4 is going to be Number 3. It is going to be right
5 here, it is going to be an exit wound of the right
6 jaw.

7 This is just showing from the top
8 down, just showing some more wounds of the face.

9 This is 93. So this is his neck,
10 this is the top part of his head here and you have
11 this exit wound here of his right jaw. So let's
12 walk through this one.

13 So this one is located about
14 5.5 centimeters below the level of the right ear
15 hole and then it is to the right of the anterior of
16 midline of the head, which is like that. So it is
17 to the right. The hole measures 15 millimeters by 9
18 millimeters.

19 Now looking at the contours of it,
20 the contours meaning the edges, I do that on every
21 wound that I see, the gunshot wounds. If you look
22 at this one, you kind of see this little edge is
23 kind of flapping over a little bit. You don't see
24 those good little peak margins that are around it,
25 it is a little more irregular, it is not as smooth.

1 And you kind of actually see a little bit of tissue
2 kind of streaming out there and a little bit
3 flopping out of the wound to the outside.

4 So when I look at all of the
5 constellation of all of these things, this is
6 letting me know this is consistent with an exit
7 wound.

8 I don't see any stippling, I don't
9 see any soot, shouldn't see that in an exit wound,
10 but the thing is it is a little more irregular,
11 don't see a good abrasion ring, don't see a good
12 contusion, don't see any bruising, don't see
13 anything that I typically see in a situation of an
14 entrance wound, so I know that's an exit wound.

15 This is going to be in relationship
16 to another wound that I will get to eventually.

17 So this is 94. And the only thing
18 different about this is the introduction of the
19 ruler.

20 **Q** This is 95?

21 **A** This is 95. This is the right side of
22 Mr. Michael Brown's face. I am wanting you to focus
23 on this wound right here, which is a gunshot
24 entrance wound. This stuff here, these are
25 abrasions. I'll just describe them.

1 So up here on the right forehead,
2 this kind of irregular area right here. This is an
3 abrasion, as I said before, an abrasion is just
4 where that superficial layer of the skin rubbed off
5 and exposes that underlying soft tissue. That
6 particular abrasion right there measures about
7 7 centimeters at its greatest dimension, kind of the
8 longest point.

9 Then there is one over here on the
10 lateral part of his face, it is kind of dried,
11 meaning when I say dried, see how it is kind of
12 discolored, this is more pink, this is dried.
13 That's an abrasion right there on the right side of
14 the face.

15 And then let's see. And then over
16 here, you will see it later, out there on the lip he
17 has got some abrasions here on the inside of this
18 lip.

19 But back to the gunshot wound which
20 is going to be the main thing I'm going to talk
21 about next and that's going to be number two on your
22 autopsy report.

23 This is 96. Only thing different
24 about this photo than the last one is just the
25 introduction of the scale with the ruler.

1 This is 97. So this is this gunshot
2 entrance wound of the central forehead. So it is
3 located 7 centimeters above the right ear hole and 2
4 centimeters to the right of the anterior midline of
5 the head. So the imaginary midline of the head is
6 here, it is 2 centimeters off to the side. So that
7 just kind of locates the wound.

8 The whole measures 15 millimeters by
9 10 millimeters. The wound itself is somewhat oval,
10 I can see better on the photo here, but right there,
11 there is kind of an abrasion ring out here on the
12 outside.

13 What that is kind of helpful with is,
14 it is kind of letting me know that it is going
15 downward because when this, when this bullet came
16 in, the abrasion ring is more irregular to this
17 side, it is bigger on this side than it is there.
18 So when it is rubbing in, I know that it is coming
19 in a downward fashion. One, just because of the
20 abrasion ring and two, because of where it
21 ultimately went on his face.

22 So it is coming here, think of the
23 anatomical. It is here and when it is coming down
24 passing there and it is going to come out of the
25 face. So that you've got two reasons for how you

1 know it is down. The abrasion collar and also just
2 the starting here and ending up there. It is coming
3 from the top to here.

4 Q And, Dr. did you determine that
5 path not only, I mean, possibly via x-rays, but did
6 you probe that wound as well?

7 A Yes, I probe all of my wounds to make sure
8 that the entrances and the exits do coordinate.
9 : . Does your
10 assumption in talking about how body parts move
11 that, or like when his head was down, and the
12 officer was standing above him.

13 A That's a possible scenario.

14 : Thank you.

15 A So we got that. So now we dealt with the
16 abrasion collar, we know there is an entrance wound.
17 So now you want to look at your x-rays to see if you
18 see any type of bullets associated with this. There
19 are little tiny fragments, but no large intact
20 bullets, I can't recover those. Those are not good
21 for ballistics, you need kind of an intact chunk to
22 be good for ballistics.

23 All right. So in terms of soot or
24 any type of stippling, there is nothing around it,
25 only thing that is nearby are these abrasions.

1 So in terms of trajectory, how far
2 away, I can't determine this, this is an another
3 indeterminate wound that is going to be greater than
4 3 feet away.

5 In terms of the actual trajectory
6 itself, it is downward, slightly backward and going
7 to the right. It is going down, going back, meaning
8 this is the front part of the head, it is coming
9 back over here, so it is backward down and going to
10 the right because this is the center, this is right
11 side and it is going that way.

12 All right. Now in terms of the
13 actual tissue planes that it passes through, it is
14 going from the skin, it's going through the soft
15 tissue and the things that is interesting about this
16 one is, so when it is passing through, there is
17 like, there is defect here, call it a laceration,
18 call it a defect.

19 In my particular situation, I called
20 it gunshot related defect because as this bullet
21 passed through, there is enough meat and skin here
22 on the front of Mr. Michael Brown's forehead that
23 this bullet is tunneling underneath that skin. When
24 it got right here where the eyebrow was resting over
25 that ridge of bone that we all kind of have right

1 there, it disrupted that tissue, continued to travel
2 underneath and then went by his eye here. There is
3 another defect, it passed through the actual globe
4 of the eye.

5 Then you have a bone here, right
6 underneath your eye, it went through that bone,
7 passes through there, you have a bunch of soft
8 tissue here in your jaw and cheek, it passes through
9 there and then eventually comes out of the jaw right
10 here on the side. So that's the particular path of
11 this particular shot.

12 **Q** (By Ms. Alizadeh) Now, does this
13 projectile travel through any portion of the brain?

14 **A** No, it does not.

15 **Q** And now I know you said it went through
16 some bone that was below the eye, does it fracture
17 the bone at the entrance site?

18 **A** No, it does not.

19 **Q** So it goes into the skin and the soft
20 tissue and then almost travels along the bone, along
21 the, just underneath the skin?

22 **A** Correct.

23 **Q** Going through the globe of the eye?

24 **A** Correct.

25 **Q** And then breaking a bone?

1 **A** Correct.

2 **Q** Now, would this type of wound immediately
3 render someone disabled?

4 **A** No.

5 **Q** If someone sustained this type of wound,
6 could they continue to stand up for a while?

7 **A** Yes, they could.

8 **Q** Could they continue to be mobile?

9 **A** Yes, they could.

10 **Q** And, obviously, I'm sorry, Sheila, with
11 the eye being pierced in this case, they would lose
12 this vision from their right eye, correct?

13 **A** Correct, the eye is no longer going to
14 function, it is totally disruptive.

15 MS. WHIRLEY: Shirley Whirley. Would the
16 combination, you said you can't talk about the
17 sequence of the shots which occurred first, but the
18 combination of the shots that we've seen before the
19 fatal shot, it still would not render this person
20 disabled.

21 **A** Correct.

22 You talked about
23 the abrasions, anything that you conclude from the
24 abrasions, how they occurred?

25 **A** Well, an abrasion, all that is to me is

1 that particular part of your body came in contact
2 with another force. So to get an abrasion, I fell
3 right now, I hit my head right there, I could scrape
4 off skin. I fell down on the ground and collapsed
5 on the ground that could cause those abrasions.

6 From the way he's positioned where
7 he's found after he's rendered disabled, his face is
8 in contact with the ground and that's consistent
9 with that position.

10 : There need to be forward
11 motion on that face to scrape it like that.

12 **A** You would need some sliding.

13 Some sliding

14 **A** For it to rub off. You need a frictional
15 force. You can't just plop straight down, plop
16 straight down and cause more bleeding, you get more
17 contusions from things just stopping and don't
18 slide. When things slide with friction, that's when
19 it gets rubbed off, and that's when you get your
20 frictions.

21 I don't
22 recall, or not speaking about the abrasions, did you
23 find any evidence of any type of burn to the skin or
24 anything, any type of injury like that because we
25 all know, I mean, this happened at 12:00, and the

1 young man laid there on the ground in one of the
2 hottest days of the year. Any type of wounds such
3 as that, any evidence of anything of that nature?

4 **A** There's really no burning per se, but
5 there is one wound on the cheek that had a dry
6 appearance, that's about the only thing that, you
7 know, contact could be a drying affect or something
8 where the pavement is warmer, who knows, but that
9 feature is there. There is no burning of anything.
10 Okay, thank you.

11 . Are the
12 abrasions severe enough that you think the victim
13 would have been in motion at the time of the fatal
14 shot or could have been standing at the time of the
15 fatal shot, absorbs that amount of friction just by
16 simply falling from a standing position?

17 **A** Eventually falling and hitting the ground,
18 and the ground and his face, that's how that
19 happened in my opinion.

20 I think we've got those taken care
21 of.

22 This is 98. And the only thing
23 different about this is the introduction of the
24 ruler.

25 We're at Image 99. So we're looking

1 at the top of Mr. Michael Brown's head. This is the
2 top portion of his scalp. So what is happening here
3 when he originally came in, I documented the body
4 how it is, I shaved the hair off of his head to
5 expose the wound, so this is what I created when he
6 came in. He didn't look like this was all black
7 hair here, you couldn't even see the wound. The
8 reason why I knew it was there is from my x-rays, as
9 well from palpating the head, I could feel a wound
10 and I saw blood coming from there, that's why I knew
11 there was something there.

12 Once I identify a wound like that on
13 the head, it is standard protocol and procedure for
14 me to remove the scalp, not the scalp, the hair in
15 order to one, be able to assess the collar, the
16 abrasion collar, to help with distance and to also
17 look for any type of stippling or soot.

18 Kind of, you know, in a classical
19 sense, typically the hair can block these things
20 from being deposited on the skin, but proper
21 protocol to be able to wipe away that hair to see if
22 you can see anything that may have penetrated the
23 hair and got to the skin to be able to help with the
24 range.

25 So that's the reason why you have to

1 remove the hair to be able to assess wounds to help
2 you with distance and to also be able to
3 characterize the nature of the wound.

4 **Q** (By Ms. Alizadeh) You know that brings up
5 a question regarding the deposit of the soot or
6 stippling. If the projectile enters through a piece
7 of clothing, could that also affect whether or not
8 soot or stippling is deposited on the skin?

9 **A** That is correct.

10 **Q** And in this case, the clothing was removed
11 off of the body, correct?

12 **A** Correct.

13 **Q** And do you recall having a short sleeve
14 shirt on, correct?

15 **A** Correct.

16 **Q** Now, did you examine the clothing yourself
17 to determine if there were any holes in the
18 clothing?

19 **A** I do look at the clothing to look for
20 defects and that's what I refer to them as.

21 **Q** Did you see any defects in the shirt?

22 **A** Yes, I saw defects in the shirt.

23 **Q** Okay. And you don't document those in
24 your report, correct?

25 **A** No, I don't specifically say where they

1 are. I generalize and say there are defects present
2 in the shirt.

3 Q Okay, all right. Thank you.

4 A All right. So this particular one I think
5 is probably Number 1. We are going to be looking at
6 Wound Number 1 on the autopsy report. This is the
7 gunshot entrance wound to the vertex of the scalp.

8 So positioning as I always do, it is
9 20 centimeters above the level of the ear, we are
10 also going up from here. And it's, and it's near
11 the actual midline of the head. So if you look, it
12 is pretty much in the center, kind of dead on.

13 The hole measures 10 millimeters by
14 8 millimeters. It's roughly round and it has pretty
15 level edges.

16 Now, when you look at the edges as I
17 always do, you can kind of see this little bit of
18 pink tissue around there, that's that abrasion
19 collar that is going to let you know theoretically
20 this is an entrance wound.

21 Now I have to caveat with gunshot
22 entrance wounds to the head. You should never just
23 purely go by the classical thing that we talked
24 about, abrasion rings and contusions. The problem
25 with it is the head is a skull that's underneath and

1 that bone creates a different type of resistant path
2 for the bullet to pass through.

3 The best way to determine if there is
4 an entrance or an exit wound of the skull is on my
5 examination, when I reflect the scalp, which is a
6 normal part of the procedure and remove the skull
7 cap. When you look at the actual hole, and I think
8 there will be some pictures eventually, we'll get to
9 that.

10 When you actually look at the hole,
11 there is a concept called beveling. Beveling is
12 where you will see an outpouching of the bone. So
13 if the outpouching of the bone is to the inner table
14 of the gunshot wound, that's an entrance wound. If
15 the beveling or outpouching is on the outside of the
16 outer table of the skull, that's called external
17 beveling, that's an exit wound.

18 So when I get to it, this particular
19 wound had internal beveling, so that lets me know
20 for sure that this is an entrance wound to the head.
21 It is pretty much every time, I just want to make
22 sure you understand that.

23 MS. WHIRLEY: Sheila Whirley. I know you
24 can't tell us exactly what position would Michael
25 Brown have been in to have the shot to the top of

1 his head?

2 **A** The shot fired has to be above the head.
3 So in theory, if I'm sitting here and somebody's up
4 there and shoots down, you have to be above, the
5 shot has to be fired above his head in order for
6 that to happen.

7 **Q** (By Ms. Alizadeh) Kathi Alizadeh. When
8 you say above, you're talking the anatomical
9 diagram?

10 **A** Right.

11 **Q** I'm just theorizing here, just theorizing.
12 So if someone in this position, in other words, is
13 bent over at the waist and the top of my head is
14 facing the wall, that could account for a bullet
15 that would enter the top of the head, correct?

16 **A** That is correct.

17 **Q** In this case you have no way of knowing
18 where, what position his body was in when he
19 sustained that gunshot wound?

20 **A** No, I do not know specifically, correct.

21 MS. WHIRLEY: But it would be
22 inconceivable for him to be standing at 6'4",
23 straight up and have that shot to the top of his
24 head from someone not as tall as him, taller than
25 him?

1 **A** Correct.

2 MS. WHIRLEY: Okay.

3 **A** So as we always do, we want to see if
4 there is any stippling or soot. That's not soot,
5 that's just his hair. That wasn't scraped all the
6 way off with a scapple. There is no soot, there is
7 no stippling. So in terms of range, that is a wound
8 that is greater than 3 feet away again.

9 An x-ray, full body x-ray on this
10 particular situation, there is a bullet associated
11 with this wound that I ultimately recovered within
12 the soft tissue on the right side of his face that's
13 associated with this wound, there is a projectile.

14 All right. There is internal
15 beveling of this bone of the skull, which I was
16 telling you about before, that lets me know that
17 this is an entrance wound.

18 The path or trajectory on this one
19 based on the anatomical position is going downward,
20 it is going from the top of the head towards the
21 feet and it is going right. Meaning that when it
22 passes through the head and goes through the brain,
23 you got your outer part of your skull here, it is
24 going that way and burying itself. You can see it
25 is down and to the right. So that is how you know

1 that part.

2 In terms of the actual tissue that it
3 is passing through, going through the scalp, the
4 skin surface of the head, soft tissue, the parietal
5 bone of your skull, that's the particular location
6 of the skull cap specific for me, but just layman's
7 term, just your skull.

8 Once it went through the skull, it
9 hit the brain and your brain is separated in
10 hemispheres. So you have a parietal bone, you have
11 a parietal lobe. So it went through the parietal
12 lobe of the brain, then it went through the temporal
13 lobe of the brain. This is all on the right side.

14 Then it passed through the right
15 temporal bone of the skull, which is out here and
16 punched through there and buried itself right here
17 in the skin, the soft tissue beneath the skin on the
18 right side of his head. So that's the path of the
19 bullet.

20 So when it goes through there, it is
21 going to create injuries to the brain. There are
22 small little tears or contusions that are happening
23 to the brain as this bullet is punching its way
24 through the white matter of the brain. You have
25 gray matter on the outside and white matter on the

1 inside.

2 The white matter is responsible for
3 your, the nervous impulses that are going to go
4 through your brain. So those tracks, there is
5 little small contusions there, that's just from the
6 pathway of the bullet going through the brain.

7 There is also hemorrhage associated
8 with the wound. You have multiple spaces in your
9 brain. You have an epidural space, which is, you
10 know, you have your skull, beneath your skull
11 there's a space and then you have your dura. Your
12 dura is kind of like, for lack better of a better
13 word, the skin of the brain. In between that
14 imaginary space is called the dural space, there's a
15 space there.

16 You can get the dural, then you start
17 getting to another space and then you get to the
18 brain. So beneath that dural space is the subdural
19 space.

20 There is blood there and there is
21 actual blood on the surface of the brain, which is
22 the subarachnoid space. There is two areas where
23 there is blood, you have defects of where the bullet
24 is entering and then kind of exiting out on the
25 brain and staying in the soft tissue.

23 : You said
24 that you had to remove the hair from that area. Is
25 it possible to get any kind of soot or anything, any

1 kind of sampling of that or was anything sent in to
2 be examined or is it even possible to get any type
3 of evidence out of that?

4 **A** It is always possible, but nothing was
5 sent off with regard to the hair.

6 **Q** (By Ms. Alizadeh) So the hair that you
7 shaved off the scalp was not collected and kept?

8 **A** No.

9 **Q** Or tested in any way?

10 **A** No, it was not.

11 **Q** Okay.

12 Any other questions about this wound?

13 **A** 101. Same wound, but just the
14 introduction of the ruler.

15 **Q** And just so I'm clear on this, the bullet
16 that we're talking about is Wound Number 1 in your
17 report, entered the brain, traveled through the
18 brain and then you said was in the temporal region
19 just beneath the skin or the soft tissue?

20 **A** It is a little bit, it is coming right
21 through the bone of the skull, it is sitting in the
22 soft tissue right there.

23 **Q** In photographs, is there an injury to the
24 side of his face where that bullet rest beneath the
25 surface?

1 **A** It did not make an injury on the outside
2 of the face that would correlate to the inner
3 injury.

4 **Q** Just for the sake of these, all of these
5 injuries that you talked about, there was a
6 projectile that was found in his brain, correct?

7 **A** Well, it is more the soft tissue.

8 **Q** You're right. Wound Number 1, you
9 recovered that projectile?

10 **A** Correct.

11 **Q** Did you give that to the police officer?

12 **A** Yes, I did.

13 **Q** He packaged that?

14 **A** Yes, he did.

15 **Q** And then you also indicated you retrieved
16 a projectile in his chest cavity?

17 **A** Correct.

18 **Q** Was that given to the police officer?

19 **A** Yes, it was.

20 **Q** Was that packaged?

21 **A** That was packaged.

22 **Q** Any other projectile or foreign object
23 that you retrieved from his body?

24 **A** There was another. So the one projectile
25 back out here and one further down here, so there

1 were three projectiles that I recovered.

2 **Q** Okay. And then regarding any other
3 samples that you took, you've already testified that
4 you took a sample from that thumb area?

5 **A** Histology.

6 **Q** And did you take a blood sample from him?

7 **A** Like for a blood stain card for DNA?

8 **Q** For DNA, but also for toxicology?

9 **A** Yes.

10 **Q** So those are separate samples?

11 **A** Yes.

12 **Q** There is a stain card that is made for
13 DNA?

14 **A** Yes.

15 **Q** And then there is a sample of blood put in
16 a tube or something?

17 **A** Yeah, there is two types of tubes. We
18 have a red top tube, which is just basically a tube
19 with no preservatives in it, just going to be pure
20 blood and then we do a gray top tube has a
21 preservative, like sodium chloride. It is important
22 for dealing with testing for like cocaine, things of
23 that nature.

24 Cocaine is kind of volatile and kind
25 of breaks down if you don't put the fluoride in

1 there to stop the activity of the enzymes in the
2 blood. That is what the gray top tube is for.

3 So we do a red top and gray top for
4 toxicology, and the specific blood that I used was
5 chest cavity fluid that was sitting from that
6 gunshot wound. There is a lot of blood there. I
7 used that for my toxicology because the other
8 locations to try to get blood was very difficult.
9 He had lost blood, it is difficult to get sometimes,
10 so you get it where you can get it from. The
11 biggest reservoir of blood was the chest cavity.

12 **Q** And did you also take a sample of the
13 vitreous fluid from his eye?

14 **A** Yes.

15 **Q** He was missing his right eye, correct?

16 **A** That's correct, it came from the left.

17 **Q** You do that by a syringe, drawing off some
18 fluid?

19 **A** Correct.

20 **Q** And that's preserved for toxicology?

21 **A** Correct.

22 **Q** And then you also said earlier you had
23 mentioned urine. Did you take a sample of urine
24 from him?

25 **A** Yes, I did.

1 **Q** Is that also with the syringe?

2 **A** That is with a syringe.

3 **Q** Is that taken from his bladder?

4 **A** Yes, it is.

5 **Q** And so the cavity blood, the urine and the
6 vitreous fluid, you know those samples were
7 subsequently sent to a toxicology lab?

8 **A** Correct.

9 **Q** And is that lab also a part of the Medical
10 Examiner's Office?

11 **A** Physically it is located in the same
12 building.

13 **Q** But that's run by St. Louis University,
14 correct?

15 **A** Correct.

16 **Q** And other than sending those things off,
17 you don't have any role in testing those?

18 **A** No, I do not.

19 **Q** Okay. I want to try to go through these
20 quicker so that, I don't want to, again, I don't
21 want anybody to not ask questions they want to ask.
22 We've talked about the major wounds that he's
23 documented in his report. He has some additional
24 photographs of some of those tangential wounds and
25 also there is some autopsy photos where there is

1 cutting done. All of these photographs are going to
2 be available for you.

3 If you want, we can have him go
4 through them one by one. I prefer him to testify
5 about what he saw when he opened up the body and so
6 forth. I will tell you they are graphic and that is
7 going to be up to you guys, okay?

8 And so also let's go through the rest
9 of these injuries that are photographed and then
10 when we get to the cutting part, I'll ask you guys
11 if you want to start going through those
12 photographs. If you want to look at them on your
13 own at a later time.

14 I
15 have one question for you. I need to understand,
16 all of the injuries with the exception of number
17 one, accumulatively he could have still survived and
18 been mobile?

19 **A** He could have been mobile, I wouldn't
20 necessarily say survive. Those chest wound
21 injuries, those would have eventually become fatal
22 if not addressed.

23 He would have been
24 mobile, but this one absolutely?

25 **A** Absolutely.

11 So as that chest cavity fills up with
12 blood, it is going to get to the point where it
13 fills up with so much that it shifts all of those
14 organs on the inside of your body to the other side.
15 And the problem with organ shifting is you have a
16 major organ in the middle of your chest, which is
17 your heart.

18 So think of it kind of like a garden
19 hose. You put too much pressure on one end of it,
20 it stops the flow of the water. So the stop of the
21 flow of the water, in this situation is the blood.
22 When that thing starts filling up and pushing over
23 to the side, those vessels get squished, squished
24 and eventually get squeezed off to where now the
25 blood can no longer get returned to the heart to get

1 pump to other areas. And then that's the main
2 problem is your head is not getting blood, now you
3 are going to become unconscious. You are going to
4 have two problems, you're not getting blood, your
5 blood carries your oxygen. So you are not getting
6 any oxygen to the brain, you are physically not
7 getting blood to the brain, you are also losing
8 blood out of your body, inside of your body. So you
9 kind of got a lot of problems there.

10 But he could not
11 immediately, the hemothorax could be reversed?

12 **A** If you had some medical intervention.

13 That's what I mean.

14 **Q** (By Ms. Alizadeh) Would you say,
15 Dr. that medical attention would have to
16 be immediate?

17 **A** I agree.

18 **Q** Like if he were shot in the hospital, then
19 possibly if there was a doctor at his elbow,
20 possibly he could have medically then have survived
21 those injuries?

22 **A** Correct.

23 **Q** Without immediate medical attention, he
24 eventually would have died, alone of the internal
25 thoracic injuries?

1 **A** Correct.

2 **Q** And just to clarify because you talked
3 about bullets passing through his lung. And I
4 thought maybe I misunderstood. I thought one of the
5 injuries to the lung was caused by the rib that
6 punctured the lung?

7 **A** Correct.

8 **Q** Was there more than one bullet know
9 through the lung?

10 **A** One bullet went through the lung, the
11 other bullet struck the rib, the eighth rib, which
12 is nearby, so your right lung is in three pieces.
13 It has got an upper lobe, it's got a middle lobe and
14 it's got a lower lobe. So the first, that bullet
15 that's up here by the clavicle by the collar bone,
16 that hit the upper part of the lung.

17 So when that other bullet passes
18 through and hits the eighth rib, it snapped it, it
19 fracture it. So say this is a rib cage, your lung
20 is sitting there, when it broke it, it snapped it to
21 the inside and when it broke, the bone punctured
22 that lower portion of the rib causing additional
23 injuries to the lung. So the bullet itself didn't
24 do it, but the bullet hit the bone and snapped and
25 did puncture the wound.

6 **A** That's going to be difficult, difficult to
7 determine. It is just pure speculation.

9 . I just
10 need some clarification. The wound to the head, did
11 you say that was a far distance?

14 It is greater than 3 feet?

18 : The
19 wounds to the top of the head, could he have been
20 already falling forward?

22 : So let's say like the
23 first wound he received, I know you said --

Gore Perry Reporting and Video

1 : Let's just say to the
2 chest.

3 **A** All right.

4 : Could that wound have
5 like, I know you said that he could of still been
6 mobile, could he have not been mobile as well?
7 Could you just like get shot?

8 **A** You can stop walking, that wound is not
9 going to prevent you from using your legs. You've
10 consciously chose to stop moving, you still would
11 have the ability to move with sustaining a shot like
12 that. It is not going to render you unconscious,
13 that's the point I'm trying to make. The wound to
14 the head, he's going to be unconscious, he can't
15 move if he wants to.

16 But you get hit here in the chest,
17 you are going to have some time to be able to move
18 around and it is depending on a variety of factors.
19 How quickly you use blood. The main thing that will
20 make you collapse is, once you block off that blood
21 return, you've got maybe like 10 to 15 seconds of
22 reserve of oxygen going to your brain before you
23 pass out.

24 So when you reach that critical
25 level, each person is going to have a different

1 critical level with body masses, being different
2 sizes, people have different kind of levels of blood
3 reserve, different levels of volume.

4 So someone smaller or bigger maybe
5 last a little bit longer. Also the activity that
6 you are doing before is also going to impact. Say,
7 for instance, if you have been running and your
8 heart was going really, really fast, you're going to
9 pump blood out quicker as oppose to someone really
10 calm, just kind of sitting there, you are not going
11 to bleed as fast. So all of these factors play a
12 role in determining how quickly you are going to be
13 responsive or immobile.

14 Q (By Ms. Alizadeh) Okay. Let's go ahead
15 and somewhat quickly if you can run through those
16 other photos. If you go ahead and identify them and
17 put them on what it says, what it shows abrasion?

18 A This is 102, I believe. So this is his
19 left arm, this is just showing a linear abrasion on
20 the left arm.

21 Q You characterize that before as being like
22 a grazing wound?

23 A I wouldn't say it is in that category.
24 This one is some type of blunt force injury caused
25 that. I wouldn't say it is necessarily a

1 projectile. The characteristic of it is different.
2 You could have rubbed on something, it is hard to
3 say. It is nonspecific, but it is not a classical
4 graze wound like you saw on the bicep on the right
5 arm or that graze wound.

6 This is different. This is just an
7 abrasion. It is not specific and I can't say what
8 it is from.

9 : My thought was
10 whether with glasses on, if you were able to tell if
11 it was a clean cut?

12 **A** That's something you can argue about, but
13 the fact that it is so dry and, you know, it is kind
14 of firm, it is kind of difficult to say is it a cut
15 or incise wound. I can definitely say that is a
16 superficial layer of skin has been rubbed off, but
17 it is difficult to say was it a sharp or was it, you
18 know, rubbing on some keys or who knows, a door, I
19 don't know. It is kind of in between and it is
20 difficult to specifically say what caused that. But
21 there is definitely an injury there, the top part of
22 the skin is gone.

23 : Thank you.

24 **A** 104. This is just a close-up, same thing
25 with the showing of that.

1 **Q** (By Ms. Alizadeh) Just out of curiosity
2 lower in the photograph, is this also an abrasion?

3 **A** Yes. This is just showing that right palm
4 again, showing that graze wound of the hand.

5 106. Showing close-up of the graze
6 wound of the hand.

7 107. Same thing, graze wound of the
8 right hand with the ruler.

9 On 108. There is a very, I'm going
10 to get a little bit closer, but it is a little bit
11 of an abrasion here on his right here which is right
12 there.

13 109. This is close-up of that little
14 tie any abrasion on his right hip right there.

15 This should be 110. This is just the
16 same thing, but with ruler inserted for scale.

17 **Q** For those, the abrasion to his right hip
18 again, you can't say what caused that?

19 **A** No, I cannot.

20 **Q** Can you even say if that happened during
21 the same time he sustained the other injury?

22 **A** No, I cannot.

23 **Q** Okay.

24 **A** 111. There is an abrasion here to this
25 upper right chest, that's what I'm focusing on here.

1 112. This is the abrasion here in
2 the upper right chest right there and that bullet
3 hole from the upper right chest from earlier.

4 113. Same picture up, but insertion
5 of the ruler for scale of that abrasion on the upper
6 right chest.

7 This is 114. This is where I'm
8 trying to focus in on his lip. I told you he had
9 some abrasions on the inner portion of his lip.

10 **Q** Can you tell what caused the abrasions on
11 the inner portions of his lips?

12 **A** Not specifically.

13 **Q** Would it be consistent with some, with an
14 impact like involving his teeth or dental work?

15 **A** That's possible.

16 That's a close-up here showing these
17 defects or abrasions or shallow lacerations,
18 whatever you want to call it, here on the left.

19 **Q** Let me just ask the possibilities here.
20 Those injuries to the insides, they are injuries on
21 the inside of his mount?

22 **A** Correct.

23 **Q** Correct?

24 **A** Correct.

25 **Q** Could it be caused by getting punched in

1 the mouth?

2 **A** Possible.

3 **Q** Could it be caused by someone falling on
4 their face on pavement?

5 **A** It is possible.

6 **Q** You have no way of knowing how that
7 happened?

8 **A** I do not.

9 116. Showing the same thing, but
10 with the ruler for scale. I'm getting to the point.

11 **Q** Let me ask you some other things here.
12 Regarding his face, was there any injury to his
13 teeth, any chipped or broken teeth or anything?

14 **A** No.

15 **Q** Did you notice on his face, other than the
16 injuries to the wound that you've described, were
17 there any contusions?

18 **A** No contusions.

19 **Q** Contusions, again, is like a bruise. Note
20 any swelling to the face, other than what was
21 associated with the wound you talked about?

22 **A** Correct.

23 **Q** And then I'm going to ask you specifically
24 about his neck. I am going to show you Image 111,
25 which we already talked about. So this is an image

1 of, he's on his back on the table, correct?

2 **A** Correct.

3 **Q** And --

4 **A** His head is here, his feet is here.

5 **Q** His head is the lower right -- left-hand
6 portion. This defect right here, that's an exit
7 wound in the jaw, correct?

8 **A** Correct.

9 **Q** And these are the chest wounds you've
10 talked about?

11 **A** That's one of the abrasions next to it.

12 **Q** So his chin is up a bit; is that right?

13 **A** Correct.

14 **Q** You can fully see his neck in that
15 picture?

16 **A** Correct.

17 **Q** Did you notice anything when you examined
18 his body, was there any bruising of his neck?

19 **A** No.

20 **Q** Any abrasions on his neck?

21 **A** No.

22 **Q** Have you ever seen an injury, and injury
23 to a person who has been choked?

24 **A** Yes.

25 **Q** Okay. Can you describe someone who has

1 been choked?

2 **A** Well, I would like to clarify for me.
3 Strangulation is a better term, choking is
4 different.

5 **Q** Choking is like I got something, I
6 swallowed something wrong or whatever?

7 **A** Right, right.

8 **Q** So you are right, so you've seen someone
9 who has been strangled?

10 **A** Correct.

11 **Q** What kind of injury would you see on
12 someone who has been strangled?

13 **A** Externally you may see abrasions from, you
14 know, people have nails or whatnot and the rough
15 nature of the event, you can create abrasions on the
16 outside of the neck. You don't always see them, but
17 you can.

18 Then once you open the neck, when I
19 do a dissection of the neck, you have multiple
20 layers of soft tissue as well as muscle.

21 If enough force is applied there, you
22 can see hemorrhaging within the soft tissues of the
23 neck and then also you have a bunch of structure
24 within your neck called the hyoid bone can be
25 fracture or injured. And in a strangulation, those

1 are some of the things I look for in the neck and
2 situations where someone has been strangled or has
3 an injury to the neck.

4 Q In this case you found no injuries to his
5 neck, correct?

6 A Correct, correct.

7 Q And I know when we are talking, when I say
8 strangulation, I think of that as being like someone
9 who is a cause of death, they are dead from
10 strangulation, but people can be strangled, but then
11 survive, correct?

12 A Correct.

13 Q And in some occasions, will you notice
14 bruising to the neck?

15 A Correct.

16 Q And then, obviously, you're not going to
17 cut a living person open to look at the tissue
18 inside?

19 A Right.

20 Q But someone who has been grasped very
21 tightly around the neck, you might see bruising?

22 A Correct.

23 Q Okay. One more thing about, and at some
24 point, the police department, the police officers,
25 they fingerprint the deceased; is that correct?

1 **A** Correct.

2 **Q** And that's just standard protocol,
3 correct?

4 **A** Correct.

5 **Q** Now, do you ever observe in your
6 autopsies, do the police ever dust the body for
7 prints?

8 **A** I haven't specifically seen that unless
9 there is a question or certain circumstance for it
10 to happen. It is not part of routine procedure, I
11 guess that's what I'm trying to say.

12 **Q** I guess you've never seen someone, a
13 police officer try to lift a latent fingerprint off
14 of the skin of a deceased person?

15 **A** I have not, no.

16 **Q** Have you ever heard of that being done?

17 **A** Not specifically, no.

18 (Deposition Exhibit Number 8
19 marked for identification.)

20 **Q** (By Ms. Alizadeh) Okay. So another thing
21 so we can possibly, I don't want to shortcut
22 anything. I'm going to hand you Grand Jury Exit
23 Number 8.

24 For the record, this is a CD. Did
25 you bring that to me at my requests?

1 **A** Yes, I did.

2 **Q** Okay. And that CD contains a number of
3 photographs and some x-rays; is that correct?

4 **A** That is correct.

5 **Q** Have you looked at the photographs and
6 x-rays that are on that disc?

7 **A** Yes, I have.

8 **Q** Now, the photographs that are on those
9 discs, on that discs, were taken by who?

10 **A** Um, by the autopsy morgue assistant

11

12 **Q** So those are not police photographs?

13 **A** No, they are not.

14 **Q** And so those photographs are taken for a
15 different purpose?

16 **A** It is more for just kind of documentation
17 of the body, just getting a general overall of what
18 we are seeing for lack of a better word.

19 **Q** And some of those photographs that are on
20 that disc are after the autopsy is completed and
21 body has been closed up.

22 In this case you removed the top of
23 his head and eventually that's been closed up,
24 correct?

25 **A** Correct.

1 **Q** And have you seen those photographs on
2 there?

3 **A** Yes, I have seen the photos.

4 **Q** And then the x-rays that are contained on
5 those discs, are those the x-rays that you took and
6 examined in relation to the injuries that you've
7 testified to as far as when you can see a projectile
8 and so forth?

9 **A** Correct.

10 MS. ALIZADEH: Is there anyone here who
11 wants me to put on, to go through these xx rays with
12 you? Anybody have any questions about that? We can
13 put them in the player right now and bring up, how
14 many x-rays are there?

15 **A** I don't know, 42.

16 MS. ALIZADEH: The disc says how many
17 photographs and how many x-rays.

18 **Q** (By Ms. Alizadeh) How many photographs?

19 **A** Photographs 39.

20 MS. ALIZADEH: Is there anyone who has a
21 desire, if we can't do it today, we'll bring him
22 back after his vacation and go through these. Is
23 there anyone who wants to see these x-rays now, or
24 have any questions about a particular injury or
25 bullet that he might be able to see in an x-ray?

1 Okay.

2 MS. WHIRLEY: Just for the record, it is
3 about 5:00.

4 **Q** (By Ms. Alizadeh) I'm trying to finish up.
5 I know Dr. is on vacation for a couple of
6 weeks. I want to get as much as we can. If we have
7 to bring you back, we'll worry about that later.

8 And then, so now the rest of his
9 testimony about his autopsy is going to be about him
10 cutting into the body and examining each organ.

11 Let me ask you, Dr. did you
12 find anything other than the injuries that you
13 talked about to the lung and to the tissue and to
14 the brain, was there anything remarkable about any
15 of his organs?

16 **A** No.

17 **Q** There wasn't any heart disease?

18 **A** No.

19 **Q** No ulcers of the stomach or anything like
20 that?

21 **A** No.

22 **Q** And you are cutting and retrieval of the
23 projectiles that's all documented in these
24 photographs; is that correct?

25 **A** Correct.

1 MS. ALIZADEH: Is there anyone here who
2 wants right now to go through those photographs, or
3 have any particular question about them?

4 All right. They are going to be here,
5 they are part of the exhibit and they are something
6 that you can examine at a later time. And if at
7 all, there is a question later on down the road,
8 specifically about something, that I didn't have him
9 actually testify about, we will bring him back and
10 have him testify again. Yes.

11 The
12 photographs that we are talking about, they are from
13 the same string timeframe and same situation that
14 we've seen up to this point, correct?

15 MS. ALIZADEH: Yes, they are also
16 photographs that are taken by a police officer
17 during the autopsy and so, for example,
18 Dr. when you are retrieving a projectile,
19 you have to cut into the body. In this case you
20 did, and that is actually photographed that you have
21 cut into the body and in some of these photographs
22 you can see the projectile laying in the tissue of
23 the body.

24 A Correct.

25 Q (By Ms. Alizadeh) And then in some of

1 these photographs the projectile is removed from the
2 body and sitting on a paper towel, photographed
3 after it is removed?

4 **A** Correct.

5 **Q** But these are all photographs that are
6 taken that day during your autopsy?

7 **A** Yes.

8 **Q** And in conclusion for today, were you able
9 to determine within a reasonable degree of medical
10 certainty the cause of death of Michael Brown?

11 **A** Yes, gunshot wound to the head and chest.

12 **Q** Were you able to determine within a
13 reasonable degree of medical certainty the manner of
14 death of Michael Brown?

15 **A** The manner of death is homicide.

16 **Q** So that would be homicide as opposed to a
17 suicide or accidental or anything like that?

18 **A** Correct.

19 **Q** Homicide just means at the hands of
20 another, it doesn't indicate there is any kind of
21 criminal liability, that is a term that's used in
22 forensic pathology, correct?

23 **A** Correct.

24 MS. ALIZADEH: Anybody have any other
25 questions about the autopsy or what he did in the

1 autopsy?

2 Let me look at my notes real quick.

3 : . Can you
4 tell me how many exit wounds there were?

5 **A** I'd say three.

6 : How many entrance wounds?

7 **A** I don't include the graze wound as one of
8 these things that is in between say 1, 2, 3, 4, 5,
9 6.

10 And two graze wounds?

11 **A** That's 8.

12 Thank you.

13 **Q** (By Ms. Alizadeh) And those again, those
14 wounds, each of them is documented in your
15 post-mortem examination report that I provided
16 copies to the jurors and also is there any way that,
17 do you have any opinion as to the order in which
18 these gunshots were, these wounds were sustained on
19 Michael Brown's body?

20 **A** From what I do, the investigation is
21 ongoing. There is things I'm privilege to. There
22 is things I do know and things that can be shared
23 with you later as the process goes on.

24 In my opinion in terms of what I can
25 say the wound to the hand has to occur at a time

1 when Michael Brown is close enough to the officer
2 for that to have happened. So depending on the
3 circumstances that you guys hear from what I know,
4 there is a point in time where they are in close
5 approximation to each other at the vehicle.

6 In my opinion I feel that's the
7 closest they are for it to happen from the
8 circumstances that I know that that injury occurred.
9 So that has to be early on in the event. In terms
10 of the end of the event, the wound to the top of the
11 head is going to be the last wound that he is going
12 to receive.

13 So in terms of the beginning part
14 with the thumb wound and the part at the end, those
15 two I can feel good about saying that I know when
16 those happened, but the ones in between, it is to
17 difficult to say.

18 Q And given the entrance and exits of the
19 wounds that you've described, and I know that we've
20 said there is no entrance wounds on his back?

21 A Correct.

22 Q Or on his buttocks?

23 A Correct.

24 Q Or on the back of the his legs?

25 A Correct.

1 **Q** No bullet wounds on his legs at all?

2 **A** Correct.

3 **Q** And then there is some wounds to the
4 anterior portion of his torso?

5 **A** Correct.

6 **Q** And then the wounds to his arms are kind
7 of like all over the joint, right?

8 **A** Right.

9 **Q** Any way of telling what position that body
10 was in when those wounds were sustained?

11 **A** No.

12 **Q** Given that they're arms, it just depends
13 on where his arms were?

14 **A** Correct.

15 **Q** And in relation to where the gun was?

16 **A** Correct. But I can say to sustain wounds
17 to the chest, the chest is fixed, those with the
18 arms it can be in a number of positions.

19 MS. ALIZADEH: I don't have any other
20 questions. Does anybody else have anything they
21 want to cover today?

22 : Just one. He did have an
23 entrance wound to the back of his --

24 **A** Anatomical correction, the anatomical
25 position, the dorsal on the back side, posterior

1 portion of that right forearm there is a wound
2 there.

3 Q (By Ms. Alizadeh) So if someone in this
4 position and it is a gunshot wound, the gun could
5 have been fired from behind them?

6 A Correct.

7 Q Someone in this position, the gunshot come
8 from the front of them, correct?

9 A Correct.

10 Q Or in this position, or in this position?

11 A Correct.

12 Q It is difficult to say, correct, or
13 impossible to say?

14 A Correct.

15 : The reason
16 that you are saying most likely the last is because
17 the wounds to the chest and the wounds to the arm he
18 would of had to be somewhat upright to have those
19 somewhat?

20 A What's more of an issue he could still be
21 mobile, he could be moving around, once he got this,
22 he's going to be unconscious.

23 : He's going to be down and
24 there is no way to get to his chest if he were down.

25 A Right, that is true.

1 MS. ALIZADEH: Anybody else?

2 : . The
3 police officer that was there present with you as
4 you were doing your examine.

5 A There were three there.

6 There were three there?

7 A Which one?

8 The one who takes the
9 photos.

10 A There were two kind of crime scene
11 officers and then there was a detective.

12 Okay.

13 A But one guy was taking pictures.

14 : As you are doing your
15 exam, like you said before, you are speaking, right,
16 you are talking while you are doing your examine?

17 A What do you mean?

18 Are you speaking while you
19 are --

20 Transcribing.

21 A I do it after I finish the autopsy.

22 Oh, okay. So there is no
23 talking, you are just taking pictures?

24 A It is just pictures, I'm directing them
25 saying what I want them to take pictures of.

1 : Oh, okay.

2 **A** As I am going through the autopsy, I want
3 pictures of this, I need a picture of this, this is
4 important I think, I need that, that's the extent of
5 the talking. I'm not, the generation of this
6 report, this is happening once I complete
7 everything, I go back to my office with all of my
8 notes and then I do this on my Dictaphone after
9 everything is done.

10 They were there also, they
11 were present also when the x-rays were going on?

12 **A** X-rays, no, they came, once you saw that
13 picture when he's out of the bag, he has his clothes
14 on and the placard, that's when they were showing up
15 and that's when it started. The x-rays are done
16 before, the process of the body being processed for
17 me to do my examination, that's happening.

18 : Okay.

19 **Q** (By Ms. Alizadeh) And, in fact, some of
20 the x-rays, the x-rays are done with his clothing
21 on, correct?

22 **A** Correct.

23 **Q** And like in some x-rays you can see the
24 belt buckle on his pants and so forth?

25 **A** Correct.

3 Q X-rays are done before the clothes are
4 removed and you begin the examination, correct?

6 . I think this
7 might be the last question. So in essence, while
8 you are doing your examine and you have the
9 onlookers or the people that watch, they take the
0 photographs, no one actually knows what you are
1 going to put into your report until your report is
2 done, is that correct?

14 Thank you.

15 Q (By Ms. Alizadeh) Just then for the
16 record, I know this, your report was done in, I
17 would say in my experience with the Medical
18 Examiner's Office, in a little speeder fashion,
19 sometimes it takes six weeks for me to get your --

20 **A** And even longer.

21 Q And in this case there was, there was a
22 directive that this was going to be a priority?

23 **A** Right.

24 Q This was to be done?

25 **A** Correct.

1 **Q** Did you feel that you didn't have
2 sufficient time to complete your report at all?

3 **A** No, I felt in terms of the adequacy of my
4 report, I was done with it, the only thing that I
5 wasn't finished with when I was told that I needed
6 to finish the report was the histological section of
7 tissue, that takes awhile for that to be processed.
8 It can take four weeks sometimes, but I had to speed
9 that along too.

10 So I had to finish the bulk of the
11 report, and then if you look at my last statement.
12 I comment at the time, the histology examination
13 will be issued as a supplemental report.

14 That portion I was not able to
15 include at the time of this. So this, until the
16 histology, which I testified to you guys about this
17 happened after I did this, so that's an additional
18 important information which helped me understand
19 better that gunshot wound to the hand.

20 At this time, I was suspicious of it
21 being a close range wound until histology came
22 through, I couldn't definitively say. So in my
23 report I say, hey, I see these, I see these
24 discolorations, I have to my histology to confirm.

25 So now I'm testifying I got that

1 back, I can now say that wound is a close range
2 wound so, but outside of the rest of everything
3 else, everything was just fine.

4 Q So, Dr. you had a supplement
5 where you talked about the examination of that
6 tissue?

7 A Yes, I issued that is supplemental report.

8 Q Is that completed yet?

9 A That is not completed.

10 Q Okay. When that is completed, would you
11 provide that to me as soon as it is done?

12 A Yes, I will.

13 Q And so I just want to make clear, this was
14 done in a speedy manner, was there anything about
15 this that you felt that if you had more time or were
16 given, you know, more time to write your report,
17 that it would be a better report or more accurate?

18 A No.

19 Q Did you just put everything else on the
20 back burner and you did this first, is that how that
21 happened?

22 A No, I'm kind of multitasking.

23 Q Okay.

24 A I made sure I got it done.

25 Q So is there a date on your report, the

1 date that it was completed?

2 **A** It just says a start time.

3 **Q** Do you sign it and date it?

4 **A** No, I just sign it. I do know, was that
5 Friday, whatever that.

6 **Q** So the shooting happened a Saturday.

7 **A** I want to say that Friday I was done with
8 it.

9 **Q** Okay.

10 **A** I signed it that day. And then I gave it
11 to the officer, Monday an officer came and picked up
12 my report, which would have been what, the 18th of
13 that month.

14 **Q** Until the officer picked up that report,
15 you did not discuss this with any police officers
16 what your findings were?

17 **A** No, no one. The only people who were
18 privy to what I was seeing, what I was dealing with
19 were the officers who were in the autopsy with me,
20 that's it.

21 **Q** But as far as like them knowing what the
22 gunshot entrance and exit is --

23 **A** No.

24 **Q** -- you didn't explain any of that to them?

25 **A** No.

1 : It

2 talks on the last page here about fingernail
3 clippers and scrapings?

4 **A** Yes.

5 : Is that in your report or
6 is that done by someone else?

7 **A** That is someone else. The lab is going to
8 be responsible for processing that, I just procure
9 the items and I pass it to St. Louis County Police
10 Department as evidence and just take it to the lab,
11 which process it.

12 MS. ALIZADEH: Anyone else?

13 Sheila, do you have any questions?

14 MS. WHIRLEY: I think we are probably all
15 questioned out.

16 MS. ALIZADEH: It has been a long day and
17 thank you for being patient. I don't want anybody
18 to feel like I'm trying to leave something out here,
19 we are not rushing you in any way.

20 **A** I'm fine. If you got a question, feel
21 free. I'm not upset. I'm glad I had the
22 opportunity.

23 MS. ALIZADEH: All I'm saying the photos
24 are here and available. I just, I know from being a
25 layman myself, I can look at these and, you know,

1 but, you know, he can explain them if you want him
2 to. If you later look at them, but he has already
3 testified about what he found and where he found
4 them. So I didn't feel it would be a good use of
5 your time to go through each of the photographs
6 right now, but they are here for you to examine,
7 okay. This will conclude the testimony for today.

8 (End of the hearing for September 9,
9 2014.)

depositions, do hereby certify that pursuant to

10

Notice in the civil cause now pending and

11

undetermined in the County of St. Louis, State of

12

Missouri.

13

The said witness, being of sound mind and being

14

by the grand jury first carefully examined and duly

15

cautioned and sworn to testify to the truth, the

16

whole truth, and nothing but the truth in the case

17

aforsaid, thereupon testified as is shown in the

18

foregoing transcript, said testimony being by me

19

reported in shorthand and caused to be transcribed

20

into typewriting, and that the foregoing page

21

correctly sets forth the testimony of the

22

aforsaid witness, together with the questions

23

propounded by counsel and grand jurors thereto, and

24

is in all respects a full, true, correct and

25

complete transcript of the questions propounded to

1 and the answers given by said witness.

2 I further certify that the foregoing pages
3 contain a true and accurate reproduction of the
4 proceedings.

5 I further certify that I am not of counsel or
6 attorney for either of the parties to said suit, not
7 related to nor interested in any of the parties or
8 their attorneys.

1 GRAND JURY HEARING

2

3 MS. WHIRLEY: Good morning. Present is
4 Shirley Whirley, Kathi Alizadeh, the 12 jurors and
5 the court reporter. This is September the 10th,
6 2014. This morning we are going to start out by
7 watching a series of video clips that depict Dorian
8 Johnson discussing what he saw as an eyewitness in
9 this case.

10 As you recall, Dorian Johnson was the
11 person who was with Mike Brown at the time of the
12 shooting.

13 There is approximately six video clips
14 that you will see. And once you see those videos,
15 then we'll also provide you with a transcript and an
16 interview. I think it is approximately two hours
17 and 13 minutes, something like that, interview that
18 Dorian Johnson gave to the FBI, and St. Louis County
19 Police were also present. So you will hear his
20 statement to them.

21 And then after that, we'll likely break
22 for lunch and when we resume in the afternoon, we
23 anticipate that Dorian Johnson will testify.

24 So with that bit of an introduction, Kathi
25 Alizadeh is operating the laptop to get us started.

1 And I think we are projecting, correct?

2 MS. ALIZADEH: Just for explanation.

3 MS. WHIRLEY: This is audio.

4 MS. ALIZADEH: No, these are video.

5 MS. WHIRLEY: Okay.

6 MS. ALIZADEH: These are videos that were
7 on news outlets and some of them, some of these
8 clips contain other statements from other people,
9 comments reporters have made about the incident.
10 And as much as possible, I want to exclude those.

11 So it will take me a second, I have my
12 notes where we are starting and stopping on these
13 and it will take me a second on each clip to get to
14 that point. And then we will start it and you will
15 see that clip.

16 The only time you will hear from a
17 reporter is when they're asking questions of Dorian
18 Johnson, obviously, to understand his statement, you
19 need to hear the questions.

20 So as much as I can, I'm going to get to
21 wherever I need to get. I'm hoping that when I hit
22 this, we are going to see it and hear it.

23 (Grand Jury Exhibit Number 9
24 marked for identification.)

25 MS. ALIZADEH: This is what I've marked,

1 it is a disc, it is marked Grand Jury 9. I didn't
2 stay last night to look at my exhibits, I'm hoping
3 that's the next number.

4 This is a disc that contains video clips
5 of interviews of Dorian Johnson and the first clip
6 is on KTVI. The date of the interview is 8/9/14 and
7 I'm starting this clip at one minute and seven
8 seconds into the clip, and I am going to stop it at
9 one minute and 20 seconds into the clip. None of
10 these are terribly long. They are news clips.

11 (We have a pause.)

12 MS. ALIZADEH: Just for the record, we had
13 a brief break because we were having difficulty with
14 the audio. I think we have that resolved. So once
15 again, and actually now this is starting at 106 and
16 I will try to stop it at 120.

17 (Playing the video at this time)

18 MS. ALIZADEH: So I stopped that at 120.
19 Is there anybody that needs to see that again and
20 hear that again?

21 : Yeah, I need to see it
22 again. It looks like the volume was up kind of
23 loud, I can't pick up what he's saying. If you
24 would put that at like half.

25 (Playing the video clip.)

1 MS. ALIZADEH: Anybody else need to hear
2 it again?

3 So the next is a clip from CNN. The date
4 is August 12th of 2014. I'm starting the recording
5 at 19 seconds into the clip and I will end it at six
6 minutes and six seconds into the clip.

7 (Playing the clip.)

8 MS. ALIZADEH: Does anybody want to hear
9 that again? The next clip is KSDK on August 12th of
10 this year, 2014. I'm playing starting at actually
11 29 seconds and I will stop it at two minutes and 40
12 seconds.

13 (Playing the clip.)

14 MS. ALIZADEH: Anybody want to hear that
15 clip again?

16

17 Miss Kathi, what date was the second video?

18 MS. ALIZADEH: Second video was on the
19 12th.

20 : That was the 12th.

21 MS. ALIZADEH: So the next video is MSNBC,
22 it is also on August 12th of this year. I'm going
23 to start it at 27 seconds and it goes to a minute 47
24 seconds. And actually, immediately after this clip
25 is another MSNBC clip that is a continuation of that

1 interview you will see a little overlap, but this
2 interview sounds like it kind of gets cut off, but
3 then on the next clip it continues.

4 (Video clip is being played.)

5 MS. ALIZADEH: Anybody want to see that
6 part again?

7 So again, the next clip is also MSNBC and
8 it is a continuation of the same show or program.
9 I'm going to start it at the beginning of this clip.
10 So zero seconds and it runs until nine minutes and
11 21 seconds and then continues onto the next clip as
12 well.

13 (Video clip being played.)

14 MS. ALIZADEH: Does anybody want to see
15 that again? It continues onto the next clip.

16 (Video clip is being played.)

17 MS. ALIZADEH: So I'm continuing the next
18 clip. You can see it started with the last question
19 that he asked on the previous clip, so this next
20 clip will go from zero to 24 seconds. And this is
21 also again it is MSNBC on August 12th.

22 (Video clip is being played.)

23 MS. ALIZADEH: I actually stopped it at 29
24 seconds accidentally, asleep at the switch.

25 Anybody want so see that brief clip again?

```
10         I'm going stop it a two minutes and 40
11     seconds.
```

13 MS. ALIZADEH: Okay. So that is the last
14 clip on Grand Jury Exhibit Number 9. Does anybody
15 want to see that again or any other clips?

16 And again, this is available to you at any
17 time, you know, during this investigation. You want
18 to hear it or see it again, we'll make sure you have
19 the opportunity to do that.

20 MS. WHIRLEY: I'm going to go get the
21 transcripts.

22 MS. ALIZADEH: She was going to bring them
23 into when they were done.

25 MS. WHIRLEY: We're back on the record.

1 It is approximately what, 9:45 or so.

2 Right now we're going to play the recorded
3 interview of Dorian Johnson which occurred on August
4 the 13th, 2014. An interview he had with the, an
5 agent from the Federal Bureau of Investigation and
6 also a detective from St. Louis County.

7 This interview is approximately two hours
8 and 13 minutes long. We provided you with
9 transcripts of the interview. You can write on
10 these transcripts if you wish.

11 Kathi, did you have something else you
12 want to say about that?

13 MS. ALIZADEH: At any time, you know, we
14 discussed this during the break that if, since this
15 is over two hours long, if anybody needs to take a
16 break in the middle of it, let me know, I will try
17 to find a place where it is kind of a pause to stop.

18 And there was a question during the break
19 by one of the jurors about whether you can ask
20 witnesses questions when they testify. And I know
21 you have been so far, but of course, that's true of
22 any witness.

23 We don't have a witness right now, this is
24 just obviously the audio interview, but any time a
25 witness is before you and been sworn in, you may

1 inquire of anything that you think is relevant and
2 we want you to.

3 Sheila and I will ask questions of
4 witnesses as we have been going on. If at any time
5 you want to inquire, anything is relevant. There is
6 no, there is no objections to questions and we would
7 have in a courtroom or anything of that nature,
8 okay.

9 (Grand Jury Exhibit Number 10
10 marked for identification.)

11 MS. ALIZADEH: So with that being said,
12 I'm going to play Grand Jury Exhibit 10, which is a
13 DVD and it is an audio recording, and for the
14 record, this DVD contains a number of interviews of
15 other witnesses. And so for the record, I'm going
16 to be playing the interview of Dorian Johnson and
17 Sheila said the transcript of that interview is
18 given to you.

19 (Interview is being played at this time.)

20 MS. ALIZADEH: Anybody want to take a
21 break right now or keep going?

22 It is 11:17, let's take about a five
23 minute or so break and stand up and move around a
24 little bit.

25 (Recess)

1 MS. ALIZADEH: It is 11:24 and I'm going
2 to resume the playing of the interview of Dorian
3 Johnson.

4 (The interview is being played.)

5 (End of the playing of the interview of
6 Mr. Johnson.)

7 MS. ALIZADEH: It is 12:13, I think your
8 lunch is going to be here at 12:30. What I would
9 propose we do because this is not going to take very
10 long at all is that I have what I've marked as Grand
11 Jury Exhibit 11.

12 (Grand Jury Exhibit Number 11
13 marked for identification.)

14 MS. ALIZADEH: Which is another disc or
15 DVD and it contains video from the Ferguson Market,
16 the incident you heard Dorian Johnson talk about.
17 They went in, got the Cigarillos and left the store.
18 They are pretty brief clips. You want to watch them
19 now since we have 15 minutes and then I thought
20 during lunch, you also heard during his interview
21 that he was drawing on some maps and we have copies
22 of those maps. And also he made a drawing I can't
23 find it in my office right now, I think Sheila might
24 have one.

25 I thought while you are eating lunch, you

1 can pass around those maps and look at them as you
2 are relaxing if you want to. This will only take a
3 couple minutes. You all right with me playing this
4 now?

5 So for the record a DVD, that on the DVD
6 itself it says 14-43984, and it says video segments.
7 There is no audio with this disc.

8 (Video is being played at this time.)

9 MS. ALIZADEH: Now, for the record that
10 was called register snippet and that was a view of
11 where the cash register is and the counter is.

12 So this next snippet, it is called door
13 snippet. It is at the door of the food store, the
14 convenience store.

15 (Playing of the video clip.)

16 MS. ALIZADEH: Would anybody like to see
17 those snippets again? And of course, you can watch
18 them at any other time you wish.

19 . Can we ask you a
20 question, both, either one of you a question about
21 maybe we'll find out more later, but how this
22 pertains or relates to the knowledge that maybe
23 Officer Wilson would of had at the time?

24 MS. ALIZADEH: You will hear some evidence
25 about that.

1 Okay.

2 MS. ALIZADEH: There will be, we have a
3 lot of witnesses to call still.

4 : Okay.

5 MS. ALIZADEH: A lot of these things, it
6 is difficult for us to, if we were in a trial, you
7 try to put things on in order that people can make
8 sense of it. But in a trial you make an opening
9 statement so you can outline for the jury what the
10 evidence is going to be.

11 But we are not doing that here, and so you
12 all understand you are hearing things and not
13 knowing what's left to come.

14 There will be, I believe, other witnesses
15 who talk about that, so we'll just have to wait and
16 see how that testimony comes in.

17 : Will we hear
18 testimony any of witnesses inside the store to the
19 events that happened in the store?

20 MS. ALIZADEH: Possibly. Sheila and I
21 have not made out our list. Our intention is to
22 call as many people as we can. Some people may not
23 be cooperative. We will serve subpoenas on people
24 who don't voluntarily agree to come in.

25 I don't know how else to explain that

1 other than we are going to have as many people as we
2 can, that we think know anything about this coming
3 in and testifying. So there will be many, many
4 witnesses to come, all right?

5 So at this time it is 12:23, if you all
6 will just break for lunch and your lunch will be
7 here in less than ten minutes. And the plan right
8 now is shortly after 1:00, we'll give you an update
9 of when we might start up in the afternoon.

10 (Recess)

11 MS. WHIRLEY: So present is Sheila
12 Whirley, Kathi Alizadeh, Dorian Johnston is our
13 witness. We have 12 grand jurors and the court
14 reporter.

15 Dorian Johnson, I said your name, I
16 generally ask --

17 MS. ALIZADEH: Sheila, he needs to be
18 sworn in.

19 MS. WHIRLEY: Thank you.
20
21
22
23
24
25

1 DORIAN JOHNSON,
2 of lawful age, having been first duly sworn to
3 testify the truth, the whole truth, and
4 nothing but the truth in the case aforesaid,
5 deposes and says in reply to oral
6 interrogatories, propounded as follows, to-wit:

7 EXAMINATION

8 MS. WHIRLEY: Thank you.

9 BY MS. WHIRLEY:

10 Q So introduce yourself to the grand jurors?

11 A Good afternoon everybody. My name is
12 Dorian Johnson, as you all well know. I'm thankful
13 that you all could come, part of your busy schedule,
14 I don't know if you all have anything else to do,
15 I'm thankful you can come and hear my story.

16 Q Thank you. Now, Dorian, I stand in the
17 back of the room. I do that so that we can have a
18 conversation and you will talk loud enough for even
19 me to hear you. These mikes that you see, they are
20 just recording, they're not really making your voice
21 louder, so speak up for me, okay? We have a lot of
22 fans in here to try to keep the room a little bit
23 cooler.

24 A Okay, yes, ma'am.

25 Q Okay, good, that's better. Now, you came

1 here on your own free will; is that correct?

2 **A** Correct, yes.

3 **Q** You do have an attorney, your attorney is
4 Freeman Bosley?

5 **A** That's correct also.

6 **Q** And he's outside sitting, he cannot be a
7 part of the testimony, he cannot be in here while
8 you testify, but he's outside and you know that if
9 you ever want to take a break and consult with him,
10 or talk to him, you have a right to do that.

11 **A** Oh, okay.

12 **Q** Do you understand?

13 **A** Yes, ma'am.

14 **Q** Your mother came too, as a matter of fact?

15 **A** Oh, yes, she's here with me also.

16 **Q** And she's in the TV room right now. We
17 made her comfortable sitting in the TV room.

18 Now, we told you that you are not a
19 focus of any criminal charges, right?

20 **A** Yes.

21 **Q** That we just want to hear from you being
22 the person that was with Michael Brown that day, in
23 your own words, what happened, that's what we are
24 here for. We are not here to prosecute you. You
25 may tell us some things that have to do with

1 criminal behavior. I know there is an incident at
2 the store, at the Ferguson Market. We will play
3 that video and ask you to tell us what's going on
4 there.

5 There is some talk about smoking weed
6 and those kind of things, but that's not anything
7 that we are here to prosecute you for. I want to
8 make that clear on the record, okay?

9 **A** Yes, ma'am.

10 **Q** Because we want you to feel free and
11 comfortable to tell us only the truth here, that's
12 what we are trying to do. This is a fact finding
13 mission, okay?

14 **A** Yes, ma'am.

15 **Q** All right. So with that said, let's talk
16 about you knew Mike Brown, right? You call him Big
17 Mike?

18 **A** I'm going to ask if I can refer to him as
19 Big Mike, that's the way it sounds funny saying if
20 it is okay with the jury.

21 **Q** Absolutely, I will call him Big Mike too
22 if you don't mind.

23 **A** Thank you.

24 **Q** So you were good friends with Big Mike?

25 **A** We were good friends, but not childhood

1 friends.

2 **Q** So tell us how you met Big Mike?

3 **A** I met Big Mike, I recently had, well, not
4 recently, but I just moved in those apartments, I
5 had me and my girlfriend, my daughter, we were
6 staying in the apartment, two bedroom apartment, I
7 had a roommate. I just moved over there.

8 I only been staying in those
9 apartments for about eight months. I met Big Mike
10 around the fifth month that I was living there. I
11 met him through a friend that I know from the area,
12 neighborhood down the street where he lived.

13 **Q** Okay.

14 **A** So when he introduced Big Mike, they came
15 to my apartment one day, they want to play video
16 games, you know, relax and have conversation. And I
17 didn't have a problem with that.

18 So they came over, and when he came
19 to my door, he was real quiet when he came in, you
20 know, he was the biggest person in the room. So it
21 struck me as kind of strange, I don't really be
22 around people that I don't know. So I asked him a
23 question, I was like, hey, how you doing. I live
24 here, this is my house.

25 And he spoke back to me, he said I'm

1 all right, you know. And he just kind of kept it to
2 hisself. I felt that he was good, he was just a
3 person that didn't speak a lot. So he was all right
4 with me to be in my house.

5 Q Did you socialize with him on a regular
6 basis after that or how often would you say you was
7 in his presence?

8 A Like I said, it was my apartment, so you
9 know, I had bills and things like that. I was
10 working at the time of me first moving into the
11 apartments. I recently lost my job around the sixth
12 month, I met him in the fifth month, so now I'm on
13 the verge of finding new work and finding a way to
14 pay the bills. So I was not able to connect with
15 him on a daily basis or even every other day because
16 I'm trying to find work.

17 Q And what was your address at the time that
18 you met him?

19 A

20 Q And did he live in that same apartment
21 complex?

22 A No, he did not. He stayed in an apartment
23 complex behind, there is another one called
24 Northwinds and it was right behind Canfield. When I
25 met him, the time that I met him.

1 **Q** When you met him. And on August the 9th
2 at the time of the shooting, was he living in
3 Northwinds.

4 **A** No, at that time he had recently moved out
5 of his grandmother's house. He was staying with a
6 friend that I knew in Canfield across the parking
7 lot.

8 **Q** Okay. All right. So when you first met
9 him, he was living with his grandmother in
10 Northwinds?

11 **A** Correct, yes, ma'am.

12 **Q** And so after you met him, so you had known
13 him before the shooting probably a couple of months,
14 two to three months?

15 **A** Yes, maybe a month or two.

16 **Q** A month or two?

17 **A** A month or two.

18 **Q** But you really didn't hang out with him?

19 **A** No, ma'am, not on a daily basis.

20 **Q** You were a few years older?

21 **A** Yeah.

22 **Q** He was 18 you were 22?

23 **A** 22, yes, ma'am.

24 **Q** But you liked him?

25 **A** Right, he was a real comfortable guy. I

1 didn't feel a threat from him to where I could, you
2 know, I could let him around my family, my daughter
3 and my girlfriend and let him into my home. He was
4 that comfortable around me that I could, you know, I
5 could trust that he wouldn't bring harm to me and
6 anybody around me.

7 **Q** He had been to your home before?

8 **A** Yes, ma'am, once.

9 **Q** And he knew your girlfriend?

10 **A** I had introduced him to each other, I
11 introduce anybody that comes over to my girlfriend
12 and let them know we live here as a family, not as
13 she's visiting, you know, she is with me.

14 **Q** Okay. Had you ever been to his
15 grandmother's house?

16 **A** One time, but I never met anyone in his
17 family. At that time I think his grandmother was
18 real strict on who she let inside her home. So at
19 that time I didn't know them that well, so he was
20 telling me that you should come around more, my
21 granny, she will like you, you will be able to come
22 in.

23 And at that time I really wasn't, you
24 know, into, I didn't have the time for it, like I
25 said because like I said, I was still on the verge

1 of looking for new work.

2 Q I guess it is fair to say you guys really
3 didn't hang out much, he was somebody that you was
4 comfortable with?

5 A Correct, that's exactly.

6 Q Okay. So we're going to be talking a lot
7 about August the 9th, you realize that?

8 A Yes, ma'am.

9 Q This is the day of the shooting. Tell us
10 how your day began, August the 9th?

11 A August the 9th, it began like any other
12 day. I start my morning, I wake up, I take a
13 shower, and I ask my girl does she like breakfast,
14 what would she like for breakfast. I head out to go
15 get it. Upon getting breakfast I get me some
16 Cigarillos. I smoke marijuana in my mornings when I
17 start my day off, so I was going headed to the
18 store.

19 Q Now wait a minute, just stop here to now
20 and then to make sure we are all clear. So that is
21 kind of what generally happens for you in the
22 morning?

23 A In the morning, yes.

24 Q On August the 9th, you got up, was it
25 around seven something?

1 **A** Around 7:00 that morning.

2 **Q** 7:00. Did you smoke marijuana that
3 morning?

4 **A** I didn't actually get a chance to smoke, I
5 was going to get some Cigarillos because I didn't
6 have any, and there was a guy in the complex who
7 sold them.

8 **Q** Who sold the Cigarillos?

9 **A** Yes, he sold the Cigarillos, so I didn't
10 initially have to go to the stores.

11 **Q** I was going to ask you, was the market
12 open at seven or not?

13 **A** It is.

14 **Q** Did you get Cigarillos from another guy
15 that morning?

16 **A** No, I actually did not.

17 **Q** Tell us what happened after you got up?

18 **A** When I got up and got dressed up or
19 whatnot, I leave out my front door coming down my
20 balcony, I stay on the third floor. I come down my
21 balcony, around my building. I see Big Mike across
22 the parking lot, the apartment complex is set up in
23 the drive through areas, once you come out to it,
24 you can see right across, there is nothing blocking
25 it.

1 I saw him at 7:00 in the morning, he
2 was helping someone put some kids in the car, he was
3 putting some kids in the car for his auntie, I
4 believe it was.

5 Q Okay. And what, did you go over to where
6 he was or did he come to you?

7 A Yeah, just coincidentally the guy who I was
8 going to is like a path is passing up the building
9 where he is living in now. So I was going to pass
10 the building whether he was outside or not, just
11 coincidentally he was outside and he was alone at
12 the time.

13 He said the friend that I knew that
14 he was staying with, the one that I knew, he was
15 upstairs asleep.

16 Q What was that friend's name?

17 A His name was

18 Q Okay. So you didn't interact with
19 at that time?

20 A Not at all.

21 Q And so how did you and Mike, based on
22 information I've heard, you guys kind of hooked up
23 at that point, that morning?

24 A Yeah, when I saw him, like I said, we
25 wasn't real childhood friends, but he was cool

1 enough to me if I saw him I would stop and speak to
2 him.

3 So I stopped and spoke to him. He
4 asked me where I was headed to. I told him, I was
5 going to get some rillos and get something to eat
6 for me and my girl, I'm headed back to the house.
7 He was like okay, well, I'll match you. I guess he
8 had his own weed, so he said he would match me one.
9 Matching is, if you don't know, is just someone I
10 will roll the weed, he will roll the blunt, we both
11 exchange blunts.

12 Q In matching does that mean that one person
13 has the weed and one person has the rillos?

14 A One person has their weed and rillos, the
15 other person has his weed and rillos and they smoke
16 together, it is just smoking together basically.

17 Q So he said he would match you?

18 A Correct.

19 Q And then what happened?

20 A He stopped and talked to some construction
21 workers. There was two construction workers that
22 was doing work on the bottom floor at the time of
23 his building. They was doing work on my building
24 also, but they was doing work at his building and he
25 had stopped and said something to them. I really

1 didn't hear, but I notice that the construction
2 worker, he stopped working and he didn't have like a
3 frown on his face, so much as he was being, you
4 know, back and forth complying. They was having a
5 nice little conversation, but it wasn't that long
6 for about one or two minutes.

7 **Q** So you could not hear what they were
8 saying?

9 **A** No, I couldn't hear what they were saying.
10 I wasn't really focusing on their conversation
11 because, you know, it didn't have anything to do
12 with me. I had my mission that I was going to do,
13 so I guess, you know, at the time I didn't really
14 think the construction worker would say anything,
15 you know, it is the general neighborhood I live in.

16 **Q** Had you all smoked, matched and smoked
17 yet?

18 **A** Not yet, no.

19 **Q** Not yet?

20 **A** No.

21 **Q** You said there was a person in the complex
22 that actually sold the rillos?

23 **A** Yes.

24 **Q** Is that where you were headed?

25 **A** That's where I was headed, yes.

1 **Q** But that changed?

2 **A** Yes, it changed.

3 **Q** Tell us how?

4 **A** It changed. We started talking, our
5 conversation was about sports, he was into clothes
6 and fashion, our conversation was drifting from
7 topic to topic, but really based on sports, design,
8 girls or what our future plans was.

9 He was just telling me he was about
10 to go off to school or go to school. I was telling
11 him about my past experience in school. I was in
12 school before Lincoln University, when I graduated
13 high school, I went straight to school. So I was
14 telling him some challenges that he was going to
15 face, even though he wasn't at a university, he was
16 going to face some challenges. Basically our
17 conversation was about future, future emphasis.

18 **Q** Okay.

19 **A** It kind of took my mind off of going to
20 the person in the complex because he didn't know the
21 guy that I was going to. Big Mike, he didn't know
22 the guy I was going to get the rillos from. When I
23 told him I was going to get Cigarillos, he was like,
24 I need one too. Let's walk to the store.

25 By that time the conversation was so

1 deep that I forgot that there was a person there
2 that I was going to, so we ended up just walking to
3 the store.

4 Q Any idea, I know timing is difficult, but
5 if you started out at seven-ish in the morning, any
6 idea how long, how much time went by before you got
7 to the market?

8 A Before we got to the market, I mean, it
9 wasn't really an hour, it wasn't that long, but our
10 conversation because he had to go, I asked him could
11 he go check on my friend that I knew ask him
12 if he wanted to walk to the store with us. He said,
13 yeah, he went up to go check on him. When he came
14 back down, he told me that he was really sleepy, he
15 didn't feel like it, he wanted to sleep in that
16 morning.

17 So that's basically what 30 minutes,
18 I'm not real pressed on time, but it could have been
19 more than an hour before we started walking.

20 Q So from the time you left Canfield Green
21 and then you saw Mike, Big Mike talked to the
22 construction worker, you all talked some more and
23 then you walked to the market?

24 A Correct.

25 Q Okay. Did you go get anything to eat

1 first or you went to the market first?

2 **A** No, we went straight to the market.

3 **Q** Market, okay. So tell us about the
4 market, what happened at the market?

5 **A** At the market, now, prior to walking to
6 the store, never came up that he didn't have any
7 money. I had money, I had money in my pocket. It
8 never came up he didn't have any money or what we
9 were going to do in the store because we already
10 knew we was going to purchase Cigarillos, in my mind
11 that's what we were going to do.

12 It didn't strike me, I never thought
13 that he didn't have any money because like I said,
14 when I did see him the times that I see him, he
15 dressed nice and next generation clothing, so it is
16 kind of pricier, so I figure that he had money.

17 **Q** Okay.

18 **A** When we got to the store, while we're in
19 the store, Big Mike talks to the store clerk faced
20 eye-to-eye, face-to-face. I'm standing right behind
21 Big Mike.

22 **Q** Is it a female or male store clerk?

23 **A** It is a male store clerk that he's talking
24 to. I also see the female store clerk, she's at her
25 register and she is just looking at us.

1 **Q** But he is talking to the male store clerk?

2 **A** Yes, he is talking to the male store
3 clerk.

4 **Q** Go ahead.

5 **A** As he is talking to the male store clerk,
6 the male store clerk ask him what does he want. Big
7 Mike says in a very not, you know, threatening voice
8 he just said, and while he was saying what he
9 wanted, he said I want these box of Cigarillos.
10 While he was saying it, he was leaning forward to
11 grab them.

12 **Q** Okay.

13 **A** He leaned forward, but it wasn't a snatch
14 and grab motion like he did it really quickly. He
15 did it like, like he did it before I should say.
16 Once he reached over the counter the first time, the
17 store clerk, he was standing right in front of him,
18 he never did anything, he didn't say anything, the
19 first time, he didn't smack his hand down or
20 anything like that.

21 That was the time that he pulled back
22 and he handed the box, it was a box of mini
23 Cigarillos, 69 cent Cigarillos. It was just a box
24 of them. He turned around and handed those to me.

25 **Q** Okay.

1 **A** Now, at this time I still didn't think
2 that he was not going to pay for them because I have
3 saw people purchase a lot of Cigarillos at one time,
4 a large amount. It is not that much 30 or \$40, you
5 can buy you a box.

6 It wasn't until he went back the
7 second time and grabbed a handful of the single
8 Cigarillos. Now first he grabbed the box and the
9 store clerk did nothing, this time he was going back
10 to grab the single Cigarillos. As he was coming
11 back, the store clerk did a late response and he
12 swung at his hand, but he missed because he was so
13 late, he smacked the counter.

14 **Q** The store clerk did?

15 **A** The store clerk did.

16 **Q** This is behind the counter that this is
17 occurring, the store clerk is behind the counter?

18 **A** The store clerk is behind the counter, Big
19 Mike never went behind the counter.

20 **Q** I see.

21 **A** He was standing in front of the register,
22 I was standing right behind him, there was another
23 male, he was inside the store, he had just purchased
24 something. We were, the time where he snatched back
25 and the store clerk missed, he kind of hit the top

1 of some Cigarillos, which made some of them fall.
2 And Big Mike turned to pick them up, and as he
3 picked those up, he faced towards the door, that's
4 when I knew okay, something is not right here.

5 I didn't see, from where I was
6 standing, I didn't see money get transferred to the
7 store clerk and that's why I sat the box of
8 Cigarillos back on the counter. I've been to the
9 store a lot of times.

10 Q Did the store clerk say anything or did
11 Big Mike say anything to the store clerk when the
12 store clerk swatted at his hand?

13 A At that time, no.

14 Q Nobody said anything?

15 A No one said, words were not exchanged at
16 the time that I can hear.

17 Q Okay.

18 A Because I'm standing behind him, but I'm
19 trying to gather up, am I being pranked or is this
20 something. Because I didn't hang out with Big Mike
21 on a day-to-day basis, I didn't know how well his
22 relationship was to the store clerk, so I didn't
23 know was, you know, did he do this all the time or
24 anything like that, I didn't know. I was trying to
25 gather that in my head at the time.

1 Now, while all of this is going on,
2 Big Mike is making his way towards the door. The
3 store clerk had came around, now he came around his
4 register and he's making his way to the door. He's
5 not like running or anything like that, more a pace
6 walking and when he got to the front door, he didn't
7 get there yet because a man, like I said, there was
8 another male customer in there at the time. He had
9 just purchased something. As he's leaving out, he's
10 kind of holding the door open like he's watching,
11 but he's trying to get away at the same time, like
12 he didn't have nothing to do with it, but he is
13 watching. I see him holding the door open.

14 As he let the door close, Big Mike
15 was almost at the door, so he was going to put his
16 hand on the door to, you know, to push the door
17 open.

18 By that time the store clerk had got
19 around and he was almost in front of the door, he
20 didn't get there right directly in front of the door
21 so much as put his hand on the door.

22 Big Mike, Big Mike thrushed the door
23 open to where the store clerk, it slipped out of his
24 hand, so the door flew open. And at that time I
25 was, I knew, I saw what was going on, but I didn't

1 know it was going to happen that way. So I was
2 trying to pull myself as far away from the initial
3 contact with the store clerk as possible because I
4 didn't know what was going on.

5 So at that time when he slung the
6 door open, I was making my way, I was trying to get
7 around Big Mike and the store clerk to exit the
8 store because I didn't want any part of it, I knew
9 there was cameras in the store.

10 When Big Mike tried to go out and
11 thrush the door open and came out of the store
12 clerk's hand. The store clerk then tried to grab
13 Big Mike and Big Mike kind of reverses the grab and
14 grab, like it was a very fast motion, but the store
15 clerk never came off of neither one of his feet. He
16 never fell on the floor or got punched or anything
17 like that, it was a very fast motion, just a shove.

18 Q So when this grabbing is occurring, is Big
19 Mike saying anything?

20 A At the time all he said was, get back.

21 Q Big Mike told him to get back?

22 A Big Mike told the store clerk to get back.

23 Q What about the store clerk, is he saying
24 anything?

25 A He didn't say anything else, but the last

1 time I heard the store clerk saying something, we
2 were walking out of the store and I heard the store
3 clerk say, I'm going to call the police.

4 Q And did Big Mike say anything in response
5 to that?

6 A Just kept walking.

7 Q Okay. What did you guys do then, did you
8 go and get something to eat?

9 A At that time eating and all of those other
10 things that I had on my mind were left field. I had
11 just witnessed something occur that I feel like if
12 not, you know, I was there. So I walked in with
13 him, I felt like I was an accomplice.

14 I was trying to figure it out in my
15 head at the time we were leaving out of the store
16 like, all right, I didn't know this was going to
17 happen. I didn't touch anything, but I did see what
18 just happened and I know there was a crime.

19 Q Did you all talk about it, did you and Big
20 Mike talk about it?

21 A Yes.

22 Q What did you all say?

23 A I asked him, I looked at him, actually,
24 looked at him for a while and stared at him because
25 the times when I did meet him before that day, he

1 didn't strike me as a person who would do anything
2 like that. He never talked about any crimes or
3 anything like that. And prior to that day, it
4 shocked me a lot, it shocked me a lot. So I was
5 asking him, I was like, you know hey, I don't do
6 stuff like that. What's going on.

7 And so much is giving me an answer as
8 to why he did it was he was basically laughing it
9 off, be cool, be calm, stuff like that laughing it
10 off but in my head I'm like, I can't be calm, I
11 can't be cool because I know what just happened and
12 we were on camera.

13 **Q** Did you talk to him about being on camera?

14 **A** I never said that, but I knew we were on
15 camera.

16 **Q** Did he appear as if he had, was
17 intoxicated or impaired in any way at that time?

18 **A** No, like I said, the conversation leading
19 up to the store was a general conversation I would
20 have with anybody any other day. There was nothing
21 strange about the conversation. He didn't say any
22 words that made me feel like you need to sit down or
23 anything like that. Up until that point I thought
24 he was mindful of everything that was going on at
25 the time.

1 **Q** So when you first encountered him or first
2 made contact with him that morning, you said you all
3 had never smoked together between the time you
4 caught up with him to the time you went to the
5 store?

6 **A** Yes.

7 **Q** Did he seem like he had some marijuana or
8 something before you saw him that morning?
9 Basically what you know of him?

10 **A** Yeah, based on what I saw of him that
11 morning before we walked to the store, he didn't
12 look like he smoked anything that morning or
13 anything like that at that time.

14 **Q** Okay. So you guys are walking towards
15 West Florissant?

16 **A** We are waking down West Florissant.

17 **Q** On West Florissant?

18 **A** Now we are walking down West Florissant,
19 from Ferguson Market to Canfield is actually like,
20 walking is like a four minute, five minute walk,
21 especially when you are having a conversation
22 talking, could be longer, could be shorter, but in
23 that timeframe of walking to Canfield, I saw a
24 police cruiser coming down, coming down West
25 Florissant. It was a Ferguson cruiser, it was a

1 truck.

2 At that time in my head I was like,
3 wow, he called the police. They came really
4 quickly, I knew that they would probably come
5 quickly. I was just, wow, we're really going to get
6 locked up, this is going to happen.

7 But when the police officer, you
8 know, they passed us, the first car never stopped at
9 the Ferguson Market. The first car stopped at
10 McDonald's right next to the Ferguson Market and
11 they kind of just sit on the lot. And that kind of
12 struck me as odd. I was like, wow, maybe he didn't
13 call the police at that time. Maybe he didn't call
14 the police or they didn't get the dispatch call or
15 anything like that because they drove past us and at
16 no point in time, the shorts that I had on, I had on
17 pajama shorts, I didn't have pockets on them.

18 I was not able to grab Cigarillos out
19 of Big Mike's hand to put in my pocket, he had
20 pockets. He did not put the Cigarillos in his
21 pocket. The Cigarillos now he has them in both
22 hands, now he is spreading them evenly apart and we
23 are walking down plain sight West Florissant to
24 Canfield.

25 Q You are not like running or hiding?

1 **A** Not running or not hiding, we are in plain
2 sight walking down the sidewalk while we are on West
3 Florissant and I see the police cruiser.

4 **Q** You walk to West Florissant and then what
5 is the street that takes you into Canfield
6 Apartments?

7 **A** Canfield Drive.

8 **Q** Canfield Drive. So you walk up Canfield
9 Drive?

10 **A** Well, once we get to Canfield, I see
11 another police cruiser pass us by. Now this one, I
12 believe, in my mind I believe he was going to the
13 store to check the car if the store clerk made the
14 call. At that time I wasn't aware, but I heard him
15 say as I was walking out the store that he was going
16 to call the police.

17 And seeing two police squad cars
18 before we got to Canfield, it made me believe that
19 he did call the police and if so, why didn't they
20 pull up on us at that time.

21 But we got to Canfield and now we're
22 walking down Canfield, like I said, we wasn't
23 running, we wasn't ducking behind bushes or anything
24 like that.

25 **Q** There is not a lot of cars out on Canfield

1 out at this time, a lot of traffic?

2 **A** At that time there was not a lot of
3 traffic, maybe two or three cars passed, which is,
4 you know, not that much traffic up and down Canfield
5 to what is backed up two or three cars will pass you
6 going both ways.

7 **Q** This is a Saturday?

8 **A** Yes.

9 **Q** And according to the information, the
10 records, it is somewhere around 11-ish or so, right
11 around noon time that you guys were at that store?

12 **A** According to the information, like I said.

13 **Q** Would that sound reasonable to you if you
14 heard that?

15 **A** It sounds about right, about 11:30 or
16 12-ish maybe.

17 **Q** Okay, okay. So now you are walking, I
18 guess, east on Canfield?

19 **A** Canfield.

20 **Q** Drive?

21 **A** Yes, ma'am.

22 **Q** All right. And tell us what happens?

23 **A** We are going down Canfield on the
24 sidewalk. As we approach, we get close to the
25 leasing center, the leasing office is right at the

1 beginning of Canfield.

2 The conversation we was having at
3 this point, we was talking the same, the
4 conversation never changed about what we were
5 talking about future goals and stuff like that, what
6 we were planning on doing.

7 And basically he was asking me
8 questions on how did I transform to coming from
9 where I was and getting on track and now I have my
10 own apartment and stuff like that, I was just
11 telling him a few things that I went through in my
12 life that made me change and stuff like that.

13 I knew he wasn't someone like me, I
14 knew he didn't grow up where I grew up from, where
15 there was a bunch of violent gangs and violent stuff
16 occurring all the time. I knew that much about
17 because I read from his demeanor he didn't come up
18 that way. I'm telling him about my life story and
19 how I come up from a bunch of tragedies. I went to
20 school, I was still able to do things that I need to
21 do in life.

22 At that time he asked, at that time
23 there was no cars, no traffic, no one was coming up
24 or down Canfield Drive. We got in the middle of the
25 street, got into the middle of the street. We're

1 walking in the middle, I'm in front of Big Mike and
2 he's right behind me. He's real big so I know
3 people can see him right above me.

4 So we are walking on the street. At
5 that time we are walking like 30 seconds, I'm not
6 really on the time preferences, about 30 seconds and
7 traffic started going, but no one blew their horns,
8 no one made irregular turns to get around us like we
9 were in the way and no one yelled out their windows,
10 you guys are in the way, get out of the street,
11 anything like that. Two or three cars had passed
12 us.

13 Q Let me ask you a question. Where were you
14 guys headed at this point?

15 A At this point we was headed back to my
16 house or his house because where we were staying,
17 like I said, we were staying directly apart from
18 each other, but on opposite side of the streets. I
19 lived on this side, my building was on this side and
20 the building he was staying in at that time was on
21 the other side of the street.

22 Q So you hadn't decided whose place you were
23 going to go to yet?

24 A We hadn't made it to that point yet.

25 Q Okay. And your plan was to go and smoke?

1 **A** Yeah, smoke and something like that?

2 **Q** So you hadn't decided whose house yet.

3 **A** No.

4 **Q** Okay. So go ahead and finish.

5 **A** As we're walking down the street, now I
6 see the police cruiser approaching us, coming up
7 west going back towards West Florissant. The police
8 cruiser is approaching us, right before the police
9 cruiser approached us, two cars had passed us
10 already. Nobody said anything like we are in the
11 street or nothing like that.

12 When he got right directly on the
13 side of us, the police officer Darren Wilson, when
14 he got on the side of us he rolled his window down
15 and he said, get on the sidewalk, but it wasn't in a
16 polite manner, it was very rudely.

17 **Q** You can say whatever he said.

18 **A** He said get the F on the sidewalk.

19 **Q** That's the get the --

20 **A** Get the fuck on the sidewalk.

21 **Q** Had you ever have had any interaction with
22 him before?

23 **A** No, ma'am, I had never seen him before.

24 **Q** You had never seen him before. Do you
25 know if Big Mike had ever seen him before?

1 **A** We didn't get a chance to talk about it.
2 Like I said, I just moved in that area, I really
3 wasn't caught up too much in the police or anything
4 like that, I go to work and come home.

5 **Q** Nobody said oh, I know him?

6 **A** Yeah, nobody said anything like that, it
7 was just me and Big Mike. He didn't say anything at
8 the time when the police pulled up on the side of
9 us. The initial pull up Big Mike said, he didn't
10 say anything. I was the one that was talking when
11 the police officer said get the F on the sidewalk.
12 I told the police officer we was just a minute away
13 from our destination, I live in Canfield and we'll
14 be off the street closely.

15 Now, at that time I was looking at
16 the officer's face, but not really in his eyes. I
17 really didn't look back up at Big Mike, he didn't
18 say anything. I was the one talking to the officer
19 and I wasn't loud with the officer or anything like
20 that. I was just telling him where we were headed
21 to.

22 **Q** How close were you and Big Mike at this
23 time?

24 **A** At this time me and Big Mike, he's like
25 right on my back.

1 **Q** He's behind you, single file?

2 **A** Yes, he's right behind me, single file.

3 **Q** All right, go ahead.

4 **A** As I'm telling the police officer we were
5 just going to get out of the street, we were close
6 to our destination, I stayed in Canfield. I believe
7 that he was pulling off. So we continued to walk.
8 In my mind I thought he was just, you know, okay,
9 they're just kids, they will get out of the street
10 shortly.

11 **Q** So you stayed in the street?

12 **A** Yes, we stayed in the street.

13 **Q** Okay.

14 **A** We continued to walk and have our
15 conversation, but almost a split second we heard the
16 tires screech, and the officer, he pulled back in
17 the truck very fast to the point at an angle if we
18 didn't hear his tires screech, the back of his
19 cruiser would have struck one of us, not both of us,
20 it would have struck both of us or one of us because
21 of the way he angled in reverse.

22 He never drove and turned around, he
23 reversed real fast. Why he reversed so fast on us
24 and the angle that he did in the manner, now we are
25 almost not inches away from his front door, like we

1 was right in his face now. He never got out of the
2 car, he just pulled right back on the side of us,
3 but it is almost at an angle.

4 Q Okay.

5 A When he pulled up we are face-to-face. Me
6 and Big Mike are shoulder to shoulder now and the
7 officer is facing us.

8 Q So you both are facing this driver's side
9 door?

10 A Driver's side door.

11 Q Where are you in proximity to Big Mike?

12 A I'm on Big Mike's right-hand side. I'm
13 standing right on the side.

14 Q So you are at the front or the rear of the
15 car?

16 A I'm still in the beginning of the car, I
17 never really walked and got far to the back. I was
18 like in the middle of the front door and the rear
19 door, so I'm like right here in the middle. And it
20 is more Big Mike because he's larger than me, it is
21 more him in the window, but mostly my face, I'm
22 short and like the top part of me.

23 Q Okay. And the car is facing west?

24 A Yes.

25 Q Towards West Florissant?

1 **A** Yes, but it is not straight facing, I'm
2 standing counter facing.

3 **Q** Okay, all right. All right, go ahead, and
4 so you all are at the door and then what?

5 **A** The officer pulled back. What did you
6 say? Very loud, angry.

7 **Q** Who did he appear to be talking to?

8 **A** At the time I believe he was talking to
9 both of us. Like I said, Big Mike never said
10 anything when the officer pulled up on us. So at
11 the time I believe he was talking to both of us when
12 he said, what did you say?

13 And Big Mike, in an instant, Big Mike
14 was finished saying something, his door was thrust
15 open, very complex, he thrust his door open real
16 hard. We was so close to the door that it hit
17 mostly Big Mike, but it hit me on my left side and
18 it closed back on him, like real fast. Just the
19 same speed, boom, boom, that fast.

20 And at that time he never attempted
21 to open the door again like to try to get back out,
22 but his arm came out the window and that's the first
23 initial contact that they had. The officer grabbed,
24 he grabbed ahold of Big Mike's shirt around the neck
25 area.

1 **Q** So did he grab his neck or his shirt
2 around the neck area?

3 **A** It was more of both because he had a real
4 good grip on him.

5 **Q** Was there any warning, did he just stuck
6 his hand out and grab, does he say something, did he
7 say anything?

8 **A** No, ma'am, at this time when the door had
9 closed back on him, he didn't say anything. His arm
10 almost in an instant came out the window, his left
11 arm, I remember it was his left arm, came out the
12 window and touched Big Mike around his neck area and
13 his throat. I watched his hands, you know, they
14 really tightened up, so yeah, he had a good grip on
15 it, that what's I saw first.

16 **Q** Were you still right behind Big Mike when
17 this occurred?

18 **A** At this time I'm not behind him any more,
19 we're side to side so I can see everything that is
20 going on. I'm still in the windowed, I'm still
21 right here standing in the same spot, I never moved.

22 And at that time Big Mike, he still
23 has the Cigarillos in both of his hands, divided
24 evenly, he never put them down in his pocket or
25 anything like that.

1 Now, from the beginning of the grab,
2 it is a tug of war. Big Mike places his hands
3 openly, one hand on top of the cruiser and the other
4 hand more right up under the window, the side
5 mirror. He's trying to pull off the officer's grip.

6 **Q** How is he doing that with the Cigarillos
7 in his hand?

8 **A** He placed the Cigarillos on the car and
9 his hands are on the car. He never dropped a single
10 pack. He still has them in his hand not dropping
11 them, but he's pulling away, but he still grab on.
12 So he never could really get a good grip on the car,
13 but he's really trying to pull away.

14 **Q** Okay.

15 **A** At this time the officer, I'm not hearing
16 what the officer is saying, I'm not hearing what Big
17 Mike is saying, so now I'm not in shock, but that's
18 the beginning of my shock level. That's where I'm
19 like, this doesn't happen every day, something is
20 out of order here.

21 They are talking to each other, they
22 are yelling and cussing. And neither one of them
23 can calm down, they both have angry faces on while
24 they are talking.

25 They both were very upset and they

1 couldn't calm do. There wasn't any wrestling or
2 anything like that, punches were thrown. It was
3 more a tug of war and it was very intense, very
4 intense.

5 **Q** Okay. And so please tell us what
6 happened?

7 **A** While the officer is grabbing ahold of Big
8 Mike, he kind loses grip around his neck, that's how
9 I knew he had a good grip. He never fully let Big
10 Mike go, now he has a good grasp on his shirt. So
11 now Big Mike's able to turn different angles while
12 he is trying to pull away.

13 And at a point he turned, now we are
14 face-to-face, and he put his hands like, grab these,
15 Bro. And in shock, I'm so not unconsciously, my
16 hands open to where he could put the rillos in my
17 hand, but I'm still standing in the same spot. I
18 never said anything any more, I'm just standing in
19 shock. I'm this close, I'm standing right here.

20 I almost feel like someone needs to
21 come out here and say something to either one of
22 them to calm somebody down.

23 At the time I couldn't open my mouth,
24 I couldn't speak. I wanted to say could someone
25 calm down. I could not speak at that time and the

1 Cigarillos were placed in my hand.

2 At that time he turned back around,
3 facing the officer now, and now he can get a good
4 grip on the car.

5 So now as he is pulling away, it is
6 with more power, with more force. The officer is
7 trying to pull him inside the vehicle through the
8 window, like he's pulling him, but he's pulling
9 away. The officer never attempted to open his door
10 again after the first initially opening his door and
11 close back on him.

12 Now he's trying to pull him, he's
13 pulling away.

14 Q Was he pulling him with both his hands?

15 A No.

16 Q The officer is only using the left hand?

17 A The officer is only using his left arm and
18 trying to pull Big Mike in and I could tell Big Mike
19 was, he was getting the best of the officer because
20 here was in a better position to pull away. He was
21 outstanding and he was pulling off of something.

22 The officer was using one hand,
23 although he had a nice size, I really couldn't get
24 the full body, but from his arm and when I seen his
25 arm, he had nice size so where he was kind of

1 strong, he looked strong enough to pull, but not
2 strong enough to fully pull him all the way in the
3 car.

4 **Q** Was the car moving at all?

5 **A** No, at this time it was parked, it was
6 still there in the same spot he pulled up in, same
7 angle he was in.

8 And by this time there was cars
9 behind and they could not get through because of how
10 the officer had his vehicle or the cars couldn't get
11 through the other way either east or west. So now
12 we're just like three cars parked more towards the
13 same direction the officer was going.

14 **Q** That would be west on Canfield Drive?

15 **A** On Canfield Drive. Now, in the midst of
16 the tug of war, I never see Big Mike actually have
17 his body inside the vehicle, like the officer never
18 fully got him inside so much as he has torso or top
19 area coming toward the window.

20 **Q** Did you ever see Big Mike's hands inside
21 the car?

22 **A** No, ma'am, I never, I'm still standing
23 there, more shocked than ever because I see it is
24 escalating, I can see and hear the cuss words, I can
25 see the frowns on their faces getting more intense.

1 MS. WHIRLEY: Is there a question?

2 I do have a question.

3 MS. WHIRLEY: It is okay with me.

4 : Do you want to wait?

5 MS. WHIRLEY: You can go ahead and ask a
6 question.

7 You said you were on his
8 right?

9 **A** Yes, ma'am.

10 : You were both very close
11 to the door?

12 **A** Correct.

13 : You said he had his hands
14 on the police car?

15 **A** Correct.

16 And he handed you the
17 Cigarillos in your hand?

18 **A** Yes, ma'am, correct.

19 : Did he and you both have
20 in one hand?

21 **A** Correct, yes, no. He handed both of them
22 in my hands he had, my hands were free, so he handed
23 them to me at the same time.

24 : Reason I ask this, I'm
25 not judging, the reason I ask you is because that in

1 the film we saw, he only had the Cigarillos in one
2 hand.

3 **A** Yes, when he initially grabbed out of the
4 store, he had a lot of them in one hand when he
5 grabbed them in the store. Once he got outside the
6 store, that's when he divided them kind of and had
7 both of his hands.

8 He's 6'3" or 6'4?

9 **A** Yes, ma'am.

10 You're not six feet?

11 **A** No, not at all.

12 : So how do you know he is
13 so much taller than the car than you, you say you
14 saw both of his hands, how did you see his left
15 hand?

16 **A** The officer or Big Mike's?

17 Big Mike.

18 **A** Big Mike.

19 : He's so big, he's up
20 against the car.

21 **A** Yeah.

22 How could you be sure?

23 **A** He was never like, I see what you're
24 saying, he was never that close to the car, like I
25 said, because of the position that he had on the

1 officer standing outside. He was more overpowering
2 the officer and the officer couldn't get him to
3 close to the car.

4 So as he is pulling away, I can see
5 his hand on front of the car, not both of his hands
6 were on top. One hand was on top, the other hand
7 was kind of by the side mirror on the officer's
8 cruiser. So I can see his hands as he's pulling
9 away, but then the officer, you know, there's a tug
10 of war. He pulled him and then he pulled away.

11 That begs another
12 question. You said he was getting the best of the
13 officer. And when Sheila asked you if the car was
14 moving, not was it mobile, but was moving, like was
15 it so much force that it was rocking or something?

16 **A** I mean, the truck, yes, it was moving.

17 Because you didn't say
18 you could tell that Big Mike was getting the best of
19 the officer?

20 **A** Yes.

21 : If he is 300 pounds and
22 6'3", there has to be movement of the car?

23 **A** Yeah, because of the distance, or
24 whatever, and he was standing, the car was moving,
25 thank you for clearing that up.

1 MS. WHIRLEY: I'm glad she cleared that
2 up.

3 A It wasn't moving, but it was shaking and
4 moving, thank you.

5 : . You said
6 initially that generally your process is to get up
7 in the morning, check with your girlfriend and your
8 baby to see if they want anything to eat on that
9 date, your intent was to go get the Cigarillos from
10 somebody in the apartment complex?

11 A Yes, ma'am, correct.

12 : Okay. And then was your
13 intent to get something, you said something to eat
14 for your girlfriend; is that correct as well?

15 A Correct, yes, ma'am.

16 : Naturally you didn't get
17 to the friend's apartment for the Cigarillos, you
18 were kind of diverted you said to the Ferguson
19 Market; is that correct?

20 A Yes, ma'am, that's correct.

21 : At which time that's where
22 the alleged theft had occurred?

23 A Yes, ma'am, correct.

24 Of the Cigarillos. You
25 came out, you're coming back to the apartment

1 complex; is that correct?

2 **A** Correct, yes, ma'am.

3 Where did you, if I
4 understand correctly, there's a McDonald's in this
5 area, is that also correct.

6 **A** Yes, ma'am, right next door to the store.

7 At any point did you stop
8 at the McDonald's to get breakfast for your
9 girlfriend or your baby at that time.

10 **A** No, ma'am. At that time I was more
11 concerned with getting home, getting away from that
12 whole incident because of what had just occurred in
13 the store, now I'm more wanting to just get back to
14 my daughter and my girl because I know the
15 seriousness of what just occurred.

16 Uh-huh, okay. And you
17 said that you had lived there approximately about
18 eight months you said, right?

19 **A** Eight months.

20 Although you only met
21 Mike, I think you said about three months before
22 this incident occurred; is that correct?

23 **A** One or two months.

24 : One or two months.

25 **A** Or five.

1 : You knew other people that
2 lived in the complex; is that correct?

3 **A** As neighbors, I only knew one other person
4 that visited the complex as a childhood friend. I
5 knew him as a childhood friend that one person,
6 everybody else that I met, I met them as neighbors,
7 I never stayed in Ferguson before.

8 : Okay. Now while you were
9 there, I'm of the impression, I don't want to
10 speculate, you had no other contact, had no other
11 contact directly with Ferguson Police Department for
12 any reason, any tickets or any altercations or
13 anything of that nature?

14 **A** Yes, ma'am, I never had any.

15 While you are in the
16 apartment complex, I mean, I'm quite sure sometimes
17 you hear through the grapevine well, yeah, this guy
18 got stopped or whatever or the police is like that,
19 did you hear any conversations to that effect from
20 any residence in the apartment complex?

21 **A** Yes, ma'am, all the time. Every day I
22 hear different stories about people's different
23 encounters with Ferguson Police. Be very mindful of
24 the police around. Whenever you're coming outside
25 the door, people are always giving you a warning,

1 they are up the street now, they are down the street
2 or something in that manner basically keeping you
3 aware of Ferguson Police.

4 : Okay, all right. With you
5 being the older person, I think I heard in one of
6 the DVDs that we saw or either in the transcript of
7 that, you were basically kind of being a mentor to
8 Mike; is that correct?

9 **A** Yes, ma'am, correct.
10 You saw that as an
11 unofficial mentor?

12 **A** That's correct. It wasn't just like that
13 with Big Mike, it was other kids his age that would
14 see me and they see how I look and they see me
15 walking up and down the street.

16 I have a dog, so me and my dog, I
17 walk my dog a lot. I just live a peaceful lifestyle
18 and they see that and they see me with my tattoos
19 and my dreadlocks asking questions every day. They
20 see me how did you, what happened, how did you get
21 your job or anything like that.

22 So it is on a, it wasn't random that
23 a person his age would come to me asking me how and
24 the ways to get to work, to be the life to where you
25 be comfortable a little. It was just me and him

1 didn't talk on a daily basis, I didn't see him on a
2 daily basis.

3 : Okay. And with having
4 that kind of relationship, when this incident
5 occurred at Ferguson Market, did you have any
6 opportunity at any time before this happened to kind
7 of inform Mike what you had heard about the
8 condition or the relationship between the community,
9 the African-American community or community in that
10 area and the Ferguson Police Department?

11 **A** No, ma'am, to my knowledge, Big Mike was
12 living in Ferguson a lot longer than I was. Like I
13 said, his grandmother stayed in Northwinds, they
14 still in Ferguson. He knew a lot of people that
15 stayed in Ferguson.

16 He was very popular, you know, with
17 the kids, or people in the area. I was just the new
18 resident, first time owner, year lease holder, I
19 really didn't know people around or that much about
20 Ferguson to give him knowledge about Ferguson and he
21 stayed there a lot longer.

22 : Okay. So, I mean, did he
23 have the opportunity to let you know about the
24 Ferguson Police Department if he's been there
25 longer?

1 **A** Yes, but not, he never directly told me
2 like yeah, man, Ferguson, they really be on us like
3 that, he never really said anything like that
4 towards me or never really brought up incidents
5 where he had encountered with the Ferguson Police.

6 My other neighbors that stayed around
7 who lived or who owned their apartment or drive up
8 and down the street every day, those are the ones
9 getting stopped and they had their complaints, but
10 he really didn't talk about Ferguson Police.

11 When the officer, Officer
12 Wilson, Darren Wilson, when he first accosted you
13 and Mike Brown in the street as you are walking back
14 to your, I guess, wherever you intended on going,
15 hadn't been decided yet, going to go to his place or
16 go to your place or not, but when he, I believe you
17 guys are walking east then; is that correct, on
18 Canfield and he is traveling west on Canfield, the
19 officer in his vehicle, is that correct?

20 **A** If west is going towards West Florissant,
21 east towards Northwinds, yes, that's correct. I'm
22 sorry, I don't know.

23 Okay. When he stops you
24 and he makes this comment to you, okay, and then you
25 say that you tell him that you are about a minute

1 from where you are going, you need to get to, okay,
2 can you write that down for me in relative about
3 approximately how many feet, did you have a block to
4 go, did you have like 20 feet to go, 10 feet to go
5 or what?

6 **A** Yeah, like I said, we was just at the
7 leasing office where my building is and his building
8 is away from the leasing office is not a block away,
9 probably 20, 30 feet away.

10 : So about 20 or 30 feet?

11 MS. WHIRLEY: We can look at the map, did
12 you have another question?

13 Yeah, I had another
14 question. Was there any particular reason when the
15 police officer gives you an order that you and Mike
16 did not obey that order to get out of the street at
17 that time and onto the sidewalk?

18 **A** The reason, I mean, at the time in my head
19 and the response that I give back to the officer, I
20 didn't feel like I was rude. I knew by law that we
21 really wasn't committing a crime at the time because
22 there was no traffic flow and no one was, you know,
23 we wasn't holding up traffic or anything like that
24 because cars were still able to pass us.

25 It was more so, it was more so like a

1 father figure talking to a son and that's where, you
2 know, we are just walking down the street. But no
3 one said anything like that, but this is what I'm
4 thinking in my mind, we are just walking down the
5 street, we are not causing anybody any harm. He
6 didn't initially pull up on us and stop us because
7 of the store incident, which I thought when I saw
8 him I thought he's coming to get us for the store,
9 but once he told us just get on the sidewalk, in my
10 mind I'm like well, I guess he didn't call the
11 police.

12 So at that time if the officer didn't
13 know and I feel that he didn't know about the store
14 because Big Mike still did have the Cigarillos in
15 his hands in plain sight when the officer pulled up
16 on us. He was just saying get on the sidewalk.
17 Once I responded to him telling him we was a minute
18 away from the destination, I felt like that we were
19 not committing a crime, we were having our
20 conversation, we was just walking.

21 At that time the officer really
22 didn't look like, you know, he was mad or he was
23 telling us that we was committing a crime, he was
24 just saying get on the sidewalk. We was basically
25 okay, we will be out of the street in a minute.

15 : Earlier you spoke about
16 the construction worker, you did not speak to the
17 construction worker, you did not talk to them?

22 : Okay.

24 : Could you hear them
25 talking?

1 **A** Not so much as, hey, when the construction
2 worker spoke back, I kind of bowed out of their
3 conversation. I didn't hear what they were saying
4 to one another.

5 : You didn't hear him
6 talking about getting high and something?

7 **A** At first I heard because that's what I was
8 initially going to do. So I heard him bring up
9 smoking or anything like that, but I couldn't get
10 detailed on what exactly was said between him and
11 the construction worker. I couldn't really factor
12 in exactly what they were both saying.

13 : Where was the
14 construction worker on your way back, they were
15 gone?

16 **A** We did not get there.

17 : You didn't get that far?

18 **A** We didn't get that far.

19 : You mentioned, you said
20 it was almost, you didn't know if you were being
21 punked because it was almost like he had done it
22 before. Do you think it is possible he could have
23 done it before, do you think it is possible? I
24 mean, he is a big guy, he's a big guy.

25 **A** Yeah, he's a big guy. I really can't say

1 if it is possible that he would do it at another
2 store or anything like that. All I can say is how I
3 felt at that time when I did see that because I
4 never seen it before like that or the store clerk
5 react that way or that slow.

6 Yes, it was like he knew the people
7 like he had been in that store before, like he knew
8 them, that store before and he knew things like that
9 in that store.

10 It was not like he had
11 stolen before or he was just familiar?

12 **A** Familiar with the store to where he could
13 just pick up things and just pay for however he
14 pleases.

15 I'm going to kind of ask
16 you the same thing that he asked you. You said you
17 didn't feel like you were doing anything wrong, but
18 in the manner that the police spoke to you --

19 MS. WHIRLEY: Speak up a little bit for
20 us.

21 : In the manner that he
22 said get the fuck in, on the sidewalk.

23 **A** Yes, ma'am.

24 : Why were you not even on
25 the sidewalk? It was not safe, is there a reason

1 why you didn't take advantage of the sidewalk, why
2 you didn't do that?

3 **A** It wasn't a reason that I wasn't on the
4 sidewalk, it was more just a decision that we made.
5 When we get down there or anything like that, but
6 the initial, the reason we didn't follow the
7 complaint, like I said, Big Mike at this time never
8 said anything.

9 : Okay.

10 **A** It was more like a chastisement than you
11 are breaking law or you are committing a crime or
12 you might bring harm to yourself.

13 If those were represented in the way
14 he came off to us when he first said it, then maybe,
15 okay, you know what, we'll get on the sidewalk.
16 Because of the way he said it and the manner that he
17 said it, it was more like we're not your kids, we're
18 not doing anything legally wrong, just walking down
19 the street even though it could be considered a
20 crime jaywalking, but we are just walking in the
21 street, we are not committing any crime or bringing
22 harm to anyone.

23 : My last question right
24 now. When the police, you said that the police
25 passed you?

1 **A** Yes, after that.

2 : And you're walking back?

3 **A** You talking about after the store?

4 : Yes.

5 **A** Okay.

6 : Are police going both
7 ways?

8 **A** No, the police came.

9 : From the area of the
10 store?

11 **A** Not the area from the store, from deeper
12 in Ferguson, so they was coming towards the store.

13 : Okay.

14 **A** When I first saw the official squad truck,
15 it was a truck, not a car. Like I said, they didn't
16 even go to the store, they went to McDonald's, they
17 was on the parking lot. They turned around coming
18 off the parking lot, but didn't really come off the
19 parking lot or didn't confront us.

20 The third police car.

21 **A** Darren Wilson.

22 : Darren Wilson is the one
23 that said get the F on the sidewalk?

24 **A** On the sidewalk.

25 : You said I'm not doing

1 anything, I'm going home, and that's when he backed
2 up.

3 **A** Correct.

4 : And you couldn't go
5 anywhere --

6 **A** Yeah, at that point when he backed up on
7 us, I stopped.

8 : Okay.

9 **A** Because I felt that he had something else
10 to say and I didn't want to make myself look guilty
11 by running away or being startled and, you know,
12 making a quick reaction, so I just stood there and
13 complied with the officer even though he never said
14 freeze or hold when he pulled back. I felt I will
15 just stand still and see what he asked.

16 (Grand Jury Exhibit Number 15
17 marked for identification.)

18 **Q** (By Ms. Whirley) So at no time when the
19 officer pulled back, we have brought a map that's
20 marked as Grand Jury Exhibit Number 15 that would
21 hopefully help you kind of illustrate where you guys
22 were, does that look familiar?

23 **A** Yes, ma'am.

24 **Q** Okay, good. But my question before we get
25 started is when the officer pulled back, he never

1 said, he never questioned you about that store
2 incident?

3 **A** No, ma'am.

4 **Q** He never gave you any other directions
5 then get out of the street or get on the sidewalk?

6 **A** After he initially said get on the
7 sidewalk, he never even brought the sidewalk
8 situation back up. He never brought the store up
9 after he gave his first statement about getting on
10 the sidewalk and I told him exactly how I said we
11 are a minute away from our destination. We will be
12 out of the street shortly. After he pulled back,
13 there was no more sidewalk talk, it was nothing, it
14 was just anger.

15 **Q** And then the altercation ensued?

16 **A** Began from there.

17 **Q** All right. I'm not sure how sturdy this
18 tripod is, hopefully it will get us through. Can
19 everyone see this map? You had a question?

20 : . A couple
21 questions. I want to keep it before we move on.
22 When you went into the market, you talked about
23 payment, did you have money in your hands? I know
24 you didn't have any pockets, I'm trying to figure
25 out where you had your money?

1 **A** I had my money in my shoe at the time,
2 yes, I had my money in my shoe.

3 When you left the store, I
4 thought it was strange you guys stuck together. You
5 didn't seem concerned, then kind of something bad
6 was there, then you kind of stuck with Mike, kind of
7 walk down the street, see the cops coming knowing
8 they might be coming for me, I would expect probably
9 more hide behind the bush, get back in place. What
10 is the reason you walked down the street waiting for
11 the cops to come get you?

12 **A** Like I said, that was in my mind at the
13 time, we're not running, there is nothing really to
14 hide behind on West Florissant. We could have run
15 behind the stores, we still had to get out in the
16 open eventually to get down Canfield. In the mind
17 walking from Ferguson Market to Canfield, we're
18 never making it to Canfield. We're never making it
19 to Canfield how far this store is, to how many
20 police cars we see on a day, you know, that's just
21 in the area, we'll never make it to Canfield.

22 You know, just seems
23 strange to be in the middle of the street, you think
24 on the sidewalk to kind of avoid being noticed.

25 **A** In my mind, I'm still trying to fathom

1 everything that is going on and why he didn't put
2 the Cigarillos in his pocket. He still had them in
3 his hand the whole time leaving out the store, all
4 the way walking down Canfield Drive.

5 When the police officer
6 backed up at you, obviously, very aggressive. You
7 think he intended to hit you, you think it was a
8 miscalculation on the part of his judgment what he
9 thinks, I shouldn't ask it that way, but I'm just
10 trying to, I mean, that's pretty aggressive if you
11 felt like you had to literally get out of the way to
12 avoid him hitting you, if you felt that way?

13 **A** Yes, correct. It was very aggressive and
14 fast the way he pulled back, but because we heard
15 the tires, we was able to step back almost a second
16 before the truck, the back of the rear of it kind of
17 hit us, so it didn't hit us, but the way his car was
18 angled, it very well could have hit both of us.

19 : . Just a
20 quick follow-up question. Is it typical for you to
21 walk down the middle of the street when you went to
22 the market or walk around the neighborhood.

23 **A** No, sir. I walked in the middle of the
24 street before, but it is not like I just wake up in
25 the morning, hey, we are going to walk in the middle

1 of the street. It is something you do, you are
2 crossing the street and try to stay a little longer
3 or you just walking down the sidewalk. It wasn't
4 planned to walk in the street.

5 Typically you would be on
6 the sidewalk?

7 **A** Correct.

8 : In my mind an act of
9 defiance going down the middle of the street
10 expecting cars to go around you and, you know, pay
11 attention to you. If I see somebody in the middle
12 of the street I'd be concerned about hitting them
13 and really slowing down and moving over.

14 **A** Yeah, that's correct.

15 : I would interpret that
16 they are being defiant to show strength or
17 something.

18 **A** Correct, walking down the middle of the
19 street could, you know, cause harm if someone had
20 to, but like I said, walking down the middle of the
21 street we saw two, three, maybe even four cars pass
22 us and no one blew their horn, no one even stopped
23 or slowed down. They kept the same speed and just
24 rolled right passed us.

25 Eventually there might

1 have been a driver that caused a confrontation?

2 **A** If, but it didn't come at all, we didn't
3 get anyone telling us to get out of the street, you
4 are in our way, anything like that, no comments like
5 that.

6 : Thank you.

7 MS. WHIRLEY: We just have, as I
8 mentioned, Grand Jury Exhibit Number 15 as an aid to
9 help the jurors. I'm going to try to move it where
10 everyone can see it. Can you guys see it from here?

11 **A** You want me to stand up?

12 **Q** That would be great, Dorian, thank you.
13 I'm going to give you this pen.

14 **A** Well, as you all can see Number 12, this
15 is my building right here . Like I said, we
16 have a driveway, you see into the driveway, Canfield
17 Drive, you can see directly over. This is the
18 building --

19 **Q** Excuse me, this says Caddiefield Drive.

20 **A** Caddiefield, this is Canfield and through
21 the apartments like the driveway, they have
22 Caddiefield.

23 : . You lived in
24 Caddiefield.

25 **A** Yes, I lived on ,

1 Like I said, you can see directly
2 across coming out of my building, this building that
3 he was standing with a friend, Building Number
4 Big Mike. They were standing on the third floor
5 also.

6 That morning when I came out, I could
7 see him, Big Mike right about right here helping
8 someone put kids in the car.

9 The guy who I was going to --

10 **Q** (By Ms. Whirley) Let me stop you a minute.
11 When you indicate where Big Mike is, could you put
12 BM or MB, either one, so we can keep track of who is
13 who. This is him too, right?

14 **A** This is where he was living.

15 **Q** This is you down here?

16 **A** This is, right. I will put DJ for me.

17 **Q** Okay.

18 **A** I don't know if you can see it. And this
19 is Big Mike. Now initially when I first met him he
20 was staying a little further back in Northwinds. At
21 the time of the incident he was staying here at the
22 time, something was going on with his grandmother,
23 he had to move out, and he was staying with a
24 friend.

25 When I came out that morning, he was

1 down in the parking lot area. Now the guy I was
2 going to go to for the Cigarillos, stayed in this
3 building right here Number Like I said,
4 regardless whether I saw him or not, I was passing
5 this building, that's the way I walk through to go
6 to the guy.

7 When I saw him, we had our words,
8 we're going to match, now we are walking up.

9 Now this is where we are going
10 towards the store, going up Canfield. Now back to
11 the part where the officer pulled up on us.

12 One is the leasing office, the first
13 building. We were pretty much, we didn't get on
14 into the street until we were like right before the
15 leasing office, so it had to be right here where we
16 initially just crossed over into the street.

17 Now, when the street, the officer
18 doesn't pull up on us until about right here is
19 where the police officer first really pulled up on
20 the side of us.

21 After he initially said get on the
22 sidewalk, we got to about, I say we wasn't really
23 that far away from him, we got to about right here.

24 Q When he said get on the sidewalk, you are
25 still, you said I don't have, I'm almost at my

1 destination, you keep walking east?

2 **A** Yes, we were still walking, but eventually
3 I figure we were going to get out of the street.

4 : . So you were
5 right there at Copper Creek Road and he said get the
6 F on the sidewalk?

7 **A** Yes.

8 : You said not but a
9 minute, you kept walking, you didn't hesitate, you
10 didn't even do anything except we are almost home?

11 **A** Yes, that is what I told the officer. We
12 are a minute away from our destination, I'll be out
13 of the street shortly. At this time Big Mike said
14 nothing, no words were out of his mouth towards the
15 officer.

16 **Q** (By Ms. Whirley) Let me stop you for a
17 minute. Your destination would be like, show us
18 where you were when you told the officer you are
19 almost at your destination, this goes to one of the
20 grand juror questions.

21 **A** This leasing office where we are at. This
22 is where the officer stopped us. He asked us to get
23 on the sidewalk, I told him we were going to our
24 destination. This is where I was headed, this is
25 where Big Mike's house was and, you know, it is not

1 very close, but it is not very far. You can
2 actually see both our buildings from standing right
3 there, there is no real big trees or anything, they
4 were actually cutting trees down in the
5 neighborhood.

6 Q (By Ms. Whirley) You don't know the
7 distance between that?

8 A I don't know the distance, you can see
9 both the buildings from where we are standing from
10 the leasing office.

11 Q All right.

12 A Now, once he pulled back on us. Let me
13 see, you know what, I'm sorry, yeah, when he pulled
14 back on us.

15 Q Is there something wrong?

16 A Yeah, I'm sorry, like I said, because of
17 that day and what was going on, I really couldn't
18 time or distance time and distance really is a blur
19 to me, so much actually happened.

20 Q Are we right with the location as far as
21 when, where he stopped you?

22 A Where he stops us, yes. I really can't
23 tell how far we got down like the distance he had to
24 drive in reverse, but I know he had to drive in
25 reverse.

1 The front of his car never met us,
2 the back of his car met us first when he came back.
3 I'm describing from the distance because where he
4 was shot was down here, Big Mike was shot down here
5 in this area.

6 **Q** That's where his body fell?

7 **A** That where his body was. One of the cars
8 that I had to duck behind for cover, they were along
9 this right here. (indicating)

10 **Q** Put car or something to let us know.

11 MS. ALIZADEH: Why don't you make, before
12 when you have done this, yeah, make a rectangle.

13 **A** Okay.

14 MS. WHIRLEY: That's better.

15 **A** Like one car. It had to be a second car
16 and third car would be like right behind.

17 MS. ALIZADEH: And Dorian, all three of
18 those cars were going towards West Florissant?

19 **A** Yes, ma'am, correct.

20 MS. ALIZADEH: They were on the right side
21 of the street?

22 **A** Yes, ma'am, correct.

23 Now, like I said, I don't know how
24 far we got along, but because of how the officer
25 pulled reverse on us, now his cruiser was more like

1 on both sides. I'll put another rectangle, but his
2 rear was more on the side where he was coming from
3 and kind of like, the beginning of his front was on
4 the other side. Either way cars couldn't come this
5 way or go the other way. They were stuck, and at
6 that moment that's when these three cars were
7 standing right there. And like I said, me and Big
8 Mike, we are standing on this side of the police
9 cruiser car.

10 Now, when he pulls up on us and he
11 said, what did you say? I could tell that he's mad
12 then, that's when he tried to open his door. Like I
13 said, the way I was standing on the side of Big Mike
14 when he opened his door, we was so close to his door
15 that it hit us, but more so it hit Big Mike, only
16 like a little portion of me, maybe the end of the
17 door, it didn't really hurt me or anything like
18 that, but it struck us and it closed back on the
19 officer.

20 At that time is when his arm came out
21 the window and he grabbed onto Big Mike.

22 **Q** (By Ms. Whirley) Okay.

23 **A** Any other questions or should I continue?

24 : . Where
25 did you say that the door hit you?

1 **A** The door hit me on my left side, left arm,
2 not my whole body because Big Mike is so big he
3 takes more of the door than me, but just a piece of
4 my arm and a piece of my body.

5 Did you have any visible
6 injuries to that area?

7 **A** No, it hit more Big Mike than me, I didn't
8 have any bruises but I felt the door hit me.

9 : Require any medical
10 attention?

11 **A** No, ma'am.

12 MS. ALIZADEH: Dorian, can I ask you some
13 questions? I know you have, at this point you've
14 known Big Mike a couple months, maybe three months
15 max?

16 **A** Yes.

17 MS. ALIZADEH: I know you've said that he
18 was a great guy, you liked everything about him,
19 right?

20 **A** Yes, ma'am.

21 MS. ALIZADEH: You considered yourself,
22 you know, kind of a mentor?

23 **A** Yes, ma'am.

24 MS. ALIZADEH: You are older, you came
25 from a violent background, not you violent, but

1 lived in a violent area?

2 **A** Yes, ma'am, correct.

3 MS. ALIZADEH: So, you know, when you go
4 to the store and you see him just take these
5 Cigarillos and you said he just said I'm going to
6 take these Cigarillos, right?

7 **A** Yes, ma'am, correct.

8 MS. ALIZADEH: That's really brash,
9 wouldn't you agree?

10 **A** Yes, ma'am.

11 MS. ALIZADEH: That's like indignant. And
12 then when the clerk tries to stop him, he pushes the
13 clerk aside?

14 **A** Yes, ma'am.

15 MS. ALIZADEH: Doesn't he?

16 **A** Yes, ma'am.

17 MS. ALIZADEH: You are surprised by that.
18 And I think, you know, no one is saying that you had
19 anything to do with planning that or even were aware
20 it was going to happen, but just that behavior,
21 that's pretty brash, wouldn't you say?

22 **A** Yes, ma'am.

23 MS. ALIZADEH: And then so when you are
24 walking back and now you heard the clerk say I'm
25 going to call the police, let me ask you this, after

1 he pushes the clerk aside, and I know you are
2 watching this and if you want to watch the video
3 because we couldn't get it to work in the other
4 room, we can play it again for you. We can play it
5 for you, but doesn't Big Mike come back at the clerk
6 at some point?

7 **A** He does, but that's almost like because
8 the store clerk made a move like he was going
9 towards, like I said, the first time before the
10 store clerk actually tried to grab for Big Mike
11 because the first initial grab the store clerk just
12 grabbed the door and Big Mike just pushed the door.

13 Now, the store clerk made another
14 step like he was trying to grab for Big Mike and
15 that's when it was like a real --

16 MS. ALIZADEH: Like a push away?

17 **A** Fast push away, and I don't know if the
18 store clerk was going to walk back on or anything,
19 but that was like a stare down, like he kind of like
20 stared at him.

21 MS. ALIZADEH: And that was threatening,
22 he was threatening, don't you think, he is 6 foot
23 5 inches tall?

24 **A** He was a small man. He was almost smaller
25 than me, shorter than me, you are right.

1 MS. ALIZADEH: That would be extremely
2 intimidating, don't you think?

3 A I could see where it made the store clerk
4 kind of eased off.

5 MS. ALIZADEH: Sure.

6 A You know what, I will just leave this at
7 the hands of the police.

8 MS. ALIZADEH: At this point, I mean, this
9 is not behavior you are used to seeing from him,
10 correct?

11 A No, ma'am, I wasn't aware of it.

12 MS. ALIZADEH: But it is clearly very much
13 macho, I'm going to take these Cigarillos, I know
14 he's not saying that, but that was kind of his
15 demeanor, like what are you going to do, stop me?
16 I'm taking them, right?

17 A Correct, yes, ma'am.

18 MS. ALIZADEH: Okay. So then you are
19 walking down the street, I know you said you are
20 kind of freaked out at this point?

21 A Yes, ma'am.

22 MS. ALIZADEH: And you see cop cars coming
23 by oh, my God, you know, but Big Mike doesn't really
24 care, does he?

25 A Not so much care because when he saw, he

1 looked at my face. I'm just walking like oh, my
2 goodness. When I see the squad car I kind of follow
3 it, I want to see are they going to the store or
4 what is going on. And once he sees that on my face,
5 he is like just walk normal, so we are just walking.

6 MS. ALIZADEH: But he doesn't even put the
7 Cigarillos in his pocket?

8 **A** Like I said --

9 MS. ALIZADEH: He has them out there like.

10 **A** Just walking, yes, ma'am.

11 MS. ALIZADEH: Whatever, you know. He
12 owns the street right there, right, kind of?

13 **A** I don't want to say he thought he owned
14 the street, he was very bold with how --

15 MS. ALIZADEH: Bold, that's a good way to
16 put it. So then, you know, as you walk back and you
17 say you are walking in the middle of street.

18 **A** Yes, ma'am.

19 MS. ALIZADEH: I know, you know, it is
20 Saturday, noon-ish, there is people out, but not
21 like rush hour or anything, but, you know, cars are
22 going back and forth, cars are going, passing you,
23 but they don't have any trouble getting past you.

24 **A** No, ma'am, none whatsoever.

25 MS. ALIZADEH: But then the officer stops

1 and says get the fuck on the sidewalk.

2 **A** Yes, ma'am.

3 MS. ALIZADEH: And you said hey, we are
4 just going to my place, we are going to be there in
5 just a minute and you guys kind of keep walking and
6 he then drives past you, correct?

7 **A** That was, in my mind, that is what I was
8 thinking, yes, ma'am, I heard his car pull off.

9 MS. ALIZADEH: Okay. And then you hear
10 screeching tires and then do you look back to see
11 him reversing towards you?

12 **A** Yes, ma'am.

13 MS. ALIZADEH: You hear him say what?

14 **A** What did you just say? He thought someone
15 had said something else.

16 MS. ALIZADEH: Is it possible that Big
17 Mike, who is behind you now, could have said
18 something to the officer as the officer pulled away,
19 could have said something ignorant to him?

20 **A** No way, no, ma'am. He was standing behind
21 me, he was so close if he would have said something,
22 I would have heard. He didn't say anything, like I
23 said at that time only I spoke to the officer.

24 Now, I could kind of see where he may
25 have been looking at the officer, kind of staring

1 him in his eyes, I'm talking he never said anything,
2 probably eye-to-eye contact with the officer. I
3 don't know if that, like he did the store clerk,
4 eye-to-eye with the store clerk where he thought --

5 MS. WHIRLEY: I want to interrupt you.
6 Did you see that or you just speculating?

7 **A** I am speculating right now.

8 MS. WHIRLEY: We want you to tell us what
9 you know, what you saw.

10 **A** I was looking at the officer because I was
11 talking to the officer. I wasn't directly looking
12 into his eyes, so much looking at his face and
13 telling him what was going on, but at no point in
14 time I heard Big Mike say anything at all, he never
15 said anything.

16 MS. ALIZADEH: But the officer said, what
17 did you say? That kind of sounds like he heard
18 something.

19 **A** Or he may have got a look that may have
20 looked like he said something. That's why I
21 speculate that he may have been looking at the
22 officer, but, you know, the way the officer pulled
23 back on us, yes, I feel like, all right, I'm lost.
24 I was the one that just told you, I didn't say
25 anything else.

1 MS. ALIZADEH: You didn't saying?

2 A No out of order, no cuss words or anything
3 like that.

4 MS. ALIZADEH: You didn't hear Mike say
5 anything?

6 A No, ma'am.

7 MS. ALIZADEH: Is it possible, if he said
8 it like under his breath as he turned his head,
9 might be that you didn't hear it?

10 A I didn't hear him mumble anything.

11 MS. WHIRLEY: Here is a question.

12 : . If the
13 police had already passed you guys up as you are
14 walking towards home, he is going back towards West
15 Florissant, how could he have heard you because he
16 had to come back to you and say what did you say?

17 A Exactly, so I felt that was my random
18 thinking, no one said anything, but I didn't say
19 that to the officer because I didn't know what he
20 was feeling at the time, the way he pulled a reverse
21 on us, I was let me stand fast and see what he is
22 going to say. That's why I basically was standing
23 side to side talking to him.

24 : Okay, this is
25 So now you say you don't even think the police heard

1 you say we are almost home?

2 **A** No, he definitely heard me say that.

3 Again, I was looking at his face while I was talking
4 and telling him.

5 : Again, I'm not judging
6 you, but somebody just stole something?

7 **A** Right.

8 : On the video that we
9 watched, he grabbed ahold of the man?

10 **A** Right.

11 : He said something to him
12 and he lunged at him, okay, you are walking down the
13 street?

14 **A** Yes, ma'am.

15 : The police tell you to
16 get the fuck on the sidewalk?

17 **A** Correct.

18 And you say I'm almost
19 home, you are thinking to yourself we are not doing
20 anything wrong, didn't you? Somebody did just do
21 something wrong, so that still begs the question why
22 you did not listen to the police?

23 **A** Yeah, like I said before, at the time we
24 was walking from the store, I saw with my two eyes
25 police squad cars pass us by, neither one of those

1 cars stopped us or said hey, did you just come out
2 of that store or anything like that.

3 So in my mind at the time they were
4 unaware or the store clerk never made the call
5 because before we saw Darren Wilson, we saw two more
6 police cars. He was the third police car we saw and
7 he was the first one that stopped us.

8 MS. ALIZADEH: So you guys thought, or at
9 least you thought you were in the clear that this
10 officer wasn't talking to you about the Cigarillos.

11 A Not so much me in the clear because I know
12 I didn't commit a crime. I was so much thinking
13 maybe he didn't call the police, that's all I was
14 thinking.

15 MS. ALIZADEH: You were worried, you
16 already said --

17 A I was worried because of, I know that, you
18 know, he's not a person like that and I'm worried
19 because I don't think, well, I don't know what is in
20 his mind. I can't think what he's thinking at the
21 time, but I know, you know, I've been locked up
22 before, not for anything like that, jail is not for
23 nobody. Nobody should ever want to go to jail. So
24 I knew that's where he was headed, so that is where
25 my worry and fear is coming from.

1 MS. ALIZADEH: Okay.

2 MS. WHIRLEY: You say when he came back,
3 he never mentioned anything about the Cigarillos or
4 the store?

5 A Darren Wilson the police officer?

6 Q (By Ms. Whirley) Yes, the police officer.

7 A He never stopped stop us and said hey,
8 freeze, stop right there, let me get out of my car
9 anything like that. I've been stopped by police
10 before, I know there is a way that they stop or pull
11 up on people, suspects for committing crimes.

12 So exactly what I said, didn't feel
13 like he was stopping us or telling us anything like
14 we were committing a crime so much as chastising
15 from a father to a son, like you are doing some
16 wrong. Hey, put that down or don't touch that, it
17 came off like that, that's how he said it.

18 : . You did
19 say that you have money in your tennis shoes?

20 A Yes, ma'am.

21 Why don't you pay for the
22 Cigarillos?

23 A At the time I thought he was going to buy
24 them because when we was in the store, I never
25 confronted the store clerk, I never even walked up

1 to the register, I just stood back because I thought
2 that he was buying the Cigarillos.

3 When I saw that he wasn't, I didn't
4 need that many Cigarillos, that's why I just, you
5 know, set it back. And because of what was going on
6 at the time, I don't even want to be, you know, I'm
7 really trying to get out of the store now. I don't
8 like what is going on, so I'm leaving so much as
9 hey, I'll pay for them, it is all right. I'm just
10 trying to leave now.

11 : When you saw your friend
12 do something that is wrong and you have the money,
13 why don't you pay?

14 **A** Oh, no.

15 : Or at least offer to pay?

16 **A** I'm sorry, I didn't have enough money to
17 purchase all of them.

18 : At least some of them,
19 what have you?

20 **A** I didn't have enough to purchase all the
21 Cigarillos that he was grabbing. And at the time,
22 like I said, we never had a conversation about what
23 he was going to do in the store or anything like
24 that. We was just going to get some Cigarillos.

25 At the time you didn't

1 even pay for one Cigarillo?

2 **A** At that time I was basically, hey, you
3 know what, I'm not a part of this, I didn't know,
4 although I didn't say it, I was basically just
5 trying to get out of the store like all of the rest,
6 there was another person in there, he was just
7 trying to get out of the store, so I'm getting --

8 : You are with him and he
9 is doing that, you are an accomplice?

10 MS. ALIZADEH: You can't hear him?

11 **A** I'm sorry, I'll speak up. The store clerk
12 actually does notice me, like I said, it was a male
13 store clerk and his daughter was there. She's
14 looking directly at me, I'm looking at her
15 face-to-face and she sees me actually put the box of
16 Cigarillos back and I step back.

17 Because they are kind of in front of
18 the door so I really can't get through, like walking
19 straight. So I have to kind of side step them. The
20 store clerk, as he walked past me, he never tried to
21 grab me, hey, you with him, he never did anything
22 like that. So I felt like, you know what, he saw me
23 put those back, he saw that my intentions were not
24 to steal from him, so that's why I believe he didn't
25 never try to grab me or hold me back or from leaving

1 or anything like that.

2 . When the police
3 officer backed up and almost ran over you, let's
4 say, and you guys were facing his window, when he
5 opened his door, what is your sense of what he was
6 trying to do when he was opening your door, do you
7 think he was intentionally trying to hit you with
8 the door or was he potentially trying to get out of
9 the car very quickly?

10 **A** That I can't speculate on. Again, I
11 cannot speculate what is in someone's mind or what
12 their agenda is going to be, but the force that he
13 used and the power behind it, I believe it was
14 unnecessary. He could of, and the way he backed up,
15 if he would have backed up straight back, he would
16 have been able to open his door, step out of his car
17 perfectly. But because of the angle where he
18 reversed and how close we were and how fast he did
19 it, it happened real fast. Everything happened
20 continuously right back to back.

21 It was really with a lot of force and
22 power that wasn't needed.

23 Do you think, do you think
24 it is possible that he didn't know how close you
25 guys dies were to the car?

1 **A** I don't think that it is possible not to
2 see someone. You have a couple of mirrors attached
3 to your car as you are backing up, I'm sure, I pray,
4 I hope he was using his mirror and not intentionally
5 trying to strike us. But like I said, I can't
6 speculate what he was doing, I know that he was very
7 forceful and powerful.

8 MS. ALIZADEH: But Dorian, you said you
9 guys had to kind of jump out of the way?

10 **A** We definitely had to step back, not so
11 much as a big leap to where, you know, oh. It was
12 more of a step back real fast because of the rear
13 end, you know, it wouldn't have, the whole back of
14 the car wouldn't have hit us, it would have been
15 like a corner of the side of the rear because of how
16 he was turning his vehicle, it would have struck one
17 of us, if it would have hit him, it would have fell
18 into me, but if it would have hit me, I would have
19 fell onto the ground.

20 : . It seem likely
21 to pull up next to you, you had the first encounter,
22 he continued down west, probably, potentially looks
23 in the mirror, sees you have not adjusted your path.

24 **A** Right.

25 : He's aggravated because

1 you aren't doing what he asked for, backs up, not
2 only does he back up to stay straight, he backs up
3 and puts his rear end across that center line,
4 therefore, blocking your path. You can no longer
5 walk down the center line any more, he is going to
6 take that away. And possibly when he is asking you
7 what did you say, I had a feeling he may be
8 referring back to the first conversation we had and
9 he is wondering, what did you say? Didn't you tell
10 me you were going to get out of the street?

11 Again, I'm assuming different things in
12 there, but it may not have been a secondary
13 conversation that he's referring to, what did you
14 say when I drove away or when I was coming back, he
15 very well could have been referring to the very
16 first conversation, he's wondering why you are still
17 in the street?

18 **A** I can see where you are saying, he maybe
19 didn't hear exactly what I was saying to him or
20 something like that. I never said that it right
21 away, officer, we get right on the sidewalk. So I
22 could see why he would be like, they're not getting
23 off the street and pulled back.

24 : Right.

25 **A** Even still, like I said, if he would have

1 pulled back straight, the altercation would have
2 happened a lot different, I'm sure he would have
3 happened a lot different if he been able to get out
4 of the car, full body, stand straight up, but
5 because of how that little small incident reacted,
6 it kind of turned the next level up a lot.

7 MS. WHIRLEY: Okay. Anybody else? All
8 right.

9 Dorian, why don't you have a seat, we may
10 go back to the map.

11 Q (By Ms. Whirley) Let's get to the actual
12 shooting.

13 A Okay.

14 Q We left off with you talking about the
15 officer had his left hand out of the car and he is
16 pulling Big Mike in or trying to, so now the
17 Cigarillos have been handed off to you?

18 A Yes, ma'am.

19 Q Go from there?

20 A I'm sorry, could I stand up? This map is
21 perfect and I just want to see very perfect,
22 everything is here.

23 So at the time, like I said --

24 Q You still have the pen in case you need
25 to?

1 **A** Big Mike and Darren Wilson, the officer,
2 they are doing their tug of war. He passed me off
3 the Cigarillos. Now he's back, at no point in time
4 did I begin to move away, I stood in the same
5 position, same spot. I'm still in the driver window
6 of the officer the whole time they are doing their
7 tug of war, so I can see both of them. I'm going
8 back and forth looking at both of their faces.

9 I'm hearing cuss words from both of
10 them, but I don't really hear the officer saying,
11 you know, stop or get down on the ground.

12 I really like, I'm shocked, the shock
13 level I'm going through right now is continuously
14 building. So now it is more and more stuff, I'm
15 trying to comprehend that it is not, it shouldn't be
16 happening, that I know shouldn't be happening. They
17 are pulling back and forth. At this time I heard
18 the officer says, I'll shoot. This is the first he
19 says, I'll shoot.

20 At that time I was looking at Big
21 Mike when he said I'll shoot. In my mind taser, I
22 see people get tased before and it looks like it
23 hurts a lot.

24 **Q** Let me stop you a minute. So the first
25 time the officer says, I'll shoot, Big Mike's hands

1 are free now?

2 **A** Yeah.

3 **Q** He's given you the Cigarillos?

4 **A** Yes.

5 **Q** No shots have been fired yet?

6 **A** Not at the moment, no.

7 **Q** Okay. So do you know where his hands are
8 when the officer is saying, I'll shoot?

9 **A** I can still see both Darren Wilson's hand
10 and Big Mike's hands.

11 **Q** Tell us about it?

12 **A** Big Mike's left hand was still on like
13 right above the side mirror, right up under that,
14 right up under the side mirror. His other arm now
15 because of the tug of war pull, the officer's grip
16 come up, from up on his neck, to the shirt collar,
17 to the shoulder, to basically he never let go. Now
18 he has Big Mike. Big Mike's left arm is on the car
19 pulling away still, and he's trying to pull away
20 because now he basically just has his arm.

21 **Q** So the officer has his right arm?

22 **A** Yes, with the officer's left arm, he's out
23 the window grabbing Big Mike's right arm.

24 **Q** Okay. So he has Big Mike's right arm,
25 does he pull it inside the car?

1 **A** I really, from the time of everything
2 happening and once he said, I'll shoot, now my focus
3 has switched and locked on the officer and say what
4 he is saying he's going to shoot because in my mind
5 I assume it is a taser. If it was going to be a
6 taser, no matter who was in the wrong or who was in
7 the right, if I would have saw that taser, I would
8 have immediately told my friend Big Mike, look, just
9 stop, stop moving, stop pulling away, just stop.

10 But because I saw the gun and the
11 barrel, I've been shot before. It is the worse pain
12 I can ever imagine, it does not feel good, because I
13 saw the barrel, I went into a deeper shock.

14 **Q** You didn't think everybody should just
15 stop when you saw the gun?

16 **A** I was praying, I was, I'm in such shock
17 right now and firm, because when the officer pulled
18 up and that's why I was trying to make clear people
19 were, he's a witness, key witness. I was so
20 victimized that people don't even understand.

21 There was a witness standing on their
22 balcony, a witness drive by in her car, me being
23 right there in the moment, I felt victimized because
24 I felt so afraid that I couldn't talk.

25 I couldn't say what was on my mind

1 because I'm so afraid of, I couldn't calm it down.
2 I don't have the power to calm down the police
3 officer and obviously Big Mike is bigger than me.

4 **Q** Let's just go back. I understand what you
5 are saying about seeing the shooting like that, but
6 when Big Mike's right hand or arm is being pulled
7 into the car, I don't know if you said that or not,
8 you said that the officer had his right hand with
9 his, the officer's left hand had Big Mike's right
10 arm?

11 **A** Correct.

12 **Q** Where is it, did you see it or not, where
13 his right, where Big Mike's right hand was?

14 **A** I didn't see Big Mike's right hand because
15 the officer had it, but it was up, so it may have
16 been times when the officer could have pulled his
17 right, because his left hand never removed off the
18 officer's car.

19 So there could have been times when
20 the officer pulled him, but like I said, because of
21 the position how Big Mike has on the officer,
22 officer never got out of the car, he is still
23 sitting down. He has a better way of pulling with
24 more force, so he is just pulling. I can see more
25 of the officer's arm out the window than his arm in

1 the window.

2 Q From your vantage point, you can tell if
3 Big Mike's hand ever went inside the officer's car?

4 A No, because at the point, I'm back and
5 forth, but when, I'll shoot, my eyes locked on the
6 officer.

7 Q So where was, where were the hands, I'm
8 interested in the hands and the arms?

9 A At that point when the officer said I'll
10 shoot, now is like Big Mike, this hand is not on the
11 car any more.

12 Q That's the left hand?

13 A The left arm is not on the car any more,
14 the officer still has the right arm, but he's not
15 inside the car. And when I look up and see the
16 officer, the officer has his gun pointed, his left
17 arm grabbed, he has his gun pointed aimed at Big
18 Mike.

19 In my mind it was probably aimed at
20 both of us, but I assumed he wasn't directly just
21 trying to go for Big Mike. He had his gun pointed
22 towards us. I'm still standing in the doorway and
23 at the time he said I'll shoot. He was going to say
24 it again, I'll shoot and almost, he didn't get to
25 finish his sentence, the gun went off.

1 **Q** At the time that the gun went off, where
2 were the hands of Big Mike?

3 **A** The left arm was down at his side. He was
4 standing straight up, I was standing right on the
5 side of him. The right arm was still up in the air
6 while the officer, but still pulling, but it is not
7 like he got any, pulling off the car, he is still
8 pulling the officer.

9 At this time, like I said, I see more
10 of the officer's arm outside the car than Big Mike's
11 arm inside the car, so he has a better position to
12 pull away from, the officer was sitting down.

13 **Q** Just so I understand with the officer's
14 left hand, he's pulling Big Mike's right arm into
15 the car and Mike's pulling away and the officer has
16 his gun in his right hand?

17 **A** Correct.

18 **Q** And he says, I'll shoot?

19 **A** Correct.

20 **Q** While this pulling is going on?

21 **A** Correct, yes, ma'am.

22 **Q** Okay. Go ahead, well, there is a
23 question?

24 Real quickly,

25 When the gun went off as soon as he said I'll

1 shoot, do you know if the gun was inside the car or
2 outside the car.

3 **A** The gun definitely was inside the car when
4 he fired the shot. How me and Big Mike was
5 standing, we were standing straight up, so we
6 definitely was outside the vehicle. The bullet came
7 outside the car and struck him. He was never inside
8 the car and got struck, he was outside the car when
9 the first shot went off. The officer was inside the
10 car, so the gun was inside the car, but when he shot
11 the gun, bullet traveled outside his car and struck
12 Big Mike in the chest, or I seen blood coming from.

13 **Q** (By Ms. Whirley) You are not sure where
14 the wound --

15 **A** It struck him, I definitely know that it
16 hit him, I saw the blood with the first shot.

17 **Q** Are you absolutely certain, I know you
18 talked about being in shock and that kind of thing,
19 this is very important, this jury is trying to get
20 this thing figured out.

21 Are you absolutely certain that you
22 did not see Big Mike's hands inside the officer's
23 car in a struggle with the officer?

24 **A** Now, his hand being inside the car, I
25 won't speculate on, like I said, there was times

1 where the officer had a good pull and his arm would
2 get in there, but majority of the time the officer
3 really didn't have that much power because of the
4 position that they both had. I'm not saying that he
5 was stronger than the officer, but because the
6 officer was sitting down in his car and Big Mike was
7 standing up and he had better, more strength in
8 pulling from the officer.

9 Q Right, can you go ahead?

10 A I never saw at no point in time Big Mike's
11 hand touch the gun or anything like that because of
12 the gun was already out drawn.

13 Q How about touching the officer?

14 A Now, touching the officer, now touching
15 the officer, maybe, because they're pulling each
16 other, but as far as striking the officer, or
17 physically striking the officer, no, I didn't see.

18 Q You didn't see him with a fist?

19 A No, ma'am, he never had his fist clenched
20 up like in a punching manner, so much as trying to
21 grab stuff and push himself off of.

22 Q Could it have happened and you missed it?

23 A Him striking the officer?

24 Q Right, some type of physical altercation
25 with the officer inside the car?

10 **A** Yes, ma'am, correct.

12 : . In
13 here, what we heard earlier, you said that you could
14 tell, you couldn't really see him, the officer, you
15 said you couldn't tell what color hair he had, you
16 couldn't see what kind of build he was, but because
17 of his arm, you could tell that he was a certain,
18 you could assume that he was a certain build. If
19 you couldn't see the officer inside the car, is it
20 possible that you couldn't have seen Big Mike's arm
21 go into the car as well.

22 **A** I was going to say on that, the way they
23 ask that question, they was basically asking for a
24 description on the officer. And I told them that
25 because I was in a state of shock, I couldn't give

6 **A** Yeah, I'm still standing right here, but
7 I'm not like, he's got blue eyes, brown eyes, no. I
8 step back, there is a gun pointed at you guys,
9 that's how I'm acting like at this point.

12 **A** How tall I am? 5'6" or 5'7".

14 **A** 123,125.

17 **A** Not in front, but on the right side.

19 **A** Yes, ma'am.

21 **A** I really couldn't, I didn't know how big
22 he was until I heard it.

24 **A** Yes, please.

25 : 285 pounds and 6'4".

1 He's a big, big guy.

2 **A** Yes.

3 With a big tummy.

4 **A** Yes, it wasn't so much his weight, he was
5 like big in bulk. He wasn't like blabby fat.

6 : I don't mean, big tummy,
7 or could be muscle whatever. You are a pretty small
8 guy, I am a small person too.

9 **A** Okay.

10 : If I am close to her and
11 she's fighting with them, and the other arm and I am
12 here and I have the side of the car, the head rest
13 on the seat, I don't know that I can see what
14 happened with the hand whether he touched the gun or
15 no. Describe the police or no. I don't see that
16 you can have as much vision as you say. I don't
17 think that you are lying, I think that you don't
18 have as much of a good vision as you say.

19 **A** Okay.

20 It is difficult for me to
21 understand that.

22 **A** And that's what I'm trying to make you
23 understand because of where I'm standing outside the
24 vehicle and how close I am to Big Mike and
25 everything that I saw, the officer never got Big

1 Mike inside the window. You have to think about
2 someone sitting down trying to pull in a 6'9", 285
3 pound person.

4 You're not going to have that much
5 ease with just, hey, get over here in this window.
6 No, he's big, he's standing up, and the officer's
7 gun is on his right side, I believe, because that's
8 where he draw from with his right arm. In order for
9 Big Mike to have touched the gun, it is almost like
10 his whole top half of his body had to be inside the
11 vehicle, and that never happened.

12 His arm, yes, but like I said, the
13 officer had it. It wasn't like his arm was in the
14 window free, the officer has his left arm on his
15 right arm, so if he made a grab and got that far
16 over there, it wasn't because --

17 So did you say he had the
18 right arm, not the left?

19 **A** Not the left, the left arm never went
20 towards the window whatsoever.

21 MS. ALIZADEH: Dorian, do you understand,
22 I don't know, I'm not a physics person or anything,
23 you know you kind of said to yourself that Mike
24 Brown was, Big Mike was in an advantageous position
25 and that he was standing on his feet outside the

1 vehicle.

2 **A** Correct.

3 MS. ALIZADEH: And the officer is seated
4 in his vehicle?

5 **A** Correct.

6 MS. ALIZADEH: Hard to figure out why he
7 couldn't break free if the officer has him just with
8 his left hand?

9 **A** Uh-huh.

10 MS. ALIZADEH: First of all, by the neck?

11 **A** Uh-huh.

12 MS. ALIZADEH: And then you said by his
13 shirt?

14 **A** Correct.

15 MS. ALIZADEH: You couldn't just, do you
16 understand it might be difficult to understand why
17 he couldn't just, just the sheer weight of him if he
18 had fallen over his shirt would have ripped.

19 **A** I understand that, that would almost be
20 believable if the officer was somebody of my size.
21 If the officer was a small person, Darren Wilson
22 didn't look small from his arm and from his, like I
23 said, I saw his top part. He never got out of the
24 car for me to see his full body size. I could tell
25 he wasn't a small officer. It wasn't like he could

1 be overtaken (sic) very easily.

2 Once you have a grasp on something, I
3 don't care if someone's really strong, if you have a
4 good grip on it, you can pretty much hold on to a
5 lot if someone's stronger than you, you can still
6 hold onto a lot. Not his flesh so much more, but
7 more his shirt. I'm not letting this shirt go sort
8 of thing.

9 MS. ALIZADEH: Just to clarify, you didn't
10 see him get out of the car, you saw him standing up
11 and fully out of the car later, correct?

12 **A** The police officer?

13 MS. ALIZADEH: Yeah, right.

14 **A** Yes, I did, correct.

15 MS. ALIZADEH: So how would you compare
16 him to how your build and height is? How tall did
17 you say you are?

18 **A** 5'6", 5'7", 123 pounds. He was bigger
19 than me.

20 MS. ALIZADEH: Okay.

21 **A** He wasn't so much bigger than me like Big
22 Mike, but he was bigger than me. You can tell he
23 was a full grown man, he was a grown man. He didn't
24 look like he was fat, he looked like he was a little
25 muscle, like a little training on him. He looked

1 like he was solid muscle also.

2 I didn't see where he was very weaker
3 than Big Mike, just so much as he had a bad position
4 sitting down not even getting out of the car, again,
5 to even confront. Just basically trying to, like he
6 was trying to pick up a kid or something like that.
7 It is still the whole ordeal more still looking like
8 chastisement from a father to a son type of deal.

9 MS. WHIRLEY: Number 1?

10 : Yeah, .
11 Just take a couple steps back, I'm trying to trace
12 how this began. Again, he puts it in reverse, what
13 did you say, from your point of view or perspective,
14 are you saying that Officer Darren is the aggressor
15 in this situation in regards to making that first
16 grab or whatever that is first?

17 **A** Correct, yes, I am. He was the aggressor
18 by initially just the way he reversed and opened his
19 door and the grab, it was overaggressive. I felt
20 like it wasn't needed.

21 If it was just regular backing up and
22 just gently getting out of his car, we had no reason
23 why we wasn't running no time before then, so we had
24 no reason to run from him if he would have did it
25 right if he was, you know, answering to a distress

1 call and he did catch us, or catch him. He would
2 have definitely locked both of us up at the time,
3 but like I said, he never said anything about the
4 store, he never got out of the car or anything like
5 that, it was all aggressive.

6 : Okay, thank you.

7 Q (By Ms. Whirley) Okay. So the first shot
8 goes off in the car while he has Big Mike's hand?

9 A Yes, ma'am.

10 MS. ALIZADEH: Right arm.

11 A At this time with the gun out, he don't
12 have much of the flesh so much as his shirt.

13 Q (By Ms. Whirley) Okay.

14 A A real tight grip on his shirt now.

15 Q Does he have on a long or short sleeve
16 shirt?

17 A Short sleeve shirt.

18 Q What about the police officer?

19 A The police officer, like I said, he had a
20 short sleeve shirt on, yes. I seen his arm, his
21 forearm, yeah, he had short sleeve shirt on.

22 Q So you told us the position of the hand
23 when the gun goes off the first shot inside the car,
24 he's in the car, the shot you said went out of the
25 car?

1 **A** Yes, ma'am.

2 **Q** Hit Big Mike and then what?

3 **A** When the first shot went off, we were so
4 close and ringing, I've been shot before so
5 instantly everything, emotions that I had, like I've
6 been shot three or four years ago, so everything is
7 still fresh. With guns, I really dislike them loud
8 bangs.

9 At the time and seeing the fire come
10 out of the gun and shot go off, when I see Big Mike,
11 I see the blood come down his, where the officer had
12 his right side. I'm on his right side, I see the
13 blood come down.

14 I never looked at myself because I
15 was so afraid I was like, oh, I saw him. My eyes
16 got big, he didn't say anything after that. He kind
17 of looked at my face and saw my eyes and at that
18 time, that was when the officer let go and we were
19 both able to run. That's when I turn and run. He
20 was right behind me.

21 **Q** Which way did you run on the map?

22 **A** After the first shot took off, we both ran
23 this way. (indicating)

24 **Q** Okay.

25 **A** Now, I was so in shock and so in fear, at

1 that time now I'm just, I'm really afraid, I'm
2 really afraid. I don't know if the officer's coming
3 towards Big Mike or just towards both of us. Right
4 now I'm just so afraid that the time I get past the
5 first vehicle, I was in front of Big Mike when we
6 was walking. When I took off running, I was still
7 in front of him.

8 When I got to the first vehicle,
9 which was like a Sunfire or gray Sunfire, so very
10 small vehicle. The officer was not yet out of his
11 car, he was still in his car because I was able to
12 run to the car and like stand, not squatting real
13 low, but I was standing behind the car, the Sunfire,
14 but I know he was able to still see the back of my
15 neck and hair and all of those things.

16 When Big Mike ran past me, he saw me,
17 he looked directly at me he said, keep running, Bro.
18 And at that time is when I kind of hear the door
19 opening, I figure the officer is getting out of his
20 car now, but before then, like I said, the officer
21 was still in his car, I was able to run, squat
22 behind the first car.

23 Big Mike ran, he was right behind me.
24 He looked directly in my eyes and said, keep
25 running, Bro. That's when I knew that I was still

1 in plain sight. Now, the tension of me, I'm so
2 afraid that I can't move any more, so I'm just
3 standing there behind the first car now.

4 There is people in this car. Now
5 there is people coming outside the house because
6 they heard the first shot, there is not that many
7 people. As Big Mike run past me and sees me, he
8 keeps going. He makes it past the second car, once
9 he gets to the second car, I can feel, I'm not
10 looking around me because I'm so scared. I'm just
11 standing there and I can feel someone approaching,
12 so I kind of give a glance over to my right and it
13 is the officer now, he's walking, he's walking, but
14 he is kind of fast walking. He's not running or
15 anything like that, but he has his weapon drawn.

16 **Q** Just like you are doing now?

17 **A** Yes, in this manner, his weapon is drawn
18 and he's walking in at fast manner. He's not saying
19 anything, he's not saying freeze, he's not saying
20 anything at this time while still just
21 concentrating, he is walking.

22 As I see him, I'm in plain sight, Big
23 Mike was able to see me. He ran past me, keep
24 running. I'm so scared, I cannot move my feet.

25 And I watch the officer walk past, he

1 never even looked at me. He just kept walking past
2 and I'm watching him and I'm in awe. I'm like okay,
3 is he looking for us or is he going after him, but
4 everything is in my head is just racing real fast
5 because of the gunshot and I'm hyperventilating, my
6 heart is pounding.

7 After he walked past me, I kind of
8 stand up more. I'm trying to ask the people in the
9 first car, could I please just let me in the
10 vehicle, I stay in the same complex. You can just
11 drop me off. They said no, and they pulled off on
12 the sidewalk.

13 Q Where did they pull to?

14 A The first car? They didn't drive through
15 the driveway, they pulled on the sidewalk to drive
16 past the police officer. Once they pulled off, I
17 was even more visible now. I'm standing straight,
18 the officer's back is towards me, Big Mike's back is
19 towards me and the officer because he is running
20 away.

21 I'm watching the officer, he's
22 walking and Big Mike gets past the third car, the
23 final car before the second shot was fired. It was
24 the second shot fired, pow, the officer shot. I
25 don't know if it hit, I wasn't that close to see

1 that it struck Big Mike, but the manner that he
2 jerked and just stopped in his track, I sense that
3 he was hit again.

4 The first time I definitely knew, I
5 definitely saw him get shot the first time, he had
6 been struck one time already.

7 The second time he shot, I didn't
8 know if it hit him or not, but he kind of jerked and
9 that's when he stopped running. He just kind of
10 stopped and turned around at the officer. And now
11 he's face-to-face with the officer, but not so
12 close.

13 Now, Big Mike is probably, he's not
14 fully at the driveway, but he gets probably to the
15 curb of the driveway when the second shot, and now
16 at the second shot, the officer, I'll just put DW,
17 he's passing the third vehicle.

18 **Q** Where are you?

19 **A** At this time I'm still right here.

20 **Q** You are at the second vehicle?

21 **A** Yes, but I'm more over to the side now
22 because like I said, I was trying to talk to the
23 people in the front car. I was on the side of their
24 car when I was trying to talk to them.

25 After they pulled off, I had to stand

1 up and I was still in shock and now I'm just
2 watching the officer, you know, pace towards Big
3 Mike. I see him fire the second shot, I see Big
4 Mike turn around and face the officer. And now the
5 officer is past the last car and Big Mike is off the
6 sidewalk now more in the street.

7 Q What is Big Mike doing?

8 A At that time Big Mike's hands was up, but
9 not so much up in the air because he had been struck
10 already in this region somewhere on this. It was
11 like this hands is up and this hand is kind of like
12 down sort of.

13 Q His hands were nowhere near his waist?

14 A No, his hands never went down towards his
15 waistline or anything, like he didn't have a belt on
16 or anything.

17 Q Was he sagging, was his pants sagging or
18 you say he wasn't wearing a belt?

19 A Yeah, at that time he didn't look like he
20 was sagging.

21 Q That's okay if he was, I'm trying to get
22 the picture.

23 A At that time I wasn't looking for, I was
24 looking more at him and the officer because how he
25 stopped, I felt like he was shot again, so now I'm

1 really fearing like, wow, he's been shot twice. Not
2 knowing for sure he has been shot twice, definitely
3 know he has been shot one.

4 **Q** Okay. The reason why I am asking you
5 about the sagging, we probably all know the kind of,
6 you know, how young folks do it.

7 **A** Yeah.

8 **Q** A lot of times when they are sagging,
9 their pants are down so low that you can actually
10 see the waist area.

11 **A** Right.

12 **Q** That's what I'm asking, was he sagging or
13 do you recall?

14 **A** No.

15 **Q** Was not, but no belt?

16 **A** No belt on.

17 **Q** Did he have a weapon that day?

18 **A** No, ma'am.

19 **Q** Did you?

20 **A** No, ma'am, none whatsoever, anything like
21 that.

22 **Q** All right. He turns around, show us again
23 how his hands were?

24 **A** His hands, this one is higher, this hand
25 is higher, this one is, like I said, he was

1 definitely struck with the first shot. So I could
2 tell he was injured because this hand was a little
3 lower than this hand. As I'm looking at him, he
4 said I'm, he didn't say I'm unarmed per se, he said
5 I don't have a gun, but he's still mad, he still has
6 his angry face. I don't have a gun.

7 And he goes, he never started running
8 because, you know, he's hit, but sort of, I don't
9 have a gun. And before he can say the second
10 sentence or before he can even get it out, that's
11 when the several more shots came.

12 Q How close would you say the officer was to
13 Big Mike when Big Mike is saying to him, I don't
14 have a gun. Like can you kind of show us?

15 A I can't be definite on feet.

16 Q Big Mike is somewhere here, and the
17 officer is here?

18 A Yes. He's not on the sidewalk no more,
19 he's on the street level now and the officer has,
20 he's not so close to the third car, but he's like,
21 he's not on the sidewalk on the other side, he's
22 closer to the other side of the street, the opposite
23 side of Big Mike.

24 Q You are where?

25 A I'm still standing right in plain sight

1 standing on the side.

2 Q You can hear him say I don't have a gun?

3 A I can see him start to say something.

4 Q What did you hear him say, if anything?

5 A I heard him start to say I don't have, but
6 you know, in my state of mind in my shock, I'm
7 bouncing in and out. Time, in my mind slowed down
8 and everything, I can see what is going on.

9 Q Let me just make sure I understand because
10 this is important. Does he actually say, did you
11 actually hear him say, I don't have a gun or this is
12 what you are thinking he's trying to say?

13 A No, the first statement was I don't have a
14 gun.

15 Q You heard him say that?

16 A Yes, I don't have a gun.

17 Q Okay.

18 A The second statement he was starting to
19 say I, you know, he couldn't get the full sentence
20 out before the rest of the shots hit his body. And
21 I stood and watched face-to-face as every shot was
22 fired and as his body went down and his body never.
23 His body kind of just went down and fell, you know,
24 like a step, you know what I'm saying? Like a step,
25 his body just kind of collapsed down and he just

1 fell.

2 **Q** Was he walking towards the officer as he
3 was collapsing?

4 **A** He couldn't get a step off like. When he
5 was giving his second sentence, what he was going to
6 say, it was like he was going to step close to the
7 officer, but like I said, before he could even get
8 that sentence out, the rest of the shots was hitting
9 him and he was going down.

10 **Q** And was shots being fired as he was going
11 down?

12 **A** Shots was definitely fired while he was
13 going down. The last shot he fired he was so close
14 to the ground, it looked like to me he was already
15 on the ground. His knees were, he was going down,
16 he was already down before the last shot came.

17 **Q** So he never like got on his knees, he was
18 just falling down?

19 **A** He was falling. I can almost feel the
20 shots because like I said, I've been shot before.
21 I'm so face-to-face with him being shot, I'm seeing
22 his eyes blink and all of these different. It is
23 making me relive the pain of coming through because
24 I've only been shot one time.

25 I can see how many shots this officer

1 is firing, it is sickening to my stomach, I'm almost
2 bursting in tears right there. I threw up a little
3 in my mouth initially. I got in my head that he's
4 dead. When I see his body hit the ground, in my
5 head I say he's dead.

6 At that time while he's on the
7 ground, the officer is standing there, he doesn't
8 look around like he's looking for me or anything
9 like that, I'm still in plain sight. I never went
10 anywhere until it clicked back to me that he may
11 could be looking for you too.

12 Again, at that time, that's more fear
13 for my life. I just seen him gun down and kill
14 someone I was just walking with my friend Big Mike,
15 I see that, I see with my eyes he killed him. Now
16 in my head I'm wondering what is he going to do with
17 me.

18 Q Let me ask you this. When he stopped
19 shooting, what did he do, the officer?

20 A When he stopped shooting, the officer, he
21 just kind of stood there.

22 Q Did he go check for, check his pulse?

23 A No, ma'am.

24 Q Did he check to see if there was a weapon
25 anywhere?

1 **A** No, ma'am.

2 **Q** What do you mean he just stood there?

3 **A** After giving the final shots, the rippling
4 shots because there is only one rippling shots.
5 Boom, boom, boom, boom, boom, he kind of stood
6 there. And at that time I see him, and I see Big
7 Mike on the ground, he's not moving, breathing or
8 anything like that. I see the officer kind of just
9 standing there, it wasn't for like a full two
10 seconds when I took off running, I just --

11 **Q** So you didn't see the officer when he went
12 back to his car or when he left the scene or
13 anything like that?

14 **A** No, I didn't see him go back to his car or
15 anything when I took off running. My building is
16 right here, I was so afraid for my life that I
17 didn't want to go to any other direction, so I took
18 this direction all the way, all the way around. I
19 went the longest way around to my house.

20 Now, when I got into my apartment, I
21 wasn't there for a minute or two, my girlfriend is
22 there, I'm hyperventilating, I'm still throwing up,
23 I have been throwing up since I started running.
24 I've been throwing up all the way along the run.

25 When I got there, she's trying to

1 calm me down, but I'm telling her, I'm trying to
2 tell her what just happened, but I'm so, I mean, I'm
3 hyperventilating so much that I can't really tell
4 her, and now I want to see did it really just
5 happen, did he just die, was he just injured, did
6 that just happened. So not a full two minutes --

7 MS. ALIZADEH: Excuse me, Dorian, do you
8 mind because we have been going now almost two hours
9 and the court reporter because his hands need a
10 break.

11 A Okay.

12 MS. ALIZADEH: Can we take, because we
13 still have a bit for you to do and if you need a
14 break or restroom break, we'll walk you out here in
15 a minute. Is that all right if we take like a five
16 minute break so that the court courter can stretch
17 his hands. You all can take a five minute break if
18 you like.

19 (Recess)

20 Q (By Ms. Whirley) Okay. Dorian, you were
21 telling us about, I think where we left off Mike
22 Brown or Big Mike had fell down.

23 MS. ALIZADEH: Actually, Sheila, we had
24 gotten to the point where he was back in his
25 apartment and was now saying you were going to go

1 out again that's kind of where.

2 **A** Correct.

3 MS. WHIRLEY: Thank you, Kathi. So go
4 ahead and finish.

5 **A** Like I said, when I had got back to my
6 apartment, hyperventilating, still trying to figure
7 out. At the scene, I kind of pretty much assumed
8 that he's dead. But when I ran to my apartment and
9 I was able to kind of get it together, it wasn't a
10 minute or two minutes, I came back out to check to
11 see if he's all right, is he moving or, you know,
12 did he really get killed.

13 When I came back out to the street,
14 you can see where my apartment is, how close the
15 street is. When I came back out, I came back
16 straight away. Came back straight away, I got to
17 about right here and I could still see that Big Mike
18 was still laying in the street in the same position
19 he was when he had got shot. But I did not see the
20 officer any more, I saw his cruiser, his car was
21 still there, it didn't look like he was inside the
22 car.

23 I continued to walk along because now
24 there is a lot of people outside right now. At this
25 time when coming back now, there is a lot of people,

1 but I did not see the officer any more, I did not
2 see any officers on the scene.

3 Q (By Ms. Whirley) That is what my question
4 was, so there is no police officers on the scene at
5 this time when you walk back?

6 A No, ma'am.

7 Q So there is no tape of anything?

8 A No tape, nothing right at the moment. At
9 the moment of me coming back, there was just Big
10 Mike laying in the street, his car was still there,
11 but Darren Wilson himself was not present any more,
12 there was a bunch of other people congregating
13 outside.

14 Q People from the neighborhood?

15 A Yes.

16 Q What did you do then?

17 MS. ALIZADEH: Can I ask a real quick
18 question? When you were in the house, when you went
19 back to your apartment.

20 A Yes, ma'am.

21 MS. ALIZADEH: Did you change clothes
22 then?

23 A Yes, ma'am. When I got into the
24 apartment, that's when I had changed my clothes.
25 I'm sorry, thank you for bringing that up. Yes, I

1 had changed my clothes in fear that he would see me
2 when I came out, but I definitely had to come back
3 out to see was he dead or not. I wasn't doing it, I
4 was still in fear of my life. So I just changed,
5 really didn't change that much I just put on
6 different bottoms and tank top.

7 **Q** (By Ms. Whirley) How long were you in the
8 house?

9 **A** Not even two, five, three minutes.

10 **Q** You didn't shower?

11 **A** I didn't shower or anything, I just
12 changed my bottoms and put on a tank top.

13 MS. WHIRLEY: Okay. You had a question?

14 : You
15 changed because you were afraid that the police
16 would recognize you?

17 **A** Correct, yes, ma'am.

18 When you came
19 back around and you were taking a peek at the scene,
20 did you notice whether the other two cars that were
21 in the traffic stop, were they still there?

22 **A** No. When I came back on the scene, the
23 rest of the cars, the two cars, they had already
24 pulled off, I'm assuming they pulled off. The car
25 was still right there. They had to pull through the

1 driveway or pull off like the first car just drive
2 on the sidewalk.

3 **Q** (By Ms. Whirley) So the road was open
4 between Michael Brown and the police cruiser, nobody
5 else on the road?

6 **A** Correct, yes, sir.

7 : At any
8 time from the first time the officer approached you
9 and Mr. Brown to the time of his death, did he ever
10 call for help?

11 **A** No, ma'am, the officer never got on his
12 dispatcher or anything like that. He never even
13 seemed like he really needed any help. We wasn't
14 threatening his life in a threatening manner. I
15 definitely wasn't doing anything like assisting Big
16 Mike in pulling him away. It was more so just him
17 and Big Mike, I didn't see him needing any help.

18 : . You said
19 that you had crouched down behind that first
20 vehicle?

21 **A** Yes, ma'am.

22 : You described a Toyota,
23 are you speaking of a two door Toyota?

24 **A** Yes, ma'am.

25 Or a Pontiac Sunfire; is

1 that correct?

2 **A** Yes, ma'am.

3 Can you tell me were you
4 down on your knees like this, both knees, one knee
5 down like this or what?

6 **A** Yes, ma'am. I never got down on my knees
7 so much as crouch down slightly, just a little. I
8 played football in school, so I got a good crouch.
9 I was just basically standing there. I'm behind the
10 car, but I know that I'm not low enough because the
11 car is so small I didn't really want to get down on
12 the ground. I was just really trying to stoop.

13 But once Big Mike looked me in my
14 face as he is going by and says, hey, keep running,
15 Bro. At that moment I knew this is not a good place
16 to be, but I could not move because of fear and
17 shock that I was. My mind was like go, run, go, but
18 I was just like, uh, I couldn't move at the time.

19 : Is there any reason why
20 you didn't want to get on the ground, you said
21 somebody is shooting at you?

22 **A** Like I said, I'm so much in shock that
23 I've been shot before and the time that I have been
24 shot, I just kept running. I got hit running, so I
25 figure if I'm going to get hit, I'm going to get

1 shot, it might as well be trying to get away instead
2 of laying there basically waiting for it to happen.

3 : Your back is
4 to the car?

5 **A** Yes, ma'am.

6 : Your back is to the
7 action so to speak?

8 **A** No, my back was to the car. At that time
9 when Big Mike passed me, he passed in front of me.
10 He past in front of me and he was still going and
11 now at that time my back is towards the officer in
12 the vehicle.

13 : Okay.

14 **A** Big Mike ran past me.

15 : You can see Big Mike?

16 **A** Yeah.

17 Your back is to the
18 officer and the officer's car?

19 **A** Correct.

20 MS. WHIRLEY: ?

21 : . So we
22 appreciate hearing your perspective and you are
23 obviously very much involved in this. From your
24 point of view, from your perspective, if you had to
25 say, you know, what caused Officer Darren Wilson to

1 fire all of these shots as you are pursuing Mike
2 Brown, what would you say is the cause of that?
3 Kind of from what you've seen and everything that
4 happened, why would you say he was pursuing him?

5 **A** You are saying why didn't he fire the
6 shots from the beginning or from the last couple
7 shots?

8 : He is out of the vehicle
9 and he is pursuing as Mike is running, why would you
10 say, do you have any suspicion?

11 **A** I saw no reason possible for him to
12 actually fire the weapon now. If he would just pull
13 it out to threaten him to stop running, I could see
14 him doing that, but I still didn't understand why he
15 pulled a gun out to threaten somebody to stop him,
16 but like I said, I didn't see no reason for him to
17 fire the shots. The first one or the rest of the
18 ones afterwards.

19 : Thank you.

20 So you
21 mentioned that he never said stop or halt when Big
22 Mike was running?

23 **A** Correct, yes, sir.

24 : So I guess the point where
25 he fired the one shot and he turned around?

1 **A** Yes.

2 : Leading up to that, you
3 never heard stop, get on the ground?

4 **A** No, sir and like I said, I was still on
5 the scene to the point where I could, I was still
6 right in the area and the only thing that I heard
7 was Big Mike tell me to keep running. After that
8 there was no more words said by anybody, it was just
9 shots fired.

10 : . I have a
11 question. You said after the first shot, your ears
12 were ringing?

13 **A** Yes.

14 : I've been in close range
15 with a loud noise, I know it can take a while for
16 your hearing to fully restore where it is like
17 cotton or ear plugs, how well did you actually hear
18 Michael Brown say, keep running, Bro, or was it
19 really muffled to you. I guess where I'm going with
20 this, if you really couldn't hear that well, were
21 you able to hear the officer clearly if he was
22 saying anything?

23 **A** Right, and I understand that. Prior to
24 the first shot firing off and I got to the car, I
25 guess the ring, like I said, I've been shot at

1 before, I've been shot once before, but I've been
2 shot at in crazy situations, walking home from
3 school and all.

4 So the ringing affect from gunfire,
5 it really didn't drown out everything because my
6 adrenaline was pumping so hard, my mind is going so
7 many different ways, like survival mode I should
8 say. So once he says something, I can definitely
9 hear, I'm like I'm locked in on him and the police
10 officer, Big Mike and the police officer.

11 So once he runs by me and says, keep
12 running, Bro, it is almost clear as us having a
13 conversation.

14 As the police officer is walking by,
15 he's not saying anything so much as focusing on
16 where he's going because he never once glanced over
17 at me like Big Mike did. Big Mike actually turned
18 his head and looked at me and kept running. The
19 officer walked past me and now that I'm not, I'm not
20 crouched down lower than I was when Big Mike saw me,
21 I'm still, is the officer going to see me or what is
22 he going to do because I know he can see me. What
23 is he going to say. He never said anything, never
24 look towards me, he just kept walking past me.

25 Q (By Ms. Whirley) So when you go back to

1 the scene to verify that what you thought happened
2 did indeed happen, what did you do then when you see
3 him laying, and there is no police there, what do
4 you do?

5 **A** At that time I kind of stood back into the
6 crowd of people that is starting to come out now
7 because at that time now, police officer was coming.
8 At that time it wasn't Darren Wilson who came back,
9 it was some other officer.

10 He initially started putting up the
11 tape around the area. At that time it was, he was
12 by himself.

13 So the family and people, I could
14 tell it was his family. They were trying to get
15 information from that officer who had just got on
16 the scene, so he really didn't know anything that
17 happened. So he's basically telling them to get
18 back, get back, move away and move away. I'm just
19 standing there like if this is his family and all
20 they want to know is why their son is laying in the
21 street uncovered. He wasn't covered at that time.

22 Everyone is taking pictures of him
23 and stuff like that, he's not covered, he's bleeding
24 everything, he's out in the open. The parents want
25 to know why, they're asking this officer who is on

1 the scene caution up, he's not telling them
2 anything, he has no information. Darren Wilson
3 wasn't there to tell him anything, you know, he was
4 gone.

5 His car was still there, they
6 actually had to take some caution tape over his car
7 because they left it there at that time so his car
8 was still there. It was cautioned off, but when I
9 saw that they were not giving, you know, the parents
10 what happened or anything like that and I was kind
11 of waiting to see if they were, if anybody were
12 going to come out to speak to them and say anything,
13 no one said anything.

14 Q Did you make contact with the police to
15 let them know what was going on?

16 A At that time I was real fearful, I was
17 more scared of police. I should say I didn't want
18 them to know when I ran the first time, everyone was
19 saying well, there was somebody with him, he ran so
20 fast we couldn't tell who it was, that's how fast I
21 was running. Even people who see me every day in my
22 complex didn't know it was me running.

23 Q Who was the first person that you talked
24 to about what happened?

25 A I had, I went to his grandmother's house.

1 She had just got out of the hospital and stuff. She
2 is staying in Northwinds, when I see his uncle and
3 all of them standing right there, I immediately all
4 right, they are not going to tell these people
5 anything, I have to tell their family. I was with
6 him last, I saw what happened. So I went to his
7 family only where he was living at.

8 Q His grandmother's house?

9 A His grandmother's house.

10 Q Did you actually talk to his grandmother?

11 A Yes, I talked to his grandmother.

12 Q What did you tell her?

13 A I told her exactly what happened. From
14 the start of the morning all the way to the store
15 incident.

16 Q What you told us here today?

17 A Yes, exactly.

18 Q So you went through the whole thing with
19 the grandmother?

20 A I told the grandmother, yes, ma'am,
21 grandmother, I think, I don't know if his auntie or
22 uncle was there, but it was definitely the immediate
23 family who lived there.

24 Q You told them?

25 A I told them.

1 **Q** Okay. Did anybody talk about calling the
2 police?

3 **A** They actually wanted me to walk down, that
4 was my first interview. I don't know if it was Fox
5 2 or anything like that, the first statement that
6 I've given. And that was the reason I gave it
7 because the family they asked me if I could do it
8 for them because they wanted to get it out
9 immediately. Their words, so it wouldn't be covered
10 up or misconstrued or any type of way. They wanted
11 me to get it out there quickly.

12 Even at that time now, it's a lot,
13 there is a strong police for now, there is a lot of
14 police officers, detectives out there. While I'm
15 talking to the camera, I'm talking to the camera
16 crew right here in this area where the cameras are
17 located at.

18 They taped off pretty much this area.
19 They taped off so all of that was taped off, nobody
20 could come through here or there or anybody like
21 that, it was taped off. Police force strong right
22 here and they are walking around, but I'm right here
23 talking to the camera. The first interview, I'm
24 talking to the camera, I'm talking to the uncles and
25 they are standing right there. At no time no police

1 officers came or looked for me or even was saying
2 they were looking for me.

3 Q You talking about that particular day?

4 A Yeah, that day.

5 Q So you didn't talk to the police, you were
6 so fearful?

7 A I was so afraid. I didn't know what was
8 going to happen to me. I basically just didn't,
9 really I didn't feel comfortable with Ferguson at
10 the time. That was really who was out there at that
11 time, there was a lot of Ferguson police officers
12 and I just felt like, you know what, I don't need to
13 be seen right now. I don't want to be detained in
14 any type of way, you know. It was just a lot at the
15 time and I was just in the crowd.

16 Even so, no one was asking for me or
17 looking for me really, they was just trying to
18 patrol the area what was going on.

19 Q Did you learn a day or two afterwards that
20 the police were wanting to get your statement?

21 A I didn't, a couple, three or four days, it
22 wasn't until I had my lawyer, that really was what
23 my concern was, I wait until I got a lawyer so that
24 I can, if they were looking for me, they wanted me.
25 I can go to my lawyer, here is what happen. I have

1 a lawyer right here that will represent me and stuff
2 like that.

3 At the time I didn't have nobody
4 representing me, I didn't have no one even caring if
5 it was me there or not.

6 Q Like the next day, did anybody tell you
7 that the police came to

8 A

9 Q looking for you to get a statement?

10 A I was actually there. No one came, I was
11 there in my apartment that day, no one came, knocked
12 on the door.

13 Q Not on the 11th, nobody came?

14 A Probably so because I don't know if I was
15 going to stay there on the 11th. When I came out,
16 the next day after this on the 10th, people thought
17 I was dead. Because they said that they found a
18 body, that is what happened, they found a body
19 behind Dominoes. The media, it was out of control,
20 people thought it was me.

21 When I came out of my apartment,
22 people crying and oh, they killed him too and all of
23 that. When some people saw me, like a neighbor saw
24 me, he was like, oh man, they are saying you're
25 dead. They said they found some body behind the

1 pizza place, you need to get out of here, it is
2 crazy.

3 So at that time my fear grew, not of
4 just me, for my daughter and my girlfriend.

5 Q Did your girlfriend tell you that the
6 police were looking for you to get a statement?

7 A She didn't see the police.

8 Q The police didn't make contact with your
9 girlfriend to your knowledge?

10 A Not with her or me.

11 Q So when did you first talk to the police?

12 A The first police that I did talk to was
13 the FBI and St. Louis County, and that was four days
14 prior to them releasing the video, so four days
15 before that, I had my talk with the FBI.

16 Q So that would have been the 13th of August
17 probably?

18 A Yeah, the 13th.

19 Q Okay. And so, even though the county
20 police, you know, the county police had taken over
21 the investigation?

22 A Well, I was out there long enough to see
23 the county actually come in and Ferguson leave, I
24 saw all of that.

25 Q Okay. And the county police were trying

1 to get you to get a statement, but you just weren't
2 aware of that?

3 **A** At the time, no, I wasn't aware of that,
4 that the county was looking for me or they wanted me
5 for questioning or anything like that.

6 MS. ALIZADEH: Can I ask a question?
7 Dorian, I know you talked about when you, you were
8 right by the police vehicle and you see these three
9 cars come up?

10 **A** Yes, ma'am.

11 MS. ALIZADEH: Did you notice were any
12 cars coming from that direction?

13 **A** At that time, actually, through the
14 incident, no cars were coming in that direction.
15 There was no one trying to get over even though I
16 could see the police squad car is on the opposite
17 side of the line as well, but no one came. There
18 was no one held up that way.

19 MS. ALIZADEH: When you ran after the
20 police officer shot Mike and you ran away, you ran
21 kind of around, did you run around the police car,
22 is that the line you drew?

23 **A** That the tape, that's me here and that's
24 run all the way around.

25 MS. ALIZADEH: So when you ran in this

1 direction, did you say anything to anybody?

2 **A** Oh, no.

3 MS. ALIZADEH: Did you say anything?

4 **A** I didn't say anything, I was just running.

5 MS. ALIZADEH: You didn't say they killed
6 my friend.

7 **A** It did come out, but I didn't get it out
8 loud where someone would have heard it, I was just,
9 killed my friend. You know, I was still
10 hyperventilating, but it didn't come out a clear
11 sentence to where somebody standing there would have
12 heard it.

13 MS. ALIZADEH: You didn't see whether
14 there were any cars right there that would have seen
15 any of this?

16 **A** Oh definitely, the three cars.

17 MS. ALIZADEH: No, no, no, I'm sorry, on
18 the other side of the police car?

19 **A** No, when I was running, I wasn't looking,
20 I looked at the officer, I seen that he was still
21 standing there, and that's when trying to figure out
22 something in his head, let me run and I just ran. I
23 just kept running.

24 MS. ALIZADEH: Okay.

25 : : I have a

1 question for you. You talked about Michael Brown
2 said something, exchange words with the officer
3 during the tug of war at the car, you heard him say
4 something. And you heard him say something towards
5 the end right before he was killed, you didn't hear
6 the officer say anything during that tug of war or
7 anything during that entire time that he was coming
8 down the street.

9 **A** I didn't hear him, no, when he was coming
10 down the street after he got out of the car he said
11 nothing, I didn't see his mouth move. I was there
12 looking at him, his mouth wasn't moving, he didn't
13 say freeze or anything like that before he fired the
14 second shot, which made him stop.

15 And the car, because of the, I'm not
16 used to seeing, I see police officers get into it
17 with people before, I'm not use in that manner
18 sitting in his car, tug of war and all of that, I'm
19 not used to seeing it like that.

20 I'm not focused so much on what they
21 said, so much as saying who was going to calm down,
22 who was going to give in to the words because that
23 is all it was at the car was just words. There was
24 no physical altercation really as much as the
25 pulling of the arm, but so much as words being said

1 in a very aggressive manner.

2 Nothing like, no threatening manner
3 like I'll kill you, or let me go or I'll punch you.
4 Let me the F go, get the F off of me, and what the
5 officer said, I couldn't really make what he was
6 saying, I heard him cussing also, he had a very
7 angry face.

8 : Once he exited the car,
9 you didn't hear the officer say anything?

10 **A** Once he got out of the car after the shot
11 was fired, he didn't instantly get out of the car
12 when we ran, it took him like a minute maybe, or
13 some seconds to get out of the car, that's how I was
14 able to get to where I was able to position myself.

15 I didn't hear the door open until
16 after Big Mike was passing me telling me to keep
17 running. I hear the door and now, I didn't look
18 back at the time, so I'm not really sure if it was
19 his door or the people's door whose car I'm hiding
20 behind, but I hear a door open and slam. And almost
21 seconds later, I see the officer walking past me, so
22 I kind of figure he was getting out of his car at
23 that time.

24 MS. ALIZADEH: Dorian, you said it took
25 almost a minute for him to get out of the car?

1 **A** I wouldn't want to --

2 MS. ALIZADEH: I'm not pinning you to
3 that.

4 **A** It is almost like it was a pause before he
5 got out of the car.

6 MS. ALIZADEH: Okay. Now, you said
7 earlier that he never radioed for help, is it
8 possible while he was in the car, that's what he was
9 doing?

10 **A** It is possible that little split second of
11 him not instantly getting out of the car he was
12 radioing for backup.

13 MS. ALIZADEH: You don't know why the
14 delay in getting out of the car or if he was calling
15 for help, you don't know?'

16 **Q** (By Ms. Whirley) And just to be clear,
17 between the time that you started, your day with Big
18 Mike at seven-ish and/or up to the time of the
19 shooting, 12-ish or so, you guys never did get a
20 chance to smoke the weed?

21 **A** We never got a chance to do anything. We
22 never got a chance to make it back to the house.

23 MS. ALIZADEH: Were you two ever apart
24 during that day, like where he could have been doing
25 something that you weren't there to witness?

5 **A** From the time I saw him, we was together
6 from seven all the way to him dying.

8 : . You
9 said several times that the police officer didn't
10 say stop or freeze or halt or whatever, but he did
11 say twice I'll shoot, I'll shoot you.

15 The first time he said
16 I'll shoot, his gun went off and the second time the
17 officer pulled his weapon out and said the second
18 time I'll shoot you. What did you think that meant,
19 did you not think that meant to stop?

21 I'll shoot you, when a
22 cop says, police officer.

25 : Okay.

1 **A** That means get out of the way, either get
2 out of the way or protect ourself because, you know,
3 if he really wanted to stop. They have a lot of
4 phrases that they teach the first day at the academy
5 halt, freeze.

6 I'm sure like you go through some
7 type of simulation to where any, you know, any
8 altercation they have they might already been
9 through a simulation or something like that in
10 training to where he knows how you are supposed to
11 handle a situation as opposed to just pulling his
12 gun on people who doesn't have guns drawn on him,
13 who don't have weapons drawn down on him.

14 I'm not saying anything at all, he's
15 not, he's yelling, but he's not making any
16 threatening remarks towards the officer, so there
17 was no need for him to draw his gun in the first
18 manner, and that's what it really became. Oh, let
19 me get away because now it is starting to get out of
20 hand either furthermore the argument. And that was
21 in itself and I see that you could of, I'm not going
22 to say what he should of did or could have did
23 because he's a police officer, what I do I'm a
24 civilian.

25 All I'm saying is the gun definitely

1 was, it was out of order. Could have been a taser,
2 anything that made someone stop. The taser make me
3 stop, anything less lethal than a gun. He could
4 have pulled out the billy club to show he was going
5 to use force if we didn't stop.

6 : Then
7 you see they were the police say I shoot, you don't
8 need to stop?

9 **A** If you're not doing anything wrong.
10 If you are running, you
11 continue running when the police say I shoot?

12 **A** We wasn't running at the time, we was just
13 standing there. If we had been running he said I'll
14 shoot, oh, yeah, I'll stop. I don't want to get
15 shot. We are standing still and someone draws a gun
16 on you.

17 : What did he say the
18 second time, I shoot?

19 **A** Second time was not running, we was still
20 standing at the car. He said it first, he said I'll
21 shoot, and when he said it the first time, he's just
22 aiming at us, he's not, you know, out of his car, we
23 are still standing right there. The second time he
24 begins to say it, but he doesn't even finish it when
25 the gun goes off, when his gun goes off.

5 MS. WHIRLEY: Why do you need a lawyer,
6 why do you think you need a lawyer?

15 I would love to have a representative
16 on the side of me that he takes my story and says it
17 in a way that you'll understand it in dialogue that
18 you will understand.

23 :

25 And I don't have money to

1 hire a lawyer if I need it.

2 **A** I definitely don't either. It is a
3 blessing to get to that age, I pray we all get to
4 that age.

5 MS. ALIZADEH: So Dorian, let me clarify
6 this to make sure. You are saying the officer fired
7 one shot while he was inside the vehicle?

8 **A** Correct.

9 MS. ALIZADEH: And his gun was still
10 inside the vehicle?

11 **A** Correct.

12 MS. ALIZADEH: And no part of Mike Brown's
13 body at that point was inside the vehicle?

14 **A** Correct.

15 MS. ALIZADEH: And that's the only shot
16 you heard at the car, correct, the only shot that
17 was fired at the car?

18 **A** Correct, yes, ma'am.

19 MS. ALIZADEH: And then as Mike Brown ran
20 away, the officer once he is going toward Mike
21 Brown, he fired one shot?

22 **A** Yes, ma'am.

23 MS. ALIZADEH: And you believe that that
24 hit Mike Brown at that point?

25 **A** Yes, ma'am.

1 MS. ALIZADEH: While Mike Brown is running
2 away?

3 A Yes. His back is facing me and the
4 officer, Big Mike is ahead of us now. So he's the
5 farthest one, the officer is behind him and I'm
6 behind the officer, but basically Big Mike's back is
7 facing both of us.

8 MS. ALIZADEH: Now, Mike is running, I
9 guess, at this point, right?

10 A Yes, ma'am.

11 MS. ALIZADEH: Can you just stand up for
12 me and show me what position Mike's body was in when
13 you believe the officer shot him?

14 A The second time?

15 MS. ALIZADEH: Yes, from behind as he was
16 running away.

17 A As he's running away, he's running with
18 his arms down. Once the second shot fired off, I
19 see his body do like a jerking movement, not to
20 where it looked like he got hit in his back, but I
21 knew, it maybe could have grazed him, but he
22 definitely made a jerking movement. He didn't take
23 a step after that, his next steps was turn around
24 after the second shot.

25 MS. ALIZADEH: Okay. So when he made that

1 jerking movement and you are assuming that he had
2 been hit by a bullet?

3 **A** The second time. He was already struck
4 the first time for sure with my eyes I saw blood
5 come from his shirt.

6 **Q** Right. I'm talking about when you say you
7 saw him do kind of a jerk?

8 **A** That would have been the second time he
9 was hit.

10 MS. ALIZADEH: Okay. When you say you saw
11 that happen, at that point his arms are not up,
12 raised up, correct?

13 **A** Not when his back is facing, none
14 whatsoever, no.

15 MS. ALIZADEH: Right, and then he stops?

16 **A** He stops and he turns around.

17 MS. ALIZADEH: And he turns around and his
18 arms are going up as he is turning around?

19 **A** Yes.

20 MS. ALIZADEH: Okay. And then the
21 officer, he doesn't proceed toward the officer?

22 **A** No, ma'am.

23 MS. WHIRLEY: Is he saying anything?

24 **A** At the time as soon as he turns around, he
25 didn't say anything. A split second later, he was

1 still angry because I know he could feel the shot.
2 He could feel the first shot if he was only shot one
3 time at that time, he definitely could feel that
4 shot. Shot him right in the area because his hand
5 couldn't really get up there. He was saying, I
6 don't have a gun, pop, pop, pop, pop, all the shots
7 came then.

8 MS. ALIZADEH: So from the time he turned
9 around, he did not proceed towards the officer?

10 **A** No, ma'am.

11 MS. ALIZADEH: You have said maybe half
12 step and then he went down?

13 **A** Half a step maybe, his foot was coming off
14 the ground. He was being riddled with more shots
15 and then caused him to tumble over.

16 MS. ALIZADEH: Let me ask you this. From
17 the time you think he might have been shot when you
18 saw the jerk, did he proceed to run any distance
19 after that?

20 **A** No, ma'am.

21 MS. ALIZADEH: He stopped immediately?

22 **A** He stopped immediately after that. After
23 that motion, pop, stopped, turned around.

24 MS. ALIZADEH: Is it possible that after
25 you saw him jerk like that, he continued to run

1 maybe another 20, 22 feet?

2 **A** Away from the officer?

3 MS. ALIZADEH: Yeah.

4 **A** No, after the second shot was fired, that
5 literally stopped him in his tracks and turned
6 around at that point.

7 MS. ALIZADEH: Then when you saw him turn
8 around, is it possible that he ran, not ran, at that
9 point he stopped running, right?

10 **A** Right.

11 MS. ALIZADEH: Is it possible that he
12 moved maybe 20, 22 feet toward the officer before he
13 fell?

14 **A** Not 20 to 22, not that far. Like I said,
15 he was barely on the sidewalk, he was barely on the
16 sidewalk to the parking lot. He was going towards
17 this building. I presume that's the way he was
18 running. He wasn't really all the way on the
19 driveway when the second shot went off, and he
20 turned around, and he was in the street.

21 He was taking a step towards the
22 officer to show him that he didn't have anything,
23 his hand was up, so he is showing the officer, I
24 don't have a weapon on me.

25 And as he's walking toward the

1 officer saying that in an angry manner, he was
2 saying it an angry manner, he was hurt, still
3 frustrated probably, so he's telling him, I don't
4 have a gun. I don't have -- before he can say, you
5 know, anything else, this man is riddled with more
6 shots until he tumbled other.

7 MS. ALIZADEH: He doesn't like run at the
8 officer?

9 A No, ma'am. At no point in time when he
10 turned around he made a rush towards the officer or
11 anything like he was going to tackle the officer or
12 anything like that. He was standing straight up.

13 MS. ALIZADEH: He maybe got like a step
14 you said before the gunshots?

15 A Before the several shots came. That was
16 the only time it came repeatedly, boom, boom, boom,
17 boom, boom, and he went down and that was it. He
18 wasn't moving any more.

19 MS. WHIRLEY: I don't know who was first.
20 : . When the
21 second shot was fired by Darren Wilson, where was he
22 related to his patrol car, was he right next to his
23 patrol car?

24 A The officer?

25 : Yes, on the second shot.

1 **A** Oh, no. The second shot, like I said,
2 once he got fully out of the patrol car, he never
3 turned back to it or got back in it. He came away
4 from the patrol car and like I said, feet and
5 distances are rough to me right now.

6 I definitely know that his patrol car
7 was in front of this driveway and in front of this
8 building, and when he shot the second shot he was at
9 the end of the building.

10 : . That being said,
11 going the same direction, they
12 found two bullet casings near the car. Do you have
13 any idea, any speculation why they find two bullet
14 casings at the car when you only heard one shot.

15 **A** I honestly do not know. He definitely
16 only shot one time inside the car, it wasn't
17 multiple shots. If they found, I mean, we don't
18 have forensics both shells match his gun. If they
19 did, I was lost after the first shot. That just
20 shows how much more shock I was in because I
21 definitely know he shot once, I wasn't aware of a
22 second shot at the car.

23 MS. WHIRLEY: Yes,
24 . So my question
25 again, so you were talking about doing the turning

1 motion when all the shots were fired, we'll see
2 where the wounds are, my thought was from the
3 turning, you were demonstrating the turning, I just
4 want to make sure. I don't know if you want to show
5 us, you are saying he is walking like this, you are
6 saying that second shot came on this side and then
7 that he turned?

8 **A** Yes.

9 : And the rest were on this
10 side?

11 **A** Well, he was running away, I didn't see
12 where the bullet struck him.

13 Okay.

14 **A** That's why I was trying to go back, but I
15 definitely saw the officer fire his gun while his
16 back was towards us, and both me and the officer, I
17 saw his body jerk. If he was struck, I don't know
18 if he was fully struck or he just grazed him, but
19 that's what stopped him in his tracks from running
20 away from the second shot.

21 : Thank you.

22 MS. WHIRLEY:

23 : . When you
24 came back after changing clothes and you saw people
25 were starting to come out at the scene, was anybody

1 in the street between the patrol car and where Big
2 Mike was laying in the street?

3 **A** Oh, yes, there was people crossing, no one
4 actually got close to his body, but people were
5 walking through the street, back and forth across
6 the side.

7 They would get on the sidewalk as
8 close they wanted to, but they wouldn't get in the
9 street by the body. They got pretty close to get
10 some real crazy pictures of his body.

11 MS. WHIRLEY: Was there anything stopping
12 them from getting up to his body before when it
13 first happened because you said there were no police
14 cars there initially?

15 **A** Nothing stopped anybody from the public
16 coming up to the dead body and just looking at it.
17 It was uncovered, his body was not covered at the
18 time, there was no police officers out there,
19 nobody, just the squad car. And he was not there,
20 there was no yellow tape. So people were just
21 coming out their doors, kids, you know, there is a
22 lot of kids out.

23 Just looking at the dead body, like
24 he is right here laying in front of us, that's how
25 people were able to walk up and look at his body,

1 and take their phones out, take pictures of his
2 body, was nobody telling them to stop.

3 At that time his family wasn't even
4 out there. It is just a bunch of random people
5 walking around coming out of that building, oh, it
6 is a dead body in our street. They are walking up
7 to it like it is a prank or something like that.

8 No, this is a real dead person, he's
9 not covered, his pants down are by his knees, you
10 could see the blood spilling from his top part, not
11 out of his head, but you can tell that it is blood
12 leaking because it is all coming from the top part.

13 I didn't even actually know he had
14 got shot in his face and head until the autopsy
15 report showed. I actually thought he just got shot
16 in his upper region and chest. When I seen a puddle
17 of blood coming from the top part of his body.

18 : Just to be clear, you did
19 see people between the car and this body in the
20 street?

21 **A** Correct.

22 MS. ALIZADEH: Dorian, you mentioned that
23 you didn't know until the autopsy report, what
24 autopsy report are you referring to?

25 **A** The private autopsy report that they

1 actually, there was only one that they spewed to the
2 public. It was the private autopsy where it said he
3 got shot in his face. It came out and went back in,
4 got shot in the top of his head. That's the only
5 one that I saw that they was releasing to the
6 public.

7 MS. ALIZADEH: Did you see an actual
8 report or you just saying what you saw because it
9 was on the news. I mean, they were speaking on the
10 news, did you actually see a report?

11 A Like the documentation of it, no, ma'am.

12 MS. ALIZADEH: So you are basing that on
13 what they said on the news?

14 A What the examiner said on the news, not
15 the media, the private examiner that was hired by
16 the family. And I'm sure his credentials follow him
17 wherever he goes. I know he is not random that's
18 doing an autopsy.

19 MS. ALIZADEH: No, and I'm not saying
20 that. I'm trying to figure out.

21 A Where I did I get those --

22 MS. ALIZADEH: I'm sorry, you know that
23 there was an autopsy done first?

24 A Yes.

25 MS. ALIZADEH: And then there was another?

1 **A** Second one.

2 MS. ALIZADEH: And a third?

3 **A** A third, right.

4 MS. ALIZADEH: I was trying to figure out
5 which one you were talking about?

6 **A** Correct, the family private autopsy.

7 MS. ALIZADEH: Okay. I'm sorry. Just one
8 more. When you made your statement to the FBI, was
9 that down at FBI or were you at the U.S. Attorneys
10 Office?

11 **A** I was down at my lawyer's.

12 MS. ALIZADEH: Oh, your lawyer's office,
13 that's right. Had you seen the autopsy report at
14 that time or did you know, I'm sorry, I know you
15 didn't see it. Had you learned the results of the
16 private autopsy at that point?

17 **A** Not from the private autopsy, but from
18 different witnesses account from where their
19 perspective was, their point of views, like the girl
20 on her third floor --

21 MS. ALIZADEH: Okay, we don't want to talk
22 about what other people saw.

23 **A** That's what I said.

24 MS. ALIZADEH: Because other people will
25 come in and say what they saw.

1 **A** Yeah, so.

2 MS. ALIZADEH: My question was, when you
3 talked to the FBI, we know that that was on the
4 13th, right?

5 **A** Correct, yes, ma'am.

6 MS. ALIZADEH: You hadn't seen, you didn't
7 know any results of any autopsy at that point, did
8 you?

9 **A** No, ma'am.

10 MS. ALIZADEH: Okay. I just want to
11 clarify that. I don't know when you learned that
12 stuff.

13 **A** Okay.

14 MS. ALIZADEH: All right.

15 MS. WHIRLEY: Another question over here?

16 : I have a question.

17 . You said you went home and you
18 changed clothes so you wouldn't be recognize?

19 **A** Yes.

20 : Did you have any blood on
21 your clothes

22 **A** No, ma'am.

23 : You were standing so
24 close to him?

25 **A** No, I didn't have, like blood didn't

1 splatter off of him so much as inside his shirt. I
2 seen it pop up on his shirt, he had a white shirt
3 on. So blood just trickled down his side.

4 MS. WHIRLEY: Anybody else? You Kathi?

5 MS. ALIZADEH: I just wanted to make sure
6 before we're done today, put your name and the date
7 of today's date on that map that you have been
8 drawing on, okay?

9 A Yes, ma'am.

10 MS. ALIZADEH: And then also one final
11 thing, Dorian, and I know that there are people that
12 say that they've seen things, some have come forward
13 and maybe some have not. And as we explained to you
14 before this started, we're trying to get to the
15 truth.

16 A Yes, ma'am.

17 MS. ALIZADEH: And so it is important if
18 there is someone out there that says they saw any
19 part of this, you know, we don't want the people
20 well, yeah, I talked to somebody who told me this.

21 A Right.

22 MS. ALIZADEH: But people who actually saw
23 this. Are you aware of anyone who claims that they
24 saw any part of this who has not talked to the
25 police or the FBI?

1 **A** I'm frankly surprised they have so many
2 witnesses to the actual event, prior to it happened,
3 I only saw one person that was out there when the
4 first shot went off all the way up to the last shot,
5 I only saw one person. I wasn't aware of anybody
6 and I only saw her because before the initial first
7 shot when the police stopped us, she was on her
8 balcony and I just happen to glance up and see her
9 and she stood there.

10 MS. ALIZADEH: Do you know who she is?

11 **A** Yes, her name is .

12 MS. ALIZADEH: Besides her, do you know
13 anybody who has said to you, man, that wasn't right,
14 I saw the whole thing. I'm not getting involved.
15 Is there anybody that you know of who claims to have
16 seen it, but is not going to come forward on their
17 own?

18 **A** Since the day all of this, of everything
19 that happened, I haven't spoken to anyone in
20 Canfield, per se. They really, I haven't seen, I
21 haven't been in that area.

22 It was a hard time for me getting my
23 things out of my apartment complex, so that's what
24 I'm dealing with now actually because they don't
25 want me consulting with nobody who may have heard

1 something from somebody else that want to tell me
2 something and stuff like that, I really don't know.

3 MS. ALIZADEH: The reason I ask you is
4 that at some point, I want to make sure that we've
5 heard, I don't want somebody coming forward down the
6 road and saying, hey, they never contacted me.

7 **A** Right.

8 MS. ALIZADEH: You know, if you know
9 somebody or later learn of somebody, would you let
10 us know so that we can try to talk to them?

11 **A** I pray that they get resolved before then,
12 but if someone ever came to me with evidence that
13 they was there and seeing something that is not
14 brought up already, then I would definitely relay
15 them to you all.

16 MS. ALIZADEH: Just also to clarify
17 because earlier you said you kind of knew some
18 neighbors and stuff, and you saw on the
19 balcony. Did you know her name before all of this
20 happen.

21 **A** I met her as She had recently just
22 moved there. I saw her moving in. I offered to
23 help them. I saw it was just two girls, I offered
24 to help them. She told me her name, she told me it
25 was I later found out her full name.

1 MS. ALIZADEH: So you had met her before
2 that date?

3 A Correct.

4 MS. WHIRLEY: Is there anything you want
5 to tell us that we just didn't think to ask that you
6 think is important, is information about this case?

7 A Yes. Regardless of everybody's opinion of
8 me, I know a lot of speculation of my past and
9 criminal record that I have or anything like that,
10 that day I felt like even though the store thing had
11 happened, I didn't feel like someone should have
12 lost their life.

13 I feel like the incident at the car
14 with both Mike Brown and Officer Darren Wilson could
15 have been resolved without deadly force.

16 We definitely wasn't posing a threat
17 to his life. I just want, I just pray that
18 everybody sees the evidence for what it really is.
19 Deadly force was really not necessary, everything
20 else, had he knew about the store incident, him
21 stopping us, all of that that's protocol, I get
22 that. Deadly force was never ever needed and I pray
23 that people really see that we didn't have any
24 weapons on us or anything like that.

25 He could be in jail right now.

1 MS. WHIRLEY: You mentioned something, you
2 know, the grand jurors may want to factor. You said
3 something about a criminal record?

4 A Yes, because I stay watching the news and
5 media outlets. I see they dug through years in my
6 past to see an incident that happened in Jefferson
7 City, but what they fail, they keep leaving out is I
8 was a freshman in college at this time, everybody
9 makes, you know, crazy little moves their freshman
10 year. I was just beginning, I was getting out, I
11 was breaking out of my kid years, you know, just
12 being on my own around new people, Atlanta people,
13 Washington people, people I never see on a daily
14 basis, I'm from St. Louis.

15 So to hold that against me and
16 Michael Brown on a day that has nothing to do with
17 it, I feel like it is very wrong, especially for
18 them not to dig two or three years prior and in
19 Darren Wilson's file and see if any complaints were
20 made against him. Basically all I keep seeing is
21 slander on my name.

22 Q (By Ms. Whirley) We don't want to slander
23 you, but we just want all the information you can
24 get. What is the nature of the thing in Jefferson
25 City, what happened?

1 **A** There was just basically me walking with a
2 group of kids that I knew, we were going to a YMCA
3 to play basketball. I didn't have membership there.
4 They actually had membership there. So we are
5 walking through some apartments, one of the guys,
6 you know, he grabbed a package and, you know, he
7 ripped it opened. As we are walking towards the
8 YMCA, I see a pool guy, he sees us, but he doesn't
9 see anything in our hand or anything like that, but
10 he sees us walking from out of the apartments going
11 towards the gym.

12 So I guess whoever's package it was,
13 they made the call saying someone had stole
14 something off their property or something like that.

15 And I guess he took it in his own
16 mind that I just saw these guys coming out of those
17 apartments. When they went to run the YMCA cameras
18 to see who had just recently walked in, I did not
19 pay to get in, even though I was supposed to. I
20 kind of just walked right on past, go down to the
21 gym, play basketball.

22 And when the police came and they ran
23 the camera back and they saw like he didn't pay or
24 this group right here, they came down, they grabbed
25 basically the last group.

1 MS. WHIRLEY: Did you get charged with
2 that?

3 A I did not get charged with it, I had to go
4 to court on two charges.

5 MS. WHIRLEY: What were the charges?

6 A I had a false report to an officer, I had
7 stealing charge that they were trying to see if I
8 was the one that had stole it. I was going to
9 court. At that time of me leaving court, I had been
10 fed up with being stopped by off campus police and
11 on campus police because of the stereotypical they
12 look at people from St. Louis. And being stopped
13 everyday, being late for class and having to remake
14 up work, I just said you know what, Jefferson City
15 school, Lincoln University was not for me at the
16 time.

17 So I left, and still having to come
18 back to court in Jefferson City, I've been getting a
19 lot done down here in St. Louis. I don't have a
20 charge for the City or County of St. Louis, but when
21 they run my name, they see Jefferson City. They
22 detain me sometimes, some police officers let me go.
23 A couple police officers they detain me. Jefferson
24 City, they never come and get me. The warrant is a
25 500 mile, my lawyer reached out to them, if you are

1 outside 500 miles.

2 MS. WHIRLEY: 50 miles.

3 **A** 50 miles, we are not coming to get you.

4 I'm sure the other police officers they see that,

5 but they always detain me and they hold me.

6 MS. WHIRLEY: You were never on probation

7 for that?

8 **A** When I got locked up, when I had got

9 locked up, I got to the Jefferson City probation

10 about the stealing, I guess I was in the middle of

11 asking the judge can I do my probation in St. Louis

12 because I was not from Jefferson City and in the

13 middle of that we kind of lost contact, lost

14 communication.

15 MS. WHIRLEY: It was probation, you had

16 resolved it through probation?

17 **A** Right.

18 MS. WHIRLEY: Was it a felony or

19 misdemeanor?

20 **A** It was a misdemeanor.

21 MS. WHIRLEY: Do you have an other

22 convictions or felonies or misdemeanors?

23 **A** No, ma'am.

24 MS. WHIRLEY: All right.

25 MS. ALIZADEH: I just want, you had

1 mentioned the stealing thing and then you said a
2 false police report?

3 **A** Yes.

4 MS. ALIZADEH: Is that the same incident
5 or was that a separate thing?

6 **A** That was the same incident with the
7 officer who actually had me, he put me in the car,
8 took me down to the station. I had both my school
9 campus ID and my state ID in possession of me. When
10 the officer asked me my name, I didn't say anything
11 so much as just handed him my identification. I was
12 mad at the time, again, I was a freshman in college,
13 I'm kind of angry with the police, so I don't really
14 want to say anything to them, but I know what he is
15 going to ask me for my identification.

16 So I hand him my school ID and both
17 my state ID at the same time. He is looking at both
18 of them, he's looking at me. I have a very
19 distinguished feature about me, I have one of my
20 eyes, I have a cataract, one of them is blue and the
21 other one is brown. It is like that on both my
22 picture ID, I have distinguish color on my eyes.

23 So I'm sure he can see that, in my
24 mind I know he can see it, I know he can tell that
25 this is me, who I am. He actually called campus

1 security from Lincoln University, they also came
2 down and verified that's him, you know, we seem him
3 walking around on campus. But because I never said
4 nothing to the officer, he took that as
5 disobedience.

6 And he was like, you are not going to
7 tell me anything, so I'm just going to write down
8 that you gave me a false report. Me being a
9 freshman and not really wanting to talk to him, I
10 just kind of shrug my shoulders not thinking too
11 much of it until it got to court and it was like
12 this is serious, but the judge, he threw that one
13 out of court. I never got charged for that or
14 anything.

15 MS. ALIZADEH: Okay.

16 MS. WHIRLEY: Anything else? Dorian, we
17 appreciate you coming.

18 (End of the hearing for September 10,
19 2014.)

1 GRAND JURY HEARING

2 MS. ALIZADEH: Good morning, everyone.

3 This is September 16th, 2014, it is about 8:35 a.m.

4 This is Kathi Alizadeh with the prosecutor's office,

5 Sheila Whirley is present, as well as all 12 grand

6 jurors, and the court reporter is present taking

7 down and recording what is being said.

8 Some housekeeping notes to start. I'm

9 going to pass out to you all, you all are going to

10 receive a copy of a statute. It is section 563.046,

11 and it is, it says law enforcement officers use of

12 force in making an arrest. And it is the law on

13 what is permissible, what force is permissible and

14 when in making an arrest by a police officer.

15 I also want to point out to you, I know

16 you have probably heard or know that there also is a

17 joint federal investigation that's going on at the

18 same time.

19 And several of our witnesses that you are

20 going to hear from are also being interviewed by FBI

21 agents or federal agents. And I want you to make

22 sure you understand the issues that are before you,

23 may be different than the issues in any federal

24 investigation.

25 Their investigation involves civil rights

1 violations. This investigation involves whether
2 there is criminal liability on the part of the
3 officer involved in the shooting.

4 So I can't tell you what the law is on the
5 civil rights issues, but don't be confused about,
6 you know, for example, what are the policies of the
7 police department necessarily doesn't have anything
8 to do with your decision. You certainly have the
9 right to know these things if you wish to know these
10 things, but keep in mind that there is a separate
11 and distinct investigation going on by the feds
12 involving civil rights violation or potential civil
13 rights violation.

14 The other thing is, I messed up. I'm not
15 perfect. Sheila will tell you that I'm not, but
16 we've been marking our exhibits and normally when I
17 have a trial I have all of my exhibits beforehand
18 and I mark them all beforehand and I try to be very
19 meticulous about my numbers. I have kind of been
20 marking these as I go. This has all been coming in
21 as we go, so I screwed up on the numbers. So I just
22 want to clarify for the record in case you are
23 keeping track of numbers.

24 Apparently I have two Grand Jury Exhibits
25 10.

1 So one is Detective photographs,
2 he's the crime scene detective that went to the
3 hospital and photographed Darren Wilson and the
4 other one is a disc that I played for you that had
5 Dorian Johnson's recorded statement.

6 I'm going to keep photograph as
7 being Number 10 and I am now going to make that disc
8 of statements, it is going to be Number 17.

9 And then apparently I have two Number 9s.
10 One Number 9, I don't know that I have used with you
11 all yet. I have marked it, and it is a set of
12 printed photographs that were taken by the morgue
13 personnel, not the autopsy photos that we saw during
14 Dr. testimony. These were separate
15 photos that were taken by the employees at the
16 Medical Examiner's Office in the morgue that are
17 different than the autopsy photos. And those are
18 going to remain Number 9.

19 The other Number 9 I have was a disc that
20 had the news clips on it that we showed where Dorian
21 Johnson had been interviewed or made certain
22 statements on television programs. And so that disc
23 is now going to be Number 16.

24 Unless you all see another issue or
25 problem, I think right now we have 1 through 17.

Page 8

1 You might not have seen all of those, but as far as
2 I know I don't have any duplicates other than that.

3 So I'll try to be a little more organized
4 in numbering of the exhibits.

5 Does anybody see any other issues with
6 duplicate numbers?

7 Okay. And then as we told you at the
8 beginning of every day, we are just going to kind of
9 give you a preview of what we are going to do. And
10 so first we're going to listen to a recorded
11 statement. The person being interviewed is a
12 sergeant with the Ferguson Police Department, his
13 name is He was the sergeant on duty
14 on the date of the shooting and he was Darren
15 Wilson's direct supervisor.

16 You will hear his statement. It is about
17 an hour long. And then following his statement,
18 Sergeant will be here to testify.

19 After that, we will present the testimony
20 of Detective , who is a St. Louis County
21 police detective, regarding an interview that he did
22 of Darren Wilson.

23 And then we are going to present the
24 testimony of

25

1 And she is an FBI agent and she also
2 did an interview of Darren Wilson.

3 Then we will also present a recorded
4 interview of Darren Wilson for you to listen, that's
5 about 30 minutes.

6 And then finally, I anticipate that the
7 afternoon will have Darren Wilson testifying for you
8 this afternoon.

9 The morning is basically going to be
10 statements that he has made during this
11 investigation from various people and then he will
12 be here to testify and answer your questions in the
13 afternoon, all right?

14 So with that being said, the next piece of
15 evidence is a disc that I have marked as Grand Jury
16 Number 18.

17 (Deposition Exhibit Number 18
18 marked for identification.)

19 MS. ALIZADEH: One of the things that I
20 will tell you that these discs that contain
21 statements of various individuals, I mean, you will
22 hear me use these discs repeatedly because one disc
23 might have 12 witnesses statements on it. I will
24 make sure I preface before we begin to play it whose
25 statement it is.

1 When you put the disc in the computer and
2 open up the file, it lists the names of everybody
3 who has made a statement on that disc. They are
4 pretty recognizable if you would have any need to
5 listen to a particular statement, it would be easy
6 to do that.

7 But there are a number of witness
8 statements on each of these discs, that's the way we
9 received them.

10 Also, we do not have a transcript of this
11 first statement. I've listened to it and it is
12 fairly clear. I don't think it should be an issue,
13 but at any time you all can't hear it or want us to
14 go back a couple of seconds or 30 seconds or a
15 minute if you miss something, that's easy enough to
16 do, all right?

17 We are going to play for you Grand Juror
18 Number 18 and it is the recorded statement of
19 Sergeant

20 (Statement is being played.)

21 MS. ALIZADEH: And as always --

22 And, again, this was Disc Number 18 that
23 you heard a recorded statement of It
24 will be available for you to listen to again at this
25 time during your investigation.

8 I thought they said the
9 19th.

12 The date, I think it was
13 the 19th.

15 MS. ALIZADEH: We certainly can put that
16 in and play the very beginning of it again just to
17 clarify the date.

19 : August 19th.

20 : Okay. They got it in their
21 notes.

23 MS. WHIRLEY: Certainly can ask Sergeant
24 he will be there.

25 MS. ALIZADEH: At any time you can listen

1 to any parts of these.

2 (Recess)

3

4 of lawful age, having been first duly sworn to

5 testify the truth, the whole truth, and

6 nothing but the truth in the case aforesaid,

7 deposes and says in reply to oral

8 interrogatories, propounded as follows, to-wit:

9 EXAMINATION

10 BY MS. ALIZADEH:

11 Q Would you state your name and spell it for
12 the court reporter, please?

13 A My name is

14 Q Where are you employed?

15 A City of Ferguson Police Department.

16 Q How long have you been a police officer?

17 A 38 years.

18 Q Have all of these 38 years been with the
19 Ferguson Police Department?

20 A Yes, ma'am.

21 Q Where did you get your training to become
22 a police officer?

23 A I attended the greater St. Louis Police
24 Academy in 1976.

25 Q And do you, are you a certified police

1 officer?

2 **A** Yes, ma'am, I am.

3 **Q** And do you have to undergo regular
4 training and updates to keep that certification?

5 **A** Yes, I do.

6 **Q** And currently, what is your rank with the
7 Ferguson Police Department?

8 **A** I'm sergeant of police.

9 **Q** How long have you been a sergeant?

10 **A** December 2002, no, December 2001.

11 **Q** What are your duties and responsibilities
12 as a sergeant with the Ferguson Police Department?

13 **A** Currently I'm a squad supervisor.

14 **Q** Were those duties similar in August of
15 this year?

16 **A** Yes, ma'am.

17 **Q** 2014?

18 **A** Yes, ma'am.

19 **Q** Was Darren Wilson one of the officers that
20 you supervised?

21 **A** Yes, ma'am, he is.

22 **Q** Now, just in the interest of full
23 disclosure, you and I had a conversation yesterday
24 about your testimony today, correct?

25 **A** That is correct.

1 **Q** You've not prepared a report, an incident
2 report in relation to this shooting, have you?

3 **A** No, ma'am, I have not.

4 **Q** So did I have you come in, and you and I
5 talked about what you knew, what you saw, what you
6 might be able to testify about, correct?

7 **A** That is correct.

8 **Q** And previously you were interviewed by a
9 county detective as well as an FBI agent, an
10 attorney from the Department of Justice, and gave a
11 tape recorded statement; is that right?

12 **A** Yes, ma'am.

13 **Q** Now, I didn't play that statement for you
14 yesterday, did I?

15 **A** No, ma'am.

16 **Q** And since you gave that statement, have
17 you ever heard that recorded statement again?

18 **A** No, ma'am.

19 **Q** And do you think that the events of
20 August 9th, 2014, are still clear in your mind?

21 **A** Yes, ma'am.

22 **Q** So that day we've heard, we know a little
23 bit about the shift and how many officers were
24 working that day, Darren Wilson was working on your
25 squad that day; is that right?

1 **A** That is correct.

2 **Q** And his shift would have been from 6:00
3 a.m. to 6:00 p.m.?

4 **A** Actually 6:30 a.m. to 6:30 p.m.

5 **Q** Is that the entire squad has that same
6 shift; is that right?

7 **A** That is correct.

8 **Q** And we know that you received a call at
9 some point to go to the area of the Canfield Green
10 Apartments; is that right?

11 **A** Yes, ma'am.

12 **Q** And at the time that you received that
13 call, you were on duty; is that right?

14 **A** Yes, ma'am.

15 **Q** And you were actually at a call at that
16 time, correct?

17 **A** Yes, ma'am.

18 **Q** Did you know what the nature of why it was
19 that you were being asked to respond to that scene?

20 **A** No, ma'am.

21 **Q** Is there any kind of code that your police
22 department uses to indicate that there's some kind
23 of critical incident that may have occurred?

24 **A** We have a J code, J-1 would be immediate
25 response.

1 **Q** Now, is Ferguson Police Department
2 dispatched by their own dispatchers?

3 **A** Yes, ma'am, we have our own dispatching
4 staff.

5 **Q** I want you to make sure you keep your
6 voice up so everybody can hear you because with the
7 fans sometimes it is kind of hard. That mike is
8 recording, it is not necessarily amplifying your
9 voice, okay?

10 **A** Understood.

11 **Q** So you don't go through county's dispatch,
12 you have your own dispatching system, correct?

13 **A** Correct.

14 **Q** And are you aware that on your radios you
15 can get county dispatch channels?

16 **A** We have several various channels on our in
17 car radios and on our walkie-talkies.

18 **Q** As you are dressed today, you have a
19 uniform on, is that how you would have been dressed
20 that day?

21 **A** I was in short sleeves and no tie, but
22 yes, ma'am.

23 **Q** And I see that you have a mike that is
24 clipped to your epaulet on the shoulder of your
25 uniform shirt?

1 **A** Yes, ma'am.

2 **Q** Is that how you carry that all the time?

3 **A** Yes, ma'am.

4 **Q** And is there, is that mike attached then
5 to a portable or mobile walkie-talkie?

6 **A** Yes, it is.

7 **Q** And does that radio on your belt have the
8 same channels or can it get the same channels that
9 your police vehicles can get?

10 **A** That is correct.

11 **Q** And so when you're on duty, is there a
12 particular channel that you just stay on so that you
13 can hear the radio traffic and what's going on in
14 Ferguson?

15 **A** We have a primary channel and we are
16 usually on that during our work shift.

17 **Q** What's the primary channel?

18 **A** The frequency?

19 **Q** Is there a number like?

20 **A** It is Channel 1.

21 **Q** Okay. Let me ask you this. When there
22 are officers out in the City of Ferguson patrolling
23 and an officer uses his radio on Channel 1 and says
24 something regarding a call or just anything, hey,
25 I'm going out of service, I am going to go get

1 dinner, does everybody that's carrying a
2 walkie-talkie hear that then?

3 **A** Not necessarily.

4 **Q** Do you know why that is?

5 **A** Well, the walkie-talkies are only 5 watt
6 transmission power. If they are out in the far
7 sector or far enough away from a receiver, not
8 everybody will hear it. Dispatch will hear it
9 because the receivers will transfer that message to
10 them, but not necessarily broadcast it out through
11 the entire area.

12 **Q** Okay. Now, you now know as you sit here
13 today that there was an incident that occurred at
14 the Ferguson Market shortly before this shooting
15 incident involving Officer Wilson, you now know
16 about that, correct?

17 **A** Yes, I do.

18 **Q** That day when you were in service and on
19 duty, did you hear any radio calls involving a
20 larceny in progress or that there was officers
21 responding to the Ferguson Market?

22 **A** No, ma'am.

23 **Q** And is that, do you think that's because
24 wherever, if there was a call made, that that was
25 just something that you were out of range to

1 actually have heard?

2 **A** It could have been because I was tied up
3 with another situation that I was trying to deal
4 with.

5 **Q** And so is it, and we've all kind of seen
6 this, I think, as you are walking around, you can
7 have the volume turned up on your mobile
8 walkie-talkie so that you hear what's being
9 transmitted, correct?

10 **A** That is correct.

11 **Q** Are there times when you might be
12 interacting with somebody or in a situation where
13 you turn that volume down so that that noise doesn't
14 interrupt what you are doing?

15 **A** Yes, ma'am. Usually when I'm on the
16 telephone or I'm trying to get control of a
17 situation, I may turn the volume down so that they
18 can hear just me speaking.

19 **Q** Okay. But at any rate, you didn't hear
20 the call that came out if the call came out that
21 there was something going on or taken place at the
22 Ferguson Market, is that fair to say?

23 **A** Correct.

24 **Q** And then while you were on this call, you
25 did receive a call to respond to the Canfield Green

1 Apartment complex, correct?

2 A Yes, ma'am.

3 Q And was there any mention, did that call
4 come to you from an officer or did that come from
5 dispatch?

6 A That came from dispatch.

7 Q And prior to getting that call, had you
8 heard any transmissions by Officer Wilson?

9 A No, ma'am.

10 Q And so when you got that call, was there a
11 code with that call that meant respond immediately?

12 A I was told that I was needed at the
13 intersection of Canfield and Copper Creek
14 immediately.

15 Q Immediately?

16 A Uh-huh.

17 Q And so did you then finish up what you
18 were doing or did you leave immediately and respond?

19 A I turned the scene over to the first
20 responding officer and I left immediately.

21 Q So there was, the scene you were at at
22 that time, there was another police officer also
23 working that scene?

24 A Yes, ma'am.

25 Q And so you left then immediately and

1 responded to the Canfield Apartment complex?

2 **A** Yes, ma'am.

3 **Q** And about how long, how far away were you,
4 like how many minutes did it take you to get there?

5 **A** It took me probably about two, two and a
6 half minutes. I mean, travel time, not travel time,
7 but travel distance was probably three quarters of a
8 mile.

9 **Q** Okay. So you were really close?

10 **A** Yes, ma'am.

11 **Q** And when you got to that location, you've
12 been patrolling the street of Ferguson for 38 years,
13 is that fair to say?

14 **A** Yes, ma'am.

15 **Q** Very familiar with all the streets and how
16 to get around?

17 **A** Yes, ma'am.

18 **Q** When you arrived at that location, did you
19 come in off of West Florissant down Canfield or did
20 you come in like the back way through the
21 Northwinds?

22 **A** Northwinds Apartment.

23 **Q** Did you come in the back way?

24 **A** No, I came in from West Florissant on
25 Canfield.

1 **Q** So when you were going down Canfield, at
2 that point you are going east on Canfield?

3 **A** Yes.

4 **Q** I know Canfield kind of winds, isn't
5 necessarily a straight shot, you are heading in the
6 general vicinity of east?

7 **A** Yes, ma'am.

8 **Q** Were you in a marked police vehicle?

9 **A** Yes, ma'am, I was.

10 **Q** Did you go to the scene with emergency
11 lights and sirens on?

12 **A** I don't recall. I believe the traffic was
13 relatively sparse at that time, I don't believe it
14 was needed.

15 **Q** Okay. So when you arrived at the scene,
16 did you see Mr. Darren Wilson's vehicle?

17 **A** Yes, ma'am, I did.

18 **Q** Did you notice any other vehicles, whether
19 it be police officer vehicles or other just civilian
20 vehicles?

21 **A** I saw two other police vehicles.

22 **Q** All right. I guess for, as far as the
23 police vehicles in Ferguson, we know that Officer
24 Wilson had a Tahoe?

25 **A** Yes, ma'am.

1 **Q** And did you also have a Tahoe?

2 **A** Yes, ma'am.

3 **Q** Are all the police vehicles in Ferguson
4 Tahoes?

5 **A** Primarily the entire fleet are Tahoes, but
6 we also have a secondary fleet of Crown Victorias.

7 **Q** So the two police vehicles that you saw
8 there, besides Officer Wilson, which we've seen
9 pictures of, were those also marked Tahoes?

10 **A** Yes, ma'am.

11 **Q** So when you got there, you notice Officer
12 Wilson's vehicle, which direction was it facing in
13 the street?

14 **A** It was kind of catty-corner to the, or
15 angular to the traffic lane, but it was pointing
16 more in a westerly direction.

17 **Q** Towards West Florissant?

18 **A** Yes, ma'am.

19 **Q** And were the lights on on his vehicle at
20 all?

21 **A** No, ma'am.

22 **Q** Siren in his vehicle?

23 **A** No, ma'am.

24 **Q** What about the other two Durangos, (sic)
25 can you describe where those were, were they on

1 Canfield?

2 **A** Yes, ma'am, they both were on Canfield.

3 Both of them were further east than Officer Wilson's
4 location.

5 **Q** And when you arrived at that location, did
6 you see a body?

7 **A** Yes, ma'am.

8 **Q** And was that, where was that body or where
9 were those two police vehicles in relation to the
10 body?

11 **A** One police vehicle was beyond the location
12 of the body parked across the traffic lane to
13 prevent any vehicle from coming that direction and
14 the second car was parked off to the right side of
15 the roadway.

16 **Q** So the vehicle that was, I guess,
17 perpendicular to the street, that would have been
18 farther east of the body; is that right?

19 **A** Yes, ma'am.

20 **Q** And the entire time from the time you got
21 there until the scene was cleared, did you ever
22 observe Officer Wilson's vehicle move or be moved,
23 other than when it was towed away?

24 **A** No, ma'am.

25 **Q** When you arrived there, do you recall was

1 the door to his vehicle, and I'm talking about
2 Darren Wilson's vehicle, was any of the doors open?

3 **A** No, ma'am.

4 **Q** Did you see Darren Wilson?

5 **A** Yes, ma'am, I did.

6 **Q** Where was he?

7 **A** He was behind, he was on the driver's seat
8 of the vehicle.

9 **Q** Of his vehicle?

10 **A** Yes, ma'am.

11 **Q** What about the other officers whose
12 vehicles were at the scene, did you see where they
13 were?

14 **A** I believe they were in a position to
15 protect the area where the body was located.

16 **Q** Now at this time, and I know you don't
17 know when everybody else got there, we know that two
18 officers, obviously, responded prior to your
19 arrival; is that right?

20 **A** Yes, ma'am.

21 **Q** Were those two officers, did you see them
22 interact with Darren Wilson or did you see them
23 talking to him at all?

24 **A** No, ma'am.

25 **Q** And did you, at that point have any crime

1 scene tape gone up?

2 **A** No, ma'am, not at that time.

3 **Q** And at that point, were there any cones in
4 the street or around the area?

5 **A** One of the officers had placed a few cones
6 around to indicate location of possible evidence,
7 but not all the cones had been placed out yet.

8 **Q** Okay. And I asked you if you noticed were
9 there any civilian vehicles, I know it is an
10 apartment complex and there is parking lots, but I'm
11 talking about in the street itself. Were there any
12 civilian vehicles that were stopped in the street
13 when you arrived?

14 **A** No, ma'am.

15 **Q** Did you notice any pedestrians, civilians
16 that were on foot in the area?

17 **A** There were several pedestrians about the
18 area.

19 **Q** When you say several, when you first
20 arrived, give me an idea how many you think, an
21 estimate how many you would say at the scene?

22 **A** I'd say 10 to 15.

23 **Q** Okay. Now, we've heard that there was
24 obviously a larger crowd that gathered during the
25 day and that there was some unstableness in the

1 crowd, but at this point, were those 10 to 15
2 people, were they interfering at all, were they
3 creating a disturbance?

4 **A** They were making some noise regarding who
5 the body was and it was at that point in time that I
6 grabbed some crime scene tape out of my police
7 vehicle, gave it to the two officers that were
8 already there and told them to start setting up a
9 perimeter to keep people back.

10 **Q** And so at this point it is fair to say
11 that you didn't know whose body was in the street,
12 correct?

13 **A** That is correct.

14 **Q** And none of the other officers at this
15 point had identified who was in the street, correct?

16 **A** To the best of my knowledge, that's
17 correct.

18 **Q** And then other people that were gathering
19 in the area, people were wondering who it was
20 because maybe it was someone they knew or a loved
21 one of their's, correct?

22 **A** Yes, ma'am.

23 **Q** So there was some agitation or stress
24 involved with people that were there, they were
25 concerned about who that was?

1 **A** Yes, ma'am.

2 **Q** When you arrived, was the body of Michael
3 Brown covered?

4 **A** No, ma'am.

5 **Q** And so when you first arrived, were there
6 any medical personnel, EMS?

7 **A** I believe they showed up shortly after I
8 did.

9 **Q** And did the fire department also show up?

10 **A** Yes, ma'am.

11 **Q** And is that typical that when EMS is
12 called, a firetruck or a rescue vehicle will also go
13 to the call?

14 **A** It actually depends on the call. If it is
15 a more critical call, such as a life threat, a heart
16 attack, difficulty breathing, yes, they would
17 respond with the EMS personnel.

18 **Q** So it is not unusual that on this type of
19 call that the firetruck came too?

20 **A** Not at all, no, ma'am.

21 **Q** There was no fire or anything of that
22 nature, correct?

23 **A** Correct.

24 **Q** Okay. Did those officers then begin to
25 put up the crime scene tape to create the perimeter

1 around the crime scene?

2 **A** The two police officers did, no other fire
3 personnel or ambulance personnel.

4 **Q** Now, at this point is Darren Wilson still
5 in the vehicle?

6 **A** Yes, ma'am.

7 **Q** Did he get out of the car when you got
8 there?

9 **A** The only time he got out of the car is
10 when I told him to get into my vehicle and leave the
11 scene.

12 **Q** Okay. So he stayed in his own car until
13 you told him to take your car and go back to
14 Ferguson Police Department?

15 **A** That is correct.

16 **Q** So going back now, we kind of got the
17 scene what it looked like when you first got there,
18 what's the first thing you did when you drove down
19 the street and saw Darren Wilson's car facing you in
20 the street the way it was?

21 **A** I pulled off onto a driveway apron, right
22 off the street, parked my car and then I walked over
23 to speak with Officer Wilson.

24 **Q** So contacting Officer Wilson was the first
25 thing you did?

1 **A** Yes, ma'am.

2 **Q** But from where you were, could you see
3 that there was a body in the street?

4 **A** Yes, ma'am.

5 **Q** And what did you say to Officer Wilson?

6 **A** I initially asked him what had happened.

7 **Q** Now, you and I talked yesterday about your
8 recollection of Officer Wilson's statement. And we
9 talked about the fact that sometimes when you are
10 recounting a statement, you kind of like use your
11 own words to paraphrase?

12 **A** Correct.

13 **Q** We also talked about that police officers
14 have what we call like cop talk, where you use
15 phrases and words that are typical in police lingo
16 or vernacular, wouldn't that be fair to say?

17 **A** Oh, yes, ma'am.

18 **Q** And remember and recall that yesterday
19 when you and I talked about this, it is important
20 for today that you as best you can use Darren
21 Wilson's words, don't try to paraphrase, don't try
22 to put your spin on things. And I know I don't mean
23 that you would do that intentionally, but if he
24 didn't say that it was, you know, forceful or if he
25 didn't use the words, try not to use your own words,

1 okay?

2 **A** I understand.

3 **Q** And so when you walked up, the best you
4 can recall your words were, what happened?

5 **A** That's what I asked him, yes, ma'am.

6 **Q** All right. And as best you recall, what's
7 the first thing he said to you?

8 **A** He said I had to shoot him.

9 I asked him why?

10 He said he had been walking in the
11 street, I told him to get off the sidewalk, or get
12 on the sidewalk.

13 I said okay.

14 He said well, they told me to fuck
15 off. I slowed my car down, or he slowed his car
16 down and I told him, hey, all you got to do is get
17 out of the street and get on the sidewalk.

18 **Q** Okay. Now, let me stop you. You're
19 saying I told them, so you are talking as Officer
20 Wilson and that's good.

21 **A** That is what he told me.

22 **Q** That's how I want you to do this. So
23 speak as best you can the way Officer Wilson spoke
24 as if you were Officer Wilson?

25 **A** Okay. And he said he stopped his vehicle

1 and he said the individual laying on the street came
2 up to the side of his car and started hitting on him
3 through the window.

4 I said hitting you?

5 He goes, yeah, he reached in, he hit me on
6 the side of my face several times, and grabbed at my
7 shirt, grabbed at my hands and arms.

8 He said I was trying to get out of the
9 vehicle and he wouldn't let me out, he kept pushing
10 the door closed.

11 The individual reached in and was trying
12 to grab at his pistol, his pistol came out of his
13 holster. He told me he had control of the weapon,
14 but it was being pointed at him. He had the gun in
15 his hand, but the muzzle of the weapon had been
16 turned where his hand was actually turned toward
17 him.

18 And he said he was still getting hit
19 with one hand at times and there was a struggle over
20 the gun. He said the weapon was, he didn't get
21 control of the weapon, but he was able to turn the
22 weapon away from himself and the firearm discharged.
23 He said the gun went off.

24 Q Is that how he described it, the gun went
25 off?

1 **A** The gun went off.

2 **Q** Or did he say I fired a shot?

3 **A** No, he said the gun went off.

4 **Q** Okay.

5 **A** He said at that point the individual
6 backed up away from the car and Darren thought he
7 actually got shot, he said I think I shot him in the
8 stomach. And I looked at the side of the car door,
9 and there was no exit on the door, it was just a
10 dimple in the sheet metal.

11 I said what happened then?

12 He said he started running, I got out
13 of the car to chase after him. He said he got down
14 about 30, 40 feet from where the car was parked and
15 for some reason the individual stopped and turned
16 toward him.

17 I said okay.

18 He said, at that point he said
19 something to the effect of, you're too much of a
20 pussy to shoot me and turned, he had faced him and
21 started to charge at Officer Wilson.

22 **Q** Did Officer Wilson use those words that he
23 started to charge?

24 **A** Yes, along with, said he had had an angry
25 look in his face or in his eyes and he says I know

1 this man was bigger than me, I wasn't going to be
2 able to fight him.

3 **Q** What did he say happened next?

4 **A** He said he shot him.

5 **Q** I asked him how many times?

6 **A** He says I think four.

7 **Q** Now, were you recording his statement?

8 **A** No, ma'am.

9 **Q** Were you taking notes as he was giving you
10 his statement?

11 **A** No, ma'am, I did not.

12 **Q** After his statement, did you go back to
13 your department and write down notes to help you
14 recall the statement?

15 **A** No, ma'am, I did not.

16 **Q** So this is from your memory of August 9th
17 as far as what Darren Wilson told you and what you
18 saw, correct?

19 **A** That is correct.

20 **Q** And Sergeant have you been involved
21 in investigations of police officer involved
22 shootings?

23 **A** Yes, ma'am.

24 **Q** Have you investigated those incidents?

25 **A** Yes, ma'am.

1 **Q** Have you also been the subject of an
2 investigation in a police officer shooting?

3 **A** Yes, ma'am.

4 **Q** So you've discharged your weapon at
5 someone in your career?

6 **A** Yes, I have.

7 **Q** And, in fact, the incident that we're
8 talking about was the courthouse shooting involving
9 ; is that right?

10 **A** That is correct.

11 **Q** Were you one of the officers that shot
12 ?

13 **A** Yes, ma'am.

14 **Q** Following that shooting, I don't want to
15 get into the details of that, but were you asked by
16 other investigators how many times you discharged
17 your weapon that day?

18 **A** Yes, ma'am.

19 **Q** And what was your answer?

20 **A** Three times.

21 **Q** And so you thought you had fired three
22 times, correct?

23 **A** Correct.

24 **Q** Did you later after having downloaded your
25 weapon or have your weapon examined, did you later

1 discover how many times you actually did fire that
2 day?

3 **A** Yes, ma'am.

4 **Q** How many times?

5 **A** Four times.

6 **Q** So on that day, you believed you fired
7 your weapon three times and you discovered actually
8 you fired it four times?

9 **A** Yes, ma'am.

10 **Q** And as you sit here today, do you still in
11 your mind recall three shots?

12 **A** I still recall three shots.

13 **Q** And in your experience investigating
14 officer involved shooting, is that unusual that the
15 officer involved in the shooting does not accurately
16 recount the number of shots that he fired?

17 **A** That is correct.

18 **Q** And I know you're not an expert and I'm
19 not going to ask you about the mind of someone when
20 they're going through that scenario, but you've
21 actually been there, correct?

22 **A** That is correct.

23 **Q** You have a unique perspective that
24 probably none of the other witnesses who are going
25 to testify in this investigation have. When you are

1 involved in that type of critical scene, what is
2 your focus and what's your training tell you to
3 focus on?

4 **A** You focus on your target. I'm sorry, not
5 target, but you focus on whose angry at you, whose
6 coming at you or whose trying to harm you.

7 **Q** So would it be fair to say that you focus
8 on the threat?

9 **A** Yes, ma'am.

10 **Q** And is it unusual or typical, I guess,
11 that you kind of lose focus of other things that
12 might be going on around you?

13 **A** No, it is not unusual. You get kind of
14 like tunnel vision. You only see, like you said,
15 the threat.

16 **Q** All right. And so let me ask you this.
17 When Darren Wilson told you about, for example, he
18 said that there were two men walking in the street
19 and he told them to get on the sidewalk, did he tell
20 you whatever became or happened to that other
21 individual?

22 **A** No, ma'am.

23 **Q** Did you see, we now know Michael Brown was
24 shot dead in the street, did you see the other
25 individual at the scene who might have been the

1 individual that Officer Wilson saw walking with
2 Michael Brown?

3 **A** No, ma'am.

4 **Q** Now, understanding how important this
5 initial statement might be, is there a reason why
6 you did not record his statement?

7 **A** Number one, I did not have a recorder.
8 Number two, I didn't take notes because at that
9 point in time I had multiple things going through my
10 mind besides what Darren was telling me.

11 **Q** You've already said that before arriving
12 at the scene you didn't even know that this was a
13 shooting, would that be fair to say?

14 **A** Correct.

15 **Q** You didn't hear other radio traffic from
16 other officers saying that there had been a
17 shooting?

18 **A** No, ma'am.

19 **Q** So describe for the jurors how Darren
20 Wilson appeared to you, his demeanor, first of all?

21 **A** He appeared in a state of shock. He was
22 staring at the dashboard of his vehicle initially.
23 It was only after maybe a couple of questions that
24 he finally looked at me. I could see the side of
25 his face, especially around his mouth starting to

1 puff up and swell. Also the same thing along the
2 side of his left eye, see a mouse starting to grow.

3 His uniform shirt was disheveled,
4 kind of pulled out of his waistband.

5 **Q** Did you notice any blood on him?

6 **A** No, ma'am, I did not notice any blood on
7 him.

8 **Q** Did you ask him if he was shot or injured?

9 **A** Yes, I did.

10 **Q** What did he say?

11 **A** He said the only thing that he knew of was
12 his face from being hit several times.

13 **Q** And you didn't see anything on him to
14 indicate that he was bleeding?

15 **A** No, ma'am.

16 **Q** And so after you, at this point I'm kind
17 of circling back now.

18 **A** That's okay.

19 **Q** He's told you that he pursued Michael
20 Brown and Michael Brown stopped and turned in his
21 direction and charged him. I'm just kind of
22 catching up. So I know it was in a little more
23 detail and then he shot him and Michael Brown went
24 down on the street?

25 **A** Correct.

1 **Q** What did Darren Wilson say he did then or
2 did he say anything?

3 **A** He didn't indicate anything other than he
4 called it into the dispatch.

5 **Q** All right. Now, when you were there, did
6 you see anyone place a sheet over the body of
7 Michael Brown?

8 **A** Yes, ma'am, one of the paramedics
9 initially put one sheet over Brown.

10 **Q** Did you assist in that at all?

11 **A** Not at that time, no, ma'am.

12 **Q** Did that sheet completely cover the body
13 of Michael Brown?

14 **A** No, ma'am, it did not.

15 **Q** Did you assist in getting other sheets to
16 try?

17 **A** Yes, I asked a paramedic if he had another
18 sheet so I could fully cover Mr. Brown up, and
19 actually he handed me two.

20 **Q** Did you observe the paramedics approach
21 the body and attend to the body of Mr. Brown?

22 **A** I saw one approach the body, bent down and
23 I guess checked for life signs. He got up maybe 10,
24 15 seconds and just walked away.

25 **Q** Do you know what a strip is?

1 **A** Yes, ma'am.

2 **Q** What is a strip?

3 **A** It is a cardiac monitor like you see on TV
4 that indicates heart rhythm or no rhythm at all.

5 **Q** And you've seen paramedics use a strip
6 before on someone that may still be alive?

7 **A** Yes, ma'am.

8 **Q** Or check for life signs?

9 **A** That is correct.

10 **Q** Did he do that in this case?

11 **A** They did not.

12 **Q** And other than that paramedic who had
13 checked for life signs presumably, did you see
14 anyone else, either law enforcement or any other
15 civilians get close to the body?

16 **A** There was a, I believe it was a copper
17 projectile about 3 feet from his foot, his right
18 foot and somebody walked over there and put a marker
19 to make sure nobody kicked it or disturbed its
20 location.

21 **Q** Okay. So other than that, you didn't see
22 anyone move the body, roll him over, reconfigure the
23 way he was laying?

24 **A** No, ma'am.

25 **Q** And eventually, and you said in your

1 statement that you were at the scene until the scene
2 was done, which would have been after 5:00?

3 **A** It was closer to 6:15, 6:30, yes, ma'am.

4 **Q** And now you are aware then that the body
5 of Michael Brown lay in the street under that sheet
6 for several hours on that day; is that right?

7 **A** Yes, ma'am.

8 **Q** Is that, do you know the reason for that?

9 **A** After I made notification to command
10 staff, I was recontacted and advised that St. Louis
11 County would be handling the investigation and the
12 crime scene and I had to await their arrival. Once
13 they arrived, the crime scene was relinquished to
14 them.

15 **Q** And then any decision about what would
16 happen with the body, that wasn't your decision or
17 anything you had to do with, is that fair to say?

18 **A** That is correct.

19 **Q** Were you the most senior ranking Ferguson
20 police officer at the scene that day?

21 **A** Uh, I had two lieutenants show up later on
22 shortly after, maybe around 1:00 or so.

23 **Q** Now, you testified that you made
24 notification, who is the first person you called?

25 **A** Chief of Police.

1 **Q** Did you speak with him or leave a message?

2 **A** I had to leave a message on his cell
3 phone.

4 **Q** Who is the next person you called?

5 **A** Lieutenant Colonel

6 **Q** Did you speak with him or did you leave a
7 message?

8 **A** Left a message for him.

9 **Q** Whose the next person you called?

10 **A** Captain

11 **Q** Did you speak with him or leave a message?

12 **A** Left a message.

13 **Q** Everybody, it is Saturday afternoon,
14 correct?

15 **A** Correct.

16 **Q** And so then who is the next person you
17 called?

18 **A** Captain

19 **Q** Did you speak with him or leave a message.

20 **A** I spoke with him.

21 **Q** And after speaking with him and telling
22 him what the situation was, did you make any other
23 notifications after that?

24 **A** I contacted Lieutenant
25 and I believe that was the last contact I made.

1 **Q** All right. Now, you've already said that
2 at some point you told Darren Wilson to get into
3 your vehicle and go up to the Ferguson Police
4 Department?

5 **A** Yes, ma'am.

6 **Q** And what was the reason, are you aware
7 that an officer involved shooting, typically the
8 officer remains on scene until investigators come
9 and walk through the scene with him?

10 **A** Yes, ma'am.

11 **Q** Why didn't you have him remain at the
12 scene?

13 **A** The crowd was growing rather rapidly.
14 They were very agitated and for the safety of the
15 officers on the scene and for Officer Wilson, I had
16 him leave and go to the police department.

17 **Q** So you had him get in your vehicle and go
18 to the police department?

19 **A** Yes, ma'am. I left his vehicle where it
20 was, where I found it and told him to take my car
21 and go back to the station and wait for a
22 supervisor.

23 **Q** And after he got out of his car, did
24 anyone, did you enter his vehicle?

25 **A** No, ma'am.

1 **Q** Did you look inside the vehicle?

2 **A** Yes, ma'am.

3 **Q** And why were you looking inside the
4 vehicle?

5 **A** Just to see what I could see. If there
6 was possible evidence or anything like that.

7 **Q** Did you notice glass inside the vehicle?

8 **A** Yes, I did.

9 **Q** Did you notice any bullet holes inside the
10 vehicle?

11 **A** I saw a bullet into the door panel of the
12 driver's side door, yes, ma'am.

13 **Q** Did you see any shell casings inside the
14 vehicle?

15 **A** No, ma'am, I did not.

16 **Q** Any blood inside the vehicle?

17 **A** No, ma'am, I did not.

18 **Q** Now, to be clear, you're not actually a
19 crime, you're role is not to document the scene and,
20 you know, you knew other officers were going to be
21 processing that vehicle, didn't you?

22 **A** Correct.

23 **Q** In fact, I think in your statement, but
24 you do as a part of your job place cones or other
25 markers around pieces of evidence if you see them,

1 correct?

2 **A** Yes, when I got the crime scene tape out,
3 I had obtained some traffic cones from another
4 responding officer's vehicle, I marked a few items
5 that I could.

6 **Q** And you knew that another officer then was
7 going to document those items, correct?

8 **A** That is correct.

9 **Q** After Darren Wilson left the scene, did
10 you see him again at all that day?

11 **A** No, ma'am, I did not.

12 **Q** Now, we've heard that you said in your
13 statement that you had contacted Darren Wilson after
14 this time, after this date just to say hello and how
15 you doing; is that right?

16 **A** Yes, ma'am.

17 **Q** Have you and he ever since that day had a
18 detailed conversation about what happened?

19 **A** After his interview and my interview with
20 Justice and FBI and U.S. Attorney and St. Louis
21 County, he asked me if he could tell me everything
22 that happened. I told him, yeah.

23 **Q** So was this in person or on the phone?

24 **A** On the telephone.

25 **Q** And do you recall, you said it was after

1 the FBI talked to you?

2 **A** Correct.

3 **Q** And did you only talk to the authorities
4 investigators one time?

5 **A** Yes, ma'am.

6 **Q** And then you said to your knowledge, he
7 had already talked to the investigators; is that
8 right?

9 **A** I asked him if he had been interviewed by
10 them yet, and he said he had.

11 **Q** And so he told you his version or the
12 story of what happened?

13 **A** Yes, ma'am.

14 **Q** Now, is there anything about this second
15 version, I don't mean to use the word version like
16 it is different or implying that it is different,
17 his second time telling you what happened?

18 **A** There was some more things that he added.

19 **Q** Details that he added?

20 **A** Yes, ma'am.

21 **Q** Was there anything inconsistent with what
22 he had told you previously?

23 **A** No, ma'am.

24 **Q** Now, just to summarize, that day on the
25 scene he told you that he fired or that the weapon

1 went off?

2 **A** Correct.

3 **Q** One time while he was seated in the
4 vehicle?

5 **A** Correct.

6 **Q** And he didn't describe shooting his gun
7 while he was running after Michael Brown?

8 **A** He did not say he shot at Michael Brown
9 while he was running at him.

10 **Q** And then he describes after Michael Brown
11 turned around, a series of shots that he fired at
12 Mr. Brown?

13 **A** Correct.

14 **Q** And you said he said maybe I can't
15 remember if you said four or five?

16 **A** He said he thought he was shot, discharged
17 four rounds.

18 **Q** Okay. Now, when you had a subsequent
19 conversation with him, did any part of that change,
20 did he tell you any more details about the number of
21 shots?

22 **A** No, he said he had learned that he had
23 fired more than four shots. I didn't specifically
24 ask him a number, but he said he was told that he
25 fired more than he thought.

1 **Q** Okay. So you didn't talk with him about
2 how many shots were in the vehicle, how many shots
3 were out of the vehicle, whether there was a pause
4 and then more shots or anything like that?

5 **A** That is correct.

6 **Q** Were there any details in this second
7 conversation with him that are or changed the
8 perspective that you have about what happened?

9 **A** No, ma'am.

10 **Q** Is there anything, so you had an
11 additional conversation with him about what
12 happened?

13 After that, did you have any other
14 conversation with him about what happened?

15 **A** No, ma'am, not about what happened, but I
16 have had other conversations with Officer Wilson.

17 **Q** Okay. And Officer Wilson is still on
18 administrative leave; is that correct?

19 **A** That's correct.

20 MS. ALIZADEH: Does anybody have any
21 questions?

22 MS. WHIRLEY: I have a few, this is Sheila
23 Whirley.

24 **Q** (By Ms. Whirley) Have you ever appeared
25 before this grand jury before?

1 **A** Multiple times.

2 **Q** This particular grand jury that is sitting
3 here today to your knowledge?

4 **A** No, ma'am, no.

5 **Q** You have not?

6 **A** Not before this grand jury, no, ma'am.

7 **Q** All right. Regarding Canfield Green
8 Apartments, you have been in the community for over
9 38 years. Did you know the relationship that the
10 police had with that community?

11 **A** I have responded to numerous calls, I've
12 assisted numerous calls over there.

13 **Q** Was it known what the relationship was
14 between the community and the police?

15 **A** We, as far as my squad and myself is
16 concerned, every time we responded over there, we
17 responded for whatever the call is, we handle the
18 call and we left.

19 **Q** Was it a relationship that was friendly or
20 did the residence --

21 **A** Business relationship.

22 **Q** Business.

23 **A** A business relationship. I mean, some of
24 the officers knew tenants and whatnot from previous
25 encounters.

1 **Q** Okay. So there was no understanding that
2 the residents just hated the police, it wasn't like
3 that?

4 **A** No, ma'am, no.

5 **Q** So when Officer Wilson, well, first of all
6 you said you did not hear him ask, announce on the
7 radio that shots were fired?

8 **A** No, ma'am.

9 **Q** At any point?

10 **A** No, ma'am, I did not.

11 **Q** You did not know that a shooting had even
12 occurred until you were told to go there?

13 **A** Until I arrived on the scene is when I
14 first learned there were shots discharged by an
15 officer.

16 **Q** How did you get the call to go to the
17 scene, what were you told?

18 **A** I was told I was needed at the
19 intersection of Canfield and Copper Creek as soon as
20 possible or immediately.

21 **Q** Nobody said what for?

22 **A** No, ma'am.

23 **Q** Okay. Did Wilson ever tell you that,
24 because you said you have talked to him a couple of
25 times since this has occurred?

1 **A** Uh-huh.

2 **Q** And in more detail recently, your last
3 talking was more in detail, correct?

4 **A** My last conversation with Darren was about
5 ten days ago maybe.

6 **Q** He was a little bit more detailed over the
7 phone during that conversation?

8 **A** During the conversation that I had with
9 Darren was probably five or six days after the
10 incident.

11 **Q** Okay.

12 **A** That's when he was more, a little bit more
13 detailed.

14 **Q** More detailed. Did he talk about anything
15 about the stealing that occurred at Ferguson Market
16 that he was stopping these two to investigate that?

17 **A** He said he did not have that call, that
18 call I later found out was given to Officer
19

20 **Q** Did he know about it, did he talk about
21 knowing about the stealing?

22 **A** He did not know anything about the
23 stealing call.

24 **Q** He told you he did not know anything about
25 the stealing?

1 **A** He did not know anything. He was out on
2 another call in the apartment complex adjacent to
3 Canfield Green.

4 **Q** Okay. And so when he's stopping these two
5 it is strictly about the sidewalk, it has nothing to
6 do with him investigating the stealing of
7 Cigarillos; is that correct?

8 **A** That is correct.

9 **Q** Did he indicate that he was angered at all
10 when he was told to fuck off?

11 **A** Well, no police officer likes being told
12 that. I don't think he was angered as much as he
13 was just taken aback by it for no reason whatsoever.

14 **Q** Is that like a sign of disrespect, I would
15 feel disrespected if somebody told me to fuck off?

16 **A** You know, respect toward the police
17 nowadays is not like it used to be. Most of the
18 time it is under their breath or just barely within
19 earshot, but evidently at this point in time it was
20 told quite directly at him.

21 **Q** Okay. Did Wilson indicate, Officer Wilson
22 indicate that when he chased Michael Brown, that
23 assistance had been called for at that point?

24 **A** He did not indicate to me, no, ma'am.

25 **Q** Did you have any understanding or any

1 knowledge about how it occurred regarding him
2 chasing after Michael Brown whether or not
3 assistance was on its way or anything like that?

4 **A** No, ma'am, I don't know.

5 **Q** Okay. Now, have you ever known Officer
6 Wilson to discharge his weapon?

7 **A** Not to my knowledge, other than on the
8 practice range or the firing range at the police
9 department, that's the only time I know he's ever
10 discharged a weapon.

11 **Q** Have you ever known him to get into a
12 physical altercation with a suspect?

13 **A** Only when the suspect had initiated the
14 resistance.

15 **Q** You do know of a particular incident where
16 that has occurred?

17 **A** Yes, ma'am.

18 **Q** What happened in that situation?

19 **A** Officer Wilson was able to gain control of
20 the individual and put him in handcuffs before
21 assistance arrived.

22 **Q** Was he alone?

23 **A** Yes, ma'am.

24 **Q** Do you know what transpired why there was
25 even a physical altercation?

1 **A** It was a suspicious vehicle call, occupied
2 suspicious vehicle. And when he walked up to the
3 car, he could smell an odor what he associated with
4 marijuana and he told the driver to get out of the
5 car, at which time he did. When he was trying to
6 take him into custody is when the resistance
7 occurred.

8 **Q** That's the only occasion you are aware of?

9 **A** He's had minor ones with other officers,
10 exactly who, how it started, you know, I know of one
11 where an individual resisted the arrest with Officer
12 Wilson and another one of my officers and the
13 subject ended up having to be tasered in order to
14 comply with the officers.

15 **Q** Did Officer Wilson use a taser?

16 **A** No, ma'am, he did not carry one.

17 **Q** It was known that he did not carry a
18 taser?

19 **A** That is correct.

20 **Q** It wasn't required that he carry a taser?

21 **A** No.

22 **Q** What about mace, did you know of an
23 incident where he maced an individual?

24 **A** Never.

25 MS. WHIRLEY: Anybody else have any

1 questions? Go ahead.

2 : My

3 question is, did Officer Wilson, did he state
4 specifically that it was Michael Brown that made
5 those derogatory or offensive comments to him or did
6 he indicate if it was Dorian Johnson?

7 **A** He did not indicate to me who made the
8 comments, ma'am.

9 I see.

10 I've got a
11 couple questions. Did Officer Wilson indicate at
12 all that he said anything to Michael Brown as he was
13 chasing after him?

14 **A** He yelled at him to stop or halt, but
15 nothing more than that.

16 : Are those the words he
17 used stop, halt?

18 **A** I don't know, I believe he just told him
19 to stop.

20 : Okay. Did he indicate at
21 any point when he, right after he had first contact
22 with him and told him, asked him to get out of the
23 street, that at any point he had to reverse his car
24 back towards them?

25 **A** I believe he did go backwards, reverse his

1 automobile for a short distance, then stopped.

2 Asked them again to get out of the street.

3 : Okay.

4 MS. ALIZADEH: Sergeant I just want
5 to clarify. I know you know things about what
6 happened, I want to make sure that we're clear on
7 this. Are you saying that you know that that
8 happened because you've since learned that, or are
9 you saying that Officer Wilson that day told you
10 that he reversed his vehicle?

11 A Officer Wilson did not tell me that day
12 that he had to do that.

13 MS. ALIZADEH: Okay.

14 A I've learned that through a later
15 conversation.

16 Q (By Ms. Alizadeh) So when we talk about
17 things that he says he did, I want to make sure it
18 is clear to everybody, you know, to clarify whether
19 or not it is something that he knows happened
20 because of subsequent investigation or if it is
21 something that Officer Wilson said to you.

22 I also want to clarify something else
23 and I'm sorry to interrupt, but it is along the same
24 lines. You testified that when Sheila asked you
25 some questions, Miss Whirley, that Officer Wilson

1 did not know about the stealing that was going on or
2 had just occurred at the Ferguson Market.

3 Now, my question to you is this, are
4 you saying that because he told you he didn't know
5 about it or you saying that because he didn't
6 mention it to you when you were talking to him?

7 **A** He did not mention it to me again. I
8 learned about it at a later time.

9 **Q** Has he ever told you, yeah, I didn't know
10 anything about what happened up at the Ferguson
11 Market?

12 **A** Yes, he has told me that in subsequent
13 conversations.

14 **Q** He told you he didn't know about there
15 being a stealing at the Ferguson Market?

16 **A** Correct.

17 **Q** Okay.

18 : Just one last follow-up,
19 Did Officer Wilson at any point say
20 anything or infer at any time that maybe he thought
21 that Michael Brown was under some type of influence
22 of something?

23 **A** No, sir, he did not.

24 : . My
25 question goes back to Officer Darren Wilson's first

1 call to dispatch, which initiated a call to you.
2 You know, I understand from watching the news when
3 someone calls 911, the recording is timestamped and
4 there is an audio recording. In this instance or in
5 a regular instance, when an officer calls dispatch,
6 is there any sort of timestamp or recording, or
7 secondary recording so we would know exactly what
8 that call would be or when that call took place?

9 **A** Yes, all of our incoming calls, including
10 radio traffic, is recorded digitally. That would be
11 available to the investigators through our
12 communications supervisor.

13 : Are you aware of what that
14 original call would have been when he called?

15 **A** His original call?

16 : Uh-huh.

17 **A** I have since learned what it was, is that
18 what you want to hear?

19 : Sure.

20 **A** It was a sick case on Glenark was the
21 street. Again, next apartment complex over is
22 Northwinds Apartments and Glenark is small, like
23 eight apartments on that street. He responded to a
24 sick case at that location.

25 : . Again, my

1 apologies, I might not have made myself clear.

2 After the shooting of Michael Brown, was
3 that call when he dispatched that first call, was
4 that again recorded that you would have known what
5 the call would have been for him to call dispatch
6 and say XYZ happened?

7 **A** Yeah, I believe the answer to that
8 question would be yes. When he called it into
9 dispatch, he would have probably told them what was
10 going on and what happened.

11 MS. ALIZADEH: I'm sorry, just so you all
12 know, we have radio calls that we'll be playing for
13 you at some point in this investigation.

14 MS. WHIRLEY: Let me follow-up on that
15 real quick.

16 **Q** (By Ms. Whirley) Do you have any knowledge
17 that there was a radio call that has been recorded
18 and seized that where Darren Wilson is saying shots
19 fired, asking for assistance before he gets out of
20 the car or around the time this is happening?

21 **A** No, ma'am.

22 **Q** There is no recording that you know of
23 that exist?

24 **A** I know there is one exist.

25 **Q** You do?

1 **A** Yes.

2 **Q** Okay. Do you know where we might get it?

3 **A** The communication supervisor at Ferguson
4 Police Department can provide it to you.

5 **Q** Okay, all right. Thank you.

6 MS. ALIZADEH: Sergeant just to
7 clarify, have you ever heard the radio calls, have
8 you ever listened to them?

9 **A** No, ma'am.

10 **Q** (By Ms. Alizadeh) So it is important that
11 you testify about your own personal knowledge and
12 not what maybe somebody has told you that you
13 believe. Would it be fair to say that you don't
14 know what those calls consisted of because you have
15 never heard them, right?

16 **A** I don't know what the calls consist of,
17 that is correct.

18 **Q** And maybe somebody told you that there is
19 a call, but you have never heard that yourself?

20 **A** No, ma'am.

21 **Q** Whatever those calls would be, they would
22 have been recorded and burned on a disc for purpose
23 of this investigation, could that have occurred?

24 **A** Yes.

25 MS. ALIZADEH: Okay.

1 MS. WHIRLEY: .

2 : At the
3 beginning when you were speaking, you said an
4 incident report was not filed?

5 A I'm sorry?

6 An incident report was
7 not filed?

8 A I did not complete any report regarding
9 this incident because St. Louis County was handling
10 the entire case.

11 In your recorded
12 statement, I believe I heard you talk about a Use of
13 Force Report?

14 A Yes, ma'am.

15 That's different?

16 A That is something different, yes, ma'am.

17 : Okay. At the beginning
18 of your statement here you talked about a code, is
19 that J-1?

20 A There's radio code for immediate
21 assistance.

22 Okay.

23 A That's J-1.

24 : Okay. When you get
25 those, you don't if an officer that's down, a

1 civilian that's down or something in progress. You
2 just know you are needed somewhere right away?

3 **A** Correct.

4 : You didn't use your
5 lights or your siren?

6 **A** No, ma'am. Like I said, the road traffic,
7 I had pretty much of a clear lane to get there.

8 Okay. And do all the
9 officers have mikes on their uniform or the radios
10 in the car?

11 **A** We all have radios in the car.

12 Okay

13 **A** Majority of the officers wear their mikes
14 up high so that they can hear it and respond
15 relatively quickly.

16 : And you say that Officer
17 Wilson was in his car with the door shut when you
18 arrived?

19 **A** That is correct.

20 : Okay. This is the first
21 time we heard about too much of a pussy to shoot me.
22 In your recorded statement, we didn't hear that.
23 Did you learn of that after your recorded statement
24 or is that just something that you are recalling
25 now?

1 **A** I recalled that since my recorded
2 statement.

3 : Okay.

4 **A** But I believe my recorded statement was
5 taken three or four days after the event.

6 : Okay.

7 **A** I was working 12 plus hours a day.

8 I understand. Is it
9 still, you still stay with the fact that Michael
10 Brown had his hands up and was charging?

11 **A** That's what Darren told me he was charging
12 at me.

13 This question is not
14 meant as any disrespect, but your recorded statement
15 you said that, um, you have to ask stupid questions
16 like how this could be prevented?

17 **A** I'm sorry?

18 : In your recorded
19 statement you said that you are required to ask
20 officers stupid questions like how could this
21 incident be prevented?

22 **A** That's on the injury report.

23 : You feel that's a stupid
24 question because you feel your officers don't have
25 any other choice?

1 **A** Correct.

2 When you are in that kind
3 of situation?

4 **A** When you are physically attacked
5 unprovoked, I believe how could he prevent this is a
6 stupid question.

7 : Okay, I'm done.

8 MS. WHIRLEY:

9 : . Several
10 questions.

11 **A** Yes, ma'am.

12 My first question is, when
13 he was alone, when he left the scene of the crime,
14 Officer Wilson, why was he left alone, why didn't
15 another officer escort him back to the police
16 department?

17 **A** There was another police officer on light
18 duty at the police department who could sit with
19 him.

20 : Say that again?

21 **A** There was another officer who,
22 station
23 bound. So there was an officer there who could sit
24 with him until a supervisor got there.

25 : My question is, why wasn't

1 he escorted by another PO considering that even
2 though he left the scene of the crime, that someone
3 could have noticed him and followed him, but yet he
4 wouldn't of had any backup or protection, he still
5 would have been left alone?

6 **A** I had, let's see, Darren made, Darren made
7 my sixth officer for the day and that includes
8 myself.

9 I already had three other officers
10 and myself at the scene, I had another officer still
11 out on a call. So I only had one officer that was
12 left on the street. I honestly, truthfully, I
13 didn't have the manpower to send somebody with him.

14 : Okay.

15 **A** But yes, you are correct, somebody could
16 have followed him. But also on our radio we have
17 Country Club Hills and Calverton Park. If there
18 would have been a problem, there would have been
19 other officers in the area from those two agencies
20 that could have responded.

21 : Okay. My next question
22 was or is, I seen pictures of the car, Officer
23 Wilson's car. I only seen a little shattered glass
24 that was on his driver's side seat?

25 **A** Uh-huh.

1 : Did he ever mention that
2 the glass was half cracked, half down, or all the
3 way down?

4 **A** He never told me what the window position
5 was, ma'am.

6 : Okay. My last question
7 is, after the incident, the crime was over and you
8 had time to go back to your office, did you ever
9 think to read Officer Wilson's history prior to
10 coming to your department or when he came up under
11 your leadership to understand his previous history?

12 **A** Anything that happened prior to his
13 employment should have been covered by the officer
14 who did his background investigation.

15 Now, I don't know who did his
16 background investigation preemployment. I did speak
17 with his supervisor prior to him coming to my squad
18 and ask what kind of officer he was. And I believe
19 I was presented with a few training certificates
20 that he had obtained while he was on the other
21 squad, but there were no corrective measures or any
22 disciplinary notes or anything such as that in what
23 I was given.

24 MS. WHIRLEY:

25 : How many

1 officer involved shootings occurred in Ferguson say
2 in the last ten years?

3 **A** Last ten years?

4 : Yeah?

5 **A** I believe one, maybe two.

6 : So they're a rare
7 occurrence and not an every day --

8 **A** They are very rare occurrence, sir.

9 : Okay. Thank you.

10 : Is it
11 standard procedure basically for only one officer to
12 be on patrol at any given time by themselves or do you
13 do double duty where there is two officers so you
14 have a ready backup in case of a situation that
15 inflames?

16 **A** On a perfect day I would have seven
17 officers out there.

18 : Uh-huh.

19 **A** I have four assigned sectors, which would
20 be three cover cars to assist plus myself.

21 Uh-huh.

22 **A** So basically we would have two officers
23 respond to most every call depending on what the
24 call is naturally.

25 Yes, ma'am.

1 : . I just need
2 clarification. Did Officer Wilson have blood on his
3 hands?

4 **A** I did not see any blood.

5 : Okay. In the written, in
6 the recorded statement we learned that he washed his
7 hands because there was blood on them and he was
8 checking for injury or the spread of infection?

9 **A** Whose recorded statement?

10 : Your recorded statement.

11 **A** It had to be something I learned after
12 that day.

13 : All right, thank you.

14 : . Also to
15 clarify. I want to make sure when you told Officer
16 Darren Wilson to get in your vehicle and go back to
17 the Ferguson Police Department, at that time he was
18 still currently wearing his uniform he had on at the
19 time of the incident and his gun was with him when
20 he went back to Ferguson?

21 **A** His sidearm, yes, he carried his side arm
22 back to Ferguson holstered.

23 : And at that point, I
24 guess, you were at the scene, you wouldn't have
25 known what happened to that gun or who would have

1 processed it or his clothes or anything because you
2 were at the scene?

3 **A** At that point in time, no, sir, I would
4 not know.

5 : Okay.

6 MS. ALIZADEH: Any other questions?

7 MS. WHIRLEY: I just have one. Whose
8 decision was it to call county in to investigate?

9 **A** It was the chief of police's decision.

10 **Q** (By Ms. Whirley) This is pretty standard
11 when there is a shooting, you say you have been
12 involved in a few shootings, do you generally have
13 another department investigate it or do you
14 investigate it yourselves?

15 **A** One of the previous, or the one, I should
16 say the two that I investigated, we investigated
17 them. This one, well, the first two were only, they
18 were not mortal wounds, they weren't fatalities.

19 I believe the chief made that
20 decision because of, it would be better to have an
21 outside agency such as county or state police to do
22 the investigation to show that we were not trying to
23 hide or cover up anything.

24 MS. WHIRLEY: Okay.

25 **Q** (By Ms. Alizadeh) Sergeant I know

1 you've said to me at least before, I can't remember
2 if you testified today that you don't recall what
3 time you got up to the scene, the time it was?

4 **A** Correct.

5 **Q** But assuming that we know that the
6 shooting occurred somewhere like a quarter after
7 noon, give or take a few minutes, but I'm just
8 trying to use that as a reference, how long was it
9 before you saw county officers responding up at the
10 scene?

11 **A** Uh, I believe the first one arrived on the
12 scene anywhere from an hour to an hour 15.

13 **Q** So were you privy to the decision to call
14 county into the investigation, were you talking with
15 the superiors when that decision was made?

16 **A** No, ma'am.

17 **Q** So whoever made that decision, you don't
18 know when that decision was made?

19 **A** That is correct.

20 **Q** But you were at the scene for about an
21 hour to an hour and a half you said?

22 **A** Hour 15, yeah.

23 **Q** Before you saw county arrive?

24 **A** Correct.

25 MS. WHIRLEY: I have one last question.

1 In your statement to, I guess it was Officer
2 who did you give a statement to that was
3 recorded?

4 **A** Detective

5 MS. WHIRLEY: Okay.

6 **A** And, I believe, Detective

7 MS. WHIRLEY: Okay. I believe you said in
8 that statement that Officer Wilson told you that
9 Michael Brown took off running and then he stopped
10 and raised his arms and charged him?

11 **A** Yes, ma'am.

12 MS. WHIRLEY: Did he indicate to you how
13 he raised his arms, how Michael Brown raised his
14 arms?

15 **A** May I stand up?

16 MS. WHIRLEY: Sure.

17 **A** It was like this, like he was going to
18 charge at him. (indicating)

19 MS. WHIRLEY: Okay. So he raised his arm
20 in a charging motion?

21 **A** Correct.

22 MS. WHIRLEY: Did he say at that time he
23 shot him?

24 **A** He told me when he took the step forward.

25 MS. WHIRLEY: He shot him.

2 MS. WHIRLEY: Okay. So at the time when
3 he had his hands raised and he was charging at him,
4 he shot, but it wasn't at that time he didn't have
5 his hands like going for a weapon.

6 **A** I don't remember, I don't recall.

7 MS. WHIRLEY: Okay. All right.

8 **A** Yes, ma'am.

9 . Did
10 Officer Wilson ever say he saw any blood coming from
11 the victim?

12 **A** No, ma'am. Yes, sir.

13 : . When
14 Officer Wilson discharged his weapon, did he say how
15 close they were in proximity, how close they were?

16 **A** No, sir, he did not.

17 : . You
18 mentioned before that protocol that all officers
19 would go to the FTO, the field training. And in
20 that, do the officers are they ever taught in a
21 situation, maybe similar to this, to shoot to injure
22 instead of shooting to kill?

23 **A** You shoot to neutralize the threat.

24 MS. ALIZADEH: Any more questions?

25 Finally, Sergeant the last thing I

1 want to ask you, is there anything that you think
2 this grand jury should know about this incident or
3 that you know that maybe we didn't ask you. I don't
4 want anybody walking away from here saying well,
5 they never asked me that or anything like that. Is
6 there anything that you think would be important for
7 this grand jury to know that you haven't told them
8 yet?

9 **A** I've worked with Officer Wilson for two
10 and a half years. He's been under my supervision
11 that long.

12 Darren is a very easy going
13 individual, always has a smile on his face. Doesn't
14 go trying to start trouble or look for trouble, does
15 a good job.

16 I have very little supervisory hours
17 dedicated to Darren Wilson. He knows his job very
18 well and he does it very well.

19 My opinion, put in this
20 circumstances, I don't know what I would have done.
21 I probably would have done the same thing.

22 So, I mean, Darren did not just all
23 of the sudden go from trying to chase this guy down
24 and take him into custody to deciding just to shoot
25 him because. So, I mean, Darren is a good officer.

1 MS. ALIZADEH: Anybody have anything else
2 that they want to him?

3 All right, thank you Sergeant
4 (Completion of Sergeant testimony.)

5
6 of lawful age, having been first duly sworn to
7 testify the truth, the whole truth, and
8 nothing but the truth in the case aforesaid,
9 deposes and says in reply to oral
10 interrogatories, propounded as follows, to-wit:

11 EXAMINATION

12 BY MS. WHIRLEY:

13 Q Detective, spell your name for the court
14 reporter, please?

15 A

16

17 Q All right. Detective you are a
18 police officer with St. Louis County Police
19 Department; is that correct?

20 A That is correct.

21 Q How long have you been a police officer?

22 A Approximately eight years.

23 Q And you are currently a detective, so how
24 long have you been a detective?

25 A Two and a half years as a detective.

1 **Q** Have you always been with St. Louis County
2 Police Department?

3 **A** Yes.

4 **Q** And you are a certified police officer?

5 **A** Yes.

6 **Q** What does that mean?

7 **A** That means that I've accomplished the
8 training required by the State of Missouri to be a
9 commissioned police officer.

10 **Q** You must have ongoing training?

11 **A** Correct.

12 **Q** And you have the power of arrest in the
13 State of Missouri?

14 **A** I do.

15 **Q** Okay. Now, you know why we are here?

16 **A** I do.

17 **Q** Okay. So tell us how you became involved
18 in this investigation?

19 **A** Prior to this incident that we're here
20 today on, I was called in to work to assist with an
21 investigation that occurred, it was an attempted
22 robbery that occurred at St. Anthony's Hospital on
23 August 9th, 2014.

24 **Q** Okay. Go ahead.

25 **A** While I was there, we were finishing up,

1 and my sergeant, Sergeant received a
2 telephone call and was requesting our unit to
3 respond to the City of Ferguson and assist with an
4 officer involved shooting.

5 Q At the time did you know that there was a
6 dead person involved or it was just a shooting?

7 A What I knew that it was just an officer
8 involved shooting.

9 Q You didn't know who the officer was?

10 A I did not.

11 Q Before I go further, you've testified in
12 front of this grand jury before; is that correct?

13 A Yes, I have.

14 Q Okay. Unrelated to this particular
15 incident though?

16 A Correct.

17 Q This is first time you have testified
18 regarding the Michael Brown shooting?

19 A Yes, ma'am.

20 Q All right. And you have met with Kathi
21 Alizadeh and myself before; is that correct?

22 A That's correct.

23 Q Regarding this incident?

24 A Yes.

25 Q Because you are working this incident?

1 **A** Correct.

2 **Q** Have you developed or written a police
3 report yet?

4 **A** No.

5 **Q** Okay. So you just taking notes as you go
6 or what's going on with that?

7 **A** Yes, basically we take notes as we go. We
8 transfer that to a memorandum to the case detective.

9 **Q** Okay. And that's how you keep track of
10 what's occurring here?

11 **A** Yes.

12 **Q** And what was your role as a detective in
13 this case?

14 **A** Initially I responded to the scene, and
15 the way it works with the information we had at the
16 time, all the detectives assigned to my unit
17 responded to the scene. I believe I was the first
18 car, the first one of the St. Louis County police
19 detectives to arrive, and I made contact with
20 Sergeant who is a county police
21 sergeant, St. Louis County police sergeant, assigned
22 to North County Precinct. He was there within the
23 crime scene, that's the first person I contacted.

24 **Q** You said the crime scene, we talking about
25 Canfield Green Apartments?

1 **A** Yes, within the crime scene tape.

2 **Q** Where the body was laying?

3 **A** Yes.

4 **Q** And the police vehicle was positioned?

5 **A** Yes.

6 **Q** All right. And about what time did you
7 arrive there?

8 **A** I believe the arrival time was
9 approximately 1:30.

10 **Q** For you?

11 **A** For me.

12 **Q** And you were the first county officer on
13 the scene?

14 **A** Yes, I was shortly trailed by the rest of
15 the detective bureau by minutes.

16 MS. ALIZADEH: Let me clarify, you weren't
17 the first county officer at the scene, but the first
18 detective?

19 **A** Yes, first county police detective
20 assigned to my unit that would be responsible for
21 initiating the investigation.

22 **Q** (By Ms. Whirley) Okay. But there were
23 other county officers on the scene when you got
24 there?

25 **A** Yes, that's correct.

1 **Q** Do you recall when you would have gotten a
2 call to respond there?

3 **A** I believe the time was about 12:40, 12:43,
4 in that area, is when Sergeant received the
5 call. As it was, we were all standing together when
6 he received that call and then after he got done
7 with the phone call, he immediately dispatched us to
8 the area.

9 **Q** Now, is it unusual for St. Louis County to
10 investigate a shooting that occurred in another
11 municipality?

12 **A** No.

13 **Q** Is it pretty standard?

14 **A** It is standard. If we are requested to
15 respond and assume the responsibility of the
16 investigation, we will do so.

17 **Q** All right.

18 **A** If requested to by that department.

19 **Q** And that's what happened in this case, you
20 were requested?

21 **A** Yes, ma'am.

22 **Q** All right. Let's go back to what your
23 particular duties were regarding this investigation.

24 **A** Sure. When I arrived I contacted Sergeant
25 and essentially what we do is try to get as

1 much knowledge as we have at the time.

2 He had advised me that the medical
3 examiner had not been notified yet and that's when I
4 requested them to do so.

5 Typically the way that it works with
6 our police department is the personnel from the
7 division of patrol, which would be the uniform
8 police officers are responsible for making that
9 notification.

10 So once I found out that that wasn't
11 done, I immediately made that request.

12 Q So when you arrived, the medical examiner
13 had not been notified?

14 A To my knowledge, no. Sergeant
15 informed me that they had not been.

16 Q How about EMS, the emergency personnel?

17 A I was unaware if they had responded yet at
18 the time. My main concern was making sure the
19 medical examiner was dispatched.

20 Q Because when you arrived, it was
21 determined that Michael Brown was dead?

22 A Yes. So if subject is deceased, then the
23 next step would be to contact the medical examiner.

24 Q Describe the scene when you arrived, you
25 said it was 1:30-ish or so?

1 **A** Yes.

2 **Q** Describe the scene for us?

3 **A** As I arrived, I came down West Florissant
4 and then turned, it would be east on Canfield Road.
5 The entire street was lined with cars, both civilian
6 cars and other police cars from St. Louis County. I
7 believe there was a Ferguson car there and multiple
8 other jurisdictions, to where I was unable to even
9 make it to the actual crime scene. I had to park
10 some distance away, I don't know the exact distance,
11 but some distance away and walk up to the crime
12 scene.

13 Which is a little atypical than what
14 we're used to. Typically we drive right up to the
15 crime scene tape, park outside of it and then we can
16 enter the crime scene there.

17 There were multiple people, I can't
18 quantify how many, but people were walking towards
19 that area as I was walking up as well, and that's
20 when I entered the crime scene.

21 **Q** Could you hear people talking? I don't
22 want to assume, was there a crowd, are you telling
23 us, a crowd of people?

24 **A** There were, I would say small pockets of
25 people around the entire crime scene. When you ask

1 about if I could hear anything that was being said,
2 I just wasn't paying attention to it.

3 Q Okay. Did you see Darren Wilson at the
4 scene?

5 A I didn't know who Darren Wilson was at the
6 time, I learned later he wasn't there.

7 Q He was not at the scene?

8 A Correct.

9 Q Was it your job to make any contact with
10 him?

11 A Eventually it was. Essentially what
12 happens in an investigation of any kind, is that the
13 detectives will basically come together and a case
14 detective will be assigned.

15 In this case detective
16 was the case officer.

17 Q What does that mean, case officer?

18 A He'd be essentially the person that would
19 orchestrate and dole out assignments and be
20 responsible for the investigation as a whole. He
21 would be the one that would be writing the report
22 and like I said, making the assignments for other
23 detectives to do.

24 Q So you were assisting in the
25 investigation, he was the case agent or officer?

1 **A** Correct, that's correct.

2 **Q** All right. So you said it was going to be
3 your job to make contact with Officer Wilson?

4 **A** Yes. I was directed by Detective
5 to.

6 **Q** Detective ?

7 **A** Detective .

8 **Q**
9 works with St. Louis County?

10 **A** Yes.

11 **Q** Darren Wilson who is the
12 officer involved in the shooting?

13 **A** Yes, Officer Darren Wilson.

14 **Q** Okay.

15

16 **A** Yes, ma'am.

17 **Q** So you did, Detective told you
18 to make contact with Darren Wilson?

19 **A** Yes, he informed me that police officer
20 Darren Wilson was currently at the Ferguson Police
21 Department and then instructed me to respond there
22 and conduct a cursory interview with Officer Darren
23 Wilson.

24 **Q** Tell us what is a cursory interview?

25 **A** Essentially what a cursory interview is it

1 is an interview that is, it is detailed enough to
2 where I and the other detectives would understand
3 the sequence of events that occurred.

4 It is to tell us and inform us where
5 evidence might be located within the crime scene and
6 we use that as an investigative tool.

7 **Q** Do you tape cursory interviews?

8 **A** No.

9 **Q** Why not?

10 **A** It is just common practice that we do not.
11 It is basically an interview where I would approach
12 the individual, and it is done so even not just a
13 police officer involved shooting, we do them on
14 almost every investigation. Just to understand what
15 that person saw and what happened to better assist
16 us within the scene.

17 So that's kind of the reason we do
18 that.

19 **Q** Okay. Was it your responsibility to seize
20 any evidence at the scene?

21 **A** No. I was at the scene for maybe ten
22 minutes and then I was dispatched to Ferguson Police
23 Department.

24 **Q** Because you needed to talk to Darren
25 Wilson?

1 **A** Correct.

2 **Q** So do you go to Ferguson on your own?

3 **A** I do.

4 **Q** By yourself you go to Ferguson, what
5 happens then?

6 **A** Then I enter the Ferguson Police
7 Department. You enter on the street level and then
8 I went upstairs to their common area. I did knock
9 on the door, allowed entry by Lieutenant Colonel
10 who is a lieutenant colonel with the
11 Ferguson Police Department. And he escorted me back
12 to the Ferguson Police Department detective bureau,
13 which is a room about half the size of this.

14 **Q** Was anyone in that room?

15 **A** Yes, there was Lieutenant Colonel

16 I was then introduced by him to police
17 officer Darren Wilson, an attorney and
18 Detective

19 **Q** Do you know what their roles were we know
20 Darren Wilson why you were there to talk to him, do
21 you know what the other folks were there for?

22 **A** I assume that had just been working that
23 day, I never even asked. It didn't seem important
24 at the time.

25 **Q** It wasn't relevant to your investigation

1 what these other people were doing?

2 **A** Correct.

3 **Q** Did you talk to Darren Wilson in front of
4 these other people?

5 **A** I made basically just an introduction to
6 Darren Wilson. When I saw him, he was wearing full
7 uniform which consisted of a Ferguson Police
8 Department button down shirt and then dark blue
9 slacks. He then directed my attention to his duty
10 belt, which was off at the time sitting on the
11 floor.

12 **Q** I'm going to come back to the duty belt.
13 I want to know you did talk to Darren briefly?

14 **A** Very briefly, not about the actual
15 incident at that time.

16 **Q** At that time, so all the people were
17 allowed to remain or were there with you these other
18 people that you mentioned?

19 **A** They were.

20 **Q** In the same room?

21 **A** Yes.

22 **Q** So where was the duty belt?

23 **A** It was on the floor next to a desk right
24 next to where Darren Wilson was standing.

25 **Q** Did he have on a weapon?

1 **A** At the time, no.

2 **Q** At that time?

3 **A** No.

4 **Q** Did you see the weapon?

5 **A** I saw, he had informed me that after he
6 responded to the police station, he had packaged his
7 weapon and then he directed my attention to an
8 evidence envelope, which appeared to be sealed, it
9 was on the desk of Detective

10 **Q** You didn't inspect that envelope though?

11 **A** No, I did not.

12 **Q** So do you know whether there was even a
13 gun in the envelope?

14 **A** At that time I did not.

15 **Q** But at some time did you find out there
16 was?

17 **A** I did.

18 **Q** So he told you he packaged it?

19 **A** Yes.

20 **Q** And did you ask him why he packaged it or
21 did you discuss that at all?

22 **A** No.

23 **Q** Okay. Did he volunteer why he packaged
24 it?

25 **A** No.

1 **Q** Is that uncommon? Have you ever been
2 involved in an officer involved shooting before?

3 **A** I have not been involved in one, but I
4 have investigated multiple.

5 **Q** Okay. That was a better way to answer, I
6 didn't ask the question right. Because you've never
7 shot anyone, is what you are telling us?

8 **A** That's correct.

9 **Q** But you have been involved investigating
10 those shootings?

11 **A** Yes.

12 **Q** Is it customary for the person who was
13 involved, the officer that is involved in the
14 shooting to handle and package their own gun as
15 evidence?

16 **A** Well, with the St. Louis County Police
17 Department it is something that's not done, however,
18 we were called to investigate another police
19 department's incident. So at that time we were
20 unaware of any policies or procedures they have in
21 place that when we get there basically we have to
22 find out, I guess, and explore the possibility that
23 maybe that's part of their policy.

24 **Q** Did you explore that?

25 **A** At that time, no, I did not.

1 **Q** At any time?

2 **A** No, I did not.

3 **Q** So you don't know what their policy is?

4 **A** Correct, I do not. I just knew that
5 police officer Darren Wilson had told me that he had
6 packaged the weapon and it was currently in that
7 bag. Now, at that point in time I never checked to
8 verify that, it was done later.

9 **Q** Okay. In an investigation such as this,
10 ideally what should happen with the officer's gun?

11 **A** The way that, I can only speak to the way
12 St. Louis County would handle it.

13 **Q** Sure.

14 **A** Is that that officer would continue to
15 have his weapon in his holster until a detective
16 from the Crimes Against Person Unit, which is my
17 unit, a supervisor and a crime scene unit detective
18 would conduct what we call a download of the weapon.
19 And that's an inspection of the weapon to determine
20 how many rounds are left inside of the weapon.

21 So what would happen is we would ask
22 the officer to remove his weapon from his holster,
23 the magazine would be ejected, we would count the
24 number of rounds in the magazine, if there are any.
25 Then we would ask him to move the slide to the rear,

1 which would eject a round if it was chambered, and
2 what that means is there would be a round of
3 ammunition in the barrel of the weapon.

4 **Q** Okay.

5 **A** And then that would be photographed as
6 those steps were taking place.

7 **Q** Would the gun be returned to the officer?

8 **A** No, the weapon would then be seized by our
9 crime scene unit detective.

10 **Q** Until the investigation?

11 **A** Typically what would happen is that it
12 would go directly to our firearm lab. They do a
13 test fire, inspect the weapon and then at that point
14 it would be returned to the police officer.

15 **Q** Okay. So you're at the Ferguson station,
16 you see a weapon, the officer is dressed in his
17 uniform?

18 **A** Uh-huh.

19 **Q** Did you see any blood on the officer?

20 **A** At that time, no, I did not.

21 **Q** Did you see any injuries on the officer?

22 **A** I did.

23 **Q** What did you see?

24 **A** I could see there was reddening to the
25 left and right side of his jaw and it appeared that

1 the right side was slightly swelled, like the cheek
2 area, those are the two injuries that I saw
3 initially.

4 Q Did he talk to you about any injuries?

5 A No, that's just what I observed when I met
6 him.

7 Q Just to clarify, I don't know if I've
8 asked you this before, did you know Officer Darren
9 Wilson before this incident?

10 A No, I did not.

11 Q So that was your first time you had
12 encountered him?

13 A Yes.

14 Q Was at the Ferguson Police Department?

15 A Correct.

16 Q There was a decision made that he should
17 go to the hospital; is that correct?

18 A That's correct.

19 Q How did that come about, if you know?

20 A To my knowledge that was a decision made
21 by Lieutenant Colonel

22 Q When you arrived in Ferguson, were they
23 discussing that he was going to go to the hospital
24 or did that come up while you were there?

25 A From what it appeared, it was a

1 conversation that was taking place before and then
2 continued as I arrived.

3 So I heard basically the tail end
4 that Officer Darren Wilson would go to the hospital
5 and get treated.

6 **Q** And what did that mean as far as your
7 investigation was concerned?

8 **A** The way I would handle it with anybody,
9 victim, witness, suspect, anybody that we would talk
10 to is that if they are requesting medical treatment,
11 we would do that first, that's more important than
12 any statement we are going to get. And we can
13 continue the statement at the hospital, which
14 happens regularly. That we would follow them to the
15 hospital, meet them at the hospital and then get the
16 statement there while they're receiving treatment.
17 We would never hinder anybody from getting medical
18 treatment if they sought it.

19 **Q** So you had ended up going to hospital?

20 **A** I did.

21 **Q** What hospital was that?

22 **A** Christian Northwest Hospital located on
23 Graham Road in Florissant, Missouri.

24 **Q** You didn't ride along with the officer,
25 did you?

1 **A** No.

2 **Q** Did he drive himself or do you know?

3 **A** He rode with Lieutenant Colonel

4 those three individuals were in the
5 car at that time and I drove separate.

6 **Q** You all arrived at the hospital?

7 **A** Yes.

8 **Q** He's, I imagine, treated?

9 **A** Yes. If I can just back up one step.

10 **Q** Sure.

11 **A** Before we had departed, the Ferguson
12 Police Department, Officer Wilson did remove his
13 uniform shirt and draped it over a chair, which that
14 was essentially in Detective right
15 next to his desk. So that's kind of where the three
16 items that I would consider evidentiary value were
17 located and they were in his custody.

18 **Q** Did someone ask him to remove his shirt?

19 **A** What's that? I don't know if it was done
20 or not, however, he did remove his shirt and he
21 draped it over a chair.

22 **Q** The three items you are talking about are
23 the shirt, the belt?

24 **A** And the weapon.

25 **Q** And the weapon, okay.

1 **A** Yes.

2 **Q** Anything else before we go back to the
3 hospital?

4 **A** No, ma'am, sorry to go back.

5 **Q** No, I'm glad you did that because this is
6 important. So you tell us if I miss something, for
7 sure let us know.

8 **A** Sure.

9 **Q** So you got to the hospital, what happened
10 then?

11 **A** We were escorted to a trauma room and
12 while I was driving there I had contacted Detective
13 and he's with our crime scene unit, I
14 requested him to respond to Christian Northwest
15 Hospital, meet me there to photograph the injuries
16 of police officer Darren Wilson.

17 **Q** Did Officer meet you there?

18 **A** He did. When we arrived, like I said, we
19 were escorted to a trauma room. Initially within
20 the trauma room was myself, police officer Darren
21 Wilson, attorney Lieutenant Colonel
22 and Detective . Detective
23 asked Officer Wilson if it was okay for him
24 to photograph him. He agreed and he took several
25 photographs of the apparent injuries to his face,

1 neck and the back of his neck.

2 Q So Officer Wilson was cooperative with
3 your investigation?

4 A Yes.

5 Q I meant to ask you going back and going to
6 come right back to the hospital, when you first
7 encountered him, what was his demeanor?

8 A He was calm, collected. I didn't see that
9 there was any type of debilitating injury to where
10 it would prevent any type of interview, like a head
11 injury or something like that. He seemed to be
12 talking, making logical sense and talking like that.

13 So there was no concern that he had
14 some major head injury, I guess, from my own opinion
15 or appearance.

16 Q He never complained about his head being
17 injured?

18 A Not to the point where he would have not
19 been able to be interviewed.

20 Q Did he tell you he had a head injury?

21 A No.

22 Q When you go to the hospital, is his
23 demeanor about the same as it was at the station?

24 A Yes.

25 Q And he allows Officer to take

1 pictures of him?

2 **A** Correct.

3 **Q** And how does your interview begin with
4 him, your cursory interview?

5 **A** Essentially after Detective
6 concluded his investigation of taking the photos, I
7 asked Detective and Lieutenant Colonel
8 to step out of the room as they were to not
9 be present during the cursory interview.

10 **Q** What about his attorney?

11 **A** He remained in the room.

12 **Q** All right. And why did you ask the other
13 two to step out?

14 **A** We would, for one, privacy and two, on any
15 interview, it would be a one-on-one interview with
16 myself and any potential victim, witness or suspect.

17 **Q** And again, this interview was not
18 videotaped or audiotaped for that matter?

19 **A** That's correct.

20 **Q** So go ahead.

21 **A** Uh, I initially asked Officer Darren
22 Wilson if he would allow me to interview him. He
23 agreed.

24 During every police officer involved
25 shooting that we investigate, I ask a series of

1 almost standard questions that begin my interview.

2 Those questions are, were you on duty today?

3 He indicated he was.

4 What was your call sign if you were
5 to call out on the radio? His call sign was Frank
6 21 that day.

7 What sector he was assigned to.
8 Sector 1.

9 What is the beginning and end times
10 for his scheduled shift. He indicated he began a
11 shift at 6:30 in the morning and was scheduled to
12 end his shift at 6:30 at night.

13 What he was wearing. He indicated he
14 was wearing the uniform he currently had on and the
15 rest of it what he left at the station. And what
16 vehicle he was assigned that day. He said he was
17 assigned vehicle 108, which he describes as a fully
18 marked Ferguson patrol vehicle.

19 **Q** And is it your understanding that that
20 vehicle is actually a truck?

21 **A** Yes, it was a Chevy Tahoe.

22 **Q** How did you get into what happened did you
23 ask him what happened?

24 **A** Yes.

25 **Q** Tell us about that?

1 **A** Basically during the cursory interview, I
2 asked a very open ended question and allow that
3 person to just talk. Tell me, from basically start
4 to finish, what happened. And the only time I will
5 really interrupt if I need a clarifying question or
6 something I didn't understand it, I need time
7 catching up writing down what he's saying.

8 I just essentially asked Officer
9 Darren Wilson to describe what happened and where he
10 was at prior to the incident up through the
11 incident.

12 He tells me that he was leaving an
13 unrelated sick case call and was driving, it would
14 be west on Canfield Road. As he's driving he hears
15 a call that was not assigned to him for a stealing
16 in progress at 9101 West Florissant Avenue, and he
17 provides us with that address and the nature of the
18 call was a stealing.

19 He said that the call comments
20 indicated the suspect description was a black male
21 wearing a black shirt and brown shorts, and that an
22 additional call comment indicated that taken during
23 the stealing were Cigarillos.

24 **Q** Go ahead.

25 **A** I'm sorry. He continues and says he's

1 driving west down, continues west down Canfield Road
2 and he sees two subjects approaching from the area
3 of West Florissant and Canfield walking in the
4 center of the street.

5 I then ask Officer Darren Wilson to
6 describe the two subjects.

7 He describes one subject as a black
8 male, dark complexion, approximately 5 foot 5, with
9 short dreadlock style hair wearing a black T-shirt.
10 He describes the second male as a black male, medium
11 complexion, approximately 6 foot 3, approximately
12 270 pounds, clean shaven, wearing a red baseball
13 style cap, a gray shirt, khaki shorts and yellow
14 socks.

15 Officer Wilson then tells me that as
16 he's traveling west down Canfield Road, he stops his
17 patrol vehicle and allows the two subjects to
18 approach. So basically they're walking towards the
19 front of his patrol vehicle.

20 **Q** Did he indicate whether they were walking
21 single file or side by side or anything?

22 **A** He never did and I didn't ask. He just
23 says they were walking down the center of the
24 street.

25 **Q** Okay.

1 **A** He says at this time his driver's window
2 is down, fully down. The, he allows the subjects to
3 approach and then says to the two subjects. "Hey,
4 why don't you guys walk on the sidewalk." And
5 that's what he quoted, that's the quote that he
6 said.

7 **Q** Did he say anything about whether he
8 thought this was a confrontation or it was an angry
9 exchange or did he not refer at all?

10 **A** He didn't elaborate, he just said that I
11 stated.

12 **Q** Okay, go ahead.

13 **A** He says right after he makes that
14 statement, the shorter male says, "we're almost to
15 our destination." And then it's quickly followed by
16 the larger male stating, "the fuck with what you
17 have to say", and he quotes that. And then they
18 continue to walk past his vehicle, which would be
19 east on Canfield.

20 **Q** At that point does he say that he
21 investigates these two for stealing Cigarillos, does
22 he mention anything to them about the theft?

23 **A** He doesn't say anything like that to me.

24 **Q** Okay. Go ahead.

25 **A** Officer Wilson, Officer Darren Wilson then

1 tells me that he got on his radio and says that he's
2 going to be conducting, notifies his dispatcher he
3 is conducting a pedestrian check and he requests an
4 assist car.

5 He then places his vehicle in reverse
6 and backs up towards the subjects. He places his
7 car in park, I'm sorry. As he attempts to exit his
8 vehicle he says, "hey, come here." That's a quote
9 that he used, "hey, come here."

10 As he's opening his door he feels the
11 door get slammed shut and then realizes the larger
12 of the two subjects pushed his driver's door closed.

13 He then tells the large subject to
14 get back and to move, and attempts to open the door
15 a second time. The door is then forced shut again,
16 and he describes that the larger subject is standing
17 at his driver's door with both hands on the door
18 frame of the vehicle like where the window would
19 come up is how he describes it.

20 And then Officer Wilson orders the
21 subject, or the subject to get back again. And
22 those are his words, get back and move is what the
23 two words that he's using.

24 Officer Wilson then tells me that the
25 subject then enters through the opened driver's door

1 window with his upper body. And he details it is
2 his upper body and both of his arms.

3 The subject, according to Officer
4 Darren Wilson, begins striking him in the chin,
5 face, shoulders and chest. As he described it is
6 the subject was swinging wildly.

7 During this time Officer Wilson's
8 trying to deflect the punches with his left hand
9 while giving the subject commands to get back and
10 move and stop.

11 After that, Officer Wilson, he
12 continues and states that subject then reaches
13 backwards with his left hand, and basically removes
14 his left hand and arm from the vehicle and hands
15 something to the other subject and says, "here, take
16 this," is what Officer Wilson says that he hears the
17 larger subject say.

18 He did not, nor did I ask, describe
19 what he thought was handed off, but he said that he
20 handed something.

21 He continues that immediately after
22 the subject says, "here, take this." He then
23 quickly moves his left arm and hand back into the
24 vehicle and then punches Officer Darren Wilson in
25 the right side of the face.

1 Officer Wilson then tells me that
2 this instantly stunned him and he starts basically
3 backing away and leaning back. Officer Wilson tells
4 me he continues with his left hand and forearm to
5 try to deflect the punches that he's being hit with
6 and then he starts going, as he puts it, through the
7 progression on his belt.

8 He thinks about grabbing his mace,
9 which is situated on his duty belt, however, he is
10 in a seated position and he can't retrieve it and it
11 is on the right side of his belt.

12 He then considers using an asp baton.
13 What an asp baton is, is a retractable baton that's
14 standard issue for law enforcement. He says that he
15 believed that due to the confined space from within
16 the patrol vehicle, that it would be an ineffective
17 tool.

18 And at this point I believe I asked
19 Officer Darren Wilson if he thought he could escape
20 any other way? And he says no.

21 He describes the interior of the
22 patrol vehicle or the Tahoe as having a computer and
23 a radio and a shotgun in the center console, which
24 prevented him from being able to climb over or get
25 out of the passenger side of the vehicle.

1 I asked Officer Darren Wilson to
2 continue. He stated that he then used his left
3 forearm, again, to try to create space between
4 himself and the subject, and then he retrieves his
5 department issued firearm from his holster, which is
6 situated on the right side of his belt.

7 Q Did he say, or do you know, he said the
8 mace is situated on the right side of his belt and
9 the gun is situated on the right side of the belt,
10 correct?

11 A The mace was on the left side.

12 Q I thought you said the right side.

13 A The mace was on the left side, his
14 department issued firearm is on his right side.

15 Q Okay, thank you. You can go on.

16 A He then removes his department issued
17 firearm from his holster and begins to raise it and
18 as he's raising it he yells, he said he yelled, stop
19 or I'll shoot.

20 Officer Wilson then tells me the
21 subject then grabs with his hand the top of the
22 slide of the firearm. And he says that his hand is
23 large enough to encompass the top of the slide. The
24 majority of the hand grips and the trigger guard,
25 and that's with Darren Wilson, he says his hand is

1 on it, Darren Wilson's hand is on the weapon.

2 The subject then responded with,
3 "you're too much of a pussy to shoot me." And that
4 was a quote from Darren Wilson.

5 Q Did he give you any of his opinions or
6 thoughts about what was going on when he says, "you
7 are too much of a pussy to shoot me," or did he just
8 kind of tell you what happened?

9 A Just told me what happened.

10 Q Okay.

11 A The subject makes that statement. And
12 then immediately following that statement, the
13 subject then forces the firearm in a downward angle
14 and Officer Darren Wilson tells me he can feel the
15 barrel of his own firearm pressed against his left
16 hip as he is in the seated position.

17 Officer Wilson then continued stating
18 that once he felt the barrel of the weapon pushed
19 into his hip, he was able to shift his lower half to
20 the right and basically get the barrel of the
21 firearm to now be pointed at the seat and off of his
22 hip.

23 He then with his left hand, with his
24 right hand on the gun, on the handgrips of the gun,
25 and he takes his left hand and puts it on the side

1 of the frame of the weapon. And then is able to
2 push it away from him to where the weapon is now
3 pointed at the driver's door.

4 He says that he then pulls the
5 trigger and nothing happens, the gun misfires.

6 He continues by stating that he
7 believed that due to the subjects hands being on the
8 top of the slide and on the trigger, I'm sorry, on
9 the hammer, that's what caused the gun to misfire.

10 Officer Wilson continues and states
11 that he then pulled the trigger again, at which time
12 one round of ammunition was fired.

13 Immediately following that, he sees a
14 large explosion of glass and then looks down and
15 sees what he believed was blood on his hands. He
16 said at that point he didn't know if he was injured
17 or the subject was injured, just knew that he saw
18 blood.

19 Officer Wilson continued that the
20 subject hands were still on the gun and he pulled
21 the trigger two more times and it misfired both
22 times.

23 The subject then reentered the
24 vehicle and assaulted Officer Darren Wilson by
25 punching him several more times in the face and then

1 stopped the assault and ran eastbound on Canfield
2 Road away from the vehicle.

3 **Q** So one shot you said was fired inside,
4 while he was sitting inside the vehicle?

5 **A** Yes.

6 **Q** Okay. And he considered, he realized he
7 could not escape, I'm not saying he should escape,
8 he considered that he could go to the left side or
9 passenger side, he was blocked by the shotgun or?

10 **A** Yes, he describes that there's a computer,
11 a large center console with a radio and like the
12 controls to the light bar and siren, and then a
13 shotgun. And there's just no means of escape
14 through the passenger side of the car.

15 **Q** But he said he did consider that?

16 **A** Yes.

17 **Q** Did he get over to the other side?

18 **A** He said he was unable to.

19 **Q** He was what?

20 **A** He was unable to.

21 **Q** But he considered that is what you said he
22 said?

23 **A** Yes.

24 **Q** Okay. All right. So go ahead, so now the
25 suspect is running east?

1 **A** Yes. He says that the subject is then
2 running east on Canfield, and Officer Darren Wilson
3 then exits his vehicle and upon doing so, he says he
4 radioed to his dispatcher that shots were fired, and
5 he continued to exit the vehicle.

6 He says he observed the subject
7 running east on Canfield at which time he pursued on
8 foot.

9 He says after, or during this chase,
10 he's giving the subject loud, verbal commands as he
11 puts it, to stop and to get on the ground.

12 Officer Wilson then tells me that the
13 subject then stops and turns around. He estimated
14 the distance was approximately 30 feet from him.

15 So at that time Officer Wilson
16 stopped in the street and then began to order the
17 subject to stop and get on the ground.

18 He continues and tells me that as he
19 turns around, the subject has, as he quotes it, "an
20 intense and psychotic look on his face." The
21 subject then takes his right hand and moves it
22 towards his waistband on the right side.

23 Officer Wilson then says the subject
24 screams something inaudible, doesn't know what he
25 said, but just screams something and begins to

1 charge him. And that's Officer Wilson's word was
2 charge.

3 As the subject is moving towards him,
4 he is giving him, continually giving him commands to
5 stop. As he is backpedaling to try to, as he says,
6 try to maintain the distance between the two.

7 He then continues and states that he
8 knew if the subject were to reach him, that he
9 would, and he quotes, "he would be done." Meaning
10 that Officer Wilson would be done. He knew, he
11 immediately stated he knew he was overpowered and
12 assaulted already one time in the vehicle.

13 Officer Wilson continued and stated
14 as the subject got within 15 feet of him, he
15 discharged five rounds of ammunition. He said that
16 this had no effect and the subject continued towards
17 him.

18 **Q** Did he indicate whether, did he, he may
19 not have, indicate whether or not any of the five
20 rounds entered the body of Michael Brown?

21 **A** He did not know, nor did I ask. He just
22 said that the subject continued to come towards him.

23 **Q** Did he indicate to you how, when the
24 subject turned around, I think you said that he put
25 his arms some kind of way and charged him?

1 **A** He says that --

2 **Q** Can you demonstrate that for us?

3 **A** I'm sorry?

4 **Q** Did he show you how?

5 **A** Officer Wilson kind of spoke with his
6 hands and he does demonstrate that the subject --

7 **Q** Can you stand up and show us, please?

8 **A** Yes. When the subject turns around, his
9 right and goes to his waistband. Now, he did not
10 say in his waistband or he just says to his
11 waistband.

12 And like we kind of covered earlier,
13 the cursory interview is not to get, it is more so
14 for the physical evidence to assist the
15 investigators on the scene.

16 So any clarifying questions would
17 have been done during an audiotaped interview,
18 which occurred later on.

19 **Q** Okay. Let me show you, but he put his
20 right hand near his waistband?

21 **A** Towards his waistband.

22 **Q** Nothing specific about his left hand?

23 **A** Doesn't say anything about it.

24 **Q** Okay, all right. He lets off, I think you
25 said, five more shots?

1 **A** Yes, he says that the first shots were
2 five, he believes it was approximately five rounds
3 of ammunition and the subject continued towards him.

4 He then discharged two additional,
5 approximately two additional rounds of ammunition,
6 and he said those had no effect and the subject
7 continued towards him.

8 He then states that the subject
9 started to lean forward and to Officer Darren Wilson
10 appeared that the subject was attempting to tackle
11 him, and that's his word was tackle. At which time
12 he discharged one additional round of ammunition.

13 Officer Wilson stated he then used
14 his radio and notified his dispatcher, and I believe
15 his quote was, "send me every car you've got and the
16 supervisor."

17 **Q** Did he indicate that he knew where that
18 last round landed?

19 **A** He said he believed it hit him in his
20 head.

21 **Q** Have you ever heard any of the radio
22 transmissions?

23 **A** Afterwards, yes, I have.

24 **Q** All right. It was part of your
25 investigation to listen?

1 **A** I listened to bits and pieces, but as far
2 as a continual listening to every piece of radio
3 traffic, no, that was not my responsibility.

4 **Q** What part of the radio traffic were you
5 interested in listening to?

6 **A** I believe it was just random bits to see
7 what all that we had. So from at the very beginning
8 would be him being dispatched to the sick case
9 through the end of when St. Louis County basically
10 departed the scene.

11 There was no specific pieces of radio
12 traffic that I was either interested in or
13 documented.

14 **Q** But you listened to the radio traffic from
15 the sick case to when St. Louis County came on the
16 scene?

17 **A** Not completely through.

18 **Q** Okay.

19 **A** I don't know if I said that right, but
20 just to see where it started and where it ended.

21 **Q** I see.

22 **A** I didn't listen to anything in between.

23 **Q** Okay. Did he ever, I think you said that
24 when he saw his right hand go to his waist, did he
25 say he thought he had a weapon?

Page 114

1 **A** I'm sorry?

2 Q Did he say that he thought that Michael
3 Brown had a weapon?

4 **A** He didn't know.

5 Q He didn't know?

6 **A** He did not know.

7 Q That was his concern?

8 **A** Yes.

9 Q When he put his hand to his waist?

10 **A** Yes.

11 Q He did say that?

12 **A** He said due to the assault and not knowing
13 that he was concerned.

14 Q Okay. Does he ever mention anything about
15 some Cigarillos?

16 **A** Are you speaking of Officer Darren Wilson?

17 0 Yes.

18 **A** The only thing he mentions about
19 Cigarillos was during his recollection of the
20 initial call, comments for the stealing in progress
21 at 9101 West Florissant. It was never addressed
22 after that or brought up.

23 MS. WHIRLEY: Questions?

24 : . When you
25 mentioned the struggle inside the vehicle with the

1 officer and Michael Brown, did Michael Brown have
2 anything in his hands, did he mention he had
3 anything in his hands at the time?

4 **A** He says when, the way he describes it is
5 when he reaches back and says, "here, take this."
6 That he hands something off to the other individual,
7 but he doesn't know what it was. So he just says,
8 he left it at something.

9 : Did you
10 state that after the first shot went off in the car
11 when he was trying to gain control of his weapon,
12 that it misfired two more times?

13 **A** The total number that he can approximate
14 is three. The first time he pulled the trigger he
15 said that it misfired. The second time he pulled
16 the trigger it fired and then he said he tried two
17 additional times and they misfired.

18 : Okay, thank you.

19 The first
20 misfire he said was because Michael's hand was on
21 the gun, what about the second and third one, was
22 there still that contact going on?

23 **A** He says that that's what he believed.
24 Now, I'm not a firearms expert nor was I there, but
25 he says that he believes that that's what caused the

1 misfire.

2 Throughout this he never says that
3 Michael, the subject, takes his hand off the weapon
4 until he continues the assault, the second assault
5 in the vehicle.

6 Just to follow-up, did you
7 have a sense for how long that altercation lasted?

8 **A** He approximated a minute from start to
9 finish.

10 : . When we
11 talk about misfire, can you kind of walk us through
12 that process what it looks like?

13 **A** Sure. So there's many reasons. And like
14 I said, I'm not a firearms expert, however, in my
15 job I do carry a firearm and know some things about
16 it is that a weapon can misfire for many different
17 reasons.

18 One of them being if there's anything
19 that is impeding the hammer of the firearm from
20 coming forward and striking the firing pin, that
21 will cause the weapon to misfire. So if you put
22 anything in there, a piece of rope, or as the case
23 may be, if a hand is pushed down on that hammer, it
24 won't let that hammer cycle and won't allow the
25 weapon to fire. Does that clarify it?

1 : Yeah,

2 So the bullet would remain in the gun, it
3 would not have impacted, it potentially would be
4 able to be shot again, there would no casing
5 discharged?

6 **A** Correct. So if the weapon misfires in
7 that form, the casing will not be discharged, the
8 round that is currently in the chamber will still be
9 a live round, it will still fire if the gun cycles
10 properly the next time.

11 Okay, thank you.

12 MS. ALIZADEH: I have a follow-up question
13 about that. And you're familiar with the Sig Sauer
14 weapon that this officer was carrying?

15 **A** I am.

16 **Q** (By Ms. Alizadeh) And this is a weapon
17 that when it fires properly, the empty cartridge is
18 ejected from the gun ejection port, right?

19 **A** Yes.

20 **Q** And that's on top of the weapon, at least
21 in the area where Officer Wilson said Michael Brown
22 had his hands, correct?

23 **A** That is correct.

24 **Q** Can you explain to the jurors what
25 stovepiping means?

1 **A** Stovepiping is a term used in firearms
2 where the round, a live round will be, it could be a
3 spent round also, casing is basically partially
4 ejected and is situated in a manner that looks like
5 the round is sitting vertical on the gun. If I'm
6 explaining this right, to where it would look like a
7 stovepipe coming out of an oven. And that basically
8 means that the casing was not fully extracted from
9 the chamber and the gun did not cycle properly.

10 **Q** And is it possible, again, we will have a
11 firearms expert testifying about this, has that ever
12 happened to you?

13 **A** At the range, yes. I mean, it is a
14 malfunction that is not common, but it does occur.

15 **Q** And so if there would be something
16 blocking that cartridge from flying out of that
17 ejection port, it could be stuck inside partially in
18 and out of the weapon, correct?

19 **A** Yes.

20 **Q** And if that were to occur, would you be
21 able to discharge another round with that
22 projectile, that cartridge still partially in that
23 ejection port?

24 **A** No. And also when that casing is
25 stovepiped, it allowed, the gun is out of battery,

1 which means it won't cycle again. So you would have
2 to clear the malfunction, and there's a drill that
3 they train us on of how you would have to clear the
4 stovepipe, the round.

5 I'm . This
6 is going back to the time that you arrived at the
7 Ferguson Police Department to speak with Officer
8 Wilson, Darren Wilson. And at the time you said he
9 showed you where his gun, where he says that his gun
10 was contained in his package.

11 **A** Uh-huh.

12 : Can you describe that
13 package for us?

14 **A** I can. It is a manila envelope, which is,
15 I'd probably say 9 by 13 size, and what it looked
16 like is I didn't see if it was sealed because the
17 way it was positioned on the table is that the flap,
18 I guess for it, was positioned down, if that makes
19 sense.

20 : Yeah, that is what I
21 wanted to know.

22 **A** Sure.

23 : I need clarification if it
24 was sealed or not. And from the time of the
25 incident until the time that Officer Darren Wilson

1 was transported to Christian Northwest to document
2 his injuries or whatever, can you give me some idea
3 about how much time had elapsed from that point to
4 the point that he arrived at the hospital?

5 **A** Well, the only thing I could speak of is
6 the time that we were notified at this point. I
7 don't exactly know what time the incident occurred
8 and what time he departed the scene, it wasn't part
9 of my responsibility or my interview at the time.

10 I know that we were notified at
11 12:43. I arrived at 1:30 on scene and I first
12 contacted Officer Darren Wilson at 2:00 p.m.

13 The conversation at Ferguson Police
14 Department lasted minutes, not long at all and then
15 he was transported to Christian Northwest Hospital.

16 MS. WHIRLEY: How long would you say, how
17 much time did you spend with him at Christian
18 Hospital.

19 **A** I probably say 30 minutes. Obviously it
20 took some time to get photos taken and then any time
21 that either a registration nurse, a physician's
22 assistant or nurse would enter the room, the
23 interview would basically just stop for privacy
24 reasons. That would be common practice even if it
25 was a normal investigation.

1 . So from
2 the time that you finally left him at the hospital
3 or whatever.

4 **A** Uh-huh.

5 : Do you know about what
6 time that was?

7 **A** I probably say I left probably between
8 2:45 and 3:00. From that point I returned back to
9 the Ferguson Police Department.

10 Yes, ma'am.

11 : During
12 the scene, the time that the officer was still
13 positioning his car, struggling with Mr. Brown, did
14 he ever indicate that he was trying to call for
15 help?

16 **A** I'm sorry?

17 : Did he ever say that he
18 was trying to call for help or backup?

19 **A** He did not. He said that initially even
20 before, as you put it the altercation took place, he
21 says that he requested, advised the dispatcher he
22 was conducting a pedestrian check and then he
23 requested an assist car at that point before the
24 confrontation at the vehicle ever took place.

25 : So when an officer in his

1 position will call for help, does he have a
2 microphone here or radio dispatch on his waist?

3 **A** In a later interview with Officer Wilson,
4 we found that he keeps the radio on his right side.

5 MS. ALIZADEH: You are pointing to your
6 left side?

7 **A** I'm sorry, it is on his left side, I
8 apologize. I'm sorry, on his, thank you, his left
9 side. And then there would be a radio inside of the
10 vehicle also.

11 : So still . He
12 gets out of the car and he tells him to halt, but he
13 says the victim kept running. So at that time he
14 still had not called for backup?

15 **A** He says that as he's exiting the vehicle
16 he announces shot fires and requested assistance at
17 that point. That would be once he is getting out of
18 the car.

19 He's --

20 **A** I'm sorry?

21 Did he fire once he got
22 out of the car or did he call and then fire?

23 **A** No, he, okay he, I'm trying to explain it
24 to where. So essential what happens is after, he
25 tells us that after the first shot that went off

1 while he was in the vehicle, the subject comes back
2 in and assaults him and then takes off running east
3 on Canfield away from the car.

4 : Uh-huh.

5 **A** Officer Wilson then tells us that he opens
6 his door and as he is exiting the vehicle, he gets
7 on his radio and announces, or notifies his
8 dispatcher of shots fired and requests an assist
9 car.

10 So at that point that would be his
11 second, as he puts it, second radio transmission
12 regarding this incident announcing where he
13 announced shots fired and requested assistance at
14 that point.

15 So what did he say would
16 be his reason to keep firing after he got out of the
17 car and calling for help?

18 **A** Okay, uh --

19 : If the suspect is running,
20 then what would be your initial reason to keep
21 shooting?

22 **A** As Darren Wilson describes it, the subject
23 turned around at that point. He doesn't tell us
24 that he fired any rounds from the time that he got
25 out of the car to the time that the subject turns

1 around. He just announces on the radio that shots
2 were fired.

3 And from being a police officer as
4 long as I have, that's the same thing as an officer
5 needs aid, requesting immediate assistance, if you
6 hear, you are a neighboring police officer and you
7 hear any police officer and yell shots fired, that
8 means that obviously something bad has happened.

9 : . I guess
10 at the point where Michael Brown turned around, did
11 Officer Darren Wilson, did he indicate he had any
12 injuries?

13 **A** He doesn't, he doesn't say. Are you
14 talking about Officer Wilson or the subject?

15 : The subject.

16 **A** He doesn't say nor do I ask. He just says
17 he turns around and then the hand goes to the right
18 side of his waistband. He never says that he saw
19 any injuries on the subject nor did, like I said,
20 nor did I ask.

21 : After the shot
22 was fired in the car, you said he saw blood on his
23 hand. Was Officer Wilson referring to his own hand
24 or Michael Brown's hand?

25 **A** He was referring to his own hands. So

1 that's when he says, he tells me that he didn't know
2 if he was injured, as far as he being Officer
3 Wilson, or the subject was injured. He didn't know,
4 he just saw the blood.

5 : . You said you've
6 investigated several officer shootings, is it
7 typical that prior to your arrival, that the officer
8 already has a lawyer there?

9 **A** It can happen. I mean, it does happen on
10 certain occasions and it would not impede us or
11 change anything with the way we proceed. I mean, we
12 would ask every police officer, just like we ask
13 every victim or every witness or every suspect, if
14 they would be interested in having a conversation or
15 if they would be okay with an interview.

16 And we just assume that the attorney
17 would and with what happened is, his attorney sat
18 there and didn't say a word.

19 : And this case there isn't
20 say, for instance, Ferguson Police Department, there
21 isn't a lawyer staffed in the building readily
22 available, it would have been just like anyone else,
23 it would have been called in on Saturday, I imagine?

24 **A** I'm sorry to interrupt you.

25 : No, no.

1 **A** I believe the attorney, is
2 an attorney for the FOP, which is the Federal.

3 MS. ALIZADEH: Fraternal?

4 **A** Fraternal Order of Police's attorney, I'm
5 sorry. Basically he is, I don't want to say
6 on-call, it is not the right word, but if a critical
7 incident happens, the police officer, if a member,
8 can call him any time.

9 : Thank you.

11 Stovepiping.

12 **A** Yes.

13 You said the casing is
14 not fully discharged from the weapon?

15 **A** Uh-huh.

16 : It kind of looks like a
17 stove, like a stovepipe on top of the gun?

18 **A** Uh-huh.

19 : It cannot be discharged
20 again until that's taken apart?

21 **A** The gun doesn't have to be taken apart.

22 Until the casing,
23 whatever, is taken off?

24 **A** Right, it would have to be, the
25 malfunction drill is, you have to remove the

1 magazine, lock the slide to the rear, which would
2 remove the stovepipe round and the round that was
3 somewhat forced into the chamber, or the barrel of
4 the gun. You would have to reinsert the magazine
5 and then put the slide forward and that would
6 chamber another round.

7 So it's a three or four step process
8 too, if a weapon does stovepipe, to clear that
9 malfunction.

10 If a gun was, if a weapon
11 was, a shot was fired inside the car that there
12 would be a spent casing inside the car or could it
13 exit the window?

14 **A** It could definitely eject through the
15 window.

16 The window that's in
17 front of you?

18 **A** Yes, it could have, in just my experience,
19 casings could end up in very odd places. It will
20 eject, and it could bounce off something, you know,
21 there is plenty of obstructions inside of a car, any
22 typical car a steering wheel, the dashboard, it
23 could end up anywhere.

24 Or moving body?

25 **A** A moving body, yeah. It could have been,

1 seen it before where it is caught in clothes and it
2 would fall out as a person is running away and it is
3 further away from the scene than what you would
4 expect. There's no predetermined place for a casing
5 to land when it is ejected.

6 . I'm just
7 trying to get idea of the logistics of the utility
8 belt.

9 **A** Okay.

10 : Okay. Now, you told us
11 the radio is kind of like on the left hip?

12 **A** Uh-huh.

13 : Is that basically where
14 everybody wears it?

15 **A** Uh-huh.

16 : Give me some idea where
17 the mace is, where the baton is in relationship to
18 the gun?

19 **A** Okay. On Darren Wilson's belt
20 specifically?

21 Uh-huh.

22 **A** It was, the mace on the left side, his
23 radio was on that side also.

24 : Uh-huh.

25 **A** There is a, it is more like a utility belt

Page 129

1 loop where you would either hang a flashlight or you
2 can put a spare set of handcuffs on it. And then on
3 the back side, I believe there was a set of
4 handcuffs and his duty holster on his duty belt was
5 on his right hip. On the right side, but in the
6 front are two additional, it is called a magazine
7 pouch and it carries two reserve magazines for your
8 pistol.

9 Anywhere for the mace or
10 whatever?

11 **A** The mace is right here.

12 : The mace is on the left?

13 **A** It is on the left.

14 : Okay.

15 **A** That's the situation, I guess, of his duty
16 belt.

17 : Okay, thank you.

18 : . Getting back
19 to the positioning of the shooting. When Michael
20 Brown turned around, Officer Darren Wilson said he
21 was approximately 30 foot between them?

22 **A** (Nods head.)

23 : As Michael Brown charged
24 towards him, he backed up to keep the distance.
25 Does he indicate that Michael Brown was closing

1 distance on him?

2 **A** He says that, and I don't want to make an
3 assumption, I'm just telling you what he says. The
4 distance started at 30 feet and then it was reduced
5 down to 15 feet.

6 MS. WHIRLEY: If there are no other
7 questions, you did actually do a recorded interview
8 with Michael Brown; is that correct? (sic)

9 **A** I did.

10 **Q** (By Ms. Whirley) And who was present
11 during that interview?

12 **A** It was myself, Detective
13 who was the case detective, police officer Darren
14 Wilson and his attorney

15 **Q** Any idea how long that interview was?

16 **A** I'd say roughly 30 minutes.

17 **Q** 30 minutes, okay. We're not going to ask
18 you to sit through the interview, I was just setting
19 it up because you are the person that actually did
20 that interview.

21 Any other questions?

22 MS. ALIZADEH: I do want to ask about that
23 interview as well. So that is recorded and we're
24 going to play that later.

25 The interview actually was primarily

1 conducted by wouldn't that be fair to
2 say?

3 **A** Yes.

4 MS. ALIZADEH: You were present and also
5 asked questions, but is the primary
6 speaker or the primary questioner I would say,
7 correct?

8 **A** Yes.

9 MS. ALIZADEH: And that was video or audio
10 recorded?

11 **A** Audio recorded.

12 MS. ALIZADEH: Now, you will sometimes
13 video record homicide suspects; is that correct?

14 **A** That's correct.

15 MS. ALIZADEH: And you an interview room,
16 several interview rooms over at your headquarters
17 that are equipped with video cameras and that are
18 for that purpose, interviewing suspects, correct?

19 **A** Yes.

20 MS. ALIZADEH: Why didn't you video record
21 his, and I don't know if it was your decision or
22 another officer's decision, do you know why he was
23 not put in an interview room and interviewed like
24 you would a suspect in a homicide?

25 **A** Our interview rooms are small, they're

1 kind of that way for a reason. They are 4 feet by
2 6 feet. And with just one interviewer and a person
3 being interviewed, is very tight.

4 So with two detectives, a person
5 being interviewed and their attorney, that room,
6 those rooms are just not conducive for that type,
7 the amount of people.

8 So the room that we chose to use is a
9 small conference room with a table and about six
10 chairs that are around it. So it was more
11 accommodating, we would use that option if we needed
12 it on any interview.

13 MS. ALIZADEH: And so there was an audio
14 recording made of that interview, correct?

15 **A** That was done at the St. Louis County
16 Police Headquarters within the office of the
17 Division of Criminal Investigation, which is where
18 our offices are.

19 MS. ALIZADEH: Also just to clarify, you
20 are now aware that the FBI is conducting an
21 independent investigation into civil rights
22 violations, correct?

23 **A** Yes.

24 MS. ALIZADEH: I'm not going to get into
25 the date that that began or anything like that, but

1 when you did your interview at the department
2 headquarters in the conference room, the one we are
3 going to listen to, was FBI conducting joint
4 interviews at that time?

5 **A** At that time, no.

6 MS. ALIZADEH: Okay. Now, after that
7 date, at some point during this lengthy
8 investigation, was there a decision made between
9 your superiors and people with, you know, the feds
10 that if at all possible, it would be better that you
11 all conduct joint interviews?

12 **A** Yes.

13 MS. ALIZADEH: But the feds were not
14 involved in the interview that Darren Wilson gave at
15 your headquarters in the conference room?

16 **A** Correct.

17 MS. ALIZADEH: Okay.

18 : . I just
19 want to clarify, that interview, the recorded
20 interview was with Officer Darren Wilson?

21 **A** Yes, Officer Darren Wilson and Detective

22

23 I may have misheard.

24 **A** No, that's okay.

25 MS. ALIZADEH: We haven't heard it yet,

1 just so you know.

2 MS. WHIRLEY: Put on the
3 record, clarify what you said.

4 I think Sheila may have
5 said did you do an interview with Michael Brown.

6 **A** Oh, I'm sorry.

7 MS. WHIRLEY: If I said that, that was, of
8 course, incorrect.

9 **A** Yes.

10 MS. WHIRLEY: You did an interview with
11 Darren Wilson?

12 **A** I'm sorry.

13 MS. WHIRLEY: So thank you,

14 MS. ALIZADEH: And that, of course, the
15 interview with Darren Wilson, conducted by county
16 police officers we will play for you later today.

17 Any other questions of this officer before
18 he is to leave?

19 : One last
20 question. After your initial interview, the cursory
21 interview, did you return back to the scene and
22 report or how does that work?

23 **A** What occurred is I returned, I left
24 Christian Northwest Hospital and returned to the
25 Ferguson Police Department initially. While I was

1 there, I waited maybe 10, 15 minutes for Officer
2 Wilson to return and Lieutenant Colonel to
3 return.

4 It was at that point when they did
5 return, we seized, when I say we, I'm referring to
6 Detective seized the uniform worn by
7 Darren Wilson during the incident. And that's at
8 which time his weapon was seized and it was in that
9 evidence envelope or that manila envelope that we
10 had talked about earlier. So that's when the weapon
11 and uniform were seized.

12 Following that, I did return to the
13 scene there on Canfield Green Apartment Complex.
14 The reason for that is, goes hand in hand with our
15 cursory interview. The way I explained it earlier
16 is that with the information that I obtained through
17 the cursory interview, I provide that to Detective
18 so that it will allow the members of the
19 police department at the scene to make sure we have
20 encompassed everything that might be involved.

21 So they have a statement that will
22 either, you know, if they need to look over here for
23 evidence or over there, they know based on the
24 cursory statement. We would do that with any
25 witness or anybody that could give us any

1 information, we'll use that to, influence is the
2 wrong word, make us look in the right spot, if you
3 understand what I'm saying, I'm sorry.

4 : .

5 **A** Yes.

6 : Do you feel that the way
7 the weapon was handled before it got to your St.
8 Louis County investigator, compromised the
9 investigation in any way?

10 **A** No, it is just different than what St.
11 Louis County would do. However, chain of custody
12 was maintained and that's really the only thing that
13 would be important to me as an investigator that it
14 went from Officer Darren Wilson, to Detective
15 to Detective those are
16 the chains that, obviously, I would be concerned
17 about. It appeared that it was maintained, so.

18 MS. ALIZADEH: And also looking at my
19 notes I neglected to ask, you've mentioned that you
20 investigated a number of police officer involved
21 shootings?

22 **A** Correct.

23 MS. ALIZADEH: And have you interviewed
24 the police officers involved in those shootings?

25 **A** On some of them.

1 MS. ALIZADEH: And in your experience, is
2 it unusual for the officer to not be able to
3 accurately recall how many or the sequence of shots
4 that were fired during the critical incident?

5 **A** Not at all, it is actually common.

6 MS. ALIZADEH: Okay. Nothing further.

7 **A** Thank you very much.

8 (End of the testimony of Officer
9)

10 (Recess)

11 MS. ALIZADEH: This is the 16th of
12 September, the time is approximately 1:16. This is
13 Kathi Alizadeh with the prosecutor's office.
14 Present are all 12 jury grand jurors, as well as the
15 court reporter, Sheila Whirley has stepped out.

16 To begin the afternoon session what I
17 would first like to do is to play an audio file that
18 is contained on Grand Jury Exhibit Number 17.
19 Remember, this is one of those I renumbered. I
20 think it used to be 9 or 10, but anyway, it is now
21 Grand Jury Number 17. I'm going to play a recording
22 of an interview of Darren Wilson and the interview I
23 have transcripts that I'm going to pass out.

24 Again, if you will to take one and put
25 your juror number in the corner. Before I actually

1 start this, this interview is the interview that
2 talked about that was recorded in a
3 conference room at the police headquarters.

4 And so as you can see from the transcript,
5 the main speakers are Detective and in the
6 transcript that is DET. and then when Darren
7 responds it is D. Wilson.

8
9 They both have the distinctive voices
10 and hopefully it won't be too confusing for you to
11 tell who is speaking.

12 Also during the interview you will hear
13 that they give Darren Wilson a map to write on and
14 then also a photo lineup that they ask him if he can
15 identify somebody.

16 So that happens later in the interview.
17 I'm going to let you guys look at those and I can
18 put them up on the screen if you like, but those are
19 what is being referenced when they are talking and
20 those are copies.

21 : .
22 Miss Kathi, is this Ferguson or St. Louis County
23 interviewing him?

24 MS. ALIZADEH: Detective is with
25 the County Police Department, and I think he

1 announces that in the beginning paragraph who is
2 with, who is present and who they're with.

3 And also, I'm going to tell you because we
4 have another witness that's here that we need to
5 meet with briefly, and Sheila and I both need to do
6 that, I'm going to start this and I'm going to walk
7 out. I would ask that you not deliberate or
8 anything while I'm gone because is still here
9 and he's going to just be present while this is
10 being played and then if we're not back in 30
11 minutes, which I can't imagine it is going to take
12 30 minutes, when we come back we'll stop it. If it
13 stops before, then we'll just, said he would
14 then just leave the room so he is not sitting here
15 alone with you all.

16 If by chance we're not
17 back when this ends, you know it will start over
18 from the beginning automatically, so you can just
19 click the pause or that square to stop it.

20 (This is the audio recording being played
21 at this time.)

22 MS. ALIZADEH: Is there any part of this
23 that you all want to hear again or hear it again in
24 its totality? And again, this is available for you
25 to listen and the transcripts are for you to keep in

1 your materials, all right.

2 So you ready for the next witness?

3 Can I take a quick

4 bathroom break?

5

6 of lawful age, having been first duly sworn to

7 testify the truth, the whole truth, and

8 nothing but the truth in the case aforesaid,

9 deposes and says in reply to oral

10 interrogatories, propounded as follows, to-wit:

11 EXAMINATION

12 BY MS. ALIZADEH:

13 Q Could you state your name and spell it for
14 the court reporter?

15 A

16

17 Q And just in case I slip, you go by
18 is that right?

19 A I do, yes.

20 Q I'll try to remember to call you

21 Miss

22 A Yes.

23 Q All right. What do you do, Miss ?

24 A I'm an FBI agent.

25 Q How long have you been with the FBI?

1 **A** I've been with the FBI about three and a
2 half years.

3 **Q** And prior to your employment with the FBI,
4 were you otherwise employed in law enforcement?

5 **A** I was a civilian crime scene examiner for
6 Baltimore County Police Department.

7 **Q** Okay. So you were a civilian crime scene
8 examiner?

9 **A** Investigator.

10 **Q** So you weren't a commissioned police
11 officer?

12 **A** I was not.

13 **Q** So prior to becoming an FBI agent, you
14 were never a commissioned police officer?

15 **A** No, I was not.

16 **Q** So all of your law enforcement career has
17 been with the FBI, other than the civilian crime
18 scene investigator?

19 **A** Yes, ma'am.

20 **Q** So where are you officed?

21 **A** St. Louis, Missouri.

22 **Q** Is your office in the FBI headquarters
23 downtown in St. Louis City?

24 **A** Yes, ma'am.

25 **Q** And back in early August of this year,

1 were you asked to assist with an investigation
2 involving the shooting death of Michael Brown?

3 **A** I was.

4 **Q** And you're aware that the Department of
5 Justice is conducting an investigation into civil
6 rights violations that might have occurred involving
7 the shooting death of Michael Brown?

8 **A** Yes, ma'am.

9 **Q** Now, the FBI, that's a federal agency,
10 right?

11 **A** Yes.

12 **Q** You're a federal agent?

13 **A** Yes.

14 **Q** I'm not going to get into a law school
15 class about this, but typically you aren't typically
16 investigating murders and rapes and things that
17 maybe state level law enforcement officers
18 investigate, would that be fair to say?

19 **A** Yes.

20 **Q** And so what your role is or what you are
21 limited to is investigating violations of federal
22 laws, correct?

23 **A** Yes, ma'am.

24 **Q** And so is that primarily what your role is
25 in this case is to investigate violations of any

1 federal laws?

2 **A** Yes, ma'am.

3 **Q** So when were you first brought in on the
4 investigation of the shooting death of Michael
5 Brown?

6 **A** August 11th, 2014.

7 **Q** And have you continued to be involved in
8 this investigation since August 11th?

9 **A** Yes.

10 **Q** And have you, in the course of your
11 investigation, did you interview Darren Wilson?

12 **A** Yes.

13 **Q** Have you conducted numerous other
14 interviews of other witnesses?

15 **A** Yes.

16 **Q** Both lay people or civilians and law
17 enforcement?

18 **A** Yes.

19 **Q** And, in fact, is your investigation still
20 going on?

21 **A** It is.

22 **Q** And so what I'm going to ask you about
23 today is about your interview with Darren Wilson,
24 but we know you had other things to do with this
25 case. If we need to have you testify about other

1 aspects of your investigation, would you return to
2 the grand jury to give further testimony?

3 **A** I will.

4 **Q** All right. So just for today, I'm not
5 saying I'm limiting you in asking your questions,
6 but just for today the purpose I'm going to be
7 asking you questions is about your interview with
8 Darren Wilson, okay?

9 **A** Yes.

10 **Q** Now, on what day did you interview Darren
11 Wilson?

12 **A** August 28th, 2014.

13 **Q** Now, during the time of your involvement
14 with this investigation, was there a time when the
15 FBI agents involved and the attorneys are either
16 with the U.S. Attorney's office or Department of
17 Justice kind of agreed to work together with the
18 county investigators in conducting interviews
19 together?

20 **A** Yes.

21 **Q** Were you aware prior to your interview of
22 Darren Wilson, were you aware that he had already
23 been interviewed by county detectives about the
24 shooting death of Michael Brown?

25 **A** Yes.

1 **Q** And did you have a copy of that interview?

2 **A** Yes.

3 **Q** And had you listened to it prior to your
4 interview of Darren Wilson?

5 **A** Yes.

6 **Q** So now given that he's already given an
7 interview with the county detectives, why is it that
8 you decided to interview him again on the 28th?

9 **A** As we do separate investigations, my
10 investigation is a civil rights investigation. Part
11 of that and what I do in investigating civil rights
12 is violations under the color of law, which that's
13 why we're taking a look at this shooting, is to see
14 if Officer Wilson was in violation of his sworn
15 duties.

16 And because of that, he is a subject
17 of an investigation and very important and we are,
18 it is separate, excuse me, from a homicide
19 investigation, what the county is conducting, so we
20 felt it necessary to conduct a separate interview.

21 **Q** And at the time that Michael Brown, I'm
22 sorry, Darren Wilson was interviewed by the county
23 detectives, was that before you all started
24 conducting joint interviews?

25 **A** Yes, ma'am.

1 **Q** And the joint interviews, is it time
2 saving for detectives as well as less inconvenience
3 for witnesses and so forth?

4 **A** That main reason has to do with the fact
5 you want to limit statements given to avoid
6 inconsistency, because it is human nature.

7 **Q** And in any case, you wanted to ask
8 additional questions at some point involving your
9 investigation of Wilson?

10 **A** Yes.

11 **Q** I mean, Officer Wilson, Darren Wilson?

12 **A** Yes.

13 **Q** All right. And so did you or someone else
14 with the FBI contact Darren Wilson and/or his
15 attorney about having him come in to give a
16 statement?

17 **A** Yes.

18 **Q** Did they agree to do that?

19 **A** They did.

20 **Q** They appeared at your headquarters?

21 **A** Yes.

22 **Q** So who came to the interview, who was
23 present?

24 **A** Officer Darren Wilson, as well as his
25 attorney, and another attorney,

1 I believe.

2 Q

3 A as well as assistant United States
4 attorney, , Department of Justice trial
5 attorney and also present was another
6 special agent,

7 Q And so where did this interview take place
8 in your FBI headquarters?

9 A It took place, we have interview rooms in
10 the front, that's where it took place.

11 Q So was this a conference room looking at
12 area or, I mean, is everybody sitting around the
13 table?

14 A It is.

15 Q Okay. And did you record these, this
16 interview?

17 A We did not.

18 Q Why is it that you didn't record this
19 interview?

20 A It is not generally the FBI's policy to
21 record. It was made, the decision was made since he
22 already had a recorded statement as well, to not
23 record an additional statement.

24 Q During the interview, did you take notes
25 during the interview?

1 **A** I did.

2 **Q** Did you use those notes, do you use those
3 notes generally then to write a police report or
4 what you guys call 302s?

5 **A** Correct.

6 **Q** And 302 is just a number that is for that
7 type of a report that you write, for example, when
8 you are summarizing an interview, would that be fair
9 to say?

10 **A** Yes.

11 **Q** And so, again, in this scenario you are
12 questioning him because he is the subject of a
13 federal investigation into civil rights violations,
14 correct?

15 **A** Yes.

16 **Q** So when he arrived, was there any
17 discussion between you and his attorney or him about
18 there being any limitation on the questions that you
19 were going to ask him?

20 **A** No, there was no limitation.

21 **Q** Did you read him Miranda warnings?

22 **A** No, we did not.

23 **Q** And why not?

24 **A** He was not in custody.

25 **Q** So he came there voluntarily, he wasn't

1 arrested. Were you planning on placing him under
2 arrest after you were questioning him?

3 **A** No.

4 **Q** And his attorney was present during the
5 entire interview?

6 **A** Yes.

7 **Q** And was there ever a time when you had
8 breaks during the interview where he was left alone
9 in the room with his attorney?

10 **A** They had the option. I can't recall if
11 there were breaks or not.

12 **Q** About how long did your interview last?

13 **A** Approximately an hour.

14 **Q** And were there questions asked by you
15 during the interview?

16 **A** Yes.

17 **Q** Did the Department of Justice trial
18 attorney, , did she ask questions as
19 well?

20 **A** She did.

21 **Q** Did U.S. attorney or assistant U.S.
22 attorney , I think it is ,
23 correct?

24 **A** Yes, ma'am.

25 **Q** Did he ask questions as well?

1 **A** He did.

2 **Q** Did ask questions as well?

3 **A** She did.

4 **Q** And how would describe Darren Wilson's
5 demeanor during the time you interviewed him?

6 **A** Cooperative.

7 **Q** Did he appear nervous?

8 **A** No.

9 **Q** And so did you, was this the first time
10 you had ever met Darren Wilson?

11 **A** Yes, it was.

12 **Q** And you're aware that he is on
13 administrative leave; is that correct, or did you
14 know that?

15 **A** I didn't know it was administrative leave,
16 I just know he had not returned to work.

17 **Q** He didn't come in a policeman's uniform to
18 the interview, did he?

19 **A** No.

20 **Q** And so can you just and summarize for the
21 jurors, what you talked about or what you asked him
22 during the interview?

23 **A** We, we went over his career as a police
24 officer, just a brief rundown that he had been a
25 police officer in Jennings Missouri Police

1 Department for two years prior and had worked for
2 Ferguson since October 2011, Ferguson Police
3 Department.

4 And then we went into August 9th,
5 2014, where he was working a shift from 6:00 a.m. to
6 6:00 p.m. Around noon, just before noon he received
7 a call, a sick call he referred to it as. An infant
8 who had a fever. While he was at that call he heard
9 over the radio a call for a stealing in progress
10 where, is it okay if I refer to my notes?

11 Q Sure.

12 A Sorry, I don't mean to look down. He
13 heard it was at a market, he didn't hear which one
14 and he heard a description over the radio saying the
15 subjects were walking towards the QuikTrip, stole
16 Cigarillos and one subject was wearing a black
17 shirt.

18 Wilson cleared that sick call because
19 the mother and the infant were taken to the
20 hospital. He cleared the call and he was going
21 eastbound on Canfield. The sick call was in an
22 apartment complex, I believe it is called
23 Northwinds, and to get back to West Florissant, I'm
24 sorry, west on Canfield.

25 And as he's driving, he sees two

1 individuals in the middle of the road walking single
2 file and as he pulls up, he sees who he identifies
3 later at a later date as of the date of the
4 interview as Dorian Johnson and Michael Brown. He
5 didn't know them before.

6 **Q** When he was talking with you, he, at that
7 point knew that the deceased was Michael Brown and
8 that the other gentleman is Dorian Johnson, correct?

9 **A** Yes, ma'am.

10 **Q** But during your interview, did he refer to
11 them by name, those names then?

12 **A** He did.

13 **Q** But did you clarify with him that this
14 was, were these individuals he had ever heard of or
15 had any contact with previously?

16 **A** We did clarify and no, he did not. He did
17 not know who they were prior to this interaction.

18 **Q** Okay. So you say he sees these two
19 subjects who he now knows as Michael Brown and
20 Dorian Johnson, what happened next?

21 **A** Dorian was first, so he pulled up next to
22 him and asked him why don't you guys walk on the
23 sidewalk. He made the statement, it wasn't in a
24 confrontational way because he was more concerned
25 about going back to the station to have lunch, it

1 was about that time.

2 Dorian's response was, we're just
3 about to our destination, Dorian was not
4 confrontational either.

5 And Officer Wilson's response was
6 okay, but what's wrong with the sidewalk. And
7 Dorian kept, he continued to walk and Officer Wilson
8 said he did not pay attention to Michael Brown and
9 he was somewhat blocked. He has a big mirror, he
10 was driving a Tahoe, so the mirror is quite large
11 and Michael was blocked, he was just in that spot.

12 Because he was interacting with
13 Dorian Johnson, didn't notice Michael walking or any
14 demeanor and so when he says okay, but what's wrong
15 with the sidewalk, Michael says, "fuck what you have
16 to say."

17 I'm sorry, let me refer to my notes.
18 Officer Wilson's attention was then drawn to Michael
19 Brown and he noticed that Michael Brown's hands were
20 full of Cigarillos. He looks in his rear view
21 mirror and also saw that Dorian was wearing a black
22 T-shirt.

23 Thinking back on the call, Michael
24 Brown was wearing a gray T-shirt and the call was
25 they stole Cigarillos and one was wearing a black

1 shirt. So kind of putting two and two together or
2 thinking that these might be the two guys, he puts
3 the car into reverse.

4 Q Now, when you say putting two and two
5 together, is that what he was telling you that he
6 put two and two together or is that your
7 interpretation of it?

8 A He said he recalled the description that
9 came out over the radio. I think I'm using that, I
10 don't know what you would call that, but yes, he
11 said that.

12 Q As much as possible because, obviously,
13 you know, I don't want you to add to the statement
14 or even interpret something that you believe he
15 meant or said if he said it a certain way. So as
16 best you can, stick with what he told you. So he
17 said he recalled that earlier call about the
18 stealing Cigarillos?

19 A Yes, ma'am.

20 Q And then what did he say happened?

21 A He said he put the car, I'm sorry, he
22 called over the radio said I'm on Canfield with two,
23 send me another car, that's quoted.

24 He then put his vehicle into reverse
25 and angled the rear of the vehicle towards the

1 middle of the street as to block the two of them
2 from getting away, or walking any further.

3 He said, Officer Wilson said his plan
4 was to stall them until another officer got there.
5 He was not going to try to arrest or even question
6 either one of them because he was out numbered and
7 incredibly outsized by Michael Brown. In fact, he
8 quoted as saying, he would overpower me.

9 So before Wilson gets out of his car,
10 he tells Brown, come over here a minute. Wilson
11 attempted to open the door and Brown, Michael Brown,
12 shoved the car door back at him.

13 And Michael Brown said to him, "what
14 the fuck are you going to do about it."

15 Wilson, Police Officer Wilson
16 unsuccessfully tried to open the door again, Michael
17 Brown ducked his head in because he was taller than
18 the vehicle, ducked his head in down, came in
19 through the driver's side window swinging his arms,
20 he described him swinging his arms wildly at Wilson.

21 He said Brown's right hand connected
22 with the left side of his face. Wilson tried to get
23 Michael Brown off him and also block the blows that
24 were coming at him.

25 At some point Michael Brown turned

1 around and handed the Cigarillos that were in his
2 hand to Dorian Johnson and Brown came right back
3 around and hit Officer Wilson in the face with
4 Michael Brown's left hand.

5 Officer Wilson describes going
6 through what he described as a force triangle in his
7 mind, and that is the way he said they were trained.
8 He knew he could use one level of force higher than
9 was being applied to him, excuse me, than the threat
10 level to his safety.

11 **Q** And this force triangle is something that
12 he said he was trained about?

13 **A** Yes, ma'am.

14 **Q** And he described it to you?

15 **A** Yes, in just that way using one level
16 higher.

17 **Q** One level of force greater than the level
18 of force being used against you or applied against
19 him?

20 **A** Yes, ma'am.

21 **Q** Okay, go ahead.

22 **A** He said he couldn't reach his mace, he
23 also knew that in the academy he got sprayed with
24 mace and he doesn't handle it well. So even if it
25 doesn't hit him, he would not be, it would disable

1 him just as much as it would Michael Brown.

2 He did not carry a taser, so that
3 wasn't even an option.

4 He had his asp baton on his belt and
5 a mag flashlight in the passenger side. He said it
6 would have given up too much of his body, Michael
7 would of had to, could hit him more parts of his
8 body if he tried to reach for either of those. He
9 also couldn't deploy the asp baton inside the
10 vehicle because it is collapsable.

11 Wilson said he thought Brown could
12 beat him to death. He knew from his training
13 because for just that reason, he was allowed to use
14 deadly force.

15 He pulled out his gun and told Brown,
16 stop I'm going to shoot you. Brown's response was
17 and I quote, Officer Wilson quoting Brown, "you're
18 too much of a pussy to shoot."

19 Brown grabbed the gun and twisted it
20 down pointing at his left hip. And Officer Wilson
21 attempted to raise the gun with Michael's hand on it
22 and aimed, he described he aimed at the silhouette
23 of Michael Brown through the car because he could
24 not raise it. He couldn't pull the gun high enough
25 to go through the open window.

1 **Q** So at this point is he describing that
2 both he and Michael Brown have their hands on the
3 gun?

4 **A** Yes, ma'am.

5 **Q** Does he say, does he say which hand he had
6 on the gun, his own hand?

7 **A** His right hand.

8 **Q** And did he say, was he holding it by the
9 grips, the handle of the gun?

10 **A** Yes.

11 **Q** And then did he say what hand or hands
12 Michael Brown had on the gun?

13 **A** I don't believe I wrote which hand or
14 heard which hand.

15 **Q** Okay. So you don't recall if he said
16 which hand he had on the gun?

17 **A** I don't.

18 **Q** But does he describe that they both were
19 struggling over the gun at this point?

20 **A** Yes.

21 **Q** Does he describe where Michael Brown's
22 hand or hands are on the gun?

23 **A** He said, if he's holding the gun, he did
24 this motion where his hand was overtop holding,
25 Michael Brown's hand was over the gun, grabbing onto

1 Wilson's hand.

2 Q Okay. And you're not sure if Darren
3 Wilson told you which hand Michael Brown was using
4 at that point?

5 A I don't recall.

6 Q Okay. And so then what did he say, you
7 said he managed to level the barrel, which might be
8 the silhouette on the opposite side of the door, is
9 where Michael is standing, correct?

10 A Yes, ma'am.

11 Q Okay. And then what happened?

12 A Sorry, I'm just referring to my notes. He
13 pointed at Brown's body through the door, pulled the
14 trigger and nothing happened, the gun did not go
15 off.

16 Officer Wilson attempted to pull the
17 trigger again and nothing happened. Officer Wilson
18 pulled the trigger a third time and the gun fired
19 through the door, driver door panel. The window
20 being down, glass flew everywhere.

21 I'm sorry, Brown's right hand was on
22 the gun when it fired.

23 Q Okay.

24 A I don't recall and I don't know that even
25 Officer Wilson knows when exactly, but he noticed

1 that there was blood on his right hand and he
2 assumed that he had gotten cut when the glass flew
3 everywhere.

4 After the gun goes off, Brown stepped
5 back from the car. He described somewhat in shock
6 and Brown puts his hands together at his right hip,
7 he demonstrated. And Officer Wilson thought maybe
8 he was hit there, which is why he put his hand
9 there.

10 He said Brown then became enraged
11 where Officer Wilson describes his face looking like
12 a demon.

13 Officer Wilson was confused that
14 Brown wasn't then running away, knowing that
15 situation, assumed that that would be to get Brown
16 away from the door and to go because he had just
17 been shot, but Brown re-engaged.

18 And also at this point in time,
19 Officer Wilson did not know where Dorian Johnson
20 was. The last time he saw him was when he did the
21 Cigarillos handoff. At that's when the rest of that
22 time, the interaction, he never saw Dorian Johnson.

23 Q Does Officer Wilson describe that, so are
24 you saying that he says when he fired the weapon
25 into the door, he believed or thought that the

1 bullet pierced the outer skin of the car and got
2 Michael Brown, is that what you are talking about?

3 **A** Yes.

4 **Q** When you say that?

5 **A** Based off of his action, also he didn't
6 know where the bullet went, but he was aiming
7 through the door when Michael Brown is engaged in
8 the car, he pulled both of his hands down towards
9 his right hip and thought maybe that's where, if he
10 was hit, just based off that action not because he
11 saw a wound and not because he saw blood.

12 **Q** Okay. And so then, what happened you said
13 that he then described his face as looking like a
14 demon and he is confused as to why he wouldn't have
15 run away at that point. What happened then, what
16 did he say then?

17 **A** Both of the Brown's hands came back
18 through the window. Officer Wilson just showed us
19 his left arm up defensively trying to block Brown
20 from punching him.

21 Wilson put his, the gun up and pulled
22 the trigger again, the gun didn't fire. He
23 described what blind racking the gun, it is pulling
24 the slide back without looking. I don't know what
25 he, I don't know if he used his hands to rack it,

1 but he thought something had happened to the gun.

2 He didn't know if the gun, he
3 described it as stovepiping, which could be two
4 bullets trying to go in and then neither will fire.
5 He didn't know if he ejected a full cartridge, which
6 would be the projectile along with the casing or
7 just the spent casing was stuck in there, he didn't
8 know, he didn't look.

9 Q So he said he blind racked the gun, which
10 he described as being the slide back?

11 A Yes.

12 Q Okay.

13 A Blind racking, he wasn't looking at his
14 gun, his attention was to Mr. Brown.

15 Q All right. You need two hands to do that,
16 would that be fair to say?

17 A He didn't demonstrate with hands, I'm
18 demonstrating because that's how I'm trained. He
19 could have also gone ahead, if I wasn't here, I
20 could use this table, he could have used the
21 steering wheel.

22 Q So you didn't ask him --

23 A Did not.

24 Q He didn't demonstrate how he blind racked
25 the gun?

1 **A** Correct.

2 **Q** But his words were blind racked?

3 **A** Yes, ma'am.

4 **Q** Okay. So what does he say happens after
5 he blind racks the gun?

6 **A** He fired the gun again, he pulled the
7 trigger again, the gun fired and he saw, and he
8 wasn't looking where he was shooting he said, he saw
9 a cloud of dust in the dirt across the street and
10 assumed Michael Brown had not been hit because
11 that's where he assumed the projectile landed.

12 **Q** So did he tell you when before firing this
13 weapon now, the second shot, did he tell you was he
14 aiming in a particular place or was Michael Brown
15 still beside the vehicle?

16 **A** Yes, he was. He describes him, and again,
17 because I'm not sure what hand, he just shows him
18 blocking Michael Brown's blows with his left hand.

19 **Q** Okay.

20 **A** So after he fired that shot, that's when
21 Michael Brown again ran away. Upon which time
22 Officer Wilson called over the radio, shots fired,
23 send me more cars.

24 We asked because it is important
25 later whether or not he called over his, there is a

1 radio in the car and there's a radio that he has on
2 his person. So when you're inside a call car you
3 can hear and also transmit. He's not sure if he
4 said that with his car radio or with his handheld.

5 Q He remembers making a call and those
6 words, but doesn't know if it was the car radio or
7 his mobile walkie-talkie?

8 A Correct.

9 Q And then what happens?

10 A So Officer Wilson got out of the car to
11 chase Mr. Brown because, and he describes because
12 Michael Brown was a fleeing felon. And he was just
13 doing his job, those were his words.

14 He said Brown had just assaulted and
15 attempted to kill him with his own duty, with
16 Wilson's duty weapon.

17 Officer Wilson did not want Michael
18 Brown to cause injury or death to anyone else. He
19 knew Brown would assault another responding officer
20 or witness as Brown had just assaulted him.

21 And Officer Wilson wanted to know, he
22 wanted to give chase, he wanted to know where Brown
23 was going. And in an attempt to apprehend Michael
24 Brown once other officers got there.

25 Q So let me stop you here. So this part you

1 are testifying about he is basically explaining why
2 he thought he was justified in pursuing the subject,
3 correct?

4 **A** Yes, ma'am.

5 **Q** Was that in response to questions that you
6 asked him directly or were you just letting him
7 narrate this and this is information he just
8 provided in a narrative form?

9 **A** That was in direct response. It is
10 possible, and the way my notes are written, I go
11 back and write and try to chronological order. He
12 could of at first give us the rundown, said what he
13 did and then we would go back and say why.

14 In my notes I tried to put it in
15 chronological order. So he went and gave chase and
16 I put in my notes in that same spot why, when we
17 asked him why.

18 **Q** Okay. And that was his explanation you
19 already testified about. And then what did he say
20 after he explained why he pursued the subject?

21 **A** He explained that he expected Michael
22 Brown to run for a while. So when he got out of the
23 vehicle he did still have his gun in his hand, but
24 it was down at his side because it is easier for him
25 to run instead of having it pointed at Michael

1 Brown. And also because Michael was running away
2 from him, he did not feel he was an immediate threat
3 to keep his gun pointed on him.

4 Q Okay.

5 A As he was running after him, he told
6 Michael get on the ground, get on the ground. And
7 again, he said he thought Michael was going to run
8 for a while.

9 While he was running, Officer Wilson
10 noticed a line of three cars lined up behind him,
11 specifically he noticed a green Pontiac. He said he
12 did not fire any shots at Michael Brown as Michael
13 Brown was running away.

14 At some point, a short time after
15 Brown stopped and turned around to face Officer
16 Wilson. Officer Wilson will describe Brown as
17 grunting, he grunted, hopped and began toward
18 Officer Wilson.

19 When Brown hopped, he said he put his
20 right hand in his waistband. At the time Officer
21 Wilson didn't know whether or not he was armed. He
22 thought that perhaps Michael Brown was armed and
23 that's what he was going for.

24 He couldn't tell because Brown's
25 shirt had hung over his waistband. He said Brown's

1 left arm, left hand was clenched in a fist at his
2 side.

3 Wilson shouted stop, get on the
4 ground, and Wilson explained at this point during
5 the interview that Brown was just not listening to
6 any of his commands.

7 Wilson started shooting as Brown ran
8 towards him. Wilson shot more than once, but was
9 unsure how many times. And he realized he had
10 tunnel vision, so he shot more than one time and
11 realized that all he was looking at was that right
12 hand.

13 Wilson, I'm sorry, he said during
14 this string of thoughts, Michael Brown had jerked
15 back as if he had been shot, but Officer Wilson did
16 not know where Michael Brown was hit.

17 Q So he doesn't describe seeing, like what
18 we see on TV, pow, pow, immediately blood spurt and
19 you would see it on the shirt, he doesn't describe
20 seeing anything like that?

21 A No, he didn't.

22 Q Okay. Did he say anything other than, you
23 know, you said he has testified before he had made
24 that motion towards his waist like perhaps he shot
25 him through the door, did he say anything else about

1 him making, appearing to be shot anywhere else?

2 **A** No, he didn't.

3 **Q** Okay. You can go ahead.

4 **A** He said after Michael Brown kind of jerked
5 back, he said Michael stopped briefly, but then
6 started running towards him again. He described
7 Michael Brown's chest as being puffed up. Michael
8 Brown's hands were still in his waistband.

9 So Officer Wilson began to back up.
10 Brown was about eight feet away from Wilson when,
11 and Wilson thought to himself, if he gets me, I'm
12 dead.

13 Brown ran towards Wilson with his
14 head leaning down. Officer Wilson thought he only
15 shot one time, but it could have been more.

16 He saw the bullet hit Michael Brown
17 in the head and he saw Michael Brown fall to the
18 ground face first. He said Michael Brown fell with
19 such, because he had such momentum going forward,
20 that when he landed on his face, his feet came up
21 behind him.

22 Officer Wilson made a statement all
23 he had to do was stop and Officer Wilson would have
24 stopped shooting.

25 At no point did Michael Brown comply

1 with Officer Wilson's command or his order to
2 surrender and Michael Brown never had his hands up.

3 We had Officer Wilson draw just on a
4 white sheet of paper a simple depiction of the scene
5 and we are going to keep that with our case file.

6 After Michael Brown went to the
7 ground, he called over the radio on his handheld and
8 said, "I need a supervisor and everyone you've got."

9 While Officer Wilson was running
10 after Michael Brown, he was looking around for
11 people because he was concerned with, he didn't know
12 if Michael Brown had a gun, he was concerned that
13 other people might get shot in the crossfire.

14 Q Wait a minute. So he kind of backtracked
15 in his statement a little bit.

16 A Yes.

17 Q Now he's already got to the point where
18 he's shot him and a fatal injury has him on the
19 ground. So now he backtracks a little bit and says
20 when he was chasing him?

21 A When he was chasing and I'm sorry, I'm
22 explain that a little better. He knows there are a
23 lot of people around once Michael Brown was on the
24 ground. He said while he was chasing him, this is
25 all within a matter of seconds, he didn't notice

1 anybody else. Once Michael Brown went to down to
2 the ground, he saw a lot of people in the community,
3 an apartment complex around.

4 He said Officer was the first
5 one on the scene. And he had, Officer Wilson had
6 Officer secure the scene or block the
7 street.

8 Wilson called for an ambulance. The
9 next two arrivals were Ferguson Police Department
10 Officer and at the time because there was
11 really, West Florissant to get onto Canfield is the
12 only way to connect to a major roadway, both were
13 west of the scene. So Officer Wilson had Officer
14 move his vehicle to the east side so they
15 could block that, so they could secure the scene,
16 maintain some scene control.

17 **Q** To block vehicular traffic that might be
18 coming westbound on Canfield?

19 **A** Yes. Officer Wilson described feeling
20 unsafe standing next to Brown's body since he was
21 the shooter. He thought, the area is known for
22 violence, guns, gangs and drugs. They did not have
23 a good relationship with the police. He kind of
24 felt he really had a spotlight on him.

25 He walked towards his vehicle which

1 was still running. He opened the door and got the
2 keys and shut it off. the only thing he touched was
3 the exterior of the vehicle.

4 Q So he reached in to turn the car off?

5 A And grabbed the keys.

6 Q And take the keys out of the vehicle?

7 A Yes, ma'am.

8 Q And then he shut the door?

9 A Yes, ma'am.

10 Q He didn't get in the car?

11 A He did not.

12 Q All right.

13 A I don't know if other officers arrived,
14 I'm sorry, the Ferguson Sergeant responded.
15 Wilson told Sergeant that he had killed Brown.
16 He quoted himself as saying, "he grabbed my gun and
17 I shot him."

18 told him to go, told Wilson to
19 go sit in Wilson's car. And Wilson said, no,
20 because then everyone will know it was me because
21 everyone around him is working and he's not.

22 So Officer, I'm sorry, Sergeant
23 told him to go back to the station, to not take
24 Wilson's vehicle. Sergeant had to let him take
25 Sergeant vehicle.

1 And Wilson described that he thought
2 that it was strange that Sergeant wouldn't have
3 another Ferguson police officer go back with him
4 because he was just involved in a shooting, that
5 even minutes after the scene a lot of people showed
6 up. I think he described it the police officers
7 being outnumbered 300 to 1.

8 So he drove back to the station, he
9 noticed that his handheld radio was on channel 3
10 instead of channel 1. Channel 1 was the Ferguson
11 dispatch and channel 3 was St. Louis County Police
12 Department Dispatch. He wasn't even sure, while he
13 could hear St. Louis County, he wasn't sure if he
14 keyed up that they would hear him whatever he said.

15 He believes that the radio switch
16 during the struggle in the car, but he's not
17 positive, actually, because he's not usually on
18 channel 3, excuse me, not channel 3.

19 When Wilson got back to the station
20 he washed the blood off of his hands. His primary
21 concern was not of evidence, but as a biohazard or
22 what possible blood hazards it might attract.

23 So no one at the station photographed
24 Officer Wilson's hands because there was no one
25 there to photograph them.

1 Right after he washed his hands he
2 went to the roll call room, he made his gun safe,
3 which means he took out any bullet and packaged it
4 as evidence, that's how he described it to us.

5 He did not wait for somebody else to
6 bag that as evidence because he saw blood on the
7 gun, thought it was Brown's blood, wanted to
8 preserve the DNA. He didn't want to risk because he
9 believed that would prove that he had his hand on
10 the gun.

11 There was a Ferguson Police Officer
12
13 at the station when he arrived.

14 He told ,
15 he said to , I just shot someone. Officer
16 did not ask him any more questions.

17 He said Officer may have
18 seen him package his gun, but he wasn't positive.

19 He called, Wilson called his attorney
20 when he got to the station. Officer
21 Wilson knew that was the attorney to call
22 if he was ever involved in a shooting.

23 They had EMS, which there is a block
24 house right next door to the Ferguson Police
25 Department. They had EMS come over and perform an

1 assessment.

2 Ferguson Police Lieutenant

3 came to check on Wilson. Lieutenant did not

4 ask any questions about what happened and also

5 Ferguson Police Officer came into the roll call

6 room to give Wilson card that he had, but

7 he already made the phone call.

8 Wilson knew not to talk to anyone

9 until he spoke with an attorney and he did not

10 comment on what happened.

11 After the Attorney arrived,

12 St. Louis County Police Department Detective

13 and Lieutenant Colonel also came to

14 speak with Wilson.

15 Between and

16 Wilson, they noticed Wilson's face was red and

17 swollen, so they collectively decided they were

18 going to take him to the hospital. They took him to

19 Christian Northwest emergency room. Shortly before

20 they took him there, Wilson described Detective

21 started the interview at the station and

22 continued it after they got to the emergency room.

23 Officer Wilson described being

24 assaulted in the past as a police officer and said

25 it was not to the extent it had been with Brown. No

1 one had ever before attempted to take his firearm.

2 Officer Wilson had been trained to
3 use physical force when a physical threat was
4 present.

5 Michael Brown became an immediate
6 threat to Wilson's safety when Michael Brown came
7 into the car, when Michael Brown hit Officer Wilson.

8 Michael Brown went for Officer
9 Wilson's firearm and Michael Brown charged towards
10 Officer Wilson after Brown had already run away.

11 Michael Brown was a threat to the
12 safety of others as he ran away from Officer Wilson.

13 Q Now, what you're saying right now, this is
14 what Officer Wilson is telling you, correct?

15 A Yes, ma'am, correct.

16 Q This isn't your statement?

17 A No, it is not my statement. Correct, I
18 apologize for not clarifying that. Everything I was
19 saying was what was relayed to me by Mr. Wilson. In
20 no way, shape or form am I offering any opinion
21 whatsoever.

22 Q Okay. Is that pretty much the conclusion
23 of the statement?

24 A Yes. The last thing was it is the
25 sergeant's responsibility to write a use of force

1 report. It is Wilson's responsibility to write an
2 incident report, but as of August 28th, 2014,
3 Officer Wilson had not been back to the station, so
4 he has not had the opportunity to write an incident
5 report.

6 Q So he's basically told you that after the
7 shooting and contacting, having contact with
8 Sergeant he goes directly to the Ferguson
9 Police Department, can't talk to anybody about this
10 until possibly his attorney arrives and then
11 ?

12 A Yes, ma'am.

13 Q And he also tells you that no one had
14 possession of his gun from the time he left the
15 scene until he made it safe and packaged it in that
16 envelope?

17 A Yes, ma'am.

18 Q He also told you, did he also tell you, I
19 should use notes, did he tell you that he had
20 sustained any other injuries to the backs of his
21 hands or on his hands?

22 A He made a statement that he had no cuts.

23 Q Okay.

24 A So I don't know at what point he realized
25 that, but he believed the blood on his hands was

1 Michael Brown's.

2 Q Okay. Well, this is the 28th, this is too
3 far after the incident.

4 MS. ALIZADEH: Sheila, do you have any
5 additional?

6 MS. WHIRLEY: I do.

7 Q (By Ms. Whirley) So he, on August the 9th
8 this occurred and you didn't interview him until
9 August 28th?

10 A Correct.

11 Q However, he told you that he saw the
12 Cigarillos in Michael Brown's hand at some point?

13 A Yes, ma'am.

14 Q At what point was that?

15 A That was, initially when he made contact
16 with both Dorian Johnson and Michael Brown, his
17 attention was drawn to Dorian Johnson because Dorian
18 was first and also responded to his, hey, can you
19 guys use the sidewalk, or whatever verbiage he had
20 used.

21 When he said what's wrong with the
22 sidewalk, his attention was then turned towards
23 Michael Brown because Michael Brown responded to
24 him, "fuck what you have to say," or excuse me, I'm
25 sorry, yes, that's what he said. Once Michael Brown

1 said that, his attention was drawn, Officer Wilson's
2 attention was drawn to Michael Brown, at which time
3 he then saw the Cigarillos that Michael Brown was
4 holding.

5 Q All right. So he saw the Cigarillos
6 before any physical altercation, right?

7 A Yes, ma'am.

8 Q Did he say that when Michael Brown was
9 handing something over to Dorian Johnson, that he
10 knew he was handing him Cigarillos?

11 A I believe so, but I'm just going to check
12 my notes.

13 Q Okay.

14 A Yes, he specifically stated.

15 Q He specifically stated he knew he was
16 handing him Cigarillos?

17 A Yes, ma'am.

18 Q Okay. He said he intended to wait on an
19 assist car before approaching these two males?

20 A Before attempting to arrest.

21 Q Did he say why, I guess that changed,
22 because what happened to change that, did he say?

23 A Well, he was going to get out and try to
24 stall, try to have a conversation with them in a
25 sense, well, at least he was not going to ask them

1 about the robbery. I don't necessarily, forgive me,
2 I don't think he said arrest, he just said before he
3 even mentioned anything about the stealing in
4 progress, he was going to wait for other officers to
5 get there.

6 **Q** Okay. So did he, so he said he knew about
7 the stealing in progress because of the Cigarillos.
8 He was not going to mention the stealing in
9 progress, he was just going to stall them?

10 **A** Right.

11 **Q** Did he talk to you about what he went out
12 on his radio to say that he was doing a check with
13 two people, to send him a car?

14 **A** Yes.

15 **Q** Did he say that he told the dispatcher
16 hey, I've got two guys involved in this stealing at
17 this Ferguson Market and I see one with Cigarillos?

18 **A** Right, no, he did not say that. He
19 specially mentioned the fact he doesn't often asked
20 for assistance on calls, so when people hear him
21 over the radio saying, send me more cars, they know
22 he needs another car.

23 Why he didn't mention the stealing
24 would be my conjecture.

25 **Q** But let me say he didn't?

1 **A** Correct, he did not.

2 **Q** But the dispatcher knows if he calls for
3 assistance, they need to send assistance right away?

4 **A** Yes, ma'am.

5 **Q** And he did call for assistance?

6 **A** Yes, ma'am.

7 **Q** He didn't tell anybody the nature of the
8 call?

9 **A** Correct.

10 **Q** Okay. Now, you mention that he said when
11 Michael Brown was running away, was not an immediate
12 threat?

13 **A** To him.

14 **Q** To him. Did he say why he thought Michael
15 Brown would continue to run? I think that's what
16 you said that he knew he would continue to run?

17 **A** That was based on his training and
18 experience that he believed Michael Brown starting
19 to run away, and based off his training and
20 experience he believed Michael Brown was going to
21 continue running versus stop and turn around.

22 **Q** And did that factor into his thought
23 pattern, did he say? Did you understand what that
24 meant?

25 **A** In that limited perspective, yes. But

1 again, I also am trained in law enforcement, so I
2 understand. So to go further to explain why he may
3 have thought that would be putting my personal
4 understanding, not using, putting words into his
5 mouth.

6 Q Okay. And you certainly cannot speak for
7 that officer and we don't want you to.

8 A Correct, yes.

9 Q But tell me what you mean by your personal
10 experience as a law enforcement officer?

11 A Someone running who runs away, who as he
12 described it, attempted to assault him. And then
13 was not going to and had not yet complied, would
14 likely not, but you would still be prepared at this
15 point for whatever happens.

16 Q So when Michael Brown said something like,
17 "fuck what you say," or something, did he say that
18 that was a comment that required him to confront him
19 about it?

20 A No, he did not.

21 Q Okay. So when he backed up, did he say he
22 backed up?

23 A He reversed the vehicle.

24 Q That was strictly about confronting about
25 the Cigarillos?

1 **A** Yes, ma'am.

2 **Q** Did he say he ever said anything to them
3 about the Cigarillos?

4 **A** He did not.

5 **Q** Okay. Now, again, I wasn't clear, what
6 hand did he say Michael Brown put towards his
7 waistband?

8 **A** At what point, when he was at the vehicle
9 or when he had run away?

10 **Q** Okay. At what point did he say Michael
11 Brown put his hands towards his waistband? I'm
12 talking about Michael Brown's own waistband.

13 **A** Yes, ma'am, I am sorry, let me clarify why
14 I have a question.

15 **Q** Okay.

16 **A** Because he was, when they were at the
17 vehicle and Officer Wilson fired the first shot, he
18 describe Michael Brown, more of his hip, but I
19 apologize because I picture his waistband, he put
20 both of his hands towards his --

21 **Q** You talking about Michael Brown's
22 waistband?

23 **A** Yes, no, no, no, he said Michael Brown,
24 after he was hit put, Michael Brown's hand towards
25 Michael Brown's right hip. When they were

1 struggling for the gun, he twisted towards Officer
2 Wilson's left hip.

3 Q Okay.

4 A But I'm sorry, Michael Brown ran away,
5 stops, turns around, grunts, hops and stick his
6 right hand in his waistband.

7 Q Okay.

8 A That's as Officer Wilson described it.

9 Q Okay. So once Michael Brown goes down
10 after he's shot and he's prone on the ground,
11 correct?

12 A Yes, ma'am.

13 Q What did Officer Wilson say he did?

14 A What Officer Wilson did?

15 Q Uh-huh.

16 A He said at that point in time they were
17 approximately 8 feet apart. He said he never, he
18 didn't approach.

19 Q He didn't check for a pulse?

20 A He did not.

21 Q Or call an ambulance?

22 A No, he did not. He radioed, "send me a
23 supervisor and every car you got."

24 Q When he said he asked for a supervisor, he
25 said someone was lying either injured or dead on the

1 ground?

2 **A** He did not.

3 **Q** Now, you've had occasion to collect his
4 employee or personnel records; is that right?

5 **A** Yes, ma'am.

6 **Q** Have you had a chance to review them?

7 **A** Yes.

8 **Q** Is there anything of evidentiary value
9 when I ask that question about evidentiary value, I
10 mean anything that's significantly bad or good about
11 his records, or that might factor into this case?

12 **A** I did. I did read that Officer Wilson
13 received a letter of accommodation for handling a
14 call when he was an officer with Jennings Police
15 Department.

16 **Q** Anything else?

17 **A** There was, there were, he did have use of
18 force reports, but that's standard practice. I
19 didn't see anything out of the ordinary. There was
20 a complaint made against him and two other officers
21 describing that was ultimately found to be
22 unfounded, to describe Officer Wilson and two others
23 attacks, an African-American male who was just
24 walking down the street in the city and used racial
25 slurs towards him, beat him up so badly that he had

1 bleeding on his brain.

2 What was found to have actually
3 happened was this gentleman was breaking in and was
4 inside Officer Wilson's car. The three officers who
5 were off duty at the time went outside and tried to
6 detain him, he ran away.

7 When they chased him, I don't know
8 which one of them tackled him on the ground, he hit
9 his face on the way down.

10 This was an internal affairs
11 investigation, the investigation was completed and
12 they discussed with the hospital that the
13 individual, the person who was either the victim of
14 use of force or stealing a car, his injuries were
15 consistent with what the officers described and that
16 there was no bleeding of the brain.

17 The woman who made the complaint was
18 not an eyewitness, but the aunt of the individual.

19 **Q** The subject that was injured?

20 **A** Yes, ma'am.

21 **Q** Or that committed the crime?

22 MS. WHIRLEY: Anyone else, questions?

23 : Just one comment, sorry,

24 The one comment you said that really

25 caught my attention, I'd like kind of go with more

1 if we could, you mentioned that Darren in reference
2 to this neighborhood said it is an area known for
3 gangs, violence, guns and he didn't feel safe. And
4 I think that really, I don't know, is alarming to
5 hear. So how would you kind of say that fit into
6 the case or was there more depth to it when he said
7 that.

8 **A** It had to do with, I guess the atmosphere.
9 He described that when almost immediately after,
10 he's not sure when it happened, but once Michael
11 Brown was down on the ground, the residents were
12 outside. He said, and the crowd kept growing
13 increasingly hostile because he knows from being a
14 police officer in that area, people generally don't
15 like to see the police.

16 So based on the fact of what just
17 happened, he did not feel safe. Whether it means
18 by, it would be my conjecture and I can't do that.
19 . Is there
20 any part of Officer Wilson's testimony or statement
21 that you believe is in conflict with any of the
22 physical evidence you are aware of?

23 **A** I don't, I cannot make that judgment. My
24 sole purpose is simply to collect the facts. It is
25 up to the prosecuting attorneys and any future jury

1 to kind of make that determination.

2 MS. ALIZADEH: Can I ask you a question,
3 though, prior to you questioning Darren Wilson, to
4 your knowledge had he read any police reports
5 documenting the investigation?

6 **A** Not to my knowledge, no.

7 MS. ALIZADEH: Have any reports, first of
8 all if he has, I haven't gotten any reports, so I
9 don't know where anybody else would have them. To
10 your knowledge, he had no knowledge of the
11 investigation?

12 **A** Correct.

13 MS. ALIZADEH: And then regarding autopsy
14 reports, to your knowledge, Dr. who was
15 the medical examiner in this case, he had not read
16 that report; is that correct?

17 **A** No, he had not. If Officer Wilson knew
18 anything about the case, it is the same thing anyone
19 who heard in the news what was ever released to the
20 news is what he would know. Ferguson Police
21 Department is not doing an investigation, that was
22 turned immediately over, the homicide investigation
23 was turned immediately over to St. Louis County.

24 As far as civil rights is concerned,
25 FBI is notoriously tight lipped. So, no, we would

1 not give him any information.

2 MS. ALIZADEH: We can ask him when he
3 testifies what he may have learned or whatever or
4 what have. Are you aware that there is all kind of
5 rumors and talk about various things involving what
6 people believe happened in this case, correct?

7 A Yes.

8 Q And to your knowledge though, as far as
9 the physical evidence like where the shell casings
10 were or where blood was found or any of that type of
11 evidence, he wouldn't have privy to?

12 A No, he would not be privy to, other than
13 being actually on the scene, but no, no reports.

14 : . When
15 you first, when he said he got to the police
16 station, he washed his hands and he didn't have
17 anybody take pictures because there was nobody else
18 there. But then later he said that he saw

19 a police officer, so was
20 there. Was the only officer that was there?

21 A At that time, I think the way I
22 interpreted his statement to us is he gets to the
23 station, no one is there that he sees immediately.
24 I don't believe he went searching, he didn't say he
25 went searching, but he has blood on his hands. His

1 first thought is let me get this off.

2 So when he goes to the roll call
3 room, then he says Officer

4
5 And then they have whatever brief
6 conversation that he was involved in a shooting,
7 that's it.

8 : Your interview with him
9 was on 8/28?

10 **A** It was.

11 : The incident took place
12 on 8/9?

13 **A** It did.

14 : Was there a reason why
15 you took that long of a time between, I think that
16 you were in an interview with a witness the day
17 after or three days after it took place?

18 **A** Yes, ma'am.

19 : If it is about him.

20 **A** Correct.

21 I was just wondering why
22 the interviews were so --

23 **A** I know that.

24 : I'm just curious.

25 **A** No, the reason why because he had been

1 interviewed, because we had an audiotaped statement
2 and what was more important, we had witnesses out
3 there who had not been interviewed. We felt it was
4 most important to get those witnesses.

5 MS. WHIRLEY:

6 : Yes, . I want to
7 go back to when Michael Brown says, "fuck what you
8 have to say."

9 **A** Yes.

10 : Officer Wilson puts his
11 car in reverse?

12 **A** Yes, sir.

13 : Did he mention he said,
14 what did you say?

15 **A** He didn't specifically, that's not in my
16 notes. Are you asking if Officer Wilson asked what
17 did you say?

18 : Yes.

19 **A** No, I can't remember if I remember from
20 the interview or from hearing his statement. I
21 didn't specifically write it down and normally if I
22 don't specifically remember from that interview or
23 write it down, it doesn't mean it wasn't said, I
24 don't recall.

25 : Okay. You also mention, I

1 guess, the part where he was charging him, he had
2 his hands, can I stand up?

3 **A** Yes, sir.

4 : He had his hands on the
5 right side?

6 **A** Yes, he said right.

7 : And he started charging
8 him.

9 **A** Yes, sir.

10 : With his head down, is
11 that correct?

12 **A** When he said head down, I don't know, let
13 me refer to my notes to make expire I have it right.

14 : I'm just saying because I
15 guess he's listed like at 6'4", 6'5".

16 **A** Yes, sir.

17 : Seems that would be kind
18 of awkward for somebody to be charging you that way?

19 **A** It was, I can give me you my impression
20 that I don't think it was quite at that right angle
21 that you demonstrated from, just to describe for the
22 court reporter. He said head down. At what angle,
23 I'm not sure.

24 MS. WHIRLEY: Can you demonstrate the
25 angle, did he demonstrate the angle for you?

1 **A** Leaning forward, yes I don't --

2 MS. WHIRLEY: Can you stand up and show us
3 what he showed you?

4 **A** Just leaned over.

5 MS. ALIZADEH: Any other questions?

6 : . To
7 coincide with what he said, the question he asked,
8 is it possible that he could have got hit there and
9 bent over from pain?

10 **A** I can't answer that. I'm not a forensic
11 pathologist or a doctor, that would be more --

12 I did have a question.
13 When Officer Wilson, going back to the office.

14 **A** Yes, ma'am.

15 : The department office.
16 Did he say after he washed his hands why he did not
17 write a report?

18 **A** No, he didn't.

19 : Did he have, did you ask
20 the question?

21 **A** I didn't. I can only speak from generally
22 in those cases when an officer is involved in a
23 shooting, I know they tell us to not talk to anybody
24 until our attorney is present. So that could be a
25 huge factor. Is that his answer? I don't know, I

1 was just to answer generally.

2 MS. WHIRLEY: .

3 : I'm just hoping that I
4 have written this down correctly. But I believe you
5 had mentioned that Officer Wilson, Darren Wilson
6 said he went to his vehicle, which was still
7 running, reached in and shut off the car. That's
8 the first I heard of that.

9 **A** He pulled the keys out of the car.

10 : It was still running?

11 **A** Yes, that's the impression that I got that
12 the car is in park, I'm assuming because the car
13 would have been rolling away if he didn't at least
14 put it in park.

15 : Okay.

16 **A** He didn't specifically say that, he got
17 the keys out of the car.

18 : Okay.

19 **A** I thought it was still running.

20 : Okay.

21 **A** I thought that was what he had said.

22 : That was your
23 interpretation?

24 **A** No, I thought he said that.

25 Were those his words?

1 **A** I believe those were his words.

2 You believe those were his
3 words. And then he goes on to state, if I'm
4 understanding this correctly, that Sergeant is
5 that correct, ?

6 **A** Yes.

7 : Okay. Told him to get
8 back in his vehicle, is that my understanding?

9 **A** Yes.

10 In the vehicle in question
11 that was involved in this incident?

12 **A** That is what Sergeant told him, that
13 is not what Officer Wilson did.

14 : Okay.

15 **A** That's what Officer Wilson said Sergeant
16 told him.

17 : Okay. And he didn't do it
18 and then told him to take personal
19 patrol car and drive back to Ferguson. Is this in
20 with another officer in the vehicle with him or
21 another?

22 **A** By himself.

23 : By himself. I thought
24 there was another officer involved or something.

25 My understanding, like I said, when he got

1 to the Ferguson Police Department, he had blood on
2 his hands reported. He wasn't photographed, nobody
3 knows how much blood he had on his hands, anything
4 left in vehicle?

5 **A** That's a good question. I don't know. I
6 don't know that Sergeant vehicle was looked
7 at.

8 : Okay.

9 MS. WHIRLEY: Anything else? Kathi?

10 MS. ALIZADEH: I've got nothing else.
11 Again, you were active in other aspects of this
12 investigation and should we need to recall you on a
13 future date, would you be available to testify?

14 **A** I would.

15 MS. ALIZADEH: All right. Nothing
16 further.

17 (This is the end of
18 testimony.)

19 (Recess)

20 MS. ALIZADEH: This is Kathi Alizadeh. It
21 is about 3:20 on the 16th of September. We are
22 about to call our final witness, Darren Wilson. And
23 as usual, Sheila and I will be asking him questions
24 and you are free to ask questions either
25 interrupting or wait until the end, however you feel

1 is better for the flow of things.

2 He is here and prepared to answer
3 questions. I would tell you that any conversations
4 that he has had with his attorney, because you heard
5 him talk and we have heard testimony that he has had
6 an attorney during parts of this, anything that he
7 and his attorney have talked about are what we call
8 privileged communications. And so you can't ask him
9 about what did you tell your attorney or what did
10 your attorney say about that, all right.

11 Any other questions that you think are
12 relevant are fair game, but the communications
13 between anyone and their attorney are privileged and
14 we can't inquire about that, all right? All right.
15 That being said, I am going to let him walk in and
16 get sworn.

17 DARREN WILSON,
18 of lawful age, having been first duly sworn to
19 testify the truth, the whole truth, and
20 nothing but the truth in the case aforesaid,
21 deposes and says in reply to oral
22 interrogatories, propounded as follows, to-wit:

23 EXAMINATION

24 BY MS. WHIRLEY:

25 Q So introduce yourself to the grand jurors,

1 tell us your name and spell your name for the court
2 reporter, please?

3 **A** My name is Darren Wilson. D-A-R-R-E-N,
4 last name W-I-L-S-O-N.

5 **Q** Have you appeared before this grand jury
6 before?

7 **A** No, I have not.

8 **Q** So you've never, nobody is familiar to you
9 here, correct?

10 **A** No, ma'am.

11 **Q** All right. You are currently on leave or
12 what's your status right now?

13 **A** I am on paid administrative leave.

14 **Q** Now, we have never met before, have we?

15 **A** No, ma'am.

16 **Q** And we did meet right before you came here
17 today, when you came here today and I talked to you
18 and your attorneys?

19 **A** Correct.

20 **Q** And you came here voluntarily?

21 **A** Correct.

22 **Q** And you were told that if you wanted to
23 consult with your attorneys you could?

24 **A** Correct.

25 **Q** Okay. And you want to be here and tell

1 the jurors what happened; is that correct?

2 **A** That's correct.

3 **Q** So August the 9th of 2014, you worked as a
4 police officer for the Ferguson Police Department?

5 **A** Correct.

6 **Q** That means you are a certified police
7 officer?

8 **A** Correct.

9 **Q** Had you completed all your training and
10 kept up with your continuing education as a
11 certified officer does?

12 **A** Yes, ma'am.

13 **Q** You have the power of arrest?

14 **A** Correct.

15 **Q** In the State of Missouri?

16 **A** Yes, ma'am.

17 **Q** What's your height?

18 **A** 6'4", just a shy under 6'4".

19 **Q** A little under 6'4"?

20 **A** Yes, ma'am.

21 **Q** And how much do you currently weigh?

22 **A** 210-ish.

23 **Q** That's been your weight for a while?

24 **A** Yeah, it fluctuates between 205, 212, 213,
25 something like that.

1 **Q** Of course everybody knows why we're here,
2 so let's just get to it.

3 **A** Okay.

4 **Q** Let's talk about your day on August the
5 9th. What shift did you work?

6 **A** Day shift.

7 **Q** And what shift would that be, what hours?

8 **A** 6:30 a.m. to 6:30 p.m.

9 **Q** Twelve hour shift?

10 **A** Correct.

11 **Q** Had you worked the day before?

12 **A** Yes, I had.

13 **Q** Same shift?

14 **A** Yes.

15 **Q** You weren't working like midnights the
16 night before?

17 **A** No, ma'am.

18 **Q** When you started your shift, did anything
19 happen that you consider very eventful? I mean,
20 earlier that day, prior to 10:00 let's say, 10:00
21 a.m.

22 **A** No, ma'am.

23 **Q** Had you answered any calls prior to 10:00
24 a.m.?

25 **A** I don't recall, I don't believe so, but I

1 don't recall, nothing stands out in my memory.

2 Q It was a pretty quiet day initially?

3 A Yes, ma'am.

4 Q Now, at some point you had a sick call, a
5 sick baby, I think?

6 A Yes, ma'am.

7 Q And that would have been 11-ish or so?

8 A I think it was around 11:30-ish, somewhere
9 in that vicinity.

10 Q That was near the Canfield Green
11 Apartments?

12 A Yes, ma'am, it was actually past them in
13 the adjoining apartment complex.

14 Q And what do they call those apartments?

15 A I believe that apartment is called
16 Northwinds.

17 Q Northwinds. Okay. And it is like east of
18 the Canfield Green, behind those apartments?

19 A Correct.

20 Q When you went on that call, did you have
21 assistance?

22 A No, I did not.

23 Q All right.

24 A Not police assistance.

25 Q No police assistance?

1 **A** No.

2 **Q** You handled that call by yourself?

3 **A** Yes, ma'am.

4 **Q** And did you have any confrontation with
5 anybody or was everything, was it a pretty as a
6 matter of fact call?

7 **A** It was a pretty laid-back call. It was
8 for a sick infant, I believe, only a couple months
9 old.

10 **Q** Okay.

11 **A** I believe she had a fever, I'm not
12 100 percent sure.

13 **Q** Let me ask this question, can everybody
14 hear him? Speak up. I usually stand in the back of
15 the room so we can have a conversation. As you can
16 tell, my voice really carries, so try to, you know,
17 speak up so everybody can hear you.

18 **A** Okay.

19 **Q** So the baby was an infant?

20 **A** Correct.

21 **Q** Was the baby not breathing, what was the
22 call, do you recall?

23 **A** I believe it was for a fever.

24 **Q** Fever you said, I'm sorry.

25 Ambulance arrived?

1 **A** Yes, ambulance arrived at the same time I
2 arrived.

3 **Q** Okay. Baby went to the hospital with its
4 mother?

5 **A** The mother and baby were transported.

6 **Q** After that, what did you do?

7 **A** I returned to my vehicle and then started
8 to leave the apartment complex.

9 **Q** Okay. Did you get any other calls between
10 the time of the sick baby call and your interaction
11 with Michael Brown and Dorian Johnson?

12 **A** While on the sick case call, a call came
13 out for a stealing in progress from the local market
14 on West Florissant, that the suspects traveling
15 towards QT. I didn't hear the entire call, I was on
16 my portable radio, which isn't exactly the best. I
17 did hear that a suspect was wearing a black shirt
18 and that a box of Cigarillos was stolen.

19 **Q** Okay. And was this your call or you just
20 heard the call?

21 **A** It was not my call, I heard the call.

22 **Q** Some other officers were dispatched to
23 that call?

24 **A** I believe two others were.

25 **Q** Was it a call that you were going to go to

1 also?

2 **A** No.

3 **Q** So you weren't really geared to handle
4 that call?

5 **A** No.

6 **Q** Tell us how you were dressed that day on
7 August the 9th?

8 **A** How I was dressed?

9 **Q** Yes.

10 **A** I was wearing my full department uniform,
11 light duty boots, dark navy blue pants, my issue
12 duty belt, with my uniform shirt and that was it.

13 **Q** All right. And so when you say, when you
14 are in uniform, you were not a detective?

15 **A** No, ma'am.

16 **Q** You weren't dressed the way you are
17 dressed here today?

18 **A** No, ma'am.

19 **Q** So your uniform is like a uniform police
20 officer and when you are walking around I can
21 clearly see oh, that's a police officer?

22 **A** Yes, ma'am, I believe it is french blue
23 uniform shirt, had patches for Ferguson on both
24 sides, badge, name tag.

25 **Q** Okay. And you were in what type of

1 vehicle?

2 **A** I was in a Chevy Tahoe police vehicle
3 fully marked with a light bar.

4 **Q** Fully marked, okay. Tell us, you were
5 mentioning your radio or what is this you spoke
6 about?

7 **A** Walkie is what we normally call it.

8 **Q** I'm sorry?

9 **A** Our walkie is what we normally call it.

10 **Q** Like a walkie-talkie or something?

11 **A** Yes, ma'am.

12 **Q** And it did work that day?

13 **A** Yes.

14 **Q** Okay. And it was on which shoulder?

15 **A** I wear it on my left shoulder.

16 **Q** Are you left or right-handed?

17 **A** I'm right-handed.

18 **Q** Okay. Tell us what else is on your duty
19 belt?

20 **A** I have my, I'll go in order. Magazine
21 pouches sit right here, my weapon is on my right
22 hip, I have an asp that sits kind of behind me and
23 kind of to the right and then a set of handcuffs,
24 another set of handcuffs, my OC spray or mace is on
25 this side and then my radio and that's it.

1 **Q** Okay. So your mace is on your left side
2 and your gun is on your right side?

3 **A** Correct.

4 **Q** What type of weapon did you carry?

5 **A** I carry Sig Sauer, a P229 .40 caliber.

6 **Q** How many cartridges or bullets would it
7 hold?

8 **A** It has 12 in the magazine and one goes in
9 the chamber, so a total of 13.

10 **Q** You had a couple spare magazines on your
11 belt?

12 **A** Correct.

13 **Q** That had 12 each?

14 **A** Correct.

15 **Q** Did you carry a taser?

16 **A** No.

17 **Q** Why not?

18 **A** I normally don't carry a taser. We only
19 have a select amount. Usually there is one
20 available, but I usually elect not to carry one. It
21 is not the most comfortable thing. They are very
22 large, I don't have a lot of room in the front for
23 it to be positioned.

24 **Q** Had you been trained on how to use a
25 taser?

1 **A** Yes, ma'am.

2 **Q** Have you ever used a taser before?

3 **A** I believe I have, but it wasn't one that I
4 carried. It was one that I used from someone else
5 on a scene. I can't remember the time or where I
6 used it.

7 **Q** You prefer not to have a taser?

8 **A** Correct.

9 **Q** So that day you had mace, you said, on
10 your left side?

11 **A** Correct.

12 **Q** All right. You are coming west, is it on
13 Canfield Drive?

14 **A** Yes, I started out on Glenark and then I
15 turn onto Bahama and then onto Glen Owen, and then I
16 turned on Windward, which actually turns into
17 Canfield Green and that's where I was going west on
18 that.

19 **Q** West on Canfield Drive?

20 **A** Yes, ma'am.

21 **Q** Okay. We are going to get a map here
22 shortly so you can kind of map it out for us.

23 So as you are going west on Canfield
24 Drive, what happens?

25 **A** As I was going west on Canfield, I

1 observed two men in the middle of the street, they
2 are walking along the double yellow line single file
3 order.

4 **Q** Okay. And you say something to them, did
5 they say something to you first?

6 **A** No, you want me to just go with the whole
7 thing?

8 **Q** Sure, go ahead, let's start there.

9 **A** I see them walking down the middle of the
10 street. And first thing that struck me was they're
11 walking in the middle of the street. I had already
12 seen a couple cars trying to pass, but they couldn't
13 have traffic normal because they were in the middle,
14 so one had to stop to let the car go around and then
15 another car would come. And the next thing I
16 noticed was the size of the individuals because
17 either the first one was really small or the second
18 one was really big.

19 And just for the conversation, I
20 didn't know this then, but the first one's name was
21 Dorian Johnson, the second one was Michael Brown.
22 That was discovered, I think, the following day is
23 when I learned the names. I had never seen them
24 before.

25 And then the next thing I notice was

1 that Brown had bright yellow socks on that had green
2 marijuana leaves as a pattern on them. They were
3 the taller socks that go halfway up your shin.

4 As I approached them, I stopped a
5 couple feet in front of Johnson as they are walking
6 towards me, I am going towards them. And I allowed
7 him to keep walking towards my window, which was
8 down. As Johnson came around my driver's side
9 mirror I said, "why don't you guys walk on the
10 sidewalk." He kept walking, as he is walking he
11 said, "we are almost to our destination."

12 Q Do you think he used those words
13 destination, we are almost to our destination?

14 A Yes, ma'am. He said we are almost to our
15 destination and he pointed this direction over my
16 vehicle. So like in a northeasternly (sic)
17 direction. And as he did that, he kept walking and
18 Brown was starting to come around the mirror and as
19 he came around the mirror I said, "well, what's
20 wrong with the sidewalk." Brown then replied, um,
21 it has vulgar language.

22 Q You can say it, say it.

23 A Brown then replied, "fuck what you have to
24 say." And when he said that, it drew my attention
25 totally to Brown. It was a very unusual and not

1 expected response from a simple request.

2 When I start looking at Brown, first
3 thing I notice is in his right hand, his hand is
4 full of Cigarillos. And that's when it clicked for
5 me because I now saw the Cigarillos, I looked in my
6 mirror, I did a doublecheck that Johnson was wearing
7 a black shirt, these are the two from the stealing.

8 And they kept walking, as I said,
9 they never once stopped, never got on the sidewalk,
10 they stayed in the middle of the road.

11 So I got on my radio and Frank 21 is
12 my call sign that day, I said Frank 21 I'm on
13 Canfield with two, send me another car.

14 I then placed my car in reverse and
15 backed up and I backed up just past them and then
16 angled my vehicle, the back of my vehicle to kind of
17 cut them off kind to keep them somewhat contained.

18 As I did that, I go to open the door
19 and I say, hey, come here for a minute to Brown. As
20 I'm opening the door he turns, faces me, looks at me
21 and says, "what the fuck are you going to do about
22 it", and shuts my door, slammed it shut. I haven't
23 even got it open enough to get my leg out, it was
24 only a few inches.

25 I then looked at him and told him to

1 get back and he was just staring at me, almost like
2 to intimidate me or to overpower me. The intense
3 face he had was just not what I expected from any of
4 this.

5 I then opened my door again and used
6 my door to push him backwards, and while I'm doing
7 that I tell him to, "get the fuck back", and then I
8 use my door to push him.

9 Q You tell him to, "get the fuck back"?

10 A Yes.

11 Q Okay.

12 A He then grabs my door again and shuts my
13 door. At that time is when I saw him coming into my
14 vehicle. His head was higher than the top of my
15 car. And I see him ducking and as he is ducking,
16 his hands are up and he is coming in my vehicle.

17 I had shielded myself in this type of
18 manner and kind of looked away, so I don't remember
19 seeing him come at me, but I was hit right here in
20 the side of the face with a fist. I don't think it
21 was a full-on swing, I think it was a full-on swing,
22 but not a full shot. I think my arm deflected some
23 of it, but there was still a significant amount of
24 contact that was made to my face.

25 Q Now, he was hitting you with what hand?

1 **A** I believe it was his right, just judging
2 by how we were situated.

3 **Q** Right.

4 **A** But like I said, I had turned away, had my
5 eyes, I was shielding myself.

6 **Q** Where did you see the Cigarillos at?

7 **A** They were in his right hand.

8 **Q** Okay. Were there any broken Cigarillos or
9 anything in your car later?

10 **A** No, I don't remember seeing anything on
11 the ground or anything.

12 **Q** Okay.

13 **A** After he hit me then, it stopped for a
14 second. He kind of like, I remember getting hit and
15 he kind of like grabbed and pulled, and then it
16 stopped. When I looked up, if this is my car door,
17 I'm sitting here facing that way, he's here. He
18 turns like this and now the Cigarillos I see in his
19 left hand. He's going like this and he says, "hey
20 man, hold these."

21 **Q** So you start out with Cigarillos in his
22 right hand?

23 **A** Correct.

24 **Q** At this point they are in his left hand?

25 **A** Correct.

1 **Q** He didn't have like two hands of
2 Cigarillos?

3 **A** No, I only saw them in one hand.

4 **Q** You only saw them in one, okay, go ahead.

5 **A** And he reaches back and he says, "hey man,
6 hold these." I'm assuming to Johnson, but I
7 couldn't see Johnson from my line of sight.

8 **Q** But you could tell he was giving Johnson
9 Cigarillos?

10 **A** Yes, I saw them in his hand go around.

11 **Q** All right.

12 **A** And he said, "hey man, hold these." And
13 at that point I tried to hold his right arm because
14 it was like this at my car. This is my car window.
15 I tried to hold his right arm and use my left hand
16 to get out to have some type of control and not be
17 trapped in my car any more. And when I grabbed him,
18 the only way I can describe it is I felt like a
19 five-year-old holding onto Hulk Hogan.

20 **Q** Holding onto a what?

21 **A** Hulk Hogan, that's just how big he felt
22 and how small I felt just from grasping his arm.

23 And as I'm trying to open the door is
24 when, and I can't really get it open because he is
25 standing only maybe 6 inches from my door, but as I

1 was trying to pull the handle, I see his hand coming
2 back around like this and he hit me with this part
3 of his right here, just a full swing all the way
4 back around and hit me right here. (indicating)

5 After he did that, next thing I
6 remember is how do I get this guy away from me.
7 What do I do not to get beaten inside my car.

8 I remember having my hands up and I
9 thought to myself, you know, what do I do.

10 I considered using my mace, however,
11 I wasn't willing to sacrifice my left hand, which is
12 blocking my face to go for it. I couldn't reach
13 around on my right to get it and if I would have
14 gotten it out, the chances of it being effective
15 were slim to none. His hands were in front of his
16 face, it would have blocked the mace from hitting
17 him in the face and if any of that got on me, I know
18 what it does to me and I would have been out of the
19 game. I wear contacts, if that touches any part of
20 my eyes, then I can't see at all.

21 Like I said, I don't carry a taser, I
22 considered my asp, but to get that out since I kind
23 of sit on it, I usually have to lean forward and
24 pull myself forward to the steering wheel to get it
25 out. Again, I wasn't willing to let go of the one

1 defense I had against being hit. The whole time, I
2 can't tell you if he was swinging at me or grabbing
3 me or pushing me or what, but there was just stuff
4 going on and I was looking down figuring out what to
5 do.

6 Also, when I was grabbing my asp, I
7 knew if I did even get it out, I'm not going to be
8 able to expand it inside the car or am I going to be
9 able to make a swing that will be effective in any
10 manner.

11 Next I considered my flashlight. I
12 keep that on the passenger side of the car. I
13 wasn't going to, again, reach over like this to grab
14 it and then even if I did grab it, would it even be
15 effective. We are so close and confined.

16 So the only other option I thought I
17 had was my gun. I drew my gun, I turned. It is
18 kind of hard to describe it, I turn and I go like
19 this. He is standing here. I said, "get back or
20 I'm going to shoot you."

21 He immediately grabs my gun and says,
22 "you are too much of a pussy to shoot me." The way
23 he grabbed it, do you have a picture?

24 Q I do have some pictures of your gun.
25 Well, you can tell us if it is your gun, I believe

1 it is.

2 **A** My gun was basically pointed this way.
3 I'm in my car, he's here, it is pointed this way,
4 but he grabs it with his right hand, not his left,
5 he grabs with his right one and he twists it and
6 then he digs it down into my hip. (indicating)

7 MS. WHIRLEY: Kathi, can you do the
8 computer? I'm going to let you see these photos
9 from Grand Jury Exhibit Number 10, and there's some
10 numbers on the back of these photos just so we can
11 keep track of what you are looking at. And I'm
12 going to announce what they are and then I will let
13 you tell us a little bit about them, okay?

14 **A** All right.

15 **Q** Let me just get my glasses. These are
16 Grand Jury Exhibit Number 10, but the photo that I'm
17 showing you is 60, 66, 63, so they're not in order
18 and then 69, so if you could look at all of those
19 photos. And tell me if that represents what you
20 know to be your weapon and your ammunition?

21 **A** Yes, it does.

22 **Q** Let me see if we can get this, let me try
23 to get this started. We'll talk a little bit about
24 while we're working on that. So those are photos of
25 your weapons; is that correct?

1 **A** Yes, ma'am.

2 **Q** And would those photos help you to sort of
3 explain or to explain to the grand jurors what took
4 place regarding the struggle with your weapon that
5 you were trying to describe to us?

6 **A** I think this would be the most helpful.

7 **Q** Okay. And we are going to put it on the
8 projector as soon as we can and have you, you know,
9 tell us what's going on.

10 I have a few other questions while we
11 are waiting on that. So during the time that he's,
12 you said Michael Brown is striking you in the face
13 through the car door?

14 **A** Right.

15 **Q** And it was your opinion that you needed to
16 pull out your weapon because why did you feel that
17 way, I don't want to put words in your mouth?

18 **A** I felt that another one of those punches
19 in my face could knock me out or worse. I mean it
20 was, he's obviously bigger than I was and stronger
21 and the, I've already taken two to the face and I
22 didn't think I would, the third one could be fatal
23 if he hit me right.

24 **Q** You thought he could hit you and it would
25 be a fatal injury?

1 **A** Or at least unconscious and then who knows
2 what would happen to me after that.

3 **Q** There you go, thank you, Kathi.

4 You had not ever met Michael Brown or
5 Dorian Johnson before this date?

6 **A** No, ma'am.

7 **Q** Never had any interaction with them at
8 all?

9 **A** No, ma'am.

10 **Q** Okay. So this is Number 60. Why don't
11 you come over here, Darren Wilson, and kind of tell
12 us.

13 **A** If you picture that --

14 **Q** You can do it from there?

15 **A** I can probably show with my hands.

16 **Q** You want to use this to kind of?

17 **A** No, I'll just do it with my hands. If
18 that's pointed at me, I'm holding that like this.
19 So it is pointed at, I would be Brown, he grabbed
20 with his hand over the top like this manner and then
21 twisted it down like this. And when it twisted, it
22 ended up being like this in my hip. That's all I
23 needed that for. (indicating)

24 **Q** That's all you needed?

25 **A** Yeah, just so I can show them how it

1 twisted and went down into my hip.

2 Q Okay. Since we have the projector up,
3 let's look at some of the photographs because you
4 did go to the doctor or to the hospital; is that
5 right?

6 A Yes, ma'am.

7 Q And you mentioned being struck in the face
8 before you pulled your weapon?

9 A Yes, ma'am.

10 Q So let's just look at those before we move
11 on since we are here. These are also from State's
12 Exhibit Number, Grand Jury Exhibit Number 10.

13 If you could look at these photos,
14 you do know those to be you, correct?

15 A Yes, ma'am.

16 Q All right. So you give me that one, I
17 guess I'm going to let Kathi maybe help me here.
18 This is photo number six. And that's you?

19 A Correct.

20 Q Is that you at the hospital on August the
21 9th?

22 A Yes, ma'am.

23 Q And why did you go to the hospital?

24 A For my face being swollen.

25 Q Was there any other injuries that you had

1 other than your face?

2 **A** They had discovered there that I had
3 scratches on the back of my neck.

4 **Q** Okay. Anything else, tell us about your
5 injuries?

6 **A** I had a swollen right cheek, my left they
7 said was swollen, I had scratches around my hairline
8 in the back and I think on the side of my neck, but
9 that's all that I remember.

10 **Q** Any injuries to your hand?

11 **A** No.

12 **Q** Okay, let's see. Show me which one of
13 those photos duplicates the injury to your face?

14 **A** That one you can see the right side of my
15 face swollen pretty good.

16 **Q** Okay. And this is Number 12?

17 **A** That one looks like it has bruising and
18 swelling on it.

19 **Q** Where is the swelling to your face on that
20 one?

21 **A** It was on my right side, that was the main
22 injury.

23 **Q** Point to it for us?

24 MS. ALIZADEH: Here, if you want to use
25 the laser pointer, hopefully it will work.

1 **A** Right in this area. (indicating)

2 **Q** (By Ms. Whirley) That's the swelling to
3 your face?

4 **A** Yes, ma'am.

5 **Q** Okay. And this is Number 30 and you said
6 this depicts the swelling too?

7 **A** I think it shows the bruising on the side
8 of my face.

9 **Q** The bruising on the side of your face.
10 And kind of show us where you see the bruising?

11 **A** This area right here. (indicating)

12 MS. WHIRLEY: Yes.

13 : . Can we pass
14 those around?

15 MS. ALIZADEH: I'm going to, yeah, I'm
16 going to.

17 **A** That was kind of the same.

18 **Q** (By Ms. Whirley) Okay. This is number 24?

19 MS. ALIZADEH: Wait a minute, there is
20 two.

21 MS. WHIRLEY: 24 is what I'm trying to
22 look at.

23 MS. ALIZADEH: This is 27.

24 MS. WHIRLEY: This is 24. Now, what are
25 we looking at there?

1 **A** That's the left side of my face.

2 **Q** (By Ms. Whirley) So you had, describe what
3 we are looking at?

4 **A** I can't really tell from that.

5 **Q** Okay.

6 **A** I can't see from this angle.

7 **Q** Let me let you look at it again.

8 **A** I think there was swelling to my face in
9 that area too. I never saw my face after, this is
10 the first I've seen.

11 **Q** Does it look like swelling? You know your
12 face better than we do, does that look like
13 swelling?

14 **A** I can't tell with that angle with the
15 ruler.

16 **Q** You can't tell on that one? What about
17 this one?

18 **A** That one I can tell from down by my, down
19 in this area looks swollen to me.

20 **Q** Okay. And this is Number 27. Were there
21 any other photos that you think kind of show your
22 injuries?

23 **A** This one you can see the scratches in that
24 area.

25 **Q** Okay.

1 **A** Here is a close-up of it.

2 **Q** This is Number 33 and you say you can see
3 scratches on the back of your neck?

4 **A** Right in here. (indicating)

5 **Q** Okay.

6 **A** This is just showing the red marks on my
7 face on this one, on my neck on that one.

8 **Q** Okay. This is Number 54. And you can
9 kind of point to where the red marks are on your
10 neck?

11 **A** It is hard to see on that. It is in this
12 area right there. (indicating)

13 **Q** Okay.

14 **A** Most of those are the same.

15 **Q** Okay. Any more of those you want us to
16 see?

17 **A** It is hard to tell from the pictures and
18 that angle. I think the best one was looking
19 straight forward at me.

20 **Q** Okay. And they've already got those. All
21 right, thank you.

22 All right. So you suffered the
23 injury to your face and you showed us where the gun
24 was grabbed and at the time when there is a struggle
25 for the gun, take us from there.

1 **A** He grabs my gun, says, "you are too much
2 of a pussy to shoot me." The gun goes down into my
3 hip and at that point I thought I was getting shot.
4 I can feel his fingers try to get inside the trigger
5 guard with my finger and I distinctly remember
6 envisioning a bullet going into my leg. I thought
7 that was the next step.

8 **Q** I'm going to stand back so you can talk a
9 little louder.

10 **A** As I'm looking at it, I'm not paying
11 attention to him, all I can focus on is just this
12 gun in my leg.

13 I was able to kind of shift slightly
14 like this and then push it down, because he is
15 pushing down like to keep it pinned on my leg. So
16 when I slid, I let him use his momentum to push it
17 down and it was kind of pointed to where the seat
18 buckle would attach on the floorboard on the side of
19 my car.

20 Next thing I remember putting my left
21 hand on it like this, putting my elbow into the back
22 of my seat and just pushing with all I could
23 forward.

24 **Q** Were you saying anything?

25 **A** I don't know.

1 **Q** You don't know if he was saying either?

2 **A** I heard stuff, but I couldn't tell you
3 what it was.

4 **Q** Okay.

5 **A** Like I said, I was just so focused on
6 getting the gun out of me. When I did get it up to
7 this point, he is still holding onto it and I pulled
8 the trigger and nothing happens, it just clicked. I
9 pull it again, it just clicked again.

10 At this point I'm like why isn't this
11 working, this guy is going to kill me if he gets
12 ahold of this gun. I pulled it a third time, it
13 goes off. When it went off, it shot through my door
14 panel and my window was down and glass flew out of
15 my door panel. I think that kind of startled him
16 and me at the same time.

17 When I see the glass come up, it
18 comes, a chunk about that big comes across my right
19 hand and then I notice I have blood on the back of
20 my hand.

21 After seeing the blood on my hand, I
22 looked at him and he was, this is my car door, he
23 was here and he kind of stepped back and went like
24 this.

25 And then after he did that, he looked

1 up at me and had the most intense aggressive face.
2 The only way I can describe it, it looks like a
3 demon, that's how angry he looked. He comes back
4 towards me again with his hands up.

5 At that point I just went like this,
6 I tried to pull the trigger again, click, nothing
7 happened.

8 Q When you say he came back up to you with
9 his hands up, describe to us what he is doing?

10 A Last thing I saw was this coming at me.

11 Q Was it a fist?

12 A I just saw his hands up, I don't know if
13 they were closed yet, on the way to going closed, I
14 saw this and that face coming at me again, and I
15 just went like this and I shielded my face.

16 Q And you did what?

17 A Went like this and shielded my face.

18 Q Did he hit you at that time?

19 A Yes.

20 Q Okay. Go ahead.

21 A So I pulled the trigger, it just clicks
22 that time. Without even looking, I just grab the
23 top of my gun, the slide and I racked it, and I put
24 my, still not looking just holding my hand up, I
25 pulled the trigger again, it goes off. When I look

1 back after that --

2 Q So how many times does it go off in the
3 car?

4 A It went off twice in the car. Pull,
5 click, click, went off, click, went off. So twice
6 in the car.

7 Q Are you certain?

8 A Yes.

9 Q Okay.

10 A When I look up after that, I see him start
11 to run and I see a cloud of dust behind him. I then
12 get out of my car. As I'm getting out of the car I
13 tell dispatch, "shots fired, send me more cars."

14 We start running, kind of the same
15 direction that Johnson had pointed. Across the
16 street like a diagonal towards this, kind of like
17 where the parking lot came in for Copper Creek Court
18 and Canfield, right at that intersection. And there
19 is a light pole right there, I remember him running
20 towards the light pole.

21 We pass two cars that were behind my
22 police car while we were running. I think the
23 second one was Pontiac Grand Am, a green one. I
24 don't know if it was a two door or four door, I just
25 remember seeing a Pontiac green Grand Am.

1 When I passed the second one, about
2 that same time he stopped running and he is at that
3 light pole. So when he stopped, I stopped. And
4 then he starts to turn around, I tell him to get on
5 the ground, get on the ground.

6 He turns, and when he looked at me,
7 he made like a grunting, like aggravated sound and
8 he starts, he turns and he's coming back towards me.
9 His first step is coming towards me, he kind of does
10 like a stutter step to start running. When he does
11 that, his left hand goes in a fist and goes to his
12 side, his right one goes under his shirt in his
13 waistband and he starts running at me.

14 **Q** You say under his shirt?

15 **A** Yes.

16 **Q** Was he wearing a shirt that was longer
17 than his waistband?

18 **A** Yes, ma'am.

19 **Q** So he goes up under the shirt?

20 **A** Yes.

21 **Q** Okay. Go ahead.

22 **A** That was all done, like I said, the first
23 step, his first stride coming back towards me.

24 As he is coming towards me, I tell,
25 keep telling him to get on the ground, he doesn't.

1 I shoot a series of shots. I don't know how many I
2 shot, I just know I shot it.

3 I know I missed a couple, I don't
4 know how many, but I know I hit him at least once
5 because I saw his body kind of jerk or flinched.

6 I remember having tunnel vision on
7 his right hand, that's all, I'm just focusing on
8 that hand when I was shooting.

9 Well, after the last shot my tunnel
10 vision kind of opened up. I remember seeing the
11 smoke from the gun and I kind of looked at him and
12 he's still coming at me, he hadn't slowed down.

13 At this point I start backpedaling
14 and again, I tell him get on the ground, get on the
15 ground, he doesn't. I shoot another round of shots.
16 Again, I don't recall how many it was or if I hit
17 him every time. I know at least once because he
18 flinched again.

19 At this point it looked like he was
20 almost bulking up to run through the shots, like it
21 was making him mad that I'm shooting at him.

22 And the face that he had was looking
23 straight through me, like I wasn't even there, I
24 wasn't even anything in his way.

25 Well, he keeps coming at me after

1 that again, during the pause I tell him to get on
2 the ground, get on the ground, he still keeps coming
3 at me, gets about 8 to 10 feet away. At this point
4 I'm backing up pretty rapidly, I'm backpedaling
5 pretty good because I know if he reaches me, he'll
6 kill me.

7 And he had started to lean forward as
8 he got that close, like he was going to just tackle
9 me, just go right through me.

10 **Q** Can you demonstrate for us how he was
11 leaning forward?

12 **A** His hand was in a fist at his side, this
13 one is in his waistband under his shirt, and he was
14 like this. Just coming straight at me like he was
15 going to run right through me. And when he gets
16 about that 8 to 10 feet away, I look down, I
17 remember looking at my sites and firing, all I see
18 is his head and that's what I shot.

19 I don't know how many, I know at
20 least once because I saw the last one go into him.
21 And then when it went into him, the demeanor on his
22 face went blank, the aggression was gone, it was
23 gone, I mean, I knew he stopped, the threat was
24 stopped.

25 When he fell, he fell on his face.

1 And I remember his feet coming up, like he had so
2 much momentum carrying him forward that when he
3 fell, his feet kind of came up a little bit and then
4 they rested.

5 At that point I got back on the radio
6 and said, "send me a supervisor and every car you
7 got."

8 Q Okay. So when the shots were first fired
9 in your car, you said you believe you fired two
10 shots in the car?

11 A Yes, two actually went off in the car.

12 Q Two went off in the car. And at this
13 point, the second shot, is that when he ran?

14 A After the second shot, yes.

15 Q After the second shot. Are you still in
16 the car?

17 A When he starts to run?

18 Q Yes.

19 A Yes, ma'am.

20 Q Okay. Do you, at that time, do you say
21 shots fired?

22 A As I'm exiting the car to chase him, yes.

23 Q Did you know that radio dispatch did not
24 go out?

25 A No, I didn't find out until later while I

1 was actually driving back to the station that my
2 portable radio was on channel 3 and our main channel
3 was channel 1.

4 **Q** So nobody heard you say shots fired to
5 your knowledge?

6 **A** To my knowledge.

7 **Q** Okay.

8 **A** They did ask me why my radio for the car
9 was laying on the floorboard, asked me if I used
10 that. I don't remember using that radio. I, for
11 some reason, remember using this one. It could have
12 been sitting in my lap, there is also that chance
13 that I used that one. I don't know which one that I
14 used.

15 MS. ALIZADEH: I'm sorry, when you say
16 your radio, you mean the mike --

17 **A** The mike, yes, ma'am.

18 MS. ALIZADEH: -- for the radio? The
19 radio is attached to the dash, correct?

20 **A** Yes, it is in the center console. So the
21 mike was probably in my lap at some point.

22 MS. ALIZADEH: The mike, okay.

23 **Q** (By Ms. Whirley) All right. So you're in
24 the car, you fire two shots and he's running and you
25 get out of the car to chase after him and tell us

1 your rationale, what you are thinking now?

2 **A** When I'm chasing him?

3 **Q** Yes. You get out of the car and run after
4 him.

5 **A** My main goal was to keep eyes on him and
6 just to keep him contained until I had people coming
7 there. I knew I had already called for backup and I
8 knew they were already in the area for the stealing
9 that was originally reported. So I thought if I can
10 buy 30 seconds of time, that was my original goal
11 when I tried to get him to come to the car. If I
12 could buy 30 seconds of time, someone else will be
13 here, we can make the arrest, nothing happens, we
14 are all good. And it didn't happen that way.

15 So when he ran, you know, just stay
16 with him, someone is going to be here, you know,
17 we'll get him.

18 **Q** And when you, when the second shot was
19 fired inside the car, did you think he was hit at
20 all?

21 **A** No, I thought I missed.

22 **Q** Both shots. You didn't see any blood on
23 him?

24 **A** The first shot, judging by his reaction,
25 he went back, I thought it went through the door and

1 hit him in the leg, in the hip, is what I thought.

2 Q Okay.

3 A The second one I saw the cloud of dust and
4 him running, I knew I missed.

5 Q Okay. So you got out of the car, you are
6 running, you are telling him to stop; is that right?

7 A Correct.

8 Q And he's not listening?

9 A No, not until he gets to that light pole
10 and that's when he stopped.

11 Q To what now?

12 A He gets to that light pole at that
13 intersection.

14 Q Are you firing at him while he's running?

15 A No, ma'am.

16 Q Is Dorian Johnson anywhere around?

17 A I never saw him after the very beginning.
18 Once he walked past my car, I never saw him again.

19 Q Okay. All right. And at some point you
20 say Michael Brown does turn around?

21 A Yes, ma'am.

22 Q Any idea what happened to make him turn
23 around or he just all of the sudden turns around?

24 A No, just turns around. His whole reaction
25 to the whole thing was something I've never seen.

1 I've never seen that much aggression so quickly from
2 a simple request to just walk on the sidewalk.

3 Q Okay. Because you never did talk to him
4 about the Cigarillos or the stealing at the Ferguson
5 Market?

6 A No, I never had the chance to.

7 Q All right. You said when he's coming back
8 at you with his hand, right hand in his waistband
9 and kind of charging, that's when you fired the last
10 shots?

11 A Yes, ma'am.

12 Q And he went down?

13 A Yes, ma'am.

14 Q Did you think he was dead at that point?

15 A Yes, I did.

16 Q What did you do after that when he goes
17 down?

18 A After that is when I got back on the radio
19 and I said, "send me a supervisor and every car you
20 have."

21 Seconds later, I don't know how many
22 seconds later, is when Officer followed by
23 Officer arrived. And I believe they were the
24 ones that were assigned to the stealing call
25 originally. walked up to me and said,

1 Darren, what do you need.

2 MS. ALIZADEH: Said what?

3 **A** Darren, what do you need. I don't
4 remember what my reply was and he said, did you call
5 for an ambulance. I said I haven't, will you. I
6 remember him calling twice, like he was about from
7 me to you away on the radio calling.

8 And then I look across and was
9 starting to tape off the area, but I notice that all
10 of our cars are parked this way, Brown is laying
11 here, there is nothing on this side. I told
12 to move his car to this side to block that side of
13 the street off. He did that and then he resumed
14 taping.

15 After that I walked to my car and I
16 put my gun up, I start walking away from the scene.
17 As I'm walking away, I walk back to my car and I
18 don't know if the door was open or shut, I think it
19 was shut. I open the door, I reach in, I turn my
20 car off, shut the door. At that time my sergeant
21 pulled up and I walked over to him.

22 **Q** (By Ms. Whirley) This is Sergeant ?

23 **A** Yes, ma'am.

24 **Q** Okay.

25 **A** I don't remember what started the

1 conversation, he said something first, but I said I
2 have to tell you what happened. And he goes, what
3 happened.

4 I said, I had to kill him.

5 He goes, you what?

6 I said, he grabbed my gun, I shot
7 him, I killed him.

8 He goes, go sit in the car.

9 I said, I cannot sit in the car.

10 I remember him saying, Darren, sit in
11 the car.

12 I said, Sarge, I can't be singled
13 out. It is already getting hostile, I can't be
14 singled out in the car. I will leave if you want me
15 to leave.

16 He said, take my car and leave. So I
17 got in his car and I drove to the police station.

18 **Q** In your mind him grabbing the gun is what
19 made the difference where you felt you had to use a
20 weapon to stop him?

21 **A** Yes. Once he was hitting me in the face,
22 that enough, was in my mind to authorize the use of
23 force.

24 **Q** Okay. So if he would not have grabbed
25 your gun while he was hitting you in the face,

1 everything was the same, but he would not have
2 grabbed the gun, you still would have used deadly
3 force?

4 **A** My gun was already being presented as a
5 deadly force option while he was hitting me in the
6 face.

7 **Q** Okay, all right. So then you go to the
8 station?

9 **A** Yes.

10 **Q** And what happens, you go alone?

11 **A** Yes.

12 **Q** And before you leave for the station,
13 there is a crowd developing, right?

14 **A** Correct.

15 **Q** And do you hear what the crowd is saying?
16 I know you are in a pretty stressful situation, but
17 do you understand or hearing anything that they're
18 saying?

19 **A** I hear yelling, I hear screaming, as I'm
20 walking back to my car, a white Ford truck pulled up
21 and I remember her saying is that so and so? It was
22 a female driver that got out. said, ma'am,
23 we don't know. I heard her say, I think it is so
24 and so, and then she screamed and that's all I
25 heard.

1 I could hear other noises and
2 screaming, but I couldn't hear.

3 Q Okay. We're going to go with you to the
4 station in just a minute, but I wanted to ask you
5 about your relationship with the residents in the
6 Canfield Green Apartments.

7 A Uh-huh.

8 Q Did you guys have a volatile, well, how
9 can I put this. Did you not really get along well
10 with the folks that lived in that apartment, not you
11 personally, I mean the police in general?

12 A It is an antipolice area for sure.

13 Q And when you say antipolice, tell me more?

14 A There's a lot of gangs that reside or
15 associate with that area. There's a lot of violence
16 in that area, there's a lot of gun activity, drug
17 activity, it is just not a very well-liked
18 community. That community doesn't like the police.

19 Q Were you pretty much on high alert being
20 in that community by yourself, especially when
21 Michael Brown said, "fuck what you say," I think he
22 said?

23 A Yes.

24 Q You were on pretty high alert at that
25 point knowing the vicinity and the area that you're

1 in?

2 **A** Yes, that's not an area where you can take
3 anything really lightly. Like I said, it is a
4 hostile environment. There are good people over
5 there, there really are, but I mean there is an
6 influx of gang activity in that area.

7 **Q** All right. So you're driving yourself
8 back to Ferguson, what are you thinking on the drive
9 back to Ferguson?

10 **A** I think I'm just kind of in shock of what
11 just happened, I really didn't believe it because
12 like I said, the whole thing started over will you
13 just walk on the sidewalk and it developed into that
14 in 45 seconds.

15 And that's the only other thing I
16 remember thinking about is I heard the car radio
17 going off and mine wasn't. That doesn't make sense.
18 So I hit the scan button on mine thinking the scan
19 button got messed up, I wasn't getting everything.

20 And I did that and it still, this one
21 is going off and mine's not. So then I looked at it
22 and I was on channel 3. I was like, I don't know
23 what was heard or what wasn't heard.

24 **Q** And that's when you realized that you
25 probably, nobody probably even heard your call for

1 help?

2 **A** Right. I know they heard the initial one
3 because before I put it in reverse I used the car
4 radio, the car mike, which is always on Ferguson
5 channel, it never changes, but I don't know when
6 this one was changed, if they even heard anything.

7 **Q** When you first went out on your call to
8 Canfield Green, you said, I'm going out Frank 21?

9 **A** Frank 21.

10 **Q** I'm going out with two, send me a car?

11 **A** I said, "Frank 21, I'm on Canfield with
12 two, send me another car."

13 **Q** It wasn't a stressful situation at that
14 point?

15 **A** No, it wasn't, but I just had that gut
16 feeling that someone else needed to be there and
17 knowing that this guy just stole from the market
18 because I saw the Cigarillos and had the black
19 shirt, I felt that in order to affect the arrest, it
20 would be better to have.

21 **Q** You asked for this other car before any
22 words were exchanged, correct?

23 **A** No, he had already told me, "fuck what you
24 have to say."

25 **Q** Before you asked for the car, when you

1 said I'm Frank 21, I'm at Canfield Green, send me a
2 car. He had already said, "fuck what you have to
3 say?"

4 **A** Yeah, he had already walked past by my car
5 and said that.

6 **Q** Okay.

7 **A** That's when I saw the Cigarillos when he
8 said that and he kept walking. Then I got on the
9 radio and said, "send me another car."

10 **Q** You didn't tell the dispatcher that you
11 were having a confrontation or that you had these
12 guys who might be the suspects in the stealing?

13 **A** No.

14 **Q** You didn't say that to the dispatcher when
15 you said send me a car?

16 **A** No, it was kind of said in a quicker way,
17 just kind of hey, I want to get the information out,
18 get a car started and once more develops, I can
19 advise them of more.

20 **Q** But you never had a chance to do that?

21 **A** No, I didn't.

22 **Q** Okay. All right. So you drive back to
23 Ferguson by yourself, you are at Ferguson, what do
24 you do?

25 **A** I immediately go to the bathroom. On the

1 way back I found that I had blood on the inside of
2 my left hand and I already know I had it on the back
3 of my right hand. And just from everything we have
4 always been taught about blood, you don't want it on
5 you, you don't touch it, you don't come in contact
6 with it.

7 And my original thought was that it
8 was the glass had cut my wrist and cut my hand,
9 which is why this hand was bleeding. And so
10 thinking that I was cut with someone else's blood on
11 me, I had to wash my hands.

12 So I go directly to the bathroom. I
13 actually washed them, went to the bathroom and then
14 I looked, like I still had it like in my cuticles
15 and stuff, so I washed my hands again. After I
16 washed my hands, I go to our roll call room.

17 Q Let me ask you this, was there a lot of
18 blood?

19 A From like my finger tips to about here was
20 blood.

21 Q Like dripping blood?

22 A No, just on the back of my hand, it wasn't
23 liked wraparound like I dipped my hand in blood, but
24 there was like blood on the back of my hand.

25 Q One of the grand jurors asked earlier, you

1 may know the answer to the question, was there blood
2 left like in Sergeant s car after you got out
3 of it?

4 A I don't know, I did call him and say, I
5 don't know who is going to drive your car later, but
6 I had blood on my hands. You might want to tell
7 them to wipe down the steering wheel or just be
8 cautious of it because I never went back and looked
9 at the car.

10 Q I see. Okay, so go ahead, after you wash
11 your hands?

12 A I then go down the hallway to the roll
13 call room. Once in there, Officer was in
14 there working on the computer.

15 Q Which officer,

16 A

17 Q Do you need that spelled? Spell that,
18 please?

19 A .

20 Q And that's a officer?

21 A Yes.

22 Q And that's a friend of yours?

23 A Yeah, .

24 Q Okay. So there at
25 the station?

1 **A** Yes.

2 **Q** Okay. Go ahead.

3 **A** I come in, looks at me said, you
4 know, what happened. And I said, I just had to
5 shoot somebody.

6 And was kind of in shock and
7 had had, the computer was working on in front of
8 the one next to had, what we call the
9 CADament screen, it just shows the status of all the
10 cars where they're at. Well, on that one it is
11 showing all the Ferguson cars out on Canfield.

12 goes, I was really hoping you
13 weren't involved in that, you know, because any time
14 every car is involved, you really don't know what is
15 going to happen, who is going to get hurt.

16 **Q** What was doing,
17 what was duty that day?

18 **A** was working for court, was doing
19 paperwork, entering warrants for them.

20 **Q** So wasn't working the radio or
21 dispatch or anything like that?

22 **A** No.

23 **Q** And didn't know what had happened?

24 **A** No.

25 **Q** just knew a lot of cars were going

1 there?

2 **A** just saw the cars, didn't even
3 know what the call was. I think they had it as a
4 disturbance, so didn't even know what it was.

5 **Q** Okay.

6 **A** I go in there, I asked to go get me a
7 pair of gloves. goes gets me a pair of gloves,
8 comes back, put the gloves on. I grab an
9 evidence envelope, take my gun out of the holster,
10 make it safe. I lock the slide back, take the
11 magazine out, take the one round that's left in it
12 out. I put it all in that bag, seal it with
13 evidence tape and then sign it.

14 **Q** And you handled your gun at that time with
15 gloves on?

16 **A** Correct.

17 **Q** And why did you do that?

18 **A** To preserve any evidence on there, I knew
19 his DNA was on that gun.

20 **Q** How did you know his DNA was on the gun?

21 **A** When I first took it out, without even
22 looking at it, I knew that he had fingerprints on it
23 and possibly even sweat from, it was warmer that day
24 so, and he could have sweat on it. When I took it
25 out, I also saw blood on it.

1 **Q** You saw blood?

2 **A** Yes.

3 **Q** And that could have been from when you
4 shot him?

5 **A** Yes.

6 **Q** Okay. Is it procedure for you to make
7 your gun safe in a shooting like this or should
8 someone else do that?

9 **A** I don't really know.

10 **Q** Because that never happened to you before?

11 **A** Correct.

12 **Q** And you never investigated this type of
13 crime?

14 **A** No, I have not.

15 **Q** Not crime, but situation before?

16 **A** Correct.

17 **Q** Okay. All right. So you made, but you
18 knew how to make the gun safe and put it in an
19 evidence envelope based on your training and
20 experience?

21 **A** Yes, I was just trying to preserve all the
22 evidence I could on the weapon. And I knew if I put
23 it in an evidence envelope and sealed it, that it
24 would have no other contact with anybody and it
25 could be as preserved as you could get.

1 **Q** Okay. All right. And then what?

2 **A** I sat down and called for my attorney, who
3 represents police for the union. He said he would
4 be on his way.

5 Officer came in, he gave me the
6 card for the application for the Fraternal Order of
7 Police. I said, I already called them.

8 He said, would you like to tell me
9 what happened so I can tell the media? I said, no,
10 I don't want to talk right now.

11 Lieutenant came in, he's
12 actually my lieutenant who was off that day. He
13 came in and said, has anybody told you what's
14 happening? I said, I don't really know anything
15 that's going on there. I left the scene pretty much
16 right after.

17 He said St. Louis County is
18 investigating. I said okay, and then he left.

19 And then right after he left,
20 Ferguson Fire Department and EMS from Christian
21 Northeast Hospital showed up. They stayed about
22 this far away, they didn't actually come in the
23 room.

24 And they asked what happened?

25 I said, I was hit in the face

1 multiple times.

2 They asked where?

3 I pointed this side, that side.

4 They asked if I lost consciousness?

5 I said, no.

6 My vision was blurry?

7 I said, no.

8 Asked if I needed to go to the

9 hospital?

10 I said, no, not right now.

11 So is there anything else we can do

12 for you?

13 I said, no, not right now, and then

14 they left.

15 About 20 minutes later is when

16 my attorney, showed up and we talked for about 10 or

17 15 minutes.

18 My assistant chief showed up, he came

19 in and he made the determination that we should go

20 to the hospital, he could see the swelling on my

21 face.

22 So he drove, before we left,

23 Detective from St. Louis County arrived,

24 informed us he would be investigating the case and

25 kind of gave us the rundown of what to expect. And

1 then he agrees with going to the hospital.

2 So my assistant chief drove me and
3 to the hospital and Detective followed.

4 Q Okay. And those photos that we looked at
5 a minute ago were you at the hospital, correct?

6 A Yes, ma'am.

7 Q And then what happened after that?

8 A At the hospital we did the interview. And
9 when I went to the hospital, I didn't wear my
10 uniform shirt, I took that off and my vest off, left
11 it at the station, left my duty belt at the station.

12 Q Did someone tell you to do that?

13 A Yeah, and I felt more comfortable too
14 because I obviously can't wear my gun, and I don't
15 want to be in uniform after all of this without it.

16 So I took the shirt off, just my
17 undershirt, my pants, my boots, go to the hospital.
18 While waiting to be treated in the waiting room, not
19 in the waiting room, in the actual hospital room,
20 Detective began his interview and then stopped
21 as needed for nurses, whoever came in. They took
22 x-rays, prescribed me a painkiller for the face
23 injuries.

24 St. Louis County's evidence
25 technician arrived, he photographed everything. I

1 don't know who it is, but he came from whoever the
2 department uses for drug tests, they gave me the
3 drug tests. And then after that, I think he left
4 and then the assistant chief drove me and back
5 to the station.

6 He had already made a phone call, the
7 assistant chief did to have Officer
8 get a change of clothes for me, so
9 they were going to take my clothes. They had blood
10 on my left hip area.

11 So when I get back I change, St.
12 Louis County took my pants, shirt, they already had
13 my weapon, and then that was it, I went home for the
14 day.

15 Q Okay. You have been on administrative
16 leave since then?

17 A Correct.

18 Q Okay. In your, well, first of all, you
19 have been a police officer for how long?

20 A Five years.

21 Q Five years. You started out with
22 Jennings?

23 A Correct.

24 Q Why did you leave Jennings?

25 A Whenever Jennings was disbanded, I wasn't

1 officered a position by St. Louis County.

2 **Q** Did you apply for a position?

3 **A** Yes, I did. I just wasn't one of the ones
4 selected.

5 **Q** All right. So you went to Ferguson?

6 **A** Correct.

7 **Q** Those are the only two departments you
8 have been?

9 **A** I actually worked for Pine Lawn for about
10 eight hours.

11 **Q** Eight hours?

12 **A** Yes.

13 **Q** Okay. Did you leave voluntarily?

14 **A** Yes, I did.

15 **Q** After eight hours?

16 **A** Yes.

17 **Q** Any other incidents where you have been
18 involved where you had to use excessive force?

19 **A** I've never used my weapon before.

20 **Q** Not excessive force, where you have had to
21 use force to affect an arrest?

22 **A** I've used my asp before, I have used my
23 flashlight before and I have used OC spray before.

24 **Q** Okay. And in those incidents though, no
25 one was injured?

1 **A** No.

2 **Q** Okay. All right.

3 MS. WHIRLEY: Anyone else have questions?

4 I have a few more, but if you have something.

5 Yes,

6 : . I just, hopeful

7 you don't take any offense, I just have a question.

8 You worked for Pine Lawn for eight hours, Jennings,

9 you worked for Ferguson?

10 **A** Correct.

11 Have you always worked in
12 predominantly African-American neighborhoods?

13 **A** Yes, I have.

14 You have.

15 **A** Yes.

16 : No problem until this
17 time?

18 **A** Correct.

19 : Okay.

20 : . I want to
21 go back to when Sergeant arrived there. You
22 told him that you had to kill him. Was that the
23 extent of your conversation or did you tell him sort
24 of like you are telling us play by play what
25 happened?

13 **A** I did that before the car was placed in
14 reverse.

17 : Go over that again with
18 me, which mirror were you looking at?

22 **A** Whenever they walked me and I saw the
23 Cigarillos. I'd already saw that Dorian Johnson had
24 on a black shirt, but just to double-check myself to
25 match up with what I heard Cigarillos had been

1 stolen and a suspect wearing a black shirt, I looked
2 to make sure the shirt was black.

3 : Okay.

4 **A** And then I called out for the assist car
5 and then placed it in reverse and backed up to him.

6 : Thank you.

7 **A** You're welcome.

8 MS. ALIZADEH: Officer Wilson, I have a
9 few questions.

10 **Q** (By Ms. Alizadeh) Prior to today, at any
11 time after this incident have you seen any reports
12 of any kind, medical examiner's reports, police
13 reports, hospital reports, anything of that nature?

14 **A** The only report I've seen was the one
15 released on the news about the initial stealing.

16 **Q** Okay. So that is the Ferguson report that
17 was filed in relation to the theft of the
18 Cigarillos?

19 **A** Correct.

20 **Q** And when you, the vehicle that you were
21 in, I'm guessing that is not equipped with any
22 cameras or mikes?

23 **A** No, it is not.

24 **Q** To record what was going on, correct?

25 **A** Correct.

1 **Q** Any of the Ferguson officer's vehicles
2 equipped with that type of equipment?

3 **A** No, ma'am.

4 **Q** You don't wear a body mike?

5 **A** No, ma'am.

6 **Q** Now, your duty holster that you've
7 described or your duty belt has the holster attached
8 to it, correct?

9 **A** Correct.

10 **Q** Is it the type of holster that there's a
11 snap that goes over the gun that you have to unsnap
12 before the gun is removed from the holster?

13 **A** No, it doesn't have the strap on the top,
14 there is a button on the outside of it that you push
15 as you are pulling up and it releases it.

16 **Q** Okay. And is that something that, I mean,
17 as a police officer, you have to train at the firing
18 range, is that fair to say?

19 **A** Yes, ma'am.

20 **Q** And is part of your training learning how
21 to quickly get your gun out of your holster?

22 **A** Yes, ma'am.

23 **Q** When you called in and said you had two on
24 Canfield or two out, I think you said?

25 **A** I said, "Frank 21, I'm on Canfield with

1 two, send me another car."

2 Q With two. And why didn't you say anything
3 about asking again, what was that description of the
4 two involved in the larceny, did you ask for any
5 other details to insure in your own mind that maybe
6 these, you know, were these the guys?

7 A No, because my initial focus was just to
8 get the information out that I was there. Have the
9 other car respond and then get to that. My whole
10 goal was to just stall until someone got there.

11 Q Well, you've made previous statements
12 about that, this incident, and one being initially
13 to Sergeant

14 A Uh-huh.

15 Q Would you say that was kind of a brief,
16 not a lot of detail statement, would that be fair to
17 say?

18 A The one on scene?

19 Q On scene.

20 A Yeah, it was very brief.

21 Q And then you talked to ,
22 Detective ?

23 A Correct.

24 Q At the hospital. And that was a little
25 more detailed, would that be fair to say?

1 **A** Yes.

2 **Q** You didn't say anything to
3 about the Cigarillos, did you?

4 **A** Yes.

5 **Q** You believe you did?

6 **A** Yes, ma'am.

7 **Q** Did you tell that when you
8 saw him with his left hand reaching back and he made
9 the statement here, hold these or whatever, that you
10 saw what was in his hand?

11 **A** I had saw the flash of them going back
12 behind him.

13 **Q** So you didn't see at that point what was
14 in his hand?

15 **A** I could see the red and white wrapper of a
16 Cigarillo in his hand.

17 **Q** Okay. Just so I can be sure I'm
18 understanding you, did you see that they were
19 Cigarillos or did you assume they were Cigarillos?

20 **A** I assumed they were Cigarillos at that
21 point. I saw that they were in his right hand
22 before the contact was made.

23 **Q** But you didn't notice as his hand, his
24 right hand comes in the vehicle, and initially
25 contacts your face, you don't notice that he has

1 these packages or package with red and white
2 wrappers, you don't see them as he is hitting you?

3 **A** No, because I had shielded myself and I
4 believe I even closed my eyes.

5 **Q** Did you ever grab ahold, you said that you
6 grabbed ahold of his right hand at some point?

7 **A** It was like his forearm, it was this area.
8 (indicating)

9 **Q** His right forearm?

10 **A** Yes, ma'am.

11 **Q** And what were you doing when you grabbed
12 ahold of his right forearm?

13 **A** Trying to move him and somewhat control
14 him so I could get out of the car.

15 **Q** Were you ever pulling him to try to pull
16 him into the vehicle?

17 **A** No, I was trying to open my car door with
18 my left hand and then hold onto him as I did so.

19 **Q** So you've got your left hand, or what's
20 holding his right hand?

21 **A** My right hand.

22 **Q** You are like this? (indicating)

23 **A** Yes.

24 **Q** And you are like this trying to open your
25 door? (indicating)

1 **A** Yes.

2 **Q** And this is before you've gone for your
3 gun?

4 **A** Yes.

5 **Q** The first shot you've described pretty, I
6 guess, in detail. I think I understand the first
7 shot. The second shot you said you kind of weren't
8 looking, I guess?

9 **A** Uh-huh.

10 **Q** Where was your gun pointed?

11 **A** His general direction.

12 **Q** Was your gun above the level of the door
13 frame?

14 **A** I would say, yes. It had come up, it was
15 not on my leg any more and my leg sits only that far
16 away from the top of the window. So I remember
17 doing it like this, having my gun up.

18 **Q** And you said you saw a little puff of dust
19 or dirt that you assume was where a projectile might
20 have landed in the dirt; is that correct?

21 **A** Yes, ma'am.

22 **Q** So your gun wasn't pointed like up in the
23 air, would that be fair to say?

24 **A** Not that I'm aware of, correct.

25 **Q** Was your gun, if you had rolled up your

1 window, let's just say, was your gun totally inside
2 the vehicle, partially out of the vehicle, or was
3 your hand extended so that the gun was totally
4 outside of your vehicle?

5 **A** I don't know for sure, but it was my right
6 hand with it and I was like this. So I don't know
7 where it could have gone.

8 **Q** And I was using my left hand, I guess, to
9 demonstrate, you are right handed?

10 **A** Yes, ma'am.

11 **Q** And so you were across your body?

12 **A** Yes, ma'am.

13 **Q** And you said you had turned your face
14 somewhat?

15 **A** Yes, ma'am.

16 **Q** And at that point Michael Brown is not
17 right up on the vehicle, is that fair to say?

18 **A** No, this is when he is coming back at the
19 vehicle. He is only about a foot away and then
20 after the first shot hit him, he went down and kind
21 of held his hip for a second and then he came back
22 up and started to come back in the vehicle. And
23 that's when I just went like this and I pulled the
24 trigger.

25 **Q** Did you give him any kind of warning

1 before that second shot?

2 **A** I don't recall.

3 **Q** (By Ms. Whirley) You said you knew the
4 area and you felt threatened in that area because
5 there is violence and guns and everything, and that
6 Michael Brown was being confrontational before the
7 first blow, correct?

8 **A** Yes.

9 **Q** Is there any reason why you didn't wait in
10 the car until your backup came?

11 **A** I thought I would be able to just stall
12 until someone got there. I thought if I can get out
13 of the car, I could maintain the distance that I
14 need to maintain, they were close. I figure all I
15 needed was 20 or 30 seconds and someone is going to
16 be there.

17 **Q** Right. So why wouldn't you stay in the
18 car?

19 **A** Because I had already been, my comfort
20 zone is not to be sitting in the car talking to
21 someone else. I wanted to be out of the car, that
22 way if I need to run I can run.

23 **Q** You can run?

24 **A** If I was out and he started like chasing
25 me or went to hit me, I could move.

1 **Q** You are in a car, you are more mobile in a
2 car than you are on foot, right?

3 **A** Right. But I also didn't want him to run
4 away, so I need to kind of stay where I can keep him
5 there, keep myself safe and wait for someone to get
6 there.

7 MS. WHIRLEY: Okay.

8 **Q** (By Ms. Alizadeh) Now, Officer Wilson, I'm
9 not trying get in your head, I mean, I guess we all
10 are trying to get in your head at some point to know
11 what you were thinking at the time, but, I mean,
12 your initial confrontation or your initial contact
13 with them, I mean, you didn't see any of them with
14 weapons, correct?

15 **A** No.

16 **Q** And they weren't subjects that you knew to
17 be armed and dangerous?

18 **A** No.

19 **Q** And you stop and encounter pedestrians
20 probably almost on a daily basis when you are on
21 patrol, would that be fair to say?

22 **A** Yes.

23 **Q** And so did you at that point have any
24 reason to anticipate that this, that Michael Brown,
25 the Michael Brown subject was going to provoke or

1 be, or assault you?

2 **A** No, not at that moment, no.

3 **Q** You described the first shot, was his
4 right hand on the gun when the shot went off?

5 **A** I believe so.

6 **Q** And then the second shot, was his body in
7 contact with you on the second shot?

8 **A** Probably not on the second one. I know
9 when I first pulled the trigger it was, but it
10 didn't shoot and then that's when I racked the gun
11 and then shot again.

12 **Q** And you used both hands, you had to use
13 both hands to rack the gun?

14 **A** Yes, ma'am.

15 **Q** Was he still trying to hit you when you
16 went to rack the gun?

17 **A** I didn't look up.

18 **Q** Okay. So you said you did that without
19 looking and then you just went like that?

20 **A** Yes.

21 **Q** Turned your face away and shot out the
22 window?

23 **A** Yes.

24 **Q** In his general direction?

25 **A** Yes.

1 **Q** And so you can't really say whether his
2 hands were inside the car or outside the car at the
3 time you actually fired the second time, the second
4 shot?

5 **A** No, I can't tell you.

6 **Q** The blood on your pants, do you know how
7 the blood got on your pants?

8 **A** No, I do not.

9 **Q** Do you recall, I mean, when you were done
10 and you notice that you have, you said you had blood
11 on your left palm?

12 **A** Uh-huh.

13 **Q** And on the back of your right hand?

14 **A** Uh-huh.

15 **Q** Did you wipe your palm on your pant leg
16 because it is on your left pant leg, correct?

17 **A** Correct.

18 **Q** Did you wipe your hand on your pant leg to
19 get the blood off your palm?

20 **A** Not that I remember. I didn't see the
21 blood on my palm until I was driving back to the
22 station.

23 **Q** Okay. So you don't recall if you wiped
24 the blood on your pants?

25 **A** No, I don't know.

1 **Q** And when you, at any time after you got
2 back at the station, you went to the bathroom, was
3 there a mirror in the bathroom?

4 **A** Yes.

5 **Q** Could you see any blood on your face?

6 **A** No, I don't remember seeing any on my
7 face.

8 **Q** I would imagine that at some point in your
9 training you have learned something about blood
10 spatter and blood spray and so forth; is that right?

11 **A** It is kind of common knowledge, but no
12 official training on how it works.

13 **Q** I know you are not an expert, but you know
14 that can happen when you are in close range when
15 someone is shot, correct?

16 **A** Yes.

17 **Q** That spray or spatter can get on you?

18 **A** Yes.

19 **Q** Did you ever see anything like that?
20 Obviously, we have seized your clothing and what's
21 on there is what's on there, but did you have any of
22 that on your face or on your forearms or anything
23 like that?

24 **A** I don't recall seeing it on my face. I
25 remember looking, I don't remember washing my face.

1 I would say no, it was not on my face. When I
2 washed my hands, I did wash up like halfway up my
3 forearm just to make sure nothing was on me. I seen
4 it on my hands and I just started washing.

5 Q You didn't wash your face then prior to
6 going to the hospital?

7 A No.

8 Q Did anyone that you recall ever swab your
9 face?

10 A The outside of my face?

11 Q Yes.

12 A Not that I -- no.

13 Q Did anyone swab the back of your hands?

14 A No.

15 MS. ALIZADEH: I don't have anything else.

16 : When
17 Michael Brown, I guess, I guess at the point where I
18 want to say it was the second shot, I know this is
19 kind of after the fact. You said he stepped back a
20 little bit and then he came back in on you?

21 A That was after the first shot.

22 After the first shot?

23 A Yes.

24 Did you ever think about,
25 I know you said your vehicle was running, did you

1 ever just think about getting in that bad boy and
2 drive?

3 **A** No, I didn't. My thought is, I was still
4 dealing with a threat at my car. You know, we're
5 trained not to run away from a threat, to deal with
6 a threat and that is what I was doing. That never
7 entered my mind to flee.

8 : Did you ever or
9 do you recall grabbing Michael Brown by the throat?

10 **A** Never touched his throat.

11 : Shoulder?

12 **A** No. Only part of him I touched was his
13 right forearm.

14 : . When
15 Michael Brown was running from you, after the shots
16 were fired within the car and they both just
17 disappeared and you had Michael in focus, did you
18 ever at any time fire with his back facing you?

19 **A** No, I did not.

20 : When you asked him to
21 halt, and he turned around and he, you know, stopped
22 running, at any point did you ever think that okay,
23 maybe he don't have a gun, I need to stop shooting?

24 **A** When he was running towards me?

25 : Throughout the whole

1 process. You're in the car and someone, you're
2 struggling, tugging back and forth, did you ever
3 think that he had a gun right then and there, he
4 could have used it at any time?

5 **A** I wasn't thinking about that at that time.
6 I was thinking about defending myself whenever he
7 was hitting me in the car.

8 MS. ALIZADEH:

9 : . So kind of going
10 go on that as well. So the comment that you made to
11 your supervisor Sergeant when he got there at
12 the scene was that he went for my gun, I had to
13 shoot him. I think that kind of goes along with
14 that. Because I think when I hear someone say he
15 went for my gun, if I literally take that comment, I
16 would assume that someone literally went to your
17 holster and tried to pull it out. Either
18 unholstering it or literally taking it from you.

19 And in this instance that was not the
20 case. You had already unholstered and you were
21 aiming at him. He essentially in his, your point of
22 view and the point of view of who we can no longer
23 obtain that, he deflected or pushed it towards you,
24 but he did not at any point try to pull it from your
25 holster is, I guess, my question?

1 **A** He didn't pull it from my holster, but
2 whenever it was visible to him, he then took
3 complete control of it.

4 MS. ALIZADEH: I can't hear you, sorry.

5 **A** Whenever, he didn't pull it from my
6 holster, but whenever it was displayed to him, he
7 did take complete control. Because he had twisted
8 it around so my hand was no longer this way, it was
9 bent this way and it was dug into my hip. He had
10 complete control of that weapon at that time.

11 Was your hand, I'm sorry,
12 was your hand still on it and finger on the
13 trigger?

14 **A** Yes, ma'am, or yes, sir.

15 : I wouldn't say he had
16 complete control, I would say he had some control.

17 **A** He was controlling where it went, how it
18 went there and his finger was in the process of
19 going on the trigger with mine.

20 Okay.

21 **A** I could feel his fingertips on my trigger
22 finger trying to get in the trigger guard.

23 Okay. When I just hear
24 the word complete control, I think it is entirely in
25 his possession and none of yours, that's the way I

1 feel is complete control.

2 **A** Okay.

3 MS. ALIZADEH: Anyone else have any other
4 questions?

5 : . What's
6 the chain of command at the Ferguson Police
7 Department from chief down?

8 **A** Chief down would be chief, the assistant
9 chief and then we have for the patrol side, I
10 believe, our captain's next, the assistant chief
11 just started a week before this happened. I don't
12 know what was really ironed out between them two.
13 After the captain, it is a lieutenant, sergeant,
14 patrolman.

15 : I keep hearing this name,
16 Lieutenant ?

17 **A**

18 MS. ALIZADEH:

19 :

20 **A** He is the assistant chief, lieutenant
21 colonel.

22 Okay, thank you.

23 **A** You're welcome.

24 : One more question,
25 When you got back to the police

1 department, after you washed off and everything, did
2 you ever think at what time that I need to write a
3 report while it is fresh on my mind?

4 **A** No. The protocol is whenever you are
5 involved in a significant use of force, that you
6 contact your FOP representative and then he will
7 advise you of what to do step by step because they
8 are the clear head in that situation. They have not
9 been through a traumatic experience.

10 MS. ALIZADEH: And I guess to be fair
11 about this, any time any law enforcement officer has
12 asked to speak to you, you have willingly and
13 voluntarily come in and been interviewed and
14 answered all their questions, is that fair to say?

15 **A** Yes, ma'am.

16 MS. ALIZADEH: And you've never been back
17 working at Ferguson Police Department since this
18 happened, correct?

19 **A** No, I have not.

20 MS. ALIZADEH: Did you, I mean, for your
21 own sake, did you like write down in a diary what
22 happened, I mean, not a diary or I guess a grown man
23 would call it a journal, but you know, have you ever
24 like, did you afterwards, you know, write this out
25 for your own, you know, therapeutic needs?

1 **A** My statement has been written for my
2 attorney.

3 MS. ALIZADEH: Okay. And that's between
4 you and your attorney then?

5 **A** Correct.

6 MS. ALIZADEH: Okay.

7 **A** The department has not asked me for
8 anything.

9 MS. ALIZADEH: So no one has asked you to
10 write out a statement.

11 **A** No, they haven't.

12 MS. ALIZADEH: You didn't just on your own
13 decide I want to write this down while it is all
14 fresh in my mind, you didn't do that yourself?

15 **A** No.

16 MS. ALIZADEH: This happens in the matter
17 of how many minutes or seconds by the time that you
18 saw them walking down the street until Michael Brown
19 is dead in the street?

20 **A** I would say less than one minute.

21 MS. ALIZADEH: Less than one minute?

22 **A** Uh-huh.

23 MS. ALIZADEH: Now, you know, I know
24 you've probably thought about this every day since
25 it's happened, would that be fair to say?

1 **A** Yes.

2 MS. ALIZADEH: Replayed this in your mind
3 over and over again?

4 **A** Yes.

5 MS. ALIZADEH: And do you think that after
6 having really thought about this over time and
7 basically you've had to tell this scenario a few
8 times, do you think that if there are additional
9 details that you may not give initially, do you
10 think that's because you're just now remembering
11 them because you are putting so much thought into
12 what happened or do you think that is things that
13 maybe you kind of imagined happened, but didn't
14 really happen, you understand my question?

15 **A** Yeah, just from what I have been told
16 about the incident originally, is that you are
17 supposed to have 72 hours before you are actually
18 officially interviewed, recorded statement and all
19 of that. You tend to remember more through a couple
20 sleep cycles then what you do as soon as it happens.
21 It is a traumatic event, a lot of details kind of
22 come as one detail. I mean, from what I understand,
23 there hasn't been really anything significant that's
24 changed.

25 MS. ALIZADEH: So you think that when you

1 were testifying today you said you kind of thought,
2 had a thought process. As this chaotic scene is
3 unfolding, do you recall actually in your mind
4 processing this in the way you've described or is it
5 all just reactionary?

6 **A** No, I remember actually, I picture a use
7 of force triangle in my head when this first
8 happened and I was going through the progression of
9 what I could do as far as the use of force continuum
10 is concerned.

11 MS. ALIZADEH: That is something you
12 learned in the police academy then?

13 **A** Yes, ma'am.

14 MS. ALIZADEH: And you recall actually
15 thinking that as this assault is occurring?

16 **A** Yes.

17 MS. WHIRLEY: At what point did the use of
18 triangle --

19 MS. ALIZADEH: Use of force triangle.

20 MS. WHIRLEY: Use of force triangle come
21 into your head, what was going on when you start
22 seeing the triangle?

23 **A** Whenever I first start considering the
24 spray, the taser.

25 MS. WHIRLEY: What was going on though?

24 Just a couple
25 questions actually. The first one, we have heard a

1 lot of scenarios and witnesses involved and their
2 timelines and activity. Anyway, we have heard a
3 little bit about what you did that morning when you
4 were on duty. The day before, typical shift, were
5 you off that day?

6 **A** On Friday?

7 : On August 8th?

8 **A** I don't remember anything significant. I
9 did work that day, but I don't remember anything
10 significant.

11 : You said you did not work
12 that day?

13 **A** I did work that day.

14 : Like 6:30 a.m. to
15 6:30 p.m. shift?

16 **A** Yes.

17 Get a good night's sleep?

18 **A** From what I remember, yes.

19 : Okay. 6 to 8 hours?

20 **A** Yes.

21 : Felt rested, ready to go
22 the next day. Just had to ask, curious. And then
23 following the actual incident, you are back in your
24 supervisor's car driving back to Ferguson Police
25 Department. How far is that roughly from the crime

1 scene, the police department?

2 **A** Mile and a half, 2 miles.

3 : So very short trip?

4 **A** Yeah.

5 And that was my thought
6 too, but being in communication, I think, you know,
7 in that situation, my first thought is to contact a
8 loved one and say, I can't believe what just
9 happened and that was my thought. If there was any
10 sort of communication from that point moving forward
11 on a personal cell phone or anything else?

12 **A** No.

13 : So none whatsoever until
14 you saw the officer at the Ferguson Police
15 Department?

16 **A** Yes.

17 : Thank you.

18 : . Last
19 question.

20 MS. ALIZADEH: It just left your head.

21 : I have it. I'm trying to
22 word it. Dorian, did you ever tell the police chief
23 or any of the other officers that there was another
24 person with him, did you ever try to look for
25 Dorian?

Page 278

1 **A** No, I haven't talked to the chief or
2 anybody at the department in length about what
3 happened. I told my sergeant what happened at that
4 time, that was the end of our conversations with
5 anybody from the department.

6 . This kind
7 of dovetails with her questions about Dorian. I
8 understand that you did an interview August 28th
9 with FBI agent; is that correct?

10 **A** Yes.

11 Okay. At which time, I
12 hope I'm getting this correct, I believe that there
13 was, did they present to you a photo lineup of
14 suspects or whatever?

15 **A** The Department of Justice did not.

16 : The Department of Justice
17 did not, what about the FBI?

18 **A** No.

19 : No one did at that time.

20 MS. ALIZADEH: I think you might be
21 thinking of the officer, Detective

22

23 Was that whose evidence?

24 MS. ALIZADEH: I believe so.

25 Okay. That would have

1 been on the date of, did they give you a photo
2 lineup, Detective

3 **A** I think it was the 10th, I think is when I
4 did the follow-up interview with _____,
5 both detectives.

6 : , okay.

7 And that would be right?

8 **A** Yes.

9 : Okay. And they gave you a
10 photo lineup of, I think, eight characters or
11 whatever?

12 **A** Yes.

13 Okay. And you were
14 required or they asked you to pick out Dorian
15 Johnson at that time?

16 **A** Yes.

17 Were you able to pick him
18 out at that time?

19 **A** I selected who I believe was Dorian
20 Johnson, they never confirmed if it was or not.

21 They never did, okay. You
22 don't know the results of that?

23 **A** No, I do not.

24 Okay, thank you.

25 MS. ALIZADEH: Just to be clear, you're

1 not in any way, are you?

2 **A** No, I'm not.

3 MS. ALIZADEH: Prior to this incident, had
4 you ever had any contact with any of the county
5 detectives that you've met throughout this
6 investigation?

7 **A** No, I have not.

8 **Q** Any of the agents, FBI agents or federal
9 agents involved in their investigation?

10 **A** No, I have not.

11 You felt like
12 your life was in jeopardy when you were sitting in
13 the vehicle?

14 **A** Yes.

15 You felt like when you
16 exited the vehicle and the interaction with Michael
17 Brown, he was advancing towards you, you felt like
18 your life was in jeopardy?

19 **A** Yes.

20 : And use of deadly force
21 was justified at that point in your opinion?

22 **A** Yes.

23 MS. ALIZADEH: Sheila?

24 MS. WHIRLEY: I was just going, if we are
25 sort of done with your questioning, is there

1 something that we have not asked you that you want
2 us to know or you think it is important for the
3 jurors to consider regarding this incident?

4 **A** One thing you guys haven't asked that has
5 been asked of me in other interviews is, was he a
6 threat, was Michael Brown a threat when he was
7 running away. People asked why would you chase him
8 if he was running away now.

9 I had already called for assistance.
10 If someone arrives and sees him running, another
11 officer and goes around the back half of the
12 apartment complexes and tries to stop him, what
13 would stop him from doing what he just did to me to
14 him or worse, knowing he has already done it to one
15 cop. And that was, he still posed a threat, not
16 only to me, to anybody else that confronted him.

17 MS. WHIRLEY: Any questions?

18 : . Along those
19 lines, you feel like as a police officer it is your
20 obligation to follow that suspect?

21 **A** Yes, sir.

22 MS. ALIZADEH: All right. If that's it
23 then.

24 (End of the testimony of and
25 the testimony for September 26, 2014.)

6

I,

a Licensed Certified Court

7

Reporter by the Supreme Court in and for the State

8

of Missouri, duly commissioned, qualified and

9

authorized to administer oaths and to certify to

10

depositions, do hereby certify that pursuant to

11

Notice in the civil cause now pending and

12

undetermined in the County of St. Louis, State of

13

Missouri.

14

The said witness, being of sound mind and being

15

by the grand jury first carefully examined and duly

16

cautioned and sworn to testify to the truth, the

17

whole truth, and nothing but the truth in the case

18

aforesaid, thereupon testified as is shown in the

19

foregoing transcript, said testimony being by me

20

reported in shorthand and caused to be transcribed

21

into typewriting, and that the foregoing page

22

correctly sets forth the testimony of the

23

aforementioned witness, together with the questions

24

propounded by counsel and grand jurors thereto, and

25

is in all respects a full, true, correct and

1 complete transcript of the questions propounded to
2 and the answers given by said witness.

3 I further certify that the foregoing pages
4 contain a true and accurate reproduction of the
5 proceedings.

6 I further certify that I am not of counsel or
7 attorney for either of the parties to said suit, not
8 related to nor interested in any of the parties or
9 their attorneys.

1 GRAND JURY HEARING

2 : On Officer Darren

3 Wilson's testimony he mentioned in the physical
4 layout that Mr. Brown ran almost to a light pole
5 before he turned around. Do we have a diagram with
6 that light pole on it?

7 MS. ALIZADEH: I will have to look and see
8 if it is included in the diagram. I'm sure there
9 are pictures and videos that you will see, be able
10 to see the light pole in those images and then if
11 necessary, when we have a witness who is familiar
12 with the scene, if need be, we could have them using
13 our diagram, which has already been in evidence
14 point out to you where the light pole exactly is.

15 : All right, very good.

16 MS. ALIZADEH: Good morning.

17 (All jurors say good morning.)

18 MS. ALIZADEH: This is Kathi Alizadeh with
19 the prosecutor's office, present is Sheila Whirley
20 with the prosecutor's office, all 12 grand jurors
21 are present today, it is September 23rd, as well as
22 the court reporter or the stenographer who is taking
23 down what is being said. We are also recording,
24 audio recording, that's happening in the grand jury
25 right now.

1 I wanted to make some preliminary remarks.
2 Now is the, in the next couple of days and a few
3 weeks, I suppose, we are going to be hearing
4 testimony from some people say that they are
5 eyewitnesses of parts of this incident. And many of
6 them have already had, been interviewed, all of them
7 have been interviewed by law enforcement at some
8 point. And as far as I can think of, almost all of
9 them have been recorded by law enforcement as far as
10 their interviews.

11 As you know, we are recording, audio
12 recording everything that's being said as well as
13 taking down by court stenographer everything that is
14 being said.

15 That is an extraordinary thing that in my
16 experience, we've never done before. And, you know,
17 the proceedings in the grand jury are historically,
18 have been secret and people who appear before the
19 grand jury are testifying in secret and it is
20 usually not disclosed that they testified or what
21 they said. But in the interest of the public's need
22 to know that this investigation is thorough and
23 fair, my boss, Robert McCulloch, has decided to do
24 this extraordinary thing, which is to record
25 everything. And if there is sometime down the road

1 if there is ever an issue as to whether or not this
2 investigation was thorough and fair, we will have
3 those recordings to show exactly what was done.

4 But as you can imagine, there are
5 witnesses who are very uncomfortable who have
6 information and are willing to come forward, but do
7 not want their names disclosed on the record or
8 where they live or, you know, their birthdate, any
9 identifying information about them and that's
10 understandable given what, you know, has happened in
11 our community in the past month about, you know, the
12 public's reaction to the incident and the
13 investigation into this.

14 And so because our goal is to get as much
15 information as possible so that you can decide the
16 facts in this case, we have decided that witnesses
17 who do not want their name or identifying
18 information about them to be on the record, we are
19 not going to put that on the record.

20 What we are going to do is when that
21 witness comes forward, he will be sworn, he or she
22 will be sworn, and then the court reporter will not
23 activate the audio recording initially. That
24 witness will then identify themselves to you by
25 their name and where they live, although I told them

1 I'm not going to ask them for an address, mainly
2 just south county, you know, I live in the Ferguson
3 area, I live in north county, or what have you.

4 And then those witnesses will be referred
5 to, once they've given that identifying information,
6 then I will have the court reporter start the audio
7 recording at that point. So their testimony will
8 still be recorded and the court reporter will
9 transcribe their testimony, but they will be
10 referred to by myself and in the court reporters
11 record by witness number.

12 Last night I made a list of every witness
13 who has appeared before you so far and just for the
14 sake of the record, we're just going to go
15 chronologically with the live witnesses as they've
16 testified.

17 So if you recall who was the
18 investigator with the Medical Examiner's Office, he
19 was witness number one. Number two was Detective

20 Number three was , although
21 will have to come back because we had to cut
22 him his testimony short, if you recall.

23 Number four was Dr. , the medical
24 examiner. Number five, . Number six
25 was Sergeant with the Ferguson Police

1 Department. Number seven, Detective
2 with the County Police Department. Number eight was
3 Special Agent with the FBI and finally
4 number nine, last week, was Darren Wilson, the
5 Ferguson police officer.

6 So we will continue to call witnesses and
7 give them a number so that if they do not want to be
8 identified on the record we will refer to them as
9 witness number 12, 15, you know, what have you.

10 Um, we are not going to do that for
11 witnesses who have been on the media because those
12 people have chosen to put themselves out there in
13 the public eye, they've identified themselves by
14 name, they're on TV, so those witnesses will, their
15 names will be on the record. I'll ask them their
16 name and, you know, where they live and in the
17 general vicinity where they live.

18 The other issue is that because we are
19 going to be playing recorded statements that these
20 people have made, and many, in fact, most of these
21 recorded statements, the statements begin with the
22 witness giving their name, their date of birth,
23 their social security number, their address and
24 sometimes, you know their cell phone numbers.

25 And, again, I believe that probably in the

1 case of every witness, that information probably
2 should not be made public. I think it is okay for
3 the witnesses who have been on the news for their
4 names to be out there, but probably not their social
5 security numbers and their exact address and cell
6 phone numbers.

7 So for that reason, when we begin playing
8 a recording of a witness' statement, I will have the
9 court reporter turn off the audio recorder in here.
10 The statements are, they're already on disc, they
11 are marked as exhibits, so we have those statements.

12 I will make a record that I'm playing
13 Grand Jury Exhibit, you know, so and so. I'm
14 playing the statement of Witness Number 12, who off
15 the record was identified by us as, you know, by
16 name and so then we will stop the audio recording to
17 play the audio interview that is on disc.

18 In most of these cases we also have
19 transcripts of the recordings that we will pass out
20 to you and then the court reporter will also have a
21 transcript so he can, that will assist him in taking
22 down what's being said, but he will also be
23 instructed, you are instructed that at some point
24 we're going to have to redact that information from
25 the transcript. You and I can discuss that later,

1 but you know, the whole purpose of this is so that
2 we can, you know, keep people, people's private
3 information private. And in the case of people who
4 don't want to be identified for fear of
5 reattribution, we need to keep them, I guess,
6 unidentified, at least on the record.

7 Does anybody have any questions about that
8 process is or how we are going to do that? We're
9 going to kind of have to work out kinks as we go
10 because I had a discussion at length with other
11 people in my office last night about how we were
12 going to go about doing this. So we're going to see
13 how it goes, I guess.

14 : So, for
15 instance, these witnesses who are being identified
16 for us at least, does that mean if this were to go
17 to trial that they would not appear, only this
18 portion would then be presented in a trial or they
19 may potentially be required to present themselves?

20 MS. ALIZADEH: If this matter were to go
21 to trial, I mean, first of all, it is not something
22 that you should all really worry about too much.
23 Your job is not, I don't want you guys thinking
24 about what is going to happen after you all make
25 your decision. You can't be affected by that.

1 But in the constitution, everybody who is
2 in trial has the right to confront and cross-examine
3 witnesses who give testimony against them. So, you
4 know, the constitution will not allow us to put on,
5 you know, unidentified witnesses.

6 I know you probably have all seen on
7 television when there are proceedings televised,
8 they will black out the witness' face, but that is
9 just for television.

10 In a courtroom setting, that witness' face
11 is not blurred, obviously. So you will understand
12 that that's not something that you have to, I mean,
13 that's not a part of your decision process.

14 Whatever happens after this, we will deal
15 with it, whatever happens, but for now, this is how
16 we are going to proceed.

17 : So when
18 we get to the end of everything, all the
19 proceedings, these audios that we are doing, they
20 will be made public?

21 MS. ALIZADEH: That is a decision that we
22 have to wait and see. My boss, Mr. McCulloch, has
23 made a public statement about his intentions.
24 Obviously, if this case, you know, that I can't say
25 for sure. I know he has made public statements at

1 some point this all will be released. But when, I
2 cannot say and again, that's one of the reasons why
3 you all are referring to yourselves by juror number.
4 Your identities will never be disclosed. So that's
5 how we are trying to handle this.

6 Does anybody else have any other questions
7 about the process?

8 And, I hate to ask you, you
9 normally don't ask questions. You understand what I
10 was trying to explain about the process?

11 I will give you one later when you are
12 actually doing your transcript.

13 Any other questions?

14 So our first witness of the day is not
15 here yet, but we are going to go ahead and start
16 playing discs that we have that are statements that
17 he has made previously. But what you are going to
18 hear, and I hope he's just running late, but the
19 first witness of the day, our plans were to call
20 , and he is not here.

21 So we're going to keep going. The first
22 disc that you are going to hear is labeled as Grand
23 Jury Exhibit 22.

24 (Grand Jury Exhibit Number 22
25 marked for identification.)

1 MS. ALIZADEH: And it is a disc that
2 contains video and audio of the media statements
3 that has made in interviews and on the
4 television.

5 MS. WHIRLEY: I have no idea how loud it
6 is.

7 MS. ALIZADEH: Because is
8 identified, we're not going to shut off the audio
9 recording because these are media statements that
10 he's already made.

11 (Playing the recorded statements.)

12 MS. WHIRLEY: You understand we didn't
13 want his commentary.

14 (Playing the recorded statements.)

15 (End of the recording.)

16 MS. ALIZADEH: The next exhibit is Grand
17 Jury Exhibit Number 17. You have already heard
18 other statements that are contained on this disc.
19 It is a CD that has a number of witness statements
20 on it and I have a transcript that is going to be
21 passed out to you all.

22

23

24 MS. ALIZADEH: Yes.

25 : What date was

1 interview?

2 MS. WHIRLEY: ? Okay. We have her
3 scheduled as a witness.

4 : I'm talking about her
5 audio?

6 MS WHIRLEY: This is
7 We heard ,
8 when did they actually interview her?

9 MS. WHIRLEY: She's going to be a witness
10 for us today.

11 MS. ALIZADEH: Are you asking when was her
12 television interview?

13 : Yes, ma'am.

14 MS. ALIZADEH: I don't know, I will have
15 to find that out for you.

16 MS. WHIRLEY: We will be playing your
17 interview for her today too. We will get all of
18 those questions answered.

19 MS. ALIZADEH: Has everybody got the
20 transcript passed around yet?

21 And, again, if you will put your juror
22 number on that in the corner and keep that with the
23 materials and make notes on it if you feel you need
24 to.

25 Just so you know, this is one of three

1 statements that made to County Police.

2 So this is referred to just on the disc as

3 Interview Number 1, is that what it says?

4 MS. WHIRLEY: Yeah

5 MS. ALIZADEH: We will play Interview

6 Number 1.

7 (Playing Interview Number 1.)

8 DETECTIVE Today's date is

9 Saturday, August 9th, 2014. The time is

10 approximately 4:40 p.m. My name is Detective

11 , St. Louis County Police Department,

12 . This interview is in reference to an officer

13 involved shooting resulting in a fatality referenced

14 under St. Louis County Police Report Number

15 14-43984.

16 The person being interviewed is

17 date of birth, (redacted)

18 : Ahh, (redacted).

19 DETECTIVE Okay. (Redacted).

20 , we spoke, um, prior to this recording

21 about what you witnessed outside. Can you kinda of

22 tell me in own words what you saw?

23 : Okay. I was in the

24 bedroom, and I hear an altercation outside. I

25 happens to look out the window and I see, um, the

1 young guy was at the Ferguson police car on the
2 passenger window. And I see something exchanged,
3 some arms exchanged and that's when I call my
4 fiancée for her to look out the window and, um,
5 that's when I ran into the front outside, and that
6 when, um, I see, actually, it was two guys.

7 Um, when, but the guy, he constantly, he
8 just ran down in the middle of the street and the
9 officer just gets out the car and shoots.

10 I thought it was six times. So, um, when
11 he, when he hit, I guess when he hit the first and
12 the second time, the guy, he kinda stopped and
13 turned around facing the officer, uh, bent down a
14 little bit curled up, and the officer let out, what,
15 three, maybe four more shots to the guy and that's
16 when he hit the ground and, um, and that was it and
17 that was the whole thing.

18 And he actually had a friend, he, I don't
19 know, I just seen him duck down, a car, um, they had
20 a car door open, it was a white car, um, he hopped
21 in, I guess those two cars left.

22 DETECTIVE Okay.

23 : But that's the whole scene
24 right there, the officer still had his gun out
25 telling everybody to back-back, the ones that was

1 outside and that was that and you guys called too.

2 DETECTIVE : Okay, um, these, this
3 other guy who was by the officer's car, can you
4 describe him?

5 : Ahh, you know, the only thing
6 that I could say that he may have, I definitely know
7 that he was black, um, he had dreads.

8 DETECTIVE : Okay.

9 But I can't even describe what
10 he had on because everything was happening so quick,
11 cause something happens here almost every weekend.

12 DETECTIVE : Gotcha.

13 : So, um, yeah, that's it.

14 DETECTIVE : Okay. That will
15 conclude the interview. The time is approximately
16 4:43 p.m.

17 MS. ALIZADEH: Okay. So I know I talked
18 about not recording the audio statement because he
19 did state his date of birth and address, we will
20 have to deal with that and see if that can be
21 somehow redacted. For this next statement he makes,
22 I'm going to go ahead and let that be recorded
23 because he doesn't make any other statements as to,
24 you know, personal information. So I will, we'll go
25 ahead and audio record the playing of

1 's Interview Number 2, but we will stop the
2 recording for 's Interview Number 3
3 because that does, in fact, disclose more
4 identifying information, so.

5 Again, this is Grand Jury Exhibit Number
6 17, Number 2.

7 DETECTIVE Today's date is
8 Saturday August 9th, 2014. The time is
9 approximately 4:45 p.m. This is Detective
10 . This is a second interview with
11 witness . Uh, you said you
12 had approached me, or approached me and said you had
13 something you wanted to add to your statement; is
14 that correct?

15 : Yeah. Um, the only thing is
16 um, when I was at the window, when I saw the
17 altercation, the guy ran. I heard the shooting,
18 that's when I saw the cop gets out of the car just
19 when I was still --

20 DETECTIVE : Did you say you heard
21 shots first?

22 : Yeah, I heard the shots first.

23 DETECTIVE : Okay.

24 : I was still at the window.

25 That's when he got, got out of the car and I heard

1 the shots. That's what drew me to outside so I
2 could see what's going on.

3 DETECTIVE : Uh-huh.

4 : And, uh, I guess the guy did
5 get hit cause he turned around back towards facing
6 the cop, kinda walking back towards him slow, curled
7 up and he let go three, four shots back at him.

8 DETECTIVE Okay. Say that for me,
9 he turned around, he started what, curled over and
10 started walking --

11 : Yeah, yeah, yeah, yeah.

12 DETECTIVE -- towards the officer?

13 : Well, yeah, like he was hit
14 and he shot him three or four times and that's when
15 he hit the ground.

16 DETECTIVE Okay. So when you're
17 in the -- in the, just so I can clarify, when you're
18 in your bedroom window, the officer's still in the
19 car?

20 : No, no, he wasn't there, he
21 hopped out then. He hopped out after when the guy
22 ran from his window.

23 DETECTIVE Okay.

24 : So he ran from where the
25 altercation was.

1 DETECTIVE When did you hear the
2 first two gunshots, you said you heard some
3 gunshots?

4 I was, I was in the window.

5 DETECTIVE : And where was the
6 officer at that point?

7 : That he was still in the car.
8 That's when I saw the altercation, whatever was
9 happening --

10 DETECTIVE In the car?

11 And the guys ran.

12 DETECTIVE Okay.

13 : And that's when he immediately
14 hopped out the car and did his first two shots.

15 DETECTIVE : Okay.

16 : And that's when, okay, okay, I
17 need to go outside.

18 DETECTIVE : Gotcha.

19 : That's when I went outside and
20 obviously he got hit and he was curled up and he
21 kinda like walking towards him, just a little bit
22 and then he let go three or four more shots and
23 that's when he hit the ground.

24 DETECTIVE : Okay.

25 : But I was at the window,

1 that's when I did see the, as soon as he ran, he
2 hops out of the car and again starts shooting.

3 DETECTIVE : Okay.

4 : That's it.

5 DETECTIVE : Okay. That'll conclude
6 the interview. The time is 4:47 p.m.

7 (That is the end of Interview Number 2.)

8 MS. ALIZADEH: All right. The next
9 statement we're going to hear is contained on
10 another disc, Grand Juror Number 24.

11 (Grand Jury Exhibit Number 24
12 marked for identification.)

13 MS. ALIZADEH: Which is also a disc that
14 contains numerous recorded statements. The way that
15 my office has been getting these, the officers just
16 put numerous statements on discs. Sometimes they
17 give me discs that have statements on there that I
18 have already had on another disc.

19 So don't, you might see other people's
20 statements when we put this up, but this will be the
21 third interview that the County Police did with
22 and I will pass out transcripts for
23 that. This is a longer interview.

24 And when we get ready to start the audio
25 recording of the interview, if you could then pause

1 the recording that's going on in here.

2 At this time prior to the playing of an
3 audio recorded statement of , which is
4 done on August 13th, 2014. The detective
5 questioning him is Detective And
6 at this time I will ask for to pause the
7 recording of the grand jury.

8 (Recording is stopped at this time.)

9 MS. ALIZADEH: We're not recording, but
10 you can take down what's said other than the fact
11 that we would redact the identifying information
12 from your transcript at some point.

13 So we are not recording, however, we are
14 taking down the statement as it is being played.
15 Sheila, go ahead.

16 (Third recorded statement of
17)

18 DETECTIVE : This is Detective
19 with St. Louis County Police, uh,
20 Bureau Crimes Against Persons, uh, . Uh,
21 also present is Detective
22 St. Louis County Police, uh, Department, Crime
23 Bureau Against Persons.

24 Um, the date is 8/13/2014, it is a
25 Wednesday. The time is 10:27 a.m. The interview is

1 being conducted in the parking lot of DePaul
2 Hospital.

3 Um, the interview is in regards to St.
4 Louis County Report Number 14-43984, which is
5 classified as a homicide.

6 Uh, the person being interviewed is
7 , uh, black male, date of
8 birth, (redacted). Social security number,
9 (redacted). Who resides at (redacted).

10 Uh, he has a cell phone number of
11 (redacted).

12 Um, , do you understand that this
13 interview is being recorded?

14 Yes, I do.

15 DETECTIVE This is being
16 recorded with your permission?

17 DETECTIVE Are you willing to
18 continue with the interview?

19 Yes.

20 DETECTIVE Okay. All right.

21 , um, I know that, uh, one of our detectives
22 has spoken with you, uh, on Saturday, August 9th,
23 uh, on the day of the incident, in -- in regard to
24 what you saw. Um, and basically through, um, some
25 information we received, we -- we -- we felt that

1 there might be some more information that you might
2 have.

3 So we came to reinterview you, and you
4 mentioned to us briefly upstairs that you had a
5 phone, uh, you had recorded a portion of this on
6 your phone; is that correct?

7 : Correct.

8 DETECTIVE : Okay. And, um, the
9 portion that you've recorded, uh, was directly after
10 the shooting; is that correct?

11 : Correct.

12 DETECTIVE : Okay. So, um, that,
13 this phone, this, um, Samsung phone is yours?

14 Yeah.

15 DETECTIVE : And you did the
16 recording?

17 : Uh-huh.

18 DETECTIVE : And, um, that's you
19 talking on the video there, correct?

20 MR. : Correct.

21 DETECTIVE : Okay. So, um, prior
22 to recording, I had you, uh, sign a consent to
23 search form, uh, St. Louis County's, uh, consent to
24 search for your Samsung phone, uh, with video
25 related to the Ferguson incident; is that correct?

1 : Correct.

2 DETECTIVE : Okay. And you did
3 that of your own free will?

4 Yes.

5 DETECTIVE Okay. And
6 understand that all we are looking for on there is
7 items related to the shooting itself?

8 Yes.

9 DETECTIVE Okay. So, um, like
10 I said, since I didn't interview the first time and
11 I have this new information about the phone, if you
12 could just start from the beginning about where you
13 were at in the apartment, um, what you heard or
14 observed, um, and just kind of let, you know, retell
15 us the story, okay?

16 : Okay.

17 DETECTIVE : If you want, you go
18 ahead and hold this so --

19 : Okay. Well, um, Saturday
20 morning, a little bit after 11:30, a friend of mine
21 stops over, wakes me up. Um, I was outside with him
22 for two or three minutes and he decides to leave.
23 So I goes in the house, um, goes back into my
24 bedroom. Like another two, three minutes later I
25 hear an altercation outside. And I looks out the

1 window and I see a guy, Michael Brown, at the driver
2 window of the Ferguson police car.

3 I'm not sure what was exchanged, um,
4 something was definitely going on in the window.
5 So, um, but all of the sudden I see Michael Brown
6 and his friend runs away from the Ferguson police
7 car.

8 DETECTIVE : Let me stop you real
9 quick. Um, while they were at the -- the door
10 there, or while Michael was at the door.

11 : Yes.

12 DETECTIVE Um, what do you
13 think, what did you see there?

14 I, I saw some, some arms going
15 through the window. It might have been Michael
16 Brown's arm, he might have been punching a police
17 officer, or whatever. Something was going on
18 through the window.

19 DETECTIVE : There's some kind of
20 movement, exchange of --

21 : Yeah, some kind of movement,
22 you know.

23 DETECTIVE Something going on
24 there?

25 : Yeah, something was definitely

1 going on.

2 DETECTIVE Okay. Where, at
3 that time that Michael's at the window where is, uh,
4 his buddy at?

5 : The -- the, his buddy was
6 basically in the front of the car on the other side.

7 DETECTIVE : In the front of the
8 police car?

9 Yeah, kind of, but away.

10 DETECTIVE : On the passenger
11 side?

12 : No, no, no, just in the front.
13 In the front like, you know, he ain't even --

14 DETECTIVE So with, using my
15 window, Michael Brown is to my left?

16 Yes in the window and the
17 other guy was in the front --

18 DETECTIVE : So you see him --
19 : -- probably like, away, kind
20 of almost.

21 DETECTIVE How far?

22 : -- like, probably three, four,
23 maybe five feet away from the car.

24 DETECTIVE : So he's five feet
25 from the front quarter panel --

Page 29

1 Yeah.

2 DETECTIVE : -- of the police
3 officer's vehicle?

4 : Yeah. But I'm --

5 DETECTIVE : So towards your
6 apartment basically?

7 : Yeah.

8 DETECTIVE : Okay, all right.

9 So, um, so, like I said, the
10 friend wasn't even, not close as much as Michael
11 Brown was.

12 DETECTIVE Okay.

13 So, uh, like I said, all of
14 the sudden they just immediately runs away from the
15 car.

16 DETECTIVE They both did?

17 They both did.

18 DETECTIVE : Which direction did
19 they go?

20 Uh, the -- Michael Brown just
21 runs back straight.

22 DETECTIVE : Behind the correct?

23 : Yeah, behind the vehicle,

24 running straight down the road as the friend, he

25 just ducks behind the first car that was parked off

1 to the side, which is like a two door Monte Carlo or
2 something.

3 DETECTIVE What color was that?

4 : It was white.

5 DETECTIVE : Okay.

6 : So, um, like I said, the
7 moment they got started running, um, I just see the
8 Ferguson cop just gets out the car and I hear the
9 first four shots, I should say.

10 DETECTIVE : Okay. And -- and
11 when you hear the first four shots, let me know
12 where all three of these guy are at. Where is,
13 where is his buddy, where is his buddy, first of
14 all?

15 : His buddy, his buddy was,
16 about the time he was behind, hiding behind, um,
17 behind the trunk of the car, of the two door white
18 Monte Carlo.

19 DETECTIVE : So, so that's where
20 he's at?

21 : Yeah.

22 DETECTIVE Okay. Where's --
23 Like going around.

24 DETECTIVE : -- the police
25 officer at?

1 : The police officer like, just
2 getting out of the car.

3 DETECTIVE Okay.

4 : Like, just getting out the car
5 and Michael Brown is already probably like
6 25 feet --

7 DETECTIVE : Down the road?

8 : -- down the road.

9 DETECTIVE : Okay.

10 So, um, like I said, he hops
11 out the car, um, the first three, four shots that I
12 noticed that was taken, I, that's when I yelled out
13 to my fiancée, let's go outside cause this, um,
14 somebody, uh, the officer is shooting at somebody.

15 DETECTIVE : Okay. Just hold on
16 real quick. When those first four shots are being
17 taken, where's the officer shooting from and which
18 direction is Michael Brown facing?

19 Michael Brown is facing away
20 from him.

21 DETECTIVE : So he's still
22 running?

23 Yeah, he, uh, he still --

24 DETECTIVE : With his back to the
25 officer?

1 -- yeah, with his back to the
2 officer.

3 DETECTIVE : Okay.

4 And the officer is basically,
5 um -- um, when, like I say, when he's getting out of
6 his car, he is basically walking towards the back as
7 he's shooting.

8 DETECTIVE Okay. So --

9 And I see the friend, I'm
10 still in the window.

11 DETECTIVE : Okay.

12 And I see his friend, uh, like
13 I say, he's ducking for his life, for he runs behind
14 the trunk of the car. But that car, that passenger
15 door was open.

16 DETECTIVE Uh-huh.

17 : You know, so I see, you know,
18 kind of hops in after, um ---

19 DETECTIVE Did he hop in the
20 car?

21 I, obviously, he did. Um,
22 obviously he did because, like I said, um, like the
23 first four shots, the officer was taking big steps
24 going past his car. When he got out of the car --

25 DETECTIVE : Uh-huh.

1 : -- so that's why I noticed
2 that he's not shooting for the other guy because he
3 walked past the white car, shooting.

4 DETECTIVE : But did, but -- but
5 did, did he, what I'm saying though, did you see him
6 get inside the car?

7 Yeah, he did.

8 DETECTIVE : He did get inside
9 the car?

10 : He did, he did, but not like
11 that, like as far as like, um, that was his car,
12 like he just got out of it or something.

13 : No, no, but he had
14 his buddy with the dreadlocks.

15 : Yeah, um --

16 DETECTIVE : He got into the car,
17 the white Monte Carlo?

18 : Yeah, the white Monte Carlo
19 cause the door was open or whatever cause uh --

20 DETECTIVE : Didn't it pull off?
21 Um, I think it pulled off.

22 DETECTIVE : With him in it?

23 : After -- after when, um, uh,
24 when a Ferguson, as a matter of fact, I think it's,
25 it might have been on my phone cause I seen a white

1 car on my phone, but I didn't --

2 DETECTIVE : Okay.

3 : -- I can't see if it's, um --

4 DETECTIVE : All right. So, but

5 you saw this guy get into the car?

6 Yeah, I did see that.

7 DETECTIVE : Okay.

8 : Because the door was open and,

9 I guess, after when he got done shooting, I guess

10 whoever that was driving told him, let's go cause

11 he's afraid for his life --

12 DETECTIVE Okay.

13 -- I'm sure of that, I'm sure

14 of that.

15 DETECTIVE : Okay, all right. So

16 you're positive he got in the car and he left in

17 that car?

18 : Yeah.

19 DETECTIVE Okay, all right. So

20 you're positive he got in the car and he left in

21 that car?

22 : Yeah.

23 DETECTIVE : Okay, all right.

24 Let's go back to the officer and Michael's running

25 down.

1 : Yes.

2 DETECTIVE : The officer has
3 exited his vehicle?

4 Yeah, and --

5 DETECTIVE : He was, and so, um,
6 you said Michael was like 25 feet down the road --

7 Yeah, already.

8 DETECTIVE : -- his back is to
9 the officer --

10 And, um --

11 DETECTIVE : You are, uh --

12 I'm, I'm, I'm --

13 DETECTIVE You're still on the
14 porch, right? Or on the balcony?

15 Yeah, when it, after when he
16 did the first shot, that's when I'm, um, came
17 outside. That's when I'm outside now, but when I
18 came outside, he was already hit. But as far as in
19 --

20 DETECTIVE : Okay. Is, so, I'm
21 sorry, I -- I may be going too fast here, but, um,
22 so when you hear the initial shot, you're upstairs.

23 : Yeah, in the bedroom.

24 DETECTIVE : Okay.

25 : First floor, or three.

1 DETECTIVE Okay. So then,
2 okay, so you heard a shot and then you went outside?
3 : And then I went outside.

4 DETECTIVE : And that's where you
5 saw them kind of doing the --

6 : That's when the, no, no, um,
7 when I saw the first four shots, that's when I
8 yelled out, let's go outside. When I, when I --

9 DETECTIVE I'm sorry, hold on
10 just one second. I need to back up just a little
11 bit because had you heard a shot before you saw them
12 tussling in the car?

13 : No, no, I heard an
14 altercation.

15 DETECTIVE : Okay. You're,
16 that's when you heard that brought you outside
17 initially?

18 No, uh, what brought me
19 outside was the gunshots.

20 DETECTIVE Okay. I'm sorry,
21 I'm, I'm trying to be very clear on this --

22 All right, I gotcha.

23 DETECTIVE : -- is why, which is
24 why I'm, I'm having, so the very first thing that
25 drew your attention was what?

1 : The altercation.

2 DETECTIVE : Okay.

3 : From hearing stuff.

4 DETECTIVE : Okay. So you heard

5 them arguing?

6 : Yeah.

7 DETECTIVE Or some kind of --

8 : Yeah.

9 DETECTIVE : -- exchange of

10 words.

11 : Yeah, yeah, yeah.

12 DETECTIVE : -- is what you hear?

13 What is first thing that you see?

14 : Um, a guy at the window doing

15 something, something.

16 DETECTIVE Okay. Had you heard

17 any gunshots at that point?

18 : No, I didn't. No, I didn't.

19 DETECTIVE : Okay.

20 : But a lot of people saying

21 that they heard a gunshot starting from the inside,

22 but like I said --

23 DETECTIVE : But you didn't hear

24 that?

25 : I, I didn't hear that. I

1 mean, I might heard it if I was outside already.

2 DETECTIVE : Okay.

3 : But it probably --

4 DETECTIVE : I understand. What

5 I'm trying to see --

6 : I gotcha.

7 DETECTIVE : -- what brought you

8 outside.

9 : I gotcha, I gotcha.

10 DETECTIVE So, so let's skip

11 forward to the part where, cause we know where he,

12 we know where the friend was at. We know where he

13 went.

14 : Yeah.

15 DETECTIVE : We know, um, so what

16 I wanna take you back to is to the start the officer

17 gets out of the vehicle.

18 : Uh-huh.

19 DETECTIVE : And starts to go

20 towards the back, Michael is running down the road.

21 Yeah.

22 DETECTIVE : And what is going on

23 there?

24 : Uh, like I said, by the time I

25 got outside, so either --

1 DETECTIVE : So --
2 : -- he must have hit from those
3 first three or four shots.
4 DETECTIVE But that's what I
5 want to talk to you about.
6 : Right.
7 DETECTIVE The -- the first
8 four shots that you're talking about?
9 Uh-huh.
10 DETECTIVE : I want to be very
11 clear on where --
12 Uh-huh.
13 DETECTIVE -- the officer was
14 at.
15 Yeah, um, like I said, he --
16 he was, he was probably just passing the end of his
17 truck.
18 DETECTIVE Oh, so by the rear
19 bumper?
20 : Yeah.
21 DETECTIVE : Driver side quarter
22 panel area?
23 Yeah.
24 DETECTIVE : Okay.
25 : Yeah.

1 DETECTIVE : Okay. So he, uh --
2 you know, has he already fired or he starts firing
3 then?

4 : Nah, he -- he been shot, he
5 been fired, he had been fired like when he got --

6 DETECTIVE : So from the time --
7 : -- he been fired.

8 DETECTIVE : So --
9 : But like, so when he got out
10 the car --

11 DETECTIVE : He start firing as
12 soon as he got --

13 Yeah, cause --

14 DETECTIVE : -- out.
15 -- the, that's how I noticed
16 that, um, uh, that he kept shooting, um, walking
17 past the white car where his friend was.

18 DETECTIVE : Okay, okay. I just
19 want to make sure that --

20 So the four or four shots --

21 DETECTIVE : So the -- the second
22 he exited he started firing at Michael who was
23 running away?

24 Yeah, so it was like pow, pow,
25 pow, pow.

1 DETECTIVE : Okay.
2 : -- like take time and he was
3 also taking big steps stepping out the car, and like
4 I said --
5 DETECTIVE : Okay.
6 : -- and I seen him shooting as
7 he was walking.
8 DETECTIVE : Was he yelling
9 anything?
10 : Uh, yeah, he -- he --
11 DETECTIVE I don't want you
12 speculating.
13 : Yeah, yeah, I -- he --
14 DETECTIVE : Was, I mean, was he
15 yelling anything at all? And, uh, even if you can't
16 think --
17 : You know, I can't even
18 remember -- I can't even remember that.
19 DETECTIVE : You don't know?
20 I can't say, yeah.
21 DETECTIVE : Okay.
22 I can't even remember.
23 DETECTIVE : Okay.
24 : Uh-huh.
25 DETECTIVE : So, um, see as he's

1 running and he's taken, taken his four shots, he is
2 by the rear bumper.

3 Uh-huh.

4 DETECTIVE : What is Michael
5 doing, how is he reacting?

6 Um, like I said, about the
7 time I got outside after, when I told my fiancée
8 let's go outside. From the first shots, I goes
9 outside and that's when I notice that, obviously,
10 he's been hit because now he's facing the cop.

11 DETECTIVE Okay. Now where are
12 you at, though?

13 Now I'm outside.

14 DETECTIVE : All right. do
15 you have a map or no? Okay. You know where the,
16 you know how you're, you're here near this part,
17 right? Are you in that horseshoe section?

18 : Yeah, exactly.

19 DETECTIVE : Okay. So your
20 apartment's where.

21 : Be about probably like,
22 directly in the middle.

23 DETECTIVE : Centered in there?

24 Yeah.

25 DETECTIVE : Okay.

Page 43

1 And this is the street, so --

2 DETECTIVE : And this is about,
3 uh, see, see Michael was down here, right? And the
4 officer's truck was about here or so, or further up?

5 : Yeah.

6 DETECTIVE : Show me.

7 : Let me see, it just about --

8 DETECTIVE Just like, end of
9 each part of the drive.

10 : Right, right, um, it's kind of
11 like, start over and if this is the street.

12 DETECTIVE : Right.

13 : And my window right --

14 DETECTIVE But you --

15 : -- here and, uh, his vehicle
16 is probably right here. Uh, yeah, he is probably
17 about right here.

18 DETECTIVE : That's where Mike's
19 at?

20 : Yeah.

21 DETECTIVE : Okay. Now, show me
22 where --

23 So --

24 DETECTIVE -- where that Monte
25 Carlo was at?

Page 44

1 -- yeah, it was probably about
2 right here. It was two cars actually, a white one
3 and a purple one.

4 DETECTIVE Okay.

5 : So, um, after when I seen
6 that --

7 DETECTIVE Oh, here you go.
8 That's the map of the area.

9 Oh, yeah, yeah, okay, yeah.

10 DETECTIVE : So --

11 : Yeah, so yeah.

12 DETECTIVE : -- is this your
13 building right here?

14 : Um, it is probably, I don't
15 know, the shape's kind of weird. Yeah, I think that
16 is it.

17 DETECTIVE : Okay.

18 : Okay. So, um, so my window
19 right there then, um, yeah, so the car must have
20 been --

21 DETECTIVE Car right there?

22 : -- right there and he must of,
23 his body must have been about right there.

24 DETECTIVE : Okay.

25 : So --

1 DETECTIVE : So, all right, so --
2 : And, um --by.
3 DETECTIVE : -- by that time
4 where are you standing watching this?
5 : Um --
6 DETECTIVE After the first four
7 shots had been fired, where are you at?
8 : I'm outside --
9 DETECTIVE : Where?
10 : -- after the first four, on
11 my, um, balcony, on my balcony.
12 DETECTIVE : You're on the
13 balcony?
14 : Yeah. So, uh-
15 DETECTIVE And did you go
16 downstairs though?
17 Uh, I didn't go downstairs,
18 this is, this was after the tape is up and stuff.
19 DETECTIVE : Okay. So you never
20 went downstairs?
21 : I never went downstairs until
22 afterwards.
23 DETECTIVE Okay, okay. So
24 you're outside now when, after he's fired these
25 first four shots?

1 : Yeah.

2 DETECTIVE Okay. Tell me what

3 happens then?

4 : Um, when I steps outside, um,

5 the guy, obviously, um, he's been hit, cause he

6 curls up and I, but now he -- he's facing the

7 Ferguson, the Ferguson officer and, um --

8 DETECTIVE So when you describe

9 him curling up, show me?

10 : Um, he's uh, he's, like I

11 said, like he's been hit in the stomach.

12 DETECTIVE : He's bent over?

13 : Yeah, kind of like --

14 DETECTIVE : At the waist?

15 : -- yeah, like he's about to

16 fall and fall directly --

17 DETECTIVE Okay.

18 -- on the ground. And, um,

19 but I see him takes like one or two steps, kind of

20 like I said, towards him, you know --

21 DETECTIVE Now --

22 -- now I don't know if that

23 was a help sign, just a little bit.

24 DETECTIVE Okay.

25 : Just a little bit.

1 DETECTIVE : Well, tell me this.

2 Uh-huh.

3 DETECTIVE : Everybody's
4 describing his hands being up.

5 You know what, that now,
6 that's like because when, when, okay. From where my
7 balcony is, it's another building right there. Um,
8 he, where his blood spill at, where he got shot at,
9 he ran past that.

10 DETECTIVE : Uh-huh.

11 : Before he, you know got that

12 --

13 DETECTIVE : How'd he end up
14 coming back?

15 : Yeah, that's why the, that's,
16 I was just, uh, what I'm, what I'm saying, like I
17 said, he must have got hit and he, he probably had
18 his hands up when he got hit.

19 DETECTIVE : Oh, so you're saying
20 that area --

21 : That's why everybody --

22 DETECTIVE -- that area's out

23 --

24 -- keep saying that.

25 DETECTIVE : -- of view?

1 Yeah, uh, quite uh, out of
2 view, but he ran past the, uh, where he got shot at.

3 DETECTIVE : Oh, so you're saying
4 that area --

5 That's why everybody --

6 DETECTIVE : -- that area's out
7 --

8 : -- keep saying that.

9 DETECTIVE : Okay. So the, the
10 part of the area where he got shot with those four?

11 Yeah, he -- he, yeah. Where
12 he died at, he ran past that spot.

13 DETECTIVE And came back to
14 that spot?

15 So obviously, I think when he
16 got hit, that's when he probably raised his hands
17 up, but he's then curled up --

18 DETECTIVE Yeah.

19 -- just walking, took a couple
20 steps back towards him, he probably had one hand up,
21 but he had his hands down here and the officer let
22 out about four more shots and he hit the ground just
23 like how he's laying.

24 DETECTIVE : So you see him bent
25 over.

Page 49

1 Yeah, just like that.

2 DETECTIVE : What I'm saying
3 though is after he's bent over there is another four
4 shots.

5 Yeah, yeah, another four or
6 three shots just like that. And everybody saying
7 like he was already down and the officer let out a
8 shot. I don't know, but I know what I saw, you
9 know, before he hit the ground, he let out four more
10 shots. I don't know, but I know what I saw. So --

11 DETECTIVE : Okay.

12 -- before he hit the ground,
13 he let off four more shots.

14 DETECTIVE : Okay.

15 So I can't remember --

16 DETECTIVE And where he --
17 -- if he said freeze or, or,
18 or said something before he let out the last ones,
19 but I know when he --

20 DETECTIVE : Did you hear Michael
21 say anything before those last four --

22 : No, I didn't, huh-uh.

23 DETECTIVE : Okay.

24 : No.

25 DETECTIVE : So, where he, where

1 he was at in the street, is that where he fell? The
2 -- the, like, nobody moved him?

3 : No, ain't nobody moved him or
4 nothing.

5 DETECTIVE : Okay.

6 : Nothing so, uh --

7 DETECTIVE : Nobody touched his
8 body?

9 Nobody touched him, uh, after,
10 right after that, the officer just stood over it,
11 like 5 feet away from him with his gun on his
12 walkie-talkie thing.

13 DETECTIVE : Okay.

14 : And called the first two or
15 whatever.

16 DETECTIVE : Okay.

17 : And that was it.

18 DETECTIVE : All right. Is there
19 anything that I haven't asked you or that you feel
20 you need to clarify?

21 : Uh, no, that's everything
22 really. Everything that I saw.

23 DETECTIVE Okay.

24 Everything I saw.

25 DETECTIVE : All right. Um, it's

1 uh, 10:43. We're going to go ahead and conclude the
2 interview.

3 (This is the end of the interview
4 Number 3.)

5 MS. ALIZADEH: Okay. We're recording now
6 and we've just finished playing the third statement
7 of that is contained on Grand Jury
8 Exhibit 24.

9 So the final statement of , I
10 shouldn't say final statement, but the fourth
11 statement that we have is a recorded statement that
12 was done by the FBI and I just received the disc of
13 this last night, and so we do not have a transcript
14 of this.

15 So I will ask the court reporter to stop
16 the recording as we begin to play the audio
17 recording of by the FBI because of the
18 identifying information, but I will ask you,
19 if you will as best you can take down the statement
20 and at a later date there is a transcript being
21 prepared of this, so I will get that to you as soon
22 as I can get that, but I do not have a transcript to
23 pass out to you, the grand jurors, okay.

24 So I'm going to give it to Sheila to put
25 in the computer and at this time it is 9:50 a.m. If

1 you can pause the recording and we will begin
2 playing the fourth statement of

3 So we are not recording, but the court
4 reporter is taking down what's being said. Sheila
5 is going to cue up the statement.

6 (This is the recorded statement of
7 Number 4.)

8 All right. Today is
9 September 17th, 2014, at approximately 1:06 p.m. We
10 are here today at the FBI St. Louis Building, 2222
11 Market Street. This is Special Agent ,
12 with USA and the other trial attorney

13 And we are here to interview, and if you
14 could state your name?

15
16 All right. Now, , I
17 just want to explain to you, I know that, I believe,
18 St. Louis County have spoken with you already?

19 Yes.

20 : Okay. I will explain a
21 little bit of a difference of our investigation
22 here.

23 : Uh-huh.

24 : They're doing a homicide
25 investigation, we are doing a civil rights

1 violation.

2 : Okay.

3 : If this officer acted outside
4 of his authority, okay?

5 Okay.

6 And so you're here as a
7 witness voluntary. You, um, you are free if you
8 don't, you can end it at any time, but you are here
9 and you are okay?

10 : Yes.

11 : (Inaudible)

12 : Yes.

13 : Okay. And you are okay with
14 us recording it?

15 Yes, ma'am.

16 Okay. So before we get into
17 the specifics, can I get some basic info from you?

18 : Uh-huh.

19 : Do you have a middle name.

20 : Yes .

21 Okay. Like ?

22 : Yes.

23 Okay. And what's your date
24 of birth?

25 (redacted)

1 (redacted)

2 Yes.

3 : Social security number?

4 (redacted)

5 Can you give me your address?

6 : (redacted)

7 : Okay. And is there a good

8 number if we need to contact you again?

9 : Yes. (redacted)

10 Before we get started, do you

11 have any questions for any of us?

12 : No, not at the moment.

13 : Okay.

14 MS. So I just want to talk a little
15 bit more about coming in.

16 : Uh-huh.

17 MS. I just wanted, um, just some
18 preliminary things.

19 Uh-huh.

20 MS. We want to let you know that it
21 is a crime to lie to the FBI federal agents.

22 MS. Okay. I don't necessarily
23 think that you're going to, but we like to inform
24 everyone of that.

25 : Uh-huh.

1 MS. And like just said, if
2 at any point during the interview you don't want to,
3 you don't want to talk any more, feel free to leave.
4 It is voluntary, I know you came through security
5 and all, you can feel free to say I don't want to
6 talk any more, okay? And you're shaking your head
7 yes.

8 : Yes.

9 MS. It is an oral recording, so all
10 your answers need to be out loud

11 : Yes.

12 MS. So which brings to my next
13 point, if you start nodding or whatever.

14 : I gotcha.

15 MS. And it is totally fine if you
16 nod, we will just try and correct you.

17 I gotcha.

18 MS. If we ask you a question and
19 you answer, we're going to assume you understood the
20 question. So if at any point one of us asked a
21 question that says to you convoluted or confusing,
22 let us know.

23 : Okay.

24 MS. : Our intent is not to confuse
25 you.

1 : Okay.

2 MS. : Our intent is not to get you to
3 answer a certain way.

4 : Okay.

5 MS. : So if you think we are trying
6 to get you to go in a certain direction we are not.
7 Make sure that you answer, what we want is the
8 truth. What we want to do is figure out what
9 happened.

10 So, like I said, our intent is not to lead
11 you in any one direction or the other.

12 All right.

13 MS. : If we state something, it is
14 not the way you told us or we mischaracterize, then
15 let us know.

16 Okay, all right, not a
17 problem.

18 : Okay. If you want to take us
19 through what you were doing on August 9th, 2014.

20 Um, I was at home. I actually
21 just coming back from, um, going out to eat with my
22 family.

23 Okay.

24 And um, come back home about
25 9:00 that morning. We all takes a nap. My fiancée

1 wakes up and she tells me a friend is knocking at my
2 door.

3 I wakes up, which is now 11:00. He comes
4 and, um, I goes outside for a few minutes with him
5 outside or whatever. And he, we went outside for
6 not long, two, three, four or five minutes. So I
7 happen to go back in, he leaves.

8 It is getting what, about 11:45 now, um, I
9 was about to take a nap, and I hear an altercation
10 outside.

11 So I looks outside and, um, I see like
12 some kind of tussling going on in the window.
13 Really not sure if, um, if Mike Brown was punching
14 on him or if the officer was grabbing on him, but
15 something was going on through the window, it just
16 didn't look right. So I glued my eyes to it.

17 And all of the sudden, um, I see, I also
18 see his friend, his friend. Um, he was, he was on
19 the side of the car, he was on the front bumper on
20 the passenger side, maybe 4, 5 feet away from him.
21 And all of the sudden, like I said, they just takes
22 off running.

23 And when they takes off running, I see his
24 friend, he runs behind a two door white car. He's
25 ducking down behind the trunk of the car looking at

1 the officer because he just immediately gets out of
2 his vehicle and just started shooting at Mike Brown.
3 Because he runs down, straight down the middle of
4 the road.

5 And, um, when his friend ran behind the
6 trunk of the car, he was looking at the officer
7 thinking that the officer might cut off and walk to
8 him and shoot him, but obviously, he is just taking
9 like, you know, large steps in a shooting position,
10 shooting directly at Mike Brown, and he walked past
11 his friend.

12 So at that moment right there, that just
13 gave me enough time to run outside because like I
14 said, I thought that he was going for his friend
15 too, so I didn't want to miss that. So that was my
16 time when he walked past that was my time to run
17 outside.

18 By the time I gets to the door, I notice I
19 forgot my phone in the bedroom. So I go back, grab
20 my phone and then I goes back to the front door,
21 which it didn't take long, just seconds.

22 So, um, but about the time I gets outside,
23 I see Mike Brown, he's now facing the officer, kind
24 of, he bent down like he was hit in the stomach. He
25 had both arms wrapped around his stomach and he's

1 bent down like he was going down.

2 So like I said, I thought he was already
3 shot. And, um, before he was going down, the
4 officer lets out four or five more shots. And when
5 he hit the ground, you know, that's when I see blood
6 roll over or whatever.

7 And, um, the next closest I seen the
8 officer, when he hit the ground, the officer, he was
9 at least about 4 or 5 feet away from his body now on
10 his walkie-talkie, still have his gun all over him
11 making his call in. And, um, and that's when my
12 phone started recording maybe like two minutes right
13 after when the first two officers come in.

14 : Okay.

15 : So that my phone cuts on and I
16 started recording.

17 Do you have that with you?

18 Uh, yes, I do.

19 Okay. Um, is it out front.

20 : Yeah.

21 Okay. I'll go grab it real
22 quick.

23 : Okay.

24 : What I want you to do for me,
25 can you circle where your apartment, or kind of make

1 an X where your apartment is. If this is West
2 Florissant and here is Canfield.

3 Oh, okay. So that means,
4 apartment building is this one right here.

5 : Okay. Where is --

6 : You know what, um, no, it
7 actually be right here, this white one, this second
8 one.

9 White one?

10 : Yeah.

11 : Okay. And where in that
12 building is your apartment?

13 : The second floor.

14 : Second floor. Okay, go
15 ahead. Just so it is the second floor. Okay. So I
16 want to go over this in a little bit of detail with
17 you.

18 Okay.

19 So -- oh, thank you. This is
20 your cell phone.

21 : Okay.

22 : You said you were in your
23 bedroom, correct?

24 : Yes.

25 : About to take a nap?

1 : Uh-huh.

2 And you hear a altercation,
3 what did you hear?

4 : Um, just some kind of ruffling
5 going on, I'm not even sure like what words exactly,
6 but it is kind of ruffling, you know.

7 : Okay. And when you said you
8 looked out the window and saw it, where was the car?
9 The vehicle was over here, the
10 vehicle was --

11 You want to draw like a
12 vehicle?

13 : Let me see, there was
14 something right here. His vehicle was in the middle
15 of the street sideways.

16 : Sideways.

17 : Diagonal.

18 Diagonal. And where was the
19 front of the car?

20 : Uh, what, the police vehicle?

21 : Uh-huh, yeah.

22 That's -- the front of the
23 vehicle was like facing, like facing my apartment.

24 Okay.

25 Diagonal like.

1 : Okay.

2 : Like he was coming from this
3 way basically.

4 Okay. So, let me see. So it
5 was facing, let's see, let's go like that, is that
6 fair?

7 Yeah.

8 Okay. So facing this way.
9 Could you see in the front, you said you couldn't
10 tell whether or not he was punching him or whether
11 the officer --

12 : Right, through the window.

13 So could you see them?

14 : Yeah, I could see them.

15 So your view was not
16 obstructed --

17 : Yeah, I could see them
18 clearly.

19 : Did you know it was an
20 officer when you saw it or you just saw two people?

21 : No, I knew it was an officer.

22 : Okay.

23 : You know, still inside of his
24 vehicle and somebody outside the vehicle doing some
25 kind of tussling.

1 : Okay. And then you saw his
2 friend who we know, did you know either Mike
3 Brown --

4 No, no, but I know I seen Mike
5 Brown, uh, in the neighborhood.

6 All right.

7 So, I don't know him.

8 Okay.

9 MR. : Where did you see him?

10 : Just walking with like another
11 little group of people, whatever, just up and down
12 the street over there or something.

13 MR. : Did you ever have occasion
14 to talk to him?

15 : Huh-uh, no, I just, I remember
16 faces, so.

17 MS. Do you know the other people he
18 would be walking in the group with?

19 : Huh-uh, no.

20 Do you remember him because
21 now of all the press or also because of his size,
22 his height?

23 Do I remember his size?

24 Right. Did you take
25 particular notice of him or?

1 : No, just like his clothes and,
2 um, that he was kind of like a buffer guy, because I
3 know I'm slim.

4 : Uh-huh.

5 : So, um, I just knew he was
6 kind of a little bit buffer, you know.

7 Okay.

8 : Kind of a little chubby like,
9 so.

10 Okay. So you see tussling
11 and at this point when you see the two, whether,
12 some -- some sort of altercation.

13 Uh-huh.

14 At what point do you notice
15 his friend, Dorian?

16 : Um, his friend Dorian, he was
17 clear, I could see him too. Like I said, he was in
18 front of the passenger side vehicle, not too close,
19 like 4 feet away or whatever.

20 Uh-huh.

21 So, yeah, at that time that's
22 when I looked out the window and see that going on.

23 : Okay.

24 : While his friend was still in
25 the front and was down by the window.

1 Did you hear anything? You
2 said you heard tussling.

3 Yeah, just tussling, you know,
4 not even a certain word, not even a certain word.

5 Okay.

6 MR. : Did you hear voices?

7 : Yeah.

8 MR. : One voice or two?

9 : Um, maybe two. Like I said, I
10 just, just like some real tussling though. Even
11 thought I was hearing lots of noises, maybe like
12 hitting the door, you know. Something that just got
13 my attention, but not certain words.

14 : How much, you said you saw
15 them.

16 : Uh-huh.

17 Did you see who necessarily
18 was the initiator? Could you see where their bodies
19 were positioned?

20 : Um, was positioned? Um, let
21 me see, uh, his friend, he was facing the officer's
22 vehicle.

23 Okay.

24 Where he was standing. Like I
25 said, Mike Brown was definitely standing on the

1 driver's side window.

2 Okay.

3 : You know, facing the officer.

4 Okay. And you're saying they
5 were -- as far as him and the officer.

6 Uh-huh.

7 You said they are tussling,
8 how close, could you see how close in contact they
9 were?

10 Um, there was definitely close
11 enough. Um, there was definitely close enough so, I
12 just figured that Mike Brown, he could, I don't
13 think that he was to like real up on the passenger
14 door, it was just a little bit of space and I could
15 just see something going on roughly through the
16 window.

17 MS. : And just because the recording,
18 you are kind of making like a fist punching back and
19 forth motions; is that right?

20 Uh-huh.

21 MS. : Yes? You say uh-huh.

22 Yeah, yeah, yeah, I mean, just
23 yeah.

24 MS. : Okay. So what I'm going to ask
25 you, you know, uh, the cell phone video that you

1 gave to St. Louis County, is that the same cell
2 phone video that you referred to before that is on
3 your phone?

4 : Yeah, um, the one I have when
5 he walked off and came back into the picture, the
6 same one, yes.

7 MS. : So in that video, the very
8 first thing that you say, you are kind of, you
9 remember you are talking while you are videoing?
10 : Uh-huh.

11 MS. : Okay. So one of the very first
12 things that you say, that you said that the guy, the
13 black guy just ran, ran up to the car and was
14 punching on it.

15 Yeah.

16 MS. : You said, the dude ran on the
17 side, um, you talking about the other one ran to the
18 Monte Carlo, then he went back to the first guy.
19 You said, the dude was all up in his car, you said
20 up in his shit punching on him.

21 Yeah, that's what I assume
22 because, um, younger people like that, I think that,
23 you know, that don't want to go to jail, you know,
24 just being young. So, you know, I assume a person
25 like that will be punching an officer to get away or

1 something like that.

2 MS. Okay.

3 : So I automatically assume that
4 was going on.

5 MS. And that's fine, I just want to
6 get to what you observed.

7 : Yeah.

8 MS. : So you saw this punching motion
9 like you just made; is that correct?

10 : Yeah, but I mean, that's not
11 exactly what I saw, that is just, you know because I
12 just seen arms, you know, going through the windows.

13 MS. Okay.

14 : The officer maybe had his arm.

15 MS. : You said the officer maybe,
16 right?

17 The officer maybe, yeah, yeah,
18 it's a big maybe.

19 MS. Okay. So we are 100% right,
20 when you-- you're letting us know when you're
21 assuming versus what you saw, and that's exactly
22 what we want you to do. But I'm going to try just
23 to get a little detail. If you don't know something
24 or don't remember, that's perfectly acceptable.

25 Okay.

1 MS. : I don't want you to think that,
2 you know, I'm trying to get you to say something you
3 don't know. But I'm just trying to because I wasn't
4 there to understand what you saw. So when you first
5 give your interview to St. Louis County you said you
6 saw arms exchanged. What do you mean by that?

7 Um, um, I saw the officer's
8 arms moving also and I saw Mike Brown's arms moving
9 also.

10 MS. : Okay. You saw Mike Brown's
11 arms go through the window.

12 Yeah, obviously, it was.

13 MS. : Okay. I know you said
14 obviously, I want to ask to make sure I understand,
15 okay. Did you actually when you use the expression,
16 you saw the dude was all up in his car and up in his
17 shit, did Mike Brown, did you see Mike Brown
18 actually approach the car?

19 No, that's, that's the part
20 that I just missed.

21 MS. Okay.

22 : So.

23 MS. : So by the time you saw, you saw
24 Mike Brown at the driver's side of the car with his
25 arms through the window; is that correct?

Page 70

1 Yeah.

2 MS. : Okay.

3 MR. : You just then, you also,
4 you've done the kind of moving your arms the way you
5 saw Mike Brown do.

6 : Uh-huh.

7 MR. : You also saw a police
8 officer when you are talking about some arms
9 exchanged, you saw the police officer's arms?
10 : Yeah, it just kind of looked
11 like, it just kind of looked like, like I said, if
12 he's, an officer is in the car, I could just see his
13 arms.

14 MR. : You have your arm bent to
15 kind of a 90 degree angle in front of you?

16 Yeah. So, yeah, if the window
17 is right here, so I mean, that's, you know, that--
18 that's what I seen and I could see Mike Brown. You
19 know, it just, you know, he could be doing anything,
20 I'm not even saying punching. Just something
21 through the window right there.

22 MR. : Just so I'm clear for the
23 tape, did you have, you are talking about the police
24 officer's arms, he is kind of turning and has his
25 arm in front of him in kind of a --

1 : Like this moving.

2 MR. : Okay. Is that fair the way
3 you describe?

4 Yeah, yeah.

5 MR. : Okay. And you have, when
6 you are describing Mike Brown's, you have his arms
7 going back and forth coming --

8 Yeah, just back and forth,
9 just back and forth, tussling.

10 I want to impress upon you
11 something.

12 Uh-huh.

13 : That we have observed and it
14 is throughout the investigation because I feel like
15 you might be a little bit cautious in your, careful
16 with your words in the sense of, we are aware on,
17 the pressure that exist. Are you still living in
18 Canfield?

19 : Yes.

20 So, and I'm sure this is
21 still a big deal. This is going to be a big deal
22 for a very, very long time.

23 Yes, it is, definitely.

24 And you have been on the
25 news, right?

1 : Uh-huh.

2 And you have people come up
3 to you and talk to you about that, people up in the
4 community?

5 Yeah, they, yeah, they seen
6 me, they say they seen me and stuff like that.

7 Okay. I also want you to
8 understand you talking to us today, we don't go tell
9 people we talk to you. It is completely
10 confidential.

11 Uh-huh.

12 We take every precaution to
13 protect your information. So this is not going to
14 be out in the community, this is not going to be
15 told, they're not go to say you snitched or you
16 didn't fight for Mike Brown enough.

17 We need 100 percent honesty and clarity,
18 and we are not going to say, we are not on one side
19 of the other, you know, this isn't for -- for the
20 search for the truth, okay?

21 : Right.

22 So I want you to be confident
23 that you can trust us and trust us to say that we're
24 not going to make, we are not going to skew your
25 testimony, okay?

1 : Okay.

2 : This is it, okay?

3 : Okay.

4 This is what it is.

5 : I understand. Just so you
6 guys know, I am very, very, nervous about everything
7 since, since that day to now.

8 Okay.

9 Just to let you guys know.

10 And that's completely normal to
11 be nervous, nervous to talk to us, nervous in
12 general. Is there anything in particular that you
13 are nervous about more so than others?

14 Um, I'm, um, I have been, I've
15 just been just kind of scared, just kind of scared.
16 Especially, you know, with the interviews. I
17 stopped doing the interviews, I stopped after I did
18 one with --

19 MS. Okay.

20 : -- on a Friday. After that I
21 felt sick, I started worrying.

22 MR. : Why is that?

23 : I don't know, I just started
24 something, like something may happen, you know. I
25 started thinking about, wait a minute, I done did

1 quite a few interviews and I don't have a lawyer and
2 why do everybody else have lawyers when they put out
3 the very first interview, you know.

4 I Googled my name and I seen a lot of
5 stuff and I came across something, uh, that somebody
6 put, I seen my picture, and it said like snitches
7 get stitches, and then under it says something about
8 people keep talking, they are going to get ,
9 you know, we are going to do something to you.

10 MR. : What's that.

11 : I don't know. It's spelled

12 You know, I'm not even sure what that
13 is, but I've just been nervous and scared, and I
14 have been letting everybody know about my time in
15 and where I'm going and stuff like that.

16 So, uh, but like I said, until this day,
17 but it has been like two weeks, two, three weeks
18 now, you know, no reporters at my house or nothing,
19 no calls. You know, I'm kind of, I'm still in my
20 regular day and going to work every day, taking care
21 of my family and stuff, doing the same thing every
22 day. I don't go nowhere, but I come home, you know,
23 so.

24 But I'm keeping it cool, but the ones like
25 at work, I -- I tell them because I don't show it

1 neither. Like when I be at work, I have a smile on
2 my face all the time, you know, I don't show it
3 until they, I seen you on TV and want to talk about
4 it and stuff like that. And I tell them how I feel,
5 you know. So I'm just staying cool though, you
6 know.

7 Okay.

8 : But very nervous.

9 This is the first time you
10 are talking to us and we can treat that as a first
11 time.

12 Uh-huh.

13 You are a, you are now a
14 federal witness so, and with that comes certain
15 intentions. So we want to make sure you are
16 comfortable.

17 So, I mean, we would like to offer you
18 water, you are more than entitled to, if you want to
19 get up and take and walk around and if that makes
20 you feel more comfortable, but.

21 : I'm fine right now.

22 MS. : Yeah, and we want you to know,
23 if at any point someone does intimidates you or let
24 me be specific, to intimidates you or scares you or
25 you feel somehow more nervous than general

1 nervousness, you certainly should, um, call ,
2 I know you have her number here at the FBI. Because
3 witness information is something apart from
4 everything else. It could be a crime.

5 So we are trying to be specific,
6 okay, not some -- (inaudible)

7 : Okay.

8 MS. General nervousness is normal,
9 especially like in (inaudible). If there is
10 anything in particular that makes you nervous at
11 all, we want to know that. So is there anything in
12 particular or just a general feeling from Goggling
13 yourself?

14 A Um, that, um, one moment, um, at the time
15 when the audio came out about the shooting, let me
16 see, like a week and a half earlier before that I
17 stopped doing interviews, I didn't receive no calls,
18 I was fine. I could go home and enjoy.

19 So when that came out, I started
20 getting calls again, they was at my house while I
21 was at work trying to come up to my job.

22 MR. : And who were they that you
23 are referring to?

24 The reporters, news reporter.

25 MR. : Uh-huh.

1 : And um, let's see, maybe the
2 same day I knew it was on the tube that when it
3 aired on the news and stuff like that, it was on a
4 Tuesday or a Wednesday. I had to go pick up my
5 fiancée about 9:30 that night to leave out of my
6 house to go pick her up. I know that day I received
7 a call from a reporter at six something. And
8 another call at seven or eight something and then I
9 got a text like just before 9:00.

10 I had to put up my little son's car seat
11 in the car. So I went outside to go and do that and
12 as soon as, right when I gets to my car, a lady just
13 runs up, it is dark now. And at this time I notice
14 there is not a lot people out, I know that for sure,
15 but she just runs up, just runs up, hey,

16 can you do another interview, you know, but
17 she was nice. She just ran up, you know, like it
18 was, I was already scared at that point.

19 But I just, I looks at a lot of movies and
20 stuff and it just gets me thinking like, like if
21 anybody was trying to at that time, you know, that
22 was a good opportunity at that time.

23 You know, I think of stuff like that.

24 MS. : Are you worried about your
25 physical safety, is that what you are trying to say?

1 : I don't know.

2 MS. : If you are, that's fine.

3 I really don't know, I really
4 don't know.

5 MS. : Okay. Let's get back to, um
6 some more details that you can tell us.

7 : Okay, okay.

8 : I want to make it very clear
9 to you though, we aren't going to talk. We aren't
10 going to say we spoke with , I'm sorry,
11 . The only thing are people that
12 actually go to the news. So we have a whole list of
13 people that no one knows about because we don't tell
14 them. So we want you to feel confident that you
15 speak with someone today, that it stays with us.
16 Does that make sense?

17 Yeah.

18 : Okay.

19 MS. : What you hear on the news from
20 a federal agent or the FBI, it didn't come from us.
21 So if that happens, or you hear rumors, call us and
22 find out because it may just be rumors. We are not
23 going to go to the news ever, all right?

24 : Okay.

25 MS. : So if you start hearing rumors,

1 and you start thinking something's up, call and find
2 out because I'm telling you right now we're not
3 going to go to the news.

4 : Okay, all right.

5 MS. Okay. So we were talking about
6 this, um, the arms exchange. You are watching this
7 from your window; is that right?

8 : Yes.

9 MS. : Do you have blinds on your
10 window?

11 : Yeah.

12 MS. : Were you watching through the
13 blinds?

14 : I had the blinds bent a little
15 bit.

16 MR. : Okay.

17 MS. : So they horizontal or vertical
18 blinds. Like that?

19 : Yeah, the straight ones that
20 close.

21 MS. : Okay. So you had the vertical
22 blinds. Did you have to move your hand to watch it?

23 : Yeah, I had to bend down.

24 MS. : Gotcha, okay. So while you are
25 watching this, at some point do you yell out to

1 --

2 : Uh-huh.

3 MS. : Do you yell out to at
4 some point.

5 : Yeah, I yell out to her, I
6 think it was just about the time that I notice that
7 the officer went past Michael Brown's friend.

8 MS. Okay. So let's back up. So
9 the friend that you're watching, as soon as these
10 arms are exchanged back and forth out the car.

11 Uh-huh.

12 MS. : Um, what happens, did you
13 observe that end of the tussle?

14 They just takes off running.

15 MS. Okay.

16 : They just takes off running.

17 MS. : They, being the, the two boys?

18 : Yeah, two boys yeah, they just
19 takes off running at the same time.

20 MS. : Do you know now their names?

21 : Um, Mike Brown and uh --

22 MS. : If you don't know his name,
23 that's fine. How would you describe him?

24 : I know he had dreads.

25 MS. : Okay. So it is Mike Brown and

1 the guy with the dreads?

2 : Yeah.

3 MS. : Okay. So at this point, um,
4 you said you see Mike Brown and the guy with the
5 dreads take off through there?

6 Uh, yeah, um, like I said, I'm
7 on different sides though. Mike Brown is on the
8 driver's side of the car, so he takes off behind the
9 vehicle directly in the middle of the road.

10 MS. : Okay.

11 And his friend, there was a
12 parked vehicle, and maybe a little bit behind the
13 police cruiser.

14 When you point to it, will
15 that help you a little bit?

16 The vehicle was leaving right
17 there.

18 Okay.

19 : It was actually two buildings.

20 Okay.

21 Two buildings. I would say
22 his friend was in the front and he runs, like I
23 said, to the very first one to the trunk of it
24 because the officer gets out of the car and started
25 shooting and his shooting stance and taking large

1 steps. I don't remember seeing him running.

2 I'm sorry I cut you off. So
3 you see this guy with the dreads, where does he
4 actually go.

5 He runs, yeah, he runs behind
6 the trunk of the white car, the first one.

7 MS. And when he's at the car, what
8 does he do?

9 : He looked at the officer to
10 make sure the officer's not coming to him. Because
11 like each shot that went off, he was like, you know,
12 ducking each time.

13 You saw him ducking. So
14 you're saying that what (inaudible), so can I say
15 you are assuming what he's doing?

16 **A** Yeah, I mean, yeah, that is what he was
17 doing, that is what he was doing.

18 MS. He was ducking, right?

19 : Yeah.

20 MS. : And he's now behind the trunk
21 of the car; is that correct?

22 : Yes, uh-huh.

23 MS. And you're able to watch him do
24 that?

25 : Yeah, I clearly saw him. He's

1 ducked down looking at the officer is like each shot
2 that went off, he was like bam and going around the
3 building to the passenger side. And then I notice
4 that the door was opened, I don't know how wide the
5 door was open, but each shot that went off, he was
6 kind of like bam, going over to the side watching
7 him but then I said that I noticed he went past him.

8 MS. Let me ask you. When you were
9 watching the guy with the dreads behind the vehicle
10 (inaudible) as he is going to the passenger side,
11 did you then leave from your view as he's going to
12 passenger side?

13 : No, no, no, I could see him
14 clear, he didn't hop in until, like he didn't hop
15 into the vehicle until, uh, I think that he noticed
16 that his friend now did hit the ground.

17 MS. : Did you actually see him hop in
18 the vehicle.

19 No, I really didn't because,
20 um, I more, when he past, I more started focusing on
21 the guy that he was shooting at now.

22 MS. : Okay. So let's back up.

23 : Uh-huh.

24 MS. So the two guys start running?

25 Right.

1 MS. : They're at a different point,
2 they're at different areas of the street, right?

3 : Yes.

4 MS. : Okay. Your intention is
5 initially on who?

6 It is on both of them, it's --
7 it's on both of them.

8 MS. : Okay.

9 So, um, like I said, when -- I
10 didn't want to leave out that window, I just seen an
11 officer shooting, and that gets me like, hum. I'm
12 just thinking that he was going for his friend also.

13 MS. : And you're assuming that?

14 Yeah, I was assuming that, but
15 I kept my eyes on both of them. I see one running
16 straight down the middle, this one is going for the
17 very first car that he sees.

18 MS. : So you see Michael run down the
19 street and you see the guy with the dreads run down
20 to the car?

21 Yeah, the guy with the dreads,
22 he was the main focus as I'm still noticing that the
23 officer is shooting straight, but I'm looking at him
24 is because I'm thinking that the officer, like, uh,
25 (inaudible) there is a pause, cause there is like a

1 pause by the time he went past this time. So there
2 is a pause right there during his shooting when,
3 like I said, I was thinking that he was going to go
4 to his friend and shoot him. That's why I was main
5 focusing on him at that point.

6 MS. : So at that point when Mike
7 Brown starts running, your main focus is on the guy
8 with the dreads?

9 : Yeah.

10 MS. : And when you see the officer
11 get out of the car, you're assuming that he's going
12 after the guy with the dreads?

13 : No, no, no, no, I knew he was
14 going for Mike Brown, but I kept my eyes on all of
15 them.

16 MS. : Okay.

17 : Mainly that I see the guy with
18 the dreads looking at the officer and the officer,
19 he -- he goes past him. I'm -- I'm sure that the
20 officer see him where he ran to.

21 MS. You are sure of that why?

22 Because when he gets out of
23 the car, the guy with the dreads, he was already in
24 front of his vehicle, he runs to the trunk of the
25 first car that he's seeing. He is looking over the

1 trunk, ducked down, I'm sure that he saw him.

2 MS. : Okay.

3 I'm sure of that because --

4 MR. : Now, that's important, okay.

5 That's a good example, I mean, obviously you can't
6 be sure of what someone else saw, right?

7 Okay, okay, right.

8 MR. That's just an example, just
9 be sure that we are talking about what you actually
10 laid eyes on and what you saw, okay?

11 : Okay, okay.

12 MS. So you actually saw the guy
13 (inaudible) the police officer?

14 : Uh-huh.

15 MS. Is that right?

16 : Yes.

17 MS. : Did you see the police officer
18 look over at the guy with the dreads?

19 : Um -- no.

20 MS. : Okay. And so now you have, um,
21 how soon after if you saw, how soon after when the
22 boys start running did the police officer run
23 immediately over or get out of the car?

24 : No, he gets out of the car
25 immediately.

1 MS. Okay.

2 Immediately. Cause as soon as
3 he breaks off just about when, like I said, Mike
4 Brown gets past his vehicle and to the back of it,
5 and he gets out immediately and starts shooting.

6 MS. So the police officer gets out
7 and Mike Brown goes past his vehicle.

8 : Yeah, just -- just about time,
9 um, and a little bit before that.

10 MS. : Okay. And then you said the
11 police officer, did he have his gun out?

12 Yes.

13 MS. How did he have his gun
14 pointed?

15 : Directly like in shooting
16 position.

17 MS. : Okay. And you had your eye on
18 that and you're watching?

19 Yeah --

20 MS. And the guy with the dreads?

21 Yeah, at the same time so.

22 Like I said, um, mainly I didn't want to miss
23 anything like that, you know with my own eyes, but I
24 see it on the movies, but like I said, uh, the guy
25 with the dreads, he was looking at the officer as he

1 was walking by shooting. That's while I was still
2 in the window and I know that he went past him,
3 that's when I went outside.

4 MS. : So you say the officer was
5 shooting, how do you know he was shooting at that
6 time?

7 Cause that's when I heard the
8 gunshots when he's out the vehicle, the moment he
9 gets out the vehicle.

10 MS. : So what did you do when you
11 heard gunshots?

12 I'm still in the window and,
13 um, he's shooting, he's walking past his own vehicle
14 to the back of it. And um, like I said, the first
15 vehicle that the guy with the dreads run to, that
16 vehicle is a little bit behind the police cruiser.

17 So he walks past that vehicle to where his
18 friend ran to and walked past that and that's when
19 my time was to run outside then.

20 MS. : Okay. When you say he, I'm not
21 sure who you are talking about. (inaudible)

22 : The guy with the dreads.

23 MS. The guy with the dreads, okay.

24 Uh-huh.

25 MS. : I just want to be clear. So

1 you decide to do the window after you see the police
2 start shooting, but did he stop shooting at some
3 point?

4 : Um, I think there was a pause
5 in that when he past his friend, when he past the
6 vehicle to where the guy with the dreads.

7 MS. Okay.

8 : When he past the vehicle.

9 MS. : When the police officer past
10 the vehicle with the guy with the dreads, that's
11 when there was a pause in the shooing?

12 Yeah.

13 MS. Okay. And that's when you --

14 Yeah, that's when I runs
15 outside, that's when I runs outside and when I gets
16 outside, now Mike Brown is facing him instead of
17 have his back towards him.

18 MS. Okay. Let me ask you this
19 though.

20 Uh-huh.

21 MS. : Before you went outside, you
22 said earlier you yell to

23 Yeah, I yell to for her
24 to go outside because they shooting. That was cause
25 I going outside at the same time, so I say don't go

1 outside cause they're shooting. That's when I
2 notice that he past his friend at that time, so that
3 just gave me enough time to go outside at that time.

4 MS. : Why did you want to go outside
5 when there is gunshots being fired?

6 : I mean, like I said, I never
7 seen nothing like that. You never seen nothing like
8 that. I know the direction was going straight down
9 the street going toward somebody that just ran from
10 the vehicle.

11 MS. : Okay.

12 : So.

13 MS. : So by the time you got outside,
14 you said Mike Brown is now facing the officer; is in
15 that correct?

16 : Yeah, uh-huh.

17 MS. And tell us what you saw at
18 that point?

19 : Um, the moment I gets outside,
20 Mike Brown is now facing the officer and he got both
21 his arms on his stomach, like bent down. So I'm
22 thinking like he's now hit in the stomach somewhere.

23 MS. Okay. You are assuming that
24 now?

25 : Yeah, I was assuming, I was

1 assuming that he was hit down here somewhere cause
2 he is like this, um, curled up.

3 I remember him taking like two small steps
4 because he kind of ran past his death spot where he
5 passed away at, he kind of ran past that. When he
6 turned around, he got his arms on his stomach, he
7 bent down, I remember him taking like two small
8 steps cause he was going like stumbling.

9 MS. : Okay.

10 So, uh, and the officer lets
11 out four or five more shots at him and he hit the
12 ground.

13 MS. So, just so that I will be a
14 little more clear, I know I keep asking the same
15 things. When you go outside, you see Michael Brown
16 facing the officer and you were demonstrating, would
17 you mind standing up and describing where his hands
18 were at in the area for the recording?

19 Yeah, so when I gets outside
20 he is now like this.

21 MS. : And you are actually, and so
22 for the recording, you are now Michael Brown, right?

23 : Yeah.

24 MS. And you are saying he is almost
25 like --

1 : Like bent down, like he was
2 going down.

3 MS. : Okay.

4 : Like he was going down. He
5 took like two small steps, like he was stumbling.

6 MS. : And you have both hands across
7 your stomach and your waist; is that correct?

8 **A** Yeah. So, um, so when I seen that, um,
9 that's when the last four or five shots come out.
10 And he drops just like how his body is and, you
11 know. Let me see, yeah, one more, yeah, I mean,
12 they both, yeah, he just was like how he fell. I
13 think one arm fell, something like that.

14 MS. : You are showing one arm is down
15 on his side --

16 : Yeah, when he hit the ground.

17 MS. : Let me just be correct for the
18 recording. Do you know whether it was his left or
19 his right or you just, you just know one hand was
20 across the stomach, waist and the other one was down
21 at his side?

22 Both of them was on his
23 stomach and when he gave out the last shots, his
24 body just boom.

25 MS. Okay. And you're showing one

1 arm across his stomach and the other arm to his
2 side?

3 : Yeah.

4 MS. : Okay. And by the time, and you
5 say, when you saw was the officer firing those final
6 shots; is that right?

7 : Huh-uh, yes.

8 MS. Okay.

9 : So I think that is where the
10 pause come from.

11 MS. : Okay. You can have a seat,
12 thank you.

13 So your memory is some shots, when you are
14 peeking out, looking out the window through the
15 blinds.

16 : Yes.

17 MS. : And then there are shots right
18 that you saw right before he fell; is that right?

19 : Yes.

20 MS. Was out there, you were
21 on the balcony at that time?

22 : Yes.

23 MS. Were your kids with you?

24 : Uh, yeah.

25 MS. How many of them are there?

1 : Uh, there was three at the
2 time.

3 MS. : Okay. How old are they?

4 : , and .

5 MS. : Okay. And so, um, did you,
6 when you ran outside, you said initially, we're
7 talking about pause, you went outside, you realized
8 you forgot your phone and you went back and got your
9 phone, and the kids come out at the same exact
10 time as you?

11 Yeah, like at the same time,
12 at the same time.

13 MS. Did you grab it? Did you have
14 any kids with you or did they follow you?

15 : No, um, during the, she
16 lets the kids come outside at that time.

17 MS. : Okay.

18 : I remember she called them to
19 come outside.

20 MS. So did all three of them kind
21 of walk out with you, is that what's going on or
22 what?

23 I think they came out a little
24 bit after me cause she called them outside.

25 MS. : Okay.

1 MS. WHIRLEY: Let's stop there because I
2 think we're all kind of restless. You probably
3 need a break.

4 MS. ALIZADEH: It is 10:29, and we've
5 stopped the recording of the fourth interview of
6 . It looks like it is about halfway
7 through and it has been going on for quite a bit.
8 So this will be probably a pretty good place to take
9 about a five, ten minute break, get up, stretch, go
10 to the bathroom. And so at this time, we will pause
11 the recording, take a few minutes to have a break
12 before we resume.

13 (Recess)

14 MS. ALIZADEH: All right. It is 10:44,
15 all 12 grand jurors are back in the room after a
16 brief break. We are going to resume the playing of
17 the audio statement of the fourth statement of
18 .

19 And at this time I will ask the court
20 reporter to pause the audio recording that we are
21 making and he will continue to transcribe or take
22 down the statement as best he can that is being
23 played for grand jurors, which is contained on Grand
24 Jury Exhibit Number 23.

25 MS. : And then once Michael Brown

1 fell, the officer, did the officer go near the body
2 at all?

3 : Yeah, um, not too close, maybe
4 4, 5 feet away. He kind of standing over him, you
5 know, with his gun out on his talkie thing.

6 MS. You are pointing to his
7 shoulder, so you saw that?

8 Yeah, I definitely seen him,
9 you know, like this, you know, with his gun out
10 still.

11 MS. : Okay. And you are
12 demonstrating talking into the mike on his shoulder;
13 is that right?

14 : Yes.

15 MS. Okay. You didn't see the
16 officer touch the body or do anything more with him?

17 : No.

18 MS. : Then afterwards, what did the
19 officer do?

20 Um, huh, huh, huh. I think,
21 uh, let me see at that time I was messing with my
22 phone, turning it on. So, I think, I think I
23 haven't really noticed it until the other two cops
24 came.

25 MS. Okay.

1 I just notice like wait, a cop
2 just shot somebody and I'm still turning on my phone
3 because it was off.

4 MS. : Okay.

5 : Let me see. Yeah, I can't
6 remember just like before the other, the first two
7 officers came, and like what he was doing at that
8 time like right after he did the shooting or
9 whatever. I know when he got done, he was standing
10 over him on his thing.

11 MS. : On his radio --

12 : I can't remember if he walked
13 to his car first or he came back before the other
14 two came.

15 MS. : Let me ask you this, were you
16 at all trying to get your phone to work while,
17 before Mike Brown went to the ground while this
18 whole thing was happening, were you trying to get
19 your phone to work?

20 Oh, no, I was already outside,
21 like it didn't come on until the first two officers
22 came.

23 MS. : I understand that.

24 : Uh-huh.

25 MS. : Did you try to get it to work

1 before then.

2 Oh, no, huh-uh.

3 MS. No, okay. Um, and just going
4 back, you said you saw his arms crossed, across his
5 stomach area, did you notice anything about his
6 hands?

7 No, no, I just thought he was
8 shot in the chest or the stomach or something.

9 MS. : As far as your vantage point
10 from what you saw, his arms and his hands were
11 across his stomach, correct?

12 Uh-huh.

13 MS. : Is that a yes?

14 : Yes, yes.

15 MS. : At any point did you see his
16 hands in the air?

17 No, I didn't, I didn't.

18 MS. : Okay. When you decided that
19 you were going to go from the window to the outside
20 to the balcony because there was a pause, how did
21 you know that that would be a good opportunity to go
22 outside?

23 Because, I mean, like just
24 seeing an officer with a gun just shoot, just, you
25 know, just anybody shooting period, you know. I

Page 99

1 just see him gets out of the car shooting, you know,
2 and I'm paying attention to the guy with the dreads.
3 Cause I'm thinking that he could just easily walk
4 over and shoot him dead. Like I didn't want to miss
5 that or something like that, you know.

6 So it is just, that was just my timing
7 right there like when I notice that he walked past
8 the car and that was just my timing right there bam,
9 he just got done like with a pause or something
10 because I said when I gets outside, it was still
11 like three, four, maybe five more shots.

12 MS. : Okay. And what happened when
13 you got outside, what was the kid with the dreads
14 doing?

15 Um --

16 MS. : Did you see him?

17 You know, I got my eye, I
18 really kind of stopped paying attention to him.
19 Because as I said, I did notice that the driver,
20 passenger side door was open on that car, but I
21 stopped paying attention to him so, and I started
22 focusing on Mike Brown cause now he's dead, and the
23 officer started walking towards him with the gun.

24 So, um, let's see, yeah, that's it about
25 that one, yeah.

1 MS. I notice in some of your
2 previous statements you had said that the kid had
3 just got in the car and the car had driven off.

4 : Yeah, um, I, I, I, I think
5 that was maybe right when he saw his friend die, you
6 know, hit the ground.

7 MS. : So my next question is, did you
8 actually see him, the kid with the dreads, get in
9 the car or did you assume he got in the car?

10 : I, I, I assume, I assume that
11 because the car was gone right after that, the car
12 was gone.

13 MS. : And where were -- and did the
14 kid with the dreads (inaudible) where you could see
15 him?

16 : No, I figure that he hopped in
17 and asked to pull off.

18 MS. Right. You figured that,
19 right?

20 Yeah, you know, I kind of
21 stopped paying attention when he walked past him.

22 MS. Okay, but you actually saw for
23 yourself, the last thing you saw was the kid kind of
24 ducking around that car?

25 Uh-huh.

1 MS. And moving?

2 : Yeah, ducking. And about time
3 he gets to the passenger side door because it was
4 open, about the time he got to that, I said the
5 officer passed him, so that's when I came outside
6 and started going on Mike Brown now.

7 MS. : Okay.

8 MR. : So the last time you seen
9 the guy with the dreads, he's headed for the back of
10 that car forward --

11 Yeah.

12 MR. : -- towards the passenger
13 door?

14 : Yeah, yeah, ducking down
15 looking at the officer all through that time.

16 MR. : But he is heading away from
17 Mike Brown and away from the officer, the opposite
18 direction?

19 Yeah, yeah.

20 MR. : Okay, all right. And, um,
21 so at that time you are watching the officer.

22 : Uh-huh.

23 MR. : And the guy with the dreads
24 and Mike Brown, I think you previously said, Mike
25 Brown was about 25 feet --

1 : Yeah.

2 MR. : -- past where that was. So
3 at that point you're not watching Mike Brown, you're
4 watching the police officer and the guy with the
5 dreads?

6 : Yeah, um, cause Mike Brown, he
7 kind of ran some distance at that time.

8 Was he in your field of view,
9 like could you see him from when you were in your
10 bedroom looking out the window, were you able to see
11 him?

12 Uh, Mike Brown, I couldn't see
13 Mike Brown, cause of, cause of the way, I could see
14 his death spot out of my bedroom window, but as I
15 say, he ran past just a little bit.

16 : Past --

17 : You know, that would be right
18 there, that building, I think it is that one right
19 there, that building right there. He was out of my
20 view at that time, but the officer past his friend,
21 that was my opportunity to go outside.

22 MR. And when, okay. So he, Mike
23 Brown left your view there.

24 : At that moment.

25 MR. You don't know, so then you

1 don't know what's he doing?

2 : Exactly.

3 MR. Okay, thank you.

4 MS. : And the next time he came into
5 your view is when you went outside and you are on
6 the balcony and you saw?

7 : Uh-huh.

8 MS. : Him facing the officer and as
9 you described, his hands across his stomach.

10 Yes, and like I said, they
11 were still, 25, I don't even know my measurements
12 good enough.

13 : That's fine.

14 MS. We don't need --

15 It was some distance.

16 MS. : Were you able to hear any words
17 coming from either the officer or Michael Brown?

18 No, no, not at all.

19 MS. : Okay. Did you see their mouths
20 moving at all?

21 : Umm, no. Just the only time,
22 they got me, that he was talking on his thing.

23 MS. : Right.

24 You know, I'm not sure what he
25 was saying, but he's talking.

1 MS. : You are referring because the
2 audio recording that you are referring, the officer
3 was talking into or his radio on his shoulder,
4 correct?

5 Yes, yes, yes.

6 MS. : Okay. I just want to ask you,
7 after it all happened and you were on your cell
8 phone, you're recording?

9 : Uh-huh.

10 MS. : Can you just talk about who was
11 around you? I know you said you were narrating it,
12 there are people in the background.

13 Yeah, like I said, it was a
14 guy on that parking lot already in a burgundy, maybe
15 a burgundy Bonneville. Him and his girlfriend they
16 was already sitting out there and they were just
17 talking.

18 And I remember him saying something that
19 the officer reversed back and ran over his foot, but
20 I remember him saying like on a recording that I
21 assumed that he just ran into the car and got to
22 punching on him or whatever, you know, but he said
23 that he ran over, that he reversed back and ran over
24 his foot and tried to grab him through the car
25 window.

1 MS. : Do you know this person?

2 : No, I never seen him before.

3 MS. : Have you seen him since?

4 : No.

5 MS. When this discussion is
6 happening, this was occurring on ground level?

7 : Yes.

8 MS. So the recording you provided
9 St. Louis County, was it from the balcony?

10 : Yeah, it was from the balcony.

11 MS. Okay. So just help me
12 understand that. When I watch that recording, it
13 seemed like, and what you just told me was on the
14 recording. The person in that car, that burgundy
15 car down below talking up to you?

16 : Uh, you know, I can't even
17 remember. I don't know if he came up or not, like
18 on the steps wise. So I really can't remember. I
19 really can't remember.

20 MS. You say a burgundy car?

21 : Yeah, yeah, I know that when I
22 went out there onto ground level, that's when I was
23 really talking to him, but I'm trying to remember
24 like if at the time when I was recording on my
25 balcony, if he walked up to the steps, cause I do

1 remember that, you know, so I really can't.

2 When you say balcony, I'm
3 sorry, I want to clarify for my own, is it right
4 outside your front door or a door outside of your
5 living room.

6 Yeah, it is right outside the
7 front door.

8 : Okay. So steps are right in
9 front of your door?

10 Yeah, right in front of my
11 door, the balcony is right there.

12 : Gotcha.

13 : Yeah.

14 MR. : You indicated initially when
15 you went to leave your window and go out to the
16 balcony, that you had to double back to get your
17 phone.

18 Uh-huh.

19 MR. : Where was your phone?

20 : My phone was in the bedroom.

21 MR. So you went from your
22 bedroom to the door?

23 Yeah, yeah, yeah. As a matter
24 of fact, my phone was right there, right there by
25 the door of my bedroom. I have a little stand right

1 there, so I ran that, grab that and went back to the
2 front door.

3 MR. : All right.

4 So I was headed, I took some
5 large steps too, I don't think I missed too much
6 from that.

7 So when you said you saw the
8 officer get out of the car.

9 : Uh-huh.

10 : Did you see what kind of car,
11 vehicle, he was driving, what type of vehicle
12 rather?

13 : Um, it was definitely a truck,
14 the Tahoes, the Tahoes.

15 Okay. So when he got out of
16 the car, and the Tahoe is a pretty big car.

17 : Yeah, yeah.

18 SUV.

19 : Uh-huh.

20 You could see the officer and
21 what he was doing?

22 : Yeah, I could just see his
23 movements, you know.

24 Okay.

25 : You know, so.

1 I think after Mike Brown ran
2 away.

3 : Uh-huh.

4 Officer, gets out of his car,
5 you can see the officer.

6 : Yeah.

7 His body position?

8 Yeah.

9 Over by his car?

10 : Yeah, basically from like his
11 chest on up.

12 Okay.

13 : So I didn't -- I could see
14 like see his gun too, but not like his stomach on
15 down to until he got past.

16 : Okay.

17 : You know, so.

18 And you heard the gunshots?

19 : Yeah, that's when I started
20 hearing the moment he gets out of the vehicle.

21 I'm sorry, I can't remember
22 if you said this, do you know how many?

23 : How many he shots?

24 : Uh-huh, before the pause?

25 : I don't know, maybe five.

1 Are you guessing?

2 : That should be about four,
3 five.

4 Okay.

5 Yeah.

6 MS. : If you're not sure, it is fine
7 to say you're not sure.

8 : Okay. I know it was a nice
9 round because he gets out of the car immediately and
10 started shooting, just like I said, each time that
11 he shot, I was like I said, I feel for the guy with
12 the dreads. I think of it as a nightmare too
13 because each time he saw the officer shooting, he
14 was just like, you know, kind of like, I seen his
15 body jump just looking at each time like he was like
16 a duck that he was giving himself around the
17 vehicle. So I would have to say about four or five.

18 MS. Okay. Do you remember when you
19 first talked to the County detectives, you gave a
20 recorded interview and a couple minutes later, you
21 had a follow-up right away and they went back on the
22 recording, do you remember that?

23 : Um, with them?

24 MR. : It would be on the same day,
25 August 9th. It was about four or five hours after

1 all of this happened that day they came and they
2 talked to you?

3 : Yeah, yeah, yeah, it was that
4 same day.

5 MS. You gave a recorded statement
6 and literally within a minute, maybe even seconds
7 later they went back on the recording. Was there
8 something that you had asked that you said I wanted
9 to ask you about. You had said in talking about the
10 initial altercation, you had said that, um, that you
11 heard the shots before the police officer got out of
12 the car and that's what made the police officer get
13 out of the car.

14 So I know that since then and today that
15 you heard the shots after the cop got out of the
16 car. Now one point you said that, that is what I
17 was just wondering.

18 : Um --

19 MR. : You said, what is
20 referring to, Detective asked you, when did
21 you hear the first gunshots, you said you heard
22 gunshots.

23 You said, I was in window. And Detective
24 asked you, and where was the officer at that
25 point.

7 And let me ask you this, kind of, you
8 mention at the very beginning, I meant to ask you
9 this earlier, but that the guy with the dreads and
10 Mike Brown took off running at like the same
11 instant.

13 MR. Is that right? They both
14 just took off running at the exact same time?

16 MR. : And you hear or seeing
17 anything that would cause --

Gore Perry Reporting and Video

1 But they did take off at the same time,
2 but I really, I didn't think that maybe a shot went
3 off in the car or something because that was a good
4 timing, you know.

5 MS. : The reason we ask you is
6 because as just read to you the transcript of
7 your statement, you said at that point that the shot
8 had gone off in the car.

9 : Yeah, maybe, I mean, I know
10 for sure I didn't hear a shot go off in the car,
11 but, um, like I said, that's probably wasn't like
12 the first interview, that's maybe because I'd have
13 heard that a shot did go off so, you know, I was
14 trying to put a puzzle together too, maybe that's
15 the reason why they ran, but I didn't hear.

16 MS. : So there is about four hours
17 from the time this whole incident occurred to that
18 the time that the county cops interviewed you. In
19 those four hours, I know that you videoed a lot of
20 it, or people on the street, did you talk to your
21 neighbors, kind of talk --

22 No, because a lot of people
23 are my neighbors, they didn't see everything. They
24 didn't see, it was just a main guy got, uh, from
25 what I saw I kind of, you know, I like his beginning

1 from when he said he saw Ferguson pull up on these
2 guys.

3 MS. That guy in the burgundy car?

4 : Yes, yes.

5 MS. You talked to him?

6 : Yes.

7 MS. When you talked to him, did the
8 two of you kind of piece this together?

9 : Um, like I said, he saw the
10 whole thing basically, but I pieced his with mine.

11 MS. You say he saw the whole thing,
12 and he never gave you his name?

13 : No, huh-uh.

14 MS. Do you know how to find him?

15 : Not at all, not at all. I
16 don't remember like seeing him again afterwards or
17 the vehicle.

18 MR. Can you just real quick, can
19 you tell us what he told you again about what he
20 saw?

21 That he said, um, um, that the
22 officer pulls up to them and the officer says
23 something to them and they say something back, and
24 he reverses back and like I said, that's why the
25 police cruiser is in the middle of the street

1 diagonal because he cuts Mike Brown off.

2 And he said that he runs over his foot to
3 catch him or whatever, he said that he reached out
4 the window to hold him or whatever, and, um, and
5 maybe that's where the tussle started at. Going on
6 maybe to let him know or whatever he, maybe he was
7 punching on him in the window, whatever the case.
8 That's when I came to the window because I heard the
9 little tussle.

10 MR. Did he say anything to you
11 about a gunshot while the police officer was in the
12 car?

13 : I -- I really don't --

14 MR. Or did the officer say
15 something about that to you?

16 : I don't think that he did, I
17 think somebody else said that, somebody else that
18 walked up and said that a gunshot, that's the reason
19 why they ran so fast so, but I don't remember that
20 the guy with the purple car that said that to me.

21 MR. And so as you sit here
22 today, do you know whether the first shot was,
23 whether you heard the first shot while they were,
24 while the police officer is still in the car or
25 after he got out of the car.

1 I only started hearing shots
2 when he gets out the vehicle.

3 MR. : Okay. And this individual
4 that you talked about who told you what he saw
5 before you actually started looking out the window,
6 you didn't see any of that, the police officer pull
7 up and an exchange between the two of them talking
8 or him backing the car up, you didn't see any of
9 that.

10 : No, I didn't.

11 MR. Okay. Did you want to take
12 a break? I think we will take just a few minute
13 break.

14 : Okay.

15 MR. : You want to leave this on?
16 That's fine, that's fine.

17 MR. : That way we don't have to
18 come back on for .

19 : I hear you, I hear you.

20 MR. : We will be back, thank you
21 for your time.

22 : We will just be a second.

23 : Okay, not a problem.

24 (They took a break.)

25 Sorry about that, okay.

1 : No problem.

2 : You okay, you need to go to
3 the restroom or anything like that?

4 : No, I'm fine.

5 : So we have a couple more
6 questions.

7 : Okay.

8 MS. : So what is saying, we
9 really aren't going to go and tell anybody that you
10 gave us this information or that we spoke to you
11 because when we do our investigations, we want to
12 find out what happened. And the only way to find
13 out what happened is if people feel that they can
14 truly just kind of open up and let it out.

15 : Right.

16 MS. If we end up saying oh, so and
17 so said this, what do you think about that?

18 Right.

19 MS. : It kind of doesn't, it, it
20 doesn't, it muddies the water a little bit.

21 : Yeah, yeah.

22 MS. We talked about what you know
23 and we want you to, we really want to show you that
24 we're never going to go to another person and say
25 hey, told us this or that. It is kind

1 of like, yes, you gave interviews before, and yeah,
2 you were on TV, but in here, this is totally
3 separate and apart.

4 Okay.

5 MS. : This is your opportunity to
6 kind of lay it out. I know that you are concerned
7 about, I think you said you saw some websites about
8 snitches and so forth.

9 : Yeah.

10 MS. : And so is that from concern
11 from in the community?

12 : Uh, yeah, it could be
13 anywhere, you know, it could be anywhere. It could
14 just be anywhere, so I'm not even sure, you know.

15 MS. : We get it. This has caused a
16 lot of people to take sides and so forth, and we
17 just want to figure out what happened.

18 Uh-huh.

19 MS. : We really do.

20 : Uh-huh.

21 MS. We want to know and what they
22 saw.

23 : Okay.

24 MS. : We are not going to say oh, you
25 know, we got your information from

1 because, you know, nobody is going to find out.

2 : Okay.

3 : is there something
4 specific that you don't want to tell us?

5 Uh, no.

6 Because I'm concerned that
7 you might have been directly threatened or there is
8 people, because you keep looking down when you talk
9 about it.

10 : I mean, everything I'm just,
11 nervous.

12 That's okay.

13 I'm not comfortable, I'm just
14 like after this, you know, uh, I think of stuff like
15 that. I said like, you know, everything that I've
16 done and like I said, I go to work, I go to the
17 store and little kids they recognize me and a lot of
18 people, if I get paid a nickel every time I hear the
19 word superstar, you know, I would be rich or
20 whatever. I don't know, it is just --

21 You know you're not in
22 trouble to feel this way, you are not in this alone.
23 You know, you know, you see the news, there is other
24 people too that they do know the position that you
25 are in.

1 And I know it is a lot different talking
2 when the cameras are rolling and then talking to us.
3 Because you understand that there's the lives are
4 affected by, specifically Michael Brown's parents
5 and also the lives of the officer and Ferguson
6 police officers. So we absolutely 100 percent, I
7 know you are a good person, you have a family.

8 : Yes, I do.

9 : That you are concerned with,
10 so if there is something more going on, if you want
11 to explain, I suspect that there is, we need to do
12 that, okay?

13 : Yeah.

14 : Do you trust us?

15 : Yeah, I trust you.

16 MS. Okay. So going back to that,
17 going back to the video that you have, right?

18 : Uh-huh.

19 MS. So you were saying, dude, that
20 guy just went up on him, started punching him?

21 Yeah.

22 MS. That was your reaction?

23 : Yeah, that was right away.

24 MS. : That was your gut reaction
25 based on what you saw, am I correct?

1 : Yes.

2 MS. That Michael Brown went up to
3 that car and started punching the officer?

4 : Yeah, yeah, cause, like I say,
5 I look at cops all the time, you know, and I see
6 other stuff that, you know, it is a lot of people
7 out there that does stupid stuff to make an officer,
8 you know, to get down on them or whatever. But that
9 definitely what I assume.

10 MS. And -- what you saw, though,
11 right, you are watching this go on, right?

12 : Yeah.

13 MS. So what you saw, correct me if
14 I'm wrong, this kid is doing something really
15 stupid.

16 : Yeah, I mean, yeah, because
17 like I said, when I see somebody hit a police
18 officer, here I'm hearing a tussle like that, it
19 doesn't look right. So I assume that, you know,
20 some guy just run up to the car and started punching
21 on him and the officer gets out of the car and
22 shoots him dead.

23 MS. : Right, and your immediate
24 reaction this kid just did something that was pretty
25 stupid. You said he got up in the officer's shit,

1 and those are your words, right?

2 Yeah.

3 MS. : Okay. And your words are like
4 that kid just went up and started punching on that
5 officer.

6 : Uh-huh.

7 MS. : Yes?

8 : Yes.

9 MS. : In the background I know that
10 this guy in the red car started like saying oh, no,
11 he started talking about running over and all of
12 that.

13 Yeah, but still at the same
14 time, I only see the moment when he was already at
15 the vehicle, so I didn't see him run up or anything
16 like that.

17 MS. : Right, right. So I wanted to
18 ask you some more about that that guy in the car.

19 : Uh-huh.

20 MS. : Here is the thing, anything you
21 know that could steer us in the direction of finding
22 him, we would never say told us who
23 you are or how to find you, but it is really
24 important. We need to figure out what happened,
25 right? There are people who, people who were there,

1 who saw it.

2 I mean, if something just come
3 to my mind, I mean, like the video that I have,
4 maybe you could check the license plates on that
5 vehicle.

6 MS. Okay.

7 : And go from there maybe, I
8 don't know.

9 MS. : Okay. Is there any other thing
10 that you know about him?

11 : No, that's the only thing.

12 MS. : Because it just seems kind of
13 weird to us, right, that this stranger starts coming
14 up and having a whole discussion with you?

15 Yeah, I mean, everybody just
16 started talking to everybody.

17 MS. : I know.

18 : Like I said, even when I had
19 started recording, you know, I started talking of
20 what I assumed, what I saw.

21 MS. : Right.

22 : Uh, even though I saw him
23 already at the window, but I just put it to the
24 point he ran up to the car and started, you know.

25 MS. : What you said was he got up in

1 that officer's shit and started punching him.

2 : Yeah, yeah, yeah, that is
3 exactly I saw. He ran up all up in his shit,
4 whatever, so.

5 MS. Is that what you saw, that is
6 what you saw.

7 : Yeah, but still, I mean, when
8 I saw this kid be different like, as far as like he
9 could be grabbed to the car.

10 MS. Did you see him get grabbed?

11 : No, I didn't see him get
12 grabbed, but if --

13 Have you ever, I'm going to
14 take his off, have you ever been in a physical fight
15 before?

16 Yes.

17 Fight with somebody. Now
18 imagine, did you feel like you were at an advantage
19 or disadvantage?

20 : I mean, you know, I feel if
21 you are in a fight sometimes, you know, this guy's
22 getting an advantage.

23 Let me ask you, if you are
24 sitting down and someone was standing, who would you
25 say had the advantage there?

1 Of course, I believe that's a
2 truck that, of course, anybody standing out of the
3 vehicle would have an advantage.

4 : Okay.

5 : Because I've seen it before
6 with my own eyes, that if a guy gets out of the car,
7 they get to punching on somebody that's in the car,
8 you know, because they almost can't do nothing with
9 two hands, you know.

10 : Okay.

11 : Maybe with one, grab one hand
12 or whatever, but you know, so that there is anybody
13 outside the car would have the upper hand, you know,
14 so I do see that.

15 And did you see that?

16 : Yeah, I mean, I look at it
17 like I said, anybody outside the vehicle has the
18 upper hand.

19 Right.

20 : I assume, you know, he ran up
21 to the car and punched him up in his face or
22 whatever, then they takes off running.

23 So based on what you saw, did
24 you see, did you feel that Michael Brown had an
25 advantage or did you think it was the other way

1 around?

2 **A** Uh, I mean, the advantage, he definitely
3 has an upper advantage if he's throwing punches, if
4 he's throwing punches from outside the vehicle. So,
5 but like I said, it could be different reasons why,
6 you know, he was on the side and then pulling,
7 trying to be pulled in or something like that, but.

8 We're not asking you to
9 figure that out either, so don't feel like you have
10 to.

11 Okay.

12 We're just trying to find
13 different ways to kind of jog your memory.

14 : Yeah, but anybody standing
15 outside the vehicle they would have the upper
16 advantage on throwing punches.

17 MS. : Could I ask you some more about
18 that guy in the burgundy car?

19 : Yes.

20 MS. About how old is he?

21 : I know he's younger than me, a
22 lot younger guy. I'm not even sure how old he is, I
23 know he's younger.

24 MS. Was he black or white?

25 Black.

1 MS. Was he with anybody in the car?
2 : With a girl, maybe his
3 girlfriend.

4 MS. : Did you hear him call his
5 girlfriend by name or anything like that?

6 : No, huh-uh.

7 MS. So this is just some guy that
8 randomly is sitting in your neighborhood at that
9 exact moment?

10 : Uh-huh. And when I got the
11 recording, I got to talking and then I got on ground
12 level and got to talking to him because he's already
13 right there and I got to --

14 MS. What kind of car did you say it
15 was or do you know?

16 It was like a burgundy
17 Bonneville.

18 MS. : Okay. Does know him?

19 : No.

20 MS. : Did you guys ever find out
21 afterwards who he was.

22 : No, not really, not really,
23 not really.

24 Anybody else in the
25 neighborhood who told you that they saw what

1 happened?

2 From the beginning, there was
3 another guy, like I said, that walked up, he had
4 dreads too. And he said gunshot went off in the car
5 and that's the reason why they took off running.

6 MS. : Do you know him?

7 : No.

8 MS. : Ever seen him before.

9 : I've seen him around the
10 apartments, I've seen him before.

11 MS. : Do you know his name?

12 : No.

13 MS. : Okay. Do you have anything
14 else you want to tell us?

15 : I have something to ask.

16 MS. : Sure.

17 : You reverts back to about the
18 statement that the police or whatever came to my
19 house and I did that and, um, I mean, I hear a
20 change, you know, you already told me, you know, can
21 you change anything, but you know, I'm hoping that I
22 don't get in trouble for that.

23 MS. : You're not in trouble.

24 : I just said maybe, maybe when
25 I said that is cause, like I said, I already had did

1 so many interviews already, so each time when I like
2 hear, you know, what, even one time when I had like
3 my first of two interviews.

4 MS. : Uh-huh.

5 My first of two interviews, my
6 first of two interviews I was already saying he, the
7 officer let out about eight shots, eight, nine
8 shots. But then I remember like a few more
9 interviews after that, that's when I notice about
10 the, I saw the autopsy. And I remember telling the
11 reporter, I said they only found six shells, that
12 Mike Brown was hit six times, you know.

13 I was saying like, he only shot six times
14 through that whole time? So, you know, I was
15 breaking that down so, but if I even said that to
16 him, it is probably, you know, because I already
17 heard somebody said that's the reason why they ran
18 cause a shot went off.

19 MS. Here is the thing, you are not
20 in trouble, okay?

21 Okay.

22 MS. : I don't want, I want to put you
23 totally at ease. I understand that, you know,
24 you're sitting here talking to federal agents,
25 federal prosecutors and it can seem scary to

1 anybody, okay?

2 : Uh-huh.

3 MS. : You're not in any trouble, as
4 long as you just tell us what you, yourself
5 remember.

6 : Yeah.

7 MS. : The best that you can, okay?

8 : Yeah.

9 MS. : Okay. As long as you do that,
10 you would only get in trouble if you lie to us.

11 : Yeah.

12 MS. : That's why we want to make sure
13 that you are telling us, we want to know the truth.

14 : Oh, okay.

15 MS. : Whatever side it falls on,
16 whoever it helps or doesn't help or hurts, we just
17 want to know what happened.

18 Okay, not a problem, not a
19 problem.

20 MS. : We don't want you to get
21 worried about getting in trouble. We do want you,
22 we want you to just talk about it later, you are a
23 piece of the puzzle, all right? Nothing rises or
24 falls with you, nothing makes or breaks with you.
25 Even though you are on the news or media calling

1 you, that doesn't matter. You are a witness on a
2 case like any other case, okay?

3 : Okay.

4 MS. : And so we just want you to tell
5 us what happened.

6 Okay.

7 MS. We understand it happened
8 quickly, people have different vantage points,
9 different views of things.

10 Right.

11 MS. : We want to know what you,
12 saw and heard.

13 : Okay.

14 MS. So is there anything that you
15 told us here today that you want to correct, that
16 you think maybe we didn't understand correctly?

17 : No.

18 MR. : I think you said something
19 about being concerned about changing things or
20 whatever. You should have seen how many, us sitting
21 here today, this is a clean slate, okay?

22 : Okay.

23 MR. : What you have had to say
24 before doesn't make all that much difference. What
25 we are interested in is how do you recall this.

1 : Right, uh-huh.

2 MR. We want what your best
3 recollection is.

4 Okay.

5 MR. : So don't worry about trying
6 to keep things straight or not changing things. I
7 mean, if you recall things differently, then you
8 just need to let us know.

9 Right, right, right, right.

10 MR. : And I mean, as we sit here,
11 is there anything at all that, you know, as you look
12 back at it, that you are concerned at all?

13 Um, no, I told everything, the
14 whole story, everything you guys asked. I mean,
15 that's really nothing. I mean, it is just kind of,
16 it is just maybe a few questions. About if a gun
17 went off in the car.

18 MS. Look, some people heard one
19 thing, others heard another. You didn't hear it,
20 you didn't hear it. We just want to know what you,
21 yourself, heard and saw.

22 : Okay.

23 MR. : We want to know what you
24 actually know. If you're not sure, if you don't
25 recall, we need to know that, okay?

Page 132

1 Okay.

2 MR. : What is your concern about
3 that, about the shot was in the car?

4 : No, no, I mean, not too much
5 of a big concern, but it just, uh, uh, like
6 basically me just wanting to know if a shot really
7 did go off in the car.

8 MS. : We can't tell you one way or
9 the other.

10 I understand.

11 MS. : Here is the thing, it is like
12 we said before, if we tell you what someone else
13 said.

14 : Absolutely.

15 MS. : What you, yourself, saw. It is
16 natural when people start telling you things.

```
17                                     : Gotcha.
```

18 MS. : You start putting pieces
19 together.

20 : Uh-huh.

21 MS. : And you, you know, you may
22 start thinking you know something when in fact, you
23 know, you don't.

24 : I understand, I clearly
25 understand.

1 MS. Okay. So you brought up
2 before, so is reading what I refer to the
3 statement, is reading a transcript of it. The
4 reason we were asking about it is it was clearly
5 something different that you said from what you're
6 saying today. It doesn't mean you are getting in
7 trouble for that, we are just trying to figure out
8 why you said one thing on one day and why you are
9 saying a different thing today, and that is why we
10 brought it up.

11 : Okay. That is just that
12 little part.

13 MS. Right.

14 MR. And you said other things
15 before, you mentioned different --

16 : Yeah, yeah, yeah, I was
17 adding --

18 MR. : You have talked about, yeah,
19 right, I'm just talking about, you know, when you go
20 back through those statements, there is that one
21 instance we talked about, you know, where you talk
22 about the police officer being in the car when you
23 heard the first shots fired.

24 Other times you talked about that he was
25 out of the car when the first shots were fired.

1 What we are trying to figure out is just
2 how you best recall it or whether or not you are
3 sure about whether he was or, you know, at the time
4 that the shots occurred, that's all we are trying to
5 do.

6 : Okay, not a problem.

7 MR. Well, I mean, let me just
8 touch on that one more time. Can you tell us what
9 you recall about at that point as you are looking at
10 the window?

11 : As I'm looking out the window,
12 I see Mike Brown at the driver's side window of the
13 police vehicle. I see a tussle, I see his arms
14 moving, I see the officers arms moving, so I heard a
15 hard tussling.

16 Then all of the sudden they just takes
17 off, they just takes off running. I see his friend,
18 like I said, he runs to the first car that he sees,
19 runs behind the trunk of the car because the officer
20 immediately gets out of his vehicle and started
21 shooting. So I see him looking at the officers as
22 he was taking large steps going for Mike Brown.

23 About the time that I notice that the
24 officer went past his friend, that's when I came
25 outside. By the time I gets outside, I see Mike

1 Brown now facing the officer. He's bent down, got
2 his arm under his stomach and, um, like he was going
3 down, not even to surrender, to say give up, just
4 going down to bleed a little, but the officer just
5 lets out four or five more shots at him and then he
6 hits the ground.

7 MR. : All right.

8 Just like (inaudible).

9 MR. : You said several times too
10 that those first shots that officer fired, closer to
11 the car, that you heard those. Are you sure that
12 you actually saw him fire those shots or did you
13 hear those shots, or because you said several times,
14 I notice in your prior statements that you refer to
15 hearing them.

16 : Yeah, I saw him. I saw him
17 shooting at Mike Brown the moment he gets out of the
18 vehicle.

19 MR. : Okay. The moment he's
20 getting out of the vehicle?

21 : Yeah, the moment --

22 MR. : Is he fully out of the car?

23 : Yeah, he is fully out of his
24 car standing with his gun out, starts shooting, but
25 he is still in his vehicle range and his cruiser

1 range. So he ain't even get past it, you know,
2 before he started shooting. So he is just like, he
3 gets out of the car, bam, you know, starts shooting.

4 MR. : Anything else?

5 No.

6 MS. Do you have any other questions
7 for us?

8 Not at the moment.

9 MS. : Did we force you to say
10 anything you didn't want to say?

11 : Uh, no.

12 MS. Do you think we treated you
13 fairly?

14 : Yes.

15 MS. Is there anything else you want
16 us to know, anything else you want us to know?

17 : Uh, no, not at the moment, but
18 you know, maybe as time go on, I do have you guys.

19 MS. : Yes, you do. That's a good
20 point you made. I want you to know just because you
21 came in here and spoke to us doesn't mean you can't
22 feel free to call .

23 : I definitely will because I
24 don't have a lawyer neither.

25 Do you feel like you need a

1 lawyer?

2 : Maybe not, maybe not. I'm
3 just looking at why do everybody else have a lawyer.

4 : That's an excellent --

5 : Do they feel like me?

6 MS. : We can't tell you, all we can
7 tell you, you are not in any trouble if you come in
8 here and tell us what happened and the truth, okay?

9 : Okay.

10 MS. So as long as you came here and
11 told us what happened.

12 : Right.

13 MS. : Then you don't have to worry.

14 : Okay.

15 MS. Because that's all we really
16 want.

17 : Okay.

18 Can I ask you, I'm concerned
19 about it, I understand the worry.

20 : Uh-huh.

21 And I think that if you want
22 to talk to us again or one-on-one if you just want
23 to talk to , you want to talk me, you just want
24 to talk anyone, you can do that too, but I do think
25 there is more to it, I really do. And I want you to

1 feel comfortable with that because understand, you
2 are not in any trouble, do you understand that?

3 I understand.

4 : Okay.

5 MS. : Is there anything else? You
6 seem hesitant, that's why I keep asking you.

7 : Um, I mean, since, since, you
8 know, I received the call, you know, about, you
9 know, come down to the FBI or whatever, I've been,
10 you know, I can't wait to get down there, you know,
11 I need to tell you how I feel. You know, what's
12 going on, it is just me, do I need to keep doing
13 what I'm doing, go to work, you know, take care of
14 your family, you're doing, you're fine. Okay, so I
15 don't know if I need to be told that, you know, or
16 if I really need some help, you know. It is really,
17 really bothering me.

18 Like all the way it has been over a month
19 now, I haven't ate good, you know.

20 I just checked my weight today and I lost
21 some pounds.

22 : Okay.

23 At the time that I checked it
24 was like 160, 165. I checked it today, it was like
25 152.

1 Okay.

2 I've been eating like
3 horrible, like once a day, like mostly like at
4 nighttime. You know, so the whole day I eat little
5 snacks, I'm not getting full like, you know,
6 everybody supposed to eat good full like two or
7 three times a day at least, but I'm not eating much,
8 not getting as good of sleep.

9 What's on your mind?

10 : I mean, I don't know just, um,
11 maybe just what if what I already did with the
12 reporters and, you know, I be thinking like somebody
13 is looking for me, maybe. You know, I just have
14 weird feelings.

15 What type of person, what do
16 you think that you did wrong?

17 : I mean, just the point, um, I
18 did quite a few interviews and I don't think, I only
19 know there's a few witnesses. I think I just
20 notice --

21 : There is only a few witnesses
22 that went to the media, there is a big difference
23 between only a few witnesses.

24 : Okay. I don't think they
25 didn't do as many as I did.

1 : Okay.

2 But like I said, I don't know
3 if I'm just worried, by me doing that I just
4 immediately felt so worried since then and not
5 having a lawyer and seeing that on the internet.

6 MS. Are you worried about being
7 called a snitch?

8 No, I'm not worried about
9 that. I'm hoping, I don't want nothing happening to
10 me, you know. Maybe if my information is really
11 good enough or whatever, and you know, I don't want
12 nobody coming looking for me because I have good
13 information, whatever the case.

14 MS. : Gotcha.

15 : I have a weird feeling.

16 MS. : Well, I tell you this, first of
17 all, and I know if you feel like your personal
18 safety is endanger, you need to call 911, but you
19 have my name.

20 Yes.

21 : Okay. If you get any threats
22 or anything you call me. That is the main office
23 number, you can talk to anyone.

24 : Okay.

25 : If that makes you --

1 : Okay.

2 You know, anybody you want to
3 talk with.

4 : Okay.

5 : Ask for me, they'll put you
6 through.

7 : Okay, all right.

8 : But I suspect there is more
9 to it. I know there is a lot of pressure, like you
10 said, you feel like, I don't want to put words in
11 your mouth, but there may be a bit of a spotlight on
12 you?

13 Yeah, that too, that too. You
14 know, it is almost like a now, I already got bills
15 that I have to, you know, worry about it now. Now
16 this is just all up in my mind.

17 Yeah.

18 : You know, so, I mean.

19 MS. You said something before about
20 being a good enough witness, there is no such thing
21 as being a good enough witness. Everybody knows
22 what they know.

23 : Right.

24 MS. : Or they don't know, everybody
25 plays a part. There is no measure for anything, the

1 only thing we want is for people to come in and tell
2 us what happened. Nobody is good enough or bad
3 enough, they are what they are.

4 : Okay.

5 MS. You saw what you saw, heard
6 what you heard and that's it.

7 Okay.

8 MS. : Not good enough or bad enough,
9 you happen to be there and see the part that you
10 did.

11 Okay.

12 Do you feel comfortable with
13 everything you said today?

14 Yes.

15 : Okay.

16 : Okay.

17 MS. : Thank you.

18 : Thank you.

19 : All right.

20 : I hope that is good enough.

21 MS. : I just said there is no such
22 thing as good enough, did you tell us the truth?

23 : Yes, of course. I done

24 exactly what I saw and just to let you know, the

25 last interview I did with , that last

1 one. You know, I don't know if he was trying to
2 confront me or whatever, but he had the other girl,
3 he had me to listen to her story so see whether my
4 story were to change. I mean, that's what she saw
5 and this is what I saw, you know.

6 MS. : Right, so you made a good
7 point. He showed you someone else's interview?

8 : Yeah.

9 MS. And he asked you about it,
10 right? Is why you feel uncomfortable, this is why
11 we don't tell you what other people said, we just
12 want to know what you said. We are not going to ask
13 you about someone else's.

14 : I gotcha.

15 MS. : Okay.

16 : I gotcha.

17 MS. : Do you feel like we treated you
18 fairly with the questions?

19 Yes, yes.

20 MR. : You are comfortable today?

21 : Yes.

22 MR. : Do you feel like we
23 confronted you the way he did?

24 Yeah.

25 MR. : That we confronted the way

1 did, is what you are talking
2 about?

3 Oh, no, no, no.

4 MR. : All right. But you're
5 concerned about the way (inaudible), that's why you
6 quit doing media interviews?

7 : No, no, because after that, it
8 just, I just thought I did so many and all of these
9 reporters, they was coming to my house, calling my
10 phone, they coming to my momma's house. I don't
11 know how they got my momma's address.

12 They called my next door neighbor, I don't
13 know how they get her number. They was just like,
14 when I get home, it has been like a good two weeks
15 after his death, like they like, when I get home, I
16 like to straighten out my apartment. I like to
17 straighten up to make sure everything is right.

18 I've got kids, you know, I like to
19 straighten up and relax. That's the first thing I
20 like to do when I get home there may be three or
21 four waiting on me, you know, trying to get a piece
22 of me and stuff like that whatever. And, you know,
23 they throw cameras in my face and say, it is live.
24 I'm like okay, whatever.

25 But it is just after so many of them, that

1 is just when it hit me, that same night after doing
2 that show, I came back home and my fiancée came home
3 too, and we kind of had some words exchanged and she
4 didn't want to give me a kiss or whatever, but
5 normally when she don't do that, I go up and mess
6 with her, but I didn't bother her at all about that.

7 I just went into the kitchen and started
8 walking around in the kitchen and I started to fix
9 me a sandwich. As I was fixing a sandwich, I've got
10 the two (inaudible) out, but I'm just pacing back
11 and forth in the kitchen. I started sweating and
12 being real nervous.

13 So when my fiancée walking around, you
14 know, with an attitude, I stopped her in the kitchen
15 and said look, you know, right now, you know, what
16 you want right now is petty right now, I just want
17 to tell you that right now. I'm feeling very, very
18 sick right now, very, very sick. I'm shaking and
19 I'm nervous right now and I'm scared, you know.

20 It is just since that day, it has been
21 kind of different. Like I said, my stomach started
22 hurting then one morning, on Monday morning, on
23 Mondays I have to be at work about 6:00 in the
24 morning to go to the office, but I woke up like five
25 something with some real chest pains.

1 So, you know, it was just almost like, you
2 know, something trying to happen, you know. One
3 after another, whatever.

4 I don't know, like I said if I'm just
5 worried. I be on the highway and a couple of times
6 I'll be seeing like almost accidents going to happen
7 or whatever, you know. And like I said, I'm
8 worried, I be worried. It has been twice I seen
9 when I leave off work, I gets on the highway, has
10 been two times I seen a guy on a motorcycle, black
11 motorcycle, black helmet, black everything, follow
12 me. I don't know, he wasn't following me though,
13 but just, you know, I didn't see him in my rear view
14 at first, but now I see him.

15 And from St. Charles Rock Road to Lucas
16 and Hunt, it is kind of a little distance. He was
17 behind me for a minute and I got to thinking like,
18 then he zoomed past me and then started catching up
19 and then he started catching up. And he zoomed in
20 front of me and then he zoomed in front of another
21 car and I'm like oh, that could have been an
22 accident.

23 I'm just saying, I was looking what if
24 this guy maybe looking for me. I think of stuff
25 like that. So that's it, that's it, so I am

1 comfortable talking to you guys about that.

2 MR. : Other than that news
3 interview you talked about, has anybody confronted
4 you about this in a way that --

5 No, I know around my
6 neighborhood and at work, everybody is looking at me
7 as a super star, you know. When I catch some guys
8 at the store, have you been on TV. They be wanting
9 to shake my hand so. I see, you know, in that
10 community they see me as, I guess, I'm okay, you
11 know, so.

12 I do think of the Klu Klux Klan, I do
13 think of them. You know what, a friend told me
14 yesterday, I don't know if it is true or not, I
15 doubt if it's true. He said, uh, that something
16 happened to Mike Brown's family at their house, like
17 their house got shot up or something.

18 I'm asking?

19 That's what he said, he said that one of
20 Mike Brown's family's momma house or something got
21 shot up by the Klu Klux Klan or whatever, you know.
22 So that is what he tells me last night or whatever.
23 So I don't do much believe that, but still as far as
24 me, just in case because I don't have a lawyer or
25 whatever, all the information that I said on each

1 interview and stuff like that, so that's it, that's
2 it, you know.

3 Okay.

4 But I am comfortable, so I do
5 have your number, so anything else I'll make
6 contact.

7 Okay. Well, I'm going to end
8 the recording. It is 2:38 p.m.

9 (End of the recording.)

10 MS. ALIZADEH: It is 11:35 and this is
11 Kathi Alizadeh, all 12 grand jurors are still
12 present, we just completed the tape recorded fourth
13 statement of . And at this point, I'm
14 going to have go ahead and finalize the tape.
15 Immediately after this, immediately after finalizing
16 the tape, I have a witness that we are going to go
17 ahead and call.

18 Typically we play the statement before the
19 witness, but I just, since he has been here, I would
20 like to get him on and off so he doesn't have to
21 wait. And then after he testifies, we will play his
22 statement for you, which is about 30 minutes and
23 only one. And, um, then you break for lunch, maybe
24 after this witness testifies and then after lunch
25 play that 30 minute statement of his. And so at

1 this time we will end this recording and finalize
2 the disc.

3 (Recess)

4 MS. ALIZADEH: All right. This is Kathi
5 Alizadeh, all 12 grand jurors are in the room, as
6 well as Sheila Whirley who is with the St. Louis
7 County Prosecutor's Office, and at this time I will
8 ask the court reporter to pause the audio recording
9 and then we will have the witness identify himself
10 and then we will resume the audio recording for his
11 sworn statement.

12 WITNESS 10,
13 of lawful age, having been first duly sworn to
14 testify the truth, the whole truth, and
15 nothing but the truth in the case aforesaid,
16 deposes and says in reply to oral
17 interrogatories, propounded as follows, to-wit:

18 EXAMINATION

19 BY MS. ALIZADEH:

20 Q Now, as I mentioned to you, well, let me
21 first have you state your name.

22 A (Redacted)

23 Q And I told you before you came in here we
24 were going to record things, but that you were not
25 going to be recorded when you stated your name,

1 correct?

2 **A** Correct.

3 **Q** And you believe me that I'm going to keep
4 my word on that?

5 **A** Yes.

6 **Q** All right. And then after the
7 introduction portion, the court reporter will begin
8 the recording again. You will be referred to as
9 Witness Number 10, all right?

10 **A** (Nods head.)

11 **Q** And the grand jurors will refer to
12 themselves by their grand juror number.

13 If, you know, sometimes I don't know
14 if there will be any reason why you would say your
15 own name, I would try to remind you don't mention
16 your own name while we are recording because that's,
17 we are trying to protect your identity, okay?

18 **A** Okay.

19 **Q** How old are you?

20 **A** (Redacted)

21 **Q** And what's is your date of birth?

22 **A** (Redacted)

23 **Q** Okay. And whereabouts do you live?

24 **A** (Redacted)

25 **Q** And did you grow up in ?

1 **A** Yes.

2 **Q** Okay. And are you familiar with the
3 Ferguson area?

4 **A** Yes.

5 **Q** And what do you do for a living?

6 **A**

7 **Q** And what's the company you work for?

8 **A** (Redacted)

9 **Q** How long have you been working for them?

10 **A** I have been working for them for

11

12 **Q** Okay.

13 MS. ALIZADEH: At this time, , I will
14 have you go ahead and start the audio recording.

15 (Audio recording is started.)

16 **Q** (By Ms. Alizadeh) Now, Witness Number 10
17 you have been sworn and you have just introduced
18 yourself to the jurors. And you understand that
19 this is an investigation into the shooting death of
20 Michael Brown, correct?

21 **A** Correct.

22 **Q** I talked to you on the phone yesterday
23 about coming forward and testifying today, correct?

24 **A** Correct.

25 **Q** And you know you are under oath and sworn

1 to tell the truth?

2 **A** Yes.

3 **Q** You have been interviewed by the St. Louis
4 County Police Department as well as the FBI; is that
5 correct?

6 **A** Correct.

7 **Q** But that was just one interview; is that
8 right?

9 **A** Yes.

10 **Q** Have you ever been on television or gone
11 before the media?

12 **A** No.

13 **Q** Have you done any other interviews whether
14 it be with law enforcement or anybody in the
15 entertainment or media industry?

16 **A** No.

17 **Q** And so other than that statement that you
18 made previously to the County Police and the FBI, is
19 this really only the second time where you've been
20 asked to answer questions about what happened on
21 that day?

22 **A** Correct.

23 **Q** Okay. So Witness Number 10, can you tell
24 me on August 9th of this past year, a little over a
25 month ago, were you still working for the company

1 that you identified at that time?

2 **A** No, I was actually doing a side job.

3 **Q** Okay. So this was something on your own
4 that you were doing?

5 **A** Correct.

6 **Q** And were you working by yourself that day
7 or were you with anyone else?

8 **A** I was working by myself.

9
10 **Q** Okay. So was it a that
11 you were working at?

12 **A** No.

13 **Q**

14 **A**

15 It is being there
16 in that doing just that they asked
17 for me to do.

18 **Q** Okay. So what kind of work were you
19 doing, was it indoor work or outdoor work at this
20 ?

21 **A** Indoor.

22 **Q** Was it work you are familiar with, like
23 and stuff like that?

24 **A** .

25 **Q** And so you said that was the

1 you had ever been at that ?

2 **A** Correct.

3 **Q** When were you previously at that ?

4 **A** I believe in , maybe.

5 **Q** Okay. So before?

6 **A** Yes, yes.

7 **Q** And did you know the name of the
8 ?

9 **A** No.

10 **Q** And the day on August 9th when you were
11 working there, was there anyone at
12 ?

13 **A** Yes

14 **Q** And is that just that was
15 there?

16 **A** No, it was
17 and the original that once before I
18 seen once before.

19 **Q** Okay. So the original , was that
20 that was there?

21 **A** .

22 **Q** Was the was
23 that that you know of?

24 **A** I'm not sure.

25 **Q** Okay. Did you have any interaction with

1

2 **A** No.

3 Q Okay. About what time of day did you get
4 to that

5 **A** Um, I arrived roughly around

6 Q In the morning?

7 **A** Yes.

8 Q And do you remember the address of that
9 ?

10 **A** No, I'm not sure.

11 Q So are you familiar with the Ferguson
12 area?

13 **A** Yes.

14 Q And how did you get to that that
15 day? I mean, you don't have to start like where you
16 are starting at home, but did you get to that
17 residence off of West Florissant?

18 **A** Yes.

19 Q Okay. So from West Florissant, what
20 street did you turn onto?

21 **A** Let me back that up. No, I actually
22 didn't get onto the street off West Florissant, I
23 actually took

24 there is a

25 back way off you can take to get to

1 that street.

2 Q Okay. Is the near the Canfield
3 Green Apartment Complex?

4 A Yes,

5

6 Q Now, I might ask you to stand up here
7 Witness Number 10. And this is an exhibit that I've
8 marked as GJ for Grand Jury Exhibit Number 25, which
9 is a map. I showed you this map right before you
10 came in to testify; is that right?

11 A Yes.

12 Q Okay. And are you familiar, do you
13 recognize the streets or the layout as being streets
14 that are in the Canfield Green Apartment Complex?

15 A Yes.

16 Q Can you see where you were
17 working that day?

18 A Yes.

19 Q Can you point to it so the jurors can see?

20 A (Indicating)

21 Q And the number where you are pointing is

22

23 A Yes.

24 Q Okay. So does this face, now, if
25 this Canfield Drive, does the face Canfield

1 Drive?

2 **A** Yes.

3 **Q** And is this a ?

4 **A** Yes.

5 **Q** Is the off of Canfield Drive?

6 **A** Yes.

7 **Q** All right. So did you have your, you can
8 sit down now, thanks.

9 Did you have your own vehicle that
10 day?

11 **A** Yes.

12 **Q** What kind of vehicle were you in?

13 **A**

14 **Q** And with your type of work, do you have
15 things that you keep in that
16

17 **A** Correct.

18 **Q** Okay. And so you said that you were doing
19 work that day, would you have occasion
20 to have to come outside while you were working?

21 **A** Yes.

22 **Q** And where was your parked?

23 **A** It was parked in the , front face
24 towards the .

25 **Q** So you pulled straight into the

1 and the nose of your vehicle is facing the

2 **A** Yes.

3 **Q** Okay. And from the time you got there
4 around that day, did you ever leave before the
5 incident that we are here to testify about?

6 **A** No.

7 **Q** So from until something happened, was
8 there anything else memorable about that morning?

9 **A** No.

10 **Q** And then something happened that you know
11 why you are here to testify about. Can you just
12 narrate for the jurors what is the first thing that
13 you heard or saw that drew your attention?

14 **A** Well, first thing I saw was, I came
15 outside to get that I needed.
16 I was just finishing up the job. I came outside to
17 get and I seen Mike Brown and his friend
18 walking down the street closer to the curb, not on
19 the sidewalk and my initial thought was with me
20 being aware of my surroundings, they were walking
21 towards me. My initial thought was wow, that is a
22 big guy right there, and speaking on Mike Brown.

23 **Q** So let me stop you, did you know Mike
24 Brown before that day?

25 **A** No.

1 **Q** Had you ever seen him before?

2 **A** No.

3 **Q** And the other person that was with him,
4 how would you describe him?

5 **A** Short. I just recognize, I really picked
6 up on and drew in and focused on Mike Brown because
7 he was such a big guy and, um, the only thing I can
8 recall on his friend he was short, had dreads and
9 with the color dye in his dreads and that was pretty
10 much it.

11 **Q** So his short dreads were like tipped
12 color; is that right?

13 **A** Yes, yes.

14 **Q** Okay. And so when you first saw them,
15 were they walking like in the direction of the
16 apartment complex or out of the complex?

17 **A** They were walking in the direction of the
18 complex.

19 **Q** So they were walking this direction
20 towards the complex?

21 **A** Yes.

22 **Q** And at this point, when you first saw
23 them, were you near your ?

24 **A** Yes, I was actually in the back door of
25 the , um, where it is closer to the sidewalk.

1 And they were just coming up upon me and that's when
2 I, me being aware of my surroundings, I just focused
3 in on Mike Brown and his friend coming up close to
4 me.

5 Q And so when you first saw them then, were
6 they closer to West Florissant or were they past the
7 ?

8 A They were closer, like really probably I
9 would give it maybe within 10, 15 yard range of me.

10 Q And do you remember, other than their
11 sizes, do you remember anything about their clothing
12 that drew your attention?

13 A Yes, I remember Mike Brown, he had on flip
14 flops, black, and his socks really drew attention.
15 They were bright neon yellow with, it appeared to be
16 marijuana symbols on them.

17 Q Okay. Anything else that you recall
18 noticing about either one of them?

19 A Mike Brown had a St. Louis Cardinal hat
20 on, red St. Louis Cardinal hat.

21 Q Okay.

22 A That was pretty much it.

23 Q Did you notice, were either of them
24 carrying anything?

25 A No, I didn't notice that.

1 **Q** Okay. Did you notice them doing anything
2 like with each other, were they interacting in a way
3 that drew your attention?

4 **A** No, they were just talking amongst each
5 other.

6 **Q** So other than noticing, like you said, you
7 are aware of your surroundings when you are working,
8 so you see these two guys about 10, 15 feet or
9 yards, I can't remember?

10 **A** Yards, yards.

11 **Q** 10 or 15 yards walking in your direction,
12 did you feel threatened by their presence at all?

13 **A** I didn't feel threatened, I just, I don't
14 know, I was just aware of my surroundings and just
15 ready for, I'd rather be ready for anything that
16 happens instead of being a surprise to me.

17 **Q** So you noticed that this one guy, and you
18 now know the bigger guy's name is Michael Brown,
19 correct?

20 **A** Correct.

21 **Q** Have you ever learned who the small,
22 shorter guy was?

23 **A** Yes, through the media.

24 **Q** Okay. And so what do you know his name to
25 be?

1 **A** It is Mr. Johnson, I believe.

2 **Q** And so when you, when you saw them, did
3 they just continue to walk in your direction down
4 the street?

5 **A** Yes.

6 **Q** Did they stop and talk to you at all?

7 **A** No.

8 **Q** Did you wave at them or did you know if
9 you made eye contact with them at all?

10 **A** No.

11 **Q** So did they pause or stop at all?

12 **A** No.

13 **Q** So they just continued to walk down the
14 street?

15 **A** Correct.

16 **Q** Did it appear that they were walking
17 casually, leisurely, in other words, or did they
18 appear to be in a hurry?

19 **A** Just casual walking.

20 **Q** And at this point you said they were in
21 the street?

22 **A** Yes, closer to the curb.

23 **Q** Close to the curb, but still in the
24 street?

25 **A** Still in the street, yes.

1 **Q** Are there sidewalks at that location by
2 the

3 **A** Yes, yes.

4 **Q** And so they are in the street, but closer
5 to the curb?

6 **A** Yes.

7 **Q** Were they walking in, I guess what I'm
8 going to say, the correct lane of traffic. So in
9 our country and you are driving on a two way street
10 you stay to the right?

11 **A** Uh-huh.

12 **Q** So were they on the right side or were
13 they walking like against the traffic?

14 **A** No, they were walking with the traffic.

15 **Q** Okay. And so how long did you see them or
16 have them in your sight before you didn't see them
17 any more?

18 **A** Um, I would say within maybe a minute or
19 less. Like I said, I was just out getting, out
20 retrieving my tools to go back in the to wrap
21 it up. After they passed me, that's when I went
22 into the .

23 **Q** Okay. So you took your or
24 whatever, and went into the ?

25 **A** Yes.

1 **Q** When is the next time you come outside?

2 **A** I forgot something, to get something out.
3 I went out to get something else from the . I
4 would say it was maybe within a two minute time
5 span.

6 **Q** And what did you see or hear when you came
7 out the second time?

8 **A** Well, when I came out the second time, the
9 way the view of the is -- I guess I use the
10 pointer?

11 **Q** Sure, you can use that.

12 **A** My is parked actually right here.
13 The front door of the facing the street. I
14 came out of the and when I came out walking
15 towards the , this is still open right here
16 because I did not drive all the way up
17 .

18 So my view of sight as seeing the
19 police car right.

20 **Q** If you need to get up to look at the names
21 or anything, feel comfortable to do that.

22 **A** Okay. Police car was right about here.
23 (indicating)

24 **Q** Okay. And so if Canfield Drive, I will
25 describe that as a horseshoe, is that fair to say?

1 **A** Yes.

2 **Q** The police car was like right in between
3 the two legs of the horseshoe?

4 **A** Correct.

5 **Q** Which direction was it facing?

6 **A** It was facing towards me.

7 **Q** So it was facing West Florissant?

8 **A** Yes.

9 **Q** And was the car, police vehicle moving or
10 was it still when you saw it?

11 **A** It was still, it was at a slight slant.

12 **Q** Okay. And so what then did you see
13 happen?

14 **A** I seen Mike Brown was leaned over inside
15 the police officer's window. I didn't see
16 Mr. Johnson at any moment during this time.

17 **Q** So did you see where he went or anything?

18 **A** No.

19 **Q** So when you come back out, you don't see
20 him?

21 **A** No.

22 **Q** You just see Mr. Brown?

23 **A** I just see Mr. Brown inside the police
24 officer's window. It appeared as some sort of
25 confrontation was taking place. After that, that

1 took place for seconds, I'm not sure how long. I
2 know that it appeared that some confrontation was
3 taking place.

4 And one shot, the first shot was let
5 loose and after the first shot, Mike Brown came out
6 of the window and took off running.

7 With that happening, I thought
8 instantly because the police officer didn't
9 immediately react on how I would have thought it
10 would have went down. Where he didn't immediately
11 get out of his car and chase after Mike Brown.

12 So my initial thought was that wow,
13 did I just witness this young guy kill a police
14 officer.

15 So after that, Mike Brown ran some
16 distance, the police officer exited his vehicle with
17 his weapon drawn, pursuing Mike Brown, and I would
18 say Mike Brown, he stopped right here. He was
19 turning into this driveway right here, but he
20 stopped right here.

21 The officer was already in pursuit of
22 him. He stopped. He did turn, he did some sort of
23 body gesture, I'm not sure what it was, but I know
24 it was a body gesture. And I could say for sure he
25 never put his hands up after he did his body

1 gesture, he ran towards the officer full charge.

2 The officer fired several shots at
3 him and to give an estimate, I would say roughly
4 around five to six shots was fired at Mike Brown.

5 Mike Brown was still coming towards
6 the officer and at this point I'm thinking, wow, is
7 this officer missing Mike Brown at this close of a
8 range.

9 Mike Brown continuously came forward
10 in the charging motion and at some point, at one
11 point he started to slow down and he came to a stop.
12 And when he stopped, that's when the officer ceased
13 fire and when he ceased fired, Mike Brown started to
14 charge once more at him. When he charged once more,
15 the officer returned fire with, I would say, give an
16 estimate of three to four shots. And that's when
17 Mike Brown finally collapsed right about even with
18 this driveway. (indicating)

19 And during this whole time there was
20 a blue Monte Carlo parked almost right where that
21 car is while this altercation was taking place.

22 And the car drove around and stopped
23 right here and when Mike Brown collapsed in the
24 street, that's when his friend came out, I don't
25 know out of what direction he came from. All I know

1 is I seen him run across from in front of the squad
2 car and he ran across and he stopped like evenly
3 with the car that was parked right here and yelled,
4 "he just killed him, he just killed him."

5 I'm not sure if he was speaking with
6 the people that were in the car or if he knew them.
7 He never leaned over to address them, he just yelled
8 it. After he yelled it, he ran off through the back
9 fields of Canfield.

10 Q All right. Now, I'm going to start at the
11 beginning and we are going to kind of go through
12 this a little bit and I'm going to ask you more
13 detailed questions to clarify.

14 So from the time that you came
15 outside, and you said you were at the back of your
16 ?

17 A When I first seen Mike Brown.

18 Q Okay. The second time you came out, where
19 exactly were you then?

20 A I was in front, actually, at the corner of
21 the in front of the in front of my
22

23 Q Did you change your position during this
24 entire scenario?

25 A No.

1 **Q** Like did you run down towards the street
2 or anything?

3 **A** No.

4 **Q** Did you run out into the street?

5 **A** No.

6 **Q** So you just stayed where you were?

7 **A** Yes.

8 **Q** And from where you were, did you have a
9 line of sight where you could see, you described
10 Michael Brown as actually coming to a point where he
11 was almost turning onto Copper Creek Court?

12 **A** Yes.

13 **Q** Could you see that from where you were?

14 **A** Yes.

15 **Q** So when you first look down that street,
16 you said you saw Michael Brown in the officer's
17 window?

18 **A** Correct.

19 **Q** So describe for the jurors how, what you
20 mean by that?

21 **A** Half of his body, his feet was still
22 planted on the ground, his upper body was inside the
23 window in a leaning motion inside the window, his
24 upper body was inside.

25 **Q** Now so is that the first thing you see

1 when you look that he's already got his upper body
2 inside the car?

3 **A** Yes.

4 **Q** So anything that happened before that, you
5 didn't --

6 **A** I never seen it.

7 **Q** -- witness? Did you hear tires squealing
8 or anything?

9 **A** No.

10 **Q** Anybody screaming or yelling?

11 **A** No.

12 **Q** Okay. So when you saw that, what did you
13 see, could you see into the windshield of the
14 officer's car?

15 **A** No, I could just see him leaned over
16 inside the officer's car.

17 **Q** So who's him?

18 **A** Mike Brown.

19 **Q** Okay. And so you said his head was inside
20 the window?

21 **A** Yes.

22 **Q** His shoulders?

23 **A** Yes.

24 **Q** His upper body?

25 **A** Yes.

1 **Q** Okay. And could you see the officer from
2 that vantage point?

3 **A** No.

4 **Q** Could you see what was going on inside the
5 car?

6 **A** Not really, no.

7 **Q** Can you see was the vehicle moving at all?

8 **A** No.

9 **Q** Was Mike Brown moving at all?

10 **A** It appeared to be.

11 **Q** Okay. And can you describe, I don't want
12 to put the words in your mouth, I want you to
13 describe what you saw when you say it appeared to be
14 that he was moving?

15 **A** It appeared to be some sort of
16 confrontation taking place in the vehicle. I
17 couldn't make it out, I couldn't say who did what
18 within that time span within that vehicle. All I
19 know is that it just looked out of the norm with
20 somebody being leaned over inside the police
21 officer's car.

22 **Q** Okay. So did you hear anything, like
23 yelling, were they yelling at each other or anybody
24 yelling?

25 **A** No.

1 **Q** Okay. So I can be clear on this, is it
2 that you didn't hear anything or there wasn't
3 yelling?

4 **A** I didn't hear anything.

5 **Q** Okay. And so you believed there was an
6 altercation, is it a physical altercation or just a
7 verbal altercation?

8 **A** For me I would think it was a physical
9 with being, him being inside the vehicle.

10 **Q** Okay. And so, and then you said that went
11 on for a few seconds?

12 **A** Yes.

13 **Q** And then you heard a gunshot?

14 **A** Yes.

15 **Q** Have you heard a gunshot before?

16 **A** Yes.

17 **Q** And you recognize that sound as a gunshot?

18 **A** Yes.

19 **Q** And how many gunshots did you hear at that
20 point?

21 **A** One.

22 **Q** And then what did you say Mike Brown did
23 at that point?

24 **A** At that point, he exited, he took himself
25 out of the vehicle, removed himself from the vehicle

1 and ran towards the complex, deeper into the
2 complex.

3 Q So at the time that you heard that single
4 gunshot, was Michael Brown's upper body, as you
5 described, inside the police vehicle?

6 A Yes.

7 Q And so when he, how long after that shot
8 does his body come out of the vehicle?

9 A Almost immediately.

10 Q Okay. And then how long after his body
11 comes out of the vehicle does he turn and start to
12 run?

13 A Immediately.

14 Q And then you said that it took sometime
15 longer than you would have expected before the
16 officer got out of his vehicle?

17 A Yes.

18 Q And can you give me just in your best
19 estimate, are we talking seconds or minutes?

20 A No, seconds, maybe 10 to 15 seconds.

21 Q Okay. And do you remember what kind of
22 vehicle this is?

23 A Yes, it is a truck, I think maybe a Tahoe
24 like style, SUV.

25 Q A bigger SUV?

1 **A** Yeah.

2 **Q** And so when the officer got out of his
3 vehicle, did he get out from the driver's door?

4 **A** Yes.

5 **Q** And did he shut the driver's door do you
6 recall or did he leave it open?

7 **A** I don't recall that.

8 **Q** And did you, did it appear to you, when
9 you saw Mike Brown turn and run away, did you see
10 any blood?

11 **A** No.

12 **Q** Did it appear to you in any way that he
13 was somehow injured, Mike Brown?

14 **A** No.

15 **Q** Okay. When the officer gets out of his
16 vehicle, did it look to you as if he was injured in
17 any way?

18 **A** No.

19 **Q** Okay. And so how long, and you said now
20 when he gets out of the vehicle, he has already got
21 his gun drawn?

22 **A** Yes.

23 **Q** And when you say gun drawn, you mean out
24 of his holster?

25 **A** Yes.

1 **Q** In his hand?

2 **A** Yes.

3 **Q** And do you recall which hand?

4 **A** His right hand.

5 **Q** And when he first gets out of the vehicle,
6 how long before he then starts to pursue, as you
7 said, Michael Brown?

8 **A** He immediately starts to pursue.

9 **Q** And so as he begins to pursue him, can you
10 describe his pace? You said Michael Brown was
11 running, correct?

12 **A** Correct.

13 **Q** And how would you describe the officer's
14 pace?

15 **A** Running.

16 **Q** And was he, what was he doing with his gun
17 as he was running?

18 **A** Just carrying as he was running towards
19 Mike Brown.

20 **Q** Okay. Can you stand up for a second and
21 show me where, if you use your right hand and make
22 like a gun thing with your right hand. How was he,
23 when he was running, how was he, hand running, how
24 was that gun?

25 **A** Like in a running, just as you run

1 normally.

2 **Q** Okay. So he wasn't walking with the gun
3 pointed in the direction of Michael Brown?

4 **A** No.

5 **Q** Or pointed in the direction of Michael
6 Brown?

7 **A** No.

8 **Q** Okay. You can sit back down.

9 And so when the officer started
10 running after Michael Brown, can you give me an
11 estimate as to how far Michael Brown was ahead of
12 the officer, in other words, he got a little bit of
13 a head start, correct?

14 **A** Correct.

15 **Q** How far was he in front of the officer
16 when the officer started running?

17 **A** I would say the police car is right here,
18 so Mike Brown maybe was about this far before the
19 officer exited his vehicle and within that time I
20 would say the officer maybe was here when Mike Brown
21 stopped there.

22 **Q** Okay. So you initially describe that when
23 the officer got out of his vehicle, Mike Brown was
24 close to where this like, this car is on this map?

25 **A** Yeah, I would say.

1 **Q** More around Caddiefield Road?

2 **A** Yes.

3 **Q** Okay. And then the officer immediately
4 pursues him and does Michael Brown continue to run
5 down Canfield?

6 **A** Correct.

7 **Q** And then does the officer close the gap or
8 do they remain, you know, do they remain that
9 distance apart or does the officer close the gap?

10 **A** He starts to close the gap when Mike Brown
11 stops right here. And I would say the officer is
12 right at the D, for drive. (indicating)

13 **Q** Did you hear or see the officer fire his
14 weapon as Mike Brown was running away?

15 **A** No.

16 **Q** Do you know, I don't want you to guess,
17 other than maybe if you observed something that
18 caused you to assume, but do you know why Mike Brown
19 stopped and turned around?

20 **A** No, I'm not sure. That is something that
21 I wrestle with to this day, I'm not sure. I'm not
22 sure if he knew the people that was in that car and
23 he thought maybe he had time to go back to wrestle
24 with this officer. To this day, why would he turn
25 around and not give himself up.

1 **Q** And so during the time the officer is
2 running after him, do you hear the officer saying
3 anything?

4 **A** No.

5 **Q** And do you hear Mike Brown saying
6 anything?

7 **A** No. I'm at a distance where I don't hear
8 anything. All I can do is just see what's going on.

9 **Q** So you're not saying that there wasn't
10 anything said, you just didn't hear anything?

11 **A** Correct.

12 **Q** Okay. And so now you testified that when
13 Mike Brown gets to around the corner, or the corner
14 of Canfield Drive and Copper Creek Court is where he
15 turns around; is that right?

16 **A** Yes.

17 **Q** And does he, the whole time before he
18 turns around, is he running the whole time?

19 **A** Yes.

20 **Q** Running with his back to where the officer
21 is?

22 **A** Correct.

23 **Q** And then you say he turns around and what
24 does the officer do when Michael Brown stops and
25 turns around?

1 **A** He stops.

2 **Q** So at that point, are they still the same
3 distance or is it a little closer gap?

4 **A** The officer is right there, Mike Brown
5 stops right there. (indicating)

6 **Q** And so you indicated that the officer was
7 right about where the D or the abbreviation for
8 drive on Canfield Drive would be?

9 **A** Correct.

10 **Q** And Mike Brown, you indicated, was maybe
11 in the grassy area or even on the sidewalk?

12 **A** Correct.

13 **Q** At the corner of Copper Creek Court and
14 Canfield Drive?

15 **A** Yes.

16 **Q** Okay. And then what did you see happen
17 next after Mike Brown turned around, where were his
18 hands?

19 **A** Down by his side.

20 **Q** Now, you indicate that he did some kind of
21 body gesture?

22 **A** Correct.

23 **Q** And so, of course, you know that this has
24 been a point that people have talked about, correct?

25 **A** Yes.

1 **Q** Can you describe for them what you mean
2 when you said you saw him do a body gesture. If you
3 need to stand up to demonstrate, you can do that
4 too?

5 **A** I can't say for sure what sort of body
6 gesture, I cannot recall fully. All I know is it
7 was not in a surrendering motion of I'm
8 surrendering, putting my hands up or anything, I'm
9 not sure. If it was like a shoulder shrug or him
10 pulling his pants up, I'm not sure. I really don't
11 want to speculate things and that's what I have to
12 say for that.

13 **Q** Okay. So turn, Mike Brown turns around,
14 makes that gesture, then how long before he then
15 moves in the direction of the officer?

16 **A** Immediately after he did his body gesture,
17 he came for force, full charge at the officer.

18 **Q** And full charge, I guess, is running?

19 **A** Correct.

20 **Q** And was he, could you hear him say
21 anything or make any noise?

22 **A** No.

23 **Q** And is it because you were so far away you
24 didn't hear anything or you saying that there was no
25 noise?

1 **A** No, I was so far away I could not hear
2 anything.

3 **Q** Okay. And let me ask you this, how is
4 your vision?

5 **A** Pretty good.

6 **Q** Okay. Do you wear glasses or contacts?

7 **A** No.

8 **Q** And how about your hearing, is that pretty
9 good as well?

10 **A** Yes.

11 **Q** All right. And so as you then see Mike
12 Brown begin to charge at the officer, how far does
13 he get before you said the officer fires a number of
14 shots?

15 **A** The officer is right here. I would say
16 Mike Brown gets to right there, even with the car
17 before the officer starts to fire.

18 **Q** Okay. And just for the record, when you
19 say even with the car, we are talking about the car
20 that's on this map?

21 **A** Yes.

22 **Q** That's in the map, it is just a random
23 vehicle that happen to be on that street when they
24 took this picture, correct?

25 **A** Correct.

1 **Q** That car wasn't actually there that day?

2 **A** No.

3 **Q** Now, you have talked about there being a
4 car in that vicinity?

5 **A** Correct.

6 **Q** Okay. But we're just talking about the
7 car that's on the map?

8 **A** Yes.

9 **Q** So you say Mike Brown got about even with
10 that white car that's on the map?

11 **A** Yes.

12 **Q** And then how many shots did you think you
13 heard?

14 **A** Um, five to six shots.

15 **Q** All right. And could you see the officer
16 with his gun in his hand?

17 **A** Yes.

18 **Q** Are you sure it was the officer that was
19 firing?

20 **A** Yes.

21 **Q** And was he firing in the direction of Mike
22 Brown?

23 **A** Yes.

24 **Q** And then you said at that point does Mike
25 Brown continue to go forward or does he stop at that

1 point?

2 **A** He continues to come forward.

3 **Q** And you made mention, I'm not sure if it
4 was at that point, is it at this point that you
5 thought oh, my God, he's missed him at that close
6 range?

7 **A** Yes.

8 **Q** So when you heard those five or six shots,
9 did you see any blood on Mike Brown that you could
10 see?

11 **A** No.

12 **Q** Did you see him react in any way that
13 might make you think that he was hit, like, you
14 know, flinching or anything?

15 **A** It was more kind of a flinch, yes.

16 **Q** Okay.

17 **A** It was more of a flinch and, um, with my
18 thoughts of, I thought he was missing him because me
19 thinking if you get shot, you are going to go down.
20 With those multiple shots and he was still standing,
21 that's the reason why I thought he was missing.

22 **Q** Okay. And then, but you said he continued
23 to come?

24 **A** Correct.

25 **Q** Did he slow his pace or did he, was he

1 still at a charge?

2 **A** He gradually slowed his pace. And it
3 became, it came to a stop and when he stopped, the
4 officer ceased fire and he began to charge once
5 more, and that's when the officer with fatal rounds.

6 **Q** So when he became, when he stopped, about
7 how many seconds or fraction of seconds do you think
8 it was before he began to charge again?

9 **A** I would give it maybe two seconds.

10 **Q** Okay. And then how far did you get on
11 that, after stopping and then he's charging again,
12 how far did he get about, if you can estimate feet,
13 that's fine, or if you want to say how many steps he
14 may have taken, that's fine too?

15 **A** Maybe five to six steps.

16 **Q** And then when he, you said, and then the
17 officer began shooting again?

18 **A** Correct.

19 **Q** And about how many rounds do you think you
20 heard then?

21 **A** Three to four.

22 **Q** You said that was the fatal rounds, did
23 you see Mike Brown then --

24 **A** Collapse.

25 **Q** -- collapse onto the pavement?

1 **A** Correct.

2 **Q** And did you, after he collapsed, did the
3 officer continue to fire?

4 **A** No.

5 **Q** And did you see the officer, did he go up
6 to Mike Brown's body at that point?

7 **A** At that point, something else had caught
8 my attention, Mr. Johnson caught my attention at
9 that time when he ran across the street.

10 **Q** Okay.

11 **A** Okay.

12 **Q** At that point you are not necessarily
13 looking at the officer and Mike Brown, you are
14 focusing on Mr. Johnson?

15 **A** Correct.

16 **Q** And you recognized him as the shorter guy
17 who had been with Mike Brown that you had seen
18 earlier?

19 **A** Yes.

20 **Q** And so you said he ran around like in
21 front of the police vehicle?

22 **A** Correct.

23 **Q** And then ran toward this area where you
24 said you had seen this car?

25 **A** Yes.

1 **Q** And this was a car that had been over
2 here?

3 **A** Yes.

4 **Q** And had pulled around this horseshoe
5 driveway, correct?

6 **A** Correct.

7 **Q** Around Building Number 18?

8 **A** Correct.

9 **Q** And you heard Dorian Johnson say what?

10 **A** "He just killed him, he just killed him."

11 **Q** Okay. And then you said he then ran into
12 the back of the complex, did you ever see him again?

13 **A** No.

14 **Q** Okay. Were you, what did you do after you
15 saw that?

16 **A** After I saw that, I went into the
17 I was working at, and told the
18 what I just witnessed and stayed in for maybe
19 minutes speaking with , and I came
20 back out and that's when I seen they were taping off
21 the scene.

22 **Q** So by the time you came back out, other
23 police officers were there?

24 **A** Yes.

25 **Q** Was the police officer who was involved in

1 the shooting, was his car still in the street?

2 **A** Yes.

3 **Q** And about, was it all Ferguson vehicle's
4 at that point or was County already there?

5 **A** Ferguson.

6 **Q** And then did you stand outside and kind of
7 watch what was going on for a while?

8 **A** Yeah, when I came back out, they were
9 taping off the scene. I came back, I walked down
10 here to right there where the body was pretty much
11 even with that street. And I was just, just in
12 shock and speaking with another resident. I don't
13 know if was a resident, another that was out
14 at the scene talking with

15 **Q** So you were speaking to somebody else who
16 was just a bystander that was looking at what had
17 happened?

18 **A** Correct.

19 **Q** You didn't know that person?

20 **A** No.

21 **Q** Did you later learn who it was?

22 **A** No.

23 **Q** Have you ever seen again?

24 **A** No.

25 **Q** Now, are you aware, I mean, did you notice

1 that day that there were people with cell phones
2 that were like filming or taping, not taping, we
3 don't use tape, but recording what was going on
4 while, the aftermath I'll call it?

5 **A** Yes.

6 **Q** Now, at some point in this investigation
7 have officers involved in the investigation that you
8 talked to, did they talk to you about whether or not

9
10 **A** No.

11 **Q** Okay.

12

13 **A**

14 **Q**

15

16 **A**

17

18

19 **Q**

20

21 **A** Yes.

22 **Q** And is it the aftermath, so it is after
23 the shooting?

24 **A** Yes.

25 **Q**

1

2 **A** Yes.

3 **Q** All right.

4

5

6 **A**

7

8

9

10 I did contact the FBI to figure out,
11 um, what precautions I needed to take.

12 **Q** Okay. So now you mention that you talked
13 to the police and gave a tape recorded interview
14 after this incident, correct?

15 **A** Yes.

16 **Q**

17

18

19 **A** No.

20 **Q**

21

22

23 **A** Correct.

24 **Q**

25

4 **A** Monday, Monday.

6 **A** Yes.

9 **A** Uh-huh.

12 **A** Because when I went down on the scene
13 afterwards, speaking with that I was
14 speaking to. I wasn't giving a thorough accounting
15 on what I had witnessed to , I was, I couldn't
16 say giving just a glimpse of what I witnessed
17 because just observing the chaotic, how it got so
18 chaotic so quick, and different point of views on,
19 it didn't add up to what I actually witnessed.

25 I began to walk back towards the

9 And continued walking past and at
10 this point they are with the camera
11 still, and they became violent and, um, one of the

23 So I then turned and walked back
24 towards and that's when they started
25 to yell racial slurs at me and it was just, it was

1 just ignorant.

2 I felt uncomfortable, I fully felt
3 uncomfortable when I actually did go forward to the
4 police station because, um, I first called in Sunday
5 after I seen all the rioting. I just felt bad about
6 the situation.

7 I knew that I needed to come forward
8 to let the truth be told. And after seeing the
9 rioting, I called St. Louis County Police, I just
10 called the 911 and they took down my information
11 and, um, Monday morning I just felt like it wasn't,
12 I was just going to be pushed to the side. So I
13 felt like I needed to do more.

14 I called Ferguson Police Department,
15 I had to leave a message there and I still wasn't
16 settled about it.

17 So I went down to the police station
18 and I felt uncomfortable then just walking past all
19 the protesting that was going on, but I knew it was
20 the right thing to do. It is an unfortunate
21 situation, but I know God put me in this situation
22 for a reason.

23 Q Now, Witness Number 10, you said that when
24 you walked back, there were

25

1

2 **A**

3 **Q**

4 **A** Yes.

5 **Q** Were these, did these appear to
6 be people that just lived in the area or were they
7 like reporters?

8 **A** They appeared to be people that lived in
9 the area.

10 **Q** Okay. And did you know
11 had you seen them before?

12 **A** No.

13 **Q** Ever seen them since?

14 **A** No.

15 **Q** Have you seen any recording of that
16 incident where they had appeared to be recording
17 you, have you seen that on the internet or anything?

18 **A** No,

19

20 **Q**

21

22 **A**

23

24 **Q** Okay. The person you were talking to
25 earlier was not recording?

1 **A** No, he was not.

2 **Q** It was somebody else?

3 **A** Yes.

4 **Q**

5

6 **A** Correct.

7 **Q** So when you were down after the shooting
8 and the crowd begin to build, could you hear people
9 saying words to the effect, he had his hands up, the
10 police killed him, they didn't need to shoot him,
11 that kind of stuff?

12 **A** Correct.

13 **Q** And is that the kind of things that you
14 were hearing that you said made you feel
15 uncomfortable?

16 **A** Correct.

17 **Q** And you came forward because you felt you
18 had to do the right thing?

19 **A** Correct.

20 MS. ALIZADEH: Anybody at this point,
21 Sheila?

22 **A** I came forward to bring closure to the
23 family and also for the police officer because, um,
24 with me knowing actually what happened, um, and I
25 know it is going to be a hard case and a hard thing

1 to prove with so many people that's saying the
2 opposite of what I actually seen. I just wanted to
3 bring closure to the family not thinking that hey,
4 this is, they got away with murdering my son.

5 I do know that there is corruption in
6 some police departments and I believe that this was
7 not the case. And I just wanted to bring closure to
8 the family.

9 Q Now, Number 10, do you live in Ferguson?

10 A No.

11 Q Okay. Have you ever had any experiences
12 with the Ferguson Police Department?

13 A No.

14 Q Do you know any Ferguson police officers?

15 A No.

16 Q Did you know this police officer that was
17 involved in the shooting?

18 A No.

19 Q Did you know Michael Brown's family or any
20 of his relatives before this?

21 A Um, yes, I did. It came about when I was
22 standing outside during the aftermath, I recognized
23 his stepfather, Michael Brown's stepfather. At that
24 moment it didn't really sink in, I thought I
25 recognized him at that moment, but it came about

1 when I seen it in the papers, his name and that just
2 confirmed that was him. But I haven't reached out
3 and talked to him or anything.

4 Q All right. Michael Brown's stepfather,
5 would you consider him a friend of yours?

6 A No.

7 Q You just know him?

8 A Yes.

9 Q And you haven't talked to any of the
10 family members of Michael Brown since this happened?

11 A No.

12 Q (By Ms. Whirley) With the stepfather, how
13 did you know him?

14 A (Redacted)

15 MS. ALIZADEH: Just hang on a second.

16 MS. WHIRLEY: Well, let me ask it another
17 way.

18 MS. ALIZADEH: Hang on a second. Did you
19 have something?

20 If you will excuse me, I don't know if you
21 have a question you want to ask me?

22 MS WHIRLEY: Knowing the stepfather, was
23 there a bad relationship or anything negative about
24 that.

25 A No.

1 MS WHIRLEY: Okay. Now, could you put a
2 mark, not necessarily a mark, but use that pointer
3 and show us one more time where you were when the
4 first time you saw shots fired?

5 A on the corner.

6 Q (By Ms. Whirley) And you were standing
7 there?

8 A Yes.

9 Q And shots were being fired where, show us
10 that on the map?

11 A The truck was right about here.
12 (indicating)

13 Q How far away would you say that distance
14 is?

15 A I would give it 50 to 75 yards.

16 Q Yards, okay. And when the officer first
17 got out of the car, you said, was his gun drawn or
18 not?

19 A When he first got out of car, yes, his
20 guns was already drawn.

21 Q His gun was drawn?

22 A Yes.

23 Q As he ran pursuing Michael Brown, he was
24 not shooting, I recall you saying that, correct?

25 A Yes, correct.

1 **Q** Michael Brown turns around and starts
2 charging him, you said that's when the shooting
3 started?

4 **A** Correct.

5 **Q** You couldn't hear what they were saying?

6 **A** No, ma'am.

7 **Q** When you say charge, could you demonstrate
8 what you saw? Show us what you mean by charging?

9 **A** (Indicating.)

10 **Q** Like running toward him quickly?

11 **A** Yes, in a tackle motion charge.

12 **Q** Okay. What was he doing with his hands?

13 **A** As a normal --

14 **Q** You could see his hands?

15 **A** Yes.

16 **Q** Did you ever see a weapon or anything?

17 **A** No. When he first ran from the car, I
18 did, that's the only time I did hear something. I
19 thought I heard something metallic hit the ground.
20 I'm not sure what it was, that's the only time I did
21 hear something.

22 **Q** Now, when did you hear that?

23 **A** When Mike Brown came from out of the
24 vehicle and ran.

25 **Q** Okay. You could hear that, but you

1 couldn't hear what they were saying?

2 **A** No.

3 **Q** And you never heard any conversation
4 between the officer and Mike Brown?

5 **A** No.

6 **Q** So when he stopped after the first round
7 of gunfire and turned around, you said he charged
8 and then the officer shot again or was that the
9 first round once he charged?

10 **A** The first round was when he was in the
11 car.

12 MS WHIRLEY: Okay.

13 **A** And after that, Mike Brown, he followed
14 pursuit of Mike Brown and Mike Brown stops and turns
15 and did some sort of body gesture and charged at the
16 officer. And that's when the second firing session
17 took place.

18 MS WHIRLEY: And after the first, not the
19 first shot in the car, but when he charged him and
20 the shots were fired, you said Mike Brown flinched
21 as if he might have been hit?

22 **A** Correct.

23 MS WHIRLEY: Okay. But he still charged
24 in the same manner that you showed us?

25 **A** He started, he like, I don't know he was

1 flinching, but still in a charge motion.

2 MS WHIRLEY: Was it slower or any
3 different?

4 A It appeared to be a slight difference.

5 MS WHIRLEY: Like maybe he was hit, that
6 was your impression?

7 A Yes, but at that time I'm not sure. I
8 thought he wasn't being hit because with me, with my
9 thoughts was if you are being hit that you are going
10 to fall or show some sort of I'm hit besides a
11 flinch. That appeared to me, I don't know, dodging
12 or hit, I'm not sure.

13 MS. WHIRLEY: And can you show us, you
14 said that after he charged him a second time, he was
15 charging slower that time, but still charging,
16 correct?

17 A Correct.

18 MS. WHIRLEY: You said he collapsed, Mike
19 Brown collapsed after that second round or shot, I
20 don't mean the one in the car, I guess it is the
21 third round, third time he is shooting he collapsed?

22 A Correct.

23 MS WHIRLEY: I don't want you to fall on
24 the ground or anything, I want you to like show us
25 like what he was doing with his hands as he was

1 collapsing.

2 **A** I cannot recall that. I just know he
3 collapsed.

4 MS WHIRLEY: Okay. You didn't really, you
5 couldn't see his hands when he was collapsing?

6 **A** I can't recall that.

7 MS WHIRLEY: Okay.

8 **A** I know he was coming in a charging motion
9 still and the final rounds were being fired within a
10 charging motion and that's when he collapsed.

11 MS WHIRLEY: But you didn't see his hands
12 when he was collapsing or you don't remember seeing
13 his hands when he was collapsing.

14 **A** I did not see that. All I seen was the
15 charging motion and him being, coming as a threat.
16 And the final shots were fired and he collapsed,
17 that's all I seen was the collapse.

18 MS WHIRLEY: Was there anything blocking
19 your vision of seeing his hands when he was
20 collapsing?

21 **A** No.

22 MS WHIRLEY: You just don't remember
23 seeing his hands?

24 **A** No.

25 MS WHIRLEY: Okay. Can you show us on the

1 map how close you were to Dorian Johnson, show us
2 where you were and where Dorian Johnson was when he
3 said, "they killed him, they kill him."

4 **A** Okay. I was still right there at the
5 corner of the And Dorian
6 Johnson came from somewhere over this way, and only
7 reason why I know that is because he had to cross
8 the street and it was in front of the squad car. So
9 he came from over this way and -- (indicating)

10 MS WHIRLEY: And that's where he was, show
11 us, where was Dorian when he is saying, "they killed
12 him?"

13 **A** Right there. (indicating)

14 MS WHIRLEY: Right there.

15 **A** Yes.

16 MS WHIRLEY: Where was the police officer
17 and Mike Brown when they first started the pursuit,
18 the same general area?

19 **A** Yes.

20 MS WHIRLEY: But you couldn't hear Mike
21 Brown and the police officer saying anything?

22 **A** No, that's because, Dorian, he was yelling
23 it, like he just seen his friend die and he was just
24 yelling it loud.

25 MS WHIRLEY: And the police officer wasn't

1 yelling at Mike Brown as he was pursuing him?

2 **A** I'm not sure, I couldn't hear.

3 MS WHIRLEY: You couldn't hear anything?

4 **A** No.

5 MS WHIRLEY: Okay.

6

7 **A**

8

9 MS WHIRLEY:

10

11 **A** Yes.

12 MS WHIRLEY: Saying some stuff, what were
13 you saying?

14 **A** I was saying that, um, he charged him, he
15 charged at him. The officer already had his gun
16 drawn on him and he charged at him and he shot at
17 him at least five to six times. And the seemed
18 to be surprised when he asked who shot him, I said
19 the police did.

20 MS WHIRLEY: All right. That's all I have
21 right now.

22 : I have a couple
23 questions, of course, You said that they
24 were violent, the that were asking you
25 about it afterwards, that they became violent. Did

1 they become violent towards you, in their words, in
2 their actions?

3 **A** Verbal.

4 Verbal.

5 **A** Verbal.

6 : Verbal?

7 **A** Yes.

8 : They called you names?

9 **A** Yes.

10 : You said you heard a
11 sound that was like metallic hitting the ground, you
12 don't know just because I know my friends, you don't
13 know that anything hit the ground, that's just what
14 it sounded like to you?

15 **A** Yes, correct.

16 : When he was collapsing
17 you said you couldn't see his hands, that doesn't
18 mean you couldn't see his arms, correct? You could
19 tell the difference between him having his hands up?

20 **A** Correct.

21 And him having his arms
22 down. Just because you couldn't see his hands,
23 doesn't mean you couldn't see where they were?

24 **A** Correct.

25 Okay. And you said

1 earlier that you didn't see anything in anyone's
2 hands as far as Mr. Johnson or Mr. Brown?

3 **A** Correct, when I first saw him.

4 : When you first saw them?

5 **A** Yes.

6 : But you also said it is
7 because you were focused on their --

8 **A** On their appearance.

9 : On their appearance and
10 your surroundings?

11 **A** Yes.

12 : You're not saying that
13 they didn't have anything in their hand, you just
14 didn't see it?

15 **A** Correct.

16 : Okay.

17 If I
18 could dovetail off of 's original question
19 about the violence that was directed to you. If I
20 could ask you just a personal question, are you
21 ?

22 **A** Yes.

23 : You are, okay.

24 **A** Yes.

25 : And this is like bringing

1 an extra level of conflict for you to come forward?

2 **A** Um, not really. Within my family
3 that's about it. They fear for my safety or our
4 family's safety, that's about it.

5 You said that there were
6 some racial epithets directed towards you, is there
7 anything that you can, you feel comfortable telling
8 us that was directed to, what was said to you?

9 **A** Um, they said you , they
10 called me a , and just racial
11 slurs.

12 : Did you at any time, if I
13 could ask, did you express the fact that you're
14 ?

15 **A** No.

16 : You did not?

17 **A** No, I just ignored it and kept walking
18 because I didn't want it to just blow up to
19 something even more because it is already tension in
20 the air.

21 : Okay, thank you.

22 **A** No problem.

23 . In your
24 opinion, let's go back to the times when Michael
25 Brown stopped and turned around and allegedly began

1 to charge the police officer, is it in your opinion,
2 do you believe the police officer's life was
3 potentially in jeopardy at this point?

4 **A** Yes.

5 : Thank you.

6 MS. ALIZADEH: Anyone else have a
7 question?

8 . Could you
9 describe what vehicles were in the area while this
10 was going on, were there cars lined up behind the
11 police vehicle and you said that Dorian ran to a
12 vehicle that had been on the other side and then
13 drove around?

14 **A** There was only one vehicle on the street
15 within that distance between where the incident took
16 place, and that was the vehicle, a little Monte
17 Carlo and it came around after, I want to say when
18 the officer, before the officer fired, I mean not
19 fired, but I'm not sure at what point, I can
20 pinpoint at what point that they came around, but
21 they did drive around, come out of the, this curb
22 and drive around and stop right there.

23 Okay, thank you.

24 MS. ALIZADEH: Can I clarify, I just want
25 to ask you. You said it was a Monte Carlo?

1 **A** Correct.

2 MS. ALIZADEH: Are you good about
3 recognizing makes and models of cars?

4 **A** Uh, yes.

5 MS. ALIZADEH: Have you ever had a Monte
6 Carlo?

7 **A** No.

8 MS. ALIZADEH: When you say it was blue,
9 are we talking dark blue, baby blue, do you recall?

10 **A** I cannot recall as far as the deep blue or
11 any of that, I know it was a newer Monte Carlo.

12 MS. ALIZADEH: And you saw, that's the
13 only car you remember seeing there is a blue Monte
14 Carlo?

15 **A** Correct.

16 MS. ALIZADEH: Okay.

17 : . Um, let's
18 go back to when you initially saw the struggle with
19 Michael Brown inside the car, where was Dorian or
20 could you tell where he was when this was going on?

21 **A** No. Like I said, I did not see Dorian
22 Johnson, um, after the fact, after Michael Brown was
23 collapsed in the street, and that's when he came
24 across the street in front of the squad car and
25 stopped right about there and yelled that he just

1 killed him. That's the only time after first had
2 initial contact, well, not contact, but sight of
3 Dorian Johnson.

4 : So did you ever see
5 anything in Michael Brown's hands or Dorian's hand,
6 I know you said initially when they came around the
7 house, you didn't see anything, but what about
8 during the struggle, did you ever see anything in
9 their hands?

10 **A** No.

11 : Okay. And you said you
12 heard one gunshot at the car?

13 **A** Correct.

14 : And the rest were --

15 **A** Down.

16 : Down the road or whatever?

17 **A** Yes.

18 MS. ALIZADEH: Anyone else have any
19 questions?

20 So Witness Number 10, thank you for
21 appearing. If at any time in the future this grand
22 jury has additional questions for you, would it be
23 all right for me to contact you?

24 **A** Yes.

25 MS. ALIZADEH: That will end the testimony

1 of Witness Number 10.

2 (End of the testimony of Witness 10.)

3 MS. ALIZADEH: This is Kathi Alizadeh, it
4 is 1:33 p.m. on September 23rd. The grand jurors
5 are all 12 present, as well as myself and Sheila
6 Whirley and the court reporter who is taking down
7 everything.

8 We had a witness who was here and in the
9 waiting room.

10 MS WHIRLEY: We did have one witness, and
11 is her name and we may play some of
12 that information because you had asked about
13 . We were here, we were running behind and
14 she left. I contacted, I tried to contact her to
15 get her back here and I'm not sure if she was
16 running too late for work or what, but we're going
17 to have to likely reschedule her because we also
18 have a 2:30 timeframe we are working with too.

19 So she's not going, you're not going to
20 hear from her, we were hoping to do it today. In
21 light of that, what we are going to do is let you
22 hear the recording from --

23 MS. ALIZADEH: Witness Number 10.

24 MS. WHIRLEY: Witness Number 10, thank
25 you. And then if we have enough time, you will hear

1 s recorded statement and then when
2 see her, you will match the two together, all right.

3 MS. ALIZADEH: All right. So at this time
4 I'm going to pass out a transcript of an interview
5 that was conducted on August 11th by the County
6 Police Department and it is the interview of Witness
7 Number 10. And for that reason, again, we will
8 pause the audio recording that the court reporter is
9 doing right now while we are playing the statement.

10 The statement is contained on Grand Juror
11 Number 24.

12 As soon as you say we are ready, we will
13 turn off the audio recording that is happening now
14 and play the recorded statement of Witness Number
15 10.

16 Okay. Would you turn off the audio
17 recording at this time.

18 (This is the recorded statement of Witness
19 Number 10.)

20 DETECTIVE : This is Detective
21 with the St. Louis County Police
22 Department's Bureau of Crimes Against Persons,
23 . Also present with me is Detective
24 of the Bureau of Crimes Against
25 Persons and we are at the City of Ferguson Police

1 Department in an interview room Mister, would you
2 say your name for the recorder, please?

3 WITNESS 10: (Redacted)

4 DETECTIVE : Okay. And (redacted)
5 obviously, you realize this is being recorded,
6 correct?

7 WITNESS 10: Correct.

8 DETECTIVE Okay. And you're okay
9 with that?

10 WITNESS 10: Yes.

11 DETECTIVE Okay. And this is in
12 reference to St. Louis County Complaint Number
13 14-43984 and Ferguson Police Department Complaint
14 Number 14-12391, which is an incident that occurred
15 on Canfield Drive on August 9th, 2014.

16 (Redacted), I'm going to get a little bit
17 of information from you here, okay? (redacted)

18 WITNESS 10: Correct.

19 DETECTIVE : Okay. And spell your
20 last name?

21 WITNESS 10: (Redacted)

22 DETECTIVE Just like the
23 What is your date of birth?

24 WITNESS 10: (Redacted)

25 DETECTIVE : What is your home

1 address?

2 WITNESS 10: (Redacted)

3 DETECTIVE : (Redacted)

4 WITNESS 10: (Redacted)

5 DETECTIVE : And where's that at?

6 WITNESS 10: (Redacted)

7 DETECTIVE : (Redacted)

8 WITNESS 10: (Redacted)

9 DETECTIVE : And what's your cell
10 phone.

11 WITNESS 10: (Redacted)

12 DETECTIVE : (Redacted)

13 WITNESS 10: Yes.

14 DETECTIVE : And your social

15 security number?

16 WITNESS 10: (Redacted)

17 DETECTIVE : (Redacted)

18 WITNESS 10: (Redacted)

19 DETECTIVE : (Redacted)

20 WITNESS 10: Yes.

21 DETECTIVE : And you're employed

22 where.

23 WITNESS 10: (Redacted)

24 DETECTIVE : As a ?

25 WITNESS 10: Yes.

1 DETECTIVE : Is there a business
2 address for that?

3 WITNESS 10: Um, this is the address, but
4 I don't, I'm not sure.

5 DETECTIVE : Okay. You know a phone
6 number?

7 WITNESS 10: (Redacted)

8 DETECTIVE : (Redacted)

9 WITNESS 10: Right where the
10 are at. Where, um, say you get off of --

11 DETECTIVE : there.

12 WITNESS 10: (Redacted)

13 DETECTIVE : Okay.

14 WITNESS 10: Right before you go down the

15

16 DETECTIVE (Redacted)

17 WITNESS 10: Yeah.

18 DETECTIVE Okay. Um, do you have
19 a phone number?

20 WITNESS 10: Is --

21 DETECTIVE : For employer.

22 WITNESS 10: For -- for -- for -- let me
23 see. Let me see if I can pull it up.

24 DETECTIVE : (Redacted) What is
25 your middle initial?

1 WITNESS 10: (Redacted)

2 DETECTIVE Okay.

3 WITNESS 10: I thought I had the office in
4 here. I ain't seeing it.

5 DETECTIVE That's okay.

6 WITNESS 10: All right.

7 DETECTIVE Okay. So, um, we
8 received a call from Ferguson saying that you were
9 here and did you come here --

10 WITNESS 10: Yes, voluntarily.

11 DETECTIVE -- okay, okay. You
12 came here on your own?

13 WITNESS 10: Yes.

14 DETECTIVE And who did you talk to
15 initially?

16 WITNESS 10: Um, I'm not sure. It's a
17 police officer outside.

18 DETECTIVE : Okay. And what did you
19 tell that officer?

20 WITNESS 10: I need to -- to speak with
21 someone about the, um, ongoing investigation about,
22 um, what happened, at Canfield to Mr. Brown.

23 DETECTIVE : Okay. So after that,
24 I'm assuming they escorted you --

25 WITNESS 10: Yes.

1 DETECTIVE : -- into the building
2 then and you -- you waited for us; is that right?

3 WITNESS 10: Yes.

4 DETECTIVE : Okay. Um, would you
5 please retell, and I'm just going to set the
6 recorder over there. Would you please just retell
7 your account of a, were you present when it happened
8 or --

9 WITNESS 10: Yes.

10 DETECTIVE : Okay. Would you just
11 retell your account of what took place?

12 WITNESS 10: Okay. Um, well, I walked
13 out, I was working at a right
14 where Canfield meets .
15 The was actually on the on, it
16 would be, I would be facing, the police car would be
17 facing towards me and the

18
19 right there

20 DETECTIVE So, just so I
21 understand, uh, what you're saying, Canfield
22 Apartments, Canfield by in large runs east and west,
23 okay. If you were to travel west, uh, out of, on
24 Canfield, you would run into West Florissant.

25 WITNESS 10: Okay.

1 DETECTIVE : Before you run into
2 West Florissant, you run into a area of
3 ?

4 WITNESS 10: Correct.

5 DETECTIVE So is that the area
6 that you were working on.

7 WITNESS 10: Yes, I was working on the,
8 the on your, if you were traveling east
9 and going into Canfield, would be on your
10 .

11 DETECTIVE : So --

12 WITNESS 10: The that's, well,
13 the considering you're going into
14 Canfield. It would be the
15 and it's an

16 And the police, um, as I was saying, I was going, I
17 was working at that and I walked
18 outside. I seen the two young guys walking down the
19 street on the same sidewalk I was on and --

20 DETECTIVE Can I clarify just a
21 couple things? Roughly what time was this?

22 WITNESS 10: Roughly, I want to say 8:40,
23 I mean not 8:40, 11:40, 11:40 is when that, when I
24 first seen these two guys. And my initial thought
25 was, wow that's a big dude because Mr. Brown, Mike

1 Brown. My initial thought was he's a big guy. He's
2 tall and like stocky build, and that's it.

3 He -- he, they both walked past me. I
4 took went into I came back
5 outside to get some more stuff and I
6 looked down the street and I seen the police car at
7 a slant and I seen Mr. Brown in the window of the
8 police car. It looked, it appeared as they were
9 wrestling through the window. And one gunshot had
10 let off and Mr. Brown took off running.

11 And my first thought was like, oh, my
12 gosh, did I actually just witness a police officer
13 being murdered because it took a while for the
14 police officer to get out of the car and pursue the
15 suspect.

16 And I want to say maybe six seconds, but
17 it seemed like it was forever after the -- the first
18 gunshot. So the police officer exited the vehicle
19 with his weapon drawn, pursuing Mr. Brown.
20 Mr. Brown was quite a distance and he stopped. And
21 when he stopped, he didn't get down on the ground or
22 anything, he turned around and he did some type of
23 movement. I never seen him put his hands up or
24 anything. I can't recall the movement that he did.
25 I'm not sure if he pulled his pants up or whatever

1 he did, but I seen some type of movement and he
2 started charging towards the police officer.

3 The police officer then returned fire, not
4 returned fire, open fire on Mr. Brown. Um, if I had
5 to guess, the shots and, um, the distance between
6 him and Mr. Brown, it would have to be five to
7 ten yards.

8 And the shots that were fired was four,
9 five or six shots fired, and Mr. Brown was still
10 standing up. Um, and my thoughts was wow, he's
11 missing this guy this close, is he hitting him or
12 because Mr. Brown there was no reaction from him to
13 show that he was being hit.

14 Um, after that, Mr. Brown then paused,
15 he -- he -- he stopped running and when he stopped
16 running, the police officer stopped firing. And
17 then Mr. Brown continued, started again to charge
18 towards him and after that, the police officer
19 returned fire and, um, well, not returned, I'm using
20 the wrong term, he started to fire once more at him.

21 Um, if I had to guess the rounds that were
22 fired then, it would be four to five more shots.
23 And after that, Mr. Brown collapsed and fell to the
24 ground.

25 DETECTIVE : Okay. What happened

1 then?

2 WITNESS 10: Um, what happened then after
3 that, um, I didn't see, it was, it was a blue Monte
4 Carlo, a newer model Monte Carlo two door. Um, it
5 was closer to the scene where the shooting was at,
6 that occurred. They then drove off and made a -- a
7 left into the apartments and drove around the
8 apartment and then came and stopped.

9 And, um, Mr. Brown's friend that he was
10 walking with earlier, I didn't see him the whole
11 time that, um, this was all going on with a
12 confrontation with the police and the shooting and
13 everything.

14 At the end, after Mr. Brown had dropped,
15 and, um, I seen the, his friend come out of nowhere
16 and run across the street. And, um, said that Dog,
17 they -- they just killed him, they just killed him,
18 and he ran the back fields of Canfield, the back
19 open field.

20 And, um, I must say that also after the,
21 um, confrontation, after the gunshot when Mr. Brown
22 did run, I thought I heard something metal hit the
23 ground. And I'm not sure what it was, but I thought
24 I heard something hit the ground.

25 And, um, after that, I believe, I'm not

1 sure, um, if I went in to go tell the
2 people that I was working with that I just -- what I
3 witnessed. And I came back out and they were taping
4 the scene off and I decided, I went down there
5 closer to where the body was and I stayed down there
6 for maybe ten, five to ten minutes. And I was
7 speaking with the that was down there
8 on the scene. I was telling what happened and
9 after me telling what happened and I'm hearing
10 everybody, their side of the story, oh, the police
11 officer shot that kid for no reason. He had his
12 hands up.

13 And me knowing and seeing what actually
14 took place, that wasn't true. And there was
15 different sides to the story, and every side it
16 wasn't true. I felt uncomfortable in that
17 situation, so I decided to walk back to I
18 was at originally at.

19 And, um, while I was walking to the
20 had a video camera and they turned
21 towards me asking me, um,

22
23 But I don't think they
24 heard me what I had told the earlier. And
25 I responded as and just kept walking.

1 And they still on just still video recording
2 me and saying, um, I
3 responded,
4 .

5 And after that, they -- they became, uh,
6 in an aggressive tone and um, was saying,
7 um, just called me other
8 names, racial and racist slurs to me.

9 And that whole time, well, before they
10 yelled the racial slurs, I yelled, um, back to them,
11 I said,

12 And after that, I just left it and went on
13 my way.

14 DETECTIVE Okay. I'm going to go
15 back and just ask you a couple clarifying questions,
16 okay.

17 Um, so, I guess, so let's first start off,
18 who were you working with, uh, that day?

19 WITNESS 10: I was working, um, for
20 And, um, I'm not sure of
21 um, that was there. I was hired as a
22 to come in and do
23 .

24 DETECTIVE : So will you, was, you
25 were not working for (redacted) that day?

1 WITNESS 10: No, no.

2 DETECTIVE You were doing kind of
3 a side job?

4 WITNESS 10: Yeah, doing a side job, yeah.

5 DETECTIVE Okay. And did you have
6 anybody with you that you were working with that
7 day?

8 WITNESS 10: No.

9 DETECTIVE Okay. I guess when you
10 say you went in, oh, when you said you went in to
11 tell the people you were working with --

12 WITNESS 10: Yeah.

13 DETECTIVE -- you meant tell the
14 people --

15 WITNESS 10: That -- that was the

16 .

17 DETECTIVE : I gotcha. Okay. Who
18 were the there.

19 WITNESS 10: Like I say, I'm not sure what
20 their names are.

21 DETECTIVE Was it a female, a
22 male?

23 WITNESS 10: It was a

24 DETECTIVE Okay. And then, um,
25 you said that you saw, uh, two guys walking down the

1 street, right?

2 WITNESS 10: Yeah.

3 DETECTIVE Do you remember what
4 they were wearing?

5 WITNESS 10: Um, if I'm not mistaken,
6 Mr. Brown had a tan, tan pants, a red hat, flip
7 flops, it might have, may have been tan shorts,
8 yeah, it had to be tan shorts. Because I'm not sure
9 of the color, I know they were shorts because his
10 socks drew my attention because they were bright
11 yellow and, um, black, looked like marijuana leafs.
12 And, um, he had a red hat on. I'm not sure of the
13 shirt.

14 And his friend that was walking with, I'm
15 not sure what he was wearing, the only thing I can
16 pick up from him was he had, um, smaller dreads that
17 were, looked like the tips of the dreads was dyed,
18 uh, like a bleach, bleach dyed or whatnot.

19 DETECTIVE And so, um, Michael
20 Brown was the one that you thought to yourself, um,
21 that's a big guy?

22 WITNESS 10: Yeah, it is.

23 DETECTIVE Is that right?

24 WITNESS 10: Yeah.

25 DETECTIVE : Okay. And which way

1 were they walking?

2 WITNESS 10: They were walking, you said
3 west, would be out to West Florissant?

4 DETECTIVE West, yeah, it's
5 towards West Florissant. East is towards the
6 complex.

7 WITNESS 10: Okay. So east, yeah, east.
8 They were walking east when I first, yeah, when I
9 seen them.

10 DETECTIVE How far away were they
11 when you first saw them?

12 WITNESS 10: Um, when I first saw them, I
13 mean, I could have shook the guys' hand if I wanted
14 to.

15 DETECTIVE : Okay.

16 WITNESS 10: That's how close they were.

17 DETECTIVE : Okay. Do you know
18 either of these guys?

19 WITNESS 10: No.

20 DETECTIVE : Okay. Had you ever
21 seen them, one of them before?

22 WITNESS 10: No.

23 DETECTIVE Okay. Uh, so they're
24 walking east and I don't, if I say something that's
25 incorrect, please correct me, okay?

1 WITNESS 10: Uh-huh.

2 DETECTIVE : They're walking east
3 essentially in front of that you're
4 working at?

5 WITNESS 10: Yes.

6 DETECTIVE : They continue east into
7 the complex?

8 WITNESS 10: Yes.

9 DETECTIVE Okay. And you said you
10 went inside to drop off equipment?

11 WITNESS 10: Yes.

12 DETECTIVE : Okay. And then when
13 you come back outside, right?

14 WITNESS 10: Uh-huh.

15 DETECTIVE : You, if your, if
16 you are working on is on the side, if
17 you look to your then, it would be, you would
18 be looking into the complex; is that right?

19 WITNESS 10: Yes, I would be looking into
20 the east, east.

21 DETECTIVE : Into the complex?

22 WITNESS 10: Yeah, yeah.

23 DETECTIVE : or to the
24 would be looking into the complex?

25 WITNESS 10: Yeah, yeah.

1 DETECTIVE Okay. And approximately
2 how far away were you at to where you saw
3 that police car at?

4 WITNESS 10: Okay, distance wise --

5 DETECTIVE : And if you don't know,
6 you know --

7 WITNESS 10: It's a guess maybe, 100 yards
8 I would say, maybe less.

9 DETECTIVE : Okay, all right. So
10 you look and you see the police car and where is the
11 police car at?

12 WITNESS 10: It is in the middle of the
13 street at a slant.

14 DETECTIVE : Okay. And what kind of
15 car is it, do you know?

16 WITNESS 10: It's, um, I'm not sure what
17 type of car, but I know it is a truck, it's a truck.

18 DETECTIVE Okay. Um --

19 WITNESS 10: Maybe like Suburban style or
20 that, a long truck, SUV.

21 DETECTIVE And that truck that's
22 parked at a slant would be facing which direction?

23 WITNESS 10: It would be facing west.

24 DETECTIVE : West, okay. And
25 explain to me again what you see at that point?

1 WITNESS 10: I see Mr. Brown leaned over
2 inside the police car, um, at maybe, I see his back
3 at his, um, probably below you, what you call, like
4 under your armpit.

5 DETECTIVE Beneath your armpits?

6 WITNESS 10: Yeah, a little bit deeper
7 than, right below your armpits. That's how much of
8 his body is inside the car.

9 DETECTIVE : Okay. So you, when
10 you, you were using your hands, you went here and
11 then you kind of went here, which --

12 WITNESS 10: Like when I seen this much of
13 his body outside the car, so the rest of his body
14 from here up is inside the car.

15 DETECTIVE : Okay. And just for the
16 purposes of the recording, uh, so his feet are
17 where?

18 **A** On the ground.

19 DETECTIVE : Okay. And he is
20 standing, uh, where at?

21 WITNESS 10: At the, uh, driver's door --

22 DETECTIVE : Okay.

23 WITNESS 10: -- of the police car.

24 DETECTIVE His feet are on the
25 ground, he's at the driver's door of the police car.

1 WITNESS 10: Yeah.

2 DETECTIVE : And, uh, he's leaning?

3 WITNESS 10: Inside the window.

4 DETECTIVE Instead the -- the.

5 WITNESS 10: The police car.

6 DETECTIVE : Which, which window?

7 WITNESS 10: The driver's window.

8 DETECTIVE : Okay. So he's leaning
9 inside the driver's side window. And -- and -- and
10 I'm not, obviously, I don't expect any of this to be
11 exact, you know, down to the millimeter.

12 WITNESS 10: Uh-huh.

13 DETECTIVE : But roughly armpit or
14 maybe a little bit lower?

15 WITNESS 10: Yeah.

16 DETECTIVE That upper portion of
17 his body is in the -- the window, is that a fair
18 statement?

19 WITNESS 10: Yes.

20 DETECTIVE : Okay. And so, uh, is
21 the door opened, closed?

22 WITNESS 10: No, the door is completely
23 closed.

24 DETECTIVE Okay. And, uh, do you
25 see anybody in the driver's seat of that car?

1 WITNESS 10: I -- I couldn't make it out,
2 I couldn't. All I seen was Mr. Brown's body.

3 DETECTIVE Okay. And what was his
4 body doing.

5 WITNESS 10: At that distance, I -- I -- I
6 couldn't tell. It looked like a confrontation and
7 all I could assume it was some type of confrontation
8 was going on in that car.

9 DETECTIVE Okay. Why -- why did
10 you assume there was a confrontation?

11 WITNESS 10: Because afterwards the
12 gunshot, there was a gunshot, one gunshot, and he --
13 he ran off.

14 DETECTIVE : Okay. So, and again,
15 please correct me if I'm saying anything that even
16 remotely doesn't reflect what you're saying, I just
17 want to make sure I understand, okay?

18 You see him in the car, you can't
19 necessarily tell what's going on, but after hearing
20 the gunshot and you seeing him run off, you make an
21 assumption that there's some sort of confrontation
22 or conflict inside the car, right?

23 **A** Yes.

24 DETECTIVE Okay. So how, roughly
25 how long do you think that he is, that Michael Brown

1 is in the car?

2 WITNESS 10: Um, maybe at least ten
3 seconds from what I seen.

4 MS WHIRLEY: All right. It's at 2041, the
5 recording. We are going to stop the recording
6 because the witness is here and we would like to get
7 her on because we have time constraints.

8 Now is here and we wanted
9 to bring on her testimony. We'll look at her
10 statements later because of our time this afternoon,
11 but I will go get her, and I don't know exactly what
12 time it is now, what time do you have? It is about
13 1:59 p.m. Is he going to keep recording?

14 MS. ALIZADEH: Yes, and I just wanted to
15 say because we weren't recording at the time, we
16 interrupted the statement of Witness 10 because of
17 the next witness being here. What did you start it,
18 where did you say you stopped it?

19 MS WHIRLEY: At 2041.

20 MS. ALIZADEH: I'll make a note that I
21 have to fix that.

22 So we are going to just bring the next
23 witness in who needs to leave.

24 ,
25 of lawful age, having been first duly sworn to

1 testify the truth, the whole truth, and
2 nothing but the truth in the case aforesaid,
3 deposes and says in reply to oral
4 interrogatories, propounded as follows, to-wit:

5 EXAMINATION

6 BY MS. WHIRLEY:

7 **Q** I'm Sheila Whirley, and Kathi Alizadeh is
8 also present, the grand jurors are present, and the
9 court reporter, introduce yourself to the grand
10 jurors, please?

11 **A** I'm .

12 **Q** All right, . Could you
13 spell your name and speak louder for us?

14 **A** ,

15

16 **Q** All right. And that microphone is not
17 going to amplify your voice or make it louder, it is
18 just recording, so try to talk sort of loud like me,
19 please?

20 **A** I'm sorry, I'm soft spoken.

21 **Q** Okay. You know why we are here today,
22 ?

23 **A** Yes, I do.

24 **Q** Tell us where you live in general, you
25 don't have to give your exact address unless you

1 want to?

2 **A** I live in .

3 **Q** All right. Now, you recall August the 9th
4 of 2014, correct?

5 **A** Yes.

6 **Q** It was a Saturday?

7 **A** Yes.

8 **Q** You had occasion to be at Canfield Green?

9 **A** Yes.

10 **Q** Is that right? And does this map look
11 familiar?

12 **A** Yes, that's the Canfield Green Apartments.

13 **Q** That's the complex?

14 **A** Yes.

15 **Q** Represented on that map, and that's Grand
16 Juror Exhibit Number 25 for purposes of
17 identification. What time of day was it that you
18 went to Canfield?

19 **A** It was around noon-ish whenever I went. I
20 was supposed to be there a little earlier, I ended
21 up there at noon to pick up she works for
22 me.

23 **Q** Okay. So you were picking up an employee?

24 **A** Yes.

25 **Q** What do you do for a living?

1 **A** I do marketing.

2 **Q** And are you a supervisor?

3 **A** Yes, I have a marketing firm on

4 .

5 **Q** It is your firm?

6 **A** Yes.

7 **Q** Okay. How many employees do you have?

8 **A** Right now I have three.

9 **Q** And was one of them?

10 **A** Yes.

11 **Q** Okay. And you said her name was
12 how do spell that?

13 **A** .

14 **Q** What's her last name?

15 **A** .

16 **Q** Can you spell that?

17 **A** , .

18 **Q** , , okay. So you are
19 picking up and she lived in Canfield
20 Green?

21 **A** Yes.

22 **Q** Do you recall her address?

23 **A** I don't.

24 **Q** Okay. Can you see on this map, there
25 should be a pen there that you would operate, you

1 see how it works?

2 **A** Yes.

3 **Q** Could you point on the map where
4 lived, first of all, do you know where she lived
5 looking at the map?

6 **A** Yes, she lives right here, this apartment
7 right here. (indicating)

8 **Q** ?

9 **A** Yes.

10 **Q** Okay. Is that Canfield Drive?

11 **A** Yes, Canfield Drive.

12 **Q** And coming to pick her up that day, did
13 you call her first or did you she know what time you
14 were coming?

15 **A** I called her. I called her when I was on
16 my way and I called her as I was coming down the
17 street right when I turned onto Canfield is when I
18 started calling her.

19 **Q** So when you were coming this way you
20 called her?

21 **A** Yes.

22 **Q** And did you talk to her?

23 **A** No.

24 **Q** What happened, did you leave her a
25 message?

1 **A** No, so as I was pulling up and I'm calling
2 her phone, that's whenever I heard the tires
3 squeaking as I was turning. As I get closer, I see
4 a cop and the kid wrestling through the window.

5 **Q** Okay. So when you say you called her, but
6 you didn't talk to her, what happened in that call?
7 Did you just hang up, that's what I'm trying to
8 figure out?

9 **A** Yeah, I hung up the phone like, so I'm
10 trying to call her and when I see this, I start
11 going through my phone forgetting I'm on the call,
12 trying to get to my camera. And I never spoke with
13 her at all. By the time I look back at my phone
14 again, it was disconnected, the call had
15 disconnected.

16 **Q** Did you get to your camera?

17 **A** No.

18 **Q** Okay. Did you record any of this, you
19 know, what we are talking about, the shooting of
20 Michael Brown?

21 **A** No, I didn't record any of shooting. I
22 recorded right after it happened.

23 **Q** So tell us again, you are driving down
24 Canfield Drive and what do you hear?

25 **A** I hear tires squeaking.

1 **Q** And then what?

2 **A** I didn't see anything at that time, but as
3 I get closer coming around this curve on Canfield, I
4 see the cop's SUV in the middle of the street and
5 the kid wrestling through the window with the cop.

6 **Q** And show us on that map where, Grand Jury
7 Exhibit 25, where approximately you saw the police
8 car?

9 **A** Okay. The police car was right here, in
10 this area right here. (indicating)

11 **Q** Do you know which way it was facing?

12 **A** It was facing, coming the way that I was
13 coming. So it was facing going that away and I was
14 going that way.

15 MS. ALIZADEH: Let me ask, I think Sheila
16 at one point you made it look like she was going on
17 a certain direction, which direction were you
18 traveling?

19 **A** Is it okay if I can stand up?

20 MS WHIRLEY: Yeah, please.

21 **A** I was coming in on this direction, I was
22 coming in through this way.

23 MS. ALIZADEH: Okay.

24 **A** The car was facing going that way, I don't
25 know if it is east or west.

1 MS WHIRLEY: Okay.

2 Q (By Ms. Whirley) So what street is this
3 out here that you came off of to get onto Canfield
4 Drive?

5 A West Florissant.

6 Q West Florissant, okay. So you are coming
7 from West Florissant traveling east on Canfield
8 Drive?

9 A Yes.

10 Q And the police car was facing west?

11 A Yes.

12 Q And it was, was it straight or what was
13 the, how was it situated?

14 A It was kind of catty-corner, it wasn't
15 straight, it was like a little over both sides of
16 the line, yellow line.

17 Q Okay, all right. Kind of in the middle of
18 the street?

19 A Yeah.

20 Q Tell us what you saw again?

21 A I saw the cop and the kid kind of like
22 wrestling through the window, it was like a tug of
23 war. The kid was kind of pulling out the, cop was
24 pulling in, like it was like going back and forth.

25 Q When you say the kid, who are you

1 referring to?

2 **A** Michael Brown.

3 **Q** You know that is who it is, Michael Brown?

4 **A** Yes.

5 **Q** Had you known Michael Brown before this
6 day?

7 **A** No.

8 **Q** Had you ever met him?

9 **A** No.

10 **Q** Ever seen him?

11 **A** No.

12 **Q** Had you been to this Canfield Green
13 complex before?

14 **A** Yeah, I picked up a lot there since
15 she's moving, she's only been there over a month. I
16 picked her up a few times and dropped her off at
17 home.

18 **Q** She had only been living there
19 approximately a month?

20 **A** Yeah.

21 **Q** You had known her longer than that?

22 **A** Yes.

23 **Q** Okay. How long had she worked for you?

24 **A** She worked for me since January.

25 **Q** Okay. All right. So you see the tug of

1 war, as you put it, and then what happens?

2 **A** As I'm trying to get to my camera and my
3 phone, that's when the shot --

4 **Q** You need to speak up louder, please.

5 **A** I'm sorry. As I'm trying to get to my
6 camera and my phone, that's when a shot came out and
7 I just got out of the way, I started trying to get
8 out of the way, and I went to the left side.

9 **Q** Where were you when you heard the shot?

10 **A** I was right here, like okay, they were
11 right here and I pulled right in front of here.
12 (indicating)

13 **Q** What kind of car were you in?

14 **A** I was in a

15 **Q** A ?

16 **A** Yes.

17 **Q** Okay.

18 **A** So whenever the shot came out, it came
19 from the car and I started turning this way, that's
20 when I saw the kid like yank away like this and take
21 off running. And I came around, parked right here,
22 got out, came across the grass. The kid was running
23 this way, the cop came behind him and was shooting.
24 I saw the kid's body jerk and turn around like this
25 with his hands up.

25 Q Is anyone with Michael Brown, that you

1 know, that you see?

2 **A** At that time I didn't see anybody besides
3 him, but I saw someone kneeling by the white car,
4 the white Monte Carlo.

5 **Q** Okay. They were knelt?

6 **A** Like knelt down.

7 **Q** Okay, all right. But you didn't see them
8 do anything?

9 **A** I didn't see them together at all at the
10 time.

11 **Q** Okay. So when the shot goes off, Michael
12 Brown runs, show us again which way?

13 **A** He runs this way.

14 **Q** Okay. And the officer, what does he do?

15 **A** He comes behind him shooting.

16 **Q** So did you see the officer get out of the
17 car?

18 **A** I didn't see him exit the car, I was on
19 the other side of the car at the time.

20 **Q** Okay. So where were you when you saw the
21 officer shooting?

22 **A** I was coming across this grass and the
23 officer started pursuing Michael coming this way.

24 **Q** You could clearly see the officer running
25 after him?

1 **A** Yes.

2 **Q** And you could see the officer shooting?

3 **A** Yes.

4 **Q** Okay. And Michael is running and his back
5 is to the officer?

6 **A** Yes.

7 **Q** And the officer is shooting?

8 **A** Yes.

9 **Q** Do you have any idea how many shots were
10 fired by the officer?

11 **A** Not at all.

12 **Q** Okay.

13 **A** I didn't count that at all.

14 **Q** Okay. And then what happens after he is
15 shooting at the officer, I mean, the officer is
16 shooting at Michael Brown?

17 **A** I saw his body jerk and stopped and turned
18 around and put his hands up, and that's when the
19 officer continued to walk and shoot until he went
20 all the way down.

21 **Q** Okay. Can you hear anybody say anything?

22 **A** I can't hear anything from anybody.

23 **Q** Okay. And show us again where you are?

24 **A** At the time that he, Michael went down?

25 **Q** Yeah, that's right, let me make it clear

1 because you said, you showed us where you were when
2 you saw him running?

3 **A** Yes.

4 **Q** The officer is pursuing Michael, he is
5 shooting you said?

6 **A** Yes.

7 **Q** When Michael turns around, where is
8 Michael? He stopped running and he turned around?

9 **A** He was right here. (indicating)

10 **Q** And where are you?

11 MS. ALIZADEH: Wait a minute, can you
12 point again because I can't see where you are
13 pointing?

14 **A** Okay, I'm sorry, which part?

15 MS WHIRLEY: When Michael stops running
16 and turns around, where is he?

17 **A** He is right here. (indicating)

18 **Q** (By Ms. Whirley) Where are you?

19 **A** I'm right here coming across this grass.

20 **Q** How close would you say that is in your
21 opinion?

22 **A** I don't know how to measure by feet.

23 **Q** Okay. Look at me. Tell me when we're as
24 close as you were to where Michael was, if that's
25 possible in this room.

1 **A** Okay. So I can say from me to Michael is
2 right kind of like at her, where she is standing.

3 **Q** Where she is standing, you can see that
4 close?

5 **A** Yeah.

6 **Q** Okay. Now, he turns around and you say he
7 puts his hands up?

8 **A** Yeah.

9 **Q** Does he appear to be hit by any bullets or
10 anything?

11 **A** I didn't see any blood or anything until
12 it started pouring on the ground as he's laying
13 there. Whenever the bullets was hitting him, I was
14 thinking like are these rubber bullets. I can't say
15 exactly where he was hit.

16 **Q** Okay.

17 **A** I just saw the one in his face when he hit
18 the ground.

19 **Q** When he first turned around and had his
20 hands up, you couldn't really see whether he was
21 shot, you couldn't tell whether he was shot or not?

22 **A** No, I couldn't.

23 **Q** But you couldn't hear him say anything to
24 the officer?

25 **A** No.

1 Q Was the officer saying anything to him?

2 **A** I didn't hear the officer say anything to
3 him, I didn't hear conversation from either party.

4 Q Okay. So we know you were like from this
5 distance to that distance and can anybody give an
6 estimate of how far that would be?

7 About 20 feet.

8 Q (By Ms. Whirley) Now, from the officer,
9 how far was the officer from Michael Brown when
10 Michael Brown turned around and raised his hands,
11 the same, a similar distance or something different?

12 **A** Similar distance because I was closer to
13 the officer than I was to Michael when he turned
14 around.

15 Q Okay. So that's Michael 20 feet away or
16 so, I'm the officer, let's say, just for purposes of
17 the transcript.

18 **A** The officer was over that away.

19 **Q** Like this way?

20 **A** Yes.

21 Q How far?

22 **A** Like they were about that distance.

23 Q About where I am now? So another 20 feet
24 or so?

25 **A** Yeah, maybe so.

1 **Q** Okay. You can see both the officer and
2 Michael Brown?

3 **A** Yes.

4 **Q** From approximately 20 feet away?

5 **A** Yes.

6 **Q** Okay. And if I didn't ask you this, how
7 close was the officer to Michael Brown, not you to
8 them, but the officer and Michael Brown, how close
9 were they? Were they closer than you were to them?

10 **A** They were closer to each other than I was
11 to them.

12 **Q** That's my question. Any idea how close,
13 like me and you again?

14 **A** I can't say exactly, it was movement.

15 **Q** Okay.

16 **A** So I can't say exactly like where they
17 stood at what point.

18 **Q** That's fair.

19 **A** They were constantly moving.

20 **Q** He turns around with his hands up and then
21 what does the officer do?

22 **A** He continued to come up on him.

23 **Q** Like show me?

24 **A** He just continued to come up on him and
25 shoot him. He never got like, he was further back

1 from him, but he kept shooting him until he fell
2 down to the ground.

3 Q Did Michael Brown ever move back or come
4 forward?

5 A Like he came forward.

6 Q He came forward. Did he come forward in a
7 charging motion?

8 A No, like he just went forward like his
9 body was just going down and he was shooting him.

10 Q So from where you were, it didn't appear
11 that Michael Brown was threatening the officer?

12 A No, no.

13 Q You didn't think --

14 A No, he wasn't coming towards him whenever
15 he turned around. He just start like, as soon as he
16 turned around like, that's whenever like the bullets
17 start hitting him. I can't say exactly where, but
18 he just started going down from that point.

19 Q Okay. Did it appear at any time that
20 Michael Brown had a weapon?

21 A No, I couldn't see anything in his hand
22 while he was running. I can't even say where his
23 hands were at this point.

24 Q Okay. I was going to ask you that
25 question when he was going down, did you see his

1 hands?

2 **A** Yeah, they were, they were the whole time.
3 (indicating)

4 **Q** His hands was up when he turned around,
5 when he was going down you said the officer was
6 shooting at him?

7 **A** When he went down, he went down to the
8 ground like this. (indicating)

9 **Q** Okay. And from your perspective, in your
10 opinion, you didn't think that the officer was ever,
11 his life was not threatened?

12 **A** I can't say, before I pulled up to this
13 car, I can't say what happened before I got there.

14 **Q** Right.

15 **A** So I don't know what happened between them
16 before I pulled up, but I can only say what I saw.
17 From what I saw, he was trying to get away, he was
18 pulling away at the window.

19 **Q** Okay. And you saw it from the time that
20 he ran from the car window until he laid dead on the
21 ground?

22 **A** Yes.

23 **Q** And between that timeframe, he never
24 appeared, in your opinion, to be threatening the
25 officer?

1 **A** No, he was trying to get away from what I
2 saw.

3 MS WHIRLEY: Okay, Kathi?

4 MS. ALIZADEH: Yeah. Hi, .

5 **A** Hi.

6 MS. ALIZADEH: I know we haven't met, my
7 name is Kathi Alizadeh, I'm with the prosecutor's
8 office as well.

9 **A** Uh-huh.

10 MS. ALIZADEH: Miss Whirley and I are
11 working together on this investigation, so we kind
12 of tag team. It is not that I'm asking you certain
13 questions and she's asking you certain questions,
14 but I want to clarify something here. So when you
15 say, I'm going to use this pointer, and you tell me
16 if I'm right. You said the officer's car was
17 somewhere around in here, correct?

18 **A** Yes.

19 MS. ALIZADEH: And you came in from this
20 direction?

21 **A** Yes.

22 **Q** (By Ms. Alizadeh) And then you turn around
23 this horseshoe, which is Canfield Drive, correct?

24 **A** Yeah, I turned into here and I didn't go
25 all the way around it.

1 **Q** Did you park right, like right around
2 here?

3 **A** Yes, that's where I parked.

4 **Q** Okay. And then you walked through the
5 grass?

6 **A** Yes.

7 **Q** Now, you said that Michael Brown was
8 running in this direction, correct?

9 **A** Yes.

10 **Q** So that is down Canfield Drive, and he is
11 running towards Copper Creek Court, this is Copper
12 Creek Court right here? (indicating)

13 **A** Yes, he never made it that far.

14 **Q** You said he never made it this far?

15 **A** Yes.

16 **Q** Which is, I've got the laser pointer,
17 right on the corner of Canfield Drive and Copper
18 Creek Court, he never made it that far?

19 **A** Yeah.

20 **Q** And so you say that at the location where
21 he ended coming, you know, came to rest, his body
22 was in the street?

23 **A** Uh-huh.

24 **Q** Um, how much distance farther had he run
25 before he fell down into the street, do you know

1 what I'm saying? So he runs and then he turns
2 around?

3 **A** Uh-huh.

4 **Q** And does he take any steps or come towards
5 the officer at all?

6 **A** Whenever he stopped and turned around at,
7 that's where he fell dead at.

8 **Q** Okay.

9 **A** I didn't see him take any more steps.

10 **Q** Let me ask you this, is it possible as you
11 were trying to make your way in this direction and
12 watching what was going on, you could have missed
13 him being close to this corner to where he would
14 have come 20 feet back toward the officer?

15 **A** No, I can't. So whenever I was over this
16 way, I saw him running past here, but for me to come
17 across here and him to come all the way, that's not
18 enough time I don't think. I didn't see him go that
19 far, not at all. Because whenever I came across
20 this, whenever I saw the officer coming this way and
21 he was still coming right there, so he never made it
22 that far.

23 **Q** Okay. So let me tell you something, go
24 ahead and sit down. So as you park your car, do you
25 recall which slot you were in right here?

1 (indicating)

2 **A** No, I don't. I was right in one on that
3 side though.

4 **Q** On what side?

5 **A** On the side.

6 **Q** Closest to the street?

7 **A** Yes.

8 **Q** Closest to Canfield Drive?

9 **A** I was in one of those three, I can't
10 remember exactly where I parked.

11 **Q** From where you were parking and you have
12 to get out of your car, is it possible that you lose
13 sight of him for a time period or that you can't see
14 from your location to where he could have been at
15 that corner?

16 **A** No.

17 **Q** Okay. So let me ask you this, have you
18 been out on that street since then?

19 **A** No, I don't.

20 **Q** Okay. Since then you haven't seen the
21 flowers and memorial?

22 **A** I seen pictures in the news and stuff like
23 that, not myself actually being there, no.

24 **Q** Do you have any reason to know why Michael
25 Brown's blood might have been located in this area?

1 **A** No.

2 **Q** He came to rest right about here, would
3 that be fair to say?

4 **A** Yeah.

5 **Q** Right, almost right across from
6 Caddiefield Drive?

7 **A** Yes.

8 **Q** So you don't know how it would have been
9 possible for his blood to be 20 and 22 feet that
10 direction toward Copper Creek Court?

11 **A** No, I don't.

12 **Q** Okay. Is it possible that you in trying
13 to get out of your car, were you dressed for work?

14 **A** Yes, I was.

15 **Q** Were you wearing heels?

16 **A** No, I had on khakis and a T-shirt.

17 **Q** Okay. So is there, is it possible that,
18 you know, you trying to run through the grass or get
19 in this direction, you missed a part of that?

20 **A** I can't see me missing that part because
21 whenever I was coming across, I still had sight of
22 them. I didn't see him go that far.

23 **Q** Okay. But you say you saw him turn
24 around?

25 **A** Yes.

1 **Q** And from the point he turned around, he
2 didn't really go any further closer to the officer?

3 **A** No.

4 **Q** And he had his hands up at that point?

5 **A** Yes.

6 **Q** Okay. That day, August 9th, pretty hot
7 outside?

8 **A** Yeah.

9 **Q** Did you have your car windows up and the
10 air conditioner on?

11 **A** No, the air is out on my work van, so I
12 had windows down.

13 **Q** Okay. You had the windows down?

14 **A** Yes.

15 **Q** When you pulled in here and you saw
16 Michael Brown and he was struggling with the
17 officer, or what was your description?

18 **A** It was like a wrestling.

19 **Q** Wrestling. So he's at the officer's car
20 window?

21 **A** Uh-huh.

22 **Q** And do you see any part of Michael Brown's
23 body inside the police vehicle?

24 **A** Like maybe his arms and stuff going back
25 and forth through the window, like being pulled back

1 and forth.

2 **Q** Okay. How about his head, did you ever
3 see his head in the window?

4 **A** I saw his head in the window, but not like
5 kneel down into the window kind of thing, it was
6 like kind of pulled back and forth like at the
7 window.

8 **Q** So Michael Brown, do you know how tall he
9 was?

10 **A** No, he's really tall though, he was a man
11 when I first saw him, I didn't know he was a kid.

12 **Q** He is taller than the roof of the vehicle,
13 correct?

14 **A** Yes.

15 **Q** So in order for his head to be in the
16 vehicle, he would have to have been at some point
17 bent over a little bit, correct?

18 **A** Yeah.

19 **Q** His head couldn't --

20 **A** Yeah.

21 **Q** Right, right.

22 **A** It went, yeah.

23 **Q** And you said that you thought his head
24 might have been in the vehicle at some point?

25 **A** Yeah, coming like back and forth through

1 the window.

2 Q Okay. Could you see anybody if there was
3 anybody hitting anybody else?

4 A I couldn't see that.

5 Q Couldn't tell?

6 A No.

7 Q Okay. And how many seconds from the time
8 that you pull up and you see this going on at the
9 vehicle to the time that Michael Brown is lying in
10 the street?

11 A I don't know.

12 Q Can you give me an estimate?

13 A It was less than two minutes.

14 Q Okay. And just to be clear, you heard one
15 gunshot while Michael Brown was by the vehicle?

16 A Yes.

17 Q And then he runs and the officer chases
18 him while firing his weapon?

19 A Uh-huh.

20 Q Can you give me an idea how many times the
21 officers fires his weapon while he is chasing him?

22 A No, I can't. I don't know exactly, it is
23 about five or six times.

24 Q Okay. And then does he continue to fire
25 as Michael Brown is turning around, or is there a

1 pause in the gunshots?

2 **A** There was a pause.

3 **Q** Okay. So Michael Brown, does the pause
4 happen when he turns around or before or after?

5 **A** Like during the time, I can't say exactly
6 when the pause happened because there were several
7 pauses. I can't say this happened and then a pause,
8 this happened and then a pause, I wasn't paying
9 attention like when the gunshots came and when it
10 stopped.

11 **Q** Okay. And I know, it is tough, I mean,
12 this is all very chaotic, and you're seeing
13 something, you probably can't even believe what you
14 are seeing, right?

15 **A** Yeah.

16 **Q** So as best we can, you know, everybody
17 that says that they saw this we are trying to get as
18 many details as we can out of them.

19 **A** Uh-huh.

20 **Q** I'm not here to say one person is right,
21 and one person is wrong, okay. Just the best of
22 your recollection.

23 You said you maybe heard how many
24 shots, five or six shots as he was running?

25 **A** Yeah, more than five or six shots.

1 **Q** More than five or six?

2 **A** Yeah.

3 **Q** And then at some point there is a pause in
4 the gunfire and then you hear more gunfire?

5 **A** Yes.

6 **Q** How many guesstimates would you say you
7 heard then?

8 **A** Probably four or five more, I don't know.

9 **Q** Okay. And then after that round of
10 gunfire, do you hear any more gunshots?

11 **A** No, afterwards, no.

12 **Q** So it is that last round of four or five
13 gunshots that Michael Brown then collapses in the
14 street?

15 **A** Yeah. Around about that many times, I
16 can't say exactly how many times he shot each time
17 at all.

18 **Q** Okay.

19 **A** I never counted.

20 **Q** Okay. And that's fair. Did you ever see,
21 after Michael Brown went down on the pavement, did
22 you ever see the officer shoot him again?

23 **A** No.

24 **Q** Did you see the officer go up to him?

25 **A** Huh-uh.

1 **Q** Okay. At some point did you see Dorian
2 Johnson running away ever?

3 **A** I didn't see him. Only time I saw him was
4 on the side of that red car, I didn't look back to
5 see him at all. I didn't see him any more after.

6 **Q** On the side of what car?

7 **A** At the side of the little white car.

8 **Q** The Monte Carlo?

9 **A** The Monte Carlo.

10 **Q** You didn't see where he went after that?

11 **A** No, I didn't.

12 **Q** Did eventually, did come down from
13 her apartment?

14 **A** I went upstairs to her.

15 **Q** Did you girls eventually go down to the
16 street?

17 **A** I went, I came down whenever the officer
18 said it was okay to come down, because the
19 investigators were there, they wouldn't even let me
20 come down at all, and they told us we had to stay up
21 on the porch because they were trying to block it
22 off, and we had to stay up and they were applying
23 the tape.

24 **Q** While the officers still had things taped
25 off, did you eventually come down?

1 **A** No, never.

2 **Q** Never did?

3 **A** I came down when they investigator got
4 done talking to us.

5 **Q** Did you ever use your phone to tape
6 anything or record anything?

7 **A** I did.

8 **Q** And that's when you are on the ground,
9 correct?

10 **A** That was whenever I was not top on the
11 balcony.

12 **Q** Okay. So you went up to 's
13 apartment and did she stay upstairs too or did she
14 ever go downstairs?

15 **A** I don't remember her going downstairs, I
16 can't say for sure, but I never looked at that
17 point. We were walking back and forth, up and down
18 the steps. We were having two different
19 conversations on our phone, we were both crying. I
20 don't remember her going down, but I know I didn't
21 go down.

22 **Q** Okay. So this number five is her
23 building, correct?

24 **A** Uh-huh.

25 **Q** Do you enter her building off of this

1 Canfield Drive horseshoe?

2 **A** No.

3 **Q** You enter --

4 **A** Those steps right there.

5 **Q** Right here?

6 **A** Yeah.

7 **Q** Right in front of Canfield Drive, right
8 across from where Michael Brown's body was, correct?

9 **A** Uh-huh.

10 **Q** So after this happened, how long did you
11 remain out here before you went inside the
12 apartment?

13 **A** I went straight upstairs to her balcony.

14 **Q** Okay. And her balcony is on the front of
15 the building?

16 **A** Yes.

17 **Q** Third floor?

18 **A** Yes.

19 **Q** Did the two of you, did she let you into
20 her apartment, was she inside when you went to her
21 apartment?

22 **A** She was standing on the balcony with her
23 phone out recording and she was trying to say, I
24 just saw him kill him. I said, yeah, I saw him too.
25 And she was crying, I got on the phone I called my

1 fiancée and said, I just saw the incident.

2 **Q** Okay. But she was in the apartment when
3 you got there?

4 **A** She was on her balcony, yes.

5 **Q** You remained up there?

6 **A** Yeah.

7 **Q** You went upstairs?

8 **A** We remained, we walked up and down the
9 steps a couple of times, both on our phones and we
10 stayed up there.

11 **Q** Okay.

12 **A** Or her and I stayed up there. I don't
13 think she ever went down, the cops wouldn't let us
14 come down.

15 **Q** As far as you know, she stayed up there
16 with you too?

17 **A** Yes.

18 MS. ALIZADEH: I don't have anything else.

19 MS WHIRLEY: Questions? Anybody?

20 You did talk to a police officer that day,
21 give a statement to the police officer the same day
22 as the shooting?

23 **A** Yes.

24 MS WHIRLEY: Like within an hour or so of
25 the shooting.

1 **A** Yes.

2 MS WHIRLEY: Okay.

3 MS. ALIZADEH: And you have made numerous
4 statements like in the media, correct?

5 **A** Uh-huh, yes.

6 MS. ALIZADEH: And then recently you were
7 interviewed by the FBI, correct?

8 **A** Yes.

9 MS. ALIZADEH: Other than the statement
10 you made that day to the County Police, and the
11 statements you've made in the media and the
12 statement you made to the FBI, have you ever made a
13 statement to anybody else about this?

14 **A** No.

15 MS. ALIZADEH: Other than talking amongst
16 your friends or with your friends?

17 **A** No, that's it.

18 MS. ALIZADEH: Pardon me?

19 **A** No, that's it, I haven't.

20 MS. ALIZADEH: Okay. And does
21 still work for you?

22 **A** Yes.

23 MS. ALIZADEH: Have you, other than the
24 day that this happened, do you guys discuss this
25 together?

9 **A** No, not that I can think of.

15 **A** I will.

18 MS WHIRLEY: That will end the testimony
19 of .

I,

a Licensed Certified Court

7

Reporter by the Supreme Court in and for the State

8

of Missouri, duly commissioned, qualified and

9

authorized to administer oaths and to certify to

10

depositions, do hereby certify that pursuant to

11

Notice in the civil cause now pending and

12

undetermined in the County of St. Louis, State of

13

Missouri.

14

The said witness, being of sound mind and being

15

by the grand jury first carefully examined and duly

16

cautioned and sworn to testify to the truth, the

17

whole truth, and nothing but the truth in the case

18

aforesaid, thereupon testified as is shown in the

19

foregoing transcript, said testimony being by me

20

reported in shorthand and caused to be transcribed

21

into typewriting, and that the foregoing page

22

correctly sets forth the testimony of the

23

aforementioned witness, together with the questions

24

propounded by counsel and grand jurors thereto, and

25

is in all respects a full, true, correct and

1 complete transcript of the questions propounded to
2 and the answers given by said witness.

3 I further certify that the foregoing pages
4 contain a true and accurate reproduction of the
5 proceedings.

6 I further certify that I am not of counsel or
7 attorney for either of the parties to said suit, not
8 related to nor interested in any of the parties or
9 their attorneys.

1 GRAND JURY HEARING VOLUME VII

2 MS. WHIRLEY: Good morning.

3 (Everybody says good morning.)

4 MS. WHIRLEY: I'm Sheila Whirley. Of
5 course, Kathi Alizadeh is here, 12 grand jurors is
6 here, and the court reporter. Today is September
7 the 25th, Thursday. And I don't have the total
8 program memorized for this morning or for today. I
9 can tell you our first witness is .

10 , we heard his taped
11 statements last time we were here, recorded
12 statements with the police, with the FBI agent, and
13 also made several appearances on the media for CNN,
14 and I think various TV channels. You guys remember
15 that, he is going to testify live here this morning.

16 And then, Kathi, could you tell us what
17 else is on the agenda today?

18 MS. ALIZADEH: I don't know. No,
19 actually, we have a witness scheduled for 10:30. He
20 called me bright and early this morning to cancel,
21 so we're going to probably play you, I don't think
22 Witness Number 10, remember the guy that was

23 He has a recorded statement
24 I don't think I played.

25 MS. WHIRLEY: Only played part of it. We

1 had about ten minutes left.

2 MS. ALIZADEH: We can play the end of that
3 to finish that and then we also have, you all heard
4 from last time and she has media
5 interviews that take, I think, about 33 minutes
6 total for all of her media interviews. And then she
7 also has some recorded statements that we can play
8 and hopefully, that will fill out the morning.

9 And then in the afternoon we have a
10 witness scheduled to be here at 12:30. I will check
11 and make sure he hasn't called to cancel during a
12 break or whatever, hopefully then we will have
13 another witness here in the afternoon. He also has
14 a taped statement. I can't remember if it is 30
15 minutes or an hour, it doesn't exceed an hour.

16 So if he, you know, shows up, we can play
17 his statement and then have him testify, and I think
18 we are trying to recess 2:30.

19 : 3:15.

20 MS. ALIZADEH: At the lunch break, if we
21 need to figure out how to fill our time, we'll do
22 that.

23 Also, if you recall, Witness Number 10 had
24 talked about the fact that he is,
25 at the scene the

1 aftermath,

2

3 I do have that clip and we will play it
4 for you. It is only a couple minutes and, you know,
5 just so you know,

6 It is not a very long
7 clip, so if you all, if we go through it, we can
8 play it again. So we can go back and try to listen,
9 because the person who is doing the recording
10 occasionally speaks and, of course, their voice will
11 kind of talk over the people that are in the
12 background.

13 So it might be, if you request it, it
14 might be you want to hear that a couple of times
15 just so you can try to pick up what's being said.
16 All right.

17 MS. WHIRLEY: All right. I'll go get the
18 first witness.

19 MS. ALIZADEH: Let's talk about the
20 question that they had.

21 MS. WHIRLEY: Okay.

22 MS. ALIZADEH: We were not on the record,
23 I think it was last week when one of you asked a
24 question about your deliberations and, of course,
25 you've been sitting as a grand jury for several

Page 8

1 months, so you know that it takes nine people to
2 indict and the question was asked what if we have,
3 what if we can't, since we're giving you a variety
4 of different charges to consider, I think the
5 question was, what if we don't have nine people that
6 all agree on the same charge, what do we do then or
7 what happens.

8 And I wanted to make sure that I put that
9 in there in the record that that was a question that
10 was asked and we have had discussions about that and
11 what I will tell you is we're researching this
12 because we want to make sure before we tell you, you
13 know, we want to make sure we're correct on the law,
14 but I assure you that we will have an answer for you
15 well before you begin your deliberations about what,
16 in the event that that would happen, what happens
17 then. All right.

18 Are there any other questions that anybody
19 had thought of? Okay, all right.

20 ,
21 of lawful age, having been first duly sworn to
22 testify the truth, the whole truth, and
23 nothing but the truth in the case aforesaid,
24 deposes and says in reply to oral
25 interrogatories, propounded as follows, to-wit:

1 EXAMINATION

2 BY MS. WHIRLEY:

3 Q Introduce yourself to the jurors, please.

4 A My name is

5 Q All right. , where do you
6 live? You don't have to give me your exact address,
7 in what vicinity?

8 A I live in Canfield.

9 Q Do you live in the Canfield Green
10 Apartments?

11 A Yes, I do.

12 Q How long have you lived there?

13 A Um, going on a year now.

14 Q One year. So you lived there on August
15 the 9th of 2014?

16 A Yeah.

17 Q Is that the day that Michael Brown was
18 shot?

19 A Uh, no, I think it was like on the 9th.

20 Q August 9th of 2014, correct?

21 A Yes.

22 Q What day was it?

23 A Um, I think that was a Saturday.

24 Q Okay, Saturday. Do you remember your
25 Saturday that day?

1 **A** Yes. All I did that morning, early that
2 morning, my family and I went out for breakfast and
3 we came back around nine something and we all took a
4 nap.

5 **Q** How many folks went to breakfast with you?

6 **A** Uh, four altogether. My fiancée and my
7 three kids.

8 **Q** And then you all came back and took a nap?

9 **A** Yes.

10 **Q** And so what time did you wake up from the
11 nap?

12 **A** Um, I was actually woken up about 11:00,
13 11:30.

14 **Q** Did something wake you up or you just woke
15 up?

16 **A** A friend of mine came over.

17 **Q** Okay. And what happened when your friend
18 came over?

19 **A** Um, I steps outside with him for a couple
20 of minutes, maybe no longer than five minutes.

21 **Q** Okay. Can you show us on the map? You
22 can use that pointer or that laser light thing.

23 Show us where you live.

24 MS. ALIZADEH: For the record, this is
25 Grand Jury Exhibit Number 25.

1 MS. WHIRLEY: Yes, thank you.

2 A Oh, I have to push it.

3 MS. WHIRLEY: Yeah, push it down.

4 Q (By Ms. Whirley) Grand Jury Exhibit Number
5 25, show us where you live.

6 A I live right here.

7 Q All right. So is that an upstairs or
8 ground level?

9 A That's the middle level, that's the second
10 floor.

11 Q Do you have a balcony?

12 A Yes, I do.

13 Q So when you went out and talked with your
14 friend, were you on the balcony?

15 A On the balcony.

16 Q On the balcony?

17 A Uh-huh.

18 Q An then what happened?

19 A I goes back in the house. I goes back in
20 the house.

21 Q And speak up a little.

22 A I goes back in the house no longer, three,
23 four minutes after that maybe, and I heard something
24 going on outside.

25 Q And do you investigate that to see what it

1 is?

2 **A** Yes, I happen to look out the window.

3 **Q** All right. And what do you see?

4 **A** I see a guy on the side, on the driver's
5 side of a police vehicle. I just see something
6 going on through the window, like a tussling going
7 on through the window.

8 **Q** Can you show us on the map where you saw
9 this police vehicle?

10 **A** Um, about right here.

11 **Q** Okay. And show us again where your
12 apartment is.

13 **A** My apartment is right here.

14 **Q** So you are looking sort of down?

15 **A** Yeah.

16 **Q** And --

17 **A** Kind of.

18 **Q** From your perspective, from your point of
19 view, are you looking at the driver's side of the
20 vehicle or the passenger's side of the vehicle?

21 **A** I'm looking directly through the passenger
22 window to the driver, you know, so I could see real
23 good.

24 **Q** Okay. So which direction was the car
25 facing?

1 **A** The vehicle was actually facing --

2 **Q** The truck, the police truck.

3 **A** The police vehicle was like facing like up
4 here, you know, kind of like my direction, but this
5 way diagonal like.

6 **Q** Okay.

7 **A** Maybe like facing this building.

8 **Q** Okay. So you're saying it was like facing
9 that building?

10 **A** Yeah, kind of, you know, by diagonal.

11 **Q** All right. So if it was traveling, which
12 way would it have been traveling?

13 **A** Um, it was traveling going towards West
14 Florissant.

15 **Q** All right. That would be going west on
16 Canfield Drive?

17 **A** Yeah.

18 **Q** But it was diagonal?

19 **A** Right.

20 **Q** Parked when you saw it?

21 **A** Yeah.

22 **Q** Did it look like the brake lights were on
23 or anything?

24 **A** I didn't notice that.

25 **Q** Okay, all right. So it is facing this way

1 diagonally, but you can see the passenger side
2 versus the driver's side?

3 **A** I could see the passenger's side clearly.

4 **Q** Clearly?

5 **A** Versus the driver's side.

6 **Q** Okay. So then you see a tussling going
7 on, can you give us any more description about what
8 the tussling looks like?

9 **A** Um, obviously, the window is between them,
10 so I just see both arms moving.

11 **Q** When you say both arms, what do you mean?

12 **A** I see, if my window was in this direction
13 I can see the officer's arms moving this way and I
14 see Mike's arms, you know, whatever, through the
15 window, whatever.

16 **Q** Can you see skin of the arms, are they
17 wearing long sleeves?

18 **A** Yeah, it was skin.

19 **Q** Could you tell two black people, two white
20 people, black and white?

21 **A** I could tell black and white.

22 **Q** You could tell black and white. You said
23 Mike, you used the name Mike?

24 **A** Yeah.

25 **Q** Did you know Mike?

1 **A** No.

2 **Q** Had you ever met him before?

3 **A** I seen him before.

4 **Q** Because he lived in the neighborhood you
5 thought?

6 **A** I'm not even sure.

7 **Q** You don't know, okay. Had you ever talked
8 to him?

9 **A** No.

10 **Q** All right. Okay. So then what after you
11 see the tussling?

12 **A** I see the tussling and all of the sudden,
13 he also had a friend with him, he was standing like
14 in front of the vehicle, the police cruiser, but
15 like on the passenger side in front, maybe like
16 4 feet away from him, but all of the sudden, they
17 just takes off running.

18 **Q** So his friend, which you now know to be
19 who, what is his friend's name, do you know what his
20 friend's name is now?

21 **A** Um, um, Dorian.

22 **Q** Okay, Dorian. So was his friend on the,
23 Mike was on the driver's side; is that correct?

24 **A** Yeah.

25 **Q** With the officer tussling you said?

1 **A** Yes.

2 **Q** Was Dorian on the driver's side too?

3 **A** No, he was on the passenger side.

4 **Q** The passenger side of the?

5 **A** Police cruiser.

6 **Q** Closer to where you could see?

7 **A** Yeah.

8 **Q** Okay. And what was he doing?

9 **A** He's just standing, just standing there.

10 **Q** Okay. And then what?

11 **A** And, like I said, they both just take off
12 running, almost like at the same time.

13 **Q** Okay. Did you see anything that occurred
14 that caused them both to take off running?

15 **A** No, I didn't notice that.

16 **Q** All of the sudden they both --

17 **A** They takes off running.

18 **Q** Did you hear anybody saying anything?

19 **A** Um, I heard, that's the only thing I heard
20 was just the tussling or whatever, like maybe some
21 voices, but I'm not sure like what was said, they
22 just take off running.

23 **Q** All right. They took off running which
24 way?

25 **A** Um, Mike, he runs straight down Canfield

1 directly in the middle of the road, and his friend,
2 like I said, he was in the front passenger side, and
3 if the vehicle, the police cruiser is like right
4 here and there was also two parked vehicles on the
5 side right here, and his friend takes off running
6 directly behind the first vehicle he sees.

7 Q Okay.

8 A That was on the side.

9 Q Do you recall what those vehicles were
10 like, the color and make of the cars?

11 A I just remember the white vehicle that
12 Dorian ran to.

13 Q Do you know what kind of car that was?

14 A It was like a two-door Monte Carlo.

15 Q Okay. So there were two cars parked, the
16 first was the Monte Carlo close to the police
17 vehicle?

18 A Yeah.

19 Q And then Mike is running down, I guess
20 east, well, you are showing us east on Canfield
21 Drive?

22 A Yes.

23 Q And then what happens?

24 A And, um, the moment they take off running,
25 I see the officer immediately gets out of his

1 vehicle, pull out his gun, definitely, in his
2 shooting position, and let me see. Mike must have
3 probably made it about right here in front of this
4 driveway, as I said before, he didn't make it there,
5 he just, when he gets out of the car he just
6 immediately starts shoot.

7 Q As soon as the officer gets out of the car
8 he's shooting?

9 A Yes.

10 Q And when you say the shooting, I don't
11 know what your phrase, was standpoint, what did you
12 say?

13 A Yeah, like in a shooting position.

14 Q Position, show us the shooting position.

15 A Um, like, you know (indicating).

16 Q So he gets out of the car and does that?

17 A Yeah, or maybe this right here.

18 Q Okay, thank you. And Mike is running and
19 he's shooting?

20 A Yes.

21 Q And he's shooting like with Mike's back to
22 him?

23 A Yes.

24 Q And then what?

25 A And, um, at the time I was still in the

1 window looking and, um, my eyes, actually, I was
2 still kind of focused, I was focused on both of
3 them, but mainly on Dorian because he was still
4 closer to the officer than Mike because Mike, he ran
5 kind of fast at that time, but as I see Dorian
6 ducking down looking at the officer shooting, I was
7 kind of thinking that the officer was, he was going
8 to stop, even himself with the vehicle that his
9 friend ran to and come over and shoot him.

10 Q Shoot Dorian?

11 A Yeah, but I kept my eyes on him because I
12 seen Dorian constantly looking over the vehicle and
13 looking at the officer each time.

14 Q Did Dorian look a certain way or anything
15 in your opinion?

16 A Just looking scared.

17 Q Okay.

18 A Definitely looking at the officer, like I
19 said.

20 Q Was he saying anything, Dorian, that you
21 could hear?

22 A No, no.

23 Q How many shots did you hear the officer
24 fire when he got out of the car and pursued Mike
25 Brown?

1 **A** Maybe four or five times.

2 **Q** Okay. And you didn't count the shots?

3 **A** No.

4 **Q** But it seemed like four or five?

5 **A** Yeah, it was kind of like a round though.

6 **Q** Okay. So you seen Dorian, Mike is
7 running, now what?

8 **A** I'm still in the window and, um, I notice
9 that the officer passed his friend Dorian where he
10 ran to and that's when I decided to run outside to
11 see what, you know, get a closer look.

12 But I forgot my phone in the bedroom,
13 so I still took some steps, ran into the bedroom and
14 got my phone and I went back, which is just a couple
15 of seconds.

16 **Q** And where did you end up when you came
17 out? Show us on the map where you were.

18 **A** I was at this building right here on the
19 second floor.

20 **Q** Uh-huh.

21 **A** On the balcony.

22 **Q** Uh-huh.

23 **A** Turning on the power on my phone and the
24 moment I steps outside, I see Mr. Brown kind of bent
25 down a little bit with his arms tucked in like on

1 his stomach, so now I'm thinking that he's now shot.

2 He was going down definitely so, and
3 the officer just let out a few more rounds to him
4 and he hit the ground and that's when I seen blood.

5 Q So when you say he was going down, the
6 officer shot more at him you say?

7 A Uh-huh.

8 Q How many more times maybe?

9 A Maybe four or five more times.

10 Q Can you demonstrate for us when you say
11 going down, what his position looked like?

12 A His position looked like this.

13 Q Both arms under?

14 A Both arms like this (indicating).

15 Q Under his torso?

16 A Yeah, I remember him like taking two small
17 steps like he was stumbling and like I said, the
18 officer lets out some more shots and that's when he
19 hit the ground.

20 Yeah, he hit the ground just like how
21 he, how he laid there or whatever, he dropped the
22 arm.

23 Q Okay. So he had two arms --

24 A Just like this.

25 Q -- and one arm came out?

1 **A** Yeah, yeah, yeah, so all at the same time
2 cause, um, I thought he was hit in his chest I
3 didn't see no blood yet or, you know, so. When the
4 officer let out more shots, you know, he just hit
5 the ground, boom, just like this.

6 **Q** And the officer let off the shots as he
7 was going down?

8 **A** Yeah.

9 **Q** Okay. Did it appear to you that Mike
10 Brown was charging the officer?

11 **A** No.

12 **Q** Did it appear that the officer was being
13 threatened by Mike Brown at that point when he was
14 going down?

15 **A** No.

16 **Q** Okay. Then what did the officer do once
17 Mike Brown hit the ground?

18 **A** Uh, the officer was maybe 5 feet away from
19 his body.

20 **Q** Was he 5 feet away, did you see the shots?

21 **A** Yeah, I saw the shots.

22 **Q** So he was shooting, when Mike Brown was
23 going down, how far away was he from Mike Brown
24 then?

25 **A** He was like a good 15, 20 feet.

1 **Q** From him when he, and let me walk it, I am
2 going to walk back here and you tell me how far,
3 like you be the officer and I'm Mike Brown. So if
4 this room is large enough, about right here?

5 **A** Yeah, maybe, I'm standing at the door.

6 **Q** You can stand up.

7 **A** Maybe I'm standing at the door, about this
8 distance.

9 **Q** This is the distance between Mike Brown
10 and the officer when he shot him and he was going
11 down?

12 **A** Yeah, at the time that he was going down,
13 but like I said, he was probably a little bit
14 farther when he let out the first shots.

15 **Q** Okay.

16 **A** The last shots he was about this distance,
17 yeah.

18 **Q** Okay. So that's about 20 feet, 15 or
19 20 feet?

20 **A** Yeah.

21 **Q** That's what you thought it was, right?

22 **A** Yeah.

23 **Q** And what did the officer do? You said at
24 some point he was like five foot from you?

25 **A** Yeah, I see his body, I didn't see him

1 check his body. He was just like 5 feet away from
2 his body, um, over his shoulder or whatever on his
3 walkie-talkie, still have his gun out pointed at
4 him.

5 Q Okay. And was Mike Brown moving at that
6 point?

7 A No, the moment he hit the ground, I knew
8 he was dead.

9 Q No more movement?

10 A No more.

11 Q At any point did you hear the officer say
12 anything?

13 A No, no, I don't remember.

14 Q At any point did you hear Mike Brown say
15 anything?

16 A No.

17 Q How about Dorian?

18 A No.

19 Q You never heard any of them say anything?

20 A They probably was, but you know, I wasn't
21 even paying attention to anything that was said. I
22 was definitely paying attention to the sounds of the
23 gunshots and what was going on.

24 Q Okay. Did you ever see Dorian get in the
25 car that he was by, a white Monte Carlo? Did it

1 appear to you he got in the car?

2 **A** Yes, I saw him, he's in the car about the
3 time that Mike Brown's body hit the ground.

4 So I see him inside the car and --

5 **Q** Do you actually see him in the car or you
6 are assuming?

7 **A** Yeah, I see him in the car kind of sitting
8 and then, like I said, when I see his body laying
9 there now and it is done and over with, I see two
10 more cops come there, but then probably a little bit
11 before that is when I noticed Dorian had left, the
12 white car left.

13 **Q** Okay. You didn't see Dorian any more?

14 **A** No, I didn't see him then.

15 **Q** Did you see him any time after that when
16 this investigation was going on at the complex?

17 **A** I don't remember seeing him then.

18 **Q** Had you ever seen Dorian before?

19 **A** In the streets, no.

20 **Q** So you didn't know Dorian?

21 **A** No, I don't remember seeing him.

22 **Q** I asked you to describe him, what do you
23 remember about him?

24 **A** I just remember some dreads.

25 **Q** Okay. You really couldn't identify him if

1 I brought a bunch of pictures here and show them to
2 you or do you think you could?

3 **A** Maybe, yeah, I think.

4 **Q** I'm not going to show the pictures, I was
5 just asking.

6 Did it ever appear that Mike Brown
7 had a weapon?

8 **A** Uh, no.

9 **Q** Did it appear when he was, you know, you
10 said holding his torso with both arms when he was
11 going down, that he was going for a weapon in your
12 opinion.

13 **A** No, it just looked like he was going down
14 because the moment I steps outside, I'm thinking now
15 he's hit in his chest area and the officer lets out
16 more shots. It looked like he was going down,
17 anyway, not to like give up, like to surrender, but
18 to go down and bleed, you know, because like I said,
19 before even going down on his knees or whatever, the
20 officer lets out more shots but he had his arms on
21 his torso.

22 **Q** When you say on his knees, what do you
23 mean by that?

24 **A** I'm just saying like before, like I said
25 when I was thinking that he's now shot, but he's got

1 his arms like this, you know, like before he even
2 hit the ground, like his knees didn't even hit the
3 ground or nothing like that. Cause I know he was
4 hit, I knew he was hit, that's why I'm pretty sure
5 he was now turned around.

6 Q Okay. And when he turned around, did you
7 see him raise his hand in any way? I understand you
8 saw his hand on his torso.

9 A I didn't see the hands go up, I didn't see
10 no hands go up.

11 Q Okay. And you already said you didn't see
12 him charge the officer, but you did say the officer
13 was shooting at him as he was running away?

14 A Yes.

15 Q After they left and ran from the car?

16 A Yes.

17 Q The police car?

18 A Yes.

19 Q Okay. Now, when did you first interview
20 with the police?

21 A Um, the first time?

22 Q Did you talk to them that day when this
23 occurred?

24 A I think so.

25 Q Okay. You talked to them the very first

1 day I'm asking?

2 **A** I think so, I mean.

3 **Q** That Saturday?

4 **A** Yeah, I think because I talked to a lot of
5 other reporters too. So A lot of people was coming
6 the my house.

7 **Q** You talked to a lot of people, I
8 understand.

9 **A** Yeah.

10 **Q** When you talked to the police, do you
11 recall if they came to you or did you go to them?

12 **A** No, they came to me.

13 **Q** How did they know to come to you. Were
14 you outside and they came to you or did they come to
15 your house?

16 **A** They definitely just came there. They
17 just came there.

18 **Q** To your house?

19 **A** Yes.

20 MS. WHIRLEY: Kathi?

21 **Q** (By Ms. Alizadeh) So just to clarify,
22 you heard something that caused you to
23 look out your window and when you did, you saw that
24 Mike Brown was at the vehicle?

25 **A** Yes.

1 **Q** And the driver's window and you saw hands
2 in the window?

3 **A** Yeah, just going through, just arm
4 movement.

5 **Q** Arms moving?

6 **A** Uh-huh.

7 **Q** Now, when you originally described this,
8 and I, you know, I'm taking notes as you are
9 testifying, so I don't want to say I missed
10 something, but can you show what you showed before
11 or what you saw that Mike Brown's arms or hands
12 appear to be doing?

13 **A** I just see his hands just through the
14 window and I see like the officer's elbow, you know,
15 just like this. (indicating)

16 **Q** Okay. Now, you're using your right elbow
17 when you are doing that?

18 **A** Uh-huh.

19 **Q** And if you were the officer, you'd be
20 sitting in the driver's seat and I'm Mike Brown, I'm
21 standing on this side of you, correct?

22 **A** Yeah.

23 **Q** Was say the officer's right elbow going
24 like this or was it this elbow?

25 **A** No, it was going like this.

1 **Q** Okay.

2 **A** So if my window is this way, I seen this
3 kind of movement.

4 **Q** And you're looking into the vehicle
5 through the passenger window?

6 **A** Yeah, and slightly through the front
7 windshield like, yeah.

8 **Q** Okay. So to be clear, anything that
9 happened before you looked out the window, you have
10 not witnessed nor heard anything about, right?

11 **A** No.

12 **Q** And then by the time you first look out,
13 Dorian is already on the passenger side of the
14 vehicle near the sidewalk?

15 **A** Yeah, kind of like in front, in front of
16 the vehicle though, you know, not on the side of it,
17 but still like 5 feet away from it. Yeah, basically
18 between the sidewalk and the parked vehicle.

19 **Q** Okay. So was he in the street or grassy
20 area?

21 **A** He was still in the street like, yeah.

22 **Q** But not at the driver's door?

23 **A** No, not at the driver's door at all.

24 **Q** So he was not in a position where if Mike
25 Brown wanted to reach to him, he couldn't, he wasn't

1 there?

2 **A** No, not at all.

3 **Q** Okay. And so, and then you said that you
4 ran to get your phone and then I assume it was close
5 by?

6 **A** Yes.

7 **Q** So you missed some of it?

8 **A** Yes.

9 **Q** But a matter of seconds?

10 **A** Yeah, yeah.

11 **Q** And then when you came back, you went
12 outside then?

13 **A** Uh-huh.

14 **Q** So you're actually out on your balcony?

15 **A** Yes.

16 **Q** So still above ground level?

17 **A** Yeah.

18 **Q** Looking kind of down?

19 **A** Yeah.

20 **Q** Did you start recording with your phone at
21 that point?

22 **A** No, my phone, it was completely off and I
23 was cutting on the power still.

24 **Q** Okay. So now, you did record some things
25 with your phone that day; is that right?

1 **A** Yes.

2 **Q** But the things that you recorded were
3 after?

4 **A** Just right after, before the yellow tape,
5 yeah.

6 **Q** Right. So you did not record any part of
7 shooting; is that correct?

8 **A** Correct.

9 **Q** Okay.

10 MS. ALIZADEH: I don't have anything else.
11 Questions?

12 : This is
13 When you were in your bedroom looking out the window
14 is it a clear view or did you have blinds or shades
15 or curtains?

16 **A** I had blinds.

17 : So you had to like open
18 the blinds or peer through them?

19 **A** I put my finger in it and had it like
20 this, yeah. (indicating)

21 : So does that bother the
22 vision a little bit?

23 **A** No, it didn't mess it up. I mean, I could
24 see everything when I did that.

25 Did you notice any other

1 vehicles around the police car or in front of or the
2 police car initially?

3 **A** No, I just seen two vehicles parked on the
4 side, on the sidewalk.

5 : Nothing in front of the
6 police vehicle though?

7 **A** No, it was behind it like.

8 Did you see Michael
9 Brown's head or shoulders entering the car at any
10 time?

11 **A** Inside the vehicle?

12 : Inside, yeah.

13 **A** No.

14 : So just his arms?

15 **A** Yes.

16 Okay, thank you.

17 : At any
18 time did you see Dorian with anything in his hands
19 or Michael pass anything to Dorian?

20 **A** No.

21 : . So go
22 back to part of the story you were explaining, you
23 wouldn't mind maybe explaining it. When you are in
24 your bedroom looking through the window, through the
25 blinds, you explain seeing Officer Darren Wilson,

1 but can you walk us through exactly, you said you
2 saw him shooting, kind of what that looked like.
3 You know, if you heard him kind of what, you know,
4 you showed us how he was holding his gun, but I mean
5 was it cocking back, is there any sort of smoke,
6 shell casing, anything that you may have seen or
7 heard during that?

8 **A** No, no, he just, I say immediately, when
9 they started running, he just gets out of his car
10 and I see him in his shooting position and he lets
11 out some rounds. So I didn't see no shells fall or
12 no gun smoke or anything.

13 : As he is progressing, is
14 he continually moving, what is he doing?

15 **A** He's, he's, he's taking, he's taking like
16 large steps, so I didn't see him like run or
17 anything, so he is just taking large steps, you
18 know, towards him, you know, while his back is
19 turned towards him.

20 . When Darren
21 Wilson is pursuing Michael Brown, did you see
22 anybody like maybe with a camera or cell phone
23 running like towards or moving towards the officer,
24 like towards where Dorian Johnson would have been?

25 **A** No.

Page 35

1 : . At the
2 point where the police officer gets out of the car
3 and he, I guess, goes into his shooting motion, did
4 you ever see him like sprint with the gun in one
5 hand sort of like this kind of motion, with the gun
6 in one hand?

7 **A** No, huh-uh.

[illegible]

10 **A** Yeah, in that position.

11 : I have three questions.

12 You were in your room, in your bedroom,
13 you were looking outside?

14 MS. ALIZADEH: You know what, can you
15 speak up?

16 : I'm sorry.

17 You were in your bedroom, you are looking outside?

18 **A** Uh-huh.

19 : Where was Michael Brown
20 when you were on your balcony, where was he
21 positioned on that?

22 **A** He was definitely, I was just past this
23 driveway. He was about right there, no, probably
24 about right here. (indicating)

25 : Where was Michael Brown

1 when you got outside?

2 **A** Right here. (indicating)

3 : Same place. So he was in
4 the same spot when you were looking at him from your
5 balcony?

6 **A** Yes.

7 And he was, when you saw
8 him from outside?

9 **A** Um, no, he was right here the moment I
10 come outside.

11 Okay.

12 **A** I know for sure while I was in the window.

13 : Uh-huh.

14 **A** Where his death is, he actually ran just a
15 little bit past his death, death bed, I know that
16 for sure because from my window, this building right
17 here, kind of blocks the view.

18 You didn't see him run
19 towards Copper Creek Court?

20 **A** Copper Creek Court, yeah, I see.

21 : You saw him down there.

22 Did he get to the corner of Copper Creek Court, did
23 you see him there?

24 **A** At the corner of it?

25 Or did you see him

1 basically the same spot within just a few feet from
2 your balcony to when you got outside?

3 **A** Yeah, just right here, yeah.

4 : Okay. So you didn't see
5 him anywhere near that corner?

6 **A** Oh, no, no, no, no.

7 MS. ALIZADEH: Can I interrupt you real
8 quick? I'm not sure, maybe I'm mistaken.

9 : Okay.

10 MS. ALIZADEH: You're inside, when you are
11 looking through the window, you are inside?

12 **A** Yes.

13 MS. ALIZADEH: From there you go onto your
14 balcony?

15 **A** Yes.

16 MS. ALIZADEH: And you call that outside,
17 that's outside, right?

18 **A** Yes, the balcony is outside.

19 MS. ALIZADEH: Okay. And then you go
20 leave your balcony and go outside of the building?

21 **A** Outside on the ground level?

22 MS. ALIZADEH: Yeah.

23 **A** No, that was way after, way after.

24 MS. ALIZADEH: Okay. So inside, when you
25 go outside, that's on the balcony.

1 **A** Yes.

2 Okay. Thank you.

3 MS. ALIZADEH: I didn't know, it sounded
4 like --

5 Yeah, I thought you had
6 gone out of the apartment.

7 **A** No, no, I'm still on the balcony.

8 : Because I was a little
9 confused by that, I thought, it was seconds getting
10 and I thought getting your phone and everything.

11 **A** No, no, no, I stayed on the balcony.

12 : And you didn't see him
13 move that much from that time?

14 **A** No, like I said, from where his death bed
15 is, from my window, he ran past that just a little
16 bit.

17 Okay. And you said that
18 say the officer got inside his car, he was inside
19 his car before Michael Brown's body even hit the
20 ground?

21 **A** No, no.

22 : That's why I'm asking
23 because I misheard.

24 **A** No, I mean, he was, the officer was, 20
25 feet away from him when Mike Brown, before Mike

1 Brown's body hit the ground, he let out some more
2 shots.

3 He turned around and got
4 into his car?

5 **A** Not, not right after that, not right after
6 that.

7 : Okay. That was all, I
8 couldn't really hear you.

9 MS. WHIRLEY: I'm glad that was cleared up
10 because you were on the balcony the entire time that
11 this incident was occurring?

12 **A** No, not the entire time.

13 MS. WHIRLEY: Let me rephrase.

14 **Q** (By Ms. Whirley) Once you came out to the
15 balcony.

16 **A** Uh-huh.

17 **Q** You never came to the ground?

18 **A** No.

19 **Q** Until after the incident --

20 **A** Yeah, after.

21 **Q** -- had occurred?

22 **A** Yes.

23 **Q** Until after Mike Brown was on the ground
24 dead?

25 **A** Yes, uh-huh.

1 **Q** That's when you came out on the ground?

2 **A** Yes.

3 **Q** Okay.

4 : . If you
5 are right here.

6 **A** Yes.

7 : Yes.

8 **A** Yes.

9 : You see the police
10 officer, you can see the front of it. If you are
11 here and the police is running here.

12 **A** The officer is --

13 : Or the officer. What do
14 you see, you see his side, you see his back, you see
15 his front.

16 **A** I see Mike Brown's front, I see the
17 officer's side, I see his side, he is still in his
18 shooting position.

19 : Is it Mike Brown was down
20 right here.

21 **A** No, his body was right here (indicating).
22 And he just, the longest I think he ran right here,
23 not long at all. And like I said, and by the time I
24 got to the balcony, he is turned around right here,
25 stumbled right here where his body, his death bed

1 is. The officer still about right here.

2 : Okay. You see part of
3 his side and part of his back?

4 **A** Yes.

5 : You don't see him doing
6 this all the time?

7 **A** Yes, I saw that he was in his shooting
8 position. So I see, you know, his arm and his side
9 the officer's side.

10 : You see this hand and
11 you see perfectly with this one too?

12 **A** Yes.

13 MS. ALIZADEH: let me just ask you.
14 I until you pointed on the diagram to where you sea
15 say Mike's Brown's body eventually came to rest.

16 **A** Uh-huh.

17 MS. ALIZADEH: Show me on the diagram
18 again.

19 **A** Right there. (indicating)

20 **Q** (By Ms. Alizadeh) Okay. So you know the
21 police were out there afterwards, correct?

22 **A** Yes.

23 **Q** And they photograph everything, I don't
24 know if you saw that, but I will tell you they did.
25 I mean, do you have any reason the police moved the

1 body into a different location?

2 **A** No, they didn't.

3 **Q** And you know police took measurements of
4 where the body was in relation to things and they
5 did a diagram. Would it help you to talk about
6 where the officer was and where Mike Brown was if I
7 show you that diagram?

8 **A** Yeah.

9 **Q** Okay. So I'm going to show you a diagram
10 that was done, I'm not trying to mess you up at all
11 because it is difficult to remember all of this, I
12 get. So this is a diagram, Grand Jury Number 2,
13 okay.

14 And so this is where they measured
15 where the police truck was when the police got
16 there. You never saw that truck move again, did
17 you?

18 **A** No.

19 **Q** Okay. So here is this, do you see this
20 little grassy area here?

21 **A** Yeah, that's my apartment.

22 **Q** You can see that's kind of reflected in
23 the diagram?

24 **A** Oh, that's what that is supposed to be.

25 **Q** I think so, do you see that?

1 **A** Yeah.

2 **Q** So the truck is about, you know, somewhere
3 in this area according to the diagram, correct?

4 **A** No, it was actually up here, like right
5 here. (indicating)

6 **Q** Okay.

7 **A** So closer, like up here.

8 **Q** You think it was closer up to here?

9 **A** Yeah, I know it was because there is a
10 sign right here and it kind of evened itself up. I
11 just know it was closer to the driveway right here.
12 (indicating)

13 **Q** So let me ask you this. Do you think that
14 the police officer measured it wrong or do you think
15 that the, anybody moved the truck?

16 **A** No, no, I know that the truck was right
17 here, it was definitely right here.

18 **Q** Okay.

19 **A** Just before this driveway diagonally in
20 the middle of the street.

21 **Q** Okay. And you see here this line right
22 here that kind of looks like the edge of the
23 driveway?

24 **A** That's the edge of the driveway.

25 **Q** You say the truck was more up here?

1 **A** More right here, before the driveways
2 that's across from each other.

3 MS. ALIZADEH: Do you all have your
4 diagrams?

5 (All indicate yes.)

6 MS. ALIZADEH: I can also put this up
7 there.

8 **Q** (By Ms. Alizadeh) So now here is in
9 diagram the depiction of where Michael Brown's body
10 came to rest, okay. And here is the little, the
11 driveway or the street Caddiefield, and as you can
12 see here, is Copper Creek Court up here to the
13 north.

14 So the way they have it, his body is
15 somewhere right around here. You don't think that's
16 right?

17 **A** No, it is not right. His body is
18 definitely right here because like I said, I live
19 there and that's the driveway right here, his death
20 bed is just a little bit past the driveway, just a
21 little bit past the driveway.

22 MS. ALIZADEH: You all want me to put this
23 up here so he can point and follow along with yours?
24 . You were
25 standing on your balcony, I believe that distance in

1 your mind that's where you would see him because you
2 are on a balcony, so that's the distance your eyes
3 were focused where the two people are in position.
4 And so you seen Mike collapse, I believe that from
5 your balcony that's, that's where your eyes focused
6 that that's where he laid, but actually like
7 everything was done, they did the measurements, that
8 it was a little bit further than your eyes focused
9 on where he actually fell. So not saying that
10 you're wrong, that's just from the vision point of
11 your perspective that's where you were standing.

12 MS. ALIZADEH: And she's exactly right.
13 I'm not trying to say you are lying about this or
14 anything, I mean, don't make it, don't feel like
15 you're on the defensive, like I'm trying to point
16 out that you're wrong or that you weren't really
17 there.

18 **A** I was there.

19 MS. ALIZADEH: I know you were there. But
20 people remember things differently or they see
21 things from a different perspective, distances are
22 hard to judge. And so I just want to clear things
23 up and I'm going to show you what is a photograph
24 that was taken by the detective who processed the
25 scene.

1 What's the envelope you took that out of,
2 Sheila? Oh, here it is. This came out of Grand
3 Jury Exhibit Number 3. And it is Image Number 3,
4 you see that three on the back there?

5 **A** Yeah.

6 **Q** (By Ms. Alizadeh) So this is the image
7 that the detective took of the police car?

8 **A** That's the police car right there.

9 **Q** That's the officer's vehicle, yes. Does
10 that help you get a perspective of where the car
11 might have been?

12 **A** You may be right.

13 **Q** So you don't think that helps you?

14 **A** No, no, I think it really does. So if I'm
15 on my balcony, that's why, I know it's a little wall
16 right here, so from my balcony right here it is on
17 the side. So I could barely see kind of because I
18 got barbecue grills right here.

19 **Q** Uh-huh.

20 **A** So I kind of leaned over and still see the
21 vehicle right there, but I'm thinking, you know,
22 right there on this picture.

23 **Q** Sure. Okay. And you see the corner here,
24 I believe, that's probably that corner right there,
25 right?

1 **A** Yeah, Canfield.

2 **Q** And then I'm going to show you Image
3 Number 13.

4 **A** Uh-huh.

5 **Q** So this is where his body came to rest and
6 this is Copper Creek Court right here. Does it
7 appear to be right in front of this building, right
8 here?

9 **A** Yeah, right in the front.

10 **Q** So would that be more like right here?
11 (indicating)

12 **A** I know that pole right there, yeah, you
13 know what I think that's right, yeah, okay.

14 **Q** So does that help you?

15 **A** Yeah.

16 **Q** I'm not trying to get you to change what
17 you say you saw because we all understand?

18 **A** Yeah, I saw what I saw, it is just the
19 parked vehicle and the body from my window and
20 balcony.

21 **Q** Okay. Just again to clarify, you're not
22 saying anybody moved the car or moved the body,
23 correct?

24 **A** No, I didn't see nobody move the body.

25 **Q** So seeing those photographs, you believe

1 that those photographs do depict where the body was?

2 **A** Yeah, yeah.

3 **Q** And where the vehicle was?

4 **A** Yeah.

5 MS. ALIZADEH: Okay, all right. I just
6 wanted to clarify that.

7 : . Could
8 you put that Number 3 on the screen.

9 MS. ALIZADEH: Image Number 3?

10 : Yes, please.

11 : A couple
12 times when you were explaining the story just a
13 couple minutes ago, you referred to Michael Brown's
14 death bed?

15 **A** Uh-huh.

16 : Do you mean where you saw
17 him fall in a day or do you mean where there is
18 currently a memorial?

19 **A** No, where he laid.

20 : Where he fell?

21 **A** Yes.

22 MS. WHIRLEY: I'm not sure which button to
23 push. We need to push.

24 MS. ALIZADEH: We need somebody to teach
25 us how to do this.

1 MS. ALIZADEH: We're just rocking and
2 rolling now. I want to get this all on the screen.

3 I'm putting up here Image Number 3. At
4 the request of one of the jurors.

5 : Let me go over here to
6 the map. Now that driveway we see behind the police
7 vehicle.

8 **A** Uh-huh.

9 Is that this driveway or
10 this driveway?

11 **A** This one, the first one.

12 : Okay. All right. Thank
13 you.

14 Can you
15 point out where your balcony is at on the picture?

16 **A** Um, should be right here. (indicating)

17 . I
18 apologize if I missed this. Are you on the second
19 floor?

20 **A** Yes.

21 . There
22 are three floors?

23 **A** Yes.

24 : Would the
25 other cars that were parked there, the one that

1 Dorian allegedly ran behind.

2 **A** Uh-huh.

3 Would they have been in
4 this picture?

5 **A** Yes, before then, yes.

6 Okay.

7 **A** So, yeah, I kind of thought the vehicle
8 was a little bit upwards from my balcony and from my
9 window. But it would have been right here and like
10 another one right here. (indicating)

11 : That's where those two
12 vehicles were parked?

13 **A** Yeah.

14 MS. ALIZADEH: So, Michael, those two
15 vehicles, you're talking about the white Monte
16 Carlo?

17 **A** Yes.

18 **Q** (By Ms. Alizadeh) And then I think you
19 described in a previous statement a purple car?

20 **A** Yeah, I think, it was more, it was darker
21 color black.

22 MS. ALIZADEH: Maroon or black cherry or
23 something.

24 **A** Uh-huh.

25 **Q** (By Ms. Alizadeh) Were those cars then,

1 did it look like they had stopped in traffic or were
2 they parked?

3 **A** No, they was on the side, they was just on
4 the side. I don't even think they was parked.

5 **Q** Okay.

6 **A** They was just off to the side.

7 **Q** All right. Did you ever see the doors of
8 the Monte Carlo open?

9 **A** That's the funny thing, like I seen the
10 Monte Carlo door, the passenger side door was
11 opened.

12 **Q** Okay. Did you ever see anyone inside the
13 Monte Carlo get out?

14 **A** No.

15 **Q** Okay.

16 MS. WHIRLEY: You said you thought Dorian
17 got in into the car, where would he have gotten in?
18 Did you see that, in the passenger's front?

19 **A** Yeah, he would have got in through the
20 passenger's front door.

21 **Q** (By Ms. Whirley) Because you saw someone
22 in the passenger front door and the door was open?

23 **A** Yeah, the door was open, yeah, so. I
24 didn't see nobody in front other than somebody in
25 the driver's seat.

1 Q Okay. So you thought Dorian got in that
2 front passenger seat?

3 **A** Yes.

4 MS. ALIZADEH: I want to make sure we are
5 clear on this. Are you just assuming that he got in
6 the car because he was right there and then suddenly
7 you didn't see him?

8 **A** I seen him get inside, but as I said, I
9 didn't see him like make a conversation with the
10 person that was in. I know when I got to the
11 ground, the car was gone.

12 MS. ALIZADEH: Right. You got to the
13 ground after it was all over?

14 **A** Yeah.

15 MS. ALIZADEH: I guess my question is,
16 that Monte Carlo is a two-door car?

17 **A** Yes, as far as I remember.

18 MS. ALIZADEH: I know it has been
19 described before and I apologize if I don't know if
20 it was you that said it or someone else, but you saw
21 him get in the car.

22 **A** Yeah.

23 MS. ALIZADEH: Okay.

24 : You
25 never saw Dorian beside Michael Brown.

1 **A** The side of him.

2 You never saw him beside
3 him on the driver's side door on either side of him?

4 **A** No.

5 : He was always on the
6 other side of the car?

7 **A** Yeah, on the opposite.

8 I have another
9 question. Did you see anybody else outside, the
10 parking lot in that building or grassy area in front
11 of the parking lot during the shooting.

12 **A** As a matter of fact, yeah, it was, there
13 was another purple car sitting on the parking lot
14 already and that person told me he saw the whole
15 thing. That one person was already outside.

16 Was that a male or female?

17 **A** A male and female.

18 MS. ALIZADEH: Just so I'm clear on this,
19 is this somebody that you talked to after the fact?

20 **A** Yeah, that I spoke to.

21 MS. ALIZADEH: And they said they were and
22 they saw the whole thing?

23 **A** Yeah, that they saw when the officer
24 pulled, when he first pulling up to the street to
25 them.

1 MS. ALIZADEH: And did you tell the police
2 the names of these people?

3 A No, I don't know the names.

4 MS. ALIZADEH: Do you know if those people
5 have ever been talked to by the police?

6 A I'm not sure.

7 MS. ALIZADEH: So was this someone you
8 just kind of met that day?

9 A Yeah, just at that moment, you know, just
10 everybody is just talking what they saw and he
11 happen to be outside with his girlfriend, they was
12 just in the car with their feet up, with the doors
13 open.

14 MS. ALIZADEH: Okay. If I said any names,
15 did you ask his name?

16 A No, huh-uh.

17 MS. ALIZADEH: It wouldn't help if I said
18 a name or two?

19 A No, huh-uh.

20 MS. ALIZADEH: It was a man and a woman?

21 A Yes.

22 MS. ALIZADEH: Okay.

23 MS. WHIRLEY: Anything else?

24 : At the
25 point where the last, I guess the final shots by the

1 police officer and you said he was kind of balled
2 up?

3 **A** Yeah.

4 Did it to your, I guess,
5 your opinion, did it ever seem like he was trying to
6 tackle this officer?

7 **A** No, huh-uh, no, not at all. It just
8 looked like, the moment I come outside, I just
9 thought he was hit, you know, in the stomach
10 somewhere and he was going down, that's my vision
11 right there. Oh, he's going down and then boom,
12 boom, boom, he's down for sure. And, you know, I
13 just knew he was dead the moment, I think, yeah,
14 probably like the very last shot is when like I seen
15 his face.

16 Cause, um, after all of them shots, I
17 didn't see no blood like splatter until like his
18 face hit the ground, so I thought his head busted up
19 at first so.

20 : Just to
21 clarify also, the time in which you were behind your
22 window and you grab your phone and come to the
23 balcony, at that point is that where you would
24 assume Mike Brown stopped and turned around, so you
25 didn't actually see him at any time when he stopped

1 running?

2 **A** I didn't see that moment.

3 : Okay.

4 **A** I just seen him running away. Then the
5 moment I gets outside, he is now facing the officer.

6 Thank you.

7 MS. ALIZADEH: Any other questions?

8 MS. WHIRLEY: All right.

9 MS. ALIZADEH: is there
10 anything else that you know that would help this
11 grand jury figure out in its deliberations maybe
12 something that nobody's asked you or that you know
13 now that you would like to tell them.

14 **A** Um, no, not at the moment, no.

15 MS. ALIZADEH: If there's anything that
16 you think of in the future before this grand jury
17 concludes its investigation, would you promise to
18 call me or Miss Whirley or the County Police?

19 **A** Yes.

20 MS. ALIZADEH: Just let us know that you
21 have some additional information?

22 **A** Yes.

23 MS. ALIZADEH: And you believe me when I
24 said this is our job to make sure they have as many
25 facts as they could possibly have?

1 **A** Yes.

2 MS. ALIZADEH: All right.

3 MS. WHIRLEY: So that concludes the
4 question and answer period with in the
5 Michael Brown shooting. Thank you, .

6 **A** Thank you. Thank you.

7 (End of the testimony of .)

8 MS. ALIZADEH: All right. This is Kathi
9 Alizadeh, present in the grand jury are all 12 grand
10 jurors and Sheila Whirley and the court reporter,
11 and it is 9:55 a.m. We had a witness wasn't able to
12 appear this morning and so we're going to try to
13 listen to some more recorded statements.

14 So the first one we are going to hear, we
15 are going to resume the recorded statement of
16 Witness Number 10. He testified earlier this week
17 and we actually began hearing his recorded
18 statement, but we stopped because if you recall,
19 then was here and we wanted to get
20 her on.

21 So Sheila thinks that we stopped the
22 recording at?

23 MS. WHIRLEY: At 2041. I cued it at 2040.
24 I didn't want to go over 41.

25 MS. ALIZADEH: Okay. So we will now stop

1 the recording in the grand jury while we are playing
2 the recorded interview of Witness Number 10, which
3 is contained on a file which is on a disc marked
4 Grand Jury Number 24.

5 (This is continuation of statement of
6 Witness Number 10.)

7 DETECTIVE Okay. at the end of
8 that ten seconds, what happens?

9 WITNESS 10: A gunshot.

10 DETECTIVE Okay. And then what
11 happens after that gunshot goes off?

12 WITNESS 10: Mr. Brown ran.

13 DETECTIVE Okay. do you know where
14 that gunshot came from?

15 WITNESS 10: No, I do not.

16 DETECTIVE : Okay. So before he
17 runs, he leaves the car?

18 WITNESS 10: Yes.

19 DETECTIVE Okay. So he kind of
20 comes out of the car then and then he runs, right?

21 WITNESS 10: Uh-huh.

22 DETECTIVE : He takes off running in
23 which direction?

24 WITNESS 10: East.

25 DETECTIVE East, okay, which would

1 be away from you, correct?

2 : Page ten.

3 WITNESS 10: Yes.

4 DETECTIVE : Okay. At that point
5 what do you do?

6 WITNESS 10: I'm in shock. Um, I'm
7 thinking that he just killed this police officer
8 because he didn't get out of the car and follow foot
9 pursuit as quickly as I would have thought that he
10 would.

11 DETECTIVE Okay. And I think you
12 said six seconds, roughly, before the officer gets
13 out of the car?

14 WITNESS 10: Yes.

15 DETECTIVE : So Michael Brown runs
16 east on, east, where at is he running actually?

17 WITNESS 10: He's running in the middle of
18 the street at like, at a slant, um, and the, it will
19 be the first driveway on the left from the squad car
20 that he was -- he was turned -- about to make a turn
21 like he was going to go into the driveway.

22 Actually, he did turn into that first driveway and
23 then he stopped and came back towards -- by this
24 time the police officer was out of his car with the
25 gun drawn. Okay. And afterwards he stopped and

1 came towards the police officer.

2 DETECTIVE : Okay. So, um, Michael
3 Brown is running east heading towards the parking
4 lot, right.

5 WITNESS 10: Yes.

6 DETECTIVE : The officer comes out
7 of the car. How is the officer, you said with his
8 gun drawn. How is the officer holding his gun.

9 WITNESS 10: Just as if he was going to
10 use it.

11 DETECTIVE Okay. And do you hear
12 anybody saying anything at in any point in this?

13 WITNESS 10: No, no, I was not at a close
14 enough distance to hear any words being exchanged.

15 DETECTIVE Okay. Um, what did
16 this officer do then at that point?

17 WITNESS 10: At that point he has his gun
18 drawn at a raised point. He -- when he felt he came
19 into a line, close enough distance with him, um, it
20 appeared that when he did raise his gun, that he's
21 verbally um, telling this guy, giving him a command.

22 And at that point that's when I seen
23 Mr. Brown turn and he like did something. I don't
24 know if it was pull his pants up, it was some type
25 of motion that took place with Mr. Brown's body

1 gesture and after that, he began to run towards the
2 police officer.

3 DETECTIVE : Okay. So from the time
4 that you hear that first gunshot and the officer
5 gets out of the car until the time that Michael
6 Brown stops and -- and turns around and faces the
7 officer, right?

8 WITNESS 10: Uh-huh.

9 DETECTIVE Do you hear any
10 gunshots between that -- that period right there?

11 WITNESS 10: No.

12 DETECTIVE Okay. So Michael Brown
13 stop, he turns around, correct?

14 WITNESS 10: Uh-huh.

15 DETECTIVE : Where are his hands at
16 that point, do you know?

17 WITNESS 10: Um, I know for sure they
18 weren't above his head.

19 DETECTIVE : Okay. Okay. So let's
20 go back to the officer is chasing after or
21 approaching Brown, right?

22 WITNESS 10: Uh-huh.

23 DETECTIVE : Brown stops, turns
24 around, and just so I'm clear, what happens at that
25 point then?

1 WITNESS 10: You're at the point Mr. Brown
2 stops, turns around --

3 DETECTIVE Uh-huh. He stops and
4 turns around.

5 WITNESS 10: He turns around, he does some
6 of body gesture, and I'm thinking he pulled his
7 shorts up, I can't really recall upon what all
8 happened. All I know is that I seen the body
9 gesture. I mostly seen it in the upper body.
10 Um, after that, he began to run at the
11 police officer.

12 DETECTIVE Okay. How far away do
13 you think he did was from the officer at this point?

14 WITNESS 10: Um, maybe, I want to say
15 15 yards he was away and he may have gotten 5 yards
16 before the police officer fired his first shot.

17 DETECTIVE Okay.

18 WITNESS 10: So that would bring him in,
19 um, within a 10 yard range before the police officer
20 would have fired.

21 DETECTIVE Okay. Where were,
22 where were Michael Brown's hands when he's, you said
23 he does this thing with his pants, right?

24 WITNESS 10: Yeah.

25 DETECTIVE : Or something. Um, what

1 does he do after he does that?

2 WITNESS 10: He runs. He's at a charging
3 motion.

4 DETECTIVE : Okay. And where are
5 his hands at that time, do you know?

6 WITNESS 10: Um, I'm not sure where his
7 hands was at that time. Uh, all I know is that I'm
8 seeing him coming at a very aggressive, um, speed
9 and just in a charge mode towards the police
10 officer.

11 DETECTIVE : Is this a trot or is it
12 a jog or is it a full-out?

13 WITNESS 10: No, it's a full-out. I'm
14 coming charge full-blown to try to get to you.

15 DETECTIVE : Okay. And so the
16 officer fires the first shot when he's how far away?

17 WITNESS 10: Um, 10 yards.

18 DETECTIVE Okay. And how many
19 times do you think he fires?

20 WITNESS 10: I think he fires, um, five to
21 six rounds.

22 DETECTIVE : Okay. And then after
23 that five or six rounds are fired, what happens.

24 WITNESS 10: Uh, Mr. Brown then paused and
25 the police officer ceased fire and Mr. Brown then

1 tried to charge once more and that's when the police
2 officer opened fire.

3 DETECTIVE : So Brown charged again
4 and the officer opened fire again?

5 WITNESS 10: Yes.

6 DETECTIVE : Is that what you said?
7 Okay. And then what happens?

8 WITNESS 10: Then he collapsed in the
9 street.

10 DETECTIVE : Did you see the
11 officer, uh, touch him at all, or anything like
12 that?

13 WITNESS 10: No.

14 DETECTIVE : Okay. And how many
15 officers were present when this took place?

16 WITNESS 10: One.

17 DETECTIVE : Just the officer that
18 was shooting?

19 WITNESS 10: Yes.

20 DETECTIVE : Okay. How long did it
21 take before other officers to show up?

22 WITNESS 10: I'm not sure. I walked in
23 the and maybe two minutes, a minute at tops.

24 DETECTIVE : Okay. But you went
25 back to the to --

1 WITNESS 10: Two minutes tops, yeah.

2 DETECTIVE : Okay.

3 WITNESS 10: Yeah.

4 DETECTIVE Uh --

5 WITNESS 10: I'm not sure, I'm not sure
6 there on the time on the response because when I did
7 come back out, I'm not sure if it was the actual
8 police officer that shot, uh, Mr. Brown that was
9 doing the taping. I know when I came back outside,
10 I really wasn't focused then on did another police
11 car show up. What drew my attention was I seen one
12 police officer, um, taping off the scene and I'm not
13 sure if that was the actual police officer that did
14 the shooting.

15 DETECTIVE Okay. You made mention
16 of a car, right?

17 WITNESS 10: Yes.

18 DETECTIVE It was west, I'm sorry,
19 east of the police car in the middle of the road,
20 right?

21 WITNESS 10: Yes.

22 DETECTIVE What kind of car do you
23 think that was?

24 WITNESS 10: It was Monte Carlo. Blue.

25 DETECTIVE : Okay. Do you know what

1 color?

2 WITNESS 10: Blue.

3 DETECTIVE Okay. Do you know how
4 many people were in that car or who was driving?

5 WITNESS 10: No, I'm not sure. I just
6 seen a driver's from a distance. I couldn't get a
7 description. Uh, I know he was a black
8 African-American.

9 DETECTIVE You said he, so it was
10 a male in the car?

11 WITNESS 10: Yeah, yeah, yeah, it was a
12 he. Yeah, yeah.

13 DETECTIVE Okay. Do you know if
14 there was anybody else in the car?

15 WITNESS 10: No, I'm not sure.

16 DETECTIVE All right. The
17 individual with the dreadlocks that you say were,
18 uh, you said kind of highlighted --

19 WITNESS 10: Yeah.

20 DETECTIVE : -- or had some sort of
21 color to them, right?

22 WITNESS 10: Yes.

23 DETECTIVE He went where?

24 WITNESS 10: He went um, at what time?

25 DETECTIVE : Uh, I guess what's the

1 first point that you saw him?

2 WITNESS 10: The first point was I seen
3 him with the suspect when they were still alive
4 together. The next time I seen him was when after
5 everything already took place where Mr. Brown was
6 fatally injured and he came from nowhere and ran
7 across the street and it would be at the point where
8 he ran across would be in front of the squad car.

9 DETECTIVE Okay.

10 WITNESS 10: And he cuts across and yells,
11 uh, "they killed him, they killed him." And I'm not
12 sure if he, at that point when he was yelling at
13 the, um, that, blue Monte Carlo was at the same,
14 they were at the same point. I'm not sure if he was
15 yelling it just to be yelling it or if he was
16 telling them in the car that they killed him.

17 And that -- and that he never entered
18 their car or went up to that car that they killed
19 him. He was yelling and he ran through the back
20 fields of Canfield.

21 DETECTIVE Okay. Did you notice
22 anybody else outside? You made mention obviously of
23 the, obviously, the -- the -- the guy with the
24 dreadlocks, right.

25 WITNESS 10: Uh-huh.

1 DETECTIVE And the occupant of the
2 Monte Carlo, right?

3 WITNESS 10: Yes.

4 DETECTIVE : Did you notice anybody
5 else outside at that point?

6 WITNESS 10: No, I, I never noticed
7 anybody outside looking or anything. Um, I was
8 mainly, I have -- I have felt like I had tunnel
9 vision where I was just like zoomed in on just what
10 was going on with the police officer.

11 Now, um, I, I didn't see anybody. No, I
12 seen that everybody started coming outside. I did
13 notice when, uh, Mr. Brown was laying on the ground.

14 DETECTIVE Okay, all right. Uh,
15 when you went inside and told the you were
16 working at, those people in there, how many people
17 did you tell?

18 **A** Just one.

19 DETECTIVE Just one?

20 WITNESS 10: Yeah.

21 DETECTIVE And that was the
22 in the , right?

23 WITNESS 10: Yes.

24 DETECTIVE Okay. What did
25 say, anything?

1 WITNESS 10: Uh, I can't recall
2 comments.

3 DETECTIVE : wasn't -- I
4 guess -- I guess --

5 WITNESS 10: I can't -- I can't recall
6 comments.

7 DETECTIVE Um, wasn't outside
8 or anything, was ?

9 WITNESS 10: No.

10 DETECTIVE : But , I guess what
11 I'm getting at didn't say, yeah, I know I saw
12 this or --

13 WITNESS 10: No.

14 DETECTIVE : Okay. So when you
15 first told that was first, first
16 knowledge of the incident?

17 WITNESS 10: Exactly.

18 DETECTIVE Okay. And do you
19 remember -- you do not remember name, right?

20 WITNESS 10: No, no. I never really got
21 name. This is the time me working there.
22 I never --

23 DETECTIVE : Just a, just a job.

24 WITNESS 10: Exactly, it's just a job.

25 DETECTIVE Okay, all right. How

1 old is , roughly?

2 WITNESS 10: I'm not sure. If I had to
3 guess, maybe late , early .

4 DETECTIVE All right. What, um,
5 what is your opinion of that incident itself?

6 WITNESS 10: Initially, um, I thought wow,
7 um, did he have to use the force on him. Um, could
8 he have taken and retrieved his taser, um and tased
9 the young guy. He was, I felt like he was unarmed
10 and my initial thoughts was that.

11 And after thinking about it and reviewing
12 everything and putting myself in the police
13 officer's shoes, I feel like he handled the
14 situation correct force wise. The gunshot led from
15 the car, the confrontation led from the car.

16 He came out with his weapon drawn, um,
17 trying to pursue the suspect.

18 Then, um, at one point the suspect turns
19 and if he, I felt he was really trying to give
20 himself up, um, the police officer already has his
21 gun drawn. If you're really trying to give himself
22 up, you're going to lay down on the ground and
23 you're going to let it be known, um, but that he
24 didn't do that.

25 And he charged at him and at that time I

1 feel like the police officer, he didn't have time to
2 really react and holster his weapon and reholster
3 with a taser.

4 DETECTIVE Okay. The entire
5 incident from the time that you first saw until the
6 time that Michael Brown was on the ground, how long
7 do you think it lasted.

8 **A** Um, maybe two minutes.

9 DETECTIVE Okay, all right. You
10 have anything?

11 DETECTIVE Did we get an address of
12 where you're working?

13 WITNESS 10: No.

14 DETECTIVE (Redacted)

15 DETECTIVE No, on the street
16 itself.

17 DETECTIVE : Oh, no, it's the
18 on the --

19 WITNESS 10: It's the on the
20 .

21 DETECTIVE : --

22
23 WITNESS 10: Yeah.

24 DETECTIVE : Or on the or the
25

1 WITNESS 10: Uh, I believe it is .

2 DETECTIVE Okay. And you were
3 just doing that job, an
4 job?

5 WITNESS 10: No, it's a
6

7 DETECTIVE Oh, to okay.

8 WITNESS 10: Yeah.

9 DETECTIVE All right. Um, is this
10 your, I'm sorry, anything else you can think of? Is
11 this your best recollection of this incident?

12 WITNESS 10: Yes.

13 DETECTIVE Okay. And nothing has
14 been embellished, you know, I mean, you're being
15 upfront, honest. There's nothing that you're making
16 more out of or nothing that a you are leaving out on
17 either end of the spectrum; is that --

18 WITNESS 10: No.

19 DETECTIVE Okay. Is there
20 anything else that you would like to add? Anything
21 else that you feel is important that we should know?
22 Any questions that we did not ask you?

23 And that's not a trick question, that's
24 just something that I want to give everybody an
25 opportunity to, you know, speak their peace.

1 WITNESS 10: Um, I just, um, I just, uh, I
2 feel sad about this whole situation that, um, it had
3 to end like this. And, um, it's just, just hearing
4 everybody's point of view, I feel that, um, most
5 people think that, um, Mike basically f'd the
6 police. They think the police are bad for them up
7 until the time they're in need of the police.

8 And, uh, I just wanted to come forward and
9 tell it how I seen it because I feel like it's very
10 rare that somebody's going to come forward and tell
11 actually what happened.

12 DETECTIVE : Okay. Anything else
13 you want to add? Anything else that is important?

14 WITNESS 10: No.

15 DETECTIVE Okay. You have
16 anything? If there is nothing else, the time is
17 12:16 p.m. and this concludes the interview.

18 (End of the recording.)

19 MS. ALIZADEH: Does anybody need to hear
20 anything over regarding the recorded statement of
21 Witness Number 10? You have the transcripts that
22 you can keep in your packet and, of course, at any
23 time you want to rehear something, it is available
24 to you.

25 Now, we're going to play a clip from a

1 video that was recorded by a cell phone. This video
2 was obtained off of the internet. It is contained
3 on Grand Jury Exhibit Number 26 that I've marked and
4 might be better for me to do it, I know where to cue
5 it up to.

6 As I said, this is not very long and
7 actually, this clip appears twice on this disc. One
8 clip includes the video, which I will describe it,
9 is after the shooting.

10 The other clip of this contains just the
11 audio and it has just a plain view screen and all
12 you are hearing is the audio. It is the same clip,
13 it is just without the video. I don't know if after
14 you see the video on if it would assist you to then
15 just do the audio to just kind of close your eyes
16 and try to listen because as I said, it is difficult
17 to hear because voices, that has
18 identified as own, is actually a background
19 speaker in this clip. Can I black that screen while
20 I'm trying to find it or no?

21 since this is not very long. It
22 probably is okay for us to just record. Nobody says
23 any identifying information on the recording. And
24 also it would probably be difficult for you to even
25 to attempt to transcribe it. We don't have a

1 transcript of this and I think one of the reasons,
2 as you will see, it is very difficult to hear it,
3 and I don't want to be in a position that I'm saying
4 this is what we think is being said because it is
5 your job to decide what you think is being said.

6 And the entire clip is ten minutes long,
7 however, I'm going to put the cursor forward to
8 about a little past six minutes because that is the
9 time when the conversation occurs that
10 is talking.

11 Again, this video in its entirety is ten
12 minutes long. If you want to watch the entire
13 video, you certainly can.

14 I'm going to start the clip at exactly six
15 minutes.

16 (Clip is being played at this time.)

17 MS. ALIZADEH: Now, there again, the
18 entire clip is ten minutes. If you want to watch
19 the whole clip or if you want to watch a certain
20 part of it again or if you want to just do the audio
21 portion and listen, it is up to you.

22 : Let's just hear the audio.

23 MS. ALIZADEH: So you'd like to just hear
24 the audio portion? You want me to start at six
25 minutes or you want me to play the whole thing?

1 I think it would be okay
2 if you start it at the exact same timeframe.

3 (playing of the audio recording.)

4 MS. ALIZADEH: Start it at 5:59. You
5 know, I'm not sure that that starts at the same
6 place that I'm hearing this. Can I review this over
7 the lunch hour and maybe we can, I don't want to
8 represent to you that it starts at the same place
9 because in my mind, I'm thinking it is not at the
10 same place.

11 So what's in the beginning
12 of it, the rest of the six minutes?

13 MS. ALIZADEH: If you want to watch it, I
14 mean, I don't want to necessarily characterize it
15 except to say it is all after the shooting and that
16 it appears to be someone who is recording with a
17 cell phone or handheld device and then you hear
18 people in the crowd talking, you hear people near
19 the camera talking, I don't know if it is the person
20 who is holding the camera that is doing all the
21 talking.

22 : Okay.

23 MS. ALIZADEH: You can certainly watch the
24 whole thing if you want. But before we listen to
25 that audio portion, let me listen to it during the

1 lunch hour and make sure. I don't want to start it
2 at a different place and get you confused about
3 that.

4 So at this time then, I will just remove
5 the disc and try to do this at the lunch hour when I
6 have time to look at it.

7 Okay. The next thing we are going to play
8 for you is a disc that is marked Grand Jury Number
9 27, and it contains several clips which are media
10 interviews that were done by , who
11 you will recall testified yesterday, not yesterday,
12 Tuesday.

13 And we can go ahead, there is 33 minutes
14 of video clips. I might speak during and in between
15 them. Leave the recorder on.

16 (Clips are being played).

17 MS. ALIZADEH: All right. That was a clip
18 that was aired on August 13th, 2014 on KMOV.

19 The next clip was aired August 13th, 2014
20 on CNN Tonight.

21 (clip is being played.)

22 MS. ALIZADEH: So the next clip is a
23 continuation of that. Actually, it appears there is
24 a total three clips of that interview on CNN.

25 (clip is being played.)

1 MS. ALIZADEH: Now, I'll play the
2 actually, the third clip of the CNN interview, which
3 on the disc is actually the fourth clip, but it is
4 the third clip of the CNN interview.

5 (clip is being played.)

6 MS. ALIZADEH: I have stopped it after the
7 interview concluded. The reporter's comments are
8 not really relevant.

9 I'll going to play a clip that aired on
10 August 14th on MSNBC and on a program called last
11 word and this interview is actually contained in
12 three separate clips, so this is the first clip of
13 that interview.

14 (interview being played.)

15 MS. ALIZADEH: So I'm now playing the
16 second clip of that interview.

17 (interview being played.)

18 MS. ALIZADEH: I'm now going to play the
19 last clip of that interview.

20 (clip is being played.)

21 MS. ALIZADEH: And as you can see on the
22 screen, there is one clip remaining. I think I
23 mentioned to you that that is actually reporter
24 commentary about dissecting s story and they
25 do play a couple of segments of that interview that

1 you just watched, but it is all segments of the
2 interview that you've already seen. So I don't
3 think it is appropriate for you to, you know, the
4 reporter's commentary is really not evidence and it
5 shouldn't play into your decision, I'm not going to
6 play the final clip that's on Grand Jury Exhibit
7 Number 27, all right.

8 Did anybody want to see any of these clips
9 over again?

10 This next interview is fairly short, so I
11 thought maybe we would go ahead and listen to that
12 and then if you want to take a break. Have you all
13 ordered lunch? I'm going to pass around a
14 transcript interview that was done on August 9th,
15 2014 by St. Louis County police detective is
16 interviewing .

17 I'm going to go ahead and stop the audio
18 recording in the grand jury while the audio
19 interview is being played, and I've given the court
20 reporter a copy of the transcript. So at this time
21 let's pause the recording of the grand jury.

22 (Audio recording is paused at this time
23 and this is the audio recorded interview of
24)

25 DETECTIVE : This is Detective

1 with St. Louis county Police, Bureau
2 Crimes Against Persons. I am on Canfield Drive in
3 reference to a officer-involved shooting uh, in the
4 City of Ferguson. It is 1:53 p.m. It's Saturday,
5 August 9th.

6 Um, I'm here with, uh ,
7 black female, date of birth (redacted) Address of
8 (Redacted). She has phone number of (redacted).
9 , are you aware this is being
10 recorded?

11 Yes.

12 DETECTIVE : You okay with that?
13 : I'm fine.

14 DETECTIVE Okay. If you would,
15 um, just, cause you speak kind of soft, can you hold
16 onto the recording for me?

17 : Yes.

18 DETECTIVE : And just kind of
19 tell me, uh, what, if anything, you observed on
20 Canfield today?

21 : Okay. I was coming down
22 Canfield going south.

23 DETECTIVE Okay.

24 I hear "urrrrrr" sound, like
25 the brakes stopping on the car.

1 DETECTIVE : So you heard tires
2 squeal.
3 : Yeah, tires -- tires
4 squealing.
5 DETECTIVE : Okay.
6 : I come closer and I see a
7 guy being pulled through the window of the SUV of
8 the St. Louis Ferguson.
9 DETECTIVE : Of the police
10 vehicle?
11 : Yes, of the police vehicle.
12 DETECTIVE : So the Tahoe, Chevy
13 Tahoe, Ferguson Chevy Tahoe right there?
14 Yes.
15 DETECTIVE : Um that's parked in
16 the middle of street with the cones around it?
17 Yes.
18 DETECTIVE : Um, is that where
19 the was at?
20 Yes.
21 DETECTIVE : Positioned exactly?
22 : That's where it was.
23 DETECTIVE : Okay.
24 : It didn't move.
25 DETECTIVE : And where did you,

1 you saw, what did you see there.

2 : I saw the police pulling a
3 guy through the window and the guy trying to pull
4 back.

5 DETECTIVE : Okay. So, um, as
6 you're approaching and you see, uh, the officer
7 trying to pull, uh, the gentleman, uh, into the
8 driver's area of the vehicle; is that correct?

9 Yes.

10 DETECTIVE : And this -- and this
11 guy's pulling back?

12 : Yes.

13 DETECTIVE : Trying to pull away?
14 Like they're wrestling
15 through the window, trying to pull --

16 DETECTIVE : Okay.

17 : Like tug of war.

18 DETECTIVE All right. Okay.
19 Were they, did you see anything that would've been
20 fighting over or anything like that?

21 : No.

22 DETECTIVE : Okay.

23 : No. Then I saw, I here
24 gunfire and I saw smoke coming out of the window of
25 from the --

1 DETECTIVE : Okay.
2 : -- SUV.
3 DETECTIVE : And -- and as we
4 discussed before, you, um, saw smoke?
5 : Yes.
6 DETECTIVE Okay. And how did
7 you see the smoke? Was it directional like a cone
8 or was it drifting out of the car?
9 : It was directional like a
10 cone.
11 DETECTIVE Directional. Okay.
12 What direction was that?
13 : It was coming from the
14 window of the car.
15 DETECTIVE : Okay.
16 Like out of the driver's
17 window --
18 DETECTIVE : Okay.
19 -- of the car?
20 DETECTIVE : So that would've
21 been, north, south, west?
22 : Yes.
23 DETECTIVE : So a westerly
24 direction from the driver's side of the vehicle?
25 : Yes.

1 DETECTIVE : Okay.

2 : So after that, the kid, he
3 gets away and he starts running.

4 DETECTIVE : Okay. So--

5 : Opposite way of the--

6 DETECTIVE : Is that hat his?

7 : Yes.

8 DETECTIVE : The Cardinals cap
9 right by the cone?

10 The red Cardinals caps is
11 the -- the guys.

12 DETECTIVE Okay. And then each
13 of these, uh 1, slipper or sandals?

14 Yes, those are his. He was
15 running from the police officer.

16 DETECTIVE : Okay. He's running
17 -- he's running south away from you basically?

18 Uh-huh.

19 DETECTIVE : Okay.

20 : He lost his sandals running
21 from the cop.

22 DETECTIVE Okay.

23 : The cop gets out of the SUV
24 are he starts shooting at the guy as he's running
25 way.

1 DETECTIVE : Okay. He's -- he's
2 shooting from next to the --

3 : He comes walking form like,
4 he started walking down the street.

5 DETECTIVE The officer did?
6 Yeah, running down, yes,
7 running down the street behind the kid shooting.

8 DETECTIVE : Was he running
9 shooting?
10 Yes.

11 DETECTIVE The officer was
12 running and shooting at the same time?
13 : Yes.

14 DETECTIVE : Okay. Did you see
15 anything in the guy's hand?
16 : No.

17 DETECTIVE : And you didn't see
18 no weapons.
19 No.

20 DETECTIVE : Okay. Um, as the
21 kids running, are you observing any instances of,
22 that he's getting hit maybe?

23 : Yes, I saw like a, it looks
24 like --

25 DETECTIVE A jerking.

1 : Yes, a jerking in his body
2 and he turns around puts his hands up.

3 DETECTIVE : Put his hands in the
4 air?

5 Yes.

6 DETECTIVE : Faced the officer?

7 : Yes.

8 DETECTIVE : Okay.

9 : And the officer walks up
10 him and continues to just shoot, shoot him until he
11 falls to the ground.

12 DETECTIVE Continued to fire,
13 even though his hands were up?

14 : Yes.

15 DETECTIVE Okay. What happened
16 after that?

17 : After that the kid falls to
18 the ground and two more officers pull up, Ferguson
19 department, and all begin to take pictures of the
20 guy just laying in the ground and they were standing
21 around and everybody else just started coming out
22 and everybody just started yelling at the cops.
23 It's like, you're wrong and he had nothing.

24 I called the, um, Channel 2 news and
25 Channel 4 news.

1 DETECTIVE : Uh-huh. Okay. So,
2 um, I'm sorry. So at no time you saw a weapon on
3 this gentleman right here?

4 : Not at all.

5 DETECTIVE : Okay. All right.
6 Is there anything that we haven't spoke about that
7 you want to tell me about?

8 No.

9 DETECTIVE : Okay. Do you feel
10 like I've given you the opportunity to give, um,
11 your full story like you wanted to?

12 : Yes.

13 DETECTIVE All right. We are
14 going to conclude the interview. It is 1:58, okay.

15 (End of playing the interview.)

16 MS. ALIZADEH: So I think I neglected to
17 mention that that was a clip that is on file on a
18 disc that is marked Grand Jury Exhibit Number 24 and
19 it is the interview of

20 So at this time, we have another interview
21 of that is audio recorded that was
22 done by the FBI. I was thinking that that's an hour
23 long or so. So it is about ten after 11:00. Do you
24 want to take a break, or you want to start it now
25 and then break for lunch and then continue after

1 lunch? The witness is supposed to be here at 12:30.
2 I'll probably talk to him for a few minutes when he
3 gets here. I planned it, I think you may be eating
4 lunch so I would have a few minutes to talk to him
5 in case he is running late.

6 You want to start now? I just have to
7 find it.

8 I know I have used that exhibit before the
9 Grand Jury Number 23, so I'm looking for it.

10 MS. WHIRLEY: Okay. Lunch should be here
11 around noon.

12 MS. ALIZADEH: This is a disc that is
13 marked Grand Jury Exhibit Number 23. And it
14 contains an audio interview of that
15 was done by the FBI. We do not have a transcript of
16 that, because it was done fairly recently and it has
17 not been prepared.

18 And we will pause the recording while the
19 interview is being played.

20 MS. ALIZADEH: Let me just real quick here
21 look. So this is about an hour four minutes. It
22 says, okay. So we will start this.

23 Today is September 11th,
24 2014 the time is 3:11 p.m. In the room is?

25

1 : And her attorney.

2 : .

3 : And I'm with

4 the FBI and this is , she's with the

5 Department of Justice and right over there

6 with the attorney's office in St. Louis.

7 I know your attorney has already spoken to
8 you, we are going to talk to you today about what
9 happened on August 9th of this year. So with that
10 being said, I think would like to say an
11 opening paragraph or two and then we will start with
12 what you saw on that day.

13 : I'm actually going to do it.

14 So and I are both federal prosecutors. I'm
15 based in Washington D.C., he's based here in St.
16 Louis. Obviously, we're with the FBI. We wanted to
17 talk to you because we know that you are already met
18 with the St. Louis County police detective, but we
19 are doing our own individual investigations, that is
20 why we want to meet with you and hear what you have
21 to say, okay?

22 : Okay.

23 So basically, as you know,
24 everything is being recorded. So if you nod your
25 head or shake your head and I will say is that a yes

1 or no.

2 : Okay.

3 : That's just to get your answers
4 out loud so when we listen to it afterwards, we
5 don't have to guess what your reaction was, right?

6 And if you don't understand a question
7 that any of us ask you, please stop us and make us
8 clarify because, you know, we intend to talk fast
9 sometimes.

10 Uh-huh.

11 And sometimes we ask bad
12 questions. We try not to, but if you answer we are
13 going to assume that you understood. If at any
14 point you get confused or -- don't just guess, you
15 were the one that was there.

16 We are certainly not trying to suggest an
17 answer. If you think we are looking for an answer,
18 all we are looking for is the truth.

19 So, um, want to make sure that you feel
20 comfortable in answering the questions and certainly
21 feel free to correct us if we mischaracterize it,
22 okay:

23 : Okay.

24 : And we tell this to all the
25 witnesses, this is a federal investigation and if

1 any witness lies to the FBI, anything that is
2 material or important it is a crime, I like to make
3 sure that everybody knows that.

4 Okay.

5 : Um, and also really important,
6 we're not going to tell anybody what you told us, so
7 we're not going to go to another witness and say,
8 you know, said this or said that, just like
9 we're not going to say to you, I know a witness told
10 us something different or told us something the
11 same.

12 So it is really important for us to find
13 out when you actually firsthand saw and heard. And
14 we knew a lot went on, especially that day on
15 August 9th.

16 : Okay, okay.

17 : And since that's normal and
18 that's human nature.

19 : Uh-huh.

20 : Uh, but we just want to make
21 sure that you are actually telling us what you know
22 versus what you assume.

23 : Uh-huh.

24 The example I like to give is,
25 if you walk outside and you see that your driveway

1 is wet, you go oh, it rained, right?

2 : Uh-huh.

3 That's natural, right, you
4 immediately think of rain.

5 : Uh-huh.

6 : And we also do the same with
7 sprinklers on, right?

8 : Uh-huh.

9 : Instead of telling us it is
10 rain, just tell us what you saw.

11 Okay.

12 : If you don't know something or
13 you can't remember something, that's a perfectly
14 acceptable answer. A lot of times we like to ask
15 details to see if we can trigger something.

16 : Uh-huh.

17 : So we can get more details
18 because we weren't there.

19 Uh-huh.

20 : So we may quiz you on some
21 stuff. We're not trying to get an answer other than
22 the truth. If you don't know, it's perfectly fine
23 to say I don't know.

24 : Okay.

25 : You have a piece of the puzzle,

1 as do a lot of different people. All we need from
2 you is the truth. Basically, it doesn't involve
3 you, it is not one person, it is a whole picture,
4 okay?

5 Uh-huh.

6 Do you have any questions so
7 far?

8 I don't.

9 : Okay.

10 : So could you spell your
11 name, please?

12 ,

13 .

14 : And would you give me your
15 date of birth, please?

16 : (Redacted)

17 : And your social security
18 number?

19 : (Redacted)

20 : Where are you currently
21 living?

22 : (Redacted)

23 : Okay. What is your phone
24 number?

25 (Redacted .

Page 94

1 Okay. I think that's all
2 the background we need from you.

3 So could you just tell us in your own
4 words and from the beginning what happened that
5 Saturday, August the 9th.

6 : Okay. As I was coming
7 around the curve, I hear like tires squeaking, like
8 "urrrrr". And as I get up on the truck, I see them
9 wrestling through the window. I tried to pull my
10 phone out because it just didn't look normal for
11 someone to be wrestling through a cop's window.

12 So I saw them like pulling back and forth,
13 like he was trying to pull out, the cop is pulling
14 in. And when I tried to pull my phone out, the shot
15 came out, so I like went to the left to try to get
16 out of the way.

17 As I'm going to the left, I see the kid,
18 there ain't no way and that's when he takes off
19 running.

20 The cop follows him, shooting behind him,
21 the kid's body jerks as if he was hit, he turns
22 around and puts his hands up and the cop continued
23 to fire until he goes down.

24 Okay. Where were you coming
25 around the corner, does this look familiar?

1 Yes, I was coming from
2 Florissant, which was coming from here. I was
3 coming around this corner right here.

4 : Okay. You were
5 approximately right here and where was the police
6 officer.

7 : They were right here.

8 : Okay.

9 : I was back here whenever I
10 heard tire squeaking, so I was --

11 : Which direction was the car
12 driving?

13 : The truck was driving going
14 that way.

15 : Okay. So it was a truck.

16 : Yes.

17 All right. And you said you
18 heard the squeals of the tire and then what
19 happened?

20 : That's whenever I came
21 around the corner and I saw them wrestling through
22 the window.

23 Okay. So you came around
24 this corner?

25 Uh-huh.

1 And you saw who wrestling
2 through the window?

3 : Uh, I saw the officer and
4 the kid wrestling through the window.

5 All right. Who's the kid?

6 Michael Brown.

7 You know him because of the
8 media?

9 : Yeah I didn't know him
10 before, just the media.

11 : Okay.

12 I've never seen him.

13 : So you say you saw Michael
14 Brown and the police officer here?

15 Right here, yeah.

16 Okay. Tell me what
17 happened?

18 As I get up to here, I see
19 them wrestling through the window and I try to take
20 my phone out.

21 : Where is your phone.

22 : My phone was probably on my
23 lap or something. I remember, because as a matter
24 of fact, I had my phone in my hand. I was trying to
25 call telling her I'm outside, I was going to pick

1 her up.

2 Okay.

3 : So I tried to put it on
4 record and the shot came, so I came and I turned,
5 made a left right here.

6 : Uh-huh.

7 : And I pulled right into
8 there.

9 : Uh-huh.

10 : And the kid yanked away as
11 I was turning this way and he started running back
12 there.

13 Can you point on here where
14 the truck was?

15 The truck was right here.

16 : Okay.

17 It was like catty-corner in
18 the street.

19 Okay.

20 : The kid was right there
21 going through the window, this is the trunk, this is
22 me, I came this way.

23 : Uh-huh.

24 I made a left onto here,
25 parked right there, he started running that away.

1 : Who is they?

2 : The officer and Michael
3 Brown.

4 : Okay. Was there another
5 person with Michael Brown? Sorry to keep
6 interrupting you, was there another person with
7 Michael Brown?

8 : Yeah, there was another
9 person.

10 : Where was he?

11 It was a car right behind
12 him stopped, right behind the officer. I didn't see
13 this car until I got right here and that's whenever
14 I saw Dorian duck down on the side of that car.

15 : Okay. Do you know what kind
16 of car that was?

17 : It was a white Monte Carlo.

18 : All right. What kind of car
19 were you diving?

20 : I was driving a

21

22 All right. So what did you
23 see here at the vehicle, at the truck?

24 I saw them wrestling
25 through the window, the officer and Michael

1 wrestling through the window.

2 Uh-huh. What do you mean by
3 that?

4 It appears to me as Michael
5 is pulling off and the officer is pulling in, kind
6 of like a tug of war.

7 Uh-huh. Did you see hands
8 touching?

9 I saw Michael's like
10 pushing up against the thing and whenever he yanked
11 off, I saw his hands go like that.

12 : Did you see the officers
13 hands on Michael Brown at all.

14 I couldn't see his hands, I
15 just saw he kept trying to pull away, I saw Michael
16 try to pull away.

17 : He had to be pulling away
18 from something --

19 Yeah.

20 Do you know what he was
21 trying to pull away from?

22 : I guess the officer, I
23 can't say for sure like where the officer's hands
24 was, but I did see them both pulling back and forth.

25 : Okay.

1 : So this is where I was when
2 I came across this grass, that is whenever I saw his
3 body jerk right up in here and that's when he turned
4 around and put his hands up. But the cop still, he
5 continued to walk up on him and shoot him.

6 : Okay. So after you saw, I'm
7 going to call it an altercation, is that okay?

8 : Uh-huh.

9 : Here at the vehicle, you saw
10 what happened, how did the officer get out, what did
11 Michael Brown do?

12 : Okay. At this point
13 whenever I was turning here, this is when Michael
14 yanked away and went that way.

15 : How did you see that if you
16 were --

17 : I was still turning.
18 Just tell me what you saw
19 and don't tell me what you assumed.

20 : I'll telling you what I
21 saw. This is what I saw, his arm yank away. From
22 that point whenever I was turning this way, I wasn't
23 all the way over here at this point.

24 : Okay.

25 : This is what I saw with him

1 right there as I come this way, that's whenever he
2 was running that way, I didn't see the officer get
3 out of the car, but I did see the kid get away and
4 start running. Whenever I saw the officer again, he
5 was coming back behind this way and he was shooting
6 and the kid was probably up that way a little bit.

7 Okay. And the officer was
8 where again?

9 : He was coming out of here.

10 Okay. Michael Brown was
11 where?

12 : He was up running a little
13 ways up that way.

14 : Okay. Do you remember how
15 many shots?

16 I don't.

17 : Okay. You just heard shots?

18 I heard several shots.

19 Did you see the officer fire
20 his weapon?

21 Yes.

22 All right. And where was
23 the officer when you saw this?

24 The officer was outside the
25 car walking up to Michael.

1 : I don't know.

2 But it the multiple shots or
3 one shot.

4 : Multiple.

5 : Multiple shots, okay. So
6 let's start from the vehicle again, could you tell
7 me one more time again what you saw?

8 : From the vehicle?

9 : Uh-huh.

10 : As I was pulling up, I saw
11 them wrestling through the window.

12 : Uh-huh.

13 : Then the shot was fired
14 from the car.

15 : Okay. How many shots?

16 One shot is fired from the
17 car.

18 : Do you have any idea where
19 the shot went, if it actually hit someone?

20 No, I don't.

21 : Okay.

22 And that's when he yanked
23 away and he started running and I was coming over
24 here. I didn't see the officer getting out of the
25 car, but I did see him running from, like away from

1 the car towards Michael.

2 : Okay. And at any time did
3 you not see something?

4 : I didn't see whenever the
5 officer got out of the car, but I did see him by the
6 time he got beyond his car here, right here.

7 Okay, thank you.

8 : That was right here.

9 : Okay. Where were you at
10 that time, were you inside your vehicle or did you
11 get out?

12 : I got right out of my
13 vehicle, I was parked right here.

14 : Okay. Where did you go?

15 : I went up to 's house.

16 As I was walking up, that's whenever I seen him
17 shooting the kid, going down with the shots.

18 Okay. Where does live?

19 : She lives right here.

20 You have your vehicle here?

21 : Uh-huh.

22 And then you started walking
23 towards s house here?

24 : Yeah.

25 You said you were looking

1 for your phone, you had your phone with you?

2 : Uh-huh.

3 What were you doing with
4 your phone while this is going on?

5 : Well, the first time I was
6 trying to record when the shot came, and I came over
7 here. By the time I was just holding my phone in my
8 hand at that time. I wasn't doing anything with it
9 by the time I came up to 's.

10 : Okay.

11 And then I went upstairs
12 and called my fiancée.

13 : Okay. Who is your fiancée?

14 : .

15 Were you scared to get out
16 of your vehicle?

17 : I was so shocked, I was so
18 shocked, I was trying to see what was going on. So
19 I was like, holy crap, what is going on. The kid
20 was dead, I saw the blood. At first I was like, is
21 he shooting rubber bullets? What is going on.

22 So I was so shocked that I just got right
23 out to try to see what was going on.

24 : Uh-huh. Why are you calling
25 him a kid?

1 : Because I don't know him, I
2 don't know him, no.
3 : I was just curious.
4 : I'm sorry.
5 It is not like you're 50,
6 you look very young.
7 : Yeah.
8 : Do you have any questions?
9 Yeah. I just want more
10 clarification of looking at the map.
11 : Uh-huh.
12 : When you are coming around the
13 curve, that is when you hear the tires squealing; is
14 that right.
15 : Uh-huh.
16 : That's yes, right?
17 Yes, I'm sorry.
18 : That's fine. And at that point
19 you don't see anything next to the car; is that
20 correct?
21 No, I don't.
22 : And when he came up on the car,
23 you actually, did you stop your car when you came up
24 to it?
25 Yeah, I stopped.

1 Okay. So were you facing the
2 car?

3 : Yes.

4 : Okay, or the patrol vehicle?

5 : Yes, the patrol vehicle is
6 like this way, I was coming this way.

7 : So you're showing you were
8 literally opposite?

9 : Yes.

10 : Was there a car in front of
11 you?

12 No.

13 : Why did you stop your car?

14 : Because I saw the cop and
15 the kid wrestling through the window, you don't see
16 that every day.

17 And what was your view of the
18 police officer and Michael Brown at that point?

19 : My view was Michael like
20 pulling out of the window and they were like a tug
21 of war.

22 : So you were basically head on
23 at this point initially?

24 : Yes.

25 : And you are still driving; is

1 that right?

2 : No.

3 You're sort of out of the car?

4 : Yeah.

5 : So you are head-on, so which is
6 clearer to you, the passenger side or the driver's
7 side or equally both?

8 I say the driver's side
9 because it was like, the car was like this way, but
10 the SUV was like going this way, okay. This is the
11 Chevy was like this and I was like this.

12 : Okay. And so when you describe
13 what you saw specifically, you saw Michael Brown, he
14 was standing outside the car?

15 : Yeah.

16 : Describe his body, how was his
17 body situated?

18 : It was like, it took like
19 pulling away like, you know. Like, you know how you
20 push off of something, it was more like that.

21 : Where were his hands?

22 : At one point I saw his hand
23 like pushing up against the car like coming off.

24 : Okay. You said both hands?

25 Yeah, and then whenever I

1 saw him yank away his hand went like that.

2 : He yanked away. And when you
3 pulled up on them, Michael Brown was already by the
4 car, correct?

5 : Uh-huh. I didn't see how
6 the thing, the first beginning of it, I didn't see
7 that.

8 Okay. You didn't see anything
9 of that leading up to it?

10 : No.

11 : By the time you pull up, you
12 heard a shot already or no?

13 No.

14 Okay. So let's go, you
15 describe Michael Brown had his hands on the outside
16 of the car; is that right?

17 : Uh-huh.

18 : Is that yes?

19 : Yes.

20 : And is hands on the window sill
21 of the car, on the door or the car?

22 : Like the side door.

23 : The driver's side door.

24 : Yeah.

25 On the handle of the door, by

1 the door handle or by the window?

2 He had like this I can
3 describe like the whole time because it was action
4 at like, you know, I can't see every little step,
5 but I did see him pushing off like, you know.

6 : While this is going on, you
7 said you didn't see this every day, is that when you
8 took out your phone?

9 I had my phone in my hand.
10 I was trying to get to record, that's when the shot
11 came.

12 : So you got your phone?

13 : No, I'm trying to work the
14 recorder.

15 : I'm trying to figure out if you
16 were watching.

17 No, I can't, you know, I
18 have to push record on that phone. So I don't know
19 every little thing, I was trying to do that sort of
20 thing.

21 : That's only fair. I'm just
22 trying to find out what you actually saw. Because
23 you say you see something like that, there were
24 times when you looked down, that's all I'm trying to
25 establish.

1 Yes.

2 When you look down, is that
3 when you heard the shot, is that right or no?

4 : No.

5 : Okay, explain it.

6 : I can explain like exactly
7 whenever the shot came, whenever I was about to
8 record, that's when I can't say anything. I saw the
9 bullet.

10 I'm trying to figure out what
11 you were doing when the shot, when you heard the
12 shot. Were you trying to record, were --
13 (inaudible)

14 : I was about to record, I
15 just now heard the shot. I can't say I was looking
16 right at it. I was looking at my phone to try to
17 hit record and I heard a shot and said, oh, let me
18 get out of the way. That's when I went to get out
19 of the way. I saw the kid wrestling, pulling out to
20 the side, I saw the kid run away.

21 At that point you saw the kid
22 wrestling, yank away after the shot; is that
23 correct?

24 : Yes.

25 : As you were driving, did you

1 look at Michael Brown at all?

2 : As I was driving?

3 Yeah, as you are driving away,
4 did you look over at the police officer and the car?

5 : No, I went straight to the
6 (inaudible), that's whenever I got out. And I saw
7 the officer come out, I saw Michael run.

8 : All right, let's go back to
9 when you were driving to the parking lot, okay?

10 : Uh-huh.

11 : So from the time you heard the
12 shot and you decided you wanted to get out of there,
13 so you both (inaudible)

14 Yes.

15 : During that point that you are
16 driving to the parking lot, you were not looking at
17 Michael Brown and the officer in the police vehicle;
18 is that right?

19 No, I was not.

20 : Okay. At any point up to that
21 part, did you notice anything about Michael Brown or
22 any injury of anybody at that point?

23 : No. Whenever I looked back
24 up, that's whenever there was more shots coming, I
25 saw his body jerk.

1 : Okay. You are pulling into the
2 parking lot?

3 : Uh-huh.

4 : You pull into the parking lot,
5 they are not in your vision; is that correct?

6 : The officer is still in my
7 vision.

8 : Even as you are pulling into
9 the parking lot?

10 : Yes, so, whenever I got
11 right here, it is a parking lot. This is my parking
12 spot right here. Right across this grass I can
13 still see, that's when I coming this way, I did see
14 him get out of that truck, I didn't see him coming
15 this way.

16 : That's what I'm saying, there's
17 a point in there where he is out of your vision as
18 you are driving?

19 : Yes, I'm on the other side
20 of his car and I can't see the driver's side door at
21 that time.

22 : Okay. And you park your car in
23 a parking space?

24 : Yeah.

25 : Where is the parking space

1 relative to the street, is it parallel,
2 perpendicular, are you facing the street?

3 : Yes, I am facing the
4 street.

5 : Here is the parking lot?

6 : You pull like right up into
7 here, I could still see right over here and then
8 right out.

9 : At any point are you trying to
10 get your phone out to record?

11 : I still have the phone
12 ringing. And that time I wasn't trying to record
13 anything and I was in shock.

14 : Okay. So you pull into the
15 parking lot, what's the next thing you see when you
16 pull into your space?

17 : When I pull into my space,
18 I see the officer running behind shooting.

19 : Okay. You didn't see the
20 officer out, correct?

21 : No.

22 : So you don't know what happened
23 from there to the time you looked down at your phone
24 initially to the time you pull into the spot, you
25 heard the shot, you didn't see that because you were

1 running into the spot; is that right?

2 : No, that's not what I'm
3 saying.

4 : Okay.

5 : Put down my phone to
6 record, I had to put down the phone at that time to
7 hit the record, that's whenever I heard the shot
8 come so. I get out of the way so I did see the kid
9 yank like this.

10 I'm sorry, you saw him yank
11 hard?

12 : Yeah, and he run off.
13 So you saw the kid run off?

14 : Yes.

15 : At that point the officer
16 (inaudible) follow you; is that correct.

17 : I didn't see exactly when
18 he got out of the car.

19 So now you are in the parking
20 lot and you parked, what's the next thing you see
21 when you parked?

22 I saw the officer running.

23 Okay. You say you saw Michael
24 Brown running also?

25 Yes, I saw the officer

1 running off shooting and I saw his body jerk.

2 : Okay. Can you describe
3 anything about the manner in which Michael Brown was
4 running at that point?

5 : What do you mean, like
6 fast, slow?

7 For example, did you see where
8 his hand were as he was running?

9 : No, I can't say where his
10 hand were, I just know he was running.

11 : Okay. Did you notice Michael
12 Brown had any injuries to his body on him?

13 No.

14 Okay. And at this point, when
15 you got out of your car, you park your car, do you
16 hear any other shots?

17 : Yeah, multiple shots.

18 : Multiple shots. This is
19 between the time, can you be more specific, between
20 the time you pulled in and parked on this spot, at
21 that time after the first shot, did you hear any
22 shots?

23 Yes.

24 : About how many.

25 I can't say how many shots

1 were fired.

2 : You got out of your car, is
3 that what was next?

4 : Yeah.

5 : At that point is when you see
6 the officer running; is that correct?

7 Uh-huh.

8 : You say maybe the officer
9 was firing shots?

10 Yes.

11 How do you know?

12 : I heard him firing shots.

13 : About how many?

14 : I don't know. I can't tell
15 you exactly how many shots were fired at all. The
16 only time I just remember that one shot came from
17 the car, after that I can't say how many shots were
18 fired.

19 Okay.

20 : Can you say more than two or
21 more than three?

22 : Yes, it was multiple.

23 : It was multiple times?

24 : Yes.

25 : Okay. And so at some point you

1 said Michael Brown stops; is that correct?

2 Yes.

3 : Can you describe what you saw,
4 anything about him?

5 I saw his body jerk, I saw
6 him turn around and put his hands up. He looked
7 like a big tall man, I didn't know he was a kid.

8 : Okay. When his body jerked,
9 where were his hands?

10 : It was like oh, like, you
11 know.

12 And you saw his body jerking?

13 : Yeah.

14 : You are kind of
15 demonstrating jerking forward?

16 Yeah, from behind, yeah
17 from behind jerking.

18 : Did you notice where his hands
19 were?

20 : When.

21 At that point whenever he
22 jerked, did you notice his hands?

23 That's when he went up and
24 he turned around and he started, I can't say what he
25 was doing in front of him, but at that time he was

1 running. It was really fast though. He wasn't
2 doing anything with his hand, like once his body
3 jerked, it jerked, I can't say where.

4 : Okay. I was listening to you
5 and you say his body jerk and he started turn around
6 (inaudible)

7 : He started putting them up
8 as he is turning around.

9 : Okay. What did the officer do?
10 He continued to walk up on
11 him and shoot until he goes down.

12 : Okay. He walked up to Michael
13 Brown shooting, is what you are saying?

14 He kept walking, he kept
15 walking and shooting until Michael falls down. And
16 he just walked up on him and just stop and shoot.

17 So the whole time he just kept
18 on shooting?

19 : Yes.

20 So as you seem to remember it
21 basically he just continued the shots basically
22 (inaudible).

23 : Yes.

24 : Were there any pauses in the
25 shooting?

1 : Yes, there was a pause.

2 : When.

3 : I can't say exactly when.

4 Okay so, has one shot and then a couple more shots
5 and then more shots. I can't say like exactly this
6 is happening when the pause happened. Like, I don't
7 know, the shots were coming.

8 So you are saying Michael Brown
9 turned around, the officer just kind of kept on with
10 it, he kept on shooting.

11 : Yes.

12 : And you're saying that the
13 officer came up on Michael Brown and got closer and
14 closer as he was shooting?

15 : Yes.

16 : How close did the officer get
17 to Michael Brown?

18 It was feet away, I can't
19 say exactly how, like the exact measurement of it,
20 but it was like feet away.

21 : Was it arm's length from each
22 other?

23 : No.

24 : Further away?

25 Yeah, further away.

1 : Distance to the wall?
2 Further away from the wall.
3 : From me to the wall?
4 : Uh-huh.
5 : I'll say probably from me
6 to the wall.
7 I'm not good with feet or
8 distances.
9 : Me either.
10 8 feet, 8 or 9 feet?
11 : I can't say anything about
12 feet.
13 : Do you remember anything about
14 the expression of Michael Brown's face was at that
15 time?
16 : No.
17 : And so from what you are
18 telling us is that Michael Brown got to that point,
19 stopped, turned around and stayed there because the
20 officer came up on him.
21 : Yes.
22 : All right. And this entire
23 time you are watching this, you're outside of your
24 car as you are walking to 's apartment?
25 : Yes.

1 : Do you have your phone in your
2 hand?

3 : I know I have my phone in
4 my hand.

5 Were you trying to call
6 at all while you are there?

7 I was in shock, I wasn't
8 calling anybody. First call I made was when I got
9 to her.

10 About the time you see Michael
11 Brown go to the ground, you were getting out of your
12 car and walking to her apartment; is that correct?

13 : Yes.

14 : Where were you when you
15 heard the first shot?

16 In the car.

17 : Where were you when you
18 heard the second shot?

19 When I was parking getting
20 out of the car.

21 Where were you when
22 (inaudible)

23 : When I heard the last shot
24 and I saw the kid go down I was about right here.

25 Okay.

1 You say these were like
2 (inaudible) shots or they were regular just shots
3 being fired as he was going?

4 : I would say they were
5 regular shots as they were going. There was a pause
6 probably, but it was like, I don't know like what
7 you're asking, but they were shots.

8 You heard a group of shots and
9 then a pause and then a group and a pause?

10 : Yeah, yeah.

11 : You heard a shot, a shot, shot?

12 Oh, no, there were groups
13 and then pause groups, yeah.

14 : What about at the end you said
15 the officer was walking up to him?

16 : He was just shooting, then
17 he stopped, he was just shooting, then he stopped.

18 : Okay. Why did the officer
19 stop shooting?

20 I guess because he went
21 down.

22 : You saw Michael Brown --

23 Yeah, I saw him like slap
24 the ground.

25 : Slow down for a second. When

1 you saw Michael turn around, he stayed where he was
2 and the officer came up to him.

3 : Uh-huh.

4 : Is that correct?

5 : Yes.

6 : And then after that, the
7 officer, um, (inaudible)

8 : Yeah.

9 : If fact, I believe you said you
10 saw the officer go and get on his radio; is that
11 right?

12 : I didn't just say that.

13 : No, you didn't. In the past,
14 is it true that you seen --

15 : Yeah, I saw him touch his
16 radio. I can't say what he said, but I did see him
17 touch the radio and another officer immediately like
18 pulled up right after.

19 : I want to be clear. Once
20 Michael Brown is on the ground, Officer Wilson did
21 not go over to Michael Brown's body; is that
22 correct?

23 : No, he did not.

24 In fact, you didn't see any
25 officer go over to the (inaudible)

1 : No, I did not.

2 : Okay. And you were watching
3 the whole time, correct?

4 Uh-huh.

5 : That's a yes, right.

6 : Yes.

7 : And you saw Officer Wilson
8 somehow either touch his radio, do something with
9 his radio.

10 Yes, he touched it.

11 And this is right after Michael
12 Brown went to the ground?

13 : Yes.

14 : And after that you went to s
15 apartment, right?

16 : Uh-huh.

17 Is that a yes?

18 Yes, I'm sorry.

19 : When you went to s, what did
20 you do when you went up there?

21 : She was standing on the
22 porch and she had her phone out and she was crying.
23 She was like, I just saw him shoot him. I said I
24 know, I saw it too.

25 And hen I called my fiancée and I told him

1 what happened. He says you need to call somebody
2 and tell them what you saw.

3 : And so who did you call?

4 : So I called the news.

5 : So your fiancée said you need
6 to call someone and you call the news?

7 : Uh-huh.

8 : Why did you call the news?

9 : Because what I saw wasn't
10 right.

11 Why did you choose the news as
12 opposed to anybody else, why did you choose the
13 news?

14 : I think they should know
15 what happened to this kid.

16 : Who else did you call?

17 : Um, I think I called my
18 (inaudible) I know I called Channel 2 and Channel 4,
19 and I know I called him back.

20 Okay. Did you talk with at
21 the time?

22 We didn't really talk about
23 it, she just said, I just saw him shoot him. I said
24 yeah, I saw it too. There is like pacing back and
25 forth, like what the -- just happened.

1 : Okay. I'm sorry, you did an
2 interview with the St. Louis County Police
3 Department?

4 Yes.

5 : In those two hours, can you
6 tell us what you were doing?

7 In those two hours, I was
8 standing up on the porch and looking around, like
9 people start just coming around. Um, we were just
10 standing on the porch like looking around, what did
11 just happen.

12 : Were people talking about what
13 they saw?

14 : We were up on the balcony,
15 and I can't say, and me and was on the balcony.
16 One of the police, they might from the county
17 police, it was the officer standing right there at
18 the bottom of the steps. I said, yeah, I want to
19 talk to somebody.

20 They said hey, let me (inaudible) Right
21 now I need you to stay up here so we can get this
22 crowd under control.

23 Did you talk to any of the
24 other neighbors and talk about what you saw?

25 : No.

1 : Did you talk to at
2 that time?

3 : Yeah.

4 : Did you know that there was
5 another person out there?

6 Uh-huh.

7 On the street with Michael
8 Brown; is that right?

9 Yes.

10 Did you know him?

11 : No.

12 : Did you know if knows him?

13 : No.

14 : Okay. Had you ever seen either
15 one of them before?

16 No.

17 Did you see any other
18 vehicle, you said that you saw this one that was
19 behind the police vehicle, did you see any other
20 vehicles?

21 : I saw a black vehicle and
22 it was like coming up behind, I don't remember
23 exactly where this vehicle came, right after the
24 shooting where he backed up, it went through one of
25 those driveways.

1 Okay. It wasn't --

2 Yeah.

3 Okay.

4 I just want to go back to the
5 part where you saw, this is just how the interview,
6 when you first saw the police SUV. You had
7 described before this tussle going on. Were you
8 able to see what the officer was doing?

9 : I can't see inside the car,
10 I can't see but I can't see fully back and forth.

11 : When you say tug of war that
12 that's what (inaudible) what was the officer, based
13 upon you saying tug of war, what you actually saw.

14 It looked like he was
15 pulling in and Michael was trying to pull out.

16 : Who was playing?

17 The officer.

18 : Did you see the officer's
19 hands?

20 I can't, no, I can't say I
21 saw his hands.

22 What makes you, I'm not trying
23 to, I just don't understand. What makes you think
24 he was pulling him in?

25 I saw the kid like pulling

1 away. I saw like him try to pull him in and he
2 actually pulled away, he's not just doing this.

3 So you saw -- is Michael Brown
4 has two hands on the car, you saw him pushing back;
5 is that right?

6 Yes.

7 : Do you see, I mean, is it
8 anybody --

9 I know for a fact that
10 whenever he was pulling away, he had his shirt like
11 this. (inaudible) I can't say exactly where the
12 officer's hands were, but like they were both
13 pulling.

14 : So you are showing me when
15 Michael Brown pulled away, (inaudible)

16 : Yeah, I saw his sleeve like
17 pull, like he was pulling away.

18 : Did you see any hand pulling
19 him?

20 I don't remember seeing
21 that.

22 : So from your vantage point, you
23 say Michael with his hands on the outside of the car
24 and you assume pushing away?

25 : Uh-huh.

1 : Yes.

2 Yes.

3 : And you don't see the officer
4 rose his hands anywhere?

5 No, I can't remember seeing
6 his hands.

7 Is there any part of Michael
8 Brown that is inside the vehicle?

9 : Another side of his head is
10 in the window. They were wrestling back and forth
11 throughout the whole thing.

12 : Just help me understand this.
13 How is it, you said, his hands up (inaudible)

14 What do you mean?

15 : Well, you told me when you saw
16 him they were pulling away.

17 They're pulling away, he
18 had to be pulling away from something. Something
19 was holding him through the window.

20 Well, you showed that he was
21 pushing off?

22 Yeah.

23 So how do you know he was being
24 pulled in, though, if you can't see somebody pulling
25 in. I'm not trying to argue, I'm just trying to

1 understand what you saw.

2 Uh-huh.

3 : Someone pushed away --

4 : Do you want me to say that
5 I saw the cops hand pulling him in, no.

6 : I don't want you to say
7 anything.

8 : No.

9 : Let me be very clear to you,
10 I want you to say what you know happened
11 and I'm trying to understand it.

12 : I'm telling you what I know
13 happened. I don't get, okay, saying where were the
14 officer's hands. I can't say where the officer's
15 hands were, but I did see him pulling away. He is
16 pulling away from something because something is
17 pulling him back in. So I can't say exactly where
18 those cop hands was, but I did see tug of war going
19 on through this window.

20 You didn't see the officer
21 pulling him in, correct?

22 I didn't see his hands
23 pulling him in.

24 Okay.

25 : Well, I think is

1 confused because she said that his head was inside,
2 his hands are pushing away, so how is his head
3 inside and his hands are pushing away?

4 I don't know exactly, like,
5 I don't know.

6 I mean, is it bent in the wind?

7 : Yeah, it is like a bend,
8 like what I showed you the first time. It is like
9 their pulling, he is pulling back.

10 You are showing me pushing
11 back, maybe we are using different words or the same
12 thing. Are you assuming that somebody was pulling
13 him in or can you tell me that somebody was pulling
14 him in, you see what the difference is?

15 Yeah, I see what you are
16 saying. So I'm not assuming something.

17 : When you, yourself, could see
18 him like that?

19 Uh-huh.

20 : You see Michael Brown's two
21 hands on the door; is that right?

22 : Uh-huh.

23 : Yes.

24 : Yes.

25 Okay. And you see, now you see

1 his head, is his head inside the window, outside the
2 window?

3 It was like, at the time I
4 saw his head in the window, yes. It was like a pull
5 back or something.

6 : Did his head go into the window
7 so that it disappeared from your view?

8 : No, like no, it didn't
9 disappear from my view.

10 : So, I mean, if it is any
11 different than somebody coming over to the car and
12 talking to them, is that what you are saying you
13 saw?

14 No, I saw like a pull, like
15 a wrestle, I can't say I exactly saw where the cops
16 hands were, but I did see a wrestle.

17 : I don't understand what wrestle
18 means?

19 : Like a tussle back and
20 forth.

21 : Let me ask you this. You
22 see Michael's hands on the doors pushing against the
23 door?

24 Uh-huh.

25 : He is pushing himself away

1 from it?

2 : Yes.

3 Could you tell whether he
4 was pushing himself away from the door or pushing on
5 the door, was the door closed at the time?

6 Yeah, the door was closed.

7 Did you see the door open?

8 : No, they always had the
9 door closed.

10 : Could you tell the
11 difference whether he was pushing against the door
12 to keep it closed or pushing himself away from the
13 door, could you tell that?

14 It was like he was pushing
15 away from the door, like trying to pull off. Like
16 the only time I saw like a tug on Michael is
17 whenever his arm, he was trying to like yank away
18 and like his shirt was like, you know.

19 : So when you are on the news you
20 told, actually that his whole
21 body stayed out of the vehicle the whole time that
22 you saw him; is that right?

23 : Uh-huh.

24 So no part of Michael Brown's
25 body was in the vehicle from what you saw?

1 : No, like I saw them pulling
2 back and forth. I never seen like his whole body be
3 inside of his vehicle.

4 Did you see anyone else, like
5 someone walking by, anyone on foot that may have
6 witnessed this?

7 : No, I don't remember seeing
8 anyone else.

9 Is that because you were so
10 focused?

11 : Yeah, what was going on, so
12 I can't say I seen anybody else.

13 You can't say there was
14 somebody else around?

15 : Yeah.

16 : We need to take a break, is
17 that okay?

18 : Uh-huh.

19 : Do you mind if we leave the
20 recording on or if we turn it off.

21 You can leave it on.

22 MS. ALIZADEH: It is 11:58 a.m. and I
23 paused the recording of the FBI interview of
24 at 40 minutes and 19 seconds because they
25 actually are taking a break in the interview and the

1 jurors thought this would be a time we would break
2 for lunch. So at this time we are going to have a
3 break for lunch and let me know how quickly you want
4 to resume. I'll keep you posted on if the witness
5 is here when he's supposed to be here.

6 (Lunch recess)

7 MS. WHIRLEY: It is approximately 12:49,
8 we are still on September the 25th, 2014, and we
9 were listening to an interview by the Federal Law
10 Enforcement Department of .

11 We're going to conclude that interview and
12 then after that, we do have a witness here. His
13 name is . We will talk to

14 and then we will see where we are on time.

15 Kathi will be joining us in a little bit,
16 so we're at 4019 is where we stopped it and I'm
17 going to resume that interview now.

18 (Resuming the interview of
19 .)

20 : We have some more questions, so
21 we have a better understanding, okay?

22 : Okay.

23 We are not trying to suggest
24 anything.

25 We started back at

1 approximately 5041.

2 : Again, if there is anything
3 mischaracterizing or misunderstanding, definitely
4 help us, okay?

5 : Uh-huh.

6 : Where you parked your car, can
7 you describe for us, I mean what you did, when you
8 parked your car.

9 I got right out of the car
10 and I start walking towards s house to see what
11 was going on.

12 Sorry, you said you parked your
13 car, got out, before you got out, did you take the
14 keys out of the ignition?

15 : Uh-huh, yes.

16 Did you grab anything, did you
17 have any stuff with you, anything like.

18 : I just got out of my car
19 and grabbed the keys and got right out.

20 When you got right out, where
21 did you go?

22 : I start walking towards
23 house, cutting across the grass.

24 : Did you continue walking as you
25 are looking at what is going on.

1 Uh-huh.

2 : Yes.

3 Yes.

4 Okay. And did you start going
5 up to, going up to s apartment while this is all
6 going on?

7 No, by the time I got right
8 over here that is whenever, I got right to this
9 point, that's whenever I saw he was going down, like
10 whenever. Before I got to her first steps, he was
11 already laying on the ground. I saw him next to the
12 ground.

13 : Okay. Did you go down into the
14 foyer while you were walking?

15 No.

16 Can you describe when you saw
17 Michael first begin to turn around, can you describe
18 in as much detail as you can, what he was doing? I
19 know you said he was running.

20 Yeah.

21 : But now and then.

22 His body jerked.

23 : Okay.

24 : He was still faced like the
25 opposite way of me, so I just saw his body jerk and

1 then he stopped where he was and turned around and
2 putting his hands up as he was turning.

3 : When he was running, do you
4 know where his hands were.

5 No.

6 Okay. When he stopped, do you
7 know where his hands were with his body (inaudible).

8 : Uh-huh.

9 When his hand -- (inaudible).

10 Whenever he, whenever he
11 jerked, he was like, and then he just like this.
12 (indicating)

13 His hands starting coming up
14 when he jerked, like when he jerked his hands
15 starting coming up?

16 : Like, you know, if you jerk
17 like that.

18 : You are showing almost
19 involuntarily his hands jerk; is that correct?

20 Yeah.

21 I don't want to mischaracterize
22 it, but based on what you are showing me happening,
23 the body jerked, like body jerking, like his hands
24 just kind of moved as part of the jerking?

25 : Yeah.

1 : Okay.

2 : As he jerked, his hands kind
3 of flew up?

4 : Yeah, like that.

5 : Okay. Can you describe, did
6 you see any sort of blood or injury at that point?

7 : I didn't, I couldn't see.
8 I didn't see blood until when he laid there and
9 started pouring from him. It didn't register to me
10 that he was dead until I saw the blood. I didn't
11 see any of that.

12 As he was turning around, did
13 he put his hands anywhere on himself?

14 : No.

15 : No?

16 No.

17 Did you notice anything about
18 his hands or his arms?

19 That they were, whenever he
20 turned around, no. Only thing I notice that they
21 were up in the air like he just went down like that,
22 he was getting shot it was like huh, huh, huh and he
23 fell to the ground.

24 : So you are saying, I wanted to
25 see if I can characterize this correctly.

1 With the jerking movement, as you just
2 showed us, his hands kind of went up, that kind of
3 involuntary jerking motion?

4 : Uh-huh.

5 : It was kind of all one motion
6 as he turned around with his hands up and then fell
7 to the ground; is that right?

8 No.

9 : No, okay.

10 : So when he jerked that's
11 when like whenever, that's what happened where his
12 hands were at. I can't say where his hands was
13 until I saw his jerk and that, that is when I saw
14 like come up. It was involuntary because it was
15 just like a reaction to a jerk. That is whenever he
16 turned around and put his hands up like that.

17 You show with his palms up,
18 were you able to see his two palms?

19 : Uh-huh.

20 : Yes?

21 : Yes.

22 : Okay. Was his arms and hands
23 the same level that they were at when you first,
24 when his arms first jerked?

25 No, it was starting to go

1 up.

2 : They started going up, you
3 notice something about his palms, you were able to
4 see them, correct?

5 : Uh-huh.

6 Yes?

7 : Yes.

8 : Was there almost simultaneous
9 as he turned around in that position, then the shots
10 kept going and he started going to the ground?

11 : Uh-huh. They were like
12 right behind each other.

13 : Right behind each other.

14 : Yeah.

15 : So like one big movement right,
16 the jerking and the turning around and hold them up
17 and he went to the ground.

18 Yes.

19 : Was he already kind of going to
20 the ground as his hands were up?

21 : Once he faced the officer,
22 he started going down once he faced the officer and
23 his hands went up, he just started going down to the
24 ground as the shots was hitting him.

25 : So do you remember, okay, it

1 was kind of one motion, one series of events.

2 : Yeah, it was.

3 Okay.

4 : Just to be clear for the
5 tape, hands up, you got them basically at shoulder
6 level or your level, something like that?

7 : Yeah.

8 : Okay.

9 : How far did Michael go in
10 this direction?

11 : About to right here where
12 he fell.

13 Okay.

14 : That's as far as he went
15 where he turned and fell.

16 : Uh-huh.

17 : That's as far east on
18 Canfield as he went?

19 : Yes.

20 : Okay. I'm fine. One thing
21 that struck me earlier, you are talking about
22 afterwards, after you went up on 's balcony
23 and you talked to her for a short time and you said
24 you called your fiancée; is that right?

25 : Yes.

1 : Was that still on the
2 balcony there?
3 : Uh-huh.
4 : When you call your fiancée.
5 : Yes.
6 : Did you call the news from
7 the balcony also?
8 Yes.
9 : Was with you on the
10 balcony at that time.
11 : Yes.
12 : At the time you made those
13 calls?
14 : Uh-huh.
15 Okay.
16 : Is there anything else you want
17 us to know about this?
18 No, that's all that I know.
19 : Is there anything that we
20 didn't ask you that we should have asked you about?
21 : No, I don't think so. I
22 can't think of anything.
23 : Is there anything that we
24 mischaracterized or we misunderstood, I know we went
25 over with you several times.

1 No.

2 : I know we've asked a lot of
3 detail here today, that's our job, okay. But you
4 feel like basically we have been fair to you today
5 and basically let you tell us what you know?

6 I think we tried to make you
7 say something you did want to say?

8 : I didn't get that part
9 about what you asked me at the truck, did you see
10 this and you asked me different ways.

11 Okay. I'd like to clarify
12 that. I don't want you to leave thinking we were
13 trying to get you to say something you didn't want
14 to or some misunderstanding.

15 So tell me about the truck that you were
16 just referring to tell me.

17 : When you asked me were they
18 pulling, was it a tug of war or did you see the
19 officer's hands. No, I didn't see the officer's
20 hands, but you can tell when somebody is being
21 pulled.

22 : Okay, that's fair. So you are
23 saying that even though you didn't see what was
24 pulling him, it is your perception that Michael
25 Brown was being pulled?

1 Yes.

2 : Do you know what part of him is
3 being pulled?

4 : No, I don't. It looked
5 like it was his shirt.

6 : You are talking about that is
7 when he was jerking away, correct?

8 Yes, I did see the shirt,
9 like this part of the shirt being pulled.

10 : You are showing the sleeve
11 part?

12 : Yeah, yeah, whenever he
13 turned his arm, like turning off, he was trying to
14 pull it out. (inaudible)

15 : His right sleeve?

16 : Yes.

17 : Okay. And so what about right
18 before that, were you able to see him being pulled?

19 : Yeah, I didn't see exactly
20 what was being pulled, but you can tell if somebody
21 is being pulled without seeing what's pulling him.

22 So your perception from your
23 vantage point that Michael Brown is being pulled?

24 : Yes.

25 : You couldn't tell from what

1 part of his body he was being pulled?

2 : No.

3 And no part of his body, as far
4 as you could tell, was inside the car?

5 : No, I can't see, like his
6 hands is like okay, I can't see his hands went all
7 the way into it, but it was just like, you know,
8 like through the window like, like a little back and
9 forth.

10 : Is Michael Brown's head in the
11 window a little bit is what you are saying?

12 : Yeah, I can't say, like he
13 didn't go all the way into like that, but it was
14 like a back and forth thing right there through the
15 window.

16 : Okay.

17 : You never saw Michael
18 Brown's hands go inside the window?

19 No, I didn't. I can't say
20 that they didn't, but I didn't see them.

21 : Is there a point you didn't
22 see the entire thing where it is possible it could
23 have gone in the window, is that fair?

24 Yes.

25 : But you didn't see

1 everything that was going on there inside the
2 vehicle?

3 No, not before, no. I was
4 looking at my phone.

5 : Right. Looking at your
6 phone and parking as well.

7 : Yeah.

8 : So there were portions of
9 this where you actually didn't have eyes on what was
10 going on in street; is that fair?

11 Yes.

12 : And after you parked your
13 car, were there other times then, for example, as
14 you are getting out of your car where you may not
15 have had eyes on the street the entire time?

16 No, wherever I got out of
17 my car, I started walking right toward it, more like
18 I saw it from whenever I saw the officer come from
19 his car, I saw Michael going down.

20 : I'm talking about where you
21 parked and were getting out.

22 : As I was getting out, I
23 couldn't see on the other side of that car. I can't
24 say how fast the officer got out of the car and, you
25 know, exactly what he did on that side because I'm

1 on this side, on the passenger side of the vehicle,
2 not the driver's side.

3 Have we clarified all of that
4 now?

5 : Yes.

6 : You feel like we were trying to
7 get you to say something that a you didn't want to
8 say?

9 : No.

10 : We treated you fairly?

11 : Yes.

12 All right. If at any point
13 weeks, day, months whatever come up, you want to
14 talk to us again and you think there is something we
15 need to know, you want us to know, don't feel like
16 this is one shot and that's it, okay?

17 Uh-huh.

18 : You can always call the FBI,
19 call you can have your lawyer call myself or
20 , we are always open to new information from
21 you or anybody else. We don't want you to feel like
22 you lost your opportunity this is it, okay.

23 Oh, that's fine, thank you.

24 : Thank you.

25 : We have to clarify that you

1 drew on the map this is where Michael Brown last
2 stood; is that correct?

3 : Uh-huh.

4 : Okay. Are you sure?

5 : The place where he last
6 laid?

7 : Where he turned around,
8 where he last was?

9 This was his last place
10 right there where he fell.

11 : I didn't want to put words
12 in your mouth, I didn't see like you were
13 understanding what I said so. I'm just going to say
14 where Michael Brown last stood; is that correct.

15 : Uh-huh.

16 That dot or this rectangle
17 was the vehicle, the truck, the police truck?

18 : Uh-huh.

19 Okay. Just going to say
20 police vehicle. And this X was, do you remember?

21 : I don't remember why I made
22 the X right there.

23 I think this is what, where
24 you said they were when you were getting out of the
25 vehicle, does that sound correct?

1 Are you sure? We can leave
2 it blank.

3 I don't remember why I made
4 this.

5 That's fine, we just won't
6 identify it. Do you remember what this was?

7 No.

8 Okay. All right. So is
9 this okay for me to put these two items.

10 : Yes.

11 Okay. Could you sign and
12 date this just anywhere, please?

13 Okay. Do you have any questions for us?

14 No, that's it.

15 : I'm going to stop the
16 recording. The time is 4:16 p.m.

17 (End of he playing of the
18 interview.)

19 MS. WHIRLEY: That is the conclusion of
20 the interview with the federal,
21 during the federal investigation. Now it is
22 approximately 1:06 p.m. for us our time. We are
23 preparing for our next witness. Do you have any
24 other announcement?

25 So I will go get our next witness.

1
2
3
4 of lawful age, having been first duly sworn to
5 testify the truth, the whole truth, and
6 nothing but the truth in the case aforesaid,
7 deposes and says in reply to oral
8 interrogatories, propounded as follows, to-wit:

9 EXAMINATION

10 BY MS. WHIRLEY:

11 Q I'm Sheila Whirley, Kathi Alizadeh is
12 here, both with the prosecuting attorney's office,
13 also all 12 jurors are here, the court reporter and
14 we are now talking with .

15 A Yes.

16 Q Could you introduce yourself and spell
17 your name for everyone, please?

18 A My name is . ,

19

20 Q All right. And keep your voice up. You
21 see a microphone, it is not going to make your voice
22 louder, it is just recording, okay?

23 A Okay.

24 Q All right. you know why
25 we are here?

1 **A** Right.

2 **Q** This is concerning the Michael Brown
3 shooting?

4 **A** Uh-huh.

5 **Q** That occurred on August the 9th, 2014; is
6 that correct?

7 **A** Yes.

8 **Q** It would have been what day, do you recall
9 it happening?

10 **A** That was on Saturday.

11 **Q** Saturday, okay. Now, you were in that
12 area of the shooting of on the day that it occurred?

13 **A** Yes.

14 **Q** Where were you, tell us what happened that
15 morning, how did you start your morning on August
16 the 9th that Saturday?

17 **A** Um, I was coming from a young lady's
18 house, coming from the back
19 apartments, I think there's, I forgot the actual
20 name it is, but coming from her house.

21 **Q** Speak up a little bit.

22 **A** Coming from her house, you got the
23 Canfield Apartments.

24 **Q** Now, the apartments --

25 **A** I mean Canfield Street, making right.

1 **Q** Okay. We have a map here, I don't know if
2 it captures the area that you are discussing, but
3 can you tell us looking at this map, and here is a
4 pointer, you use it like this, push that button?

5 **A** Okay.

6 **Q** Which area can you tell from this map
7 where the area is that the apartments are that you
8 were coming from?

9 **A** Where, this is West Florissant.

10 **Q** This is West Florissant, right?

11 **A** Yes.

12 **Q** Okay. And that's Canfield Drive?

13 **A** This apartment is back over in that way.

14 **Q** Okay. So they're not actually on the map,
15 but they're further east?

16 **A** Right.

17 **Q** From the Canfield Green Apartments?

18 **A** Yes, end up this is Canfield, yeah, making
19 a right this way.

20 **Q** Okay. You are driving down Canfield
21 Drive?

22 **A** Yeah.

23 **Q** What kind of car are you in?

24 **A** A Monte Carlo, two-door white Monte Carlo.

25 **Q** Who is driving?

1 **A**

2 **Q** You are the passenger?

3 **A** Yes.

4 **Q** Anyone else in that two-door car?

5 **A** No.

6 **Q** Okay. So show us your pathway again?

7 **A** So end up making a right here, so as we
8 are coming down one of these side streets is like a
9 dead end for right here, and the officer came off
10 one of these streets right here, I think it might
11 have been this one. (indicating)

12 **Q** When did you see the officer?

13 **A** When we made a right coming down, he
14 basically jumped in front of us.

15 **Q** The officer came out onto Canfield Drive?

16 **A** Right.

17 **Q** Now, before you go further, do you recall
18 approximately what time it was, what time of day?

19 **A** Almost 12.

20 **Q** Close to noon?

21 **A** Uh-huh.

22 **Q** And when the officer, you say he jumped in
23 front of you, was he like, did he have red lights
24 and siren on or something appear to be happening?

25 **A** No.

1 **Q** Okay.

2 **A** So he came, he got up to the Canfield
3 area, I mean, street or whatnot, he got a little
4 further off going a little faster or whatever, so we
5 coming in behind, that's when kind of, almost got
6 right behind him because he had confronted Mike
7 Brown and his friend Dorian.

8 **Q** Okay. For the record, we are using Grand
9 Jury Exhibit 25 when we refer to the map and you are
10 showing us the locations at what point on that map
11 are you saying you guess he confronted Mike Brown
12 and Dorian, where on the map?

13 **A** It is like, let's see, it is somewhere
14 right here. (indicating)

15 **Q** Okay. And why do you say you guess, do
16 you know or you guess?

17 **A** No, I'm saying it is right here.

18 **Q** Okay.

19 **A** So that's where -- so that's where we are
20 coming down. whatnot. So I guess he was, the police
21 was about right here somewhere, talking to him or
22 whatnot, they didn't comply.

23 **Q** How do you -- what did you know, did you
24 hear them talking?

25 **A** No, I didn't hear nothing at all.

1 **Q** You just heard later about them not
2 complying, is that what you are saying?

3 **A** I'm saying it was the police stopped.

4 **Q** Okay.

5 **A** And said something and that's, Mike Brown
6 kind of looked back and just both of them kept
7 walking, him and Dorian. And that's when he came
8 back real fast, Officer Wilson, and kind of
9 catty-corner the car and almost hit Mike Brown, and
10 jump back and that's when we were actually behind
11 the police car, the Monte Carlo.

12 **Q** So where would you have been, the Monte
13 Carlo?

14 **A** It was like, I know we was like right here
15 being by this sewer, like a little bit in front of,
16 you know, the entrance right here.

17 **Q** Okay. And could you pass the car, the
18 police truck, could you pass it?

19 **A** No.

20 **Q** Did you drive around it?

21 **A** No.

22 **Q** Okay. So you were blocked?

23 **A** Basically, yes.

24 **Q** Behind the police car?

25 **A** Yeah, and after that, after somehow I

1 couldn't see because it's a tinted window on the
2 back of the truck so, um, somehow Mike Brown ended
3 up by the window or whatnot.

4 **Q** Which window?

5 **A** The police car.

6 **Q** Which window?

7 **A** Driver's side.

8 **Q** Okay. Driver's side?

9 **A** Or whatnot, so the only thing I could see
10 is like under the car.

11 **Q** Let me ask you this, was someone with him,
12 you did say Dorian was walking with him?

13 **A** Uh-huh.

14 **Q** Where was Dorian at this time?

15 **A** Um, as he was at the window?

16 **Q** Yeah.

17 **A** He was like, he was like, right towards,
18 when he was looking at it, I guess I could show you
19 all, I guess he is looking at them in the scuffling,
20 he looked, he kind of tripped over his foot and
21 just, you know, ran off whatever he seen because I
22 couldn't see. I couldn't see and whatnot because
23 the truck was, you know, catty-corner or whatnot.
24 So from then I was just like seeing
25 Mike Brown feet under the car.

1 **Q** What was his feet doing?

2 **A** Just moving like, you know, back and forth
3 and truck starts shaking like two or three different
4 times.

5 **Q** What did it appear to you was going on?

6 **A** A scuffle, a scuffle and whatnot.

7 So from then after that happened I
8 heard like a shot, just a shot, a small shot. It
9 wasn't too loud, it just was a shot.

10 **Q** Could you tell where the shot was coming
11 from?

12 **A** In front of us.

13 **Q** Could you tell --

14 **A** The police car.

15 **Q** It sounded like it was happening inside
16 the car?

17 **A** Yeah.

18 **Q** Or outside?

19 **A** Well, I know he was outside the car and
20 the police was inside the car, his feet was on the
21 ground, Mr. Wilson's wasn't.

22 **Q** But the shot, where did it sound like it
23 was coming from inside or outside the car?

24 **A** Inside the car.

25 **Q** Okay.

1 **A** So from then I end up telling , this
2 don't seem right. After I heard that first shot
3 back up, back up and open your door, open my door,
4 so we don't catch no shot or what else is going to
5 go on.

6 **Q** So why did you want the doors open?

7 **A** So we could duck.

8 **Q** You felt you could duck better if the door
9 was open?

10 **A** Yeah.

11 **Q** I see. So where does he back up from the
12 police car?

13 **A** Yeah.

14 **Q** And where was she when she backed up?

15 **A** We're kind of like, like this is the sewer
16 right here.

17 **Q** Okay.

18 **A** We wasn't nowhere like right here where we
19 could turn in, you know, to be kind of like right
20 here.

21 **Q** Okay.

22 **A** A little bit in front of the sewer or
23 whatnot.

24 **Q** Okay.

25 **A** So from then, as soon as like we backed

1 up, Mike Brown ran on her side, I meant the driver's
2 side coming from the officer's car, like limping a
3 little bit, gasping for breath.

4 Q Who was limping?

5 A Mike Brown. So I think his slipper came
6 off or something like that.

7 Q His what?

8 A His shoe, his shoe he had on or something
9 like that, I think it came off. But, um, so that
10 happened, that's when I heard a second shot. That's
11 when we he started ducking, we end up ducking.

12 Q Well, let's see what better clarity, what
13 was going on when you heard the second shot. So you
14 heard the first shot in the car, what happened once
15 you heard that first shot?

16 A Back up and open the doors.

17 Q Okay. And what was happening?

18 A About when we stopped, that's when Mike
19 Brown was running around her side.

20 Q The side, the driver's side of the car?

21 A Of , yes.

22 Q You saw him running?

23 A Yeah, like, you know, like scooting off.

24 Q Okay.

25 A Not actually running, running, running,

1 like scooting off, walking fast.

2 **Q** What was the police officer doing?

3 **A** I couldn't see him still.

4 **Q** Okay.

5 **A** I just heard another shot.

6 **Q** You heard another shot?

7 **A** Yes.

8 **Q** While Mike Brown was kind of scooting or
9 running?

10 **A** Yeah, right.

11 **Q** Did he have his back to you at that time?

12 **A** No, I was looking on his side, I was on in
13 the passenger side, so I'm looking at his side.

14 **Q** Okay.

15 **A** So his back to the officer.

16 **Q** Let me ask the question again, his back
17 was to the officer?

18 **A** Uh-huh.

19 **Q** Okay. He was not facing the officer when
20 you heard the second shot?

21 **A** Huh-uh, no.

22 **Q** Okay, go ahead.

23 **A** End up, you know, halfway ducking down.
24 So as I'm ducking down, you know, catty-corner from
25 my eye and I see Dorian. Like I don't know how he

1 got from, you know, from over here, you know, going
2 to the side of this street to being all the way over
3 here, I was, I didn't see nothing, none of that.

4 So the second shot I heard, I end up
5 seeing, ducking down and seeing him like, who is
6 this, you know, and I end up recognizing who it was.

7 Q Did you know Dorian before that day?

8 A No.

9 Q Did he say anything when he came around to
10 the side of the car?

11 A Huh-uh, not at the time, not yet.

12 Q Okay. Okay.

13 A And then I did say like the second shot,
14 said like a good four, five, six seconds, and that's
15 when I see the officer, Mr. Wilson, came the same
16 way as was. You know, he's gasping for
17 breath, had his gun down, just going toward him.

18 Q Was he running or trotting?

19 A Just trotting, like huh, you know.

20 Q Okay.

21 MS. ALIZADEH: So who's trotting and
22 gasping for breath that you just described?

23 A Mr. Wilson.

24 MS. ALIZADEH: The officer?

25 A The officer.

1 MS. ALIZADEH: Okay, all right.

2 A So, uh, and then I end up looking out the
3 back window, I guess, coming down the way or
4 whatnot. Like the whole time I don't know, I
5 blanked out or whatnot because I'm not hearing
6 anything, but I didn't hear nothing from the time
7 that they was at the truck. We are both, from the
8 officer's truck to the time he was running and
9 whatnot because I guess he had got down the street
10 some, a little after him or whatnot.

11 Q (By Ms. Whirley) So the officer was
12 trotting with his gun out?

13 A Yeah, it was down here.

14 Q After Mike Brown?

15 A Yeah.

16 Q Okay.

17 A So basically from then I'm looking out the
18 back window, is looking out her little rear
19 view mirror. So I guess they got down the street,
20 you know, got down towards, they still in the yellow
21 line the whole time. So get down, get down a way
22 and Mike Brown kind of swayed and turned around.
23 His hands weren't fully up, he kind of turned around
24 and he was just like that, and then he slid off
25 three more shots and fell on his face. (indicating)

1 **Q** So the officer shot him while his hands
2 was like this? (indicating)

3 **A** Uh-huh.

4 **Q** And the way you demonstrated was his hands
5 were --

6 **A** Halfway.

7 **Q** Like shoulder length?

8 **A** Uh-huh.

9 **Q** Okay.

10 MS. ALIZADEH: Can you demonstrate again,
11 I missed it, I was writing.

12 **A** Like, uh, I guess, I guess from where the
13 officer was at, he must have said something to him.
14 I couldn't hear that far back, you know. He was
15 probably, he was up by some other cars, so I
16 couldn't hear that far or whatnot. So I guess he
17 end up putting, you know, his gun up and saying
18 something to him, like get down or something.

19 **Q** (By Ms. Whirley) You are guessing about
20 that?

21 **A** Yeah.

22 **Q** You didn't hear that?

23 **A** Yeah, I didn't hear nothing the whole
24 time.

25 **Q** All right.

1 **A** As I guess he said something, you know, if
2 you are looking just to visualize or whatnot, turn
3 around, like slow his hands like slow.

4 **Q** Mike Brown?

5 **A** He wasn't fully up in the air or nothing
6 like that, he was just like this, and then boom,
7 boom, boom, three more shots and he fell down, hit
8 his face and fell on his arm and hit the ground.

9 **Q** When he turned around and raised his hands
10 up shoulder length, did he charge at the officer?

11 **A** No, no.

12 **Q** Did he move in a threatening way towards
13 the officer?

14 **A** Not that I could see, no.

15 **Q** You didn't see him threaten the officer?

16 **A** No.

17 **Q** As if he was coming to do him harm?

18 **A** No, the officer wasn't that close, he was
19 not close at all to him.

20 **Q** Like how far away would you say the
21 officer was when he turned around with his hands up?
22 Was it longer than what this room allows? I mean,
23 if I'm back here?

24 **A** I'd say from here to that corner
25 basically.

1 **Q** From where you are to the corner?

2 **A** Yeah, or from the door to there.

3 **Q** So like 15, 20 feet you're saying?

4 **A** Yeah.

5 **Q** Okay. And that's how far the officer was
6 when he fired the last shots?

7 **A** Yes, that I heard.

8 **Q** That you heard?

9 **A** That I heard.

10 **Q** Did Michael Brown stumble toward him in
11 any way or come at him?

12 **A** I just seen him drop.

13 **Q** Did he move again once he dropped Michael
14 Brown?

15 **A** Like I'm in the back seat, like he's on
16 the ground, I can't see no more after that.

17 **Q** Okay.

18 **A** And unless I got out and whatnot. So from
19 seeing that and whatnot, I got doors are still open.
20 So the first thing Dorian say, can you take me down
21 here? I'm like, hell no.

22 So prior to what they did at that
23 store, I didn't know nothing about that. You know
24 anybody ask you something like that, you are like
25 no.

1 **Q** Shots were being fired, you don't know
2 what's going on?

3 **A** Right.

4 **Q** Is that right?

5 **A** I mean, the three shots he dropped or
6 whatever, I'm just saying after that, you know, like
7 messed up or whatnot, he asked to get in the car and
8 take me down here and this and that. I'm like, no,
9 skirt off.

10 So about the time then the police
11 officer catty-corner right here, so I told her to,
12 you know, leave him where he was at, got up here, we
13 got up here by the police car like right here. On
14 the side is the apartments, you know, catty-corner.
15 So by the time we got up there, other police were
16 coming through, coming from West Florissant indene
17 came like straight at us at first.

18 **Q** Was there more than one car?

19 **A** It was like, I think it was like three,
20 four, five of them trucks.

21 **Q** Okay.

22 **A** So they came like straight at us, but
23 then, I guess, one of the other trucks stopped and
24 they turned, they just went on around towards the
25 body.

1 So from then, I just told her to
2 gradually go in that grass and we left.

3 **Q** So you didn't see what they were doing
4 once the police arrived because you left, right?

5 **A** Yeah, we left.

6 **Q** Did anyone try to stop you and talk to you
7 about what you may have seen that day?

8 **A** No.

9 **Q** Okay. All right. So, go ahead.

10 **A** Let me say something I just forgot too.
11 So when we got here by the police car, basically we
12 got stopped seeing other officers coming in, I end
13 up getting out, you know, to look back and whatnot.

14 MS. ALIZADEH: I'm sorry, I couldn't hear
15 what you just said, you ended up getting out?

16 **A** Yeah.

17 MS. ALIZADEH: Okay.

18 **A** I seen the other officers was coming in or
19 whatnot, and her getting up beside, you know, of the
20 truck. Because we end up stopping because the
21 police I thought were going to block both sides, but
22 they end up didn't. They came straight at us and
23 they went on around towards the body and whatnot.

24 And the other officer I end up
25 getting out of the way of him. I looked back and I

1 just seen the officer checking his arms or whatnot.
2 I don't know if was checking for blood splatter or
3 whatever or whatnot.

4 After that, got in, started to
5 gradually go through the grass and we left. That's
6 why I say at the end.

7 : Now, when you say he was
8 checking his arms, Officer Wilson was checking his
9 arms?

10 **A** Uh-huh.

11 Okay, all right, thank
12 you.

13 : . On the
14 map could you indicate to us about how far towards,
15 how far east, I should say, Mike Brown ran before he
16 turned from where he stopped?

17 **A** I would say it is like, you know, going up
18 by this way. Where his body was at, that's how far
19 he went. Well, over by this tree, well, not this
20 tree here, but like, you know, a little right there,
21 that area, yeah.

22 : When you
23 were witnessing this, did you happen to see was it
24 like another car that came behind you as well?

25 **A** It was like, I'd say, I'm trying to, you

1 know, put in about time. I'd say about, ended up
2 being like two to three cars behind us.

3 Do you remember like the
4 color any of those cars, what kind of make or model
5 they were?

6 **A** I know it was a burgundy car that was back
7 there that a young lady was in.

8 MS. WHIRLEY: Do you know the young lady?

9 **A** Uh-huh, no. In a black truck, that is all
10 I remember.

11 MS. ALIZADEH: Where was the black truck,
12 behind the burgundy car?

13 **A** I think it was in front of that one, I
14 think.

15 MS. ALIZADEH: Do you know who was
16 directly behind s car, not who, but can you
17 tell me what car was behind s.

18 **A** I know it was a smaller car, smaller
19 vehicle. I don't know, it might have been a white
20 or a gray car. It was like a truck and a burgundy
21 car.

22 MS. ALIZADEH: And where were the truck
23 and burgundy car in relation to the car you were in?

24 MS. WHIRLEY: Show us on the map?

25 **A** Behind, basically, behind us.

1 MS. ALIZADEH: Behind you?

2 A Yeah. Like I said, it was like a smaller
3 car behind us, I don't really remember what color,
4 it my have been gray or white, but I know that car
5 was a black one and a burgundy one.

6 MS. ALIZADEH: Let me ask because I know
7 at some point, you and I have talked a little bit
8 about this, right, briefly?

9 A Uh-huh.

10 MS. ALIZADEH: You said that as Michael
11 Brown ran past, you turned in the car and watched
12 through the rear, back of the car.

13 A Yeah, the mirror, yeah, the glass.

14 MS. ALIZADEH: Through the windshield.

15 A The back glass.

16 MS. ALIZADEH: I don't know what you call
17 it, back windshield.

18 A Uh-huh.

19 MS. ALIZADEH: So you are looking out the
20 back window of the car, the back windshield?

21 A Uh-huh.

22 MS. ALIZADEH: And so when you first
23 turned to look out the back windshield, was there
24 already a car behind you?

25 A Um, I think it was like one, I think it

1 was like one at the time.

2 MS. ALIZADEH: You said that was a smaller
3 car?

4 **A** Yeah.

5 MS. ALIZADEH: Now, you also said that
6 there was a truck, like a black truck?

7 **A** That was the time that I got out, yeah.

8 MS. ALIZADEH: Black truck came after?

9 **A** Yeah, that was after, it was like still
10 clear out there.

11 MS. ALIZADEH: Okay. Somebody else had
12 hands up?

13 : . I was
14 trying to make sure I have this correct. You said
15 that, was it officer Darren Wilson you said that was
16 trotting down the street after Michael Brown and
17 appeared to be gasping for breath?

18 **A** Yeah.

19 With the gun down by his
20 side?

21 **A** Towards the ground, it wasn't like up or
22 nothing like that, it was huh, like that.

23 Okay. Then with Dorian,
24 did Dorian, you said he appeared out of nowhere or
25 something?

1 **A** Yeah, like, I guess, when Mike Brown and
2 the police was tussling.

3 : Uh-huh.

4 **A** As I'm like looking out the car.

5 : Uh-huh.

6 **A** And see, I guess, Mike Brown towards the
7 car, you know, his friend is like right on the side,
8 like on Mike Brown's right. So that's the other
9 side of the street he end up going to. I guess he
10 seen what's going right there because I can't see
11 behind, you know, the police tinted window.

12 : Okay.

13 **A** It is catty-corner. So he ran off
14 somewhere over here.

15 Okay.

16 **A** Like I say, by the time I heard that
17 second shot, ducking and looking, that's when I seen
18 him on the side of me like, like where you come
19 from. You was just going on the other side of the
20 street.

21 So I don't know if he ran right
22 across the street or went around or something, I
23 don't know.

24 : Okay.

25 **A** I end up seeing him after the second shot.

1 : So where you are
2 positioned sitting in your vehicle, I don't want to
3 assume this, is your vehicle straight, directly in
4 the lane, you're straight in the lane?

5 **A** Yeah.

6 : The officer is
7 catty-corner?

8 **A** Yeah.

9 Toward the front of your
10 vehicle?

11 **A** Uh-huh.

12 : When you say, when you are
13 looking at the officer's vehicle, are you looking at
14 basically the rear panel, like the trunk area?

15 **A** Uh-huh.

16 : Back glass and the right
17 side or the right rear quarter panel right side of
18 the vehicle?

19 **A** Yeah.

20 : So we are looking at this
21 corner. So you are trying to see through the glass
22 or whatever?

23 **A** Yeah, but it is just, you know, fully
24 black tint, so.

25 : Okay, all right. And so,

1 Dorian, if I'm understanding you correctly here, at
2 that point is Dorian, let me say state this
3 correctly, is Dorian and Michael, are they both on
4 the driver's side of the officer's vehicle at that
5 time that you see the feet underneath struggling.

6 **A** No, Dorian had been left.

7 : Dorian had gone?

8 **A** Had been left.

9 : Okay. Dorian was not
10 there. Then when Dorian shows up again, is he at
11 the passenger side of your vehicle?

12 **A** Yeah, like two doors, he is like, he is on
13 the side part, you know, ducking down too.

14 Okay. And you said
15 before, is her name ?

16 **A** .

17 Okay. So
18 was driving, you are in the passenger seat of the
19 Monte Carlo?

20 **A** Uh-huh.

21 Okay. He shows up and
22 says man, you know.

23 **A** That's at the end, you know, from me
24 seeing him shoot Mike Brown and, you know, like end
25 up talking, like messed up, whatnot. And first

1 thing he said, can I get in, can you take me down
2 here. I'm like, no, I don't know you.

3 : Uh-huh.

4 MS. WHIRLEY: No, you go ahead.

5 **A** I didn't.

6 : You did not know Dorian
7 then?

8 **A** No.

9 Okay. Just some random
10 guy that said, hey, man take me somewhere. I don't
11 know what's going on.

12 **A** Yeah, he was probably just scared like. I
13 said, he wasn't getting in no way.

14 MS. WHIRLEY: So to be clear, the point
15 where Dorian was at the car asking to get in, the
16 shooting had already occurred?

17 **A** Right.

18 MS. WHIRLEY: So before the shooting
19 occurred, was Dorian at, just kneeling by the car
20 without saying anything?

21 **A** He didn't say nothing, on the second shot,
22 he didn't say nothing.

23 MS. WHIRLEY: Was he in a position to see
24 what was going on?

25 **A** He was in a position to see everything.

1 MS. WHIRLEY: And coming back to your
2 question, when you first saw Dorian and Mike
3 together.

4 A Uh-huh.

5 MS. WHIRLEY: They were both walking down
6 the middle of street?

7 A Uh-huh, on the yellow line.

8 MS. WHIRLEY: On the yellow line. And the
9 officer, you were behind the officer and he backed
10 up real fast you said?

11 A Yeah.

12 MS. WHIRLEY: Almost hit Mike.

13 A About hit his foot almost.

14 MS. WHIRLEY: You could see that?

15 A Uh-huh, he jumped back from it.

16 MS. WHIRLEY: And was Mike pushing him,
17 preventing him from getting out of the car from your
18 view?

19 A I couldn't see all of that because the
20 truck was already catty-corner, that's why I was
21 saying how he ended up right by the police officer's
22 car.

23 MS. WHIRLEY: The officer almost hit him
24 he was so close when he came back.

25 A Yeah, he just, I don't know if he ran up

8 **A** Probably, well, I got to say exactly.

17 MS. WHIRLEY: Okay.

20 **A** Uh-huh.

23 **A** Uh-huh.

24 : That's when Dorian ran
25 away?

1 **A** No, he didn't, he didn't run then, like I
2 was saying. I was saying Mike Brown somehow ended
3 up by the police door.

4 : Michael Brown did?

5 **A** Yeah.

6 : At what point did Dorian
7 leave?

8 **A** Basically as this is happening, he is
9 gradually slow -- slow across and just end up
10 running, like it wasn't no full-fledge run, like
11 walking, like he run like this.

12 : So there was nothing
13 going on between the two men or the police officer,
14 it was always Michael Brown and Officer Wilson?

15 **A** Not yet, not yet. Like I say, whatever,
16 you know, probably Dorian saw you shut the door on
17 him, I don't know, I couldn't see that.

18 MS. WHIRLEY: We don't want you to guess,
19 right, just tell us what you can see.

20 : You can only see their
21 feet?

22 : I can only see Mike Brown's
23 feet.

24 : And the car moving?

25 **A** Yeah, back and forth, side to side.

1 : So it obviously was a
2 little bit of a hard --

3 **A** Right, right.

4 : Okay.

5 : . I had one
6 more question.

7 MS. ALIZADEH: Sheila interrupted you,
8 that was not right.

9 MS. WHIRLEY: No, I didn't.

10 At any time did Dorian
11 position himself, to your knowledge, that you could
12 see, at any time did he position himself at the
13 trunk of your vehicle and between this other vehicle
14 that was parked behind you or that was stopped
15 reportedly behind you?

16 **A** The trunk?

17 The rear part of your
18 vehicle, the trunk end of your vehicle?

19 **A** Uh-huh.

20 : Was Dorian ever positioned
21 there at any time?

22 **A** The back of the car we was in.

23 : Yes?

24 **A** No, he was on the side, right on the side.

25 : On the passenger side?

1 **A** Basically, like I said, the second shot,
2 he end up ducking, that's when I seen him too. He
3 basically ducking down like this looking, you know,
4 just looking.

5 : He's like on the passenger
6 side at the rear portion of your vehicle?

7 **A** Yeah, like by the tire.

8 : Okay. Never by the
9 trunk, okay, thank you.

10 : . How soon
11 would you say the struggle began?

12 **A** How long was it I think?

13 : When you said you saw the
14 police vehicle come back at him at a rapid speed and
15 stop.

16 **A** Uh-huh.

17 : How soon would you say the
18 confrontation started?

19 **A** Oh, man, three seconds. No, like from
20 Mike Brown being by the door, about three seconds,
21 might have been two.

22 : You never heard nothing?

23 **A** Not the whole time, music down and
24 everything. I didn't hear stop.

25 MS. WHIRLEY: Windows down?

1 **A** Windows down, everything.

2 : . So from
3 your perspective sitting in the car behind the
4 police vehicle, you know, you said you see feet
5 moving, Michael Brown was a tall man, could you see
6 his head over top of the Tahoe or was it --

7 **A** No, because the way the truck is, like I
8 say, it is all tinted windows, big glass windows and
9 you ain't going to see nothing.

10 MS. ALIZADEH: Like over the roof of the
11 car, could you see his head above the roof of the
12 car?

13 **A** No, no.

14 MS. ALIZADEH: So let me ask you this
15 because that was going to be my question.

16 **A** All I'm looking at is tint, that's all I'm
17 looking at.

18 MS. ALIZADEH: Okay. Imagine this, I
19 mean, we now know how tall Michael Brown was, okay?

20 **A** Uh-huh.

21 MS. ALIZADEH: And at some point, we're
22 going to learn how tall the roof of the Tahoe was,
23 okay?

24 **A** Uh-huh.

25 MS. ALIZADEH: If Mike Brown is taller

1 than the Tahoe's roof, if he is standing there and
2 standing upright.

3 **A** Right.

4 MS. ALIZADEH: Would you have been able to
5 see the top of his head or some part of his?

6 **A** No, because where I'm sitting is down
7 here.

8 MS. ALIZADEH: Is lower?

9 **A** Right. Even if he is tall, I wouldn't be
10 able to see him.

11 MS. WHIRLEY: Because you are in a Monte
12 Carlo, it sits low.

13 MS. ALIZADEH: So your position is further
14 lower?

15 **A** Right, yeah.

16 : Did you
17 happen to notice where Dorian went after the
18 shooting?

19 **A** No. As I told him to go on, we got by the
20 police car, that's when other police came in. Like
21 I say, when I got out, I didn't see him nowhere. I
22 didn't see him on the ground or nothing.

23 : Forward or backwards, you
24 don't know?

25 **A** No.

1 MS. ALIZADEH: You can sit down if you
2 want, , we don't mean to make you stand
3 up.

4 Did you happen to notice
5 to your right there's a parking lot, grassy area,
6 did you notice anybody else in that area right after
7 the shooting or during the shooting, would have been
8 on your right side?

9 A Like my right side over here. There was
10 like, I just seen somebody in a pink shirt. I don't
11 know from what balcony or exact or whatnot, but
12 somewhere over there, you know, glimpsing, going and
13 looking to the right or whatnot. It wasn't a full
14 fledge of people until when I left.

15 Up on the ground or
16 parking lot or getting out of the car or right
17 there?

18 A Uh-huh.

19 You didn't see anybody?

20 A No, just people in the apartment like
21 straight ahead over here.

22 : Okay.

23 A My eyes was, you know just looking.
24 That's the first thing, you know, when I got out and
25 turned, I just seen pink a shirt.

1 : You saw somebody on the
2 balcony.

3 : . So you are
4 saying you drove through that little field to get
5 away?

6 **A** Just drove right here on the grass part,
7 where the grass is, went around the police car.

8 And you didn't see
9 anybody standing in that area watching?

10 **A** Huh-uh, no.

11 MS. WHIRLEY: Were you looking for people?

12 **A** Huh-uh, no.

13 : Somebody could have been
14 there, but you just didn't recognize seeing it?

15 **A** Yeah, right.

16 : You were wanting to go?

17 **A** Yeah, exactly, yeah.

18 When this
19 scuffle was going on, you said you could see Michael
20 Brown's feet kind of moving and shuffling. Did you
21 ever, did it ever appear to you that he stepped back
22 and then went to the car and then stepped back again
23 and went to the car?

24 **A** Like, I mean, I guess you can kind of say,
25 what you mean like letting go and coming back?

1 : No.

2 **A** Yeah, like dancing movements. It wasn't
3 like standing still hitting or punching, it was like
4 a dancing, like they was probably just grabbing each
5 other or something, and just moving around, just
6 back and forth.

7 : Did you hear the shot at
8 the car or did you --

9 **A** The first shot?

10 : The first shot.

11 **A** Uh-huh. That's when I told her to
12 back-back, open the doors and basically take cover
13 if we hear another one.

14 : At that point did he turn
15 and run?

16 **A** Who?

17 : Mike Brown, sorry, Mike
18 Brown.

19 **A** From the first shot?

20 : Yeah.

21 **A** Like when we back, we back-back, as soon
22 as we stopped, that's when he start coming on
23 s side.

24 : You didn't hear a shot and
25 then he went back to the car and scuffled with the

1 officer?

2 **A** No, they was basically still right there.
3 They was still right there after the first shot.
4 And by the time got to we back-back slow, slow,
5 wasn't no fast move back, this was slow. So by the
6 time, I guess, probably the time we back-back, it
7 was probably like what, five or six seconds, that's
8 when end up seeing him running past her door.

9 : . To clarify,
10 five or six seconds past after the shot before you
11 saw Michael Brown leaving or running, so he might
12 have stayed at the window for a few seconds after
13 the shot?

14 **A** Yeah, uh-huh.

15 . Did you ever see
16 a passenger vehicle, like a Windstar minivan in
17 front of the police vehicle pull up literally nose
18 to nose? Did you see another passenger vehicle? I
19 know you are blocked by the police vehicle, might be
20 difficult to see the other side, did you notice
21 another passenger vehicle approach from the West
22 Florissant side and pull up in front of that police
23 vehicle?

24 **A** No, I didn't notice it, no.

25 MS. ALIZADEH: , when you

Page 190

1 were leaving and you went around the police car.

2 **A** Uh-huh.

3 MS. ALIZADEH: Were there cars on the
4 other side of the police car?

5 **A** Coming in?

6 MS. ALIZADEH: Yeah.

7 **A** No.

8 MS. ALIZADEH: You didn't see any cars?

9 **A** No cars coming in the whole time that I
10 seen.

11 MS. ALIZADEH: Did you drive straight out
12 Canfield to West Florissant?

13 **A** Yeah.

14 MS. ALIZADEH: Did you see anybody
15 standing in the street or in the yards of those
16 houses?

17 **A** No, not as I remember.

18 MS. ALIZADEH: Not that you remember?

19 **A** Huh-uh.

20 MS. ALIZADEH: And I have some other
21 questions, but not kind of at the scene. So let's
22 stick with questions about what happened at the
23 scene if you have any.

24 MS. WHIRLEY: Anything else at the scene?

25 MS. ALIZADEH: Okay. So I

1 just, I know you said is driving and after
2 you left the scene, where did you guys go?

3 **A** We went up, I told her to take me home,
4 but went up on the side, what's that street, what's
5 that Ferguson, on the side of Ferguson Market, is
6 that Ferguson or something like that?

7 MS. ALIZADEH: So you went out to West
8 Florissant, then you make a left?

9 **A** Made a left and quick right by that store.

10 MS. ALIZADEH: Okay.

11 **A** And went on out to Pagedale.

12 MS. ALIZADEH: You don't live in Ferguson;
13 is that right?

14 **A** No.

15 **Q** (By Ms. Alizadeh) Are you familiar with
16 Ferguson, the area?

17 **A** Uh, that street, from going through that
18 street, that was about my second time going through
19 that street, well, third time from the incident.

20 **Q** Do you know, does live in
21 Northwinds Apartments?

22 **A** Yes, I just thought about it, Northwinds,
23 that's the name of it.

24 **Q** That's the name?

25 **A** Yeah.

1 **Q** So you had take you home?

2 **A** Uh-huh.

3 **Q** And when you went home, who is the first
4 person you told about what you saw?

5 **A** When I went home?

6 **Q** Well, you went home after, you had her
7 take you home, right?

8 **A** Yeah.

9 **Q** Did you go home or did you just get out
10 and leave your house?

11 **A** No, I went to my house.

12 **Q** Right. So when you, after she drops you
13 off, does she stay or does she leave?

14 **A** She left.

15 **Q** Okay. So now that is gone, who is
16 the first person you told about what you saw?

17 **A** My sister.

18 **Q** Your sister?

19 **A** Uh-huh.

20 **Q** Okay. Now, at some point you knew that
21 there were, there was a big disturbance that
22 happened within a few hours of the shooting?

23 **A** Right.

24 **Q** Did you ever go back down to Canfield and
25 watch what was going on or be a part of that?

1 **A** No, huh-uh.

2 **Q** No?

3 **A** No.

4 **Q** What about, and then we know that in days
5 after that there was looting and rioting and
6 protesting, I mean, protestors are one group and the
7 looter and rioters are definitely a different group?

8 **A** Right.

9 **Q** Did you ever go up there and protest or be
10 involved?

11 **A** A week afterwards, but it was in the
12 daytime.

13 **Q** In the daytime?

14 **A** Daytime, when it was hot.

15 **Q** So I guess what I'm getting at is, you
16 actually spoke to the police for the first time on
17 August 22nd?

18 **A** Uh-huh.

19 **Q** So what was, what was going on between
20 August 9th and August 22nd, like as far as, you knew
21 that there were people saying hands up, people
22 saying no hands up, and you'd seen it?

23 **A** Uh-huh.

24 **Q** What was going on in your mind about why
25 wouldn't you come forward and tell the police what

1 you saw?

2 **A** Just, I don't know, just the thought, I
3 guess, just being there really. I didn't want to
4 get into it, you know.

5 **Q** Didn't want to be involved?

6 **A** Yeah, just be involved, you know. Just
7 seeing what was going on on TV every day, and this
8 and this, you know, you never know how people react
9 to certain things. Did you know this or you know,
10 you might know much more. So they might could be,
11 you know, after you or not. People are crazy out
12 here, so they might come for you first if you say
13 something.

14 **Q** Sure. But at some point you got together
15 with the police, so how is it that the police knew
16 to contact you?

17 **A** Um, well, a friend of mine, his name is
18 , his daddy, he knows --

19 **Q** You know what, it is hard to hear you when
20 your hands are in front.

21 **A** A friend of mine , his daddy knows
22 Mike Brown's people and they wanted to talk to me, I
23 guess, probably to hear about it. I don't remember
24 the man's name though.

25 **Q** Did your friend know that you had

1 been there and seen it?

2 **A** Yeah, afterwards.

3 **Q** Okay. So at this point you had told your
4 friend that you had seen it?

5 **A** Yeah.

6 **Q** And was friends with Mike Brown's
7 family or people?

8 **A** Yeah, so his daddy, I guess friend,
9 whoever he knew, got in contact with some guy and he
10 knew some guy from the NAACP.

11 **Q** Okay.

12 **A** I guess they gave him my number and then
13 they contacted me and like I said, it took me a
14 couple days from then to even go talk to them.

15 **Q** Okay. So other than your sister, and we
16 know you talked to the police on the 22nd, did you
17 ever give a detailed statement to anyone else about
18 what happened?

19 **A** No.

20 **Q** So no one else, whether it was someone
21 from Mike Brown's family, did you ever meet with
22 people from Mike Brown's family and tell them what
23 you saw?

24 **A** No.

25 **Q** What about anybody from the NAACP --

1 **A** Just and the rest of the
2 people that was with him from St. Louis County.

3 **Q** Okay. They met you at the NAACP to take
4 your statement, correct?

5 **A** Right.

6 **Q** How is it that you got to be at the NAACP?

7 **A** Uh, I said my friend daddy knew
8 somebody, who knew somebody, and they contacted me.

9 **Q** Your friend dad arranged for that
10 to be a meeting place for you?

11 **A** I guess he just wanted me to talk to them
12 because I told them I didn't want to get into it, so
13 I didn't tell them either.

14 **Q** And that was, you said he wanted me to
15 talk to them, you mean your friend or your
16 friend dad, who wanted you to talk to them?

17 **A** Yeah, I was telling that I was there and
18 told his daddy, his daddy came around, this and this
19 and that, you know, I still didn't say nothing to
20 them. And he end up giving my number to somebody
21 and they end up calling me.

22 **Q** Okay.

23 **A** The guy from, the from the
24 NAACP.

25 **Q** The ?

1 **A** Uh-huh.

2 **Q** And did you ever meet with the attorney
3 that represents Mike Brown's family?

4 **A** No.

5 **Q** Okay. You mentioned in your statement
6 that you had talked to a person named Attorney ?

7 **A** Attorney ?

8 **Q** Yeah.

9 **A** That was somebody that daddy.

10 **Q** Was that

11 **A** I just called him

12 **Q** Okay.

13 **A** Yeah.

14 **Q** All right. You didn't give him a detailed
15 statement of what happened, the attorney did you, I
16 mean, was he your attorney or someone else's
17 attorney that you met with?

18 **A** I guess that was somebody else's attorney.

19 **Q** Okay.

20 **A** That was representing them at the time,
21 which I end up giving them a statement because
22 that's where I was going to the NAACP so.

23 **Q** So did you give them a statement before
24 you talked to the police or after you talked to the
25 police?

1 **A** Before.

2 **Q** Okay. Did you feel that anybody, whether
3 it be your friends or people from Mike Brown's
4 family or the NAACP or anyone else, do you feel that
5 they were wanting you to say something other than
6 what the truth was or what you saw?

7 **A** No. You mean, mix up a story or
8 something?

9 **Q** Well, I wanted to know if you felt
10 pressured in some way to come forward and say
11 something?

12 **A** No, I just felt like, I didn't want to
13 just not say nothing.

14 **Q** Okay.

15 **A** So that's why, you know, talk to the NAACP
16 because I know that. I don't know, I just felt, it
17 didn't feel right no more so, and I know people are
18 looking for statements out here. So I just kind of
19 felt, you know, after the stuff started calming down
20 is when I calmed down and kind of realized to say
21 something.

22 **Q** So just, so I can also be clear, you said
23 that from the time Mike Brown turned around.

24 **A** Uh-huh.

25 **Q** That was pretty much at the spot where his

1 body fell on the ground?

2 **A** Uh-huh.

3 **Q** So he didn't go towards the officer after
4 he turned around?

5 **A** No.

6 **Q** Okay. And have you been out to Canfield
7 since this happened?

8 **A** Um, like I say in the day. I went to
9 like, I don't remember the dates, I know it was two
10 times I basically just stood by McDonald's the time
11 they kept closing right there. And say what, three
12 or four days from then, I went to go to the visual,
13 went to the visual, stood there for a minute and
14 left.

15 **Q** What do you mean by looking for the
16 visual?

17 **A** No, looking at the visual, you know, the
18 stuff that was in the street.

19 **Q** Oh, okay. The memorial?

20 **A** The memorial, that's what I meant to say.

21 **Q** The memorial they were putting in the
22 street in memory of Mike?

23 **A** Uh-huh.

24 **Q** Did you ever after dropped you off,
25 have you ever had a conversation with her about what

1 the two of you witnessed?

2 **A** Yeah, basically every day from when we see
3 it on TV.

4 **Q** Okay.

5 **A** I mean, you know, not trying to put things
6 together, but seeing things on the TV that is just
7 crazy stuff going on just back and forth, and back
8 and forth.

9 **Q** I'm not trying to suggest you were trying
10 to get your stories together, the reason I ask is
11 hasn't been returning calls. Do you talk to
12 her about that we would like her, you ever talk
13 about coming in and talking about this?

14 **A** Yeah, but you know, she works every day,
15 deal with kids every day.

16 **Q** Do you think if we could have her come in
17 at a time that it didn't interrupt her work, do you
18 think she would come in or is she just not wanting
19 to be involved, she doesn't return calls?

20 **A** I guess, I don't know how she really feels
21 about it now. I haven't just straight up and down
22 asked her.

23 **Q** Okay. Do you know anybody else who claims
24 to have seen this that hasn't come forward to the
25 police or anyone?

1 **A** Huh-uh, I don't know nobody in the
2 Canfield area.

3 **Q** Okay.

4 **A** I don't know nobody from up there.

5 MS. ALIZADEH: Anybody else have any
6 questions.

7 : . You
8 said earlier that you really didn't want to get
9 involved because you felt, I know what you mean,
10 there are crazy people out there.

11 **A** Uh-huh.

12 : Were you afraid of the
13 people, other witnesses or afraid of the police or
14 both, or whatever was your main concern holding you
15 from coming forward?

16 **A** No, this stuff is, just the stuff that was
17 going on every day how your mind back and forth.
18 Hopefully.

19 But you were concerned
20 because your story may have been different than
21 somebody else's and you were afraid that they may
22 have been judgmental towards you?

23 **A** Right, judgments, yeah, yeah.

24 MS. WHIRLEY: Is there another hand?

25 : You said that

1 you don't live in the Canfield Apartments; is that
2 correct.

3 **A** No.

4 Do you live in Northwinds.

5 **A** No, I live in

6 : You don't live in the
7 particular area. How long has , do you know
8 how long she's stayed there?

9 **A** Um, I can't really say a number. I guess,
10 I think she said two years.

11 : Two years?

12 **A** Something like that.

13 : If I heard, I'm not sure
14 if I heard you correctly, I think your voice is kind
15 of low, she has children as well.

16 **A** Yes.

17 : Is that correct? In
18 speaking with her, I guess you two have a pretty
19 close friendship.

20 **A** Uh-huh, yes.

21 How long have you known
22 her?

23 **A** Um, since approximately about a year.

24 About a year?

25 **A** About a year.

1 : Okay.

2 **A** Some months.

3 : In speaking with her, is
4 it that she might be concerned about the safety, her
5 safety and the safety of her children is why maybe
6 she's not coming forward at this point?

7 **A** It might be because it is just, thing with
8 her too, she is just trying to get away from there
9 because there is just too much going on.

10 : Too much going on?

11 **A** Yeah. I mean, we talked about it, you
12 know, she said before she wanted to, but I don't
13 know how she really feels about it now.

14 : I'm sorry, is there a lot
15 of conversation in the air, that okay you know, if
16 you say something, something might happen to you or
17 to your car or whatever, okay, is that the kind of
18 feeling that's going on around there in Ferguson at
19 the time or what?

20 **A** I don't know.

21 : You don't know?

22 **A** I don't live over there.

23 Okay. You don't frequent
24 the area too much any more?

25 **A** No, at all.

1 Not at all, okay. I can
2 understand that.

3 MS. ALIZADEH: And has never said
4 anything about being threatened, has she?

5 **A** No.

6 MS. WHIRLEY: When is the last time you
7 talked to her?

8 **A** Yesterday when she got off of work.

9 MS. WHIRLEY: Okay. So you talk to her
10 still frequently?

11 **A** Uh-huh.

12 MS. WHIRLEY: You will let her know we are
13 trying to reach her?

14 **A** Yeah, yeah.

15 MS. WHIRLEY: And what happened, I mean,
16 not what happened, just that we want to talk to her?

17 **A** Right.

18 MS. WHIRLEY: Is there anything that you
19 want to add or tell us, a question that we didn't
20 think to ask or something you feel is important for
21 this grand jury to know?

22 **A** No, basically told everything, that's what
23 happened.

24 MS. WHIRLEY: Okay. We have another
25 question?

1 : Sorry, one more. Again,
2 you said you were sitting in the car, you heard the
3 first gunshot, and can you explain again the second
4 shot you heard fired was when, what was happening
5 when that second shot was fired?

6 **A** Oh, okay. When the first shot happened, I
7 told to roll back, open the doors, you know,
8 kind of take for cover, you know, for a thought. So
9 we basically stopped, so Mike Brown came on her
10 side, you know, scooting off or whatnot. I heard a
11 second shot from then. I didn't see the officer or
12 none of that.

13 I don't know if he was in the car or
14 he might have open his door slightly and shot, I
15 don't know because the car is catty-corner. I
16 couldn't see through the tint. I didn't basically
17 see the scuffle or nothing, I just saw his feet.

18 MS. ALIZADEH: You opened your door, did
19 open her door?

20 **A** Uh-huh, I told her to.

21 MS. ALIZADEH: And did you get out of the
22 car?

23 **A** No.

24 MS. ALIZADEH: So you both just stayed in
25 the car, but opened the doors.

1 **A** Right, uh-huh.

2 : Go back
3 to the second shot. Did it appear to you that
4 Michael Brown was running when he heard the second
5 shot?

6 **A** He was basically, he was basically past
7 door. I don't know if he might have been
8 back by the wheel or just passing her back end, but
9 I just wasn't looking at all directly.

10 I was basically looking like walking
11 past, heard a second shot, it is kind of ducking.
12 We didn't know where it went or where it was coming
13 or whatnot, yeah.

14 MS. WHIRLEY: He was traveling away from
15 the officer when you heard the second shot?

16 **A** Yeah, yeah.

17 . How far apart
18 were your car and the police officer's car?

19 **A** Um --

20 MS. ALIZADEH: There is two different
21 distances because they back up.

22 : Good point. Initially
23 before, you back up, how far apart are your two
24 cars?

25 **A** Um, basically feel like, it wasn't bumper

1 to bumper, but say might have been 3 or 4 feet,
2 enough to see up under a SUV, you know.

3 And then when you guys
4 backed up, be able to back up, how far back did you
5 back up?

6 **A** Yeah, probably like 8 feet by then, 7
7 feet.

8 : Okay.

9 MS. ALIZADEH: Now, you brought up another
10 point that I want to ask about. You said you can
11 see underneath the car, and I know it is an SUV and
12 sits up higher, but don't you think, if you were 3
13 or 5 feet.

14 **A** See, I'm the passenger, the car is
15 catty-corner, I can see straight up under there,
16 right up under there. She couldn't see it from her
17 side, she couldn't see like there, right at the feet
18 like I could. I could see, you know, just from
19 looking right up under the SUV.

20 MS. ALIZADEH: You were looking through
21 the windshield, front windshield when you could see
22 underneath the car.

23 **A** You couldn't see through the back
24 windshield, it was tinted.

25 MS. ALIZADEH: No, no, 's car, you

3 I just
4 want to make sure I understand what both of those
5 people are trying to get to. When you were looking
6 through the windshield and under the car, you are
7 maybe a foot from the police cruiser?

9 : It wasn't until you
10 backed up that you were about 5 feet from them?

12 Then you have a better
13 view of things but then by that time you were
14 trying --

18 : You can still see, the
19 reason you can only see under the truck was because
20 you are --

23 MS. WHIRLEY: Anyone else? Okay. I guess
24 that concludes the question and answer period with
25 .

1 **A** Yes.

2 (End of the testimony of .)

3 MS. WHIRLEY: We're back on the record at
4 2:20 p.m. on September 25th, 2014. Having heard
5 's testimony. All 12 grand jurors
6 are present, Kathi Alizadeh and Sheila Whirley and
7 the court reporter.

8 Now we are going to hear 's
9 recorded statement with a police officer and also I
10 believe someone from the federal investigation was
11 there also. You will hear the different voices.
12 This interview was conducted on August 22nd, but I
13 will go ahead and play it with that little bit of
14 introduction.

15 MS. ALIZADEH: We're going to pause the
16 recording. Are you ready to play?

17 MS. WHIRLEY: Yeah, let me bring it up.
18 There we go, that one is up.

19 MS. ALIZADEH: Enlarge that for a second.

20 MS. WHIRLEY: Are we ready?

21 MS. ALIZADEH: Pause the recording.

22 (Recording is paused.)

23 (This is the interview of

24)

25 MS. WHIRLEY: The interview concluded at

1 approximately 3:03 p.m.

2 MS. ALIZADEH: I just wanted to add that
3 during the playing of the interview, I had marked a
4 map as Grand Jury Exhibit Number 28. And originally
5 I put it up on the screen, but we couldn't do that
6 while it was playing so that kind of went around and
7 I wanted just to make a record that the map that
8 drew on or was used during his
9 interview is Grand Jury Exhibit Number 28.

10 Did you all have a good chance to look at
11 it?

12 MS. WHIRLEY: I do want to say when I said
13 that the interview 3:03 p.m., I mean that we stopped
14 watching it today on September 25th, 2014 at
15 3:03 p.m., or 3:02, whatever time I said. That's
16 all I have.

17 MS. ALIZADEH: So that's all the witnesses
18 and evidence that we have lined up for today. We
19 were planning on quitting at 3:15, you have 15
20 minutes more in your day now.

21 (End of the testimony for September 25,
22 2014.

authorized to administer oaths and to certify to

9

depositions, do hereby certify that pursuant to

10

Notice in the civil cause now pending and

11

undetermined in the County of St. Louis, State of

12

Missouri.

13

The said witness, being of sound mind and being

14

by the grand jury first carefully examined and duly

15

cautioned and sworn to testify to the truth, the

16

whole truth, and nothing but the truth in the case

17

aforesaid, thereupon testified as is shown in the

18

foregoing transcript, said testimony being by me

19

reported in shorthand and caused to be transcribed

20

into typewriting, and that the foregoing page

21

correctly sets forth the testimony of the

22

aforementioned witness, together with the questions

23

propounded by counsel and grand jurors thereto, and

24

is in all respects a full, true, correct and

25

complete transcript of the questions propounded to

1 and the answers given by said witness.

2 I further certify that the foregoing pages
3 contain a true and accurate reproduction of the
4 proceedings.

5 I further certify that I am not of counsel or
6 attorney for either of the parties to said suit, not
7 related to nor interested in any of the parties or
8 their attorneys.

1 GRAND JURY VOLUME VIII

2 MS. ALIZADEH: Good morning.

3 (Everyone says good morning.)

4 MS. ALIZADEH: It is Tuesday,
5 September 30th at 8:32 a.m. Present is myself,
6 Kathi Alizadeh, and Sheila Whirley of St. Louis
7 County Prosecutor's Office. All 12 grand jurors are
8 present as well as the court reporter, who is audio
9 recording and taking down everything that is being
10 said this morning.

11 I want to give a little pep talk to you as
12 it were. I can only imagine the disruption that
13 this causes in all of your lives and schedules, and
14 I hope you know how appreciative that we are that we
15 have the 12 of you who have agreed, even though
16 maybe your arms were twisted a little bit, but
17 agreed to, you know, devote the time and effort that
18 this matter takes.

19 Don't think I'm understating it or
20 overstating it to say how important this is. And I
21 know you all, you know, since you're not a jury,
22 there is no admonition that you not watch the news
23 and anything like that, and I know that you can't
24 really avoid seeing things about this in the news
25 and, you know, not only here locally, but as well

1 throughout the country. This is a very public
2 matter and it is very important that we get this
3 right.

4 And, as you know, Mr. McCulloch made a
5 statement in the very beginning we were going to be
6 as thorough as possible. And that means anybody who
7 says that they saw part of this or knows something
8 about it, is going to be able to be heard.

9 Even people that are reluctant to come in,
10 we're going to do whatever we can to get them here
11 because it is important that you have all the facts
12 and information.

13 And I know sometimes it seems like it is
14 very tedious because some of these eyewitnesses have
15 made multiple statements and again, Mr. McCulloch
16 has promised that there wasn't going to be anything
17 that you didn't have the opportunity or weren't able
18 to see or hear, and that means playing all of these
19 statements for you.

20 And we do that because, obviously, there
21 is times when if a witness makes multiple
22 statements, sometimes over time their statements
23 changes, sometimes dramatically, sometimes only
24 slightly and insignificantly, but I think that those
25 are things that you all have a right to consider

1 when the witness testifies, if they've made previous
2 statements that are different than what maybe they
3 are telling you in the grand jury.

4 That happens in every case, every time a
5 witness makes a prior statement, that statement can
6 be brought up, as you know well, you said this
7 previously, how come you are changing your story.

8 And, you know, neither Sheila and I are
9 prepping these witnesses in the way we would if we
10 were having a trial. We try cases, we have our
11 witnesses come in and we talk to them about what is
12 going to happen, we go over what their testimony is
13 going to be, not in the sense like rehearsing, we
14 want to know what they're going to say before they
15 get up there and testify.

16 And that's just good lawyering. No one
17 would ever expect me to put on a witness in a trial
18 when I didn't know what they were going to say.

19 But in this case, you know, we don't want
20 to have to, we don't want to in any way influence
21 what these people are going to come forward and say
22 to you. And so we don't do any prepping with any of
23 these witnesses, other than to explain to them what
24 is going to happen when they come in here, the
25 process. So I don't know what they're going to say

1 when they get here.

2 I mean, I have an idea because they've
3 made prior statements, I assume they are going to
4 say something like they said before, but the reality
5 is, I don't know, and that's why it is important
6 that we play for you those prior statements so that
7 you know what they have said previously and can
8 compare that to what they say today when they
9 testify.

10 A lot of times, I know it is tedious and
11 it seems redundant, why are we hearing this person
12 say the same thing now three times.

13 If the person makes the same statement
14 three times, you may consider that when you are
15 deliberating about how that, what that means for
16 that person's credibility, their ability to have
17 observed what they say they saw and recall what they
18 say they saw. Those were all things that I think
19 are important because there are a lot of people that
20 see bits and pieces of what happened that day, and I
21 think you can even see right now how, you know,
22 depending on where you were standing, it affects
23 what maybe you say you saw, and that's human nature
24 too.

25 So, again, Sheila and I are not worried,

1 but very, we're concerned about the speed that this
2 is coming in. We're going to do our best to try to
3 kick it up if we can.

4 A lot of these eyewitnesses you are going
5 to hear from who have made multiple statements, we
6 expect that hopefully that's going to be less and
7 less and eventually, you know, we'll get through the
8 eyewitnesses, and then you are going to hear from
9 ballistics people, and lab people, and DNA people,
10 and, of course, those witnesses don't have prior
11 recorded statements that we'll have to present to
12 you. They may have reports that you will get copies
13 of, but at any rate, I know that this is tedious. I
14 know you want your lives back, your lives back the
15 way they were.

16 All I can tell you is that this will be
17 over at some point, this is not indefinite, and
18 we're doing everything we can to try to get through
19 this as quickly as possible.

20 We were hearing the other day that there
21 is rumors that you all are going to be done this
22 week. I'm here to tell you, no, that's not
23 happening.

24 Originally, we had made estimates we would
25 get done about the end of October, early November.

1 We may go into mid November.

2 As I said in the beginning, if this takes
3 until January for you all to have what you need to
4 make this decision, then that's what we're going to
5 have to do.

6 We'll do it as quickly as we can without
7 rushing through it and skipping through things that
8 need to be done.

9 So that being said, I truly, truly
10 apologize for the disruption in your lives. You all
11 really seem to be a great group of people, I'm so
12 glad you all get along as you do, it would be awful
13 if we had people that, you know, had conflicts and
14 bickering going on. You all seem to be, as best as
15 you can, hanging in there with us.

16 So, again, Sheila and I thank you for your
17 patience. So that being said, yes.

18 : I have a
19 question. I try not to watch the news, I try not to
20 read anything about this because I like to have an
21 open mind so I have all the facts that is presented
22 here.

23 My concern is that, um, my concern is that
24 everybody is saying hurry up, hurry up, hurry up,
25 from what I'm hearing. Hurry up, make a decision,

1 hurry up and get this done, hurry up and get that
2 done.

3 And I know that this information has been
4 disseminated. I know Mr. McCulloch before has said
5 there is a process and this is the process that we
6 have to follow.

7 Is the NAACP, or these other, you know,
8 coalitions, are they confirming what he is saying to
9 the people of Ferguson? I mean, I don't know if you
10 can comment on that, but.

11 MS. ALIZADEH: Well, all I can tell you --
12 : I think everybody needs to
13 ratchet it down a little bit and let us do what we
14 can do. I have faith and trust in everybody in
15 here, you know, to make the decision that's
16 appropriate. I'm not saying it is the right
17 decision, I'm not saying it is the wrong decision,
18 but make the decision that's appropriate based on
19 the facts. But is that being disseminated by these
20 groups or whatever to the people there?

21 MS. ALIZADEH: Well, there has been, as I
22 said, there have been rumors, I think there was
23 someone who had tweeted yesterday, a person of
24 public, a public person that, you know, I hear
25 unverified rumor the grand jury is going to have

1 their decision by Friday. I don't know where they
2 get this stuff. I don't know where that comes from,
3 but I know that last week and yesterday
4 Mr. McCulloch did give interviews to the media.

5 Last week he gave interviews to several
6 media outlets describing the process. The fact how
7 a grand jury is selected, you know.

8 My office has nothing to do with how you
9 all are selected. The fact that you were selected
10 way before this even, you know, happened, you know.
11 And then the process of how, you know, when you have
12 regular lives, this is not like a jury in a trial
13 where Monday through Friday from 8:00 to 5:00 you
14 are going to be here until it is done. That's not
15 how it works. In a trial that's how it work, I
16 mean.

17 We have jurors that we have to tell them
18 in advance this is going to be a two-week trial,
19 this is going to be a three-week trial. But he has
20 made those statements and, you know, I can't, I
21 can't help what goes around in the rumor mill. I
22 don't think we have much control over that.

23 But I will express to him those thoughts
24 that if any wisdom in trying to bring together some
25 of the people in the various communities who can

1 disseminate that message that, you know, be patient.

2 I mean, there is that catch phrase people
3 always talk about, rush to judgment. That was a
4 phrase made popular years ago. People keep saying
5 hurry up, hurry up. We're not going to rush to
6 judgment here.

7 If we wanted to, we could present this
8 case as we do any other case. We could have a
9 detective come in here and tell you what he thinks,
10 you know, the evidence is, and then you all would be
11 making your own decision based on that, but that's
12 not how we've chosen to do this because of the
13 importance of letting all sides be heard in this
14 matter.

15 So I will talk to Mr. McCulloch about the
16 strategy behind that, that it might be, because we
17 all want everybody to just calm down. It will
18 happen, there will be an answer, but you have to be
19 patient, you have to let the grand jury do their
20 job, you have to let us do our job.

21 And, you know, the problem is too, we
22 can't tell people how often you're meeting, what
23 days you're meeting, how many witnesses are
24 testifying, because we're prohibited from talking
25 about that.

Page 14

1 And so when people ask questions how often
2 are they meeting or how many hours a week or how
3 many witnesses are they hearing from, we can't
4 answer those questions.

5 I think just the fact that the questions
6 are asked and we can't answer it, I wonder if that
7 might create even more like, well, why aren't you
8 telling us this.

9 So I will talk to him and maybe we'll kick
10 that around and we meet daily, except for these
11 days. We usually don't meet on these days, but we
12 meet pretty much every day and talk about what's
13 going on and how we are progressing.

And so yes,
I'm going to
piggyback on her question. I've heard a lot of
people talking about, this is people who should
know, talking about why don't they just arrest him,
and then figure out what's going on, why don't they
just take action, do they not understand the
process? Is that the problem, or is there a way to
bypass this because it seems to me that we're doing
what needs to be done and we're doing what's right
and people are not seeing that.

25 MS. ALIZADEH: Well, you know, the one

1 thing I will tell you is that, you know, my friends
2 and neighbors know what I do and they know I'm doing
3 this. And trust me, they are asking me questions
4 all the time.

5 : I hear you.

6 MS. ALIZADEH: All I can say is I don't
7 want to talk about it, I don't want to talk about
8 it. I'm just crazy busy, doing what we can, I'm not
9 going to talk about it. I don't want to talk about
10 it. It is like I go home, I still bring work home,
11 I don't want to be talking about it and I shouldn't
12 and I don't. But I do tell them, we're working, you
13 know, we're working hard and so it is just going to
14 take a while before this process is completed.

15 And, you know, as far as like you saying
16 watching the news and everything, I don't watch the
17 news. I truly don't. I watch the news in the
18 morning so I can see what the weather is, if there
19 is like a traffic accident on the highway on my way
20 in so I need to go a different route.

21 I don't want to see what's going on, even
22 though I know it's there and I hear about it,
23 because, number one, I just need to have a little,
24 you know, of my personal life that isn't affected by
25 this, but also I just don't want any of that to

1 affect what I'm doing.

2 I can't worry about what's going on out
3 there because I can't control it. And as Sheila
4 knows and will tell you, I'm a control freak, and I
5 think you all know that.

6 When I can't control something, I don't
7 want to have, I just have to put that over there.
8 Yeah, I can't listen to too much of this on the news
9 and I can't be concerned, like I said, we were
10 talking yesterday with these rumors, who came up
11 with that, how is that getting out.

12 But it is like, you know, it is like being
13 in high school. These rumors get started, I have no
14 idea who started them, and then it is like the game
15 of telephone because next thing you know the rumor
16 morphed into something different and we can't worry
17 about that, we can't worry about that.

18 Just know that we're working behind the
19 scenes every day, hard to get this put together for
20 you guys. We also, I will remind you and press upon
21 you if there is anything that you think that you
22 need that you don't have, and I know that you have
23 made the comment, , previously, about
24 wanting to hear from the private medical examiner
25 that the family Michael Brown had hired. We're

1 looking into that.

2 You all have asked questions along the
3 way, and trust me, we are not ignoring those
4 questions, we are doing what we can to see. You
5 think there is something we need to know about or
6 hear that we haven't given you, then we're not doing
7 our job and we want to make sure we give you
8 whatever you think you need.

9 MS. WHIRLEY: Did you have a comment?
10 : . Last
11 night on the news, I know you just said you don't
12 watch the news, it was stated that Officer Wilson
13 had a case pending, a previous case pending. My
14 question is, how much does that affect what we're
15 going through?

16 MS. ALIZADEH: It shouldn't affect what
17 you have. I was aware of that. Simply because I
18 saw some cameras out yesterday, and I saw an
19 attorney that was commenting about it and I heard
20 about what it was.

21 But, you know, up until August 9th, he was
22 an on duty police officer who made traffic stops and
23 arrests and did other things other police officers
24 do and so I would imagine, I've not looked, but I
25 would imagine he has pending cases in our office.

1 How those are handled and what comes of
2 those cases shouldn't be your concern. I will tell
3 you that I do not believe, and I will look into
4 this, but I do not believe that he will, I mean, I
5 know he won't be testifying in front of this grand
6 jury any more because you're only hearing this
7 matter.

8 I don't know that, I can't say for sure he
9 wouldn't be called to court or called to testify on
10 anything else, but I think it is unlikely, but I
11 don't know. I don't know that necessarily will have
12 any impact on what you all are doing.

13 That's the best I can say about that.

14 On for today we have a witness here, his
15 name is . He's going to tell you what
16 he knows about this matter and , of
17 course, has made previous statements so we're going
18 to start out by listening to those statements.
19 First statement was done on August 12th, and it was
20 done by the County Police.

21 And, remember, as I said a lot of times
22 when the police do a statement, then the FBI has to
23 come along and do their own statement, so after we
24 hear the statement by the County Police, we will
25 hear a statement that was done by the FBI.

Page 19

1 You all remember that last time I played
2 that video that purportedly has comments
3 made by , and
4 then I was trying to play the audio back, and I
5 thought then I might not have the right clip. So I
6 straightened that out, so we may play that also
7 later today if we have a gap in things.

8 We don't want you sitting here with
9 nothing to do. We're going to keep you busy as long
10 as you're willing to work.

11 you can turn off the recorder. The
12 recording will be paused while we are playing the
13 interview of that was done on
14 August 9th by St. Louis County police detectives and
15 that recording is contained on Grand Jury Exhibit
16 Number 17. And, pause that recording.

17 (This is the interview of
18 being played at this time.)

19 MS. ALIZADEH: During the playing of that
20 statement, I passed around to you copies of the map
21 that I marked as Grand Jury Exhibit Number 30.

22 (Deposition Exhibit Number 30
23 marked for identification.)

24 MS. ALIZADEH: Which was a drawing that
25 was done during the statement of It

1 is apparent in the statement that there was another
2 drawing done, I don't know if I have that one, I
3 will have to check and see if I have it and if not,
4 I will get that for you as well today.

5 Remember, we talked about they were
6 drawing the car and the position of the car or
7 something.

8 So the next statement is about an hour
9 long as well, so do you all want to take a
10 five-minute break for bathroom and stand up. All
11 right. We will do that. It is 10:09 a.m. How
12 about 10:15, is that enough time?

13 (Recess)

14 MS. ALIZADEH: It is 10:21 on
15 September 30th, we took a short break. This is
16 Kathi Alizadeh. Sheila Whirley, as well as all 12
17 grand jurors and the court reporter. And we are now
18 going to play for you a recorded statement that was
19 done of , who was the gentleman who we
20 just played the statement that he made to the County
21 Police.

22 This is the statement that he made last
23 week during an FBI interview. I just looked and it
24 appears to an hour and 18 minutes long, and it is
25 cued up and ready to go. If we don't have

1 transcripts as of right now because the statement
2 was only last week.

3 So if we get transcripts while you're
4 still seated in this matter, I'll get those to you
5 for your review later.

6 All right. And at this time I will ask
7 you, to pause the recording while we play the
8 recorded statement of

9 (This is the interview of .)

10 : Today is September 24th, it
11 is 10:10 a.m. This is Special Agent ,
12 I'm here with DOJ trial attorney and USA
13 . And would you state your name, sir?

14
15 : , okay.

16 : , I met you before.
17 (inaudible) My name is and I am with the
18 Civil Rights Division of the Department of Justice,
19 and is a prosecutor here, federal prosecutor
20 based here in St. Louis. So we are working on this
21 investigation with the FBI, and because we know you
22 gave an interview with the County Police, we didn't
23 get a chance to meet you and we wanted to meet you,
24 okay?

25 : Okay.

1 : So all your answers need to be
2 out loud because this is being recorded, but if you
3 nod your head or shake your head I'll remind you.

4 I understand.

5 : And I'm sure you know this, and
6 I have no doubt that we just want you to know that
7 if you talk, some type of false statement or lie or
8 embellish or exaggerate, it's a crime to make false
9 statements to federal agents, we want you to know
10 that.

11 : I understand.

12 : Okay. And we want what you
13 know versus what you assume. So if there is a
14 distinction when you talking about something and you
15 assume it, we want to know what you assumed versus
16 what you, yourself, know, what you heard and saw
17 that today.

18 : Okay.

19 : It is natural that you've heard
20 other names and we may need to ask you about that as
21 well, but we want your observation. It is important
22 not to guess, if you guess, let us know.

23 : Okay.

24 : If I ask a question, and you
25 answer a question that seems confusing, let us know

1 because if you answer, we'll assume that you
2 understand.

3 Okay.

4 : Okay?

5 : Uh-huh.

6 : And you know you're at the FBI,
7 and you came through security, but we want to make
8 that you know it is voluntary. So at any point you
9 have had enough, you want to leave, you let us know.

10 Okay.

11 : We are not going to force you
12 to stay here.

13 No problem.

14 : Do you have any questions of
15 us?

16 : No.

17 Just real quick, I want to
18 make sure I have your name spelled right. Can you
19 spell it for me?

20 : .

21 : Okay.

22 :

23 : Okay, thank you.

24 : you spoke to County
25 Police back on August 12th. Do you remember

1 speaking to them?

2 : Yes.

3 : Okay. So we are, I'm not going
4 to go through your whole account because I know that
5 you are, you already gave that and going to the
6 state grand jury tomorrow, right?

7 Yes.

8 : I don't want to make you rehash
9 the whole thing.

10 Okay.

11 : and I are with the
12 federal prosecutor's office, we are prosecutors. So
13 we won't have the opportunity to see you tomorrow,
14 so that is why we listened to your recorded
15 statement, we have read the transcript. We just
16 have some specific questions that don't jump out at
17 the recording because we can't see you.

18 Okay.

19 : That is what we want to focus
20 on.

21 : All right.

22 : There were certain things that
23 you, um, you talked about and when you talk about,
24 you said do this or do that. Do this and do that
25 doesn't come across in a recording and it,

1 obviously, won't come across on this recording. But
2 in the beginning when you saw the, the tussle in the
3 car, can you describe for me or show me what you
4 actually saw Michael Brown do and what the police
5 officer were doing?

6 Well, actually, as I just
7 stated to them, from my porch I can only see from
8 the passenger side.

9 : Okay.

10 : I don't know if he had
11 grabbed him or what, but you could see them tussling
12 in the car, they were moving around.

13 : When you say he grabbed him --

14 I don't know who grabbed who.

15 : I know. When you say he?

16 The police officer.

17 : Okay.

18 Because he was walking, he
19 must have said something to him and he was
20 approaching the truck. Then we saw the tussling.

21 : Let me ask you, you said he
22 must have said something to him, you mean --

23 : I think the officer said
24 something to him because Michael started walking
25 towards the truck.

1 : Okay. That's what I was going
2 to ask you, what made you say, when you say he, I'm
3 trying to figure out.

4 I'll make sure I state it.

5 Okay. I know when you use the
6 expression he must have said something, that's one
7 of those assumptions. When you say that, I want to
8 you to explain that's why you are making that
9 assumption.

10 Well, I'm assuming he said it
11 because he was approaching the car. I mean, if the
12 officer tells me to stop and come here, I'm coming
13 there, okay.

14 : Okay.

15 : I'm going to approach you, I
16 want to talk to you. I'm going to find what is
17 going on.

18 : That's fine, that makes sense.

19 But I could see them
20 tussling, you know, and after that is when the first
21 shot rang out.

22 : Let me ask you about the
23 tussling specifically. I know you said from what
24 your vantage point was, can you describe from your
25 vantage point what Michael Brown's position was?

1 He was outside the car door.

2 : Okay.

3 : Outside the truck door. He
4 was in one of those big 4x4, not 4x4, SUVs.

5 : Right.

6 He was on the outside and the
7 officer was still in the truck.

8 : And how is Michael Brown's
9 body?

10 : He was like, he was, I could
11 see the top of his head, he had a hat on.

12 : Okay.

13 : I could see the top of his
14 head, and then he dropped down and he disappeared
15 for a minute. Next time I saw his head is when I
16 heard the shot, that's when he popped up.

17 : Okay.

18 Okay.

19 : Were you able to see from your
20 vantage point whether Michael Brown's body was bent
21 over --

22 : From my vantage point I can
23 say clearly he was not inside that truck. He was
24 partially, maybe his head, was right there at the
25 officer's head.

1 : Okay.

2 But so for his body being in,
3 no, I couldn't say with 100 percent accuracy that
4 his body was, but I'm quite sure it wasn't.

5 : Okay. So you don't know for
6 sure?

7 : No.

8 : What about his hands?

9 : They were inside.

10 : Okay.

11 : Uh-huh.

12 : So his hands were inside, just
13 correct me if I say this wrong. Michael Brown hands
14 were inside the car?

15 : I believe so.

16 : Okay. You couldn't tell if any
17 part of his like shoulders or anything were in it,
18 is that fair?

19 : No, no.

20 : No, you couldn't tell or no
21 they weren't?

22 I can't tell.

23 : Okay. Can you tell, you said
24 his head disappeared from view. So do you not know,
25 can you tell whether any part of his head was inside

1 the car?

2 : No.

3 : No, it didn't or you can't

4 tell?

5 : No, I can't tell.

6 Okay, fair enough. Were you
7 able to see any movement that the police officer was
8 making inside the car?

9 I could see him jerking
10 around.

11 : Okay.

12 I could see his body, see his
13 torso, I could see maybe from like the shoulders up,
14 jostling around like they are moving back and forth
15 like this, just like some kind of tug of war or
16 something was going on.

17 : Okay. Just for the recording
18 won't pick up what you are. You are kind of leaning
19 back and forth in your chair?

20 Right, they are kind of
21 rocking back and forth, like they were in some type
22 of struggle.

23 : Okay.

24 Okay. That you could clearly
25 see that they were struggling, but I could not tell

1 how much of his body was in the truck.

2 : Okay.

3 I can't say for certain how
4 much of his body was in the truck.

5 : That's fair.

6 : You are referring to Michael
7 Brown?

8 : Huh?

9 : How much of Michael Brown's
10 body was in --

11 How much of Michael Brown's
12 body was in the truck?

13 : The officer was in the truck
14 at the time?

15 : Officer was in the truck.

16 : When you say we, we saw, who
17 are you referring to?

18 : Had some other family members
19 there on the porch with me.

20 : Is that your brother and
21 sister-in-law?

22 : Yes.

23 : Was there too?

24 : Yes.

25 : Okay. And so once the shot

1 rang out and Michael Brown started running, how soon
2 after did the police officer get out of the car?

3 A matter of seconds.

4 : Okay. Was it instantly or was
5 there a slight pause?

6 There was like a slight
7 pause. I would say within two or three seconds, he
8 was coming out.

9 Okay.

10 As Michael was running away,
11 the other gentleman, Mike went one way, the other
12 gentleman went the opposite direction.

13 : The other gentleman was Michael
14 Brown's friend?

15 Michael Brown's friend.

16 : Do you know his name?

17 No, I don't, I don't know
18 him.

19 : Okay.

20 : I've seen Michael Brown in
21 the neighborhood, he passed me. Myself and the
22 other lady, we always sit out. I'm collecting
23 Social Security, she's retired, we just sit out and
24 we talk, watch around. And I seen him walk past
25 because he has a friend who stays in an apartment

1 who is just beyond me.

2 And he would always come by and say, how
3 you doing, sir, how you doing, ma'am, how you all
4 doing, you know, everything else. That's the only
5 contact I had. Other times I may have seen him at
6 the stores in the neighborhood.

7 : Okay. We are veering off a
8 little bit. Just so I can ask you, you have a
9 friend that, Michael Brown has a friend that lives
10 in the apartment complex?

11 : I have no idea.

12 : I thought you just said.

13 Oh, Michael Brown has a
14 friend that stays, not the one that was with him, I
15 don't know him. Him, I know nothing about.

16 : I understand that. I just ask
17 you the friend that Michael Brown stays with in the
18 apartment complex, do you know that friend's name?

19 : It is a female, no, I don't.

20 : Do you know in which building
21 she lives in?

22 : Uh --

23 Here is a map if that helps.

24 I believe it's, it is

25 : Okay.

1 I think so.

2 : Do you know which level?

3 No. Because she was on third
4 floor. I think she moved down, I'm not sure.

5 : Okay.

6 I can't say for certain.

7 : Okay. So back to what we were
8 just talking about, the friend that Michael Brown
9 was with that day, we'll just refer to him as the
10 friend, would that be easier?

11 : Okay.

12 : Okay. You said Michael Brown
13 took off running and there was a pause, police
14 officer chased. What was that friend doing?

15 : After he ran, he disappeared,
16 you couldn't see him. You don't know, we thought he
17 had ran around to the side of the building, but
18 someone is saying and other people was saying one of
19 the reason that I heard and read that he was
20 actually behind the other police truck that was
21 there, he ran behind this other car.

22 : So not straight?

23 : So I didn't see him.

24 : I want to just know, just tell
25 us initially you saw him with Michael Brown,

1 correct?

2 Right.

3 : I'm talking about the friend.

4 Right.

5 : During the tussle that you
6 described, where was the friend?

7 Practically on the sidewalk.

8 : Okay. What was the friend
9 doing?

10 Just standing there watching
11 what was going on between officer.

12 : From your vantage point where
13 Michael Brown took off running, what did the friend
14 do?

15 He ran the opposite way.

16 Did you see him again?

17 No.

18 : So when the police officer took
19 off running after Michael Brown, can you describe,
20 were you able to see his gun?

21 Let me stop you.

22 : Sure.

23 : He did not take off running
24 after Michael.

25 : Okay.

1 Excuse me.

2 : You okay?

3 I'm having spasms, okay.

4 This is not showing me anything, okay.

5 If you don't like this map,
6 we'll go with that one.

7 All right. You are looking
8 at, okay, all right. This is, I can't tell which
9 one is which right here.

10 : If this doesn't help you, you
11 can --

12 This is Canfield.

13 Coming from West Florissant.

14 Uh-huh.

15 Coming around. This is the
16 last driveway, okay.

17 : Okay.

18 : This is one right here. This
19 driveway right here, okay, his friend went toward
20 West Florissant. Michael ran towards the first
21 driveway which is located where the memorial is on
22 the post.

23 The officer got out of the truck, came
24 around to the back of the truck.

25 : Okay.

1 Assumed his position like
2 this. (indicating)

3 : And you are showing, was the
4 gun out in the front of you?

5 : The gun was out like this, he
6 had his hand out, he was in his position and he
7 told, that was after the shot he got out, when he
8 got shot he ran. By the time he got to the edge of
9 the driveway after he crossed the sidewalk, he got
10 on the black part of the driveway he stopped,
11 Michael stopped. He was looking at himself to see
12 where he was hit, he was doing this, but he had
13 stopped.

14 The officer, at that time, he had come
15 around to the back, Michael had his back turned to
16 him. He told him stop, but he had already stopped.

17 Michael turned around to face him and he
18 had his hands shoulder high, just a little bit above
19 his shoulders, but they were out away from his body.

20 : Okay. Let me just stop you for
21 one second. So you are saying when the officer got
22 out of the vehicle, you are saying he ran around his
23 car and stopped and did not chase after Michael?

24 : No.

25 : And when Michael was running

1 away, the officer was not shooting at him; is that
2 correct?

3 : No, he didn't shoot then.

4 : Okay.

5 : He didn't fire, he already
6 had fired one shot when he came around to the back
7 and assumed the position. He yelled at him to stop,
8 which Michael had already stopped, when Michael
9 turned around, he told him again, stop.

10 : Okay.

11 Michael took a step off the
12 sidewalk. As soon as his foot hit the street, the
13 officer let loose, wham, wham, wham.

14 : Okay.

15 Right.

16 : So that initial shot though
17 occurred inside the vehicle, correct?

18 : Correct.

19 : Okay. So you're saying that
20 the next time any shots were fired was when Michael
21 Brown was facing the officer; is that correct?

22 : Correct.

23 : And that was after the officer
24 said stop?

25 : Right.

1 : And then he didn't shoot until
2 Michael Brown made a movement?

3 : Made a movement.

4 : And the movement was totally
5 opposite, correct?

6 Right. He took a step to the
7 street. It looked like he was giving up. Because
8 that is what we were saying. He is giving up, he is
9 giving up, you know, we're looking at him, he's
10 giving up. But then as soon as he took a step, he
11 got his foot in the street, he fired three shots.

12 : All right. Let me ask you
13 about when you said he had his hand up. You had
14 described previously that he was standing, as you
15 said, his hands up around where the shoulders were,
16 his palms were facing him.

17 : No, they were like this.
18 Palms are facing the officer, they were like this.
19 Indicating)

20 : Okay.

21 : You are the police officer, I
22 turned around and I did like this.

23 : Okay. Show your palms are out?

24 Right, right.

25 : Okay. Just so I can

1 understand. From my understanding when the police
2 were interviewed by the County Police, you described
3 he kind of stopped and looked down to his right?

4 When he stopped at this time,
5 yes. He kind of, when he stepped off, he was still
6 like this, but he had his hands up, he was still
7 trying to find out where he was shot to me.

8 : And then tell me what makes you
9 say that?

10 : Because he looked down to his
11 side.

12 : Okay. You said his right side?

13 : Yeah, this side, yeah,
14 looking on this right side and then he took a step
15 out. And he had his hands up and as soon as he took
16 that step and got to street, maybe about to, he is a
17 big guy, he could have made it about three steps.

18 : Let me ask you this, when he's
19 running, he stops in front of the driveway. Based
20 upon your vantage point, you think that he stopped
21 because he was looking at to see where he was shot?

22 : Yes.

23 : Okay. So when he did that, at
24 that moment he stopped, where were his hands
25 initially?

1 Like this, he had them like
2 this. He took them away from his body to see, he
3 was like looking, he was looking.

4 : All right. That's a little bit
5 different --

6 No, I told it before, I said
7 when he stopped he was looking, he was like this,
8 his hands were not steady like this, but he had them
9 up to look at because he's a big guy, he had to look
10 and see what was up.

11 : He was like moving his arms.

12 Moving his arms to see what
13 was going on.

14 : You have your palms sort of
15 facing you like he was checking --

16 Right, he's checking out his
17 own body.

18 : Okay.

19 Okay. But when he turned to
20 face the officer he was like this. He had his hands
21 up, palm facing the officer like, okay, you got me.
22 He had already told him to stop.

23 : All right. I need to just go
24 back and try and (inaudible) a little bit. When he
25 was checking out his body, were you able to see?

1 I can't tell.

2 : Is there anything that stood
3 out to you?

4 : Nothing stood out to me.

5 : Okay.

6 You know.

7 : And so when he turned around
8 and took that step is when he had his palms out?

9 Right.

10 : So right after that when the
11 officer started shooting, what did Michael Brown do?

12 : After he fired that first
13 round, that first volley. He hit him, he started
14 staggering, he first kind of went back like, pow,
15 from the impact.

16 : Okay.

17 And then he started
18 staggering. And he was looking at the officer as he
19 brought his head up, he looked down, oh, God, I've
20 been shot. He looked up at the officer and he was
21 looking at him and he was staggering, he was trying
22 to stay on his feet. And myself and my family is
23 telling him stop, dude, stop, stop, stop.

24 : Were you actually saying that
25 out loud?

1 : Yes, he couldn't hear us, you
2 know, from where we live.

3 : I know he couldn't hear you,
4 but were you actually yelling it in hopes?

5 : Hoping that he would hear but
6 he was staggering. We could see that he was
7 staggering and he took about, I don't know, three or
8 four more steps, but as he was taking his steps
9 forward at that time, the officer took a few steps
10 back, he was still in his spot. When Michael took
11 the other steps and he was staggering, his body was
12 like -- can I stand up, please?

13 Yeah, absolutely.

14 Okay. He was standing up, he
15 was shot. He was leaning like this, but his head
16 was like this. And he was standing up staggering,
17 he was trying to stay up on his feet like this.

18 : Okay.

19 And he was definitely, we
20 were yelling at him stop, stop, stop. My
21 sister-in-law and said, oh, God, he's
22 getting ready to kill him, he's getting ready to
23 kill him. And no sooner than he said that, no
24 sooner those words came out of their mouth, he was
25 going down, it looks like he was going down. And he

1 let off four more shots pow, pow, pow, pow.

2 : Okay. When the officer was
3 shooting was when Michael Brown was coming towards
4 him; is that right?

5 Yeah, he was not charging
6 him, he was defenseless, hands up, he was trying to
7 stay on his feet and you could see that his knees
8 was beginning to buckle, he was going down. When he
9 shot him as he was going down, he hit face first,
10 splat.

11 Where were his arms when he
12 fell to the ground? You are showing arms at either
13 side of his head?

14 When his body hit is when I
15 ran up there his arm, one was like, I can't exactly
16 tell on the body, one was like this when he hit
17 down. I guess they moved when he hit the ground,
18 but he was dead on the way down.

19 Can you picture where his arms
20 were on the ground?

21 Kind of like.

22 : I don't want you to guess if
23 you don't know.

24 No, I can't say for sure.
25 I'm trying to picture it, but to tell you the truth,

1 I didn't really want to see it, you know, because
2 when I ran up there and I saw who it was, I'm like,
3 oh, my God. I just saw him earlier this morning.

4 : I'll get to that in a second,
5 but let me just clarify. So you saw two additional,
6 two volleys of shots --

7 : Right.

8 : Correct?

9 : Right.

10 : Each time the officer was
11 firing, Michael Brown was coming towards him?

12 : Yes.

13 : Okay. And at no time did
14 Michael Brown say anything, correct?

15 : I could not tell or hear if
16 he did say anything.

17 : You didn't hear him yell, don't
18 shoot?

19 No, I didn't.

20 : Were you able to hear the
21 officer say stop?

22 Oh, yeah, he was very loud.

23 : You didn't hear Michael Brown
24 say anything like okay, okay, okay?

25 No, I didn't hear that.

1 : Okay.

2 : Listen, I'm dealing with two
3 very excited . One is , and this is the
4 first time seen anything like that and
5 right here.

6 : Talking in your ear?

7 Right.

8 You were able to hear the
9 officer?

10 : Oh, yeah.

11 : You didn't hear anything from
12 Michael Brown?

13 No.

14 : From your vantage point, you
15 didn't see his mouth moving as though he was saying
16 anything?

17 My eyes was really focused on
18 the officer because when he started moving,
19 staggering forward, I wanted to see what he was
20 getting read to do cause everybody was like, he is
21 getting ready to kill him.

22 : Okay.

23 So I wanted to see what he
24 was getting ready to do, but Michael was staggering.
25 You could see him clearly staggering, you know. And

1 then when he started like he was going down, he
2 fired again and that's when I said, oh, my God, he
3 just killed him.

4 : Okay. So I just want to
5 (inaudible), when this was all happening, your
6 attention shifted to the officer, correct?

7 : I could still see Michael, I
8 wanted to see what he was going to do. I had both
9 of them in line of sight.

10 : Okay. Is it fair to say that
11 Michael was more, just based on how you are
12 describing it and the visual you just gave me, is it
13 fair to say that Michael was more in your peripheral
14 vision at that point?

15 : Both of them, both of them.
16 From my vantage point, I can see both, okay. But to
17 say, now I'm trying to make this as clear as I can.
18 I can see both of them, but as Michael was
19 staggering toward him, you know, trying to keep his
20 balance, as he was moving forward, you could see, I
21 could see the officer stepping back.

22 When he took those steps back and Michael
23 was staggering forward, I thought, oh, my God,
24 that's when they said he is getting ready to shoot
25 him. Sure enough, as soon they said that, he let

1 loose.

2 : That's when you all are
3 yelling stop, stop, stop, you wanted Michael to
4 stop?

5 Yeah, we wanted Michael to
6 stop. They anticipated in a split second,
7 , he's getting ready to kill him.

8 : Let me ask you this,
9 . On August 12th, I want to take you
10 through what you said at that time.

11 You said as he faces the officer, this is
12 Detective asking you this, as he faces the
13 officer, you say that his hands go up to a point
14 where you said about to his shoulders almost.

15 Right.

16 : That's when he has his palms
17 sort of facing himself and he's looking over his
18 body?

19 When he got first shot and he
20 got to the driveway, his hands were up facing
21 himself because he was looking like at himself.

22 : Right, let me --

23 When he turned around.

24 : Uh-huh.

25 He gave up, his hands was up

1 to the shoulder, that's when he went up facing the
2 officer.

3 : Okay. You went on to say
4 back on August the 12th, Detective says, your
5 arms are like palms up and hands and fingers are
6 roughly shoulder height, is that fair enough to say?

7 You say yeah, about close to his shoulder.

8 Do you agree with that?

9 Yeah, yes.

10 : With his palms facing
11 towards himself like this?

12 No, not turned, his hands are
13 like this.

14 : No, I'm talking about --

15 They're not, excuse me, what
16 you are saying, the hands are pointed toward him,
17 they were not, I didn't say they were pointed toward
18 him. I said his hands were like this. I described
19 it. I didn't say they were pointed toward him. The
20 only time I said his hands was anywhere near is when
21 he first got shot.

22 When he turned, they were this way.

23 : All right. Let me just take
24 you through this, okay, and just see if you agree
25 with this. On August 12th, Detective asked

1 you, your arms are like palms up, and hands and
2 fingers are roughly shoulder height, is that fair
3 enough to say?

4 You say, yeah, close to his shoulder,
5 right?

6 Uh-huh.

7 : And he asked you at somewhat
8 of angle? You say at 35 to 45 degree angle from the
9 body. About like this, and you have the palms up,
10 right?

11 : Oh, yeah.

12 : And you say he is standing
13 there, he looks, he looks down looking at his body.
14 That's where you're saying you thought he was
15 looking to see if he was shot?

16 : Right.

17 : Okay. And then after that,
18 you go on to say that Detective asked you,
19 Michael Brown is standing facing the officer at this
20 point with his hands at his rib cage. And you say,
21 yeah.

22 And Detective says hands, palms up,
23 like at his rib cage.

24 And you say, uh-huh. Does that sound
25 right?

Page 50

1 Yeah.

2 : On basically when Michael
3 Brown, this is what he asked you, Michael Brown is
4 standing facing the officer at this point with his
5 hands at his rib cage, and you say, yeah.

6 Detective says hands, palms up, and
7 you say uh-huh. Is that the way you recall it
8 today?

9 Yeah.

10 : And you go on to say, or
11 Detective asked you, and he was looking down
12 at his body at some point. You already told him he
13 was looking down at his body. Detective
14 says, he was looking down at his body at some point,
15 and you say right, right, uh-huh. Okay. All right.

16 Is that the way recall it?

17 Yeah.

18 : Okay. Just to be clear too,
19 we talked about when you thought that the officer
20 must have said something to Michael Brown because
21 Michael Brown then approached the vehicle, that's
22 when you saw the tussle.

23 So you actually saw Michael Brown come to
24 the side of the vehicle, he approached the side of
25 the vehicle?

1 Right, he wasn't that far
2 from me.

3 : Okay.

4 His friend was still, when he
5 looped around, Mike was still in the street, his
6 friend had backed up. His friend had actually --

7 : That's when he goes to the
8 sidewalk?

9 Yeah, he steps back, you
10 know.

11 : Let me ask you this.
12 had asked you this a little while ago about, and you
13 sort of were very clear about where everyone was.
14 But she had asked you about when the officer went
15 after Michael, where was his gun at that time, or
16 could you see it. And you corrected her and said,
17 well, he just went to the back of the vehicle and
18 assumed his stance.

19 : When he came out from around,
20 he must of already pulled it out of his holster as
21 he was coming around.

22 : And that's what I'm
23 wondering. Could you see that, could you see where
24 the gun was before he assumed his stance?

25 It was in his hand and he

1 brought it up.

2 : Okay. Before he brought it
3 up in a stance, it was in his hand.

4 : It was in his hand.

5 : You are directing like out
6 by itself?

7 Right. He's pulling it out
8 and as he came around so he could get a line sight
9 on Michael, he whipped his hand up, gun is already
10 in his hand, put it in his palm and aimed.

11 : Shortly after that he said
12 stop?

13 : He said stop. When he said
14 stop, Michael had already stopped.

15 : Uh-huh.

16 When he turned around, he
17 said stop again. When Michael took another step, he
18 said stop. As he hit the street, after he said
19 stop, he fired. That's when he started staggering
20 around. You could tell he got hit the way his body
21 jerked, okay. And as he was coming forward, trying
22 to keep his balance, I guess keep from falling, he
23 couldn't stand. He was trying to get himself in a
24 position, I believe, so that he could stand up.

25 As he took those steps, the officer took

1 about two, three steps back. As he did that at the
2 same time, he yelled stop again. Michael was then,
3 you could tell he was about ready to fall. At the
4 angle of his body, torso practically straight, knees
5 wobbly, but the torso was almost at a 45 degree
6 angle, his hands are slowly coming down.

7 : His hands were coming down?

8 : Right, coming down.

9 : And he was bent toward the
10 officer?

11 : He was bent toward the
12 officer.

13 : Let me stop you there real
14 quick. On August 12th, again, I want to take you
15 back to what you said. Detective asked you
16 where you describe exactly this point, Detective
17 asked you, and where are his hands at this
18 point.

19 And you say, after he hit him with the
20 three shots, they were down.

21 Right.

22 : Detective says, okay,
23 where at?

24 You say, down beside his body like this.

25 And then he says, you were basically putting your

1 hands down at your side.

2 And you said, yeah, they, like they were
3 down.

4 : Right.

5 : Is that the way you recall
6 it today?

7 : Right.

8 : That was after three shots?

9 : After the three shots.

10 : Because he was going down?

11 : Yeah, he was hit. As he was
12 coming forward, he was trying to maintain his
13 balance.

14 And I know this, I've been shot, all
15 right. I've been shot in the leg, so I know how it
16 is to try to get your balance.

17 And as I try to make this perfectly clear,
18 his torso was straight, knees wobbly, but his upper
19 torso was bent and he was still, kept his focus on
20 the officer.

21 : So to be clear, from your
22 vantage point, and I don't want you, I know you were
23 shot so you know how it feels to be wobbly. From
24 what you could actually see, Michael Brown was
25 focused on the officer, correct?

1 : Uh-huh.
2 He was bent forward, correct?
3 : Uh-huh.
4 : Is that yes?
5 Yes.
6 : Okay. His arms were at his
7 side at this point?
8 : Right, right.
9 : He was moving toward the
10 officer?
11 Right, very slowly and
12 wobbly.
13 And the officer had said stop?
14 Right.
15 : At that point, Michael Brown
16 hadn't stopped; is that correct?
17 : It looks like he was falling.
18 He was staggering, he was staggering, trying to stay
19 up. Okay.
20 He was shot, he was hurt. He was trying
21 to keep up on his feet. He wasn't going toward the
22 officer to try to get to him. He was trying to
23 stand up. He was trying to maintain himself, but
24 you could see his body was giving out. And the
25 angle his body was, when he told him to stop that

1 last time when he's looking at him and that's when
2 the comments were made, he's getting ready to kill
3 him.

4 And no sooner than they said that he was
5 going like this, his body was coming like this
6 because he wasn't even looking and he fired. That's
7 the only way he could have hit him in the head, the
8 only way. He was already on his way down. The man
9 was unarmed, you had already put three to four shots
10 in his body.

11 Granted, he is a big boy, but he was hurt,
12 he was hurt.

13 : And this is the point right
14 before that, that final shot you refer to --

15 : Right.

16 : -- trying to tell him to
17 stop?

18 Right, right. When he fired
19 off that last volley, he hit down face first. I've
20 got a very hysterical who has never seen
21 anything like that in her life. My sister-in-law is
22 going berserk. My brother and I look, we didn't
23 even see the other officer, he had just moved away.

24 Our focus, our focus is So when I
25 got , he got his wife and got them, took in

1 the apartment, got them calmed down, I came back
2 out, I left and I ran up the street because I wanted
3 to see what happened, not what happened, but to see
4 him, you know, just some visible reason I wanted to
5 see the body. As I got there and close and I saw
6 his face, I knew who it was.

7 : You talked before too about
8 at that point people started coming out from
9 everywhere?

10 From everywhere.

11 : Can you tell us about that,
12 what was going on at that time?

13 They all, they running out,
14 from my vantage point I can see every apartment on
15 the opposite side of the street. The gentlemen who
16 were working, my apartment, my bedroom, I can see
17 them and the apartment that they are working on and
18 I'm watching them. They are making a lot of noise,
19 but anyway, from the front of my house, I couldn't
20 see them. I knew they were there, I knew they were
21 there. People on my side and my street, no one was
22 there.

23 The immediate apartment building where he
24 was shot, I couldn't tell if anybody was up there.
25 The apartments that are already in the back of the

1 driveway where he was stopped at, where the memorial
2 is, I didn't see anyone on this side of the street
3 in my sight.

4 The other part I can't see that.

5 : Just tell me about when you
6 went out there, you know, you mention people coming
7 out from sort of everywhere from the back of the
8 complex.

9 : From the back of the complex,
10 from everywhere.

11 : And you talk about
12 August 12th, the one reason you came forward is in
13 your own conscious you wanted to make sure the
14 family got the truth about what really happened,
15 that is why you decided to come forward?

16 Yes.

17 : You were concerned about
18 what other people were saying. What were you
19 concerned about?

20 You have to understand out
21 there, they were looking for anything. Majority of
22 them that came running out from the other sides and
23 the back, those three or four gentlemen that run up,
24 oh, he had his hands up like this.

25 : Like straight up in the air?

Page 59

1 Straight up in the air.

2 : With his palm facing the
3 officer?

4 Yeah, we were standing, no.
5 The gentleman that was besides us, the workers, no.
6 We knew that. And then you could see, you have to
7 understand the mentality of some of these young
8 guys. They have nothing to do. If they can latch
9 onto something, they embellish it because they want
10 something to do. This is something that give them,
11 okay, now we have something to do to get into.

12 I've lived out there off and on for almost
13 years. Majority of them do not work. All they
14 do is sit around and get high all day. That's it,
15 and just talk stupid. And they had that there, when
16 we was standing there, someone at the top of the
17 hill, I had got back to my porch, someone at the top
18 of the hill, my brother and my sister and , I
19 had back on the porch when I came back,
20 fired off some shots. The officers heard it and
21 they started running, okay.

22 Everyone that was on the other side of the
23 street started pointing, where did it come from,
24 everybody started pointing. We had two people,
25 never seen these people before in my life in the

1 whole time I've been out there, came up, you all
2 better not say nothing. You all snitching and all
3 of this and that upset .

4 : They said this to you

5
6 They were talking. I was
7 looking at the officers. was down there and I
8 happen to turn when said like what, what. You
9 know, I was like, wait a minute, I said turn around,
10 everybody was still doing this. But she and this
11 other girl had made a point to say something to .

12 To ?

13 Right.

14 : About not snitching?

15 About not snitching.

16 Two females?

17 Yeah, I'm like what? And I
18 told the girls, I tell you what, you all used a very
19 derogatory term, turn around. Everyone is pointing
20 that way, you know. For three days I had to deal
21 with because that shook to the core, just
22 not use to anything like that.

23 : Can you explain this, what
24 prompted these girls to come over to ?

25 Because everybody was

1 pointing, you know, when they heard the shot. I was
2 pointing. Where did it come from. I said right up
3 there.

4 : Because you were telling the
5 police where the shot came from?

6 Right, but the thing was, the
7 whole crowd was pointing up to the top of the hill.
8 And I'm like, wait a minute, they single out and
9 wasn't even pointing.

10 I understand, okay.

11 : Okay. So the thing is, I
12 live there, when it comes to saying certain things,
13 I've got to protect I don't care. I'm sorry
14 that happened to Michael Brown, I'm sorry for his
15 family's loss, but I have a ,
16 that's number one. I don't care about nothing. I
17 really wasn't going to say anything. I really
18 wasn't because I got to protect and
19 scared, was scared for three weeks, she was
20 scared.

21 : Let me ask you this, before
22 whenever we was talking about people coming out and
23 hands up in the air, you said there were workers
24 nearby who were saying hands in the air?

25 No, no, no, they didn't say

1 that.

2 : What did they say?

3 : They said the same thing I
4 said and my brother did. His arms were shoulder
5 length, just above his shoulders.

6 : Can you describe these workers?

7 : They working, they are
8 plumbing, some plumbers.

9 What they look like
10 physically?

11 : Younger, white hair gentleman
12 and --

13 Both white?

14 Uh-huh.

15 : But they were actually there
16 with you correcting all of these other younger
17 people?

18 No, everyone did that. It
19 wasn't until a couple days later, because I saw him
20 when I was out there watching everything going on.
21 I saw him talking to a couple officers, but he was
22 talking to a plain clothes detective and a Ferguson
23 officer, I think, I'm not sure. I couldn't see, but
24 I know he had a blue shirt on, Ferguson wears blue
25 shirts. I assume it was a Ferguson officer and the

1 other gentleman was in a suit.

2 And he was talking to him. The younger
3 guy, he was like, oh, he was going nuts, you know,
4 but the older gentleman was talking about what he
5 saw.

6 A few days later because he was coming
7 around and doing something on every building. And
8 he gets out, eventually said, yeah, everybody out
9 there talking about the poor man had his hands up in
10 the air. He said, I didn't see that, he said, did
11 you see that? I said, no, I didn't see that. So
12 the young guy say, he was with him, I didn't see it
13 either.

14 : These are the two white
15 workers that you are talking about?

16 : Yeah, right.

17 : They were back there a few
18 days later and talked to you personally?

19 : They didn't talk to me, just
20 in the course of conversation they were working on
21 our building.

22 : You were there and had that
23 conversation?

24 : Right, right. I'm standing
25 there, he come down there and working on the pipe.

1 I was barbecuing, that's how the conversation
2 started. And we got, he said, man, I'm so shook up
3 and everything else about this and that. He said,
4 well, it got crazy all of these guys over there,
5 everybody running around, they're talking about the
6 man had his hands all the way up in the air, he
7 didn't. Did you see that? I know you saw it,
8 didn't you? I said, yeah. He said, did you see
9 what I see? I said, yes. He didn't have them all
10 the way up. And we both, at the same time, same
11 position, okay. Young guy quit after that. He
12 said, I'm not coming out here.

13 : You said there was a lady with
14 you during this conversation?

15 Older lady, she didn't see
16 the incident though.

17 : Who is she?

18 : She's the downstairs lady.

19 : Was there any other
20 conversation within that day about this?

21 : No, uh-huh. All he had to do
22 was connect the pipe. They had missed a connection
23 on the pipe and then we got to talking about
24 barbecuing, talking about, started talking about
25 other things. He lived in Jefferson County. He

1 said how bad it is down there, you know. Now I have
2 to come here, stuff happens everywhere.

3 : Everywhere.

4 You know, he said, this was
5 crazy, you know.

6 : Did he have anything else to
7 say about it, anything crazy about it?

8 No, that's just the way the
9 people reacted.

10 : Let's go back to that. You
11 first started talking about the two white workers
12 that were there when you first came down.

13 : Uh-huh.

14 : People were coming out and
15 saying all kind of things. And you talked about
16 people talking about him having his hands straight
17 up in the air you kind of said, no, that's not what
18 I saw.

19 Uh-huh.

20 : Maybe I misunderstood. Did
21 you say also that the workers were down there at the
22 same time saying, no, we didn't see that either at
23 that time?

24 No, he didn't say that at
25 that time. When I came down after the shots were

1 fired and everything else, I came back down because
2 the crowd was big, it grew in a split second. I
3 walked down to the edge of my driveway and I looked
4 over to see the building, I can see the building
5 they are working on from my bedroom window.

6 He was talking, as I said, he was talking
7 to a detective because his car was parked up on the
8 grass on my side of street. And another officer in
9 uniform had on a blue shirt. I didn't see the
10 insignias, but I'm just saying that because Ferguson
11 wear that types of collar, that may be a Ferguson
12 officer that I had not talked to that man at all
13 that day.

14 : Okay.

15 : I did not speak to him.

16 : All right. Let's back up a
17 little bit then. When you come down and there are
18 people saying things that you didn't see, how
19 quickly after those last shots were fired was that
20 happening? I mean, where people were actual
21 actually saying things like that?

22 : After he hit the ground, I
23 would say it took at least about a minute.

24 : That's when the crowd starts
25 to gather, it was like an instant?

1 In a minute, maybe 20, 30,
2 two, three minutes, at least be about 70 or 80, it
3 grew.

4 : Not just the crowd, but
5 people talking about saying things that didn't
6 happen?

7 : Right, right. They start
8 embellishing it when the stepfather showed up.

9 : When, I'm sorry?
10 The stepfather.

11 : The stepfather.

12 He's the first one that I
13 later found out, I didn't know it was the stepfather
14 until a few minutes later when he approached. They
15 had started the tape up and he was trying to get to
16 him. Oh, you know, my God, yeah, he was screaming
17 and hollering. And the officer is trying to calm
18 him down.

19 And then I saw his cousin, a little girl,
20 she has blond hair, she ran up the street. They all
21 came from Northwinds. That's where the majority of
22 the crowd came from.

23 When you say they started
24 embellishing, what did you hear?

25 Oh, the officer ran up behind

1 and shot him in the back.

2 : That's not true?

3 Not true.

4 What else?

5 : He hads his hand straight up
6 in the air, not true. Then some guy, I don't know
7 who the heck it was, I had never seen him before, he
8 came out of the blue. He was coming out saying that
9 Mike had reached in and got the gun out of his hand,
10 not true.

11 : You mention on August 12th
12 that after that it was everyone started coming from
13 the back saying, oh, my God, he had his hands up in
14 the air telling him don't shoot, don't shoot, don't
15 shoot. And you said he never uttered a word, right?

16 : Right.

17 : Referring to Michael Brown?

18 I said that I could hear.

19 : Right, right. Just what you
20 saw and heard.

21 That I could hear.

22 : And you went on to say,
23 that's when everyone come back and all of them
24 started saying things, oh, he was on his knees.

25 Yeah.

1 : When he shot him, he shot
2 him on his knees?

3 : Right.

4 : And then he came by and they
5 said he was lying down and the officer came and shot
6 him in the head.

7 That was false.

8 : None of those things
9 happened?

10 None of those things
11 happened, none of those things.

12 : I also want to ask you, you
13 said early on when we were talking you saw Michael
14 Brown earlier in the day?

15 Uh-huh.

16 : Can you describe your
17 interaction of what you saw?

18 : Me and the lady was sitting
19 outside, sitting on the step. She was sitting in
20 her chair on the lower level and he come up, instead
21 of going through the driveway, they cut across the
22 grass right there.

23 : When you say that was he with
24 his friend that he was there during the incident?

25 : No, he was with some girl. I

1 never seen her before either. And he came through
2 and he say, how you doing, sir, how you doing,
3 ma'am. I said, how you doing. I said, you all
4 doing okay? Yeah. He said all right, looks like it
5 is going to be a good day. All right. And he
6 walked up.

7 : About what time was that.

8 About, it was early. It was
9 early. I don't know, probably around 8:00,
10 somewhere after 8:00.

11 Did you see him at all that
12 morning.

13 : Next time I saw Michael he
14 was laying on the ground, or the street.

15 : Have you seen that girl he was
16 walking with, have you seen her since.

17 : I think I have. I can't say
18 100 percent sure. I wasn't paying too much
19 attention to her. He was talking to me. You
20 talking to me, I'm looking at your face.

21 : Do you know her name?

22 No, no, I don't know.

23 Let me ask you.

24 : I don't want to know anybody
25 else.

Page 71

1 : Let's talk about that. You
2 talk about the things, the crowd grew and the young
3 guys out there saying things that were not true.

4 August 12th, you said something about this, I want
5 to ask you about it. By living out there if you go
6 against what they are saying, you think they might
7 nut you up and go crazy. What do you mean by that?

8 They had it in their mindset
9 of what happened. They're set. They are looking
10 for a reason to explode because they don't have
11 anything to do.

Why, why look for a reason to
explode?

14 They got nothing else to do.
15 They are running all day, they are drinking and
16 they're getting high all today. We see this all the
17 time.

18 We have been on Canfield Green apartment
19 management to get all the drugs out of there. Okay.
20 All the time. Northwinds got so bad they put gates
21 up. When the gates up, the crime went up. You
22 know, I don't trust anyone out there.

23 They all walking around with their pants
24 below their butts and everything else, no T-shirts
25 on and they are so strong they will stand right

1 there in front of you and roll that stuff up.

2 I had to run two of them off my porch who
3 and came and sit on my porch while and
4 grandkids are inside, I'd been to the doctor's
5 office. (inaudible) They are sitting on my porch,
6 on my chairs rolling up their blunts. That's how it
7 is.

8 And if they strong enough to do that and
9 they feel you are going up against them, huh-uh,
10 never, I've got I have to protect.

11 : What would happen to somebody
12 like that?

13 Oh, shoot, they'll jump you,
14 they'll jump you.

15 : Do you think that's the general
16 feeling there if someone say something to either us
17 or the local police, goes against what they want,
18 that they will go against them.

19 I think now as it is getting
20 longer in time, the majority of them in our
21 neighborhood, my community, want the truth. It is
22 that outside forces that are coming in. When they
23 burnt that thing down yesterday, 80 percent of the
24 people were from the city, not from there. Cars
25 were coming in, the parking lots were full. That

1 lets us know immediately this is not Canfield, this
2 is not Ferguson.

3 : You mention the burning down
4 issue, the memorial?

5 Yes.

6 : Did you see that?

7 Oh, yes.

8 : What did you see?

9 : I was standing outside in the
10 morning, I come out every morning, step out, try to
11 smoke a cigarette outside. I stepped outside, there
12 was a gray car and a red car, I mean, a white and
13 black car, sorry, sitting there. A gray, dark gray,
14 charcoal gray car pulled up there, now there's three
15 of them.

16 The first two, they were taking pictures.
17 In fact, a girl was in the white car, she got out
18 and stood on the driver's side, took a couple
19 pictures, got in. And I saw those two drive off.

20 The charcoal gray car pulled up beside it.
21 I said, oh, I forgot my cigarette butt, I left it on
22 the kitchen counter. So I walked in, I got it, I
23 came back out, I left and I walked to the other side
24 of the porch, just look around, I like to look
25 around, see the cars and see who is out and

1 everything else. By the time I reach my door step,
2 my front door, he gunned it or she gunned it or they
3 gunned it and the car peeled off.

4 Next thing I know, whoosh.

5 : It shot up?

6 It just blew up and there
7 wasn't no slow flame, it just whoosh.

8 : You talking about the memorial?

9 Yes.

10 : Did you see anybody go other
11 and do anything?

12 : I didn't see anybody. They
13 could have done anything from the car window. They
14 could have threw something out of the window. But
15 that was definitely to me an accelerant because the
16 way the fire went up, it just went whoosh. It
17 wasn't a slow burn. I mean, they talking about a
18 candle, candle, most of that stuff was wet.

19 : Okay.

20 : Most of it was wet.

21 All right. We are going to
22 leave this running.

23 I'll talk to myself.

24 Okay.

25 : We'll be back in just a

1 minute, thank you.

2 MS. ALIZADEH: There is no conversation
3 during this break, so I'm going to try to fast
4 forward it, it is not long.

5 : All right. , I
6 don't think we have much. We don't want to take up
7 a lot of more of your time. We just have a few more
8 questions for you, okay.

9 My understanding is before we took the
10 break, you talk about one concern you had,
11 obviously, after this shooting occurred, people
12 coming out and saying things that were not true
13 based on what you saw, correct?

14 Yes.

15 : One of those things these
16 young men coming out saying that Michael Brown had
17 his hands all the way up in the air like
18 surrendering at the time that the shooting was going
19 on; is that correct?

20 : Right.

21 : You didn't see that?

22 : I did not see that.

23 : Okay. I just want to
24 clarify that. If I could, I referred you to some of
25 your statement on August 12th and I just want to

1 make sure that I understand your statement then and
2 now, okay. And if you like, I have another copy
3 here, you can refer to if you want to or I can read
4 you these portions, is that fine?

5 : That's fine.

6 : Okay. At the bottom of page
7 seven it said, you are referring to Michael Brown,
8 you said that he had like one foot on the grass and
9 one foot on the driveway, which you told us today.
10 And then he turned around and he was like this. So
11 that is why people thought he raised his hands, and
12 I think you are talking there about people claiming
13 that he had his hands raised. You said he did
14 something like this, is that what you are referring
15 to him looking at his body?

16 Looking at his body. And I
17 stated there they embellish, they embellish.

18 : Okay.

19 He had them up, to make it
20 clearer that he was giving up, they went from one,
21 which is what I saw to something that they probably,
22 they assumed he did and stuck them straight up in
23 the air.

24 : Right, okay.

25 Okay.

8 Okay. And you said you went
9 on page eight, you said he looked down and then he
10 did this, and he looked at the officer and he walked
11 and he took about three to five steps. He hit him
12 again, pow, pow, pow. So you were demonstrating
13 there again and then as you went on, Detective
14 made an effort to kind of narrate the way you
15 were demonstrating on the tape, do you recall that?
16 Back on August 12th, when you were demonstrating for
17 him he was kind of narrating back to you so it would
18 show up on the tape, do you recall that?

20 : Okay. On page 17 of your
21 statement you said as he faces the officer, strike
22 that.

23 Detective asked you as he faces the
24 officer. You say, uh-huh. You say that his hands
25 go up to a point. Where? And you say about to his

1 shoulders almost.

2 And then you go on to page 18, and you say
3 like this. And Detective says, kind of
4 raised? And you say he had his hands up like this.

5 And, of course, you can't see that on the
6 tape so the detective narrates and he says, your
7 arms are like palms up, and hands and fingers are
8 roughly shoulder height, is that fair enough to say?

9 You say, yeah, about close to his
10 shoulder, yes, uh-huh.

11 Not in the position that you
12 got.

13 : Okay.

14 : When I said it, I said like
15 this, not like this. They were close to the
16 shoulder, yeah, about shoulder height.

17 : About shoulder height?

18 About shoulder height.

19 : With palms up?

20 His hands were out, his arms
21 out away from the body, not like this. His were out
22 like this. Away, they are away from his body.

23 : Okay.

24 : Not like this, not like this,
25 not like this, they are away from his body. This is

1 my shoulder, this is exactly how I showed him.

2 Okay. With the palms up?

3 : Palms are up.

4 : All right.

5 : Nothing, I got nothing, I'm
6 giving up.

7 : Okay. You say that they are
8 about close to his shoulder and Detective
9 says they are at about somewhat of an angle. And
10 you say, what would you say, a 35 or 45 degree angle
11 from the body.

12 And you go on to say on page 18, he's
13 standing there and he's looking, he's looking down
14 at his body. And he looks up at the officer and you
15 say, he looks up at the officer and by this time he
16 was standing facing him after he turned around in
17 this position.

18 On page 19 you say, Detective asked
19 you, Michael Brown is standing facing the officer at
20 this point with his hands at his rib cage. So now
21 his arms are further down, his hands are at his rib
22 cage?

23 After the shots.

24 : Okay.

25 : Someone left out it was after

1 the shots.

2 : I just want to make sure.

3 The first volley of shots?

4 After the first volley of
5 shots, his arms came down because he was staggering.
6 Like he was coming, as he got hit like, oh, shoot,
7 he was staggering around, all right.

8 They had to come down a little bit, they
9 were coming down. Like I said, when they weren't at
10 his body, I didn't say they were next to his body.
11 He asked me a question, I demonstrated and he said
12 something that his narration is not what I showed,
13 okay.

14 : The narration is not?

15 : Whatever he wrote, I don't
16 know, he just stated, yes, but his depiction of what
17 I said of what I showed him is incorrect.

18 : Let me just finish running
19 through it, okay, and we can talk about it.

20 Okay.

21 : Bottom of page 19, Detective
22 says, Michael Brown is standing, facing the
23 officer at this point with his hands at his rib
24 cage. And you say, yeah.

25 And Detective says, hands, palms

1 up, and so they're at his rib cage, palms up.

2 And then you say well, they weren't up
3 against his rib cage, it was out because he was
4 looking down, slightly away from his body.

5 : Uh-huh.

6 : And Detective says
7 that he was looking down at his body at some point.
8 And you say, right, right, uh-huh.

9 And then you go on to say on page 20.
10 Detective says, is anybody saying anything at
11 this point?

12 And you say the officer as he raised his
13 head, he told him to stop. As Michael Brown raised
14 his head, the officer told hold to stop; is that
15 right?

16 Right.

17 : And he says, as Michael
18 Brown raises his head? And you said, as he raises
19 his head, he says stop right there. He asked you,
20 the officer says this? And your response was, yeah,
21 he did say stop. And when he left from that fixed
22 spot, then he was walking toward him.

23 And he asked you, towards the officer?
24 And you say, towards the officer. When he, as soon
25 as he put his foot on the street, he hit him three

1 times.

2 And he asked you like, how many steps do
3 you think he took before the officer fired? He
4 said, big boy, he didn't take that many steps, I
5 really couldn't count, yeah.

6 And so that's the first volley that he has
7 his hands down near his ribs at the time of the
8 first volley?

9 : Right.

10 : Okay. I just wanted to make
11 sure of that. That's why I wanted to ask you about
12 this, sir. You know, there were three or four times
13 where Detective , or you went back to when
14 Michael Brown turned around and where his hands
15 were. And on August 12th, I mean, there wasn't even
16 any mention with him having his hands up with his
17 palms facing the officer or all the way up.

18 : I didn't say, when he turned,
19 his hands was up, he was looking down to see where
20 he was hit.

21 : Uh-huh.

22 : His back was turned like
23 this. As he was turning around, still looking, when
24 he faced the officer, there they were.

25 Above his shoulders now?

1 No, they are right by his
2 shoulders, right by his shoulders.

3 : On the 12th you only
4 describe him as having his palms up toward the sky,
5 right?

6 No, I did not say that they
7 were pointing up. I said, his hands were up like
8 this. I didn't state palms towards the sky.

9 : All right.

10 If you go say that, no, no,
11 no, no, I never said pointed up.

12 : This isn't something he
13 wrote.

14 I didn't say pointed up
15 toward the sky.

16 : Detective asked you,
17 your arms are like palms up and hands --

18 : Palms up?

19 : -- with hands or fingers are
20 shoulder height?

21 Isn't this up?

22 : Palms up, right?

23 Is this up? I've got them
24 down like this now, this is my depiction of up, not
25 like this, this is my depiction.

1 : All right. One thing that
2 concerned me though is that people are coming
3 forward and saying that he had his hands up.

4 : Above his head.

5 : Above his head.

6 : Like this, all the way up.

7 : All right.

8 He didn't.

9 : But consistently as it is
10 described on August 12th, you have your palms up,
11 right? And not facing towards the officer, but
12 palms up, correct?

13 Right. When he turned to
14 face the officer, his hands were in this position.

15 : Okay. With his palms facing
16 out, sir, or were the palms facing up?

17 This is what I consider up.

18 So you consider this up?

19 : We need to be able to
20 describe this for the tape, that's --

21 This is facing forward, to
22 clarify?

23 Well, he was facing up then
24 facing forward.

25 Okay.

1 : Not like this. They were
2 facing him, hands u like this is my hands palms
3 facing the officer they weren't like this pointed
4 towards the sky. They were pointed toward him.

5 : That's what I wanted to ask
6 you is because on August 12th, I mean, you never
7 said anything at any time about his palms actually
8 facing the officer.

9 I said his hands were up. I
10 never said his palms were facing the sky. I said
11 his hands were up, about shoulder length, arms out
12 away from the body, that's what I said. I'm going
13 to stick with that because that's what I saw.

14 : Before the first volley
15 though, his hands were coming down towards his rib
16 cage?

17 Yeah, he was looking for
18 them, he's still looking like. He's searching to
19 see where he was shot. His arms were like this.

20 : All right. Now you have
21 your palms sort of facing --

22 Right, like this. He is
23 searching his body and looking at his arms and
24 everything to see where he was shot.

25 : All right.

1 : When he turned around and
2 faced the officer, I'm going to say it again, this
3 is what I saw. His hands was up shoulder length,
4 palms facing the officer, not up toward the sky.
5 That is my definition of palm, hands up, okay.

6 Now, when the people down the street
7 demonstrate they say hands up, they are like this.
8 Not like that, but like this.

9 : Hands straight up in the
10 air?

11 Right.

12 : And that didn't happen?

13 : No.

14 And just to clarify there,
15 you were then demonstrating that after he turned
16 around, his hands come back down towards his rib
17 cage and you were demonstrating, I want to make sure
18 this is clear for the tape. If you don't agree with
19 what I say, correct me, and I know that you will.

20 Uh-huh.

21 : When his hands come back
22 down, you're demonstrating that his palms are then
23 sort of facing towards himself as he is looking at
24 his body seeing if he is injured?

25 : Right, still looking, he's

1 looking again.

2 That was immediately before
3 that first volley of shots?

4 Right.

5 : And that was at the time
6 that the Officer Wilson was staying stop.

7 He had already stopped. He
8 was looking, he was turning around, still looking.
9 The officer said stop, he was turning. Okay. He's
10 doing this, my back is to the officer. He is
11 looking at his body like this. And just as he
12 started turning, the officer said stop and he was
13 still looking.

14 And then he looked up, and when he was
15 caught looking at the officer, his arm proceeded to
16 go out like this. Palms away from, facing the
17 officer, arms away from the body, palms facing in I
18 give up stance, I give up.

19 The officer again says stop. He wasn't
20 moving, he took a step up. He stepped out on the
21 street, his hands were still in the exact same
22 position, palms facing up, arms away from the body
23 and he shot him.

24 : Now, you just said though
25 that before he shot, before that volley, his hands

1 had come back down towards the rib cage.

2 He came down, right. He
3 still turned around before the shots, he looked up
4 and as he faced the officer, his hands went up. He
5 was still doing this as he was turning, looking at
6 himself. He was checking his body out to see what
7 was going on it.

8 As he turned, I'm looking, I'm turning,
9 I'm looking, his hands like this.

10 : You have your hands and your
11 arms --

12 Right, like this. It was
13 away from the body, palms are facing like this.

14 : Palms are facing towards his
15 own body?

16 Okay. I'm looking up, I see
17 you, you're the officer. His arms went up. That's
18 when I demonstrated to him as I was standing there,
19 okay.

20 Now, he asked me a question, yes. Hands
21 were up, that's it. This is what I say hands were
22 up. Not this. Every depiction of everything that
23 these people are doing out in the street so far,
24 photographs and T-shirts, hands up. Not palms up,
25 hands up.

1 : The hands straight up.

2 Right.

3 : That's what they are saying.

4 My definition what I saw his
5 hands were up like this, same way.

6 : Shoulder height?

7 But only they were here.

8 All right. But if I
9 understand correctly, what you said today and what
10 you said on August 12th is, he then takes a step or
11 two forward off that curb.

12 Uh-huh.

13 : The officer was saying stop
14 again.

15 : Uh-huh.

16 : And at the time of that
17 first volley, his hands had come back down towards
18 his rib cage where again he is looking to see if he
19 had been shot.

20 I have to say he already had
21 them down. As he turned, he started to face the
22 officer, his hands were up. They didn't come back
23 down again until after the volley was fired.

24 : The first volley?

25 : The first volley.

1 : I know we went over that at
2 length. So now, so tell me (inaudible) if so he's
3 running away, he stops.

4 : Uh-huh.

5 : I'm looking around, seeing
6 what's going on. He turns over this shoulder?

7 No, turn your back, you are
8 looking at yourself.

9 : I'm looking at myself, okay.

10 : All right. Now slowly turn
11 to me during the same thing.

12 : Over this shoulder?

13 : Whatever. And then as you
14 turn and you turn around and face me, then your
15 hands go like this.

16 I go like this. A round of
17 shots go off, his hands are still here.

18 His hands are here and then
19 he steps forward, stop.

20 As he's turning around, you
21 said going like this, does he take a step forward?

22 : As he did that, he took a
23 step forward, he said stop, but his hands was up by
24 the time he said stop.

25 Stop.

1 : He took a step, he was out in
2 the street. When his foot hit the street, bam, bam,
3 bam.

4 : So that's the first. So then
5 where do his hands go?

6 He is like this, he is like
7 this, they moving down.

8 He started doing this?

9 He didn't really tell, but he
10 got hit.

11 You show it was kind of like
12 a round.

13 It was like, oh, and then he
14 stopped. And then he was staggering to stay on his
15 feet, I'm staggering to stay on my feet, you're the
16 officer.

17 Yes.

18 I'm staggering to stay on my
19 feet and then I raise up like this, my hands are
20 still in this position.

21 Okay.

22 All right. I'm staggering,
23 I'm like this, I'm falling forward, I'm just
24 staggering towards you, I'm coming towards you.

25 : Okay.

1 : He takes three steps back as
2 he started staggering. He's still in the position.
3 When he started staggering forward, he let loose
4 again.

5 But he is staggering forward.

6 That's how he was. He was
7 barely up. He was trying to keep focus on the
8 officer.

9 : When you say he fell, he
10 didn't hit his knees, he fell face first.

11 : No, face first.

12 : The whole time he never moved
13 his hands down like this?

14 They were coming down as he
15 was falling.

16 : His hands could have been at
17 his side when he fell?

18 It could have been.

19 Okay.

20 : Let me ask you one more
21 time, they weren't --

22 : They weren't up under his
23 body.

24 : You say on August 12th, you
25 said Michael Brown standing facing the officer at

1 this point with his hands at his rib cage or

2 Detective says that and you say, yeah. And

3 he says, hands, palm up and you say uh-huh.

4 And he was looking, he says he was looking

5 down at his body at some point and you say, right,

6 right.

7 You said the officer as he raised his head

8 he told him to stop. He asked you, as Michael Brown

9 raised his head. You say as he raises his head, he

10 says stop right there. You say the officer said

11 this. And you say, yeah, he did say stop and he

12 left from that big spot that he was walking towards

13 him.

14 And he asked you, towards the officer?

15 And you say, toward the officer when he, as soon as

16 he put his foot on the street, he hit him three

17 times.

18 How many steps do you think he took before

19 the officer fired? You told him you didn't count

20 it.

21 So what you indicated there was at the

22 time he takes the steps toward the officer, and the

23 officer says stop right there, and then fires that

24 first volley, you say that just before that, Michael

25 Brown is standing, facing the officer at this point

1 with his hands at his rib cage, hands, palms up. So
2 this is while he is looking?

3 : They are about like this.

4 Yeah, but they're not, they are like this, they are
5 up.

6 That's fine. On August 12th
7 you said that at the time --

8 : Right.

9 : -- the first volley
10 happened, he was facing the officer with his hands
11 at his rib cage hands, palms up. Is that accurate?
12 Is that accurate what you said?

13 Yes, uh-huh.

14 : And then that's the first
15 volley of shots?

16 : First volley.

17 : Okay, I think I understand.
18 Hands up, no matter how you
19 say it, hands up.

20 : At his rib cage.

21 Right, about right in here.

22 He's a big boy.

23 : Right.

24 : All right. He had definitely
25 given up.

1 : The hands are at his rib
2 cage at the time of the first volley of shots?

3 Right.

4 : And with his hands, with his
5 hands --

6 Away from his rib cage, away.
7 Not at his rib cage, away, his arms are still
8 extended.

9 : Okay. So you have your hands
10 kind of out by your sides now.

11 Is this my rib cage?

12 I'm just trying to understand
13 for the tape. Your hands are now, they are lower
14 now, hands down by the side.

15 All right. (inaudible) The
16 ribs.

17 : Is it fair to say that at
18 the time of that first volley, Michael Brown is
19 standing, facing the officer, with his hands at his
20 rib cage, hands, palms up. Is that yes?

21 : I don't like the phrase palms
22 up because when you say palms up, I'm saying his
23 hands are like this.

24 : all I'm doing is
25 asking about your statement on August 12th.

Page 96

1 Okay. I didn't say palms up.

2 Hands up. I never said palms up.

3 : Okay. Well, repeatedly on

4 August 12th it was palms up.

5 No, I said hands up, I never

6 said palms up.

7 : All right, that's fine.

8 I said hands.

9 : I don't think we have

10 anything else. I just wanted to clarify that and

11 make sure what we have here, but what you've

12 indicated though is what you said on August 12th was

13 accurate and that is at the time of the first volley

14 he had his hands at his rib cage; is that right?

15 Yes.

16 : Okay.

17 Okay. So the interview is

18 completed 11 (inaudible).

19 MS. ALIZADEH: Okay. It is 11:33, we just

20 completed playing the recorded statement of

21 that was done by the FBI. Just making a

22 point of saying on the record that they took a break

23 during the interview. And I did fast forward

24 through the break because there was no conversation

25 during that time period, so we went forward to where

1 the interview resumed. Would you all agree with
2 that? You heard resume the interview, correct, all
3 right? Everybody is shaking their head, okay.

4 So we have here. Are we
5 ready to bring him in? Everybody ready?

6 Anybody need to stand up, go to the
7 bathroom? Let's take a two minute break.

8
9 of lawful age, having been first duly sworn to
10 testify the truth, the whole truth, and
11 nothing but the truth in the case aforesaid,
12 deposes and says in reply to oral
13 interrogatories, propounded as follows, to-wit:

14 EXAMINATION

15 BY MS. ALIZADEH:

16 Q Would you please state your name and spell
17 it for the court reporter, please?

18 A .

19 Q And, , I'm going to walk back
20 here because if I can't hear you, and I have
21 actually not the best hearing in the world, but I
22 know we might not be able to hear you. The
23 microphone that is in front of you does not amplify
24 your voice, it is recording.

25 So, and if any of you at any time

1 can't hear what he says, you need him to repeat
2 something, please raise your hands.

3 So, can you tell me how
4 old you are?

5 **A** .

6 **Q** And where do you live?

7 **A** .

8 **Q** That's in the Canfield Green Apartment
9 Complex?

10 **A** Yes, it is.

11 **Q** And how long have you lived there?

12 **A** Uh, about years.

13 **Q** And back in August of this year you were
14 living there; is that right?

15 **A** Yes.

16 **Q** And you lived there, I'm not going to ask
17 you the names, but you lived there with ;
18 is that correct?

19 **A** Correct.

20 **Q** And I'm going to show you, this is a
21 laser pointer. So there is a little button right
22 here and there is a map that is next to the witness
23 stand. It is marked Grand Jury Exhibit 25. We have
24 been using this for the past few meetings.

25 Do you recognize this as being the

1 streets and the buildings that comprise the
2 apartment complex of Canfield Green?

3 **A** Yes.

4 **Q** Okay. And just to situate yourself, this
5 is Canfield Drive that goes all the way through the
6 apartment complex, correct?

7 **A** Correct.

8 **Q** I will tell you over in this direction is
9 West Florissant?

10 **A** West Florissant.

11 **Q** As you are going down Canfield in this
12 direction you are going east and then the Northwinds
13 Apartments are east of the Canfield Apartments,
14 would that help orient you to how this is set up,
15 correct?

16 **A** Yes, uh-huh.

17 **Q** So now can you use the laser pointer and
18 point to what building you were living in in August?

19 **A** Right there. (indicating)

20 **Q** Okay. And so just so we can understand
21 these buildings, these are apartments; correct?

22 **A** Correct.

23 **Q** Do you have to enter the building before
24 you get into your apartment or does each apartment
25 have an exterior door?

1 **A** We have a porch, you walk up the steps, I
2 stay on the second floor and I go through the door.

3 **Q** So from the outside of the building you
4 walk up exterior steps?

5 **A** Yes.

6 **Q** And then your front door is on the
7 exterior of the building?

8 **A** Correct.

9 **Q** And so is there like a little, is it
10 wooden steps?

11 **A** Yes.

12 **Q** So is there like, uh, you said porch, like
13 a little decking area?

14 **A** Yeah, a little small wooden porch.

15 **Q** Okay. And that's right where your front
16 door is?

17 **A** Yeah, off, go from one side of the
18 building, from one side of the steps all the way up,
19 one continual porch.

20 **Q** So where you were pointing before, this
21 little jet out on the roof of the building.

22 **A** Yes, there are steps right here. You come
23 around and you go up these steps.

24 **Q** Okay.

25 **A** This is the overhang right over the steps.

1 **Q** Okay. So this part is like an overhang
2 that covers the steps from the elements?

3 **A** Right, yes.

4 **Q** And so you said that the decking or the
5 porch, some people call it a balcony?

6 **A** Right.

7 **Q** It goes all the length of the building?

8 **A** Yeah, right. It spans almost halfway
9 between where I am now where the red dot is and the
10 end of the building, so just to about the middle.

11 **Q** Okay. Are there other apartments front
12 doors on this side of the building?

13 **A** Mine is on this side, this is this is
14 and the third floor and

15 **Q** If this is the west side of the building,
16 there is other front doors is what I'm saying.

17 **A** There's one more.

18 **Q** Okay. And you all share that balcony
19 then?

20 **A** Correct.

21 **Q** And you said you are on the second floor?

22 **A** Right.

23 **Q** So is there another way to get out of the
24 apartment besides the front door?

25 **A** No.

1 **Q** No slider, no glass or anything?

2 **A** Well, we have sliding glass doors, excuse
3 me, other than the front door that opens out onto
4 the porch. So we can get a breeze.

5 **Q** Okay. So you can go out onto the porch
6 through the sliding glass door?

7 **A** Correct.

8 **Q** As well as the front door?

9 **A** Yes.

10 **Q** Okay. And so, um, from when you stand,
11 now, is there any furniture on your porch?

12 **A** Yes, I have two chairs and a table.

13 **Q** Do you have a habit or just something you
14 like to do is to sit out on the porch?

15 **A** Yeah, I like to sit out on the porch early
16 in the morning. Sometimes, especially when the kids
17 are going to school I sit out and keep an eye on
18 them. And I have a neighbor downstairs who lives in
19 the lower level and sometimes her and I sit out and
20 talk, you know, since I'm collecting Social
21 Security, I don't work and she's retired, and keep
22 each other company, just keep an eye out.

23 **Q** Okay. And just, again, so I'm clear, does
24 this porch or deck or balcony, whatever we are
25 calling it, does it wrap around to the other side of

1 the building?

2 **A** No, it doesn't.

3 **Q** So when you sit on your chairs, are you
4 north of the little staircase?

5 **A** I'm right here. (indicating)

6 **Q** Okay. And so from that position when you
7 are on your balcony at that position you have a good
8 shot down Canfield?

9 **A** I can see all the way down to this end.
10 Almost right to the bend.

11 **Q** Okay. So now, let's talk about the 9th of
12 August. You know the exact times are not important,
13 but this occurs a little after noon on the 9th?

14 **A** Yes.

15 **Q** Do you remember was there anything that
16 memorable about your day prior to that? Do you
17 remember anything happening or special?

18 **A** It was normal. I was watching the
19 gentlemen that were working on this side here. They
20 were making a lot of racket, they were doing a lot
21 of plumbing and excavation over here.

22 My bedroom window is located on this
23 side, so I can see this building completely and I
24 can see up to about right here from my window.

25 **Q** Was home that day?

1 **A** Yes, was.

2 **Q** Okay. Now, we know that other people
3 arrived at the apartment, but in the morning, was it
4 just you and your home that day?

5 **A** Yes.

6 **Q** And so just to be clear, from your bedroom
7 window, which you say is on the north side of the
8 building, there is no balcony?

9 **A** No.

10 **Q** You can't get out of your bedroom from
11 there?

12 **A** No.

13 **Q** Okay. So, and it was a clear day?

14 **A** Yes, it was.

15 **Q** Sunny and hot, right?

16 **A** Right.

17 **Q** Do you have air conditioning in that unit?

18 **A** Yes, central air, yes.

19 **Q** Pardon me?

20 **A** Central air, yes.

21 **Q** So would you of had your windows closed, I
22 mean, it is August 9th I would imagine you probably
23 have the AC running?

24 **A** Well, we didn't turn it on, we like to
25 keep it off for a while. We will turn it off early

1 in the morning and wait until the temperature rises
2 because can't take the cold that much. So I
3 usually wait until maybe 1:00 or 2:00 and then I
4 will turn on the air when it starts to get hot.

5 Q When you don't have the air on, do you
6 have the windows open or closed?

7 A Open.

8 Q How about the sliding glass door, would
9 that be open, do you have a screen for that slider?

10 A Sometimes has it open, sometimes
11 doesn't. occupies the living room.

12 Q Okay.

13 A That's domain.

14 Q All right. So, at some point, we know
15 that your brother and his wife come over to you and
16 apartment, correct?

17 A Correct.

18 Q But at some point there is something that
19 draws your attention to the street, correct?

20 A Correct.

21 Q Whatever it is, and we'll talk about it in
22 a second, whatever draws your attention to the
23 street, is that before or after your brother and his
24 wife get there?

25 A It is practically simultaneous.

1 **Q** Okay.

2 **A** I was looking out the window and I saw two
3 gentlemen walking down, they were right on the
4 middle line walking down the street. I couldn't
5 overhear, but they were saying something to the
6 workers. They were walking in the very middle of
7 the street, which caught my attention.

8 I saw my brother's truck coming this
9 way, so I got up to meet him at the door. That's
10 what happened.

11 **Q** Okay. You saw two gentlemen walking down
12 the middle of the street you say?

13 **A** Right.

14 **Q** And they were walking west toward West
15 Canfield?

16 **A** Right.

17 **Q** I mean West Florissant.

18 **A** Yes, towards West Florissant.

19 **Q** Just to be clear about this, did you see
20 them walking and then do you see them later in a
21 different position?

22 **A** When I, as I saw them pass, I saw my
23 brother's truck coming down, I got up.

24 **Q** Did you see --

25 **A** By the time I got to the door and opened

1 the door, my brother had just pulled in.

2 Q Okay.

3 A They were located right about right here.
4 (Indicating).

5 Q Okay.

6 A They had progressed past this one driveway
7 and they were right about here, almost close to the
8 next driveway.

9 Q Okay. And now the two men we're talking
10 about, was one of the men Michael Brown?

11 A I later found out it was, yes.

12 Q But it is the same person that you later
13 see get shot in the street?

14 A Yes.

15 Q And we know, we've heard from your
16 previous statements that you knew who he was from
17 the complex, but you didn't know his name on that
18 date?

19 A No, I didn't.

20 Q And you weren't friends with him other
21 than a polite greeting in passing?

22 A Yes, he has a friend who lives in this
23 building right here. He would come through every
24 now and then, he would speak to me and the lady
25 downstairs or sometimes I see him at the store, at

1 the QuikTrip or any of the other stores. He would
2 always speak to me, I would speak to him.

3 Q But you recognized him as someone you had
4 seen in the complex?

5 A Right.

6 Q What about his friend?

7 A I had never seen him before.

8 Q Okay. And Mike Brown, we know is a big
9 guy?

10 A Yes.

11 Q He was 6'5" or something like that?

12 A Yes.

13 Q And the other gentleman, was he shorter?

14 A Shorter.

15 Q Skinnier?

16 A Thin, dreadlocks I think it was, braids,
17 whatever you call them.

18 Q And so you saw those two guys walking
19 from, they stopped, you saw them talking to the two
20 construction workers?

21 A Yeah, kind of slowed down, they were
22 talking to them as they were steadily walking.

23 Q Okay. So they didn't stop and chat for
24 like 30 minutes or anything like that?

25 A Not for long, I don't think they stopped

1 that long, no.

2 **Q** And at this point, other than you saw them
3 walking down the middle of the street, was there
4 anything that was odd to you?

5 **A** No.

6 **Q** Nothing?

7 **A** Nothing odd, no.

8 **Q** And so you see your brother driving his
9 truck down and he pulls onto Caddiefield, does he
10 park and he and his wife get out of the truck?

11 **A** He parks, almost immediately as soon as he
12 comes in because right behind him was an officer,
13 excuse me, he was coming in this direction. And my
14 brother got out and heard him say something, I
15 couldn't overhear what he said.

16 **Q** Okay. Let me stop. You said your brother
17 got out and you couldn't hear what he said. Are you
18 talking about your brother?

19 **A** No.

20 **Q** Saying something?

21 **A** No, by the time he got to the porch, the
22 truck was coming down, the officer's vehicle was
23 coming this way. By the time my brother got to the
24 porch, he was just past the two guys. He slowed
25 down and then he kind of went a little further and

1 then he backed around and he turned around and he
2 came in, like cut them off.

3 **Q** Okay. So let's stop. So your brother has
4 got, what is it a pickup truck or SUV?

5 **A** He has a SUV.

6 **Q** SUV. So he's coming in from this
7 direction, does he pass this Mike Brown and the
8 other kid walking in the street?

9 **A** Yes, he had just passed. He had to pass
10 them when he got to my driveway. They were past my
11 entranceway right there, they were about right here.

12 **Q** So your brother goes past them, did he
13 have to go like around them, are they still in the
14 middle of street?

15 **A** Yeah.

16 **Q** They are still in the middle of the
17 street?

18 **A** Right.

19 **Q** Your brother then goes this direction and
20 you said you see a police vehicle?

21 **A** Right.

22 **Q** And is it an SUV?

23 **A** Yes, it is.

24 **Q** And it is a Ferguson vehicle?

25 **A** Yes.

1 **Q** And you see it driving in which direction,
2 coming from here?

3 **A** Going this way, going eastbound.

4 **Q** When is the first point you notice the
5 Ferguson vehicle, where was it?

6 **A** When my brother pulled in, he was about
7 right here. (indicating)

8 **Q** And you say he was driving this way?

9 **A** Yes.

10 **Q** East?

11 **A** Right.

12 **Q** And then does he pass the two guys that
13 are walking in the street?

14 **A** I'm looking, my brother's back there, we
15 looked around, him and his wife. He kind of slowed
16 down and said something. And he had just got maybe
17 a few feet past them, right about here, all right,
18 and they were steadily walking. I couldn't hear
19 from the distance, I couldn't hear anything that
20 they are saying.

21 **Q** Okay.

22 **A** Next thing we know.

23 **Q** Let me stop you. Are you now, where are
24 you in your apartment?

25 **A** I'm on the my porch.

1 **Q** By the front door?

2 **A** I'm outside my on the front door right at
3 the railing.

4 **Q** Okay. And so you stayed, you couldn't
5 hear if anything was said?

6 **A** No.

7 **Q** And then what happens next?

8 **A** The officer backs his car up and he kind
9 of put the car at an angle with the front pointed,
10 okay. Let me see right here. His car was pointed
11 toward that tree, there is a tree right there if you
12 can see it. And I'm looking at the passenger side,
13 we're looking at the passenger side, we couldn't see
14 the driver's side.

15 **Q** So you're saying that the police vehicle
16 was still pointing east?

17 **A** Yes, he was still pointing east, sort of
18 east. He was sort of at an angle. I've got a 45
19 degree angle.

20 **Q** But he never turned around in the street?

21 **A** No.

22 **Q** So he passes the boys and then backs up?

23 **A** Yeah, and cuts them off.

24 **Q** Okay.

25 **A** He cuts in front.

1 **Q** And then the vehicle stops at somewhat of
2 an angle?

3 **A** Yes.

4 **Q** Okay. But from your vantage point here,
5 you are seeing the passenger side of the car?

6 **A** Yeah, I couldn't see the driver's side.
7 We're looking at the passenger side, and Michael and
8 the gentleman were on this sidewalk, on this side.

9 **Q** So, let's be clear --

10 **A** No, they were close to the side -- they
11 are on the sidewalk side, but they were still in the
12 street.

13 **Q** Were they on the driver's side of the
14 vehicle?

15 **A** At that time, when he cut them off, they
16 were both on the driver's side.

17 **Q** Okay. So let me ask you, when they were
18 walking down the street, did they stay on the yellow
19 line in the middle of street?

20 **A** Yeah, they stayed in the street.

21 **Q** But the officer cuts them off?

22 **A** Right.

23 **Q** And so, but they're on the driver's side
24 of the car at this point?

25 **A** Yes, but they are still in the street,

1 they're not on the sidewalk, they are still in the
2 street.

3 Q All right. And so is the officer's
4 vehicle between you and the boys?

5 A Yes.

6 Q Now, we know Mike Brown was tall, could
7 you see his head over the roof of the car?

8 A A little bit, yes.

9 Q Okay. But did you, was it, what about the
10 smaller guy?

11 A Couldn't see him.

12 Q Couldn't see him?

13 A No.

14 Q Then why don't you describe what happened
15 next?

16 A Okay. After the officer stopped and
17 pulled in that position. Michael walked, something
18 he was saying, I don't know what he was saying or
19 whatever. He proceeded to walk towards the
20 officer's truck on the driver's side. They was
21 still located right here. (indicating)

22 Q Okay.

23 A Okay. Then my brother noticed, he said
24 wait a minute, looks like they're struggling. We
25 are looking at the car, we can see them tussling,

1 all right. His head was above the truck for a
2 moment and then it went below it.

3 Q Okay.

4 A All right. And it was still tussling.
5 His friend had backed up a step back on the
6 sidewalk, then we heard a shot. His friend ran this
7 direction, Michael ran to this driveway right here,
8 beside this building.

9 Q Just so we can be clear, this street is
10 Copper Creek Court?

11 A Right.

12 Q So you are saying, you had the pointer,
13 the little laser --

14 A Right, right here.

15 Q -- at the corner of Canfield Drive and
16 Copper Creek Court?

17 A Right, he had ran towards this way. As
18 he's running --

19 Q He's running east down Canfield?

20 A As he's running this way, the officer got
21 out of his truck, came around from the back, got to
22 this side where he was now on the driver's side
23 because he had a clear line of Michael over here.

24 Then he assumed his position with the
25 pistol. As he turned around, as he came around, he

1 was coming up with the gun. He held the gun up like
2 this. (indicating) When he got to here, Michael was
3 standing right on the grass and he was like looking
4 down at his body.

5 Q Okay. Let me stop you here. At this
6 point have you seen anything in Michael's hands?

7 A No.

8 Q When he was stopped, when they were
9 talking down the street, did you see anything in his
10 hands?

11 A No.

12 Q How about the other boy, anything in his
13 hands?

14 A No.

15 Q They weren't carrying anything that you
16 saw?

17 A No.

18 Q And then you said, you know how important
19 some of this gesturing has been, right?

20 A Uh-huh, right.

21 Q So they are here to actually witness what
22 you are going to do. And so you say when Michael
23 Brown gets to, is he in the grass actually?

24 A He's is standing at the very edge. Okay.
25 The driveways are blacktop, he is stopped right at

1 the blacktop right, at the very edge.

2 Q Okay.

3 A His back was turned to the officer.

4 Q Okay.

5 A And he had his hands like this, like he's
6 looking down at his body to see.

7 Q Okay. Can I ask you to stand up that will
8 really help them to see what you're doing and he's
9 stopped now?

10 A He's stopped with his back towards the
11 officer and he stopped and he was doing this. As he
12 was trying to see where he was shot.

13 Q Okay.

14 A All right.

15 Q Uh-huh.

16 A As he was turning, at that time the
17 officer had already been around to the back of his
18 truck and got into his spot. By the time he got
19 there, while Michael was there, he was slowly
20 turning around and the officer said stop. When
21 Michael turned around, he just put his hands up like
22 this. They were shoulder high, they weren't above
23 his head, but he did have them up. He had them out
24 like this, all right, palms facing him like this.

25 The officer said stop again. Michael

1 then took a step, a few steps it took for him to get
2 from that blacktop to the street. When he stepped
3 out on the street, the officer said stop one more
4 time and then he fired. He fired three to four
5 shots. When he hit him, he went back. Can I stand?

6 Q Sure.

7 A When he hit him he, did like this, and he
8 went like, like his balance -- he started staggering
9 and he looked up at the officer like why.

10 Q Now, just to be clear, you can't hear him
11 say anything?

12 A I can't hear him say that, but he's
13 looking at him and he is doing, you know. So then
14 as he's stopped, he's trying to steady, he starts
15 staggering, my brother says, he's not going to stand
16 up, he's getting ready to fall, he's getting ready
17 to fall.

18 He looks like he was trying to stay
19 on his feet, and he started staggering toward the
20 police officer and he still had his hands up.

21 At some point between the officer's
22 truck, which by that time this is about 30, 35 feet,
23 when he reached out into the street, he started
24 walking toward the officer, the officer took three
25 steps back and he yelled out stop to Michael again

1 three times.

2 Michael's steadily walking toward
3 him. More or less to me and to my brothers, he was
4 staggering.

5 Q Okay. To your brothers, did you have more
6 than one brother?

7 A Well, I mean my brother. I didn't mean to
8 say brothers, my brother. He was staggering, you
9 know. And as he was staggering forward, his head,
10 his body kind of went down at an angle. He was like
11 this, more or less fighting to stay up. You could
12 see his legs wobbling.

13 Q Were his hands the way you had them?

14 A His hands were coming down like this, all
15 right. And he had his head up and he's facing the
16 officer like this and he is steadily moving, and the
17 officer was moving back, stop. He yelled stop the
18 third time, he let off four more shots, but as he
19 was firing, Michael was falling. After he stopped
20 firing, Michael, he went down face first, smack.

21 When that happened, another police
22 truck SUV pulled in behind him, again, assumed
23 almost that exact same spot. He pulled in almost at
24 the exact same angle.

25 The officer, when we looked around,

1 he was gone, we didn't see him. His friend, we
2 never saw him.

3 Q When you said we looked around, the
4 officer was gone?

5 A He left.

6 Q Are you talking about --

7 A He didn't drive off, he walked away. He
8 must have walked back to the other officer.

9 Q Okay. Are you talking about the officer
10 who did the shooting?

11 A Who fired the shot.

12 Q Okay. He had walked away from Michael
13 Brown's body?

14 A Right.

15 Q Okay.

16 A He walked back and the other officer was
17 coming towards the driveway. We never saw him.

18 This is when I lost sight of what was
19 going on.

20 Q Why did you lose sight of what was going
21 on?

22 A Because [redacted] freaked out,
23 and sister-in-law freaked out.

24 Q Did you go inside your apartment?

25 A No, [redacted] was standing right at my shoulder.

1 **Q** Okay.

2 **A** Okay. All I did was turn around, was
3 like oh, my God, was about ready to collapse.
4 , oh, I never seen anything like that. That's
5 when my attention turned to

6 My brother's attention turned to his
7 wife. She was standing to right. My attention
8 was to . So when I grabbed to try to calm,
9 because get together and got in, backed
10 up and went in and sat down. I told hold on,
11 I'll be right with you.

12 My sister-in-law came in and she
13 walked in the door and she was freaking out. She is
14 running all through the house. And when we looked
15 back, we never saw the sight of the other officer.
16 We saw the other police officer walked up to the
17 sidewalk. He stopped right there. And then
18 everyone from this side, from this building, this
19 building, started running up to the front. And then
20 there was a crowd that came from this way.

21 It is almost like someone had,
22 whatever kids are doing and the crowd is whoosh,
23 came right there, that was it.

24 **Q** Okay. Now, you wear glasses I see?

25 **A** Yes.

1 **Q** Do you need them for distance or reading
2 or both?

3 **A** Both.

4 **Q** Did you have them on that day?

5 **A** Yes.

6 **Q** So when you wear your glasses, would you
7 say your vision is good?

8 **A** Yes.

9 **Q** Okay. Now, after the officer shot Michael
10 Brown and he went down in the street, did you ever
11 see anybody move Michael Brown's body or than when
12 they took it away?

13 **A** No, huh-uh.

14 **Q** What about the officer who shot, did you
15 ever see his car move after that?

16 **A** No, it stayed in that position the whole
17 time.

18 **Q** Okay. And then you know that, did you see
19 later in the day that there were multitude of police
20 officers there?

21 **A** Tremendous amount.

22 **Q** And did you see that they were doing crime
23 scene work, they're collecting things, they're
24 taking measurements, did you see any of that?

25 **A** I saw a few of them. When they got there,

1 they put tapes up, can't even see there's a pole and
2 another tree right here. They ran it from here to a
3 pole here, across the street and then there's
4 another tree here. They had almost like boxed it in
5 right there.

6 While they were doing it, that's when
7 the stepfather, I later found out was the stepfather
8 and his cousin were coming down the street. She was
9 screaming and hollering, and my focus was on the
10 stepfather because I was trying, they was trying to
11 keep him from crossing the tape. He wanted to go
12 over and see his body.

13 When he got there, I left out of my
14 apartment, went around the street, got right up here
15 where his head was pointing towards this direction
16 to see who he was. I had an idea, but I wasn't
17 sure. When I got there, I saw his face, that's when
18 I noticed who he was. When I saw that, I'm like oh,
19 my God. So I went immediately back. I just wanted
20 to go down there to see.

21 I'm still worried about and
22 my sister-in-law because they was still freaking
23 out. When I got back, the lady that is downstairs
24 with me and I told her. You know that big guy that
25 we see? We call him the gentle giant. You know the

1 gentle giant that comes through? She say, yeah.

2 That's who is laying out in the middle of the
3 street, and then she freaked out.

4 Q Right, of course.

5 A Uh-huh.

6 Q And , I'm not trying to confuse
7 you or have you change your recollection in any way?

8 A Okay.

9 Q After this occurred, police officers
10 arrive on the scene and were taking photographs, did
11 you see any of that?

12 A No, I didn't.

13 Q Okay. I am going to show you a couple of
14 photographs that were taken and these are
15 photographs that have been identified previously as
16 contained in Grand Jury Exhibit 3. Detective ,
17 the crime scene person, had taken these photographs.
18 And I am going to show you what I've marked as Image
19 Number 24.

20 I didn't mark it, it is already
21 marked as Image Number 24, okay. Now, looking at
22 that image, if I tell you that in this direction the
23 cameraman is facing West Florissant.

24 A Uh-huh.

25 Q And this is the officer's vehicle in

1 street, do you see which direction it is facing?

2 **A** Yes, it is right there.

3 **Q** But it is generally, you're right, it is
4 catty-corner, but it is facing towards West
5 Florissant?

6 **A** Right. I'm thinking, see here is the
7 sidewalk. See where it is looking towards me is
8 right down the street.

9 **Q** So I'm going to show you Image Number 25,
10 which is a little closer view of that vehicle?

11 **A** Yeah, I'm still seeing it's pointing
12 toward the sidewalk from my viewpoint. It is
13 pointing toward the sidewalk.

14 **Q** And this direction is West Florissant?

15 **A** Correct.

16 **Q** Does that change your recollection of
17 which direction the officer's vehicle was facing?

18 **A** Yes, it does. This is wrong, this is
19 wrong.

20 **Q** You are saying this is wrong and I want to
21 make sure we're clear on. Do you believe that the
22 pictures are wrong?

23 **A** From the angle.

24 **Q** You think that the pictures are wrong from
25 the angle. Let me see if I can find different

1 pictures from different angles. This is Image
2 Number 18. That's Officer's Wilson car there.

3 **A** Okay.

4 **Q** This is Number 19, this is Officer
5 Wilson's car?

6 **A** Yes, okay. My apartment is on this side.
7 So, yes, that is correct.

8 **Q** So does that change your recollection
9 about which direction the car was facing?

10 **A** I'm saying, yeah, I still say it was
11 pointed towards the guy, his body. This is the
12 angle, yes, I had it this way. It is that way from
13 my angle from where I'm looking.

14 **Q** Okay. So but you still believe that the
15 officer's vehicle came from this direction?

16 **A** Right.

17 **Q** Okay. And it never turned around in the
18 street?

19 **A** I didn't see it turn around.

20 **Q** Do you know how the officer's vehicle
21 got --

22 **A** He did it, he went past here as he was
23 going, all right. And then he eventually backed up
24 and turned. (indicating)

25 **Q** So it backed up?

1 **A** Yeah.

2 **Q** And so put it in reverse, I assume?

3 **A** Right, in reverse and turned around, cut
4 him off because they were still in the middle of the
5 street. When he passed them, he had to get a better
6 angle so he could get closer to them, I guess.

7 **Q** Okay.

8 **A** So yes, you are right. From my angle, the
9 truck was there.

10 **Q** As we're looking at Image Number 29, which
11 is again West Florissant to the right of the
12 picture.

13 **A** Uh-huh.

14 **Q** This would be the north side of the
15 street?

16 **A** Right, this side right here.

17 **Q** This side of the street is the north side
18 of the street?

19 **A** Right, uh-huh, that's the north side.

20 **Q** You are standing on the sidewalk on the
21 north side of the street, that's the passenger side
22 of the vehicle; is that right?

23 **A** Right.

24 **Q** And your apartment is actually on the
25 south side of the street?

1 **A** No, it bends around. See how it bends
2 around? The truck is pointing this way, I'm still
3 looking down toward it, I'm still, I'm looking at
4 the passenger side.

5 **Q** Okay. Now, from the point that you saw
6 Michael Brown stop and he turned around, to the
7 point where he eventually fell into the street, can
8 you give me an idea, your best estimate of how far
9 that was?

10 **A** I'm only guessing from where the officer
11 was standing the first time he stopped, about 30,
12 35 feet.

13 **Q** Okay.

14 **A** I might be off on that.

15 **Q** Okay.

16 **A** Because you understand also I'm way back
17 here, this.

18 **Q** Right here?

19 **A** Right here.

20 **Q** Okay.

21 **A** They are located right here. So to judge
22 the distance from there to there, you know, I may be
23 off from that.

24 **Q** Sure. But he runs in this direction,
25 comes to about this corner and turns around. Do you

1 recall when he turned around, did he turn around so
2 that he faced your direction or did he turn the
3 other way clockwise or counterclockwise or do you
4 know?

5 **A** He turned over left. So that would be
6 what, counterclockwise, yeah.

7 **Q** So if you are the officer and I'm Mike
8 Brown.

9 **A** Spin to your left, turn around to your
10 left, like that.

11 **Q** So as he turned towards the officer, his
12 back went to you?

13 **A** Yes.

14 **Q** Okay.

15 **A** Uh-huh.

16 **Q** Now, you said in a previous statement that
17 when he was looking down, it looked like he might
18 have been looking at his hands.

19 **A** Hands or side or whatever, he was trying
20 to look, I said looking at his body to try to see
21 where he was shot.

22 **Q** And you said previously that you could see
23 something on his hand?

24 **A** Yeah, it looked like he had something from
25 the distance, we weren't quite sure. In fact, we

1 kind of discussed that. I have told the officer it
2 looks like he had something on his hand, but I can't
3 give you 100 percent, I can't say for 100 percent
4 that it was something.

5 Q Okay.

6 A Because the distance I'm from him, I can't
7 really tell.

8 Q Sure.

9 A You know, that's what I thought.

10 Q As he turned around and he's turning
11 around away from you to face the officer, then if
12 he's on this corner and you are right here, you're
13 seeing him primarily from behind?

14 A Right, his back was turned. When he got
15 to the edge of the driveway where your finger is,
16 his back was turned to us and his back was facing
17 our side of the street. He had stopped. This is
18 the street, he stopped and he did like this. And he
19 was turning around like this, you know, on the left
20 side as you turn, that's the way he was turning.

21 Q He turned to face the officer, was the
22 officer in the street actually?

23 A Yes, he was at the rear of his vehicle at
24 that time. He had to pull his gun out and he had it
25 in his hand, you know, the defensive spot I guess,

1 or whatever they said it is.

2 **Q** Michael Brown would have been looking back
3 in this direction?

4 **A** He was looking, okay. The officer was
5 standing on this side out in the middle of the
6 street right here. He was looking this direction,
7 not that way.

8 **Q** This is the sidewalk right here.

9 **A** Well, he is looking out this way because
10 the officer's truck is still in the street. He's at
11 the rear of the truck, he's at the rear of his
12 vehicle.

13 **Q** And his vehicle was pretty much in the
14 middle of the road, correct?

15 **A** Right.

16 **Q** So the officer is in the middle of the
17 road?

18 **A** Practically, not in the middle, not in the
19 middle, he's closer to the side, he's closer to the
20 street, to the sidewalk.

21 **Q** On the south side?

22 **A** Yes.

23 **Q** Okay. So when Michael Brown turns, he's
24 looking in this direction?

25 **A** Yes, he's trying to see where the officer

1 is.

2 **Q** So from that direction, and where your
3 vantage point is, you can't really see his face at
4 that point, correct?

5 **A** No, just the side view.

6 **Q** Okay. And so you say, you said then at
7 that point his hands go up?

8 **A** Yes.

9 **Q** And the officer is telling him to stop,
10 but he moves towards the officer?

11 **A** Correct.

12 **Q** Okay. And if I were to tell you that from
13 this corner of Caddiefield, I'm sorry, Canfield
14 Drive and Copper Creek Court to where Michael
15 Brown's feet were in the street, in other words,
16 when he fell down, okay, and his body laid there.

17 **A** All right.

18 **Q** From his feet to that corner is 48 feet
19 and 2 inches, does that sound about right?

20 **A** I couldn't say for a certainty. If you
21 say that's the measurement, that's what it is. I
22 don't know the distance.

23 **Q** Okay.

24 **A** I'm not good at that distance.

25 **Q** Okay. But you saw him travel, when I say

1 travel, he moved from this corner toward the officer
2 until he was down dead in the street?

3 **A** Right.

4 **Q** And if that was measured, I don't want you
5 to comment on somebody else's accuracy, if someone
6 measured it and said it was 48 feet and 2 inches?

7 **A** I would have to agree.

8 **Q** Does that sound about right?

9 **A** I would have to agree, but I'm saying from
10 my vantage point from what I thought or assumed, it
11 looks like it was about 35 feet. If it measured
12 that much, then it is.

13 **Q** Okay. And as you say he turns around, he
14 puts his hand up and he starts to move toward the
15 officer, you hear the officer tell him to stop?

16 **A** Right.

17 **Q** And you said he gets two or three steps
18 and the officer shoots pow, pow, pow, three or four
19 times?

20 **A** Yeah.

21 **Q** And at that point you kind of acted, not
22 acted, I didn't mean to say acted, but you
23 demonstrated that he kind of appeared to have been
24 hit?

25 **A** Yes.

1 **Q** Did you see blood on him at that point?

2 **A** From my distance we couldn't see it.

3 **Q** Okay. And at that point also, I mean, you
4 are seeing him kind of from behind also?

5 **A** No, we're looking dead almost to his side.
6 Turn your shoulder facing her, I'm looking at your
7 side.

8 **Q** Okay.

9 **A** About like that.

10 **Q** A full profile?

11 **A** I'm looking at his profile.

12 **Q** Okay. And then he takes a few more steps
13 toward the officer, I mean, if the measurement is
14 correct, at some point he travels 42, or 48 feet and
15 2 inches from the corner to where his feet were.
16 But he only moves twice, according to what your
17 recollection is, correct?

18 **A** First time when he told him to stop, he
19 moved and stepped out into the street. Then he
20 started to stagger forward, the officer took some
21 steps back. He told him to stop, he yelled stop
22 three times again and after he yelled the third stop
23 he fired again.

24 **Q** Okay. Now, after the first round of
25 shots, not in the car, but after Michael Brown

1 turned around and you say you said his hands were in
2 this position. (indicating)

3 **A** Yes.

4 **Q** Or thereabouts?

5 **A** Correct, about shoulder height.

6 **Q** After he turned around, now you've said
7 previously that his hand kind of went limp by his
8 sides?

9 **A** Yeah, well, they started to come down
10 after he fired off that first volley.

11 **Q** Okay.

12 **A** He started coming, he was trying to keep
13 himself up. He looked like he was hit, so his hands
14 were naturally coming down.

15 **Q** So if you have a profile of him.

16 **A** Uh-huh.

17 **Q** And his hands are like this, as his hands
18 come down, could it be that his hand went somewhere
19 around his torso? (indicating)

20 **A** No, his hands kind of came, they were
21 still out to the side, he was still like this. He
22 was trying to balance himself, his hands came down
23 about chest or waist. He had his head up looking at
24 him and he was staggering, trying to stay on his
25 feet.

1 As he was moving, he was staggering
2 and that's when my sister-in-law and said,
3 oh, my God, he's getting ready to kill him. And
4 that's when the officer was backing up and that's
5 when he fired, I think he yelled stop, excuse me, he
6 fired the next round, next volley.

7 **Q** Okay. I'm not going to be so, I'm not
8 going to belabor this too terribly much. Do you
9 recall in your statement with the County Police, you
10 said after he was shot the first time his arms went
11 limp to his side?

12 **A** I said his arms were coming down, yes,
13 they were coming down.

14 **Q** Okay. And I know you haven't had an
15 opportunity to review your statements and I
16 understand that and your first statement was on
17 August 12th, so this would have been like on a
18 Monday after that shooting happened, 9th, 10th, 11th
19 12th, no, Tuesday, I guess. So I'm going to show
20 you what has been printed up, and this is a
21 transcript that is of August 12th.

22 **A** Okay.

23 **Q** Detective , do you remember
24 him?

25 **A** Yes.

1 **Q** And there was another detective,
2 correct?

3 **A** Uh-huh.

4 **Q** And they spent almost an hour or about an
5 hour talking to you that day. And at some point,
6 I'm going to refer you to page number 21. And you
7 talk about where his hands were after the first
8 volley of shots. And then you say after he hit him
9 with the three shots, they came down?

10 **A** Here, and I stood up and I showed him.
11 Like I said, his hands were about right here and
12 they look like he, looks like his hands, like I said
13 in the statement were limp, they were going down.

14 **Q** Detective says, okay, where at?
15 And you say, down besides his body like this. So
16 obviously you are demonstrating.

17 **A** Yes, coming down. By the time, when I
18 showed him, he asked me where they were, I stood up
19 and showed him that his hands were coming down.
20 They were down almost by his side, they were coming
21 down.

22 **Q** And then he says, okay, and you are
23 basically putting your hands down at your side and
24 you say, yeah, they were like they went limp.

25 **A** Yeah, they were like this.

1 **Q** Okay.

2 **A** This is the way I demonstrated.

3 **Q** Okay. And that's one of the problems
4 because obviously we can't see what you were doing
5 that day.

6 **A** Right.

7 **Q** And so that's why all of these times
8 people have been asking you, they go into, seems
9 like great lengths to try to describe what you are
10 doing, but for these people, if you would stand up
11 please one more time.

12 **A** Okay.

13 **Q** As Mike Brown stops.

14 **A** Right.

15 **Q** At the corner.

16 **A** Uh-huh.

17 **Q** Do what you say you saw him do with his
18 hands?

19 **A** The first time?

20 **Q** Yes.

21 **A** After the shot was fired from the truck.

22 **Q** Yes.

23 **A** When he reached right here.

24 **Q** Uh-huh.

25 **A** His back was turned. He was like this,

1 looking at himself to see what is going on. And he
2 started to turn with his back to me like this, he
3 had his hands up like this, and he looked at the
4 officer. The officer was at the back of his truck,
5 he yells stop.

6 So Michael took a step from the
7 blacktop to the street, he was walking towards him.
8 He was walking towards him, but he had his hands up
9 like this. (indicating)

10 When he stepped out into the street,
11 the officer fired three times. When he hit him, he
12 started to stagger around and his hands started,
13 like this coming down, so his hands were going limp
14 and he was staggering toward the officer.

15 As he was moving towards the officer,
16 the officer was moving back, and the officer told
17 him stop, stop, stop. By the time he said the third
18 stop, Michael was still trying to stay up on his
19 feet. That's when the comments were made behind me,
20 no, he's not going to shoot him again, the man can't
21 even stand on his feet. The next thing I know, he
22 fired the other shots.

23 He couldn't hardly stand up, so when
24 he fired, he was going down. When I went down and I
25 looked and I'm saying okay, that's the only way he

1 could have hit him in the head. He had to be going
2 down.

3 Everyone come back from the back
4 said, oh, no, he went down to his knees. He did not
5 go down to his knees. And then they said, the
6 officer walked up to him and shot him in the back of
7 his head. No, that's not what happened, okay. The
8 officer didn't walk over there and say okay, bam,
9 no, he didn't do that.

10 Michael did not go down on his knees
11 and stand there like that in front of the officer
12 like that. When he shot the last rounds, he went
13 down and he landed face first. Okay. When he hit
14 that ground, that's when my attention went from him
15 to her.

16 **Q** Right.

17 **A** All right. That's when everyone started
18 running up here making accusations and assumptions
19 they saw this young man lying down in the street.
20 They saw this police car, they saw the other car
21 over here, this other officer on the north side of
22 the street, on the sidewalk, then it went from zero
23 to 100 in a split second. Because the crowd got
24 there and then you had everyone that's on this side
25 here in the immediate building right across from him

1 that everyone over here came out.

2 It went from whew, it was terrible.

3 Q And from the time that Michael Brown
4 stopped on that corner until he fell in the street,
5 are we talking about a matter of just a few seconds?

6 A A few seconds. Again, that incident as
7 I've described from the people coming up, that
8 incident after that first shot, initial shot at the
9 truck when they ran it went from zero to 100 in a
10 split second also. It was slow motion to us, but it
11 was moving.

12 Q And just backing up briefly and talking
13 about what happened up at the truck. You said that
14 because the truck was pointed toward Northwinds and
15 they're on the driver's side, the car is between you
16 and them, correct?

17 A Right.

18 Q And so you can't really see what's going
19 on inside the truck, would that be fair to say?

20 A No, we couldn't.

21 Q You said, at some point in the previous
22 statement you said, when the officer fired or when
23 he heard the gunshot, it seemed like he was trying
24 to get him off of him?

25 A I don't know what was happening in that

1 truck.

2 Q Okay.

3 A I could not tell you. I could not see.
4 All we could see was there was some type of
5 disturbance or altercation at the side of that
6 truck, okay. We could not see if the officer got
7 out of the truck and/or Michael they say he got out
8 and Michael pushed him back in. We can't see that
9 because we are on the opposite side.

10 All I know is that when we heard that
11 shot and his friend went that way and Michael went
12 there, the officer exited his vehicle, came around
13 to the back and assumed the position. That's what
14 we saw.

15 Q Okay.

16 A And then after that, whew, they scattered.
17 It went bam, bam, bam, bam, it went so fast.

18 Q But do you remember on August 12th, again,
19 I'll show you here on a transcript when the officer
20 was asking you, and he's talking about what was
21 happening, what was going on at the car.

22 A Right.

23 Q And Detective says, who never
24 exited the car? And you said, the officer. And he
25 says, okay. And you said, he never exited. He shot

1 him to get him off of him, that was your impression
2 on the 12th?

3 **A** Right, that's my impression on the 12th.

4 **Q** Okay. Has that changed, do you still feel
5 that the officer, in your opinion, it looked look he
6 was trying to get him off of him?

7 **A** Whatever was going on in that truck, if
8 Michael had a grip on him or he had a grip on
9 Michael, some way he just felt the only way he can
10 get him out or so that he can get control of the
11 situation was to fire. He fired.

12 When he came out and he stepped out
13 into that street and he fired the first volley, we
14 figure okay, that's it. We were also yelling at
15 him, and my sister-in-law yelling, stop
16 man, stop, stop, stop.

17 As he was staggering forward, that's
18 when he said oh, my God, he's getting ready to kill
19 him because he backed up, the officer backed up and
20 then he shot him again.

21 To this day no one is going to change
22 my mind, if he had not fired that last volley, that
23 young man would have been alive. Because even
24 though he was coming toward him, he had no weapon.
25 His hands were coming down. They were not in front

1 of him they, were to his side.

2 Q Okay.

3 A He was staggering, trying to stay on his
4 feet. The only way he could have got shot in the
5 top of his head when he was firing that last round,
6 he was on his way down, he hit him in the top of his
7 head. Eye, top, only way.

8 Q So in a matter of seconds, you can clearly
9 see that Michael Brown was going down?

10 A Right.

11 Q When the second volley went out?

12 A Right.

13 Q When the second volley went out.

14 A That second volley went off, he was
15 coming, you can almost tell his body was going limp
16 because he was like this, he was like this. He was
17 looking up at him, like I'm looking at you and I'm
18 still trying to stay on my feet. Only way he could
19 do was go down, he's top heavy. The man was
20 290 pounds. (indicating)

21 Q But from this point to where he moved
22 toward the officer, you would agree if the
23 measurement said 48 feet, that that's about right?

24 A I said 30, 35, if it says 48, it was 48.

25 MS. ALIZADEH: Sheila, do you have any

1 questions?

2 MS. WHIRLEY: Yeah, just for
3 clarification.

4 Q (By Ms. Whirley) You heard the first shot
5 in the car; is that correct?

6 A At the car.

7 Q And when was the next time you heard
8 shots?

9 A Was when Michael got to this driveway.

10 Q Okay. So when the shot was fired at the
11 police car, Michael ran?

12 A Right.

13 Q Did the officer trot or run after him?

14 A No, he exited his vehicle, Michael was
15 going in this direction to here. He had to come
16 around so he can get an eye on him. If he went
17 around to this side, I don't think he could have
18 seen him. I mean, if he hadn't of stopped, I don't
19 think he would of had a good line of sight on him.

20 I think in his mind, the only way he
21 thought maybe he thought he was going to run back
22 the way he came, I don't know.

23 Q Okay.

24 A What was going through the officer's mind,
25 I don't know his procedure or what they are trained

1 to do. All I know is he came out of the car and he
2 came around to the back. He was standing at the
3 rear.

4 Q Okay. Did he shoot at Michael Brown while
5 Michael Brown was running?

6 A We didn't hear no shots until after he got
7 there and he moved off. When Michael got there, he
8 had already stopped. He stood right there and the
9 officer told him stop.

10 Q Okay.

11 A Even though he had already stopped.

12 Q Okay. So between the time that Michael
13 Brown ran from the police car and Michael was at the
14 intersection of Copper Creek --

15 A Copper Creek and Canfield.

16 Q -- and Canfield. You didn't hear any
17 shots fired?

18 A No.

19 Q So Michael Brown, he tells Michael Brown
20 to stop?

21 A Right.

22 Q Michael Brown had stopped, but his back
23 was to the officer?

24 A Yes, and he was turning, he was turning as
25 the officer yells stop.

1 **Q** At the time that his back was to the
2 officer, did it appear to you that he had been shot?

3 **A** I assume that he was because his hands was
4 up, he was standing with his back to us, but he was
5 looking at his body. As he was turning, he was
6 still looking down. And, you know, when he yelled
7 stop, his head came up and was looking at the
8 officer, and he did like this. (indicating)

9 **Q** Okay. So when he had his back to the
10 officer and he had stopped at that intersection that
11 we just talked about.

12 **A** Right here. (indicating)

13 **Q** He appeared to be shot to you at that
14 time?

15 **A** I assumed he was.

16 **Q** Why?

17 **A** Because of the proximity of him and the
18 officer at the truck.

19 **Q** You felt he must have been shot at the
20 truck?

21 **A** Right.

22 **Q** Okay. So he turned around and you already
23 demonstrated that he had, he was staggering and he
24 had his hands up, was it in your opinion was he
25 surrendering at that point?

1 **A** When he left from here and he was walking
2 toward him, I believe he was giving up.

3 **Q** Why?

4 **A** Because his hands was up, he was walking
5 toward him. Where was he going to go. The officer
6 was standing there with a gun dead aimed on him.

7 **Q** And you never saw a weapon with, you never
8 saw Michael Brown with a weapon?

9 **A** No, no.

10 **Q** Did you ever see Michael Brown appear to
11 be reaching for a weapon?

12 **A** No, no, his arms never went down to reach
13 for his belt, his hands stayed in this position
14 until he stepped off, off of this right here into
15 the street. And then when he got shot, that's when
16 his arms started moving. He was like oh, my God,
17 that's it, okay.

18 At that time when he fired off that
19 first volley right there, it still didn't look like
20 he was trying to reach for any weapon, he was trying
21 to see what was going on, where he was hit, all
22 right.

23 As he was coming off of there and
24 fired that next volley, his hands were coming down
25 beside his body. It was like he got hit, that's it.

1 He started staggering, he was staggering as he was
2 doing it. As he came, his body, his torso, his legs
3 were straight up, but his torso was almost like at a
4 45 degree angle with his head came up to look at the
5 officer.

6 The officer moved back three steps as
7 Michael was walking toward him or staggering toward
8 him, he took about three steps back and he was still
9 yelling. I clearly heard him tell Mike, stop, stop,
10 stop. But you can say that the man was in distress,
11 he was trying to stay on his feet. As he said that,
12 after he said the last stop, he fired.

13 Q Could you tell, I know you said you are
14 not good with distances, but could you tell how far
15 the officer was from Michael Brown when he fired
16 those last shots?

17 A After looking at it, again, I'm bad at
18 distances, but I would say at least about 20,
19 25 feet.

20 Q 20, 25 feet. Okay. I'm going to walk out
21 and by that I mean I'm going to come where you are
22 in this room.

23 A Uh-huh.

24 Q And then I'm going to start going
25 backwards so you can let us know how far, I'm going

1 to be Michael Brown and you will be the officer,
2 okay?

3 **A** Okay.

4 **Q** So I'm going back, and you let me know
5 when it is the distance that it appears to you how
6 far they were when the officer fired the last shots.
7 Farther than this?

8 **A** Close to.

9 **Q** Close to this?

10 **A** Close, might be a few feet further back.
11 If not 5, less than 5 feet further back.

12 **Q** We are talking 15, 20 feet?

13 **A** Right.

14 **Q** Okay. And in your opinion, right before
15 the officer fired those last shots, well, first let
16 me ask you this, you said that he was going down and
17 that's how you think he got the head shot, how did
18 you know he was shot in the head?

19 **A** We went around there, the amount of blood,
20 excuse me, after they covered him up, they put a
21 white sheet over his body, white sheet covered his
22 head. When I went back up there, the sheet had,
23 this is his head, the sheet extended about this far
24 out, about 2, 3 three feet this way, about 3 feet
25 this way. It was completely soaked. Can only come

1 from the head shot.

2 Q Soaked with blood, the top of it?

3 A The sheet was soaked. It turned from
4 white to complete red.

5 Q So you knew he was shot in the head, did
6 you ever --

7 A I didn't know he was shot in the head.

8 Q Okay.

9 A I didn't know he was shot in the head. I
10 assumed he was shot in the head.

11 Q Got it.

12 A Later on when it came out that he was
13 shot, because when we looked at myself and a few
14 other people looking at it, they say there was
15 another older gentlemen standing up there and this
16 lady oh, my God, he must have been shot, all that
17 blood. He must have been shot, he must have been
18 shot in the head, you know. That's when they were
19 all up over on this side of the street was saying
20 yeah, he walked up to him, pow.

21 Q You knew that wasn't right?

22 A I knew that was wrong.

23 Q Okay.

24 A But I wasn't going to say anything because
25 I lived out there years, okay. To go against

1 anything that they have already assumed would be to
2 put , ,

3 I'm not in good health. My only
4 concern is . I'm sorry that man got killed, I'm
5 sorry for his family, but I wasn't going to do
6 anything that would jeopardize .

7 Q Okay.

8 A That is my main concern. That's why I'm
9 out there.

10 Q And those last shots, in your opinion, the
11 officer did not have to fire because Michael was
12 already disabled?

13 A He was already disabled, yes, in my
14 opinion he was already disabled because you could
15 clearly see the man was in distress and was trying
16 to stay on his feet.

17 Q It does not appear he was charging the
18 officer?

19 A No, he was not charging.

20 Q Or threatening the officer?

21 A He was not threatening, he was staggering
22 toward the officer.

23 Q Okay.

24 MS. WHIRLEY: Anybody else questions?

25 : . The last

1 you guys were just talking about. So your opinion
2 right before the last volley of shots, he had lost
3 control of his body when the yelling stop, stop,
4 stop, your opinion is that he couldn't stop because
5 he had lost --

6 **A** No, he couldn't stop because he was
7 wobbly, you could see he was trying to stand up.
8 You could see clearly, we could see he was trying to
9 stand up. That's when and them were
10 yelling at him, man, stop, please stop, please stop,
11 he was trying to stand up. Because the way of the
12 angle of his body, he was like bent over with his
13 head up. And you could see almost instantaneously,
14 you can see him going down. You know, that's why
15 everyone sitting up there talking about he went down
16 to his knees he went face first.

17 : I'm going to say it again,
18 your opinion then is that you felt like he could not
19 stop?

20 **A** No.

21 He could not control his
22 body?

23 **A** No, he could not control his body, he had
24 been hit. I don't know how many people in here or
25 if anyone has, but I know I have. I've been shot.

1 And when that bullet hits you, you don't immediately
2 feel it. First thing you feel is the heat and when
3 that heat hits you, everything goes haywire.

4 He could not stand it okay.

5 : I have
6 a question. When you and Kathi were talking, she
7 indicated it was 48 feet and 2 inches from where he
8 was first shot at the corner to where he was last
9 shot. When he was last shot and fell to the ground
10 we determined that it was about 20 feet, you said 20
11 to 25 feet, we determined 15 to 20, we are going to
12 split the difference 20 feet, okay. Heated
13 situation, everybody is crazy.

14 **A** Uh-huh.

15 : The officer doesn't know
16 whether or not he has a weapon and Michael Brown is
17 still moving forward.

18 **A** Yes, he is he is staggering forward.

19 : If it took just a few
20 seconds for him to travel 48 feet and 2 inches, it
21 wouldn't take very long for him to travel 20 feet,
22 right?

23 **A** Right.

24 : What do you think the
25 officer should have done?

1 **A** After he fired and he was coming --
2 : He was coming towards
3 him, I know you say he was staggering, but the
4 officer did not know any of these things.

5 **A** I don't know their procedures. Okay.
6 They're saying he's coming, he's probably menacing,
7 I've heard all kind of things.

8 : You can't really see his
9 face though, right?

10 **A** I cannot see his face, but I can clearly
11 see his hands were coming down.

12 : You can see like this?

13 **A** He was not coming at him in a menacing
14 way. He was fighting to stay on his feet, he was
15 steadily walking, he's steadily walking.

16 I understand.

17 **A** As he's walking toward him, he's
18 staggering toward him, the officer is backing up.
19 He backed up. All right. Then he fired the last
20 shot. He kept on going, he made a few steps and
21 then bam, he went down now.

22 Now, I don't know the distance that
23 it was he had moved a certain distance before he
24 fired the last few shots, okay. He staggered, if it
25 took that many steps, then that's what it took,

1 that's what I saw.

3 **A** Yes, ma'am.

4 : You know now that he
5 don't have any weapon, but at that moment when that
6 happened, you don't know if he has a weapon or not?

7 **A** I cannot see any weapons in his hand.

8 : Okay. You don't see it.

9 **A** I do not know if he had any on his body,
10 but I didn't see any weapons in his hands.

11 I understand, sir. I
12 want you to answer me, at that moment you were sure
13 that he didn't have any weapon?

14 **A** Yeah.

15 : You don't see it?

16 **A** I don't see hit.

17 But you are not sure he
18 don't have any weapon?

19 **A** Right, that's my assumption, yes.

20 Your assumption?

21 **A** Right.

22 : I don't mean to pick
23 apart --

24 **A** Right, that's what your job is.

25 But you said in here in

1 your statement on the 12th, you said I'm going to
2 call it or I'm going to say it, I feel like he was
3 executed. From what you are describing to us, you
4 know, the police officer saying stop, stop, stop,
5 and him continuing to move and even moving after
6 he's injured, um, do you still feel that way?

7 **A** Yes, because I don't believe he had any
8 weapons on him.

9 : You don't believe --

10 **A** They didn't find any weapons on him. He
11 was hit, he was in distress, he was coming at him
12 and he wasn't coming toward the officer to do any
13 harm, he was trying to stand on his feet.

14 And the only direction his body could
15 move was forward, all right. He knew he hit him, he
16 know how many shots, but as big as Michael was, I
17 don't know what's going through his mind. I can't
18 read his mind, the officer's mind. Maybe he thought
19 that Michael was coming at him as big as he is, he
20 could still do some harm to him.

21 Maybe he did.

22 **A** That's why he felt like he had to use
23 deadly force. I'm seeing someone who is hit, who is
24 clearly in distress, who cannot stand on his feet,
25 why?

1 : Again, I'm going to go
2 back to what you just said. I just have to know,
3 this is very important. You said you don't know
4 what's going through the officer's mind, maybe he
5 did think he was in distress, you just said that,
6 right?

7 **A** Yeah.

8 He didn't know whether or
9 not --

10 **A** He could see that he was in distress.

11 But he didn't know
12 whether he was in danger?

13 **A** He didn't know whether he was coming. He
14 may have assumed that hey, I got this 6'5", 290
15 pound guy and I already put four bullets in him and
16 he is still coming.

17 : And he's still moving
18 toward him?

19 **A** And he's still moving. But he should have
20 clear sight to see that this man was in distress.
21 He could see that he could not, barely stand on his
22 feet. But to take to fire four more rounds was
23 excessive in my opinion, okay.

24 : Thank you.

25 : . Um, you

1 said when the officer exited the vehicle after the
2 first shot is fired what, in your mind, how, can you
3 picture how many seconds it took, he came out, you
4 say, did he come out already, drawn his weapon?

5 **A** I can't see him from the driver's side.
6 As he was coming around, you could see the gun in
7 his hand. By the time he got to the back bumper of
8 his truck, it was in this position. He had already
9 unholstered, he had to cause by the time he got to
10 the back of the truck, it was coming up and he got
11 in that stance quick. (indicating)

12 : If anything would have
13 been in his vision in order to not see Mr. Brown,
14 because you said --

15 **A** Well, he had to turn his back to him for a
16 split second because he's coming around from the
17 back of the truck, he's running this way, Michael is
18 going that way, but he came around to the back of
19 the truck.

20 : Right.

21 **A** To get a line of sight on him. So he had
22 for a split second to come around, but as he's
23 coming round, he could see through his windows. He
24 could look through the windows of the truck to see
25 where he is, okay. But when he came around to the

1 back, he had a better line of sight, but no
2 obstructions to where no one, these two, three
3 people would not be sitting there, then I gotcha.

4 But as I'm coming around, I got all
5 of this glass. I can see through the glass, okay.
6 I see which direction you are going in, okay. I'm
7 coming around, I'm looking through the glass. I'm
8 coming around, I'm at the back of the truck, I see
9 where you are, now you are in the front of my truck
10 the officer's side, now I gotcha.

11 The officer, even though
12 he came around his vehicle, did he ever come at an
13 angle closer because I think I believe I read in
14 your testimony on August the 12th that you said that
15 he had set at angle, like catty-corner --

16 **A** When I said at an angle, I was giving the
17 position that the officer was standing in. He
18 wasn't like this, he stood like this. (indicating)

19 : Right, but then the
20 officer moved closer to curb?

21 **A** So his body was at an angle, his body was
22 like this and his truck --

23 MS. ALIZADEH: Hey, hey, just for the sake
24 of the court reporter, he can't take it down when
25 both of you talk at once.

1 **A** Oh, I'm sorry.

2 MS. ALIZADEH: I'm just, I encourage the
3 question and answer, but it helps him if.

4 **A** We don't talk.

5 MS. ALIZADEH: The question goes and then
6 answer goes, and then the question goes, so he can
7 take it down, sorry.

8 **A** I'm sorry.

9 : I'm sorry.

10 MS. ALIZADEH: That's all right.

11 : So the officer is at an
12 angle position to fire?

13 **A** Right.

14 : Okay. He calls stop,
15 stop, was there any other vehicles in his way of
16 vision?

17 **A** None.

18 : Where he had to go around
19 more?

20 **A** No.

21 : To see Mr. Brown?

22 **A** No.

23 : Okay. Did you ever see
24 Dorian once they both broke away from the car?

25 **A** Who is Dorian?

1 The guy that was with him?

2 **A** Oh, I didn't know his name. I never knew
3 his name. No, huh-uh. Once Michael hit that side,
4 we looked back, I didn't know where he went. We
5 assumed, excuse me, that this is the building, we
6 thought he had ran around to the side of the
7 building over here, but in his statements on the
8 news he was behind one of the police trucks. We
9 didn't see that.

10 I mean, he is a little guy, truck is
11 kind of high, all right. My eyesight was on
12 Michael, for some odd reason we are glued to him,
13 okay. Because as the officer was coming around, we
14 figure that something happened between Mike, we knew
15 Michael was at the truck, we was watching them two.

16 Him, we didn't see him, he
17 disappeared. He was a little guy, he was gone.
18 Okay, but by the time the officer had gotten around
19 here, there was another truck came down and he got
20 in that spot. There was another police officer
21 truck.

22 So he says, Dorian said that he was
23 in there, then standing beside one of the police
24 trucks and he was watching the whole thing. I
25 didn't know that. I never knew him, never seen that

1 guy in my life. All the times that I've seen
2 Michael, I've seen him plenty of times walking
3 through the neighborhood, I never saw him with that
4 guy, never.

5 Did you ever see any other
6 vehicles behind the police SUV?

7 **A** No, after that?

8 : During the shooting?

9 **A** Within what, two, three minutes, police
10 cars from everywhere was coming, you know. But
11 before they, as they were coming, it was the crowd
12 of people were coming from everywhere. From up here
13 at Ellison, this is the first street. From there,
14 from all parts of the complex and from Northwinds
15 they are running up there.

16 The stepfather and them I believe
17 they stayed in Northwinds, he was one of the first
18 ones there. And they started, everyone got on their
19 phones, they were calling and taking pictures, next
20 thing I know there is crowd everywhere, okay.

21 So that is what I was concentrating
22 on because I didn't know what they were going to do
23 because they were getting crazy, all right. They
24 were hyping themselves up.

25 : Thank you.

1 : . Do you

2 have any medical training,

3 **A** Okay, no.

4 : No medical training. You

5 ever serve in the armed services?

6 **A** No.

7 : Anything like that? I'm

8 not saying this to dispute anything that you have to

9 say, I understand that you said that this is your

10 opinion of what you saw that you felt this

11 particular, whatever shots or whatever may have been

12 the cause of Michael Brown's death, and that's

13 clearly from your personal opinion, not from a

14 medical opinion; is that correct?

15 **A** Correct.

16 MS. ALIZADEH: Can I just really quickly

17 want to revisit something. And , you

18 remember when you did this picture or this drawing

19 when Detective was talking to you?

20 **A** Yes.

21 **Q** (By Ms. Alizadeh) Okay. Now, you have

22 here white car, actually that's Detective 's,

23 he labeled white car.

24 **A** Yeah, there was a white car sitting right

25 here at the end of the driveway right here on

1 Canfield pointed toward Canfield. I mean, toward
2 West Florissant.

3 We later found out that this
4 gentleman has a friend that stays back here in the
5 back and when the first shot rang off, that car went
6 this way towards West Florissant. I didn't see it
7 ever again.

8 Q Okay. But you have on your diagram that
9 the car is actually west of the police vehicle?

10 A Yeah, it is on this side. All the cars
11 here. The car is here, his car was closer to this
12 driveway down here.

13 Q All right. So you don't recall the car
14 being on that side of the police car?

15 A No.

16 Q West of the car?

17 A No, it was parked right here. That's what
18 I told him, I said he was sitting right there and
19 after the shot rang off at the truck, he pulled off
20 and sped off.

21 MS. ALIZADEH: I'm sorry, there was some
22 other hands?

23 : . when
24 Michael Brown was, let's say at the lamp post, I
25 guess, on the corner of the asphalt, I guess that's

1 Copper Creek Court?

2 **A** Uh-huh.

3 : And he turned around. And
4 at one point you mentioned you could see something
5 in his right hand or on his right hand?

6 **A** It looked like, looked like he had
7 something on his hand, cause he kept looking at it
8 like this, and he started looking at his body.

9 : Can you clarify at what
10 point you actually saw that?

11 **A** As he turned, and he you could see as he
12 is coming around, he's spinning around, looked like
13 we saw something that was on his hand cause he kept
14 doing like this. He kept looking at hit and then he
15 looked down, he looked at both sides of his body.

16 So I'm guessing he may have touched
17 hisself to see if there was blood or something cause
18 you could see there was splotches cause he's real
19 dark and then he turned around and he did that,
20 looked up. And as he spun around, and then he says
21 that's it, boom. When he turned around, he had his
22 hands facing the officer, we couldn't see the palms.

23 : Okay. It was before the
24 first volley of shots?

25 **A** Before the first volley.

1 : Thank you.

2 **A** Yes.

3 : . How far
4 behind the vehicle was the officer when he fired his
5 first volley of shots?

6 **A** He was practically catty-corner to the
7 rear corner.

8 Okay. So then how far
9 was he from the rear bumper when he fired the second
10 volley of shots?

11 **A** Maybe three to four steps behind it.

12 : All right. So he never
13 actually got past his rear bumper?

14 **A** No.

15 : Okay. Thank you.

16 MS. ALIZADEH: Anyone else have any
17 questions?

18 thank you. Is there anything
19 that we haven't asked you or anything that you think
20 is important for this grand jury to know before you
21 conclude your testimony?

22 **A** No, I think you pretty well covered it.

23 MS. ALIZADEH: Okay. This will end the
24 testimony of

25 (This is the end of the testimony of

1 .)

2 MS. ALIZADEH: Good afternoon, it is
3 2:07 p.m. on September 30th. We are in the grand
4 jury, present is myself, Kathi Alizadeh and Sheila
5 Whirley, as well as all 12 grand jurors and the
6 court reporter, and we have just gotten back from
7 our lunch break.

8 I do have two officers who I believe are
9 going to testify this afternoon. One is going to be
10 Detective He's the officer who is
11 the primary case officer investigating this matter.
12 I'm only going, we're not going to get into the
13 entire investigation. I'm simply calling him to ask
14 him some questions about the interview that he had
15 with

16 And then after that, we will have
17 . If you recall he was the crime scene
18 investigator who went to the Ferguson Police
19 Department, and then followed them to the hospital
20 and actually took pictures of Officer Wilson and
21 then he will testify about seizing other items
22 because we had to interrupt him to get Dr.
23 on, if you recall. Hopefully he will just be like
24 another 30 minutes.

25 Neither of them are here yet, I assume

1 they're on their way, but so we're going to go ahead
2 and start playing some statements of a witness that
3 we anticipate will be testifying Thursday morning
4 for you. This is, this is Grand Jury Exhibit 31,
5 which is a disc that contains media clips, clips of
6 interviews that were done by a witness whose name is
7 .

8 I don't know if you recall this is an
9 employee of that she actually was
10 going to pick up. I'm first playing clip one.

11 As usual, I'm not going to play the clip
12 in its entirety, a lot of these contain comments by
13 the reporter and stuff. I'm starting this at 55
14 seconds and I will play it to a minute and 15
15 seconds, so this isn't long at all.

16 (Clip is being played at this time.)

17 MS. ALIZADEH: All right. I missed that
18 because I was messing around with this. Does
19 anybody need to see that again? I'll start it again
20 because I didn't have the volume up.

21 . Can you freeze
22 it too? I'd like to see the view that she had from
23 her balcony a little better.

24 MS. ALIZADEH: How about I play the whole
25 thing, I go back and freeze it in the middle since

1 some of you didn't hear what was being said. I
2 don't want to stop it in the middle and then we will
3 go back and freeze it.

4 (Clip is being playing at this time.)

5 MS. ALIZADEH: So you want me to go back
6 and look at that video again?

7 Freeze frame it on the
8 intersection and then when we can see that apartment
9 in the background, those two places.

10 MS. ALIZADEH: Okay, I will do my best.

11 (Clip is being played at this time.)

12 : Right there, other time
13 he used the zoom it looked like.

14 : No, that's not his
15 apartment building that we just heard, right?

16 MS. ALIZADEH: Now, if you notice in the
17 street and it is easier to see on the screen that
18 there are some items in the street. It tells you it
19 looks like a couple of those traffic cones and then
20 a looks like a crucifix, and I can't tell what that
21 black thing is.

22 Looks like a statute.

23 (Playing the clip.)

24 Can you show us on the
25 aerial view what building she's in?

1 : She's in .

2 She's number

3 MS. ALIZADEH: Yeah, she's in this

4 building here. And I believe we will hear in

5 her statements, I believe it is , or at least

6 right here. (indicating)

7 Any interest in me going back and freezing

8 again? No, all right.

9 That was a clip that was aired on

10 August 10th, 2014 at 5:30 p.m. on NBC nightly news.

11 This next clip, or the second clip on the

12 disc, Grand Jury 31 aired at 10:00 p.m. on

13 August 10th, 2014 on KSDK.

14 I'm going to start it at 137, if I can.

15 (playing the clip.)

16 MS. ALIZADEH: I'm going to start it at

17 136, it is only going to 149, so this is also very,

18 very brief.

19 (playing the clip.)

20 MS. ALIZADEH: Anybody want to see that

21 again? Next clip aired on 8/15/2014 on CNN program

22 is New Day. I'm going to start this at 28 seconds

23 and this goes until six minutes and five seconds.

24 So this is a lengthier clip. Starting at 27

25 seconds.

1 (playing the clip).

2 MS. ALIZADEH: Anybody need to see that
3 again?

4 Next clip is number four. It aired on
5 August 18th, 2014 at 10:00 a.m. on CNN At This Hour
6 with Berman and Michaela.

7 I'm going to start the clip at 40 seconds
8 and it will play to four minutes and five seconds.

9 (Playing the clip.)

10 MS. ALIZADEH: And then the last clip is
11 clip number five, the fifth clip it aired on
12 August 18th, 2014 at 7:00 p.m. on CNN.

13 I'm going to play this from the beginning
14 until three minutes, it plays until three minutes.

15 (Playing the clip.)

16 MS. ALIZADEH: Anybody need to see any of
17 these clips over again?

18

19

20

21

22

23

24

25

1

2

3

4 of lawful age, having been first duly sworn to

5 testify the truth, the whole truth, and

6 nothing but the truth in the case aforesaid,

7 deposes and says in reply to oral

8 interrogatories, propounded as follows, to-wit:

9

EXAMINATION

10 BY MS. ALIZADEH:

11 Q Would you state your name and spell it for
12 the court reporter.

13

A

,

,

14

15 Q And you're a detective with St. Louis
16 County Police Department?

17

A

Yes, ma'am.

18

Q

And how long have you been with the St.
19 Louis County Police Department?

20

A

Since January of 2002.

21

Q

How long have you been in the detective
22 bureau?

23

A

Since March of 2008.

24

Q

And are you in the Crimes Against Persons
25 Unit?

1 **A** Yes, ma'am.

2 **Q** And were you in that Crimes Against
3 Persons Unit back in August of this year?

4 **A** Yes, ma'am.

5 **Q** And are you the primary case officer
6 involved in the investigation of the shooting of
7 Michael Brown?

8 **A** Yes, ma'am.

9 **Q** And just so we can make clear on the
10 record, the officer involved in that shooting is a
11 Darren Wilson, are you in any way related to Darren
12 Wilson?

13 **A** No, ma'am.

14 **Q** Have you testified before this grand jury
15 before, I mean, not on this matter, but this grand
16 jury has been working since May, have you testified
17 since May to the grand jury to your knowledge?

18 **A** I don't recall.

19 **Q** And this is the first time you've
20 testified regarding the shooting investigation in
21 this matter, correct?

22 **A** Correct.

23 **Q** And I'm not going, we're not going to go
24 into every aspect of your investigation right now.
25 But what I wanted to direct your attention to was an

1 interview that you did on August 12th, 2014 and the
2 subject that you were interviewing was a
3 ?

4 **A** That's correct.

5 **Q** And that interview was conducted, it began
6 at 1557, would that be 3:57 or what is 1557?

7 **A** 3:57 correct.

8 **Q** P.m.?

9 **A** Yes.

10 **Q** And it also was at the New Horizon Seventh
11 Day Christian Church; is that correct?

12 **A** That's correct.

13 **Q** And how is it that you knew that
14 had some information for police?

15 **A** The pastor of the church, Reverend
16 had contacted the St. Louis County Police
17 Department and indicated that one of his church
18 members had information regarding the incident.

19 **Q** All right. And so did you make
20 arrangements to interview he was the
21 church member, correct?

22 **A** That's correct.

23 **Q** You made arrangements to interview him at
24 the church?

25 **A** Yes.

1 **Q** And the grand jury has already heard the
2 statements, so we're not going to go through the
3 statement, but present for the statement was
4 yourself, and then Detective
5 is that correct?

6 **A** Correct.

7 **Q** Was the reverend or pastor , was
8 he present for that interview?

9 **A** He was not.

10 **Q** Where in the church did this interview
11 take place?

12 **A** It took place in a conference room, right
13 outside of Reverend s office.

14 **Q** You had an audio recorder that you used to
15 record the interview that you had that day?

16 **A** I did.

17 **Q** And, in fact, you have recorded numerous
18 witness statements in relation to your investigation
19 into the shooting of Michael Brown; is that correct?

20 **A** Correct.

21 **Q** And are almost all of those interviews
22 audio recordings?

23 **A** Yes, ma'am.

24 **Q** And so did you, were you aware that
25 subsequent to your interview, was

1 interviewed by the FBI and an attorney from the U.S.
2 attorney's office and an attorney from the
3 Department of Justice?

4 **A** I was.

5 **Q** Now, were you a part of that interview?

6 **A** I was not.

7 **Q** Were you present for that interview?

8 **A** I was not.

9 **Q** And so at some point did someone that was
10 involved in that interview contact you about the
11 statement that made during that
12 interview?

13 **A** I was contacted, yes.

14 **Q** And were you aware that that interview was
15 also audio recorded?

16 **A** I was.

17 **Q** And have you listened to that interview?

18 **A** I have.

19 **Q** And have you listened to the interview
20 that you did with him?

21 **A** I have.

22 **Q** Now, you and I had a conversation, my days
23 are really running together, when is it that you and
24 I got together and talked about this, was it,
25 today's Tuesday, was it Friday or yesterday? I

1 think it was Friday.

2 **A** I think Friday.

3 **Q** Okay. Actually, you and I speak on a
4 daily basis; is that right?

5 **A** That's correct, yes.

6 **Q** And I see you at my office or over at DCI
7 almost daily, correct?

8 **A** Yes.

9 **Q** At some point did you and I have a
10 discussion about how demonstrated the
11 way he saw Michael Brown use his hands during the
12 incident on August 9th?

13 **A** We did.

14 **Q** And you recall that in the audio interview
15 that you did with , you actually tried
16 to describe how, are you trying to describe what
17 he's demonstrating?

18 **A** I'm describing what the actions that he is
19 making, how he's demonstrating his hands are, yes.

20 **Q** And when you describe it, do you hear him
21 both after having listened to it, but also live,
22 would he either agree or correct you if it wasn't
23 correct?

24 **A** Yes, ma'am, that's correct.

25 **Q** And so can you please stand up for us?

1 **A** Sure.

2 **Q** There's a part of the interview where
3 says as Michael Brown is running away
4 from Officer Wilson, he comes to a point near the
5 corner of Copper Creek Court and Canfield Drive and
6 he stops. And then he does something with his hands
7 that if you recall, describes as if
8 he is looking on his body or on his hands in some
9 manner?

10 **A** Yes, ma'am.

11 **Q** Does he demonstrate for you during his
12 interview how he was seeing Michael Brown with his
13 hand?

14 **A** He does.

15 **Q** Can you show the jurors what he showed you
16 Michael Brown was doing?

17 **A** Sure. He was seated, but he said that
18 Michael Brown's hands were essentially, I'll
19 describe it palms up with his hands and fingers
20 roughly at shoulder height, elbows not touching his
21 rib cage, but elbows at a natural fall, just as I'm
22 demonstrating to you right now. (indicating)

23 **Q** When he did that, did he move his head to,
24 again, demonstrate what he saw Michael Brown doing?

25 **A** Did

1 Q , yes.

2 **A** Yes.

3 Q How was he, do for the grand jurors what
4 you saw doing?

5 **A** He described it as more of him looking at
6 his hands and kind of looking at his body. He also
7 made reference to looking down at the right side of
8 his body almost as if Michael Brown was checking
9 himself out.

10 Q Okay. And then he then describes for you,
11 you can sit down.

12 **A** Sure.

13 Q He describes for you Michael Brown turning
14 around and then moving toward the police officer,
15 correct?

16 **A** Correct.

17 Q And what does he say Michael Brown does
18 with his hands as Michael Brown turns around to move
19 toward the police officer?

20 **A** That his hands go down.

21 Q And he describes Michael Brown being, at
22 least the officer shooting a volley of shots that he
23 believes he hit Michael Brown and appeared to him it
24 hit Michael Brown and that his hands, I believe he
25 uses the word go limp at his sides?

1 **A** I believe that is correct, yes.

2 **Q** Okay. Now, does he ever describe or
3 demonstrate to you Michael Brown having his hands in
4 front of his torso, whether in his pelvis or belly
5 button region?

6 **A** No.

7 **Q** Does he ever describe for you or
8 demonstrate to you Michael Brown having his hands in
9 the air at the height of his shoulder or head with
10 his palms facing forward?

11 **A** No.

12 **Q** Does he ever use words or describe to you
13 that Michael Brown was surrendering?

14 **A** Use the word surrendering, no.

15 **Q** Are you sure at no time during your
16 interview with him did he demonstrate that Michael
17 Brown's hands were up at his sides with the palms
18 facing away from his Michael Brown's body, facing
19 forward?

20 **A** He did not, no.

21 MS. ALIZADEH: Sheila, do you have any
22 questions?

23 MS. WHIRLEY: Does anyone else have
24 questions? Because I'm kind of reviewing something.

25 MS. ALIZADEH: I'll give you time. I'll

2 Q (By Ms. Alizadeh) Now, Detective, when you
3 talked to _____, did he draw a map that you
4 helped him label during the course of your
5 interview?

6 **A** He drew a map and also identified various
7 points on it and then during the course of the
8 interview, yes, went back and clarified by labeling
9 those.

10 Q Is a copy of that Grand Jury Exhibit 30?

11 **A** Yes, ma'am.

12 Q And from his description of, during your
13 interview, did he indicate that Officer Darren
14 Wilson's vehicle came from the direction of West
15 Florissant traveling east on Canfield Drive?

16 **A** He did.

17 Q And did he also indicate to you that
18 Michael Brown and his friend were walking down
19 Canfield Drive toward West Florissant or in a
20 westerly direction?

21 **A** I would have to check that. I believe he
22 also said they were walking from West Florissant
23 towards Canfield Green Apartment Complex.

24 Q Okay. And in your investigation when you
25 arrived, the vehicle that Darren Wilson was in, to

1 your knowledge and information, had it been moved
2 after Officer Wilson stopped it?

3 **A** No, ma'am.

4 **Q** And is the, I know that the vehicle is
5 somewhat at an angle in the roadway, is the front of
6 the vehicle pointing in a northwesterly direction?

7 **A** Primarily, yes.

8 MS. ALIZADEH: Sheila, have I stalled
9 enough for you to figure out what you want to ask?
10 : This is

11 The view from, that s balcony, did he
12 have a clear view in your opinion of that whole
13 crime scene?

14 **A** Yes, sir.

15 : Okay.

16 **A** Yes, sir.

17 MS. ALIZADEH: Let me follow-up with that.

18 Detective , have you ever been on
19 's front porch.

20 **A** I have not.

21 **Q** (By Ms. Alizadeh) Okay. And we've
22 discussed different points of view and what somebody
23 could see from their vantage point, correct?

24 **A** Correct.

25 **Q** And if was standing on his

1 balcony, he could see the corner of Canfield Drive
2 and Copper Creek Court, would that be fair to say?

3 **A** Yes.

4 **Q** And he could look down the street and see
5 the location where the police officer's vehicle
6 eventually was, correct?

7 **A** Yes.

8 **Q** If Michael Brown had turned around at this
9 corner and walked in a direction down the street
10 toward the officer coming from near the grassy
11 corner toward the middle of the street, would

12 have a straight-on view of Mr. Brown at
13 that point? In other words, could he see his front?

14 **A** No.

15 **Q** Okay. Would he see directly his back or
16 would he see an angle part of that?

17 **A** I would say that he would be able to see a
18 slight angle, but see his back, yes.

19 **Q** Mostly his back?

20 **A** Right.

21 **Q** (By Ms. Whirley) The question I have,

22 I don't know if you have the
23 transcript in front of you, do you?

24 **A** I do.

25 **Q** On page 34. When you are again clarifying

1 whether his hands were all the way up or not and
2 is saying he didn't have them all the way up,
3 but he did have them all the way up, I'm not sure if
4 that's a typo or not. Are you with me?

5 **A** I'm with you.

6 **Q** Enough to notice this officer should know
7 he was not threatening him, he was not in imminent
8 danger, the boy was not threatening him in any way,
9 he's not charging, he was struggling to stay on his
10 feet.

11 So he didn't tell you, he never told
12 you he was surrendering that is as you said,
13 correct?

14 **A** Correct.

15 **Q** But he characterized Michael Brown as not
16 threatening the officer in his opinion?

17 **A** Yes, ma'am.

18 **Q** Okay. And then he was, his hands, he
19 didn't say he had them all the way up, he did have
20 them all the way up enough for this officer to know
21 that he was not threatening him, did he demonstrate
22 what he meant by that?

23 **A** I don't believe he did. I took it that he
24 was still making reference to the same posture that
25 I have previously describe.

1 **Q** Say that again?

2 **A** I took it that he was making reference to
3 the same posture that he had previously described to
4 us.

5 **Q** As not threatening, his hands were up, but
6 he was not being threatening?

7 **A** Correct, the hands that I described
8 earlier, hands up, about shoulder height.

9 **Q** Okay. And that was the not threatening
10 gesture you took him to mean?

11 **A** Yes, ma'am.

12 **Q** Okay.

13 MS. WHIRLEY: That's all I have.

14 **Q** (By Ms. Alizadeh) Detective , if you
15 can refer to page seven. And near the bottom of the
16 page where you get to the point where
17 is telling you about how Michael Brown had ran and
18 then he turned and then in the last paragraph on
19 that page, , referring to Michael Brown
20 says, right at the, he had like one foot on the
21 grass and one foot on the driveway, and then he
22 turned around and then he like, like this.
23 (indicating) So that is why people thought he raised
24 his hands.

25 Is he gesturing or demonstrating when

1 he says he turned around and he like, like this, was
2 he demonstrating?

3 **A** Again, making reference to what I had
4 previously stood up and described.

5 **Q** Okay. So when he said, he like, like
6 this, that is why people thought he raised his
7 hands, was he making that same motion that you have
8 already demonstrated?

9 **A** Yes, ma'am.

10 **Q** Okay.

11 MS. WHIRLEY: Anybody else have questions?

12 . I guess
13 the whole hands up is he -- when you -- I guess,
14 what would be your definition of hands up, all the
15 way up or would they be like this or like that?

16 **A** Well, I mean, obviously the two motions
17 that you made your hands were both up.

18 Okay. I'm actually
19 reading from, I guess, this is page 18. And you say
20 your arms are like palms up and hands and fingers
21 are roughly shoulder length, is that fair enough to
22 say?

23 MS. ALIZADEH: It is close to the top of
24 the page.

25 **A** So if you would, if you would make

1 reference to page 17 on that, at the bottom of the
2 page. We're discussing, this is kind of when we get
3 into the specifics of it, but he says as he faces
4 the officer, I asked him, his hands go up to a point
5 where? And he says about to his shoulders.

6 So he's making reference, again, and
7 this is kind of what I'm explaining. He is making
8 reference to his hands or his fingers being roughly
9 shoulder height, which is as how he was describing
10 as I am explaining it here. And then we make
11 reference to his elbows, and kind of like I
12 described to everyone earlier, that his elbows were
13 again, close to his body. I'm not saying touching
14 his body, but close to his body in a position like
15 this. (indicating)

16 And then it goes on, we again clarify
17 palms are up, hands or fingers are roughly shoulder
18 height, is that fair enough to say? And he says,
19 yeah, about close to his shoulders, yes.

20 So then again, I'm just clarifying
21 with him that we are kind of, we are talking about
22 almost a plane here that would extend from his
23 shoulders to where his fingers or his hands would
24 be. Did I answer your question?

25 Okay.

1 MS. ALIZADEH: Any other questions?

2 : . And then
3 to clarify that, would that be sustained for you to
4 say that he had his hands up?

5 A That he, that was saying
6 that Michael Brown had his hands up.

7 : Yes.

8 A Yes, ma'am, that he had his hands in the
9 position I described, yes.

10 If you said halt, would
11 you consider that that person had his hands up?

12 MS. ALIZADEH: Well, let me say for the
13 record just so we can make clear on the record you
14 have your palms facing forward when you are doing
15 that, correct?

16 : Maybe I don't know what
17 hands up is. If someone raised their arms, I would
18 think hands up. I would think regardless if my
19 hands are faced this way, my arms are up, to me
20 that's a stop, you see what I'm saying? To me
21 that's what I'm trying to get clarification.

22 A Okay. Could you ask the question one more
23 time, please?

24 : My question is, the way
25 that said the way he saw Mr. Brown raise

1 his hands.

2 **A** Yes, ma'am.

3 : Would that be substantial
4 for you as a police officer to say that you said
5 stop, stop or halt, halt, and a person raised their
6 hands, would that be okay for you to say oh, he had
7 his hands up, a surrender motion?

8 **A** I would say it would depend on the
9 situation that I was in.

10 : I mean, so this would be
11 stop. Is it fair to say that he might have been
12 hurt somewhere where he couldn't raise his hands all
13 the way up?

14 **A** Well, I think based off of s
15 statement, he was indicating that Michael Brown was,
16 as I kind of described earlier, that he was checking
17 himself to see if he was injured.

18 So, yes, when you and I are sitting
19 here having this conversation, are my hands up right
20 now, and I'm am demonstrating what I had previously
21 demonstrated the position that had
22 described to me. So if I'm sitting here like this,
23 are my hands up? Yes, my hands are up.

24 : . Would you
25 consider there is a distinction between hands up in

1 a surrender situation? Could they be separated?
2 Your hands up in the method you described, that
3 doesn't necessarily 100 percent mean that it would
4 be a surrender, it could be a case by case basis?

5 **A** Again, like what I had said earlier, I
6 think every case is different and it would depend on
7 circumstances, yes.

8 : Yes.

9 **A** Yes, sir.

10 : . And again, in
11 the context of 's first interview with
12 you, this comes right as Michael Brown turns around
13 before this first, there is an initial shot, before
14 the first round of shots, correct?

15 **A** Say that one more time, please?

16 : So when is
17 explaining this to you.

18 **A** Sure.

19 : This whole motion. He is
20 saying this comes before Officer Wilson pursues him
21 and shoots the first rounds of shots, correct?

22 **A** Correct.

23 : That's what I thought.

24 **A** Correct.

25 : . I just want to

1 make sure I understand. Everything that he said
2 from what I can see he is talking about having his
3 hands, palms up, rib cage length, maybe out a little
4 bit and looking at himself searching for injuries?

5 **A** Correct.

6 : There is never anything
7 in here where he puts his arms up to his shoulders
8 with his palms out?

9 **A** With his palms out, no, but again,
10 remember as I described, he does his hands. I'm not
11 saying to his shoulders, like palms forward facing,
12 but he does have his hands at shoulder, yes, ma'am
13 at shoulder height.

14 : Okay.

15 **A** But with palms up.

16 : I'm looking at
17 the line of sight that would have as he
18 is looking at Michael Brown. I don't see how he
19 could see the right side of his right hand from the
20 angle he is at. Seems like he could only probably
21 see the left arm and left hand, would you say that's
22 a fair assessment? I know he is looking down
23 somewhat, maybe he can see something over the
24 shoulder.

25 **A** Yeah, I think --

1 : His hands are down and
2 he's a big body man.

3 **A** I think it would be very, I wouldn't want
4 to comment on that without having been there.

5 Yes, ma'am.

6 : I'm . Do
7 you have cause to study police procedures, not only
8 in other states nationally, but also globally as
9 well.

10 **A** Globally, no, ma'am.

11 Not in other countries
12 whatever?

13 **A** No, ma'am.

14 Because what I was
15 wondering is there a standard norm, would this be a
16 surrender motion or is this normally the surrender
17 motion that you see from?

18 **A** Again, I think it would depend, every
19 situation is different and every person is different
20 and I think every person reacts differently.

21 MS. ALIZADEH: And just to let you know,
22 Detective will probably appear on future
23 dates because there will be other aspects of the
24 investigation that he will be needed to testify to.
25 And since he's readily available, we will just bring

1 him as needed as opposed to try to cover everything
2 at this point.

3 I'm not trying to say you can't ask him
4 whatever questions you want, but don't feel like you
5 have to ask him all of those questions now because
6 he will be available for later, all right?

7 Any other questions regarding the
8 statement or anything of that nature?

9 : Just one. I guess with
10 that position, I guess that position
11 that you had his hands, I guess you could clearly
12 probably see at that time that he was not armed if
13 you got your hands this way?

14 **A** I wasn't there, but there was never any
15 indication given that thought he was
16 armed.

17 : Okay, thank you.

18 MS. ALIZADEH: That thought
19 he was armed?

20 **A** Correct.

21 MS. ALIZADEH: As opposed to Darren
22 Wilson, whatever was in his mind.

23 : . I'm going to
24 go a little bit. She was talking about, everybody
25 was talking about, could this be the surrender

1 motion and it would depend on the situation. If the
2 situation were you were holding your hands like
3 this, yet still moving toward somebody, would you
4 consider that a surrender?

5 **A** Still moving toward someone?

6 : Uh-huh.

7 **A** No.

8 It would depend on the
9 situation?

10 **A** It would. Obviously, it depends on the
11 situation.

12 But in theory you would
13 not consider this and moving forward a surrender
14 motion?

15 **A** (Nods head.)

16 MS. ALIZADEH: Anybody else. All right
17 this concludes the testimony for today of Detective

18
19 (End of the testimony of Detective
20)

21 MS. ALIZADEH: This is Kathi Alizadeh with
22 the prosecutor's office. Present is myself, Sheila
23 Whirley, all 12 grand jurors and the court reporter.
24 We just had a brief break and now we are going to
25 continue with the testimony of Detective

1 of the St. Louis County Police Department.

2 EXAMINATION

3 BY MS ALIZADEH:

4 Q Detective , I will remind you that
5 you were sworn previously on September 9th and that
6 oath is still in effect, all right?

7 A Yes, ma'am.

8 Q Just to get back where we had left off.
9 If you recall he has already given testimony about
10 having photographed Darren Wilson's face and neck
11 areas and that he then also talked about having gone
12 back to the Ferguson Police Department and seizing
13 the gun, and you recall he describes swabbing the
14 gun. And now I think we're going to take up from
15 there and Detective , if you want to sit in
16 that chair.

17 A Thank you.

18 Q We will kind of resume where we had left
19 off.

20 I think previously you testified that
21 when Darren Wilson had left the Ferguson Police
22 Department to go to the hospital, he had draped his
23 uniform shirt over a chair, I believe or do you
24 recall?

25 A I didn't testify to that.

1 **Q** Okay. Somebody else did, I'm sorry.

2 **A** Yes, ma'am. His uniform shirt and his
3 department issued weapon were still at Ferguson
4 Police Department. He was still wearing his white
5 T-shirt, his brown uniform pants and his boots.

6 **Q** And now I recall there was discussion that
7 he didn't have anything to change into so he went
8 back to Ferguson wearing his uniform pants?

9 **A** Correct.

10 **Q** And his boots and his T-shirt?

11 **A** Yes, ma'am.

12 **Q** So when you arrived back at Ferguson and
13 you've already testified about the gun and how you
14 found it and then what you did with it, did you also
15 photograph and seize the officer's clothing?

16 **A** I did.

17 **Q** And I'll show you, you've already
18 testified about the series of photographs that you
19 took in your, in the course of your investigation,
20 which I had previously shown you were contained in
21 Grand Jury Number 10. And I'm going to start up
22 again with Image Number 24. If you can put that on
23 the overhead and explain what that is that you are
24 seeing.

25 **A** All right. This is the overall view of

1 the front of the officer's shirt as it appeared when
2 it was handed to me. He had just removed it. It
3 was maintained at the Ferguson Police Department and
4 this is what it looked like when I first seized it
5 when photographing it.

6 Q So are you actually photographing it at
7 the Ferguson Police Department?

8 A I am.

9 Q Okay. And so you've laid the shirt out in
10 that manner?

11 A Yes.

12 Q Now, as you lay the shirt out in that way,
13 do you, are you doing a visual examination with your
14 naked eye to see if you see any stains or any tears
15 or any defects in shirt itself?

16 A Yes.

17 Q And the manner that you have it laid out
18 right there, did you see any stains or defects or
19 tearings in the fabric of the shirt?

20 A No, ma'am, not as it appears, no.

21 Q Okay. Then showing you your Image Number
22 25. Can you describe what that is?

23 A That is a close-up view of his name tag.

24 Q And is there anything that is on the name
25 tag or is there a reason why you got a close-up view

1 of the name tag?

2 **A** Other than get a specific view that his
3 name tag, he was wearing it at the time of the
4 incident and that's how he was dressed.

5 **Q** And so as you see in the image, the name
6 tag is actually still on the shirt?

7 **A** Yes, ma'am.

8 **Q** Okay. And then in Image Number 25, is
9 that 25? We just did 25, sorry.

10 **A** 26.

11 **Q** Image Number 26.

12 **A** It is a close-up view of his issued police
13 officer badge from Ferguson Police Department.

14 **Q** And again, the reason for that would be
15 just to show it is on his shirt on the day in
16 question?

17 **A** Yes.

18 **Q** Okay. And again, there's a ball point,
19 looks like a pen that's in the pocket of his shirt?

20 **A** Yes, ma'am.

21 **Q** Image 27?

22 **A** This is an overall view of the back of his
23 shirt.

24 **Q** And did you visually examine that?

25 **A** I did.

1 **Q** Did you see any stains or tears or defects
2 in that shirt?

3 **A** No, ma'am.

4 **Q** And Number 28?

5 **A** It is an overall view of the pocket that
6 is below his name tag.

7 **Q** Now, in this image, is this a breast
8 pocket?

9 **A** It is.

10 **Q** On the left side of his shirt or over
11 where his heart would be, his left or his right?

12 **A** It is over his right.

13 **Q** Over his right, all right. Is this the
14 same pocket that had the pen in it?

15 **A** No, it was not.

16 **Q** So does he have a name tag oh, okay. This
17 is the pocket, I understand. All right. And so did
18 you see anything looking at the shirt in this manner
19 that has any stains or defects?

20 **A** Not in this manner, no.

21 **Q** I'm going to show you Image Number 29.

22 **A** This is next imaging sequence when you
23 flip up that pocket flap, there is a pinkish red
24 mark. So being the sequence would be, we showed you
25 an overall view of the pocket as it was. Now we

1 flipped up the pocket flap and in the next few
2 images and we will go through them, we will get
3 closer and we will put a measuring device in it, a
4 ruler.

5 Q Now, as you see the pocket flap on the
6 pocket itself, on the other side of the flap there
7 was a button, correct?

8 A Yes, it is a sewn-on button.

9 Q And that's just for show, I guess?

10 A Correct.

11 Q So the pocket, it connects or attaches by
12 the little Velcro on the corner; is that correct?

13 A Yes, ma'am.

14 Q And when you lifted up that flap, did it
15 appear to you that the Velcro was still?

16 A Attached.

17 Q Attached?

18 A Yes.

19 Q And then there appears to be some paper or
20 something inside the pocket?

21 A Correct, it is a notebook.

22 Q Okay. Did you seize that notebook?

23 A I did not.

24 Q Didn't you examine it?

25 A No, I did not.

1 **Q** Did you leave it in the shirt pocket?

2 **A** No, ma'am, it was removed.

3 **Q** Okay. I'm going to show you Number 30.

4 **A** That's a closer view of that pinkish red
5 mark.

6 **Q** And Number 31?

7 **A** That's a view of the same mark with a
8 measuring device on it.

9 **Q** And again, you can pass these around when
10 you have time because it is easier to see, but at
11 the time that you are examining this shirt and
12 looking at it, did you know what that pinkish red
13 substance was?

14 **A** I knew it wasn't blood. I do not know
15 what the source was.

16 **Q** At the time that you are photographing it,
17 did you know it wasn't blood at that time?

18 **A** Correct.

19 **Q** So you had already done some kind of --

20 **A** Presumptive test.

21 **Q** -- test, presumptive test before the
22 photographs?

23 **A** Yes, ma'am.

24 **Q** Okay. I don't need you to go into detail
25 into the presumptive test, it was a test that you

1 did there at the police department?

2 **A** Yes, ma'am.

3 **Q** Using tools or equipment or substances
4 that you carry in your crime scene van?

5 **A** Correct.

6 **Q** And a presumptive test will show you what?

7 **A** It is a two-part test. Once you moisten
8 your two swabs with the first agent and then swab
9 this area, you remoisten it with a second reagent.
10 If it turns a bright color of pink, it is
11 presumptive for blood.

12 It's not positive because that's
13 what -- we can't do that, but I did not get a
14 positive reaction. And based on the color and my
15 training and experience I was pretty confident at
16 the time that it wasn't blood, however, if I'm going
17 to be able to testify to the results of that, then I
18 have to do a presumptive blood test. I can't just
19 automatically say, well, that's not blood.

20 So that's why we confirm this and did
21 not have a positive reaction with phenolphthaleine.
22 Phenolphthaleine, which is as I explained, a two-part
23 presumptive test. I did not get a positive
24 reaction, so it was not blood.

25 **Q** Okay. Now, I'm going to show you your

1 Image 32. At this point we have already talked
2 about that he wore the pants back to the police
3 station, did he ultimately remove the pants for you
4 to examine and photograph?

5 **A** He did.

6 **Q** Is that what we're seeing in this image?

7 **A** These are the image of his uniform pants
8 that are displayed. Officer Wilson or Darren Wilson
9 did tell me that there was blood on his pants. It
10 is easier to see when you look at these photographs
11 at your convenience, but my orange indicator is
12 pointing to the area which did have red stains on it
13 that was identified by Darren at the time of my
14 investigation.

15 So the pants were removed, he changed
16 into other clothes, the pants were displayed just
17 like his uniform shirt and for orientation purposes,
18 and that is why I put that orange indicator in there
19 so it draws your eye to the center of the photograph
20 so you know what the focal point of that is.

21 **Q** And so that would be on the left leg. Are
22 we looking at the front or the back of his pants?

23 **A** It is the front, it is his upper left
24 thigh area.

25 **Q** Okay. And then showing you your Image 33.

1 **A** That is a closer view of that same area.

2 **Q** And then finely, your Image 34.

3 **A** Again, it is the same area. Now we have a
4 measuring device in there for scale.

5 **Q** Now, did you do a presumptive test on that
6 substance, did you swab that pant leg?

7 **A** I did.

8 **Q** And what was the result of your
9 presumptive testing?

10 **A** That was a positive reaction indicating
11 that it was blood.

12 **Q** And the shirt and the pants, were they
13 both seized and packaged by you?

14 **A** Yes.

15 **Q** Now, regarding the shirt, did you remove
16 the badge and the officer's name tag from the shirt?

17 **A** I did.

18 **Q** You have already indicated you took the
19 notebook out?

20 **A** Yes, ma'am, his personal property and that
21 belonging to the Ferguson Police Department was
22 removed.

23 **Q** Okay. And so any further examination of
24 any stains on either the shirt or pants or any other
25 substance that might be on there, that would have

1 been done at the lab by other detectives or other
2 investigators, would that be fair to say?

3 **A** Other scientists or technicians?

4 **Q** Yes.

5 **A** Yes.

6 **Q** So you don't do the other testing to
7 determine for sure if it is blood or determine whose
8 blood it is or what the type of the blood is or
9 anything like that?

10 **A** No, I do not.

11 MS. ALIZADEH: Do you have a question?

12 : No.

13 **Q** (By Ms. Alizadeh) You packaged up, you
14 swabbed the gun and packaged that and the round that
15 was left in the gun and the magazine, those were
16 conveyed to the lab as well, correct?

17 **A** Correct.

18 **Q** And the clothing that you testified about
19 that was packaged and conveyed to the lab, correct?

20 **A** Correct.

21 **Q** All right. Now, was there anything else
22 that you seized at the Ferguson Police Department?

23 **A** I took a control, in essence, DNA sample
24 with what's called buccal swab, B-U-C-C-A-L, is how
25 it's pronounced. As a control for our scientists in

1 our crime lab to immediately have a DNA sample from
2 Darren Wilson that they can compare to make sure,
3 either confirm or dispel or verify whether that
4 blood that we believe to be blood on his uniform
5 pants was his.

6 So to expedite that process, we take
7 a DNA sample from him that was also seized and
8 submitted.

9 Q That was also conveyed by you to the crime
10 lab?

11 A Yes.

12 Q Okay. Was that the conclusion of your
13 investigation while you were at the Ferguson Police
14 Department?

15 A At the Ferguson Police Department, yes.

16 Q Okay. What did you do then, this is all
17 still, we're on the 9th?

18 A Yes, ma'am.

19 Q Okay. What did you do after you were
20 finished at the police department?

21 A I went back to the original scene because
22 I was also tasked with the completion of the
23 processing of the Ferguson Police Department marked
24 Tahoe vehicle. We requested one of our contract
25 towing services to meet me there on scene. I

1 watched him load the vehicle and he was escorted to
2 our crime lab where we have a vehicle processing
3 area.

4 So when that vehicle was escorted by
5 me, it was unloaded, placed in our processing area
6 and I completed the processing of their police
7 vehicle.

8 Q So now the jurors have already seen some
9 photographs of the vehicle at the scene, those were
10 not taken by you; is that correct?

11 A No.

12 Q Your photographs were at the processing
13 area?

14 A Correct, 111 South Meramec.

15 Q Did you do anything to process the vehicle
16 while it was at the scene?

17 A No, ma'am.

18 Q So once you got the vehicle towed to the
19 garage where you were going to begin the processing
20 of that vehicle, what did you do?

21 A Once it was placed into our processing
22 area, the area of concern was the driver's door
23 area. The driver's mirror had been pushed back, it
24 has flexible mirrors that was an area of concern.

25 There was broken glass inside the

1 door. I had already been informed that Darren
2 Wilson had fired a round through the door, so I had
3 a certain defect in the driver's door.

4 I was requested to fingerprint the
5 outside of the door and also swab for potential DNA
6 sources on the top edge of the door where the window
7 comes out of the door there is a rubber strip there.
8 And also there was some red stains, which we
9 believed to be blood on the inside of the driver's
10 door. So all of that was completed in my
11 investigation.

12 Q And so initially, and I know you took
13 photographs of the vehicle while it was in your
14 garage?

15 A Yes.

16 Q Is that done first or do you do the other
17 testing and investigation first?

18 A That's done first.

19 Q The photographing?

20 A Yes.

21 Q And so let's start with your first image
22 of the vehicle, which is Number 35.

23 A This is an overall view of the interior of
24 the driver's door so you can see the entire door
25 panel.

1 **Q** Now, I know we'll see photographs in a few
2 minutes, this white or lighter color marking right
3 here, is that a defect in the panel of the door?

4 **A** Yes. That's where the projectile entered
5 the door.

6 **Q** All right. Showing you your Image 36.

7 **A** This is a closer view of the interior door
8 handle area. You have red stains here, you might
9 have to pass this around.

10 : . If you could
11 push it down a little bit lower.

12 MS. ALIZADEH: This might, I don't know if
13 that battery is going dead. All of this area here
14 has red stains on it here and here, all of these
15 darker marks are also red stains. There is a line
16 here. The reflection is such it is difficult for
17 you folks to see, so please look at it later when
18 you folks have the opportunity.

19 **Q** (By Ms. Alizadeh) Those red stains that
20 you pointed out, did you suspect that could be
21 blood?

22 **A** Yes.

23 **Q** And did you do any presumptive testing of
24 the door handle at this time?

25 **A** Yes.

1 **Q** Okay. And what was the result of that
2 presumptive testing?

3 **A** It was positive.

4 **Q** And then did you also swab that area and
5 preserve those swabs and packaged them to send them
6 to the lab?

7 **A** I did.

8 **Q** And just so we're clear on this, when you
9 do the presumptive testing, you do that by using
10 swabs, correct?

11 **A** Yes, a very small area.

12 **Q** Okay. Is that the same swab then that you
13 sent to the lab for further testing?

14 **A** No.

15 **Q** So you do a separate swab?

16 **A** Correct.

17 **Q** And when you do that second swab, you
18 don't use those same chemicals that you talked
19 about?

20 **A** No. When we are taking swabs for DNA, all
21 we use is sterile water. All we do is moisten the
22 tips of the cotton swabs. If it is a dried
23 material, which this was by this time that I was
24 involved in this. So to get a complete sample, all
25 you need to do is moisten the tips of those, swab it

1 and then replace it in the container and then
2 forward it to the crime lab.

3 Q And then on your Image Number 37.

4 A That's a closer view of the door handle
5 with those red stains with a measuring device.

6 Q Image 38?

7 A Another area on the top sill of the
8 driver's door interior, also red stain again, again
9 with the measuring device.

10 Q And those are your fingers in the
11 pictures?

12 A Yes.

13 Q So you are gloved the whole time you are
14 processing this car; is that correct?

15 A Always.

16 Q And then Image Number 39?

17 A It is just further back toward the door
18 handle, the same area of that door with a scale.

19 : . Are you
20 also taking fingerprints too?

21 A Yes, ma'am. We did that on the outside of
22 the door.

23 : On the outside?

24 A Yes, ma'am.

25 : Did you take any on the

1 inside of the leather?

2 **A** No, ma'am. That's not a conducive surface
3 for me to get a decent fingerprint evidence. It is
4 rough, there could be some other foreign materials
5 on it when it was cleaned. I really need a decent
6 surface to retrieve that fine ridge detail, that's
7 why I did not fingerprint.

8 **Q** (By Ms. Alizadeh) So the exterior of the
9 vehicle would be the painted metal?

10 **A** Yes.

11 **Q** There's no glass in this window, correct?

12 **A** Correct.

13 **Q** And the trim that went around the window?

14 **A** Yes.

15 **Q** Showing you exhibit, or your Image Number
16 40.

17 **A** This is an overall view of that defect
18 where the arm rest meets the door panel. There's a
19 defect in there from earlier, this is just a closer
20 view, going to be a series which we will walk
21 through.

22 You can also see in this that there
23 is also wet stains here and here and here.

24 **Q** Showing you Image Number 41?

25 **A** That is a closer view of that same area.

1 **Q** Image Number 42?

2 **A** That's a closer view of that same area,
3 specifically the bottom edge with the measuring
4 device.

5 **Q** Now, starting with Image Number 43, can
6 you describe what you're seeing and what those
7 things are on the edge of the car. Let's do this.

8 **A** As asked, the exterior of
9 that is processed with fingerprint powder. Once I
10 developed latent fingerprint evidence, then those
11 lifts are removed by placing lifting tape on there.
12 We also photograph those latent lifts in place and
13 our system is that there are always, we always use
14 letters on latent lifts and we try to use numbers on
15 evidence.

16 So every one of those is numbered A
17 through E. and they're always photographed in place.

18 This was the area that I developed
19 latent fingerprint evidence and so based on the
20 information that I received, that's where we
21 determined to be the best area that they were
22 concerned about as far as retrieving latent
23 fingerprint.

24 **Q** Now, the tape that you see in these
25 photographs, when you remove that from the surface

1 of the vehicle, what do you do with that tape in
2 order to preserve it?

3 **A** They're placed on what's referred to as a
4 liftback. In essence, it is a bright white card.
5 So you would have contrast or latent fingerprint
6 examiners can compare that to known or ink
7 impressions. Be it from other police officers,
8 Darren Wilson, anyone.

9 That's how they make those
10 comparisons.

11 **Q** You're not the person who makes those
12 comparisons, correct?

13 **A** No, ma'am, I'm not a latent examiner.

14 **Q** So your job is to search for areas, make a
15 determination of where you might find some latent
16 fingerprint or palm print perhaps?

17 **A** Correct.

18 **Q** And then you did visualize it by putting
19 that?

20 **A** Develop those with fingerprint powder.

21 **Q** And then lift them off the surface?

22 **A** Correct. And then they're submitted to
23 our fingerprint unit.

24 **Q** Okay. And how many lifts did you do in
25 this case?

1 **A** I had prints A through E.

2 **Q** Did you process any other part of the
3 vehicle for fingerprints?

4 **A** No, I did not.

5 **Q** I'm going to show you your Image Number
6 44. Can you describe what we see in there?

7 **A** Once we had photographed the outer part of
8 the interior door panel, in order to retrieve that
9 projectile, that door panel was removed.

10 Also when that projectile went
11 through there, it also damaged part of the inner
12 door skin. And also went through and struck the
13 outside of the door, which I believe another
14 detective had photographed. It looks like a bump.

15 So once I retrieved that projectile
16 and there is some other documentation there also in
17 the bottom of this, so we have overall view of it.
18 All of that glass I had to sift through in order to
19 retrieve that projectile.

20 So to tie this into a photographic
21 series, we take an overall view of the door, meaning
22 the source of where we recover the projectile from.
23 We orange triangle by indicator in that pile of
24 glass is where I retrieved the projectile after
25 scooping all of this out from inside of the door.

1 So that is displayed there for you
2 and further sequencing.

3 **Q** So when you say you scooped the glass out,
4 was the glass inside this area down?

5 **A** All down in there, yes.

6 **Q** Down in this area, but behind this metal
7 panel?

8 **A** Right.

9 **Q** So you had to actually scoop it out with a
10 tool or with your hands?

11 **A** My hands.

12 **Q** As you scoop it out, are you just dumping
13 it on the ground then or does it fall on the ground
14 there?

15 **A** No, I'm taking out small handfuls by small
16 handfuls. I don't want to lose anything else, maybe
17 this projectile fragmented, maybe there are sharp
18 edges to it. So we're very cognizant as far as
19 trying to retrieve as much evidence as we can.

20 The good thing for me as an
21 investigator is the projectile is pretty much
22 intact. So we didn't have a lot of small, minute
23 pieces of metal that were not directly related to
24 that projectile.

25 So as I'm doing it, I'm carefully

1 putting in a pile, going through every handful.

2 When I finally retrieved, determine that it was a
3 projectile. It is left right there and we start our
4 sequence as far as taking photographs.

5 **Q** So showing you your Image Number 45, what
6 do you see in that image?

7 **A** This is an overall view of where that
8 projectile, once it went through that plastic door
9 panel entered the interior metal skin of that door.
10 Is just an overall view of it. The
11 focal point in the center of the photograph will be
12 right about here, which you will see when you get
13 further into the seats.

14 **Q** Image 46?

15 **A** This is a closer view of it. The area of
16 concern is right here. (indicating)

17 **Q** And so a little clearer, actually, looking
18 at the image with your own eyes.

19 I guess from the very top of it,
20 maybe at the one or two o'clock position, there is a
21 defect on the metal?

22 **A** Yes.

23 **Q** Okay. Showing you Number 47?

24 **A** That's a closer view with the scale next
25 to it. The area of concern, again, is this upper

1 portion right here. (indicating)

2 Q So when you could see the car in your
3 garage, could you see that defect that was on the
4 outside of the door?

5 A Yes, it was pushed out or bowing out.

6 Q And does the location of that defect
7 correspond with where that mark, the defect was on
8 the my of the insides of the door?

9 A I would say it is consistent.

10 Q Okay. You didn't take any measurements to
11 or anything to determine?

12 A No, ma'am.

13 Q Okay. All right. Showing you your Image
14 48.

15 A This is a closer view, one of a series as
16 far as we orientated originally as far as the
17 source. The interior of the door, we have the pile
18 of glass that I had gone through, the projectile
19 with the orange indicator, and that was just a
20 closer view of the same area with the indicator and
21 projectile.

22 Q Image 49?

23 A This is a close-up view of it. Again, the
24 indicator and the projectile recovered hasn't moved.
25 It is just a closer view of it.

1 **Q** Is that 50?

2 **A** It is and this is a closer view now with a
3 scale.

4 **Q** And so can you use the laser pointer and
5 point to what we're seeing as the projectile?

6 **A** Right here.

7 **Q** You recognize that as a spent projectile?

8 **A** Yes.

9 **Q** So what did you do with that projectile
10 once you found it?

11 **A** It was packaged, marked and forwarded to
12 our firearms examiner.

13 **Q** And is that the same place where you
14 forwarded the weapon and the pieces of the weapon,
15 the magazine and the spent round?

16 **A** Correct.

17 **Q** Not spent round, a live round?

18 **A** Live round.

19 **Q** Okay. Did you do any testing to determine
20 if there was any substance on that spent projectile?

21 **A** No, I wouldn't do that. Our firearms
22 examiner would do that.

23 **Q** So if there is blood or anything on there
24 that's not something that you would have looked at
25 or tested for?

1 **A** No, ma'am.

2 Q And how about the glass, did you take
3 samples of the glass?

4 **A** No.

5 Q Are you aware does the St. Louis County
6 Crime Laboratory do any testing on glass as far as
7 breaking patterns or matching up broken glass?

8 **A** Our crime lab does not do that. They
9 don't do crashing matches, they don't do comparison
10 as far as the chemical make up of the glass,
11 properties of the glass, as far as the matching of
12 the glass.

13 Q (By Ms. Alizadeh) after
14 you finished processing this vehicle, did you put
15 the vehicle back together?

16 **A** No, ma'am.

17 **Q** What became of that vehicle?

18 **A** It was towed at the request of Chief
19 of the Ferguson Police Department to go back
20 to the Ferguson Police Department.

21 Q So you didn't put the door panel back on
22 or put anything back together?

23 **A** No, ma'am.

24 Q Did you take any measurements of the
25 vehicle?

1 **A** No, I did not.

2 **Q** Did you have any other investigative
3 things that you did in regard to this investigation
4 into the shooting of Michael Brown?

5 **A** No, ma'am.

6 MS. ALIZADEH: Does anybody have any
7 questions?

8 Okay that will be it for the testimony of
9 the Detective .

10 (End of the testimony of Detective
11)

12 MS. WHIRLEY: We ready? We're resuming,
13 it is approximately 4:03 p.m. I'm Sheila Whirley,
14 not Shirley Whirley, also Kathi Alizadeh is here,
15 the 12 jurors, and the court reporter. We're going
16 to hear the recording that was an interview with
17 , Detective on August
18 the 9th, 2014. The day that Michael Brown was shot.
19 And this is approximately 2:19 p.m. that the
20 interview was being conducted. And this interview
21 was . And we'll spell , it is
22 spelled . So I'm going
23 it commence now, it is a little less than a hour so
24 should take us up to a good time.

25 MS. ALIZADEH: We don't need, for the sake

1 of the court reporter, we have provided a transcript
2 to all the jurors, as well to the court reporter,
3 and also at this time we can pause the audio
4 recording while we play this so as not to duplicate
5 things.

6 MS. WHIRLEY: Okay. This is the playing
7 of the interview of .

8 (The interview of is being
9 played at this time.)

10 MS. WHIRLEY: That concludes the recording
11 of It is approximately 4:38 p.m.
12 our time. And her interview went from 2:19 p.m.
13 until I believe 2:52 p.m. on August the 9th of 2014.
14 Do you have anything else, Kathi?

15 : What was the
16 Grand Jury Number Exhibit?

17 MS. ALIZADEH: Of the disc?

18 : Yes.

19 MS. ALIZADEH: This was Disc Number 24,
20 which has a bunch of different recordings on it. We
21 don't have anything else lined up for today. So I
22 guess we'll let you go at this point. And
23 hopefully, we're going to end at 2:30 on Thursday.
24 So hopefully we'll have our plan is to play another
25 taped statement of which is about another

1 hour. And then hopefully have
2 testify for you and then we have a couple other
3 witnesses coming in so we will hear their statements
4 before they come in as well. So hopefully we will
5 get three eyewitnesses done tomorrow.

6 MS. WHIRLEY: Thursday.

7 MS. ALIZADEH: Or Thursday. So we are
8 chugging along. Any questions anybody has or any
9 concerns? And I hear, I'm going to meet with Bob
10 McCulloch about maybe communicating with people out
11 there about the process of the grand jury and why it
12 is not going to be done this Friday and so forth.

13 : . I think
14 he has done pretty much getting it out there. I
15 think the community leaders need to back him up and
16 confirm what he's saying, I mean. I'm quite sure
17 the process is written somewhere in the book or law
18 books or whatever and it is pretty out there what
19 the process is, they just need to tell, I think, the
20 community to try and get some stability back into
21 the community.

22 This is what, this is what they're doing,
23 this is what they need to do. I mean, if I were in
24 Michael Brown's or Darren Wilson's shoes, I would
25 want somebody to know everything before you make a

1 decision what happens to me or my life or what I did
2 or what I didn't do.

3 MS. ALIZADEH: And that was, you know,
4 Mr. McCulloch's, pledge at the very beginning that
5 you all would hear everything. I know it is very
6 tedious at times, but as you are beginning to see,
7 there is a lot of people that see different bits and
8 pieces, a lot of different viewpoints, a lot of
9 different statements and so, you know, it is going
10 to be up to you guys to sift through that. We don't
11 want to leave anything out. Down the road after
12 this decision is made, I don't want somebody saying,
13 well, you didn't call this person.

14 But as far as the community leaders, you
15 know, that's going to be something that is up to
16 Mr. McCulloch. And as you know, there have been a
17 lot of those same people have called for him to
18 recuse himself and not be the prosecutor on this
19 case. I don't know what kind of communication would
20 happen between them if there would be, but I hear
21 you and I know what you're saying. But ultimately,
22 Sheila and I are we're just doing this part of it,
23 it will be up to Mr. McCulloch to decide how to
24 handles that kind of public relations issue.

25 MS. WHIRLEY: We will convey it to him

1 though.

2 MS. ALIZADEH: Okay.

3 Could you maybe
4 just do a little research too to see if there has
5 and how common it is that a grand jury would release
6 a statement with their ultimate decision at the end?
7 I don't know that we would ever want to, but it
8 might be an option to help calm things or a thought.

9 MS. ALIZADEH: It is funny that you say
10 that and I think, I don't know if you guys have
11 asked that before. I mean, I have been here 26
12 years and, um, actually even before Bob McCulloch
13 was the elected prosecutor. And never in my
14 experience, now I know that we have had several
15 grand juries conduct investigations into excessive
16 force involving police officers, whether it be
17 shootings, whether it be homicide or an assault
18 where a person wasn't killed, I'm not aware of ever
19 being a statement released after the grand jury has
20 made its determination.

21 MS. WHIRLEY: I'm sorry, Kathi, let me
22 make sure I understand. Were you suggesting that a
23 grand juror would make a statement?

24 : I'm not actually
25 suggesting that we want to, just was wondering if it

1 ever happened or was that in the history of that or
2 kind of like you were going through what the debate
3 time we would also continue if we didn't have a
4 certain number going to look into that. I'm curious
5 as well if there had been any historical point of
6 grand juries doing that. I don't even know if we
7 would even want to.

8 MS. ALIZADEH: I'm not aware of anything
9 like that ever happening.

10 : I don't think, one thing,
11 I don't want them to know me or know anything. I
12 don't want anything out there.

13 Yeah, we would never make
14 a statement with names.

15 : But for me, I don't want
16 nothing to do with any release, the press, the news.

17 : Just to be clear, it
18 wouldn't be an individual statement.

19 : I do the best that I can.

20 MS. ALIZADEH: I'm not sure what your
21 charge is. I know that the judge read the charge to
22 you as to what your duties and obligations are. I
23 don't know how that extends beyond your term. Like,
24 you know, I know when we have a trial, the jury is
25 told they can't discuss this with anyone, but at the

1 conclusion of the trial that admonition is lifted
2 and they're told you can discuss this with whomever
3 you wish or not at all, it is up to you.

4 I haven't seen what the charge is that the
5 grand jury gets. I don't know that if the grand
6 jury is allowed to talk about this after the fact.
7 I'm not sure about that and we can look into that,
8 but what I'm guessing or I'm thinking, and you all,
9 you know, again, there's nothing written in stone
10 right now, but you are talking about the possibility
11 as the grand jury as a group preparing some kind of
12 formal statement that would accompany your decision.
13 And it wouldn't be like your names would be attached
14 to it, you would agree on some kind of statement
15 that you would want to make about whatever you would
16 want the public to know about that.

17 I'm not aware of that ever happening and
18 so I'll look into that to see if that's even
19 possible. Obviously, if they say no because your
20 admonition is not lifted after, then you can't talk
21 about your, the process and your deliberations and
22 the evidence that you heard.

23 So I will look into that.

24 Thank you.

25 MS. ALIZADEH: I haven't forgotten about

1 the fact that you all are interested in getting some
2 law and we have talked about that too. We just
3 haven't had a lot of time.

4 We do have another attorney who is going
5 to help us do some of the background research and
6 stuff like that, we just kind of got him. I feel
7 like we have an assistant now. So it will be
8 somebody that can help do some of this background
9 research and go over some things. Give you whatever
10 answers or information you think you, need, okay?

11 Everybody have a great evening and this
12 concludes the session of this afternoon on
13 September 30.

14 (End of the September 30, 2014 Grand Jury
15 Proceedings.

I,

a Licensed Certified Court

7

Reporter by the Supreme Court in and for the State

8

of Missouri, duly commissioned, qualified and

9

authorized to administer oaths and to certify to

10

depositions, do hereby certify that pursuant to

11

Notice in the civil cause now pending and

12

undetermined in the County of St. Louis, State of

13

Missouri.

14

The said witness, being of sound mind and being

15

by the grand jury first carefully examined and duly

16

cautioned and sworn to testify to the truth, the

17

whole truth, and nothing but the truth in the case

18

aforesaid, thereupon testified as is shown in the

19

foregoing transcript, said testimony being by me

20

reported in shorthand and caused to be transcribed

21

into typewriting, and that the foregoing page

22

correctly sets forth the testimony of the

23

aforementioned witness, together with the questions

24

propounded by counsel and grand jurors thereto, and

25

is in all respects a full, true, correct and

1 complete transcript of the questions propounded to
2 and the answers given by said witness.

3 I further certify that the foregoing pages
4 contain a true and accurate reproduction of the
5 proceedings.

6 I further certify that I am not of counsel or
7 attorney for either of the parties to said suit, not
8 related to nor interested in any of the parties or
9 their attorneys.

1 GRAND JURY HEARING VOLUME IX

2 MS. WHIRLEY: I'm Sheila Whirley, of
3 course, Kathi Alizadeh, the 12 grand jurors are here
4 and is here taking town everything we're
5 saying this morning. We are going to start out with
6 the witness that we talked about last time we were
7 together that's .

8 Before she comes in, however, she is here
9 waiting to give testimony. Before she comes in
10 we're going to listen to a statement that she gave
11 to the federal, during the federal investigation,
12 FBI and U.S. attorney and well a couple of attorneys
13 from the Department of Justice. So we will hear
14 that interview. It is probably in totality an hour
15 and 13, 14 minutes, something like that.

16 We have the transcript that Kathi will
17 pass out in a moment and she wanted to let everybody
18 know that we just got the transcript, I believe,
19 last night.

20 MS. ALIZADEH: This morning.

21 MS. WHIRLEY: This morning. We haven't
22 had a chance to proof it. So as you are listening
23 and you read, if you hear something different than
24 what's printed, what really count is what you hear
25 because that's in 's words.

1 Someone else is listening and transcribing
2 what she has to say, but the real evidence is the
3 actual statement that she's giving, the audio
4 recorded statement. So with that little bit, is
5 there something wrong?

6 MS. ALIZADEH: No.

7 MS. WHIRLEY: They had a break, it is
8 going to be like two different recordings because
9 they take a break and then they come back on a
10 second recording that's only 13 minutes, and the
11 first one is a little over an hour. So with that
12 bit of introduction, we'll stop recording,
13 and then we'll play.

14 (The interview of is being
15 played at this time.)

16 MS. WHIRLEY: I didn't say the date is
17 October the 2nd, 2014 and the exhibit that you just
18 heard the audio recording was Grand Jury Exhibit
19 Number 23.

20 We do have that witness here and it is
21 approximately 12:07 p.m. now. We'd like to go on
22 with the witness. Lunch will be here momentarily,
23 if it is not here already. Can we do the witness
24 and then lunch? Okay.

25

1
2 of lawful age, having been first duly sworn to
3 testify the truth, the whole truth, and
4 nothing but the truth in the case aforesaid,
5 deposes and says in reply to oral
6 interrogatories, propounded as follows, to-wit:

7 EXAMINATION

8 BY MS. WHIRLEY:

9 Q Introduce yourself to the jurors and spell
10 your name for the court reporter.

11 A Okay. Hello everybody. My name is
12 , last name ,
13

14 Q And, as you can see I'm standing
15 back here so that when we have a conversation when I
16 ask you questions, you answer, you will speak up
17 loud enough so I could hear you.

18 A Okay.

19 Q That way we'll know all the grand jurors
20 can hear you too, okay?

21 A All right.

22 Q We've got a map up here and that's Grand
23 Jury Exhibit Number?

24 MS. ALIZADEH: 25.

25 MS. WHIRLEY: 25.

1 **Q** (By Ms. Whirley) You've got a pointer, you
2 know how to use it, right? I'm going to ask you
3 some questions and I want you to be able to show us
4 up on the map, there you go, is that okay?

5 **A** Yes.

6 **Q** Good, all right. So show us, first of
7 all, where you live currently if it is on the map?

8 **A** Right there. (indicating)

9 **Q** What's that address?

10 **A** , Apartment

11 **Q** And that's on, what's the street, is that
12 Canfield Drive?

13 **A** Yes, Canfield Drive.

14 **Q** And you indicated on the map where that's
15 located, is that like a first, second, third floor?

16 **A** Third.

17 **Q** It is the third floor. Okay. Now, you
18 know why we're here?

19 **A** Yes.

20 **Q** This is about the Michael Brown shooting?

21 **A** (Nods head.)

22 **Q** And that occurred on August 9th of 2014.
23 Do you remember that day pretty well?

24 **A** Yes.

25 **Q** And that would have been a Saturday,

1 correct?

2 **A** Yes, ma'am.

3 **Q** Okay. Now, it was somewhere around noon;
4 is that right?

5 **A** Yes.

6 **Q** Tell us from the beginning what you saw,
7 what you know about the Michael Brown shooting?

8 **A** Okay.

9 **Q** Speak up loud enough.

10 **A** Sure. Start from the beginning of the day
11 or the beginning of everything that I saw?

12 **Q** Let's start with the beginning of your
13 day.

14 **A** Okay. I woke up that morning, I was
15 waiting to have my boss to come get me for work. We
16 were supposed to be heading out a little ways before
17 that evening, I'm sorry, the afternoon, she called
18 me.

19 **Q** I'm sorry, I didn't hear you well. Will
20 you tell us what you were going to do at work that
21 day?

22 **A** Oh, no, we were heading off for work.

23 **Q** Heading off for work?

24 **A** Right.

25 **Q** What kind of work do you do?

1 **A** I'm a sales consultant for

2 Q And that's the job with
3 she's your employer?

4 **A** Yes.

5 Q Okay. And what were you going to do that
6 day, on Saturday?

7 **A** I don't remember like because the way we
8 work is we go door to door, but I don't remember
9 where exactly where we were headed that day. We
10 were going out to work.

11 Q You go door to door and do marketing or
12 sales?

13 **A** Yes.

14 Q What are you selling?

15 **A** We're technically not selling, it is
16 energy, the regulation of energy through Ameren.

17 **Q** Okay, all right. Go ahead.

18 **A** Okay. So I was calling her to ask her if
19 I could probably get a ride. I didn't have another
20 ride that day and she was just saying, yeah, that
21 was early, around 8 or 9 o'clock. She said I will
22 be there shortly. I'm waiting for her. I finally
23 get a call from her, I was cleaning my room, which
24 is right there on the very corner.

25 **Q** Can you get the light on?

1 **A** Yeah, which is right there on the third
2 corner. So I'm sitting in my room.

3 **Q** Here?

4 **A** Yeah.

5 **Q** Okay.

6 **A** I'm sitting in my room and I look down at
7 my phone and I'm getting a call from . At
8 the same time I'm getting a call from her, I hear
9 tires screeching in the middle of the street. We
10 had gotten into a car accident about a couple weeks
11 before that, so that already made me go to check on
12 her, hopefully she didn't hit anybody or she didn't
13 crash or anything like that. So that's what drew my
14 attention outside the window. I then looked out the
15 window and just noticed the police car outside.

16 **Q** And where did you notice the police car
17 when you looked out the window, where on the map,
18 show us?

19 **A** It is like a police SUV, not a smaller
20 car, a bigger one, it is about right there, sorry.

21 **Q** Do it again. If you need to stand up, you
22 can. You don't have to, it is up to you.

23 **A** Okay. It is right around there.

24 **Q** Okay. That's where you saw the car from
25 your window here?

1 **A** Yes. I had noticed that 's van, it
2 was right around here. I could still see her too.

3 **Q** Was she driving when you noticed her or
4 was she parked?

5 **A** She was at a standstill.

6 **Q** She was in the car, but it wasn't moving?

7 **A** Yes.

8 **Q** And where was it again?

9 **A** Right around here.

10 **Q** Okay. There is her car right around
11 there?

12 **A** Yes.

13 **Q** How was the police car stopped in the
14 street?

15 **A** It was in the middle of the street,
16 slanted.

17 **Q** Okay. Slanted?

18 **A** Slanted towards basically this way.

19 **Q** And what street would that be?

20 **A** This is West Florissant.

21 **Q** So it was facing west?

22 **A** Yes, that is West Florissant, it was
23 facing West Florissant.

24 **Q** West Florissant, okay. So, and then what?

25 **A** Okay. Where was I, I looked out of my

1 window and I saw a glimpse of just the top of a hat.

2 Q What color?

3 A It was a red hat.

4 Q Okay.

5 A The glimpse of a top of a hat, just next
6 to the vehicle and I just saw a movement, a jerking
7 away movement.

8 Q A movement of what, the car or person what
9 was the movement?

10 A It was an arm.

11 Q It was an arm?

12 A Yes.

13 Q Did you later learn whose arm?

14 A Yes, I later found it was Michael Brown's
15 arm.

16 Q Michael Brown's arm?

17 A Yeah.

18 Q You saw a jerking of the arm?

19 A Yes.

20 Q And then what?

21 A Okay. It was like simultaneously as I'm
22 getting a phone call, I hear the tires screeching
23 and I look out the window and I hear gunshots at the
24 same time. Because this all happened very quickly,
25 this gunshot.

1 I'm looking out my window, it is just
2 a couple, two or three, I'm looking out my window.
3 I notice that they're coming from the exact
4 direction as the police car. I notice that they're
5 coming from the direction, the direction that the
6 police car vehicle, so still right there. It was
7 really loud because it was right outside my window.

8 Q Okay. You said the shots were coming the
9 direction of the police car?

10 A Yes.

11 Q Did you make any assumptions about that?

12 A I did. I, um, in the beginning stages I
13 did make assumptions. I thought that, couldn't
14 really tell, you couldn't tell, but I thought that
15 maybe a bullet hit the police car, maybe it hit the
16 building into the police car. It was just like, you
17 could hear an extra oomph, you know what I mean?

18 Q You didn't know what had occurred, but you
19 heard --

20 A Yeah.

21 Q -- but you heard the sound of shots?

22 A Yes.

23 Q Okay.

24 A Just right next and that all happened like
25 simultaneously.

1 **Q** Once you heard the shots, what did you
2 notice next?

3 **A** I looked away to grab my purse because I
4 was looking for her car, but I noticed it was fine,
5 but I was going to go outside and go to her, but I
6 decided to not go outside because of gunshots
7 outside my door. I grabbed my purse and head back
8 to the windows.

9 At this moment I'm headed, I'm
10 looking out the window, it is facing towards this
11 street now.

12 **Q** This is a different window you are looking
13 out?

14 **A** Yes, this is the window from my balcony.

15 **Q** Okay.

16 **A** A big glass sliding door, it is a window
17 and door you can walk straight out.

18 **Q** Were you still inside the apartment
19 though?

20 **A** Yes, I was. So I'm at the balcony and I
21 just notice other police officer run down the
22 street, just running, chasing, who knows, he's just
23 running, to me he was running.

24 **Q** Could you see who he was running after or
25 why he was running?

1 **A** At the time I couldn't, my focus was on
2 this car that was right here in front of my
3 apartment. The car is right there.

4 **Q** So what was the proximity of the car to
5 the police car, to the police truck?

6 **A** The car, okay, the police car, or the
7 police truck is right here in the middle of the
8 street, somewhere around here. And the other car
9 was like in front of this Canfield Drive sign, so it
10 is just right there, right in front of my window.

11 **Q** So right behind the police car?

12 **A** Yeah.

13 **Q** What kind of car was that?

14 **A** It was a Monte Carlo, two-door car.

15 **Q** What color was it?

16 **A** It was a dark color, it was black or a
17 dark blue car, like a dark, dark blue, but I'm
18 pretty sure it was a black color.

19 **Q** Okay. Why did that car draw your
20 attention?

21 **A** I saw somebody I recognized like crouching
22 next to the car. It was, I call him DJ, it was
23 Dorian Johnson. He was just crouching next to the
24 car. I originally thought the police, he'd been
25 involved in something and he was hiding, but the

1 police just ran right past the car like not even
2 looking no other directions, ran right past it. So
3 he's just still kneeling and that's when I start to
4 think he must be hiding from the police because
5 there's --

6 Q So did you hear some more shots after you
7 heard the shots from you thought was in the car, or
8 around the car?

9 A Yes. As I'm looking down at him, I'm
10 hearing more gunshots.

11 Q As you are looking down at whom?

12 A At Dorian and like he's right in front of
13 me. So I'm looking kind of down when I see him.

14 Q Do you know where the shots are coming
15 from at this point?

16 A I could tell that it was following the
17 police, so the police was the one shooting the
18 shots. It was like, my eyesight is coming from a
19 car area at first and now it's coming from this way.
20 (indicating)

21 Q Okay. So there are shots coming, the
22 officer is running, or shots being fired and the
23 officer is running, do you see anybody else at that
24 point?

25 A No, my um, my vantage point gets blocked

1 off from the police running because he runs behind,
2 how do I explain this, this little small wall right
3 here. He just runs right around there somewhere.

4 Q So he runs past the wall?

5 A Yeah.

6 Q And at that point your vision is blocked,
7 by the way?

8 A By the officer, yes.

9 Q How far did you see the officer run to?

10 A From his car down.

11 Q Show us where, how far you saw him run?

12 A If his car was right around this area, he
13 ran straight past the Monte Carlo, straight back
14 where I can't see him any more, about right around
15 here. (indicating)

16 Q So not quite to the intersection?

17 A Yeah, not quite all the way over there.

18 Q Okay. And that's the intersection of
19 Canfield Drive and Copper Creek Court?

20 A Copper Creek Court.

21 Q He didn't get to that intersection?

22 A No.

23 Q Did you see the officer stop running?

24 A No.

25 Q What did you see next, you say he's

1 running?

2 **A** Okay. As I'm glancing down and Dorian, I
3 heard the gunshot as I notice the officer running
4 past me. I just glimpse at the officer, I wasn't
5 too much paying attention to him because I'm more
6 thinking about what is going on next to this car.
7 There is also people inside the car and it appears
8 to me like Dorian was going to hop in it and just
9 leave, but that never happened.

10 I just have a glimpse, what I presume
11 to be a kid, I don't know why I thought it was a
12 kid, but he just looked young, you can tell somebody
13 young. He just turned around at this moment,
14 nothing is blocking any more, and I can see somebody
15 turn around was starting to put their hands like
16 this. (indicating)

17 **Q** Before you get to that, where did you see
18 the person, I don't know if you say you saw him stop
19 running or saw him turn around, did you see that
20 person referred to as Michael Brown, did you see
21 Michael Brown stop running or running at all?

22 **A** When I, um, saw him, I hadn't known that
23 it was him by the vehicle at first, I didn't draw
24 that connection. By the time I got over here, like
25 I saw it was almost over, basically the color of the

1 hat. There was no person with a hat on over here,
2 never got the connection at first. But I saw him
3 like get out of the blockage. So he was moving
4 towards this way. (indicating)

5 Q Who?

6 A Michael.

7 Q He was moving toward?

8 A This way. (indicating)

9 Q This way?

10 A Yeah.

11 Q Where was he when you first got sight of
12 him after your vision was blocked by the wall or
13 whatever?

14 A He was right around here. (indicating)

15 Q And that car is not related to this case?

16 A Okay.

17 Q So where did you see him?

18 A It was like right around where his car is.

19 Q At the intersection or not quite the
20 intersection?

21 A I just say the intersection.

22 Q So he was closer, some feet away from the
23 intersection of Copper Creek?

24 A Exactly.

25 Q On Canfield Drive when you saw him?

1 **A** Yeah.

2 **Q** And when you first saw him in this area,
3 was he moving at all, tell us again what he was
4 doing when you first saw him?

5 **A** When I first saw him he was coming to a
6 still and turning.

7 **Q** So he had been moving?

8 **A** Yes, you could tell because --

9 **Q** Show us what you saw?

10 **A** Okay.

11 **Q** If you don't mind, please.

12 **A** Sure thing. Okay. He's moving his body
13 this way, can everybody see me? I'm sorry, he's
14 moving his body. I don't know, I couldn't tell, he
15 was most likely running too.

16 **Q** Tell us what you saw?

17 **A** Okay. This way, this is what I saw
18 basically.

19 **Q** Okay.

20 **A** At that moment I start hearing just a
21 great deal of shots. I could not say how many shots
22 it was, after that it was a great deal of it.

23 **Q** So at the time you demonstrated for us
24 that he was turning around because at first his back
25 was to where you saw the officer running?

1 **A** Yes.

2 **Q** And he was turning around facing the
3 officer?

4 **A** Yes.

5 **Q** Could you see the officer too at that
6 point?

7 **A** I still could not see the officer.

8 **Q** So the officer now was blocked, but you
9 could see Brown?

10 **A** Yes.

11 **Q** And he turned around and this has been
12 important and we've heard a lot about hands up, so
13 once again, demonstrate for us turning around and
14 the hands?

15 **A** Okay. I saw him turn to his right, turned
16 around, but as he was turning, I'm sorry, he was
17 like this. What I was saying was that I didn't see
18 like a big all the way up there kind of thing, I
19 just saw a turned around kind of right here.
20 (indicating)

21 **Q** Kind of shoulder high, hands up?

22 **A** Yes.

23 **Q** But his palms were like facing the
24 officer?

25 **A** Yes.

1 **Q** Did you see any blood?

2 **A** I did not see any blood.

3 **Q** Did he appear injured to you?

4 **A** No, he didn't. Not at that point.

5 **Q** And when he was standing there with his
6 hands up, did you see him move at all?

7 **A** No, okay, that's the part I want to get
8 to. After that, it was just a lot of gunshots. So
9 at this point, I'm looking out my window. I guess I
10 either glance back at Dorian or I flinch or I do
11 something to where I take my eyes away and next
12 thing I know, he is falling down.

13 So I never saw him make any more
14 movements except for a lot of shots and he started
15 falling down. He fell on his knees and he hit his
16 face on the ground.

17 **Q** When you saw him falling down, did he
18 appear to be at the same spot that he was when you
19 saw him turn around?

20 **A** In my recollection he was.

21 **Q** When he fell down, where was he?

22 **A** Right around the same spot. Right around
23 that area. (indicating)

24 **Q** Do you recall how many shots you heard?

25 **A** No, ma'am.

1 **Q** When he turned around?

2 **A** No.

3 **Q** Did he appear, because you can see him
4 now, right, when he turned around you had full view
5 of him, but not the officer?

6 **A** Yes, the officer was blocked.

7 **Q** Did he appear to be reaching for anything?

8 **A** No, ma'am.

9 **Q** Did he touch his waist at all?

10 **A** No.

11 **Q** So you saw him actually go down?

12 **A** Yes.

13 **Q** And hit the ground. I don't want you to
14 hit the ground, but can you demonstrate how he went
15 down?

16 **A** Okay. But now from my point of view I'm
17 just looking at his knees, but I'm sure it wasn't
18 that slow, but like a fast, knees, boom and falling
19 forward. (indicating)

20 **Q** Okay, thank you. Did he move any more
21 after that?

22 **A** No.

23 **Q** Okay. And what did you do after you saw
24 him fall to the ground?

25 **A** Started crying.

1 **Q** Started crying. Okay. And then as you
2 are crying, what happens next? I'm going to get you
3 some napkins.

4 When you saw him fall, then you say
5 you started crying, then what happened next?

6 **A** I just ran to my room where I left my
7 phone and, um, the condition of my phone is
8 incredibly horrible. I dropped it, it was cracked
9 in many spots. You cannot really see the screen,
10 that wasn't my first intention was to get my phone.
11 I just ran back like I have to make this work
12 somehow. I ran back, got my phone and just started
13 recording everything that I saw from that point on.

14 **Q** Okay.

15 **A** I just hit the record button and have my
16 phone, even though you couldn't tell on the screen,
17 see the screen.

18 **Q** Did you call anybody or talk to anybody?

19 **A** No, I was too shocked.

20 **Q** Okay. And at some point you, I think this
21 maybe --

22 **A** I'm sorry, after I left, after like the
23 whole aftermath happened, I did make a couple phone
24 calls, but not like during the whole part where they
25 took the tape up and all of that. I was mainly on

1 my balcony after things started, after an hour or so
2 passed, I started getting phone calls and then
3 making them.

4 Q How long was it after the shooting did the
5 police contact you for a statement that day?

6 A Probably about an hour and a half.

7 Q Okay.

8 A Two hours.

9 Q How did they know to contact you?

10 A Because they saw me and standing
11 right there.

12 Q Standing?

13 A On my balcony.

14 Q At this point you were both standing on
15 the balcony?

16 A Yeah.

17 Q Do you remember what you were wearing?

18 A I had my uniform on. once she
19 came to my balcony, she said we can't be out here
20 with our uniforms on, we have to change shirts. You
21 have a shirt that I can wear? I went in my room and
22 gave her one of my shirts.

23 MS. ALIZADEH: I'm having trouble hearing
24 you, .

25 A I'm sorry.

1 MS. ALIZADEH: I want the jurors to hear
2 you. It is okay for you to talk in your direction,
3 but can you talk a little louder so I can hear you
4 too.

5 A Yes, ma'am.

6 Q (By Ms. Whirley) What color are your work
7 shirts?

8 A They're anywhere from orange, to blue, to
9 black. I just gave her a normal shirt.

10 Q What did you have on?

11 A I put on a black shirt.

12 Q A black shirt. Did you have on a black
13 shirt before then?

14 A No.

15 Q What did you have on before then?

16 A Before I got dressed, I had on a, pretty
17 sure my blue uniform shirt.

18 Q You're not sure though?

19 A I'm pretty sure.

20 Q Okay. Now --

21 A She had on the same color.

22 Q Okay. Dorian Johnson, you mention him, I
23 think you refer to him as DJ?

24 A Yes.

25 Q So you know him?

1 **A** Yes.

2 **Q** You knew him before this day?

3 **A** Yes.

4 **Q** How well did you say you know him, did you
5 socialize with him?

6 **A** He was the very first person I met when I
7 moved there, like the month before I had moved
8 there. He was just walking down the street. I
9 said, hey, I'm going to be your new neighbor, I'm
10 going to need a friend and we started after that.

11 **Q** How long did you live there before this
12 happened?

13 **A** From July the 1st, I moved in July the
14 1st.

15 **Q** And this was August the 9th. Now, did you
16 know Michael Brown?

17 **A** I did not know that I had met him if that
18 makes sense. Somebody standing outside tells me
19 like hey, this is the guy we were with that one
20 time, you know, kind of thing. I didn't immediately
21 recognize him at all.

22 **Q** So do you ever recall whether or not you
23 socialized with him?

24 **A** I still don't remember exactly what it
25 was, but the memory of what I was doing that day is

1 in my head, I still don't remember interacting with
2 him.

3 Q Okay.

4 A But I know I've been in the same room with
5 him.

6 Q But somebody told you that he had been in
7 the same place you had been?

8 A Yeah.

9 Q Did you remember it then when he told you
10 that?

11 A I remember the incident, I can't remember
12 him like that.

13 Q Did you actually talk to him?

14 A He said I did, but I can't recall the
15 information if we did talk or what we would have
16 talked about and everything.

17 Q Okay.

18 A Yeah, somebody had to actually point out
19 to me who it was.

20 Q Now, at some point do you go outside your
21 balcony, I mean, from the inside of your apartment
22 to the outside on your balcony?

23 A Uh-huh.

24 Q Do you go down to the front? And you said
25 yes to that question, right, that you go out to the

1 balcony?

2 **A** I believe out of my door, yes.

3 **Q** Okay. Let me, I wasn't real clear.

4 At some point did you go out onto
5 your balcony outside?

6 **A** Yeah, okay, yes, I was standing on my
7 balcony.

8 **Q** My next question was, at some point did
9 you go out of your apartment to the ground outside?

10 **A** Yes, later on. We were trapped inside the
11 yellow tape for quite a little bit.

12 **Q** Not until the police allowed you to?

13 **A** Basically.

14 **Q** When you are outside on the balcony, is
15 that where you tape that or recorded, you actually
16 went outside to record?

17 **A** Yes.

18 **Q** When Michael Brown dropped to the ground,
19 were you inside or outside?

20 **A** I was inside.

21 **Q** You were inside. I'm going to step back
22 here so you can talk.

23 **A** Okay. I was inside.

24 **Q** You were inside. What I'm trying to find
25 out, did you see the officer when you went out?

1 **A** Okay. When I went out my door, there were
2 two officers there at this time.

3 **Q** Okay. The first time you went out on your
4 balcony outside, there were two officers there?

5 **A** Yes, there was already another officer on
6 the scene by the time I went and got my phone,
7 picked it up and put it on the camera and walked
8 outside, there were two officers there.

9 **Q** And that's when you started recording?

10 **A** Exactly.

11 **Q** You didn't see the officer when Michael
12 Brown was actually shot?

13 **A** Exactly.

14 **Q** He was out of your view?

15 **A** Yes. So I don't know the proximity they
16 were in.

17 **Q** That was going to be my question, but you
18 answered it. Now, there's been some discussion
19 about, I'm sure you have heard this, you have been
20 interviewed a few times; is that right?

21 **A** Yes.

22 **Q** You have given interviews to the media,
23 you've talked to the FBI, to the police?

24 **A** Yes.

25 **Q** We're trying to make sure we get things

1 clear, probably everybody asking you probably the
2 same type of questions.

3 At the window, when you first saw
4 Mike Brown at the window, are you sure of what you
5 saw regarding the arm and pulling and that kind of
6 thing?

7 **A** Yes, I had made an earlier assumption that
8 he was being pulled because why else would you be
9 jerking from the police.

10 **Q** When you say jerking, can you show us what
11 you saw?

12 **A** Like just a quick movement, like a quick
13 arm jerk. (indicating)

14 **Q** You saw that?

15 **A** Yes.

16 **Q** Regarding the shots fired before Mike
17 Brown fell down, you recall how many shots you
18 heard?

19 **A** No.

20 **Q** No?

21 **A** Yes, no.

22 MS. WHIRLEY: Anybody else have any
23 questions? Well, Kathi, let's start with you.

24 **Q** (By Ms. Alizadeh) Hi .

25 **A** Hello.

1 **Q** I know you met Sheila before you walked in
2 here, I work with Sheila and so I'm an assistant
3 prosecuting attorney and she and I are both
4 presenting this case to the grand jury, so I haven't
5 had a chance to talk to you; is that right?

6 **A** Yes.

7 **Q** Okay. I'm going to show you some
8 pictures.

9 **A** Okay.

10 **Q** I think, you'll see that these are
11 pictures of the scene on that day and they may help
12 you explain where you were in relation to what was
13 going on. So these are pictures that were taken by
14 a detective and are contained in an envelope that I
15 have marked as Grand Jury Exhibit Number 23.

16 I'm going to show you what has been
17 identified and marked as Image Number 4. Can you
18 see okay or would it be better if you --

19 **A** No, I'm okay.

20 **Q** You can see that okay?

21 **A** Yes.

22 **Q** Okay. Does it help if I turn down the
23 lights?

24 MS. ALIZADEH: Everybody can still see to
25 write, right? There is a little bit of a glare on

1 this, that's not actually like the sun coming up.

2 That's just the way the light shines on the
3 photograph paper.

4 **A** Okay.

5 **Q** (By Ms. Alizadeh) So you've got a pointer
6 there and I'm going to use one too. But from what I
7 am gathering, this is your building, correct?

8 **A** Yes.

9 **Q** And you live right up here?

10 **A** Yes.

11 **Q** So this window right here, is that your
12 bedroom?

13 **A** Yes, both of those.

14 **Q** Both of these?

15 **A** Yes.

16 **Q** So you have a window that looks out
17 looking west toward West Florissant and you have a
18 widow in your bedroom that looks out onto Canfield?

19 **A** Yes.

20 **Q** Now, is this the parking lot where
21 had actually parked her vehicle?

22 **A** Yes, that's just, that's not.

23 **Q** She pulled in here?

24 **A** Yeah. So she wasn't that close, she was
25 over there.

1 **Q** Did she park over there or did she park
2 against your building?

3 **A** She parked right here. (indicating)

4 **Q** Right there. So she's not parked right
5 along here? (indicating)

6 **A** Yes.

7 **Q** She's not; is that correct?

8 **A** Yes, that's correct.

9 **Q** Okay. And so when you first, something
10 drew your attention, there were three things that
11 all happened kind of at the same time. The tires
12 squealing and your phone ringing?

13 **A** Yeah.

14 **Q** And gunshots, which originally you said
15 three shots is what you heard, is that how you
16 remember it today?

17 **A** I remember hearing a couple of shots, two
18 or three, yes.

19 **Q** Okay. A couple of shots, does that mean
20 two or does it mean two or three?

21 **A** It could have been two or three.

22 **Q** Okay. And so when you looked out, is this
23 the window you first looked out?

24 **A** Yes.

25 **Q** And that's your bedroom?

1 **A** I'm sorry, when was calling me,
2 no, I was sitting on my bed.

3 **Q** Okay. You said you looked and saw it was
4 calling you?

5 **A** Yes.

6 **Q** How did you know it was calling
7 you?

8 **A** Because , okay, the way my phone is
9 shaped, you can see the right side of the screen,
10 like the very right side. So at the end of her
11 number, I know the last four digits of her number.
12 It was her calling me.

13 **Q** Okay. So your phone was on the bed?

14 **A** Yes.

15 **Q** So did you go over and look at the phone
16 when it was on the bed before you went to the
17 window?

18 **A** I picked the phone up and went to the
19 window.

20 **Q** Okay. So when you go to the window, you
21 look out and see the police car?

22 **A** Yes.

23 **Q** I want you to know, at least I can't speak
24 for everyone else, I truly believe you were there
25 and I know you saw things. What we're trying to

1 figure out, because as many people have said,
2 sometimes over time your memory changes or sometimes
3 people influence your memory, not intentionally, but
4 because you sit down and you talk with people about
5 what they saw and those memories kind of become your
6 memories, okay.

7 So what we're trying to do, and you
8 know that people have asked about various statements
9 you have made in the past. We're just trying to
10 make sure that we understand that this is what you
11 saw and not what you say, you're not saying it
12 because somebody else mentioned it and now you
13 believe it too.

14 **A** Yes.

15 **Q** Do you understand that?

16 **A** Yeah, I get what you're saying.

17 **Q** And, you know, are you years old?

18 **A** Yes, ma'am.

19 **Q** I know what you saw was horrible and it is
20 probably never going to come out of your brain, it
21 will be in there forever and I'm sorry we have to
22 ask you this many detailed questions. It is
23 probably something you don't want to have to think
24 about, but it is important that we get this
25 information, okay?

1 **A** Yes, ma'am.

2 **Q** So now when you first look out, you see
3 the police car and you see what direction is the car
4 facing?

5 **A** It is facing towards that way.
6 (indicating)

7 **Q** Facing towards West Florissant?

8 **A** Yes.

9 **Q** Now, you know in the FBI interview, the
10 gentleman, Mr. asked you a whole bunch a
11 questions about when you first entered on the day
12 this happened, you said when you first looked out,
13 you saw a police officer get out of the car and
14 running?

15 **A** Uh-huh.

16 **Q** Do you remember him talking to you about
17 that?

18 **A** I remember him mentioning it.

19 **Q** Have you had an opportunity to look at the
20 transcript of your prior statement or to listen to
21 it?

22 **A** No.

23 **Q** Okay. You haven't looked at it or
24 listened to it, so I understand that this might be
25 the first time, but I'm going to show you a

1 transcript. It says it is on August 9th at
2 2:19 p.m. And it has Detective , do you
3 remember talking to him?

4 **A** Yeah.

5 **Q** And then you're , correct. It
6 says he starts out by saying that you're at
7 Canfield in an unmarked police vehicle. Were you in
8 his car or in a police car when you made this
9 statement?

10 **A** I was in a car.

11 **Q** Okay. So now you've given some
12 information about your phone number and so forth.
13 And then you start talking to him around page three
14 about the fact that your boss was going to pick you
15 up. She was going to pick you up and she was headed
16 towards me, do you see that?

17 **A** Yes.

18 **Q** And then you said here on page three, at
19 the moment I heard a car tire skirrr, like skirrr,
20 like it hurried up and pulled over. At the same
21 time she called me to come outside cause I was
22 waiting on her.

23 So I saw her, so I looked out the
24 window and I saw the police. And the first thing I
25 saw was, and then the officer interrupts you. I'm

1 going to stop you here for a second, okay.

2 And then he asked you where was

3 She was at her van, blah, blah, blah, you
4 were just getting ready to tell him the first thing
5 you saw, he stops and asked you about

6 **A** Yes.

7 **Q** And then you talk about over in the
8 parking lot, do you see the van? Yes. Where is it?
9 Right behind those officers.

10 So you are talking about where you
11 see right? She's in the Do you
12 see where I'm leading you down the page?

13 **A** Yes.

14 **Q** And she's sitting in her van, yes. Okay
15 what happens then. Okay. So she witnesses
16 everything from behind, but I witness it from the
17 top.

18 You are on the third floor, right?

19 **A** Right.

20 **Q** I looked outside and saw the police the
21 first thing. The only thing I saw at that moment
22 was, and then he stops you again, right?

23 **A** Right.

24 **Q** Like you couldn't get those words out. So
25 I'm going to stop you again. And then he's asking

1 you where you were looking outside, top floor,
2 second, I'm sorry, third floor. He's trying to
3 clarify where you are, okay.

4 And then it says here, you're looking
5 out the window, right? No, this one. You are
6 pointing to him where the windows are, right?
7 Facing towards the police car.

8 So you are talking about what you
9 knew. And then you get back to, cause I heard the
10 skirrrr, and I just assumed it was her and she was
11 calling me. So I was going to grab my things to
12 come outside to go to work.

13 He says, okay. And then you say, so
14 at the moment where, I mean, before I did, I just
15 looked outside to make sure she was, it was her
16 waiting for me and I saw a police officer.

17 I don't know name running toward this
18 guy. I didn't see the hassle at first, but I did
19 see him get out of the car and run in a hurry.

20 The guy was, oh, I'm sorry. I can't
21 remember his name, but it was a friend of a friend
22 of mine and , I think you are talking about,
23 are you talking about Dorian at that point?

24 **A** No, I was talking about, they keep telling
25 me I knew --

1 **Q** So that is actually not ,
2 isn't it?

3 **A** Yes.

4 **Q** Okay. So he ran and so at that time I
5 came from that window and I ran to the patio right
6 there. I open the blinds and I could see past this
7 corner, so I could see directly there from the
8 blinds.

9 So there I saw the man running, I
10 kept hearing some gunshots. The lady's window
11 across the apartment complex from mine, her window
12 got shot cause steady shots fired.

13 So you're talking about the first
14 thing you see is the officer get out of his car and
15 run. And you also mention that I didn't see the
16 hassle at first.

17 **A** Yeah, when I was mentioning that, they was
18 saying stuff was going on inside a police car and a
19 lot of stuff. And I was trying to let him know that
20 before the tires screech, I didn't see anything that
21 they were doing before that happened.

22 **Q** Okay.

23 **A** They said there was stuff going on, and
24 everybody was talking about it and so I did not see
25 those things that they said.

1 Q Oh, okay. So on page 7, again, we're
2 talking about how many gunshots do you think you
3 heard and I think that this is initially, okay.
4 Well, I've heard three at first. Like as soon as I
5 heard the skirrrr, I heard three gunshots, boom,
6 boom, boom. And then I came to the window and
7 before I could exit my house from the balcony to the
8 actual door, is when I kept hearing more and more
9 shots.

10 So I was technically trying to say
11 behind, stay behind the door, which is why I could
12 see, um, him getting shot, but I wasn't present for
13 the video to be show cause I was all, I was inside,
14 okay.

15 And then he asked you some questions
16 about he wants to understand what you are saying.
17 So you look out of that far window and there's
18 s car, right? Right.

19 And what do you see at that point?

20 And I saw the man, I'm sorry, by the
21 man, I mean the police officer getting out of his
22 car and running full speed.

23 So again, when he's asking you, you
24 look out the far window, you see s car, at
25 what did you see at that point? I saw a man

1 running, the police officer.

2 **A** That's what I saw.

3 **Q** Okay. So if you want to look through
4 this, I can let you, but I don't recall you ever
5 telling the police in your interview on the 9th that
6 you saw anything happen between the officer and
7 Michael Brown at the car?

8 **A** And I didn't make that recollection like
9 that at first. I have to sit down and think and
10 process everything that had just happened to me.

11 **Q** And certainly that's understandable
12 because, as I said, you're years old, you've just
13 witnessed something that hopefully none of us ever
14 have to see. And I know you were emotional at the
15 time.

16 Do you they think it's possible that
17 that initial recollection was that you didn't see
18 anything at the car and it was only until after
19 people were talking to you about it then you started
20 to think that maybe you saw what happened at the
21 car?

22 **A** No, I know that because I didn't make the
23 recollection because I didn't know those were the
24 same people -- person I was seeing. I know that I
25 hadn't seen Dorian before, I saw him by the 2-door

1 car. I know that after Michael get shot, that was
2 after I know it was Michael, and that was a person
3 without a hat on. And I, you know, couldn't tell
4 who it was him at that time.

5 Q Okay.

6 A It was a brief, a very brief meeting
7 anyway.

8 Q Okay. I'm going to show you a few more
9 images so the jury can kind of see what your actual
10 location is. Again, you see the police car with the
11 tape around it, that's the officer's car, correct?

12 A Yes.

13 Q And then this is your building right up
14 here and where you live right there, right?

15 A Exactly.

16 Q And so when you come out of the front of
17 your building, we can see this wooden staircase and
18 is the deck right there on the front?

19 A Yes.

20 Q Okay. And then I'm going to borrow your
21 thing here. So this thing right here, this kind of
22 like wall, if you're on your deck, does it block
23 your vision from what's going on right here in front
24 of the street?

25 A No, if I'm right there on my balcony. It

1 only blocks what's kind of to the left of me. If
2 I'm on the left of the balcony on the other side,
3 shortly to the right of me. It doesn't block that
4 much view.

5 **Q** I'm going to show you Number 7, and when
6 you were looking out through the blinds, was it out
7 a sliding glass door or was it out an exterior door?

8 **A** It was my sliding glass door.

9 **Q** Okay. Gee, I wish this wasn't. I'll move
10 it down.

11 **A** I might confuse you, I call it a door and
12 a window because you can open it and see out of it,
13 but yes, it is my sliding glass door.

14 **Q** Okay. We see in this picture on the third
15 floor is, there's a window and you said that's one
16 of your bedroom windows, correct?

17 **A** Yes.

18 **Q** And just as we're looking at the picture
19 to the right of that, is that a sliding glass door?

20 **A** Yes.

21 **Q** And then it leads out to your balcony?

22 **A** Yes.

23 **Q** And then is there another door?

24 **A** Yes, there is another door, yeah, you've
25 seen some of it that was my shadow right in there.

1 **Q** It is right in there, right?

2 **A** Right.

3 **Q** So when you were peeking out the blinds,
4 was it out of this sliding glass door or out of
5 here?

6 **A** Yeah, it was out of my sliding glass door.

7 **Q** Sliding glass door. And so you don't come
8 out until after Michael Brown's been shot, correct?

9 **A** Yes.

10 **Q** So your entire vantage point once you come
11 to this window, you stay at that window until after
12 Michael Brown's been shot, correct?

13 **A** Yes.

14 **Q** And so wouldn't you agree if people were
15 running in this direction and if things are moving
16 in this direction, this wall is going to block what
17 you are seeing, isn't it?

18 **A** For some partially, yes.

19 **Q** Okay. So there's things that you wouldn't
20 have been able to see?

21 **A** Yeah, that's true.

22 **Q** There's a time period where you don't see
23 anything. And then, you know, when you say you
24 don't see the officer when Michael Brown gets shot,
25 do you think it's because this wall was blocking

1 where he was?

2 **A** Yeah, but from where I'm looking out my
3 window.

4 **Q** You want that back up?

5 **A** Yeah. From where I'm looking out my
6 window, it blocks like a little bit of how the
7 street is shaped. So it blocks from like here, if
8 I'm looking out of my balcony, I can see, that's the
9 right side of it, I can see kind of over the right
10 side. I can still see the left, I can still see
11 what's right in front of me, just a little portion
12 portion of the whole space.

13 **Q** Just to be clear, you never came out of
14 that sliding glass door?

15 **A** Yes.

16 **Q** Okay. I don't show you this picture to
17 upset you, okay. I am going to show you Number 14.

18 **A** Okay.

19 **Q** This, again, now, I'm going to orient you
20 here because this police vehicle that you see, the
21 middle of the picture, that's not the officer's car?

22 **A** Definitely.

23 **Q** His car is up here, okay. So you're
24 apartment is right there.

25 **A** Yes.

1 **Q** What's that red dot on right there?

2 **A** My balcony.

3 **Q** Is that your sliding glass door or is that
4 your front door?

5 **A** That's my sliding.

6 **Q** Okay. And so, and wherever this picture
7 was taken from, which it looks like it is actually
8 on the sidewalk perhaps?

9 **A** Uh-huh.

10 **Q** Across the street. If you look in a
11 straight line from where the picture is, you can see
12 into your sliding glass doors, correct?

13 **A** Yes.

14 **Q** At then this wall at some point would
15 obscure some of your vision westbound a little bit?

16 **A** Yes.

17 **Q** I just made a note and I want to make sure
18 that I understood this correctly. So you, when you
19 heard the first gunshots, whether it is two or
20 three, and you thought they were coming from the
21 direction of the police car, and then, you were in
22 your bedroom at that point, correct?

23 **A** Yes.

24 **Q** And then I wrote a note that you just
25 today said I grabbed my purse and headed toward my

1 front window?

2 **A** Yes.

3 **Q** So where was your purse?

4 **A** It was right there on my bed.

5 **Q** Okay. So you look out your bedroom
6 window, which we know is the window that faces the
7 west?

8 **A** Yeah, I looked out of all of the windows.
9 I looked out both of my room windows and then to the
10 balcony. It was just a peek though.

11 **Q** And so you go and grab your purse and then
12 you say you looked out your front window. You
13 talking about the sliding glass door or you talking
14 about the bedroom window that faces Canfield?

15 **A** Did you say you, can you repeat that,
16 ma'am?

17 **Q** This is just my notes, I want to make sure
18 I wrote it right. I don't know if I did or not.
19 But I have here, grabbed my purse, headed toward my
20 front window.

21 **A** Yes, okay, that's when I had grabbed my
22 purse and headed towards the balcony.

23 **Q** That is the sliding glass window?

24 **A** Yes.

25 **Q** So I assume that you leave your bedroom,

1 what's on the inside of the sliding glass door?

2 **A** Blinds.

3 **Q** No, is it like your family room, kitchen?

4 **A** Living room, yes.

5 **Q** Living room area, okay. So you go from
6 your bedroom to the living room and then to look out
7 that window?

8 **A** Yes.

9 **Q** And you also said in your statement to the
10 FBI, or your attorney did, that you had pointed out
11 to someone tire marks in the street where the car
12 had, you know, we heard you say it screeched its
13 tires.

14 **A** Exactly.

15 **Q** Who did you point those tires mark out to?

16 **A** To her and her husband.

17 **Q** Your attorney?

18 **A** And her husband, yes.

19 **Q** So when was that?

20 **A** Um, we were making a short video about the
21 bullet that hit the wall across from mine. So we
22 were talking about that and I was just saying the
23 tire mark screech and this is where I heard the car
24 at and where I saw the car, and where the bullet hit
25 the wall and stuff like that.

1 **Q** And you said in your statement to the FBI
2 that you had made, you had written down everything
3 that you had scene shortly afterwards. How long
4 after it happened did you write everything down?

5 **A** Right before or right after I got my
6 attorney. So that wasn't long at all, that was
7 within a week or two weeks of it happening, a week
8 or two weeks, maybe not even that long.

9 **Q** And then when they asked you about that
10 statement, you said that you burned it?

11 **A** No, I didn't burn it, I got rid of it, I
12 threw it away.

13 **Q** You threw it away?

14 **A** Yeah.

15 **Q** Why did you throw it away?

16 **A** Because I become really paranoid. Every
17 day I came home there was a different reporter on my
18 door and everybody knew where I lived at. And I
19 couldn't get one sense of peace at all.

20 So I was getting calls, my family was
21 getting calls, every day they would come to my door.
22 I started to get paranoid they are going to find
23 this and use this. I got this really bad paranoid
24 feeling, the whole thing was sick to my stomach. I
25 got rid of everything that I had wrote down.

1 Q Why didn't you just give it to your
2 attorney?

3 **A** Because she didn't, she had already been
4 listening to me, she didn't need it. She was there
5 when I wrote some of it.

6 Q So she knew that you had made a written
7 recollection of this?

8 **A** She had known about one of them that I
9 made.

10 Q Did she ever read it?

11 **A** I'm pretty sure I let her read it, yeah.

12 Q Do you know if she might of made a copy of
13 it?

14 **A** Oh, no, she didn't. As a matter of fact,
15 I don't know if I was reading it to her, but I
16 remember her knowing about it, the little phrases,
17 I'm sorry, like on a little note pad thing.

18 Q Okay.

19 **A** That was the first one I had written. I
20 had written it down multiple times after I started
21 getting paranoid, I didn't do it at all.

22 Q Okay.

23 MS. ALIZADEH: I don't have any other
24 questions. Anybody have questions?

25 : My

1 question is in regards to at the car when you saw
2 Michael Brown jerk away.

3 **A** Yes.

4 You describe it as arm
5 movement, you did see the arm?

6 **A** Yes.

7 : Do you know if that was
8 reaction to the gunshot you heard, he was reacting
9 to a gunshot?

10 **A** It may have been.

11 The timing wise was right?

12 **A** Yes, it was almost simultaneous.

13 Do you know if it was the
14 right arm or left arm that you saw pull away?

15 **A** Um, I think, I want to say left arm
16 because in the front how the police car was shaped,
17 that picture is gone. How it was slanted, kind of
18 slanted and I'm looking toward the front. I just
19 see a jerking motion moving backwards, I want to say
20 left arm.

21 : After he jerked back, did
22 he go forward again and reengage, or was this out of
23 your view?

24 **A** I didn't see anything after that. It was
25 a very quick glimpse.

1 : Do you know how long after
2 that he tried to run or did you see him actually
3 pull away and run?

4 **A** Um, after I saw the little jerking motion
5 is when I was reaching for my purse.

6 : Thank you.

7 **A** You're welcome.

8 MS. WHIRLEY: Anybody else?

9 : . After
10 Michael Brown fell, you did continue to observe the
11 scene, correct, you saw them put up the yellow tape
12 and all of that?

13 **A** Yes, sir.

14 : Did you see anything that
15 would indicate that anybody moved or interfered with
16 anything within that taped off area?

17 **A** No, no, they wouldn't let anybody near it.
18 There were already two officers right there and
19 another one putting up tape. They were securing and
20 putting the cones down.

21 : . if I
22 can, I'm just referencing back to the testimony or
23 statement you gave to , Detective
24 the day when you are sitting in the police
25 vehicle, do you remember that?

1 **A** Yeah, yeah, the car, yeah.

2 : I'm referencing page ten
3 of that transcript.

4 MS. ALIZADEH: Did I leave that with you
5 up there?

6 **A** No, you didn't.

7 MS. ALIZADEH: You know what, mine has
8 markings on it, if you don't mind markings.

9 **A** Thank you. Is this everything?

10 MS. ALIZADEH: You said page ten?

11 : Yeah, page 10.

12 **A** Okay.

13 : Go down, I guess fifth
14 paragraph, I guess. Where it says, I'll just read
15 what it says here. It says, you're responding to
16 Detective . You said, yes, she said they shot
17 through the window and, um, the other guy was
18 unarmed because he put his hands up so to be
19 compliant, so this is okay.

20 So I saw the officer running and by the
21 time I got to the next window, I saw him get down
22 like, arms up and then get shot afterwards.

23 When you say here I got to the next
24 window, I saw him get down. Okay. Who get down,
25 who is it that you're referring to, do you recall?

1 **A** I'm sorry, you said who I was referring
2 to?

3 : Yeah, uh-huh.

4 **A** This sounds odd jumping up, I'm trying to
5 think about what I was talking about.

6 : Okay.

7 **A** I don't know, say get down, I might have
8 said, for instance, when I saw him fall.

9 : Okay.

10 **A** That's probably, that's the most likely
11 cause how this paragraph is jumbled, I'm pretty sure
12 I was talking about when I saw him fall when his
13 arms are like that. (indicating)

14 : So you are referencing
15 Michael Brown; is that correct?

16 **A** I was, yes, ma'am.

17 MS. WHIRLEY: Is there someone else?

18 : I have one other question.

19 **A** Sure.

20 : At any time did you hear
21 the officer yell to Michael or to Dorian or whoever?

22 **A** I heard no audio.

23 : You heard no audio?

24 **A** Only gunshots.

25 : Thank you.

1 . We saw a lot of
2 news clips also, including the video you shot on
3 your phone following the incident.

4 **A** Okay.

5 : So my question for you, in
6 the video the two officers, and obviously you
7 witnessed the event, you saw Officer Darren Wilson,
8 how certain are you in the video that you shot of
9 those two officers that the one on the right is
10 Officer Darren Wilson?

11 **A** Okay. I'm want to say 99.9 percent
12 certain. They look nothing alike. You can tell one
13 was short and kind of chubby, the other one is tall
14 and more built. He was the only one running and the
15 only one that had left the scene before everybody
16 gathered there.

17 Between the two people, I'm
18 100 percent sure between those two people, it was
19 not the guy on left, it was the guy on the right
20 99.9 percent accuracy.

21 : Of the two
22 people, are you sure it was Darren Wilson or is that
23 someone who looked more like Darren Wilson? I mean,
24 are you sure when you are taping that was Darren
25 Wilson?

1 **A** I'm sure that was Darren Wilson.

2 : I have another question,
3 this is going back to the interview you gave with
4 the FBI and I'm going to reference page 11 and 12.

5 **A** Okay.

6 : That's not the one.

7 MS. ALIZADEH: You talking about the FBI
8 interview?

9 : Yeah.

10 MS. ALIZADEH: I have one.

11 And again, I'm confused,
12 that's why I'm asking you these questions.

13 **A** Okay.

14 This is some kind of car
15 accident or something. I just automatically looked
16 right out my window and right now I'm looking out
17 the window to see a police car right in the middle
18 of the street. I see a young man standing, and
19 that's what you said earlier today.

20 So then you go, I couldn't really tell
21 what was going on. There was a lot of movement, but
22 then you say I'm looking at pull into the
23 driveway after the shot was fired.

24 Now, the shot fired out the window, so
25 that's my question. Because you go on to say, you

1 gather your purse and some items and at this time
2 Michael is running down the street and Darren is
3 chasing him. So I'm looking at the officer.

4 I'm really confused by this.

5 **A** Uh-huh.

6 : I just want to know from
7 page ten where you are talking about seeing him
8 doing a lot of movement.

9 **A** Okay.

10 : Is that where you heard
11 the first shot because on the next page I'm looking
12 at pulling into the driveway, a shot was
13 fired.

14 **A** Okay. They did all go on at the same
15 time.

16 : Okay.

17 **A** It was like a movement, it was like the
18 window, you are looking out the window and then
19 movement, shot, all of that happening. Out of the
20 corner of my eye I could see just turning.

21 : It was all simultaneous?

22 **A** Exactly. She was already by this point to
23 turn, she was probably, I don't know, she was
24 already right there and she just turned into the lot
25 and --

Page 61

1 And that's why,
2 , if that shot could have been his hand and
3 then jerked from the shot being fired in the car,
4 these things were all happening at the same time and
5 that's why you thought that?

6 **A** Yes.

7 : Thank you.

8 **A** You're welcome.

9 : When you
10 recorded the video, is that the video of who you
11 think is Darren Wilson, is that the same person you
12 saw getting out of the police vehicle?

13 **A** Yes.

14 : Okay. During your
15 recording of the video, could you tell us what you
16 saw after, I guess, what the police officer was
17 doing after Michael Brown fell to the ground?

18 **A** Okay. You want me to tell you what the
19 police officer's doing? Okay. So, while I'm
20 watching him, I'm not really looking at my phone,
21 I'm just looking at the things that happen. I have
22 my phone facing on him so I can get whatever it
23 could get. I'm looking at him just talk to the
24 other officer. They are kind of like just
25 whispering. He didn't look as if he used the same

1 type of protocol as other police officers, if that
2 makes sense.

3 Like usually okay, I going back to
4 what I saw. I'm looking at him standing here
5 talking to the other officer, he's just standing
6 there looking over the body, just looking like, like
7 just a weird look. Just looking at it. He then
8 just starts pacing back and forth next to the body,
9 not like back and forth, like immediately back and
10 forth, it was just kind of a slow movement while he
11 was looking at the body. He keeps walking and
12 looked backs at the body and then finally just walks
13 away and just leaves. After he walks out of my
14 video, I don't see him any more.

15 . Did you
16 ever see him make like a radio call?

17 **A** Yeah, the officer on the left was the one
18 doing this on his little walkie-talkie or something,
19 which was connected. He was just talking, Darren
20 Wilson was talking to him, probably explaining what
21 was going on. He was just, he was like, I was
22 outside at that point, but I still didn't hear him
23 say anything, I didn't hear the exact words.

24 : One more question,
25 . Did he appear to look injured in any way,

1 did you see him grab his face?

2 **A** I did not.

3 Like injured people do?

4 **A** Yeah, no, no, no holding of the head, no
5 gripping the body, no having somebody else look at
6 an injury or none of that.

7 Thank you.

8 MS. ALIZADEH: But you did see that his
9 face was red?

10 **A** When I first was talking to the police
11 officer, I was trying to make the distinction to
12 him, it looked red out of anger.

13 MS. ALIZADEH: You said you saw his face
14 and it looked red?

15 **A** Yeah, as he was running --

16 MS. ALIZADEH: You were just assuming why
17 it was red, you don't know why it was red, you just
18 saw his face looked red, right?

19 **A** Yes, ma'am.

20 MS. ALIZADEH: Obviously, you've never
21 seen, I assume, you have never seen him before that
22 day, correct?

23 **A** Probably not.

24 MS. ALIZADEH: Whether his face was
25 naturally red --

1 **A** Exactly.

2 MS. ALIZADEH: It was enough you remember
3 seeing it?

4 **A** I tried to make the distinction, it did
5 look red out of anger to me. He looked pissed off
6 while he was running. He was running full speed, it
7 could have been the wind making his skin red, it
8 could have been anything, but I did say that it was
9 red.

10 . And, yeah, we
11 are kind of picky. But later in the interview they
12 asked you about that, and they said it was emotion.
13 Could it have been worry, could it have been fright.
14 You said, yes, it could have been one of those.

15 **A** Yes, it could have been.

16 : It could have been. You,
17 at this point, were you trying to tell the people
18 that were interviewing you that you felt that it was
19 an emotional red, but you don't recall what kind of
20 emotion it was?

21 **A** The emotion that I picked up was anger.
22 So she got to telling me it doesn't have to be
23 anger, it could be. I said, you're right, it very
24 well could be anything, but the emotion I picked up
25 was anger.

1 Thank you.

2 : Okay. . So

3 you're saying you never saw him grab his face, not
4 once?

5 **A** No.

6 Because he could have been
7 hurt, right?

8 **A** Yes, not once.

9 MS. ALIZADEH: Could you see the officer's
10 head in the vehicle?

11 **A** No.

12 MS. ALIZADEH: To clarify, you're not
13 saying he didn't grab the officer's face, you're
14 saying I couldn't see what was going on in the
15 vehicle, correct?

16 **A** Exactly.

17 MS. ALIZADEH: Are you talking about the
18 officer grabbing his own face?

19 **A** He's talking about the aftermath.

20 : I'm asking did the officer
21 grab his face in a way to indicate he was injured in
22 some kind of way?

23 **A** Yeah, no, I didn't see that.

24 MS. ALIZADEH: Okay, sorry. See how we
25 get confused when we say he and we don't know who we

1 are talking about?

2 MS. WHIRLEY: Is there more questions?

3 Feel free. If not, I have a question for her. Did
4 you have something?

5 A I'm sorry, I just want to make a note of
6 something I said earlier. While I was outside
7 filming, I didn't notice the red any more after that
8 as I was looking. And when I was looking back on my
9 videos, I didn't notice the red that I had
10 originally noticed. This is another reason that I
11 presumed it to have been anger.

12 MS. WHIRLEY: Okay. We've asked you a lot
13 of questions here today. But we may not have asked
14 the question that you wanted us to ask, something
15 you may want us to know. Is there anything else you
16 think it is important for us to know that maybe we
17 didn't ask the question?

18 A Um --

19 MS. WHIRLEY: Or you like to tell us?

20 A Um, no, you already know everything that
21 happened in the aftermath. How troubled people
22 were, that's about it.

23 MS. WHIRLEY: Talk this way so we can hear
24 you.

25 A Okay, sorry. I didn't make any, I'm

Page 67

1 sorry, I'm trying to think of something relevant.

2 MS. WHIRLEY: You don't have to, you don't
3 have to think of anything. If you had something in
4 your mind we wanted to hear it, but you don't have
5 to say anything if you don't, that's fine. Thank
6 you very much.

7 One last thing, did you think, did it
8 appear to you that Michael Brown was threatening
9 this officer?

10 **A** Not in my point of view because I couldn't
11 see him that many times in a threatening manner
12 toward the police officer at all.

13 MS. WHIRLEY: At the time that he was shot
14 I'm referring to.

15 **A** Oh, no, no.

16 MS. WHIRLEY: Okay. That's all I have.

17 **A** That wasn't an issue.

18 MS. ALIZADEH: All right.

19 MS. WHIRLEY: Thank you.

20 (End of testimony of .)

21 MS. ALIZADEH: This is Kathi Alizadeh. It
22 is October 2nd, 1:57 p.m. Present is myself and
23 Sheila Whirley, all 12 jurors are present and we had
24 a very brief lunch break, thank you for being brief.
25 We have a couple witnesses that are here. Don't

1 know if we'll get to both of them today. Because
2 they're here and generally our preference is that
3 you would hear the recorded statements first, we're
4 just going to go ahead and put them on and play the
5 recorded statements at a later time just so we can
6 try to get them on and off.

7 So the witness we'll call is

8
9
10 of lawful age, having been first duly sworn to
11 testify the truth, the whole truth, and
12 nothing but the truth in the case aforesaid,
13 deposes and says in reply to oral
14 interrogatories, propounded as follows, to-wit:

15 EXAMINATION

16 BY MS. ALIZADEH:

17 Q Could you please state your name and spell
18 it for the court reporter?

19 A

20
21 Q Now, how old are you?

22 A

23 Q And did you grow up in the St. Louis area?

24 A I did.

25 Q Are you familiar with the Canfield

1 Apartment Complex?

2 **A** I am.

3 **Q** Okay. Now, just so I can let you know,
4 the court reporter has to take down everything
5 that's being said.

6 **A** Okay.

7 **Q** And so if you talk before I stop talking,
8 and that's almost like everybody does that, right,
9 it is hard for him to get both down.

10 **A** Okay.

11 **Q** I'll try not to walk on you and you try
12 not to walk on me and it will make easier for him,
13 okay?

14 **A** Okay.

15 **Q** You don't live in the Canfield Apartment
16 Complex; is that correct?

17 **A** Right.

18 **Q** How is it that you're familiar with the
19 complex?

20 **A** lives in the area, in the
21 subdivision.

22 **Q** All right. And does actually live in
23 an apartment in Canfield Green?

24 **A** Yes, does.

25 **Q** How long has lived there?

1 **A** Well over years.

2 **Q** Who does live with?

3 **A** .

4 **Q** ?

5 **A** Yes.

6 **Q** And so you remember the day of August 9th,
7 correct?

8 **A** I do.

9 **Q** You married or single?

10 **A** Married.

11 **Q** What is your wife's name?

12 **A**

13 **Q** And so that was a Saturday on August 9th.

14 Do you remember anything about the morning that was
15 unusual or anything happening that was different in
16 the morning?

17 **A** No, not at all, not where I live.

18 **Q** But you had plans that day to go visit
19 ; is that correct?

20 **A** Correct.

21 **Q** And did you and go to the
22 Canfield Green Apartment Complex?

23 **A** We did.

24 **Q** Who drove?

25 **A** I did.

1 **Q** And what type of vehicle were you driving?

2 **A** I drive a , black.

3 **Q** And so that's an ?

4 **A** It is.

5 **Q** So when you come into the complex or at
6 least on this day, were you coming in off of West
7 Florissant or were you coming in from the back way
8 through the Northwinds Apartments?

9 **A** We were coming in off of West Florissant.

10 **Q** Just you and your wife in the vehicle?

11 **A** Yes.

12 **Q** It was a sunny day?

13 **A** It was.

14 **Q** Was it around noon when you first got to
15 the complex?

16 **A** Yes, uh-huh, about 12, 12:30, give or
17 take.

18 **Q** And so when you entered the, West
19 Florissant is somewhere over here and I'm
20 referencing Grand Jury Exhibit Number 25, which is a
21 map that shows the roads in the Canfield Green
22 Apartment Complex, but this is Canfield right here,
23 sir, does that help orient you to what you are
24 looking at?

25 **A** It does.

1 **Q** And this would have been over here is West
2 Florissant?

3 **A** Uh-huh.

4 **Q** And as you are coming down West
5 Florissant, this is a residential neighborhood
6 correct?

7 **A** Right.

8 **Q** Single family homes?

9 **A** Right.

10 **Q** Do you see the building that
11 lives in?

12 **A** I do.

13 **Q** Okay. You have a laser pointer there,
14 they have kind of been cantankerous, sometimes you
15 have to shake them or something. Can you point
16 where the laser pointer?

17 **A** Right there. (indicating)

18 **Q** The building that you are talking about
19 actually has four different units?

20 **A** Uh-huh.

21 **Q** You have the laser pointer on, if this is
22 north, okay, so you have the laser pointer on the
23 unit that would be on the northwest side of that
24 building, is that fair to say?

25 **A** Correct, uh-huh.

1 **Q** And what floor does live on?

2 **A** The second floor.

3 **Q** So when you pulled into the complex, did
4 you notice anything unusual or that drew your
5 attention?

6 **A** No, we just drove down the street, just
7 normal on that day. Just pulled into the parking
8 lot and we parked.

9 **Q** Did you see any guys walking on the street
10 when you pulled in?

11 **A** Um, after we parked, yes, because once I
12 parked we, my wife had made a comment because I saw
13 the police officer's truck driving this way up
14 Canfield.

15 **Q** So you're coming in, going east on
16 Canfield, you saw a police officer's truck coming
17 west?

18 **A** Yes.

19 **Q** So toward you?

20 **A** Right.

21 **Q** All right. Now, at this point had you
22 seen any kids or when I say kids, I mean, like older
23 teenagers or walking the street?

24 **A** No, not at that point. I mean, because I
25 think it was after we probably, right as we parked

1 and maybe I might have passed them coming into the
2 neighborhood and never did pay any attention.

3 Q Okay. So now when you came down Canfield
4 Drive, did you pass the police vehicle before you
5 turned into the parking area?

6 A No, we had actually had parked the car and
7 then we came past, right as we were getting out of
8 the vehicle because my wife had just made a
9 statement that we had just got off 70 and we saw
10 another Florissant police SUV, and we was like is
11 that the same truck? And he drove right past and --

12 Q No lights on?

13 A No.

14 Q Was he going like he was going to a call
15 or something?

16 A No.

17 Q Speeding?

18 A No, he was driving the speed limit down
19 the street.

20 Q Leisurely?

21 A Uh-huh.

22 Q Did you have your windows opened or
23 closed?

24 A My windows were closed because it was hot
25 that day and we had the air on.

1 **Q** Okay. So now when you are pulling into
2 Canfield on Canfield Drive, do you pull in on this
3 street here?

4 **A** Right, uh-huh.

5 **Q** Are there parking spaces that are along
6 this edge of the building?

7 **A** There are.

8 **Q** Is that where you parked?

9 **A** Yes.

10 **Q** And we've seen pictures of the buildings
11 and everything, these are buildings that you walk up
12 a staircase that's outside of the building to get to
13 the upper floors, correct?

14 **A** Correct.

15 **Q** So did you notice anything when you, were
16 you carrying anything in your hands when you got out
17 of the car?

18 **A** No.

19 **Q** No groceries, you didn't have anything
20 that you were getting out of the car?

21 **A** No.

22 **Q** So what's the first thing as you were
23 getting out of the car and proceeding to the
24 staircase, did anything draw your attention?

25 **A** Yes, like I say, me and my wife was going

1 up the steps and then we turned and looked back down
2 Canfield because we saw the officer's truck going
3 down the street. And he stopped in the middle of
4 the street somewhere around, let me see here, around
5 here he stopped his truck around this section right
6 here. (indicating)

7 Q Okay. Did you actually see him stop his
8 truck?

9 A Yes, I did.

10 Q And what happened, what did you see?

11 A He stopped his truck and then I saw the
12 two gentlemen walking down the street. At that
13 point, I don't know if he said something to them, I
14 guess, or they said something to the officer, and
15 then they kept walking.

16 Q So now did you hear anything being said?

17 A No, no.

18 Q So you are just kind of assuming?

19 A Right, because he stopped, he stopped his
20 truck and he, I guess he said something to them
21 because they stopped and started talking with him
22 for a brief moment.

23 Q Okay. So the two guys on foot stopped
24 walking as they were next to the police truck for
25 briefly?

1 **A** Right.

2 **Q** And then they keep walking?

3 **A** Right.

4 **Q** The same direction they had been?

5 **A** Correct.

6 **Q** And so did they come from, were they
7 walking east then on Canfield?

8 **A** Yes, I'm sorry.

9 **Q** And the officer was going west on
10 Canfield, correct? His truck was going in this
11 direction, correct?

12 **A** Correct.

13 **Q** And so was it about in this area that you
14 saw him first make contact with them?

15 **A** Correct.

16 **Q** All right. How long, how many minutes or
17 seconds?

18 **A** It was about 15 seconds, maybe 20 seconds
19 at the most.

20 **Q** Okay. And then when you see the boys
21 start walking again, does the vehicle move any more?

22 **A** Yes.

23 **Q** What does it do?

24 **A** He in turn, as he's talking to the
25 gentlemen, there was another white vehicle pulled up

1 behind him and when the gentlemen started walking
2 down the street, he in turn threw his truck in
3 reverse and pulled it like he was trying to block
4 their way of going back down Canfield.

5 Q Okay.

6 A In a way to where he is now facing like
7 towards going up West Florissant at an angle in the
8 middle of the street. So he was kind of like
9 impeding their walkway down the street.

10 Q Okay. And when he did that, did he block
11 their forward motion?

12 A Somewhat, yes.

13 Q What happened then?

14 A From that point I turned around and I told
15 my wife they're down there struggling. I mean,
16 they're down there fighting or something. And I
17 couldn't tell exactly what was transpiring because
18 the truck, I was on this side of the street looking
19 at what's going on.

20 So I couldn't see exactly if the
21 gentleman reached inside his truck or the officer
22 reached and grabbed him or whatever, but the other
23 gentleman he stood down, he ran somewhere.

24 There was a white car that was behind
25 him. I don't know what happened with the white car,

1 but then he took off, something happened, I heard a
2 gunshot go off inside the struck.

3 Q Okay. Let me stop you. So are you still
4 outside of the apartment?

5 A I am.

6 Q Are you going up the stairs?

7 A I'm standing on the porch.

8 Q So on the third floor?

9 A No, on the second.

10 Q Second floor, okay. And so from your
11 vantage point here, you're looking down here?

12 A Correct.

13 Q Now, when the officer angled his car?

14 A Uh-huh.

15 Q When he went in reverse and angled his car
16 is his car between the boys and you?

17 A Yes.

18 Q Okay. So can you, so the car is blocking
19 your view of --

20 A Of the driver's side.

21 Q The driver, okay. So you can see the back
22 of the vehicle?

23 A I can see the passenger side of the
24 vehicle and the back of the truck.

25 Q And so you can't tell what was going on,

1 could you see the truck moving or anything?

2 **A** No.

3 **Q** Was it rocking or anything that you know?

4 **A** I couldn't tell you.

5 **Q** What made you think there was a struggle
6 going on?

7 **A** Because you could see, I mean, I could see
8 them going back and forth. I mean, I'm standing on
9 the porch at an angle looking down.

10 **Q** Okay.

11 **A** So I could see something going on, but I
12 can't tell whether or not if he, again, who grabbed
13 who or what have you, I don't know because like I
14 said, the truck was, it happened on the driver's
15 side of the vehicle.

16 **Q** Okay. Who was engaged in the struggle,
17 you said there was two boys or gentlemen walking and
18 then the officer that was driving, who among those
19 three were engaged?

20 **A** Mr. Brown and the police officer.

21 **Q** Okay. Now, did you know Mr. Brown before
22 this day?

23 **A** No.

24 **Q** But he's the gentleman that was shot and
25 is deceased, correct?

1 **A** Yes.

2 **Q** And when you saw the two boys, did you
3 recognize Mr. Brown?

4 **A** No.

5 **Q** Okay. Haven't seen him in the complex or
6 anything?

7 **A** No.

8 **Q** Would you describe him as pretty big guy,
9 tall?

10 **A** Yes, from what I saw.

11 **Q** And compared to like the other kid he was
12 with, Michael Brown was substantially taller; is
13 that right?

14 **A** Yes.

15 **Q** He was the one that was at the vehicle
16 struggling with the officer?

17 **A** Yes.

18 **Q** And then what happened then, you heard a
19 gunshot?

20 **A** I heard a gunshot, and about another 20
21 seconds later, I heard another gunshot go off, or
22 maybe 15 seconds another shot goes off.

23 **Q** Okay. Let me stop you. When you heard
24 the first gunshot what, if anything, does Michael
25 Brown do at the vehicle?

1 **A** He was still, they were still standing at
2 the door at the window of the vehicle. They were
3 still, I guess, struggling or going back and forth,
4 I don't know.

5 **Q** Okay. And then a few seconds go by?

6 **A** Uh-huh.

7 **Q** And then you heard another gunshot?

8 **A** Another second gunshot.

9 **Q** What, if anything, did he do after the
10 second?

11 **A** He took off running.

12 **Q** Which direction did he run?

13 **A** He started running down Canfield this
14 direction.

15 **Q** Was he running in the street?

16 **A** Yes.

17 **Q** Or on the sidewalk or the street?

18 **A** He was running in the street.

19 **Q** Now, at this point are you still on the
20 porch?

21 **A** I am.

22 **Q** Did you ever go inside s?

23 **A** Yes, I did. I stepped inside the door
24 when the first, the first gunshot went off, my
25 family, they ran inside the door and then we came

1 back outside. Because we didn't hear any more
2 shooting, to see what was going on.

3 Q So let me get this straight, were you
4 inside or outside when the first gunshot went off?

5 A We were outside when the first gunshot
6 went off.

7 Q Were you inside or outside when the second
8 gunshot --

9 A We were inside when the second gunshot
10 went off.

11 Q Okay. So you run inside, were you fearful
12 because the gunshots were going off?

13 A Correct.

14 Q And then you said he took off, meaning
15 Michael Brown took off and started running down
16 Canfield. Were you observing that from the inside
17 of 's apartment or did you come back
18 outside?

19 A I came back outside.

20 Q What did you see then as you saw Michael
21 Brown running down Canfield?

22 A So I saw Mr. Brown running down the
23 street, he ran down the street from the police
24 officer. He stopped right here at this driveway
25 right here and he turned around in the entrance of

1 the driveway about right there on the corner of the
2 driveway.

3 And he looked down at his hand or at
4 his side, and at that point, the police officer had
5 got out of his vehicle and was pursuing Mr. Brown
6 down the street.

7 Mr. Brown turned around and was
8 walking back towards the police officer, I guess,
9 they were like 20 meters maybe, 10 meters apart and
10 Mr. Brown had his hands to his sides by his waist up
11 and mister, the officer shot and he shot like six
12 times.

13 Q Okay. So let me back up. You say as he
14 ran down the street, he stops, meaning Michael
15 Brown?

16 A Right.

17 Q And when he stops, is his back to the
18 officer when he stops?

19 A No.

20 Q So does he run backwards?

21 A No, I'm sorry, yes. If he was running,
22 yes, he was running down with his back towards the
23 police officer, yes.

24 Q Okay. And so you said when he stops, he
25 looks down and looks like he is looking at something

1 or his hands or body or something?

2 **A** Right, like he's looking at his hand.

3 **Q** Do you recall which hand or both hands?

4 **A** If I'm standing on the corner right there
5 where it was, I guess it would have been his left
6 palm.

7 **Q** Okay. So everybody can see you since you
8 are seated, do you mind standing up and doing that
9 motion?

10 **A** Right. Standing on that corner, like he
11 looked down at his palm, still like looked like this
12 at his palm or something, he looked down.

13 **Q** Okay.

14 **A** At that point he turned around and started
15 walking back towards the middle of the street and
16 had his hands like this, walking towards the middle
17 of the street.

18 At that point the police officer was,
19 had already stopped, had his gun drawn and Mr. Brown
20 was walking towards him with his hands like this and
21 he fired. He fired one shot and Mr. Brown took a
22 couple steps and he fired like two or three or four
23 more shots. (indicating)

24 **Q** Okay.

25 **A** That's when he fell, he fell in the middle

1 of the street.

2 **Q** Okay. After the two gunshots that you
3 heard from inside the vehicle what we are assuming,
4 do you think that happened when the officer was
5 still in the vehicle?

6 **A** I would assume because I didn't see him
7 out of the vehicle.

8 **Q** You saw the first gunshot or you saw, you
9 were outside and looking when the first gunshot went
10 off, but you were inside when the second gunshot
11 went off?

12 **A** Correct.

13 **Q** Were you looking when the second gunshot
14 went off?

15 **A** We were looking out the window.

16 **Q** Okay. So was the officer still in the car
17 for the second gunshot?

18 **A** Yes, he was.

19 **Q** And then Michael Brown takes off running
20 after the second gunshot?

21 **A** Uh-huh.

22 **Q** And the officer, does he get out of the
23 car?

24 **A** He does.

25 **Q** And does he run or walk after him?

1 **A** He is running.

2 **Q** How is he running?

3 **A** In like a haste to try to catch him.

4 **Q** Do you see his gun?

5 **A** I don't believe I did.

6 **Q** Okay. So as he gets to about 20 meters?

7 **A** Uh-huh.

8 **Q** From Mr. Brown is when Mr. Brown turns
9 around?

10 **A** Right, and that's when he had his gun
11 drawn.

12 **Q** So when you say his gun drawn, the
13 officer's gun?

14 **A** Yes.

15 **Q** Never saw a gun on Michael Brown, correct?

16 **A** No.

17 **Q** How was he holding the gun when you saw
18 him with his gun drawn?

19 **A** He was in a stance and was holding it like
20 this. (indicating)

21 **Q** Okay. And could you hear anybody saying
22 anything?

23 **A** No.

24 **Q** Didn't hear the officer giving commands?

25 **A** From where I was standing on 's

1 porch right here and they were, let's see, about
2 right here, no, I couldn't hear exactly what they
3 were saying, but I could see what was transpiring in
4 front of me.

5 Q Okay. And so then, was your brother
6 next to you or with you when this was -- when
7 you were watching this?

8 A It was my brother, my wife and
9 standing on the porch.

10 Q Altogether?

11 A Yes.

12 Q Okay. And so when you say you saw Mike
13 Brown turn around, then would his back be towards
14 you?

15 A Catty-corner, sideways because like I
16 mentioned, from where he is standing in the
17 driveway, like his side is facing me looking up from
18 here and he's standing at an angle at the driveway
19 looking like this and he looks down to his side and
20 then he starts, the way he was turned, he was turned
21 as though he was facing this way.

22 Q Okay.

23 A Going off the street so that's the angle
24 that I had. So when he walked out in the middle of
25 the street with his hands up to his sides, that's

1 when, you know, he took a couple steps and the
2 officer fired.

3 And me and my wife were like, why is
4 he walking. And he took a couple more steps and the
5 cop, the officer fired like four more shots and
6 that's when he fell.

7 **Q** So from the time of the first gunshots in
8 the car until Michael Brown turns around to face the
9 officer, did you hear or see the officer shooting
10 his gun as Michael Brown is running away?

11 **A** No.

12 **Q** Okay. And so once he turns around, and
13 you said he stopped and he is looking and then he
14 turns around and his hands go into this position?
15 (indicating)

16 **A** Yeah, like this. (indicating)

17 **Q** So out to his sides, palms facing forward?

18 **A** Right.

19 **Q** And then he began to move towards the
20 officer?

21 **A** Correct.

22 **Q** Was the officer still moving?

23 **A** He was in a stance, no, he was standing
24 like this facing Mr. Brown.

25 **Q** Okay. As Mr. Brown started walking or

1 moving toward the officer, did you say he was
2 walking?

3 **A** Yes.

4 **Q** Was it in a, I mean, casual walk or was it
5 hurried or do you have any description of it?

6 **A** It would be speculation for me to say
7 because I don't know Mr. Brown, I don't know how he
8 walks. I just know he took steps towards the police
9 officer.

10 **Q** Okay. But he wasn't running?

11 **A** No.

12 **Q** He wasn't charging?

13 **A** No.

14 **Q** Was his body upright at that point?

15 **A** It was.

16 **Q** And so when he walks towards the officer,
17 did the officer move backwards or forward or to the
18 side?

19 **A** From what I could tell he stood still.

20 **Q** How about Michael Brown. From the time he
21 ran and stopped and turned around and started in the
22 opposite direction, does he ever, is he always in
23 the street or does he move off the street at some
24 point?

25 **A** Well, I mean, again when he ran down the

1 street, he got to right at the edge of the driveway,
2 which is right here. So this is like a water
3 fountain or a fire hydrant or street sign, right
4 there at the corner --

5 Q Okay.

6 A -- of the driveway. He stopped right
7 there at the edge of the driveway and then he
8 turned, he turned around, like I mentioned, he
9 stopped, looked at his palm and then he started
10 walking back towards the police officer.

11 Q From the time he stopped and turned
12 around, and I'm going to ask you to estimate a
13 distance, from where he stopped and turned around
14 until his body came to rest in the street.

15 A Uh-huh.

16 Q Can you give my an idea how many feet that
17 was?

18 A From the sidewalk to the middle of the
19 street, about five, maybe five, 10 yards maybe.

20 Q Okay. Did you ever see Michael Brown
21 doing anything with his hands around the front of
22 his body?

23 A No.

24 Q And so when you're looking at him from
25 your vantage point, you're seeing the left side of

1 his body, correct?

2 **A** Correct.

3 **Q** Could you clearly see his right hand?

4 **A** Yeah, I mean, when he's walking back
5 across the street, he's walking like this.

6 (indicating)

7 **Q** Okay.

8 **A** He had both his hands like this.

9 (indicating)

10 **Q** You didn't see him ever reaching or make a
11 motion toward his waistband?

12 **A** No.

13 **Q** And then you said there was a round of
14 shots, you said maybe six shots?

15 **A** Yes, four to six shots I heard, yes.

16 **Q** Okay. And then did you see if Michael
17 Brown was hit, could you tell if he was hit?

18 **A** I couldn't, I mean, again, like I
19 mentioned, when the first shot went off, well, the
20 third shot went off when Mike started walking back
21 across the street and he shot. And like I
22 mentioned, me and my wife made the comment, why is
23 he still walking, why is he walking, is he missing
24 him? And then he took like three more steps and he
25 fired like another five, four, five rounds, and

1 that's when he staggered and he fell where he laid
2 in the middle of the street.

3 Q Okay. And where, can you point on the
4 pointer where he ended up laying in the middle of
5 the street?

6 A About right here. (indicating)

7 Q Okay. And now, did you remain at
8 s while the aftermath was going on?

9 A I did.

10 Q Did you ever see the officer approach
11 Michael Brown after he went down on the ground?

12 A He walked over to him and then he turned
13 around and he went back and that's when another
14 police officer, I guess the other police officer
15 started coming into the neighborhood.

16 Q Did you ever see the officer who did the
17 shooting, did you ever see him on a walkie-talkie or
18 on a radio that was on his shoulder or anything?

19 A Not that I can remember.

20 Q And did you ever see anybody, I mean, I
21 know that Michael Brown's body was out on the street
22 for several hours, but did you ever see anybody move
23 his body from one location to another location?

24 A No.

25 Q Did you ever see the car that the officer

1 had stopped in, where the altercation initially took
2 place, did you ever see that moved?

3 **A** Not that I remember, not that I remember
4 because I think me and my wife, we stayed there
5 about another 35 to 45 minutes after everything
6 happened. And when all the police and everything
7 came down, they taped off the street and everything
8 and, um, then we left, we left.

9 **Q** Now, when is it that you were first
10 contacted or first contacted the police?

11 **A** I was contacted that evening, that night
12 by a County Police officer.

13 **Q** Were you still at Canfield?

14 **A** No.

15 **Q** How is it that they knew to contact you,
16 do you have any idea?

17 **A** My wife had mentioned to
18 and we went, it was actually the night
19 We were at a
20 and there was a gentleman there, I
21 have his card, I can't think of his name right now.
22 But he is an attorney or something for the city or
23 something, but he asked, they were talking about it
24 at the table where we were and he asked us if we
25 didn't mind speaking with a police officer regarding

1 it.

2 And then I said I really didn't want
3 to get involved in this because I hate I saw what I
4 did. He got on the phone and he called two
5 detectives and they came out that evening about
6 11:00. And me and told him, kind of somewhat
7 mentioned our story and I gave him my name and
8 address, and he came out and got in contact with us
9 at a later date.

10 Q So you talked to the officers late in the
11 evening that first day?

12 A Yes.

13 Q And then you talked to them again and gave
14 a different, not different, gave a more detailed
15 interview later; is that correct?

16 A Correct, right.

17 Q The more detailed interview, were there
18 also FBI agents present?

19 A When they came and talked to me, no, it
20 was just the two detectives.

21 Q Okay.

22 A They came and spoke to me. And then a few
23 nights later, they came back, along with a few other
24 attorneys and another FBI agent, they came and spoke
25 with my wife .

1 **Q** Okay. Is there anything that you recall
2 about what you saw that day that is important or you
3 think that the jurors should know about?

4 **A** (Shakes head.)

5 **Q** you are shaking your head no?

6 **A** No.

7 **Q** How is your eyesight?

8 **A** Good.

9 **Q** Do you where wear glasses?

10 **A** I do for reading.

11 **Q** Okay. So distance, you have no difficulty
12 seeing?

13 **A** No.

14 **Q** How about your hearing?

15 **A** My hearing is good.

16 **Q** Good.

17 **A** Uh-huh.

18 **Q** All right.

19 MS. ALIZADEH: Sheila, do you have any
20 questions?

21 **Q** (By Ms. Whirley) When Michael Brown was
22 walking towards the officer, when he first turned
23 around, he started walking, let me make sure I
24 understand. When he first turned around was there a
25 shooting, was he shot then or was he thought when he

1 started walking towards --

2 **A** When he started walking back towards the
3 police officer.

4 **Q** You couldn't hear anything that was being
5 said?

6 **A** I couldn't hear, no.

7 **Q** So as he's walking towards the officer, he
8 said he wasn't like running or charging at him?

9 **A** Right.

10 **Q** Did it seem like he was walking towards
11 the officer to fight, did you get that impression?

12 **A** No.

13 **Q** Did you get the impression that he was
14 threatening the officer as he walked toward him?

15 **A** No.

16 **Q** What was your impression of the way he
17 walked toward him?

18 **A** Again, like I say, it is hard for me to
19 speculate how Mr. Brown walked because I don't know
20 him.

21 **Q** Right --

22 **A** I don't know how he's walking, he was just
23 walking, I guess, in a normal pace towards the
24 police officer, that's what I'm saying.

25 **Q** I guess what I'm asking is, demeanor, you

1 know how a person, their outward, like if I'm, you
2 know, I'm walking like this, you know?

3 **A** I guess he was walking in a demeanor as I
4 give up.

5 **Q** That was your impression?

6 **A** Yeah.

7 **Q** Okay.

8 MS. WHIRLEY: That's all I have.

9 MS. ALIZADEH: Just really quickly.

10 **Q** (By Ms. Alizadeh) From the time you first
11 saw Michael Brown at the officer's window until
12 Michael Brown was lying in the street, how many
13 minutes or seconds do you think that took?

14 **A** I would say probably about five, five
15 minutes, ten minutes at the max, if that. I don't
16 probably like, I'm sorry, it was probably more like
17 probably like five minutes at the max.

18 MS. ALIZADEH: Okay.

19 MS. WHIRLEY: Real quickly.

20 **Q** (By Ms. Whirley) When Michael Brown was
21 running away from the officer, I think you said you
22 heard maybe a couple shots and then Michael Brown
23 ran?

24 **A** Correct.

25 **Q** I'm sorry; is that correct?

1 **A** Correct.

2 Q Did you hear any shooting while he was
3 running?

4 **A** No.

5 Q Okay. The next time you heard shots was
6 when he turned around?

7 **A** Correct.

8 Q With his hands the way you demonstrated?

9 **A** Correct.

10 MS. WHIRLEY: Okay. Anybody else?

11 When he was
12 walking towards the officer, could you see his face
13 clear enough to see if there was any kind of
14 expression, a blank look, aggressive look or
15 anything?

16 **A** No, I could not.

17 : You could not read his
18 face?

19 **A** I could not.

20 Okay.

21 From the
22 time that this happened until the time that you said
23

24 **A** Uh-huh.

25 : Is that where, the

1 attendee where the city attorney made contact with
2 you there?

3 **A** Uh-huh.

4 From the time of the
5 incident on August the 9th until the time that you
6 spoke to the police or whatever.

7 **A** Uh-huh.

8 : Do you know what length of
9 time elapsed?

10 **A** Yes, this happened about, I guess, about
11 12:30, 12:40 that afternoon. I didn't speak with
12 anybody until later that night, yes.

13 : It was the same day?

14 **A** It was the same day, yes, ma'am.

15 : Okay, thank you.

16 MS. ALIZADEH: But just to be, I'm going
17 to try to make sure I understand. Were you
18 interviewed that night or was it just you spoke to
19 them and said, hey, I saw this and made arrangements
20 to be interviewed later?

21 **A** That's exactly, that's what happened. We
22 made arrangements to interview later because, again,
23 we were at and the, he
24 didn't want to really get into that because my wife
25 was still kind of emotional. He didn't want to talk

1 about it.

2 So they took our name and our phone
3 number and they contacted us at a later date. I
4 think it was like two days or a day later. They
5 came by my home and spoke with me regarding it.

6 : Could you
7 tell Mr. Brown, I guess his attire, his shorts and
8 shirt, where they sagging, were his pants kind of
9 hanging low or do you remember?

10 **A** I don't remember, I don't remember.

11 : Okay. Did it seem to you
12 when he turned around, did it ever appear to you
13 that he reached up under his shirt?

14 **A** No.

15 MS. ALIZADEH: Anyone else have any more
16 questions?

17 (End of the testimony of .)

undetermined in the County of St. Louis, State of

12

Missouri.

13

The said witness, being of sound mind and being

14

by the grand jury first carefully examined and duly

15

cautioned and sworn to testify to the truth, the

16

whole truth, and nothing but the truth in the case

17

aforesaid, thereupon testified as is shown in the

18

foregoing transcript, said testimony being by me

19

reported in shorthand and caused to be transcribed

20

into typewriting, and that the foregoing page

21

correctly sets forth the testimony of the

22

aforementioned witness, together with the questions

23

propounded by counsel and grand jurors thereto, and

24

is in all respects a full, true, correct and

25

complete transcript of the questions propounded to

1 and the answers given by said witness.

2 I further certify that the foregoing pages
3 contain a true and accurate reproduction of the
4 proceedings.

5 I further certify that I am not of counsel or
6 attorney for either of the parties to said suit, not
7 related to nor interested in any of the parties or
8 their attorneys.

1 GRAND JURY HEARING VOLUME X

2 MS. ALIZADEH: Good morning.

3 (Everyone says good morning.)

4 MS. ALIZADEH: It is October 6th. This is
5 Kathi Alizadeh with the prosecutor's office.
6 Present is Sheila Whirley with the prosecutor's
7 office. All 12 grand jurors are present here today,
8 as well as , the stenographer, who is taking
9 down and recording matters that are going on today
10 in the grand jury.

11 It is about 8:39 a.m., and my
12 understanding is we are going to go to about 2:30
13 today, correct? We have a witness that's here
14 already this morning. Her name is
15 . We heard from her husband,
16 last week.

17 She wanted to come in first thing in the
18 morning, so we're going to go ahead and have her
19 testify first, and after her testimony, we will
20 listen to the statement of and
21 . We didn't get a chance to do
22 that last week.

23 I have a witness scheduled to be here at
24 1:00 this afternoon. So her name is
25 and she is the fiancée, or girlfriend, I can't

1 remember, of . If you recall,
2 has already testified.

3 So we'll probably listen to her statement
4 in the morning if we have time. We probably should,
5 and then at this point, we might be done for the day
6 after testifies.

7 Sheila and I have been talking about
8 trying to schedule your time and make use of your
9 time as best we can. We're running into the issue
10 now that some of these witnesses are not very
11 anxious to come in and meet with you. And so we're
12 going to probably need to be searching for some
13 people and giving them written invitations to appear
14 before you.

15 So I'm trying desperately to get your day
16 scheduled tomorrow, so I know you are here until
17 6:00. We want to be able to keep you busy all day.

18 And then we've got, I've got some
19 witnesses lined up, and then on Thursday we have
20 witnesses lined up too, but as of right now, I don't
21 have necessarily the whole day filled. So we'll try
22 our best. And it may be that we go ahead and call
23 some other witnesses.

24 We have lab people, we have police
25 officers yet to testify who, obviously, would be

1 easier for us to get here if we need them here.

2 So, at this point then, we're ready to go.

3 We're going to go ahead and call

4

5 of lawful age, having been first duly sworn to

6 testify the truth, the whole truth, and

7 nothing but the truth in the case aforesaid,

8 deposes and says in reply to oral

9 interrogatories, propounded as follows, to-wit:

10 EXAMINATION

11 BY MS. ALIZADEH:

12 Q Good morning, . Can you state
13 your name for the reporter and spell it for the
14 court reporter?

15 A

16

17 Q And, , you're married to
18 is that correct?

19 A Yes.

20 Q And how long have you and been
21 married?

22 A years.

23 Q And are you, you're familiar with
24 's family?

25 A Yes.

1 o Is that correct?

2 **A** Uh-huh.

3 Q You know his brother, ?

4 **A** That's my brother-in-law.

5 Q Your brother-in-law, and then lives
6 is that

7 correct?

8 **A** Correct.

9 **Q** And they live in Canfield Green Apartment
10 Complex, correct?

11 **A** Correct.

12 **Q** And how long has lived
13 in the Canfield Green Apartments?

14 **A** Um, I'm going to say maybe years. I'm
15 not quite sure. was living there when and I
16 married and met, so we've been actually years,
17 together I'm quite sure years.

18 Q So as long as you've known ?

19 **A** As long as I've known .

20 Q been there?

21 **A** Yes.

22 Q Has been living with all that
23 time as well?

24 **A** Yes, off and on.

25 **Q** Off and on. And so do you recall

1 Saturday, August 9th, of this year?

2 **A** Yes.

3 **Q** And in the morning, did anything happen
4 that was noteworthy, was there anything special
5 about the morning prior to you going to the
6 apartment?

7 **A** Actually, that was

8

9 **Q** Okay.

10 **A** So we went down there before we were
11 preparing to go to the because I
12 wanted to show what I got to wear to the class
13 reunion.

14 **Q** Ma'am, the microphone that's in front of
15 you doesn't amplify so you need to speak loud enough
16 so that we can all hear you all the way back here.
17 And please raise your hands if you can't hear her.
18 Did you need her to repeat the last answer she gave
19 anyone? Okay.

20 So, you were going, you
21 had a plan then that day to go to
22 apartment in the afternoon; is that
23 correct?

24 **A** Uh-huh.

25 **Q** And so you proceeded to the apartment

Page 10

1 complex, about what time did you get there to the
2 apartments?

3 **A** It was before noon, about maybe 11:30,
4 11:45, somewhere along in there, I'm not quite sure
5 of the exact time.

6 Q And who was in the car with you?

7 **A** My husband and I.

8 **Q** What kind of vehicle were you in?

9 **A** I have a _____ , _____ .

10 **Q** Who was driving?

11 **A** My husband.

12 Q So when you came into the complex, did you
13 enter the complex off of West Florissant or did you
14 come in the back way through the Northwinds
15 Apartments?

16 **A** Off of West Florissant.

17 Q Okay. So from West Florissant then you
18 turn onto Canfield Drive and go through a
19 residential area before getting to the complex; is
20 that correct?

21 **A** Correct, uh-huh.

22 Q And so we've got a map here that's marked
23 as Grand Jury Exhibit Number 25. And right here,
24 is a laser pointer so you don't have to
25 get up and point. You just press that button,

1 hopefully, and that will work.

2 So do you recognize the map here as
3 familiar to you, the streets and the buildings as
4 far as that being Canfield Green?

5 **A** Yeah, pretty much.

6 **Q** Okay. If West Florissant is in this
7 direction?

8 **A** Uh-huh.

9 **Q** So you entered coming down this curve; is
10 that right?

11 **A** Correct.

12 **Q** Now, this was a Saturday, sunny day, did
13 you see people out and about?

14 **A** Um, yeah, I mean, not a lot of people, but
15 the victim, as we came in off of Canfield, he and
16 the other young man were walking in the street. And
17 I said something to my husband in effect, why don't
18 they just get on the sidewalk.

19 **Q** Okay. So when you were driving now, this
20 direction is east, okay?

21 **A** Uh-huh.

22 **Q** That's going east. So you were going east
23 on Canfield Drive?

24 **A** Uh-huh.

25 **Q** Can you use the laser pointer and show me

1 where you first saw the two men that were walking in
2 the street, where were they when you first saw them?

3 **A** Right about right here. (indicating)

4 **Q** Okay. So as you came around the curve,
5 you could see them walking in the street?

6 **A** Uh-huh.

7 **Q** Just the two of them?

8 **A** Yes.

9 **Q** And when you say they were in the street,
10 were they on the side, in the middle?

11 **A** In the middle.

12 **Q** Okay. And so did you recognize either of
13 those?

14 **A** No, just two kids.

15 **Q** Two kids. Now, of course, we now know
16 that one of those kids was Michael Brown. Having
17 now known his identity, do you recall ever having
18 met him?

19 **A** No.

20 **Q** Or seen him at the apartments?

21 **A** No, we don't frequent Canfield. I mean,
22 we go to visit or to take to
23 where needs to go. I don't know anybody in
24 Canfield except for

25 **Q** You don't socialize with people from the

1 complex?

2 **A** No.

3 **Q** And so then the other boy was Dorian
4 Johnson. That name doesn't ring a bell to you?

5 **A** No, it does not.

6 **Q** Okay. So when you first saw them and in
7 this area where you had pointed, which direction
8 were they walking, were they walking east?

9 **A** Yes.

10 **Q** And --

11 **A** Into the complex.

12 **Q** Okay. So as you approach them, you saw
13 their backs?

14 **A** The back view of them, correct.

15 **Q** And so did you, I imagine you had to go
16 around them or you went around them, correct?

17 **A** Uh-huh.

18 **Q** Did you honk at them or , not

19

20 **A**

21 **Q** Roll down the window and say anything to
22 them?

23 **A** No.

24 **Q** Did they just appear to be walking?

25 **A** They was just walking, I mean, they were

1 doing what kids do. I mean, I live in , so
2 kids don't walk on the sidewalk, they just don't.
3 They have sidewalks but they don't walk on them.

4 So, I mean, we just kind of chalked
5 it up as them being kids not doing what they're
6 supposed to be doing, I mean, they just do it.

7 Q Did you notice either of them if they had
8 anything in their hands?

9 A No, I don't recall.

10 Q Do you remember what either of them was
11 wearing?

12 A Um, I'm going to say the victim had on a
13 white T-shirt and khakis. The other young man had
14 on a white T-shirt, I believe, and black pants or
15 black jeans or something.

16 Q Okay. So the other one is the smaller
17 one, I guess?

18 A Yes.

19 Q We'll call the victim, I know you know who
20 eventually was shot is the bigger one, correct?

21 A Correct, uh-huh.

22 Q And there was the smaller one?

23 A Smaller kid, yes.

24 Q So you said the smaller one had on a black
25 shirt and dark pants?

1 **A** Dark pants, yeah, or dark jeans or
2 something.

3 Q Okay. Anything else that you noticed
4 about them that drew your attention?

5 **A** No, I mean, like I said, it was a Saturday
6 morning, I mean. They was just walking in the
7 street and I made a note to my husband, why don't
8 they just get on the sidewalk, and that was pretty
9 much it. He didn't say anything, I didn't say
10 anything, we didn't blow, he just kind of went
11 around and did what we needed to do.

12 Q Okay. Were they walking shoulder to
13 shoulder or one in front of the other, do you
14 remember?

15 **A** I mean, I guess side by side, you could
16 say. I mean, just, I mean, when you see kids
17 walking and there was only two of them, so it wasn't
18 like it was a group of children, they were just
19 walking down the street.

20 Q Okay. So after you pass by them, did you
21 proceed to s apartment building?

22 **A** Uh-huh.

23 Q Can you use the laser pointer and show on
24 the map, do you see where apartment is?

25 **A** Is this Caddiefield?

1 **Q** This is Caddiefield Road, this is also
2 Caddiefield Road because it goes around like that.

3 **A** Can I stand? This is hard for me to do
4 because it's peripheral vision, I'm not used to
5 looking at.

6 **Q** Correct, I understand. Do you know the
7 number of unit?

8 **A** I think it is this one right here.

9 **Q** Okay. So when you proceeded down Canfield
10 Drive, you turned on Caddiefield, did you park in a
11 parking space?

12 **A** Right here. This is building, I
13 believe, and would have parked right in here.
14 (indicating)

15 **Q** Okay. Now, did you have, do you recall if
16 your windows were up or down?

17 **A** That I don't remember. It was hot, I
18 imagine that the air was on. It was hot that day.

19 **Q** Okay.

20 **A** So the windows were more than likely up.

21 **Q** As you drove down Canfield Drive, did you
22 see any vehicles approaching you?

23 **A** No.

24 **Q** In your direction?

25 **A** Huh-uh.

1 **Q** And so did you, after you parked your car,
2 what's the first thing you noticed going on around
3 here?

4 **A** Well, once we were going up the steps, the
5 police car came down going towards West Florissant,
6 and I said to my husband, oh, he's going to stop
7 them and tell them to get on the sidewalk.

8 Um, and we just kind of proceeded up
9 the steps.

10 **Q** Now, earlier you had pointed to this one.

11 **A** See, I'm not used to looking at these. So
12 once we got on the landing, the police officer had
13 stopped and said something to them.

14 **Q** Now, could you hear what he said?

15 **A** No, I'm assuming, I'm not going to say he
16 said, but from the activities that we saw from the
17 porch, he stopped and the kids, the children
18 stopped. I don't know what he said, I didn't hear
19 that, we were too far away to hear. I'm just
20 assuming that he said the same thing I had said to
21 my husband, get on the sidewalk.

22 **Q** So now you, the stairs that go up to the
23 apartment unit, those are exterior stairs, correct?

24 **A** Correct.

25 **Q** So you're going up the stairs and you're

1 still outside and you can see what's going on?

2 **A** Uh-huh.

3 **Q** What floor did live on?

4 **A** There is only three floors. There is the
5 basement and that would be the first floor and then
6 the second floor, or you can say the second floor
7 and then the third.

8 **Q** on the top level?

9 **A** No, on the second. Well, there is a
10 basement apartment and then apartment. So
11 on, I guess you could say second floor, I don't know
12 how they classify the floors.

13 **Q** So there's a unit above ?

14 **A** Above , right.

15 **Q** All right. So when you're on the porch,
16 this is like a decking area that's right off the
17 front door for unit?

18 **A** Uh-huh, a little patio out there.

19 **Q** And was out there?

20 **A** When we walked up the steps?

21 **Q** Yes.

22 **A** No, he was inside the apartment.

23 **Q** So now you said, can you use the laser
24 pointer and show me when you say you saw the officer
25 stop and talk to the kids, where about were they

1 when you saw that?

2 **A** About right here. (indicating)

3 **Q** Okay. And so you see the officer stop?

4 **A** Uh-huh.

5 **Q** Give me an idea, were we talking a matter
6 of seconds or a minute or two that he paused and
7 there was some kind of exchange between those kids?

8 **A** It may have been maybe a minute.

9 **Q** And then what happened, what did you see
10 happen?

11 **A** He said whatever he said, then we heard
12 two gunshots. He was still in the car, the boys
13 were outside of the car. Well, before we heard the
14 gunshots, I don't know what he said or what they
15 said or what the conversation was, but the car was
16 headed west on Caddiefield, on Canfield, and he, I
17 guess, backed the car up and was at an angle.

18 **Q** Let me ask you this. The time when he
19 paused that you thought that he might have been
20 saying, hey, get on the sidewalk, or what you
21 assumed he might have said, was that after he backed
22 up?

23 **A** No, it was before.

24 **Q** Okay. So he stops, pauses for a little
25 bit, and then does the vehicle proceed west on

1 Canfield then a little ways?

2 **A** Yes, uh-huh.

3 **Q** And do the boys, what do the boys do?

4 **A** They just were kind of standing there,
5 and, like I said, it happened really fast, but the
6 car was headed east, and then whatever conversation
7 they had, the officer backed the car back, but it
8 was at an angle and that's when we heard two
9 gunshots inside the vehicle.

10 **Q** Okay. So when the officer, I think you
11 said east, but you meant west, right?

12 **A** I'm sorry.

13 **Q** He's going westbound and then he puts it
14 in reverse, backs up, and he's at a little bit of an
15 angle in the street?

16 **A** Yes.

17 **Q** Did you hear tires squealing or screeching
18 or anything?

19 **A** No, it wasn't like it was a chase or
20 anything. I mean, he just, I mean, I don't know
21 what happened, they exchanged words, I'm quite sure,
22 and, you know, you just, I think he kind of whipped
23 the car in reverse so it was at an angle.

24 **Q** Okay.

25 **A** Not a full complete angle, it was no

1 longer straight.

2 **Q** When the first time the officer
3 encountered the boys, were the boys on the driver's
4 side of his car or on the passenger side?

5 **A** All the way on the driver's side.

6 **Q** When he reversed it around to where it was
7 at an angle, are the boys still on the driver's
8 side?

9 **A** Still on the driver's side.

10 **Q** So from your vantage point where you were
11 standing, are you looking at the driver's side of
12 the car or the passenger side?

13 **A** Driver's side. Well, at the driver's
14 side. We were on that side of the vehicle, I
15 couldn't see what was on the other side of the car.

16 **Q** Okay. So then after he comes back,
17 reverses and stops his car at an angle, what do you
18 see happen between the boys and the police officer?

19 **A** I didn't see, I just didn't see anything
20 actually happen. We just kind of heard the two
21 gunshots and I told my husband, oh, no, he's
22 shooting, they're shooting.

23 **Q** At this point did you know who was
24 shooting?

25 **A** No.

1 **Q** Okay. So you hear two gunshots?

2 **A** Uh-huh.

3 **Q** Were they in close succession like boom,
4 boom, or was there a pause between the two of them?

5 **A** Well, more like a pop, pop.

6 **Q** Okay. And so did your attention, was your
7 attention always on the car or were you --

8 **A** No, I mean, it was just, like I said, we
9 were walking up the steps and then all of the sudden
10 the car was coming down the street, the kids were
11 coming down the street, and I assume that he did
12 what we probably should have said and told them to
13 get out of street and go on the sidewalk.

14 I don't know what was said, I'm just
15 assuming.

16 **Q** Okay. So after you hear the two gunshots.

17 **A** Uh-huh.

18 **Q** What do you see happening at the officer's
19 car?

20 **A** That's when the victim started running
21 away from the car and the person that was with him,
22 he kind of disappeared. I don't know where, when
23 the two gunshots went off, he kind of hunched and
24 then he just disappeared.

25 The victim kind of, when he came from

1 on the driver's side, he kind of hid on the back
2 side of the car and that's when he ran, I'm hoping
3 I'm saying this right, there is a grassy area, he
4 kind of ran over this way, he kind of ran this way.

5 Q Okay. So he's running now east down
6 Canfield?

7 A Yes, ma'am.

8 Q And can you tell at this point if he's
9 injured?

10 A Well, he ran this way and then he kind of
11 got into the grassy area and he kind of stopped and
12 looked down at his hands. I'm assuming there was
13 blood, but he looked down at his hands and then he
14 turned back around, he turned back around and
15 started going back towards the police officer.

16 Q Okay. Let's stop now.

17 After you saw, you heard the two
18 gunshots, the victim starts running east on
19 Canfield, the other guy kind of disappears?

20 A Uh-huh.

21 Q What's the officer do?

22 A Well, by that time he's out of the car and
23 he's kind of, I guess, chasing the victim.

24 Q Okay. Now I'm going to stop you here
25 because you said I guess, chasing?

1 **A** He got out of the car.

2 **Q** You saw him get out?

3 **A** I'm sorry.

4 **Q** It's all right. We make these assumptions
5 all the time, you know, that's what we do when we
6 observe things. Oh, it looks like he was doing
7 this. But what is important is, you talk about what
8 you saw.

9 So the officer gets out of his
10 vehicle. I guess, I'm assuming, from the driver's
11 side?

12 **A** Yes, from the driver's side.

13 **Q** And so at that point, could you see if he
14 had a gun?

15 **A** Yes, he had his gun.

16 **Q** And could you see what he was doing with
17 the gun or where his gun was?

18 **A** When he got out of the vehicle, he did get
19 out with his gun drawn.

20 **Q** Okay.

21 **A** And as I said, the victim, he ran towards
22 this grassy area, he stopped and he looked down at
23 his hands and then he proceeded to come back towards
24 the officer.

25 By the time the officer was out of

1 his car, I'm going to say he was running with his
2 gun drawn.

3 Q Okay. When you say his gun drawn, I'm
4 going to --

5 A I could see the gun.

6 Q That's out of the holster is what it means
7 to me?

8 A Correct.

9 Q But there's, was it down at his side, was
10 he running like this? (indicating)

11 A No.

12 Q Was running like this? (indicating)

13 A He had both his hands on the gun.

14 Q Okay.

15 A And he was running swiftly or walking fast
16 towards the victim.

17 Q Okay. And so did you ever observe or hear
18 the officer firing, as he was running after the
19 victim?

20 A Yes, he did.

21 Q How many shots did you hear as he was
22 moving towards the victim?

23 A I'm going to say he fired maybe three to
24 four shots as they were, I guess, walking kind of
25 towards each other.

1 **Q** Okay. Now, let me stop you then. There
2 is a lot going on in here and, obviously, you know,
3 I hate to say that we have to pick this apart, but
4 we really do.

5 So as you see him, he's got his gun
6 drawn and he has both hands on it and it's pointed
7 out in front of him, you demonstrated kind of out
8 with your arms straight in front of you and he's
9 moving towards the victim.

10 **A** Uh-huh.

11 **Q** The victim, you said, stops in this area
12 here, kind of in the grassy area, so he's not on the
13 street any more?

14 **A** No.

15 **Q** And then he stops and you said that he
16 looks at his hands?

17 **A** Uh-huh.

18 **Q** Can you stand up and show the grand
19 jurors, because I know you made a motion a couple of
20 times. Show them what he looked like.

21 **A** He looked down like this and, I think, I'm
22 going to say it was his right hand, he looked at his
23 hand and then he started walking back towards the
24 police officer. (indicating)

25 **Q** Okay. So from your vantage point if he's

1 over here, when he stops, he's somewhat facing your
2 direction, would that be fair to say?

3 **A** He was running and he stopped, he looked
4 down and he turned around like this.

5 **Q** Could you see anything in his hands?

6 **A** No.

7 **Q** Okay. So you can go ahead and sit. So
8 did the officer fire his weapon at any time other
9 than in the car, did he fire his weapon before the
10 victim turned around?

11 **A** No.

12 **Q** Okay. So the victim stops, looks down at
13 his hands?

14 **A** Uh-huh.

15 **Q** And then turns around. At this point,
16 does the officer fire?

17 **A** Yes. Well, he turned around like this and
18 he started moving towards the cop.

19 **Q** Okay.

20 **A** And then he is standing there, and he just
21 proceeded to shoot.

22 **Q** Could you hear either the officer or the
23 victim say anything?

24 **A** No, ma'am.

25 **Q** So when you saw Mike, well, the victim,

1 when you saw him move toward the officer, can you
2 describe his pace, do you understand what I mean by
3 that?

4 **A** Uh-huh.

5 **Q** Okay.

6 **A** I mean, he wasn't running, he just, to me
7 it was slow motion, so he turned around, looked down
8 at his hands.

9 **Q** Let me ask you some questions just to help
10 you out through this, okay.

11 So from the time the victim turns
12 around, is the officer still moving toward him or
13 has the officer stopped?

14 **A** He stopped.

15 **Q** He'd stopped?

16 **A** Uh-huh.

17 **Q** Are you good at guessing or judging
18 distances?

19 **A** Not really.

20 **Q** All right. So let me ask you this --

21 **A** He was not this close to him.

22 **Q** This is too close?

23 **A** Yes.

24 **Q** All right. Tell me when you think.

25 **A** About right there.

1 **Q** Okay. So what do you want to guess that
2 to be 20 feet, close to 20 feet. And so after the
3 victim stops and turns around, when he moves in the
4 direction toward the officer, does the officer move?

5 **A** Not really, no.

6 **Q** Okay. So he stays basically in the spot
7 where he had stopped?

8 **A** Uh-huh.

9 **Q** And how close then does the victim get to
10 the officer?

11 **A** He just kept walking.

12 **Q** What were his hands doing as he's walking?

13 **A** I'm sorry. He is walking like this and he
14 kept walking, and I asked my husband, why won't he
15 stop.

16 **Q** Were you or your husband or anyone else
17 that you can hear yelling anything, that you recall,
18 saying to your husband, why won't he stop?

19 **A** Why won't he stop. I asked why does he
20 keep shooting him.

21 **Q** So I can be clear about this, the officer
22 did not shoot at him while he was running away from
23 him?

24 **A** No, ma'am.

25 **Q** He turns around and starts walking back to

1 the officer, is that when the officer starts
2 shooting?

3 **A** He just, I mean, he was walking back
4 towards him and he started, he started shooting. He
5 just kept shooting, he just kept shooting. And I
6 asked my husband why is he, why won't that boy stop.

7 **Q** Do you recall hearing the gunshots in your
8 mind, can you hear them?

9 **A** (Nods head.)

10 **Q** Was there just one succession of gunshots
11 or were there shots, then a pause and then more
12 shots?

13 **A** He shot like maybe three or four times,
14 and he stopped. And then he just started shooting
15 again.

16 **Q** When he shot three or four times, did
17 Michael Brown go down to the ground at that point?

18 **A** No.

19 **Q** He was still standing?

20 **A** And so I asked my husband, well, maybe he
21 doesn't have real bullets, maybe they are rubber
22 bullets, he's not stopping, why doesn't he stop
23 shooting.

24 And, of course, he couldn't answer
25 that because he doesn't know.

1 **Q** And so after he shot three or four times,
2 and then the victim continues to walk toward the
3 officer, he fires again, the officer shoots again,
4 about how many times for this?

5 **A** I'm going to say three times and then
6 that's when he collapsed, he just collapsed to the
7 ground.

8 **Q** Was he in the street or on the grass?

9 **A** By this time he was in the street.

10 **Q** Okay. And when he fell to the ground, did
11 he fall on his back, on his front?

12 **A** He fell facedown.

13 **Q** Okay. Did you ever see him fall to his
14 knees?

15 **A** (Shakes head.)

16 **Q** So he just --

17 **A** He just kind of toppled over.

18 **Q** -- he went straight down. And did the
19 officer continue to fire after he fell on the
20 ground?

21 **A** No, he just kind of stopped and kind of
22 froze and just looked.

23 **Q** Did you see the officer approach his body?

24 **A** He didn't touch him.

25 **Q** Okay. And at this point, are there any

1 other police vehicles in the area at this point?

2 **A** At this time there was a white car, I
3 don't know what kind of car it was, a white car kind
4 of moved around the police car and then by that time
5 other cars started to arrive.

6 **Q** The white car, did it look like a police
7 car or just a white car?

8 **A** No, I think it was just a white car on the
9 street.

10 **Q** Before it moved around the police officer,
11 where it had it been?

12 **A** I don't know, I guess they were coming
13 down the street, but -- and they just kind of went
14 around.

15 **Q** Okay.

16 **A** The police car.

17 **Q** And so was that car moving west on
18 Canfield then? Did you see that car leave the area
19 then or did it just park over here?

20 **A** I think it just parked over there.

21 **Q** Okay. What about the shorter kid, did you
22 ever see him again?

23 **A** No, ma'am.

24 **Q** After Michael Brown was down on the
25 ground, did you ever see anyone move his body before

1 it was eventually removed from the seen?

2 **A** No.

3 **Q** What about the officer's vehicle, did you
4 ever see the officer get back in his vehicle?

5 **A** Huh-uh, no.

6 **Q** Did you continue to watch after this or
7 did you go inside?

8 **A** No, we were standing there and, um, I just
9 said, I told my husband, he just killed that baby.

10 MS. WHIRLEY: I can't hear, I'm sorry.

11 **A** I'm sorry. After that all happened, I
12 just said, I told my husband I said, he just killed
13 him, he just killed that baby. By that time

14 came outside and, of course,
15 years old, just try to tell to go back in the
16 house.

17 **Q** (By Ms. Alizadeh) Was your

18 --

19 **A** was inside her apartment. There is a
20 patio door, was kind of standing inside the
21 patio door.

22 **Q** Had seen some of it, was upset?

23 **A** Very.

24 **Q** And how about you, you were upset at this
25 point?

1 **A** Yeah, because I had never witnessed
2 anything like that. So, of course, there are a lot
3 of questions to why. I mean, I have a son, I have a
4 son, and they could of --

5 **Q** Do you need to take a break?

6 **A** (Shakes head.)

7 **Q** The --

8 **A** I'm sorry.

9 **Q** You're doing all right. Just breathe,
10 okay. Take a little water.

11 What's your son's first name?

12 **A** This is why
13 issues like this is why we don't frequent my
14 's. There is a lot of things going on
15 down there and my son does not go down there unless
16 he's with us. I have a child and that
17 could have been my son, and so that is why it is
18 hard for me.

19 **Q** Okay. When you saw the victim turn around
20 and walk toward the officer, and you had
21 demonstrated kind of that his hands were in the same
22 position?

23 **A** Uh-huh.

24 **Q** And I'm going to describe this, you tell
25 me if I'm describing it accurately, but his hands

1 are, his fingers are pointed toward the ground?

2 **A** Yeah.

3 **Q** His palms are facing forward?

4 **A** Yes.

5 **Q** And his arms are slightly bent at the
6 elbows, but to his side?

7 **A** Uh-huh.

8 **Q** Is that accurate?

9 **A** Yes, ma'am.

10 **Q** Did his hands, when he turned around, did
11 his hands stay in that position?

12 **A** Pretty much.

13 **Q** And as he walked toward the officer?

14 **A** They stayed.

15 **Q** Did they ever go up?

16 **A** No.

17 **Q** You never saw them go up like this?
18 (indicating)

19 **A** No.

20 **Q** What about, did you ever see his hands go
21 towards his side or like was he ever --

22 **A** No.

23 **Q** -- feeling on his abdomen like for?

24 **A** No.

25 **Q** Never saw that?

1 **A** (Shakes head.) He had on a white T-shirt
2 and khaki pants or shorts. He didn't have a hoodie
3 on like most of the kids, he didn't have a hoodie on
4 or anything where he could have did anything like
5 that.

6 **Q** Okay. And never heard the officer or him
7 say anything?

8 **A** No.

9 **Q** Okay. Um, did, when he was walking toward
10 the officer, did you feel, in your opinion, was that
11 in a threatening manner?

12 **A** No, he wasn't. He didn't have his hands
13 up fist ball or anything of that nature. I think he
14 was stunned, honestly. He just turned around and he
15 just, like I said, he turned around and he looked at
16 his hand and he turned around and he did like this
17 and he kept walking, he just kept walking toward the
18 officer, he didn't stop.

19 I asked my husband, why don't he just
20 stop, why don't he just be still, why don't he just
21 stop, and he didn't.

22 **Q** Did you ever see the officer get on his
23 radio or talk into a radio, either while he was on
24 the street or back at his car?

25 **A** No.

1 **Q** At some point you saw other policemen
2 come?

3 **A** (Nods head.)

4 **Q** Did you see them taping off the scene,
5 putting tape up?

6 **A** After.

7 **Q** Afterwards?

8 **A** Yes, ma'am.

9 **Q** Did any of those officers move the
10 victim's body?

11 **A** No.

12 **Q** Did any of those officers move Darren
13 Wilson, the officer who was involved in the
14 shooting, his name is Darren Wilson, I don't know if
15 you knew that, but did you see anybody move Darren
16 Wilson's vehicle?

17 **A** No.

18 **Q** What kind of car was Darren Wilson
19 driving?

20 **A** It's an SUV, I don't know if it is a
21 Blazer, I don't know it is just the regular Ferguson
22 SUV. I don't know, I'm not good at cars, I don't
23 know.

24 **Q** Was it clearly marked as a police vehicle?

25 **A** Uh-huh, yeah. It had Ferguson Police

1 Department on the side in writing.

2 Q Did you ever notice, were the lights on?

3 A No.

4 Q The light bar on top of the car or
5 anything?

6 A Huh-uh.

7 Q What about a siren or one of those
8 squawkers, did you here any whoop, or anything like
9 that?

10 A No.

11 Q Okay.

12 MS. ALIZADEH: Does anybody have any
13 questions?

14 MS. WHIRLEY: I do, yeah.

15 Q (By Ms. Whirley) Tell me what you meant by
16 things are going on at Canfield Apartments where you
17 won't allow your son to go there without
18 you?

19 A It is just not an area that I want him in.
20 I mean, it's just a lot of things that go on just,
21 it's not a safe environment.

22 Q Okay.

23 A So, I mean.

24 Q You mean like the other folks that live
25 there?

1 **A** Yeah.

2 **Q** Or the police?

3 **A** Just the complex in general. I just, it
4 is not safe, it is not somewhere I want him.

5 **Q** Okay. Can you tell me where you were on
6 the map when the police first encountered Mike Brown
7 Michael and Dorian Johnson?

8 **A** We were walking up the steps, this little
9 patio, porch.

10 **Q** You were on porch?

11 **A** Uh-huh. And then this is where
12 apartment sits.

13 **Q** So were you watching them when the police
14 encountered them or were you walking to the
15 apartment?

16 **A** It is open, so you can see whatever is
17 going on on Canfield.

18 **Q** And it had your attention because it was
19 the police?

20 **A** Uh-huh.

21 **Q** And a couple kids in the middle of the
22 street?

23 **A** Uh-huh.

24 **Q** Okay. Now, you said that the police, show
25 me here on the map where you were when the police,

1 after Michael Brown ran from the car, where were you
2 when the police first started firing?

3 **A** Right here. We hadn't gone into the
4 apartment.

5 **Q** You were still outside?

6 **A** Uh-huh.

7 **Q** And you were, of course, watching at this
8 point?

9 **A** Yes, ma'am.

10 **Q** And you have good vision?

11 **A** Yes, ma'am. And I have contacts, I'm over
12 , yeah, bifocals, actually, yeah.

13 **Q** You could see clearly, there was no
14 impairment for you to see?

15 **A** Nothing wrong with my vision, no.

16 **Q** Well, I guess you already told us, when
17 Michael Brown and the officer, I guess, he was
18 facing the officer and the officer first started
19 shooting you said about 20 feet?

20 **A** Approximately.

21 **Q** How far apart they were?

22 **A** Yes, ma'am.

23 **Q** Did you ever see Michael Brown charging at
24 the officer?

25 **A** No.

1 **Q** Okay.

2 **A** I mean, he turned around, and I'm assuming
3 that he was just stunned, that's how it appeared to
4 me. That he looked down at his hands and he saw
5 blood. He turned around and he just started walking
6 back towards the officer.

7 **Q** Did it appear that he was surrendering?

8 **A** I guess you could say that.

9 **Q** You were there?

10 **A** I assumed that that's what he was doing,
11 but I couldn't hear words being, between the two
12 people because I don't recall them saying anything,
13 I don't recall.

14 **Q** I'm sorry, I'm trying not to talk at the
15 same time. Did it seem like they were talking or
16 words were being exchanged, even though you couldn't
17 hear them?

18 **A** I really can't say.

19 **Q** Okay.

20 **A** To be perfectly honest, I can't say. I
21 would assume and I would hope, but I can't say.

22 **Q** Where did you see Michael Brown's body
23 fall after the last shooting?

24 **A** He was in the street. I want to say maybe
25 about right here. (indicating)

1 **Q** Okay. It looks like to you it is right
2 around Copper Creek Court?

3 **A** Yes.

4 **Q** And Canfield Drive?

5 **A** Yes, ma'am.

6 **Q** Was it like east of the intersection? I'm
7 sorry, west of the intersection?

8 **A** He was going back towards the police car.

9 **Q** Okay. Which was headed west initially?

10 **A** West, uh-huh.

11 **Q** So west of the intersection. In your
12 opinion, did it appear necessary for the officer to
13 shoot him that last time?

14 **A** No.

15 **Q** Why?

16 **A** Because he had stopped, I mean, he was
17 kind of standing there and he just started boom,
18 boom, boom, boom, and he just fell.

19 **Q** Okay. So when you said he had stopped?

20 **A** He was just standing there, he wasn't
21 moving, he wasn't running, he wasn't doing anything.

22 **Q** So the last round of shots, Michael Brown
23 was not even walking towards the officer?

24 **A** No. He walked and then it was like as he
25 was shooting, he just started falling like a domino,

1 he just kind of fell.

2 Q Okay. So explain to me, I don't want to
3 be confused. Why you didn't think it was necessary
4 for him to shoot those last rounds of shots at
5 Michael Brown?

6 A I just think it was too much. I mean,
7 that's just me being a mother, this being a child,
8 he was not charging at him, he did not have a weapon
9 that I could see, I mean, I guess because these are
10 the question that I asked my husband.

11 Q Okay.

12 A I asked him whatever happened to a warning
13 shot, whatever happened to shooting in the ankle or
14 somewhere just to stop him, but he just kept going.

15 Q Okay.

16 MS. WHIRLEY: All right, thank you. Any
17 questions?

18 MS. ALIZADEH: Let me ask a couple more
19 questions,

20 Q (By Ms. Alizadeh) When you first saw them
21 at the car, after the officer had backed up, did you
22 see any kind of confrontation at the car?

23 A I don't know what happened inside the
24 vehicle when the first two shots went off.

25 Q Uh-huh.

1 **A** I don't know what was said, I don't know.

2 **Q** So at this point Michael Brown, or the
3 victim, is standing outside the driver's window or
4 driver's door, right?

5 **A** Yes.

6 **Q** And was he close to the vehicle?

7 **A** Like right here. (indicating)

8 **Q** And you are motioning?

9 **A** I'm sorry.

10 **Q** It is about an arm's length?

11 **A** Uh-huh.

12 **Q** Did you notice if any part of his body was
13 inside the vehicle, could you tell?

14 **A** No.

15 **Q** It wasn't or you couldn't tell?

16 **A** I couldn't tell.

17 **Q** Okay. So you don't know what was going on
18 between the officer and the victim at the vehicle
19 except that they were up close within?

20 **A** In proximity.

21 **Q** Close proximity. And then you heard two
22 gunshots?

23 **A** Yes, ma'am.

24 **Q** And it was after the second gunshot
25 that --

1 **A** He ran.

2 Q -- he ran?

3 **A** Uh-huh.

4 Q After the first gunshot, did Michael Brown
5 or the victim remain at the driver's window?

6 **A** Uh-huh.

7 Q Or did he back away from the car?

8 **A** The shots were like consecutive. It was
9 like boom, boom. I'm like, oh, no, they're
10 shooting. And I sat there because I didn't know who
11 was shooting. And that's when he backed away from
12 the car and started to run, and that's when the
13 officer got out of the car to run after him.

14 MS. ALIZADEH: All right.

15 MS. WHIRLEY: Questions?

16 : . When
17 you said it is not a safe area, if I could get just
18 a little bit more clarification. This is not a safe
19 area. Is there gang activity in the area that you
20 know?

21 **A** Honestly, I don't, I don't know. I just
22 don't want my child there. When I say that, it is
23 just that my son is years old, he's
24 , he's a good kid. Things happen, police
25 are always down there. I don't know what goes on.

1 I honestly don't go down there at night. So when I
2 say I don't want my child there, he abides by what I
3 tell him and he goes places where I feel he is going
4 to be safe.

5 I understand.

6 **A** I understand that's 's
7 home, I'm not comfortable with him being . I have
8 a daughter, and knows
9 they can come and take out during the day, but
10 it is just too much, it is too much activity,
11 whether it is the residents or police or whatever, I
12 don't want him there.

13 And as a mother, he does what I tell
14 him to do. So it has nothing to do with that. My
15 mother is a business owner, I don't like for him to
16 go where her business is at night because he's .
17 This is my way of protecting my child as much as I
18 can protect him.

19 Uh-huh.

20 **A** When I say go somewhere, he don't go.
21 He's he drives, he's a good student, but when he
22 leaves my house and he's going somewhere, he needs
23 to give me a phone call.

24 : Uh-huh.

25 **A** And that's what I expect him to do. When

1 he's on his way home, he needs to give me a phone
2 call.

3 : Uh-huh.

4 **A** But that's my way, that's our way of
5 protecting him as much as I possibly can. I don't
6 know what happens there because I don't live there.

7 : Uh-huh.

8 **A** But I don't want him there because it is
9 too much police activity, there is too many people
10 many walking up and down the streets all the time,
11 and I don't know what they do there because I don't
12 live there, but I don't want either one of my kids
13 there. I'm going to tell you how I feel and my
14 husband.

15 : If I can ask another
16 question being a mother, like you said, of a

17 Do you also advise him to respect --

18 **A** Yes.

19 -- law officers?

20 **A** Every time I tell him what to do and he
21 even encountered being stopped by a police officer
22 and it scared him to death because he was not doing
23 anything, this is when he first learned how to
24 drive. He was going to my aunt's house, it was dark
25 and I don't know if you all are familiar with Parker

1 Road, there are no lights on Parker, he had his high
2 beams on. The police officer pulled him over and he
3 stopped, he was not disrespectful, he was not
4 belligerent, he pulled out his insurance, his
5 license and the police officer told him, young man,
6 I'm just giving you a warning, turn your high beams
7 off. And my child was so afraid, the officer wanted
8 to know if he needed us to come and pick him up.

9 So he respects the authority,
10 however, I don't want him to be in a situation where
11 he has to second guess anything that my husband and
12 I have told him about, what he's supposed to do when
13 he's encountered by a person of authority. My child
14 has a 3.5 GPA. He's never been suspended, he's
15 never been in trouble, but it is always that one
16 incident.

17 When he leaves the house, he's only
18 to have two people in his car outside of his sister.
19 I mean, I mean, I was a teenager, my husband was as
20 well, but we try to train him and teach him to do
21 things that he's supposed to do. But that's not
22 always the case. And when you have other people in
23 your car, you don't know what they have on them. So
24 we've given him as much guidance as we possibly can.

25 Now whether or not he uses it when he

1 walks out the door, that's another story.

2 Uh-huh.

3 MS. ALIZADEH: just to
4 clarify, the officer that pulled over your son, was
5 he a Ferguson officer?

6 **A** No, he was a county.

7 MS. ALIZADEH: Okay. And that encounter
8 went okay?

9 **A** He was fine, it just scared him to death.

10 MS. ALIZADEH: Maybe that's a good thing,
11 right.

12 **A** I mean, when he got in the house, he was
13 trembling. I mean, he was shaking, and we were like
14 what is wrong with you. He is like, I got stopped.
15 I'm like, okay. Calm down, but because he knows he
16 has to respect authority. And he just, but I didn't
17 do anything. Which I understand that, but he had
18 his high beams on on a dark road and he could have
19 blinded the other driver.

20 And, again, like I said, he was ,
21 just learning how to drive. It was dark, he figured
22 I turn on the high beams and I will be okay.

23 MS. ALIZADEH: But the officer wasn't
24 belligerent with your son?

25 **A** No, huh-uh.

1 MS. ALIZADEH: And just, again, I didn't
2 ask you to make sure, but do you know any Ferguson
3 police officers?

4 A Um, I don't think he's a Ferguson police
5 officer. One of the coaches for my kids track team,
6 I can't think of the man's name, he was a Ferguson
7 police officer and I believe he's retired.

8 MS. ALIZADEH: Okay. Did you know Darren
9 Wilson?

10 A No.

11 MS. ALIZADEH: Any other questions?

12 . If you could,
13 take me back to the time when Michael Brown ran into
14 the grassy area as you said, is turning around?

15 A Uh-huh.

16 : Before he was shot at by
17 the police officer after running?

18 A Uh-huh.

19 And started moving back
20 towards the officers with his hands down like this,
21 both you and have both kind of said that
22 there was a sense of frustration with you why
23 Michael Brown was still moving forward a little bit,
24 sounds like you were both a little frustrated with
25 that. Can you describe that a little?

1 **A** I didn't understand why he just didn't
2 stop and maybe get on his knees, just stop moving
3 period. I just didn't understand why he kept going.
4 I mean, I don't know if his parents have talked to
5 him about ten and two and doing certain things when
6 you are stopped.

7 So, yes, I was frustrated.

8 Okay.

9 **A** I don't honestly think he has been taught
10 what to do and that's just my personal opinion.
11 Again, as I say, I have a son, and so
12 you know, there is certain things that you do and
13 don't do when you are approached by authority. And
14 he just, he just should have stopped. He just
15 should have stopped.

16 : Do you have any idea or
17 logical guess as to how much distance he covered
18 moving back towards the officer, was it a few steps,
19 was it ten steps?

20 **A** No, it was probably maybe ten steps.

21 : Okay.

22 **A** He was close enough to, I think reassure
23 the officer that he was not a threat, that's my --
24 MS. WHIRLEY: He is what?

25 **A** He was close enough where he wasn't a

1 threat. I think when he turned around and his hands
2 are down, I think the officer should have said okay,
3 I mean, I don't know, I don't know what was going
4 through his mind. I don't know what was going
5 through the victim's mind, but again, I was
6 frustrated because he just, I mean, he just should
7 have stopped and I guess, I don't know, he should
8 have did something different than just keep on
9 moving.

10 : Thank you.

11 : . The officer, was
12 he moving at that time as Michael Brown was
13 approaching him or maybe when he paused between the
14 two series of shots or at any time?

15 **A** He was standing still.

16 Was the officer moving
17 towards Michael, away from Michael or standing
18 still?

19 **A** He was standing still.

20 Through all the shots he
21 was just standing still?

22 **A** Uh-huh.

23 Okay. Thank you.

24 I guess
25 at the time when he turned around and he had his

1 hands like this? (indicating)

2 **A** Uh-huh.

3 : You said that, you could
4 see both of his hands?

5 **A** Uh-huh.

6 In your opinion, could the
7 police officer see both of his hands?

8 **A** Yeah, honestly, yeah, I believe so.

9 : Thank you.

10 : . Could you see
11 Michael Brown's face or was his back to you when he
12 had his hands like? (indicating)

13 **A** When he turned around this way, it was his
14 back and then he was looking this way, it was still
15 his back, but you could see his hands out to his
16 side.

17 And you say he wasn't
18 charging, he was just moving forward?

19 **A** I want to say it is almost as if you tell
20 somebody to come here and they're coming, but he
21 just kept walking, he just kept going, he just
22 didn't stop. Even today, I don't know why, I don't
23 understand that and when it was all going on I asked
24 my husband why won't that child just stop.

25 : I understand. This

1 question is hard for me to ask, okay. This one you
2 said that in your opinion because you're a mother,
3 you felt like it was too much, too many shots, I'm
4 going to ask you if it was your husband or child
5 that was the officer, would you feel the same way?

6 **A** Yes, I would.

7 Okay. Thank you.

8 **A** I have to be perfectly honest, this has
9 changed his life, it has changed this child's
10 family's life, everybody's life and it went from 0
11 to 100. And honestly, I think it was just something
12 that could have been thought through a little bit
13 more because his life has changed, no matter what
14 happens, both of them. It has changed a lot of
15 lives.

16 : I do, . I just
17 want to make sure that I heard you correctly. You
18 said the last shots were fired, the ones that you
19 feel were excessive, Michael Brown was not walking
20 towards the officer at that time, he had stopped?

21 **A** No.

22 : Okay. Thank you.

23 : Just one
24 clarification. Were there any other cars besides
25 the white car that you saw that could have been

1 blocking the police officer where he had to walk
2 around to come and show his full body?

3 **A** No.

4 MS. ALIZADEH: Any other questions?

5 : . At any
6 time did you see Michael Brown reach under his
7 shirt?

8 **A** No, I did not.

9 : Thank you.

10 MS. ALIZADEH: All right. This will
11 conclude the testimony of Thank
12 you.

13 (End of the testimony of
14 .)

15 MS. ALIZADEH: It is October 6th, it is
16 9:47. We just had a midmorning break. This is
17 Kathi Alizadeh, present also is Sheila Whirley and
18 all 12 grand jurors, as well as the court reporter.
19 We will be playing a couple of recorded statements.

20 I thought, and Sheila and I decided, we
21 talked, probably make more sense to play

22 s statement first since she just testified
23 and be fresh in your mind. And the first statement
24 is about, well, it is 54 minutes and 32 seconds. It
25 is just under an hour.

1 So we will start that, we will cease the
2 audio recording while the statement is playing. And
3 then at the conclusion of that statement, we will
4 play the statement of , which is
5 considerably shorter. Although I don't know how
6 short, I have to find out, all right. So at this
7 time we'll cease the audio recording and begin
8 playing the statement. While the statement is
9 playing, I will pass around Grand Jury Exhibit
10 Number 32.

11 (Grand Jury Exhibit Number 32
12 marked for identification.)

13 MS. ALIZADEH: Which is a map that
14 used during her statement and she
15 made some drawings and labeled some things as the
16 statement is being played. It might be helpful for
17 you to be able to have seen this.

18 MS. WHIRLEY: Her recording, just for the
19 record, is Grand Jury Exhibit Number 24.

20 (Interview of is being
21 played at this time.)

22 MS. ALIZADEH: It is 10:44 a.m. here and
23 so I have passed around Grand Jury Exhibit Number
24 32. This exhibit, as well as all the others that
25 we've seen and used will be available to you if you

1 want to see it again or at the conclusion of all the
2 evidence, will be made available to all of you
3 again.

4 We had a change of plans today. The
5 witness for this afternoon left me a message needing
6 to reschedule, so I have now gotten ahold of the
7 firearms examiner who is going to come over at
8 1:00 or whenever you are done with your lunch break.
9 So he will give his testimony after lunch. I'm
10 going to try to get somebody else. He won't take an
11 hour and a half, but I will try to get another
12 police officer or someone else to come in to round
13 out the rest of the afternoon.

14 And as of right now, I've got to see
15 what's going on outside of this room. If you want
16 to take a quick break since we will start back up
17 with listening to more statements.

18 (Recess).

19 MS. ALIZADEH: It is 10:54, this is Kathi
20 Alizadeh. Sheila Whirley is not in the room, she's
21 just outside. All 12 grand jurors are present, as
22 is , the stenographer, and right now Judge
23 asked her to come over and she needs to
24 address you as a group. There won't be any
25 individual questioning, but she's going to talk to

1 you as a group right now, all right.

2 Neither Sheila nor I will be in the room
3 when she's here to talk to you.

4 THE COURT: It is Monday, October 6th, and
5 I'm back in front of you mainly because I'm always
6 thinking about you and I have a little bit of
7 information that I want to share with you. And I
8 hope that what I'm here to say will also guide you.

9 Um, I received some information that some
10 of you, and by the way, I have no names, and you are
11 not at the principal's office right now, you have
12 not been called to the principal's office. I want
13 to assure you about that, but some of you may have
14 done some independent investigation or some
15 research, and I'm here to caution you about that.

16 Your job, as you know, when I told you
17 when you started here will be to listen to the
18 evidence that you're going to hear and then at some
19 point, you're going to be deliberating.

20 It's very important that you all come to
21 deliberate, that you are all considering the same
22 evidence. You will each have thoughts about the
23 evidence you've heard, you will each have opinions,
24 but the very important thing to give the decision
25 you make credibility and value is that you are all

1 considering the same information and evidence.

2 And so I'm here to caution you do not go
3 out and do independent research and investigation.
4 If there is something you want, you tell the
5 prosecutors. They will go and get that for you.
6 And if they can't get it for you, they'll tell you
7 why they can't get it.

8 Ask for anything you think you need to
9 reach the decision you're going to be reaching, and
10 I can't caution you enough about that.

11 I think of you often and I think of you
12 because, and I told you this before, I told you at
13 the beginning and I still tell you this, you are the
14 face of our community. This decision is important,
15 you are good people. You collectively are our St.
16 Louis County. We have St. Louis County, that's our
17 community here.

18 You are, you are the face of our
19 community. Your decision will be the decision of
20 the community because you good people have listened
21 to all of this evidence and then reached your
22 decision.

23 The decision you reach will be thoughtful,
24 it will be thorough, and it will be based on as much
25 evidence as you ask for and as can be brought to

1 you.

2 And just so you are deliberating and
3 talking back and forth, just so you all know, you're
4 thinking about the same evidence. That's why it is
5 so important that you not do this independent
6 research, independent investigation.

7 So I'm going to ask you to please, if
8 there's something you have, it has to be shared
9 collectively. I'm going to ask you from this point
10 forward, do not go forward and do anything
11 independent. Ask the prosecutors for it.

12 I guess I've stated what I really wanted
13 to state, but I have such faith in you. I think
14 you, no matter what the decision is, your decision
15 is going to be the result of a well thought out and
16 conscientious approach to considering it. That's
17 what is provided for in the law. You're going
18 through a very hard task at this time.

19 But when you go through that task, you
20 should know at the end of the day, and I will know
21 at the end of the day, you have done everything that
22 is provided for under the law in our justice system
23 when grand juries sit, and you have done everything
24 that has been asked of you as a citizen of St. Louis
25 County.

1 So my caution to you is if there is
2 anything you want, you tell these prosecutors, they
3 will get you that information. And if they can't,
4 they will tell you why, ask them why. You are
5 certainly free to do that.

6 But keep yourself safe too. I respect the
7 law and I follow the law and I'm following the law
8 right through to the very end. And, um, I will
9 answer questions that people have because people are
10 free to ask questions in our justice system.

11 If the press comes to me and ask me
12 questions, I am going to follow the law in that
13 regard. I believe I have followed the law up to
14 this point with regard to any questions from the
15 media, I will continue to do that, but when you do
16 independent investigation, I worry that you keep,
17 that you may expose yourself to dangerous
18 situations, and you may create a situation where
19 people start talking about you and reporting they've
20 seen this, they've seen that, and it may lead to
21 more problems than we could ever imagine.

22 So please keep your research and
23 investigation here in this room, please keep
24 yourselves safe and please know that you are the
25 very good people of St. Louis County, we are lucky

1 to have in St. Louis County doing this very hard
2 work. Your collective decision when you reach it
3 will be the decision, no matter what it is. I don't
4 know what it is, I'm pretty darn sure you don't know
5 what it is at this point.

6 That is the decision that our justice
7 system has thought about, provided for in the laws,
8 and will guide you ultimately to making your
9 decision and decide what the next step will be under
10 our justice system.

11 So it is nice seeing you once again.
12 Thank you for your very hard work. That's all I
13 wanted to say, thank you.

14 (End of Judge 's statement.)

15 MS. ALIZADEH: All right. It is
16 11:04 a.m. on October 6th. This is Kathi Alizadeh,
17 present also is Sheila Whirley, all 12 grand jurors
18 are present as is , the court reporter. We are
19 next going to play a taped statement from

20 If you recall, he's already testified, I
21 think, last Thursday. We'll hand out the
22 transcripts. And then as usual, we will have
23 pause the recording while the recorded statement is
24 being played and then we'll resume.

25 I don't have, if there is a map, I don't

1 have it. So I will have to, they talk about doing a
2 map in the statement and I don't remember if they
3 do. If they have a map, then I'll have to get that
4 for you this afternoon.

5 So pause the recording now, we're going to
6 play from State's Exhibit Number, Grand Jury Exhibit
7 Number 24, which is the disc that contains witness
8 statements, including the statement of

9
10 (Interview of is being
11 played at this time.)

12 MS. ALIZADEH: It is 11:15, we just
13 finished listening to the recorded statement of

14
15 Uh, I'm now going to pass out some
16 transcripts and we will listen to the recorded
17 statement of Her statement is also
18 being played on a disc, from a disc that is on Grand
19 Jury Exhibit Number 24. And is going to pause
20 the audio recording while the statement is being
21 played.

22 (Interview of is being played
23 at this time.)

24 MS. ALIZADEH: And I believe, although the
25 officer didn't specify, that he starts out in the

1 interview and he says that he is at
2 with , I believe that that is where she
3 lives, which on the map is right here, Building
4 Number . Okay.

5 And I will also let you know that we have
6 a map that has been put together for you that has
7 the dots on it of every one of the witnesses who are
8 testifying and you will have a legend that will have
9 the number of the witness and then the name.

10 So eventually when all the witnesses are
11 done testifying, we'll have that and you will be
12 able to go back and say this is where that girl was,
13 this is where that guy was and so forth.

14 So it will kind of help to pull all of
15 that together, but right now since we haven't heard
16 from all the witnesses and the map is already marked
17 with all the witnesses, we are going to wait until
18 we get all of those people on to testify. So you
19 don't have to worry about trying to remember so much
20 as far as where everybody was because there will be
21 a map given to you that kind of lays that out.

22 Um, also, there is a recorded statement of
23 that was done on September 30th, by the
24 FBI. And I just got that transcript this weekend,
25 and I haven't got the actual recording yet, but I

1 did talk to the agents this weekend and I'm hoping
2 that they're going to drop off this recording, as
3 well as some other recordings this morning. So I
4 will check during the lunch hour and if I have that
5 recording, then we will listen to that after the
6 lunch hour.

7 is scheduled first thing in
8 the morning. If we don't get on that this
9 afternoon, we will try to listen to that before she
10 testifies in the morning, okay?

11 And so we'll just skip that second
12 statement of for now, and the next
13 statement that I'm going to play is a statement of
14 . She's also scheduled to testify
15 tomorrow. And if you recall, is the
16 fiancée of whose already testified.
17 I'm going to pass out, obviously, not obviously, but
18 her statement is very brief as well.

19 (Interview of was played at
20 this time.)

21 MS. ALIZADEH: It is 11:28. We just
22 finished playing a recorded statement of
23 , which was played on Grand Jury Exhibit Number
24 24.

25 At this time, unfortunately, I don't have

1 anything scheduled, although I do have a witness
2 scheduled for tomorrow. I don't have transcripts
3 printed up yet, let me see if it is on there.

4 You want to see how long that statement
5 is?

6 If you want to hang tight, I can try to
7 print out a ten minute statement that will get us
8 closer to the lunch hour. Hopefully it will just
9 take me really quick.

10 MS. ALIZADEH: And, , if we want to
11 go ahead and pause the audio recording and then we
12 can step out while I'm printing these up. And if
13 you guys want to talk, you are able to do that while
14 we are out of the room, okay.

15 (Recess)

16 MS. ALIZADEH: It is October 6th, 2014, it
17 is 11:36. This is Kathi Alizadeh, Sheila Whirley is
18 present, as well as all 12 grand jurors and the
19 court reporter. So we took a brief break while I
20 printed up some transcripts. So we're next going to
21 play for you a recorded statement from a witness
22 whose name is , and I believe that's

23 .

24 Who is, he's a juvenile. I can't remember
25 how old he is. I am hoping he is going to be able

1 to testify tomorrow, that's the plan. We will go
2 ahead and listen to his statement now and get that
3 out of the way.

4 His statement is about ten minutes long I
5 think, you said Sheila? And it is also contained on
6 Grand Jury Exhibit Number 24.

7 (Interview of is being
8 played at this time.)

9 MS. ALIZADEH: All right. It is 11:48,
10 this concluded the playing of the recorded statement
11 done on August 9th, 2014 of . And so
12 at this time we'll go ahead and begin our lunch
13 break. I think the lunch is supposed to be
14 delivered at noon. So if you all want to just take
15 a break and use the restroom and whatever, or chat
16 amongst yourselves. And then when the food gets
17 here, we'll give, you know, a good amount of time to
18 eat and then you'll just let us know when you are
19 ready to start up after you are eating your lunch.

20 The next witness I hope is going to be
21 here, he's going to be here like a quarter after
22 noon that is for me to talk to him. We should be
23 able to get going as soon as you're ready. All
24 right. So we'll conclude for the morning.

25 (Lunch recess taken)

1 MS. ALIZADEH: This is Kathi Alizadeh. It
2 is October 6th at 12:58 p.m. I'm present, as well
3 as Sheila Whirley of the prosecutor's office, all 12
4 grand jurors are present. We're going to begin the
5 afternoon session. We are going until about
6 2:30 today. I have had to, we had a witness cancel,
7 so I did my best to get a couple of people in here
8 to make good use of your time for this afternoon.

9 So the first witness you are going to hear
10 from is And then on his way is
11 another detective, his name is ,
12 So hopefully we'll get the two of them in. I
13 apologize if it is not 2:30, then you guys are going
14 to break early today and go on your way because I
15 don't think I can get anybody else in this
16 afternoon.

17 So if the witness now would be sworn.
18 ,
19 of lawful age, having been first duly sworn to
20 testify the truth, the whole truth, and
21 nothing but the truth in the case aforesaid,
22 deposes and says in reply to oral
23 interrogatories, propounded as follows, to-wit:

24 EXAMINATION

25

1 BY MS. ALIZADEH:

2 Q Could you please state your name and spell
3 it for the court reporter?

4 A , .

5 Q Um, can you please tell me how you're
6 employed?

7 A I am a police officer with St. Louis
8 County Police Department, assigned as a firearm and
9 tool mark examiner in the crime laboratory.

10 Q And so you originally received your
11 training to be a police officer; is that right?

12 A Yes.

13 Q When did you become a police officer?

14 A In early, I'm sorry, 1991. I became an
15 officer commissioned and hired by St. Louis County
16 and have not worked for any other departments.

17 Q So as a police officer after your
18 graduation from the academy and during your training
19 with the academy, you learned how to use firearms,
20 correct?

21 A Yes.

22 Q And then at some point you went from being
23 a uniformed officer to having this specialized area
24 of tool marks and firearms examiner, correct?

25 A That's correct.

1 **Q** So can you explain for the jurors, first
2 of all, when is it that you went and got your
3 training for that?

4 **A** After four and a half years on patrol, I
5 went into the Crime Scene Unit and was in the Crime
6 Scene Unit for six and a half years.

7 So approximately 2002 I was assigned
8 in the crime laboratory, trained under other
9 qualified firearm examiners, both on the job and
10 through available training outside the laboratory by
11 firearm manufacturers, ammunition manufacturers, ATF
12 training opportunities, FBI training opportunities
13 and so forth. Completed that training in 2004 and
14 have been an examiner ever since, even becoming the
15 supervisor of the section, I think, two and half,
16 almost three years ago now.

17 **Q** So you began in the firearms lab in 2002
18 you said?

19 **A** Yes.

20 **Q** So there's, you had approximately two
21 years of training before becoming a firearms
22 examiner?

23 **A** A qualified examiner, yes.

24 **Q** Now, to be a qualified examiner, do you
25 have to have any type of certification or

1 qualification?

2 **A** There are opportunities for certification
3 through an international organization. They're not
4 required, only a small percentage of examiners take
5 that opportunity and I have not, so I am not
6 certified through them, but I have been qualified
7 both in state and federal courts numerous times as
8 the expert witness.

9 **Q** So for approximately ten years you've been
10 working solely and strictly as a tool marks and
11 firearms examiner for St. Louis County Police
12 Department?

13 **A** That's correct.

14 **Q** And can you give me an estimate of how
15 many times you have testified as an expert witness
16 in that area in state and federal courts?

17 **A** I wish I had counted them. Truthfully my
18 best estimate would be dozens, not 50, but more than
19 25.

20 **Q** Okay. And in those cases, have you been
21 qualified to testify as an expert in the field of
22 tool marks and firearms examination?

23 **A** Yes.

24 **Q** So can you explain for the jurors,
25 obviously, firearms and tool marks are two different

1 types of things you might be looking at in this
2 case?

3 **A** Uh-huh.

4 **Q** The investigation into the shooting of
5 Michael Brown. You were looking at firearms and
6 ballistic materials; is that correct?

7 **A** Yes.

8 **Q** Okay. So while it might be very
9 interesting to talk about tool marks and what you do
10 with them, let's skip that part of your expertise
11 and we'll go straight to the firearms portion of it,
12 is that all right?

13 **A** Very good.

14 **Q** Now, in the laboratory setting at St.
15 Louis County Police Department Crime Laboratory, are
16 evidence items submitted to you for you to examine
17 and test?

18 **A** Yes, they are.

19 **Q** And in this particular case, which is in
20 relation to St. Louis County Police Department's
21 Complaint Number 14-43984, were there items
22 submitted to you for you to examine and test?

23 **A** Yes.

24 **Q** So first off, let's talk about a weapon.
25 Was there a weapon submitted to you for you to test

1 and examine?

2 **A** There was a firearm submitted for my
3 examination, yes.

4 **Q** And I say weapon, I guess that's pretty
5 all inclusive. The weapon in particular is a
6 firearm, correct?

7 **A** Correct.

8 **Q** And you tested that weapon and compared it
9 to some other materials that have been submitted to
10 you?

11 **A** That's correct.

12 **Q** Did you put your conclusions in a report
13 that you then gave to me?

14 **A** I did.

15 **Q** All right. And I'm going to show you
16 Grand Jury Exhibit Number 33.

17 (Grand Jury Exhibit Number 33
18 marked for identification.)

19 **Q** (By Ms. Alizadeh) Is that a copy of a
20 report you made in this case?

21 **A** Yes, it is.

22 **Q** I'm going to pass this around so everybody
23 can have a copy of that as well. So Officer
24 when you are submitted, in this case,
25 the firearm, what do you do to begin your

1 examination?

2 **A** In this particular case, after opening the
3 package to observe the weapon, firearm, I discovered
4 that it had what appeared to be blood on it. In the
5 interest of safety for myself and others that might
6 handle this firearm after me, I cleaned it with
7 bleach to kill any biohazards and remove that
8 apparent blood from the firearm.

9 **Q** Okay. So let's back up now. This weapon
10 was submitted to you by Detective is
11 that correct?

12 **A** The seizing detective was .
13 From him it went to a secure vault that they have
14 access to for dropping off evidence after hours.
15 That vault is then accessed by Property Control
16 Unit, and in this case , who is the
17 supervisor of the Property Control Unit. Removed it
18 from that vault and brought it to me.

19 **Q** So what day did you receive that firearm?

20 **A** October 11th of 2014. I'm sorry, did I
21 say October? I meant August, I'm sorry.

22 **Q** That would have been a Monday, correct, or
23 maybe. If the 9th was a Saturday, that would make
24 the 11th a Monday?

25 **A** That sounds correct.

1 **Q** Can you describe how this weapon, this
2 firearm was packaged and how you first saw it?

3 **A** It was packaged in a box that we have
4 specifically on our department for the storage of
5 firearms and it is sealed with evidence tamperproof
6 tape. In other words, if the tape is torn to open
7 the package, you can tell by the tearing of the
8 tape.

9 And it is also itemized on an
10 evidence receipt that accompanies that box. So its
11 submission has some of the case information and the
12 contents of the box listed thereon.

13 **Q** Now, when you received the box, did you
14 examine it to determine whether or not the tape that
15 sealed the box had been tampered with?

16 **A** It was sealed when I received it.

17 **Q** Had you noticed, or in any case when you
18 noticed that there has been a tear in the evidence
19 tape, would you notify the seizing detective
20 immediately?

21 **A** Yes.

22 **Q** Okay. So in this case, it appeared to
23 still be intact, correct?

24 **A** Yes.

25 **Q** Was there anything unusual about the way

1 it was packaged?

2 **A** Not to my recollection.

3 **Q** Now, there has been testimony from
4 Detective , and I'm just going to ask you to
5 take my word on this, that when he first found the
6 weapon or first got the weapon I'll say, that it had
7 been packaged, so to speak. And he described to the
8 jurors the way that was.

9 The weapon had been placed in like an
10 evidence envelope and the magazine and live round
11 had been removed from the weapon and the slide had
12 been locked in its back position. Did you see any
13 evidence envelope with the box that you opened up,
14 was there anything like that in there?

15 **A** Truthfully, I don't recall, however,
16 that's not unusual. So the answer to your earlier
17 question anything unusual, no, because it's not
18 infrequent that that does occur, especially the
19 firearm being made safe and unloaded and the action
20 locked up and so forth, that is actually a
21 requirement of the laboratory that we not have
22 loaded or unsafe firearms.

23 Specifically in this case I don't
24 recall an envelope, but if there was in that box, it
25 would still be there today.

1 **Q** Okay. Whatever the condition it was in
2 was not unusual to you?

3 **A** Correct.

4 **Q** And, in fact, the St. Louis County Police
5 Department's Crime Laboratory examines firearms and
6 ballistic materials from any police department in
7 St. Louis County that would submit them to you; is
8 that fair to say?

9 **A** Yes, including federal agencies, yes.

10 **Q** And I would imagine, and I'm not sure,
11 would it be fair to say that just different
12 departments, they may have a different way of
13 packaging a firearm? In other words, they might not
14 use the same box that the county uses and so forth?

15 **A** That's absolutely true. In fact, that's
16 why it is not unusual because we have a requirement
17 that the guns be boxed. It is for a safer storage
18 and so forth, easier to store.

19 Those agencies that will use those
20 envelopes, when they arrive at our lab we will offer
21 them boxes. It is not unusual to have that envelope
22 in that box, no matter how they choose to submit it.
23 Still other agencies will choose boxes very
24 different from our own. Simply whatever they have
25 available because then they meet the requirement of

1 having the firearm boxed.

2 **Q** Now, we have also heard testimony from
3 Detective that when he seizes a weapon, in
4 order to package it and submit it for examination,
5 that he would zip tie through the ejection port of
6 the weapon in order to prevent that slide from
7 moving. Did you notice if that had been done in
8 this case?

9 **A** I didn't pay particular attention to note,
10 but every firearm is required to have a safety of
11 some sort applied to it for its submission and that
12 is the most common. And, in fact, when I'm done
13 examining, I put on the very same zip tie.

14 **Q** And then he also testified that he would
15 use some kind of led identification number seal that
16 he would put on the trigger guard of the weapon to
17 mark it, so to speak, or number it. Is that also
18 something that you use for sealing?

19 **A** Absolutely, it's a led tab that has a
20 steel wire coming from it. That led is manufactured
21 for our department with our name on one side and
22 forgive me, our number on one side that is unique.
23 It is an incremental numbering system on those led
24 seals. They are unique so they're not repeated. So
25 that number, when that led wire goes through the

1 trigger back into the led and is crimped on with the
2 led crimper, it embosses St. Louis County on it
3 ideally. Then that is a unique number identifiable
4 to that specific firearm and yes, I am very use to
5 seeing those.

6 Q All right. So when you first receive that
7 weapon and you look at it, did it appear to be
8 handled properly in your opinion, came to you at
9 least in a condition that didn't raise any
10 suspicions with you?

11 A Correct, I found it as I would expect to.

12 Q Okay. So can you describe what this
13 weapon is?

14 A Yes, it is a pistol. It's made, as you
15 can see on your copies, by Sig Sauer, Incorporated.
16 They're located in Exeter, New Hampshire. This
17 model is a P229 and the caliber of it is .40 Smith &
18 Wesson.

19 Again, it is a pistol, the finish I
20 call black, that's mainly for the color.
21 Manufacturer's have many different names for their
22 finishing processes. We don't try to keep up with
23 those. We simply try to know what color that finish
24 is. It has six lands and groves with a left twist
25 inside the barrel, and this firearm has serial

1 number 55B003794.

2 **Q** All right. The things that you indicated
3 just now about the weapon, are those things you can
4 see in your visual examination of the weapon or did
5 you have to like actually look through some kind of
6 device in order to determine that it had six lands
7 and grooves with a right side twist, I mean, a
8 left-hand twist?

9 **A** That is the interior of the barrel. It
10 took some lighting to eliminate that. It can be
11 seen with the naked eye, however, low power
12 magnification is best. I have an eye loop, it is a
13 jeweler's loop, it is only 5X, it is not very much
14 at all. Like a magnifying glass, it is not very
15 much at all. It makes it easier to see. So I can
16 look into the barrel and determine the number of
17 lands and grooves and the direction of that twist.

18 **Q** In regard to the caliber of the weapon,
19 what does that mean?

20 **A** The number is roughly the diameter from
21 the raised area of the land on one side to the
22 raised area of the land on the other side on the
23 interior of the bullet. Interior diameter, if you
24 will.

25 **Q** The interior of the barrel?

1 **A** Of the barrel. However, that's not an
2 exact measurement. There are different tolerances
3 that the manufacturers have. The S & W after that
4 number is Smith & Wesson is what that stands for.
5 They developed that caliber, so .40 Smith & Wesson
6 caliber is a name of this caliber of ammunition that
7 this firearm is designed to fire.

8 **Q** All right. And when you say that you
9 cleaned the weapon of blood, did you do any testing
10 on that to determine it was blood?

11 **A** The testing of any blood or search for any
12 fingerprints if it was necessary is all done before
13 the firearm comes to me in the laboratory.

14 **Q** Okay.

15 **A** So I understand that there were some tests
16 done, I don't know specifically what tests nor the
17 results.

18 **Q** But you didn't do any yourself?

19 **A** That's correct.

20 **Q** Okay. And so after, are you familiar with
21 this weapon?

22 **A** Yes.

23 **Q** Not this particular one, but the Sig Sauer
24 .40 caliber pistol?

25 **A** Yes, in fact, it is the same firearm that

1 we are issued as county police officers.

2 **Q** All right. And so after having cleaned
3 the firearm, what do you do then to continue your
4 examination of the weapon?

5 **A** I then made note of these observations and
6 then began to do some more observations and some
7 simple tests to include determining the capacity
8 of a magazine that was submitted with the firearm
9 and that was 12.

10 The firearm has no safety, I took
11 note of that.

12 **Q** Is that unusual that a weapon of this type
13 does not have a safety? Is it manufactured without
14 a safety or is it somehow removed from the weapon?

15 **A** This firearm and many others have internal
16 safeties and when we speak of a safety, we are
17 referring specifically to an external safety that
18 can be applied by the person possessing the firearm.
19 There are no external safeties on this firearm, but
20 there was never designed to be. It was not removed
21 from this weapon, it is simply not present.

22 **Q** Okay. And so then you also indicated
23 there was a magazine submitted with this weapon,
24 correct?

25 **A** Yes.

1 **Q** Can you describe for the grand jurors what
2 is a magazine, it is not People or Time, obviously,
3 but what was the magazine that was submitted to you?

4 **A** Some people call it a clip, but it's that
5 detachable part of the firearm that contains the
6 ammunition. You can load it with as many as you
7 like up to its capacity and in this case as many as
8 12 live cartridges inside the magazine. The
9 magazine when you desire, when you use your desires,
10 would seep into that firearm and lock into it and
11 contain that ammunition.

12 The firing cycle, it would take
13 individual cartilages to load and fire from that
14 magazine. And to continue to do so as many times as
15 you fire it until the ammunition supply is
16 exhausted.

17 **Q** So the magazine that was submitted to you,
18 was it empty as submitted to you?

19 **A** We receive it in both manners, where it is
20 loaded and unloaded. I don't remember at the moment
21 if he unloaded the magazine or not.

22 **Q** Do you recall if there were any live
23 rounds that were submitted with this weapon?

24 **A** I did have one live cartridge submitted
25 with the magazine and firearm.

1 **Q** So now I called it a round and you just
2 called it a cartridge. Can you describe for the
3 grand jurors what you mean by a cartridge?

4 **A** A cartridge is the unfired ammunition. It
5 is a live cartridge where the primer is ready to be
6 fired, I'm sorry, there is gunpowder contained in
7 the cartridge case. And the bullet is seated in the
8 mouth of that cartridge case. Again, it is unfired.

9 A round is a interchangeable term if
10 you will, perhaps a layperson's term. It can mean
11 the same thing, but among fire examiners the
12 definition of that is a live cartridge.

13 **Q** What else did you note about this weapon
14 that you indicated in your report. You have here
15 trigger pull SA, not applicable. What does that
16 mean?

17 **A** Trigger pull single action and next to
18 that is DA, for double action, I put not applicable
19 because I did not test the different trigger pulls
20 that firearm has. It is a measurement taken in
21 pounds. And the reason why I did not report that is
22 because it can vary. One pull of the trigger might
23 be 5 pounds and the next one might be 7 pounds.
24 Unless it becomes a key element in the case, it is
25 simply too variable to have much meaning to me and

1 for me to testify to it. It is seemingly
2 unimportant.

3 Q So in that case where someone says I was
4 holding the weapon and I barely touched the trigger
5 might be relevant, but in this case it was not; is
6 that correct?

7 A To my understanding, correct. There is no
8 denial of firing the weapon, there is no question of
9 how long the trigger pull might have been and things
10 of that nature, so it was not recorded.

11 Q And then CYL and CYL rotation, what do
12 those terms mean?

13 A CYL is standing for cylinder. And that is
14 for a revolver type weapon, this is a pistol, so it
15 does not have that cylinder, so it is not
16 applicable.

17 Q All right. And then you described the
18 barrel length in inches; is that correct?

19 A That's correct, three and three quarter
20 inches.

21 Q And then muzzle trigger length you have
22 NA, is that because it is a short pistol as opposed
23 to a long gun?

24 A That's correct. That's more intended for
25 the overall length of firearms. Sometimes that

1 length becomes an issue in the application of
2 statutes. For example, sawed off gun, it has to be
3 a certain length to be legal. And if it is any
4 shorter than that, the measurement would have been
5 taking there.

6 **Q** Now, we've described the action of this
7 weapon or firearm as being semiautomatic.

8 **A** Yes.

9 **Q** What does that mean?

10 **A** Semiautomatic pistols fire one bullet,
11 fire one cartridge with each pull of the trigger.
12 So if you pulled that trigger one time, even if you
13 hold it back and don't release it, it is only going
14 to fire the one time. You have to release the
15 trigger then until it resets internally and then if
16 you pull that trigger again, assuming you have more
17 ammunition it would then fire again.

18 But again, it only fires one time
19 with each pull of the trigger.

20 **Q** Now, you described in this case the
21 magazine that was submitted to you as having a
22 capacity of 12 cartridges. Can this weapon, when
23 the magazine is seated in the handle of the weapon,
24 can it have more than 12 cartridges and be fully
25 loaded.

1 **A** Yes. If you were to seat the magazine and
2 work the action of the firearm, open the slide,
3 release the slide, it would feed that top cartridge
4 from the magazine into the chamber of the barrel.
5 If you remove that magazine, and you have 11 in it,
6 if you put another one in it. So it is now again at
7 capacity with 12, reseal that magazine, you now have
8 a total of 13 live cartridges available to be fired
9 in that magazine, I'm sorry, in that firearm without
10 reloading it again.

11 **Q** And you identified the cartridge, the live
12 round I called it, but the cartridge that you were
13 submitted, you've listed as one Federal JHP, what
14 does that mean?

15 **A** The Federal is the marketed name stamped
16 on the head stamp or on the base, if you will. If
17 you stand that cartridge up on the bottom, it says
18 Federal, that's who markets that ammunition. And
19 JHP stands for Jacketed Hollow Point, that is the
20 style of the bullet that's loaded into that
21 cartridge case.

22 **Q** And the cartridge that was submitted to
23 you, is this the type and caliber of a cartridge
24 that could be fired from that weapon?

25 **A** It is. I did not note the caliber next to

1 that cartridge because it is the same caliber that
2 the firearm is designed to fire. Sometimes
3 ammunition that is submitted differs from the
4 firearm, but I note when it is different here. And
5 because there is no such note. I know that that is
6 a .40 Smith & Wesson caliber cartridge.

7 **Q** All right. You also indicated that you
8 had been submitted five bullets. Can you explain
9 what is a bullet, how is a bullet different from a
10 cartridge?

11 **A** The cartridge is the combination of all
12 the elements needed to fire a weapon. The primer in
13 the cartridge case that contains the gunpowder and
14 the bullet.

15 So when you're firing a cartridge, a
16 firing pin strikes the primer, which is a very small
17 explosive. So that sets off that explosion, that
18 miniature explosion sends fire into the open chamber
19 of that cartridge case where the gunpowder is.

20 So that fire then ignites the
21 gunpowder. It doesn't detonate, which means to burn
22 instantly, it burns rapidly, it deflagrates, which
23 means it creates pressure. So that pressure that is
24 created by the burning gunpowder is the same
25 pressure that pushes the bullet out of that

1 cartridge case through the barrel towards its
2 target.

3 **Q** And then the bullet is the piece that
4 comes out of the barrel of the gun and is what we
5 normally think of as a bullet, it is what it shoots
6 at targets or things?

7 **A** Correct. In this case, for example, the
8 submitted cartridge is a jacketed hollow point
9 bullet. So that bullet would leave the cartridge
10 case after having been fired, go through the barrel
11 of the firearm. It's designed to make minimal, but
12 contact with the lands and groves in that barrel to
13 impart spin to the bullet so that when it leaves the
14 barrel, it's a spinning bullet in flight now.

15 The purpose of that is if you think
16 of the analogy of a football, if you throw a spiral
17 football, it will go farther and more accurately
18 than an end over end football. It is the same
19 principles at work here. If the bullet is spinning,
20 it will go farther and more accurately than
21 tumbling. That rifling is what gives it that
22 stability.

23 **Q** So the bullet is forced through the barrel
24 of the gun, what happens to then the rest of the
25 cartridge?

1 **A** The energy that pushes that bullet out the
2 barrel is equal, but opposite on that cartridge
3 case. And in essence on the gun in the shooter's
4 hand itself. That's the recoil that you see in
5 cowboy movies.

6 That cartridge case after it has
7 fired that bullet, it is marked in several ways by
8 that firearm. First, as I mentioned the firing pin
9 striking that primer will leave a mark.

10 The pleasure from the firing process
11 pushing that cartridge case rearward against the
12 breech of the firearm impresses the contours of that
13 breach into the surface of that fired cartridge
14 case.

15 In this case, speaking of pistols,
16 the action of the firearm is intended to extract
17 that fired cartridge case from the chamber. So
18 there is a little hook on the firearm that grabs the
19 rim of that fired cartridge case and pulls it out,
20 pulls it rearward of that chamber as it is pulled
21 rearward then it is designed to hit what's called an
22 ejector. It is nothing more than a little piece
23 that when that cartridge case is pulled rearward, it
24 hits that ejector to deflect it out of the open side
25 of that slide of the firearm.

1 So to answer your question in a short
2 order, after firing the bullet, the cartridge case
3 is ejected from the pistol and then before the
4 action closes, it needs the next cartridge from the
5 magazine to reload it if there is one available.

6 **Q** So, what you just described from pulling
7 the trigger and the firing pin hitting the cartridge
8 and the bullet being expelled from the gun and the
9 casing coming out and the next cartridge being
10 loaded up into the firing position, is that called a
11 cycle, is that the firing cycle?

12 **A** Yes.

13 **Q** And that happens at one pull of the
14 trigger, correct?

15 **A** That will happen with each pull of a
16 trigger on a semiautomatic pistol like this.

17 **Q** So it doesn't require someone actually
18 pulling the slide back in order to cause the gun to
19 cycle again?

20 **A** No, it doesn't. In fact, if you were to
21 that, you would be ejecting a live cartridge and not
22 have as much firing capacity because you would be
23 wasting your ammunition.

24 **Q** Can you explain, because there has been
25 testimony perhaps that when this weapon was fired

1 during the incident of August 9th, that the officer
2 pulled the trigger on a couple of different times
3 and the weapon didn't fire. Did you test fire this
4 weapon yourself?

5 **A** I did.

6 **Q** Was it normal, did it fire normally?

7 **A** Yes, I noted no defects at all.

8 **Q** Is there anything that you can explain
9 that would have happen that would cause a weapon to
10 not fire the cartridge if on this weapon pulled the
11 trigger back?

12 **A** To be clear, you're asking for speculation
13 or generally speaking, correct.

14 **Q** Sure, right. I know you don't know what
15 happened in this case.

16 **A** Right.

17 **Q** I'm just asking you what could possibly be
18 the reasons that you could pull the trigger and the
19 weapon wouldn't fire?

20 **A** Okay. Sometimes ammunition is simply bad
21 ammo, maybe the primer doesn't have a priming
22 compound in it. So no matter how many times you
23 strike it, it is not going to fire.

24 Sometimes a firearm might fail to
25 feed a cartridge from the magazine, so you might try

1 to cycle it and it doesn't feed that cartridge, so
2 there is no cartridge in it to fire.

3 There are other scenarios if you are
4 successful firing one cartridge, but it fails to
5 extract, in other words, the hook doesn't grab the
6 rim and pull it out or if it fails to eject and it
7 pulls out from that hook, but it doesn't eject
8 before the action closes on it. It might have it
9 standing to where the open end of that fired
10 cartridge case pointing up and out of the gun, they
11 call it a stovepipe, like a stovepipe on the top of
12 your house.

13 Another factor might be in some way
14 the action is impeded during the firing process.
15 Perhaps unimpeded a firearm and ammunition might all
16 be in perfect working condition, but if there was
17 something blocking the action to where it couldn't
18 cycle freely, then it might cause some of these
19 other events to occur, especially not being able to
20 fire after one shot because it wasn't allowed to
21 cycle enough to feed the next one. There could be
22 many others.

23 Q Let me ask you a question. In this
24 particular weapon, when you fire it, I don't know
25 that this is the technical term for it, but the

1 hammer, is that a technical term?

2 **A** There is a hammer that strikes the firing
3 pin, yes.

4 **Q** The hammer, as you can see it externally
5 on the gun when you examine the gun, correct?

6 **A** Yes.

7 **Q** And when you fire that weapon, does the
8 hammer come back and go forward striking the firing
9 pin?

10 **A** That's correct.

11 **Q** So if there would be something that would
12 prevent that hammer from moving backwards and
13 forward, would that cause the gun to not fire even
14 though you pulled the trigger, it could?

15 **A** Absolutely it could. And that, in fact,
16 would be a scenario where the action of the firearm
17 is impeded. Yes, interference with that hammer and
18 motion of that hammer would prevent the firing pin
19 being struck and firing that cartridge.

20 **Q** And then what about, you know, you've
21 described, or I did and you also explain to where
22 the hammer strikes the firing pin, which is
23 basically on the bottom of the bullet, correct?

24 **A** It's inline with the primer of the loaded
25 live cartridge, yes.

1 **Q** If there is something that is in between
2 the hammer and that firing pin, whether it be, you
3 know, but something that would be between that
4 action, could that possibly explain why you pulled
5 the trigger and nothing happened?

6 **A** Yes.

7 **Q** In other words, if a part of your hand
8 would be in between that firing pin and the hammer,
9 that could prevent the weapon from firing?

10 **A** Yes, absolutely.

11 **Q** And if that were to have happened, again,
12 pure speculation, but if that were to have happened,
13 and the weapon would not fire, if that obstruction
14 was removed between the hammer and the firing pin,
15 would the weapon then be able to cycle normally
16 after that?

17 **A** Misfire.

18 **Q** Or would you have to then go ahead and
19 eject that round?

20 **A** This firearm you could pull the trigger a
21 second time. If the action is not impeded, it would
22 be expected to fire then. It is not true of all
23 firearms, but this firearm yes.

24 **Q** Okay. And if that were to have happened
25 with this firearm, would there be anyway to tell

1 that simply from your examination of the weapon?

2 **A** In the scenario you've described, no.
3 Because there are no marks on that live cartridge
4 for me to observe. In other words, a different
5 scenario, for example, I gave a bad ammunition was
6 my first example. If you tried to fire it once and
7 pulled the trigger again and that firing pin struck
8 that primer a second time and then fired, I would
9 note two firing pin impressions and know that there
10 was more than one attempt to fire it.

11 But in your scenario, no. There
12 would be no marks made, I would have no indications
13 on what evidence was submitted to me?

14 **Q** Now, in this case, let me ask you, you
15 described how the gun was fired from the weapon and
16 you mention that there are marks left on the empty
17 cartridge that is ejected from the ejection port,
18 correct?

19 **A** Yes.

20 **Q** And there is also markings that are made
21 on the bullet itself as it is forced through the
22 barrel of the gun, correct?

23 **A** That's correct.

24 **Q** And can you see those markings using a
25 microscope?

1 **A** Yes.

2 **Q** Are those markings made by the individual
3 weapon that fires that cartridge?

4 **A** The answer is yes and no. And if you'll
5 allow me, let me explain.

6 **Q** Okay, go ahead.

7 **A** There are what's called class
8 characteristics. The number of the lands and groves
9 and the direction of their twist inside the barrel,
10 as well as the dimension of those lands and groves,
11 that is determined by the manufacturing. They make
12 many, many firearms with those specifications.

13 So you might have one right after
14 another coming off an assembly line that putting six
15 left .40 caliber barrels out to be put into these
16 pistols. And they're going to have those same class
17 characteristics, they are intended by the
18 manufacturer.

19 However, as the tool wears during the
20 making of that part, and as the gun is used after it
21 is manufactured and sold, by firing, cleaning,
22 abusing, misuse, etc., there are microscopic
23 qualities in that are called individual
24 characteristics. They're specific. Every one of
25 us, if we were all given the same firearm in this

1 room would treat it the same way and have exactly
2 the same microscopic qualities or individual
3 characteristics in our barrels after a hundred or a
4 thousand rounds as an example.

5 Are they unique to the weapon? Yes.
6 There are some characteristics that I look for under
7 the microscope to be able to tell one bullet from
8 another, from the source of another or to determine
9 whether or not they came from the same source fire.

10 Q So in this case, were you able to examine
11 the shell casings that you had been submitted and
12 you had a total of 12; is that correct?

13 A Yes, that's correct.

14 Q Were those shell casings the same make and
15 manufacture as the live round that was submitted to
16 you?

17 A Yes, they're Federal and .40 S & W
18 caliber.

19 Q Were you able to compare the bullets which
20 are submitted to you, which are five in number,
21 correct?

22 A Initially five.

23 Q And one later?

24 A And one later.

25 Q On the 11th.

1 **A** On the 11th I had five submitted to me.
2 And they indeed were observed to be jacketed hollow
3 point design bullet and .40 caliber, and it had six
4 land and groove impressions with a left twist.

5 **Q** And when we're talking about the five
6 bullets, these are spent bullets, correct?

7 **A** Right. These are fired. They would not
8 have the lands and grooves of the barrel incrust upon
9 them until they're fired through the barrel, yes.

10 **Q** Were you able to determine whether or not
11 the five bullets that were submitted to you and the
12 12 casings that were submitted to you, were you able
13 to draw any conclusions after comparing those items
14 with the firearm that had been submitted to you?

15 **A** I was. In test firing the submitted
16 firearm, I retained fired cartridge cases and fired
17 bullets. That's what I microscopically compared to
18 submitted evidence. I was able to determine that
19 all 12 of the submitted fired cartridge cases have a
20 sufficient quantity and quality of those matching
21 individual characteristics for me to conclude that
22 they were fired in this firearm.

23 **Q** So just so we're clear, the 12 cartridge
24 cases, they're like we call casings, or what I call
25 casings?

1 **A** Yes.

2 **Q** The hollow kind of left over that gets
3 thrown out of the ejection port, correct?

4 **A** That is correct.

5 **Q** And then were you able to, I see here on
6 page two of your report, you number the bullets as
7 QB 1 through 5, and then you also reference where,
8 where they were discovered. Is this information
9 that you received on the evidence packaging that
10 each bullet was packaged in?

11 **A** It may or may not be on the package
12 itself, but I get that directly from the evidence
13 receipt that accompanies that evidence and
14 packaging, yes.

15 **Q** So for QB 1, which is a copper jacketed
16 hollow point bullet, .40 caliber, you have here from
17 FPDVEH.108. What does that mean?

18 **A** Uh, that is in quotations, because I took
19 it directly from the evidence receipt. And my
20 understanding is that stands for Ferguson Police
21 Department Vehicle Number 108.

22 **Q** Okay. And you have here a measure of 158
23 grams and CSU Number 7. What does that mean?

24 **A** The 158 is in grains, we measure in
25 grains. And the CSU stands for Crime Scene Unit and

1 that Number 7 next to that is their item number. So
2 seizing detectives item number was given my
3 laboratory specimen number QB 1. It stands for
4 questionable, by the way. QB stands for
5 questionable cartridge case.

6 Q And so the QB 2, 3 and 4, you indicate
7 have been from the evidence receipt. It says from
8 Brown's right side of back, right side of chest and
9 right side of head. Those are all spent bullets
10 that were seized by someone else and packaged and
11 according to evidence receipt, were recovered from
12 the body of Michael Brown, would that be what you're
13 indicating?

14 A It is.

15 Q And then regarding QB 5, it says from
16 roadway and your information was then that this
17 bullet was received from a roadway or on the street?

18 A Yes, I had no further description of a
19 specific location. Just what I noted there in the
20 roadway.

21 Q And so after examining QB 1 through 5,
22 were you able to make any, draw any conclusion about
23 whether those bullets were fired from the weapon
24 that had been submitted to you, the Sig Sauer?

25 A Yes, I was.

1 **Q** And what were your conclusions?

2 **A** The first one listed specimen QB 1,
3 apparently from Ferguson police vehicle was
4 inconclusive. It had enough damage to its surfaces
5 that I did not have enough of those microscopic
6 characteristics to match to my test shots to
7 determine that it came from the same source.

8 I did not have enough differences
9 either to think or believe that it came from a
10 different source firearm. So it is inconclusive for
11 number one. However QB 2, 3, 4 and 5 had a
12 sufficient quantity and quality of those matching
13 individual characteristics in the rifling striations
14 that we've talked about for me to conclude that they
15 were indeed fired from this firearm.

16 **Q** Now, at a later date you were submitted
17 another evidence item and asked to compare it to
18 your QB, what's the gun called?

19 **A** QF 1 or the test shots are TB 1A and B, TC
20 1A and B, compared with my test shots.

21 **Q** Okay. Did you make a report after you
22 examined this additional evidence item?

23 **A** I did.

24 **Q** And is this a copy of your report?

25 **A** It is.

1 (Grand Jury Exhibit Number 34
2 marked for identification.)

3 **Q** (By Ms. Alizadeh) And Grand Jury Exhibit
4 Number 34, I made copies of this report for the
5 grand jurors.

6 So what was the additional item that
7 was submitted to you?

8 **A** It was a copper jacketed hollow point
9 bullet fragment. In other words, it was not the
10 complete whole bullet, it was only part of that
11 bullet. I note that it was one side of a bullet,
12 all the way from base to nose. It was part, once
13 part of a .40 caliber bullet. It had six lands and
14 grooves with a left twist represented and it was from
15 2909 Canfield, seized on September 3rd of this year.

16 **Q** All right. And you examined this QB 6,
17 your QB 6 and were you able to compare it to the
18 test shots that you fired from the Sig Sauer weapon
19 that was submitted to you back on the 11th of
20 August?

21 **A** I did make that comparison, yes.

22 **Q** And what, if any, conclusions did you draw
23 from that?

24 **A** It had sufficient quantity and quality of
25 those matching individual characteristics for me to

1 conclude that this bullet was also fired from this
2 firearm.

3 **Q** And the items that you tested and examined
4 in this case, did you repackage them and were those
5 submitted to property control for safekeeping and
6 storage?

7 **A** That is the intended destination and, yes,
8 I finished my examination, resealed the packages and
9 put them in our vault on a shelf that is intended
10 for the evidence to be forwarded to property
11 control.

12 **Q** And just one more thing because I haven't
13 seen the firearm that we're talking about in this
14 case, but I recall from other cases I've had that
15 sometimes the firearm has orange tape on the end of
16 the barrel, is that still done when you are finished
17 examining a weapon?

18 **A** It is. It's an extra measure. We talked
19 about the zip tie earlier, I provide the officers,
20 my department with bright orange zip ties and that
21 is so it is readily visible to anyone that if the
22 firearm is handled openly, especially in court at a
23 later time, that that's highly visible and they know
24 that it's safe.

25 I add in my lab when my examination

1 is done, I added, my other examiners we add that
2 bright orange tape to the barrel as well. It is
3 nothing more than a visual indicator for you that
4 what is being handled is safe and can't be fired in
5 the state it's in.

6 **Q** So that bright orange tape I'm assuming is
7 on the barrel of this gun that was placed there by
8 you?

9 **A** Yes.

10 MS. ALIZADEH: Does anybody have any
11 questions?

12 MS. WHIRLEY: I have just a couple. You
13 want to go first?

14 : No.

15 **Q** (By Ms. Whirley) That bullet, the copper
16 bullet fragment from 2909 Canfield, was that like a
17 building that it was taken from or would you know?

18 MS. ALIZADEH: That's the next question.

19 **A** I understand it is another apartment in
20 the area, but where inside that building I don't
21 have specific knowledge.

22 **Q** (By Ms. Whirley) On first page of Exhibit
23 Number 33, Grand Jury 33, poor condition of residue,
24 what does that mean?

25 **A** When I look in the barrel, I simply note

1 is it clean and free of any debris, is there
2 residues. I'm not even certain what those residues
3 might be. Sometimes it is dust from people carrying
4 it, it gets clothing dust in it, sometimes it is
5 from firing it. There is residues left behind.
6 When you fire a cartridge, 100 percent of the gun
7 powder isn't consumed, there is some partial burned
8 and some unburn powders, sometimes they're left in
9 the barrel, sometimes they just fly out of the gun
10 and left in the nearby area.

11 Residue is simply that there was some
12 debris in that barrel, but the barrel itself was not
13 obstructed. It wasn't heavily fouled with multiple
14 firings and build up of residues, it was simply a
15 small amount of residue.

16 Q Okay. And the grain, like it's 158.0
17 grain, 177.0 grain, what does that grain mean, what
18 are we talking about?

19 A That's a measurement much like grams and
20 ounces and so forth.

21 Q Of what, though, what are we measuring?

22 A That is the weight of the bullet.

23 Q Okay.

24 A So specimen QB 1, I described as a bullet
25 itself. The full weight of that bullet that was

1 submitted to me was 158 grains.

2 **Q** And they're different weights because of
3 what they went through once they were fired?

4 **A** Yes, and they're manufactured in different
5 weights by manufacturers. Their starting weight
6 might be, for example, 154 grains, but they might
7 add weight because they retain wall material if they
8 were dug out of the wall or something of that
9 nature.

10 Or if it is a fragment, you might
11 only have part of the full weight of the bullet.
12 Sometimes that weight helps us determine a caliber,
13 it didn't really come into play in this scenario.

14 **Q** The internal safety, what is that on this
15 weapon, you said it has an internal safety?

16 **A** Basically what I mean is the parts in the
17 firearm are designed so it cannot be fired unless
18 you pull the trigger. If you drop it, it's not
19 going to fire. If you hit on the hammer, you know,
20 with something, it's not going to fire. It's
21 designed not to go off unless you pull the trigger
22 of that firearm.

23 **Q** So this weapon was fired 12 times; is that
24 correct, based on your examination?

25 **A** For there to be 12 fired cartridge cases

1 ejected in the area of this firearm as it's alleged,
2 the trigger would of had to have been pulled 12
3 times.

4 **Q** 12 individual times?

5 **A** At least, yes.

6 **Q** Is that the difference between a
7 semiautomatic and an automatic?

8 **A** Yes, an automatic you could hold the
9 trigger back and it will continue firing until you
10 release the trigger. So a fully automatic firearm
11 might fire every cartridge available to it with one
12 pull of the trigger, but this is not that kind
13 weapon.

14 MS. WHIRLEY: I don't have anything else,
15 thank you.

16 **A** You're welcome.

17 MS. WHIRLEY: Oh, no, I do. One more
18 thing. I'm sorry you guys.

19 Where it says offense assault on LEW,
20 which is Law Enforcement Officer.

21 MS. ALIZADEH: LEO.

22 MS. WHIRLEY: LEO, I'm sorry, which is
23 Law Enforcement Officer.

24 **A** Yes.

25 MS. WHIRLEY: Where does that come, I

1 mean, this is your report, is that some
2 determination you made?

3 **A** No, actually, that is some of the, as I
4 mentioned earlier, some of the case information that
5 is provided to us on the evidence receipt that is
6 submitted with the evidence. That case information
7 is entered into our laboratory system, so different
8 areas of the lab know what evidence they have to
9 examine and so forth. And it is auto populated into
10 our reports.

11 So it was submitted, again, on the
12 evidence receipts that the offense is an assault on
13 a law enforcement officer.

14 **Q** (By Ms. Whirley) Okay. You had nothing to
15 do with that being determined?

16 **A** That's correct. Now, we will often get
17 receipts from the same incident that might have
18 different offenses listed. We, there's no real
19 rhyme or reason to figuring out which one is
20 accurate because we're not determining what the
21 charges might be. So most often we go with what is
22 either most commonly submitted or what is first
23 submitted.

24 In this case the copy of receipts
25 that I have most commonly are listing assault of an

1 officer as the offense.

2 MS. WHIRLEY: That has nothing to do with
3 your examination?

4 A That's correct. Our examination is done
5 the same way regardless of what that offense is
6 quite honestly. Sometimes there are non-offenses
7 that are submitted to the lab and the examination
8 remains the same.

9 MS. WHIRLEY: Thank you.

10 A You're welcome.

11 : We
12 heard previously about this stovepiping, and how it
13 didn't appear that there was any. Would that have
14 to be taken off, would it have to be repaired for
15 that gun to fire again if that was there?

16 A Good question. No, there is no physical
17 repair needed for that. Basically the fired
18 cartridge case becomes an obstruction to the action
19 of that firearm. And a practiced user of that
20 firearm can clear that because it's not permanently
21 trapped. It is just kind of pinched in place. So
22 if you pull the slide back and release that
23 pressure, it can fall out or be caused to fall out.
24 And then there is no impairment to the action. So
25 if you let the slide go, the firearm would then

1 again act normally.

2 : Is that the only type of
3 reason that that firearm wouldn't go, or whatever,
4 that you would be able to see? Like you always talk
5 about if something obstructing like a hand or piece
6 of whatever, the stovepiping is the only thing that
7 you would be able to examine, it is not necessary
8 for you to be able to tell exactly what happened and
9 say it would be able to be fired, am I explaining
10 myself correctly?

11 **A** I think I understand your question. Is
12 there any circumstances where a firearm wouldn't
13 function that I could tell, is that basically what
14 you're asking?

15 : That's right, that you
16 couldn't tell, you couldn't say no, that firearm
17 didn't get stuck.

18 **A** No.

19 : There is no possible way
20 that it would happen that way?

21 **A** I could not, you posed a good question. I
22 can't think of a scenario where I could prove that
23 something did not happen in the firing of the
24 firearm.

25 MS. ALIZADEH: Officer , let me

1 ask you a question.

2 **A** Okay.

3 MS. ALIZADEH: If the, in the firing of
4 the weapon the cartridge has stovepiped and you said
5 it kind of gets caught in that ejection port and the
6 ejection port has a door to it, correct?

7 **A** There's an opening in the slide called the
8 ejection port, but not a door per se that closes on
9 that.

10 **Q** (By Ms. Alizadeh) Okay. But the cartridge
11 gets caught in between something, correct?

12 **A** Basically the barrel itself where it's
13 supposed to feed into, it can get caught against
14 that and then when the slide closes on that, that
15 ejection port is what might hold that fired
16 cartridge case against the barrel to where it is
17 kind of standing up out of there.

18 **Q** If that were to have occurred, could you
19 look at that cartridge casing and see marks on it
20 that might indicate that it had been stuck in the
21 gun that way?

22 **A** And that's where I was thinking the answer
23 might take me, but is it possible? Yes. However,
24 because those marks are unpredictable, there may be
25 marks on a cartridge case that I can't determine

1 their origin.

2 So while it very well may have
3 happened and there may be marks from being a
4 stovepipe, it's also quite possible that it is not
5 something that I could conclusively say were from a
6 stovepipe simply because ammunition in a pocket with
7 keys is going to get marked. Ammunition thrown in a
8 drawer is going to roll around. I mean, they get
9 marked in so many ways, same as anybody's jewelry or
10 anything else that we have with a metal surface, it
11 is going to have scratches and so forth to it.

12 And it's not in a uniform or
13 explainable way for me to determine if it was or was
14 not from that type of event.

15 **Q** Okay.

16 **A** Does that answer your question?

17 : Yes, yes.

18 **A** Yes, ma'am.

19 : . You said
20 that when you received the gun from the evidence
21 locker or the supervisor or whatever.

22 **A** Uh-huh.

23 That you saw blood on the
24 gun.

25 **A** Okay.

1 : This is kind of a two-part
2 question. Tell me where on the gun did you see the
3 blood and you cleaned it off yourself that you've
4 testified; is that correct?

5 **A** Yes.

6 Could you tell me where
7 you saw the blood on the gun and also in the area
8 where the hammer is on the gun?

9 **A** Uh-huh.

10 : Was there any blood or
11 human tissue that you found in that area as well?

12 **A** I don't take note of where I see the blood
13 or any tissue because it will have been in
14 photographs before it gets to me. It also goes for
15 other examinations and sampling before it gets to
16 me. So by the time I'm receiving it, all of that
17 other testing and documentation has been completed
18 and I don't have it as a concern in my part of the
19 laboratory. I hope that you will find that answer
20 from other witnesses, but I don't have those.

21 : Thank you.

22 **A** You're welcome. Yes, sir.

23 : . Going
24 back to the stovepiping, I guess.

25 **A** Uh-huh.

1 If that was to happen,
2 would that be, would it come out as a bullet or does
3 it come out as a spent casing?

4 **A** Good question. It could happen both ways.
5 If the cartridge is fired and extracted out of the
6 barrel and then it attempts to eject it out of the
7 firearm, but it gets caught and trapped before it's
8 able to clear that ejection port, you would have a
9 fired cartridge case and it looks like a chimney or
10 a stovepipe if you will, but if for some reason, and
11 sometimes it is just random and there is no even
12 reproducing it.

13 If the action fires that cartridge
14 and successfully ejects that fired cartridge case,
15 but it fails to properly feed the live cartridge
16 from the magazine, in other words, it is designed to
17 come up out of the magazine, go up the feed ramp and
18 into the chamber, but if it bounces up off of that,
19 the action can close and trap a live cartridge there
20 as well.

21 Now, in either scenario, if you have
22 something trapped, as I mentioned with
23 , working the action is all you need to clear that
24 and assuming you have more ammunition, feed the next
25 cartridge and then continue to fire, but what you

1 would have left behind on the ground next to you is
2 different, you would have either the fired cartridge
3 case that was cleared or the live cartridge that was
4 cleared. Does that answer your question?

5 : Could you demonstrate how
6 you clear a round with that particular firearm?

7 **A** Okay. If you grip that firearm, it has a
8 grip and trigger guard, so if your finger is in that
9 trigger guard, it is held pretty much like this.

10 Above that, on the back of the gun is
11 where the hammer would be, okay, visible, external
12 hammer, all right. So when you pull the trigger,
13 there is single action and double action, only a
14 double action trigger pull, it is a long, heavy
15 trigger pull that also cocks that hammer and then
16 releases it to strike the firing pin, okay.

17 If you fire like that, this pistol is
18 designed for that slide then to come rearward. As
19 it's coming rearward, the extractor or the hook
20 pulling it rearward towards the ejector, which then
21 hits and ejects it out the open ejection port of the
22 firearm. Whereas that slide comes back, it is
23 cocking the hammer as well, okay. Because this has
24 a single action mode as well.

25 So that hammer will be locked back

1 when that slide feeds the next cartridge and goes
2 forward. So now you have a loaded cartridge in the
3 chamber already cocked so your trigger pull is
4 designed to be much, much less because you don't
5 have to pull the full weight of it and cock it, you
6 are only pulling enough to release. Okay.

7 To answer your question specifically,
8 if it were jammed, you would simply maintain your
9 grip on that firearm, most commonly with your other
10 hand, but if it is incapacitate there are other
11 means to do it, but grabbing that slide, taking the
12 pressure off of that jammed live or spent cartridge
13 case and getting it out of the gun and then letting
14 it go, it should feed the next cartridge and being
15 cocked and ready to fire, okay.

16 Can you
17 talk about when a spent cartridge is ejected, what
18 direction does it eject from the gun up, down, side
19 ways, forward, back, whatever, and then about how
20 far do you expect it to travel before it hits the
21 ground?

22 **A** I'm asked that question, I'm sorry.

23 Is it pretty consistent
24 the cartridges hit about the same area? The first
25 question was direction after the ejection.

1 **A** I might actually summarize the answer for
2 the entire question you've asked, because I'm asked
3 question a lot. It differs for every firearm, but
4 since we are talking about a particular make and
5 model here and a specific firearm, I will tell you
6 that it's unpredictable even within a single firearm
7 because you have different elements in play.

8 For example, if the firearm were even
9 intended to send them in the exact same direction to
10 the exact same distance every time, a simple turning
11 of the firearm at any angle is going to change where
12 those cartridge cases land and how far they go, but
13 they're not designed to do that. They're really
14 only designed to clear that weapon.

15 So sometimes they'll go good
16 distances, sometimes they'll go short distances,
17 like they're just dribbling out of the gun,
18 sometimes they'll fly over the back of your head,
19 sometimes they'll go to your right, straight up,
20 forward, and things of that nature.

21 It is such an unreliable factor for
22 determining where someone is positioned, for
23 example, that we don't give any credence to ejection
24 patterning, if you will. There is just too many
25 variables that come into play, especially if you

1 start dealing with a scene that intentionally or
2 even unintentionally has been tampered with is to
3 strong of term. It could be kicked, it could be
4 stepped on, it could be carried by a car tire, it
5 could bounce off of things and so forth. Final
6 positioning of cartridge cases is something that we
7 don't even consider.

8 : . Cartridge cases
9 are very light, obviously, they bounce around. When
10 they're ejected, they don't just roll, they often
11 come out spinning, flying all of over the place,
12 correct?

13 **A** Absolutely.

14 On a weapon like that with
15 a slide that comes back and what I would say is
16 pretty aggressive if you've ever seen it, it comes
17 back pretty quick, pretty hard.

18 **A** Oh, yeah.

19 : Do you have any guess at
20 what kind of pressure you apply to a slide like
21 that, could you hold a slide like that back if
22 somebody tried to hold the slide, is that possible,
23 or would you expect a lot of damage to your hands,
24 the gun?

25 **A** Surprisingly, it doesn't take as much as

1 one would think. And the reason I say that is I'm
2 not going to put my hand in the way. It comes back
3 with a good deal of force. In fact, there are
4 officers, you know, when we're issued these guns and
5 first training on them that if they hold their thumb
6 in the wrong place, you are going to hurt yourself.

7 Now that said, I have spoken to
8 others who have been brave enough, if that's the
9 right word, to use their thumb to try and hold that
10 slide in place and they have been successful in
11 firing that weapon and preventing it from cycling.

12 So I don't have any idea, I can't
13 describe what amount of energies and forces it would
14 take to do that, but I know that it can be done.

15 And that's a little
16 surprise because when you see it, it looks like it
17 comes back with an enormous amount of force.

18 **A** Yeah. In fact, what I can tell you is if
19 I don't have a good way to describe this, but I'd
20 rather have my thumb on it and against it and trying
21 to hold it forward then behind it and away from it
22 and not expecting it because it is going to hurt a
23 lot more getting hit like that, than it is going to
24 take to overcome the pressure that it's creating.

25 I guess even thinking while I'm

1 speaking, the energy that takes that bullet out of
2 the gun, is also equal but opposite rearward and
3 that's the recoil.

4 So if you think about it, if the gun
5 were to fire without any support from a human being
6 at all, they would go an equal distance apart, but
7 we're overcoming that in holding that gun.

8 So I'm thinking maybe it wouldn't
9 take so much to prevent that slide from cycling.
10 Suffice it to say, I know it's possible, I know it
11 can be done and there is a wide range of ways to do
12 that.

13 Do you have any idea what
14 the opening, once cycle through one series, the
15 hammer is now cocked, do you have any idea what the
16 opening is between the back of that slide and the
17 start of that hammer, is there enough to get a
18 finger between, a thumb between there?

19 **A** Absolutely, it is a visible amount of
20 distance. In fact, in the training of officers,
21 when I first started a number of years ago, my first
22 duty firearm was a revolver and it had an exposed
23 hammer as well. And part of the training was if we
24 were faced with a revolver or we're to lose our own
25 revolver to someone else, was to jam the meat of our

1 hand into that space so then that gun can't be
2 fired.

3 So not only are you grabbing the gun,
4 but you are preventing it from being fired back at
5 you. So absolutely is there room to obstruct that
6 whether you intend or not, it could be clothing, it
7 could be whatever. Is there room? Absolutely.

8 So
9 that raised another question.

10 **A** Yes.

11 So in that case,
12 something were obstructing it other than the
13 stovepiping, you wouldn't have to do this or do this
14 with the slide to make it fire again. You would
15 just have to remove whatever was obstructing that
16 and then fire that without that added step?

17 **A** Correct. If you had the hammer obstructed
18 and it did not fire, this firearm is designed to
19 function with another pull of the trigger.

20 So if that obstruction is removed, it
21 would have then fired. There are firearms that will
22 only give you one opportunity, one pull of the
23 trigger. If it didn't fire, then you have to work
24 that action. This is not that kind of gun. This is
25 one that if it doesn't fire once, pull the trigger,

1 pull the trigger, pull the trigger, it might go off
2 later.

3 : Just to be clear.

4 **A** Yes.

5 : If it were this type of
6 situation, you have to do it this way or use your
7 arm whatever to clear it, but not always. I mean,
8 only for this situation would you have to do that if
9 there was something else obstructing it?

10 MS. ALIZADEH: You are going like this,
11 you mean the stovepiping situation?

12 : Yes, the stovepiping
13 situation you would have to --

14 **A** Work the action.

15 -- work the action.

16 **A** To clear the obstruction.

17 : But if anything else you
18 just have to move that from out of the way in order
19 to still fire without, without the slide?

20 **A** Without working the action?

21 : Yes.

22 **A** Yes, absolutely correct. For example, he
23 mentioned could you stick a hand between the hammer
24 and the frame and the firing pin.

25 : You wouldn't have to

1 redo.

2 **A** If you remove that hand, you're good to
3 go.

4 MS. WHIRLEY: That stovepiping situation,
5 would you actually lose the cartridge trying to
6 clear it so that you could fire again?

7 **A** Well, if it is a fired cartridge case that
8 is obstructing the action, you want to lose it, you
9 want it out of the firearm, so yes.

10 **Q** (By Ms. Whirley) If it was feeding and
11 never fired?

12 **A** Right, then you have got a live cartridge.

13 **Q** You want to clear it because it is in that
14 standing up position, you would lose that cartridge?

15 **A** You would lose a live cartridge because it
16 would automatically, it needs to load the next live
17 cartridge. So you want to lose that as well.

18 **Q** And in this case you did not find any live
19 cartridges other than the one that was in the
20 chamber. Is that the other witness?

21 MS. ALIZADEH: That's not how it came to
22 him.

23 MS. WHIRLEY: There were 12 cartridges
24 that were used when the bullet was gone out of this
25 weapon?

1 **A** Correct, 12 fired cartridge cases were
2 submitted and one live.

3 MS. WHIRLEY: That's what I'm asking.

4 **A** But I have no live cartridges submitted to
5 me with documentation that they came from outside of
6 the firearm or outside the magazine. In other
7 words, not from the ground and not from the police
8 car.

9 MS. WHIRLEY: That's what I'm getting at.

10 **A** I don't have anything submitted like that.

11 MS. WHIRLEY: So there is 12 that were
12 fired, and one live?

13 **A** Correct.

14 MS. WHIRLEY: And so in a stovepiping
15 situation when you lose a live cartridge, to clear
16 it to get it to fire the next cartridge.

17 **A** Not, there is two different scenarios. If
18 the fired cartridge case failed to eject and got
19 trapped. The firearm might not necessarily have
20 grabbed the next live cartridge to feed it. So in
21 clearing it, you might not lose a live cartridge.

22 MS. WHIRLEY: But you would have to clear
23 it?

24 **A** Yes, you would have to clear that, but if
25 you have, the other scenario is if you failed to

1 feed a live cartridge to clear that, you would

2 definitely lose a live round. Yes.

3 : . Does a live

4 cartridge have the firing pin strike on it so that

5 it doesn't fire?

6 **A** In that scenario it should not --

7 : I think not.

8 **A** -- however, bad ammunition would be a
9 reason a gun might not fire. If it doesn't have a
10 priming compound or any powder in it because the
11 manufacturer, you know, the machine skipped that
12 one, then you very well may have failure to fire.
13 And it wouldn't be a stovepipe situation, but then
14 you would still have to work the action to eject
15 that unfired live cartridge that would have firing
16 pin impressions, although it is still unfired.

17 But in a stovepipe situation where a
18 live cartridge was suspected to have failed to feed
19 and had to be cleared, I would expect no firing pin
20 impression.

21 Obviously, a stovepipe situation with
22 a fired cartridge case, yes, I would expect a firing
23 pin impression.

24 I was trying to figure out
25 if tried to be fired, it did not strike --

1 **A** Right.

2 -- it has been tried to be
3 fired.

4 **A** Exactly. In all likelihood it never
5 chambered properly and had no attempt to be fired
6 before it jammed up the gun, which would then, is
7 what I considered the failure to feed.

8 I don't even know if that
9 cartridge even cycled through, it could have been
10 left in the magazine, came out that way, you
11 wouldn't know?

12 **A** Absolutely, I wouldn't be able to tell.

13 MS. ALIZADEH: Any other questions?

14 Well, at this time then, this will
15 conclude the testimony of this witness. It is 2:11
16 p.m. needs to read something.

17 (End of the testimony of
18)

19 MS. ALIZADEH: This is Kathi Alizadeh.
20 October 6th, it's 2:19 p.m. Present is myself,
21 Sheila Whirley and 12 grand jurors. is the
22 stenographer taking down what is being said and
23 audio recording what's being said. And we have one
24 more witness we're going to try to cram in today and
25 that is Detective of the

1 St. Louis County Police Department.

2

3 of lawful age, having been first duly sworn to

4 testify the truth, the whole truth, and

5 nothing but the truth in the case aforesaid,

6 deposes and says in reply to oral

7 interrogatories, propounded as follows, to-wit:

8 EXAMINATION

9 BY MS. ALIZADEH:

10 Q Could you state your name and spell it for
11 the court reporter, please?

12 A Detective , it is .

13 Q How are you employed?

14 A I am a detective with the Crime Scene Unit
15 for St. Louis County.

16 Q How long have you been a police officer?

17 A Eighteen years.

18 Q And how many of those years have you been
19 working with the crime scene unit?

20 A Over three.

21 Q And were you asked, were you asked to take
22 some photographs of Ferguson Police Officer Darren
23 Wilson in the course of the County Police
24 Department's investigation that is documented in
25 Complaint Number 14-43984?

1 **A** Yes.

2 **Q** Okay. And do you recall the day that you
3 took those photographs, the date?

4 **A** No, I do not recall the date. I think it
5 was a Tuesday after the shooting.

6 **Q** Okay. And I'm going to hand you what I've
7 marked as Grand Jury Exhibit Number 21. This is an
8 envelope that contains some photographs. That's not
9 your handwriting on the front, is it?

10 **A** No.

11 **Q** Okay. But seeing that there is a date,
12 8/12/14, do you believe that might be consistent
13 with the date that you took the photographs?

14 **A** Yes.

15 **Q** Okay. And I'm going to show you then
16 these photographs, these images that are contained
17 in Grand Jury Exhibit Number 21, and each photograph
18 has a computer marking that indicates the number of
19 the image that was taken, correct?

20 **A** Correct.

21 **Q** And so if you look at each of these
22 images, are they consecutive from number one being
23 the first image, all the way to Image Number 21?

24 **A** Yes.

25 **Q** And then I'm going to just ask you real

1 quickly to look through these too. Do these appear
2 to be images that you took of Officer Darren Wilson?

3 **A** Yes.

4 **Q** Do you know where you went to take those
5 pictures?

6 **A** It's, it is the office in Overland.

7 **Q** That the Fraternal Order of Police?

8 **A** Yes.

9 **Q** And these pictures appear to be taken
10 inside, inside, correct?

11 **A** Yes.

12 **Q** Did you use any special lighting when you
13 took this picture?

14 **A** Just the flash on my camera.

15 **Q** All right. And did you do anything
16 special with the flash in order to insure that the,
17 the image that you were taking was what you would
18 see with the naked eye?

19 **A** Yes, I moved it up to the side so items
20 submitted wouldn't bleed out or anything.

21 **Q** These images that you took, Images 1
22 through 21, these are the photographs that you took
23 of Officer Darren Wilson?

24 **A** Yes.

25 **Q** Okay. And your purpose of taking these

1 photographs, is that to document how his face and
2 neck and head area looked on the day you were taking
3 the photographs?

4 **A** Yes.

5 **Q** Okay. So we'll go through those later.
6 And then also were you asked another time your
7 Photograph Number 21, is this your placard that you
8 prepared?

9 **A** Yes.

10 **Q** Does it have the date on it?

11 **A** Yes 8/12 of '14.

12 **Q** And your DSN ?

13 **A** Yes, ma'am.

14 **Q** So that tells you you took these
15 photographs on the 12th of August?

16 **A** Yes.

17 **Q** And then the same thing were you asked to
18 take some photographs on September 3rd of 2014 in
19 relation to the investigation into the shooting of
20 Michael Brown?

21 **A** I was asked to take the photographs and
22 retrieve a projectile.

23 (Grand Jury Exhibit Number 35
24 marked for identification.)

25 **Q** (By Ms. Alizadeh) Okay. And so I'm going

1 to show you Grand Jury Exhibit 35, which is an
2 envelope. Is that your handwriting on the envelope?

3 **A** Yes, that is.

4 **Q** Okay. And did you examine the photographs
5 that are contained in this envelope?

6 **A** Yes, I stamp the back of them.

7 **Q** Is there a total of 20 photographs?

8 **A** Yes.

9 **Q** Okay. And these were the photographs that
10 you took of documenting your investigation on the
11 September, what date did I say?

12 **A** 9/3.

13 **Q** September 3rd. So you were asked to go
14 where to retrieve an apparent projectile?

15 **A** Canfield.

16 **Q** And that's in the Ferguson, City of
17 Ferguson, correct?

18 **A** Yes.

19 **Q** In the Canfield Green Apartment Complex?

20 **A** Yes.

21 **Q** And so we have an aerial map here, which
22 is Grand Jury Exhibit Number 25, and you said it is
23 29?

24 **A** .

25 **Q** Now, this building here Number ,

1 has 2905 and 2909, looks like they're the southern
2 most units?

3 **A** Correct.

4 **Q** This being south down here. Do you recall
5 was the projectile that you retrieved at this
6 location or was it at that location?

7 **A** which that is inverted.

8 **Q** So that's what I was getting at. These
9 numbers are in the wrong place?

10 **A** Yes.

11 **Q** So actually where it says is actually
12 unit ?

13 **A** Right.

14 **Q** You photographed the exterior of the
15 building?

16 **A** Yes.

17 **Q** And the place that you retrieved the
18 bullet?

19 **A** Yes.

20 **Q** The bullet?

21 **A** Yes.

22 **Q** And so when you arrived there, it was
23 daylight hours?

24 **A** Yes.

25 **Q** Were you able to see on the exterior

1 staircase of that building a demarcation or a defect
2 in the wooden staircase that appeared to you that it
3 might be the trail of a bullet?

4 **A** Yes.

5 **Q** Did you photograph that?

6 **A** Yes, I did.

7 **Q** And then did you find a defect in the wall
8 of the exterior wall of that building?

9 **A** Yes.

10 **Q** And I don't have time, you know, I don't
11 have time to turn on that goofy thing, I'm going to
12 show you your Image Number 4. Is that the outside
13 of the building that we're talking about?

14 **A** Yes.

15 **Q** Okay. And so each, the building and each
16 building actually has this outer kind of wall that
17 is kind of the staircase is behind that wall, would
18 that be fair to say?

19 **A** Yes.

20 **Q** I don't even know to call that other than
21 it is a wall that's outside of the staircase. And
22 was it in this wall that you saw a defect?

23 **A** Yeah, the interior side of it, yes.

24 **Q** So on the --

25 **A** On the staircase side.

1 **Q** On the stairwell side of that wall. So
2 I'm showing you Image Number 6. Is that a
3 photograph that shows that defect?

4 **A** The defect in the wall, yes.

5 **Q** Okay. And so when you are looking, and
6 actually you are on the staircase, so you're looking
7 at the inside of that wall, and that would be
8 siding; is that correct?

9 **A** Yes.

10 **Q** And then you see this little mark right
11 here, did you dig into the defect area?

12 **A** Yes, I did.

13 **Q** Did you have to remove any siding or did
14 you --

15 **A** Yes, I did.

16 **Q** And what did you recover inside that
17 siding?

18 **A** A projectile.

19 **Q** And did you package that projectile?

20 **A** Yes, I did.

21 **Q** And did you submit that projectile for
22 examination at the St. Louis County Crime
23 Laboratory?

24 **A** Yes.

25 **Q** Okay. And the Image Number 7 and Image

1 Number 8, do those images show a defect in the
2 wooden railing of that staircase?

3 **A** Yes.

4 **Q** And does that railing correspond to
5 possibly the path of that bullet might have taken
6 before hitting the wall?

7 **A** Yes.

8 **Q** Where you found it?

9 **A** Yes.

10 **Q** And just really quickly showing you on
11 these images on the wooden railing, which would be
12 coming across right here going into the wall.

13 Now, when a projectile, if it trailed
14 against that wooden part of the railing, could it
15 change the path or the direction of the projectile
16 as it traveled?

17 **A** Yes.

18 MS. ALIZADEH: Okay. I am certainly not
19 going to keep our juror longer than he has to be
20 here. If anybody has a quick question or two if
21 they can ask it, otherwise, we can bring him back if
22 there is more questions that need to be answered.
23 Anybody have any questions for him?

24 No. If you think of other questions
25 afterwards after today, I'll get him back here. I

1 don't want to cut anybody off if there is any
2 inquiry that needs to be made.

7 I, a Licensed Certified Court
8 Reporter by the Supreme Court in and for the State
9 of Missouri, duly commissioned, qualified and
10 authorized to administer oaths and to certify to
11 depositions, do hereby certify that pursuant to
12 Notice in the civil cause now pending and
13 undetermined in the County of St. Louis, State of
14 Missouri.

15 The said witness, being of sound mind and being
16 by the grand jury first carefully examined and duly
17 cautioned and sworn to testify to the truth, the
18 whole truth, and nothing but the truth in the case
19 aforesaid, thereupon testified as is shown in the
20 foregoing transcript, said testimony being by me
21 reported in shorthand and caused to be transcribed
22 into typewriting, and that the foregoing page
23 correctly sets forth the testimony of the
24 aforementioned witness, together with the questions
25 propounded by counsel and grand jurors thereto, and

1 is in all respects a full, true, correct and
2 complete transcript of the questions propounded to
3 and the answers given by said witness.

4 I further certify that the foregoing pages
5 contain a true and accurate reproduction of the
6 proceedings.

7 I further certify that I am not of counsel or
8 attorney for either of the parties to said suit, not
9 related to nor interested in any of the parties or
10 their attorneys.

1 GRAND JURY HEARING VOLUME XI

2 MS. ALIZADEH: Today's date is
3 October 7th, it is 10:15 a.m. This is Kathi
4 Alizadeh with the prosecutor's office. All 12 grand
5 jurors are present this morning, as is the court
6 reporter, , who is taking down the proceedings
7 and also audio recording the testimony of witnesses.
8 Sheila Whirley is here and will be in the room in a
9 minute, but I wanted to just give you an idea of
10 what we expect to happen today.

11 We're getting a late start because as
12 Roseanne Roseannadanna said, it's always something.
13 So we had some difficulties this morning that we had
14 to hammer out and we do have two witnesses here this
15 morning who are going to testify.

16 And they will, first one is going to be
17 . He's right out here with Sheila.
18 He's going to be walking in as soon as I give them
19 the high sign and he'll, after his testimony is
20 completed, then we will hear from .

21 If you recall, she made a statement that
22 was recorded that she made to the County Police, we
23 heard that yesterday. She also made another
24 statement to the FBI, which we'll play after we're
25 done just to give you an opportunity to hear that as

1 well.

2 And so we also have witnesses lined up for
3 this afternoon. This is just one of those things I
4 never know if people are going to show up at this
5 point. People call me and say, I don't think I can
6 make it now. Well, I call you a cab. So I'm going
7 to do my best to make good use of your time today.

8 I've got a couple witnesses who are police
9 officers or technicians who I've already notified
10 them to be available if I need to fill a slot if
11 somebody doesn't show up. So hopefully we'll have
12 stuff for you for most of the day today, okay.

13 Does anybody have anything to bring up,
14 questions before we get started? All right.

15 ,
16 of lawful age, having been first duly sworn to
17 testify the truth, the whole truth, and
18 nothing but the truth in the case aforesaid,
19 deposes and says in reply to oral
20 interrogatories, propounded as follows, to-wit:

21 EXAMINATION

22 BY MS. ALIZADEH:

23 Q Would you go ahead and state your name and
24 spell it for the court reporter?

25 A My name is

1

2 **Q** And how old are you, ?3 **A** .4 **Q** And do you live in the Canfield Apartment

5 Complex?

6 **A** Yes, ma'am.7 **Q** How long have you lived there?8 **A** Since .9 **Q** of this year?10 **A** Yes, ma'am.11 **Q** So you were living there back in August of

12 this year, correct?

13 **A** Yes, ma'am.14 **Q** I'm going to direct you to this map that I

15 have here, which is marked as Grand Jury Exhibit

16 Number 25. And this is an aerial view of the

17 streets and the buildings that make up the Canfield

18 Green Apartment Complex. Do you recognize the

19 streets and the buildings?

20 **A** Yes, ma'am.21 **Q** Can you use the laser pointer and show me

22 what building that, are you living in the same

23 building?

24 **A** Yes.25 **Q** Same apartment?

1 **A** Same building, same apartment, yes, ma'am.

2 **Q** Can you show me with a laser pointer what
3 building you are in?

4 **A** I live in , which is
5 here, the top floor,

6 **Q** Okay. Now, those buildings, are there
7 three stories to each building, three levels?

8 **A** Yes, yes.

9 **Q** And so is there a basement level?

10 **A** Yes.

11 **Q** And so the apartment that's on the ground
12 floor is the second floor?

13 **A** Yeah, there is a basement, which you have
14 to go down the stairs to get to and then you have
15 normal level, which is right up the stairs and my
16 level, which is all the way up.

17 **Q** Okay. So your unit is is it on the
18 front of the building?

19 **A** Yes, it is on the front, yes.

20 **Q** So this is Canfield Drive?

21 **A** Uh-huh.

22 **Q** And out here would be West Florissant?

23 **A** West Florissant, yes.

24 **Q** So just to help you with the directional,
25 north is this way.

1 **A** Uh-huh.

2 **Q** And south is that way. So would it be
3 fair to say that your unit is on the west side of
4 the building?

5 **A** Yes.

6 **Q** Okay. And, um, in August were you living
7 with anyone?

8 **A** Um, with my now girlfriend.

9 **Q** ; is that right?

10 **A** Uh-huh.

11 **Q** ?

12 **A** .

13 **Q** How long has lived there with you?

14 **A** Since .

15 **Q** So she was there living with you back on
16 August 9th as well?

17 **A** Yes, ma'am.

18 **Q** Okay. For the sake of trying to
19 understand this, you were inside the apartment that
20 day, correct?

21 **A** Yes.

22 **Q** So there are, are there windows on the
23 west side of that building?

24 **A** Yes, there is. My door, there's my living
25 room window which was open at the time and also my

1 bedroom window that's facing the west.

2 Q Okay. So the door, meaning like the front
3 door?

4 A Yes.

5 Q Is there a window in that door?

6 A No.

7 Q Okay. And then you have your living room
8 window you said?

9 A Uh-huh.

10 Q Is that a sliding glass, is it a slider?

11 A Yes.

12 Q So the whole thing is glass?

13 A Yes, ma'am.

14 Q And then you have a bedroom window?

15 A Uh-huh.

16 Q Is that a slider or a regular window?

17 A It is a slider.

18 Q But, I mean, can you walk out of that?

19 A No, no.

20 Q What about your living room window?

21 A Yes.

22 Q You can walk out of that?

23 A Uh-huh.

24 Q So your bedroom window is just a regular
25 window?

1 **A** Yes.

2 **Q** Um, are there coverings on your living
3 room and bedroom windows?

4 **A** Yes.

5 **Q** What kind of window coverings are there?

6 **A** Just regular blinds, my living room is
7 vertical, they are little vertical blinds, my
8 bedroom are horizontal.

9 **Q** Okay. And typically during the day would
10 you have those blinds open or keep them closed?

11 **A** My bedroom, no, but my living room I do
12 tend to keep open.

13 **Q** And on August 9th it was a hot day?

14 **A** Uh-huh.

15 **Q** Would you have had the windows open or
16 closed?

17 **A** Open.

18 **Q** The windows would be open?

19 **A** Uh-huh.

20 **Q** You are not running the air conditioner?

21 **A** No.

22 **Q** And so the morning of the 9th, was there
23 anything unusual that happened or that you saw or
24 anything that you recall special about the day?

25 **A** No, that morning I happen to have been at

1 work, but I left work early due to a complication
2 with me and my manager. I left work early, went
3 back home. I made it home around 11:11.

4 Q What time had you gotten to work, did you
5 get to work like at the middle of the night?

6 A No, I got to work at 7:00 in the morning.

7 Q Okay. So you had left your apartment
8 before then to get to work by 7:00?

9 A Uh-huh.

10 Q And then you came home and got home about
11 11?

12 A Uh-huh.

13 Q So when you got home at 11, was there
14 anything going on that was special or that you
15 noticed?

16 A No.

17 Q And this was a Saturday?

18 A Uh-huh.

19 Q And it was a sunny, bright day?

20 A Uh-huh.

21 Q People just about, out and about in
22 general?

23 A Just a normal day. Some people outside, I
24 recall someone barbecuing, just a normal day.

25 Q Okay. Was home?

1 **A** Yes.

2 **Q** Now, had she been home the whole morning
3 to your knowledge?

4 **A** Yes.

5 **Q** So she was there when you left for work
6 and then she was there when you got home at 11?

7 **A** Uh-huh.

8 **Q** When you got home at 11, what was she
9 doing?

10 **A** She was still sleeping.

11 **Q** Okay. Now, do you all have the same
12 bedroom?

13 **A** Yes.

14 **Q** So your bedroom window is the same view?

15 **A** Uh-huh.

16 **Q** If she says in my bedroom windows, that's
17 your bedroom too?

18 **A** Uh-huh.

19 **Q** And so, uh, and so when you got home at
20 11, what did you do?

21 **A** Um, I started playing games.

22 **Q** Video games?

23 **A** Yeah, started playing video games.

24 **Q** Were you in the living room or bedroom?

25 **A** In my living room.

1 **Q** Okay. And from, were you playing, was
2 there anybody else in your apartment with you?

3 **A** No.

4 **Q** Were you online playing with someone on
5 line?

6 **A** No.

7 **Q** Just playing on your own?

8 **A** Just playing on my own.

9 **Q** And so did something happen that drew your
10 attention to the outside?

11 **A** Yes, I heard shots, I heard gunshots.

12 **Q** About how many shots do you recall
13 hearing?

14 **A** The first shots I would say around three
15 or four.

16 **Q** Were these shots in like a succession,
17 like boom, boom, boom, boom?

18 **A** Uh-huh.

19 **Q** Or were they like boom, boom, boom?

20 **A** No, it was succession.

21 **Q** Okay. So there was no real pausing
22 between those shots?

23 **A** Huh-uh.

24 **Q** All right. Have you heard gunshots
25 before?

1 **A** Yes.

2 **Q** So no doubt in your mind when you heard
3 that that was gunshots?

4 **A** That was gunshots.

5 **Q** You didn't think maybe it was firecrackers
6 or anything?

7 **A** At first when I first heard, there were
8 construction workers that happen to have been around
9 here in front of my apartment. I thought it was
10 them at first, but after the third and fourth shot,
11 I realized it was gunshots. I thought they might
12 have been hammers or something. I realized a hammer
13 is not going to be that loud, that's when I realized
14 it was gunshots.

15 **Q** So it was louder than you would expect if
16 it were fireworks?

17 **A** Yes.

18 **Q** Or hammering going on?

19 **A** Uh-huh.

20 **Q** Now, you said these construction workers,
21 can you use the laser pointer again and point out
22 where they were working that day?

23 **A** Yes, the truck was parked here in our lot
24 that I live in, and they were scattered between like
25 the front of this complex and on the side here.

1 **Q** Okay. Do you know those construction
2 workers?

3 **A** No, but they had been out there for about
4 a week or so.

5 **Q** About a week. Was it the same guys that
6 were there each day?

7 **A** Yes.

8 **Q** How many workers?

9 **A** Two.

10 **Q** And did you ever stop and chat with them?

11 **A** No.

12 **Q** You didn't know them?

13 **A** Huh-uh.

14 **Q** Were they white or black?

15 **A** White.

16 **Q** And do you know what they were working on
17 or what they were doing?

18 **A** I'm not sure. I know the pipes up under
19 the ground, they were digging around there.

20 **Q** Okay. And so from your bedroom window
21 then, I'm sorry, you were in the living room?

22 **A** Uh-huh.

23 **Q** So after you hear the three or four
24 gunshots, what do you do?

25 **A** I get up and walk to the window.

1 **Q** Are you talking about the living room
2 window?

3 **A** Yes, my living room window.

4 **Q** Were the blinds open or closed?

5 **A** They were open.

6 **Q** So now when I think of blinds, they can be
7 totally open so that there's nothing covering the
8 window or they can be closed, but they can be
9 adjusted so that you can see out?

10 **A** Yes, they were closed.

11 **Q** Okay.

12 **A** But adjusted so I could see straight
13 outside.

14 **Q** Okay. So when you went to the window,
15 were you able to see without moving them or did you
16 move the blinds?

17 **A** I was able to see without moving.

18 **Q** Did you move the blinds at all?

19 **A** No.

20 **Q** And so when you looked out the window,
21 what did you see?

22 **A** I saw a person holding hisself around here
23 and had a hand up in the air and was, it looked like
24 he was going to a knee or on one knee. I think he
25 was going down to his second knee and he was

1 falling. And from that point is when I seen him get
2 shot and seen his head like jerk back and I seen him
3 do that like three times and that's when he just
4 fell face first. (indicating)

5 Q Okay. Could you see who was shooting at
6 him?

7 A I could not see who was shooting at him.
8 My view from here at my apartment I could see the
9 person in the street about here, but my view of what
10 was going on was obstructed by this building.

11 Q Okay. So when you looked out and you see
12 a person, did you recognize him?

13 A No.

14 Q So you hadn't seen him before in the
15 complex or anything that you recall?

16 A After finding out what was going on, I had
17 in my memory had seen him around the complex, but
18 during the shooting of what I seen, I couldn't
19 recall anybody.

20 Q He didn't, it didn't mean anything to you
21 when you first saw him?

22 A No.

23 Q You didn't recognize him?

24 A Huh-uh.

25 Q And we now know that the man who was shot

1 in the street was Michael Brown?

2 **A** Mike Brown, uh-huh.

3 **Q** Did you see another guy out there, a
4 shorter African-American, darker complected guy?

5 **A** From where I seen, Mike Brown was about
6 here. I seen a person run across to here, across
7 this way. (indicating)

8 **Q** Okay. Was he African-American?

9 **A** Yes, African-American, but I couldn't, him
10 being so far away from me, I couldn't make out any
11 details or facial details or hair or anything.

12 **Q** Okay. And how about clothing?

13 **A** I couldn't really tell, too far away.

14 **Q** Okay. And so he was running, when you
15 first saw him, where was he when you first saw him?

16 **A** I just seen him run like, came from out
17 the street and just streaked across this yard here.

18 **Q** This is like an open field, right?

19 **A** Yes.

20 **Q** Without trees or anything, you can see
21 someone that's in this area, correct?

22 **A** Uh-huh, yes.

23 **Q** And so at the time did you have any idea
24 that he had anything to do with it?

25 **A** No, at the time when I seen someone

1 running, I just thought they might have been running
2 away from the gunshots.

3 Q Okay.

4 A Just running away from the scene just to
5 be clear to make sure that they didn't get shot and
6 everything.

7 Q So when you first looked out the window
8 and saw who we now know as Michael Brown.

9 A Uh-huh.

10 Q Were you, and you're looking from here and
11 you put the pointer somewhere around this area?

12 A Yes.

13 Q Okay. Was his back to you?

14 A His back was, I would say, to me, but he's
15 like in the middle of the street. And so I see like
16 his side, like his side and his back, yeah.

17 Q But he's facing?

18 A He's facing.

19 Q This direction?

20 A Yes.

21 Q So you see him from behind, but you can
22 also see a part of his side?

23 A Uh-huh.

24 Q So which side would that have been?

25 A His right side.

1 **Q** Okay. And so from that view you said you
2 saw that he had a hand across his body?

3 **A** Uh, he had his left hand across his body.

4 **Q** Okay.

5 **A** And his right hand was up in the air.

6 **Q** Okay. And so just so we can make sure
7 that the jurors understand it and so I can explain
8 it for the record, why don't you stand up.

9 **A** Uh-huh.

10 **Q** And do that what you just did again?

11 **A** His left hand was across his body.

12 (indicating)

13 **Q** So you have your left arm about a little
14 below your chest?

15 **A** Yes.

16 **Q** And almost reaching around to your rib
17 cage on your right side, correct?

18 **A** Uh-huh.

19 **Q** And then your other hand, do that again?

20 **A** His other hand is like up in the air, but
21 like out. (indicating)

22 **Q** So you have your arm, elbow is straight?

23 **A** Uh-huh.

24 **Q** Fingers are facing forward and up a bit?

25 **A** Yes.

1 **Q** And I'm going to say that's probably maybe
2 a 45 degree angle?

3 **A** Uh-huh.

4 **Q** You know, 90 degrees --

5 **A** Not straight up, yeah.

6 **Q** More like that, okay. All right. And so
7 now when you first demonstrated that when you were
8 sitting there you had your hand like that, it was
9 more bent, the elbow was bent?

10 **A** Yeah, when he was up it was out, it was
11 out more.

12 **Q** Okay. So why did you do that at first?

13 **A** Just showing.

14 **Q** Okay. So it's not that Michael Brown
15 changed?

16 **A** No, he didn't change.

17 **Q** He didn't like go like this and then raise
18 his hand higher?

19 **A** No, it was out.

20 **Q** The whole time when you first saw him it
21 was like this? (indicating)

22 **A** Yes.

23 **Q** Which is extended out at a 90 degree angle
24 away from in front of him?

25 **A** Yes, ma'am.

1 **Q** And so after, when you first saw him,
2 could you see any blood on him?

3 **A** No.

4 **Q** Couldn't tell if he was injured or
5 anything?

6 **A** No.

7 **Q** And so did he move from that place where
8 you saw him?

9 **A** No.

10 **Q** Never walked forward or backwards or spun
11 around or anything?

12 **A** No, he was on his way down, he was on his
13 way down.

14 **Q** Okay. So you say that he went down, I
15 don't want to put the words in your mouth and I
16 don't, I can't recall exactly what you said, but you
17 said he went down like to one knee?

18 **A** Uh-huh.

19 **Q** And is that a yes?

20 **A** Yes.

21 **Q** Okay. So can you stand up maybe and if
22 you want to walk out here so they can see what you
23 are describing.

24 **A** When I looked out the window he was sort
25 of in a position like this with his arm out.

1 (indicating)

2 Q You're on your left knee?

3 A Uh-huh.

4 Q And then your right leg, the ball of your
5 foot is on the ground and your knee is bent?

6 A Uh-huh.

7 Q Okay. And in that position he had his?

8 A He had his hand up and he was covering
9 like this side.

10 Q Okay, okay. You can sit back down. And
11 so now, to get the timeframe, you hear the three or
12 four shots, you look out and that's what you see him
13 going down to one knee. And then do you hear any
14 more shots?

15 A Yes, I would say another four or five
16 shots.

17 Q Okay. How much of a pause was there
18 between the first set of shots and the second set of
19 shots you heard?

20 A I would say maybe 20 seconds, 25 seconds
21 at the most.

22 Q How long, now, when you heard the first
23 shots, did you, were you sitting on the couch?

24 A I was sitting on the couch, yes, when I
25 heard the first shots.

1 **Q** Did you stay on the couch and just look
2 out the window or did you get up?

3 **A** No, I got up and looked out the window.

4 **Q** So we talking a matter of a second or two
5 for you to get up and go look out the window?

6 **A** Yeah, I would say around 20 to 25 seconds
7 because at first, I'm sitting there playing the game
8 when I heard the shots. At first I assumed it was
9 the construction workers and then I realized it was
10 gunshots.

11 At the time when I recognized that it
12 was gunshots, I had just kind of sort of believed
13 that someone had just been shooting or shooting up
14 in the air because I have heard shooting before in
15 Canfield. So I just sort of assumed that it was
16 just something going on, but what kind of made me
17 get up was like everything happened so fast, what
18 kind of made me get up my mind it is like 12:00 in
19 the afternoon, why are people shooting this early.
20 So that made me get up and just look out the window
21 to see what was going on, that's when I seen him
22 down.

23 **Q** Okay. And so when you, there may have
24 been 20 to 25 seconds before you actually go out to
25 go to the window and see him?

1 **A** Uh-huh.

2 **Q** And he's in the process of going down to
3 his knee?

4 **A** Yes.

5 **Q** As you demonstrated, his left knee?

6 **A** Yes.

7 **Q** And what happens, you said you hear
8 another series of gunshots?

9 **A** Uh-huh.

10 **Q** Is he still on his knee and with his hand
11 extended in that manner?

12 **A** Yes.

13 **Q** Or is he going down when you hear more
14 gunshots?

15 **A** When I heard the gunshots, the same time
16 I'm hearing the gunshots, I seen his head jerk back
17 and he came back forward and he jerked back again
18 and that's when after that he fell face first on the
19 ground.

20 **Q** Okay. And so what were his arms doing
21 during this second series of gunshots?

22 **A** During the second series, this is when his
23 arms kind of just fell.

24 **Q** Okay.

25 **A** When he jerked back at the time of him

1 jerking back, his arms are falling and that's when
2 the shooting stop, he fell on the ground.

3 Q Okay. And after he fell on the ground,
4 did you see him move any more?

5 A No.

6 Q And what did you next see?

7 A Um, at this time after he fell on the
8 ground is when I called my girlfriend. I said,
9 , someone just got killed out here, someone just
10 got killed.

11 At the time I'm thinking, I'm looking
12 around. This is when I seen the young man run
13 across the field here and I'm thinking someone just
14 shot someone else or whatever. And it wasn't until
15 I seen around three or four officers come from
16 around the corner of this building is when I
17 realized okay, that's when I say, the police
18 just shot someone, the police just shot someone.

19 Q But that was an assumption you were
20 making, correct?

21 A Yes.

22 Q You didn't see the police officer shoot
23 anybody?

24 A No, I didn't see a police officer shoot
25 anybody.

1 **Q** Why is it that you would assume the police
2 officer shot somebody?

3 **A** Um, because I felt at this time I wasn't
4 sure if Mike Brown had a weapon and anger at the
5 police officer or threatened him, may have caused
6 the police officer to shoot him. It is just me
7 assuming that the police officer being that close to
8 a shooting that fast, that it was conflict between
9 them.

10 **Q** I'm sorry. The fact that there were three
11 police officers there very quickly, you drew that
12 conclusion that it was a police officer involved
13 shooting?

14 **A** Yes.

15 **Q** Or is it after when people were coming out
16 and talking that you then learned that?

17 **A** No, it was at that time. Like I said, I
18 just assumed that it was a police shooting.

19 **Q** Why wouldn't you think it was this guy
20 because you said you saw him run after the shooting,
21 right?

22 **A** Uh-huh.

23 **Q** In your mind you don't think man, that guy
24 just shot somebody and run in the field?

25 **A** At the time of his running through here, I

1 didn't see any officers in pursuit, so that's why I
2 figure he was just running away from the scene and
3 the officers were on the scene of what happened.

4 **Q** Okay. And so you see three officers you
5 say, correct?

6 **A** Uh-huh.

7 **Q** When you looked out the window, did you
8 notice those two construction guys?

9 **A** Yes. When I looked out the window I seen
10 the two construction guys at this point, they were
11 getting in their truck. They had been looking at
12 the incident that was going on. After the shooting
13 stopped, they got in their truck and they left.

14 **Q** Okay. That day, did you take any video
15 with your phone?

16 **A** No.

17 **Q** Or any video camera?

18 **A** No.

19 **Q** Did you see other people outside after the
20 shooting?

21 **A** Yes.

22 **Q** Did you see people taking videos?

23 **A** Yes.

24 **Q** Okay. Did you go outside?

25 **A** No, I went outside on my balcony and stood

1 on my balcony.

2 Q You never came down to the scene or
3 anything?

4 A No.

5 Q Um, and so you said you saw three
6 officers?

7 A Uh-huh.

8 Q Did you recognize any of the officers?

9 A No, ma'am.

10 Q Do you know Darren Wilson?

11 A No, ma'am.

12 Q Did you recognize them as Ferguson
13 officers, were they wearing blue shirts or brown
14 shirts?

15 A Blue shirts.

16 Q Did you see any police vehicles?

17 A No, it wasn't until after everything was
18 over I seen police vehicles pull up around here.

19 Q Okay. So how much after the shooting, how
20 much time elapsed after you saw Michael Brown
21 collapse in the street.

22 A Uh-huh.

23 Q Before you saw the three officers?

24 A Uh, 15, 20 seconds, not too long.

25 Q Okay. And all three officers appeared

1 together or was it one officer and then another two
2 came after?

3 **A** It was, it was one officer at first who
4 came this way from off the street around like in
5 this part of the grass here.

6 **Q** Uh-huh.

7 **A** I seen two more officers that came around
8 the corner of the building like right off the corner
9 of the building.

10 **Q** Okay. So they came around the building
11 separately?

12 **A** Yes.

13 **Q** And how much time --

14 **A** One and then two.

15 **Q** How much time between the time you saw the
16 first one come around the corner and when you saw
17 the second one, the two come around the corner?

18 **A** Five seconds.

19 **Q** Okay. Um, so did you ever see any of the
20 Ferguson officers approach Michael Brown's body?

21 **A** No.

22 **Q** Did you ever see, other than when they
23 eventually removed the body from the street, did you
24 see anybody move the body?

25 **A** No.

1 **Q** Okay. Um, now you testified today that it
2 was after the shooting that you said to hey,
3 come see this, they just killed somebody or
4 something like that?

5 **A** Yes.

6 **Q** You recall giving a statement previously,
7 correct?

8 **A** Yes.

9 **Q** And you talked to a couple of female FBI
10 agents?

11 **A** Yeah.

12 **Q** They come to your house?

13 **A** Yes.

14 **Q** And did you show them the window that you
15 looked out of and what you saw?

16 **A** Yes, uh-huh.

17 **Q** And do you remember telling them that it
18 was after the first few shots that you said, hey
19 Emya, they're shooting out here?

20 **A** Yeah, as the shooting, as the first shots
21 rang is when I got up to the window and then when I
22 got to the window is when the second shots started
23 to occur is when I called her.

24 **Q** Okay. So where was when you heard
25 the first shots?

1 **A** She was in the bedroom.

2 **Q** And you said that you normally keep the
3 blinds closed?

4 **A** Yes.

5 **Q** And so when you said to or eventually
6 said, you know, hey, what did you say to her?

7 **A** I said, , someone's out here shooting,
8 someone just got killed.

9 **Q** And did she come out of the bedroom?

10 **A** Yes.

11 **Q** Or did she look out the bedroom window to
12 your knowledge?

13 **A** To my knowledge she looked out the bedroom
14 window first and then she got up and put some
15 clothes on and then came to the living room where I
16 was standing.

17 **Q** Okay. When the FBI agents came to talk to
18 you.

19 **A** Uh-huh.

20 **Q** Was sitting with you when you talked
21 to them about what you saw?

22 **A** Yes.

23 **Q** And did you hear the FBI agents talk to
24 ?

25 **A** Yes.

1 **Q** Now, did you hear told the FBI agents
2 that she saw at least a part of this incident,
3 correct?

4 **A** Yeah.

5 **Q** And is it your belief that she did not see
6 part of the incident?

7 **A** Yes.

8 **Q** Okay. Why is it that you say that?

9 **A** Because her being in the bedroom, I'm not
10 sure that she got up fast enough to see and look out
11 the window to see what was going on.

12 **Q** So by the time she came out of the bedroom
13 and came to where you were?

14 **A** By the time she came to where I was, the
15 shooting was over.

16 **Q** Okay.

17 **A** Now, I don't believe, she was still
18 sleeping when all of this was occurring, so I'm not
19 absolutely sure that she got up at a time when I
20 first called her name, that she got up and was able
21 to look out the bedroom window and see anything.

22 **Q** But you were sitting with her when you
23 heard her tell the FBI agents that she did see
24 Michael Brown get shot?

25 **A** Yes.

1 Q And, of course, you know, you're not in
2 her head, so whether she saw it or not, we have to
3 ask her that, correct?

4 **A** Uh-huh, yes.

5 Q But you were there when she told the FBI
6 agents that she did see it happen?

7 **A** Yes.

8 Q Okay. And then also do you remember when
9 the FBI agents were talking to you that you said
10 that you watched Michael Brown take a few steps and
11 then he was in the middle of the street?

12 **A** I don't recall ever saying he took two or
13 three steps.

14 Q Your memory today he never moved from the
15 time you saw him to when he went down to the ground.
16 His body obviously moved, but he didn't walk in the
17 street or anything?

18 **A** Yes.

19 Q Okay. So you don't recall telling the --
20 actually, looks like it was two men that talked to
21 you?

22 **A** Yes.

23 Q That's and ,
24 two FBI agents?

25 **A** Yes.

1 **Q** Do you recall they talked to you on
2 August 16th?

3 **A** Yes.

4 **Q** Is that the first time that you talked to
5 any officers or police?

6 **A** Yes, those were the first and only time
7 that I talked to them.

8 **Q** You don't recall telling those two agents
9 that, um, you observed Michael Brown take a few
10 steps and then he was in the middle of the street,
11 and then Brown dropped to one knee and collapsed
12 face down and he stopped advancing. When he stopped
13 advancing, the shooting stop?

14 **A** I don't recall ever telling them that he
15 took a few steps.

16 **Q** Okay.

17 MS. ALIZADEH: Sheila, do you have any
18 questions?

19 MS. WHIRLEY: Sure. At any time did you
20 talk to the St. Louis County Police Department?

21 **A** No.

22 **Q** (By Ms. Whirley) Just to the federal FBI
23 agents?

24 **A** Yes, ma'am.

25 **Q** Do you know if the St. Louis Police

1 Department tried to contact you or not?

2 **A** I have no idea.

3 **Q** You never made contact with them?

4 **A** No.

5 **Q** They never made contact with you?

6 **A** No, ma'am.

7 **Q** Okay. If was in the bedroom, is it
8 the bedroom facing west?

9 **A** Yes, the bedroom would be about here.
10 (indicating)

11 **Q** If you were in that bedroom, would you be
12 able to see what you saw?

13 **A** Yes.

14 **Q** And where were you, though, when you saw
15 it?

16 **A** I was in the living room.

17 **Q** Where is the living room?

18 **A** The living room would be about close where
19 this extends at.

20 **Q** Okay.

21 **A** Those are the steps and the living room
22 would be right about the corner.

23 **Q** So both the living room and the bedroom
24 face west?

25 **A** Yes.

1 **Q** Okay. And you said you first heard a few
2 shots and that's what brought your attention to the
3 living room?

4 **A** Yes.

5 **Q** What were you doing in the living room
6 before the shots occurred?

7 **A** Playing my video games.

8 **Q** Okay. So you were awake an everything?

9 **A** Yes.

10 **Q** You weren't taking a nap or anything like
11 that?

12 **A** No, ma'am.

13 **Q** Okay. It was your impression that
14 was sleeping --

15 **A** Sleeping.

16 **Q** -- in the bed? Hadn't even gotten dress
17 for the day?

18 **A** Not yet, no.

19 **Q** Okay. Did you all have any children?

20 **A** Yes, my son lives in the house, my
21 stepson, her son.

22 **Q** How old is he?

23 **A** He will be in December.

24 **Q** Was he home that day?

25 **A** Yes.

1 **Q** Did he see any of this?

2 **A** No.

3 **Q** Where was he when all of this was going
4 on?

5 **A** He was in the room sitting on the floor
6 watching TV.

7 **Q** Okay.

8 **A** When that happened.

9 **Q** In the same room with you?

10 **A** No, with , he was in the bedroom.

11 **Q** Okay. He was in the bedroom with ?

12 **A** Yes.

13 **Q** And was asleep and he was watching
14 TV?

15 **A** Uh-huh.

16 **Q** Did he run to hear and see what was going
17 on with the shooting?

18 **A** He only got excited after me and her got
19 excited about everything that was going on.

20 **Q** He wasn't really paying any attention?

21 **A** No.

22 **Q** Okay. So you hear the shots, you go look
23 and you see and when you see Mike Brown, did you
24 know Mike Brown?

25 **A** I didn't know him personally, no.

1 **Q** But you had seen him around?

2 **A** I seen him around the complex. He had
3 friends in the complex, I had seen him.

4 **Q** Did you know Dorian Johnson?

5 **A** No.

6 **Q** When you see him, you don't see him
7 running at any point?

8 **A** No.

9 **Q** Do you ever see him charging at the
10 officer?

11 **A** No.

12 **Q** And you said you couldn't actually see the
13 officer?

14 **A** I couldn't see the officer, no.

15 **Q** You could just see Mike Brown?

16 **A** Yes.

17 **Q** When you saw Mike Brown, he wasn't
18 running?

19 **A** No.

20 **Q** Or charging. Did you see a weapon on him?

21 **A** No, I couldn't see a weapon, no.

22 **Q** Okay. Could you see his hand?

23 **A** Yes.

24 **Q** Did it look like he was holding anything?

25 **A** No.

1 **Q** It did not?

2 **A** No.

3 **Q** All right. And when you said he fell on
4 one knee, was he like on the knee for a while or was
5 it as he was falling down, he hit a knee first?

6 **A** That's how I was trying -- as he was
7 falling down, he hit his left knee first. And then
8 the second set of shots, and then that's when he was
9 just on the ground.

10 **Q** So as he's, okay, some shots have
11 occurred?

12 **A** Uh-huh.

13 **Q** He's falling down?

14 **A** Uh-huh.

15 **Q** Kneeling, in a kneeling position, he's
16 falling down?

17 **A** Yes.

18 **Q** And then another set of shots occur?

19 **A** Yes.

20 **Q** Okay. So as he's falling down, he's
21 getting shot is what you are saying?

22 **A** Yes.

23 **Q** But you can't see who is shooting him?

24 **A** I can't see who is shooting him, no.

25 **Q** Did he appear to be in an altercation with

1 anybody at any point that you were, wait a minute,
2 let me ask the question because he's got to take us
3 one at a time.

4 **A** Okay.

5 **Q** At any point when you were watching
6 Michael Brown, or the person who was shot, which is
7 Michael Brown, did he appear to be in an altercation
8 with anyone?

9 **A** No.

10 **Q** Do you know what I mean by altercation?

11 **A** A fight or.

12 **Q** Yeah, or some type of disagreement or
13 anything?

14 **A** No.

15 **Q** You never saw anybody but him?

16 **A** Just him.

17 **Q** Okay.

18 MS. WHIRLEY: Anybody have questions?

19 MS. ALIZADEH: I just want one more
20 clarification.

21 **Q** (By Ms. Alizadeh) So, do you
22 remember telling the two FBI agents that after you
23 saw Michael Brown collapse in the street, you
24 observed a police officer approach Brown and shortly
25 thereafter, other officers arrived at the scene, do

4 Q Okay. And then do you remember telling
5 the officers that when you had looked out the
6 window, you observed Brown walking toward the
7 direction from which the police officer came?

9 Q Okay. All right.

15 **A** Between me looking out the window and him
16 hitting the ground?

18 **A** I'd say the timeframe, probably about 45
19 seconds at the most.

21 Did you
22 ever hear any yelling going on when all of this was
23 going on?

24 **A** No, because my window was, the screen
25 part, the door part was closed, I just had my blinds

1 open, but I could hear the shots, but I didn't hear
2 any yelling or anything.

3 : You couldn't hear any
4 voices or anything?

5 **A** No, sir.

6 . At the time of
7 the shooting, I know it happened very fast, did you
8 notice what the two construction workers were doing,
9 were they locked on the scene too, do you know?

10 **A** Yes, they happen to have been looking at
11 what was going on and then as they were watching,
12 they were loading up their stuff in their truck and
13 they pulled off.

14 : You think they had a clear
15 view of what?

16 **A** I'm not sure how clear their view was, but
17 they were down on the ground, probably had a better
18 view than I did.

19 MS. WHIRLEY: Show us again on the map
20 where they were?

21 **A** They were about here. Their truck was on
22 the lot, one was about here and the other one was
23 about here closer to my building. (indicating)

24 **Q** (By Ms. Whirley) Okay. And this was
25 occurring where?

1 **A** The shooting was here.

2 **Q** Okay, all right. And you think their view
3 was better than yours?

4 **A** I'm not sure, I'm not sure what they seen.

5 **Q** I'm talking about their view, not what
6 they saw?

7 **A** Yeah, I assume them being down closer than
8 I was, I thought they would see more than I would
9 have.

10 MS. WHIRLEY: Okay. I didn't know if you
11 were done.

12 : I'm done, thank you.

13 Could
14 you see Michael Brown's face when this was going on?

15 **A** At the time I couldn't see his face, no.

16 And you said you heard
17 gunshots in Canfield before, did that happen a lot?

18 **A** Um, I wouldn't say like a lot, like every
19 night.

20 Okay.

21 **A** But every so often.

22 So you were there from
23 February to August, would you say you heard it more
24 than once or twice gunshots?

25 **A** Five or six.

1 : Five or six in that eight
2 months, seven months?

3 **A** Actually, two nights before August 9th,
4 the night of August 7th there were gunshots that
5 happened right in front of my building.

6 : Do you know if those were
7 police involved gunshots?

8 **A** No.

9 : Was it with the
10 residents?

11 **A** I think those were residents.

12 : Okay.

13 **A** I was asleep when I heard the shots, the
14 shots woke me up. And so when I looked out the
15 window, there was no one there, but police officers
16 came and looking at the ground. I guess they were
17 picking up shell casings.

18 : They were investigating a
19 shooting and they weren't involved in it?

20 **A** Yes.

21 : And you said that you had
22 an obstructed view of who was shooting, but you
23 could see the field?

24 **A** Yeah.

25 : Could you see the whole

1 thing?

2 **A** No, I couldn't see the whole thing because
3 the building obstructs, but I could see part of the
4 field.

5 You said you saw a man
6 running?

7 **A** Yes.

8 Which way was he running?

9 **A** He was running this way towards the south.
10 (indicating)

11 So he was running from
12 Canfield?

13 **A** From Canfield Drive.

14 To maybe go to one of
15 these places?

16 **A** Yes.

17 Can you tell me what that
18 man looked like, can you describe him?

19 **A** I can't, I don't really have any details.

20 Okay. Like dark skin,
21 light skin?

22 **A** He was black, yes.

23 : He was black.

24 **A** Darker skin than me, I could see it.

25 : What about his hair, did

1 you see what his hair looked like?

2 **A** I couldn't see his hair.

3 : You couldn't tell if he
4 had a shaved head or dreads or whatever?

5 **A** (Shakes head.)

6 Was he short or tall do
7 you know?

8 **A** I couldn't tell you.

9 : Okay. I'm sorry, one
10 more question.

11 **A** You're fine.

12 : And it is your opinion
13 that you do not believe that saw the actual
14 shooting.

15 **A** Yes.

16 Because of when you
17 called her in?

18 **A** Yes.

19 That's it. Sorry, thank
20 you.

21 MS. ALIZADEH: I just want to clarify and
22 I'm not sure if I heard you well enough. When you
23 said you saw the man running and you described for
24 the jury the direction, did you say he was running
25 towards his house?

1 **A** No, south.

2 MS. ALIZADEH: Oh, okay. Glad I asked.

3 . Is the

4 bedroom adjacent to the living room, like can you
5 stand in the living room and see through your living
6 room?

7 **A** No, no. Like my front door is here, was
8 straight into the living room, then my living room
9 is pretty spacious and then there's a slight hallway
10 and then my bedroom goes in, so it was right next to
11 it, but there's a wall there so I can't see into the
12 bedroom from the living room.

13 : So are you saying that you
14 just assumed that wasn't up?

15 **A** Yes.

16 : Or did she tell you that
17 oh, I got up when you called me?

18 **A** I'm assuming that she wasn't, that she
19 didn't get up fast enough. I heard her get up, I
20 don't think she got up fast enough to see anything
21 that happened.

22 Did you all have a
23 conversation, you know, what was going on, while
24 everything else was happening outside?

25 **A** No, we just kind of sort of were caught in

1 the moment of what was going on and talking to
2 people and finding out what had happened. We had
3 never really had a conversation about it, no.

4 At
5 the time that you and , you say you were
6 questioned by the FBI; is that correct?

7 **A** Yes, ma'am.

8 : And the FBI also came to
9 your home; is that correct?

10 **A** Yes.

11 Was there one or two
12 officers?

13 **A** Two.

14 : At that time was your
15 testimony and testimony, even though you are
16 at home together, you were there together in the
17 same room, is that my understanding.

18 **A** Yes.

19 You could hear what
20 was saying and she could hear what you were saying,
21 is that also correct.

22 **A** Yes.

23 Was that both of your
24 testimony, was it recorded as well?

25 **A** Yes.

1 All right. I think that's
2 about all I have.

3 MS. WHIRLEY: Let me clear something up,
4 just about what said. You asked
5 about something being recorded; is that right?

6 : Yes.

7 MS. WHIRLEY: You had a recorded
8 statement?

9 **A** Yes.

10 MS. WHIRLEY: Okay, all right, go ahead.

11 MS. ALIZADEH: Let me just clarify.

12 Because, when the FBI came and talked to
13 you, it was two male officers, correct?

14 **A** Yes.

15 MS. ALIZADEH: And that was on
16 August 16th?

17 **A** Uh-huh.

18 MS. ALIZADEH: And they came to your
19 house?

20 **A** Yes.

21 MS. ALIZADEH: And was there when
22 they talked to you?

23 **A** Yes.

24 MS. ALIZADEH: When the FBI talked to
25 , it was two females officers, correct?

1 **A** Yes.

2 MS. ALIZADEH: So that was on a totally
3 separate day?

4 **A** Yes.

5 MS. ALIZADEH: Were you there will when
6 the two females officers talked to ?

7 **A** Yes.

8 MS. ALIZADEH: They didn't interview on
9 the same day?

10 **A** No.

11 MS. ALIZADEH: But you were present and
12 heard the other person make their statements?

13 **A** Yes.

14 MS. ALIZADEH: And you heard talk to
15 the female FBI agents and say she saw the shooting?

16 **A** Yes.

17 MS. ALIZADEH: And you now know that
18 says that she didn't see it?

19 **A** Yes.

20 MS. ALIZADEH: Have you talked to her
21 about that?

22 **A** Um, yes, briefly.

23 MS. ALIZADEH: Now, I'm just wondering,
24 you know, all the uproar that has happened since
25 this occurred.

1 **A** Yes.

2 MS. ALIZADEH: You still live in the
3 Canfield Apartment Complex?

4 **A** Yes.

5 MS. ALIZADEH: When you were talking to
6 the FBI agent, did you feel pressured to say things
7 that weren't true?

8 **A** No.

9 MS. ALIZADEH: Is what you told the FBI
10 agent true?

11 **A** Yes.

12 MS. ALIZADEH: To the best of your
13 recollection?

14 **A** Yes.

15 MS. ALIZADEH: And yet what told the
16 FBI agents she is now saying is not true?

17 **A** Uh-huh.

18 MS. ALIZADEH: Is that right?

19 **A** Yes.

20 MS. ALIZADEH: Since the time you were
21 interviewed by the FBI agents until you come in and
22 testify today, have you felt pressure from other
23 people to say something that you're not comfortable
24 saying?

25 **A** No.

1 MS. ALIZADEH: Okay. What about , has
2 she talked to you about feeling pressure about
3 having to come and testify about that day?

4 A Feeling pressure as far as me feeling
5 pressure or her feeling pressure?

6 MS. ALIZADEH: About her, has she told you
7 that she feels pressure?

8 A She never said that she feels pressure,
9 she sort of told me that she felt, I don't want to
10 say obligated, but so to speak in that sort of way
11 she felt that she needed to say something.

12 MS. ALIZADEH: When did you first learn
13 that really didn't see this, when did she tell
14 you that she didn't see it?

15 A A couple days ago.

16 MS. ALIZADEH: A couple days ago. Now,
17 you know that I talked to about her coming into
18 court and everything?

19 A Yes.

20 Q Is it after I contacted her and told her?

21 A Yes, yes, yes, when you contacted, that's
22 when me and her sort of had a sitdown, okay. You
23 got to go to court and that's when she kind of
24 acknowledged I really didn't, you know, I really
25 don't want to go to court because I really didn't, I

1 don't have any solid evidence of my eyewitness to
2 it.

3 MS. ALIZADEH: So when she was giving her
4 statement to the two female FBI agents and you were
5 sitting there and listening to her say that, did you
6 believe that she did see it at that time.

7 A Like I said at the time I was still having
8 my doubts because I wasn't really sure.

9 Q (By Ms. Alizadeh) But at that time she
10 didn't secretly tell you I didn't really see it,
11 but --

12 A No.

13 Q You thought that she was telling the FBI
14 agents the truth?

15 A Uh-huh.

16 Q And now she says it wasn't true, correct?

17 A Yes.

18 MS. ALIZADEH: Anything else? Okay. That
19 will conclude, needs to say something.

20 (End of the testimony of .)

21 MS. ALIZADEH: This is Kathi Alizadeh. It
22 is October 7th at 11:18 a.m. I'm present, Sheila
23 Whirley is present, as well as all 12 grand jurors
24 and the court reporter. And at this time we're
25 going to play a recorded statement for you. It is a

1 statement of that was taken or done by
2 Federal Bureau of Investigation agents and this
3 statement is contained on a disc that I have marked
4 as Grand Jury Exhibit Number 36.

5 (Deposition Exhibit Number 36
6 marked for identification.)

7 Q (By Ms. Alizadeh) It is 21 minutes and 56
8 seconds in length. I have transcripts that I can
9 pass.

10 I want to mention during the break
11 before we began recording again, the grand jurors
12 had asked if we could try to get a floor plan of the
13 apartments, and we'll look into that if that can be
14 done. Also I intend, I'm going to try to get some
15 testimony from a witness who, as you heard the last
16 witness, he said that they were interviewed at their
17 home by federal agents. So it's possible that I
18 could get one of them who has been inside the
19 apartment to maybe describe, if we don't have a
20 floor plan available.

21 And then also there was a question
22 about topography, if there was any maybe
23 topographical maps available. I don't know the
24 answer to that, but we can see if we can find some.

25 I also advised the grand jurors that

1 we have had some additional investigation done where
2 we had officers go out to the scene as recent as
3 last week and take photographs with a lens that
4 would be as close to what the human eye sees as we
5 can get.

6 In other words, it is not a zoom lens
7 or anything like that and taking photographs from
8 different vantage points because I gathered from
9 some questions that had been asked previously that
10 this might be a question that you have about, you
11 know, can somebody be in a certain place and see
12 what they are describing that they saw.

13 So I would probably call
14 to introduce those photos. And as I mentioned
15 before, if we may have a gap today with witnesses
16 who might not appear. And so is
17 standing by ready as one of my fill-in witnesses.
18 So that might be something that we can get to this
19 afternoon.

20 Also, yesterday, we had
21 talk about taking photographs of Darren Wilson's
22 face and then we also had him talk about taking
23 photographs of him taking a bullet out of the side
24 of one of the buildings.

25 And so we didn't have time for me to

1 pass those photographs to you yesterday, so at some
2 point today when we maybe have a break where there
3 is no witness available, we'll get those photographs
4 passed around and give you plenty of time to look at
5 those.

6 Is there anything else or any other
7 questions before we begin the recording?

8 All right. And at this time I'd ask
9 to pause the audio recording while we're
10 playing the statement of .
11 (Interview of is being played
12 at this time.)

13 MS. ALIZADEH: It is 11:44. We just
14 finished listening to a statement of .
15 She's here and are we okay with bringing her on and
16 getting her done so that we can break for lunch
17 after she's testified, is that all right? Okay.

18
19
20
21
22
23
24
25

1
2 of lawful age, having been first duly sworn to
3 testify the truth, the whole truth, and
4 nothing but the truth in the case aforesaid,
5 deposes and says in reply to oral
6 interrogatories, propounded as follows, to-wit:

EXAMINATION

8 BY MS. WHIRLEY:

9 Q I'm going to stand back
10 here as best I can, I need you to speak up, okay?

11 A Okay.

12 Q So that all the grand jurors can hear you.
13 Introduce yourself to the grand jurors and spell
14 your name for the court reporter, please?

15 A My name is

16

17 Q Okay. And , you know why
18 we're here today, correct?

19 A Yes.

20 Q And we're here to talk about the shooting
21 of Michael Brown?

22 A Uh-huh.

23 Q And what you know about that?

24 A Okay.

25 Q Now, you've given, how many statements

1 have you given regarding this incident?

2 **A** Two.

3 **Q** And who did you give those statements to?

4 **A** To the FBI agents.

5 **Q** Both statements were to the FBI agents?

6 **A** Yes.

7 **Q** And as far as you know, were those
8 statements recorded?

9 **A** Yes.

10 **Q** Okay. Have you ever talked to the police,
11 the St. Louis County Police about this incident?

12 **A** No.

13 **Q** Was there any reason why you didn't talk
14 to the police?

15 **A** No.

16 **Q** I mean, did you not want to talk to the
17 police?

18 **A** Huh-uh, because I had already talked to
19 the FBI agents.

20 **Q** And the first time you talked to the FBI
21 agent, well, at some point you did talk to the
22 police, didn't you, on the first day that this
23 occurred August the 9th?

24 **A** Uh-huh.

25 **Q** Do you remember when it occurred on

1 Saturday August the 9th?

2 A Yeah.

3 Q Did you talk to ?

4 A There was two.

5 Q You thought he was an FBI agent?

6 A Uh-huh.

7 Q You did talk to someone that same day that
8 it occurred?

9 A Yeah.

10 Q A few hours later?

11 A (Nods head.)

12 Q And after that, you talked to --

13 A The two ladies.

14 Q Two women FBI agents later?

15 A Uh-huh.

16 Q At your home?

17 A Yes.

18 Q And that would have been on
19 September 30th?

20 A Yes.

21 Q So a week or so ago then, right?

22 A Uh-huh.

23 Q That was very recent, most recent?

24 A Yeah.

25 Q You gave two statements, were both of

1 those statements true?

2 **A** No.

3 **Q** Okay. We'll start there.

4 **A** Okay.

5 **Q** So was one true and not the other, or were
6 they both not true? All we're looking for here is
7 the truth. We're not here to embarrass you or to
8 make you feel bad in any way, we just need the
9 truth, this is very important.

10 **A** Okay.

11 **Q** Okay.

12 **A** Um, the statement that I made, it was with
13 what my boyfriend saw. I just felt
14 like I want to be part of something and what I saw
15 was just lying, lying there at the end. I didn't
16 see what I told the FBI what I saw.

17 **Q** Okay. And then how did you know what, was
18 ?

19 **A** Uh-huh.

20 **Q** How did you know what saw?

21 **A** Cause when I was in the room, he called me
22 and let me know what was happening and by the time I
23 got to the window, everything was done. And then he
24 just told me what happened because I asked him what
25 happened.

1 **Q** Okay. So that same day before anybody
2 talked to the authorities, he told you what he saw?

3 **A** Yeah.

4 **Q** All right. And then I guess the police
5 came around to talk to people?

6 **A** Yes.

7 **Q** That same day. Did they talk to
8 before they talked to you?

9 **A** No, they talked to me first because he had
10 left.

11 **Q** Okay. He left and did what?

12 **A** He went to work.

13 **Q** About what time the he leave and go to
14 work?

15 **A** Like 7:00, 7:30.

16 **Q** Okay. So when the police, according to
17 the information we have, it would have been around
18 5:00 in the afternoon?

19 **A** Uh-huh.

20 **Q** Was he there when the police came?

21 **A** No.

22 **Q** Okay. So he had left before 5:00?

23 **A** No, he was there at 5:00.

24 **Q** Okay.

25 **A** That's when they got his body up about

1 like 5:15.

2 **Q** Okay.

3 **A** So he was still there.

4 **Q** Okay.

5 **A** And then his mom picked him up and he
6 left.

7 **Q** His mother picked him up and he left
8 around 7:00?

9 **A** Uh-huh.

10 **Q** The only reason why I'm questioning you on
11 this matter it looked like around 5:06 p.m.,
12 would have taken your statement?

13 **A** Uh-huh.

14 **Q** I'm trying to figure out was at the
15 house at that time when he took your statement?

16 **A** No.

17 **Q** So could your times be off?

18 **A** Probably.

19 **Q** Okay.

20 **A** Yeah, because he wasn't there, it was just
21 me and my son.

22 **Q** You are sure he wasn't there?

23 **A** It was just me and my son.

24 **Q** Just you and your son?

25 **A** Uh-huh.

1 **Q** So what's your son's name?

2 **A**

3 **Q** okay. So you and were there
4 and the police came?

5 **A** Yes.

6 **Q** Did you go to them and say, hey, I know
7 something, did you walk out?

8 **A** They were going door to door.

9 **Q** They were canvassing, going door to door?

10 **A** Yes.

11 **Q** When they came to you, tell us how that
12 went down?

13 **A** They asked me did I see anything? And I
14 told them, yes. And then he gave me what I could
15 write all the stuff and also so he can record what I
16 saw.

17 **Q** Okay.

18 **A** And he recorded it and then he left.

19 **Q** Okay. And you were telling him what you
20 had told, what had told you happened?

21 **A** Yes, yes.

22 **Q** Okay. So then there was another occasion,
23 well, first of all before I move on, I want to make
24 clear what you did see.

25 **A** Uh-huh.

1 **Q** So at what point did you go and see
2 anything that day?

3 **A** I was, when I first heard the shots, I was
4 in the room laying down, me and my son. And we just
5 thought it was construction people, they was cutting
6 down our trees and stuff.

7 And then when yelled that
8 somebody get shot, and so I'm putting on my clothes.
9 And by the time I get to the living room and look
10 out the window, he was already on the ground.

11 **Q** He was already on the ground?

12 **A** Uh-huh.

13 **Q** Did you see any police officers or
14 anything?

15 **A** Not at that moment.

16 **Q** You just saw him on the ground?

17 **A** On the ground.

18 **Q** Was he moving on the ground?

19 **A** (Shakes head.)

20 **Q** Did you keep looking out the window?

21 **A** Yes.

22 **Q** And this little pen here, see how it
23 works? You push that button there. Show us where
24 you were looking, what apartment you were at when
25 you were looking out the window, can you tell from

1 this map?

2 **A** This is my street.

3 **Q** You live on Canfield Drive?

4 **A** Court.

5 **Q** Canfield Court. Point at it with the
6 little pointer, that's fine.

7 **A** Mine is right there. (indicating)

8 **Q** This is you. So you were looking --

9 **A** I'm looking out my balcony to the street.

10 **Q** Where did you see the body laying?

11 **A** Like right here. (indicating)

12 **Q** Okay.

13 **A** Right there. That's my driveway, it was
14 driveway it is right there. (indicating)

15 **Q** Okay. And so you just saw the body
16 laying?

17 **A** Uh-huh.

18 **Q** At some point did you see the police
19 arrive or show up?

20 **A** Yes. There was like three officers that
21 just came. About that time there was people rushing
22 outside and everything.

23 **Q** Was it when you saw the body lying there,
24 you didn't know how long Michael Brown had been
25 laying there?

1 **A** No.

2 **Q** Because you didn't see him when he fell or
3 anything?

4 **A** No.

5 **Q** You didn't see him with his hands up or
6 anything?

7 **A** No.

8 **Q** And you already told us, I don't want to
9 say what you said, I'm going to have to ask you one
10 more time, I want to be real clear. When the police
11 came that first time you told them that you saw, but
12 you really didn't, why did you do that?

13 **A** I just wanted to be a part of something
14 and tell them what my boyfriend said because he
15 wasn't there.

16 **Q** Okay.

17 **A** I didn't know if they was going to come
18 back and try to talk to him, I just wanted his story
19 to be out there.

20 **Q** Okay. And you made his story your story?

21 **A** Yeah.

22 **Q** You didn't tell the police, though, that
23 this is what my boyfriend said he saw?

24 **A** No.

25 **Q** Did you give them his name to come back

1 and talk to him?

2 **A** Uh-huh.

3 **Q** Okay. Did you realize when you were
4 contacted by the FBI, what did you think then when
5 they wanted you to tell them what happened, and that
6 would have been, before I move on, this was
7 September 30th?

8 **A** I was nervous. I didn't want to say
9 nothing because I knew I really didn't see it, but
10 then one of the ladies was like, I might as well
11 just tell them and let them know what happened
12 because they want to hear it. So I'm like okay, I
13 might as well just keep telling them what I saw,
14 what saw.

15 **Q** You didn't tell them that's what
16 saw?

17 **A** No.

18 **Q** Has anyone threatened you or made you come
19 here and say that you didn't see it when you really
20 did?

21 **A** No.

22 **Q** Okay. Has anyone coerced you, you know
23 what I mean by coerced, promised you something or
24 said that they're going to do something to somebody
25 in your family if you don't come here and say what

1 you said?

2 **A** No.

3 **Q** Before?

4 **A** No.

5 **Q** So it's the absolute truth that you did
6 not see it?

7 **A** Yeah.

8 MS. WHIRLEY: Questions?

9 MS. ALIZADEH: I have a few.

10 **Q** (By Ms. Alizadeh) , on the day
11 that this happened, just a few hours afterwards,
12 Detective came and knocked on your door and
13 said, did you see what happened, anything that
14 happened today? You didn't say, I didn't, but my
15 boyfriend did. You said, I saw it?

16 **A** Yes.

17 **Q** And so then he said, would you mind
18 telling us what you saw?

19 **A** Yes.

20 **Q** You are saying you just repeated what your
21 boyfriend had you happened?

22 **A** Yes.

23 **Q** Did you guys go through that in detail
24 before he left for work to make sure you knew the
25 story?

1 **A** No, he just let me know what happened,
2 when he saw the shots being fired.

3 **Q** Did you discuss the position of his arms,
4 or how many gunshots there were or anything like
5 that?

6 **A** No, I could hear the gunshots, but I
7 couldn't see them like entering his body, I just
8 heard them.

9 **Q** I'm sorry, did you and , though,
10 discuss like the positioning of his arms?

11 **A** No, he just told me he had his arms up.

12 **Q** He didn't tell you that he was grabbing at
13 his side?

14 **A** Yeah, he told me everything that he saw
15 from the side. From him kneeling, falling,
16 everything.

17 **Q** Okay. So did know then on that day
18 that it happened, did he know that you didn't see
19 it?

20 **A** No.

21 **Q** Okay. And so several weeks go past and
22 you know that the FBI and the Department of Justice
23 and there are a bunch of people that are trying to
24 get ahold of you because they want to talk to you?

25 **A** Uh-huh.

1 **Q** And you knew that, right?

2 **A** Yes.

3 **Q** And you said you didn't want to talk to
4 them?

5 **A** No.

6 **Q** And then, but at some point these FBI
7 women came to your house, correct?

8 **A** Yes.

9 **Q** Now, did they have a warrant for your
10 arrest?

11 **A** No.

12 **Q** Did they threaten you in any way?

13 **A** No.

14 **Q** Were they nice?

15 **A** Yes.

16 **Q** I mean, I've met them, they seem like nice
17 ladies, right?

18 **A** Uh-huh, yes.

19 **Q** And was home when they were there?

20 **A** Yeah.

21 **Q** So he was there when they were talking to
22 you, correct?

23 **A** Yeah.

24 **Q** And this is now several weeks later, you
25 don't take the opportunity to go, well, I really

1 didn't see it, but my boyfriend did. He can
2 tell you what happened, but you didn't do that?

3 **A** No.

4 **Q** Before you talked to those ladies, they
5 told you, didn't they, if you lie to a federal
6 agent, it is a crime?

7 **A** Yes.

8 **Q** And you know that, right?

9 **A** Yes.

10 **Q** And when I called you, I called you last
11 week about coming in and testifying, correct?

12 **A** Uh-huh.

13 **Q** And you said okay. We made arrangements
14 for you to come in and then you had to reschedule,
15 right?

16 **A** Yes.

17 **Q** You never told me on the phone, well, you
18 know what, I didn't really see anything, right?

19 **A** Uh-huh, yes.

20 **Q** And so this morning you and came
21 here and you had an attorney with you?

22 **A** Yes.

23 **Q** All right. Your attorney advised me that
24 you were going to take the Fifth, in other words,
25 you were going to invoke your right to incriminate

1 yourself?

2 **A** Yes.

3 **Q** And you had discussions with your attorney
4 about your, he gave you advice and you talked to
5 him. I'm not asking you what you said to him or
6 what your conversation was, but at the conclusion of
7 that you decided that's what you were going to do,
8 right?

9 **A** Yes.

10 **Q** And then at some point you were aware that
11 I had gotten ahold of the Department of Justice and
12 that the Department of Justice said they would give
13 you immunity?

14 **A** Yes.

15 **Q** In other words, if you testified today
16 truthfully, they're not going to charge you or try
17 to prosecute you for any charges that may involve
18 giving a false statement to a federal agent, you
19 understand that?

20 **A** Yes.

21 **Q** Okay. So you are testifying here today
22 based upon the promise by the Department of Justice
23 that they wouldn't, they're not going to prosecute
24 you for that?

25 **A** Yes.

1 **Q** And I talked to you before you came in
2 here today and didn't I tell you that look, it is
3 not a crime per se to lie to a state official, we
4 don't, I told you I wasn't concerned about that, I
5 just wanted you to say what was truthful?

6 **A** Uh-huh.

7 **Q** Is that what you're doing today?

8 **A** Yes.

9 **Q** I know Miss Whirley asked you questions
10 about anybody threatening you or pressuring you and
11 you said no; is that right.

12 **A** Yes, that's correct.

13 **Q** And that includes , correct?

14 **A** Yes.

15 **Q** Did pressure you into saying, hey,
16 you've got to say what I said happened?

17 **A** No.

18 **Q** You still live in Canfield Green, correct?

19 **A** Yes.

20 **Q** And you know that there's been a lot of
21 tension, have you felt the tension?

22 **A** Yes.

23 **Q** You're aware that there's a lot of tension
24 and especially focused right in your neighborhood,
25 correct?

1 **A** Yes.

2 **Q** Do you feel pressure, whether or not
3 anybody came flat out that was threatening. I'm not
4 asking you that because you said no, I'm asking did
5 you feel pressure to lie to the federal agents or do
6 you feel pressure to come in here today and say that
7 you didn't see it when in fact you did?

8 **A** No.

9 **Q** Okay. So you're saying the reason you
10 lied to the federal agents is that you just kind of
11 thought you wanted to be part of it?

12 **A** Yes.

13 **Q** And that feeling was still continuing when
14 let me ask you this when the federal agents were
15 trying to get you to come in and talk to them, how
16 come you didn't talk to them then if you still
17 wanted to feel like you were a part of it?

18 **A** Cause I knew that I was lying and I didn't
19 want to talk to nobody at all.

20 **Q** But you know then when they came to your
21 house, that was your opportunity to say, you know, I
22 don't want, I know it is a crime to lie to a federal
23 agent, and I don't want to get myself in trouble. I
24 just want to get, you know what, I don't want to
25 lie, I'm going to tell you right now, I didn't

1 really see it. You didn't do that?

2 **A** No, I was going to come in Monday to talk
3 to you and that's when I was going to let you know.
4 And then I had told that I didn't really see
5 nothing and that's when he called the lawyer.

6 **Q** Okay. Do you believe me when I told you
7 before you came in here that Miss Whirley and I, all
8 we care about is that we get to the truth.

9 **A** Yes.

10 **Q** I'm not on anybody's side one way or the
11 other. I told you we want witnesses to give
12 truthful testimony regardless of what that testimony
13 is, it just has to be the truth.

14 **A** Uh-huh.

15 **Q** Are you saying that your testimony today
16 is truthful?

17 **A** Yes.

18 **Q** Anything else you want to add or --

19 **A** No.

20 **Q** -- or state now that you want to get off
21 your chest or anything before we're done here?

22 **A** No, I just wanted to be a part of it, I
23 just wanted them to hear what he saw because he
24 wasn't there to let them know, that was it.

25 **Q** Well, you know that two federal agents

1 came out and talked to him in August?

2 **A** Yeah.

3 **Q** So he had already given his statement too?

4 **A** I didn't know they was going to come back
5 and talk to me.

6 **Q** Do you know anyone else in your community
7 in the same spot that you found yourself in. In
8 other words, that they maybe said something that
9 they knew wasn't truthful, but they said it because
10 either they wanted to be a part of something, or
11 that they felt like they were pressured or they just
12 wanted to go along with what everybody else was
13 saying?

14 **A** No.

15 **Q** Have you talked to the neighbors in your
16 complex?

17 **A** Yes.

18 **Q** Do you know anybody else who claims to
19 have seen this?

20 **A** No.

21 **Q** So you've not had any conversations with
22 somebody who said, yeah, I was looking out my window
23 too, I saw it?

24 **A** No.

25 **Q** So you don't know if there are people out

1 there who are saying that they saw it, but in fact,
2 didn't see it?

3 **A** No, I don't.

4 **Q** Okay.

5 MS. ALIZADEH: I'm done.

6 MS. WHIRLEY: Questions?

7 (Lunch recess)

8 MS. ALIZADEH: All right. Good afternoon.

9 It is October 7th, it is 1:46 p.m. I'm Kathi
10 Alizadeh, present also is Sheila Whirley with the
11 prosecutor's office, all 12 grand jurors are also
12 present, as wells as the court reporter who is
13 taking down what's transpiring in the room and also
14 he is doing an audio recording to record what's
15 being said.

16 And so the first witness we're going to
17 have for this afternoon is . And he
18 is a chemist with the s St. Louis County Police
19 Department Crime Laboratory. Could you stand up,
20 please?

21 Do you go by , you're not a
22 detective or police officer, correct?

23 THE WITNESS: No, is fine.

24

25

1
2 of lawful age, having been first duly sworn to
3 testify the truth, the whole truth, and
4 nothing but the truth in the case aforesaid,
5 deposes and says in reply to oral
6 interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

9 Q Could you state your name and spell it for
10 the court reporter, please?

A

13 Q Can I call you ?

A Sure.

15 Q And, , where do you work?

A The St. Louis County Police Crime Lab.

17 Q What do you do for the crime lab?

A I'm a drug chemist.

19 Q And so what is your educational background
20 that qualifies you to be a drug chemist with the
21 crime laboratory?

22 A I have a bachelor of science degree in bio
23 medical sciences from formerly known as Southwest
24 Missouri State University.

25 Q And when did you receive that?

1 **A** In May of 1999.

2 **Q** All right. And then did you have any
3 other postgraduate work?

4 **A** No.

5 **Q** And so after you graduated from Missouri
6 State, is it Missouri State?

7 **A** It is now Missouri State University.

8 **Q** Okay. That's in Springfield?

9 **A** Correct.

10 **Q** And then after you graduated, did you have
11 any employment other than working for the St. Louis
12 County Crime Laboratory?

13 **A** Yes, I did.

14 **Q** Where did you work?

15 **A** Missouri State Highway Patrol Crime
16 Lab.

17 **Q** And so were you a chemist with the
18 Missouri State Highway Patrol Crime Lab?

19 **A** Yes, our official title is criminalist.

20 **Q** Did you do work that was in your field of
21 chemistry?

22 **A** Yes, I did.

23 **Q** And did you, how long were you with the
24 Highway Patrol Crime Lab?

25 **A** Thirteen years.

1 **Q** And after that, where were you employed?

2 **A** Then I started with the St. Louis County
3 Police Crime Lab.

4 **Q** How many years have you been with the St.
5 Louis County Crime Lab?

6 **A** One and a half years.

7 **Q** And so do you work as a chemist or a
8 criminalist, but you do work in chemistry and
9 analysis and chemical compounds for the crime
10 laboratory?

11 **A** Correct.

12 **Q** Are you a certified or post-certified
13 police officer?

14 **A** No.

15 **Q** Have you ever been a police officer?

16 **A** No.

17 **Q** Do you have any training as a police
18 officer?

19 **A** No.

20 **Q** Do you have any certifications or any
21 other, are there any other requirements that you
22 received or passed in order to work in the chemistry
23 county crime lab?

24 **A** The county and the Missouri State Highway
25 Patrol Crime Lab as well are accredited, so I work

1 under an accreditation.

2 Q All right. And so what, without sounding
3 too obvious or moronic I would say, could you
4 describe what chemistry is, the field of forensic
5 chemistry?

6 A Forensic chemistry is in the drug
7 chemistry, we generally it's powders, liquids,
8 residues, plant material, pharmaceuticals, that we
9 analyze and determine if they have controlled
10 substances in them or not.

11 Q What about other types of things like, for
12 example, poisons, would you analyze a liquid to
13 determine if it had any kind of poisonous material?

14 A Not me, no.

15 Q So if say there was a substance that might
16 be seized in a criminal investigation and it was
17 suspicious that it was arsonic, is that something
18 that you would examine and test?

19 A Not me.

20 Q Okay. So your field is strictly regarding
21 the examination and testing of substances to
22 determine whether or not they have contained
23 controlled substances?

24 A Correct.

25 Q And controlled substances are drugs?

1 **A** Yes, ma'am.

2 **Q** Okay. And then everything from
3 prescription drugs to marijuana, to street drugs; is
4 that right?

5 **A** Yes.

6 **Q** And so did you receive an evidence item in
7 order for you to examine in relation to a St. Louis
8 County investigation that is hopefully, or will be
9 documented under Report Number 2014-43984?

10 **A** Yes.

11 **Q** What was it that you received to analyze.

12 **A** I received a bag that actually I believe
13 was in a plastic container and then a plastic bag
14 containing a plant material substance.

15 **Q** Okay. In general now, let's talk about
16 how you get evidence items. How is it that they
17 come to you?

18 **A** They are submitted, in this case since
19 this is, this is submitted as a county, St. Louis
20 County case. So it goes through property control
21 division and then property control brings it up to
22 the crime lab.

23 So it gets entered into the computer,
24 the evidence is then placed into a vault and then --

25 **Q** A vault in the crime lab?

1 **A** Yeah.

2 **Q** Okay.

3 **A** And actually, that's normal procedure.

4 This one, I remember that it went through one of my
5 co-workers. He was getting ready to work the case
6 and I asked him, oh, what do you got there? And he
7 goes, well, this is a case that needs to be worked,
8 a rush case, do you want to do it? And he asked the
9 supervisor, I said, that's fine, I can rush this
10 case.

11 And he said, let me call the
12 supervisor and the supervisor said yeah, if
13 wants to do the case, that's fine, so I did it.

14 **Q** Now, when you began as a chemist or
15 forensic chemist with the County Crime Laboratory,
16 was there like an on-the-job training period or
17 probationary period?

18 **A** Yes.

19 **Q** And how long did that last?

20 **A** Normally it would last six months and
21 probation is one year, but since I had training
22 through the Highway Patrol, it really was about two
23 months here.

24 **Q** Okay. And so you were as qualified to
25 examine this evidence item as any other forensic

1 chemist in the lab; is that fair to say?

2 **A** Yes.

3 **Q** It wasn't like this was your first time
4 doing this?

5 **A** No, not at all.

6 **Q** Okay. And so when this came in though, it
7 was described or it was explained to you that this
8 was something that they needed to have tested ASAP?

9 **A** Yes.

10 **Q** When you said it was rush, did you mean
11 rush the test or just that it needed?

12 **A** We call them rush cases if it needs to be
13 worked quickly.

14 **Q** Okay. But did you rush the test, in other
15 words, did you go through the testing process faster
16 than normal?

17 **A** No, I have my own pace.

18 **Q** Okay. So you have a wait for testing
19 substances, isn't that fair to say?

20 **A** Yes.

21 **Q** It can be in the normal scheme of things
22 it could be several weeks or even months before an
23 evidence item that a police department brings in?

24 **A** Yes. We have a backlog so, by meaning
25 rush, we were putting this case ahead of other cases

1 that are waiting.

2 Q Okay. All right. Did you have, when you
3 examined or brought out the evidence that was
4 submitted to you, did it have an evidence sheet with
5 the evidence?

6 A Yes, it did.

7 Q Okay. So when you, do you have a copy of
8 that with you?

9 A Yes, I do.

10 Q The evidence receipt, we have heard a
11 little testimony from Detective and Detective
12 , who are crime scene investigators, about how
13 they fill out an evidence receipt or an evidence
14 sheet when they seize something. And they've
15 described the chain of custody that must be
16 completed on the bottom of the sheet.

17 So looking at the copy of the
18 evidence receipt that you had with this evidence
19 item, can you tell from there where this was seized
20 from?

21 A Oh, it says that, well, it says who the
22 officer is and the department, St. Louis County PD.

23 Q Okay. The officer who seized the
24 evidence, does it give his name?

25 A Yes, it does.

1 **Q** And who was he?

2 **A** Darren Wilson.

3 **Q** So Darren Wilson, actually, let me direct
4 you, Darren Wilson is originally listed as the
5 victim in this case, correct?

6 **A** Yes.

7 **Q** And then there is a Detective who
8 is actually , a different person?

9 **A** Oh, okay, I learned something new.

10 **Q** There is a bit of confusion with the two
11 ?

12 **A** Okay.

13 **Q** It says here location, seized and found.
14 What is the location of where it was seized or
15 found?

16 **A** St. Louis County Morgue.

17 **Q** And it gives the address 6059 North
18 Hanley, where presumably that's where the morgue is?

19 **A** I assume that's what it list.

20 **Q** What was the date that it was seized?

21 **A** On August 10th, 2014.

22 **Q** Who was the seizing officer?

23 **A** Detective .

24 **Q** Do you know ?

25 **A** No.

1 **Q** Don't know him?

2 **A** No.

3 **Q** So the remarks on the evidence receipt
4 says that the evidence was sent to Property Control?

5 **A** Yes.

6 **Q** And that's kind of the procedure that you
7 described, isn't it?

8 **A** Yes.

9 **Q** When a county officer seizes something and
10 packages it, it first goes to Property Control,
11 correct?

12 **A** Correct.

13 **Q** And then there will be signatures on the
14 chain of custody that show really whose hands this
15 item passes through, correct?

16 **A** Correct.

17 **Q** Do you know Officer ?

18 **A** Yes.

19 **Q** Is he an officer in Property Control?

20 **A** Yes, he is.

21 **Q** Okay. So his receipt that accompanied the
22 evidence shows that at some point it was dropped off
23 to the St. Louis County Crime Laboratory in their
24 vault, correct?

25 **A** It doesn't look that it ever hit the

1 vault, it looks like it went from Detective to
2 another person that works in property control and
3 then it went to another drug analysis it and that's
4 when I took it from the drug analyst.

5 Q From Detective in Property Control,
6 it then went to another officer in Property Control
7 and from there it went to another analyst, drug
8 analyst?

9 A Yes.

10 Q Who is that?

11 A .

12 Q Is the person you said, hey,
13 what are you working on?

14 A Yes.

15 Q So from him signing it the evidence
16 receipt, then it came to be in your possession,
17 correct?

18 A Yes.

19 Q When it came to be in your possession or
20 any time you get an evidence item submitted, do you
21 examine the packaging to determine if there is any
22 evidence that has been tampered with?

23 A Yes, if it looks like it has been
24 tampered, make note of it and make some
25 documentation.

1 **Q** So in this case had you suspected or had
2 you noticed on the packaging that there, for
3 example, that the evidence tape appeared to have
4 been cut open or that there was something odd about
5 the way the evidence was packaged that we might
6 suspect that it was tampered with, would you have
7 noted that in your report?

8 **A** I wouldn't note as if, like if there's a
9 piece of evidence from the officer and then maybe
10 they had to go back in and reopen somewhere else,
11 no, I don't note that.

12 If there was an opening to where it
13 looks like the evidence could get out of the
14 container somehow, or to where somebody could put
15 something in, yes, that would definitely be noted.

16 **Q** Okay. And did you note anything of that
17 nature in this case? Was there anything that
18 appeared to you that the actual evidence would have
19 been tampered with?

20 **A** No, no note of that.

21 **Q** All right. And so after you received
22 this, let me ask you this, what day did you receive
23 this evidence item?

24 **A** Um, on August 11th of 2014.

25 **Q** And so after you received it and you said

1 it was in a plastic container, a baggy in a plastic
2 container, I can't remember if you said that in here
3 or you said that out there when we were talking?

4 **A** In here. So in my report it says one
5 knotted clear plastic bag containing green
6 vegetation. I have a note here that says, specimen
7 Q1, full description above all contained inside
8 sealed plastic container.

9 **Q** Okay. And that's how it appeared to you
10 when you first got it; is that right?

11 **A** There would also be the outer container as
12 well, which would be the manila envelope that it was
13 in.

14 **Q** Once you open the envelope, that's what
15 you saw a sealed plastic container?

16 **A** Yes.

17 **Q** Is the sealed plastic container the kind
18 of container that crime scene detectives use to put
19 things in when they are packaging them?

20 **A** It is what it appeared to me.

21 **Q** Okay. And then did you test the substance
22 that was in that baggy?

23 **A** Yes, I did.

24 **Q** And did you make a report regarding your
25 findings?

1 **A** Yes, I did.

2 (Deposition Exhibit Number 37
3 marked for identification.)

4 **Q** (By Ms. Alizadeh) I'm going to hand you
5 what I've marked as Grand Jury Exhibit Number 37.
6 Is that a copy of report that you made in this case?

7 **A** Yes, it is.

8 **Q** Okay. I'm going to pass around copies of
9 Grand Jury Exhibit 37.

10 So, , you list a description on
11 your report, is that what you mentioned earlier, one
12 knotted clear plastic baggy containing green
13 vegetation?

14 **A** Yes.

15 **Q** Now, having been a chemist for over 11
16 years at this point, did that substance appear to be
17 familiar to you?

18 **A** Yes.

19 **Q** What did it look like?

20 **A** It looked like marijuana.

21 **Q** Was there anything odd about it that you
22 thought this was not your typical marijuana?

23 **A** No.

24 **Q** All right. And so what's the first thing
25 you do after you receive this knotted plastic baggy,

1 what do you do next?

2 **A** I weigh the substance.

3 **Q** Do you weigh it in the baggy or remove it
4 from the baggy?

5 **A** I remove it from the baggy.

6 **Q** And so when you weigh it, you weigh it on
7 a digital scale?

8 **A** Yes.

9 **Q** And are those scales calibrated on a
10 regular basis to insure their accuracy?

11 **A** They're calibrate once a year, they're
12 checked weekly.

13 **Q** Okay.

14 **A** They're checked with certified weights.

15 **Q** So when you weighed the substance that was
16 in the baggy, could you remove all the substance in
17 the baggy, every little leaf and every little --

18 **A** As much as I can get out of the bag.

19 **Q** And according to your report, you had a
20 weight of 1.589 grams?

21 **A** Correct.

22 **Q** Can you describe for me maybe using some
23 kind of familiar object, is this smaller than a
24 baseball?

25 **A** Yes, a little bit smaller than a baseball.

1 Not much, though.

2 **Q** After you weigh the amount of the
3 marijuana and I see down here in your remarks there
4 is a remark that you include about uncertainty of
5 measurement. Do you all see that in the, close to
6 the bottom? What does that mean, the established
7 uncertainty of measurement due to balance utilized,
8 what does that mean?

9 **A** We take into consideration any kind of
10 factor that could make the weight slightly different
11 than the 1.589. We take into consideration things
12 such as the readability of the scale, the linearity
13 of the scale, the stability of the scale, the
14 sensitivity.

15 And so what we do is over a course of
16 time we will analyze, we will take our weights that
17 we normally have with our certified weights. And we
18 will record, for example, you have a 1 gram weight
19 and our scale reads out to 1.000. If you get a one
20 point 1.001, and during your checking we write down
21 1.001, then that is documented.

22 Anything that's different than what
23 the actual weight is, that's considered, there is a
24 standard deviation involved. Calculating that and
25 then you find that we come up with this 1.008 for

1 this balance is the most that that scale would ever
2 be off.

3 So basically what we are saying here
4 with this K factor of three, we're saying that 997
5 times out of 1,000, this weight here of 1.589 will
6 be right at 1.589 997 times out of a thousand.

7 Three of those times it might be
8 1.589?

9 Q And it could be .0008?

10 A Correct.

11 Q And that's important especially in cases
12 with marijuana and other drugs when there might be a
13 criminal legal implication depending on the weight
14 of the substance?

15 A I would like to go back about that weight,
16 just to make sure that we're clear on that.

17 It's possible that those three out of
18 the thousand times could be outside the .008.

19 Q Okay.

20 A I think I did missay that. Basically
21 statistics are involved, and we're 95 percent
22 confident that 99.7 percent of this will be within
23 the .008 of that weight.

24 Q Okay. And in this case, I mean, you know,
25 maybe you don't know, I'll tell you the

1 circumstances of how much this substance weighed is
2 really not important or crucial, this isn't a
3 scenario where we need to have over 35 grams to
4 charge a certain level of offense.

5 So let me also ask you, when you
6 removed the green vegetation from the baggy, did it
7 appear that it was dry?

8 **A** Yes.

9 **Q** It wasn't wet or moist or sticky?

10 **A** Not that I recall.

11 **Q** And so then after you've waited, what do
12 you do next?

13 **A** Then I perform a microscopic examination
14 in that we look for characteristic hairs. I look
15 for cystolith and silicotic hairs.

16 **Q** Say that again, you look for what?

17 **A** Cystolith.

18 **Q** Can you spell that for the court reporter?

19 **A** C-Y-S-T-O-L-I-T-H, and silicotic hairs, I
20 believe that's S-I-L-I-C-O-T-I-C.

21 **Q** Okay. What are these things that you are
22 talking about?

23 **A** So cystolith hair, it looks like a bear
24 claw shape, tiny bear claw shape hair. It is
25 characteristics to marijuana plants.

1 **Q** Okay. And the other thing that you are
2 looking for, what is that?

3 **A** Silicotic, they are more slender like
4 hair. You may find that more on other substances,
5 but knowing that's also on a marijuana plant. It is
6 not as confirming as a cystolith hair.

7 **Q** So you are saying hair?

8 **A** Hair.

9 **Q** But it is not like animal hair or human
10 hair?

11 **A** It is a plant hair, it is a cell.

12 **Q** Okay?

13 **A** A cell, it comes out of the surface of the
14 plant. It is plant cellular material.

15 **Q** So this thing that you are looking at in a
16 microscope is, in fact, marijuana, you would expect
17 to see those things?

18 **A** Yes.

19 **Q** Did you see them in this case?

20 **A** Yes, I did.

21 **Q** Do you do any further testing?

22 **A** I do a modified Duquenois-Levine test.

23 **Q** Can you spell that for the court reporter?

24 **A** Modified?

25 **Q** Well, he can spell modified, what's the

1 other word?

2 **A** Duquenois, D-U-Q-U-O-N-I-S -- E-N-O-I-S,
3 I'm sorry. Levine, L-E-V-I-N-E.

4 **Q** What is that test?

5 **A** That's a chemical color test. That test
6 for cannabinoids and it will turn purple with the
7 presence of marijuana.

8 **Q** And did it turn purple when, is it like a
9 reagent that you apply to the plant material?

10 **A** Yes, and it did turn purple.

11 **Q** Is that a presumptive test?

12 **A** Yes.

13 **Q** And do you do any confirmative testing
14 after you've done that test?

15 **A** No, it confirms marijuana when you use the
16 two test together.

17 **Q** Okay. So the microscopic examination
18 which you saw the two hairs that you suspect
19 marijuana and then the color test being positive,
20 you conclude that this is marijuana; is that
21 correct?

22 **A** Yes.

23 **Q** Now, , what is THC.

24 **A** Tetrahydrocannabinol.

25 **Q** Is that the active ingredient in marijuana

1 that makes people, that it alters their, I don't
2 know, whatever it does to you?

3 **A** Euphoria.

4 **Q** Euphoria?

5 **A** Yes, psychoactive.

6 **Q** Okay, that's a good word, psychoactive.
7 So do you test when you have like what you suspect
8 to be marijuana, do you ever test it to determine
9 how much THC is in this marijuana that you are
10 looking at?

11 **A** No, I do not.

12 **Q** All right. Do different samples, to your
13 knowledge, different samples or different types of
14 marijuana have different levels of THC?

15 **A** I would expect. I've never done one on
16 marijuana.

17 **Q** You hear people talking about, oh,
18 marijuana now is so much more stronger than it was
19 back when we were teenagers or whatever. I don't
20 know because I'm not an expert on that, so you
21 believe that it is possible that different marijuana
22 has different THC levels?

23 **A** I believe it is.

24 **Q** Are you familiar with a process that's
25 done called waxing?

1 **A** Yes, waxing is the same as butane hunting
2 oil. Do you want me to describe that?

3 **Q** Yes.

4 **A** Okay. So what happens in this scenario is
5 someone takes the plant material and they will --

6 **Q** So when you say plant material, it is
7 marijuana?

8 **A** Marijuana.

9 **Q** You can't do this with your lawn
10 clippings?

11 **A** No.

12 **Q** I guess you could.

13 **A** You could, but you probably won't get THC.

14 **Q** All right. So we've got some marijuana.

15 **A** Yeah, you take marijuana. It is usually
16 in like a cylinder that has a hole in the top, a
17 hole in the bottom. They will take butane, which is
18 a liquid solvent.

19 **Q** Is this just common butane that you can
20 get like at the hardware store?

21 **A** Yes.

22 **Q** Stuff you put in your lighters, the old
23 fashion lighters that you had to put butane in?

24 **A** Yes.

25 **Q** Can you get the same butane out of like a

1 Bic disposable lighters?

2 **A** Yeah, I would assume so, yeah.

3 **Q** Okay, all right, go ahead.

4 **A** So basically as it goes over the plant,
5 gravity takes effect and it will absorb the resinous
6 material, which is concentrated with the THC that
7 will go out the exit hole and into a pan. So you
8 have a nice little surface area there and they let
9 that evaporate off and then you're left with a very
10 sticky substance, which that is high THC content.

11 MS. WHIRLEY: Which is what the last thing
12 you said about THC.

13 **A** Which has a high THC content.

14 **Q** (By Ms. Alizadeh) That's sticky substance,
15 is it a combination of the butane and the THC that's
16 been extracted from the marijuana?

17 **A** At first until butane evaporates off.

18 **Q** Will the butane evaporate off?

19 **A** Yes.

20 **Q** And so is what your left with almost pure
21 THC?

22 **A** I don't know for sure. I haven't done
23 like a quant on that.

24 **Q** But it is higher concentration than it
25 would be in the plant itself?

1 **A** Yes, definitely.

2 **Q** So if you're going to ingest, you know,
3 smoke a marijuana joint, if you consume the same
4 amount in that sticky substance, it would be way
5 more THC than what was in that joint?

6 **A** You have taken the volume of plant
7 material, let's say, the size of this paper and you
8 are condensing it down to, you are taking the
9 cannabinoids and you are condensing it down without
10 the plant material matrix and all those steps.

11 **Q** Okay. This process that you talked about,
12 is this something like anybody could do if they have
13 the marijuana and then the right materials?

14 **A** Sure.

15 **Q** And then why do people do this process?

16 **A** I'm not really sure.

17 **Q** Okay. If someone, do you know how they
18 then will consume or ingest the sticky substance
19 that they've gotten?

20 **A** This is pure assumption, but I assume it
21 is just like marijuana, marijuana is commonly smoked
22 and marijuana can be ingested. And there are also
23 those food items that contain marijuana that they
24 come from Colorado and so forth.

25 Maybe they're finding ways of using

1 the butane hunting oil to put it in those substances
2 so it doesn't look like there is plant material in
3 there.

4 I've also heard of lollipops that
5 have THC on them. I would assume it would have to
6 come from butane hunting oil, not marijuana. They
7 can't put the marijuana plant in lollipops.

8 Q So you've heard of people consuming or
9 ingesting this, you are calling it hunting oil?

10 A Butane hunting oil.

11 Q Butane hunting oil. You have heard of
12 people ingesting that, correct?

13 A Heard of it.

14 Q If one were to ingest that, you would be
15 consuming a higher level of THC than you would if
16 you were to have smoked or ingested the plant
17 material?

18 A Yes, you would.

19 MS. ALIZADEH: I don't have anything else.

20 MS. WHIRLEY: I don't have anything.

21 If
22 someone is containing the substance that you
23 examined, which was the marijuana, would there be
24 like some type of detection that you could tell that
25 they're on marijuana or using marijuana or would

1 there be like a scent or something like coming from
2 their body, within their skin. You know how you can
3 tell a person is smoking because it is in their skin
4 cells, but could you detect that?

5 **A** This is getting out of my expertise, but I
6 have heard that officers are trained to, they know
7 what the smell of marijuana, I've been around
8 marijuana. I know the smell of marijuana myself.

9 As far as what to look for on a
10 person, I mean, I've heard of like bloodshot eyes, I
11 haven't heard anything about the skin, there
12 probably is, there are probably some things out
13 there.

14 MS. ALIZADEH: And just so you all know,
15 obviously, we've talked about the fact that there is
16 going to be other witnesses testifying that will at
17 some point maybe have the expertise to explain this
18 to you. We're going to have a toxicologist who
19 testifies about his findings and he'll explain what
20 that means or what he can tell you about that.

21 And then there also could be some other
22 evidence that makes this make sense to you. It is
23 kind of hard, I can't give you an open statement and
24 tell you why I was asking these particular
25 questions, it might not mean anything to you right

1 now.

2 You

3 mentioned that the normal procedure that it comes to
4 an intake person and then goes to the vault and it
5 would go to you?

6 **A** Correct.

7 Or somebody in your
8 office, in this instance you said it did not go into
9 the vault?

10 **A** No, it did not.

11 Is that because the rush
12 was put on it, is that the only reason it didn't go
13 to the vault or you wouldn't call this miss
14 handling?

15 **A** No, no. Usually when this happens, I hear
16 this on the intercom that, hey, would somebody, a
17 drug chemist come up front. So that means the women
18 who are accepting the evidence up front, there is
19 being a rush requested and they are trying to assign
20 it to a drug chemist right then and there instead.

21 Instead of putting it in
22 the vault and when you have time to get to it, next
23 on the list. First come first served.

24 **A** Basically they want it done right then a
25 there.

1 And on the scale, I just
2 want some clarification, you said the most it could
3 be off was 0.008 grams and that's, but then you went
4 back and you said, that it could be outside of that
5 amount three times out of a thousand.

6 **A** Yes.

7 You do try to error on
8 the side of caution, but there is always three out
9 of a thousand could be incorrect?

10 **A** Consider the way this was calculated when
11 we determine that we were going to put a K factor of
12 three on it, there's common K factors of two and
13 three. And two is, would be 99 point, I think it is
14 maybe 97 percent. I'm not real sure on that but I
15 do know that K three is higher up, so it is 99.7.

16 So we're saying statistically we are
17 95 percent confident that 997 out of a thousand
18 times that if you were to weigh this substance that
19 many times it would be within .008 grams of that
20 actual number we have.

21 Of the weight that you
22 have listed here?

23 **A** Yes.

24 MS. ALIZADEH: Let me ask a question. I
25 don't know if I was thinking that maybe this is what

1 you were getting at, . I neglected to
2 ask you this, when you looked at this evidence item
3 that you were testing, can you test marijuana to see
4 if there's butane on it?

5 **A** I don't think that there's any good way of
6 testing that. My assumption, and this is just
7 purely assumption, since butane would be a liquid,
8 it would be wet, but I think it would be evaporated
9 off at that point.

10 MS. ALIZADEH: You don't test for it in
11 your lab?

12 **A** We don't normally test for it. Butane
13 could be tested on instrumentation. I don't have a
14 procedure, it's never been presented to me to test
15 for it.

16 MS. ALIZADEH: Okay. So in this case you
17 didn't test this substance to see if it had butane
18 on it?

19 **A** No, I did not.

20 MS. ALIZADEH: And it appeared to you both
21 in its texture and appearance it appeared to you to
22 be dried?

23 **A** Yes.

24 MS. ALIZADEH: And containing no other --

25 **A** And if it was wet, I would of made a note

1 of it.

2 I am going to
3 ask if it did have butane on it, there would either
4 be a sticky substance to the bag, it would be wet,
5 there would be some sort of sticky substance at the
6 bottom of the bag, but because it was dry and it was
7 not wet, you determined just from the appearance of
8 it that it would not be butane in it?

9 A That would be my assumption, yes.

10 MS. ALIZADEH: Without any real chemical
11 test, this is just your assumption, correct?

12 A Just my assumption.

13 MS. ALIZADEH: And it was not tested at
14 your laboratory to see if there was any butane on
15 it?

16 A No, there was not.

17 MS. ALIZADEH: All right. Anyone else?

18 Do you have any
19 sense for how long this process takes to make the
20 butane from start to finish?

21 A I wouldn't think it takes very long.

22 An hour to a day?

23 A I'm sorry.

24 An hour to a day?

25 A I'm not very familiar with how fast butane

1 would evaporate off. Sometimes, I believe I have
2 heard that there have been fires associated and
3 explosions because they may put out an ether odor to
4 it to make the process faster, and yes, you could
5 probably have that done well within an hour
6 depending on how much butane you have to evaporate
7 off.

8 It is hard for me to say exactly how
9 long that would a take.

10 MS. ALIZADEH: Anyone else? Sheila?

11 MS. WHIRLEY: No.

12 MS. ALIZADEH: This will conclude the
13 testimony of

14 (End of the testimony of .)

15 MS. WHIRLEY: October 7th, 2014. It is
16 2:38 p.m. We are resuming. I'm Sheila Whirley,
17 Kathi Alizadeh stepped out, but she will be
18 rejoining us. The grand jurors are here, also
19 and we have as our next witness, .
20 He'll spell his name for you in just a minute.

21

22

23

24

25

1

2 of lawful age, having been first duly sworn to

3 testify the truth, the whole truth, and

4 nothing but the truth in the case aforesaid,

5 deposes and says in reply to oral

6 interrogatories, propounded as follows, to-wit:

7

EXAMINATION

8

BY MS. WHIRLEY:

9

Q All right. , introduce yourself to the

10 grand jury and spell your name, please?

11

A My name is

12

13

Q All right. , what is your occupation?

14

A I am a latent examiner for the St. Louis

15

County Police Department.

16

Q What does latent mean?

17

A Latent is a term used for fingerprint.

18

Bottom line is a latent kind of refers to a print

19

that is when you touch a surface or object, your

20

print that is left behind is referred to as a latent

21

print.

22

Q What's a patent print?

23

A Patent print is a print left like in paint

24

or blood or dirt, if you have some something on your

25

hands or fingers and you touch a surface. For

1 instance, if you have paint on your fingers, you
2 touch the surface and you left your print behind in
3 paint, that's referred to as a patent print.

4 **Q** All right. Are you a police officer?

5 **A** No, I'm a civilian employee.

6 **Q** How long have you been with the St. Louis
7 County Police Department?

8 **A** It will be 25 years this coming March.

9 **Q** Did you start as a fingerprint examiner?

10 **A** No, I did not.

11 **Q** How did you start with the department?

12 **A** I started in security services as a
13 security officer.

14 **Q** And then you moved to fingerprints?

15 **A** Correct.

16 **Q** What is that department, just the
17 fingerprint section?

18 **A** It's a fingerprint unit.

19 **Q** Unit, okay. How many people are in the
20 unit?

21 **A** A total of ten.

22 **Q** What did you have to do to become a
23 fingerprint examiner, what type of training is
24 required?

25 **A** I have been through the St. Louis County

1 and the FBI fingerprint print classification. I've
2 been through the St. Louis County Latent Training
3 Program, I am a member of the Missouri and
4 International Association for Identification, which
5 are both associations that provide training
6 throughout, through conferences every year that I
7 attend for training for fingerprints.

8 I am also a certified latent examiner
9 through the International Association for
10 Identification and I'm also a certified AFIS user
11 through the Missouri State Highway Patrol. And AFIS
12 stands for Automated Fingerprint Identification
13 System.

14 **Q** What does AFIS do, I mean, tell us a
15 little bit about AFIS?

16 **A** Bottom line is, when a person is
17 fingerprinted, those prints are put into the AFIS
18 system. And then it would be my job to search those
19 prints to see if I can find a match through the AFIS
20 system.

21 **Q** Okay. What technical equipment, if any,
22 do you use in your job in doing your latent
23 fingerprint examination?

24 **A** With the AFIS, with the AFIS system
25 basically I use magnifying glasses.

1 **Q** So a lot of us we watch CSI and other
2 programs, and we believe that computers somehow
3 generate prints and tell us when there's a match and
4 you see all of these numbers. You've seen these
5 programs, is that the way it is really done?

6 **A** Partially yes, partially no.

7 **Q** Okay, tell us about it?

8 **A** Um, when I search a print, the AFIS system
9 searches the print itself and then it gives me a
10 candidate list. Of the candidate list, the computer
11 is saying, for instance, if it comes back with 20
12 candidates. The computer says this is the closest
13 thing that we have to what you just searched. And
14 it is up to me to go into each candidate and do a
15 one-to-one comparison to see if it is or is not a
16 match.

17 So the bottom line is, the computer
18 does not tell you it's a match, it just gives you a
19 candidate list. It is up to the individual person
20 to say this is a match or it is not a match.

21 **Q** How do you determine if it is a match?

22 **A** I check for the minutia points in each
23 fingerprint. Minutia points or bifurcation,
24 bifurcation, any ridges, ridge dots, ridge islands.
25 And arrangement of these minutia points and each

1 fingerprint is what makes the fingerprint unique to
2 each person.

3 **Q** And unlike DNA, which identical twins can
4 have the same DNA, correct? I mean, to your
5 knowledge?

6 **A** To my knowledge, yes.

7 **Q** Right, I mean, that's kind of common
8 knowledge, not that we know DNA here, but can two
9 people have the same fingerprint?

10 **A** No.

11 **Q** Okay. And when you talk about the minutia
12 points, are there a number of points you are looking
13 for in making an identification of a fingerprint?

14 **A** The St. Louis County Police Department, we
15 have a standard of eight or more points. So
16 basically what that means is, if I get a partial
17 fingerprint on whatever I'm looking at, if I can
18 only find seven or less of these points, we deem
19 that print insufficient. It has to have eight or
20 more for us to say it is good evidence and then we
21 go to the next step.

22 **Q** Okay. Any idea how many times you've made
23 a fingerprint identification? I know I didn't tell
24 you to look for that information, but do you have
25 ever a conservative number, have you ever thought

1 about it or looked at it?

2 **A** Uh --

3 **Q** More than 100?

4 **A** Probably hundreds of thousands for the
5 last 21 years, yes.

6 **Q** Do you do palm prints also?

7 **A** Yes.

8 **Q** And tell us a little bit about palm print
9 identification, how do you do that?

10 **A** Palm prints are the exact same thing as
11 fingers. Your palms are as unique as your fingers.
12 And actually, so also is the bottom of your toes and
13 the soles of your feet have the same friction ridges
14 and they're as unique as the your palms and your
15 fingers.

16 **Q** Is it possible, like for you, right there
17 to sit there and touch every surface of that little
18 table or desk like thing you are sitting at, and not
19 leave fingerprints?

20 **A** Yes, it is.

21 **Q** And how is that possible?

22 **A** There are several factors. The first
23 factor is the person himself. Some people secrete
24 their perspiration. What I mean by that, on your
25 friction ridges you have pores. And you secrete

1 your perspiration through your pores and it coats
2 your ridges. So when you touch something, you could
3 leave your print behind by that means.

4 Some people don't secrete that much,
5 so they don't have enough moisture on their fingers
6 or palms when they do touch something to leave
7 something behind.

8 The other factors are the surface
9 itself. Some surfaces are not good to get
10 fingerprints off of. Another factor would be the
11 weather. If I was processing these glasses and
12 they've been sitting outside for the last week or
13 two or three, any type of weather condition, rain,
14 snow, heat, cold could possibly destroy a print that
15 was left on there.

16 Q And so fingerprints are transferred from
17 the person to the item. It has to do with the
18 moisture in there, on their skin?

19 A Yes.

20 Q And some people, like who have very dry
21 skin may not leave a print?

22 A Yes, that's correct.

23 Q Okay. So tell us how you compare
24 fingerprints, a latent print with an ink print, how
25 does that work?

1 **A** I do a side-by-side with the aid of an
2 magnifying glass and I'm checking for the minutia
3 points, I'm checking for the quality of the minutia
4 points and I just find a specific area to start from
5 and just do my comparison from there.

6 **Q** And does someone overlook or oversee what
7 you've done and agree or disagree, or is it just
8 your determination, that's it?

9 **A** When I make an identification, yes, it is
10 checked through another latent examiner.

11 **Q** Another examiner. That's kind of the
12 standard procedure?

13 **A** Yes.

14 **Q** Okay. Now, you know why we're here, this
15 is the Michael Brown shooting that we're talking
16 about and you had occasion to check for latent
17 prints; is that correct?

18 **A** That is correct.

19 **Q** And what did you do in that case?

20 **A** I received five latent lifts.

21 **Q** At this time let me just pass out some
22 copies of things I have.

23 (Deposition Exhibit Number 38
24 marked for identification.)

25 **Q** (By Ms. Whirley) Why don't you take one

1 and pass it around. This is what you have before
2 you a copy of your envelope and then the lifts that
3 are inside the envelope?

4 **A** That is correct.

5 **Q** We will let them get a copy and then we
6 can talk a little bit about it. Are you the only
7 one that worked this case?

8 **A** Yes.

9 **Q** Okay. You were told specific things to
10 check for?

11 **A** Yes.

12 **Q** You checked to see if there were
13 fingerprints is what I mean?

14 **A** Yes.

15 **Q** Were you brought a latent print that
16 belonged to Michael Brown or did he have one in the
17 system or how did you get his prints?

18 **A** You mean a fingerprint card?

19 **Q** Fingerprint card, yes, I'm sorry.

20 **A** They were brought to me from his deceased
21 prints.

22 **Q** So tell us about that. Is this something
23 that you've done before is check someone when you've
24 got prints from a deceased individual?

25 **A** Yes, I've done that before.

1 **Q** In what cases, like what type of cases
2 would you be checking a deceased fingerprints?

3 **A** On deceased prints is usually, you know, a
4 homicide or suspicious death or a person that is
5 found dead, they do not know their identity and they
6 take their prints and then we check them through the
7 system to see if we can find who they are.

8 **Q** So someone at the morgue actually
9 fingerprints the deceased?

10 **A** It is usually one of the crime scene
11 detectives from St. Louis County.

12 **Q** Okay. Someone from the crime scene and
13 then they provide that to you?

14 **A** Correct.

15 **Q** For comparison purposes?

16 **A** Yes.

17 **Q** And in this case, now, everyone has a
18 copy, tell us, first of all, what things were you
19 told, or are you told what to check for, because you
20 don't know what to check for unless someone tells
21 you; is that right?

22 **A** That is correct.

23 **Q** You are not investigating the case or
24 anything?

25 **A** No.

1 **Q** So what were you told to check for prints
2 on?

3 **A** Well, when I received the envelope the
4 first thing I do is I check each latent lift, and as
5 I spoke of earlier, I check to see if each, if the
6 latent print, if there is any good latent prints on
7 the lift, if it is has eight or more points.

8 In the second, if I do find a print
9 that is good, then I will check if we have any
10 victim eliminations. I would see if it is the
11 victim's prints or not. If there is any suspects in
12 the case, if they have something listed as a
13 suspect. If we have him on file, then I'll pull his
14 prints and check them against the good print.

15 And I do that with each individual
16 lift that I receive.

17 **Q** Okay. And the lifts are provided to you
18 by crime scene detectives?

19 **A** Yes, that's correct.

20 **Q** So they visually, what they see visually
21 is what they consider might be a print and they'll
22 lift it; how does that work?

23 **A** That is correct.

24 **Q** Okay. All right. So they bring you, and
25 in this case they brought you how many lifts?

1 **A** Five.

2 **Q** Five. Were any of the lifts, did any of
3 the lifts have enough points, and you said you need
4 at least eight to even be sufficient enough to
5 determine if there could be some identification of
6 the print?

7 **A** That is correct.

8 **Q** Were any of them?

9 **A** Yes, three of the five were good enough to
10 make, had eight or more points.

11 **Q** That would be, tell us which ones that
12 would be, we have copies here?

13 **A** Lift A.

14 **Q** Uh-huh.

15 **A** Lift B and lift E.

16 **Q** So C and D were insufficient to even
17 determine an identification?

18 **A** Correct.

19 **Q** All right. So going back to what you were
20 told to look for prints on, tell us what that was,
21 what items were you looking for? It is probably on
22 the evidence sheet like, go ahead.

23 **A** Are you referring to the lifts or you
24 referring to the evidence sheet?

25 **Q** You tell me, let me ask the question. The

1 lifts, were they to, these lifts come from items
2 that's on the evidence sheet?

3 **A** No.

4 **Q** Tell us where the lifts came from?

5 **A** The lifts were delivered to our office by
6 Detective

7 **Q** Okay, all right. Were you supposed to be
8 seeing if they were fingerprints on any of these
9 items that are on the evidence receipt?

10 **A** On the evidence receipt, yes.

11 **Q** Tell us about that, that's what I'm trying
12 to get to.

13 **A** Okay, I'm sorry. The evidence receipt was
14 brought in to me by Detective .
15 And it was the gun belt of Officer Wilson, it had
16 handcuffs, your normal belt, the handcuffs, baton
17 holder, the walkie-talkie holder, there was no gun
18 in there, the holster, five keys, handcuff keys, two
19 magazines that, two fully loaded magazines.

20 **Q** And this was all on the gun belt?

21 **A** That is correct.

22 **Q** So the gun belt was brought in to you?

23 **A** Yes, it was.

24 **Q** Is there anything on here about, what's
25 the spray called, mace, is there anything, was there

1 any mace can or mace holder or anything on this gun
2 belt?

3 **A** No, huh-uh, not that I recall.

4 **Q** What's on the evidence receipt is supposed
5 to be everything that you looked at correct?

6 **A** Correct.

7 **Q** All right. So what were you supposed to
8 be doing with this gun belt?

9 **A** Uh, I use a chemical called Super Glue on
10 this. Basically what we do with Super Glue is I
11 take all the items, I put it into a Super Glue
12 chamber. Uh, put a little bit of Super Glue in the
13 bottom of a cup, turn on the Super Glue machine.
14 The fumes from the Super Glue will adhere to any
15 prints that are left behind on that surface. And
16 then once the cycle has run through, I will pull out
17 the items, and check to see if there is any latent
18 prints on there.

19 **Q** Okay. And you did that on all of the
20 items?

21 **A** Yes, I did.

22 **Q** And on the three that you had sufficient
23 enough points, a sufficient number of points, were
24 you able to make an identification?

25 **A** Can I clarify something?

1 **Q** Yes, please do.

2 **A** The evidence, the fingerprints that were
3 good enough to make ID were from the police car, not
4 the gun belt.

5 **Q** I see. Copy of this envelope, the five
6 lifts that Detective dusted and lifted,
7 that's where the good prints were.

8 **Q** Okay.

9 **A** Of the items brought to me that I
10 processed, were no identifiable prints.

11 **Q** Okay. And did you have, just to make sure
12 I'm clear, were you not supposed to check the
13 Michael Brown prints that were lifted, right? You
14 had a sample of his prints, correct?

15 **A** Yes, but when you say lifted, it is more
16 fingerprinted.

17 **Q** Fingerprinted, thank you.

18 **A** Uh-huh.

19 **Q** You were not asked to compare Michael
20 Brown's fingerprints with the officer's gun belt?

21 **A** I was if there was any good prints to
22 compare it to and there was none.

23 **Q** There were no good prints?

24 **A** On the gun belt.

25 **Q** Got it. I'm going to reiterate just to

1 make it clear. There were no fingerprints that were
2 of sufficient number, as you talked about, to make
3 any kind of comparison; is that correct?

4 **A** That is correct.

5 **Q** On the gun belt?

6 **A** That is correct.

7 **Q** You would call that negative prints?

8 **A** Yes.

9 **Q** That doesn't necessarily mean there were
10 no prints, it just means there wasn't enough for you
11 to make an identification?

12 **A** That is correct.

13 **Q** Okay. Now, for the car, which is what
14 this represents; is that right?

15 **A** That is correct.

16 **Q** Okay. So let's talk about the car. Where
17 prints were lifted, is that the exterior left front
18 door?

19 **A** Yes.

20 **Q** All right. And this is where there were
21 three prints that had sufficient number to make an
22 identification?

23 **A** That is correct.

24 **Q** Who did the prints come back to?

25 **A** On Lift A, I was able to identify Officer

1 Wilson's print. Lift B and E are good evidence, but
2 have not been identified to anyone as of today.

3 Q Okay.

4 A Lifts C and D are insufficient.

5 Q So on lift B and E, they did not come back
6 as identifying Michael Brown?

7 A That is correct.

8 Q Okay.

9 MS. WHIRLEY: Questions?

10 . So these
11 tests, you talked a little bit maybe about the life
12 expectancy of the print. If it is not identified as
13 Darren or Michael Brown, how long or how much
14 earlier do you think those would have lasted? Say
15 it would have happened that morning, would it be
16 something from a previous day or any thoughts if
17 those are not those two prints, when those might
18 have been put there, any idea?

19 A Really, no idea. On cars it is very
20 difficult because, and I don't know how the Ferguson
21 Police Department, how they, how their cars, how
22 many guys go in and out of their cars or if they
23 share their cars. It is kind of difficult to say.

24 : Thanks.

25 MS. WHIRLEY: Anyone else?

1 Did you

2 say what date you did your examine?

3 **A** On which one, ma'am?

4 The car.

5 **A** I received, I did my examination on August
6 11th.

7 11th?

8 **A** Yes, ma'am.

9 The prints were
10 lifted the day of, correct, or no?

11 **A** On the envelope he has August the 9th as
12 the date. I don't know if that's, sometimes that's
13 the date they do it, sometimes that's the date of
14 the occurrence. Detective is the one who
15 filled this out. August 9th is the date that he has
16 in the corner here. Like I said, it is either the
17 date of the occurrence of the offense or it is the
18 date that he actually processed the car.

19 So lifts
20 B and E were good prints, but they did not match but
21 you had prints of Michael Brown?

22 **A** That is correct.

23 . And they also
24 didn't match the police officer or you would have
25 put that on, right?

1 **A** That is correct.

2 Have you run those two
3 prints through AFIS to see if they match anybody
4 that would have been on the scene?

5 **A** Yes, I have.

6 And they didn't match
7 anybody that could have been there?

8 **A** No.

9 And I doubt we
10 have any reason to suspect, but as Dorian Johnson
11 was present, do we have the ability to test for his
12 prints to see if those are his? Maybe that's not a
13 question for you.

14 MS. WHIRLEY: Dorian Johnson, was he
15 tested against?

16 **A** I was not given that name to check.

17 Thank you.

18 MS. WHIRLEY: .

19 Would his prints be in
20 AFIS if he had been arrested at some point?

21 **A** Yes, they would. There is something on
22 the AFIS system, the AFIS system is not perfect. It
23 is only about a 65 percent hit rate. So, in other
24 words, I'm in the AFIS system. If I leave my print
25 behind and I search that print, 65 percent of time

1 it is going to hit and 35 percent it is not going to
2 hit. The factors that come into play, and the
3 biggest factor, the two biggest factors of that is
4 quality of the latent print.

5 If I touch something on my tip and I
6 leave enough minutia points of eight or more in
7 order for that to be a good print and I search that,
8 now when I got fingerprinted. They may not have
9 fingerprinted my tip. So that tip may not be in
10 there. So there's factors that do come into play.

11 The bottom line is, the system is not
12 perfect. Just because the person is in the system
13 and I search a print knowing, if I know that person
14 is in the system, it still may not hit.

15 The
16 only way to say whether or not these two that were
17 evidence, could be, that were real good prints, but
18 not Michael Brown's, to see if those were Dorian
19 Johnson's would be to fingerprint him?

20 **A** That is correct, to check his prints.

21 MS. WHIRLEY: Or if you had a card, you
22 would just need to look at it visually. You could
23 not count on AFIS?

24 **A** Correct.

25 MS. WHIRLEY: You could do a visual

Page 131

1 comparison?

2 **A** I would do a one-to-one comparison on it.

3 Do you

4 know what percentage of the population are

5 nonsecretors?

6 **A** I have no idea.

7 Did they

8 ever give you the gun to fingerprint the gun?

9 **A** No, ma'am.

10 Never.

11 MS. WHIRLEY: Do you know if anyone was
12 asked to fingerprint the gun, is this something you
13 would know?

14 **A** I don't know off the top of my head. I
15 would think that they would bring it to -- since
16 they brought the gun belt and everything down, I
17 think they would bring the gun to me, but I don't
18 know that.

19 Just to comment
20 on a question for you, but I do remember that they
21 specifically went the DNA route.

22 MS. WHIRLEY: Anyone else?

23 Kathi, since you don't know what we've
24 covered. I don't know if you have any additional
25 questions though.

1 MS. ALIZADEH: I do not.

2 MS. WHIRLEY: Okay. Anything else before
3 we let go? I thank you so much,

4 (End of testimony.)

5 MS. ALIZADEH: This October 7th at
6 3:21 p.m. I'm present, as well as Sheila Whirley,
7 and 12 grand jurors are present, as well as ,
8 the court reporter. And we've had a little break
9 and I just want to put on the record that during the
10 break there was some discussion, but it was
11 primarily about logistics and scheduling and
12 planning. There was really nothing discussed that
13 had to do with any substance of the case and the
14 evidence that has been presented.

15 Would you all agree with that, we didn't
16 talk about the evidence?

17 (All indicate yes.)

18 MS. ALIZADEH: So for now we are going to
19 resume this afternoon and we would first start off
20 by playing a statement by a witness named

21 I expect that she will be here a little
22 later this afternoon. And this is a statement that
23 made to County Police officers on August 13th,
24 and the statement is recorded and contained on Grand
25 Jury Exhibit Number 24.

1 MS. WHIRLEY: It says August 11th on here.

2 MS. ALIZADEH: Make sure you all have a
3 statement that has August 11th on it.

4 So everybody has their transcript? And at
5 this time, if you will pause the recording.
6 We will then begin playing the recorded statement.

7 (Playing the interview of
8)

9 MS. ALIZADEH: It is 3:51 p.m. on
10 October 7th. We just finished listening to the
11 recorded statement from Does
12 anybody need to hear that or a portion of it over
13 again? I really, as you all notice it was, I would
14 say poor quality recording. Difficult to hear at
15 times.

16 So if there is a time when you want to
17 review that again, you have difficulty hearing that,
18 just let me know, all right.

19 And now we're going to play another
20 recorded statement for you. And this is the
21 statement of . And this statement
22 was done on August 13th and it is about 21 minutes,
23 a little over 21 minutes long. And at this time I'm
24 going to hand out the transcripts for this
25 statement. So this statement is recorded and

1 contained in a file on the disc that is marked Grand
2 Jury Exhibit Number 24. At this time, , go
3 ahead and pause the audio recording while we listen
4 to the tape statement.

5 (Playing the audio recorded statement of
6)

7 MS. ALIZADEH: It is 4:15 p.m. and we just
8 finished playing a statement of . We
9 have another statement that we can start playing.
10 I'm not sure if the are here yet and we
11 also have another witness who might be here, but do
12 you all need to take a break?

13 (Recess)

14 MS. ALIZADEH: Next statement is about 23
15 minutes. It is the 7th of October. We just took a
16 brief break. This is Kathi Alizadeh, present is
17 Sheila Whirley and all 12 grand jurors and the
18 court reporter.

19 So I have learned during the break that
20 one of our witnesses who the cab was to pick her up
21 at 4:00 says that she, she missed the cab, so we
22 sent the cab back for her. I don't know if she's
23 gotten on the cab or not, but we're going to go
24 ahead and play a taped statement now. There's also
25 are supposed to be on there way.

1 She told me she was off work at 4:00. So
2 I said as soon as, you get off a little earlier
3 great, as soon as you get off, come here.

4 So hopefully this will be about 23
5 minutes. We will play this statement and I will
6 tell you that if nobody is here by then, that we'll
7 probably just recess. I can't say for sure these
8 people are even on their way.

9 So I'm going to pass out a transcript of
10 the statement of Witness 34, which was done on
11 September 3rd.

12 Everybody has the transcript. if
13 you will pause the audio recording.

14 In getting ready to listen to this
15 transcript, I mentioned that the witness name is
16 Witness 34. This is another witness that I
17 anticipate we will be referring to as a number
18 as is very fearful for his safety if his identity
19 is known.

20 So when you transcribe this, I will ask
21 you, , to use a number for the witness that we
22 will assign once I figure out what number
23 will be.

24 And then we will also have to have that
25 somehow edited out of the audio so that these

1 audiotapes, name is not used.

2 So we're not recording now, but in the
3 future I'll refer to as witness number blank,
4 which I've got to look at my list and see what
5 number would be. So at this time we'll go ahead
6 and play the recording. And this recording is on
7 Grand Jury Exhibit 24.

8 (Interview of Witness 34 is being played
9 at this time.)

10 MS. WHIRLEY: The recording of Witness 34
11 is completed and it is approximately 5:09 p.m., our
12 time on October the 7th, 2014. We're going to just
13 pause the recording. I'm going to see if there are
14 any witnesses that we have planned that have arrived
15 at this time.

16 (Recess)

17 MS. ALIZADEH: It is 5:18. This is Kathi
18 Alizadeh, Sheila Whirley is here, all 12 jurors and
19 , the court reporter, who is taking down
20 everything that is being said. And we have our next
21 witness here to testify.

22

23

24

25

BY MS. ALIZADEH:

11 **A** _____ , last name _____ ,
12 _____ .

15 **A** Thank you.

20 I'm going to direct you over here.
21 This is a map that we have and it is labeled Grand
22 Jury Exhibit Number 25. I don't know why this is
23 crooked, but it is. So do you recognize the roads
24 and the buildings that are on this map?

25 **A** Yes, ma'am.

1 **Q** Okay. So let's, we're going to use this
2 laser pointer as we're talking about things on the
3 map. And you can use that to point so that you
4 don't have to get up and move around and the grand
5 jurors can see what you are pointing at, okay?

6 **A** Yes, ma'am.

7 **Q** how old are you?

8 **A** years old.

9 **Q** And are you married or single?

10 **A** Single.

11 **Q** Are you do you have fiancée?

12 **A** Yes, I have a fiancée.

13 **Q** Who is that?

14 **A**

15 **Q** And do you live with ?

16 **A** Yes, ma'am.

17 **Q** And how long have you two been living
18 together?

19 **A** We have been staying together now for
20 about four years, three and a half, four years.

21 **Q** Do you and live in the Canfield
22 Green Apartment Complex?

23 **A** Yes, ma'am.

24 **Q** So you were both living there in August of
25 this year?

1 **A** Yes, ma'am.

2 **Q** Okay. Now, can you point on the laser
3 pointer the building that you and live in?

4 **A** (Indicating.)

5 **Q** You are directing it to Building Number ?

6 **A** Yes, ma'am.

7 **Q** This number, is that the number of your
8 apartment unit?

9 **A** Yes, ma'am.

10 **Q** So this would be on the south end of, the
11 south side of the building. If this way is south,
12 that's on the south side of the building, correct?

13 **A** Yes, ma'am.

14 **Q** What floor are you on?

15 **A** The second floor.

16 **Q** And is that, so you have one floor above
17 you?

18 **A** One floor above me, correct.

19 **Q** And we've heard testimony about the stairs
20 and the balconies and the staircase that's outside
21 of your apartment?

22 **A** Yes, ma'am.

23 **Q** All right. So let's take you back to the
24 morning of August 9th. Anything special or unusual
25 happen in the morning or was it just an ordinary

1 Saturday morning?

2 **A** It was an ordinary Saturday morning.

3 **Q** And were you home?

4 **A** Yes, ma'am.

5 **Q** And was home?

6 **A** Yes, ma'am.

7 **Q** Now, you have a child?

8 **A** I have boys.

9 **Q** Okay. Were they all home?

10 **A** Yes, ma'am.

11 **Q** Just give me the age range?

12 **A**

13 **Q** Okay. And so somewhere around noon of
14 that day, what were you doing?

15 **A** Around noon that day I was in the kitchen
16 on my cell phone and I was eating lunch.

17 **Q** All right. And so was home at
18 that time?

19 **A** Yes, was home.

20 **Q** And what, if anything, happened that
21 changed, you know, your attention?

22 **A** Because there was a knock on my front door
23 and being that I was woke, I went to open up the
24 door and saw it was friend at the door.
25 So I went in the bedroom to wake up to tell

1 him that he had a visitor at the door. He got up,
2 put on him some clothes and he was outside maybe
3 five minutes. Then he turned around and came back
4 in the house.

5 Q Okay. So did you stay inside the house
6 when he went outside?

7 A Yes, ma'am.

8 Q Were you in the kitchen, did you say?

9 A Yes, ma'am, I was in the kitchen.

10 Q Okay. So from the kitchen can you see
11 outside of your apartment?

12 A No, ma'am.

13 Q Okay. So when he went outside, he was out
14 there about five minutes and then he came back in?

15 A Yes, ma'am.

16 Q Did his friend come in with him?

17 A No, ma'am.

18 Q Who was the friend, do you know him?

19 A His name, yeah, he's been over to the
20 apartment a couple of times. All I know is his
21 first name is

22 Q Okay. And so after came back,
23 what happened?

24 A came back, he walked through the
25 living room and went into the bedroom. Now, I was

1 in the kitchen on the phone and I heard him scream
2 my name, but I wasn't paying him any attention
3 because I was in on the phone talking to my sister.
4 So then he screamed my name a second time, they're
5 outside shooting.

6 So by this time I run out my kitchen
7 to the living room to look out my patio door. And
8 as I looked out the patio door, I saw the officer
9 standing outside his vehicle with his gun in his
10 hand and I saw a black male running away from the
11 officer.

12 Q Okay. So let me stop you here.

13 A Okay.

14 Q When you heard say, they're
15 shooting.

16 A Uh-huh.

17 Q Did you hear any gunshots before he said
18 that?

19 A No, because I wasn't paying any attention
20 to what was going on outside. I was in the kitchen
21 on my phone, I was on the phone.

22 Q Now, this was August 9th?

23 A Correct.

24 Q And as I recall, it was a hot day that
25 day?

1 **A** Uh-huh.

2 **Q** Would you have your windows open or
3 closed?

4 **A** The window was closed because we had the
5 AC on.

6 **Q** Okay. And so was in the bedroom
7 you said?

8 **A** Correct.

9 **Q** They're shooting?

10 **A** Correct.

11 **Q** And then you get up and you go outside
12 onto the balcony?

13 **A** No, I get up when he said, they're
14 shooting, I go from the kitchen to the living room
15 and looked out my patio blinds.

16 **Q** Okay.

17 **A** Yeah.

18 **Q** And so we heard some testimony about how
19 these apartment units are sliding glass doors?

20 **A** Yes, ma'am.

21 **Q** And then it has vertical blinds?

22 **A** Correct.

23 **Q** So did you have to open the blinds to see
24 out?

25 **A** No, I just pulled them apart like this and

1 looked out through the blinds.

2 Q And so from where you were standing on
3 your second floor apartment.

4 A Uh-huh.

5 Q On the front of the building?

6 A Uh-huh.

7 Q Could you see down to this area on
8 Canfield?

9 A Yes, ma'am.

10 Q And did you see the police vehicle?

11 A Yes, ma'am.

12 Q What kind of car was it?

13 A It was an SUV truck.

14 Q Okay. And when you first looked, you said
15 the officer was already out of the car?

16 A Correct.

17 Q So you didn't hear or see anything that
18 happened before you saw that?

19 A Correct.

20 Q And you saw the officer, you said he had
21 his gun drawn?

22 A Correct.

23 Q And I don't know what that means, so can
24 you stand up and demonstrate for the jurors what you
25 mean when you say he had his gun drawn?

1 **A** When I looked out the patio window, the
2 officer had his gun like this, had his finger on the
3 trigger, he was holding it just like this.
4 (indicating)

5 **Q** Okay. So you can sit down. Where was the
6 officer when you saw him?

7 **A** He was standing right there on the
8 driver's side like right by his door, his door was
9 open. So he's standing like a little bit past his
10 door, the driver's side door.

11 **Q** Do you recall which direction his car was
12 facing on Canfield Drive?

13 **A** His vehicle was facing like going deeper
14 into the apartments.

15 **Q** So his vehicle was facing this direction?
16 (indicating)

17 **A** Correct.

18 **Q** So the front of his vehicle was here?
19 (indicating)

20 **A** Correct.

21 **Q** So you're saying that his driver's door
22 was open?

23 **A** Correct.

24 **Q** So, was it from your position then, you
25 can see the driver's side of that vehicle?

1 **A** Correct.

2 **Q** And he's standing outside the driver's
3 door?

4 **A** Correct.

5 **Q** And now you said you saw a young man
6 running away?

7 **A** Correct.

8 **Q** Did you recognize him?

9 **A** No.

10 **Q** Haven't seen him before that day?

11 **A** No, ma'am.

12 **Q** Did you see any other people in the area?

13 **A** Yes. I saw another shorter
14 African-American male. At this time the police
15 vehicle was facing, was facing this way and there
16 was a white Monte Carlo facing, they was going the
17 opposite way. The other black male was on the
18 passenger side of the white Monte Carlo and he was
19 down like this. (indicating)

20 He had dreads, I say like right here,
21 and as I'm looking, and then by then I come out my
22 apartment just to get a closer look. And I see the
23 black male that was behind the white vehicle. He
24 jumps inside the white car and the white Monte Carlo
25 goes up the street.

1 **Q** Okay. So the black male that you saw
2 running away.

3 **A** Correct.

4 **Q** Where was he in relation to the police car
5 when you first saw him?

6 **A** He was like, okay, the police vehicle is
7 like here. He was like a good little distance away
8 from the vehicle. (indicating)

9 **Q** Okay. So if the vehicle can you use the
10 pointer and show where the vehicle was, police
11 vehicle?

12 **A** The police vehicle was like right, like
13 right in here. (indicating)

14 **Q** Okay. Now, I'm going to put my finger
15 where you had the pointer?

16 **A** Uh-huh.

17 **Q** Show with the pointer where the boy that
18 was running, where was he when you first saw him?

19 **A** When I first saw him he was probably like
20 right here from where I could see him. (indicating)

21 **Q** And the officer was still at his driver's
22 door?

23 **A** Correct, he was, the officer had his
24 vehicle (sic) in his hand and he was taking large
25 steps towards the guy as he was running.

1 **Q** So you see the officer moving in the
2 direction that the guy was running?

3 **A** That the guy was running, yes, ma'am.

4 **Q** When you say the guy was running, is this
5 like a full-out run or is this a jog?

6 **A** Like a jog, yes, ma'am.

7 **Q** Okay. So what do you see next happen?

8 **A** So then as I see the guy get out, like he
9 disappeared. I didn't see him any more.

10 **Q** Which guy?

11 **A** The big one.

12 **Q** Okay. So we know that man's name now is
13 Michael Brown?

14 **A** Michael Brown, correct.

15 **Q** You didn't know it then?

16 **A** Correct.

17 **Q** So we'll go ahead and call him Michael
18 Brown since we know who he is now.

19 **A** Yes, ma'am.

20 **Q** So he disappears from your view?

21 **A** He disappears from my view. So by this
22 time I come out my front door and I'm now standing
23 on my patio.

24 **Q** Now, at this point have you heard any
25 gunshots?

1 **A** Yes.

2 **Q** When did you first hear gunshots?

3 **A** I started hearing the gunshots, when I
4 looked out the patio and I saw the officer walking,
5 taking big steps and shooting, that's when I open up
6 my front door and I came out onto my patio.

7 **Q** Okay. So you're saying as he was moving
8 towards Michael Brown.

9 **A** He was firing.

10 **Q** He was firing. How many gunshots did you
11 hear fired?

12 **A** I heard three shots. And that's what made
13 me come out on my patio. So as I come out on my
14 patio, I see that the victim, okay, I see that Mike
15 Brown can no longer be seen. As I come out on my
16 patio, I finally see Mike Brown walking like this
17 with his hands up. He's now walking towards the
18 officer.

19 **Q** You didn't see him turn around?

20 **A** No.

21 **Q** Okay. So from where you first saw him.

22 **A** Uh-huh.

23 **Q** With the laser pointer where you first saw
24 him when he had his hands up?

25 **A** He was maybe like right here where this

1 car is at. (indicating)

2 Q Okay. And so you said he was facing the
3 officer at that point?

4 A He's now facing the officer with his hands
5 up like this. (indicating)

6 Q Okay. Do your hand the way his hands
7 were?

8 A (Indicating)

9 Q So, for the record, you've got your upper
10 arms are somewhat parallel to the floor and you've
11 got your palms, out fingers are pointing skyward or
12 up to the ceiling and your hands are about the level
13 of the side of your head?

14 A Correct.

15 Q Okay. Go ahead and sit down.

16 And so did you see, what did you see
17 happen then?

18 A As Mike Brown is walking toward the
19 officer, he's started taking big steps toward him
20 and he opened shot, pulled the trigger.

21 Q You see Mike Brown walking towards the
22 officer?

23 A Correct.

24 Q How many steps did you watch him walk?

25 A Maybe a good four or five steps.

1 **Q** Okay. And how would you describe how he
2 was walking? Was he walking quickly was he casually
3 walking?

4 **A** He was casually walking as if he had got
5 shot and he started feeling the pain or something
6 like that, where like he couldn't, you know, pick up
7 his pace because of the shot.

8 **Q** Did you see that he had been shot?

9 **A** Yes.

10 **Q** How did you know he had been shot?

11 **A** Because as the officer is shooting, I
12 assumed that it was, he was being tased because I've
13 never witnessed anyone being shot. And I asked my
14 fiancee is that, I'm like, he's being tased, right,
15 why isn't he falling. That's not tased, that's
16 gunshot because I've never seen anyone get shot.

17 **Q** So are you saying that that conversation
18 was while this was going on?

19 **A** Right.

20 **Q** What makes you say that you saw that he
21 was shot?

22 **A** Because as, as the officer is shooting,
23 like you see, like I guess like little smoke or
24 whatever it was that as the bullets was hitting him,
25 you saw like the little smoke coming from his chest.

1 That's why I assumed he was being tased. Because I
2 guess looking at movies and seeing people get shot
3 and they automatically fall, that was my first time
4 ever seeing someone being shot like that close. So
5 I assumed that he was being tased.

6 Q So as you see him getting shot or you see
7 what you've described that you think that's the
8 bullets hitting him.

9 A Uh-huh.

10 Q He continues to walk toward the officer?

11 A At this time it is like his steps were
12 ceasing as, you know, he was about ready to fall
13 over.

14 Q And what was the officer doing, was he
15 standing still or was he moving?

16 A He was steady moving --

17 Q Steady movie in what direction?

18 A Towards Mike Brown.

19 Q How close did he get to Mike Brown?

20 A I say he was maybe a good, maybe 10 feet
21 away from him.

22 Q Okay.

23 A And then he shot. And then, you know Mike
24 Brown, he fell face down to the pavement.

25 Q All right. And you said you had come

1 outside at this point?

2 **A** Correct.

3 **Q** Did you hear anybody saying anything?

4 **A** No.

5 **Q** You couldn't hear, is it because you could
6 not hear because of your distance?

7 **A** I couldn't, right, I couldn't hear what
8 was being said as far as like if the officer was
9 saying anything to Mike Brown, I didn't hear any of
10 that.

11 **Q** After Mike Brown fell onto the pavement?

12 **A** Uh-huh.

13 **Q** Did you stay outside and continue to
14 watch?

15 **A** Yes, ma'am.

16 **Q** Did you see anybody move his body other
17 than when it eventually was removed?

18 **A** No.

19 **Q** Okay. How about the police car, did you
20 see anybody move the police cars?

21 **A** Yes.

22 **Q** When did that happen?

23 **A** That happened right after Mike Brown fell
24 and another officer, another Ferguson cop car pulled
25 up.

1 **Q** So what did the officer do after Mike
2 Brown fell?

3 **A** He walked over to him and he did this, and
4 he stepped back. (indicating)

5 **Q** Did you see him talking on his radio or
6 anything?

7 **A** No.

8 **Q** Did he go back to his car?

9 **A** No.

10 **Q** All right. Did you ever see him go back
11 to his car?

12 **A** No.

13 **Q** And then other officers came?

14 **A** Yes, ma'am.

15 **Q** And eventually his vehicle was towed away?

16 **A** Correct.

17 **Q** Did you see anybody move it before it was
18 towed away?

19 **A** No.

20 **Q** So it stayed in that same spot?

21 **A** Uh-huh.

22 **Q** Um, and so now just to clarify, you have,
23 you talked to the police --

24 **A** Correct.

25 **Q** -- first. On the day that this happened;

1 is that right, yes?

2 **A** I don't think it was the day that it
3 happened, I think it was a couple days later.

4 **Q** Okay. Do you remember the officers, when
5 you first talked to the officers, did they come to
6 your house?

7 **A** Yes.

8 **Q** Okay. Was this because you told them that
9 you had seen something or were they doing like
10 knocking on doors?

11 **A** They was knocking on doors.

12 **Q** Okay.

13 **A** To see who all was at home.

14 **Q** Okay. And so if, when they talk to you,
15 did they tape record your statement?

16 **A** Yes, ma'am.

17 **Q** If they said the date on the recording,
18 would you think that that's probably the date that
19 it happened?

20 **A** Correct.

21 **Q** So we're going to trust the recording as
22 to what date that was, okay?

23 **A** Yes, ma'am.

24 **Q** And so you spoke to the officers for just
25 a few minutes briefly on that day; is that right?

1 **A** Correct.

2 **Q** Was there anything that you left out when
3 you spoke to the officers?

4 **A** No, ma'am.

5 **Q** You don't recall?

6 **A** No, ma'am, I don't recall.

7 **Q** And so when you talked to the officers on
8 the day that this happened.

9 **A** Uh-huh.

10 **Q** Well, you know what I would have to, I
11 need a moment. Let me ask you to wrap up my
12 questions and then we'll see if anybody else has
13 questions.

14 **A** Yes, ma'am.

15 **Q** So after this happened, and you spoke to
16 the officers, since then, did you speak to other
17 investigators?

18 **A** I talked to the FBI.

19 **Q** Okay. And did you go to them or did they
20 come to you?

21 **A** They came to me.

22 **Q** To your house?

23 **A** Yes, ma'am.

24 **Q** And did they record your statement?

25 **A** Yes, ma'am.

1 **Q** Okay. How long did you talk to them?

2 **A** It was only, it was a couple of minutes.

3 **Q** Okay. And is what your telling today the
4 best of your recollection?

5 **A** Yes, ma'am.

6 **Q** Did you ever see anything in Michael
7 Brown's hands?

8 **A** No, ma'am.

9 **Q** Did you ever see him holding his side?

10 **A** Yes.

11 **Q** Okay. So then you haven't mentioned that?

12 **A** Yes. He had his hands up and as he, the
13 officer steady taking big steps shooting at him, his
14 hand goes like this and he holds his side as he has
15 been hit. The officer shot again and that's when he
16 collapsed and fell onto the ground. (indicating)

17 **Q** Okay. So when he was going down and
18 collapsing, his arms were not up any more?

19 **A** No, ma'am, they were now, he was holding
20 his side.

21 **Q** Okay. Do you know the other guy that ran
22 away and got in the car and left, do you know who
23 that is?

24 **A** No, ma'am.

25 **Q** Never seen him before?

1 **A** No, ma'am.

2 **Q** Have you and Michael talked about, after
3 it happened I imagine you guys talk about it?

4 **A** Uh-huh.

5 **Q** Oh, my God, can you believe what we just
6 saw?

7 **A** Uh-huh.

8 **Q** Have you talked about it in detail?

9 **A** No, ma'am.

10 **Q** Did he tell you what he saw?

11 **A** No, he didn't. He was affected by it and
12 then I was affected, and that my kids was affected.
13 And beings that my kids was so young, we try not to
14 discuss that in the household around the kids
15 because we want them to get that out of their mind
16 and be kids.

17 MS. ALIZADEH: Sure, okay. Sheila, do you
18 have any questions?

19 MS. WHIRLEY: Yeah.

20 **Q** (By Ms. Whirley) Before you saw him
21 running, did you hear any shots fired?

22 **A** No, ma'am.

23 **Q** Okay. So you first heard shots fired when
24 you saw him running?

25 **A** Yes, ma'am.

1 **Q** And the officer was pursuing him shooting
2 at his back?

3 **A** Yes, ma'am.

4 **Q** All right. And you did not see him turn
5 around; is that right?

6 **A** No.

7 **Q** So the next thing you saw was what?

8 **A** I did not see him turn around and then
9 when I finally open up my front door and go out onto
10 my patio, I saw him with his hands up and he's now
11 facing the officer and he's walking towards the
12 officer with his hands up.

13 **Q** So his hands were up above his head?

14 **A** No, it was more like this. (indicating)

15 **Q** Okay. Kind of parallel with his head?

16 **A** Correct.

17 **Q** Okay. Now, when you first talked to the
18 police back, August 9th is the date that we have.
19 It was a few hours after this had occurred.

20 **A** Okay.

21 **Q** There is no mention about his hands being
22 up. What do you think about that, why you didn't
23 tell the police on that day?

24 **A** I did tell the officers that his hands was
25 up.

1 **Q** Okay. The recording, and we have a copy
2 of the recorded statement there's a transcript,
3 there's nothing in there that talks about his hands
4 being up. You do recall telling him?

5 **A** Uh-huh.

6 **Q** You clearly remember that?

7 **A** Yes, ma'am.

8 **Q** And when he had his hands up, there wasn't
9 anything in his hands you said?

10 **A** No, ma'am.

11 **Q** And how far away was he from the officer
12 when he turned around and he had his hands up, how
13 far away?

14 **A** He was probably about 20, 15 feet away.

15 **Q** 15, 20 feet away?

16 **A** Uh-huh.

17 **Q** And he has his hands up and you said the
18 officer start shooting?

19 **A** The officer was constantly walking, taking
20 large steps towards him with his gun in his hand,
21 steady firing.

22 **Q** Okay. And when did you meet with the FBI?

23 **A** I want to say a couple days to a week
24 afterwards.

25 **Q** Okay. And that was recorded I heard you

1 say earlier?

2 **A** Yes.

3 **Q** And you told them about the hands up?

4 **A** Uh-huh.

5 **Q** So when he shot him, I guess first it was
6 20 feet away you say when it started?

7 **A** Uh-huh.

8 **Q** And then Mike Brown is walking towards him
9 after he shoots him?

10 **A** Uh-huh.

11 **Q** And he is doing what at that point when
12 he's walking towards him?

13 **A** He's walking towards him with his hands up
14 and then I guess as the officer is constantly
15 shooting him, one of the shots must have hit him in
16 the side and then he grabbed his side like this.
17 The officer steady shoot and then he just falls over
18 onto the pavement.

19 **Q** Okay. So you never saw him run towards
20 the officer?

21 **A** No, ma'am.

22 **Q** Or charge at the officer?

23 **A** No, ma'am.

24 **Q** Did he ever look like he was a threat in
25 your opinion to the officer?

1 **A** No, ma'am.

2 **Q** Did it appear to you that the officer
3 needed to keep shooting --

4 **A** No, ma'am.

5 **Q** In order to protect himself?

6 **A** No, ma'am.

7 **Q** You didn't see it that way?

8 **A** No, ma'am.

9 **Q** Okay. Questions.

10 MS. ALIZADEH: I just want to clear up one
11 more thing, When you spoke to the officer on
12 the day this happened.

13 **A** Uh-huh.

14 MS. ALIZADEH: And, again, the grand
15 jurors have the transcript and they will be able to
16 listen to the tapes again. If you did not mention
17 anything about his hands being up on that day, and
18 you don't mention anything about his hands going to
19 his side as if he were shot, do you think that it is
20 possible that now you believe that that's a memory
21 because you've heard people talk about that?

22 **A** No, ma'am.

23 **Q** At the end of your interview on that day,
24 the officer said is there anything you want to add
25 to this statement? And you said that when the guy,

1 once he tipped over, he hit the pavement, you saw
2 his body like flinching like he was trying to get
3 up. And after that he stopped moving and the
4 officer stepped back away from the body and that was
5 that?

6 **A** Yes.

7 **Q** That was it?

8 **A** Uh-huh.

9 **Q** So today you said the officer stepped
10 toward the body and looked over the body?

11 **A** Right, as he shot the last time and Mike
12 Brown fell to the ground, he did this and then he
13 stepped away. (indicating)

14 **Q** Okay.

15 MS. ALIZADEH: Anybody have questions?

16 Tell me again
17 when he was, when Michael Brown was shot the second
18 time, he had his hands up?

19 **A** Correct.

20 You assume that he might
21 have been wounded on the side?

22 **A** Uh-huh.

23 Did both hands go down to
24 the wound or just one?

25 **A** Yes, both.

1 So what I'm doing with
2 both hands here on my right side, is that
3 representative? (indicating)

4 **A** Yes, sir.

5 Thank you.

6 **A** You're welcome.

7 THE COURT: Anybody else?

8 Just to be
9 clear. The last shots that the police officer took.

10 **A** Uh-huh.

11 Michael Brown's hands
12 were not in here, they were down here. (indicating)

13 **A** Correct.

14 I'm looking at the
15 transcript that we have here. I just want to read a
16 little part of it. While standing there looking, I
17 assume, I figure that they had tased him, he was
18 going down, but then when I talked to my fiancée he
19 said it was actually gunshots, and like he shot him
20 two more times. That's when the guy tipped over.

21 **A** Uh-huh.

22 The officer walked up,
23 shot him three more times and the dude just tipped
24 over head first and his head smashed into the
25 pavement.

1 Are you telling us that, it sounds like
2 you are saying in this transcript that the guy
3 tipped over and after he shot him more when he was
4 tipped over.

5 **A** No.

6 No, that is not.

7 **A** No, ma'am.

8 Thank you.

9 **A** You're welcome.

10 MS. WHIRLEY: Just to make sure I'm clear
11 now.

12 So he shot, his hands were up, he shot, he
13 does this and he's tipping over and then he's being
14 shot again?

15 **A** No, his hands was up, he was shot, he did
16 this, and the officer shot again and then he just
17 fell, and his face hit the ground. (indicating)

18 MS. WHIRLEY: Do you know how many times
19 the officer shot total?

20 **A** No, ma'am.

21 MS. WHIRLEY: Do you know how many times
22 he shot on the last occasion before he tipped over?

23 **A** Maybe about three times.

24 MS. WHIRLEY: Okay.

25 You said

1 you saw Dorian duck down by the white Monte Carlo?

2 **A** Uh-huh.

3 MS. ALIZADEH: Just to clarify, she didn't
4 know his name?

5 **A** I don't know his name.

6 I'm sorry.

7 MS. ALIZADEH: I'm not saying she can't
8 know his name. The guy, we know his name is Dorian.

9 Oh, okay. And my question
10 is, when you saw him duck down, were you coming out
11 of your patio at the time when you did not see him
12 any more?

13 **A** No, I was standing on my patio, that's how
14 I know that he got inside the white Monte Carlo and
15 the Monte Carlo went up the street.

16 So you actually saw him
17 get into the car?

18 **A** I saw the driver door open and he did
19 this, got in it, the door closed and the car went up
20 the street.

21 You were outside on your
22 patio at the time?

23 **A** I was outside on my patio.

24 Okay.

25 MS. WHIRLEY: Now, we see that you wear

1 glasses?

2 **A** Yes, ma'am.

3 MS. WHIRLEY: Do you wear them for
4 distance or for near sight?

5 **A** Near sight.

6 MS. WHIRLEY: Is your vision corrected
7 with the glasses.

8 **A** Yes, ma'am.

9 MS. WHIRLEY: Were you wearing glasses
10 when you were looking at all this?

11 **A** Yes, ma'am.

12 MS. WHIRLEY: Was there anything to impair
13 your vision or impair you from seeing what you told
14 us here today?

15 **A** No, my kids were out, by this, when I open
16 up the door to go out onto the patio, my boys came
17 outside. So I'm kind of like trying to pull them
18 back away from the patio and pull them back into the
19 house just so they won't be seeing and hearing all
20 of this stuff that was going on.

21 MS. WHIRLEY: So you were distracted a
22 little bit with your boys?

23 **A** Correct.

24 MS. WHIRLEY: During what period of time
25 was this when you were working with your boys, what

1 was going on?

2 **A** This was as the officer is shooting and as
3 his hands, Mike Brown hands is up and the officer is
4 shooting, I'm trying to pull my boys back because
5 I've never been around anything with shooting, I
6 didn't know if the bullets would --

7 MS. WHIRLEY: We certainly understand
8 that. I just wanted to know did you miss anything
9 when you were pulling the boys back?

10 **A** That could possibly be true. Because I'm
11 trying to see what's going on in the streets, but at
12 the same time I'm trying to pull my kids away from
13 the patio and back in the house to keep them from
14 witnessing and seeing and hearing what is going on
15 as well.

16 MS. WHIRLEY: Is everything you told us
17 what you witnessed --

18 **A** Yes, ma'am.

19 MS. WHIRLEY: -- and not something you
20 heard. Is everything --

21 **A** Everything that I said to today is what I
22 witnessed, yes, ma'am.

23 One more
24 question. You didn't feel like he was moving in an
25 aggressive manner. Could you see Michael Brown's

1 face?

2 **A** No, I couldn't see his face.

3 You couldn't see his
4 face?

5 **A** No, ma'am.

6 Thank you.

7 **A** You're welcome.

8 MS. ALIZADEH: Anything?

9 (End of the testimony of)

10

11 of lawful age, having been first duly sworn to

12 testify the truth, the whole truth, and

13 nothing but the truth in the case aforesaid,

14 deposes and says in reply to oral

15 interrogatories, propounded as follows, to-wit:

16 EXAMINATION

17 BY MS. WHIRLEY:

18 **Q** Would you please introduce yourself to the
19 grand jurors and spell your name, please?

20 **A** My name is

21

22 **Q** All right. now, do you live in
23 the Canfield Green Apartments?

24 **A** No.

25 **Q** Okay. Do you know anybody that lives

1 there?

2 **A** I know two people that live there.

3 Q Who is that?

4 **A** Um, one is that stays
5 like on the back end of it and one of
6 stay there.

7 **Q** You may notice we have a map here, does
8 that map kind of look like Canfield?

9 **A** Pretty much.

10 Q You can recognize places on this map and
11 here is a pen that you can use. You point that
12 button and the red light appears. So I'll ask you a
13 few questions about that in just a moment.

14 So you live, not in the Canfield
15 Green Apartments?

16 **A** No, ma'am.

17 Q Now you know why we are here today, we are
18 here about the shooting of Michael Brown, right?

19 **A** Uh-huh.

20 Q On August the 9th you were obviously at
21 the Canfield Green Apartments; is that right?

22 **A** Yeah.

23 Q What were you doing there?

24 **A** I was bringing one of

25

1 was bringing it back that day.

2 **Q** So your was with you. Who was
3 with you, were you in a car?

4 **A** I was in a van, it was me, my husband, two
5 of my daughters and my granddaughter.

6 **Q** Okay. So there is five people in the van?

7 **A** Yes.

8 **Q** And had yours husband

9 **A**

10 **Q** What color was your van?

11 **A** It's

12 **Q** So what route did you take going to
13 Canfield. This is West Florissant, right?

14 **A** Uh-huh.

15 **Q** So what was your route, show us with the
16 pen?

17 **A** I came through here and I stopped here.

18 **Q** When you stopped here, is this when you
19 saw whatever you saw?

20 **A** Pretty much. It was probably a little bit
21 further up.

22 **Q** Which way?

23 **A** It was probably about around here.

24 (indicating)

25 **Q** Okay. When you are at this location, what

1 did you see?

2 **A** Well, when I was coming around here, I
3 heard like about two or three gunshots.

4 **Q** Were you driving?

5 **A** Yes.

6 **Q** Okay.

7 **A** So at first I thought it was firecrackers,
8 but when we got around, I seen a police car, I can't
9 be sure, it was like about somewhere in between
10 here, I think the police car may have been.

11 **Q** What direction was the place car facing?

12 **A** It was facing towards me.

13 **Q** West Florissant?

14 **A** Yes, it was facing toward West Florissant.

15 **Q** Was it driving?

16 **A** It wasn't driving, it was sitting still.

17 **Q** And what position was the car in?

18 **A** It was like pulled off to the side a
19 little bit, it wasn't directly coming down the
20 street, it was like pulled off into the side by the
21 sidewalk.

22 **Q** Like was it blocking the road?

23 **A** No, it wasn't blocking the road.

24 **Q** So you could drive straight by without
25 having to go around it?

1 **A** Yes.

2 **Q** Okay. So is anybody in the car in the
3 police car?

4 **A** Well, at the time I wasn't really looking
5 in the car. I was looking at the person standing by
6 the car.

7 **Q** Who was the person standing by the car?

8 **A** I don't know who the person, I didn't know
9 who the person was, I just knew it was an
10 African-American male standing at the car.

11 **Q** What did you see while the male was
12 standing at the car?

13 **A** He looked like pretty much had his hands
14 directly pretty much in front of him standing at the
15 car looking like he was just talking. I couldn't
16 tell what was going on, he was standing at the car.

17 **Q** He was standing at the police car. Where
18 at the police car?

19 **A** He was standing at the driver's door.

20 **Q** At the driver's door. Was he inside, like
21 leaning inside?

22 **A** He was just like standing bent down
23 towards the door.

24 **Q** Okay. Did it appear the window was down?

25 **A** Yes.

1 **Q** Did it appear someone was in the car, you
2 said you couldn't tell?

3 **A** I kind of figured it was someone in the
4 car because he was standing there with the window
5 open looking down into the car.

6 **Q** Into the police car. Did that seem
7 strange to you?

8 **A** No.

9 **Q** Why not?

10 **A** Because I figure that he either was
11 talking to the officer or the officer was talking to
12 him.

13 **Q** Okay. So you didn't see anything that
14 looked aggressive like fighting or tussling or
15 anything like that?

16 **A** Well because of the gunshots I thought
17 that he was either shooting at the cop or something
18 was going on or something might have been going on
19 around in the area. So I just, when I first seen
20 the police car and after hearing the shots I was
21 like kind of leery about going any further.

22 **Q** So you say you saw the shots?

23 **A** No, I didn't see them, I heard them.

24 **Q** I'm sorry, you heard the shots, so thank
25 you for correcting me. And then you saw the black

1 male at the driver's side door of the police car?

2 **A** Yes.

3 **Q** But you couldn't see his hands?

4 **A** No.

5 **Q** But you didn't see any movement?

6 **A** No, he was just pretty much just standing
7 there and then he kind of, um, started backing away
8 from it and stuff at first. I thought he slung
9 something away, but I couldn't be sure if that's
10 what I saw right now.

11 **Q** Okay.

12 **A** Because I couldn't remember that.

13 **Q** When you heard the shot, was he still
14 standing at the police car in the driver's door?

15 **A** I'm not exactly sure because like I said,
16 we heard the shots. I heard the shots when we were
17 like about right, when we was coming around the bend
18 around that corner. I didn't hear anything when I
19 actually got a visual of what was going, you know,
20 people standing there.

21 **Q** And how many shots did you hear when you
22 were coming in this way?

23 **A** It was at least about two or three.

24 **Q** Two or three. Okay. So you heard the
25 shots and then when you got up and a little closer

1 and you saw the police car, you say you saw this
2 black male at the driver's side window?

3 **A** Yes.

4 **Q** So that was before you heard the, well,
5 you heard the shots and then after you heard the
6 shots, you saw the male at the window?

7 **A** Yes.

8 **Q** And then what did you see?

9 **A** Um, after that, like I say, he backed away
10 from the car and he, um, he was like standing there
11 for a minute and then he took off running.

12 **Q** Okay.

13 **A** He was running away from West Florissant.

14 **Q** Which way was he running, show me?

15 **A** He was, um, I don't know exactly where it
16 was at. He started running back this way.
17 (indicating)

18 **Q** Was he running in the street?

19 **A** Yes.

20 **Q** Okay. And what did, what else did you see
21 after you saw him running?

22 **A** After he took off running, I was watching
23 the police officer get out of the car. He got out
24 of the car and closed the door and then he started
25 running after that guy.

1 **Q** Did you see anything in the police
2 officer's hand?

3 **A** Yes, he had his gun drawn and it was down
4 to his side.

5 **Q** When you said drawn and down to his side,
6 can you explain that for me?

7 **A** It wasn't in the holster.

8 **Q** Okay.

9 **A** It was just in his --

10 **Q** You mind demonstrating how he had it
11 drawn?

12 **A** He was trying to get out of the car, he
13 looked like he was having a little bit of difficulty
14 getting out of the car at first and then he started
15 running. I can't remember if it was the left or
16 right, but I know he had it down to the side and his
17 other hand was up like this running. So he was
18 running towards the guy with the gun in his hand,
19 not in the holster.

20 **Q** Okay. Can you describe the guy that he
21 was running after?

22 **A** Um, he was kind of heavy set black guy.

23 **Q** Okay.

24 **A** He had on shorts, looked like he had on
25 socks with flip flops and a big shirt.

1 **Q** Okay. And you've heard, I'm sure the news
2 and this is Mike Brown that you're talking about.

3 **A** No, I don't watch the news.

4 **Q** Oh, that's right you said you don't want
5 television; is that right?

6 **A** I don't want television. I didn't know
7 his name until like I seen it on the internet.

8 **Q** Okay. But that's the same guy you
9 thinking?

10 **A** Uh-huh.

11 **Q** Okay. Where were you when you seen them
12 run?

13 **A** Same spot. I was in the car right around
14 here where the light pole is. I was like pretty
15 much, because I know there was a tree in front of us
16 and there was a girl standing next to us because I
17 remember when I got ready to leave, I turned into
18 the driveway.

19 **Q** Uh-huh. At the time you saw them, were
20 you facing the police car?

21 **A** Yes.

22 **Q** Because you were on your way inside?

23 **A** Yes.

24 **Q** To do something

25 **A** Uh-huh.

1 **Q** Okay. So when you see him running, is he
2 firing a weapon at that time, you say his gun is
3 out, the police officer, is he firing at the
4 individual running?

5 **A** No, he couldn't, if he was running with it
6 down by his side down.

7 **Q** Well, at any time did he change that
8 position and start firing?

9 **A** He didn't start, I didn't see him fire, I
10 didn't even hear the gunshots until later.

11 **Q** And what was happening when you heard the
12 gunshots?

13 **A** When I heard the gunshots and saw him
14 firing his weapon, he was, Michael had stopped, he
15 had stopped. He threw his hands up and then he put
16 his hands down, Michael turned around and then he
17 started running, he kind of shuffled back and forth
18 a little bit like he was confused or something. And
19 then he started running towards my car, he started
20 running back towards us.

21 The officer had ran, he was running
22 after him. He had stopped, I heard him say get down
23 about two or three times and he kind of veered off
24 to the side a little bit, but he still was aiming
25 his gun at the guy, at Michael. And he after, he

1 held his gun out at him, he was aiming the gun at
2 him, he was telling him to get down. And like I
3 said, Michael was shuffling back and forth like he
4 was confused and then he started running and that's
5 when I started hearing him shoot.

6 Q While he was running toward the officer?

7 A Kind of towards the officer. I couldn't
8 be sure if he was running exactly towards the
9 officer or just trying to run past him.

10 Q But he was running in the officer's
11 direction?

12 A He was running pretty much our direction.
13 The officer was pretty much between us and Michael.

14 Q And the officer was saying stop or get
15 down?

16 A Get down.

17 Q And could you hear Michael say anything?

18 A I didn't hear him say anything. He was
19 trying to run. He was running and he had his hands
20 down in like a running stance.

21 Q Look like he was charging at the officer?

22 A I couldn't be sure if he was trying to
23 charge the officer or run past him.

24 Q Okay. It was unclear to you. Did he look
25 like he was threatening the officer?

1 **A** Well, like I say, I couldn't be sure if he
2 was trying to threaten him, like I said.

3 **Q** I mean, a person, a reasonable person just
4 looking at it, would you think in your mind?

5 **A** I thought he was trying to charge him at
6 first because the only thing I kept saying was is he
7 crazy? Why don't he just stop instead of running
8 because if somebody is pulling a gun on you, first
9 thing I would think is to drop down on the ground
10 and not try to look like I'm going to attack 'em,
11 but that was my opinion.

12 **Q** So it looked to you like he could be
13 attacking him?

14 **A** He looked like, he looked like he could
15 have been attacking him or the officer could have
16 felt like he was attacking him.

17 **Q** I want you to tell me what your impression
18 was as you looked at it?

19 **A** I was looking at it, I could not be sure.
20 Like I said the officer, he was like off to the side
21 a little bit and Michael was probably, he was like
22 standing here shuffling back and forth, and he took,
23 he just started running. I don't know if he was
24 trying to come towards the officer or if he was just
25 trying to run past him.

1 **Q** Okay.

2 **A** I couldn't tell you.

3 **Q** All right. And one last thing and then
4 I'll turn it over. When you talked about him having
5 his hands up, at what point did he have his hands
6 up?

7 **A** He put his hands up when he stopped. He
8 kind of like threw his hands up, like I can't do
9 this no more. He just threw his hands up and he
10 turned around and he kind of put his hands down and
11 he was like shuffling. He didn't have his arms up
12 while he was shuffling, he was just shuffling back
13 and forth.

14 **Q** When you say shuffling, can you show me?
15 I'm sorry.

16 **A** He was like, he was like. Just doing like
17 this, shuffling back and forth like he didn't know
18 what else to do. He was just shuffling back and
19 forth. (indicating)

20 **Q** Where were his hands?

21 **A** He was like to the side, just doing, you
22 know, hand gestures. They wasn't up like this or
23 anything. They was just down like, you know.

24 **Q** Did he look like he was hit by any of the
25 bullets?

1 **A** I didn't see, I couldn't tell that.

2 **Q** You couldn't see any blood or anything?

3 **A** I didn't hear any of the gunshots until he
4 started running.

5 **Q** Okay. When he started running toward the
6 officer?

7 **A** Uh-huh.

8 **Q** So he was doing the shuffling before he
9 came toward the officer?

10 **A** Yes, right before he started returning, he
11 started shuffling back and forth.

12 **Q** Okay. And that's when you heard the
13 shots?

14 **A** I heard the gunshots. He told him, before
15 he shot him he told him to get down again, and
16 Michael had started running. And that's when I
17 started hearing the gunshots.

18 **Q** Okay. So how many shots do you think you
19 heard total?

20 **A** I know at least about three or four. I
21 remember hearing three or four shots.

22 **Q** Two initially, and you were driving in --

23 **A** Two or three.

24 **Q** Two or three, Michael is at the car with
25 the officer?

1 **A** Yeah.

2 **Q** And then Michael runs?

3 **A** Uh-huh.

4 **Q** And when he turns around and the officer
5 tells him to get down, that's when you hear more
6 shots, the three more shots?

7 **A** When he started running.

8 **Q** When he started running towards the
9 officer?

10 **A** Yes.

11 **Q** Did you hear any more shots?

12 **A** Um, I couldn't tell you how many shots I
13 heard, but I remember seeing a blood splatter coming
14 around by his face.

15 **Q** At what point did you see that?

16 **A** That was like right before he started
17 stumbling because he kept coming and the officer
18 kept shooting and I remember the blood splatter. I
19 seen the spray of blood come out of somewhere around
20 his face and then he started to stumble.

21 **Q** Was the officer still shooting then?

22 **A** Um, I couldn't tell you if he kept
23 shooting, but I know that when he hit the ground, he
24 wasn't still shooting.

25 **Q** Okay.

1 **A** I didn't see him shoot any more. I know
2 he kind of put his gun down. I could see him
3 radioing. I seen him grab like the radio on his
4 shoulder and then he, um, that's pretty much when I
5 decided it was time for me to turn around.

6 **Q** Okay. So you left at that point?

7 **A** I was trying to, but it was like two
8 police SUVs started coming past me after that. They
9 was coming down the street. I was looking to make
10 sure there wasn't anybody coming around me. So I
11 was trying, because I had my family in the car, I
12 didn't want to get hit by anything, so I was
13 watching. I looked in the side mirror to see if
14 anybody was coming and I seen the two police SUVs
15 coming, and I stopped. And after they passed by, I
16 watched a little longer and I went around.

17 I went up this driveway right here
18 and I went around this way because I didn't know,
19 this is the first time I had ever been over there.
20 So I didn't know that this came back out this way.
21 (indicating)

22 **Q** Okay.

23 **A** So at that point we didn't know what else
24 was going to happen. We stopped at
25 and came out and asked what was going on.
